Mrs. E. J. Daniels, who lives in Brooklyn but owns property on West Broad street, objected to the assessment and especially to the removing of some trees from in front of her property. Mrs. Daniels in her communication stated that the town had to pay \$500 for the removal of some trees on South avenue and that she valued hers at \$300 each and would take \$600 for the two that had been removed.

Residents on the block between Osborne avenue and Union avenue also presented objections to the assessment and asked that the matter be reconsidered by the Board of Assessors as they thought they were unfairly assessed and were not being dealt fairly with.

A letter was read from R. C. Thompson to Mayor Evans objecting to the assessment made on his property.

No objections were received to the hearing of the reports of the Board of Assessors on the improvement of

HEALTH EXHIBIT BY STATE BOARD

Tuberculosis Exhibit Will Probably be Held Here Next Month. Lecturer to Explain Work With Moving Pictures and Models

Last Friday night at the request of Inspector Carney, W. D. Smith, assistant to the State Board of Health, appeared before the local Board of Health at its monthly meeting and presented data and explanations of the State Board of Health exhibit. Mr. Smith, as well as the State Board of Health, are desirous of holding an exhibit in this town sometime next month. Mr. Smith came before the Board for the purpose of getting the local Board to co-operate with the State Board in the exhibit. Mr. Smith said that it was of great educational value to the school children and that a paid lecturer explained it and that moving pictures and models were used to exemplify the work. He distributed considerable literature among the members of the Board.

The members of the Board favored the exhibit and assured Mr. Smith that they would look into the matter and would probably arrange for the holding of such an exhibit.

Several communications were received and read by the secretary in regard to complaints and, after they had been reported on by the inspector, were ordered filed.

The report of Inspector Carney for the month of March showed that the milk supply was in a good condition as were the bakeries, dumps and scavenger wagons. During the month the following contagious and communicable diseases had been reported to him: 1 case of scarlet fever; 166 of measles; 13 of chicken pox; 2 of whooping cough; 1 of erysipelas and 3 of tuberculosis. The inspector also presented a report of the diseases for the months of January and February which showed that there had been a big increase during the last month, over the two preceding months.

Secretary Harden reported that five plumbing plans had been submitted to the Board during the past month and that they had been approved.

D. C. Arnold, of the Board, presented a number of verbal complaints. The president of the Board, Dr. Harrison, requested Mr. Arnold to have complaints made in writing, stating that they would then be taken up by the Board.

A communication was read from Dr. R. G. Savoye relative to the Board's having a display at the Town Budget Exhibit next month. After some discussion by the members it was left in the hands of Inspector Carney to prepare something.

Secretary Harden reported that he had turned over to the town treasurer the sum of \$6 for permits granted during the month of March and that this was the smallest amount collected for permits in a long while.

After several bills had been approved and ordered paid the meeting adjourned. President Harrison presided and all the members were present.

BOARD OF EDUCATION ELECTS W. A. DEMPSEY AS NEW PRESIDENT

Following Organization of Board, Members Partake of Luncheon Prepared by Monday Afternoon Class in Domestic Science

The Board of Education met at the Washington school on Monday night and organized for the ensuing year. The meeting was called to order by District Clerk Webster. Walter A. Dempsey, who was vice-president last year, was unanimously elected president and J. Winter Davis, vice-president.

Immediately after organization the members of the Board adjourned to the Domestic science room where they partook of a luncheon which had been prepared by the Monday afternoon class of the school under the direction of Miss Sarah Davis, the instructor in domestic science. The members of the Board relished the good things which had been prepared and were loud in their praise of this feature of the school work.

The selecting of Mr. Dempsey as president of the Board meets with the approval not only of the Board but of the general public as he proved to be a conscientious worker on the Board and has had the interest of the schools at heart ever since he became a member.

President Appoints Committees.

The newly organized Board of Education held its first meeting on Tuesday night with President W. A. Dempsey presiding and all the members present except James E. Grape. Outside of the appointing of the various committees for the year by the president, little business was done. The committee appointments are as follows:

Finance and Legislation—Mr. Malmar, Chairman; Mr. Grape and Mr. Dennis.

A communication was received from Architect Pelton, stating that he expected to have the plans and specifications of the new school completed in about ten days. He stated that he had sent blue prints of the work so far completed to the buildings and grounds committee. An application was received from William Spang for the position of janitor of the new school when it is completed. This was ordered filed.

Mr. Dennis reported that he had conferred with Fire Chief Decker in regard to having the fire alarm at the fire department used as a signal when there was to be no school.

President Dempsey appointed Messrs. Cutler, Malmar and Orr as a special visitation committee to the schools for this month.

The Glee Club Orchestra of the school was given permission to hold an entertainment in the assembly room of the Washington school for the purpose of raising money to defray the expenses of transporting the children of the school to Somerville, to take part in the singing contest to be held there.

After several bills had been approved and ordered paid the meeting adjourned.

LOYAL ASSOCIATION LOSES OFFICIAL

Prominent Member Passes Away at His Home in Arlington. Was to Have Been Present at Westfield Meeting Next Week

All members of Union Council will be shocked to learn that their Supervising Deputy Wm. H. Phelps, of Arlington, N. J., died on Wednesday, after a very brief illness.

Only a few days after attending the banner meeting here in October his wife passed away suddenly. He paid an official visit to Westfield March 19th, and attended the Executive Committee meeting of the Grand Council, March 21st, and was very earnest in his appeal to secure for Westfield the holding of the Grand Council session April 21st.

It had been his intention to be present at the meeting of Union Council, on the 16th, with a delegation from his home Council to witness the indoor meet.

During the past year as deputy to Union Council he endeared himself to all the brothers by his warm words of praise and commendation. His appeal for a record gain in membership was more than realized and it was his suggestion that has prompted Union to put the mark to 200 for March 1st, 1915.

The Loyal Association will lose his cheery and hearty personality and his place cannot soon be filled.

A delegation will attend the funeral Sunday, the 12th, from his home in Arlington, N. J., at 2:30 P. M.

The events in the Indoor Meet were run off as follows:

AMATEUR THEATRICAL FOR CHILDREN'S COUNTRY HOME

Young People to Make Their First Appearance Behind the Footlights on April 20, in "Footlight Fancies"

To the People of Westfield:

One of the most worthy institutions of our town is the Children's Country Home, in which we are all interested. You all know of the work that has been done by the Board and by the Young Ladies' Auxiliary. A Junior Auxiliary has recently been formed, and we are giving an entertainment for the benefit of the Children's Country Home. This will be our first attempt, and we hope that everyone will show his interest by coming on Monday, April 20, to Plagg's Theatre. Everyone whom we have asked to take part has entered into the work with enthusiasm, and the support of these good people has made us feel sure of our success. We want everyone to have a chance to help this worthy cause and hope everyone will help us to make our first attempt a splendid success. Tickets are now on sale, and may be reserved without cost at Frutchey's Pharmacy between three and six P. M., on April 17, 18 and 20. The Junior Auxiliary.

WESTFIELD BOOSTERS HOLD BANQUET

Last Friday night the Boost Westfield Association, better known as the "B. W.'s," held their second annual banquet at Kelly's Hotel, on North avenue. Thirty-five members of the association sat down to a very fine spread and during the dinner a cabaret performance was given by the Churchill Trio of New York.

Councilman DeCamp was toastmaster and presented the speakers. The speech of the evening was made by Mayor Evans. Mr. Evans was followed by Count Arthur J. Scrossberger, Charles W. Sortor, Dr. Butler and others.

The committee in charge comprised R. L. DeCamp, H. L. Abrams, Jr., J. H. Traynor and Wm. Fredericks.

NO MOSQUITOES FOR WESTFIELD THIS SUMMER.

Inspector J. Knox Clark, of the Union County Mosquito Commission, is getting ready to drain a large amount of property in this town for the purpose of making less breeding places for mosquitoes.

He already has a contract with the Pearsall Company to drain all their land in this town. He also expects to do similar work for Isaac Sewler, Mrs. Fannie Miller, Mr. Koehler and Mr. Tipping.

In all, seventy-five pools and swamps have been arranged to be drained, which means that the Mosquito Commission will so far as possible, drive out the mosquito this summer.

As there will be no afternoon mail delivery today, THE STANDARD, in order to reach its subscribers by the morning delivery, went to press at two o'clock this morning. Its news columns were kept open until one a. m. and it carries the local news up to that hour.

Another testimonial to the progressiveness of this paper.

At six o'clock a supper was served of which about ninety persons partook.

The supper lasted until eight o'clock when Miss Jessie Allen Fowler, of New York, gave an interesting and instructive address on "Phrenology." Audience Vote Unanimously to Continue Lectures Another Season

The last lecture in the series which has been given in the Washington school during the past winter under the direction of the Board of Education was held on Saturday night. The lecture was illustrated with many beautiful stereoscopic views of Panama and the canal. The lecturer was introduced to the large audience by W. A. Dempsey.

MEN'S CHRISTIAN FORUM DISCUSSES UNEMPLOYED

At the meeting of the Men's Christian Forum in the First Methodist church last Sunday morning, "The Unemployed and the Remedies" were discussed by those present. One of the principal points brought out in the discussion was the establishment of the central bureau for supplying labor, recently created in New York. It was the opinion of the Forum that the establishment of a like employment bureau in this town would be a good thing.

Among those who spoke during the discussion were W. A. Bishop, Frederick Doerger and F. B. Ham, President Beattys presided. The subject which the Forum will discuss next Sunday will be "Poverty as a Social Disease."

DANKER—COLLINS CASE POSTPONED ONE WEEK.

The trial of August Danker upon complaint of Ralph H. Collins did not come off on Tuesday evening as scheduled. The Town Attorney appeared and stated that he had lately learned that the proceeding was for a violation of a Town Ordinance, and that he considered that no such prosecution should be instituted without his knowledge and consent, because of the danger that the ordinances might be used for private purposes and not to vindicate public order. He stated that in this particular instance he had learned of no circumstances which would justify action on behalf of the Town, a complaint for assault and battery having been already preferred. The Recorder thereupon adjourned the matter for one week.

ENFORCING AUTOMOBILE LAWS

Deputy State Inspector of Motor Vehicles Shedd and Chief of Police O'Neill were out all day on Tuesday looking for automobilists who were violating the law and as a result two were arrested and fined by Judge Toucey at the police station. The other victim was John McDonnell, of 256 Ninth avenue, New York, a driver for one of Gimbel Brothers auto delivery wagons. McDonnell had no driver's license and no number on the side of the car. He was fined \$25 or sixty days in the county jail. He paid the fine.

PALM SUNDAY AT ALL SAINTS CHURCH

A Palm Sunday sermon was delivered by the Rev. Mr. Levering at All Saints' Episcopal Church, last Sunday. His theme was founded on the following passage, "And when He (Jesus) was come near He beheld the city (Jerusalem) and wept over it." He told of the significance of the spectacle of Christ's triumphal entry into Jerusalem, and how His true humility inspires the soul. This presented peerless evidence that tears do not always signify weakness, but the sterling worth of manhood. A special seasonal offertory selection, "The Palms" (Les Rameaux) was rendered by Organist Dushanek, accompanied by Emil Brunner on the violin. The offertory envelopes for the ensuing year were distributed. The parish is using the duplex system and find it very satisfactory. Holy Communion will be celebrated by the Rev. The Rev. R. W. Elliott, rector of the Church of the Holy Comforter in Rahway, was the officiating clergyman at the funeral of Mr. Glover, last Thursday.

Miss Claire Hall, a student at Mount St. Mary's College, spent the week end at the home of her parents, Mr. and Mrs. Maurice Hall, on North avenue.

The card clubs of Fanwood have been more or less inactive during the Lenten season. It is expected that they will resume their weekly meetings after Easter.

A linen shower was tendered Miss Margaret Reynolds, of Scotch Plains, at the home of Miss Ethelwyn Walker, on Mountain avenue, last Saturday afternoon.

Miss Dorothy Beeken, of North avenue, and Miss Mildred Brown, of Forest road, have returned to their studies at Vassar College, after spending the spring vacation at their respective homes.

Steven Sinker has been cutting considerable timber on the Coriell property. He has sold several hundred cords of wood this winter to various dealers out of town, and has also sold a number of cords locally.

Mountainside

Last Sunday night at the Mountainside Chapel there were six received into the membership of the Presbyterian Church in Westfield, by Dr. Steans and three of the elders from that church, Mr. Lawrence Clark, Dr. Savitz and Mr. Bull. Those joining were Mrs. Lou Robbins, Mrs. Stella Roll, Misses Elsie and Frieda Weber, Miss Nettie Von Borstal, and Mr. Eddie Menerth.

The Sacrament of the Lord's Supper was afterwards administered by the Pastor to the Chapel.

Next Tuesday, the Ladies' Aid Society of Mountainside Chapel, will have an all day quilting bee at the Chapel. That night Mr. Pemberton, the Pastor, will give a Radio-television lecture for the benefit of the Ladies' Aid about the Holy Land, and other parts of his trip last year. The reports of the officers for the year were read and showed the club to be in a flourishing condition, both financially and socially.

Two Fires In The Woods.

The fire department was called out to two fires in the woods to the west of town on Monday. The first one was near the upper part of North avenue in the afternoon and the other in the evening on upper Brightwood avenue.

Some of the residents in those sections became alarmed and telephoned the fire department. It is thought that the first one was set by sparks from a locomotive and the other by small boys.

BOYS BRIGADE WELCOMES COMRADE

Rousing Reception Tendered Sergeant
Lewis Catto Upon His Recovery From
Long Illness

Last Tuesday evening the members of the Boy's Brigade tendered a hearty welcome to Sergeant Lewis Catto, who had been ill for about three months. When the company was assembled, Sergeant Catto was presented by Captain Witke amid cheers and a general "stampede of feet."

He was introduced to all the new members of the company by the Captain, and received a hearty handshake from each member present. The members certainly expressed their delight in seeing their fellow member again, in a very characteristic "Brigade manner." They almost took the roof off the building.

After the short religious service which precedes each weekly drill, the company was drilled by Sergeant Bush. While drilling those members requiring new uniforms, were called out one at a time to be measured. A representative from D. Klein & Bro., a Philadelphia concern measured about fifteen members for new uniforms.

After the drill was over the members marched down stairs into the dining room, where they partook of refreshments, furnished by the Officers. These refreshments were served to the members, in honor of Sergeant Catto, who had recovered from his severe illness. However, they gave three cheers for the officers who prepared the "feast" and declared they were a "jolly good set of fellows." The young ladies who served the refreshments deserve the praise of every member. They were Miss Ruth Stevens, Miss Edie Catto, Miss Anna Witke, Miss Mary Clark, Miss Florence Howarth, Miss Ethel Pope, and Miss Beatrice Pope.

The new uniforms are expected by April 20th.

JERSEY CENTRAL OPENS NEW PASSENGER TERMINAL

With the opening of the "second deck concourse" and the main waiting rooms, last Sunday, the final stage in the reconstruction of the New Jersey Central passenger terminal has been completed and the entire structure is in actual commission.

Probably next in importance to the erection of the new train shed, with a capacity of treble that of the old shed, is the provision for direct access from the train platforms to the upper decks of the ferry boats. This is accomplished by the installation of ramps or inclined runways, from the main concourse on the train level to the concourse on the river front of the second floor of the station from which two electrically-operated hanging gangways communicate through each ferry-slip to the upper decks and cabin of the boats.

The principal advantage which passengers now enjoy from the new overhead passages is the elimination of the roundabout way of getting from the upper decks of the boats via the lower deck cabins, to the trains and vice versa. It also means that boats can be loaded and unloaded in half the time that was consumed when all passengers used only one approach or exit—the lower bridge—to and from the main deck.

His enviable sense of humor is shown in his clever impersonation and character sketches while his agreeable baritone voice and his accomplishment as a pianist make a program which should please every one.

During the evening the coin cards which have been distributed will be opened. This money goes toward the new church building fund.

Refreshments were served in the dining room and were in charge of members of the Guild and of the Westminster Circle. A silver offering was taken which amounted to over \$20.

FRIDAY, APRIL 10, 1914.

From time to time The Standard will publish editorials on pertinent subjects written by local men prominent in various walks of life. The following is the first of this series:

This Epidemic and Others.

By Dr. R. G. Savoye

The epidemic through which Westfield is now passing is the direct result of negligence on the part of two institutions of the town, the Health and School authorities—if we are to believe the rumors.

Both departments undoubtedly deserve some censure. The Health board should have had such definite rules of quarantine that one's rights, privileges and duties could not be questioned, and having such rules, strict power of enforcement.

The State Board of Education should eliminate the so-called Honor System for attendance for individuals, classes, schools and towns or in lieu of the elimination of this despicable practice, accept certificates of illness or quarantine for perfect attendance during the period covered by certificate. This would permit children to remain home during "off days" which are so often the beginning of children's diseases and credited with being the most contagious period of the disease.

Neither of these conditions is responsible for the number of cases of disease that have spread over the town.

YOU are personally the real reason! When the youngster began to feel under the weather did you find out whether he was developing a contagious disease, or did you keep sending the child to the store, the movies, to school, Sunday school and entertainment? Then, when you found he had measles, did you obey the rules of quarantine your physician laid down or was it "Just Measles?"

For the cases where a physician is in employ instructions are given; but a serious handicap to the maintenance of the rules is the freedom enjoyed by those cases where there is no physician, no rules and, consequently, no quarantine. These cases are an inducement to keep other cases from the authorities, and add to the spread of the disease.

The educational work of the members of the Westfield Medical Society and the Board of Health has brought many reports from individual cases not having a physician. That work was continue.

The work now progressing by the Board of Health will go a long way toward preventing a repetition of the present condition. But in its last analysis, the blame is with the people, through carelessness, ignorance and neglect.

On The Map.

Post Master Gale has given us the welcome announcement that a new carrier and an auxiliary are to be placed in commission on Monday next. After all, it pays to go after a thing when there is anything we want.

We congratulate Postmaster Gale on the success of his demands upon the Post Office Department for these needed carriers. We should now have two full deliveries a day in all parts of the town.

Tax Rate Stationary.

With the passing our tax budget, in connection with the appropriation already made for school purposes, we will have a tax rate approximately the same as last year, provided there is no extraordinary election expense, which has proved so costly to our County in the past. We congratulate the Council and the School Board in their determination to keep their budgets down to the very smallest possible figures.

The one item (the town's por-

tion of local improvements) which has placed such a strain upon our town finances for the last three years is now being controlled by the fixed policy of the road and finance committees. This will prove a good thing and give Westfield an opportunity to make improvements in other departments, which are as valuable to the town as its roads.

While The Standard always advocates a good stiff policy of road improvements, we believe that even such important improvements should not overshadow or take the place of others which may be equally as much needed.

Epidemic of Measles Expensive.

Whether the failure on the part of our citizens to conform to the quarantine regulations for measles, or whether one doctor or another has not fixed long enough periods for quarantine, new cases are reported each day, and the school authorities report that about 200 absentees under quarantine are away from school. This means a loss to the town in state money of about \$25.00 per day, which is, of course, the least of the matters for consideration at this time.

It would seem that with the present advanced knowledge of medical science, our Board of Health could and should fix a proper period for quarantine and include same in our health code, so that violators may come under the jurisdiction of the police authorities.

While we understand the form of measles prevalent in Westfield is the least dangerous type, the loss to a family having two or three children kept from their school work for two or three weeks because of carelessness on the part of some neighbor, is hardly living out the golden rule, and is a matter that our citizens should take into most careful consideration at this time, that the spread of the disease may be stopped and the work of the schools not hampered.

Starve The Mosquito.

It is a source of comfort to know that the County Mosquito Commission is busy in the outlying districts, doing away with the mosquito breeding spots. This should give our citizens a measure of security. Much can and should be done, by each property owner taking a few moments to inspect his own premises, and see that there are no tin cans, pools or other places to hold stagnant water, where the mosquito larvae hatches and thrives.

At one time the public authorities encouraged the people to swat the fly. Our common instinct has taught us to swat the mosquito, but the latter slogan of "starve the fly" is equally true concerning the mosquito, and by preventing the increase of both the fly and the mosquito, we will not only follow the best lines of science and economy, but will preserve a higher standard of health and comfort to our community.

Can't Force It.

Governor Fielder got his answer to his message on the mandatory freeholder's bill, from Assemblyman Hammond in his speech answering Assemblyman Griffin's attack on the opponents to the mandatory features of the bill. Mr. Hammond very tersely demanded to know "What right the Governor had to say to the citizens of Mercer County that they should have a small board of Freeholders, whether they wanted them or not, and denied his right or the right of the legislature to force a mandatory board of freeholders upon Mercer or any other county."

He also took a fling at the Governor for advocating the districting of assembly districts, and opposing the same principle for freeholder representatives.

Assemblyman Hammond had the pith of the whole matter, and we are surprised that Governor Fielder should have placed himself in such an untenable position. The people of Union County will have a chance to vote their choice between a small or large board of Freeholders.

Chickens Will Come Home.

In the defeat of the Democratic candidate by an overwhelming plurality in the 7th District, the administration at Washington has been given an emphatic rebuke. The Seventh is largely a manufacturing district which has already felt the bad effects of the tariff.

While the administration sent

its most eloquent spellbinders into the district to plead for the endorsement of the administration and its policies, the mill hands know when their dinner pail is getting lighter, and no sophistry of the administration orators could overcome this fact.

It is thought, too, that the miserable blunder in placing the banks of North Jersey in the Philadelphia Reserve District played some part in the defeat of Senator Hughes' candidate.

Not a little of the burden of this defeat can't be taken by President Wilson himself as a rebuke to the arbitrary and unstatesman-like way in which he has borne down upon Congress to force through his personal projects, and his butting into local political affairs.

Let us hope that both branches of Congress will take courage now that they see that the people are against such practices, and stand up like men and show the White House that they are there to represent the people and not to rubber stamp President Wilson's pet theories.

Follies.

The placing of the banks of North Jersey in the Philadelphia Reserve District is neither a compliment to the wisdom of the administration, nor a proof that it is not above the influence of petty pique or sectional prejudice. It seems perfectly clear, that, regardless of the convenience, expense or welfare of the banks of North Jersey, the influence of Secretary of the Treasury McAdoo, and the foolish prejudice of the western and southern element in Congress, found expression by attempting to dethrone New York as the banking and financial center of the United States.

No little of the growing disgust with the administration of affairs at Washington is caused by the willingness of the present incumbent of the White House to cater to the wishes of the people who have foolish prejudice against the commanding position New York has in the finances of our country.

While no one believes that this will seriously interfere with the New York banks, the business men, citizens, and banks of North Jersey have been severely handicapped and injured. If the scheme were not so absolutely ridiculous, we might feel insulted; but as it is, everyone feels that it is more the play of the fool than anything else.

CONSTANCE FRANCES DREW.

Constance Frances Drew, the eight year old daughter of Mr. and Mrs. William Drew, died at her home on Westfield avenue last Saturday night.

The funeral services were held on Monday afternoon and were private. The body was taken to Rose Hill Cemetery, Linden, where it was cremated. The cause of the child's death was pneumonia.

WILLIAM E. TUCKER.

William E. Tucker, 73 years old, a retired lace merchant of New York City, died at his home, 520 West Duxey avenue, on Monday night, after a lingering illness. Mr. Tucker was a former resident of Rahway and removed to this town about three years ago. While in Rahway he was an elder in the Presbyterian church. He was a member of the Presbyterian church here.

He was well known here and was greatly interested in charitable work. He leaves a widow, one son, Lawrence L. Tucker, three daughters, Mrs. Robert Nelson, of Chambersburg, Pa., the Misses L. Blanche and Natalie O. Tucker.

The funeral was held from his late home yesterday afternoon and was conducted by Rev. Dr. W. I. Steans. Interment was made in Rahway.

K. OF C. ATTEND SOLEMN VESPERS

Impressive Scene as Knights Forming an Arch of Steel With Their Swords, March up Aisle to Chant of "Onward Christian Soldiers"

Sunday evening Holy Trinity Church was literally packed when 350 Knights of Columbus and 400 parishioners attended Solemn vespers.

In the morning an extra Mass was celebrated at 8:15 when the members of Westfield Council received Holy Communion.

Impressive and solemn was the scene in the evening when 90 Fourth Degree Knights in their simple but attractive regalia, acted as an escort to the 250 other Knights.

Forming a steel arch with their swords, the Knights marched up the centre aisle while the choir and congregation sang "Onward Christian Soldiers."

Solemn vespers, always impressive and devotional, were sung by the choir with effect and expression, showing evident signs of thorough training.

Rev. James A. Lundy of St. Catherine's Church, Elizabeth, delivered the sermon. Sketching briefly the work of the church in the early ages, he showed conclusively by a masterly array of indisputable facts that the "Church of God" stood for the teachings of Christ, that such has always been the case and that today it shows, in a most emphatic and logical manner, that it is true to its past history—working for the moral uplift of men.

In conclusion he made a strong appeal that they live up to the membership of their church and they would be what Christ intended—true Christians—real followers of Christ in one faith and one baptism.

The rectors who took part in the Vespers were as follows:
Celebrant—Rev. P. H. Maher, rector of St. Mary's, Rahway.
Deacon—Rev. M. J. Mulligan, D. D., Asst. Rector, St. Mary's, Elizabeth.
Sub-deacon—Rev. S. Lo Vecchio, Roselle Park.
Master of Ceremonies—Rev. E. A. Rigney, Asst. Rector, Holy Trinity Church.

Priests in the Sanctuary—Rev. H. A. Beale, Rev. J. O'Malley and Rev. C. Doyle.

EASTER SUNDAY TO BE OBSERVED WITH APPROPRIATE SERVICES

(Continued from Page 1.)

EVENING:
Processional Hymn 110—Come Ye Faithful.
Magnificat, Stainer.
Nunc Dimittis Stainer.
Hymn 112—Jesus Christ is Risen Today.
Awake Thou That Sleepest, Stainer.
Recessional Hymn 118—At the Lamb's High Feast We Sing.

On Sunday, April 19th, Mrs. H. Lyles Zabriskie will sing "The Cross" at the Congregational church service; the children's choir will sing "Now is Jesus Risen Early" with solo by Mrs. Zabriskie.

An illustrated free lecture will be given on Wednesday night at 8 o'clock in the Congregational Parish House, upon South China by Rev. M. L. Stimson. Many interesting and beautiful colored slides will be shown.

The Holy Week devotions at Holy Trinity Church consisted of Stations of the Cross and Benediction of the Blessed Sacrament on Tuesday night. Tonight at 8 o'clock recitation of the Rosary, meditation, sermon on "The Passion and Death of Christ" and adoration of the Cross.

Yesterday morning—Feast of the Institution of the Blessed Sacrament. High Mass was celebrated at 7:30 a. m. There was a solemn procession of the Blessed Sacrament to the Repository and visits to the Repository all day until 9 o'clock last night.

Good Friday—Mass of the Presanctified was celebrated at 7:30 this morning with adoration of the Cross and solemn procession of the Blessed Sacrament.

Tomorrow (Holy Saturday)—Blessing of Baptismal font, Paschal candle, and various blessings at 6:45 a. m.; mass at 7:30; Holy water will be distributed after mass. Confessions in the afternoon at 3:30 and in the evening at 7:30. Holy Name Society members will receive Holy Communion Sunday morning at the 7:15 mass.

THE every member canvass has added materially to church support because each member has considered his or her individual responsibility. If our citizens who have others dependent on them should consider carefully their needs as regards adequate life insurance protection and act accordingly there would be a great many new policies taken out within the next few days.

LOYALS PROVE HOODOO FOR RED MEN.

The Loyal Association team of the Fraternal Bowling League proved to be a hoodoo for the Red Men last night on the alleys of the Westfield Theatre as the only game the Indians were able to cop was the sand-wich.

The Loyals bowled all around the Indians in the first and last game and only lost the second by three pins. Townley, Ortleb and Gilmore were the stars for the Loyals. Townley posting 222 in the last game and Ortleb and Gilmore 212. Not a man on the Indian's team reached the two-time mark.

By defeating the Red Men the Loyals brought the Indians farther away from the Woodmen of the World who are the leaders of the League.

JUNIORS EASY VICTIMS FOR RED MEN.

The Jr. O. U. A. M. team of the Fraternal Bowling League proved to be easy meat for the Red Men on Monday night, as the latter team had no difficulty in taking all three games. The Juniors did not have their bowling eye with them and could not seem to hit the pins for a win.

Gripp and Stegmeier were the stars for the Red Men; Baker and Howarth for the Juniors. The former two hung up two two-time scores and Baker and Howarth one.

PLAN TO FLY.

The Row in Front of the Westfield Theatre.

A tree planting operation of unusual character lately occurred in the most fashionable residential section of New York. On Fifth Avenue, between Seventy-fifth and Seventy-first streets, Henry C. Frick, the noted captain of the iron and steel industry of the United States, is building a magnificent mansion to cost \$3,000,000.

Mr. Frick has a fondness for trees, and because of its fragrant blossoms and general beauty the horse chestnut (often called the giant's nosegay) is his favorite species. He determined to plant a row of horse chestnuts in front of his new residence. Usually when trees are required in other city or country sections of the chosen variety are set out, and their growth to impose size is patiently awaited. But Mr. Frick is a man who does things. So he decided to obtain specimens of the horse chestnut which had not less than 100 years of development.

A few of these were secured. A number of them were planted in the property of the Westfield Theatre, but the chestnuts of the line which are planted in front of the theatre, each about twenty feet high and capable of bearing a load of 100 pounds, are a few feet above the ground. Last night's work.

BASEBALL OPENS WITH A VICTORY

Leals, a Strong Team, Goes Down to Defeat Before Westfield's Invincible Nine

Judging from the way the High School started off on Wednesday, Westfield is to be represented this year by a championship nine. Leals School of Plainfield, always a strong team, went down to defeat before the local boys in a hard fought game at Crescent Oval, Plainfield, by a score of 9 to 6.

Westfield started off fast, the first man up making a single and scoring. This honor of making the first run of the season goes to Daniel Gilmartin. Bill Gilmartin added another run in the second. The third inning was all Westfield, D. Gilmartin, Rahb and Crutenden scoring and W. Gilmartin being left on second. Neither team did anything in the fourth but in the fifth was a big inning for both. Leals got away with four runs while Westfield scored three. The sixth was scoreless. Rahb added another to Westfield's total in the seventh. The game was called by agreement at the end of the seventh.

Westfield was on the field promptly at three, but Leals delayed the game until four o'clock, which made it necessary to play the whole game in the rain.

LEARNING TO FLY.

It is Not Difficult if Care and Good Judgment Are Used.

All the men who have now learned to fly are not, it is obvious, endowed specially by nature for their task—are not men with some rare gift which enables them alone to navigate the air. Flying, in a word, is not difficult. If a pupil is carefully taught and ascends at first only in calm weather, he finds the piloting of an aeroplane a matter of surprising ease. All a man needs should he wish to fly are ordinary activity and generally sound nerves, but it will facilitate his progress if in addition he has sound judgment, a certain amount of patience and an eye for distance and speed.

To the equipment of a superlatively fine pilot there go other qualities naturally, such as an abnormal delicacy of movement and sense of control with his hands. But we are concerned for the moment with air men of an ordinary competent type, which is all the average pupil can aspire to become. That glamour and mystery which in the early days clung to the piloting of an aeroplane has now been completely dispelled, and it is recognized that, under fair weather conditions, a well built machine requires little control. What it does, it may also be said, is to fly itself.

But, though he experiences few difficulties in learning to fly, the novice should remember always that no liberties should be taken. Every instant he is flying a man needs caution. The greatest masters of flight, no matter how great their skill, have never lost their respect for the air. Hence it is that Orville Wright, Blériot, Farman and others of the pioneers are still with us today.—Claude Grahame-Smith in National Review.

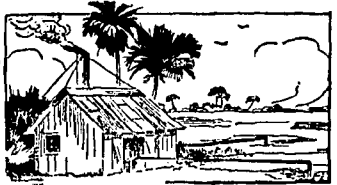

A Bucket Line.

A seventy-five mile pipe in a bucket high in the air will soon be possible in the Himalayas. An aerial roadway of that length the longest in the world is to be constructed on the plans of a Canadian engineer from the Punjab to the famous vale of Kashmir. The ruggedness of the country and the danger of rock slides and landslides makes a railroad track out of the question. Towers will be built nearly half a mile apart, and a cable will carry steel cars loaded with 300 or 400 pounds. The cable will be in five mile sections, but an arrangement has been adopted to automatically pass a car or bucket from one cable section to the next. Plenty of water power is conveniently at hand to develop electricity for running the buckets.—Exchange.

CLEVER IDEA BRINGS RESULTS

Proves to Be Competent Basis for Plans to Drain a Big Florida Swamp.

New York.—Florida was built upon a coral reef, says Popular Mechanics, and this coral is covered with a hard lime rock, which comes to the surface in the western part of the state, where the rainfall gets in under the limestone, flows east and comes up in the ocean about two miles from shore. This formation gives Florida its artesian wells, with a pressure ranging from eight pounds at Fort Pierce to 22 pounds at Jacksonville. A swamp was successfully drained by driving an artesian well and overcoming the pressure by a gasoline-driven centri-

Method of Draining Swamp.

fugal pump, the water being forced downward through the pierced rock bottom limestone, into the water-bearing stratum beneath, and thus outward toward the sea. In places where there is no surface water and no flow on account of elevation, water will be pumped out from the water-bearing strata for irrigation purposes. The method has been patented.

MEN DIG UP MANY OLD COINS

Workers Near Road Between New Bedford and Fall River Find Coppers Dated 1798.

New Bedford.—Granite workers preparing for a blast at a point near the road between this city and Fall River dug up a bag of coins, some of them dated before the Revolution and none dated later than 1798. All were of copper and could be deciphered only after being cleaned.

Of the eleven coins two are the famous Liberty pennies, dated 1797 and 1798 respectively, and one is a King George penny, dated 1774. As interesting and peculiar as any, however, are the Fugio pennies, as they are known to collectors. These pennies have on one side a design of the sun and on the other a sun dial. Under this design is the date, 1787, and the legend "Mind Your Own Business," while the Latin inscription, "Fugio," is printed on the edge. On the reverse side are thirteen links joined together in a circular chain, emblematic of the thirteen states which originally formed the Union. These Fugio coins were manufactured in Connecticut, by a citizen there, and under a special act of congress in 1786 and 1787 and there was but a limited number to the issue. They are quite uncommon now and are eagerly sought by collectors.

DEAD MAN WON TRAIN RACE

A Milwaukee Railway Engineer Stricken at the Throttle After Swift Ride.

Seattle Wash.—While driving his locomotive 55 miles an hour, George H. Perry, engineer of the Chicago, Milwaukee & St. Paul fast overland train, the Olympian, died of heart disease at his throttle. Death occurred soon after Perry had won a race against a train on a rival road which parallels the St. Paul tracks near Easton, just before the roads begin to climb the steep grade up the east slope of the Cascade mountains.

After Perry's train had passed its rival, had gone through Easton at full speed, the fireman saw that the engineer was dead. He drove the train to Laconia on the west slope of the range, where another engineer took charge.

Perry was one of the oldest men in the employ of the Milwaukee, having been in the cab more than 40 years.

In that time he had never been in a wreck. He was sixty-three years old, and his friends had planned a surprise party for his home coming. Many of them did not know of his death until they went to the railway station to accompany him home to the birthday anniversary festivities.

GIVES SONS ALL, DIES POOR

After Giving Children His Property, Disappears and Is Not Heard From for 20 Years.

Colusa, Cal.—Death from old age and exposure was the verdict of the coroner's jury on the body of Ben McAtto, once a wealthy farmer of Oregon, whose body was found on the Brown & Zuvwalt ranch, where he had been herding geese for P. T. Putnam. McAtto was nearly seventy years of age.

The body was found by James Cropp, who while herding geese on his farm visited the cabin. G. W. Lanning said he knew McAtto in the Valley, Ore., where he was a prosperous farmer, and for some unknown reason decided all his property to his three children and disappeared 20 years ago. Lanning had not seen him again until he met him in this city recently.

Man Would Force the Issue.

Lansing, Mich.—Frederick Spreck, a wealthy farmer, contended that he had no right to the rural schoolhouse at Harrison so that the pretty eighteen-year-old school teacher would be out of a job. Then he hoped she would listen to his proposal of marriage.

TOWN BUDGET

NOW COMPLETED

Summit avenue from Grove street to Clifton street, the construction of a sewer in Central avenue from Myrtle avenue to Park street; the construction of a sewer in Egwood avenue and Pleasant place; the construction of a sewer in Edgewood place a distance of 250 feet north-west; a sewer in Stanmore place, from Prospect street to Clark street. All of these reports were confirmed by the council.

The ordinance to improve North street and the one to improve Lincoln road and Webster place were both passed on final reading.

Councilman Davis of the Finance Committee introduced the following resolutions which were adopted: To issue a certificate of improvement for \$6,916; to cancel an improvement certificate for \$615.27. Collector Clark was instructed to accept \$170 in adjustment for taxes against lands of Pink and Pierson; \$16 for Mrs. W. E. Sidell's property; and \$101.44 for Mrs. Rockert's property. Quit claim deeds were ordered given to W. D. Johnson, of Hartford, Conn., who sent a check for \$90.12 for taxes and to William A. Hopenewell, of Elizabeth, who sent \$122 for lots on Harrison avenue.

Councilman DeCamp of the road committee reported favorably on the petitions of residents of Stanmore Place and Lenox avenue for the macadamizing and otherwise improving of these thoroughfares and a hearing on objections was set for Monday evening, May 4.

The Weldon Contracting Company was awarded the contract for the repair of the streets; Charles A. Peterson the contract to lay concrete sidewalks and E. W. Chamberlin the contract to build sewers in Newark avenue and Graceland place. The Plainfield-Union Water Company was requested to extend its mains in Stanmore Place and to put in a fire hydrant for the town. The \$70 balance of the fund deposited by the property owners for improvement of Lawrence avenue was ordered returned to the citizens who put the money up to assure the improvement.

Councilman Perry of the Town property committee reported that he could secure a four-cluster lamp post similar to those in front of the Westfield Theatre to be erected at the entrance of the north side station park at a cost of \$160. The matter was left to Mr. Perry and his committee to secure bids.

The reports of the town officers for the month were received and were as follows: Balance in the hands of the town treasurer, \$15,483.10; Recorder Springfield, \$30 for fines collected; A. W. Vars, three sewer permits, amounting to \$1.10; from the secretary of the Board of Health; Overseer of the Poor, \$1.10; balance on hand, \$211.37; Building Inspector Moffett, three permits issued amounting to \$9,000; Fire Chief Decker's report for the months of February and March, 5 general alarms, 2 still alarms, 2 drills.

Petitions were received for a sewer in Chestnut street from East Broad street to Maple street, and to establish the grade of Chestnut street from East Broad street to Dudley avenue. Both of these petitions were referred to the road committee.

A petition was received from residents of Pleasant place asking to have that thoroughfare widened to 66 feet and agreeing to give the necessary frontage. This was referred to the road committee.

The Men's Forum of the First Methodist church sent a communication to the council asking that it take such action as it deemed fit in the matter of establishing a Labor Exchange for the benefit of the unemployed of the town. This communication was referred to the public safety and convenience committee.

After several minor matters had been disposed of and a number of bills approved and ordered paid, the meeting adjourned. Mayor Evans presided and all the members were present.

can be used on any GAS RANGE OR HOT PLATE

It will toast four slices of bread in two minutes.

Here's the one article that has been lacking in your kitchen equipment, and for that reason you have been foregoing the pleasure of a nice toothsome slice of crispy toast. No need to do so any longer.

THE VULCAN TOASTER will toast four slices of bread in two minutes, and toast it as it only can be toasted over a bed of live charcoal. The outside of the slice is turned a rich golden brown; not charred and blackened. The inside is left soft and palatable, and the finished toast has that rich nut-like flavor that even a dyspeptic can enjoy.

THE VULCAN TOASTER is so constructed that it is impossible for the products of combustion or the foreign tastes from the flame to come in contact with the bread.

We are so confident that you will be pleased with the Vulcan Toaster that we will send you one on a ten day trial. If you are not entirely satisfied, we will return your money.

Serpent in Old Legends.

The serpent was among the gods of the Land of Egypt, where Moses led his people, and they found it among the gods of the land they were to subdue. Cadmus, the Phoenician who invented letters, became a serpent. Lovers of Wagner will not fail to recall that Alberich transformed himself into a "worm" to guard the stone Rhinegold. But the trail of the serpent may also be traced to such legends of Greece, or for that matter through those of the earlier American peoples.

Bad Effect of Moonlight.

There is scarcely any region on this globe, from the equator to the newly found continent of the arctic circle and the lately discovered south pole, where there is not a general belief in the powerful and deleterious effects of moonlight on fish, newly planted seeds and to a lesser extent on meat which is to become food, says a writer in the New York American.

“WIRELESS EYE” MUST SEE

Detectives Found a Panorama Was Only a Photograph—Inventor May Face Fraud Charges.

Oakland, Cal.—If Samuel Spitz can convince the authorities that his wireless eye really can see, all will be well. Otherwise Spitz faces prosecution on a charge of obtaining money under false pretenses.

Spitz engaged offices in the Bacon building here last September and announced the organization of what he called the Wireless Spectroscope company. He offered stock in the company at \$1 a share and sold several thousand dollars' worth. The wireless eye was the company's stock in trade. Spitz maintained that by means of Stygian rays and his wireless outfit he could throw on a glass disc at night the image of everything out of doors within a five mile radius of the apparatus.

Recently detectives visited Spitz's office and were invited to take a look through the spectroscope. One after the other they did so, and there unfolded before their astonished gaze a long panorama of the city of Oakland with lights twinkling in buildings and on the streets. The detectives tore the machine apart, and at the "eye's" outlet discovered a roll of film on which had been photographed a panorama of the city.

Miner Has "Hard Luck." Houghton, Mich.—The original "hard luck" man is Josip Burcar, a copper mine striker. While carrying a bucket of water he fell and broke his arm. His wife took the same bucket and fell, also breaking her arm. An hour later Burcar was told he would be evicted if he did not return to work.

AUTOMOBILE AND WAGON COLLIDE ON NORTH AVE.

An automobile owned and driven by Mrs. N. M. Avery, of 398 Clinton avenue, Newark, and a horse and surrey owned by A. R. Maxwell, of Mountainside, and driven by Edward Dix, collided on North avenue, opposite the railroad park on Wednesday night about 6 o'clock. As a result the wagon was badly damaged and Mr. Dix was thrown out and shaken up and bruised.

Mr. Dix was driving across North avenue to Elm street and the automobile was going towards Central avenue on its way to Newark. One of the headlights of the machine was damaged. Both Mr. Dix and Mrs. Avery went to the police station with police officer Deter and after explanations and an exchange of cards they were allowed to go.

SCHOOL MATTERS

Many Permissions Granted by Board. Easter Vacation April 9 to 15. School Year to End June 26

NEW BOARD ORGANIZES

At the regular meeting of the Board of Education held last Friday evening permission was granted to the German Lutheran Church to hold a fair in the portable building sometime in May. The room adjoining the auditorium was granted to the Parent-Teachers Association as a meeting room. They were also given permission to use the building on the 21st of this month for an entertainment. The Girls' Progressive Club was permitted the use of the auditorium for a play on the 24th of April. Miss Mae E. Haas, a teacher in the Franklin school, was given permission to use the piano after school hours.

The Board decided the Easter Vacation should extend from the 9 to 15th of April and set the closing day for June 26th.

Principal E. N. Rozelle made his report and stated that the per cent of attendance for March was 91.7 and the month's total enrollment was 319 pupils. The state appropriation at 12 1/2 cents per pupil was about \$810 and the amount lost from poor attendance was \$65. He also recommended that the library be properly fitted up and thrown open to the public, that the playground be resurfaced and that trees be purchased for Arbor Day.

The boys of the school met last Friday afternoon and organized their baseball team. The boys elected Principal Rozelle, manager, and Harold Washburn, captain and coach.

The Franklin Literary Society held a short session Friday, at which Frances Yohn recited several humorous poems and Julia Peters rendered a short story.

The balance of the money received for the school dedication was fittingly used to purchase a Franklin bust which arrived last Friday.

The recently elected Board of Education organized last Monday evening by electing Mr. John T. Stiff, President, and Mr. F. J. Dushanek, Vice-President. The meeting was adjourned until Friday evening when the first regular meeting will be held. The board now consists of J. T. Stiff, President, F. J. Dushanek, Vice-President, Cowell, Henderson, Rahb, Dushanek, McManus, Fromkorth, Anger and Johnston.

Mr. P. M. Eriksen and family passed Sunday in Camp Warren, Staten Island, which will be their summer home.

Mr. Theodore Carlson, of Spruce street, is on a business trip to Atlantic City and Camden in behalf of the Beckley Perfuming Company.

Mr. and Mrs. Hafersorn, of Second avenue, entertained several guests from Brooklyn Sunday to assist them in celebrating their wedding anniversary.

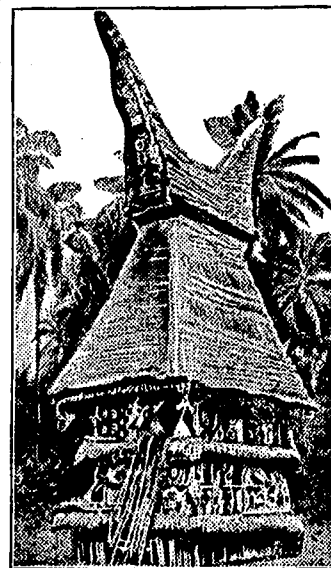

Mr. M. T. Burns, of Hoboken, moved into his house on Center and Spruce streets yesterday, which has been recently occupied by Principal E. N. Rozelle.

SECRET BODIES OF PAPUANS

London.—Secret societies of a religious character are very numerous among the Papuans inhabiting the large island of New Guinea, north of Australia, and the neighboring groups. In parts of the Bismarck archipelago, lying east of New Guinea, there are societies whose operations are confined to the performance of ceremonies in honor and memory of the dead. These societies, like all the others, have their special masks and

Papuan Religious Hut.

accessories, and their secret places in which these are kept. Some of the masks are so sacred that they are kept in a hut, similar to the one shown in the illustration, which is specially built for them and fenced around with a thick hedge. Only certain persons are allowed to enter. Women and the uninitiated men are forbidden entrance at any time. The members of the societies make the masks in the secret enclosures and occasionally emerge, dressed up in the masks and strange garments, and terrify all the other people of the district, who think they are spirits. Ceremonies and performances are conducted in the secret places throughout the year; but once in each year they have a public ceremony in honor of the dead, at which there is feasting and dancing. The bringing of the sacred masks to the dancing place is the occasion for a loud wailing, the names of the dead in whose honor they have been made are shouted loudly, and the women utter loud cries, tear their hair and even tear off their clothes, as though they had gone mad.

There are certain masks made by these societies which are not worn at dances, but only in connection with the collection of contributions toward funeral feasts. The male relatives of the deceased put on the masks and go silently through the village from house to house; in one hand they carry a small stick and in the other a shell rattle with which to announce their approach. They stand in silence a short time before each house and receive some contribution in money.

The Bismarck archipelago, formerly known as New Britain, has a population of 200,000 Papuans and belongs to Germany.

La Victoire Lace-Front Corsets

THESE beautiful corsets are in keeping with the daintiest and most exclusive creations that the Parisian dressmakers have sent us this season. They reproduce the lines that have been set as models for those who dress in exquisite taste. So perfectly are the new gowns moulded that the corset lines become their very foundation.

Dressmakers endeavoring to reproduce any of the truly artistic gowns as shown in the leading fashion publications, and have them true

to the models, will find it necessary to first provide the figure with such lines and graceful freedom as only La Victoire or exclusively hand-made and fitted corsets can give. These magnificent examples of corseting are our corsets de luxe. The materials are superfine, the workmanship and designing of the highest order and the effect can be compared only to the individual work of famous designers as shown upon our leading society women.
