VIEW SHOWING GRAND STAND AND PART OF BLEACHERS, RECREATION PARK.

ALL READY FOR BASE BALL AT RECREATION PARK. THE STANDARD CALENDAR.

SEVENTH REGIMENT BOYS TO COME HERE TO-MORROW FOR THE OPENING GAME OF THE SEASON.

Large Crowd Expected at the Grounds—Waller Will Twirl for the Home Team—Chance for the Fans to Size up the Westfield Aggregation—Season Tickets at the Grounds.

No less an authority than the editor of our esteemed contemporary the Plainfield "Courier-News" says: "The great good game, American it is, par excellence by all that appeals to the Yankee, but it is cosmopolitan as well, for it may be all things to all men. Not only a manly sport for the hardy, it is free from brutality to shock the refined; it is full of passion for the hot headed partisan and scientifically fascinating to the indifferentist; its enjoyment may be equally shared between the grand stand and the players; it admits of inflexible skill and it is easy to watch. That is base ball, the out door sport that pleases more different kinds of people than any other game and has a strangle hold on the American public."

Organized base ball alone, in the United States, exclusive of the thousands of amateur and college games, costs in one year \$3,000,000. In the 164 clubs signed in the national agreement, are enlisted 2,460 base ball players, who enter in one year, at least 27,000,000 persons. The independent professionals playing throughout the country swell the number of young men who earn their living by the ball and bat to the sum of 10,000.

One of the strongest points of advertisement for Westfield is its Recreation Park and its ball team. The park, without question, is the most commodious and best arranged of any enclosure used for like purposes in the State. The team has sent broadest its reputation and as in former years the nine to uphold this prestige for 1905 will be equal in ability and execution. The management has up to-date features always in mind and visitors to-morrow will see its park in Spring, cleaned and wholesome appearance. The grand stand has been strengthened in its support, a double row of bleachers erected along the third base line and a rooster's roost enclosed from the right bleachers. Promptly at 3.30 to-morrow the players will gather at the flag pole and hoist the Union County championship pennant. Directly after umpire John Henning will pipe "play ball!" and "Red" Waller will try to put it over for a Seventh Regiment team man to bite at. The soldier boys are always prime favorites and only too glad to have a chance to mutually christen the local ball season.

The home team will line up: Farmer, catch; Waller, pitch; Kellogg, short stop; Rochford, 1st base; Daley, 2nd base; Barry, 3rd base; Rogers, left field; McGroey, center; Mallen, right. No care or attention has been overlooked to make the start off a success and all that it requires to make such certain is the goodly attendance of Westfield people for it is evident that the surrounding towns will send their usual goodly quota.

Plainfield's opening last Saturday was an unqualified success. The attendance was good considering the weather and Jersey City, of the Eastern league, fell down hard before the Hobokenized-Plainfield team because they, in no point, played as good a game.

A consignment of seasonable weather has been ordered, is on the way and is due at Recreation Park for use to-morrow.

The old timers of the team will come out early so as to have time to receive the glad hand from the fans.

There will be an all around air of newness to the ball opening. To-night the headquarters will be open for inspection, new lockers, new shower bath and all the news. At Recreation Park to-morrow there will be new Subway entrance tickets, new County championship pennant, new rooster's box, new bleachers, new faces on the team, a new umpire and besides the newly modernized diamond and newly grassed outfield there will be plenty of the old brand of enthusiasm and a winter's hold back of fan enthusiasm let loose.

The waiting for the last minute people may obtain coupon books at the Headquarters to night or at the box-office before 3.30 P. M. to-morrow.

St. Paul's Church.

The service this evening will be at 8 o'clock.

On Easter Day there will be celebrations of the Holy Communion at 6.30, 7.30 and 11. Morning Prayer will be said at 10.30. There will be no evening service; but instead, at 4. Evening will be said with a special address for the children.

The music at 11 will be as follows: Processional Hymn, "He is Risen." Kyrie Eleison. Gloria. Credo. Hymn, "Jesus Christ is Risen To-day." Offering, Anthem, "Awake Thou that Sleepest." Stainer. Benedictus. Agnus Dei. Gloria in Excelsis. "Come Ye Faithful." Recessional Hymn, "Jesus Lives." Raise the Strain.

The music at the 4 o'clock service will be: Processional Hymn, "Come Ye Faithful." Magnificat. Anthem, "The Lord is Risen." Stanford. Nunc Dimittis. "Christ our Passover." Schilling. Hymn, "The Strife is Over." Offering, Hymn, "Jesus Lives." Recessional Hymn, "It is Risen."

There will be the usual Holy Day services on Monday and Tuesday in Easter week at 9.30. On Tuesday, Evening Prayer will be said at 7.40, followed by the annual Parish Meeting and election of Wardens and Vestrymen.

Chronic Bronchitis Cured.

"For ten years I had chronic bronchitis so bad that at times I could not speak above a whisper," writes Mr. Joseph Coffman, of Mountmenc, Ind. "I tried all remedies available, but with no success. Fortunately my employer suggested that I try Foley's Honey and Tar. Its effect was almost miraculous, and I am now cured of the disease. On my recommendation many people have used Foley's Honey and Tar, and always with satisfaction." Sold by Frutcher & Hathaway.

Library Association Annual Meeting.

The annual meeting of the Westfield Public Library Association will be held in the Library Room on Tuesday evening, April 25th, at eight o'clock, to elect eight (8) trustees to fill the vacancies caused by the expiration of the terms of office of Mrs. J. J. Savitz, Mrs. W. J. Alpers, Mrs. W. Johnson, Mrs. Jos. Sherman, Mrs. Harry White, Mrs. Susie Burhaus, Miss Ferris and Miss MacDiamid, and to transact any business that may come before the meeting.

Westfield, April 15, 1905.

Parsifal and the Holy Grail.

The second number in the course of entertainments under the management of the Men's Club of the Presbyterian Church will be given next Friday evening, when Rev. Henry R. Rose will present his stereopticon and musical lecture, "Parsifal and the Holy Grail." The lecture should appeal both to children and adults, and the people of Westfield should show their appreciation of the efforts being made to give first-class entertainments at low price, by filling the church.

Entry of Jesus into Jerusalem

Sunday School Lesson for Apr. 23, 1905
 (Lesson for the 23rd)

LESSON TEXT: Luke 19: 28-44. (The entry of Jesus into Jerusalem, the cleansing of the temple, and the fig tree.)

MARK: Sunday, the morning after the Passover at Bethany.

CLAUSE: The story of the entry of Jesus into Jerusalem, the cleansing of the temple, and the fig tree.

V. 12. "On the next day." The day following the feast at Bethany, that is Sunday, April 2, A. D. 30. "Much people." Chiefly Passover pilgrims from many lands. "Heard that Jesus was coming." Assembled that He was at Bethany, and, finding that He was about to set out for Jerusalem, they resolved to attend Him.

V. 13. "Took branches of palm trees." The long leaves of the palm tree are referred to. These trees grow abundantly on the Mount of Olives, and their leaves were sometimes ten feet in length. "Orbed, Hosanna." The word "Hosanna" is the Greek rendering of the Hebrew words which in Ps. 118: 25, are translated, "Save now, I beseech Thee." It has much the meaning of "God save the king." "Blessed is the King," etc. They recognized Jesus as the promised Messiah, the Son of David, the representative of God, who had come to declare God's favor to His chosen people, the Messiah so long expected by the Jewish people, whose coming had been foretold by many of their prophets.

V. 14. "When He had found a young ass." Other accounts tell that Jesus sent two of His disciples to the near village of Bethphage and borrowed an ass and its colt. "As it is written." By thus doing, Jesus fulfilled an ancient prophecy, Zechariah 9: 9, which is freely translated in verse 15.

V. 15. "Daughter of Zion." Thus the people of Jerusalem are spoken of.

V. 16. "These things." All the details of this occurrence. "The people had no thought that they were fulfilling a prophecy." They simply expressed their hearts' admiration for Jesus in such ways as suggested themselves. "When Jesus was glorified." That is, after His death, resurrection and ascension. "Then remembered." Not until the Holy Spirit came to abide in the hearts of Jesus' disciples, did they fully understand how they themselves had had a part in working out God's plan, and how old-time prophecies had been fulfilled in Jesus.

V. 17. "The people . . . Lazarus." People who dwell in Bethany and Jerusalem. "Bare record." They related again and again to the gathered throngs the wondrous story of the healing to life of the man who had been dead four days.

V. 18. "The people also met Him." This refers to a second company which came forth from Jerusalem to meet Jesus.

V. 19. "Pharisees." Religious leaders who looked on critically, as the triumphant throng entered the city. "Perceive ye?" A word to call attention to the very evident fact that Jesus was in great favor with the common people.

V. 20. "Greeks." They had accepted the Jewish religion and came to worship the true God at the Passover feast.

V. 21. "See Jesus." They had heard of Jesus' wondrous doings, probably had seen His triumphant entry into Jerusalem, and wanted to meet Him.

V. 22. "Jesus answered them." He spoke to the Greeks and his disciples, endeavoring to let them see his very heart. "Hour," etc. The long-expected time of His laying down His life. "Glorified." Jesus' true glory was to be shown, not by being crowned an earthly king, but by voluntarily giving Himself up to death.

V. 23. "Corn of wheat." Grain or kernel of wheat. "Fallen into the ground and die." With a grain of wheat, as with all the vegetable world, the outer shell of the seed sown in the ground dies, but the little living germ grows and brings forth multitudes of other seeds. If the little grain remained unsown it would never increase. So Jesus, by His death, became the seed of life for all mankind. If He had saved His life He could not have helped or saved us but through His death we are won to love Him. Hence to live.

V. 24. "Love His life." . . . "hate His life." "To love life means to 'love one's self more than God,' to hate life is 'to love truth and virtue above one's self.'"

V. 25. "Serve . . . follow." If we love Jesus, He will also serve and follow Him, be willing to endure trial and suffer shame as He did. "Where I am, there . . . my servant." We will have companionship with Jesus. "My Father honor." God will reward as only a great God can. He will compensate for all the pains and losses we may have borne for Jesus' sake on earth.

Practical Points.

V. 12. When we unite with others in services of religious worship, we are likely to meet Jesus.—Matt. 18: 20.

V. 14. Humble things and humblest persons have been chosen of God for highest honor.—Jas. 2: 5.

V. 21. What each immortal soul craves is to see Jesus.—Acts 17: 27.

V. 24. It is a great law of the universe that life arises through death.

V. 25. Following Christ Jesus in self-sacrifice for others is the only way of coming with Him into glory.—2 Tim. 2: 12.

Proceedings of the Board of Chosen Freeholders of Union County.

(OFFICIAL.)

Regular meeting of the Board of Chosen Freeholders of the county of Union, N. J., held on Thursday, April 13, 1905, at 2:30 p. m.

Roll call showed all members present.

The minutes of the previous meeting, reading of bills being omitted, were, on motion, approved and read.

REPORTS, COMMITTEES, ETC.

From John K. English, clerk of the Union County Grand Jury, relative to action taken by the last Grand Jury, as follows:

"Resolved, That we congratulate the citizens of Union County upon the rapid completion of their new and handsome Court House. We deem the architecture stately, its arrangement complete, and its finish artistic and beautiful. It is a fit and enduring home for our courts, and a safe repository for the county records and archives for many years to come. We further congratulate our fellow-citizens that their edifice has been constructed punctiliously within the sum originally allotted, and without the slightest suspicion of jobbery or wrong doing, so common in wrong-doing, so common in public construction. We feel that all may point with pride and satisfaction to this structure as a monument to our county's progress, and to the integrity of our officials."

Passed Feb. 24, 1905.

(Signed) JOHN K. ENGLISH, Clerk of Union County Grand Jury.

On motion of Freeholder King, it was ordered that the communication be received and spread on the minutes in full.

REPORTS OF COMMITTEES.

By the County Road Committee, as follows:

To the Board of Chosen Freeholders of Union County.

Gentlemen—Your Committee on County Roads, to whom was referred the application of Elizabeth and Baritan River Street Railway Company for permission to construct a street railroad across St. George Avenue, with power, hereby report that we met and considered the matter on the 8th day of March, inst., and decided to grant the application on the terms and conditions stated in writing which we gave to the company, a certificate of which is hereto annexed.

We also submit herewith a copy of the acceptance of the permission by the company.

We recommend the passage of the following resolutions:

Resolved, That the action of the Committee on County Roads, upon the application of Elizabeth and Baritan River Street Railway Company for permission to construct a street railroad across St. George Avenue, be and the same is hereby ratified and approved.

Respectfully submitted.

(Signed) BENJAMIN KING, HENRY KROUSE, E. K. ADAMS, CHARLES J. JENSEN, County Road Committee.

Dated April 6, 1905.

With the foregoing report was presented the acceptance by Elizabeth and Baritan River Street Railway Company of permission to construct street railroad on St. George Avenue, Roselle, signed by Thos. N. McCarter, president, and attested by Frederick Evans, secretary.

The Committee also presented the following:

"Consent to construction of street railroad across St. George Avenue by Elizabeth and Baritan River Street Railroad Company," and which was read as follows:

WHEREAS, At a meeting of the Board of Chosen Freeholders of the county of Union held on Thursday the second day of March, instant, Elizabeth and Baritan River Street Railway Company made application for permission to construct a double track street railroad across St. George Avenue (a county road), which avenue lies partly at the point of such proposed crossing in the Township of Linden and partly in the Borough of Roselle, and

WHEREAS, The said application was referred to the subscribers, the committee on county roads of said Board of Chosen Freeholders, with power, and

WHEREAS, The said committee has met and considered the said application and examined the map annexed thereto, and hereby authorize and permit the said Elizabeth and Baritan River Street Railway Co. to construct the proposed street railroad across said avenue, as indicated on said map annexed to said application, on the following terms and conditions:

First—That the top of the rails of such railroad shall be laid as nearly as practicable, level with the grade of said avenue at the place of crossing.

Second—That said Elizabeth and Baritan River Street Railroad Co. shall pave between the tracks in said avenue and between the rails of each track, and for a space of two feet outside of the outer rails of each track with specification blocks, on a concrete foundation, such pavement to extend from one curb line of said avenue to the other, and said company shall maintain said pavement in good order at all times, so as not to obstruct or interfere with the crossing of the tracks by vehicles.

Third—That for the purpose of this consent the curb lines on said avenue at the place of such proposed crossing shall be parallel with the sides of said avenue and 12 feet distant therefrom, but the location of said curb lines may be changed either by said Board of Chosen Freeholders or by the municipal authorities of said Township and Borough.

Fourth—That whenever a sidewalk or sidewalk shall be laid on either side of said Avenue to the place of such proposed crossing, the said company shall, at its own expense, construct and maintain sidewalks across the tracks and for two feet outside of the outer rails of each track of the same material as that used in the construction of the sidewalks near the said tracks by the public authorities or owners of the abutting land, and said company shall maintain the sidewalk hereby required to be laid by it in good condition at all times.

Fifth—That no car shall be run across said avenue at a greater speed than five miles an hour.

Sixth—That said company shall erect and maintain a street light at said crossing from thirty minutes after sunset until thirty minutes before sunrise every night.

Seventh—That said company shall place a watch from pipe under said tracks in each gutter and maintain the same.

BENJAMIN KING, HENRY KROUSE, E. K. ADAMS, CHARLES J. JENSEN, Committee on County Roads.

Dated March 8, 1905.

Freeholder King moved that the report of the committee be received and resolutions therein contained adopted; further, that the consent be read, together with the acceptance be received and filed, all of which were so ordered without dissent.

NEW BUSINESS.

By Freeholder Scudler:

WHEREAS, The District Court of the city of Elizabeth has jurisdiction throughout the county of Union, and parties residing outside the city of Elizabeth bring suits in said court and suits are brought in said court against parties residing in the county outside of the city of Elizabeth; and

WHEREAS, On the plans of the new Court House certain rooms in the basement were marked "District Court" with the view that such should be set apart for the use of said court; be it

Resolved, That said rooms be set apart for the use of the District Court of the city of Elizabeth, provided that the county shall not be at the expense of furnishing said rooms with furniture.

Freeholder King moved the adoption of the foregoing preamble and resolution, and after some discussion it was so ordered without dissent, it being understood that such action could be rescinded at any subsequent meeting of the Board, if deemed necessary.

By Freeholder Westphal:

Be it Resolved, That a committee of five be appointed to look into the advisability of building a new bridge over Green Brook at West End avenue in the city of Plainfield, in concurrence with Somerset County, and said committee to report back to this Board.

The following copy of a resolution, adopted by the Somerset County Board, was read:

"Resolved, That it is the sense of the members of this Board that the application for a bridge on Grant avenue in North Plainfield should be favored, provided the Board of Union County unite, and provided the citizens of North Plainfield make the proposed improvements in grading."

March 20, 1905. Adopted.

A. P. SETHEN, Clerk.

On motion of Freeholder Westphal, the resolution as presented by him was adopted without dissent.

The Director appointed as the said committee, Freeholders Westphal, Clumiller, Robinson, Scudler and Marsh.

By Freeholder Marsh:

"Resolved, That a committee of three be appointed to meet a committee from Middlesex county to estimate cost of building county line bridge near Hazelwood cemetery, Railway."

On motion of Freeholder Krouse, the resolution was adopted without dissent.

The Director appointed as the said committee, Freeholders Marsh, King and Krouse.

By Freeholder Krouse:

Resolved, That the bill of the John B. Parker Co. for the sum of \$60,115.35 be paid when properly certified to by the architect.

Freeholder Woodruff moved the adoption of the resolution, and on roll call it was unanimously adopted.

By Freeholder Krouse:

WHEREAS, The new Court House is nearing completion, and it will soon be necessary to have a superintendent or caretaker of the building; therefore, be it

Resolved, That this Board do now go into an election for superintendent of the building, and that the period of his appointment be three years.

On motion of Freeholder Cladek, the resolution was adopted without dissent.

By Freeholder Krouse:

Resolved, That the compensation and salary to be paid to the superintendent of the new Court House, which shall include his own salary, the salary of a matron and for such other help as it is necessary for him to have for the proper care of said building, shall be the sum of thirty-five hundred dollars per year (\$3500 00), and including salary of engineer.

Freeholder King moved the adoption of the resolution, and on roll call it was unanimously adopted.

Freeholder Woodruff, in a brief speech, nominated William H. Hulse, kamper, of Elizabeth, for superintendent of the new Court House, which was seconded by Freeholder Cladek. On motion of Freeholder King, the nominations were closed.

On the roll being called, he received the unanimous vote of the Board, and the Director declared him elected as superintendent of the new Court House for the term of three (3) years.

Freeholder King said that he was unable to be present at the last meeting, and during his absence, the Board had taken up and passed resolution relinquishing control of certain county roads in Railway. He did not think said roads were in fit condition to turn over to the city of Railway, and he hoped that the Board could find a way to reconsider its action. Some discussion ensued, but no action was taken.

Freeholder Meisel stated that the Railway Valley Rail Co. had laid its tracks across a county road at grade without permission from this Board, and despite a promise made to do so such work without giving due notice of same; the crossing had been left in very bad condition and the work had been done at night, in a heavy storm, thus indicating that said company considered its action of doubtful right, if not unlawful. He felt that some action should be taken to ascertain the rights, if any, of this Board in the matter.

County Attorney Coddington said that he had been assured by Mr. English, attorney for said R. R. Co., that no attempt would be made to lay grade crossings without giving due notice of such intention, but the promise as given had been broken, the tracks had in fact, and he considered that this Board had been treated in a very discourteous manner. He was of the opinion, however, after consulting with eminent legal authorities, that this Board could not prevent any steam railroad from crossing county roads at grade.

After some further discussion it was

ordered that the matter be referred back to the committee and county attorney for further investigation.

On motion of Freeholder King, the Board took a recess of 15 minutes, and upon re-assembling roll call showed all members present except Freeholder Adams who appeared during the reading of bills.

On permission being granted, the Board was addressed by Mr. Edward A. O'Donnell, a plumber doing business in Cranford. He had been granted permission to open the county road in Cranford by J. W. Fink, County Road Inspector, and had submitted a contract he had on hand requiring the opening of the said county road. The sub-contractor had cut through the telford and macadam instead of having under same as was his (Mr. O'Donnell's) custom. His attention had been called to the matter by Inspector Fink and he had immediately paid the fine (\$50) although the violation of the ordinance had occurred without his knowledge or consent.

Inspector Fink corroborated the statement of Mr. O'Donnell, and in view of said statement made by the latter, suggested that his fine be remitted. He stated further, that openings in roads, such as made in the present instance, prevented the said roads from assuming their former conditions for a number of years.

Freeholder King, chairman of the county road committee said that unlawful openings of county roads by plumbers and others had given the committee a great deal of trouble in the past, and on his motion, the matter under consideration was referred to the said committee for investigation.

The following bills, properly audited and approved, were read, and, on roll call, unanimously ordered paid, viz:

SPICE THE NERVES.

DELICATE OPERATION IS A NEW
FEAT IN SURGERY.

Paralysis and Other Nervous Affections Now Remedied by Suturing of the Sensitive Tendrils.

"Nerve splitting" is no longer a term to be exclusively applied to New York street noises or women's headaches. It has a fixed place in the new surgery, states the Times of that city. Progressive surgeons think no more of splitting a nerve than some writers do of splitting an infinitive. Nerve splitting is one of the accessories to nerve suturing and nerve grafting. It has been practiced with varying success for eight years in Germany and England, but is new in this country. Five successful cases of it have been reported within a month—three in New York, one in Baltimore and one in Philadelphia. They will, in course of time, be amply reported in medical journals. But a New York surgeon who has just finished one of the most successful cases of nerve grafting on record declined to give details for the daily press.

"I have certain aspirations with regard to hospital appointments," he said, "that would be ruined absolutely if I gave you the information you ask. The profession is against physicians who permit themselves to get talked about in the newspapers. I do not say that this condition of things is right or desirable. But it exists."

This surgeon said that there were hundreds of persons in New York suffering from nerve paralysis in one form or another that could be relieved, or even cured by nerve grafting, if they only knew that such a thing existed. He compared grafting a live nerve to a dead one to re-establishing connection in a broken electrical wire.

"It is only necessary to free the dead nerve from all hampering connective tissue," he said, "stretch it freely, and remove the waste section in order to get a good opposing surface. Sensation can be restored to a dead nerve whenever you connect it with a live nerve. A nerve will stretch considerably if it is thoroughly cleared from the surrounding tissue."

"The time required for the operation and the period necessary for recovery from it depend upon the location of the nerve and the age of the patient. We get much better results with the young than with the old. There is no danger at all from tetanus. So far as I know, no case of death has been reported from nerve grafting."

"It is possible to patch up the large nerve trunks, as well as the smaller nerves. The method of treatment depends upon whether the sciatic, ulnar, median or peripheral nerves are affected. More or less pain and stiffness follow the grafting of a dead nerve to a live one, but the functions of the dead nerve gradually return to a remarkable degree."

"The sensation is not unlike the reaction in a leg or arm that has gone to sleep. Sometimes the patient experiences a feeling of confusion in regard to sensation—for instance, if a filament of a nerve that primarily brought intelligence to the brain from the big toe should become united with a nerve filament presiding over the leg area, it takes time to readjust that nerve. If there is any great loss of substance in cutting away a dead nerve new tissue is best secured from a freshly amputated human limb, or from a healthy animal. The American public will know much more about nerve grafting five years hence than it does now."

Experience with Salmon.
A heavy fall of snow in Scotland a few weeks ago caused the River Tay to rise suddenly. One of the big dams in the stream overflowed with the result that the salmon lying in the numerous pools at once made a rush to get higher up the stream. A workman, engaged in carting stones from the bed of the river, was astonished at the moving mass of salmon passing. So phenomenal was the shoal that the carter deemed it wise to stop his charge in the middle of the ford to allow the fish to pass. The salmon swam like lightning through the wheels of the cart and around the horse's legs. In the space of a few minutes several hundred passed this particular point.—Chicago Daily News.

Recognition by Cane Taps.
The degree to which the remaining senses can be trained when the sight is lost was illustrated the other morning by two blind men from the home at Thirty-sixth street and Lancaster avenue. The men came from opposite directions and as they approached each other another man standing on the corner was surprised to hear one of the blind men say: "Hello, Ed; what are you doing out this morning?" When the blind man was asked how he had known the other with a distance of five yards between them he answered: "By the sound of his cane, of course. I can tell at the distance of half a square the tap of the cane of any man in the home."—Philadelphia Record.

Something About Rice.
"If people would eat plenty of rice they would not need drugs to make them sleep," said the drug clerk, pausing for a moment in putting up a sleeping portion for a woman. "There is much said just now about rice as a strengthening food, but few Americans know that it has soporific powers. If properly cooked it has. Rice should be washed many times, until the water no longer appears milky. It should then be soaked a few hours, salted and boiled rapidly about 30 minutes. When cooked in this way it can be eaten each day with relish, and the person who eats it sleeps, and dreams not at all."—N. Y. Sun.

SIDEWALKS AND PHILOSOPHY.

One of the most difficult problems the Council has to handle is that of sidewalks. For some considerable time past it has been the policy of the town to obtain stone sidewalks in place of the old board walks, and to require the material of newly laid walks to be of stone. No one seems to question the superiority of the stonewalk or to deny the advisability of laying that kind. Many have either petitioned the Council to lay such walks or have suggested that the Council do so on its own initiative. The proportion of objections to these improvements, considering the number of improvements proposed to be made, has been very small, and the Council would therefore seem to be justified in carrying out the general policy of laying stone walks. In certain individual cases it sometimes appears to work a hardship, but, as in all cases where public benefits are to accrue, individual preferences, prejudices, reasons and rights have to give way to the greatest good for the greatest number. This is the principle of all civilization. Individual liberty yields something for the sake of the advantages of government. Special cases sometimes enlist sympathy; but the danger of making exceptions is in the difficulty of explaining them; and the misunderstanding thereby engendered has the unhappy result of creating the dissatisfaction of the many aroused by the granting of special privileges to the few, a dissatisfaction which makes the people less disposed to yield their own interests to those of the public, and invites the evils that are born of the discontent of the governed. On the other hand, the causes and occasions of complaint are reduced to the number of the few who think they are injured, rather than multiplied to the number of the many who object to the favoritism shown to the few. So that by one general policy on the question of sidewalks, uninfluenced by special exceptions, the Council will bring about the content and consent of the majority, and will enable the minority to experience some of the blessings of self-sacrifice and much of the enrichment of character that flows from a calm philosophy maintained in the face of adversity.

A wise editor says: "A man told us the other day that we did not publish all the things that happened. We should say not. In the first place, there is somebody else depending on us for a living. If we printed all that happens we would soon be with the angels. In order to please the people we must print only the nice things said of them and leave the rest to gossip. Yet it's a fact we don't publish all the news. If we did wouldn't it make spicy read-

ing? But it would be for one week only; the next week you would read our obituary. All the news is all right when it's about the other fellow."

What to Read.

If you have the blues read the 37th Psalm.
If your pocket-book is empty read the 37th Psalm.
If people seem unkind read John 13.
If you are discouraged about your work read the 120th Psalm.
If you are all out of sorts read Hebrews 12.
If you are losing confidence in men read 1st Corinthians 13th.
If you can't have your own way in everything read the third of James.

Westfield Musicians.

More than the ordinary proportion of people of musical tastes and ability have always been found in Westfield. Genuinely musical voices and instruments have ever received due appreciation here, and all efforts to indulge and improve the musical side of our natures has been heartily supported. In such a place it should not have been hard for a piano or organ of real merit to find ready recognition, and it was not. When once the delightful features of the Aeolian Pianos and Orchestrelles had been set forth to the musically inclined Westfielders, purchases of these instruments rapidly followed, until now a number of Westfield homes are graced by their presence. There are two classes of musical people, musicians and music-lovers. Many who thoroughly enjoy good music have lacked opportunity or ability to learn to perform, and but for one thing would be dependent upon attendance at the opera, concerts and other outside functions for their enjoyment of music. The one thing that brings into their homes the music of the masters, meretriciously and always beautifully executed is the Piano and Orchestrelles. Mr. William H. Gomez can tell you things about these instruments which will fill you with wonder and delight.

Men's Club Annual Meeting.

The Men's Club of the Presbyterian Church held its annual meeting last Friday night, and re-elected the following officers: President, George B. Dickerson; Vice-President, Dr. Theodore R. Harvey; Secretary, S. G. F. Rathbone; Treasurer, W. R. Darby. These were all re-elections, as were the Executive Committee, consisting of William C. Reed, William Sissertson, Dr. F. A. Kitchin, G. A. V. Hamlinson and Dr. J. J. Savitz.

At the conclusion of the business, the club listened to an interesting address by Rev. Dr. W. T. S. Lumbard, of Newark, his subject being "Some Men I Know."

Malcolm Shackelford entertained the members with his recitations and impersonations, and refreshments concluded the evening's enjoyment.

Our Neighbor's Comment.

The success with which the Plainfield Courier-News has concealed the meaning of the following remarks reminds us of Henry James:

"The outcome of Westfield's vote on Tuesday for a free public library relieves the tension of the victorious persons ones who worried 'last the opportunity slip by.' Mr. Carnegie's offer of \$10,000 had nothing to do with booming the project, as the Westfielders assert in mutually consistent conspiracy; the election was merely the expression of Westfield opinion on the abstract beauty of the library theory; its contemporaneity with the Carnegie proposition was a freak of coincidence that had nothing in common with hypnotic suggestion."

Everyone is Going to the Easter Reception.

The ladies of the Social and Literary Circle and other organizations of the Methodist Episcopal Church have perfected every detail. All that remains is the pleasure that will be theirs in receiving you at the church on Tuesday evening next, the 25th. This occasion is not for Methodists only, but all the town's people who are interested in the new church. Refreshments for all. No tickets. No charge. Simply a good-will Easter offering.

Good Legislation.

The Nevada legislature has just adjourned with a remarkable record. It repealed every restrictive gambling and liquor law on the books. The only restriction of the kind it retained was the one on prize fighting.

TOWN COUNCIL HOLDS MEETING

Dudley Avenue Residents Object to Laying Sidewalks—Protests Referred to Committees—Petitions to Lay Concrete Walks Refused—Other Hearings Held.

A number of protests against laying of stonewalks on Dudley Avenue were filed with the Clerk at Monday night's meeting of the Town Council. George B. Webb and R. H. Mandell, Jr., appeared personally at the meeting, and urged that there is no necessity for a walk on the northerly side of Dudley Avenue, between Prospect and Elm Streets, as they are the only property owners on the block and nobody but themselves can be inconvenienced by the lack of a stone walk there. The objections were all referred to the Sidewalk Committee. The petition of W. F. Howarth and M. Phillips for permission to lay concrete walks instead of stone in front of their properties were considered by the Council and the permission refused. The hearing on the proposed sidewalk on North Broad Street for a distance of 186 feet easterly from Chestnut Street was held, and as no objections were offered, an ordinance was passed on first reading. The Westfield Realty Improvement Company petitioned to have the Council lay about 1,200 feet of sidewalk on the Boulevard, south of Park Street. Residents of Harrison Avenue petitioned to have curb laid on the southwesterly side from Broad Street, for a distance of about 900 feet. Both petitions went to the Sidewalk Committee. Other requests for sidewalks and grades went to the same committee.

The Central Railroad Company wrote that they could not locate the lines of Osborn Avenue where the Council has requested a bridge over the tracks, and the Town Engineer was directed to stake out the street at that point.

The amended report of the Commissioners of Assessment, correcting the assessments for the Sidewalk work on the south side of South Avenue, was presented and the Clerk ordered to advertise a hearing of objections to it to be held May 15th next. The matter of the proposed change of sidewalk grade at Prospect and Broad Street was left to the Sidewalk Committee, with power. Reports of town officers were received and a number of bills passed, after which the Council met next Monday evening.

Letter to Thomas England, Westfield.

Dear Sir: The way to buy paint is to go by the name. There is a name never seen on shum paint or weak paint or short-measure paint: Devco.

There are a hundred different names in paint. Some are sham; some weak; some short measure; and some all three.

If there is another such a paint as Devco lead-and-zinc, we don't know it. There are a few fairly good paints; a few; only one Devco. A gallon Devco is worth a gallon and-a-half of those faw.

Mr. Aaron Higgins, of Plainfield, N. J. always used 15 gallons of mixed paint for his house. Last spring he bought 15 gallons of Devco and had 4 gallons left.

Yours truly,

F. W. DEVCO & Co.

Loyal Association Entertainment.

The entertainment given last evening in Arcadium Hall by the Loyal Association to their friends proved a very pleasant event. The enjoyable program arranged by the committee consisted of readings by Miss Augusta Grimm, of Ohio. Her selections, both humorous and dramatic, were given in good style and were greatly appreciated. The singing of Miss Dess McClaren, of New York, was enthusiastically endorsed. The Indian and Japanese songs, "en costume," earned double share of applause. H. Southard Thompson, a former resident of Westfield and known as the "Humkerchief King," mystified his audience with slight-of-hand performance and proved a clever artist. Dr. Frank S. Pottis, supreme recorder of the order, gave a short but interesting account of the association and its benefits. At the close of the program ice cream and cake were served and a social hour enjoyed.

Reception to Dr. and Mrs. Wright.

The people of the Methodist Church tendered a reception to their pastor, Dr. J. R. Wright, and Mrs. Wright, at the church parlors last Monday evening. Dr. Wright had been returned by the Conference to his Westfield charge, and the congregation attested their appreciation of his services and worth by turning out in force at the reception. Mrs. W. S. Hurst and Mrs. L. M. Pearsall constituted the entertainment committee.

Beware of Ointments for Catarrh that Contain Mercury.

Mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is tenfold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by Druggists. Price, 50c. per bottle. Take Hall's Family Pills for constipation.

Enjoyable Musicals.

The Kinder-Symphony and musicals, given at the Baptist Church last Friday evening, was exceedingly enjoyable, and much talent was displayed by the young artists. Miss Florence Brower, who was on the program for two recitations, was not present and Miss Arline Brown, in addition to her own number, kindly filled the vacancy in a very creditable manner. The program follows:

"The Holy City," by Miss Carrie Jones and a Chorus of Girls.
Recitation..... Miss Arline Brown
Carnet Solo..... Mr. Henry Ketchum
Recitation..... Will Hunt
Piano Duet..... Miss Alpers
and Miss Frederick
Mandolin, Violin, Guitarr.....
Elsie Carlson, Mabel Trueball, Clara Lightfoot, Edith Carlson, Arline Brown.
Recitation..... Miss Arline Brown
Piano Solo..... Miss Alpers
Kinder-Symphony.
Miss Edna Frederick and Miss Dorothy Francis were accompanists. The entertainment was under the direction of Mrs. C. F. Conant.

—The marriage of J. Russell Marsh, son of Assessor J. M. C. Marsh, to Miss Edith C. Vanderbilt, of Plainfield, occurred last week at the home of the bride's parents, Sunday last.

—S. S. Mapes has received an invitation to the Grand Regent's Banquet, R. A., to be held at Newark tonight. The invitation is a special mark of appreciation of Mr. Mapes' work in getting new members in the order.

—Dr. W. H. Morse left at the Standard office yesterday a copy of "The Fireside," a local newspaper published in Westfield twenty-one years ago. An interesting local note is a plea for a house for the Public Library.

—Great activity is going on in Stoneleigh Park, the property of Mr. H. B. Tremaine, at Westfield Avenue and Park Street. The residences now being erected and well under way are those of Mr. C. M. Tremaine, E. W. Perkins, E. A. Merrill and C. Lamb. J. A. Foster will soon commence the erection of a house here.

—The entertainment given by the All-Star Vandeville Company will take place on Thursday evening next at the Westfield Club Hall. The company is headed by Silverwise and Applegate. They will be assisted by Frank A. Brugmann, buck and wing dancer; Miss Lyle Leckie, Miss Carrie Dawes and E. P. Waterbury, soloists. "The New Invention," a laughable farce, will conclude the program. Dancers will follow.

—The sale of Cake, Candy and Fancy Articles, to be held by the Ladies of St. Paul's Guild on the 22nd, will include many articles suitable for Easter Gifts, Collars, Knitting Bags and Aprons, Children's Aprons, Hand-made Bannet-chiefs, and numerous other things. The children will have a Grab Bag and Ice Cream.

The surest and safest remedy for kidney and bladder diseases is Foley's Kidney Cure. Sold by Frutchey & Hathaway.

BAMBERGER'S

MARKET & HALSEY STS.

Our Main Floor is an Electrical Lily Field.

Our street floor presents a scene of Springtime loveliness never equaled in the annals of local store keeping. Each pillar supports a giant bunch of beautiful lilies, from whose pure white depths glisten and sparkle a multitude of varied colored electric globes, while rare and natural palms and flowering plants, of almost every known variety, are banked in charming profusion on table and counter. The effect, while unique, is wonderfully pleasing, and worth counting any distance to see. In connection with all of this we have arranged a truly national array of Easter offerings, with which today's advertisement of store news has to deal.

Correct Easter Apparel.

The more exacting your ideas of garment cleverness, the more this splendid show will please you, and the greater your conception of price rightness the greater our values will appear.

This sumptuous Easter display was planned on broader lines than ever before, and the styles are clever beyond the power of description. Our earnest advice, to those who require frocks and wraps for Easter wear, is to shop at once—tomorrow morning if possible.

DYNAMITE MAKES CHANNEL

Ice in Long Island Sound Was Blown Up to Permit of Navigation.

The severity of last winter in the neighborhood of New York is emphasized by an occurrence at Port Chester, N. Y., on Long Island Sound, says the New York Tribune. Plainly the harbor of that place is not closed in the winter by the ice. The steamers from New York are able to make their way up the Hylan river, the mouth of which forms the harbor of Port Chester, to the wharves. In the winter just ended it has been impossible for them to do this, for ice more than a foot in thickness formed and effectually blocked navigation in the channel.

The manufacturers became tired of waiting for nature in the form of gentle spring to release them from their icy bonds. When March came morning in, and the ice was found still to be from a foot to 18 inches in thickness, they decided to treat the ice themselves. Procuring 400 pounds of dynamite, they set to work. Beginning at the open end of the ice field the ice was divided into huge blocks with plows. Then sticks of dynamite were inserted in holes made for the purpose. The dynamite was exploded by an electric current and three or four miniature pyroxy of mixed ice and water would shoot up into the air.

Foot by foot the ice was broken away. Finally after five days of ice breaking of this sort the channel was opened sufficiently to permit a steamer to reach a wharf.

AN APPEAL FROM AFRICA.

What the People of the Dark Continent Ask of Those of Other Nations.

It is but very little that we ask—the right to work on our own soil, among our own people, ruled by some, at any rate, of our rulers, and to be permitted to eat and drink what we think good for us, instead of having deadly poison poured down our throats, says an extract from "Africa's Appeal to Christendom," in Century. Even if foreign powers should for a time be financial losers, they cannot eventually be anything but gainers—aided by a country almost unlimited in its capabilities, and the willing, grateful service of 200,000,000 of people rescued from the moral as well as physical death now staring them in the face. They will not have the obstacles presented to them in their own country; all will be with them in this crusade; leaders and people alike are stretching out their hands for aid. We appeal, not to England, not to France, not to Germany, not to other empires and states, but to the consciences of the individual men forming such nations. We appeal, not for a gift or favor, but for our right. Even as the Americans appealed for their rights, and obtained them by heroic measures, so do we claim the right for "freedom to worship God" and to worship Him by sobriety, industry, good will and all the Christian graces.

FOUND IN "LEMON" PIES.

Analysis of Restaurant Pastry Falls to Bring to Light Any Lemon.

Three lemon pies brought from the shelves of downtown restaurants were analyzed in the office of the state food inspector, and this is the composition of the filling of one of them, as ascertained by the chemist, reports the Chicago Record-Herald.

"Stretch in thick, firm paste, flavored slightly and very little acid; 21 percent sugar. Aniline coloring (methyl-orange group). The color is made synthetically from aniline, and aniline from coal. Method—di-methyl-aniline on diazo-benzene sulphonic acid. Methyl orange is poisonous in large doses. Found to contain very little flavoring and acid from lemon. Filling of starch paste, sugar and colored deep yellow.

In plain English, it was explained by the chemist that aniline is used instead of eggs. "The butter was neglected altogether and the lemon juice was neglected."

Another lemon pie was beginning to decompose when it was delivered to the laboratory. There was dough at the bottom. "The third lemon pie examined was said to be tolerably good. The much-abused mince pie escaped with good reputation, but one of the two pumpkin pies examined was said to be old."

Largest Known Sun Spot.

The Abbe Moreux has published a chart of the great sun spot made at the Observatory of Bourges, when on February 2 it attained its greatest extension of about 175,000 kilometers long and 102,000 kilometers wide—that is to say, about one-twenty-ninth part of the solar disk. It is the largest yet known. Lengths of 200,000 kilometers have been noted, but they represented a group of spots. One in 1858 was 250,000 kilometers long, but owing to its narrowness only measured one-thirtieth of the solar surface. The spot passed the central meridian of the sun on the night of February 3. It lay in the southern hemisphere, and varied notably in its aspect—London Globe.

Pa's Theory.

Little Willie—Say, pa, what is the meaning of "noblesse oblige"? Pa—I don't know; my son, unless it has some connection with those foreign nobles who are obliged to marry for money.—Chicago Daily News.

Real Strenuous.

He—I understand Softleigh has been assigned a very difficult role in your amateur theatricals. She—Yes, poor fellow. They gave him a thinking part.—Chicago Sun.

VENGEFUL SALESWOMAN.

Interruption of Her Monopsony Brings Forth Hot Retort on the Tooty Shepper.

The saleswoman with the carefully preserved face at the toilet supply counter was brandishing a small glass jar of cosmetic and becoming volubly. Her remarks were usually directed at the pretty young man with the curled yellow mustache, but they were really intended for the whole crowd of shoppers who were patiently waiting for their pencils and change, relates the New York Sun.

"Yes," said she, "this bearden cuticle cream is the real thing. It is not a mere lubricant for the epidermis; it is a food for the derma, of true skin, to which it penetrates through the pores when gently rubbed in. I'm a mass—yourself and I know it gives results. I've used it on my patients and on myself—here everyone gazed at her skillfully perfected complexion—"and I know the work it does. Many ladies use it as a relief from sunburn and wind-chill and germs find it repels the skin that has been roughened by the razor."

The testy little man with the grizzled hair and mustache had been listening for some time. He broke in at this point.

"No doubt it would grow corn if it was smeared on a whisky bottle, but I've been waiting five minutes for my parcel."

While everyone stared at him with admiration for his courage, the saleswoman, after casting a withering look at him, reached behind and grabbed a small parcel.

"Oh, was yours the hair dye?" she whispered, while the crowd thithered.

He was opening his mouth to make an angry reply when a third woman, blushing crimson, put out her hand.

"The hair tonic's mine," said she, and she grabbed the parcel and disappeared.

"Then the corn erector's yours?" (the saleswoman suggested).

"Oh, no; dot vas mine," said a fat German, grinning genially.

"What was yours, then?" asked the saleswoman, with an intonation that conveyed to everyone else her suspicion that the testy little man had bought nothing at all.

"Why, blank it, madam. It's a cake of shaving soap and a jar of that beef-arcen stuff that you're gassing so much about. I guess that jar you're demonstrating with is mine that you've forgotten to pass back to me done up."

This time the crowd laughed outright. The saleswoman wasn't fazed. Her flow of oratory gushed out anew.

"Oh, excuse me! This isn't yours. This is a sample jar. Excuse me! Here's your parcel; six cents for the soap and 98 for the cream; one dollar four out of two, 50 cents change. Excuse me! But isn't the cream just fine after shaving, rubbed gently in, it nourishes the derma or true skin; you can tell this gentleman."

But the testy little man had by this time tucked away his change and his parcel, and with a despairing shrug he disappeared in a rush of women about a counter where 21-cent tooth-brushes were selling at 16 cents.

DIPLOMACY ALWAYS WINS.

Young Mr. Newpopp Finds a Way to Prevent Objectionable Naming of Baby.

The late Capt. Charles Angus, of New York, the life savior of Pellam bay, was noted for his diplomacy, says the Tribune.

"Diplomacy always succeeds," he said one day in Pellam bay. "What you can't get with diplomacy is not worth getting. There for instance, is my cousin George."

"When Cousin George, two years ago," he said, "became the father of a bounding ten-pound son, he was a proud and happy man. It seemed to him that he loved every hair of the infant's head. His brows were mischievous curls. Even in its face, red and twisted with sobs, he saw beauty and charm. As for walking the floor with it, he asked nothing better than to walk the floor with it all night."

"So a fortnight went by, a happy fortnight. Then the mother announced that she was going to name the baby Emily."

"Cousin George's face fell. He was not particular about names. Almost any name, in fact, suited him. But Emily he loathed. He had loathed the name of Emily from his boyhood. He did not tell his wife that, though. He was too wise. He knew 'her' too well. "Emily," eh? said Cousin George, in his diplomatic way. That's good. I like Emily. Emily was the name of my first sweetheart. She'll take it as a compliment, our naming the child after her. She'll—"

"But George could say no more. His wife interrupted him.

"We'll call the child Joan, after my mother," she said, shortly."

Beating of Dead Hearts. Hearts of cold-blooded animals will beat for a comparatively long time after death or removal from the body (if kept cool and moist), because of powerful internal collections of nerves, known as ganglia, whose automatic impulses cause the regular contractions of the muscles. Similar ganglia exist in man and other warm-blooded animals, but their action is less prolonged. Scientists have ascertained that a turtle's heart will beat after removal, if put on a piece of glass, kept cool and moist, and covered with a bell-jar. I believe it has been known to beat 36 or even 48 hours; 12 or 14 hours is a common record.—St. Nicholas.

Stung! Mr. Jones—I didn't marry you whole family—I only married you.

Mrs. Jones—Of course, dear. I was the only fool in the family.—Judge.

AMUSEMENTS.

The First Avenue branch of the F. F. Proctor stock company will add new hands to its already brilliant list, when the first presentation by any stock company of Bertha Galland's greatest success, Dorothy Vernon of Haddon Hall, by Charles Major, author of "When Knighthood Was in Flower," will be given Easter week, commencing Monday, April 24th.

The Easter week attraction at Mr. Proctor's One Hundred and Twenty Fifth Street Theatre will be Richard Mansfield's famous dramatic masterpiece, "Old Heidelberg." It will be the first production in Harlem of this uncommonly powerful play of German student life, by the uptown Proctor stock company, and it will be cast to the fullest strength of that admirable organization.

The Easter entertainment at Mr. Proctor's pretty Newark Theatre will not be a bit behind the excellent program which will be offered at his various other theatres. "Dad," which scored a most remarkable sensation last week is a continued attraction, and those who failed to see this illusion last week should not miss it. The marvelous illusion of creating a woman out of nothing has occasioned such gossip as to have it continued one more week.

Mr. F. F. Proctor is not allowing his all star vaudeville bills to lapse in any particular at his Twenty Third Street House. Despite the fact that it is a serious proposition to secure stars each week, Mr. Proctor manages to succeed, and for the week of April 21th he heads an enormous bill with Peter F. Daley and his LuLu girls.

At Proctor's Fifty Eighth Street Theatre, week commencing Monday Matinee, April 24th, supported by a huge and powerful cast of favorites, Mr. Drouet, who has been leading man with Miss Blanche Walsh during the present season, will offer another tremendous scenic production, "The Great Ruby," which will be presented with all the original magnificent scenery, including the thrilling balloon scene, also the Chicken scene, in which is used a mammoth tally ho, drawn by eight beautiful horses.

Spring appetites require a varied diet in vaudeville as well as in victuals, and Keith's current bill meets the season's demands with "37 different varieties of fun," sure to suit everybody's taste, no matter how picky and finicky. Richard Golden, the king of all Yankee comedians, presents "Uncle Jed Prouty's Visit to Boston" amidst shouts of appreciative laughter.

LIBERTY THEATRE.

"The Education of Mr. Pipp" seems likely to be the hot weather attraction at the Liberty Theatre, where it continues, although in its ninth week, to draw huge audiences. Its success is deserved. It is a good, heartful comic story, with a serious undertone, told by most capable players. In fact, a better selected cast in a comedy has not been seen in New York in years. Augustus Thomas has certainly realized the Gibson drawings in the types of his comedy, and one readily recognizes them. In this respect "Mr. Pipp" is an especially noteworthy stage effort.

NEW YORK THEATRE.

The run of "The Prince of Pilsen," at the New York Theatre, has proved so successful that it will not close its engagement there next Saturday evening, as announced, but will continue two weeks longer, and will not close till Saturday evening, May 6th. This is a most remarkable compliment to this popular musical comedy. Even though now in its twelfth engagement in New York in three years, this is extended two weeks longer than originally planned. Certainly no other musical production has a record like this. Great merit at popular prices—25 cents to \$1.00—is the undoubted explanation of the really wonderful attendance this piece is drawing. On Monday, May 8th, George M. Cohan will return to New York and present "Little Johnny Jones."

BLADDER TROUBLE.

People Should Know How Mr. Miller Was Cured of Kidney and Bladder Trouble by the Great New Medicine, Cal-cura Solvent. Your Money Back if it Does Not Cure.

MATTHEW, N. Y., Sept. 28, 1901.

Continued.

I have been troubled with my Kidney and Bladder for three or four years and doctored with many physicians without obtaining any help.

A few months ago I decided to try Cal-cura Solvent, Dr. Kennedy's latest medicine, and am thankful to say I am now practically cured. You have not asked me for a testimonial but I wish to tell you what Cal-cura Solvent has done for me and hope that others may be so happily relieved. Yours truly,

WILLIAM H. MILLER.

If your druggist does not have Cal-cura Solvent, write to the Cal-cura Company, Houdou, N. Y.; but ask your druggist first, \$1.00 a bottle. Only one size.

Guarantee: Your druggist will return your money if Cal-cura fails to cure, and the Cal-cura Company will pay the druggist. Remember, Cal-cura Solvent cures 90% of all cases of Kidney, Bladder and Liver disorders.

"MALAKA"

For refinishing furniture, hardwood floors, school desks or any varnished surface, Malaka has no equal.

It requires no brush or experience in its application.

It is applied to the surface with a soft cloth, a thin coating is left which dries perfectly hard in four or five hours, leaving a beautiful finish which will not crack or show scratches.

Surfaces treated in this manner, when signs of wear are observed, will be kept in perfect condition indefinitely. All germs on the desks or woodwork of schools, colleges, hospitals, cars and public buildings, can be destroyed by wiping them over with a soft cloth saturated with Malaka, which accomplishes a two-fold work, the destruction of germs and a renewal of the finish.

Card from Library Trustees.

The Trustees of the Westfield Public Library Association are deeply sensible of the untiring efforts of the Election Committee, the gentlemen of the local press and many others, to secure the town vote for a Free Public Library.

The Trustees gratefully appreciate the result of the work done by these gentlemen and their associates, and acknowledge their indebtedness to Messrs. Walter Storer Clark, James O. Clark, Frederick S. Taggart, Arthur S. Pierson, William E. Tuttle, Jr., W. A. Dempsey, Geo. B. Dickerson, Charles A. Smith, C. H. Donnan, Charles E. Aggar, O. A. V. Hankinson and Lloyd Thompson. The thanks of the Board of Trustees are also due to the following members of the Election Board, who donated their services:—F. R. Penington, Chas. Taggart, Jos. Fairclairn, J. H. Townley, E. S. Brown, Chas. Sutor, Matthias Miller, Henry E. Ferris, John Goltra, Anson E. Grant.

Dreadful Attack of Whooping Cough.

Mrs. Ellen Harrison, of 300 Park Ave., Kansas City, Mo., writes as follows: "Our two children had a severe attack of whooping cough, one of them in the paroxysm of coughing would often faint and bleed at the nose. We tried everything we heard of without getting relief. We then called in our family doctor who prescribed Foley's Honey and Tar. With the very first dose they began to improve and we feel that it has saved their lives." Refuse substitutes. Sold by Fratchey & Hathaway.
