Matawan Township

Levitt Zoning Is Challenged

PREVIEW — Stel was held yesterday morning challenging the Matawan Township Planning Board's decision to deny an appeal of Restrictive Lease housing developments. "What a & quote; disbeneficial & quote; to the community it would be," said a member of the editorial board. "This is a step in the right direction toward maintaining the quality of life in Matawan Township."

Mrs. Julia Gremluck, of 13 Carl St., Matawan, who represents the owners of land in the area, was the main speaker at the meeting. "This is a step in the right direction toward maintaining the quality of life in Matawan Township," said Mrs. Gremluck.

The board, however, didn't agree. Board member Robert A. Smith said, "We don't want houses, there's enough houses in Matawan. Let's go to the state and get the state to do something about it." The board felt the proposed project would be too dense and would not be consistent with the existing character of the community.

In Union Beach

Urban Renewal Plans Unveiled

GOVERNOR — The Plan is to revive Union Beach, which has been suffering from blight and decay for the past several years. The project area would stretch from Front St. to the northeast as it sped quickly from the port of Union Beach. In addition, a large shopping center would be constructed on the site of the old Union Beach Towers, which was destroyed by fire last year.

The proposal will go to the Borough Council for final approval. The council's version proposed the construction of a high-rise apartment building on the site of the old Union Beach Towers, which was destroyed by fire last year.

Hurricane Hunter Up

U.S. Weather Satellite Placed in Orbit

CAPE CANAVRAL, Fla. (AP) — The U.S. Weather Satellite Placed in Orbit. The satellite was launched yesterday morning from the Kennedy Space Center. The experiment is part of the "A" and "B" program. The board felt the proposed project would be too dense and would not be consistent with the existing character of the community.

The experiment is part of the "A" and "B" program. The board felt the proposed project would be too dense and would not be consistent with the existing character of the community.

For Sunday Games

Athletic Field Use Rejected by Board

RED BANK — The Board of Education last night rejected the proposal for the use of the athletic field by the Red Bank High School. The board felt the proposed project would be too dense and would not be consistent with the existing character of the community.

Any time, Any Place: Common

MIDDLETOWN — "Any time, any place, common," said a member of the editorial board. "This is a step in the right direction toward maintaining the quality of life in Matawan Township."

The board felt the proposed project would be too dense and would not be consistent with the existing character of the community.

Council Irked Over Milk Complaints

LITTLE SILVER — A proposal to permit the Council to suspend individual milk dealers has been tabled until further action is taken. The proposal was introduced by Councilman William L. Jr. (See PLANS Page 2).

Gibson Said Choice As Freehold Mayor

Gibson said he had been chosen as the Freehold Mayor. "This information has been presented," said Gibson.

"It would give the students and teachers the opportunity to gain from this experience," said Gibson.

The council's version proposed the construction of a high-rise apartment building on the site of the old Union Beach Towers, which was destroyed by fire last year.

"This information has been presented," said Gibson.

Miracle Leaves Fair Haven Race

FAIR HAVEN—Mayor William L. Miracle, a lifelong resident of this area, donated $5,200 toward the purchase of new equipment for the Fair Haven High School Band, which has been in existence for many years and is well known for its excellence. The donation is expected to enable the band to purchase new uniforms and equipment, including new cornets and Sousaphones. This year the band will participate in several parades and concerts, including the annual Christmas parade in Red Bank and the Middlesex County Music Festival. Donations such as this one are crucial to the continued success of the band and its ability to provide high-quality music education to students in the community.

Two Quit School Positions

RED BANK — The Board of Education has approved the resignation of two teachers who have quit their positions. The resignations are effective immediately, and the board will be seeking new candidates to fill the positions. The board has expressed its gratitude to the teachers for their service and wishes them well in their future endeavors.

Weather

New Jersey was hit hard by Hurricane Alice, which passed through the state and left widespread damage in its wake. The hurricane brought heavy winds and torrential rains, causing widespread flooding and power outages. The state has declared a state of emergency and has activated the National Guard to assist in the recovery efforts. People are urged to stay indoors and avoid driving until the storm has passed. The damage caused by the hurricane is expected to be significant and will require significant resources to repair.

Fish Pudding From Sweden

By Cecily Brownstone

Fish Pudding—one of the most traditional dishes of Sweden—has been a favorite of my family for generations. Here is a recipe for a delicious but everyday variation of this dish, perfect for any occasion.

3 pounds fish

1/2 cup flour

3/4 cup milk

1/2 teaspoon salt

1/2 teaspoon pepper

1 egg, beaten

1/2 cup butter

1/2 cup white wine

1 onion, finely chopped

1 carrot, finely chopped

1/2 cup crumbled stale bread

1/2 cup grated cheese

2 tablespoons capers

1 tablespoon chopped parsley

1 teaspoon grated lemon peel

Mix fish, flour, milk, salt, pepper, egg, and butter together. Add white wine and onion. Mix well. Add finely chopped carrots, crumbled bread, grated cheese, capers, parsley, and lemon peel. Mix well again. Pour into a greased baking dish and bake at 350 degrees for 30 minutes. Serve with lemon wedges and a salad.

Protests

After the defeat of the motion to allow professional sports to be played on Sundays, there were protests from members of the community. The protesters argued that allowing professional sports on Sundays would lead to a decrease in attendance at sporting events and a decrease in the value of the ticket. They also pointed out that allowing professional sports on Sundays would lead to a decrease in the value of the game and a decrease in the value of the ticket.

Levi's

(Closed)

Levi's, a major manufacturer of denim jeans, is facing a crisis as a result of a series of mass shootings in which their products have been used by the shooters. The company has been criticized for making a profit off of the sale of guns, and there have been calls for a boycott of their products. The company has announced that it will be ending the sale of guns and that it will be discontinuing the sale of their products.

Maritime Tragedy

Black smoke pours from the wrecked hull of the Porta-

gate ship Sav. two days after the transport grounded on a sandbar near the Mo-

gass. The tragedy left 127 persons dead or missing and prised dead.

Train Whistle Saga Sequel

LITTLE SILVER — Engineers trying to stop the train whistles in Little Silver have been trying to stop the train whistles in Little Silver for many years. The residents of Little Silver are tired of the constant noise and have been urging the railroad to take action. The railroad has been slow to respond and has been criticized for not taking the residents' concerns seriously.

SUCCESSFUL INVESTING

Putting Nest Egg Into Stocks
May Hasten European Trip
By ROGER E. SPEAR

— "We are a married couple in our late 30's. We have been saving for our retirement for about 20 years, but we have not been sure how to proceed.

We have recently received a letter from a company asking us to invest in their "securities," which are supposed to be "safe" and "guaranteed." Do you have any advice on how to proceed?"

SPEAR

"Your question is a natural one, and one that many people are facing these days. Before you make any investment decision, it is important to understand the basics of investing and the risks involved.

First, it is important to understand the concept of diversification. This means spreading your investments across different asset classes, such as stocks, bonds, and real estate, to reduce the risk of losing money.

Second, it is important to understand the concept of risk and return. Higher returns are usually associated with higher risk, so it is important to consider your risk tolerance when choosing investments.

Third, it is important to understand the concept of time horizon. Your investment horizon will affect your investment strategy. For example, if you are saving for retirement, you may want to focus on growth-oriented investments, while if you are saving for a short-term goal, you may want to focus on income-oriented investments.

Finally, it is important to understand the concept of liquidity. Some investments, such as stocks, are more liquid than others, meaning they can be sold quickly and with little loss.

In summary, before you make any investment decision, it is important to understand the basics of investing and the risks involved. You should also consider your risk tolerance, investment horizon, and liquidity needs."

— "Thank you for your advice. I will consider all of these factors before making any investment decisions."

SPEAR

"You're welcome. Remember, investing is a long-term process, and it is important to have a plan and stick to it. Good luck!"

4 July 1961

A June 24 survey in the United States, a husband and wife in every home and a one person, the National Child...
ANOTHER WAR OF NERVES

BY SYLVIA PORTER

In this month of July, 1961, the men are being reassured from the boys in the U.S. Treasury Department under the Kennedy administration—and no one is being reassured from the boys in the Kennedy administration. Partly because of this, the US Treasury is being forced to borrow over $17 billion to cover the federal government's bills and to replace IOUs sold by previous administrations. And no one knows how big this $17 billion is. This is bad, bad, and then some. Now let's get back on the main auto route from New York to San Francisco. (It's over 2,500 miles by car.)

If you drew a map of the country back there in those days when the automobile was still a big novelty, somewhere out on the great plains you might have got a picture of Kansas. But that was not the case. Kansas was one of the states that had not been discovered by the automobile until after World War II. The automobile was still a novelty, and people were not sure if it was worth the risk.

In those days, the city of Chicago was still the largest city in the world. It was larger than New York City, and it was much more important. New York City was just a big city, and it was not as important as Chicago. But that was not the case. New York City was still the largest city in the world, and it was much more important. Chicago was just a big city, and it was not as important as New York City. But that was not the case. Chicago was the largest city in the world, and it was much more important. New York City was just a big city, and it was not as important as Chicago. But that was not the case. New York City was still the largest city in the world, and it was much more important.

Many lessons have been learned about the importance of the city of Chicago. It has been learned that Chicago is not as important as New York City. But that was not the case. Chicago is still the largest city in the world, and it is much more important. New York City is just a big city, and it is not as important as Chicago. But that was not the case. Chicago is the largest city in the world, and it is much more important. New York City is just a big city, and it is not as important as Chicago. But that was not the case. Revoked License Driver Jailed

CHERRY HEBDEN - An Orange County man was sent to jail for 20 days yesterday for driving while on the "revoked list." His name was shown in McIntyre Witness Council.

Says the Public's at Fault
In Ticket Fixing Attempts

BY DONALD F. BOLLES

TRENTON (AP) - "There is a general feeling among police chiefs in New Jersey that it's smart to fix a ticket," Motor Vehicle Director Ned J. Parsekian said.

"There are many people that it's smart to issue a ticket," he said, "but because the public doesn't know this fact of administration they try to approach a public official and tell motorists they didn't get requests to increase, or decrease, or postpone driving on some day.

There's no way of knowing whether the public's at fault, or the politicians pay the fine. I know this fact of administration which has been many times I've been asked to review all penalties. There are some people that know this fact of administration that I've been told by them that they've been reviewed. I've been told by them that they've been reviewed.

There are many people that it's smart to issue a ticket," he said, "but because the public doesn't know this fact of administration they try to approach a public official and tell motorists they didn't get requests to increase, or decrease, or postpone driving on some day.

Retained Attorney James Fix.

WASHINGTON (AP) - Airmen who are being charged with reckless driving after a collision near the Pentagon have been relieved of their duties.

A driver involved in the crash, identified as Airman 1st Class Robert F. Smith, was taken to George Washington University Hospital with injuries. Smith was on his way to the Pentagon for an interview with officials.

The airmen were driving a 1970s model car when they collided with a 1975 model car near the Pentagon. Both cars were traveling in the same direction on the same road.

Retained Attorney James Fix.

WASHINGTON (AP) - Airmen who are being charged with reckless driving after a collision near the Pentagon have been relieved of their duties.

A driver involved in the crash, identified as Airman 1st Class Robert F. Smith, was taken to George Washington University Hospital with injuries. Smith was on his way to the Pentagon for an interview with officials.

The airmen were driving a 1970s model car when they collided with a 1975 model car near the Pentagon. Both cars were traveling in the same direction on the same road.

Retained Attorney James Fix.

Ask One-Night-Ban
On School Activity

NEW BRUNSWICK — The question arising on the merger of the Municipal Regional High School in the State that is being scheduled in the Board of Education was significant of school administration, according to Mr. Coyle, President of the Board of Education for the New Brunswick, is to be scheduled for the next meeting of the Board of Education last night. The purpose of the group was to prepare Coyle's report, and he is to present a report entitled "The Purpose of the School Board for Religious Education." The board decided to refer the important issue to the administration for further discussion.

Emergency
Road Repair
Fund Voted

MONMOUTH BEACH - The Monmouth Beath Board of Commissioners last night adopted an ordinance appropriating $2,000 for an emergency road program. The commissioners also passed an ordinance that the breaks were "probably" due to excessively heavy construction equipment, employed on the beach. The cost of the repairs was $2,000, and the money was to be used in one of the buildings.

Emery
Greco, president of Monmouth Beach, brought to you at a fraction of the original price. Brought to you at a fraction of the original price.

Marlboro
Escape Sought

MARLBORO, N. J. (AP) — No one has been seen or heard from since the reported escape of a State Prison inmate, who was last seen leaving the state prison on July 12, 1961. The inmate was recaptured and returned to the state prison.

Hal Humphrey: Shows to Watch

HOLLYWOOD — Four years ago, John Farrow, the actor who directed the first test film produced by his production company, said 13 test pictures were made that had no chance of being released.

"The box office proves it," Mr. Farrow said at the time. "No one wants to see these pictures." Mr. Farrow made his statement at a meeting of the American Society of Cinematographers. He also said that the 13 test films were not exactly the kind that would appeal to the average moviegoer.

Mr. Farrow, who is now a producer-director, has been active in the motion picture industry for many years. He has directed such films as "The Big Country," "The Searchers," and "The Man Who Shot LibertyValance." He is currently working on a new film, "Drums of Courage," which is scheduled for release next month.

Mr. Farrow's statement about the 13 test films was made during a meeting of the Society of Motion Picture Editors. He said that the editors wereastonished to learn that the films were being shown at all.

Mr. Farrow said that the test films were shown to the public to test the反应 of the audience to new ideas and techniques. He said that the films were not intended for general release.

Mr. Farrow's statement was met with great interest by the audience. Many of them agreed with Mr. Farrow's views on the subject. Some felt that the test films were a waste of time and money, while others felt that they were a valuable contribution to the motion picture industry.

Mr. Farrow's statement was also met with criticism by some of the editors present. They felt that the test films were being shown to the public to test the reaction of the audience to new ideas and techniques. They said that the films were not intended for general release.

Settlers Believe U.S. Will Help Keep Algeria French

By ANDREW MACRAE

ALGIERS (AP) - United States is more than woefully behind in the battle for the heart and mind of the people of Algeria who have a hope that day is their own and are seeking to maintain their freedom.

Relief groups here are working to meet the challenge, but they have no organized system to help those who need it. They are trying to get the message across to the people that the U.S. is committed to their cause.

From Rome

'Curvy' Is the Word

By LOUISE HUCKMAN

ROME (AP) — The baths fell with morning light today in Rome’s Bacchus Falls and the advance word is that Roma will turn up the feminine form. The exhibition opens Wednesday and winter fashion showings open today in Rome’s Bacchus Falls and the advance word is that Roma will turn up the feminine form.

Below the line it will be in line, but it will be a line that is very pure and chaste. The advance word is that

And winter fashion showings open today in Rome’s Bacchus Falls and the advance word is that Roma will turn up the feminine form.
Clemente's RBI Single Gives NL All-Star Game, 5-4, in 10 Frames

SAN FRANCISCO (AP) — Roberto Clemente hit a one-out single to right field to give the National League a 5-4 victory over the American League in the 10th inning of the All-Star Game at Candlestick Park, June 24, 1961. The game was tied 4-4 when the right-handed pitcher, Whitey Ford, approached the San Francisco Giants' center fielder, Alvin White, who was hitting .281 this season.

After Ford's pitch, a pinch runner was put on base, and the American League was within striking distance. Mike Fornieles, who had pitched a scoreless inning, was the first American League pitcher to go in for the second game of the doubleheader. The Giants' leadoff hitter, Alvin White, was the first left-handed hitter to score in the NL's 10th game.

The NL scored in the second on Clee-
Another Pennant? Of Course, Say New York Yankee Stars

By Joe Brehler
Associated Press

New York (AP) — The New York Yankees have won 17 straight games, which means a lot of people are getting anxious for the World Series.

The Series is in progress, with the Yankees leading the Boston Red Sox, 3-1. The Yankees have won three straight games, including a 10-2 victory Monday night.

"We need to keep going," said Yankees manager Lou Piniella. "Our starting pitching has been superb. We've had great defense, too."
Should Parents Help 4-Year-Old to Read?

By LINDA WARGAS

Should parents help their 4-year-old children learn to read? This question has been debated by educators and parents for years.

There are many signs that indicate when a child is ready to begin reading. One sign is that the child has a strong interest in books and stories. Another sign is that the child can recognize and write familiar words.

In general, children are ready to start reading when they can:
- Name all the letters of the alphabet.
- Identify and point to familiar words.
- Recognize sight words, such as "the," "and," and "is.

One of the best ways to help a child learn to read is to read books to them. This helps them develop an interest in reading and gives them a chance to listen to the stories. It's important to read books that are at the child's level of understanding.

When a child is ready to start reading, it's important to start with simple books. These books should have large, easy-to-read words and simple stories.

Reading books aloud to a child can also help them develop a love for reading. This is especially important for children who are not naturally interested in reading.

By being patient and understanding, parents can help their children learn to read.

Summer "Fun" Starts

OCEAN CITY (AP) — The heat and humidity have not stopped the fun for visitors to Ocean City. Despite the high temperatures, there are still plenty of activities for everyone to enjoy.

The Ocean City Police Department has been working hard to keep the city safe and secure. They have increased patrols in the areas where there have been problems in the past, such as the boardwalk and beach areas.

In addition to the police, there are also more than 200 volunteers who help keep the city clean and safe. They work tirelessly to ensure that the beaches and streets are clean and free of trash.

Despite the challenges, the summer has been successful so far. Visitors have been enjoying the activities and attractions in Ocean City.

Bridge Column

BY ALFRED MEINHOLD

Bridge Column is a weekly feature that provides advice on how to improve your Bridge skills.

The Hand

You don't need a slide rule to play good bridge, but a knowledge of mathematical probability can be very helpful. When you're playing Bridge, you must understand the probability of certain events occurring.

For example, if you have three cards in your hand, the probability of having a pair is 4/12. If you have four cards, the probability of having a pair is 5/12. If you have five cards, the probability of having a pair is 6/12.

By knowing these probabilities, you can make better decisions about when to bid and when to play your cards.

The Phantom

By LEE FALK and WILSON McOw

The Phantom is a popular comic book character that has been around since the early 1930s. He is known for his mysterious appearance and his ability to solve crimes.

In this issue, the Phantom is investigating a series of bank robberies. He uses his heightened senses and deductive reasoning to uncover the truth.

Mickey Mouse

By WALT DISNEY

Mickey Mouse is one of the most beloved cartoon characters of all time. He has been entertaining children for over 80 years.

In this issue, Mickey Mouse is on a mission to save his friends from a group of sinister villains. With the help of his friends, he manages to outsmart the villains and save the day.
