Summit Girls at Y. W. C. A. Conference

The first of a series of summer conferences for workers in the Y. W. C. A. is now being held at Summit Lake, Central Valley, N. J. Miss Mary Pecca and Miss Theresa Molinari represent the local Association. The conference includes girls working in factories and in domestic service. This department of the Summit Association is under the direction of Mrs. L. C. Dundon and Mrs. R. T. Kimberlin.

In Y. W. C. A. industrial department throughout the country there are 85,000 girls, who are factory workers of all kinds, including telephone operators and household employees. Their programs, consisting of recreation, social discussion and social activities. Because of the unemployment situation, increased leisure and complicated work problems, many more young women workers have turned to the industrial departments for help in solving their problems and for better understanding of conditions during the last few years. In 1935 departments have indicated a tremendous increase in membership and activity.

One of the interesting things to be noted in such cities, is the fact that industrial girls are learning how to assume leadership in Association group work and are increasing their responsibility toward community problems and taking part in community life as never before. In Summit an industrial club member sits as a representative of her department on the Board of Directors. Participation of industrial workers, who have increasingly carried leadership responsibility in associations in the direction of general Association policy and practices, will be discussed by the industrial delegates at the conference now in session.

The theme of the conference will be "How Can Youth Build Its Future?" In addition to the leadership drawn from the girls themselves there will be outstanding speakers from educational and social institutions throughout the East. Dr. Colson Warner of Amherst College, who will later be director of the Summer Institute at Wellesley, will be the major lecturer at the conference. Miss Frances Williams and Miss Ethel Miller, of the National Y. W. C. A. staff, will also be among the leaders of the group. Miss Elsie West, formerly of Summit, but now Business and Industrial Secretary of the Niagara Falls Y. W. C. A., will be in charge of the conference newspaper.

Miss Mary Pecca is president of the local Y. W. C. A. Club and has been active during the past year on the Convention Study Committee of the Summit Association. Miss Theresa Molinari has been active on the Leisure project and World Fellowship programs and has served as editor of a magazine published by her club.

May Change Name of High School P. T. A.

One title of pennies is the financial goal that has been set for next year by the Parent-Teacher Association of the Senior High School. This annual objective was decided on recently at a meeting of the Executive Board held at the home of the president, Mrs. Edward E. Black. Among the other proposals discussed was a plan to broaden the scope of membership of the Association, the new plan being calculated to bring into the group all graduates of Summit High School who are interested. Nominal dues of a few pennies, or sixteen cents, will be collected. Under the new plan, the title of the organization will be changed to the High School Association. The step being submitted to the approval of the members at the first fall meeting.

In accordance with the proposed change, it was felt advisable to have the by-laws revised, and Mrs. Charles J. Beck was given the responsibility of drawing up a new constitution.

Continuing its policy of a series of meetings with worthwhile objectives, the Association has planned a series of four to be held during the season, all meetings coming in the evening with one joint affair with the other Parent-Teacher Associations of the city as well as the local education group.

Feeling that more emphasis can profitably be given to the subject, "Adult Education" was selected as the theme for the new year. The first meeting, particularly fitting, for the Association is a co-sponsor of the Forum to be conducted by the Y. M. C. A. Auxiliary as well as the winter program of adult education in community project. In keeping with its desire to secure authoritative information for the citizens of Summit, a request was made to Doctor Plant of the Essex County Juvenile Clinic that he give a course in adolescent psychology, the course being sponsored jointly by the Junior and Senior High School Associations.

Twenty-two persons are serving as heads of the numerous Association interests for the coming year. Assisting Mrs. Black are Albert J. Bartholomew, vice-president; W. B. Brough, second vice-president; Mrs. C. E. S. Bellows, Jr., corresponding secretary; Mrs. O. P. Oakes, recording secretary; William A. Rosenthal, treasurer; Mrs. P. H. Cophthorn, parent director; Miss Ida F. Herrmann and James E. Downes, track directors; Mrs. K. J. Hall, finance chairman; Mrs. H. Brett, program chairman; Mrs. Chauncey S. Hickok, 2nd, refreshments; Otto P. Taylor, legislation; John K. Fleuninger, Jr., publicity chairman; Mrs. Philip Lawrence, membership chairman; Walter L. Pfleger, recreation chairman; Mrs. E. W. Van Vorst and W. W. Hyde, representatives to the Council of Social Agencies; Mrs. T. Duffield and Mrs. R. H. Kreider, co-chairmen for transportation; Mrs. Van Vorst, welfare chairman; Mrs. Y. B. St. John, physical education and motion pictures, and Mrs. E. T. Hadley, library chairman.

"Here Comes The Book Car"

"Here comes the book car!" That's what the boys and girls sing out with glee in the Pine belt, in some of the villages that dot New Jersey's mountain scenery. The roads that lead to other parts of the more sparsely settled sections where there are no big libraries.

That's where some of the books will go that come in from the Citizens Gift Book Week, June 22nd to 27th, after the needs of the local libraries are filled. Not only does the Public Library Commission send such books out to small communities but there were also emergency libraries established with books from last year's book libraries circulated 21,000 books through the year. These will get their share. Of course, it means that many of the books were sent out many times to get such circulation. It shows the enormous amount of good that comes of books given by the local libraries at this time when municipal budgets have decreased, and when retailers and resellers have increased book account.

To Those Who Own Family Keepsakes

The smallest steel safe deposit box in our vault will protect many precious and small heirlooms—such as tinypies, photographs, letters, watches, jewelry, and other articles, which may be treasured by a son or daughter even more than by you—and which, therefore, should be safely guarded from fire or water damage, and from theft.

Whether they have immediate cash value or not, such things are worth far more than the cost of keeping them secure in a safe deposit box.

Triple Second Place Tie to Be Broken Tomorrow as Summit Faces Dover Away

Morristown at Millburn and Madison at South Orange in Other Lackawanna Games—Girvan Leads League Batters With .500 Average

By BILL LUCAS

The Summit Sox engage in one of their "crossed" Lackawanna League games tomorrow when they trek twenty miles to Dover to encounter the Generals who are now tangled in a three way mix-up for second place with the Sox and Madison Colonials, just one game behind those pace-setting Millburn Blues. If Miller, who has worked in all Summit games this year, will pitch against Lefty Marion, a member of Wilbur O'Brien's 1935 fifth place team.

Other league games will see the Morristown Colonials and Blues battling at Millburn and Madison facing the South Orange Villagers in the Village. The Colonials have their backs to the wall as they are in fifth place, two games behind the Blues, and a defeat tomorrow would place them three games out of the lead and dim pennant prospects.

Cricketston sports, scribbles and fans kept insisting that the Colonials are not the fifth place club and are due to come up in the world. Eddie Strebeck or Pete Mallett will be on the firing line. Millburn will use Eddie Bell, George Maruska or Eddie Pallenstine. A new catcher will be listed by the Blues.

League meeting here as Charley Harzaevs, regular receiver, will do utility duty with the Cincinnati Reds while Ernie Lombard's split finger heads.

Earl Tiffany will probably hurt for South Orange with Lefty Motzer receiving. Madison has Ray Volitz, Lefty Russell, Emil Muskatow and Jim Duffy available.

Star New Pitcher
Manager Pinkie Penitente has signed Carl O'Grady, right-hander who is now with the Rayville Club. Pinkie still has hopes that the postponed game of June 13th with Millburn will be played here on the morning of July 4th.

General manager with Heron Shaw's team and Jim Goodell and Gene Gooden performed in the Hill City backfield.

There will be Little Five Conference games with Millburn, Glen Ridge, Madison and Caldwell. The latter team, a newcomer among Summit's opponents, will be faced here on November 14th. The Westfield game, a closing contest in previous seasons, has been moved to the first Saturday in November. All of the games, with the exception of the Millburn battle October 9th, will be played on Saturdays.

Two Heads With But a Single Hat

Significant to you fashionables because it's a forerunner of the trend toward simpler—yet trickier hats for fall. And if that sounds like a paradox, read on. Here we show exactly the same vagabond hat worn in two of its many versions. Left, brim snapped down in front, rolled up in back. Right, brim rolled up all around brim fashion. In white felt with white grosgrain band and slender red and white feather.

SUMMER PLAYGROUNDS

Those children of Summit who
will not go to mountain, lake and
seaside resort for a vacation, or at-
tend any of the Stay-at-Home
camps, still have a chance to have
a lot of fun and recreation during
the summer.

They will have the use of the
playground facilities of the city
under competent supervision, with
well arranged and attractive pro-
grams covering a large variety of
activities.

The Board of Recreation is open-
ing on Monday, June 29th, under the
general supervision of Director of
Recreation Harlan S. Kennedy, five
playgrounds in the several sections
of the city—Mable Memorial, Wash-
ington, Roosevelt, Jefferson, and of
course the beautiful Soldiers' Mem-
orial playground in Ashland road,
the main activity to be on the
Bryant School grounds. The
Board of Education is lending aid
to the program by allowing the use
of the school playgrounds.

Programs have been so planned
that attention will have a full day
of activity on each day that the
grounds are useable, with popular
sports, hikes, picnics and tourna-
ments.

There will be no lack of amuse-
ment and supervised play for the
children, carrying also an educa-
tional value. Parents need have no
hesitation in trusting their chil-
dren to the directors of the play-
grounds. They will be well taken
care and have an enjoyable outing
right at home.

The playgrounds are your play-
grounds. Have them used by your
children. That's what they are for—
use and enjoyment.

TRAFFIC MARKINGS

Since the passage of the new
traffic ordinance which besides set-
ting limits of time for parking,
gave the Mayor authority to erect
suitable signs and cause proper
street markings and cause proper
street markings not inconsistent
with State traffic laws, workmen
have erected many such signs and
marked the streets. Some signs
have not as yet been changed.

Each section has been spaced off
according to the ordinance and in
the short-time parking zones large
letters have, in most cases, been
placed in the street spaces desig-
nating the time limit for parking.
Where the time is an hour or more
the standard sign has been placed.
Corner setbacks and fire hydrant
zones have been well marked. Any
one with half an eye out for park-
ing time cannot fail to see and heed.

We have been around quite a bit
and think the markings in Summit
are superior to those in most other
towns. The point now is to keep
them fresh and readable.

We suggest that Mayor Baucker
have some one check on the one-
way signs at the Maple street rail-
road bridge. Our observation a day
or two ago was that one of the
signs is missing and the one at-
tached to the guard wire on the
sidewalk side cannot be seen by one
coming from the crossing into
Railroad avenue, going toward the
station. We saw a car going the
wrong way the other day. It had a

YOUTH IN THE SADDLE

Youth must have its place in the
sun; youth must have its innings;
youth must have its opportunity for
self-expression and self-determi-
nation; youth must have its chance
at demonstrating what it can do
toward making the various phases
of life more worth the living.

It is said that youth has not been
taught as it should have been.
What have our schools and colleges
been doing all this while if that is
true? Youth has not had the home
training it is entitled to it is said.
This can be charged to none but
the parents if it is true. Probably
they have been letting the self-ex-
pression go too far. To remedy
this social agencies and youth wel-
fare organizations are being set up
covering quite a range of subjects.
It is said that youth needs more
religion. This is not the fault of
our ministers. The true minister
and the Sunday school are doing
their best. This again comes back
on the parents and the age that lets
children find themselves.

In the economic and political
fields youth is pushing forward to-
day with considerable speed and
lengthened stride, in an effort to
make up for its having been denied
its heritage, as some have charged.
On every hand one finds it stated
that youth has gained control of
the Republican Party and is going
to carry it forward to new heights.

Where there is no vision the peo-
ple perish. Vision has been denied
the Old Guard in the party is the
inference; it has become static,
ready to sit back by the fire-side
and dream of the conquests of the
past and let memory recount the
accomplishments. Youth is to
transmute its vision into actuality,
go forward on the path of progress
and get us out of our economic dol-
drams and establish security. We
shall see. This is what "The Wash-
ington Transcript" has to say under
the above caption:

"Yet no matter what happens to
the Republican cause, the nation has
nothing to lose and everything to
gain by putting youth in the saddle.
The Old Guard could not go on for-
ever, both because of the inexorable
ravages of time itself and because
so many of the older men are out
of touch with the popular sentiment
of the day. Since the last campaign,
a million or more young Republi-
cans have reached the voting age.
They want leadership that is close
to them. They want leadership that
has the fighting spirit. This year,
thanks to the character of the
party ticket and to the composition
of the party's general staff, they
are going to have both these
wishes granted."

DO NOT BOOTLEG

One week from tomorrow we
celebrate the birthday of our coun-
try. In many places throughout the
land it will be a comparatively
quiet Fourth so far as the celebra-
tion of powder-explosive celebra-
tions are concerned. In others,
where the safe and sane idea has
not permeated, it will probably be
the same old rip-roaring, sis-boom,
bang day of our childhood. In that
period of advancement youngsters
and oldsters suffered powder-
stained faces, burned fingers, lock-
jaw and sometimes even death to
show their patriotism.

Most of us have learned better
by this time and observe the day
more quietly and with considerable
less liability of a call at our family
physician's office or a hospital. But
with all this, there are still far too
many minor accidents and deaths
just because we want to exhibit our
notion of devotion to the home of
the free and the brave.

We have the safe and sane ordi-
nance in Summit but we have al-
ready heard exploding fire-crack-
ers. We sincerely hope none of our
citizens will bootleg celebrating
material. Spend a few quiet hours
in thinking about the sufferings and
hardships the Revolutionary sol-
diers went through to establish our
independence; think of the sacri-
fices the non-combatants made to
keep the army in the field. Because
you do not believe in war today is
no good reason why you should
overlook those of the past who, in a
different day and time, thought war
a necessary evil to preserve their
independence and leave a full day
of activity for their children and their
children's children.

We do not expect to be greatly
disturbed in Summit by exploding
fireworks, but it might be well to
reprint the following from last
Sunday's "Times" (N.Y.), furnish-
ed by the Associated Press:

"The celebration of American
Independence has cost more lives,
within a 30-year period, than were
lost in winning it.

"The United States Conference of
Mayors, in a plea for greater pre-
cautions in this year's July 4th
celebrations, made the comparison:

"Only 4,444 Americans were killed
in the entire Revolutionary War;
the conference said, while 4,290
were killed by fireworks in the 30
years after 1900.

"Within the same period sixteen
times as many people were injured
by fireworks as were wounded in
the Revolutionary War.

"Contending that there is no such
thing as harmless fireworks," the
Mayor's organization said that two-
thirds of the 7,768 casualties in
1935 were caused by the common
fire-cracker.

"The conference recommended
strict municipal ordinances to for-
bid the use of fireworks except un-
der an official permit.

"It pointed to the Baltimore ordi-
nance as a model. While this has
stimulated public displays of fire-
works, the conference reported, it
caused a sharp reduction in the
number of casualties.

"Last year only sixteen persons
were injured in the Baltimore July
4th celebrations, said the confer-
ence. In the rest of the State, with
about the same population, more
than 100 persons were killed or
wounded.

"Before Detroit adopted a fire-
works ordinance, it had an average
of sixty-six fires a year caused by
fireworks. After the law was passed,
the average fell to less than
one a year. Similar results were
reported by the conference from a
Milwaukee ordinance of the same
type."

Think it over. Then go to the
ball game.

KINGS AND KING-MAKERS

Back in the fifteenth century a
certain sort of Warwick attained
such skill in seating and unseating
sovereigns on the British throne
that he passed into history as War-
wick, the King-Maker. There have
been many since to emulate his au-
dacity and methods.

He did not himself belong to ro-
yalty. Indeed he had small title to
aristocracy, and much of that was
derived from a fortunate marriage
but he was ambitious. He was de-
barred by fate from exercising the
power which his ambition craved,
so he used others to satiate his
Royalist yearnings.

Fate places many another in his
position. In countries where a her-
editary monarchy is the symbol of
power, those who do not chance to
be in the line of royalty are hope-
lessly condemned to a technical
mediocrity. And even in a democ-
racy fate is not equally generous to
all.

It may inspire a certain kind of
ambition in each of us, each Ameri-
can youth is assured that the way
stands open for him one day to be
president, but the assurance is very
much a fiction, and it is a ques-
tion whether he does not breed
heart-breaking delusion more than
it stirs to worthy endeavor.

At any rate, some with over-
weening ambition to power find
themselves not quite "available"
when the time comes to choose the
high and the mighty. Our political
system has fostered "king-making"
until it may almost be classified as
an art, with a technique quite its
own. Many of our presidents and
governors and others in high office
have been "made" by ambitious and
clever promoters.

Indeed, competent management
has come to be rated essential to
the success of most political can-
didates. Knowing Americans at
once ask when a candidate an-
nounces his availability for any of-
fice what interests of group of pro-
moters are back of him. His ambi-
tion is usually esteemed hopeless
unless competence in this manage-
ment is forthcoming.

The less discerning may be thrill-
ed by the immense popular backing
of which Mr. Lemke would seem to
be assured. What mighty hosts
of the Congress and Dr. Townsend
and the legates of Huey Long are
prepared to marshal in his support!
Adding together these millions
upon millions would seem to make
his election a foregone conclusion.

But the experienced politician
and the discerning citizen smile.
Card catalogues compiled from
radio fan mail do not win elections.
The king-maker is often much more
potent than the king. Mediocrity
often gets enthroned through the
skill of the geniuses who use it as
the implement of their ambition.

While the royal soul is left to pine
in obscurity through the lack of
skill on the part of its sponsors.
Many a student of the present po-
litical situation is shaking more on
the relative competence of Mr. Fan-
ley and Mr. Hamilton than upon the
competence for the Presidency of
either of their principals. It is they
and their fitness as political man-
agers which will determine the is-
sue of the election, say some of
these observers, and not the merits
of party platforms or even of party
candidates.

Is this a wholesome state of af-
airs? Are public interest in safe-
keeping when they are so control-
led? Is the throne secure when its
stability is so largely determined
by the power behind it? Certainly it
is desirable that the power shall
be recognized, and compelled to as-
sume responsibility, if its potency
is so determinative.

Sometimes the Warwicks are too
much in evidence for their own and
their king's good, but the revela-
tion is to the public good. If the
Warwicks are there is important
to see and know them. If the
strings are being pulled it is well
to know who is pulling them, and
why.

ity and greatness is sometimes
quite marked. In the end this dif-
ference is to determine the issue
of the election, say some of these
observers, and not the merits
of party platforms or even of party
candidates.

G.O.P. Leaders Have

High Hopes in N. J.

To Confer with Hamilton—

Legislature Winds Up

Long Session—Possi-

ble Changes in Senate

State Political News

Trenton, June 24—There's a
spirit of eagerness, sustained by
high hopes, very much in evidence
among the Republican leaders of
the State and it is sustained by just
about the brightest prospects of
success they have had in years.
Evidence of some mighty disas-
trous breaks among the Democrats
as they assemble for what was ex-
pected to be a "love feast" shows
the trend and adds to the confi-
dence of those who feel that the
people of the nation will rally to
the support of Landon and Knox,
ending the regime of the bunch that
has done so much to plunge the
nation into hopelessness and despair.

Under the campaign manage-
ment of H. W. Jeffers, state chair-
man, the Republicans plan to push
forward with every possible effort,
enthusiasm and alert for the fray.
At a meeting of the county chairmen
at Mr. Jeffers' home in Plainsboro, it
was decided to invite John D.
Hamilton, new national chairman,
who was the highly successful
manager of the Landon nomination
campaign to come to New Jersey
and confer upon detailed plans for
the big battle. It is expected that
Mr. Hamilton will be here this
week when the leaders will meet
him and go over the whole situa-
tion with the idea of doing right off
with every man and woman keyed
up to the most effective efforts.

In an address in New York, Mr. Hamilton
stated that the Republican cam-
paigner will be chiefly directed
toward exposing the dishonest, broken
promises and wild extravagance of
the Roosevelt regime. That plan
will undoubtedly attract many
thousands of people who have been
so deeply affected by the failures
and false hope projected by the
New Deal.

Formation of a third party under
the lead of Congressman Burke
of North Dakota, quickly followed
by the endorsement of Father
Coughlin, militant leader of an
army of disappointed democrats,
gave the democratic bosses a terri-
fic jam. Then came the already
famous letter of former Governor
"Al" Smith of New York, surely ad-
vising them to break from Presi-
dent Roosevelt and all the cherished
plans of Postmaster General Farley
and his crowd for an untried, out-
and dried assemblage in Philadel-
phia with all the kinks and squab-
bles of the party ironed out, went
blowing out the windows. Big Boss

reference appears. The sooner it
appears the better. Thanks to the
newspaper reporter and the radio,
the revelation is nowadays much
more prompt than formerly. Some
progress is being made, even in
politics. The very intemperance of
the present campaign promises in
the end to have a sobering effect
upon the American public.

It is this a wholesome state of af-
airs? Are public interest in safe-
keeping when they are so control-
led? Is the throne secure when its
stability is so largely determined
by the power behind it? Certainly it
is desirable that the power shall
be recognized, and compelled to as-
sume responsibility, if its potency

IF YOU'VE GOT A SCOTCH STREAK—LISTEN!

WE'RE not one to suggest that you can run a Buick for nothing—we don't subscribe to the school of selling that makes believe even this great car can run on its reputation.

So you'll never hear us talking in terms of how many drums of gas you'll save in a year, because such promises simply don't fit in with every driver and every driving condition.

But we do know, and do not hesitate to say, that on miles-per-gallon this Buick SPECIAL Series 40 will match or beat many a six in your experience.

We can safely promise you fewer fillings per trip—you'll have more uniform gas consumption over the whole range of the speedometer needle, with a mighty thrifty average over any service period you want to name.

And we know, from certified records, that when you count repair bills and overhauling along with the cost

of fuel, you'll find you have in Buick a car that's as easy to take from the money angle as it is from the angles of style, comfort, safety and performance.

It's smooth, it's brilliant, it's swift—we're constantly hearing pleasant things about its easy ride and featherweight handling. But page Buick owners generally, and their stand-out comment is surprise at the frugality of its habits.

Price can't be keeping you from enjoying a Buick, since the figures begin at \$765* list at the factory. If lack of knowledge about upkeep has been the drawback, come in now and let us show you a few things that will gratify your Scotch streak!

Join the Buick Safety Legion. More than 300,000 safe drivers already enrolled. See your Buick dealer for details.

\$765* to \$1915* are the list prices of the new Buick at Flint, Mich., subject to change without notice. Standard and special accessories extra on all models at extra cost. All Buick prices include safety glass throughout as standard equipment. MONTHLY PAYMENTS TO FIT YOUR PURSE! Ask about the General Motors installment plan.

"21 3/8 MILES PER GALLON"

SAYS C. F. E.* OF DETROIT

...and remember, this lowest-priced General Motors eight is the smoothest eight in the world!

Such mileage in an eight is nothing less than phenomenal. Yet great economy is only one reason for Pontiac's popularity. It is smoothness that is winning it fame and friends—smoothness that cannot be excelled at any price. Sit behind Pontiac's Silver Streak and get a new experience. Watch the miles flow by with less effort, greater comfort, and at lower cost than you have ever known before.
