

A black and white photograph of a large, modern building with a curved facade. The building is constructed of brick and features a prominent overhanging section in the center. A tall, thin flagpole stands in front of this overhang. The building's roof is dark and has a decorative, repeating pattern along the edge. In the foreground, there is a circular concrete area, possibly a plaza or a driveway, with a low brick wall around its perimeter. The ground in front of the building appears to be a dark, paved surface. The sky is light and overcast. The overall style is that of a mid-20th-century architectural photograph.
