# FOREWORD

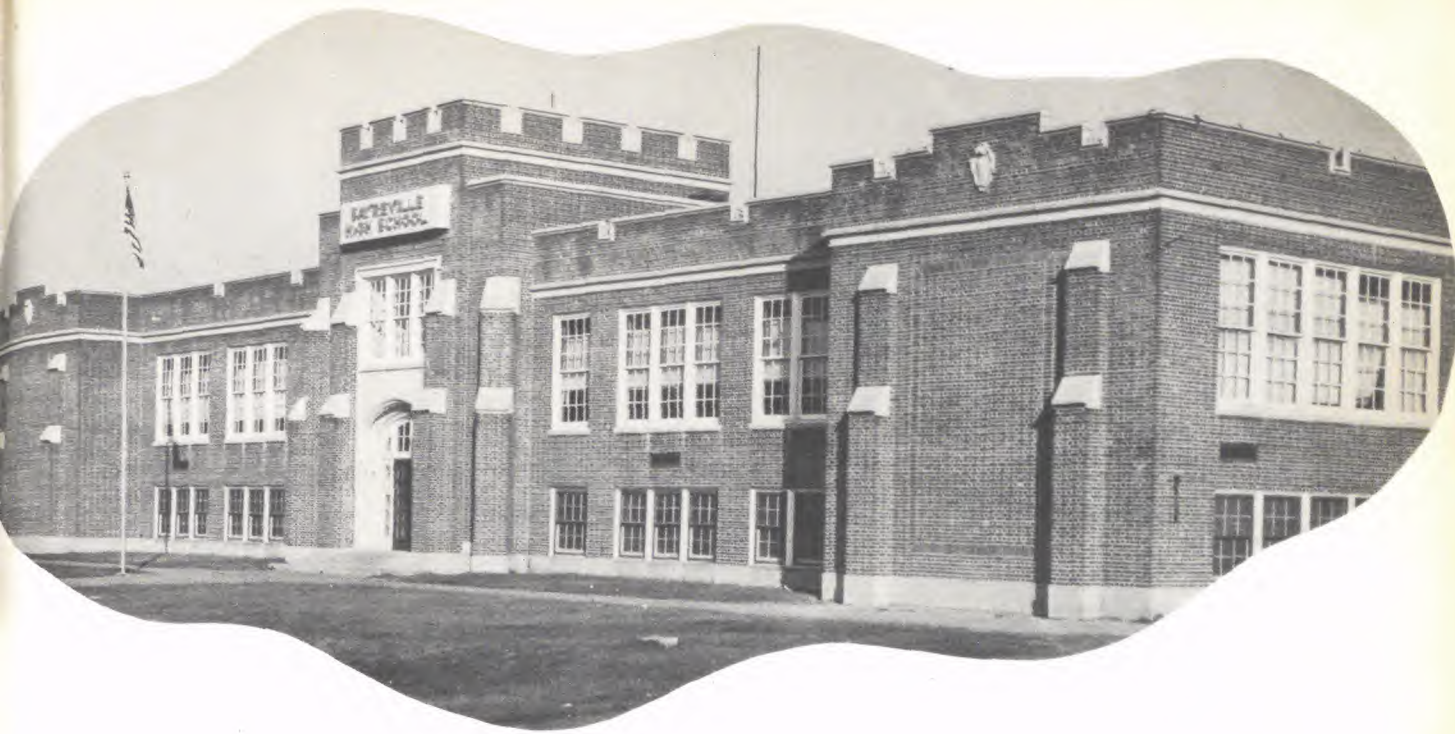

Our school is the living community of the young people of Sayreville and the surrounding countryside. We have grown up with it; it is an intimate part of our young lives. As Freshmen, we approached its impressive structure with awe only to find it as mellow and human as home. Through it we made our first venture into the world of grown-ups. We found a whole society that had its leaders and citizens, its laws and duties. We became part of this society.

Slowly, slowly we made our first social contacts; we found friends and bosom pals with hearts as true as gold. Slowly, too, we were initiated into the tasks and duties of the business world of young people. Our task was to receive the culture and learning of our forefathers. But now we near the end of that task and hope we have reached our goal.

We, the class of '51, say with heartfelt gratitude, "Thank you, Sayreville High School."

## DEDICATION

We, the graduating class of 1951, dedicate our yearbook, Quovadis, to education. The very meaning of the title of our yearbook, "Whither Goest Thou," is in keeping with this dedication. Do we know the way, and what is more important, where are we going?

Education establishes goals worthy of human endeavor and points out the paths that lead to their attainment. We as students are conscious of the zealous efforts education expends on our behalf. Sometimes the goals seem extremely high and the way to ultimate success insurmountable. But by gentle measures, perseverance and human understanding education overcomes each barrier in our path.

We, in our young student life, have many problems and needs. Many of them are solved for us, and what is most remarkable, this is done so unpretentiously that we are relieved of embarrassment. We can all remember venturing out on the dance floor for the first time. It was only the first cold plunge that was difficult; after

that a new social life opened up before us. We now felt more mature and confident.

But the confidence we were building in our own ability did not end there; our wood and metal craftsmanship, our typing and sewing, our many other displays of talent were admired. At times we were requested to perform services for the school community. What a glorious experience it was to feel that we were needed and useful to our small society.

Our elders, in turn, asked assistance from us. We were now crossing a golden bridge that connected the school community with the town community. We were being recognized as citizens who had their share of accomplishments to contribute to society.

How gentle the progress, how sudden the realization, but how great the planning on the part of education to make us feel we were acceptable and wanted citizens in the social world that exists outside our school.

# Us for the World of Today...

The ageless earth journeys in its orbit, while mighty celestial forces maintain it in its balanced progress.

The hand of God is steady on the helm with cause and effect following each other as inevitably as spring follows winter.

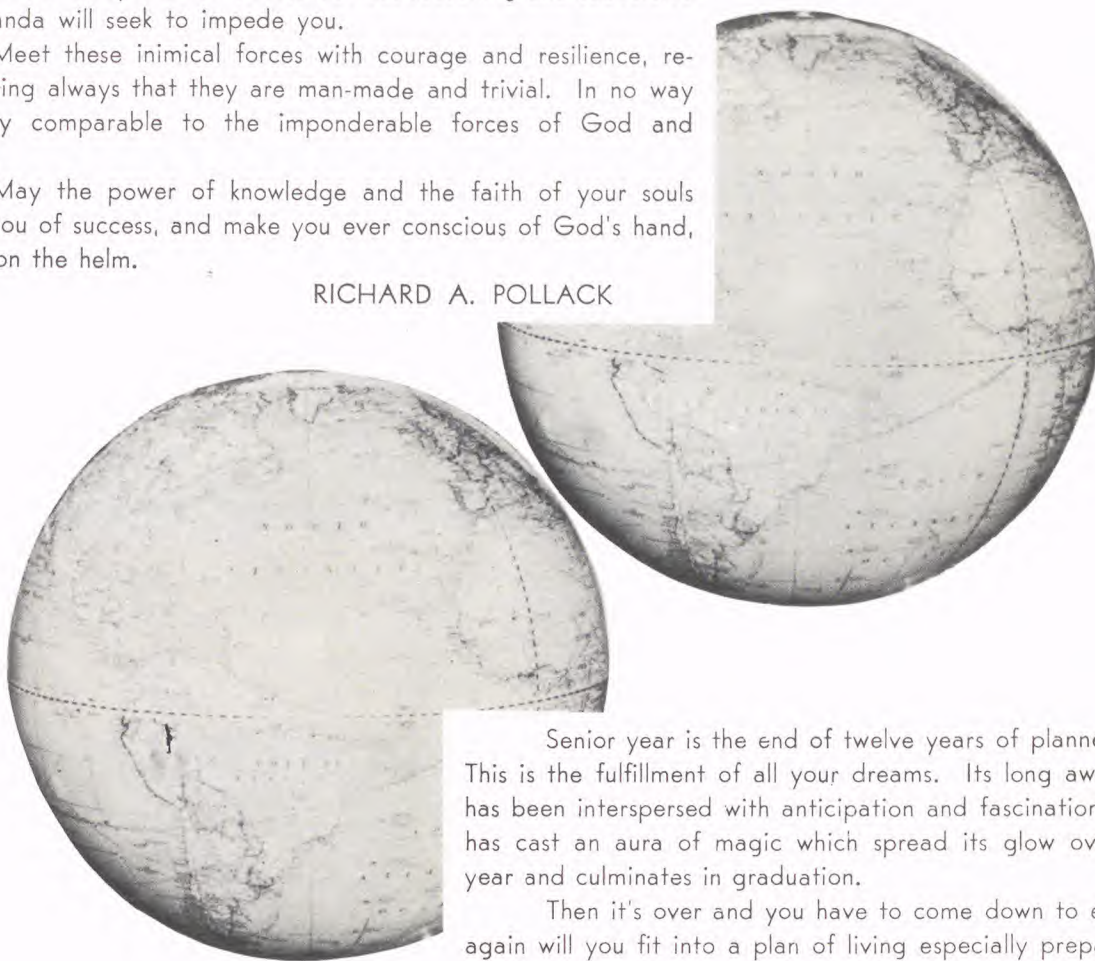

The clock of the years is marked with flowers. When tulip time has passed and the hands approach the time of roses, you, the Class of '51, will go to meet your future.

You will seek your places in a world no longer tranquil, but reeling from the impact of changed values, confused and torn by the dissembling and dissent of men. Your path will be shadowed by tension, uncertainty and fear, while devious reasoning and subversive propaganda will seek to impede you.

Meet these inimical forces with courage and resilience, remembering always that they are man-made and trivial. In no way are they comparable to the imponderable forces of God and nature.

May the power of knowledge and the faith of your souls assure you of success, and make you ever conscious of God's hand, steady on the helm.

RICHARD A. POLLACK

Senior year is the end of twelve years of planned education. This is the fulfillment of all your dreams. Its long awaited coming has been interspersed with anticipation and fascination. Its advent has cast an aura of magic which spread its glow over the entire year and culminates in graduation.

Then it's over and you have to come down to earth. Never again will you fit into a plan of living especially prepared for you. The past is beyond your power, only a memory. The present is reality. Your high school curriculum program, based on worthwhile life experiences, has helped you to attain knowledge and social maturity in the realm of your peers. The habits and training of school life will be easily adapted to your emerging adult life.

May the set of values which you, the Class of 1951, have formulated for successful school adjustment help you to devise a pattern for a happy and useful life.

Truly, American Education makes Graduation Day a symbol of all the good things we so earnestly desire for the youth of the nation.

MARGARET MARY WALSH,

Principal.

3 Martins La. Sayreville  
Basketball, Football, Hot Rod Club, Craft Club.

There goes "Spades" dribbling down the court — he stops — shoots — another basket for Sayreville High. Spades is a popular fellow around school and for this reason — he has a good personality and has always been a good sport.

**LEONARD WITKOWSKI**

36 Kearney Ave. South Amboy  
Jay Vee Basketball, Radio Club, Dramatics Club,  
Senior Play.

Lenny is one of the happy-go-lucky boys of the senior class. His chief dislikes, however, are homework and girls. Lenny is one of the constant gum-chewers of the class. What his career will be is still undecided.

**CLEMENT WOLANIN**

36 Canal St. Sayreville  
Air Navigation Club, Woodwork Club, Metal Shop,  
Hot Rod Club.

If we didn't see Clem, we wouldn't know he was in class. Next to Zeb, Clem is the quietest boy in the senior class. Clem's love for hot rods proves that he will be a good and successful auto mechanic in the future.

# SENIOR CLASS

**JOAN YANAS**

31 Laurel St. South Amboy  
Commercialites Club (Secretary), Dancing Club,  
Office Practice, Echo-Lites (Business Manager),  
Yearbook.

Joan, the last of the "Three Musketeers" from Melrose, well deserves the title of "Kathryn Murray" of the senior class. Motorcycles and dancing to Baron Bobick's music thrill her. In answer to Joan's frequent visits to South Amboy, she has but one reply, "George!!"

**MARY ZEBROWSKI**

Forrest Ave. Sayreville  
Commercialites Club, Library Club.

Mary has the honor of being the quietest girl in our class. Mary has seldom been absent during our four years in high school. She has few dislikes and likes Club period best. Good luck in the future, Mary.

**WALTER ZAMORSKI**

23 Reid St. Parlin  
Football, Baseball, Jay Vee Basketball, Freshman  
Class (Treasurer), Radio Club, Track, Senior Play.

Buddy is one of the cutest boys in the class. He is usually found with Schmitt or Holthausen. Buddy's chief interest is Candy. Ten years from now we will probably see Buddy as Manager of Myt-nick's Service Station.

**THEODORE ZEBROWSKI**

Forrest Ave. Sayreville  
Library Club.

"Zeb" is the quietest boy in our class. But this only happens during school. After school, Zeb hangs around with the lower-Sayrevillites. We wish you lots of luck in whatever you do after graduation.

Dedicating itself to the task of representing the student life at Sayreville High School, the Quovadis Staff presents its yearbook—the tenth in the history of the school.

We sincerely thank our advertisers, patrons, boosters, and all others responsible for the success of this edition.

To choose the editor, each year a contest is held, in which all contestants write an editorial to be judged by the members of the faculty on the basis of writing ability and thought.

This year's contest was judged as a tie resulting in the formation of co-editors—Ann Marie Tauber and Patricia Diestel.

These co-editors, with the assistance of the editorial and business staffs, have done their best to produce this yearbook with the hope of pleasing its readers.

## COMMERCIAL

The commercial curriculum is strictly a vocational course. It prepares its members for office positions. The commercial subjects are as follows: junior business training, commercial geography, typing, stenography, bookkeeping, office practice, commercial law and salesmanship.

Stenography I and II and office practice must be satisfactorily completed by the student for a commercial diploma.

In their senior year, the applicants experience practical training through outside positions. Filing, cutting stencils, and operating calculating and duplicating machines are included.

## COLLEGE PREPARATORY

The college preparatory course is offered to students who plan to enter college upon graduation from high school.

The college preparatory curriculum has a general standard pattern which includes basic subjects which applicants for college must present. These are algebra, geometry, trigonometry, Latin, French, biology, chemistry and physics.

College preparatory students take general science, music, and for girls, home economics. Drafting, typing and stenography are recommended as valuable subjects for students who are preparing for college.

## GENERAL

The General Curriculum is offered to those students who are undecided as to their future position. Pupils may transfer to other curricula provided their marks are satisfactory.

A student who remains in the curriculum selects subjects which should prepare him for post-graduation. Such a student has a long list of electives from which to choose.

Mathematics and science may be chosen by a student who is considering college, while students interested in secretarial work may select stenography and typing.

## INDUSTRIAL ARTS

The Industrial Arts Curriculum is designed primarily for students who are interested in mechanical arts. Basic academic subjects are required together with four years of practical training in shop work. Such courses of study include the making of practical articles which belong to the students after the completion of a marking period. Upon graduation the Industrial Arts pupil has adequate training as an apprentice for work in the various trades.

## BASKETBALL

### Group I State Champs

The 1950-51 season for the Sayreville Bombers will go down in the school's basketball history as the year the team brought home their first Group I Central Jersey Championship.

Sayreville wound up their regular season with a record of 3 losses against 15 victories. In the second Hoffman fray the Bombers came from behind at the three quarter mark to overtake a 17-point deficit winning 62-60.

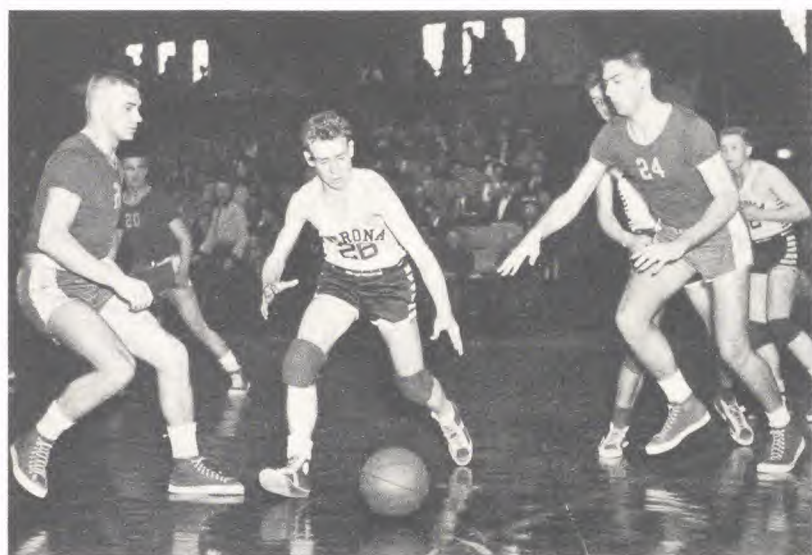

Sailing into the tournament at full steam, the Brickmen, under the able and guiding eyes of Coach Gutkowski, who has chalked up his second year as head of the basketball squad, quickly disposed of Point Pleasant and Hightstown, receiving little opposition. After a tense encounter with Hoffman in the finals the Bombers squeezed out a 58-57 win, giving Sayreville its first court championship.

After securing the Central Division title the Blue and Gray overran a weak Gloucester five, 56-40, to set themselves up for the finals in the state tournaments. Meeting Verona at the Elizabeth Armory, Coach Gutkowski's squad came out on the winning end of a tense court battle, emerging with the Group I State Championship.

# FOOTBALL

The 1950 edition of the Sayreville High School Bombers closed out their season with a record of three wins and five losses.

The Blue and Gray suffered a serious setback when they lost the services of eleven regulars in their championship year of 1949.

However, with Al Noble and Charlie Kolakowski as the only returning veterans, the Bombers had a commendable season against the strong competition they encountered.

Al Noble, Joe Schmit, Buddy Zamorski and Kolo sparked the team in every contest.

The team coming up for 1951 should be very promising with such stellar performers as Pete Tilquist, Kolakowski, Robert Evanovich, John Sinuk, etc. With this array of players, Sayreville High School will return again to the top of the football ladder.

### EMPTY CORRIDOR

All good things must come to an end. We graduated today. The ties with our school were broken so suddenly we were reluctant to leave. We waited until the crowds dispersed and this is what we saw—an empty corridor. "All, all are gone the old familiar faces." God speed us all. Through a lifetime may we ask ourselves the question, entitled on this book, Quovadis.

## OPPORTUNITIES

The young men and women who comprise the 1951 Graduating Class of Sayreville High School commence the next phase of their lives in an America which is full of opportunities, in spite of the uncertainties brought on by present world conditions.

The learning and training of your past four years will help you in your efforts to success, but in the ultimate the amount of your progress will depend upon your own efforts.

Owens-Illinois wishes you every success.
