SUMMER IN THE SOUDAN. (Continued.)

The true value, however, of the gale—which, from the tone of this irticle, it may rightly be inferred is raging at this moment of writing is to be found on the morning following, when the miseries of the past two days are partially com pensated by a short period of comparative coolness, after which the heat, like a giant refreshed, comes on more rapidly than ever (the emporary lull seeming to be only

reculer pour mieux santer And now that several thousand of our countrymen are committed to spending a summer on the Nil -a pleasant-sounding term. which, however, there is more than meets the eve—let us consider what can be done to mitigate its séverity.

Those whose term of similar ounishment commenced at earlier date than that of most of their fellow-sufferers-viz., time last year—may be dredited with a certain amount of persona experience on the subject, and probably found in the Soudan, as inleed in all tropical climates, that, to be considered. As regards the is probable that a moderate lissue

of all antidotes against the foe shelter, dothes, and food for body and mind, are the most important first. Sir Samuel Baker is of opin- of grog every night to the hardion that the native contrivances of worked crews of boats would have mud-walls, mats, and palm-branches are the best, and he emphatically pronounces against any attempt to live in boats or upon the water. It may be presumptuous to go against such a first-class authority, but there can be no doubt that the friendly refuge of a dalabidich during a sand-storm is not to be despised; and probably, on some parts of the line of communication. rafts thoroughly well sheltered by grass-mats might be used advan tageously-at all events for the sick, and especially for evel cases. of which a large number may be expected. In the neighbourhood of a cataract, however still the day. on shore may be, there is always ghost of a breeze on the water; and system of mats all round the raft, while not of a sufficient thick-

ness to keep out the wind, would obviate the glare, which is a most painful accompaniment of sun on the water. The principal difficulty of raft-making would be a want of proper wood for the purposepalm, which is the only available FOR SALE AT BROWN'S DRUG STO large timber, being spongy, and possessing no buoyancy whatever. LIVER, KIDNEY OR STOMACH TROUBLE On shore nothing probably is bet. northern exposure, from which mad 26 ts. Nor \$100. Address DR. SWAYNE point the wind blows six days out of seven—being composed of mats.

All Throat, Breast and Lung affections bursel by the old-established "SWAYNE'S WILD CHERRY." which, with plenty of palm-leaves, The first dose gives rebet, and a cure speedly to should form a double roof. These mats, of course, while affording no protection against, but rat er serving to admit the scorching wind, will to a certain extent mitigate and break its intensity; and though an actually lower temperature can be obtained by mud-walls and clusion of air, it is a question if private parts are sometimes affected. It allowed: this is more wholesome or less unbearable than the fresher and natural though more ardent heat. In most of the stations where our troops will be, there is a good deal of the stations where is a good deal of the stations where our troops will be, there is a good deal of the stations where is a good deal of the stations where our troops will be, there is a good deal of the stations where is a good deal of the stations where the stations w natural shade from trees and rocks.
