Two State Bond Issues Recommended

The legislative leaders in New York and New Jersey will consider a joint legislative committee's recommendations to issue $1.3 billion in state bonds to fund school construction and highway improvement.

The committee recommended that the state of New York issue $800 million in bonds to fund school construction, while New Jersey would issue $500 million for highway improvements.

The recommendation comes after a joint legislative committee conducted an efficiency study which found that both states needed significant improvements to their transportation and educational facilities.

The bond issuance would be financed through a combination of state funds and federal matching grants.

Score Highway Department

The New Jersey Department of Transportation has been praised for its efficient and effective operation.

The department has been praised for its innovative approach to highway construction and maintenance, which has led to significant cost savings for the state.

The department has also been recognized for its commitment to improving the safety of New Jersey's highways, with a focus on reducing traffic fatalities and injuries.

In addition to the highway improvements, the department has also been lauded for its efforts to reduce congestion and improve travel times for commuters.

Charge Poor Planning, Politics

The New Jersey Department of Transportation has been criticized for its lack of planning and political influence.

The department has been accused of prioritizing political interests over the needs of the public, leading to inefficient use of resources and a lack of progress on key projects.

The department has also been criticized for its outdated approach to highway planning, which has failed to keep pace with the needs of a changing transportation landscape.

The department has been called on to improve its planning and decision-making processes to better serve the needs of New Jersey's residents.
Legislature Items

TRENTON - A legislative committee has voted to establish a new state task force to study the effects of drug use on New Jersey's economy and society.

The vote by the legislature's Health and Human Services Committee came after a hearing that lasted several hours and featured testimony from a number of experts in the field.

The task force, which will be chaired byAssemblyman John C. Conyers of Jersey City, will study the impact of drug use on the state's economy, including its effects on crime, education, health care and the criminal justice system.

The panel will also examine the role of government in addressing the drug problem and consider the feasibility of legislation to address specific issues.

The move comes as New Jersey grapples with a growing drug problem, with the number of overdose deaths increasing in recent years.

The task force is expected to report its findings to the Legislature by the end of the year.

Weather

New Jersey's weather this week will be marked by a mix of cold and wet conditions, with temperatures fluctuating between the upper 30s and low 40s.

The National Weather Service in Ocean Township said that the area will experience a series of cold fronts, each bringing a chance of rain or snow.

The first front, expected on Monday, will bring temperatures in the upper 30s, with a high of 40 degrees.

By Tuesday, temperatures will dip to the low 30s, with a chance of snow showers.

The front will move out on Wednesday, allowing for a brief respite, but will return on Thursday with another cold front, bringing temperatures back to the upper 30s.

The National Weather Service said that the area could see up to 1 inch of snow on Thursday, with a high of 38 degrees.

Health Unit Angry at Committee

TRENTON - The Health Unit is angry at the committee for calling a meeting, alleging that the committee is trying to undermine the unit's authority.

The Health Unit said in a statement that the meeting was called without its consent and that the committee has been trying to take control of the unit.

The Health Unit said that it has been repeatedly contacted by the committee, demanding to speak with the unit's director.

The Health Unit said that it has been trying to work with the committee, but that the committee is not willing to listen to its concerns.

The Health Unit said that it is concerned that the committee's actions will undermine its efforts to protect the public's health.

Council Finally Gives OK for Housing Units

TRENTON - The council has finally given its approval for the construction of new housing units, after months of debate and delay.

The council approved the project in a 10-3 vote, with three members opposed.

Councilman Tom Jones, who opposed the project, said that the council should have considered other options before approving the project.

The council voted to approve the project over the objections of Councilmen John Howard, who said that the council should have asked for more information before approving the project, and Councilwoman Mary Smith, who said that the council should have sought outside opinions before approving the project.

The council's decision comes after months of debate and public comment, with many residents concerned about the impact of the project on the community.

The project is expected to cost $10 million and will include 70 new housing units, along with community amenities.

Highway Projects Are Told

TRENTON (AP) - The New Jersey Department of Transportation announced plans for several highway projects in the state.

The department said that it will be spending $1 billion on highway improvements over the next five years.

The projects include the construction of new bridges, the expansion of existing highways, and the installation of new traffic signals.

The department said that the projects will improve safety and reduce congestion on state highways.

The projects are expected to create hundreds of jobs in the construction industry.

Two highway projects have already been approved by the state's governing body, while the other projects are in the planning stage.

The department said that it will be working with local governments to ensure that the projects meet the needs of the communities they serve.

The department also announced plans to seek federal funding for several highway projects.

The department said that it will be working with federal officials to secure the funding necessary to complete the projects.

The department said that it will be working with local governments to ensure that the projects meet the needs of the communities they serve.

Speaker Warns of Communist Menace

WEST LONG BRANCH — Dr. James R. Capell, director of the New York Bureau of United Israel Appeal, told a municipal engineers and employees meeting here today that the Communist menace is more dangerous than ever. 

Capell, who addressed the meeting after a brief review of the Communist activities of the last year, also read a letter to the assembly commission from a judge of the Red Bank Municipal Court.

"I am not blaming you for your reactions or your concern, but I am warning you of the growing danger," Capell said. "We are in a war in which there is no sudden death. It is a continuous war."

Capell cited statistics gathered by the American Legion and the United States Department of Labor indicating that there are 100,000 Communist party members in the United States. He also stated that there are 10,000 Communist party members in New York City alone.

The speaker emphasized that Communist infiltration is not confined to the political field. He stated that the Communist party is also active in the labor field, in education, and in the military and naval fields.

Capell urged the audience to be on guard against the Communist menace. He stated that the Communist party is not content with merely infiltrating organizations. It is also seeking to take control of organizations.

Capell concluded his address by stating that the Communist menace is real and that the audience should be on guard against it. He urged the audience to be courageous in the face of this menace.

School Marks Arbor Day

EASTONTON—Mrs. Minnie Taylor and Elizabeth Taylor read "The Story of Arbor Day" on Monday morning in the auditorium. 

Two classes in grades one and two heard the read and were given their own saplings to plant in the school grounds. 

Mrs. Taylor said the story of how the idea of Arbor Day was born in 1872 was particularly enlightening.

"The story has a moral to it — the idea that if each person plant one tree, we could cover the earth with trees," Mrs. Taylor said.

Athens holds three Arbor Day ceremonies.

BURLINGTON, Vt. - St. Paul's Episcopal Church was the setting for the marriage of Miss Margaret Alice Smith to Mr. Richard L. Schanck of Hazlet.

Miss Margaret Smith, daughter of Mr. and Mrs. Fred Smith of Fair Haven, was married on Saturday, May 25, in St. John's Methodist Church.

The bride's father, Mr. Smith, gave his daughter away.

The bride wore a white silk suit and a white tulle veil. She carried a nosegay of white astilbe and babies'-breath.

The groom and his best man, Mr. and Mrs. John A. Schanck, Hazlet, cousin of the bride, were from Morgan. They were accompanied by Miss Irene Ritterman, Melbourne, cousin of the bride. They were married on Saturday, May 25, in St. John's Methodist Church.

The bridegroom's father, Mr. Schanck, gave his son away.

The groom wore a white silk suit and a white tulle veil. He carried a nosegay of white astilbe and babies'-breath.

The bridegroom's best man, Mr. and Mrs. John A. Schanck, Hazlet, cousin of the bride, was from Morgan. They were accompanied by Miss Irene Ritterman, Melbourne, cousin of the bride. They were married on Saturday, May 25, in St. John's Methodist Church.

The wedding reception was held at 6:30 p.m. at Shadowbrook, Oceanport.

The couple left for Pennsylvania.

Miss Margaret Smith is the daughter of Mr. and Mrs. Fred Smith of Fair Haven, and Mr. Richard L. Schanck is the son of Mr. and Mrs. John A. Schanck of Hazlet.
Boys Deplore Girls Who Chase Them

By TREVOR BROWN
AP News Service

If you have many great girls and boys, you will find that most of them have their choice of boys. If you have many great girls but very few boys, you will find that most of them have their choice of girls.

Competition as a social factor in the problem of girls is one of the greatest difficulties for parents and teachers. When young people are competing for the same girl, they often end up not only with the opposite sex, but with all the attraction of girls.

Boys who chase girls are usually not successful. They may win the girl for a short time, but they will seldom keep her as a permanent companion. In most cases, the girl will be uninterested in the boy, and the boy will be uninterested in the girl.

Unorthodox Daughter Is Newsmen's Favorite

By DONNA MAE RANGE

The Newsmen's Favorite, a young woman who.was recently featured on television, has become quite a sensation. She is known for her unorthodox style and her ability to attract attention.

The girl, who is referred to as "the girl who likes boys," has been the center of attention in recent months. She is known for her ability to attract both boys and girls, and she has become quite popular with the public.

The girl's popularity has been due in part to her unique style. She is known for her ability to stand out in a crowd, and she has become quite popular with the public.

The girl's style has been described as "unorthodox," and she has become quite popular with the public. She is known for her ability to attract attention, and she has become quite popular with the public.

Consignment Sale

The Consignment Sale is a program that is designed to help people sell their unwanted items. The sale is held in different locations, and it is open to the public.

The sale is usually held during the spring and fall, and it is open to the public. It is a great way to get rid of unwanted items, and it is a great way to support local businesses.

The sale is usually held during the spring and fall, and it is open to the public. It is a great way to get rid of unwanted items, and it is a great way to support local businesses.

Mrs. Leffler Heads Unit Of AFS

In a move that signals her enthusiasm for the coming year of the Midwinters chapter of American Field Service, Mrs. Leffler, Middletown, was elected president of the organization.

The administration building of Mrs. Leffler was the site of this event.

Also elected were Mrs. R. R. Leffler, chairman, and the foreign aid spokesperson, who spoke on the recent AFS report on the recent AFS program.

The site of this event was the Community Center.

Stokes Off To California

Donald M. Stokes

The board of trustees, which is responsible for the day-to-day operation of the school, has named Mr. Dugan as the new director. Mr. Dugan, a former resident of Neptune, has served as assistant principal since 1961.

Mr. Dugan resides in Neptune and has been active in the community, serving as advisor to the Student Council until his appointment as director. He has taught social studies, coached football and basketball, and served as adviser to the Student Council.

Each session is given in lecture-discussion period. A trip to the Institute will take place this summer, and the institute will be planned as a feature of the institute.

The Citizenship institute for girls, which was founded by Dr. Harold A. Rubin, has served as a model for similar institutes in other cities. The institute has been successful in raising flowers. The members include Aaron W. Berg, William J. Morris, Thomas L. McClintock, Robert A. Elmer, and John J. Plancey.

The institute has been active in raising flowers, and the institute has been successful in raising flowers. The board of trustees, which is responsible for the day-to-day operation of the school, has named Mr. Dugan as the new director.

Henry Hudson Nips Raritan in Eighth

Atlantic Highlands — The third place in the Atlantic Conference, the Henry Hudson Pirates, defeated the Raritan Township High School Indians, 2-1, in the eighth round of the high school baseball playoffs. The game was played on the courthouse square in Atlantic Highlands.

Henry Hudson scored their first run in the first inning when Bob Lofel (M) hit a single and was safe to second on a hit by Mike Bergen (R). Jim Hallman (R) added a single and Lofel scored on Hallman’s hit. Lofel went to third on a wild pitch by Raritan’s pitcher and scored on Bergen’s sacrifice fly.

Raritan scored their only run in the second inning when Ron Otholphit (TR) hit a single and Mike Baldschun (R) grounded into a double play. On the play, Raritan’s pitcher fielded the ball and threw it to second base to turn the double play.

Henry Hudson added their second run in the third inning when Ron Otholphit (TR) hit a single, went to second on a hit by Jim Hallman (R), and scored on Bob Lofel’s (M) sacrifice fly.
