The evening session will open at eight o'clock, Rev. W. I. Stearns, D. D. leading the devotions. The address "The Need of the Hour" will be given by Rev. Florence Randolph of Jersey City. The following is taken from a local paper of Closter, N. J.: "Rev. Florence Randolph an ordained minister of the A. M. E. Zion Church was present at the camp meeting services of this denomination on Sunday afternoon and evening. Mrs. Randolph is a consecrated Christian worker in church, missionary and temperance circles, and the message she brought to Closter on Sunday afternoon was worthy the careful attention of the whole community but especially the prayerful consideration of those who bear the name Christian. Mrs. Randolph is an impassioned, logical and practical speaker."

A cordial invitation is extended to every one to attend any and all of the sessions. There will be no meeting of the W. C. T. U. on Tuesday next as the ladies will be busy with preparations for the entertainment of the Convention on the following day.

## THE PRIMARY NOMINATIONS

### CONTESTS ARE LIKELY IN EVERY WARD OF THE TOWN.

To-morrow last day to file Petitions—Colby Delegates to be Named—Candidates for Councilman.

Petitions for nominations to be made at the primaries of both parties one week from next Tuesday must be filed with the town clerk before mid-night to-morrow. Up to this afternoon no petitions had been filed, but the activity in connection with them is greater than at any time since the primary law was passed, and the excitement is correspondingly intense.

The Regulars and the Colbyites are going to contest for the delegates to the County Convention which will nominate three assemblymen from Union county. Randolph Perkins is a candidate to succeed himself, and William N. Runyon is the Colby candidate in opposition. The Colby delegates in the First ward will be John O. Kelchum, George B. Dickerson and Robert V. Hoffmann. In the Third ward they will be Ralph G. Pearsall and James Cutler. Colby delegates for the Second and Fourth wards have not yet been announced. In the First ward Hiram L. Fink is the only one yet agreed on as a Perkins delegate. Walter L. Darby is the Perkins delegate from the Second ward. In the Third John J. Cager and R. H. Sumner will run for Perkins. In the Third ward Republican meeting held the other evening it was decided to run Colby delegates also, and let the contest be fought out in a fair way at the primary. W. Edgar Reeve and Frank S. Smith were selected to run for Colby. They afterward found Pearsall and Cutler had already been petitioned for, and the former decided to support them, signing the Pearsall and Cutler petition. Perkins delegates in the Fourth ward are not yet announced.

#### Alpers and Dennis to Run.

It is generally conceded that Councilman A. L. Alpers will be the nominee for mayor on the Republican ticket, and that the Democrats will name John A. Dennis, former Chairman of the Town Committee, to run against Mr. Alpers. The latter will resign as Councilman from the First Ward if he is nominated for mayor. That will mean that there will be two Councilmen to be elected from the First Ward, one to fill the unexpired term of Councilman Alpers for one year, and one to succeed Councilman Mooney for two years. Democrats say Mr. Mooney will decline a renomination and that there will be no opposition to the Republican nominees—Hiram L. Fink, E. G. Hanford, Salter S. Clark and others have been urged to run but have declined.

James E. Grape and John Schmidt are mentioned as Republican candidates for Councilmen from the Second Ward. The Democrats will name Robert F. Hohenstein.

A. J. Wilson will be the Republican nominee for the Council from the Third Ward, and will probably be endorsed by the Democrats.

In the Fourth Ward Councilman Leiley, and former Councilmen Settlement and Winter, are all said to be candidates for the Republican nomination. The Democrats will not name any one at present.

#### Tuttle for Freeholder.

It was reported this morning that Joseph Perry, one of the Republican Freeholders will be endorsed, and that the other Republican Freeholder, C. A. Smith, will be opposed by W. E. Tuttle, Jr., Democrat.

No one seems to be a candidate for justice of the peace. Three justices are to be elected.

Delegates will be elected to the Congressional, County and Local Conventions. To each of these the Republican party has three from the First Ward, one from the Second, and two from the Third, and two from the Fourth. The Democratic party has one from each ward but the Second which will send two delegates.

#### All-Embracing.

The Alhambra Pioneer quotes an East Indian doctor's death certificate: "I am of mind that he died for want of foodings, or on account of starvation. Maybe also for other things of his comfortables, and most probably he died of drowning." It is a careful, omnibus opinion, and reads like a weather prediction that cannot miss and runs the whole gamut of meteorological possibilities.—N. Y. Tribune.

#### Sacred Fires of India.

The sacred fires of India have not all been extinguished. The most ancient which still exists was consecrated 12 centuries ago, in commemoration of the voyage made by the Parsees when they emigrated from Persia to India. The fire is fed five times every 24 hours with sandalwood and other fragrant material, combined with very dry fuel.

#### Had to Go.

Oscar Hammerstein was smiling at the extravagant attentions that are lavished by the rich upon pet dogs. He spoke of the canine operations for appendicitis, the canine tooth-extractions, the canine wardrobes that have recently amazed New York, and then he said: "How servants hate these pampered curs! At a house where I was calling one warm day the fat and pompous butler entered the drawing room and said: 'Did you ring, madam?'"

"Yes, Harrison. I wish you to take Philo out walking for two hours." "Harrison frowned slightly. 'But Philo won't follow me, madam,' he said."

"Then, Harrison, you must follow Philo."

#### Hopeful.

Rev. Frederick B. Bridgman, the noted and successful missionary to the Zulus, was talking in Philadelphia about missionary work.

"I am very hopeful of it," he said. "I may be a little too much so, because I have had such good success. It is better, though, to be too hopeful than too doubting. Much depends upon the character of the people one works among and I can sympathize a little with the missionary who returned home from China in a very despondent mood. A Chinese convert stole this missionary's watch and then came back to him the next morning to learn how to wind it up."

#### A Toss-Up.

The Girl—I don't know whether to run for the fence or the tree.  
The Cow—Moo-oo-oo!  
The Girl—Oh, I guess it's a toss-up.

#### All from the Same Cask.

William Jennings Bryan, during his sojourn in London, dined with some Americans at the Savoy, in the cafe overlooking the Thames embankment. The talk turned to wine, and Mr. Bryan said:

"It is of advantage in France to know good wine, and it is also of advantage to know French."

"Three friends of mine, traveling in the French provinces, thought at dinner that they would go a little higher than the vin ordinaire included in their three-franc table d'hôte, and accordingly one ordered a bottle of margaux. The second ordered port wine. The third ordered lamb broil."

"The waiter, suitably impressed with these orders, retired. But he incautiously, as he retired, left the door open, and thus it was that my three stammered friends heard him give their order in these terms:

"Baptiste, three bottles of the red."

#### Ins and Outs.

Bronzed by foreign suns, he entered the office of his colleague. But the cashier's chair was vacant.

"Is Mr. Smith out?" he asked, anxiously. "I am an old friend of his."

"No, sir," returned the clerk. "Mr. Smith is not out. He won't be out for 16 years."

Here the clerk smiled grimly.

"The firm is out, though," he went on, "one hundred thousand just."

#### Versatile Youth.

"That new clerk of yours is rather versatile, isn't he?" said the drummer.

"That's what," replied the village merchant. "He makes three or four different kinds of a fool of himself every day."

#### California Recovering.

California bank deposits amount to \$540,000,000 and the banks in which they are held are credited with assets of \$693,000,000. The loss suffered by San Francisco, by the earthquake and fire, was unequalled by any similar catastrophe in the history of the world, but despite its magnitude, some of its appalling force is lost in the contemplation of the financial showing made by the entire state. There is great promise of large crops of grain and fruits, the mines and oil wells are turning out new wealth more rapidly than ever before, and if the insurance companies would pay up their losses and the striking sailors return to work at the highest wages ever paid for similar employment, the Bay City would blossom into its old-time splendor at a rate that would astonish the world.

#### "Boys Will Be Boys."

"There were a couple of old forty-almers down in Tombstone, Ariz.," said a tourist the other day, "who were great friends. One of them was 80 years old and the other 81. They were taking their morning toddy one day and fell into a disagreement over the date of some pioneer occurrence. Each was insistent upon his own recollection of it, and finally they got into a regular quarrel. Backing away from the bar, they drew their guns and blazed away at each other, but their sight was so dim and their hands so unsteady that all the bullets went wide. When their guns were emptied the barkeeper emerged from beneath the counter and made them shake hands and make up. The local paper, the Epitaph, in describing the occurrence, treated it in an indulgent vein and closed by saying: 'Well, boys will be boys.'"

#### HOW TO VOTE AT THE PRIMARY.

Information to voters prepared by Republican County Committee—Primaries to be held one week from next Tuesday.

The following is taken from the Explanation of the Primary Law, prepared by Hon. C. N. Coddling and Judge William Newcomer for the Republican County Committee:

The Union County Republican Executive Committee, desirous of affording all information possible to the voters of the county regarding the method of conducting under the law the primaries in the various districts, wards and townships, have prepared the following little pamphlet, and hope it may be of use and information to the citizens of the county. Under the law as it exists every voter in the county has an equal right to the expression of his opinions in the official primary, and it is the desire of the Republican Committee that all the details of the law shall be understood by everyone, and it is in this hope that this explanation is prepared.

The new primary law provides the manner in which all candidates for public office to be elected at the fall election shall be nominated, and in the manner in which delegates shall be elected to political conventions for the nomination of candidates for public office to be elected in the fall.

It applies to those political parties which, at the election next preceding the holding of any primary election, polled for members of General Assembly at least five per centum of the total vote cast in the district or divisions in and for which the nominations are made or delegates are chosen.

#### Who Are Entitled to Vote.

Any person affiliating with any party may vote at the primary of said party:

1. If he is registered and in cities of over 30,000 inhabitants, he may register and vote afterward.
2. Provided that the last time he voted at a general election, when members of the General Assembly were selected, he voted for a majority of the candidates whose names appeared on the Republican ticket at such election. This includes all of the persons on the ticket whether Presidential electors, State or local office, and that he intends to support the candidates of the party with whom he is voting at the primary at the ensuing general election.
3. That he did not vote with any other political party at the last primary election.

A person who never voted before in the State, whether he be a new resident, or a person just coming of age, or one recently naturalized, has the right to affiliate with any party and may participate in the primaries of that party if he affiliates with them.

#### How to Vote.

A person desiring to vote at a Republican primary will on the fourth Tuesday of September, between the hours of 1 and 9 attend the regular polling place of his election district and enter the said polling place and ask for an official ticket of the Republican party from the Republican members of the election board. If registered, this will be handed to him and the said official ticket, which is prepared by the municipal clerk, will contain the names of all parties who have been regularly nominated by petition, arranged either alphabetically or in groups in accordance with the wish of the petitioners. The voter will then enter the booth and erase upon the ticket all names that he does not desire to vote for, leaving the names of those he desires to be recorded as voted for. Extreme caution should be taken not to vote for more persons than the district is entitled to. The number of persons that the voter is entitled to vote for is designated upon the official ballot. After having prepared the ballot the voter will approach the members of the election board and present his ticket to the Republican members of the said board, who will announce the name, the name of his party and have it thus recorded. Extreme care should be taken that the ballot is deposited by the election officer in the proper party box, as a Republican ballot cast in a Democratic box does not count.

#### Way of the World.

Most people would rather be miserably rich than happily poor.

#### JACKSON WAS NOT POOR.

The Great Statesman Had More Early Advantages Than Most.

Verily, we must abandon the belief that Andrew Jackson belongs to the class of American youths who rode to fame and fortune by their own efforts, unaided by the help of family and friends.

Never did he taste the bitter cup of physical want, of hunger and cold, of helpless, spirit-breaking poverty. Never was he without home and loyal friends and a sufficiency of the comforts of life. Never was it his lot to suffer that humiliation, that mortification, that inward-bleeding wound which the proud nature writhes under when there is no money in the pocket, no change of clothing for the body, no welcoming light in any window in all the world as the harassed day draws to its end and the wretched night comes on.

Poverty! Why, Andrew Jackson never in his whole life had a genuine taste of what the cruel word really means.

Few men have been more greatly indebted to the intelligent affection of a self-sacrificing mother. Few sons of poor parents have had such advantages as were his lot; and few sons of poor parents ever did such a scanty amount of manual labor. Compared to the rugged, self-taught youth of Benjamin Franklin, Roger Sherman, Abraham Lincoln, Andrew Jackson, Sam Houston, Francis Marion and Nathaniel Greene, the boyhood of Andrew Jackson almost assumes the appearance of having been cast upon "flowery beds of ease."—Tom Watson, in his Magazine for September.

#### Republican Campaign Text Book.

A departure has been made in the Republican Campaign Text-Book just issued, in that its contents are wholly devoted to live issues, and these are treated in the briefest possible way, yet comprehensively enough to include all necessary facts and figures.

First, there is a general statement of the issues of 1906, followed by a brief review of Republican legislation in general and the work of the Fifty-ninth Congress in particular. The Railroad Rate Law, Pure Food Law, Free Alcohol Law, Employers' Liability Law and the Meat Inspection portion of the Agricultural Appropriation Law are given in full, as is Chairman Tawney's clear explanation of the appropriations.

The Labor question is next fully presented, followed by Representative Watson's exposition of Anti-Trust proceedings. About one hundred pages are given to the Tariff, Agriculture and Manufactures, and the tables showing the various phases of industrial activity. Among other subjects treated under the tariff are:

- Protection and Free Trade;
- Customs Revenue;
- Foreign Commerce;
- Home Market and Internal Trade;
- Wages and Prices;
- Export Discounts;
- Reciprocity;
- Free Hides;
- Revision, etc., etc., etc.

Some half hundred tables give official and authoritative figures down to the latest possible date. The work of the President and administration is then briefly presented, the condition and status of the Philippines, the Panama Canal, the Navy, Postal Service, Irrigation, etc., etc.

The President's letter to Representative Watson concludes the work, which has a copious index of over a dozen pages. Scattered throughout the book are quotations from President Roosevelt and other Republican leaders. Among these is the extract from Senator Hannum's speech where he used the "stand put" expression, it being the only instance in the Text-Book where the words "stand put" are used. A page is given to Mr. Bryan and his views, with the comments of the New York World. A so-called "Prosperity Postscript" is added giving treasury conditions, trade reports, etc., down to August 1.

For the first time in a political campaign, the Text-Book will have a gener-

#### Republican Fifth Congressional District Convention.

The basis of the representation of each election district of each of the townships, wards or boroughs under this call is regulated by Chapter 237 of the laws of New Jersey, Session 1905, page 505, viz:—one delegate for every one hundred votes cast by the Republican party for its candidate for Governor at the last gubernatorial election, viz: Election 1904, and one delegate for each fraction thereof over forty but every election district in each of the townships, boroughs or wards which at the last gubernatorial election cast less than one hundred votes shall be entitled to cast one vote in this Convention.

#### SEARCHING FOR DIAMONDS.

Early Experiences of One Man in South Africa.

J. B. Robinson, the South African millionaire, told an interviewer his early experiences in searching for diamonds. "The news spread like wildfire through the countryside that a white man was giving away wagons and oxen for bits of stone. I set all the natives who came to work to seek diamonds on one side of the river," says Mr. Robinson, "and I fetched up my own 50 men to hunt for diamonds among the bushes and scrub on my side of the river. \* \* \* Next morning at sunrise I was startled by a loud hahn-bullooloo, and, looking out, I saw a whole gang of my men rushing toward me in a state of great excitement. One of them had found a diamond of good size; they all had come to see what I would do with it. 'What will you give me for it?' says he. 'I will give you ten cows,' I replied, and sent the man into the herd to take his pick, and he marked ten of the best cows as his own. They had never dreamed of making such a bargain. Ten cows for a bit of stone? Of they went again, and found diamonds every day; they all became rich, and I accumulated a good store of precious stones. We made a belt full of small pockets, in each of which we placed a diamond. When the belt was filled my partner girded it about his body and started for Cape Town. He never took off his belt until he reached London. And it was in this way that the first consignment of African diamonds reached London."

## Cost of Paint

The difference between the cost of good paint and inferior paint is very little in comparison with the total outlay for painting a house.

The time and labor is the big item. Seems very foolish to spend a great deal of time and money putting on paint which will not last. It is much wiser to use old-fashioned "white lead and linseed oil."

## Atlantic

is the standard white lead; is perfectly pure, and is made by the best method—the Old Dutch Process.

## AMUSEMENTS

PROCTOR'S THEATRE.

The vaudeville bill of Proctor's provided by F. E. Proctor for the delectation of the patrons of his Newark theatre during the week of September 17th is a sure success for the blues.

The principle "piece de resistance" being those infatigable comedians Al Shuman and Charley Warren, presenting their latest travesty "Kidding the Captain," a burlesque on the life of that famous buccaner, Capt. Kidd. These popular comedians are best remembered here as the producers of that side splitting farce "Quo Vadis Upside Down." Their present effort is said to be a greater laugh and is greatly enhanced by special scenery and lighting effects. The main entrees and redshirts are the "Eight English Princesses," a party of exceedingly pretty girls who can both sing and dance. Those clever delineators of Swedish character parts, Mr. and Mrs. Allison will appear in their successful comedy sketch "Mimic from Minnesota." The Rooney Sisters, daughters of the famous Pat in a slugging and dancing act; Zeon Kieff, one of the cleverest of child comedians; John and Mae Burke, singing and dancing par excellence, couples with trick piano playing, and Scotland Wilson, acrobatic comedians—Desert. The miniature pictures with all new views. Here is a bill that will tickle the palate of the most fastidious vaudeville epicureans.

State Fair at Trenton.

All of the civilized world has heard of Knabenshue and his wonderful performances in the most modern and successful of all air ships, but this really great man with his great invention has been seen by but few people. An excellent opportunity to see Knabenshue and to witness his aerial wonder will be afforded by the Inter-State Fair at Trenton, N. J., from Monday, September 24, until Friday, September 28.

The management of the Inter-State Fair negotiated with Knabenshue three weeks before a contract was finally closed for his appearance at this exhibition. This long-drawn-out negotiation was due to the demand for Knabenshue. The determination of the Inter-State Fair to bring him to Trenton for Fair week made it possible for Knabenshue to get his own price. His contract calls for ascensions and flights over the Fair grounds every day of Fair week, and performance is guaranteed by a forfeit of \$2,000, which is posted.

Knabenshue is a man of international fame, and he will go down in history as the first really successful aerial navigator. His successes have been without interruption, and he has gained victories where all others have failed.

Here is an attraction which called a halt to all business in New York City when Knabenshue sailed over and about the Flatiron building with the exactness and grace of a great bird. Bankers, brokers, great merchants, men of millions, workmen, and men, women and children stopped all work to witness Knabenshue in the greatest air-ship flight the world has ever known. He is the only single individual who has succeeded in stopping all business in the greatest city in the world.

Then, after Knabenshue had astonished New York City, he went to Washington, where he interrupted a session of Congress, that the Senators and Congressmen might witness a second great and successful flight by him in his air-ship.

The fact that Knabenshue is to be the star attraction this year at the Inter-State Fair attracts the attention of the entire country to the Fair, and his flights in Trenton the last week of this month will be newsworthy in all parts of the world.

The same man and the same air ship which started New York City and which interrupted Congress will be seen at the Inter-State Fair. Knabenshue has guaranteed that no weather conditions except a gale will prevent his flights every day of Fair week. If he fails, his forfeit of \$2,000 is lost.

The Great Allentown Fair.

Many years ago the Allentown Fair became a widely known annual institution. A great amount of money is spent each year in providing entertainment and attracting the best possible entries in the various departments. The Fair will from present indications, surpass all previous attempts, and likewise the patronage will be exceptionally large. The Central Railroad of New Jersey has arranged for special trains and special rates to Allentown on account of this event, and information can be obtained at the various stations regarding same.

Earth Growing Warmer.

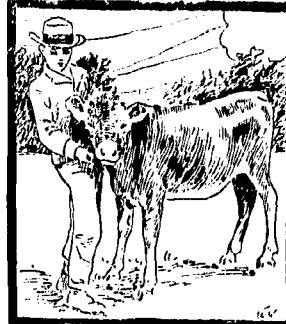

That the earth is growing temporarily warmer is shown by the mountain glaciers. These are made by varying temperature and moisture to increase and diminish in size during periods of years that may be found to be more or less regular cycles, and a period of quite general decrease began about 45 years ago.

THE BOYS AND THE ANIMALS.

One Way of Holding the Farmer Upon the Farm.

It is natural for some boys to make pets of animals on the farm. Calves, colts and lambs crowd around such boys, and it is generally noticed that such animals are thrifty. It also is noticeable that the boys having such influence over farm animals are the

The Boy and His Pet.

boys who make the best men. Almost any boy can be taught to make close acquaintances with young animals on the farm, and such instructions are very valuable to him.

A great deal depends on the parents, says the Farm, Field and Fireside. If the "old man" yells around the barnyard and keeps a club or two handy to which the animals with which they get in his way, the boy is very apt to imitate his father's example. Such men generally complain that farming doesn't pay. The result is that the boy goes off to town to hunt up something that will pay.

CROWS AND CATS.

What They Are Doing to Destroy Insect-Eating Birds.

The two minor problems of the farm to which we call attention are crows and cats, in their relation to bird life, and indirectly to the multiplication of injurious insects, says the Farm Journal. A friend up state sends us the following: "People who do not know that young crows are almost exclusively fed on the young of other birds, or on the farmers' chicks, don't know the crow's life history—that every grown crow costs from three to six dozen young birds to feed him while in the nest, for the old crow cannot catch insects, being too clumsy; nor has he the capacity of the hawk to catch mice.

The crow may be a benefit in the tropics, where birds multiply too fast, and is not restrained by serpents and crows, and in other ways, they would devour all crops. But in the temperate zone, if left free course, as seems to be the case lately, he will exterminate all other kinds of birds, even the hawks, for he attacks them in numbers and drives them from their hunting grounds.

And when the poor, persecuted birds come to nest near the dwellings in country or town, they are met and devoured by the modern cats; they have no place to rear their young, or even to stay in safety. We must have cats, perhaps, as a defense against rats; but there used to be cats that would catch rats and not birds. And there can be again, just as we have cats that will leave young chickens alone.

Those who really desire to prevent the destruction of all the small birds, except the sparrows, need to do more than scold at the women for wearing parts of birds on their hats; which make a big show, as is the purpose, but which amount to nothing compared to the destruction by the crows and cats. And are they not mostly tropical birds? Who ever recognized any of our birds on a woman's hat? They are not gay enough for the ladies.

Some Piggery Don'ts.

Don't forget to plant some pumpkin seed with your corn. Pigs like pumpkins, and fat pumpkins make fat pigs. Don't expect a pig to grow fat on grass alone. It requires the addition of slops and corn to make his sides puff out with fatness.

Don't deny your pigs salt and charcoal. Burn a pile of old coals and sprinkle them with salt if you can't do any better. —Farmers' Voice.

Don't set the dog on the pigs if they get into your garden. Pigs like vegetables as well as you, and if you want to keep them out, make the garden fence pig tight.

Don't kick the pigs out of your way if you are carrying around a leaky feed basket. They are simply gathering up what you waste, and they will turn it back to you at selling time.

The Wheel Hoe.

A wheel hoe will save a lot of time and labor in the garden. You can run very close to the rows of small plants and reduce hand weeding 50 per cent. or more, besides doing a better job easier and quicker than in any other way.

Pekin Ducks.

Well-bred and well-fed Pekin ducks should weigh five pounds each at ten weeks old. It is better to sell at four pounds at this age than to hold them longer in the hope of adding more weight.

## TRIUMPHED EVEN OVER DEATH.

Remarkable Deed Ascribed to Austrian Bandit of 1880.

Dr. Lope tells the following strange story, taken from the archives of an Austrian police officer, and relating to an execution said to have taken place in Vienna in 1880. A well-known bandit named Schavensberg was caught together with four of his associates and they were all condemned to death.

But She's Settled It.

Leenie—Where's that fine-looking young man I saw you with this morning?

Leenie—Don't be dead! That's the man I'm going to marry.

Leenie—Why, I didn't know you were engaged!

Leenie—Dear me—we're not. I only met him yesterday. —Cleveland Leader.

For Self-Protection.

"Nature gives up her secrets with great reluctance," observed the doctor.

"Well," commented the professor, "all the best and secret that reflect on the family should be kept in time in hiding off the whole human race, for were finding out any of them they would be lost."

## IN MEMORY OF PITT.

Blackburn Snaps Intended to Commemorate His Achievement.

## HIS DEBUT IN SOCIETY.

Important Announcement Put Forth by Editor.

An Arkansas City editor makes this announcement: In order to break into society without being compelled to lay my self out for a summer—I beg to announce that I have lately received permission from the College of Heraldry to use my ancestral coat of arms. The device is very beautiful, consisting of a jackrabbit rampant springing in the face of a balder, on a shield quartered green, yellow, red and pure white. The green is emblematical of the color of my forefathers, the yellow of that streak we all have in common at times and upon occasions; the red what I sometimes get in my eye and what I used to pay 15 cents a drink for, and the white is emblematic of my backbook at present and my intentions all the time, the whole surmounted by a crown of lambs-quarter greens and three green onions. The motto is, "In hoc fricasco!" meaning, "my great grandfather was one of the 2,000 or 4,000 ragged Continentals who crossed the Delaware in the same boat with Washington." I might also add that my wife is distantly related to Lord Nelson, whose father was one of the best section horses on the road from Cork to Dublin. Look out for me coming out in time! —New York Tribune.

## My Right.

The editor of the Gary, Ind. Tribune had just been elected to the office of mayor.

"The Tribune entitled to it," he said. "I've furnished my predecessor many a paper."

During his life in readiness for his death and his death in readiness for his life. He was down to wait for business in his life and his death in readiness for his life. —Chicago Tribune.

## To Oboe.

Mrs. Ingle—That chorus girl's costume is positively shocking.

Mr. Ingle—Oh, I don't know. It's merely a combination of the style of evening gown you wear in the winter with the style of bathing suit you wear in the summer. —Cleveland Leader.

## A Sad Story.

The prisoner was a sad case. At first he was a sad case. At first he was a sad case. At first he was a sad case.

## THE IDEAL GIRL.

Bob—There is that new boarder, is she one of those horrible girls who know enough to get men right?

Joe—No, she's one of those delightful girls who know enough not to. —Cincinnati Enquirer.

## Not Guilty.

The Beggar—Please, sir, will you kindly assist a poor old man who has three wives to support?

The Pedestrian—Why, do you mean to say you are a bigamist?

The Beggar—Oh, no, sir. Two of them are the wives of my sons-in-law. —Chicago Daily News.

## Not Particular.

"By the way, old man, could you let me have a five till tomorrow night?"

"Sorry, but I haven't a thing but the five I just borrowed from Blkins."

"Well, that will do. Source never cuts any figure with me." —Milwaukee Journal.

Mrs. B. Clark has been visiting her son, T. F. Clark.

"Dave" Curtis is a Wealthy Man.

David Curtis, formerly of this town, and a well-known chandler, has become a very wealthy man according to a New York paper, which published the following information about Curtis last night.

One of the most notable plunders that has been developed this season is D. L. Curtis, who until recently was not very well known about the race track. At present Mr. Curtis is betting as high as most of the biggest operators, and he had a remarkable amount of success for practically a newcomer.

A year or so ago Curtis was employed by George Whelock in the capacity of chauffeur, and his connection with the former chairman of the "races" gave him an insight to many of the "good things" that were handled by the employer, and he was not shy in taking advantage of them.

It is said that Curtis is over \$100,000 winner on the season, and as a witness of his prosperity now owns several automobiles and employs his own chauffeur.

Truly the race track is a great place to make and unmake a man with money.
