CHICAGO, ROCK ISLAND & PACIFIC RAILWA

By reason of its central position and close relation to all principal lines East and West, at initial and terminal points, constitutes the most important mid-continental link in that system of through transportation which invites and facilitates travel and traffic between cities of the Atlantic and Pacific Coasts. It is also the favorite and best route to and from points East, Northeast and Southerst, and corresponding points West, Northwest and Southwest. The Great Rock Island Route Guarantees its patrons that sense of personal security afforded by a solid, thoroughly ballasted roadbed, smooth tracks of continuous steel rail, substantially built dulverts and bridges, rolling stock as near perfection as human-skill can make it, the safety appliances of patent buffers, platforms and air-brakes, and that exacting discipling which governs the present and that exacting discipline which governs the prac-tical operation of all its trains. Other specialties of this route are Transfers at all connecting points in Union Depots, and the unsurpassed comforts and luxuries of its Passenger Equipment.

The Fast Express Trains between Chicago and Peoria, Council Bluffs, Kansas City, Leavenworth and Atchison are composed of well ventilated, finely uphoistered Day Coaches, Hagnificent Pullman Palaco Bleepers of the latest design, and sumptuous Dining Cars, in which elaborately cocked meals are leisurely eaten. Between Chicago and Kansas City and Atchison are also run the Celebrated Reclining Chair Cars. The Famous Albert Lea Route Is the direct and favorite line between Chicago and Minneapolis and St. Paul, where connections are made in Union Depots for all points in the Territories and British Provinces. Over this route Fast Express Trains are run to the watering places, summer resorts, picturesque localities, and hunting ami fishing grounds of howa and Minnesota. It is also the most desirable route to the rich wheat fields and pastoral lands of interior Dakota.

Still another Dillect Line, via Seneca and Kankakee, has been opened between Cincinnati, Indianapolis and Lafayette, and Council Bluffs, Kansas City, Minneapolis and St. Paul and intermediate points.

There is no source of disease so common and difficult to avoid. All intermittent and remittent fevers, and what is familiarly called Fever and Ague, are caused by it. What suffering the vie tims of these complaints undergo cannot be told. Malarca not only produces certain diseases, but it increases and aggravates all others. We call your attention to DESHLER'S FRVER AND AGE PHAS as a specific and cure for all forms of malarial troubles. This remedy has a twent of thirty years of great and stema success It breaks up the feverish action and expels the poron from the system.
