

HATS OFF TO THE FAIR.

The Great Building Used for the Dedication Ceremonies.

THE MOST GLORIOUS SUCCESS.

A Record of Progress and Achievement Carefully Written and Compiled and Embellished with Accurate Pictures. Published by The Illustrated World's Fair—An Exact Statement of How the Great Work is Going On.

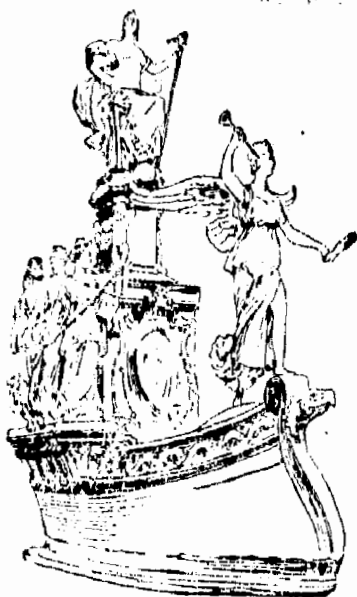

(Cuts copyrighted by Illustrated World's Fair, 1892.)

Four hundred years after the day on which Columbus first saw land in the New World—to wit, on Oct. 21, 1892—at least 125,000 people will assemble in the great hall of the Manufactures and Liberal Arts building in Chicago, and the imposing ceremonies of national and official dedication will take place. It will indeed be a memorable day, the proudest in the history of Chicago. It will be preceded by an introductory day of street parades and followed by a day of festivities and rejoicing—three days of display outside by far exceeding heretofore witnessed on this continent. The audience itself will be historic. President and cabinet, members of the supreme court and of both houses of congress, governors, orators, general and statesmen, distinguished foreigners of various ranks and eminent men and women of our own land will be the central figures. In the audience will be people of almost every race on earth, especially from our own 3,000,000 square miles of territory. There will indeed be a union of states, hearts, and hands, an ideally perfect representation of the greatest republic, the greatest single nation the world has ever seen.

The orators will be worthy of the occasion—the grand Chancellor M. Depue to deliver the Columbian oration; the venerable and eloquent William C. C. Breckinridge, of Kentucky, to give the dedicatory oration and trace the up-building of the nation in which his own family has held so distinguished a place for more than a century. Poetry will lend its aid, music of the grandest sort will enliven the occasion, and art in its highest development will add its ineffable charm. The rendition of appropriate selections from Haydn, Beethoven and Handel will be by masters in their art, the songs prepared for the occasion will be most fitting, and the choruses will consist of a galaxy of noted artists.

This will be the great day of the fair, as is proper for the commemoration of an event by far the most important in the history of the last eighteen centuries. But the preceding and following days

portion of these arches, up to the level of the gallery floor and 25 feet in depth, is open to the outside, thus forming a covered loggia, which forms an open promenade for the public, and will provide a very interesting feature, particularly on the east side, where it faces the lake. It is intended to locate here a number of cafes, where the great crowds can loiter at their ease and enjoy the breezes and cool shadows of the afternoon. Within the building a gallery

MANUFACTURES BUILDING.

50 feet wide extends around all four sides, and projecting from this are 85 smaller galleries 12 feet wide, from which visitors may survey the vast array of exhibits and the busy scene below. The galleries are approached upon the main floor by 30 great staircases, the flights of which are 12 feet wide each. Columbia avenue, 50 feet wide, extends through the mammoth building longitudinally, and an avenue of like width crosses it at right angles at the center.

In the center of the building is the enormous hall, 1,275 feet 10 inches long by 380 feet wide, free from columns, and covered by a roof formed by great steel trusses, which rise to a height of 210 feet above the floor. This space is lighted by clear-story windows and by the skylight area of the roof covering.

This will be the great day of the fair, as is proper for the commemoration of an event by far the most important in the history of the last eighteen centuries. But the preceding and following days

BIRDSEYE VIEW OF THE EXPOSITION GROUNDS.

already done so much to make their part of the exposition one of its most attractive features.

The ladies' board was informed, in response to its invitation to the women of China to participate in the exposition, that China would be glad to make a fine exhibit if the wives of some of the prominent men be allowed to accompany the exhibit, in order to study American civilization. Mrs. Palmer went to work at once upon this point, and has just received from the acting secretary of state at Washington a copy of a joint resolution of congress, making provision for the interest of Chinese exhibitors and their Chinese agents. Unusual pains will be taken to secure a full display of everything Chinese, which is of special interest to women, and though little can be expected in the line of productions by Chinese women, yet that little will be of great interest.

This, however, is at best but a matter of curiosity; the work of American women will make an exhibition in itself. It appears that 284 inventions have been patented by the women of Illinois alone, and descriptions, drawings and, so far as possible, models of these will be shown in the Illinois building. As an instance, Mrs. M. A. Hawley, of Dixon, has obtained a patent on a very ingenious device for holding poultry by the feet. The little machine is so simple that the chief of the patent office said, "I wonder it was not invented long ago," and yet it is so complete and practical that all raisers of poultry find it invaluable.

The lady managers are sometimes puzzled to know how to classify or exhibit their many unusual discoveries in the line of woman's work. For example, a South Carolina girl has been found who runs the engine for her father's cotton mill. A South Bend (Ind.) woman wishes to make an American flag a feature of the World's Fair. The suggestion is to have the flag itself, its linen, its appointments and food wholly of American production.

Another gratifying surprise is the great number of curious old relics, fine pieces of lace and embroidery, rare old china and articles of similar interest owned by ladies in various parts of the country. About many of these mentioned and offered for exhibition there is sometimes a touch of the humorous, the poetic or the patriotic. For instance, one woman in Indiana has in her possession a Continental bill for ten dollars which Senator Wade Hampton's grandfather, an officer in the patriot army, paid to the lady's great-grandmother for some household work. Time and associations have made it worth more than its face in gold. Similarly a New York woman offers for exhibition a piece of Kensington embroidery executed by her great-grandmother at an art school in England in 1780. It is a hunting scene and is framed behind glass.

Miss Jennie Ryerson, immortalized by Helen Hunt Jackson's sketch of her as "The Little Lace Peddler," is collecting an exhibit of the "drawn work" of the Indian and Spanish women of the Pacific coast, and has already secured a marvelous variety. Mrs. Albright, lady manager for New Mexico, has been placed by the territorial board in complete charge of the woman's work from that territory. The designing, arrangements and ornamentation of the interior of the Wisconsin building are entirely the work of Wisconsin women artists. And, finally, Miss R. J. Barrett, of Ontario, has been appointed by the Canadian authorities to collect the first specimens of women's work in the Dominion and arrange them for the exposition.

Another extremely interesting feature, connected as yet with the woman's department, is a general presentation of the condition of the Indian tribes. Miss Sichel is now at Washington, working, assisted to some extent by Mrs. Wamman, to get as large an exhibit as possible. With this will be connected a sort of Indian congress, of which Miss Sichel says: "In order that a full, representative congress may be secured, a committee has been selected for the purpose of effectively facilitating the means by which the Indians may most fully represent themselves. This committee is composed of men and women connected with the different phases of the relations between the races—philanthropic, official (civil and military), scientific and literary, and is assisted by an advisory council of disinterested people residing in various parts of the United States, British America and Alaska."

THE WOMAN'S BUILDING.

twenty-one feet across the wings. There are two cattle groups in the colonnade between the Agriculture and Machinery buildings.

Several of these figures and groups deserve more description than can be given here, and those completed, as well as the designs for those yet in making, have received the highest praise. Among them are Sculptor Mead's large group on the Agriculture building and his minor art groups; the groups representing Industry, Commerce and Abundance; the statue of Franklin and the statue of the Republic. The Franklin, by Robert Smith, is sixteen feet high, cost \$3,000, and stands in the main entrance of the Electricity building. The Republic, by Daniel C. French, is sixty feet high and stands on a pedestal forty feet high at the entrance to the Basin from Lake Michigan. The cost of the statue when completed will be \$25,000.

The lady sculptor, Miss Ribout, is making the free groups which will adorn the plaza on top of the Woman's building. Mr. Bitter has nearly completed the nine large groups for the Administration building. The famous "Signs of the Zodiac" are now in the act and will soon be in place. In the great palace of art the space is assigned to the nations as follows: The United

States, 34,650 square feet; France, 33,383; Germany, 20,400; Great Britain, 20,395; Italy, 12,410; Belgium, 12,318; Austria, 11,561; Holland, 9,357; Norway, 8,402; Spain, 7,807; Russia, 7,725; Sweden, 7,005; Denmark, 3,900; Japan, 2,919; Canada, 2,896; Mexico, 1,500.

Special efforts are being employed to bring to light the work of America's earliest artists, such as Copley, Stuart, Allston, Sargent, West, Alexander, New-

TYPICAL OF INDUSTRY.

ton, Leslie, Chester, Harding, Trumbull, Peck, Morse, Elliott and others. These are West and Trumbull excepted, known but little abroad, and even in the United States they are not generally appreciated as they deserve. The French and American sections will be connected by a gallery in which the finest French paintings owned in this country, loaned for the purpose, will be exhibited. The American paintings will be so arranged as to afford a retrospective exhibition from the Colonial period to the present.

When the first move was made 100 men were in charge of the Columbian exposition—115 for the government and 15 for all others. It is scarcely necessary to add that little or nothing was done for quite awhile and a great deal of valuable time was wasted. This large body concentrated itself, so to speak, about one-half, and a beginning was made. Later the number was reduced to eight on a side, and finally most of the responsibility was developed on four, with the energetic H. N. Higginbotham at their head, and then work went forward with a hum.

The buildings are practically completed. The last of the iron work on the great Machinery hall was placed early in September, and the principal carpentry work is in finishing the two spires. The exterior covering is nearly all finished on the north front of the main

building. The annex to the Machinery hall is being completed. The final estimate of the Exposition Building company for the cost of the Manufactures building shows that in the roof of the central hall there have been placed 12,008,775 pounds of steel, costing \$29,599.77.

The example has stimulated the men in charge of the state buildings, and every one will be completed in good time. The visitors present on the first day will look on a completed exposition. When the electric circuit is closed, which shall start the ponderous machinery going, it will be so far as possible a show complete and entire. The state buildings now enclosed and roofed, with the rough work done and interior finishing progressing, are Illinois, Kansas, West Virginia, Rhode Island, Massachusetts, Connecticut, New Hampshire, Iowa, Maine, Arkansas, Indiana, Ohio, Pennsylvania, Nebraska, Montana, Maryland and Delaware.

Seventy buildings are now in process of construction on the exposition grounds, as follows: Main exposition buildings—Administration, Agriculture and Machinery, Electricity, Fisheries, Forestry, Fine Arts and Amusements, Horticulture, Manufactures, Mines, Machinery, Transportation and Amusements, Woman's building. The state and foreign buildings number twenty-eight, and the concession or special buildings are: Baker's cocoa, German village, Libby glass works, Maine, Minnesota, panorama of Buenos Aires, panorama of the volcano of Kilimanjaro, Park sliding railway, White Star Line—eleven.

Other construction work carried on by the Exposition company includes the in-

tramural railway, bridges, electric subways, fountains, obelisk, etc.

Of course the finances of such a big enterprise will be of interest to the American people. Down to Sept. 1 the total receipts from all sources were \$10,401,015, of which Chicago had paid \$5,063,724 and \$5,098,032 had been paid on current instalments of stock subscriptions. The government's contribution was not counted on as yet, and only \$18,500 had been received in souvenir coins. Of the total \$2,733,259 had been paid out, leaving a cash balance of \$1,637,385. It is painful to find the following item at the close of the report:

"Six hundred and forty-eight accidents had occurred up to the time of the completion of the report, divided as follows: As to the extent of injuries: Killed, 14; fatally injured, 27; seriously injured, 25; slightly injured, 607. Of this number only one was a visitor."

At the same date foreign governments had expended \$124,000. England, of course, leads with an expenditure of \$11,783. The Argentine Republic, Uruguay and Paraguay have together expended \$19,400. Neither France nor Spain has yet expended any sum worth mentioning, but will do so of course before the exposition opens. Exclusive of work done by foreigners the total paid on buildings to Sept. 1 was \$1,841,700.91.

THE UNION COUNTY STANDARD

WESTFIELD, NEW JERSEY.

WESTFIELD, N. J., OCT. 8, 1892.

ALFRED E. PEARSALL, Editor.
J. L. COLLINS, Printing Department.
O. E. PEARSALL, Business Manager.

Pen Points.

A sour mash—flirting with whiskey.

All along the line—the family washing.

Sail under false colors—sugar coated pills.

The noblest Roman man of them all—George Francis Train.

This quality of a novel is not indicated by its cost.

It is natural for donkeys to be stubby; they are stub born.

If a man expects to learn the drug business in all its branches he must begin at the roots.

It would not benefit some people to meet success; they would not recognize it if they saw it.

When a maiden twines her arms about her lover's neck it is one of the strings she has to her beam.

There are three known punches warranted to knock a man silly: rum punch, Corbett's punch and London Punch.

We announce most regretfully that the prospect of a series of concerts by the Westfield Musical Society this season is very slender.

The Township committee has done a good stroke of business for the town in securing the point of land at the intersection of Broad street and Westfield and North avenues.

An impression is gaining ground in this country that neither the Republican nor the Democratic politicians have exclusive control of the destinies and significance of the American flag. The plain people are about to speak for a sublimer interpretation than ever yet contemplated in the name of God, Home and Native land!

The greatest event since the pirate Columbus discovered America is the W. A. C. Fair, from all we can learn from the W. A. C. members. The achievements of this thrilling, glowing, growing social force are certainly great and in view of its relation to the future development of our town its welfare is a matter of concern to every citizen.

Even while we are doing our best we will make mistakes, first this one and then that one by turns or by spells. This observation leads us to remember that "throwing it up to each other" is bad business. But it is hard for us to forgive the man who jabbed our paste brush into the ink pot and walked off with our scissors yesterday.

Although the Westfield National Bank has not opened its doors for general business, pending the completion of its magnificent building, it has, nevertheless, been doing a very considerable banking business in the way of discounts and the promoters of the enterprise have great reason to be encouraged and congratulated upon the flattering prospects before them.

Some Westfield men are about to meet with reference to the need of sewerage for this town. It is probable that the citizens will have an opportunity to consider the subject at a mass meeting. The question is a most important one and it can be acted upon none too soon. We await the results of the preliminary meeting with deep interest.

We believe that women should have every privilege and every right and every opportunity to be heard and help herself that is accorded to man. We contend for woman's suffrage, because it is right in principle, and thoroughly American. In carrying this right a true woman will become neither less feminine nor less adorable; neither will she become obtrusive, nor unwomanly, but more self-reliant and self-sufficient, with broader information stimulated by broader responsibilities; and, therefore, better qualified to take her rightful place at the side of man in the world's onward movement.

HENRY SANSON KILLED.

A Broken Rung on a Ladder Caused the Fall Which Struck His Spine.

Henry Sanson, brother of Captain Sanson of Broad street met with a fatal accident last Tuesday about 1 o'clock. He was employed as a carpenter on the new house of Edward McMan on Orchard street and was ascending a ladder when the rung broke. As he fell he struck on the piazza platform and he received serious injuries to his spine. He was taken to the residence of his brother on Broad street. Dr. Harrison attended him. His injuries proved more serious than at first supposed and he died about twenty hours after. The deceased was 28 years old and not married. The funeral will take place to-day.

TOWN NOTES.

—Mr. and Mrs. Shaw have returned from a visit to relatives in Connecticut.

—The Union County Band furnished music at the luncheon raising last Saturday.

—The Democratic Congressional Convention will be held October 14 in Library Hall at Elizabeth.

—Miller & Chamberlain the electricians have finished wiring the new clubhouse for electric light.

—The prizes for the W. A. C. fair are on exhibition at Shaw & Goff's. They make quite an imposing array.

—The Methodist Episcopal church has received a new coat of paint this week which adds greatly to its appearance.

—Billingham the celebrated builder of bowling alleys has about completed the new alleys of the Westfield A. C.

—John Hall, the popular clerk in Dr. Wm. Gale's drug store for the past five years has accepted another position with a large New York firm.

—The managers of the Westfield A. C. fair are desirous that persons having contributions for the fair, leave them at the club house Tuesday morning.

—The Cleveland and Stevenson amputee club have decided to have a uniform rank. They will have 100 men in the parade.

—The hall in the new building of the Westfield Athletic Club was used for the first time Monday night last when a rehearsal of Patience took place there.

—The Westfield Athletic Club developed a promising lot of painters the other night when several of the boys set to work on the canvas signs of the fair.

—Visiting at the home of Alfred J. Russell, is a Connecticut woman, Mrs. Lois Apple, whose eighty years are worn with the grace and spiritfulness of a woman of sixty.

—C. E. & J. W. Brown who had the contract to put in window shades in the new Standard Building have commenced the contract to fit up the new clubhouse with window shades.

—Rev. Anna Shaw, who is known to Westfield people will speak at the W. A. C. Convention at Roseville next Thursday night. Mrs. T. Hunt will speak next Wednesday night.

—Westfield will have a daily paper next week. It will be called "The Standard" and will be printed by the Standard Publishing Company for the management of the W. A. C. fair.

—Henry Miller and William A. Chamberlain have formed a partnership in electric light supplies. The new firm is Miller & Chamberlain and will do business on Prospect street opposite the Standard building.

—The Union Water Company will extend its pipes up Elm street to Lawrence avenue and through cross streets in that section. It is reported that property owners will contract for hydrants on their own account.

—The Union County Democratic Executive Committee met Monday and fixed the date of the County convention to nominate a county clerk, surrogate and coroner, October 19. The primaries will be held October 17. The third district convention will be held in the town rooms here October 26.

—Saturday afternoon October 15th at 3 o'clock Prof. Henderson of New York will delight the little folks who attend the W. A. C. fair with exhibitions of sleight of hand and a Punch and Judy show. Saturday will be children's day and all kinds of games will be provided.

—The local milkmen have agreed on a new scale of prices. After October 15th the milk will be 8 cents per quart. Thirteen tickets will be sold for \$1. Cream will cost 35 cents per quart. R. Woodruff, H. Willoughby, J. H. Nickels, Ira C. Lambert, S. W. Lambert.

—The State Convention of the W. C. T. U. of New Jersey will be held in the Roseville Methodist church next week from Tuesday until Saturday. Each of the twenty-one counties in the State is organized in this work and there are 200 ladies representing a membership of 10,000 women. The delegates will number 350.

—With A. L. Johnson doing the mason work and both conforming to plans and specifications drawn by Frank L. Lott and Mrs. John T. Burke are having a home constructed at the corner of Dudley and Clark avenues that for durability and working qualities will be second to none in town. At the same time their residence will be a contribution of the modern architecture of Westfield, but not expressed in fancy.

—John L. Willis raised sixteen dollars in \$1 subscriptions in Westfield, for the Western Democratic Campaign fund, the same being credited to Westfield's chance of getting one of the ten Cleveland and Stevenson Banners offered by the New York World. The subscribers being as follows:—John J. Willis, M. Heller, G. H. Koester, J. M. C. Marsh, "A Democrat," John S. Irving, M. J. Francis, J. B. Harrison, Wm. Stitt, Mulford, Scudler, P. Traynor, "A Mugwump," H. Dougherty, L. F. Welch "Republican," Robert Woodruff, each subscribing \$1. The limit, asked for or accepted. Mr. Willis believes that if others exert themselves one of the ten banners must come to Westfield. Dr. Ripley is interesting him self.

—There are a few more of the choicest lots and plots on Boulevard and Park street for sale and we are informed there is a strife as to who shall get them.

FUN FROM OUR OWN FACTORY.

Bill Penseley says the eagle is a talented bird.

Bill Penseley says that Caudill is not the fashionable confectionery now.

Bill Penseley says about all the drum corps have one drum major and the rest are drum minors.

Bill Penseley says he saw an advertisement of Smith's corn sheller; he says he wants to see it.

Bill Penseley says he is not sure he likes it, to see in his paper the Democrats in a column and the Republicans in a corner. He thinks the Standard hopes to get on both in a corner eventually.

—The board of registration will meet October 18th and Nov. 1st.

—Mr. and Mrs. Chas. D. Reese have returned from their wedding trip.

—The ice men are getting their supply from the Plainfield ice houses.

—Rev. N. W. Caldwell will lecture in the Presbyterian church, October 24th.

—Banner raising at the Republican wayman to night. J. S. Gibson of New York will speak.

—The telegraph company has painted its poles in accordance with instructions from the township committee.

—Mr. and Mrs. W. A. Sayer of Brooklyn will spend Sunday with Mr. and Mrs. W. R. Francis of Park street.

—The sharp hail storm last Wednesday a few minutes before noon was warning that winter has come to stay.

—It is said that a good likeness of "Chet" Smith is posted on the wall at Democratic headquarters. Have you seen it?

—The new waiting room on the south side of the railroad tracks is completed. A stove and a few make it a comfortable waiting place.

—The public schools will be closed next Tuesday and Wednesday to enable the pupils to attend the Columbus celebration in New York.

—A gang of men in the employ of the telegraph company moved the pole that stood on the street line at the intersection of North avenue and Broad street.

—Photographs of the High School building have been made. They will be sent to the World's Fair as part of New Jersey's educational exhibits.

—Town Clerk Charles Clark was unable to attend the township committee meeting Monday night. He has been confined to his home by a long spell of sickness.

—Captain Charles Toms, wife and two sons of Knoxville, Tenn., who have been visiting at the residence of Rev. Dr. Rice the past fortnight, returned to their Southern home on Thursday.

—While driving on Broad street Tuesday afternoon Mrs. H. B. Kurzhals narrowly escaped a serious accident. Her horse stumbled and fell in the shafts. She was thrown out but fortunately not injured.

—S. W. Rose talked tariff to a large assemblage in the Republican wayman Monday night. Many of his arguments were received with cheers and applause. He illustrated many of his assertions by means of stereopticon pictures.

—Under direction of township committee a gang of men went to work yesterday morning on the extension of Westfield avenue to Broad street. The extension cuts off a point of the triangle opposite the Standard building.

—James P. Wesp and Mrs. Lena Nichol were married last Monday afternoon at the residence of Mr. and Mrs. Herman Hocke, corner North and Westfield avenues by Squire P. C. Pearsall. Mr. and Mrs. Wesp will live on Mountain avenue.

—Another fair. This time it's the Willard W. C. T. U. which will give a Festival of Days. The dates will be December 2nd and 3rd. The purpose of this festival is to raise money for the building fund as the Union expects to put up a new brick building in Westfield within a few months.

—L. A. Lightfoot has been elected secretary of the Republican Association to fill the vacancy caused by Edgar R. Pearsall's resignation. Mr. Pearsall resigned on account of his inability to give sufficient time to the work of the office on account of his newspaper work which during the campaign is very heavy.

—Letters remaining uncalled for at Post Office, Westfield, N. J.: Persons calling for the same please mention advertised. Mrs. Rockell, Miss George Woodruff, Albertus Cox, Mr. Pete McGee, Wm. Gouth, Chas. N. Oakes, James S. Smith, Mrs. R. Woods, L. M. Whitaker, P. M.

—A number of persons who have passed the Standard office this week have seen a specimen of the fine corn raised by W. G. Peckham at Quality Hill. The corn stalks are from 12 to 15 feet high and there are half a dozen ears of corn all of which are over 12 inches in length. Mr. Peckham has several acres of land producing such corn. Quality Hill is 280 feet high.

—F. L. C. Martin, the Plainfield bicycle man agreed to furnish the W. A. C. with a \$105 Relay Columbia bicycle for the fair. When he brought the machine down Thursday he surprised the committee by turning over to them a full nickel wheel the value of which is \$140. He does this for the same price as first agreed upon. That is the kind of a man Martin is.

—The Westfield National Bank Building proceeds slowly but surely to a handsome accomplishment, and it will be far enough advanced, probably, for occupation for banking purposes, at least in November. The builders of the great steel vaults explain their delay in getting the safe completed by their inability to get steel owing to the late Homestead strike.

—The Democrats of the township have raised their banner and their campaign is now open. The banner was raised Saturday night with the usual ceremonies. Broad street was crowded with people. Two poles were erected one on either side of Broad street at a point opposite the Democratic headquarters and the banner which is of fair size hangs between them. After the raising a ratification meeting was held in Elm Hall. The attendance was large. Mr. Shaw, of Rahway, and James Martine, of Plainfield made the speeches. Their remarks were warmly applauded.

—Mr. Graves will preach in the Congregational church to-morrow morning and evening.

The Republican association will have a grand rally and banner raising at the wayman to night. Hon. John S. Gibson of New York will make an address on the tariff question.

—We learn from Mr. Peckham that first class roads are being made on the mountain near the Batus Roll Hill and that it is rumored that the Vanderbilt family are interested in that locality, and that a big Summer hotel is contemplated.

Timely Township Topics.

—Lawrence avenue is to be improved.

—Nine hundred and nine feet of Kimball avenue is improved.

—The township committee will meet next Monday night in the town rooms.

—The township committee has fixed the tax rate on dogs at 25 cents per dog.

—That improvement to the Beebe Hill road done in telford style is a fine piece of work.

—The law says it is necessary that a town have a population of 3000 before a sewer is constructed.

—State Comptroller Heppenhauer has acknowledged the receipt of the statement showing the financial condition of the township.

—The township committee will have a quantity of crushed stone piled in convenient places so that the roads may be repaired without delay during the winter.

—In C. Lambert has complained to the township committee of the bad condition of the sidewalk on Broad street from the Scotch Plains road to a point opposite the residence of W. S. Motte.

The township committee met Monday night. President Addison S. Clark in the chair, committee men Comm. Gardner present and transacted usual township business.

—J. B. Roff has asked the township committee for a tax deed of the property he bought recently at the sale of lands for unpaid taxes. The town clerk has been instructed to make out the deed.

Some idea may be formed of the vast amount of bad improvement done this year when it is taken into consideration that of the \$4000 appropriated for work has been laid out and it will be necessary to cut down on some of this to open South avenue to the Gutwood line.

The township committee last Monday evening ordered these bills paid: J. W. Cox \$20 and James R. Day, \$22.50. Two bills, Moore & Wall \$181.71 and James M. French \$232.01 were referred to committee men Comm. who if he finds them correct will order them paid.

The township committee has received two bids for the extension of South avenue to the Gutwood line.

Bids are advertised for, for the laying of board sidewalks on the north side of Lawrence avenue from Kimball avenue to Mountain avenue. Objections will be heard Monday night.

STRUCK BY A TRAIN.

William E. Van Ness, Resident in Jersey Near the Railroad Station.

William E. Van Ness, a resident of this place was found lying on the west bound track of the Central railroad near the station Tuesday morning by the crew of the newspaper train at 5 o'clock. He had been struck by a west bound train during the night. His face was cut and wrist broken. He was also suffering from internal injuries though conscious. He was taken to the home of his sister, Mrs. Charles Haight on the outskirts of the town. Wednesday morning the injuries to his right arm were found to be so serious that Dr. Capper considered amputation necessary and performed the operation.

The Complete Prohibition Ticket.

The Prohibitionists completed their full ticket at the meeting held Saturday evening last at Elizabeth. The ticket stands as follows:—For President General John Bidwell, of California; for Vice President Dr. J. B. Crumell, of Texas; for Governor, Thomas J. Kennedy, of Bayonne; for Congress, eighth Congressional District, Joel G. Van Duse, of Summit; for County Clerk Walter M. Irving, of Cranford; for Surrogate John L. Clayton, of Westfield; for Assembly Geo. H. Fountain, of Plainfield.

Choice Building Lots.

On Carleton Place for sale. These lots are in an excellent neighborhood, near depot, high ground, and beautiful shade trees on every lot. For plans etc. call on C. E. Pearsall & Co., Agents, Westfield.

Baptist Sunday School Anniversary.

Last Sunday afternoon in the Baptist church the twenty fifth anniversary of the Sunday School was celebrated. There was a large attendance. An appropriate program was followed out. Ex-Superintendents Conant and Grant told of the work done in former years, and Rev. H. R. Goodchild of Roselle made a very interesting address. This school is meeting with very encouraging success in its work.

How to Prevent Calfs from Fading.

Before the first washing soak it in four quarts of hot water, with three gills of salt dissolved, until cold.

How to Erase Writing.

Apply with a camel's hair brush a mixture consisting of twelve drops of a solution of muriate of tin and four drops of water. Afterward pass the paper through water; then dry.

How to Thatch Almonds.

Soak the almonds in warm water until the skin can be removed easily by pressing each nut between the thumb and forefinger. Then dry them by wiping them on a soft cloth or hanging them in the sun or air.

How to Cure Bee or Insect Stings.

Wet some cotton tobacco and apply it once to the wound for a few minutes.

How to Exterminate Rats.

Sprinkle equal parts of red lead, sugar and flour in the places infested.

THINGS SAID BY OUR NEIGHBORS.

Madison Eagle:—There is no duty on whiskers, boys! Wear them if you want to even if you have to search the ash barrels.

Asbury Park Journal:—Mr. O. L. Grondell, the Main street druggist, recently brought from his father's farm a monster California cucumber that measured over four feet in length, and its girth was five in proportion.

Elizabeth Journal:—Twenty miles of the best telford or macadam pavement could be laid in Union county with the money the people pay for coal in one year, over and above the price charged before the Reading coal combine was authorized by the last Democratic legislature.

Plainfield News:—The average of the number of trains which pass at the crossing at Elizabeth every twenty-four hours has increased to seven hundred and two. This at the rate of about one train every two minutes, and the number is increasing. No wonder it is necessary to raise the tracks of one road to run on an elevated railway.

Montclair Herald:—The famous hand writing expert, David N. Carvalho, asserts that "no man does or can write his signature twice exactly alike." He, therefore, advances the startling proposition that, "when two signatures purporting to have been written by the same person are precisely alike, it is safe to conclude that one of them is a forgery."

BUSINESS NOTES.

A Dressing and 1 pound of cheese for 50c. at The New York Grocery Store.

Choice brands of cigars and tobacco at The New York Grocery Store.

Freeman's old reliable \$2.00 hat at Crane's.

A good line of crockery and glass ware can be seen at John Ingalls.

Call at Crane's Furnishing Store and get measured for a suit of clothes. All latest styles.

Handsome wall papers at low prices at Welch Bros.

Lane Bros sell parlor stoves, fire place heaters and ranges cheapest.

Whiters is now at hand. Go to John Ingalls for all kinds of parlor, heating and cooking stoves.

Keep your eye on Springer's Star Shoe advertisement. It will interest you by pointing out to him you give money.

E. M. Laing the Plainfield Hatter will from time to time have something new in his display advertisement which can be seen in another column of the STANDARD.

Garet Q. Packer, Plainfield's leading furniture dealer, is having things up in his town. Honest goods at honest prices pays with him.

PULPIT, PEW AND SOCIETY.

—Rev. J. G. Dyer's sermon at the Baptist church to-morrow morning will be "Cautiousness" and in the evening "Daily Exercise."

—October 27th under the auspices of the Young People's society of his church, Rev. N. W. Caldwell will deliver a lecture on his recent trip across the continent.

—The delegates from Willard Union W. C. T. U. to the State Convention at Roseville next week will be Mrs. Mosher and Miss Trues. There will also be several visitors from Westfield.

—The regular business meetings of the Y. W. C. T. U. was held at the residence of Mrs. Kurzhals. Three new members signed the pledge and confirmation after which refreshments were served. Although Mrs. Kurzhals knew how to entertain, they think of giving there soon again.

—The departments of work to be taken up by the Willard Union W. C. T. U. this year are, Evangelistic, under the direction of Mrs. Moore; Social purity, Miss Emma Starr; Press, Mrs. Clayton; scientific instruction, Mrs. J. Z. Hatfield; literature, Mrs. N. Wheeler; S. S. work, Mrs. F. R. Baker; parlor meetings, Mrs. S. W. Hawkins.

—The services at Elm Hall last Sunday afternoon and at the Presbyterian church in the evening were well attended. S. H. Hadley superintendent of the McAnley Mission, of New York, was the speaker at both meetings. He told how he had staggered into the McAnley Mission seven years ago a drunken creature, almost on the verge of delirium tremens; how he had been converted and regained his place among honest Christian men.

Y. P. S. C. E. Notes.

Topic for week beginning Oct. 9, "What can we learn from Dorcas?" Acts 9:36-42.

The Executive Committee of our local union is arranging for the fall conference which will be held soon in the Cranford Presbyterian Church.

The Berleheim Society held a social at the residence of Miss Thompson at Leix on Monday evening. Readings, recitations and a burlesque "art gallery" helped to pass a very pleasant evening.

—The Y. P. S. C. E. connected with the Baptist church will hold its business meetings the second Friday in each month. The annual meeting and election of officers will take place next March.

—The officers of the Y. P. S. C. E. of the Baptist church are: Rollin P. Grant, president; Miss Louise Merton, vice president; Irving Howe, recording secretary; Bishop A. Chamberlain, corresponding secretary and Miss Minnie Gardner, treasurer.

The Golden Rule says, "The circular sent out with the petition for Sunday opening of the World's Fair, circulated by the active endeavor of church organizations, Sunday schools and missions all over the world, no voice from further that resolutions approving the act of Congress and deploring the sale of intoxicants be still sent to our State commissioners, before the meeting of the commission on October 18, its systematic and powerful pressure will be brought to bear upon Congress to reconsider the Sunday closing act this winter on the ground that "the general public has not been heard from" that the general public is defined by the Chicago Herald as "the other side" from churches, Sunday schools, missions, etc.

Fruit for Jellies.

Many women have asked why their jellies do not jell; what they shall do to make them congenial; why they become moldy, etc. Pectin is the basis of vegetable jellies. It gives to the juices of fruit the property of gelatinizing. When the fruit is overripe, or when the juice is cooked too long, it seems to lose its gelatinizing property. We often see this when we attempt to make jelly with overripe fruit; the substance will become thick and gummy with long cooking but will not congeal. The fruit for jellies should be just ripe, or a little underripe, freshly picked and of a good quality.

The small, juicy berries, such as currants, blackberries, raspberries, etc., can be cooked in a stone pot, which should be placed in a kettle of boiling water; then the contents should be stirred and mashed well until the fruit is heated through, say for about an hour, or the fruit can be heated slowly in a preserving kettle and mashed well. In either case strain the juice through a piece of cheese cloth and next through a flannel bag, place in a preserving kettle and on the fire. Boil and skim; add a pound of sugar for every pound of juice, first heating the sugar in the oven. Stir until the sugar dissolves and fill the glasses.

When such fruits as apples, pears, peaches, quinces, etc., are used, wash them and then cut them into small pieces, barely covering with water, and cook gently until the fruit looks soft and clear. It will take an hour at least for this process. Strain the juice and let it boil about twenty minutes; add the hot sugar and boil five minutes longer. Place the uncovers glasses in a sunny window for a day or two; then cover with rounds of paper, over which tie a covering of cotton batting; keep in a cool, dry place.—New York Ledger.

Bravery of Two Princesses.

To the long list of courageous women must now be added the names of Princess Eleonore and Princess Mathilde, of Solms, who, while walking outside Berlin last week, met a lady whose horse was violently bolted. The rider had lost all control, and without a second's hesitation the two princesses rushed at the horse's head and checked him in his flight. In doing which the Princess Eleonore was unfortunately knocked down and severely kicked in the head and right foot. The other princess was lucky enough to escape without any injury, much to the consolation of the lady whose horse had been so courageously stopped in his flight.—Hawke.

Pretty, but Not Altogether Practical.
 Hairpin boxes of silver, with the inscription, "A Woman's Friend," in decorative text engraved on the cover below a raised outline of the "friend," are among the novelties. They will hardly displace the pretty china and silver trays for holding these necessities of the dressing table. No woman in the exigencies of "doing" her hair likes to stop to open a box to get at her hairpins, and with the total depravity ascribed to inanimate things, it would be sure to be shut at the critical moment when a puff seems pining or a curl is to be secured.—Exchange.

Why Women Look Cool.
 "How do women keep so cool when men suffer torture in these sudden hot waves?" asked a man of a woman who looked as cool and fresh as a bunch of white flowers newly sprinkled and resting on a bed of moss. "We don't," said the frank woman. "We just pretend to." There is a whole sermon for you.—New York Tribune.

Langtry's Empty House.
 Two signboards hang on Mrs. Langtry's house in West Twenty-third street, near Ninth avenue, imploring the passer-by to rent that famous edifice. But the passer-by continues to pass by and does not rent, although these signs have hung there begging for six months or more that something be done. How many months more they will hang there with tears in their eyes, as we may say, no one can guess. Neither can any one guess why the Lily's residence is so difficult to rent—at least no one does. The house is a three-story red brick, standing back from the street, with high walls on either side to obstruct the view of the two curious and slightly impudent neighbors. This improvement was made after Mrs. Langtry bought the house and had been occupying it herself. There is a carriage way with an arched entrance at one side of the house, and in many respects it has the appearance of a comfortable English homestead.

And yet not even those who affect the English—and we have a great many of them here—are disposed to honor their lady by taking the Langtry house. The decorations of the rooms, which were done under Mrs. Langtry's personal supervision, are beautiful and expensive and testify to her excellent taste in decorative art, which has, I think, reached a higher degree of perfection than either her taste or ability in the matter of histrionic art. But that isn't the point. The Lily has an expensive house in town that is a white elephant on her fair hands because two pleading signboards fail to find her a tenant for it.—John A. Cockerill in New York Recorder.

The American Ax Believes.

All the world admires and wonders at the American ax believe. The American ax fitted with that ingeniously curved and gracefully fashioned handle is a marvellously effective weapon, vastly more apt for its purposes than the straight handled head-bum's ax with which the Italian feels trees, or the broad faced hatchet used for the same purpose in France. The American ax believe is just what might have been expected of an inventive people laden with the duty of conquering and civilizing a forest clad continent. The world had been using the ax since prehistoric times, but it remained for the American pioneer to fashion the ideal ax handle, at once light, strong and elastic. The ax such as is familiar to all Americans is rare in Europe, and it sells in all the British colonies as the American ax.—New York Sun.

The late Samuel McDonald Richardson, president of a savings bank in Baltimore, had a wonderful memory of faces. He personally knew, and could call by name, over 40,000 depositors, most of them people of small means.

Pliny tells us that any plant gathered by a river before sunrise by a person, if unseen, died on the left arm of an angry patient, without his knowing what it is, will cure the disease.

Salt Rheum of Years Standing

The story of years of suffering and agonization to be light, is told in the following words by Mrs. Haisdon of Haverhill, N. H.: "I had rheumatism and a swollen and sore foot. The pain was so bad that I could not walk. I had been using various remedies, but nothing seemed to do me any good. I had been using various remedies, but nothing seemed to do me any good. I had been using various remedies, but nothing seemed to do me any good."

Another similar case is that of Quintermaster Hale of Plainfield, N. J., who returned from the Army with a most horrid case of salt rheum, covered from head to foot with a mass of sores. He used Dr. Kennedy's Favorite Remedy, which took him every sore and restored him to health. It always cures when faithfully used, or money refunded.
