PUBLIC PARK SYSTEM.

Council Endorses the Recommendation of the Board of Park Commissioners.

COMMITTEE CHOSEN TO NEGOTIATE.

Properties to Be Bought and Used for Park Purposes by Town--New Fire House to be Built.

If the plans of the Westfield Council are carried out, this town will have a Park System second to none in the State. At the regular meeting of Council, Monday night, a resolution was adopted endorsing the recommendation of the Park Commission that many of the town's "beauty spots" be purchased and converted into Park property. This action means that in the near future the properties adjoining the Westfield Park Lake in the rear, the Triangle Lot at North Avenue, Broad and Clark streets; the Triangle at North, Central and Lenox Avenue, and the property between the railroad and Carleton Place will be purchased. Some of these properties have for a long time been "eyesores." As they are centrally located and adapted for Park purposes, their purchase by the town will be a step in the direction of civic improvement. In the course of time the old buildings on the two triangle properties will be torn down, and the land laid out into parks.

Councilmen James G. Casey and J. Winter Davis were appointed by Council to negotiate for the purchase of these properties.

In connection with these needed improvements the Council also took action in regard to the building of a new firehouse, the ordinance to bond the Town in the sum of \$30,000, for that purpose being passed on second reading. As stated previously in the STANDARD, the new fire headquarters will stand on the present site.

The ordinance to issue bonds for the purpose of paying off county road bonds was advanced to second reading. The ordinance raising the salaries of the Board of Tax Assessors from \$200 to \$400 per year, and the clerk from \$800 to \$900 per year was passed on final reading.

The tax budget ordinance was placed upon second reading and two amendments made. The appropriation for sinking fund was changed from \$3,500 to \$3,000, and the appropriation for incidental expenses of the town changed from \$18,000 to \$13,500. The ordinance was passed upon second reading and laid over for final passage at the next meeting.

An ordinance to construct an eight inch sewer in Washington and Westfield avenues was passed upon final reading. The various ordinances were introduced and passed upon second reading and public hearings upon the proposed improvements will be held on the evening of March 21. Building Inspector Cox reported permits issued during the last month for the construction of buildings aggregating \$14,500, for which Mr. Cox tendered \$17 in fees.

Bills amounting to \$1,536.18 were ordered paid. A back license was granted Roy Green. Permission was granted the telephone corporation to open North avenue to lay underground conduits in accordance with the terms of the franchise granted the corporation. The council postponed the public hearings upon the proposed improvements to be made to Quimby street, South avenue and Summit avenue. The hearings will take place at the next regular meeting of the council. Arthur N. Pierson urged the proposed improvement in Summit avenue.

Petitions for street improvements were received as follows: Broad street, between Central avenue and Chestnut street, curbing, gutters and macadam roadway; Lenox avenue, between Elmer street and Stanley road, curbing, gutters and macadam roadway; Woodlawn avenue, between Broad street and Mountside line, grading, macadamizing and construction of new culverts where necessary; for proper drainage of Embree Crescent section and replacing sidewalks damaged by public utility corporations; for eight-inch sewer in Dudley avenue, from Highland to Mountain avenue, and for the vacating of sections of Park avenue, Maple avenue, Lake avenue, Locust avenue, Coburn avenue and Grove avenue, upon map of Westfield Park. The petitioners for the vacating of the streets in Westfield Park set forth that although the streets had been accepted by the town in 1896, the streets had never been opened to the public. All of the petitions were referred to the street committee.

LAST MONTH OF SESSION.

Lawmakers Expect Adjournment Before First of April.

Every effort is being made to conclude the work of the New Jersey Legislature by the end of the month. The osteopaths and medical doctors had their final bout in the Assembly on Wednesday when the Medical bill was passed with numerous and substantial concessions to the Osteopaths, the result of the long contest of the latter for official recognition and fair regulation of their practice.

Assemblyman Thompson introduced an important measure this week in the shape of a bill requiring the assessing authorities to give notice to taxpayers of the proposed assessments to be made on their property and to afford an opportunity to be heard locally on the matter before the assessment is made final. This is destined to be a popular measure, and will result, if passed, in materially reducing the number of appeals to the county board. It is in line with a suggestion recently made to the Council by former town attorney, Frederick S. Tuggart. Mr. Thompson also introduced a bill giving Council power to vacate streets, a bill to consolidate the Park Commission and Shade Tree Commission, and a bill to remedy a defect in the language of the town act relative to notice in improvement proceedings, the latter intended to cure what many lawyers believe now renders unconstitutional the whole section of the act. The Governor has signed the Thompson Police Bill and the bill appropriating money for a state campaign of education on the subject of tuberculosis, also a Thompson measure.

AS TO HEN COOPS.

The Health Board Orders One Removed From under a Window.

John J. Daly, of Lenox avenue, was a complainant before the local Board of Health at the regular meeting in the Town Rooms, last Friday night. Mr. Daly has his own ideas about hen-coops, and he stoutly maintains that they should be built at a respectable distance from a man's window.

Mr. Daly is in a predicament, and he wants the Board of Health to get him out of it. The owner of the hen-coop is neighbor VanNess, who promised to have it removed some time ago—but it still there, and the inmates continually tackle, for they are good layers.

The Health Board sympathized with Mr. Daly, and on motion of Mr. Delatour, Neighbor VanNess was given just ten days to remove his hen-coop to the far corner of the lot.

Joel Moffett doesn't like hen-coops either. He was another complainant. He asked the Board to order a hen-coop, now in the rear of a house he is building on Lenox avenue, removed away back—to the extreme end of the lot. The sub-inspector will investigate—and this hen coop may also be relegated to the rear.

A straight line is the shortest distance between two points, and the three thousand drug stores which comprise the National Cigar Stands Company are the straight line between the cigar manufacturer and the smoker. That is why the druggists who own National Cigar Stands can get better cigar values at lower prices than ever offered before. There is a National Cigar Stand in Fratchey's drug store, and if you ask him what is the best seller in his case he will unhesitatingly tell you the Black and White at 5c.

Former Councilman Receives Badge.

At a regular meeting of the Exempt Firemen Tuesday evening Former Councilman Alfred Berner received from State headquarters his life membership badge, which entitles him to the privileges of the floor and a vote in the State conventions of the exempt firemen. Mr. Berner is custodian of the old hand engine with which he and some other worthy citizens of the town ran twenty years ago.

Buster and Tige Make Fun.

Philip Dwyer, who is recognized as a leading animal impersonator, and Samuel Goldstein gave an exhibition of Tige and Buster Brown in the show window of the Schaefer dry goods store yesterday afternoon, which attracted a large crowd. It was almost the real thing to see Tige pulling at Buster's stocking. Mr. Dwyer has been impersonating animals for five years. He has been with the Hippodrome and other leading show houses and his artistic performances have been the hit of the show.

BAPTISTS MAY BUILD.

Serious Consideration Being Given to New Church Project.

It is reported that the Baptists may soon build a new edifice. Serious consideration is being given to the question. The present church is very small, and not well fitted to the needs of the congregation. Rev. C. J. Greenwood, the pastor, has taken up the question of a new building to cost about \$25,000. A special committee has been appointed to consider the question. The funds will be raised by subscription. Definite action will soon be taken.

TRADE BOARDS DISCUSS COUNTY HOSPITALS FOR TUBERCULOSIS.

If plans formulated Wednesday night by representatives of the municipalities of the county, at a meeting called by the Elizabeth Board of Trade in order to advance the project of erecting a tuberculosis hospital in Union county, are carried out, the hearing to be given by the Board of Freeholders to be held on the afternoon of March 18, in the Court House, will be attended by committees from every town in the county. These committees will represent the sentiment of their respective towns, which from the tone of the meeting Wednesday night, seems unanimously to favor the erection of such a pavilion.

At the meeting in the Board of Trade rooms there were representatives present from Westfield, Rahway and Summit. W. E. Reeve represented the local Board and will make his report at the meeting to be held in the Town rooms next Thursday night. Plainfield was not represented but word was sent that Mayor Fisk, of that city, would attend the hearing to be given the project by the Board of Freeholders, on March 18.

Concert at Congregational Church.

The concert at the Congregational Church last night under the auspices of the Men's Club, introduced a quartette of singers that have never been heard here before, but who would doubtless be welcomed at a second entertainment quite as enthusiastically as they were on their first appearance.

The singing of the quartette was good, but it was not as enjoyable as that of the individual artists. Mr. Ward sang splendidly. He is an artist. The singing of Mrs. Chandler, soprano, disclosed a voice of beauty and sweetness. Her intelligent use of it is to be specially commended. Miss Dunlap and Mr. Weisman sang acceptably. The quartette was assisted by Mr. Robert C. King, cellist, and Mr. Herbert S. Sammond at the piano.

The proceeds of the concert, about \$100 will go into the church building fund.

Tickets for the Kirmess on Sale.

Tickets are now on sale for the Kirmess at Mr. Lee's office, Elm street. There will be dancing after each performance and souvenirs will be on sale. Mr. Rosenberg's orchestra of New York will furnish the music. Programs for each performance will be on inspection when purchasing your tickets at Mr. Lee's office. The cards of invitation to the Kirmess, which have been mailed in Westfield and neighboring towns, are merely sent as a "drawing card," so to speak. They are not tickets of admission nor does it mean that the sale of tickets is limited to those who have received "vouchers," as these cards are called. One and all are welcome to purchased tickets. Reserved seats \$1. for each performance.

Easter Vacation Date Changed.

The announcement in last week's issue of The Standard that the Easter vacation of the Westfield Public Schools would be from April 1 to 11 was incorrect. The Board of Education has changed the rule, which has been followed in the past year on account of the night school.

The day students will have Good Friday as a holiday. Then they will attend school the week following Easter Sunday and will enjoy a week's vacation from April 4 to 11. The night school will close for the season on March 31.

Library Addition Completed.

The work on the \$5,000 addition to the Westfield Free Public Library is completed and the new wing will be next week.

See E. S. F. Randolph about The Elmwood Apartments.

READY FOR KIRMESS.

Local Society Folk Will Take Part in Affair for Benefit of Children's Country Home.

A VARIETY OF ENTERTAINMENT.

Caste of Characters Selected--Some Professional Talent Will Add to Interest--Chaperones and Performers.

Arrangements are about completed for the Kirmess to be held at the Westfield Casino on the evenings of March 17, 18 and 19 and the afternoon of March 19th, the proceeds of which will be for the benefit of Westfield's leading charitable institution, the Children's Country Home. The people of Westfield are always quick to respond to any enterprise which furthers this worthy charity, not only because of the object but because entertainments given for the Home have always proved, in times past, to be thoroughly artistic.

Plans for making the Kirmess an artistic success have been made with great care by Miss Florence, under whose direction it is being given, and by the members of the various committees and sub-committees who are in charge of the business details of the work.

The caste of characters for the different parts has been selected with care and some outside talent has been engaged as a special attraction.

The program for each night will be varied as will also the program for the matinee on Saturday afternoon, March 19th.

The announcement of the Kirmess has attracted interest in other parts of the county and in appreciation of the support given by Westfield people to charitable enterprises in Plainfield and Elizabeth, the people of those cities have loosened their purse strings to help along the good cause. It is expected that people from all over this and other counties will be present.

The complete caste is as follows:

TOY SHOP--PANTOMINE.
Chaperones--Mrs. John A. Dohrman, Mrs. Charles Hinchman, Miss Ada Chapman.

CASTE.
Mr. Schwartz--Mr. John A. Dohrman.
Mr. Buy It--Mr. D. B. Collins.

"ADVERTISE IN THE STANDARD"

THE SESSION BOOK AGAIN.

To the Rev. William Irwin Stearns, D. D., The Members of The Session; The Trustees; and All Members, of the Presbyterian Church in Westfield, New Jersey.

Hon. Francis E. Woodruff, Morris-town, New Jersey.

September 9th, 1909.

Gentlemen:—On September 23, 1899, The Rev. Newton W. Cadwell, D. D., then being the incumbent, your Session Book No. 2, 1759-1803, was in your archives, and was accessible to the public. It was consulted by the writer that day in connection with his study of the history of his family. On May 12, 1903, Dr. Cadwell having meanwhile departed from Westfield, it had disappeared. (See advertisement in The Union County Standard of July 24, 1908).

Because the writer, Francis E. Woodruff, is a descendant of Joseph Woodruff one of the founders of your church; because he is a kinsman of the Rev. Benjamin Woodruff who entered the records in that book; and because—besides a past and present officer of your church who had indicated unwillingness to aid in the recovery of the missing volume—he was, so far as he knew, the only man who was aware of the disappearance; he felt and feels it his duty to do all in his power to bring about its full restoration to your archives. To keep the selfishness of his motives above suspicion he has passed a self-denying ordinance never to consult the book. While believing that punishment is deserved by those responsible for its disappearance, and for unwillingness to make effort for its restoration, he declines to have anything to do with it; his sole object being restoration of the *status quo ante*.

Holding these views he did his best to effect this result through a private correspondence continued to 1905; but while Dr. Cadwell would not deny that sometime during his stay in Atlantic City he had the book in his possession, he kept on writing "I do not have the book," "nor can I tell you where it is," etc., etc., etc., all of which however true was irrelevant so long as he did not deny having had it.

Failing with him—in 1907, the writer brought the matter to the attention of your Clerk of the Session, but without result. In 1908, after warning your Session that lacking restoration by a date named, publicity would be unavoidable, he posted and advertised a reward for the recovery of the book. This not bringing it, after a similar warning to your Session, he advertised (U. C. S., July 24, 1908,) extracts from the correspondence, but told only the minimum he thought might (with private explanations) effect restoration. In consequence (letters in his possession prove) of this, the Session Book was restored to your archives, as announced by The Westfield Leader (Oct. 14, 1908).

In 1909 the New Jersey Historical Society having asked access to the restored book your Session replied, "the records of this church are not open for public inspection," that is, not even for a Historical Society. A letter published March 26, (U. C. S.,) stated, "As it is safe to say that outside of Westfield the records of every

church in the world are so open, and as prior to Dr. Cadwell's departure this was true also of Westfield, some special reason for this refusal must be sought." In an advertisement of April 30, (U. C. S.,) the Editor of The Westfield Leader (one of your Trustees) was cited as "explaining, in effect, that because old church records may contain much that should never see the light, and because if done for one it must be done for all, public access should not be given to Session Book No. 2." In reply the writer suggested that *conditional* access can be safely granted under rules on the lines of the following:—

First, for strangers, that they must be introduced by some one known to, and approved by the Session:—

Second, for all, that anything other than baptismal, marriage and funeral items cannot be copied or divulged until after the Session's formal written consent has been obtained.

Such rules would suffice for future users of the book, but the unsubstantiality of this "old time scandal" excuse for refusing access becomes manifest when we remember that Dr. Cadwell has authorized (see letter in U. C. S., of May 14, 1909, original authority in writer's possession) the statement that he "has an exact verbatim copy of all the records of the Westfield organization since 1759 that is, including Session Book No. 2," which he expects to publish in full, when convenient, in a history of the Presbyterian church of Westfield. The "in full" taken literally, means "scandals and all"; but even if that could possibly be his meaning, and even if two or three members of your Session could, understandingly, possibly approve, would not the enforcing such rules as above suggested save him the scandals for his promised history, while no longer depriving the New Jersey Historical Society, and the public generally, of the sought for marriage and similar items?

May 3rd to 5th four writers of standing, two of them officers of the New Jersey Historical Society, applied for such limited and conditional access; and were told that their requests had been referred to your Session for consideration; but to time of writing this, no further word has reached them. On June 12th your Clerk of the Session received a letter, "the delay in replying is of course explainable. I write only to say that it would cause me great regret if an unexplained delay continued so long as to compel the next public step." On July 19, one of those whose May request had been referred to your Session asked when a reply might be expected; but so far unavailingly. The continuance of your Session's unmannerly silence these months, sufficiently indicates its unwillingness to reply, but before taking the next public step the writer makes still another appeal this time to your whole church; and a copy will be sent to Dr. Cadwell.

In large organizations it is usual to leave the guiding to a few, until, exceptionally, some matter arises so important it needs to be decided by a more general voice. Something of the kind may have occurred when after the offers of rewards, and the advertisements, pressure was apparently brought to bear that helped restore

the book. It will not, however, be a restoration to its condition before it was unlawfully removed from your archives so long as your Session, in effect, reserves its information for Dr. Cadwell's benefit; his "verbatim copy" being thus given a monopoly. The writer therefore hopes that the general voice will insist on a practical restoration of the *status quo ante* by the issuing of rules for conditional access; and end the matter.

If though, unhappily there should be further unexplained delay in the issuing of such rules the writer will feel it his duty to publish this as an open letter.

January 7th, 1910.

Gentlemen:—In a letter to you of Sept. 9, 1909, a choice was given between further publicity and "conditional access" to the restored but suppressed Session Book No. 2 that some time between Sept. 23d, 1899 and May 12, 1903, had been surreptitiously removed from the church archives. On Sept. 21, you sent to the New Jersey Historical Society a copy of the book's vital records; but that left out valuable information in ordinary minutes that could with entire propriety be given to the public, so on October 2nd the request for "conditional access" was repeated.

In October, at Atlantic City, the Rev. Dr. Stearns said to the Rev. Joseph P. Folsom, Recording Secretary of the New Jersey Historical Society, that your Session is "willing to grant any reasonable request to examine the records of the church." As requirement of rules for such access of course rests entirely with yourselves, in the interest of the public it only remains to remember that we are mortal, so put this statement on record for the benefit of those who come after us. As to the writer, for more than six years now he has felt it his duty, for reasons given, to strive for the restoration, with reasonable access, of the session book; and he cannot feel that his long task will have been ended until the result of his work has been made lasting by such record.

He would greatly like to stop here and leave the rest to you; but his experience forbids. His courteous appeals to you to do your duty voluntarily have hitherto steadily been ignored. As he has already explained, he believes that this failure to do your duty—by making effort to get back the session book for the safe custody of which you were responsible—has consciously been only on the part of one or more members of the Session. It was they who compelled the writer to bring the force of public opinion to bear; and this opening the eyes of you others to full realization of the false position in which they had placed you they were made by you to consent to the getting back of the session book and the sending of the vital records.

The writer will be very glad if you others will complete your good work by having Dr. Stearns' statement put on record; either by a favorable reply to the courteous request for information from the Corresponding Secretary of the New Jersey Historical Society, the Hon. William Nelson, or in any other satisfactory way you may prefer; but unless this is done, and known to the writer, by February 1st, 1910, he must however reluctantly do what he believes it his duty to do, so will

publish his letter of Sept. 9th (and whatever else of the correspondence may seem required) until the statement has been satisfactorily put on record.

February 3, 1910.

Gentlemen:—In a letter of January 7, 1910, it was stated that "The writer will be very glad if you others will complete your good work by having Dr. Stearns' statement put on record, either by a favorable reply to the courteous request for information from the Corresponding Secretary of the New Jersey Historical Society, the Hon. William Nelson, or in any other satisfactory way you may prefer; but unless this is done, and known to the writer, by February 1st, 1910, he must however reluctantly do what he believes it his duty to do, so will publish his letter of Sept. 9th (and whatever else of the correspondence may seem required) until the statement has been satisfactorily put on record."

This request, so to put on record, plainly seems his duty to make, and only reasonable for you to grant. Yet there has been no reply to Corresponding Secretary Nelson and, so far as the writer knows, no other way has been taken. Copies of his letters of Sept. 9, 1909, Jan. 7, 1910 and Feb. 5, 1910—all of which please re-read—will be in readiness for the printer within a week or so and as soon as possible thereafter will be published. If you will look back throughout the long-drawn proceedings you will find that the writer has invariably kept his word.

FRANCIS E. WOODRUFF.

Picture of Olden Times.

A most unique sight of old Boston must have been the celebration of the fourth anniversary of a society for "Promoting Industry and Frugality," when 300 young female splinters decently dressed brought their spinning wheels to the common one afternoon and piled their homely craft, a female at each wheel, to the accompaniment of music and the delight of many spectators.

Purely Social.

Embarrassed preacher (reading the first chapter of Jonah, and making the best of the seventeenth verse)—And the Lord prepared a great fish to swallow up Jonah; and Jonah was in the—or—*a*—and Jonah was in the—or—And the Lord prepared a great fish to swallow up Jonah; and Jonah was in the society of the fish three days and three nights.—Life.

Wedding Anniversaries.

The different wedding anniversaries are as follows: First, paper; fifth, wooden; tenth, tin; fifteenth, crystal; twentieth, china; twenty-fifth, silver; fiftieth, gold; seventy-fifth, diamond. The sixtieth is usually celebrated as the diamond wedding, as it falls to the lot of very few to live together for three-quarters of a century.

To Clarify Rainwater.

To clarify the cloudy rainwater and render it fit for washing and household purposes, measure two ounces of powdered alum and two ounces of borax, for each barrel, and add it to the water. In a few hours the sediment will settle, and the water will be clarified and fit for use.

Inconsistency.

A lazy man will go up to the lakes for the summer and claim that he has not had time to send even a picture postcard to dear friends at home, and yet he will go out, day after day, and drop a line to fishes who love him not.

Discretion in Speech Needed.

"There's one thing we will have to change if these ladies who wish to vote have their way," said Senator Sorghum. "What is that?" "We'll have to quit talking about 'the wisdom of the plain people.'"

Banking Nations.

France, like England, is a great lending country. It has an enormous accumulation of wealth, and uses it to finance less affluent foreigners, who return annually a large income to French bankers and investors.

Women to Blame.

Women are blamed by a Brooklyn preacher for the high divorce rate. We understand that they also are to be blamed for most of the marriages.—St. Paul Dispatch.

Diplomacy.

The wife of a man who came home late insisted upon a reason. "When I go out without you," he said, "I do not enjoy myself half as much and it takes me twice as long."—Success Magazine.

The Philosopher of Folly.

"We waste lots of time," says the Philosopher of Folly, "doing things before they are started, and then doing doing them again after they are done."

Lazy Man's Tribulations.

"De lazy man," said Uncle Eben, "tries to save trouble an' merely succeeds in savin' it up so's to git it in a bunch."

Pretty Painful.

"What selection is that the orchestra just finished?" "I don't know. Sounded to me like neuralgia expressed in music."

Proposed new Congregational Church, Westfield, New Jersey, to cost \$50,000.

**CONGREGATIONALISTS PLEDGE
\$20,000 FOR NEW CHURCH
In Three Days and the Work Has But
Begun--To Cost \$50,000.**

In keeping with the spirit of the times, the members of the First Congregational Church of Westfield, are entering with enthusiasm upon the work of raising funds for the building of a \$50,000 edifice. During the past week nearly \$20,000 has been pledged and, if reports are true, there is enough yet coming to insure the success of the undertaking. It is not improbable that the work of building will be begun in the near future, but the actual time of starting cannot be determined until the

committee has made its final report. The First Congregational Church has long been in need of a modern place of worship. The present building is hardly adapted to the needs of a growing congregation in a community such as Westfield. Shortly after his ordination as pastor, the Rev. Dr. Loomis emphasized the need of a new church and under his inspiring leadership the congregation took up the work. Plans were prepared and a committee appointed to collect funds. The membership is not large, but each one is earnest and desirous that an edifice shall be built second to none in the community. The new church will stand farther down Elmer street and adjoin the present edifice. When it is built it will be used for public worship only, the present

church being used for Sunday school purposes. When conditions warrant, it is planned to tear down or remove the old church and to erect a Sunday school building and parsonage. At the concert, under the auspices of the Men's Club last night it is estimated that \$100 was received. This sum will go into the building fund. A joint meeting of the Church and Society will be held on Wednesday evening next to listen to a partial report of the committee appointed to raise funds for a new church edifice and to take formal action on the question whether such a building shall be erected. The committee in charge is Joseph E. Gallagher, William J. Alpers and James O. Clark.

Proposed new Methodist Church, Westfield, New Jersey, to cost \$60,000.

**METHODISTS RAISE \$26,000 FOR
BUILDING OF NEW EDIFICE.
Subscriptions Received at Sunday's
Service--More Coming.**

The members of the First Methodist Episcopal Church of Westfield contributed nearly \$26,000 to the church building fund, last Sunday morning, and evening. Of this amount over \$23,000 was pledged at the morning service in a canvass which took less than one hour. The fund was further augmented at the Sunday school meeting in the afternoon, when Mr. M. T. Townley spoke of the question of the new church and made a plea for contributions. Again at the evening services contributions were received. Some of the money collected came from the church societies; The Ladies' Aid Society pledged \$2,000; The Men's

League, \$1,000; The Literary and Social Circle, \$600; The Men's Bible Class \$200; and the Brotherhood, \$200. The work of soliciting contributions will be continued by the committee in charge, consisting of Leigh M. Pearsall, Herbert L. Abrams, E. S. Malmur, T. T. Harkrader, Fred Wright, John Burhans, Dr. A. W. Hayes, William S. Welch, James Moffett, Herbert Pearsall. The new edifice is to be on the site of the present building, which will be moved to the southwest corner of the lot, to be used until the completion of the new building, probably two years hence, when it will be besold and removed. The new church is to stand seventy feet from the curb so as to anticipate the proposed depression of Broad street to run under the railroad track. The walls will be of brick, with stone trimmings, with the roof of bottle green slate. There will be a central tower,

22 feet square and 80 feet high, to contain the present bell and clock. The auditorium will be 62x70 feet and will seat 600. The seats, besides the gallery will be semi-circular and bowled. The Sunday-school will hold 600 and the two rooms may be thrown together. The ceiling will show the open trusses. The Sunday-school will consist of many rooms--the main room 50-52 feet, with alcove rooms on three sides and movable doors. The primary room will be separated by a solid wall from the main room and will be divided into rooms by movable partitions. There will be parlors, a pastor's study and all the features necessary to carry on the work of the church. The First Methodist church was founded in 1849. A church building 36x50 was constructed in 1861. In 1877 the present edifice was completed. The bell was contributed by Mrs. Mary Ann Burhans and the clock by the Mapes family.

The Policy of Push

**Push! Push! Push!
Push Today,
Push Tomorrow.
Push Every Day in the Year.**

That is what we do in this establishment. We are pushing things forward, and right and left--pushing to please you, pushing to provide for you the things you most want, pushing to have things here and ready when you expect them--pushing for business.

Experience has taught us that not only is the policy of push necessary to the health of a modern store, but it is best for both the public and ourselves.

Without push goods come and go slowly. Without it the management grows indifferent and the helpers sluggish, resulting in inefficiency, arrested development, carelessness and generally poor service.

That it pays to push is evident from the steady and extraordinary growth of

this business and the splendid class of patronage it has attracted. The year just past has been the best and biggest in our history. The year ahead looks most promising, and we anticipate reaping a big harvest from the good work of the past and the seed planted for this year's growth.

Our plans are pretentious and most ambitious. We expect to do great things in a merchandise way. We have bought heavily of both staple and extraordinary goods--anticipating your needs and providing some temptations. These new goods are coming in thick and fast--you might think the show complete already, but it's not--and in a little while the store will be in fullest spring bloom.

Every day you come now you will see something new and beautiful, something you will wish for, something you can buy at the lowest possible price.

Come in as often as you like. We won't press you to stay.

Just come in and look around.

People Are Profiting by Buying on Our Club Plan

If it is a rational and wise plan to buy a house thru a building association, it is equally wise to buy the equipment for it on our **Club Plan**, which is even a better system than the B. & L., for you make practically your own terms. Whether you buy \$50 or \$5,000 worth of **Furniture, Floor Coverings or Upholsteries** you can make it easy to pay for them by buying on the

PEARY'S CONQUEST OF NORTH POLE ILLUSTRATED BY H. L. BRIDGMAN

Cook's Name Not Mentioned, but the Inferences Were Disparaging.

Herbert A. Bridgman, the secretary of the Peary Arctic Club, and the man who is supposed to stand closest to the great Arctic explorer, delivered an illustrated lecture in the Congregational Church, Monday night, under the auspices of the local W. C. T. U. The edifice was well filled, and the audience was appreciative of everything that the lecturer had to say about the conquest of the North Pole.

During his address of nearly two hours Mr. Bridgman did not mention the name of Dr. Frederick A. Cook except by way of inference. He showed a map of the route taken by Peary in his journey to the Pole, running parallel with which was the route alleged to have been taken by Cook. The latter he said was "merely an imaginary line of no consequence." Also, in contrasting the different sledges used by Peary with the one used by Cook in arctic exploration he said of the latter: "It would hardly do for sledging more than two days from land."

The slides used were interesting and instructive. They showed Peary's progress from the time he left New York in the "Roosevelt" until he reached the Pole. There were pictures illustrating hunting expeditions, life among the Esquimaux, which the lecturer regarded as the most interesting people on the face of the earth; pictures of Matt Hansen, the negro who accompanied Peary, to the pole, of Walrus hunting, sledging through the ice floes, and maps of Greenland. The latter were interesting as indicative of the great work which Peary had done in Arctic exploration. It was due to Peary's pluck and genius, the speaker said, that the geography of the Arctic region had been accurately defined. Captain Peary, he said, had made himself famous by defining the boundaries of Greenland. Maps of this country were shown illustrating the work which Peary had done during his several expeditions into the Arctic regions. When the picture of the pole with the Stars and Stripes flying from a staff stuck into the snow was thrown upon the canvas there was a salvo of applause from the audience. The picture of Peary, the last to be shown, was also roundly applauded. The proceeds will go into the building fund of the W. C. T. U.

Will Have to be More Careful.
There is an Artemus Ward Jr., a New York assemblyman, who is said to be a wit like his famous namesake. On a recent occasion he nominated Ward F. Clute of New York city for head doorkeeper, but forgot the office, and had to rise again to rectify his mistake. It is to be hoped his reputation for wit does not rest solely on this occurrence.

Morbid Thoughts Foes.
Morbid thoughts are indefinitely greater hindrances to success than opposition from outside. No health, no beauty, no harmony, no real success can exist in the atmosphere of abnormal melancholy. Overcome the enemies of success within yourself and you will have done much toward reaching the goal.

Stilted Journalism.
Journalists on the island of St. Helena throw much literary style into their work. A weather report in the Guardian reads: "The weather during the past week has been rather warm, King Sol shining in all his glory, while fair Luna beamed so brilliantly that it was quite possible to read small print."

Iron.
Pure iron is only a laboratory preparation. Cast iron, the most generally useful variety, contains about five per cent. of impurities, and the curious thing is that it owes its special value to the presence of these. Pure iron can be shaved with a pocket knife; impure iron can be made almost as hard as steel.

Think It Over.

COTILLION AT CASINO.

Young Folks Enjoy "Good Time at Casino Friday Night"

A number of young folks enjoyed a "Cotillion" given at the Westfield Golf Club last Friday night. The merry crowd danced all evening with Mr. Harry Wetton, of Roselle, at the piano. Everybody exchanged favors and had a "jolly good time." Miss Ruth Alpers lead the first half and Miss Violet Miller the second. Of course refreshments were served and they were good, too.

The patronesses were: Mrs. William Miller, Mrs. Paul Q. Oliver, Mrs. Charles Weimer, and Mrs. H. Bardwell.

The dancers were Misses Ruth Alpers, Violet Miller, Jeannette Perkins, Grace Philip, Edith Cowperthwaite, Marion Keeler, Ethel Irving, Grace Oswald, Emily Cornell, Ivy Sinclair, Elizabeth Ames, Marguerite Campbell, of Plainfield and Helen Sharp, of Cranford; Mr. and Mrs. Wallace Doying and Mr. and Mrs. Arthur Curtis. Messrs. Harry Bardwell, William Clark, Ernest Alpers, Harry Zinsmaster, Charles Springstead, Hunter Delatour, Raymond Jackson, Josh Weimer, Charles Voorhees, of Cranford; Harold and Victor Camp, of Brooklyn, and Robert Beach, of New York City.

Ladies Aid Holds Afternoon Tea.

The Ladies Aid Society of the First M. E. Church held an "Afternoon Tea" in the church parlors last Tuesday afternoon, which was attended by one hundred ladies. The parlor was prettily decorated with palms, and the affair was voted a great success by all present. The committee is to be complimented on the splendid success of the occasion.

To Celebrate Anniversary.

The Woman's Club celebrates the fifteenth anniversary of its organization next Monday afternoon. There will be a program followed by a reception and tea. All the former presidents and many of the old members will be present. It is hoped that every member of the club will attend. All the members of the Club that have not presented a cup and saucer to the Club are requested to do so next Monday afternoon.

Medical and Dental Inspection.

The reports of the Medical and Dental Inspectors of the Westfield public schools for the past year goes to prove that the system is essential. Dr. Wright, the medical inspector, reports that he has examined 1038 pupils, 125 of which number were in need of attention; fifty suffered from defective eyesight. The immediate care of those needing attention has resulted, so the report declares, in a marked improvement along scholastic lines, the capabilities of the students cared for having increased twenty-five per cent.

The Dental Inspector, Dr. Egel, also submits an encouraging report. In the Sixth Grammar Grade alone, forty-two scholars had poor teeth. The same beneficial results were obtained by having the teeth repaired.

It is to be noted that the results of Medical and Dental Inspection in the Public School are both helpful to students and to the State. The former are improved mentally, the latter is benefited financially. In many instances a physical defect is the sole cause of backwardness in students. With this corrected the student advances normally and the state is spared the expense of maintenance for a longer period than would otherwise be required.

Medical and Dental Inspection are an imperative need in every public school in the land.

The Contagion of Human Effort.

There seems to be something contagious about human endeavor in a given direction. It is as if the psychological moment came at the same time for everybody, or by a peculiar token (mental telepathy, if you please) the desires of one or more individuals were communicated to others who feel compelled to act likewise.

Note the efforts of local church and municipal organizations at this time. The building fever is here certainly. The addition to the Public Library was the initial action of this kind within the past year; but how quickly follows the action looking to the building of three new churches and a fire house.

In another quarter, too, the lines are out. The Common Council has endorsed the program of the Park Commissioners, and shortly four properties will be bought for park purposes.

Truly this is an era of building additions locally. It is progress—the contagion of human effort has us in its grip. And it is well if we build for all time!

We Stand Corrected.

Councilman Schmitt: Mr. Mayor, is THE STANDARD the official newspaper?

The Mayor: It is.

Councilman Schmitt: Well, this here copy that I've got 'aint accurate.

(He reads paragraph from the report of the last meeting, and makes the necessary corrections.)

Councilman Schmitt: Now, I think, Mr. Mayor, that the Official Newspaper ought to get the news right. What's the use of having an Official Newspaper if it 'aint accurate?

A Term Defined.

Twenty minutes are twelve hundred seconds by the clock over the Mayor's rostrum. A "twenty minute recess" is one million, seven hundred and sixty thousand, one hundred and twenty-three beats by the heart in the Mayor's bosom—not to mention the more rapid pulsations in the vicinity of the reportorial table.

HAROLD FRANCIS MARRIED.

Local Printer Leads Mrs. Mary Allan to Altar.

The marriage of Harold Francis, proprietor of the Francis Electric Press, printing establishment on Elm street, to Mrs. Mary Lawton Allan, also of this place, took place at St. Paul's Episcopal Church, Wednesday afternoon at 2:30. The Rev. Sydney Cross, rector, performed the ceremony. Only the relatives of the bride and bridegroom were present.

The wedding music was delightfully played by Mrs. Horace Kent, organist of Trinity Church, Bayonne. Mr. and Mrs. Francis will reside at 135 Park street.

Standard to Move in New Building.

The Standard Publishing Concern will move into its new building on Elm street, adjoining the present Town Rooms next week. The new presses are being installed in the building now. On Saturday afternoon, March 26th the new building will be open for the public's inspection of the plant.

The Standard's telephone number is 271. The work of removal will not interfere with work of the concern. The Standard will be published as usual next Friday, and the job department will be in full swing all of the time.

—The Council will hold an adjourned meeting, tomorrow night.

—Messrs. Reger and Burdette, of Whitehouse, were Sunday guests of Edward S. Welch.

—The Board of Trade will hold an important meeting next Thursday evening in the Town Rooms. Important matters will be discussed, including plans for the second annual banquet and the proposed county hospital for consumptives.

—The Ladies' Aid Society of the M. E. Church met at the home of Mrs. T. T. Harberader on Wednesday afternoon, with twenty-eight members present. The business meeting was especially interesting, after which the social hour was enjoyed.

—The closing Entertainment of the Methodist Brotherhood will be Thursday March 17th. They have arranged a combination of two Companies which bid fair to make this one of the best ever given by the Methodist Club. The College girls Quartet have been giving entertainments in New York, Brooklyn, and near by towns with wonderful success the past four years. The American Concert Company have with them Miss Edna White a Trumpeter who has roused the immense audience of 12,000 people to enthusiasm at Ocean Grove, Miss Josephine Hills, Violinist, Miss Justine Roberts, reader, one of the best on the list.

An Architect's Patrons.

John Mervyn Carrere, at a meeting of architects in New York, said: "Amazing, the age of an architect's patrons! The Smart Boy's Opportunity.

In these days farming is becoming more and more a science. It is the smart boy who stays on the farm instead of going to the city. And it is well known that when proper methods are employed the present yield will be doubled. There is not much prospect that in the next century the doctrine of Malthus will be exemplified by seeing this nation lacking for food.

"Be Good."

Beware of making your moral steps consist of the negative virtues. It is good to abstain from all that is hurtful and sinful. But to make a business of it leads to emaciation of character, unless one feeds largely also of the more nutritious diet of active sympathetic benevolence.—Oliver Wendell Holmes.

The Thistle in Australia.
The thistle was introduced into Australia by a Scotsman, who was sent out to Botany Bay as a convict, and took with him a number of seeds of his national plant, and sowed them round his dwelling. The plant soon made itself so much at home that it spread over thousands of square miles of territory, and the important folks of the various provinces have expended many hundreds of pounds in the effort to repress its growth.

Charm of the Atomizer.
"My aunt has the prettiest cat," said the girl who had just come in, "but it was delicate. She used my cousin Phillip's atomizer on its throat. The cat had asthma. Finally she gave it away. The grocer took it milk in the country, but it came back in a week and sat on the windowsill, waiting to be let in. Phillip said it came back because it missed his atomizer."

Have Use for Old Piling.
There has been secured by a New York state pulp company an option on 600,000 cords of sunken pine piling now lying submerged in the Rideau river and lakes back of Kingston, Ontario, Canada. The piling was sunk about 80 years ago when the Rideau river was a center of commercial activity. The piling will be converted by a chemical process into the finest grades of stationery.

A Long-Felt Want.
This, ladies, is the non-burglarizing bed, the steel sides of which preclude the possibility of there being a man under the bed, yet can be unlocked and collapsed for the purpose of sweeping, etc. It is especially intended for the use of unmarried women.—Kansas City Times.

An Apology and An Explanation.

Saturday is the busiest day of the week in a real estate office.

But last Saturday was the "busiest of the busy" Saturdays in this office.

And as our luck would have it our staff was short that day in consequence of a combination of circumstances over which we had no control, and which could not have been foreseen.

Hence we offer apologies to such of our patrons as may have been treated with unusual haste.

None complained, yet we are conscious, super-sensitively perhaps, that our best personal service was not given on that day.

The service was probably better than that ordinarily given in real estate offices, and this may explain our patrons' seeming satisfaction, but it did not satisfy us, because of our aim to always furnish that overtopping Human Interest Service so characteristic of this office.

Terrace Park

All that the name implies without any of the handicaps of the usual "Park" developments. Terrace Park is simply a beautiful section of Westfield, where one may purchase a house already built, or a lot. Securing the site is after all THE important thing. One can always build a house, but to get just the location for the home, is an entirely different proposition.

Why Real Estate is the Best Investment

Real Estate is the most judicious investment, as it enhances in value the most steadily, and yields the best returns. The SECURITY, the INCREASE, and the INCOME are the three essentials to be sought for making an investment.

We have just listed a property which has these three essentials. It will be wise to investigate.

James Bill Gets a Hearing Before House Committee on Labor and Industries.

PROSECUTOR GARVIN DEFENDS IT

Bill for Borough Government for Ocean Grove Meets With Opposition.—To Investigate Telephone Rate.

The James bill, designed to checkmate the control of prices for food stuffs, such as eggs, poultry and meats, by cold storage methods, was given a hearing by the House Committee on Labor and Industries on Monday afternoon. The bill prohibits the storing of food-stuffs in cold storage for a longer period than six months, unless permission is granted by the State Board of Health. The chief argument in favor of the bill was made by Prosecutor Garvin, of Hudson County, who said that in one county alone it had been discovered that at least 200,000,000 eggs are stored away annually, thousands of pounds of poultry, and at least 2,000,000 pounds of meats. The eggs are gathered usually by large concerns during the months of April and May in each year and placed in cold storage to be used around the first of the following year. When eggs are plentiful they are kept from the market and put in cold storage; consequently the price is kept up. It hardly seems legitimate that eggs can be purchased from 18c. to 22c. per dozen, kept in cold storage for a few months and then sold upon the public at the exorbitant price of 50c. to 60c. per dozen. Dr. Raymond B. Fitz Randolph, Director of the State Laboratory, said that the article which had been kept in cold storage for any length of time was different from the first article put in such a plant, and that the law should not allow the stored articles to be sold as the genuine article which had not been time stored.

The hearing conducted by the House Committee on Boroughs on the bill proposing to establish a borough government for Ocean Grove was featured by a stirring speech in favor of the project by Miss Helen Thompson, a Trenton school teacher, who owns considerable property in the camp meeting resort, and an hour's argument against the measure by the Rev. Dr. A. A. Ballard, President of the Camp Meeting Association, who is 89 years old. Miss Thompson declared that the control of the municipal affairs in Ocean Grove by the Camp Meeting Association is intolerable to the American idea of civic government. She insisted that the religious association had usurped the rights that ought to be exercised by the citizens of the community and that it was the plain duty of the Legislature to afford relief from such a situation. The venerable Dr. Ballard vigorously denied that Ocean Grove is in any sense a factor in politics. He asserted that the Camp Meeting Association has not participated in political affairs.

The bill to define and limit the powers of counties, cities, towns, and other municipal corporations, to issue bonds or other evidences of debt, and to provide for the payment of the same, as prepared by the Committee on Legislation of the New Jersey Mayors' Conference, made its appearance in the Legislature last night. The act limits the powers of counties, cities, towns, and other municipalities to create indebtedness to a certain percentage of the ratables. The limit proposed for counties is 2%, cities 7% and other municipalities to 10% of the ratables. Former Corporation Counsel George L. Record, of Jersey City, and former Assemblyman James G. Blauvelt, of Passaic, were the principal speakers at the adjourned hearing before the Committee on Judiciary of the Senate on the employers' liability measures now in that committee's custody. Senator Osborne denied a statement made at a previous hearing that his measure would make the employer an absolute insurer or make him liable for every accident to an employee no matter through whose negligence the same occurred.

The Elgin resolution providing for the investigation into the rates now being charged by the New York Telephone Company in north Jersey has been favorably reported to the House by Assemblyman Tatum, chairman of the Committee on Municipal Corporations. Action on the resolution, however, has been deferred for the time being, but it is thought that it will be disposed of during the coming week.

If a bill introduced by Senator Silzer at the request of the State Editorial Association becomes a law everybody will have an opportunity to know when a railroad train arrives at or leaves any railroad station in the State. The bill requires every railroad corporation to have posted in each passenger station local schedule of the time of arrival and departure of all trains stopping at such stations. It also requires the agent of such station to deliver to any person applying therefore a complete timetable of all passenger trains running over the lines of such railroad, indicating the stations at which trains stop and the time of arrival and time of departure at stations on the line or lines of such railroad. The railroad is also required to have published in one or more newspapers, one of which shall have the largest circulation in the municipality in which such station is located, a local time-table indicating the arrival of all passenger trains which stop at such station and the time of departure. The act makes the company liable for a fine of \$25 for each violation of the act.

The Olwell child labor bill has passed the House. This measure is aimed particularly at the glass factories of South Jersey, where many small boys are employed at night. The measure prohibits children under 16 years of age from working in factories between 6 o'clock p. m. and 7 o'clock a. m. It is thought that the bill will be killed in the Labor and Industries Committee of the Senate, to which committee it would naturally be referred. Senators Plummer and Lewis are the majority members of this committee and both are understood to be against it. Senator Cornish is the minority representative on the committee. His attitude is not known.

A bill which has created considerable interest is that introduced by the president, Senator Frothinghysen, limiting the fees of lawyers in accident cases taken on the contingent fee plan. The bill would make invalid any agreement entered into between lawyer and client in any action in tort where the lawyer's fee is to exceed 20 per cent of the verdict secured.

Senator Ackerman has presented in the Senate a bill providing for a central board for purchasing supplies for State institutions. This bill was favored by Governor Fort in his last annual message. Senator Ackerman has also declared himself in favor of some public utility legislation before the close of the session. It is the general impression that a majority of the Republican Senators favor some bill affecting public utilities and the minority members undoubtedly do. What form the legislation will take is not known but it may be along the lines adopted in New York State.

Mountainside Entertainment.

A course of five popular entertainments is to be given in the new Borough Hall at Mountainside, the dates all falling upon Tuesday evenings, and being as follows: April 5th, April 19th, May 3d, May 17th and May 31st. The proceeds will be for hall furniture and furnishings. The price of tickets is placed at 25c each, or \$1.00 for the course. The talent will be largely from New York and the course, in its entirety promises to average as highly as any of the splendid courses given by the Men's League of the Westfield churches. A. B. Pearsall is chairman of the entertainment committee, the other members being Judge Laing, Charles A. Schwartz and Frederick C. Gordon.

Distinctive Spring Garments That Appeal to Exacting Men

The exacting man, whether influenced by models of striking individuality or by those of the more conservative type, will find in our Spring Provision of Suits and Overcoats a wide latitude for choosing.

And no matter what his choice, shapeliness will be a permanent feature. In all our garments the shoulders and front are worked over by hand and moulded so the coat will set close and firm at the neck. The front is interlined with the finest haircloth which is protected and reinforced, therefore no crinkling or puckering.

Why not look over our Spring Showing now? You'll be interested in it. Spring Suits, \$12 to \$30. Spring Overcoats \$12 to \$38.

Spring Clothes for Boys Specially Priced.

Most clothiers seem to think that anything is good enough for the boys. But we think the youngsters should be as stylishly clothed as their fathers. Our showing of Boys' Spring Apparel on our Second Floor was never so complete. It embraces all the newest styles and fabrics, many of the patterns exclusive. Prices are as attractive as the garments themselves.

Boys' Double-Breasted Suits.—All wool cassimeres and Scotch chevrons; fancy herringbone and stripe effects; full cut knickerbockers lined throughout; belt loops, watch pockets. Value \$9.00. Special at..... **7.50**

Boys' Reefers.—Black and white checks and blue serges, with velvet collars; all wool Venetian and mohair lined; both plain and cuff sleeves, with emblems. Value \$8 and \$9. Special at..... **7.00**

Unusual line of Boys' Blouses, in woven madras, linen, wool flannel and pongee. Also Boys' Knickerbocker Trousers, in serge, cheviot, corduroy and mixtures.

Russians Lovers of Music.

As patrons of music the Russians are only second to the Germans; they are devotees of the theater, where musical productions are the chief sources of amusement, and the poorest peasant manages to cheer the dull hours in his lowly home with an accordion or some other cheap instrument.

Words.

When I was young, if I thought anybody's house was on fire, I said: "Sir, the abode in which you probably passed the delightful years of your youth is in a state of conflagration," and people called me a good writer then; now they say I cannot write at all, because I say: "Sir, your house is on fire."—John Ruskin.

Woman's Body Petrified.

Death from gradual petrification, the body slowly hardening for a year until the flesh became as adamant as marble and proof against incisions, was the report made in the case of Mrs. Catherine Barrow, 46 years old, of Rosedale, La., who succumbed in the Charity hospital.

Pitchfork Buried in a Tree.

An old-fashioned hand-made pitchfork was found imbedded in a tree trunk on the old Colyer farm near Little Blue creek by Daniel Uptegrove the other day. The fork probably had been stuck in the tree half a century before. The tree had grown around it until it covered all except one tine.

Animal Study.

The study of animal behavior, which is now being so vigorously pursued in America by our great field naturalists, will provide, perhaps, the most likely channel along which the main stream of advance will be made toward the fuller comprehension of the mysteries of mental life.—Lancet.

Doing Things Differently

If only the Criswells were content to live according to conventional rule existence doubtless would be much smoother for them. Also for others. It principally is others who rebel against the Criswells' cheerfully eccentric method of conducting themselves, their household and their affairs in general, because when things go wrong the Criswells are never bothered nor upset, having a childlike and joyous interest in whatever is unusual.

When a couple who have been married eight years get energetic enough to go to a ball the usual method of procedure after the dance is over is for the masculine member to yawn, mutter wearily that he has to get up at seven in the morning just the same and why the dickens doesn't the taxi get them home faster—while his wife says her head aches and somebody else's gown was far prettier than hers and oh, my, but she is sleepy!

Not the Criswells, however! When they reached their home shelter at two o'clock the other morning after dancing since nine they surveyed one another meditatively.

"I'm starved," said Mrs. Criswell. "So'm I," agreed Criswell.

With one accord they made for the kitchen. When the light was switched on and disclosed a disguised and startled mouse scurrying wildly for shelter Mrs. Criswell did not faint. Both she and her husband gurgled joyously. She grabbed a broom, Criswell seized the poker.

Probably there is some costume appropriate for the pastime of killing mice, but whatever it may be it assuredly is not trailing lavender satin and a brand new dress suit. Still, the consciousness that they were inappropriately clothed had no deterring effect on the Criswells. A boiler factory in full action was the only thing that possibly could have made more noise than did they with broom, poker, overturned chairs and falling dishes.

Finally, the intruder was dispatched and swept outdoors, the Criswells repaired personal damages and once more attempted a frugal lunch. They got it with some minor mishaps. Criswell knocked over a jar of preserves and his wife in pulling out the silver drawer pulled it too far, spilling a peck or so of table implements all over the hardwood floor. Still, they laughed so much that their troubles more than paid for themselves.

Just as Criswell pushed his chair back from the table a point of light glittered at him from the library. Diving toward it, he quickly emerged with a large toy engine in his hands.

"Elmer," said his wife, "I hate to appear inquisitive—but would you mind telling me if you have quite lost your senses? Have you still at this hour of the night such an insatiable thirst for amusement that you have to fall back on Tommy's toy engine? Isn't a dinner party, a dance, a mouse-killing bee—and a supper enough?"

"That's all right, Minnie," said Criswell, soothingly. "You know you're just as crazy over this fool thing as I am and it's never worked right since Tommy got it Christmas—and I don't know of a better time to fix it!"

The engine was an affair run by gas, so the Criswells with much labor got it attached to the gas fixture. Then on hands and knees they watched it plunge madly across the hardwood floor, chugging in a very business-like manner. It was while they were thus occupied that a noise interrupted them. Raising their heads from their absorbing occupation they saw enter what Mrs. Criswell afterward said was the biggest policeman she had ever in all her life beheld. Behind was a policeman still bigger, who in turn was trailed by the biggest policeman of all. They regarded the two persons in evening garb with suspicion.

"Whatchu doin' here?" demanded the biggest policeman.

Even the Criswells could see how foolish and inadequate it sounded to explain that they were running a child's toy engine at three o'clock in the morning. That was why they were meek when they had to explain the mouse-killing in the kitchen and the crash of silver in the dining-room and why they insisted piteously instead of wrathfully that they lived there and had a right to run toy engines in the middle of the night if they wanted to. It was not till Nora and Mary, the maids, who, roused from slumber by the weird noises downstairs, had telephoned the police station that there were burglars in the house and their employers were out, peered in timorously, that the Criswells finally cleared themselves of suspicion.

"We convinced those policemen that we weren't burglars," Mrs. Criswell says, "but nothing in a thousand years ever will convince them that we aren't lunatics, and dangerous ones, at that!"

"I don't care," says Criswell comfortably. "I think it was a very pleasant evening."

Winning Pa Over.

Angry Father—Perhaps you didn't throw that snowball through the window, young man, but I've a good mind to thrash you on general principles!

Johnnie—If I knew dead sure it wouldn't hurt me as much there as on some other places I wouldn't mind the thrashing, pa.—Boston Herald.

Why Complain OF THE HIGH PRICE OF LARD
or BUTTER WHEN YOU CAN GET

COTTOLENE

BETTER THAN LARD—BETTER THAN BUTTER.

Lard is made from hog fat which is often impure and always indigestible. Cottolene on the contrary is essentially a vegetable product, made from carefully selected cottonseed oil, refined by the N. K. Fairbank's own exclusive process, and the choicest beef suet. Sold only in air-tight pails, never touched by the hand from inception to completion. It is neutral in taste and is practically without odor. In cakes and fine pastry it can be substituted for Butter with excellent results, and for frying it is better. Yet it costs less than lard and is far more economical, you require only two spoonfuls where you use three spoonfuls of Lard or Butter.

COTTOLENE is endorsed by the highest cooking authorities and physicians. A trial will convince the most skeptical. Guaranteed to give better satisfaction than lard. We have received a fresh supply and are giving Mrs. M. J. Lincoln's Pure Food Cook Book (reg. price 50c) and large durable pie plates with each order placed here Saturday. Baby Jim, Baby Teddy and Kitty Kate

"Why don't you marry one or the other of us?" said Teddy. "Lord knows, we have asked you often enough; at least I have."

Thompson, who had invited Kate and Teddy to share a homeward-bound journey in his automobile, was busy getting his machine under way. Teddy Walton and Jim Thompson had long been suitors for the hand of "Kitty Kate," as dainty Katherine Comstock had been quaintly nicknamed by her friends.

A good-natured girl, she was pretty and playful—maybe that's why they called her "Kitty Kate."

At any rate, said Kitty Kate to Teddy: "The reason I don't put one or the other of you out of misery is this: Neither one of you babies knows what he wants or why he wants it."

Thompson heard what Kitty Kate said, and he laughed. "That's another one she handed Teddy," he thought—then again:

"I guess it was handed me just as well." And the car was shooting along now at a speed that was faster than the ordinances allowed and Thompson wasn't steering the car very well, either, because he was trying to hear what Kitty Kate and Teddy were saying.

"Crash!" the car had run plump into a big brewery wagon. There was a noise of rending wood and metal. When Thompson regained consciousness he was in a room in a hospital. Teddy was in the next cot to his own.

"She?" asked Thompson. "Never touched her," said Teddy. "Good!" but you are a tough looking object," said Thompson.

"A horse aplece," said Teddy.

Of course Kitty Kate came with a great big bunch of American beauties, and oranges, and cigars with crimson bands on them—which the doctor secretly threw under the bed. Teddy was not badly hurt and was taken home. It was different with Jim. That fractured leg of his was bound up, a rope attached to it, and a bag of sand held it in place over a pulley.

A little child was brought in and placed in the cot that had been occupied by Teddy. "Poor little thing," thought Thompson.

Night came on. Thompson had fallen asleep, a fitful sleep, awakened by an unending, annoying repetition of a phrase, "Mamma, dwink; please give baby dwink."

He looked over at the child. "Mamma, dwink," she repeated.

"By —, you'll have it, kid," said big Jim Thompson. He felt the rope that bound his lamed leg to the foot of the bed, pulled himself across the iron table and reached the next cot. The pain was fierce.

"Here, old man," he said to the baby, handing her a cup, "take a drink." The baby put her lips to it and cried: "Mamma, I want a dwink!" There was nothing in the cup. "D—— it!" exclaimed big Jim, "I drank that water myself. I forgot."

It was a real hell for Jim to struggle back to bed, but he didn't mind; he heard but the child's voice: "Mamma, a dwink," but it had sung away, vanished forever.

They took Jim home two days after. It was weeks before he could hobble on crutches. His first visit was to Kitty Kate. "I want you to marry me," he said.

"Have you forgotten," she said, softly, "about the baby that cries for a drink that it does not need?"

"Ah," he replied, "they told you of that incident of the hospital. I did not know it was known, but I suppose I spoke of it in my delirium. Poor kid, I couldn't even reach the button to call the nurse. I was all in, Kitty Kate, all in, or that kid would have had that drink—but what has that to do with you—or me—or—"

"Oh, Jim," said Kitty Kate, "it made me decide; it made me take one of two big babies—Baby Jim or Baby Teddy—and I'm going to take Baby Jim. And Baby Teddy says that if I couldn't take him, he'd rather see me have Baby Jim than any one else."

A Mill Worth Seeing.

Some of the local admirers of Joe Grim, the Italian pugilist of Altoona, have been telling a new story on him lately. It is a well-known fact that Joe will fight most anybody who comes along and that he is absolutely fearless. He pays no attention whatever to class and he appears to regard almost every new name that he hears as that of a fighter he ought to meet. Not long ago they were arranging a fight for Joe in Altoona, and there was some bickering over the percentages. Finally it was pointed out to Joe that Altoona was a good show town.

"Why, Maxine Elliott played to a \$4,000 house here the other night," said one of the fight promoters. Quick as a flash Joe snapped back: "I'll fight that 'Max' Elliott, too!"—Pittsburg Gazette-Times.

"Foolish Question" of Queen.

Queen Amelia was out in her touring car lately when she lost her way. They got from one country road into another without getting their bearings or meeting anyone. Finally they met a countryman and the chauffeur hailed him and asked the way. The man looked at the magnificent car and then at the company, and then gave a smile of great shrewdness. "Just as if you didn't know," he answered.

Petition and Notice.

To the Council of the Town of Westfield

Gentlemen: The undersigned, being the owners of at least one-sixth of the lands fronting upon the proposed improvement, hereby petition your honorable body to cause a sanitary sewer and appurtenances to be constructed in Mountain avenue from Cedar avenue to town line, Colonial avenue from Mountain avenue to Highland avenue, Standish avenue north of Colonial avenue, and Birch avenue from Standish avenue to Highland avenue, all as shown on a "Map of Westfield Gardens, Westfield, N. J.," made by J. L. Bauer, Civil Engineer, January 15th, 1909; that the cost and expense of such improvement be assessed upon the property specially benefitted according to law, and that said improvement be made and completed under the supervision of the town surveyor.

A check for fifty dollars (\$50) accompanies this petition as required by law. If petition be granted, we will give bond to pay entire assessment within thirty days after confirmation of same.

The Fisher-Lewis Company,

M. A. Seidler, Vice-President.

Notice is hereby given that the above is a copy of a petition received by the Council of the Town of Westfield, in the County of Union, and that the Council will meet on Monday evening, March 21st, 1910, at eight o'clock at the Council room, Elm street, Westfield, N. Petition and Notice.

Westfield, N. J., Dec. 2nd, 1909. To the Council of the Town of Westfield

Gentlemen:

The undersigned, being the owners of at least one-sixth of the property fronting on the proposed improvement, hereby petition your honorable body to cause South Walnut street to be improved from South avenue to Scotch Plains avenue, in the following manner, to wit:

1. By grading the carriageway for its entire width.
2. By macadamizing the carriageway for a width of sixteen (16) feet and a depth of six (6) inches along the center thereof, and by macadamizing the remainder of the carriageway for a depth of four (4) inches.
3. By constructing curb stone culverts with cast iron covers at the intersecting gutters of South avenue, Union avenue and Scotch Plains avenue.

The cost of the above named work to be assessed upon the lands benefitted according to law.

A deposit of \$50.00 accompanies this petition as required by law.

Underwood Standard Typewriter

A LEADER

The principle of construction in the Underwood was found first in the Underwood, and every typewriter seeking business in the same field with the Underwood which has been put on the market since the advent of the Underwood, has been an imitation of, and in general appearance like, the Underwood.

The last "Blind" advocates of importance have now fallen into line, and there is not to-day a single "blind-writing" typewriter actively on this market. Recall all the arguments you have heard in past years by Underwood opposition, and you will realize what an advance agent of progress the Underwood has been; then bear in mind that the Underwood was the first fully "visible," has had time to develop and improve, and is to-day the most perfect typewriter made.

BROWN-TAIL MOTH DANGER.

Caution to Importers of Foreign Nursery Stock.

During the season of 1908 and 1909 brown-tail moths have been unusually abundant in continental Europe, and especially in France. The winter nests, filled with caterpillars, have, therefore, been correspondingly numerous and have invaded nurseries and plant-growing establishments.

During the winter of 1908-'09 thousands of these nests arrived on nursery stock at the ports of this country, chiefly New York, and the most rigid inspection work was needed to prevent the establishment of these pests in New York, New Jersey and other States where the insect does not yet occur. An attempt was made, during the summer of 1909, to secure the co-operation of the foreign plant growers in keeping out infected stock, but, so far as France is concerned, with practically no effect.

Brown-tail nests with living caterpillars have already been found this season on plant stock recently received, and all gardeners, florists and growers that have ordered stock from abroad are requested to notify Prof. John B. Smith, State Entomologist, New Brunswick, New Jersey, that arrangements may be made for its inspection on arrival.

The establishment of this pest in New Jersey would mean even heavier loss than that inflicted by the San Jose scale, and would affect more interests, since it feeds on shade as well as orchard trees. The insect is also a direct nuisance to the individual, the poisonous hairs of the caterpillar producing the "brown-tail rash," which is very painful and often difficult to cure.

Further information can be obtained by addressing Professor Smith at the address above given.

State Normal Alumni Reunion.

The fifteenth annual banquet of the State Normal Alumni Association of North Jersey will be held at the Hotel Astor, Broadway and Forty-fourth street, New York City, March 12th, 1910. Members will meet in the reception room at 12 m. Dinner will be served at 1:30.

Dr. J. M. Green, Dr. Charles S. Chapin of the Montclair State Normal, Miss Susan A. Reilly and others will speak. We hope to have Miss Cora Remington and Mr. Paul C. Scarborough favor us with vocal selections.

The classes of 1895, 1900 and 1905 are making special efforts to have each a big reunion. It is hoped that other classes will be largely represented.

At Proctor's.

The following well known vaudeville acts will make the program at Proctor's Plainfield Theatre this week an enjoyable one:

Monday, Tuesday and Wednesday—Ala Zaza & Co., mind readers; Benson and Miller, comedy singers and dancers; Tom Kyle & Co., in "Her Cow Puncher Boss"; James Byrnes, slack wire walker.

Thursday, Friday and Saturday—Marion Kay, vaudeville's sweet singer; Trainor & Hunt, comedians; Leonard & Phillips, comedy sketch; The Told Mards, acrobats.

Pictures, as usual, will be changed every day.

A CORROBORATION.

Of Interest to Westfield Readers.

For months Westfield citizens have seen in these columns enthusiastic praise of Doan's Kidney Pills by residents of this locality.

Would these prominent people recommend a remedy that had not proven reliable?

Would they confirm their statements after years had elapsed if personal experience had not shown the remedy to be worthy of endorsement?

No stronger proof of merit can be had than cures that have stood the test of time.

The following statement should carry conviction to the mind of every Westfield reader.

William Schwartz, 19 E. Scott Place, Elizabeth, N. J., says: "I was a victim of kidney complaint for some time. My back was very weak and ached in, tensely, especially after I had contracted a cold or was exposed to damp weather. I often felt as if I could not endure the pains in my head and an annoying kidney weakness distressed me night and day. Physicians' medicines did not help me and when I heard of Doan's Kidney Pills I procured a supply. After using about three boxes my kidneys were restored to a normal condition and the pains in my back were removed."

THE TEST OF TIME.

On June 20, 1908, Mr. Schwartz said: "I have had no occasion to use Doan's Kidney Pills since 1905. I am still as strong in my praise of this remedy as ever."

Many Names to Be Added to Westfield Directory.

Rentals seem to be the specialty of the real estate brokers the past ten days—Walter J. Peek, Jr., his house, 320 First street, for himself a house on Summit avenue and Grove street, for W. M. Harrison his home, 514 Kimball avenue, for James Gunn 415 Kimball avenue and the store 48 Elm street.

Mr. Lee does not confine himself to rentals, and offers at present some bargains in both houses and lots in all portions of the town at real bargains.

Sale of Muslin Underwear

A sale of muslin underwear differs from the ordinary sale resulting from a special purchase or clearing out of an odd lot. We know months ago we would hold this sale for we held a most successful one a year ago and have carefully prepared for this one. Surely the carefully planned, thought out sale must have the greater merit. This one certainly has, and we open it with thousands of well made undergarments that are fresh, new, and marvels of daintiness, and furthermore, the most interesting feature of all, **EVERY PIECE IS CUT IN PRICE.**

NOW BOYS AND GIRLS AND GROWN-UPS WHAT'S YOUR GUESS?

The Standard Census Contest Began Tuesday, February 1 and
Continues Through February, March and April.

As heretofore announced in the STANDARD prizes will be given to guessers as to the population of Westfield in 1910, according to the federal census to be taken next Spring. The terms of the contest are as follows:

To the one making nearest correct guess as to the population of Westfield, a prize of Ten Dollars in gold will be given; to the one making the next nearest guess Five Dollars in gold will be given; and to the third, will be given a year's subscription to the STANDARD. All guesses must be addressed "Census Contest" and sent to the STANDARD by May first. It is not necessary to be a subscriber to the paper. All ages, colors, creeds and nationalities are welcome. This offer should appeal to the bright boys and girls of Westfield, who are always glad to get money either for spending or to start a bank account, or would be glad to get a bright, independent newsy paper, every week for a year.

The contest will open February 1st, 1910 and close April 30th, 1910. All guesses must be made over the signature of the contestant. No aliases allowed.

Cut this out, and fill in blank, and mail or deliver to "Census Contest," STANDARD, Westfield, N. J.

Energy will do anything that can be done in this world; and no talents, no circumstances, no opportunities will make a two-legged animal a man without it.—Goethe.

Daily Health Hint.

If the bodily circulation is sluggish, a useful means of quickening it is by electricity. A current of electricity, carefully applied, will often relieve stiffness and lameness.

Must Have Time to Live.

It was not intended that a man should work as long as his eyes are open. He wants a little time to live as well.

"I suppose," says the Philosopher of Folly, "that my uncles, the pawn-brokers, might be referred to as 'business relations.'"

Fighting Plague of Rats.

United action by landowners and farmers is now being taken to put down the rat plague in Haddingtonshire, England. The plague has lately been accountable for enormous loss to game and root plants, and one week lately a thousand rats were destroyed.

Cultivate Discretion.

Discretion is a synonym for tact. To rush in where angels fear to test their wings is as untaught as it is indiscreet. Learn to handle the world with gloves and it will rarely give you a black eye.

THEODORE A. BALL,

Westfield Nurseries,

GROWERS OF

FRUIT, SHADE AND ORNAMENTAL TREES,

And All Hardy Plants for the Lawn and Garden.

Tel. 144-L Westfield.

Westfield, N. J., March, 11, 1910

Dear Sir:

Spring planting time will soon be here; then every one that owns the house he lives in, or a lot on which he proposes sometime to build, will want something in the nursery line, and the best place to get anything and everything in the Nursery line is right here in Westfield, at the Westfield Nurseries, corner of Mountain Avenue and Springfield Road.

Here we produce most of the stock we sell, a partial list of which is as follows: Shade trees, Sugar Maples, Silver Maples, Red Maples, Norway Maples, Ash, Elms, Poplars, and Oaks. Fruit trees; Apple, Pear, Cherry, Plum, Peach, Apricot and Quince trees.

Also Blackberry, Raspberry and Strawberry vines.

I have California Privet, the most popular hedge plant, in any size you want. I also have the Barberry Thunbergi, and other plants, suitable for small hedges.

We have a full line of flowering shrubs, Roses and ornamental plants.

I will also import direct from England, Holland and Japan, such plants as can be propagated to better advantage in these countries than on my own Nursery grounds, or on any Nursery grounds in this country.

All the Nursery stock which I am importing from the foreign countries has been carefully selected with reference to its suitability for growing in this locality.

There will be no untried novelties in this importation, as I have selected only such varieties as have already been tested in this country, and proven to be perfectly hardy, and suitable for our climate.

All this foreign Nursery stock has been examined while growing by the official Entomologist of each country, and in addition to that it will be again examined by the New Jersey State Entomologist when the stock arrives at my grounds.

Yours truly,

Theodore A. Ball.
