I have no idea I should be living had you not taken my case in hand. I weigh now 170 pounds, over 30 pounds more than then. You owe it to my son in Boston, who has known many of your patients before and after healing, that I applied to you. "Go," said he, "to Dr. Sherman; he is doing wonders." I had failed of hely from a dozen others and doubted, but he would not let me rest till I went. I bless the day I did so

By reason of its central position and close relation to all principal lines East and West, at initial and terminal points, constitutes the most important mid-continental link in that system of through transportation which invites and facilitates travel and traffic between cities of the Atlantic and Pacific Coasts. It is also the favorite and best route to and from points Hast. Northeast and Southeast, and corresponding points West. Northwest and Southwest. The Creat Rock Island Route Guarantees its patrons that sense of personal security afforded by a bolid, thoroughly ballasted roadperfection as human skill can make it, the safety appliances of patent buffers, platforms and air-brakes, and that exacting discipline which governs the practical operation of all its trains. Other specialties of this route are Transfers at all connecting points in

Union Depots, and the unsurpassed comforts and luxuries of its Passenger Equipment. The Fast Express Trains between Chicago and Peoria, Council Bluds, Kansas City, Leavenworth and Atchison are composed of well ventilated, finely upholstered Day Coaches, Magnificent Pullman Palace Sleepers of the latest design, and sumptuous Dining Cars, in which elaborately cooked meals are leisurely exten. Between Chicago and Kansas City and Atchison are also run the Celebrated, Reclining Chair Cars. The Famous Albert Lea Route Is the direct and favorite line between Chicago and Minneapolis and St. Paul, where connections are made in Union Depots for fall points in the Territories and British Provinces. Over this route Fast Express Trains are run to the watering places, summer resorts, picturesque idealities, and hunting and fishing grounds of lowa and Minnesota. It is also the most desirable route to the rich wheat fields and pastoral lands of interior Dakota.

Why people should go through all this when they

can get Teshier's Anti-Periodic Fills is something hard to understand. For it is certain that these pills not only expel malaria from the system, but leave no reaction- no afterclaps. They are the thing, and, on testing them, you will say so too. We also advise our readers to send to Fraser & Lee, 20 College Place, New York, for their clear headed little book, "Sunshine on the soil." In

a dozen words it tells all that is known about malaria Harper's Magazine. A Great Cause of Human Misery IS THE LOSS OF
