

DEMOCRATIC CLUB BEGINS CAMPAIGN

Endorses Tuttle for Congress And Dennis for Mayor. Will Place Full Town Ticket in the Field

About twenty-five members of the Democratic Club held a meeting in the assembly hall of the Westfield theatre last night for the purpose of talking over matters pertaining to the coming primary and campaign. The president of the club, Robert L. DeCamp called the meeting to order and stated its object. After some preliminary discussion it was suggested that a full Democratic ticket be placed in the field at the primary election. Several names were suggested for the office of Mayor and the club finally endorsed J. Alston Dennis as the candidate to make the run. For the office of councilman in each of the ward it was decided to leave the selection of a candidate in the first ward to the county committee and the members of the town executive committee of the ward. In the second ward the name of Robert F. Hohenstein was endorsed to succeed himself. In the third ward the candidate was left to the county committee and town executive committee and in the fourth ward the members of the club endorsed Robert L. DeCamp to succeed himself. The county committee were named as follows: First ward, first district, Charles Clark and John H. Traynor; second ward, Charles W. Sortor; third ward, E. R. Collins; fourth ward, R. L. DeCamp. The naming of the town executive committee was left to the county committee. The members of the club by a unanimous vote endorsed the candidacy of Congressman W. E. Tuttle, Jr., as a candidate to succeed himself.

COUNCIL HAS INTERESTING SESSION

Two of the Councilmen Have Spirited Discussion on Advisability of Making Improvements

At the meeting of the town council held on Monday night, there was a spirited discussion between Councilman Davis, of the finance committee and Councilman DeCamp, of the road committee, on the advisability of improving portions of Edgewood Parkway and Pleasant place, which were petitioned for by H. L. Becker and others and which an ordinance was introduced by Councilman DeCamp for first reading.

Councilman Davis stated that he thought the council should not exceed the mark of \$6,000 set for the extent of road improvements for the current year. Councilman DeCamp pointed out that it was the unanimous recommendation of the road committee, that the improvement be made and that the cost to the town would be about \$1,000 and that there would be no difficulty in financing the project. Mayor Evans was of the same opinion as Councilman Davis that economy should be practiced but thought the ordinance could be passed on first reading and that the council could go slow in taking the final steps. The ordinance was passed on first reading all the councilmen voting in its favor, except Councilman Davis. Mr. Becker who presented the petition was present and stated that residents in that section wanted the improvement. He said that considerable money had been spent by the property owners in laying sidewalks and that the street in its present condition was almost impassable and that the money that had already been spent on the sidewalks would be wasted unless the improvement was made.

Councilman Davis of the finance committee submitted two letters which he had received and which were read by the town clerk. One of the letters was from J. S. Ripple and Company, of New York, whose bid for the recent bond issue was accepted by the council and the other was from the attorneys of this company. The letter of the attorneys tried to show that there were certain alleged technicalities in the wording of the ordinance pertaining to the \$41,000 funding bonds to meet improvement certificates and that the J. S. Ripple Company could not accept the issue in its present form and their lengthy opinion was submitted.

Councilman Davis stated to the council that the matter had been taken up with the other firms who bid for the issue at the time the bonds were sold and that the finance committee would report further at the next meeting of the council. If none of the other firms accepted the issue it will be laid over until later in the year. Mr. Davis stated to the council that Town Attorney Oliver had shown the attorneys of J. S. Ripple and Company that three of the points argued by them were not well taken but could not remove their objections to some of the technicalities.

RETURNS FROM WAR ZONE

Rev. James A. Smith Has Unique Experiences in Making Passage From Italy

Rev. James A. Smith, rector of St. Paul's church, who arrived home last night from his trip abroad was interviewed by a Standard representative this morning and gave quite an interesting account of his experiences while in the war zone and of his trip home.

Mr. Smith stated that he left Italy the day the troops began mobilizing and that the traffic on the railroad was stopped the same day. He left Genoa on August 2, on the steamship Stampalia, as a steerage passenger, as that was the only passage to be had. There were several hundred people trying to get passage on this boat. The steamship left Genoa for Naples. It was six days in the Mediterranean during which time there was great fear on the boat lest before they should pass through the straits of Gibraltar the English would close the straits, Italy declare war and that the steamship would be bottled up in the Mediterranean. All kinds of stories were rife on the ship as to the war and one steamship, which had sailed the day before the Stampalia, was reported to have put her passengers ashore in Spain.

The steerage passengers were put on the dock of the boat and a row of bunks in the steerage was taken out to make room for a dining room. Men and women were in the steerage together and blankets were used as partitions.

At Naples soldiers came aboard of the steamship and searched the vessel and from thirty to forty of the first and second class passengers were taken ashore to be pressed into army service. When these passengers were taken from the boat, Mr. Smith said he was able to secure a second class passage. It was a new experience to him as his berth was next to the kitchen and the smell of garlic permeated it and it was extremely warm.

One day the engine broke down and as a result some of the passengers became hysterical, many of them becoming so ill they were confined to their berths.

The steamship was frequently inspected by warships. One night three English warships came up and inspected the Stampalia and ascertained where she was bound and what she had on board.

Some of the passengers before leaving Genoa pawned their jewelry and belongings to get money for transportation and in many instances they left their jewelry and clothes and went on the steamship with nothing but what they had on.

Letters of credit and bankers checks were of no use as they would not be recognized. American express checks were the only thing that would be accepted. Mr. Smith had the latter and had no difficulty in getting cash. Anyone who had money generously loaned it to whoever needed it. The natives were very generous as were the hotel men who in many cases not only let hotel bills stand, but advanced money to those who were in need of it.

Mr. Smith is very grateful to Mr. Colora, of Plainfield, who came over on the steamship with him as he was very kind to him and assisted him greatly in getting passage on the boat. Mr. Colora is an Italian and does business in New York.

On the steamship were doctors, clergymen and many people of means who were all together in the steerage. The trip over on the steerage cost \$72.50 with food.

The trip took fourteen days and when the steamship hove in sight of the American shore there was great rejoicing and the passengers sang, "The Star Spangled Banner" and "Home Sweet Home" and other patriotic songs with a sentiment they had never felt before.

D. T. FINNE HAS ARM BITTEN BY DOG

David T. Finne, of this town, who is spending the summer with his family at Mrs. Roberts cottage at Mount Arlington, Lake Hopatcong, had his right arm all chewed up last Friday, when he attempted to act as a mediator in a dog fight at that place.

There were two breed of dogs fighting—some chow dogs belonging to Mr. and Mrs. P. Hexamer and some white bulls belonging to Lee Brothers.

Mr. Finne who is a lover of animals tried to separate the dogs and was badly bitten. He went to New York, where he had his injuries treated and is walking around Lake Hopatcong with his arm bandaged and in a sling.

AT THE PLAYGROUND.

Only two weeks more remain in which the children of the town can enjoy the playground in the Washington park.

The attendance last week was excellent there being over three hundred children there one day.

Boxing gloves have been added to the playground apparatus by Mr. Huber and he is teaching some of the older boys some of the tricks in the art of boxing.

HEADED HOME FROM WAR ZONE

Information Gleaned of Those Caught in Europe's Late Unpleasantness

The following information has been gleaned of Westfield residents who were caught in the war zone in Europe:

Mrs. L. J. Dietz, of Euclid avenue, received a wireless message from her brother, Rev. J. A. Smith, rector of St. Paul's church, on Wednesday, from the steamship Stampalia, which was off Flascinet, Mass., that he was on board and expected to arrive yesterday. Mr. Smith has been touring Europe and was in the war zone.

Mrs. J. T. Tubby stated to a Standard representative over the telephone this morning that she did not know where her father, W. G. Peckham was. The last heard of Mr. Peckham he was in Paris.

Mrs. H. Gottschalk has received a letter from her daughter, Miss Belle Gottschalk, who has been in Europe since 1908 that she was safe in London but had had some dreadful experiences and would start for home as soon as possible.

The last heard of Mr. and Mrs. A. A. Schaarschmidt, who went to Germany several weeks ago, was from a letter received by friends in this town on July 26. At that time they were in Coburg, Germany. Nothing was said by them in the letter of the war.

PIERCE ENDORSED FOR SENATE

At the meeting of the Cranford Republican Club held last Friday, the following preamble and resolution, endorsing the candidacy of Hon. Carlton B. Pierce for re-election as State Senator from Union county, was unanimously adopted:

Whereas, our esteemed fellow-townsmen, Hon. Carlton B. Pierce, is a candidate for re-election as Senator from the County of Union, and

Whereas, during his term of service in the Senate of New Jersey and previously in the House of Assembly he has proven himself a fearless, energetic and successful advocate of measures for the lasting good of the whole people, and to whom must be given credit in great measure for whatever of value has been accomplished by the legislature of the State during his service therein; and it being our firm belief that the best interests of the State demand the retention of Senator Pierce in the service of the State, therefore

Be It Resolved, that the Cranford Republican Club endorses most heartily the candidacy of Hon. Carlton B. Pierce for re-election as State Senator from the County of Union and we urge upon all voters the wisdom of retaining Senator Pierce in the service of the State, using all honorable means to this end.

DR. CADWELL TO SAIL TOMORROW

Expected to Reach Home on August 29. Mrs. Cadwell's Funeral Will Probably be Held September 9

Dr. N. W. Cadwell, whose wife died in Rome, several weeks ago and whose body was brought to this country and placed in the receiving vault in Fairview cemetery, will sail on the steamship St. Paul tomorrow from Liverpool for this country. Dr. Cadwell with his son Paul will arrive here on August 29. No definite arrangements for the funeral of Mrs. Cadwell will be made until Dr. Cadwell arrives but it is probable that it will be held on September 9.

Dr. Cadwell was for many years pastor of the Presbyterian church in this town and for the past eleven years has been pastor of the Olivet Presbyterian church in Atlantic City.

Mrs. Cadwell was taken ill while touring Europe with her husband and died in Rome. Dr. Cadwell was ill at the time and was unable to accompany the body to this country. The body was sent direct to E. N. Brown, of this town and placed in the receiving vault at Fairview cemetery.

HALF HOLIDAYS SOON OVER

Have Been of Pleasure and Profit to Both Employer and Employee

Next Wednesday afternoon will be the last half holiday for the merchants and employees of the stores of this town for this season. The stores as a general thing have been closed every Wednesday during the past two months and employer and employee have enjoyed the respite from business on this afternoon. Without doubt the half holiday of the merchants and employees has been a success more so even than in past years. The half holiday was started three years ago and since that time has been kept up by the Merchants Association and those who do not belong to the association have fallen in line and observed Wednesday during July and August as an afternoon off from business.

The employees have probably enjoyed it more than the employers and have had full enjoyment of the half day each week during these two summer months.

The patrons of the stores are to be thanked for their help towards letting this holiday become an established custom. They have been very considerate in sending in their orders so that they could be filled early in the morning. It is beyond question that the holiday on Wednesdays during July and August has come to stay.

RESERVOIR IS NEARING COMPLETION

With Ten Times Capacity of Plainfield Stand Pipe Will Be Big Benefit to Westfield

The reservoir of the Plainfield-Union Water Company which has been in course of construction on Jerusalem road, in Panwood township, opposite the extension of the Westfield Golf Club and at the end of the golf course is practically completed. The reservoir was begun last October and since that time the work has progressed rapidly. Yesterday the water-proofing was commenced on the inside of the reservoir and it is expected that it will be ready for use about the first of November.

The reservoir is 300 feet long, 200 feet wide, 25 feet high and has eighteen manholes. The pipe connections have not been made yet. The reservoir will hold more than ten million gallons of water. It is built on the highest point of ground to be found in this section. Before it is put in use a force pump will be used to wash it out and it will be made perfectly clean. The reservoir will enable the pressure to be maintained all over the line of the water company and particularly in this town and will be pumped direct from the wells at Plainfield.

The reservoir will have ten times the capacity of the standpipe in Plainfield and in case of a big fire the water pressure will be such that it can be maintained. The manholes will have covers so that they can be opened to let the air in and there will be several ventilators.

The embankments around the reservoir are being graded as is Jerusalem road, at the expense of the company. After the terraces have been graded they will be seeded. The contractors who are doing the work on the reservoir are the David Heller Construction Company of Newark.

The erection of this reservoir will add greatly to the water supply and will be of great benefit to the consumer.

The reservoir when completed, aside from a point of usefulness will tend to adorn the landscape in that section. An ornamental iron fence will be erected which will enclose the reservoir and add to its attractiveness.

REPUBLICANS PLEASED WITH PIERSON CANDIDACY

Executive Committee Recommends Him to Voters of Union County as Especially Well Equipped to Represent Them in Legislature

The town Republican executive committee held a meeting in the office of Coddling and Oliver on Wednesday night, which was attended by representatives of the committees from all the wards. The members of the committee were enthusiastic and predicted a Republican victory at the polls this fall. Candidates for council in the various wards were talked over and it was the unanimous opinion that Councilman Perry, of the first ward and Councilman Davis, of the third ward should be the candidates to succeed themselves. Much confidence was expressed in the work which these two councilmen have done during the past two years. In the second ward no name was mentioned for councilman. In the fourth ward George P. Brown was mentioned and he will be a candidate. The committee recommends that every ward have a candidate. No endorsement was given to any of the county candidates but the following resolution was unanimously adopted:

Resolved, That the Republican Executive Committee of the Town of Westfield has learned with pleasure of the candidacy of Arthur N. Pierson, of Westfield, for member of the General Assembly; that he is heartily endorsed for the Republican nomination and is recommended to the voters of Union as an upright citizen of progressive ideas, a loyal Republican, and in the judgment of the Committee especially well equipped to represent the people of Union county in the legislature of the State.

The committee endorsed the candidacy of Mayor H. W. Evans for re-nomination. The Mayor's petition has been circulating for the past week and is practically all signed and ready for filing. "Harry" has made a good Mayor and will without doubt be re-elected to the office again this fall.

The meeting was presided over by Charles N. Coddling, chairman of the committee.

PARENTS DAY ENJOYED BY MANY

Four Hundred Mothers and Children on Playground Yesterday Afternoon Where Miss Putnam Had Arranged Pleasing Program of Events

About four hundred children with their mothers were on the Playground at the Washington school yesterday afternoon when the first annual parents day was held under the direction of the instructor, Miss Grace Putnam and her assistant Ira H. Huber. The afternoon was pleasantly passed in the program of events which Miss Putnam had arranged and which were much enjoyed by the mothers as well as the children.

The events for the boys was in charge of Mr. Huber and consisted of a 60 yard dash for boys who were divided into three classes and a bowling contest in which thirty-four boys took part. For the girls there was a ten pin contest, basketball put, hurdle race, a relay race and shuttle race. There was to have been folk dances but Miss Putnam postponed that part of the program.

The first event was the 60 yard dash. In the first class were boys ten years old and under and the winners were William Conover and Roy Smith. The time was 8 seconds. The second class was for boys from 10 to 13 years old and was won by R. Hann and L. Huking. The third class was for boys thirteen years old and was won by Carl Baumann and R. Hann. The time of the winners in the second and third class was 7 and 3-5 and 7 and 1-5. In the first class there were 18 entries. In the second 10 and in the third 5.

The next event was the bowling contest for the boys and occupied nearly all the afternoon as there were thirty-four entries. The winners were William Cribbeck and A. Hann.

In the girls events the ten pin contest was first and was won by Helen Michaels and Dorothy Diez. The other girls who were in this contest were Margaret Walberg, Margaret Knight, Fiske Keschlen, Marion Keyes, Ruth Collins, Margaret Douglas, Thomasine O'Neill, Gertrude White, Elizabeth Bloomer and Rosamond Holmes. The last ball put followed this contest and was won by Rosamond Holmes and Ruth Collins. The hurdle race was the next event and was won by Thomasine O'Neill and Dorothy Diez.

The relay race for boys was not held owing to the time being limited but this will be held this afternoon at three o'clock.

The last event of the afternoon was the shuttle relay in which twenty girls took part. There were ten on each side and the winning ten were Helen Michaels, Margaret Knight, Thomasine O'Neill, Margaret Haste, Margaret Douglas, Vivian Woodruff, Edith Beaumont, Edith Gottlieb and Allen Hutson. The losers were Rosamond Holmes, Dorothy Diez, Ruth Collins, Lillian Knapp, Evelyn Woodruff, Margaret Walberg, Julia Keppler, Margaret Keyes, Gertrude Keyes. The prize in this event was a lolly pop. In the other events the first prize was a bronze pin and the second a lolly pop.

On Thursday of next week the girls athletic contest will be held and many interesting events are being arranged by Miss Putnam.

Altogether the parents day was a complete success and the parents were very much pleased with the events which were held and the way in which Miss Putnam conducted them.

Miss Putnam as well as Mr. Huber deserve much credit for their efforts in instructing the children on the playground and the way in which the children obey the instructions when they are given to them.

Another feature was added to the Playground yesterday, when the Playground Commission presented a set of quilts to the playground.

ENGINE COMPANY No. 1. TO HAVE OUTING.

Engine Company No. 1, of the fire department will hold its annual outing next Sunday. The members of the company will go to Sewaren, where they will board the motorboat, the "Phantom" belonging to Chester B. Moffett. From there they will go to Lemon Creek, Staten Island, where they will enjoy a shore dinner at Vandover's. After dinner they will enjoy a sail around Staten Island and late in the afternoon they will go to Coney Island, where they will take in the sights to be seen there. It is expected that there will be about twenty in the party.

IMPROVEMENTS MADE TO POLICE STATION.

Extensive improvements have been made to the cells in the police station this week. New locks and doors covered with a fine grating have been installed and the skylight has been covered with iron bars and other changes made which will make the escape of prisoners from the cells and police station impossible. The work was done by the Anchor Post and Fence Company, of New York.

SOUGHT POISON TO END HIS LIFE

Axel Goldstein, 23 years old, of New York, created considerable excitement in this town on Tuesday afternoon, when he tried to get some carbolic acid at the different drug stores, which he said afterwards he intended to end his life with because he was out of employment and was brooding over his inability to find work.

Chief O'Neill was told of the suspicious actions of Goldstein and detailed Officer Nelson on the case with the result that he was taken to the police station. After telling his hard luck story he was given some good advice by the Chief and was then released on his promise to leave town immediately.

In his pocket was found a newspaper clipping giving details how a fellow countryman had committed suicide by jumping off the Brooklyn bridge. Goldstein admitted that he was tired of living and contemplated committing suicide if he could have purchased the carbolic acid.

FINED \$10 FOR FIGHTING ON STREET.

Mrs. Mary Crocco and Mrs. Mary Mark, both Italian women were before Recorder Springstead on Tuesday morning on a charge of fighting on the street. The Crocco woman and Mack woman have not been the best of friends for a long while and Mrs. Mack had been waiting for Mrs. Crocco, who she claimed had slandered her.

They met on West Broad street yesterday morning and after some preliminary argument they started in to fight in great style and as a result the Crocco woman got the worst of the battle royal, as the Mack woman scratched her face and mouth and had the blood flowing.

Police officer Nelson and Sergeant Rosecrans were notified and they went to the homes of the women and brought them to the police station. There were quite a number of Italians at the court and after getting the cause of the fight from both women and those who saw it, the Recorder fined them \$10 each for fighting on the street. The women paid the fine and were released.

NEW TELEGRAPH OFFICE.

The Western Union Telegraph Company is installing an office in the west side station. The joint office of the Telegraph and Telephone Company in the Frutcher building will be continued by the telephone company. The telegraph office at the station will be occupied by the company this week.

Woman Suffrage Pro and Con

SUFFRAGE IN COLORADO.

Prof. Harry E. Kelly, formerly of the Iowa State University, now practicing law in Denver, says:

The great value in woman suffrage consists in that it gives dynamic force to a fresh and vital interest in the State. Women are not much concerned with mere partisan politics; and experience in the states where woman suffrage is in force clearly shows that their interest cannot be aroused in mere partisan strife. But they are interested in the questions which we may call more distinctly social. Their interests center around questions affecting education, public cleanliness, public morality, civic beauty, charities and correction, public health, public libraries—and such subjects as more intimately affect home life, and conduce to the prosperity of the family. I do not say that men are not interested in such subjects, for that would be untrue; but I do say that such an interest is fundamental in the intellectual activity of women. Men lose sight of these important considerations in the ferment of partisan warfare for offices.

One of the arguments against woman suffrage was that it would create discord in the family. Colorado has never heard of a case of family discord that was even alleged to have originated in woman suffrage. The members of a family are inclined to stand together upon political questions, much as they are upon religious questions; but this fact broadens the family interest in public affairs. While woman suffrage increases the number of votes, it gives us an increased breadth of public interest in social welfare. Their right to vote has not made them less dutiful as mothers and wives. If any woman in Colorado is bold and brazen, she is not so on account of woman suffrage. It is contended that women do not wish to vote. The women in Colorado vote solidly when there is anything in a campaign that appeals to their interest; and in all elections their vote is large. Among them, of course, there are some bad women, just as among men there are some bad men. But I apprehend that nobody has any scheme by which the suffrage can be so restricted as to exclude persons who are evil-minded. There is not a city in the world where the vote of evil women could be of enough consequence to be worthy of serious consideration.

Do not mislead yourself into thinking that you dislike woman suffrage because you would not like to see your wife going to the polls, as you say,

FORREST F. DRYDEN, President

CONCEITED JAILBIRDS.

To Have Been In Prison Is a Mark of Culture in Nigeria.

In the land of the Niger, says Mr. P. Amaury Talbot in the London Times, little or no stigma attaches to jail birds.

In fact, prison residence is often regarded as conferring the mark of culture and distinction. The last governor of Southern Nigeria once complimented a chief of the interior on his knowledge of English, to which the man replied with a proud air: "Of course I be fit to talk English mouth! I learn all that when I live long time for prison."

Such residence is indeed looked upon as giving a sort of official status. At Calabar some prisoners were out cleaning the road when a clerk, dressed in the height of fashion, high collar, patent leather boots and the smartest of suits, went by. In passing he flicked one of the bending laborers with a little swagger cane he was carrying. At once the aggrieved party sprang erect. "What!" he exclaimed, with splendid contempt. "You dare touch me! You factory man! Look-a-me!" Here he pointed to the broad arrows prominently displayed over his simple vest and loin cloth. "I be government man! See here!"

And the dandy passed on thoroughly abashed.

The Fattest Race.

How is it that the Danes as a race are fat? Professor Lyde states that "from one end of Denmark to the other you will not find a really thin man." And he gives rather a quaint reason for it. "The growth of dairy farming in Denmark tends to make men lazy. The private houses adjoin the byres, which are kept at a uniformly warm temperature, and the people are employed in warm buildings, living chiefly on milk and cereals. The men get so lazy that they will not take the trouble to cut up their food." And then comes this delightful conclusion: "This state of things has produced a nation of housewives who excel all others in varieties of sandwiches, which can be munchled all day long." And thus is produced the fattest race in Europe, and we get a hint for a real rest cure.—Manchester Guardian.

Treating a Corn.

Whether a corn is treated at home or by a chiropodist, the treatment is the same. It consists of applying to the surface an acid (the most commonly used being salicylic) mixed with collodion and ether. The ether evaporates, leaving a layer of collodion to hold the acid while this does its work. After applying this regularly for four or five days the foot is soaked in hot water, when the corn can be picked out in one piece, leaving a hole, which quickly fills up. Some chiropodists cut the corn out by repeated applications of nitric acid, picking away the parts of the corn destroyed at each treatment. HEAVY REPUBLICAN GAIN PREDICTED BY FOWLER

Charles N. Fowler States "We Are On the Eve of a Great Re-
publican Landslide"

In a recent interview, Charles N. Fowler, candidate for nomination for Congress, expressed very pronounced views regarding currency, ship subsidy and tariff. Mr. Fowler claimed that there was no question but that there would be a heavy Republican gain all along the line, and predicted a Republican Congress.

Mr. Fowler stated that the Currency Law would not eliminate the defects of the present situation as anticipated. The law is German in origin, alien to our institutions and inadequate to our

and commercial disaster and hard times were marching hand in hand. Mr. Fowler pronounced himself most strongly in favor of ship subsidy, the same as English, German, French and Japanese owned ships now enjoy. If we are to have a merchant marine, it must be built and maintained on a basis of American wage by American workmen.

From the first day of the election of Woodrow Wilson, Mr. Fowler stated the administration has caused suspicion among business men that no

CHARLES N. FOWLER.

conditions. He stated that the Wilson-Glass-Overman legislation, is the offspring of prejudice, partisanship, sectionalism and ignorance of true economic laws as applied to American institutions.

Mr. Fowler claimed that the Wilson-Underwood-Simmons Tariff Law had proved singularly ineffective in reducing the high cost of living, but had, without any doubt, caused an uncertainty and hesitation in business that has had a wide spread effect upon millions of American business men and workmen.

The employment that is the just right of American workmen is being given to foreigners in a foreign land under foreign wage conditions.

The purchasing power of the American dollar had fallen correspondingly

amount of psychological talk or treatment can eradicate. Psychological talk does not fill the dinner pail, clothe the children and so one knows it better than the workman.

Mr. Fowler stated that he had seen some talk in the Democratic press that would indicate that the administration is trying to throw the blame of the high cost of living and the hard times on the war, but in this, every thinking man knows that the war came to late. The proof of the failure of the tariff and the Democratic administration had already been registered with the American people, and it is too firmly fixed in their minds to have it sidetracked. Victory is here. It is in the air, and we are on the eve of a great Republican landslide.

American Road Congress.

Mayor Evans, of Westfield, has been requested by the Hon. A. B. Fletcher, President of the Fourth American Road Congress and State Highway Engineer of California, to name three delegates to attend the sessions of the Congress at Atlanta, Georgia, during the week of November 30th.

Forty-seven great organizations are taking part in the Congress under the leadership of the American Highway Association and the American Automobile Association. In his letter to the Mayor, President Fletcher calls attention to the fact that practically every state highway commissioner will be present and take part in discussing the important problems of road construction and maintenance, and that some of the foremost men in public life will devote their attention to the great question of Federal Aid to road improvement, in an endeavor to work out a policy which may be submitted to the Congress of the United States with the support of the organized road movement of America. An important move bearing upon state legislation will be made at the session to be held under the auspices of the American Bar Association, at which a joint committee, appointed at the 1913 Congress, will report progress in compilation and suggested revision of state road laws. The creation of a commission participated in by each state to work out a revision of the road laws will be urged. The National Civil Service Reform League will hold an exceedingly important session on the merit system in road administration.

President Fletcher calls attention to the exhibits to be made by the United States Government, the States, and more than a hundred of the leading manufacturers at the Congress, which will illustrate every known method, material and equipment for road construction and maintenance. He urges that the city and county be officially represented, as the Congress is in reality a training school where a very great amount of useful information can be obtained through attendance at lectures with leading specialists in road and street work, and the collecting of the many instructive bulletins which will be available for distribution.

The headquarters of the Congress are in the Colorado Building, Washington, D. C., in charge of I. S. Donnybucker, Executive Secretary, and the exposition is in charge of Charles P. Light, Business Manager.

BUSH—BECK.

The wedding of Miss Harriet L. Beck, daughter of Julius Beck, of Downer street and James F. Bush, of West Broad street, took place last Saturday afternoon. The ceremony was performed at Irvington, at the home of a former minister of the Bush family and was witnessed by the parents of the couple only. After the ceremony Mr. and Mrs. Bush left for a wedding trip to Ocean Grove and upon their return to this town will reside for the present at 108 Marlon avenue.

Both Mr. and Mrs. Bush are popular the former being in the employ of Tuttle Brothers and Mrs. Bush was formerly manager of the Public Service Corporation office on Elm street.

Tendered Surprise Party.

A number of the children of Cumberland street, gave Mrs. C. A. Wood, who is stopping at the home of Frank R. Baker, a delightful surprise party on Thursday afternoon of last week. While it was not Mrs. Wood's birthday, the children treated it as such and brought her many beautiful presents and two birthday cakes.

Mrs. Woods was very much surprised but made the children happy and they all had a good time together. Games were played and ice cream served. Mrs. E. H. Dorrick assisted Mrs. Wood in entertaining the children, who were Alma Pope, Lois and Adrian Wilcox, Viola Price, Ruth Fowler, Doris Steuermann and Doris Wilcox.

Two Bicycles Recovered.

Through the efforts of Chief of Police O'Neill two bicycles belonging to the Bloomer and Glass boys of this town, which were stolen from in front of the Playhouse on July 31, were recovered on Monday and returned to their owners. One had been repainted and the handle bars and saddle had been changed on the other. The bicycles were located by Chief O'Neill in Linden.

Dangerous Kind of Spooning.

On the subject of "Spooning" Law Notes says: "Spooning is not generally classed as a dangerous occupation, even when carried on by two persons of opposite sex. In many occupations, however, where a workman is occasionally required to go exploring with an instrument known as a 'spoon' for an unexploded charge of dynamite, the rule seems to find its exception. Of such spooning was Judge Lamm thinking when he rid his system of the following remarks: 'There is some divergence in the testimony about the length of the particular spoon used by the respondent in a way presently to be stated, but the length of that particular spoon handle is immaterial, though it is the personal view of the writer that one who handles dynamite with a spoon needs one with a long handle—the longer the better. If authority is necessary for this judicial dictum, it may be found in the Danish proverb to the effect that he who cuts out of the name dish with the devil needs a long spoon.'"

On the Subject of Spooning.

On the subject of spooning, Dr. C. G. L. of the American Psychological Association said the naive understanding would assert, first, that what each friend enjoys is the other friend, not merely needs to be needed by him, and second, that the reason why a giver is valued above his gift is that a giver has experience. We value objects not only as such, but as having experience. The sayings, "There is continuity of substance between minds" and "Individuals overlap" do not sufficiently account for the value attached to "having" a friend. He says, in effect, that psychology is "up a stump" in its attempt either to deny or to translate into other terms the simple assertion that one enjoys a "second experiencing" through friendship.

Pope Pius X.

Pope Pius X, crushed down by the grief of the European conflict, can rightly be numbered among the victims of the recent war. Though the gentle, saint-like, feeble old man could not withstand the dread shock of conflict, his spirit will survive to hearten and inspire with renewed zeal influences for peace that stand expectant and hopeful while millions slay and are slain.

No man of his generation was held in higher esteem for the beautiful qualities of heart and mind which he displayed during the eleven years of his pontificate and that have won for him affection and reverence far beyond the bounds of the church of which he was the head and made him beloved throughout the religious world, Catholic and non-Catholic alike.

Summit and Her Babies.

We are told that early in September, the Board of Trade of Summit is to conduct a Baby Parade, though we have not learned the details of the scheme. Summit has been known as the city with the lowest proportionate school registry in Union county. So serious had this matter become some time since as to prompt some of the more fearful of its citizens to contemplate drawing T. R.'s attention to the situation.

It is possible that the Board of Trade, fearing that the future of Summit is in jeopardy, believed the displaying of the babies in their loveliness and beauty may make some of the less fortunate of their good people homesick for children.

If our supposition is true, we want to commend them for their enterprise and really wholesome interest in the welfare and future of their city.

Westfield was very proud in adding to her list of assets, displayed very prominently in our town exhibit, the 1040 school children who, after all, count more than all the millions which we boast in assessed valuation or town properties.

After Summit has decided which are its handsomest babies let them bring them over and give us a chance to match them.

Hurrah for Summit and the T. R. spirit which has gotten into her Board of Trade!

A Bit Encouraging.

It is encouraging to find that Westfield has 35 houses in the course of erection. While this is not as large a number as we have had in times past, it certainly is a goodly number under the circumstances, and shows an activity and a confidence far greater than any of our neighbors.

Reports coming in from every quarter of the County are that there is little or no building going on at all, consequently the artisans of Westfield should feel especially fortunate in the employment which they are getting from the activity in this line of improvement.

Let Us Be Charitable.

President Wilson has come forward with most excellent counsel as regards the proper attitude which the American people should take toward the European war. It will do neither side good to express our views or sympathies, as we know so little of the real causes which led to this most awful conflict. In all events, let us be charitable and large enough to suspend any judgment until we shall learn more fully from both sides the causes which led the nations up to the breaking point.

Up to the present time there seems to be little or nothing in the way of authentic news from either side. It is quite natural that more reports of the conflict favor the allies. This is, no doubt, because of the interrupted communications, and possibly the

severe censorship placed upon everything that leaves German or Austrian sources.

Just how the people of the United States are going to be the ultimate gainers by such a war, is very difficult to understand. In all events, any commercial advantage we shall gain will cost all it comes to in the upsetting of business and manufacturing conditions, and the increase in the cost of living which must necessarily come, and will, no doubt, be an added burden to the large hosts of unemployed or those who have but part time work. The close inter-weaving of relations between this country and all the countries at war cannot fail to have its serious and detrimental effect upon the whole and, surely, it is to be deplored that any differences or misunderstandings should not have been settled in counsel by the diplomats rather than on the battlefield with its tremendous wake of bloodshed and desolation.

No one can tell what the outcome will be, but if the prophecy that it will result in the disarmament of the nations is fulfilled, it may, in the long run, in part pay for the tremendous price which must necessarily be paid before the struggle is over. How much truer to the tenets of the Christian faith would the rulers and their counselors have been had their calmer and better judgment prevailed, and had they arbitrated their differences or even surrendered the points in dispute rather than to have plunged their nations into such an awful struggle. Let us hope that the American people will be calm and charitable at all times and still hope and pray that the good offices of President Wilson will yet prevail, and that he will be called upon as a mediator for peace.

The Primary Law.

We have a clear example of the bad results produced by the present Primary Law in the Assembly contest of the Republican party.

Three of the four candidates mentioned thus far are from Elizabeth, and only one from outside.

The nominal Republican vote in the county is about twelve thousand—about half of which is from Elizabeth. This means with the present unequal geographical distribution of candidates outside of Elizabeth, is under a heavy handicap as so few of the voters are able to reason the outcome of such a situation.

Under the conditions such as prevail it is but natural to believe that most of the Elizabeth voters will vote for Elizabeth men, and since the ballot instructs the voter to vote for three candidates, the voters outside of Elizabeth will, no doubt, support the one candidate which would furnish an equal contest if they voted for only one, but the voter will, no doubt, vote for two of the Elizabeth men as well as the outside candidate. The result of this would give the Elizabeth candidates one and two-thirds vote as against the outside man one vote, thereby making an unbalanced ticket, to which the leaders of both parties and all thinking people are greatly opposed.

Added to the above unfortunate condition is the fact that there is one candidate Congressional, three for Sheriff, three for Assembly and one for County Clerk, all coming from Elizabeth which will naturally stir the entire vote out for the Primary Contest—tending further to handicap the Assembly candidate outside of Elizabeth and to defeat the real purposes and design of the law.

A Pernicious Practice.

We reprint a resolution offered by Col. J. W. Howard, Consultant.

ing Engineer on City Planning, at a recent convention of the American Society of Engineers, Architects and Constructors to re-inforce our editorial on this subject of two weeks ago:

"Whereas, A pernicious practice has appeared in many places of issuing public bonds for terms longer than the life of the pavements, roads, sewers, water works, bridges, some public buildings etc. for which such bonds have been sold, and

"Whereas, Such a practice places unjust tax burdens upon us later in life and puts our children in debt, some before they are born, and for things which they will have never used nor seen.

"Therefore be it resolved, That the Society of Engineers, Architects and Constructors protest against bonds for public improvements and works being issued for periods of time longer than the reasonable life or durability of the several kinds of construction for the payment of which said bonds are issued by cities, counties, States or the United States government; also that it is certain that more continuous employment of capital, engineers, architects, constructors, artisans, mechanics and laborers; also greater and steady prosperity will hereby be assured."

More Fortunate Westfield.

"Fortunate Elizabeth", the Journal of that city heads the following editorial:

A resident of Elizabeth who spends a little time of an evening in Newark or any of its suburbs will return happy. There has been complaint of quite some mosquitoes in this city. There are a thousand times as many in Essex. And the Essex mosquitoes are not alone as numerous as leaves on the trees and of varied form and color and substance, but they are insatiable in their thirst for human blood.

The work of subduing the mosquitoes has been well done in this county in comparison with the efforts in other counties. If all the counties did as well as Union there might be hope of exterminating the pests.

More fortunate Westfield! We have no mosquitoes, thanks to the untiring work of our citizens and the Union County Mosquito Commission.

Cranford has taken its cue from Westfield and is working for a public park. The project is being strongly urged by The Chronicle of that town.

It may have been noted that it took the united efforts of all Europe to push Colonel Roosevelt off the front page.—Baltimore American.

NO LABOR DAY PARADE IN N. Y.

Labor Unions to Spend Money in Relieving Unemployed Instead

For the first time in thirty years, there will be no Labor Day parade in New York City this fall. The labor unions have decided to take the money the parade would cost and use it to relieve unemployed union men.

In times past, in New York City, many thousands of union men have marched on the first Monday in September. Their parades have been spectacular. No money was spared in making them a success. The horses in the parade were union-shod and the men union-equipped. There were union bands and union badges. There were union-made uniforms and union refreshments. So that the expense to the union men for their Labor Day parade, in one way or another, led to an expenditure running into a great sum of money. All this is to be foregone this year and the unions, very commendably, will turn the money to help their unemployed brothers.

This instance of practical charity on the part of Union organizations is attracting wide attention over the country and has caused considerable comment, especially in view of President Wilson's statement that the hard times are purely "psychological."

One good natured workingman says he is "sure getting psychological pay checks". He also says he is buying "psychological shoes" and probably will soon be eating out of a "psychological dinner pail."

COUNCIL HAS INTERESTING SESSION

(Continued from Page 1.)

vote was necessary to pass ordinances for sidewalks in Myrtle avenue, between Central avenue and the property of William A. Morgan, Jr., and in Grandview avenue, from Central avenue, to Boynton avenue, these ordinances were laid over until the next meeting as Councilman Wilcox was not present. Ordinances for a sidewalk in Highland avenue, from Mountain avenue to the property of the Faber-Lewis Company and also for the constructing of a sanitary sewer in Chestnut street, from Maple street to Mountain avenue were passed on final reading.

Bids for the laying of a bluestone sidewalk 350 feet in Union avenue, was received from Charles A. Peterson at seventy-five cents a foot and as he was the only bidder he was given the contract. The Weldon Contracting Company and Charles Lentz, Jr., submitted bids for the improvements to be made in Kimball avenue, between Euclid and Harrison avenues, and upon recommendation of the road committee, the contract was awarded to the latter bidder.

The Board of Assessors submitted reports on the improvements in Summit avenue, between Grove and Cliff streets; in Sinclair place, between Elm street and Highland avenue, and in Pierson street and Union avenue. A hearing was set for these improvements on Tuesday, September 8.

On resolutions offered by Councilman Davis, of the finance committee certificates of improvement were ordered issued to the amount of \$636.85; the treasurer was authorized to draw a warrant to the credit of the overseer of the poor for \$300; a certificate of indebtedness amounting to \$2,000 was ordered issued; the transfer of \$300 from the unexpended balances to the Park Commission was ordered; also \$2,500 to the town account and \$250 to the Playground Commission. Town Treasurer Darby reported a balance on hand of \$9,952.65. Bills amounting to \$2,864.64 were ordered paid.

Recorder Springstead reported that he collected \$6 in fines during July. Councilman Alcock of the police committee, reported that the cells in the police station had been made safe, so that now a Jersey mosquito could not escape if he wanted to. Councilman DeCamp reported that the matter regarding the condition of Blumer street and Broad, which Dr. Harrison sent a communication to the council about at the last meeting had been attended to.

U. S. G. Huffman presented a petition to the council asking for the vacation of Addison street, between Mountain and Dudley avenues. This street was vacated some years ago. At that time it was thought a sixty foot street but since that time it has been found out that it is a sixty-six foot street and Mr. Huffman wants it corrected. A hearing was set on this petition for September 8.

Mayor Evans presided at the meeting and all the council members were present except Councilman Wilcox.

HELD UP BY ITALIAN AT MOUNTAINSIDE

While walking along the road through the Hansen property to the home of Mrs. M. A. Woodbury at Mountainide on Tuesday afternoon Mrs. J. Lee, who is a guest at the Woodbury home was attacked by an Italian who ran out of the woods along the road and grabbed Mrs. Lee swinging her around. He then pointed a revolver at her and assaulted her.

Mrs. Lee grappled with the man and finally got away from him. She then ran to the Woodbury home where she washed and changed her clothes and then telephoned Chief of Police O'Neil. As the hold up occurred at two o'clock and it was some time after before Mrs. Lee telephoned the chief no clue was obtainable. Mrs. Lee said that after the man got away from her he ran back into the woods.

From the description given by Mrs. Lee, the Italian was well dressed and when he attacked her seemed to be out of breath, as if he had been running.

Mrs. V. O. Barth, of Euclid avenue, had as her guest over the week-end, Mrs. M. J. Gilderaleova, of Brooklyn.

UNION COUNCIL MEETS.

Union Council, Loyal Association, held its regular meeting in Aramum hall last night. There were about thirty members present. Dr. C. M. F. Egel was initiated into the mysteries of the order.

SLUGFEST ENJOYED BY WESTFIELD BEARS

Thirteen Bingles Off Elizabeth Hurler Net a 6 to 1 Victory

The Westfield A. A. fattened its batting averages Saturday, at the expense of "Woop" Scharp, the Elizabeth Field Club's pitcher, who for the past two months has been making a name for himself in the Singer League.

The excursion took place at Recreation Park, which had been made to look like the Polo Grounds by ground-keeper Valleau. Manager MacDonald sent his team into the scrap minus Green and Hunt, who it was reported had been kidnapped by cupid.

The conflict developed into a slug-fest with Worth, Schenek and Lehman taking the honors. While the fielding of Lambertson, Crutten and Reorden was of high order, Crutty made two errors, but he looked mighty good at shortstop, as one of the gems of the game was his part

LAMBERTSON RUNNING ON A TWO BASE HIT.

of a double play in the ninth inning. With one down in the second, Schenek cleaved a single to left field and stole. Lambertson slammed one out for two bases and Schenek trotted triumphantly over the dish for the game's first run.

The bear cubs capped the game in the fourth, when Reorden opened the inning with a double. Worth's hit zipped away from Carlstrom, a brother of the Buffalo first baseman, and Reorden scored while Worth pulled up at second. Schenek was safe and Worth advanced to third on Carberry's error, but when "Judy" tried for home he was caught while Schenek landed at second and stole. Lambertson was safe when D'Esple dropped his infield fly. Scharp then tightened up and struck out Dallas and Himmler.

The fans were pretty well aroused in the fifth when three doubles by Valleau, Worth and Schenek and a hit batsman gave Westfield three runs.

Elizabeth scored her run in the sixth. Plisch hit safe and stole, scored when Carberry singled to right field, but Carberry fell into bad hands on his way to second and went out, Himmler to Reorden.

Tomorrow Sauer Motor Co., of Plainfield, will be the visitors at Recreation Park, game called 3:30 P. M.

CURIOUS CLIFF HOUSES.

Queer Prehistoric Dwellings in Mesa Verde National Park.

The Mesa Verde National park is situated in southwestern Colorado and may best be reached from Mancos. Within the park are many notable prehistoric ruins, the cliff dwellings comprising a group of great importance to the study of American archeology. The principal and most accessible ruins are the Spruce Tree House, Cliff Palace, Balcony House and Tunnel House.

Spruce Tree House is located in the head of Spruce Tree canyon, a branch of Navajo canyon. It originally contained about 120 rooms, built of dressed stone laid in adobe mortar, with the outside tiers chinked with chips of rock and broken pottery.

Cliff Palace is located about two miles east of Spruce Tree House, in a left branch of Cliff canyon, and consists of a group of houses with ruins of 146 rooms, including twenty round kivas or ceremonial rooms and a tapering loop-holed tower forming a crescent of about 100 yards from horn to horn, which is reputed to be one of the most famous works of prehistoric man in existence.

Balcony House, a mile east of Cliff Palace, in Ruin canyon, contains about twenty-five rooms, some of which are in almost perfect condition.

Tunnel House, about two miles south of Spruce Tree House, contains about twenty rooms and two kivas, connected by an elaborate system of underground passages, and a burial ground of 5,000 square feet. In each of these villages is an elaborate system of fortification, with in some cases walls 2.5 feet thick and twenty feet high, watchtowers thirty feet high and blockhouses pierced with small loopholes for arrows.

THE DRY BATTERY.

Its Many Uses and the Numerous Processes in Its Making.

That common little object, the dry cell, has played an important part in the advancement of scientific research. There are few articles manufactured that are used in so many ways as the dry battery, yet it is by no means a recent discovery.

The automobile, motorboat, wireless telegraphic apparatus, Christmas tree festoons, electric toys and trains, electric engines, local bell, telephone and annunciator systems, miniature lighting equipments, medical batteries and vibrators, electric alarm clocks, burglar alarms, automatic door openers, safe cracking devices and infernal machines in their many forms, devices for setting off dynamite explosions in excavations, the various testing outfits and electric clock service, to say nothing of the divers ways that it is used in scientific experiments, are a few of the most obvious of its applications.

In its manufacture there are about as many processes as are necessary in the making of a tungsten lamp, and the machinery process that makes it and compounds the ingredients that go into it is wonderfully interesting. So exact is the formula placed into each shell that when completed a battery will register up to a uniform amperage. The highest known amperage in the manufacture of a dry cell is twenty-six.

The exact origin of the dry battery is uncertain, many inventors having claimed the honor.—New York World.

Cheap Power.

Natural steam coming up through the ground is a cheap power for running an engine in the northern Tuscany mountains. Lakes of hot water in the vicinity of the steam holes contain much boracic acid, and a manufacturing company uses the natural steam to run machinery for extracting the valuable boracic acid from the lake water. The only difficulty in this pleasant state of affairs is that the steam itself is so highly charged with boracic acid that it would injure the blades of a turbine engine, so the steam is used to heat up an ordinary boiler, and the steam from the boiler is then used in the turbine. The steam is caused by volcanic action and comes up through blowholes at a considerable pressure.—Saturday Evening Post.

Just Run Into It.

Elements mix in a railroad station, but that of humor predominates. The other day a man entered the Grand Central hurriedly. He afterward explained he had to meet a country cousin coming in. He rushed over to a friend who knew of his errand.

"Am I late?" he asked.
"No; the train just ran into the station," he was told.
"Run into it?" he blurted. "Was anybody hurt?"—New York Tribune.

Conflicting.

"What's the matter?" a colleague asked of the advertising manager.
"Matter enough. The fools have placed Mme. Soprano's testimonial for a cold cure on the same page with the announcement that she had a sore throat and couldn't sing."—Topeka Journal.

A Modern Pierrot.

"Frauholdt Rose, if you only knew how I loved you! When I meet you on Monday morning my heart wags with joy till Saturday evening like a lamb's tail."—Pleigende Blätter.

THE SEA OF LOT.

Its Ridge of Sodom and Its Fetid but Clear Blue Waters.

It is in the southeastern part of Palestine where the famous Dead sea lies. In the Old Testament it was known as the Sea of the Plain or Salt sea, but it is known today by the Arabs as the Sea of Lot. Its surface, which is lower than any other body of water, is 1,292 feet below the level of the Mediterranean.

The Dead sea is fed by the river Jordan from the north, but has no outlet, depending entirely upon evaporation. A portion of the sea is surrounded by cliffs which are destitute of vegetation. On the south shore is the ridge of rock salt, seven miles long and 300 feet high, known as the ridge of Sodom. Lava beds, sulphur and volcanic slag prove the existence of volcanic agencies at some period. The lake still casts up pieces of asphalt when the environs of the Dead sea are visited by earthquake.

Its proportion of saline matter is so great that it contains more than eight times as much as the ocean, and, while it is exceedingly fetid, yet its water is as blue as that of the Mediterranean, and to the bath it is very refreshing, and owing to its specific gravity it is difficult to sink. Nothing living exists within the waters of the Dead sea.—Buffalo Express.

JOHN STOWE'S REWARD.

The Beggar Historian Got Royal Permission to Solicit Alms.

James I. on March 8, 1803, granted letters patent under the great seal to John Stowe, London's great historian, authorizing him to beg. The letters patent of James I. authorized Stowe to collect the voluntary contributions of the people. The letter recites that:

"Whereas, Our loving subject, John Stowe, a very aged and worthy member of our city of London, this live and forty years bath to his great charge and with neglect of his ordinary means of maintenance, for the general good as well of posterity as of the present age, compiled and published diverse necessary books and chronicles, and therefore we, in recompense of his labors and for the encouragement to the like, have in our royal inclination been pleased to grant letters patent under our great seal of England, dated March 8, 1803, thereby authorizing him to collect among our loving subjects their voluntary contributions and kind gratuities."

John Stowe died on April 5, 1803, and was buried in the parish Church of St. Andrew Undershaft, where his monument, erected by his widow, is still to be seen.—London Stray Stories.

A Journalist Bought Suez.

The journalist is often the man behind the statesman, but he seldom gets the credit. Who was it that induced Mr. Disraeli to buy the Suez canal shares which have proved so abundantly good an investment, with dividends that are represented not only by money, though even from that point of view it is the best investment that a state has ever made? Fleet street knows and honors the name of Mr. Frederick Greenwood both for that reason and for many another. But how many outside the world of journalism realize that but for Mr. Greenwood the Suez canal shares would probably have been purchased by a rival continental power? The question was one among those put in a "general intelligence" examination paper a little time back at a certain school. Only one boy was able to answer it correctly, and he was the son of the prime minister.—London Chronicle.

Discordant Thoughts.

In wandering through your mental pleasure grounds, whenever you come upon an ugly intruder of a thought which might bloom into some poisonous emotion, such as fear, envy, hate, worry, remorse, anger and the like, there is only one right way to treat it, writes Robert H. Schaubler in the Atlantic. Pull it up like a weed, drop it upon the rubbish heap as promptly as if it were a stinging nettle and let some harmonious thought grow in its place. There is no more reckless consumer of all kinds of exuberance than the discordant thought, and weeding it out saves such an astonishing amount of eau de vie wherewith to water the garden of joy that with it in hand every man may be his own Burbank.

His Alibi.

"If you are innocent," said a lawyer to his client, an old dandy, who was charged with stealing a ham, "we ought to be able to prove an alibi."
"I don't speak no kin," the dandy replied doubtfully.
"At what time was the ham stolen?"
"Bout 'lebben erelock, day say."
"Well, where were you between 11 o'clock and midnight—in bed?"
"No, sah. I was hidin' de ham."—Philadelphia Ledger.

Eagerly Communicative.

"A man ought not to have any secrets from his wife."
"Secrets!" exclaimed Mr. Meekton. "I spend hours trying to make an impression on Henrietta by thinking up something to tell her that she doesn't know."—Washington Star.

Amended.

Little Leander—Say, grandpa, give me a penny, will you? Grandpa—Why, Lemuel, you are too old to be begging for pennies. Little Leander—Yes, grandpa. Make it a dime, please.—Chicago News.

We have committed the Golden Rule to memory. Now let us commit it to life.—Markham.

Aeschylus at Syracuse.

For four days in April dramas of the Athenian tragic poet Aeschylus were performed in the old Greek theater at Syracuse, in eastern Sicily. Aeschylus has long been popular in Syracuse. Twenty-three centuries ago Athenian prisoners taken in the great defeat before that city, and sold as slaves after the custom of the time, earned their freedom by reciting the verses of their great poet. Perhaps some of the men thus set at liberty organized a company and acted "Prometheus Bound" or "The Persians" in the same theater where the same plays will be presented next spring. The poet who is held in favor for 2,300 years in one place cannot complain of public fickleness.

Newspaper Novelty.

The Germans are a practical people. At the little town of Eberswalde, near Berlin, the local newspaper is printed twice a week on one side of the paper only, so that it can be used for wrapping up provisions without any touch of printer's ink. On these two days the paper is twice its ordinary size, so that the reader loses nothing in the way of reading matter.

Manners Maketh Man.

F. Hopkinson Smith, in one of his sketches, lamented that in the hurry and rush which obtain in the present era good manners has become conspicuous by their absence, saying: "We live so fast that we have not time to be polite." His lament is recalled by a story told by a lady from Virginia who lately visited New York. The story was about a prayer credited to "Uncle Nat," an old dorky who had served for many years as butler in the house. The prayer concluded in this wise: "Make me so lib dat when Ah does Ah will know what to say when Ah meets mah Leobenly Master—so he sure Ah doze had proper raisin' and learnt ma manners."

Rebuked.

That little affair in Zabern has taught the German civilian that no liberties are to be taken with those who wear the soldier's privileged garb. Little Rudolph, aged ten, had joined the Boy Scouts. Little Rudolph's father ventured to smile indulgently upon his son as the lad in full field kit of khaki set out for practise hike across the turnip fields that lie about the ancient city of Dinkelsbuhl. "Don't grin at me that way, father," spoke up Rudolph, in a tone of dignified reprimand. "Remember, I wear the uniform."

CAPSTICK BUSY IN UNION.

John H. Capstick, the candidate for the Congressional nomination from Morris county, is now campaigning this county. He is accompanied by former Judge William Newcorn, of the Plainfield District court, who is actively interested in his campaign. Mr. Capstick's home county of Morris is enthusiastic over his candidacy as was evidenced by the large number that went from there on the Republican outing last Saturday.

While Mr. Capstick is at work in this county the backers of Charles N. Fowler and William T. Stuchell continue optimistic and regardless of the outcome it is evident that all will be "pulling together" after the primaries.

Investigated Child's Death.

Because a physician was not called in a child-birth case, in the family of Mr. and Mrs. John Crocco, of Spring street, on Tuesday, Chief O'Neil summoned County Physician F. W. Westcott for an investigation as to the cause of the infant's death.

Dr. Westcott spent some time in town in the afternoon and after a rigid examination decided that the child had died from natural causes and that there was no evidence of criminal intent. He therefore issued the necessary burial permit and the remains were turned over to Undertaker J. Raymond Lambert.

Reformatory Head To Preach Sunday.

Rev. Frank Moore, D. D., superintendent of the New Jersey Reformatory at Rahway, will be the special preacher at the Methodist church next Sunday.

Any persons who have visited that institution have seen the wonderful results of Dr. Moore's correctional methods and know that back of his methods is a personality which projects itself into the lives of the young men under his care.

As a preacher, Dr. Moore is equally capable and his words are forceful and convincing.

The church extends a cordial invitation to any persons in the community who have no church affiliation to attend the services.

Appointed District Deputy.

George H. Riley, of Harrison avenue and Grand Knight of Westfield Council, Knights of Columbus, has been appointed district deputy of the following councils: Bailey Council, Elizabeth; Trenton Council, Trenton; and Asbury Park Council, Asbury Park. These councils are among the largest councils of the state.

Mr. Riley is prominent in Catholic circles and it was largely through his efforts that the success and institution of the local council was instituted. He is to be congratulated upon his appointment and no doubt will be successful in his new office.
