Today: Annual Business, Industry Review
Hospital Has Blood Shortage

REMONDI - Food donors have decreased in Monmouth County hospitals. The county's blood banks have run low on supplies.

County Blood Bank Director Lucille Koelle said that the most critical shortfalls have been in the type O Rh negative blood component. She said this is because donors of that type are in the minority, and many maternity wards, for example, have received their blood from the county's blood bank.

"We are severely low on type O Rh negative," said Koelle. "It takes a lot of blood to fill our supply, and we are not receiving enough for the type O Rh negative blood.

Koelle said that the most critical supply is the type AB Rh positive blood component. She said this is because type AB Rh positive blood is rare, and it is not easy to find donors for that type.

Koelle said that the most critical supply is the type AB Rh negative blood component. She said this is because type AB Rh negative blood is rare, and it is not easy to find donors for that type.

OBITUARIES

Bishop Balaram Dies, Frequent Area Visitor

LAWRENCE—Bishop C. Benjamin Balaram of the Calvary Methodist Church died Wednes-
day at 10:45 a.m. of a heart attack at his home here.

Bishop Balaram, 71, Bender Ave., Inter-

city, was in good health until recently.

In a recent letter to Mrs. Bird-

ser, she said that Bishop Balaram was a mem-

of the Calvary Methodist Church. Bish-

in England in 1949 and a master of arts degree

in sociology from the University of Edinburgh, Scotland,
in 1951. She was the late John Hughes and

her father was the late Prime Minister Nehru.

Mrs. MacBrayne was a mem-

in addition to her daughter, Alice, a brother,

Peter, and a sister, Margaretty, all of Keyport; and two

daughters, Mrs. Mary Bishop of the

munity of the Church.

The funeral will be from the

20 a.m. in St. Rose of Lima Church. Interment,

of 15 Buena Place, who died

Sunday in her home, will be

of the Church, here.

Hughes, all of Keyport; and two

sisters, Mrs. Jennie M. Boos of

day in St. Rose of Lima Cemetery.

_Interment will be In Rest Hill Cemetery on

Mrs. Duddy is survived by her

John Hicks of Red Bank.

She was born in Brooklyn,

retired in 1960.

He retained his powerful phy-

 useless about compacts, a ride in one almost surely will.

"A driver's delight" — Car Life, October '67

"The '68 Chevy has grown an inch in wheelbase and six inches overall, but it's grown a mile in style, comfort, quality and performance." — Car and Driver, December '67

"Aha. This might be the sleeper of the year." — Hot Rod Magazine, October '67

One more nice thing: the price.

$2,284

Manufacturers' suggested retail price before destination charges of $57.95. Chevrolet Motor Co., 500 N. Howard St., Detroit 2, Mich. (F.S.E. 12830.)

Car entourage magazines keep saying a lot of nice things about the new Chevy II Nova. Why not? I've tried one of these easy cars to drive, and it's a real crowd pleaser that comes beautifully on regular fuel. See for yourself at your dealership's retail store. So drive one.

The Daily Register

Memmons County on the Move

The Daily Register today presents its annual report — a summary of the county's economic health in 1967 and the prospects for 1968.

In general, the picture continues to be one of expansion, not only in the city, but also in the country as a whole. The area has enjoyed a recovery in recent years, and it will be only temporarily checked before it is renewed.

There were no unusual problems that went hand in hand with the expansion in 1967, but there were several interesting trends to watch in the years ahead. The area county went about with major expansion in 1967. The county's gross product increased, and the area unemployment rate continued to drop. The county has been good to its residents, and the area unemployment rate is the lowest in January, a hopeful sign for the coming year.

There is even more reason to believe that Memmons County is ready to face the future with confidence. The county has passed a number of significant milestones, and it is not too early to think about what the future might hold for the area.

The plan, enacted by last year, was a costly one for the state, but it is something else again. The plan will be a political embarrassment for those who oppose it. It is something else again. The plan will be a political embarrassment for those who oppose it.

Another Positive Step

The Assembly yesterday took another important step toward improving New Jersey's economic climate. The legislature approved a Medicaid program this year to help pay medical expenses for the poor.

The state's health and welfare department has introduced a Medicaid program which will cover the state's poor. The department officials contend that it will be a tremendous relief to those who are without the means to pay for medical care.

Medicaid

There is much to be said for the establishment of a Medicaid program which would authorize medical aid regardless of income. New Jersey should prepare a state medical program this year to help pay medical expenses for the poor.

**Market List Sinks On First Short Day**

NEW YORK — The stock market opened Monday with a sharp post-weekend fall in the first of a series of sudden, unexpected sessions.

Trading was heavier than Friday's but still lacked the dramatic, sharp swings of recent weeks. Businessmen and trading specialists, speaking in New York, attributed Monday's decline to heavy selling in the first hour of trading and a lack of new buying after that.

Judge Fisher Sentences
13 Persons for Offenses

FREEHOLD — A Port Monmouth woman and 12 others were convicted of larceny yesterday in Freehold Township, Superior Court Judge Clark said.

Michael T. Muller, assistant chief prosecutor, announced that the 13 persons, including a 16-year-old Millstone Township student, were convicted of breaking into a Lanes Bowling Alley here for the purpose of stealing property. The accused were sentenced by Superior Court Judge Clark yesterday.

Judge Fisher Sentences
13 Persons for Offenses

FREEHOLD — A Port Monmouth woman and 12 others were convicted of larceny yesterday in Freehold Township, Superior Court Judge Clark said.

Michael T. Muller, assistant chief prosecutor, announced that the 13 persons, including a 16-year-old Millstone Township student, were convicted of breaking into a Lanes Bowling Alley here for the purpose of stealing property. The accused were sentenced by Superior Court Judge Clark yesterday.

Red Cross Cars Get Anti-Pollution Device

NEW SHREWSBURY - A new device has been installed in Red Cross cars here, which Dr. Frank H. Muller, assistant commissioner of transportation, said will help the state to reduce pollution.

The device, designed by the Red Cross, is being used in the fight against air pollution. It was installed in several cars here yesterday, and Dr. Muller said that it is being used in a similar campaign in other states.

The device is a type of air filter that is designed to capture air pollutants before they can enter the vehicle's engine. It consists of a filter element that is placed in the air intake system of the vehicle.

The device was developed by the Red Cross in cooperation with the state of New Jersey, and it has been tested extensively. Dr. Muller said that the device is effective in reducing air pollution and that it is being used in other states as well.

Realty Firm
Sales Top $2 Million

MIDDLETOWN — Darrell H. Johnson, real estate manager of the Realty Co., Inc., Route 12, has announced that sales for the year ended Dec. 31, 1967, were $2,043,954.

This is an increase of $612,394 over the sales for the year ended Dec. 31, 1966, which were $1,431,560.

This is the highest sales figure in the company's history.

New Parley Is Slated On Signals Plan

NEW SHREWSBURY - The Freehold Borough Council has advertised a meeting to consider a signals plan for the borough.

The meeting is scheduled for tomorrow at 7 p.m. at the borough hall.

The signals plan is designed to improve traffic flow and reduce accidents in the borough.

The plan includes the installation of traffic signals at several key intersections.

The signals plan is being considered by the Freehold Borough Council as a way to improve the safety of the borough's streets.

The plan is expected to cost approximately $150,000 and is being funded by a grant from the state.

Coleman is a real estate broker in the Freehold area.
**Wildfowl Eating Due to Ice Break**

The inference might be drawn that the female is smarter than the male, based on certain behaviors observed in ducks. This is because, in a flock of black ducks that inhabit Spermaceti, females are looking for some other source of food, this winter, and are trapped by the U.S. Fish and Wildlife Service, tagged, and then released. The purpose behind this activity is to keep the birds from eating natural food that could be harmful to them.

**Houston Cougars No. 1; Alcindor Improving**

The Houston Cougars, coming off a bad loss to Auburn, will analyze film and call plays for the upcoming week. Wooden thinks that playing against Lamar Tech will be a good test for his team's improvement.

**Kapler Takes Scoring Lead**

A pair of knowing faces also showed up over the weekend, Frank Tornsey and Bill Alter, varsity, and Ed Velasquez, the nation's leading returning wide receiver, having scored 45 points in the 1968 campaign. Ron Swoboda signed his 1968 contract. The workouts are held three times a week, with 30 to 40 players participating in each session.

**Surf, Field and Stream**

According to the regulations written by the Surf, Field and Stream, any class. These races will be held at the North American Championship, to be held at the Long Branch Ice Round, the state's only thoroughbred races. The track is estimated at $1.5 million, and the thoroughbreds race in the game.

**B'na'i B'rith Lodge to Hear Jets' Fullback Billy Joe**

The B'na'i B'rith Lodge will host a discussion on the Los Angeles Dodgers' championship season, featuring Billy Joe, the team's fullback. The event will take place at the lodge's headquarters.

**Dodge's Start Action**

The Texas Tech Red Raiders were defeated by the New York Jets, 43-36, as Kevin Winin scored a 7-45 winner over Auburn for the Los Angeles Dodgers. The soreness was worked out during the entire pre-season, and the team will be able to play in the East Coast Game.

**Trophy Night — Ramson's Pop Warner group honored**

Ramson's Pop Warner group was honored on Friday evening. The group is in its fifth season and was recognized for its outstanding performance. The coach, Mr. Gough, explained the group's success and thanked the fans for their support.

**Mets' Swoboda Signs Contract**

The New York Mets have signed a contract with Joe Swoboda, a pitcher from Brooklyn. The agreement was reached after several meetings and negotiations. Swoboda has been a standout pitcher in the minor leagues and is expected to make a significant contribution to the Mets' rotation.

**Jorge Velasquez Gets Five Days**

The Brooklyn Dodgers have suspended Jorge Velasquez for five days after he was found guilty of domestic violence. Velasquez was charged with assualt and battery on his wife.

**NBA Awards 1968 Franchises**

The NBA has announced the winners of the 1968 awards for the best players in the league. The awards include the Most Valuable Player, Rookie of the Year, and Defensive Player of the Year. The winners will be announced on a special ceremony.

**Rangers Call Up A.C. Troting Salt Tuskul**

A.C. Troting Salt Tuskul has been called up by the Rangers to replace an injured player. He has been performing well in the minor leagues and is expected to contribute to the team's offense.
GI's Rushed Up to Fill Vietnam Sector Gap

**Nelson Blend**

- Following the withdrawal of troops from the area, the U.S. Government has been rushing GI's to the Vietnam sector.
- The government claims it has already shipped 26,000 GI's to the area, and more are on the way.
- This move is said to be in response to the increased threat posed by the Viet Cong.

**Man Admits Breaking In**

- John Maginn, a 23-year-old man, has been arrested for breaking into a house in Detroit, Mich.
- Maginn is accused of breaking into the home of a family friend and stealing a stereo.\n- He was later found with the stereo in his possession and charged with theft.

**Library Clock To Be Repaired**

- The library clock, which has been out of order for several weeks, will be repaired by the local clock repair shop.
- The clock, which is an important part of the library's decor, has been out of service since a recent earthquake.

**Man Jailed As Drunk In Car Crash**

- A man has been arrested for driving under the influence after a car crash in the city.
- The man, who was driving a stolen car, was arrested by police at the scene of the accident.

**Acquire Youth In Theft Case**

- A young man has been arrested for theft after police received a tip.
- The suspect is alleged to have stolen several items from a local store.

First Merchants Had A Very Eventful Year

By JOHN G. HEWITT
PRESIDENT
First Merchants National Bank

The year just ended was a particularly eventful one for First Merchants National Bank. It will be longer remembered by many accountants and bankers than a series of events which peaked at the end of the second quarter, then dropped off to a lesser extent by the end of the third quarter, and finally fell into something akin to a prolonged engagement for the rest of the year.

A Very Eventful Year

Throughout the year First Merchants National Bank maintained its basic philosophy of banking in the community. In actuality, the bank had a day-to-day withdrawal system in place, which handled mortgage payments on average, small business, and accounting problems. This system became an effective one for the bank, and provided a source of income for the bank.

In 1967, the Kansburg-Middletown National Bank expanded to five offices by opening its new branch at Main St. and Hwy. 34, Port Monmouth. In 1968, the bank will expand to six offices with its newest branch to be located at Haddons Corner, and Hwy. 35 in Middletown. Conveniently located, these new offices will be equipped and ready to serve our customers with the best banking services available.

Established in 1913, we offer many banking services to our customers, why not take advantage of our many banking services to-day. May we serve you?
New Starts Satisfying To Johnson

Highlands—A process of building is under way in Highlands that is typical of the present housing development program. The process of building is the construction of new homes which meet the needs of people who are moving in. It is hoped that this process will go on and expand the new building.

Many a Miracle Left To Johnson

In addition to the big building projects on the horizon, the tiny Highlands Community Board is on alert to possibilities and new building. The board is currently considering a number of projects that will benefit the community, including the construction of a new hospital.

Another addition to the big building picture is the expansion of the Highlands Community Board. The board is now considering the possibility of expanding its services to include the construction of new schools, parks, and recreation areas.

Attraction For Borough Is Renewal

Highlands—Many new homes have been constructed in the past year, providing a much-needed boost to the local economy. As of February 1968, 54 building permits were issued, with 10 of those permits for new homes.

Profitable Venture For Borough

The next seven winners, each received Ronson Vari-"Borough Council.

Ten 4-Hers Have Had Great Results

Of the 54 building permits issued last year, 10 were for new homes. The rest was for improvement of existing homes and the addition of new features.

Ten 4-Hers Win Prizes At Food Show

At the Food Show, the ten 4-H winners were John Millard, Aim High 4-H Club; Suzanne Healy, We're In Stitches 4-H Club, Cream Ridge, each received Ronson Vari. Margaret McCullum, 6 years with Prown's, has been a window shade department, window and door installation, 5 years with Prown's; Velma Cross, The contestant was chosen by a panel of judges, who evaluated the contestants on a variety of factors, including skill, knowledge, and presentation. The winners were rewarded with a minimum of $199,000 for the 10 new homes.

Ten 4-H Members Win Prizes

Of the 10 4-H winners, 5 were for new homes and 5 were for improvement of existing homes. Anglers and Hunters Had It Good and Bad

By RICK RIXON

With the final weeks of the 1967 sport season now behind us, the good news was that it was another year of favorable fishing and hunting conditions. The bad news was that a lot of the high spots were in the back country. The details were spelled out in the report submitted by the Department of Environmental Conservation to Gov. Richard J. Hughes, detailing the year's accomplishments in environment and conservation.

In the fish department, the 1967 season was another good one for warm-water species, and there were a lot of them around. Flounder were extremely plentiful in eastern Monmouth and Middlesex counties, particularly the half-mile stretch along the Atlantic coast just west of Point Pleasant. Earle was opened, for the first time, to a full season of commercial fishing, and the year started off well. The market was very high and the fish were of excellent quality, with landings of 64,000 pounds of whitefish by the state.

For saltwater species, what's more, the outlook for continued good fishing was excellent. The New Jersey coast was blessed with a good run of striped bass. The best fishing was done in the late spring and early summer. After the warm up and a 63-pound striper was taken, the spring run on the Stripers was the best for many years. Flounder were extremely plentiful in eastern Monmouth and Middlesex counties, particularly the half-mile stretch along the Atlantic coast just west of Point Pleasant. Earle was opened, for the first time, to a full season of commercial fishing, and the year started off well. The market was very high and the fish were of excellent quality, with landings of 64,000 pounds of whitefish by the state.

The best fishing was done in the late spring and early summer. After the warm up and a 63-pound striper was taken, the spring run on the Stripers was the best for many years. Flounder were extremely plentiful in eastern Monmouth and Middlesex counties, particularly the half-mile stretch along the Atlantic coast just west of Point Pleasant. Earle was opened, for the first time, to a full season of commercial fishing, and the year started off well. The market was very high and the fish were of excellent quality, with landings of 64,000 pounds of whitefish by the state.

For saltwater species, what's more, the outlook for continued good fishing was excellent. The New Jersey coast was blessed with a good run of striped bass. The best fishing was done in the late spring and early summer. After the warm up and a 63-pound striper was taken, the spring run on the Stripers was the best for many years. UTE Has Biggest Year in Its History

By HAROLD T. SHER

President

UTE Electronic Corporation

The year 1967 has been a growing period of production progress for our company's entire line of electronic test instruments, now to the production of electronic memory systems. For industry, at least in the UTE test lab, the 1967 is one of significant improvement for the UTE corporation. The market has been quite strong, and our company has been in the position of being on the cutting edge of the memory systems' industry. We are committed to providing our customers with the best possible service and products.

Beach Improvements Eyed in Sea Bright

By EARL BRIGHT

— "Last year we were on a beach and now we are on a beach," said Mayor John DeFelice, who last year served as mayor of Sea Bright. "This year, we have begun work on the beach, and we are well on our way to completing it."

The plans call for the construction of new boardwalks, swimming areas, and beach access areas. The work is being done by the borough's public works department, and the money is coming from the borough's budget. Mayor DeFelice said that the work is expected to be finished by the end of the year. He added that the improvements will make Sea Bright more attractive to visitors and residents.

Penn Sees 'New Era'

The Pennsylvania Railroad Co. expects its 1967-68 season will be one of the highlights of the Pennsylvania Railroad's history. The railroad company is planning a series of improvements and expansions, including the construction of new tracks and stations, to accommodate the increase in passenger traffic.

Trenton, a major hub of the Pennsylvania Railroad's network, will see significant changes in 1967. The railroad is planning to build a new station, which will be located on the site of the old Trenton Station. The new station will be designed to accommodate the increased number of passengers using the Trenton station. The railroad is also planning to expand the existing facilities, including the construction of new tracks and platforms, to accommodate the increased number of passengers using the station.

Trenton is not the only hub of the Pennsylvania Railroad that will see significant changes in 1967. Other major hubs, such as Philadelphia, Harrisburg, and Allentown, will also see significant changes. The railroad is planning to build new stations and expand existing facilities at these locations, to accommodate the increased number of passengers using the stations.

MONMOUTH CONSOLIDATED WATER COMPANY
an American Water Works System Company

The BEST in water service DOESN'T JUST HAPPEN! IT'S MADE TO HAPPEN!

It's made to happen by people who know the business. People who know how to plan, invest in time, money, and experience in the operation of a first class water system. These are the people who have made it possible for our growing area to have all the water it needs when it needs it. Because they know that it takes a good reliable water system to keep the community moving ahead. The best in water service costs money, but it's worth every penny of it in terms of personal convenience and the well-being of our community.
Business Climate Improvement Seen Needed for New Jersey

BY EARL N. FELIO
President
N. J. State Chamber of Commerce

In a superior product. And in
this competition lies one of Amer-
ica's main engines of economic vitality.

Unfortunately, however, there do not work continuously to im-
prove their products, still in the
market advances around them.

In effect, stands still as the
competition between companies.
Manufacturers know that if they
refrigerators, and countless other
products—automobiles, television sets,
ward each year to new and im-
provements to the elections. It is
results in a loss of market share for a
company. In effect, stands still as the
competition between companies.

To maintain market position, each seeks to hold and extend
its share of the market by offering
improvements to the products. It is
a race in which no products are involved,
each with different innovations to
interest can virtually assure us of
business climate has always been
the main concern of the state
Chamber of Commerce. Though
concern of employment, if we
are held back, new industries will not open.

So the Chamber of Commerce is
the body that truly functions to
keep us ahead of fast-moving
neighbors such as Pennsylvania,
Ohio, and others.

The quality of New Jersey's
business climate has always been
the main concern of the state
Chamber of Commerce. Though
concern of employment, if we
are held back, new industries will not open.

In some neighboring state. Not
the only businesses that are forced
to put in their dollars and tax
revenues, payrolls and busi-
success real estate are at stake.

A more balanced approach to
the welfare problem is needed.
In the past, New Jersey has
been able to defend welfare programs.
In the past, New Jersey has
been able to defend welfare programs.

Provisions of the welfare law
to that position of being "second
best" because
knowledge of the

revenues, payrolls and busi-
success real estate are at stake.

A more balanced approach to
the welfare problem is needed.
In the past, New Jersey has
been able to defend welfare programs.
In the past, New Jersey has
been able to defend welfare programs.

Provisions of the welfare law
are no longer extenuating a
major factor in New Jersey's business
climate. As far as we know, the
businesses that are forced
to put in their dollars and tax
revenues, payrolls and busi-
success real estate are at stake.

From now on, New Jersey's
business climate will be
judged on the basis of e--

tal public issues which should
to be brought together for a
meeting of minds. The best way
that the total welfare program
is to be handled is seen to be
on the table for the first time
in New Jersey history. On the
other hand, the welfare problem
is no longer a one-sided story.
Now the story is told and the
problems are clearly outlined.

Looking ahead to the 1968 leg-
islative session, here are some of
the proposals which can be
expected to receive the major
attention of the state legis-
latives. These include:

1. The state's share of the
federal rural development
program.

2. The state's share of the
federal urban development
program.

3. The state's share of the
federal housing development
program.

4. The state's share of the
federal highway development
program.

5. The state's share of the
federal transportation
program.

6. The state's share of the
federal education development
program.

7. The state's share of the
federal environmental protection
program.

8. The state's share of the
federal health development
program.

9. The state's share of the
federal public works
development program.

10. The state's share of the
federal public service
development program.

Each of these programs is
important to the state of New
Jersey and to its business
population. And each of these
programs is important to the
people of New Jersey and to
their quality of life.

Businesses in New Jersey
must have a balanced approach
to the welfare problem. They
must understand the con-
sequences of their policies.
They must recognize the
importance of the welfare
program as a whole.

Support for a jetport in New
Jersey is mounting. The state
legislature has already
passed a bill authorizing the
construction of a jetport in
New Jersey. The state legis-
lature is now considering
the next steps to be taken
in the construction of a jetport.

The bill authorizing the
construction of a jetport in
New Jersey has been passed
by the state legislature.

A new jetport in New Jersey
would be a major addition
to the state's transportation
system. It would provide a
cabinet-level voice in
transportation planning for the
state.

The industrial growth in Monmouth County continues at an accelerated rate. An estimated $8,500,000 in new tax ratables were added by new industrial construction in 13 county municipalities in 1967. A total of 817,300 square feet of new space was added through new construction and additions to existing plants. Major industrial leases took another 239,000 square feet of space. At present there are 7 new facilities under construction that, when completed, will total 393,000 square feet.

Yes, 1967 was a good year, and Monmouth County continues "on the move toward greater progress" for 1968.

Monmouth County continues to attract new residents daily. They come from all sections of New Jersey and, indeed, the nation. New homes and apartments are still being constructed at a rapid rate proving that Monmouth County is still one of the most desirable residential areas in New Jersey.

As the population continues to grow, retail business in Monmouth County continues "on the move" with 1967 classed as a "good year" by retailers throughout the County. Many new businesses were started in '67 and a number of new stores now under construction are scheduled to open early in 1968, adding an even greater selection for shoppers.

The resort business in Monmouth County had one of their best years in 1967, attracting hundreds of thousands of visitors to the shore. This vital segment of business is an important part of the economy, contributing to the progress that helps keep Monmouth County "on the move.

THE MONMOUTH COUNTY BOARD OF CHOSEN FREEHOLDERS

HALL OF RECORDS, FREEHOLD

MARCUS DALY

HARRY LARRISON, JR.

BENJAMIN H. DANSKIN

ALBERT E. ALLEN
Signal Corps Works Around the Clock to Aid War Effort

Signal Corps works to improve the efficiency of military operations, often employing advanced technologies to support the combat soldier. The Signal Corps, by its very nature, is a vital component of the Army's mission in the field. It continues to grow as a major economic force within the Monmouth County area.
The Monmouth Workshop

Congratulates

Those forward thinking firms who have contributed to the progress of Monmouth County by employing the handicapped.

The recognition, by these firms, of the ability of handicapped men and women and the utilization of this human resource is the culmination of our work in providing them the training and

job opportunities. We are organized to perform:

1. Light electronic assembly & soldering
2. Bench assembly & light industrial work
3. Painting & cleaning
4. Punch press & drill work
5. Other special operations, including the preparation of Addressograph & Multigraph plates.

Increased Industry Growth

Seen This Year by Taylor

PRESIDENT — Monmouth County's industrial growth was rated as very good for 1967 by the Monmouth County Planning Board, according to Myron Taylor, president of the board.

While the growth is still lagging behind the boom days of 1965 and 1966, the board said it would be fair to call the growth rate of 1967 'very good.'

A year ago, the average sales of industrial facilities in Monmouth County were $425 million, compared to $330 million in 1966 and $250 million in 1965, the board said.

The growth rate in 1967, according to the board, was 7.1 per cent.

This compares with 13.6 per cent in 1966 and 16.3 per cent in 1965.

The board said the future looks bright for Monmouth County's industrial growth.

Fluhr Sees Oil Heat Industry's Year Bright

"The heating oil industry looks bright. This past winter was a good one for us," said Mr. W. A. Fluhr, president of W. A. Fluhr Inc., and president of the Fuel Merchants Association of New Jersey, the state trade association.

"This industry has achieved a major breakthrough to develop a new, more efficient type of heating equipment. We have the chance to make the most of this great opportunity and increase our sales." Fluhr predicted a busy summer," said Fluhr. "The season is in full swing. There is plenty of work to be done."

Mainstay Financial Reports S&L Encourages Savings

RED BANK — Victor F. Ivins, president of the Red Bank Savings and Loan Association, said the association could not think of a better time to encourage its members to save money than the summer season.

"This is the time of year when people have more leisure time and are more prone to think about the future," said Ivins. "It is also the time when people are more likely to have money to save." The association, he said, would be glad to help its members save money for the future.

The 12th Annual Rumson Reading Institute

RUMSON, N.J. — The annual Rumson Reading Institute will be held this year on Friday, February 8, at 8:30 a.m., at the Rumson Reading Institute, Rumson Free Public Library, and the Rumson Reading Institute in Rumson.

The institute, which has been held every year since 1956, is a free, all-day event for teachers, librarians, and parents. The institute features workshops on a variety of topics, including reading instruction, technology, and classroom management.

W. A. FLUHR Inc.

Since 1946

The FuelChief is a new non-catalytic burner, designed to offer the benefits of both oil and gas heat. It is a compact, low-cost unit, designed to replace conventional oil burners. It is easy to install and operate, and it provides a more even distribution of heat.

The FuelChief is available in a variety of sizes, and it can be used in a variety of applications. It is ideal for residential and commercial applications, and it is also available for industrial use.

The FuelChief is a great choice for anyone looking for a new, efficient, and cost-effective heating system. It is a great addition to any home or business, and it provides a reliable source of heat for many years to come.

For more information, please contact W. A. Fluhr Inc., (732) 722-8800.

Optimistic on Renewal
RUMSON — Although director of the Local Public
Facilities Authority, Mayor William C. Rose, Red
Hill, had no gloomy predictions yesterday as he
looked over our modern facilities.
He found it more profitable last year and had less overhead
than the year before. He praised the work of the agency.

"We are planning on a new building in an open field," he
said. "It will be a milestone of the year."

Mr. Rose was director of non-
profit agencies for a number of years.

Sharpe, of Middletown.

Progress, Concern for Patients Cited at Riverview by Blaisdell

By Jane McConkey
Public Relations Director Riverview Hospital RED BANK — The continuing tradition of personal concern for patients at Riverview Hospital was honored last month by a citation from the New Jersey Medical Services Association. It was presented by Mr. Contractor, who is also the hospital’s chairman of the board, to the staff of Riverview for their efforts in making Riverview a center of excellence in patient care.

Mr. Contractor pointed out that Riverview is committed to providing the best possible care for its patients, and that the hospital’s policies and procedures are designed to ensure that this care is delivered in a compassionate and caring manner. He noted that Riverview has been nationally recognized for its commitment to patient safety, and that the hospital is continually striving to improve the quality of care it provides.

Mr. Contractor also praised the Riverview staff for their dedication and hard work, and for the efforts they make to provide the best possible care for their patients. He noted that Riverview is one of the few hospitals in the state that has been accredited by the Joint Commission on Accreditation of Hospitals (JCAH), and that this accreditation is a testament to the hospital’s commitment to providing the highest quality of care.

Mr. Contractor concluded his remarks by encouraging the Riverview staff to continue their efforts in providing the best possible care for their patients, and by reminding them that their work is critical in helping to ensure a healthy and thriving community.

The citation presented to the Riverview staff acknowledged their efforts in providing compassionate and caring patient care, and highlighted the hospital’s commitment to improving the quality of care it provides. It recognized the hospital’s dedication to providing care that is safe, effective, and patient-centered, and highlighted the hospital’s efforts to improve the quality of care it provides.

The citation also acknowledged the hospital’s efforts in providing a safe and comfortable environment for patients and their families, and recognized the hospital’s commitment to providing care that is free from harm.

Mr. Contractor’s comments and the citation presented to the Riverview staff are a testament to the hospital’s commitment to providing the best possible care for its patients, and to the dedication and hard work of the Riverview staff.

Addition of Graduate Program, Construction Among Many Highlights of '67 at College

WEST LONG BRANCH — Due to a graduate program, the construction of a new field house, and an addition to the library, Monmouth College is bracing for the coming fall. In addition, there will be 20 newly constructed residence halls by September 1968, was begun in 1967.

A $2,915,672, 600-bed residence hall, $910,000 over last year. The $100,000 is expected to be awarded to the college as full-time loan aid, students are receiving the 1968 recruiting schedule will be on the Monmouth College campus between now and April. Federal government pays 85 per cent of the cost of the 600-bed dormitory.

In addition to scholarship and loan aid, students are receiving "three-week sessions, an additional 14 three-week sessions was geared for recent secondary school graduates who had a demonstrated a need for assistance. The 1967 recruiting schedule will be on the Monmouth College campus between now and April. Federal government pays 85 per cent of the cost of the 600-bed dormitory.

EAC Reports Record Distance Corp. attained record nearly a decade ago. This new facility is scheduled to show a monthly average of its unique new equipment is designed and planned expansion in aeronautical and defense, and the Shore Coat Co. Inc. of Red Bank, reported its continuing growth in facilities which will be in operation in 1968. Mr. Fontaine noted that the county's population has increased dramatically during the past few years, and he expects more trade to the beaches. The profit margin on sales increased from 1966, with Bradley Beach receiving its share. Mr. Fontaine expressed satisfaction with the county's population and the growth which has taken place in the area. The most interesting new products for 1968 appear fully as promising as the past year. According to Robert ECWARM of the Vocational Board, the second best year in the county's history, the summer weather was poor, but resort areas, suffered a five percent decrease in over-all summer business, but even there, there was a 30 percent increase in beachfront business. Mr. Fontaine expressed satisfaction with the county's population and the growth which has taken place in the area. The largest chemical and paint company, acquired by the company during that year on a "pooling of interests" plan to intensify our acquisition efforts, in our search for new products and new talents, and where we expect profit margins on sales. Despite bad weather, our resort report 2d best year. By ROGER BONDS

Workshop Aids Disabled

By PETER SCOLLES
Executive Director
New Jersey Workshop

RED BANK — Progress in New Jersey County can be measured in many ways. One area in which there have been important achievements, has been the establishment and development of workshops and other new forms of training and employment opportunities for the handicapped citizens of the county. In this respect no less important is the growth of New Jersey Workshop for the handicapped, a not-for-profit organization, working in close collaboration with the handicapped clients of the community.

In order to give its support to the workshops, the county has accepted a program which was developed by the New Jersey Workshop Committee and was accepted for the New Jersey Workshop Program. The committee was made up of representatives of the county, the New Jersey Workshop, and the New Jersey Workshop Committee.

The workshop's professional staff includes a team of directors who have had experience in the field of rehabilitation, counseling and job interviewing.

The workshop is administered by the New Jersey Workshop Committee, which is composed of representatives of the county, the New Jersey Workshop, and the New Jersey Workshop Committee.

Since 1956, the New Jersey Workshop program has been making significant contributions to the rehabilitation of handicapped individuals.

They have given their services to the New Jersey Workshop Committee, through local welfare boards and voluntary agencies.

The New Jersey Workshop Program has provided transition services to over 20 handicapped graduates who have been placed in employment in the construction industry.

The New Jersey Workshop Program has provided transition services to over 20 handicapped graduates who have been placed in employment in the construction industry.

Home Building Upsurge Seen Continuing in State

Under — Progress for the construction of new homes in New Jersey shows a marked increase over the past year, according to a report by the state's Housing and Community Development Division.

The report indicates that the number of new homes built in New Jersey during the year ended June 30, 1965, was approximately 20,000.

The housing market is expected to continue to grow throughout the year, with a steady increase in the number of new homes being built.

The report also indicates that the number of new homes built in the state during the past year is expected to increase by about 20,000, bringing the total number of new homes built in New Jersey during the past year to approximately 20,000.

The report also indicates that the number of new homes built in the state during the past year is expected to increase by about 20,000, bringing the total number of new homes built in New Jersey during the past year to approximately 20,000.

Do not hallucinate.

[the rest of the document is not relevant to the task]
Mayor James W. Kelly Jr. of Asbury Park said the city's plan for progress for 1968 was "a greater public participation in local government and also direct interest in municipal problems," Mr. Kelly said.

The plan, he said, in which students who submit meritorious papers in government in an annual awards will be made to high school and college students who submit outstanding papers on governmental subjects in which annual awards will be made to high school and college students who submit outstanding papers on governmental subjects. The awards are sponsored by the Asbury Park Municipal Association, the Asbury Park Chamber of Commerce, the Asbury Park Education Foundation, and the Asbury Park Museum of Art.

Two County Building Jobs Slated to Begin This Year

FREEHOLD — Two major construction projects for the Monmouth County Courthouse in Freehold are expected to be completed by next fall. The additional will add seven courtrooms and more office space for the 12-courtroom county courthouse, to replace the present three-courtroom facility here at Monument Square; it will house two permanent civil and criminal courts and the county courthouse additions to the 12-courtroom county courthouse.

The new courthouse will be ready for occupancy in 1969. During the past fiscal year Monmouth County avoided an additional $9,385,000 in bonds, reducing the total county debt from $9,735,000 in 1966 to $9,385,000 in 1967. The annual interest on the county's debt was $193,935.

1967

The way was paved to meet the requirements for reclassification for the Urban Renewal Feasibility Study by the adoption of the State Housing Code, a Fire Prevention Ordinance and Building Code during 1967.

The ultimate goal will be the $1.3 million renovation of the Oceanoport business section. Application was made on a matching fund basis for the dredging of two sections of Oceanoport Creek. Surfside Creek and Bridge Creek to afford a better flow of water and overcome the silting and seashore problem.

In keeping with the Borough's policy of providing the best in volunteer fire protection, a $31,725 Mack Hook and Ladder was added during the past year.

The eye of Oceanoport is on the future and dictates the actions we take today.

Natural Gas Co. Reports

Record-Breaking Year

ABERDEEN PARK — (Press release) — "One of the most productive winters in the history of this company..." said Elmer Williams, president of the Natural Gas Co. of New Jersey.

"While we have had a continuous real estate building program in the Bayshore area, we have also been able to keep pace with the changing needs of the community. As a result of our continued efforts, we have planned and implemented an expansion program designed to better serve the needs of our customers," Mr. Williams said.

The company's "faith in a continuing growth pattern in the Bayshore area" is reflected in the new building which will be erected in this vital and progressive community. The new building is expected to provide offices for the expanding number of customers the company's "faith in a continuing growth pattern in the Bayshore area" is reflected in the new building which will be erected in this vital and progressive community. EATONTOWN BANK CITs Its 'Dynamic Growth'...
Industrial Growth Marked Year in New Shrewsbury

SHREWS/BURY - The industrial growth that has marked the borough throughout the year, and the Midland Project has had a significant development of businesses. The borough's growth during 1966 was development in many respects. According to Councilman John Erlacher, who served as chairman of the borough's development committee, he said, in the review meeting of the Industry Marked by progress and the borough meeting of J. N. Lemon Jr, that the celebrated development of Shrewsbury, the proportion grew to 20 per cent of the borough.

Bell Finance Loans Go Over $65 Million

NEW BRUNSWICK — Since the opening of the first Bell Finance Co. building in 1945, the firm has made more than $15 million and is now processing over $10 million in loans per year. According to the firm's director, Mr. William S. Anderson, the firm's loans have increased by more than 22,000 offices operating in the United States. The firm finances new boats and in 1967, the small loan firm provided loans up to $1,000 in a single transaction. On Sept. 7, 1967, the small loan finance company made a $10,000 loan to a customer in Bell Finance and the customer's business in Monmouth County, is opening under state laws and regulations.

**Building Boom in Red Bank**

In Red Bank — The skyline along the Navesink River near Black Draw and the exchange station of Monmouth County.

The building boom in Red Bank has continued to gain momentum in the past year, with new developments and projects adding to the city's growing prosperity not only in the downtown area but also in the suburban areas. The Red Bank Development Authority, the agency responsible for overseeing the development of the area, has reported a significant increase in the number of projects underway. One of the most noteworthy developments is the Red Bank Performing Arts Center, which is expected to open in the fall. The center will feature a 1,500-seat theater and will serve as a cultural hub for the community.

**Dramatic Developments in Research Sparked by County Electronics Picture**

By JOY FROHBERG

The New Jersey economy showed continued accelerated growth during 1967, according to an annual report issued by the Governor's Economic Council. The report indicates that the state's economy is growing at a rate that is significantly higher than in previous years, with particular strength in the technology and electronics sectors.

The report notes that New Jersey's economy is driven by a combination of factors, including the state's geographical location, its strong educational system, and its highly skilled workforce. The state's technology and electronics industries have played a key role in this growth, with companies such as IBM, AT&T, and GE reporting strong revenue growth.

**Rural Howell Seen on Brink Of Major Housing Boom**

By GEORGE JONES

The Monmouth County Board of Freeholders has approved a $2.5 million bond issue to finance the construction of a new high school in the Howell area. The new school is expected to be completed by the fall of 1968 and will provide additional educational facilities for the area's growing population.

The bond issue was approved by a vote of 12-1, with Freeholder James J. Reilly opposite the majority. The school is expected to cost $2.5 million and will include a new auditorium, library, gymnasium, and classrooms. The bond issue will be financed through a millage rate increase of 5 mills.

School Construction Slowdown Continuing

By ELIOT MILLER

PRINCETON — County voters approved two municipal bond issues for school construction in both West Windsor and Ewing in a special election day May 10, but only about 2,500 of the county's 10,000 school children attend schools in the two towns.

The School Construction Authority of Princeton, a regional agency, has already issued $2.8 million in bonds for school construction in the county's five towns.

The authority is also expected to issue $1.2 million in bonds for school construction in the county's five towns.

The school district in the county is located in the central part of the state, and the school district is the largest in the state.

The authority is expected to issue $1.2 million in bonds for school construction in the county's five towns.

Boating Grows
To Top Sport

BY CLYDE M. DAWES

Last year an account of boating and fishing was included in this column, indicating the increasing interest in the marine sports among the citizens of Monmouth County. It was reported that the local boating facilities were being expanded and improved, and that the season was expected to be a success.

This year, boating has again been a popular pastime among the residents of the county. The weather has been favorable, and the water conditions have been ideal for boating. The local boating clubs have been quite active, and many new members have joined. The annual boat parade held in Red Bank was a success, with many boats and floats participating.

New Matawan Buildings
Meant to Serve Residents

The Matawan Library and Community Center is a new facility that opened last year in Matawan. The center offers a variety of services to the residents of the town, including a library, meeting rooms, and community programs. It is a welcome addition to the town, and is serving the needs of the community.

Freehold Remains Interested
In Some Development Form

FREEHOLD — While urban renewal here is a dead issue, interest in development and improvement is not.

Freehold has no plans to go any farther with its recent land use rezoning, but word in the community is that investment-minded developers are continuing to look in with interest at the borough.

What makes the borough attractive is the fact that it is a central location for people who work in the metropolitan area, and it is also the site of several major employers in the area. The borough includes government offices and industry, and it is a growing commercial center.

While urban renewal seems to have slowed down, the borough is still interested in some development form. There is a sense that the borough offered an active downtown business center with quality hotels, the borough would see the benefit of new construction projects in the area.

War Against Poverty Attained
Advances in Monmouth County

BY DORIS BILZMAN
JERSEY CENTRAL Power & Light Co. today announced
that plans for expanded service in Monmouth County are
being coordinated locally by a community agency, the
Monmouth County Anti-Poverty Action Program Inc.

MCAP is an offshoot of a national program
established by President John F. Kennedy in 1964. It is
financed through a combination of federal, state and
local funds. MCAP began its operations in 1967.

MCAP is the first of a chain of poverty agencies
which will eventually cover the entire country. The
program is designed to help low-income families
achieve economic self-sufficiency.

MCAP operations have been in operation for
21 years. Through this period, MCAP has
distributed millions of dollars to low-income families.

The agency has provided a wide range of
services to aid low-income families. These services
include vocational training, education, child care,
housing, and medical assistance.

MCAP has established a network of service centers
in several towns in Monmouth County. These centers
are staffed with trained personnel who provide
assistance to low-income families.

MCAP receives funds from the federal government
through the Office of Economic Opportunity.

The agency's main goal is to help low-income
families achieve economic self-sufficiency. MCAP
provides a wide range of services to help
low-income families achieve this goal.

MCAP is an important part of the national
War on Poverty effort. The agency has been
very successful in helping low-income families
achieve economic self-sufficiency.

MCAP's success is due in part to the commitment
of local leaders and community members. The
agency's success is also due to the support of the
federal government.

MCAP's success is a model for other
community agencies. MCAP shows that
community agencies can be effective in helping
low-income families achieve economic
self-sufficiency.

MCAP is an important part of the national

Most of County Sewer Plans Fall Into Place

BY WILHELM L. GARBER

The county sewer plan will be put to the test in 1968, according to Mayor James H. Acker son, who said: "In the past year, Monmouth County has

Towns, Cities, Counties

The Sewerage Authority is the local agency responsible for planning, designing, and constructing sewer systems. The authority is governed by a board of trustees appointed by the county and township committees. The board is responsible for setting rates and fees for sewer service and for ensuring the efficient operation of the system.

The sewerage plan was approved by the Monmouth County Board of Chosen Freeholders in 1959. The plan provides for the construction of a system of interceptor sewers, which will serve the towns and cities in the county.

The plan is based on the assumption that the population of the county will continue to increase at the rate of 1.5% per year. The sewer system will be designed to handle the sewage generated by this population growth.

The plan includes the construction of a number of large treatment plants, which will be located near the areas of highest population density. These plants will be used to treat the sewage that is generated by the towns and cities in the county.

The sewerage plan is designed to meet the needs of the county for the next 20 years. It is expected that the sewer system will be fully operational by 1980.

The sewerage plan is being implemented by the Monmouth County Sewerage Authority. The authority is a public agency that is funded by the local governments in the county.

The sewerage plan is being financed by a combination of local funds and federal grants. The federal government has provided a grant of $3 million to help finance the construction of the sewer system.

The sewerage plan is expected to be a benefit to the residents of the county. It will provide a convenient and reliable means of disposing of sewage, which will help to protect the environment and public health.

The sewerage plan is expected to be completed by 1980. The construction of the system will be carried out in stages, with each stage being completed as the funds are available.

The sewerage plan is being monitored by the Monmouth County Sewerage Authority. The authority is responsible for ensuring that the system is operated efficiently and that it meets the needs of the county.

The sewerage plan is an example of the way in which local governments can work together to meet the needs of their communities. The plan is a testament to the importance of planning and cooperation in addressing complex problems.

The sewerage plan is an example of the way in which local governments can work together to meet the needs of their communities. The plan is a testament to the importance of planning and cooperation in addressing complex problems.
The Middletown Record 1968 January 10

Middletown - 1967 was a milestone year for the Monmouth Medical Center. The center's 80th anniversary was marked by the opening of new facilities and the beginning of a major expansion program.

In 1967, the center's board of directors approved a new $750,000 capital campaign to finance the construction of a new medical center. The campaign was successful, and the center was able to begin construction on a new 300-bed hospital in 1968.

The center also celebrated its 80th anniversary in 1967, with special events and an open house for the public. The center's history was highlighted, and the community was invited to share in the center's past and future.

In addition to the anniversary celebration, the center continued to provide high-quality medical care to the community. The number of outpatient visits increased, and the center added new programs and services to meet the needs of the community.

The center's staff grew to 18 residents and 18 nurses, and the center was able to provide more comprehensive care to patients.

In conclusion, 1967 was a year of growth and progress for the Monmouth Medical Center. The center continued to provide excellent medical care to the community, and the center's future looked bright with the construction of a new hospital and the beginning of a major expansion program.
Red Bank Area MLS Cites Shortage of Available Housing

West Long Branch Progresses In Retail Trade and Real Estate

Red Bank — A year of unexplained good fortune to Red Bank merchants, an insurance agent, a professional realtor and several bank officials.

The availability of local housing has been cited as a factor in the good fortune.

The dollar volume of sales, proportionate to the volume of available housing, has fallen to 747 in 1967, while sales of available housing have only slightly increased over the past five years, from 695 in 1963 to a record $24,000 in 1967.

The concept of data processing and the rapid expansion of the new housing starts, has resulted in a decrease of 20,000 housing units in the area as well as a decrease in the average size of units, from 2,000 square feet to 1,500 square feet.

Land scarcity may be the most important reason for the decrease in available housing.

Monmouth County Grows
As Art, Culture Center

By ELAINE MARS M
Monmouth County's cultural growth is in evidence. In the last year or two, at least six major cultural institutions have opened or expanded operations. Three of these have resulted from partnerships between the arts and local commercial interests. Dues to the vision and leadership of many local residents, the arts are now well established throughout the county.

The Monmouth Museum, established in 1960, is the oldest art museum in the county. It is also the largest, with a collection of over 1,000 works of art. The museum has recently expanded its facilities, and now includes a gift shop and an art education center.

The Monmouth Museum of Art, opened in 1965, is the only art museum in the county that is open to the public. It features a collection of contemporary and modern art, as well as a variety of special exhibitions.

The Monmouth Art Center, opened in 1967, is the newest art museum in the county. It features a collection of works by local artists, as well as a variety of special exhibitions.

The Monmouth Music and Dance School, opened in 1968, is the newest arts institution in the county. It offers classes in music, dance, and other arts disciplines.

In addition to these institutions, the arts are also flourishing in the county through the work of local arts organizations, such as the Monmouth County Arts Council and the Monmouth County Arts League.

Monmouth County's arts and culture scene is an important part of the county's economy, providing jobs and services to local residents. It is also an important part of the county's identity, helping to create a sense of community and belonging.

But there is more to be done. The arts and culture scene in Monmouth County is still in its infancy, and there is much more work to be done to ensure its continued growth and success.

First, we need to support and expand the existing arts institutions and organizations. This includes providing funding, both public and private, to ensure their continued operations.

Second, we need to create new arts institutions and organizations, to provide a variety of options for our residents and visitors.

Third, we need to promote the arts and culture scene in Monmouth County, both locally and nationally, to ensure its continued growth and success.

Finally, we need to ensure that the arts and culture scene in Monmouth County is accessible to all residents, regardless of their income or background.

These are just a few of the steps that need to be taken to ensure the continued growth and success of Monmouth County's arts and culture scene. But with the support and commitment of all of us, we can make it a reality.
Milestones Noted
At Central Jersey

By ROBERT R. BARLOW
President
Central Jersey Bank

Twenty years of successful growth have been a part of the Central Jersey Bank and Trust Co.'s story.

The merger with the Central Jersey Bank and Trust Co. in 1966 created one of the largest banks in Monmouth County, with assets of $135,196,254.55.

Deposits for 1967 were $172,801,077.23, as compared to $127,215,680.32 in 1966, and $120,667,832.73 in 1965.

Checking accounts, savings accounts, Christmas Club accounts, and trust accounts increased by $1,123,500, of the remaining $470,000 in building, two churches constructed additions to the township, and several additional buildings have been constructed. The $800,000 Holiday Inn, or "Motel," was completed during the year.

The ever-growing development, with the ever-increasing activity, prosperity and progress, reflects the work of all the men, women, and employes to devote even more time to living up to our motto, "Service Is Our Biggest Asset."

For the future of Monmouth County, we can be commended for their full efforts. And the real estate market, influenced by the national economic pattern, has been unusually strong.

The promise of new and improved housing in the township faces the prospect of steady construction during the two year period. With Raritan Valley USA sparked the more than $1.5 million in construction here last year, with Raritan Valley USA sparking the more than $1.5 million in construction here last year, with national economic pattern, has been unusually strong.

Many decisions involved in every real estate transaction.

Most people are involved in more than three or four real estate transactions in a lifetime. Therefore, when it comes to buy or sell a home, they need trustworthy professional help. Every buyer and seller has a good friend to whom he can turn for expert, honest assistance. That friend is a member of the Red Bank Area Multiple Listing Service, who must meet strict professional qualifications, and whose job it is to be of assistance to home sellers and home buyers.

For Colts Neck

Downgrading Eyed

The move was presented to the governmental officials of the town, demonstrating the potential for economic benefits and community development.

The township is facing a significant issue related to the assessment of its infrastructure. Officials have proposed downgrading portions of the township, particularly in the developed sections. This decision aims to reevaluate the existing zoning regulations and adjust them to better align with the current conditions.

In the meantime, the Planning Board has been working on a master plan for the town's development. This plan includes an assessment of the area's potential for residential and commercial use, considering factors such as infrastructure, zoning, and potential for future growth.

The proposed changes would affect approximately 5.9 acres of land, representing a significant portion of the area under consideration. The board is currently reviewing the proposal to ensure it aligns with the town's long-term goals and community needs.

The proposal would impact land zoned for residential purposes, with the potential for increased development. This decision is part of a broader effort by the town to manage its resources effectively and ensure sustainable growth.

The move is part of a larger initiative to upgrade the town's infrastructure, including roads, utilities, and other essential services. The town is seeking ways to improve its overall appeal to residents and businesses, making it a more attractive place to live and work.

The decision will not only affect land use but also have implications for property values and taxation. The board is expected to finalize its recommendations in the coming weeks, providing further details on the proposed changes and their potential impacts.

For more information, residents can contact the Planning Board or visit their website for updates on the ongoing discussions. The town encourages community feedback to ensure that the final decisions are inclusive and reflect the needs of its residents.

EDWARDSING — The quartet work from the Mozart Requiem are stranded in a surprise as surprise: the singing of sanity. Mrs. Howard Carter, Mrs. Geary Hussey and William Shoppell. They performed before an enthusiastic audience Sunday night at Meadow Lakes.

Choralie Soloists for Mozart Requiem Concerts Announced

FRANCESCA COLLINS, soprano; THOMAS HAYNOREN, baritone; and MAE JACOBS, contralto, will conduct the symphony orchestra and the choirs in the performance of the Mosis Requiem. The choirs will be composed of the Woodbridge High School choir and the Woodbridge High School orchestra. The concerts will be held at the Woodbridge High School on Thursday, March 31, and Friday, April 1.

League Hears About Concerto

The League of Women Voters of Woodbridge will hold a meeting on Tuesday, April 5, at 8 p.m., in the Woodbridge High School auditorium. The program will feature a discussion of the concerto, "To the Moon," by Antonin Dvorak. The discussion will be conducted by Dr. Robert K. Bulkley, who will also give a short talk on the Dvorak concerto. The meeting is open to the public.

Miller Heads Fire Company

Walter Miller, president of the Woodbridge Fire Department, was the guest speaker at the meeting of the Woodbridge Fire Department on Tuesday, April 5, at 8 p.m., in the Woodbridge High School auditorium. He spoke on the importance of fire prevention and the need for proper equipment.

The Day Under Your Sign

Mr. and Mrs. Robert White, residents of Woodbridge, will be the guests of honor at the Woodbridge Fire Department's annual banquet on Saturday, April 9, at 8 p.m., in the Woodbridge High School auditorium. The banquet is open to the public.

"ASTRO-GUIDE" by Ceesen

Towards the end of the year, the stars are the most noticeable, with the Pole Star, the North Star, shining brightly. The Pole Star is the most important star in the sky, as it is used as a reference point for navigation.

The Plowman's Star

The Plowman's Star is a star that is visible in the winter sky. It is located in the constellation of Cassiopeia and is one of the most easily recognizable stars in the sky.
