Three newcomers to elective office will join the Republican slate for nomination as candidates for Mayor and Town Council in the June 2 Primary Election.

Incumbents Mayor Ronald J. Frigerio and Ward 2 Councilman Garland C. Boothe Jr., both of whom will seek reelection in November, will be joined on the Republican ballot by Frank J. Rodgers, Beverly A. Caldora and Shirley Ann Cordes, candidates for the first, third and fourth ward council seats.

Rodgers seeks to succeed Councilman John H. Brady, who has announced that he will not run for a fifth term on Town Council, and Mrs. Caldora is a candidate for the seat now held by Raymond W. Stone who also has declined a new term of office. Mrs. Cordes is an aspirant for the fourth ward position now held by Democrat Brian W. Fahey.

Born and educated in New Jersey, Rodgers lives at 720 Clark St. A graduate of Rutgers University with a degree in engineering, he formed his own business, Nycoil Company, in Westfield in 1958 and the firm has since grown to three manufacturing plants located in Fanwood, Greensboro, N.C. and Greenville, S.C.

Rodgers, a member of the Republican party since moving to Westfield and a current town committeeman, has been active in the Westfield Rotary Club for more than 15 years and in the Boy Scouts which he serves as district chair-

Appearing on the June Primary Election Republican ballot are these candidates for local office: Seated, Beverly Caldora, candidate for third ward seat on Town Council; incumbent Mayor Ronald J. Frigerio, seeking reelection; Shirley Ann Cordes, aspirant for fourth ward council seat; and standing, Frank J. Rodgers, who seeks first ward position; and Councilman Garland C. Boothe Jr., incumbent seeking a new term from the second ward.

man and a member of the board of directors of the Watchung Area Council.

Rodgers, an avid traveler, skier and hiker, and his wife Lorraine have three sons, all graduates of Westfield High School. One son lives in North Carolina, the other two attend college.

Mrs. Caldora, of 11 Tudor Oval and a long-time Westfield resident, has been a member of the Westfield Town Republican Committee for 10 years, serving on the executive committee and third ward leader.

A member of the Plann-

ing Board of the Town of Westfield, she was twice the chairperson for the campaign of former Mayor Alan Chin. Mrs. Caldora also is a member of Holy Trinity Parish Council and executive board, a second grade religious education teacher and den leader for Cub Scout Pack 73.

She is a licensed real estate salesperson and Notary Public.

Married to James A. Caldora, president of Westfield Unico and a former councilman from the third ward, the couple has a 10-year-old son, Danny.

Mrs. Cordes resides on Nottingham Place with her husband, Eugene, and their two children, Matthew and Jennifer, who are presently attending Bowdoin College. Mrs. Cordes moved to Westfield about five years ago from Indiana, where she was active in civic affairs. She served as the chairperson and a member of the local Municipal Environmental Commission. She was also active in local politics in Indiana, serving as County Committee Nominating Convention. She is an active participant in the League of Women Voters in the Westfield area.

Mrs. Cordes is a member of Common Cause and has served on the New Jersey Bell Consumer Panel. She has a PHD in bio-

One affirmative vote kept six Westfield teachers on the payroll at Tuesday night's Board of Education meeting. In accordance with the State Board's new resolution that all secondary school teachers must have secondary school certificates, the six teachers may retain their positions according to seniority and on the condition that they get their certificates by

Sept. 1, 1986.

This way elementary certified teachers who have already been teaching at the secondary level for several years will not lose their jobs to teachers from outside the Westfield school system; however, four teachers without seniority will have to be reduced (a term referring to reduction in force).

Thomas Taylor, Carolyn Moran, Carl Bailey, James DiClerico and George Welmer voted yes on the motion to "grandfather" the six teachers; James England, Leo Senus, Gail Cassidy and Kathleen Martin voted no.

Superintendent Laurence F. Greene noted that he had asked a State Board member about the per-

missibility of grandfathering and received the word that, "it would not be prohibited." He added, however, that keeping the four teachers without seniority would be in direct opposition of standard seniority rules.

Carolyn Moran argued that the four teachers to be dismissed would be replaced with "strangers."

Thomas Taylor pointed

out that keeping the four would result in a costly court battle initiated by the teachers with seniority; he commented that the board shouldn't "spend people's money litigating, we should spend it educating the kids."

A motion to keep the additional four teachers was voted down.

During the public comment period, WEA President Beverly Geddes requested a list of the teachers that would be affected by personnel items 1, 2, 3 and 10 on the agenda.

All in all, 520 staff members were appointed for the 1984-1985 school year.

According to state law, the school board must appoint staff and notify staff members who will not be reappointed at a public meeting prior to April 30.

The 356 teaching staff appointments include 83 elementary classroom teachers, 181 secondary teachers, 11 guidance counselors, eight nurses, eight librarians, 39 special education personnel and 26 specialists. Also appointed were 50 school secretaries, 52 supportive staff (custodians and maintenance), 12 instructional support staff (aides), 43 administrators and department heads and seven administrative support personnel.

In addition to appointing staff members, the Board of Education approved giving notice to 67 staff members, of "no job assurance" for the 1984-1985 school year at this time. Included among the "no contract" notification are 25 staff members who were tenured and 42 who were not tenured. Some of these personnel will be appointed later when and if state or federal funds become available or when and if employees retire or take leaves of absence. Included among the "no contract" notifications are nine special education department employees and seven Basic Skills Improvement Program aides whose salaries are federal or state funded.

"Staffing decisions are based on student needs, financial resources available to the school district and an ongoing program of staff evaluation," said Board President Leo Senus.

"Reduction in force follows state laws concerning seniority, tenure and certification," said Senus. "It is a particularly difficult year for Westfield because the school budget reduced the staff by 40 net positions."

## "Grandfather" Clause to Protect Six Teachers' Jobs 'til 1986

## Council Approves New Salaries For Town Officials, Employees

Salaries for various categories of town officials and employees were principal items on the Town Council's agenda Tuesday night. Increases range up to eight percent.

Approved were hourly rates for roads and parks personnel, salaries for engineering and inspection personnel and a new guide for police officers ranging from probationary patrolmen to those with the rank of captain.

Introduced, and subject to public hearing and final action of its May 8 session, were salary guides for town personnel employed in municipal offices and various employed and elected officials.

The wage scale for public works employees under a three-year contract retroactive to Jan. 1 ranges from \$5.25 an hour to a salary of \$25,475 for an engineer this year; at the third and final year of the contract this range will be \$5.83 to \$29,170.

Police salaries now range from \$19,015 for a patrolman who has completed a year's probation to \$32,471 for captain. This range in the final year of a

three-year contract will be \$21,946 to \$37,476 for the same ranks.

Introduced was a 1984 salary range for municipal employees ranging from a low of \$9,200 to \$12,500 for a library assistant to a top range of \$39,600 to \$51,500 for the position of town administrator.

Over the objections of Councilman Harry Brown, who requested a 100 percent increase in salaries for mayor and council (from \$1 to \$2), council introduced the following pay rates for town officers and officials: Mayor and Council, \$1; town attorney, \$21,400; magistrate, \$25,000; prosecutor, \$7,500; public defender, \$3,750; counsel for Planning Board and Board of Adjustment, \$4,125 each; labor attorney, \$7,100; and a plumbing inspector, \$10,500.

Council also introduced an ordinance authorizing the expenditure of \$10,000 for a sprinkler system at the Plaza monument, waste receptacles for the central business district and playground equipment for the Memorial Park playground. Final action on this funding will occur May 8.

Given final approval were ordinances amending provisions for improvements to Memorial Pool, appropriating \$38,900 for various items of equipment for town departments, and providing \$40,000 for acquisition of parcels of land in the Ewan tract off Prospect St. for potential town use. The purchase of property completes town ownership of the tract.

Henry E. Callaghan was named by Mayor Ronald J. Frigerio and the council to a four year term on the Board of Appeals; his term

will end April 11, 1988.

Approved were the sale of excess police cars "with very high mileage," a deed execution for lottings of Center St. and Columbus Ave. right-of-ways vacated by the town, contracts for road repair and maintenance materials, landscaper and raffles licenses, and transfer of a liquor license to new owners of Westfield Wines and Liquors on East Broad St.

## Volunteers Say "No," YES to Close May 1

YES, the Youth Employment Service which has provided jobs for many Westfield young people during the last 20 years, will close its doors at the northside railroad station Tuesday. Lack of volunteers and applicants are among reasons for demise of the United Fund-ed organization.

YES was organized by a group of Westfield citizens in 1964.

"During the last 20 years YES has served the residents and businesses of our town and has found summer jobs and part time work for thousands of Westfield high school and college students," according to a statement issued by YES volunteers. "During these years YES has remained a totally

volunteer agency and there has never been any salaried employees. Some of the volunteers have served for 18 years.

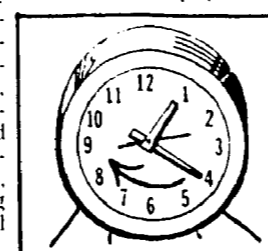

"The funding for YES has been through the United Fund of Westfield and private donations. YES operated with no cost to the town or taxpayers."

"Now, after twenty years, we find it will not be possible to continue this service. YES will close its doors on the first of May."

"We wish to thank all who have contributed to our existence during our 20 years, and we say goodbye to all the fine high school and college students who have worked for us. We truly enjoyed meeting you and working with you."

## Turn Clocks Ahead Saturday Night

Sunday will dawn earlier than usual as Daylight Savings Time becomes effective at 1 a.m. April 29. The annual event is a signal for residents of this time zone to move clocks ahead by one hour before retiring Saturday night.

Those who may lament the loss of an hour's sleep this weekend will make up for lost time when the hour is regained on the last day of September next fall.

## Graduation Date June 25

An end-of-the-year school calendar for June, 1984, including a June 25 high school graduation date, for the Westfield public schools has been released this week.

### School Secretaries Offer Scholarship

Scholarship applications for students planning a career in business are available from the Westfield Association of Educational Secretaries (WAES).

The WAES will award a scholarship to a Westfield High School graduating senior who plans to continue their education to prepare for a career in the business world.

Application forms are available in the high school guidance office. Students interested in more specifics about the scholarships are invited to see Eileen Sexton, WAES scholarship chairperson, in the high school guidance office.

continue through Friday, June 22.

The updated end-of-the-year calendar includes three snow days which were used on Jan. 19, March 9 and March 13. The original calendar showed a final school day of Tuesday, June 19; however, to make up the three snow days, the final full school day for students will be Friday, June 22 - the 180th day of classes.

Regularly scheduled school days may be cancelled due to snow or other serious conditions involving danger to staff and students on the way to and from school. Such "no school" days are often referred to as "snow days."

Should another "snow day" occur in Westfield, the calendar will be extended by one day so that students are provided with the state-mandated 180 days of school.

## State Monitors to Evaluate 10 Areas of School System

Under new monitoring guidelines proposed by State Education Commissioner Saul Cooperman, the Westfield public school system will be evaluated on the 1983-1984 school year in 10 areas.

The monitoring process has begun with school staff members using the "Manual for the Evaluation of School Districts" which lists 10 elements and 50 corresponding indicators on which the school district will be evaluated.

Representatives from the County Superintendents' Office

will meet with school administrators in May for a pre-monitoring session to assure that school staff members are familiar with the monitoring process. Samuel Soprano, administrative assistant to the superintendent of schools, heads a monitoring staff committee in Westfield.

State monitoring team members will visit Westfield schools in September. The district will be monitored, evaluated and certified on the following 10 major elements: Planning, school/community relations, comprehensive curriculum/instruction, student attendance, facilities, professional staff, mandated programs, achievement in state mandated basic skills, equal educational opportunity/-

affirmative action and finances. If a district successfully meets the monitoring requirements, it will be certified and will be monitored only once every five years thereafter. In the past, each school district was monitored each year. Under the new process, consistent and uniform monitoring standards for all of New Jersey's 611 school districts have been established. Within two years, every school district will be monitored; certified districts will not have to be monitored for five years. School districts who do not receive certification will be subjected to more frequent, in-depth review until deficiencies cited are corrected.

## Steven Matthews, Jerry Chen Earn Eagle Rank at Troop 172 Banquet

Steven Matthews and Jerry Chen received Eagle Scout awards at the Troop 172 annual awards banquet held recently at the First Baptist Church in Westfield.

Both young men are honor students at Westfield High School, class of 1985, National Merit Scholarship Semi-finalists, and have been chosen for the N.J. Governor's School on Public Issues in the Future of New Jersey to be held at Monmouth College this summer.

Steve has been active in Troop 172 since moving to Westfield from Iran in 1978. He has held various leadership positions, presently serving as Senior Patrol Leader for the troop. He was also named Outstanding Scout of the Year for Troop 172, and received

commendation from the Sons of the American Revolution presented by Clayton Kynes. In cooperation with the Westfield Police Department,

Steve's Eagle Project involved crime prevention by increasing public awareness, and identification of possessions belonging to public agencies and individuals.

Jerry is the assistant senior patrol leader of the troop, and in that position is responsible for helping in the planning of program and weekly meetings, and insuring that they run smoothly. The patients of the Berkeley Heights Nursing Home were the grateful recipients of Jerry's efforts in community service for his Eagle project. He planned and constructed a storage area for the patients' occupational therapy materials.

Both boys are members of the Order of the Arrow, an honorary scouting

organization, have participated in the expedition to Philmont Scout Ranch, and have regularly taken honors in the annual Great Canoe Race and Klondike Derby. They also hold current certification in CPR, and have had troop leader training at Camp Wachung.

William Towns, former Scoutmaster of Troop 172, was Steve's advisor for his completion of the requirements for the Eagle Scout Award, and Hal Matthews, the present Scoutmaster, served in that capacity for Jerry.

Bob Kerwin gave the introductory speech for Jerry, in which he commented on the many similarities between the two Eagle Award recipients and their involvement both in scouting and scholastics. Bill O'Brien spoke on behalf of Steve.

### DOT to Receive Resurfacing Bids

The Department of Transportation will receive bids Thursday, May 10, for 10.1 miles of resurfacing on Routes 1, 9, 3, 10, 22, 23, 24, 46 and 1-280 in Essex, Passaic and Union Counties.

The project is 100% state funded and must be completed by Nov. 1, 1984.

## Local Red Cross Receives Three New Station Wagons

Three station wagons were recently delivered by the Office of Special Transit Services of NJ Transit to the American Red Cross Westfield-Mountainside Chapter.

These were among 13 vehicles distributed state-wide for use by elderly and handicapped people. They had been purchased by NJ Transit under the Urban Mass Transportation Act of 1964.

Eighty percent of the money for the purchase of the vehicles comes from the federal Urban Mass Transportation Administration (UMTA), with 20 percent of the money provided by the 1979 State Transportation Bond Issue. "The federal funds, however, are awarded to the state or one of its

designated agencies, such as NJ Transit, for disposition," said Jerome C. Premo, executive director of NJ Transit.

Premo noted that the vehicles purchased by NJ Transit are leased at no cost to the agencies. "But the organizations participating in the program must pay all operating expenses including wages of the driver, fuel, maintenance and insurance," Premo said.

To date, NJ Transit has delivered more than 120 special vehicles, vans and mini-buses, some of them equipped with automatic lifts, to more than 100 private non-profit agencies in the state.

## Special Interest Courses Offer Diversity at Summer Workshop

Special interests courses at the Westfield Summer Workshop for the Creative Arts offer curriculum diversity to those participants seeking the acquisition of specialized skills. Other areas for creative exploration in more than 100 course offerings include crafts, dance, fine arts, drama and music.

In this, the 13th season of the workshop, areas such as the computer can be explored in five courses spanning several levels of competency.

In a day and age when students have been exposed at earlier ages than ever before to computers, it's not uncommon that their computer skills outdistance those of their elders. Observing this trend, Westfield Summer Workshop's Founder/Director Red Schlossberg has provided for those high school students and adults who want to "catch up." The 15 hour micro computer Workshop introduces the functions of the basic computer language in a non-technical manner. This "hands on" course enables the students to operate and program personal and small business computers, and uses examples and illustrations most apt for this older age group.

Programming in Basic is taught in the Computer Technology Workshop I, and is offered to seventh through 12th graders. Computer Technology II offers to eighth through 12th grade students versed in Basic, the pursuit of advanced programming techniques including Files, Matrices, Logical Operations, Print using, Alter mode, use of the editor for a form of word processing, string arrays, Do...Doend blocks, user defined functions, and elementary programming in the Pascal language.

Although the bulk of the Workshop's daily morning courses are offered at Edison Junior High School, 800 Rahway Ave., the two computer technology courses are at Westfield High School on Rahway Ave., where students will be working on the school's Prime 550 Mainframe, with each student having access to his own terminal. Lectures, filmstrips, group and individual instruction will be used to teach the language.

Students below the ninth grade will learn machine confidence, programming techniques, and how to write short programs, as well as logical and creative thinking skills in the Micro

Computer Workshop. Level I, while in Level II, they'll learn to write more sophisticated programs, and extend their knowledge of software application and input and output operations. Both are "hands-on" courses.

Several special interest courses new this year address specific student needs.

Improving math skills and improving reading skills offer small group instruction (six students) for first through sixth graders seeking extra help in these areas.

On the other hand, speed reading for seventh through 12th graders emphasizes increased reading speed — from two to 10 times. Not offered as a remedial course, speed reading helps to increase comprehension, develop better study skills, and techniques for reducing homework assignment time, and prepares students for the extensive reading demands made by colleges and universities.

Exploring Science — for second through seventh graders — gives children the opportunity to experience the use of equipment commonly found in science laboratories.

At a time when youngsters are prime to explore their imaginations, in the second and third grades, the workshop provides Imagination and Communication, a course utilizing a multi-sensory approach to creative writing through drawing, painting and drama. These second and third graders will be involved in diverse activities designed to encourage creative thinking and imagination.

These courses are but a small percentage of the more than 100 professional and artist faculty taught courses available this summer from July 2 through Aug. 3 from 8:30 to 12:30, Mondays through Fridays at the Westfield Summer Workshop at Edison Junior

## Camera Club Slates Final Competition

The last pictorial slide competition of the '83-'84 season will be the main event of the Plainfield Camera Club's meeting at 8 p.m. Wednesday, in the United National Bank in Fanwood, 45 Martine Ave.

Club President Irving Berner of West Orange plans to invite as guest judge a professional artist/photographer, someone who is unaccustomed to evaluating color slides. This move will provide a change of pace from the usual procedure, which is to select an outside judge from a list provided by the New Jersey Federation of Camera Clubs. Dr. Mark Henry of Westfield, color chairman, will award ribbons to makers of the winning slides.

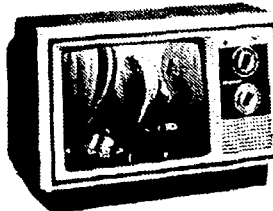

Upcoming events are the Slide of the Year Contest, and the annual banquet, which is to be held as in previous years, at Echo Lake Country Club in Westfield. Peter Warfield of Westfield, past president and a member of the executive board as trustee, is assisting with the arrangements.

## Consumers Means Business

This week is National Consumers Week and Westfield residents are fortunate to have an office of the Union County Division of Consumer Affairs here on North Ave.

"Consumers Mean Business," says Ellen Bloom, director of the office, who emphasizes both the vital role consumers play in a healthy economy, and the growing awareness consumers have of their rights to honest value and safe products for their money.

In an effort to publicize National Consumers Week and promote consumer awareness, the Union County Division of Consumer Affairs will visit central locations in county towns during Consumers Week to distribute Consumer's Resource Handbooks, and packets of information on product safety, supplied by the United States Consumer Product Safety Commission, and other topics of general consumer interest.

The Consumer's Resource Handbook, compiled by the United States Office of Consumer Affairs under the direction of Virginia H. Knauer, is a helpful guide for anyone who has a problem with a retail transaction and wishes to take action independently, or to seek help from a qualified agency. The book includes addresses for corporate consumer contacts and selected federal, state and local agencies. It also provides instructions on how to avoid common problems, and how to write an effective complaint letter. The Union County Division of Consumer Affairs will also be mailing these handbooks out to schools, libraries and organizations throughout the county.

Consumer Affairs, within the Department of Public Safety, works year-round to fairly mediate consumer complaints, and to keep county residents and retailers informed on issues of importance to both. Unbiased efforts of mediation do away with unfair methods of competition in the marketplace, protecting buyer and seller, and promoting greater sales confidence.

Since its start in 1977, the division under the direction of Ellen Bloom, has saved more than \$4½ million for county consumers through refunds, exchanges, and contracts voided and completed. Last year was the busiest year for the division, with more than \$1 million in savings.

The Division of Consumer Affairs also conducts an ongoing campaign of consumer education. It is vitally important in these difficult economic times that consumers know how to spend their money wisely. Everyone has the right to know the latest information about hazardous products, recalls, and up-to-date guidelines for the prevention of consumer fraud.

If you have been unable to successfully resolve a problem with a retail transaction, write Union County Consumer Affairs, P.O. Box 186, Westfield, including a brief letter describing the problem and including copies of receipts or letters.

## Children, Parents Alerted

### By Local Police Authorities

The Westfield Police Department reminds parents that warmer weather is a good time to review with their children how to be careful when outdoors playing, at home alone or going to and from school. Chief James F. Moran has offered some tips as to what to tell your children to do in certain situations.

1. Teach your children his or full name, address (including city and state) and telephone number (including area code). Make sure that your child knows how to make a long distance call.
2. Keep a file with your child's photographs (taken at least once a year), fingerprints and dental records. If your child is under two, take pictures four times a year.
3. Teach your children to avoid strangers, especially those who offer them presents or ask to take their pictures.

"4. Tell your child never to answer the door while home alone or to tell anyone over the phone that he or she is alone.

"5. Explain to your child what to do in the event that the two of you become separated. If you are shopping, for example, tell your child never to go to the parking lot, but to go to the nearest checkout counter and ask a clerk for help."

"Here are some tips for the parents, says Chief Moran:

"1. Never leave your child alone in a car. Always accompany your child to the bathroom in a public place.

"2. Make sure that your child's school or day care center will not release him or her to anyone without your permission. If you must send an unfamiliar adult to pick up your child, have a pre-arranged code with your child to be used as a signal.

"3. Give your child permission to say no to an adult. Emphasize that no one has the right to touch them or ask them to keep a secret from you.

"4. Try to be more aware of children in public places. If you see a child that appears lost or frightened, do not approach the child. Since children are being taught to avoid strangers, you will only frighten them more. Get someone to locate a policeman or security guard for assistance while you make sure that nothing happens to the child.

"6. If a child approaches you and says that he or she is lost or has been abducted, act as quickly as you can in getting help. There have been cases where children have appealed for help but adults failed to act in time before the abductors returned."

Further information is available at the Westfield Police Department Juvenile Bureau, 232-1000.

## CANDIDATE APPRECIATIVE

Editor, Leader:

I would like to thank the Westfield Leader and its readers for their kind response to my recent "mini-campaign" for Union County Freeholder. Although I did not receive the majority of support by the county Democratic organization, I am happy to report the endorsement of my candidacy by the regular organizations of Cranford, Springfield, Winfield Park, Berkeley Heights and New Providence to whom I am deeply indebted.

Again, thanks to the Westfield Leader for their coverage of the Freeholder nomination process and continued good luck to them and their readers in the future.

## Post-Holiday Blues Got You Down?

In order to continue to reach out to many individuals who have questions pertaining to stresses of everyday life, Milton Faith, executive director of Youth and Family Counseling Service, 233 Prospect St., Westfield, once again announces post holiday Hung Up Hot Line for the week of April 23. Earlier this year, Faith provided a telephone hot line following the Christmas and New Year holidays. Frequently individuals and family members experience a sense of anxiety and/or depression ("post, holiday blues") following holidays — a letdown after the excitement and anticipation of holiday joy and busyness. Talking out one's feelings, gaining some insight and direction, can be most helpful. Some do not prefer to see a counselor, but prefer the anonymity of a telephone call to a local hot line.

Faith reports that he had received over 30 calls during the nine hour period in January. Many of the calls centered around teen-age problems and separation-divorce conflicts. Most of the calls focused on the loneliness and sadness following the holidays. During this period, family members got together for celebration and sharing. Too soon it was over; too frequently, family members seemed to argue over "minor" tensions. And then, the individuals went their own ways. One woman, Jane X, was particularly eager to talk on the phone. She stated that she had prepared a meal "fit for a king," which was enjoyed by everyone. But no one had volunteered to

clean up or put the dirty dishes into the dishwasher. When all had left, she felt sad; she cried. She felt that everyone had been selfish and insensitive. After a few days she began to realize her anger. During the course of the call, she was able to vent her anger and to promise herself: that in the future, she would request help in preparing the food, and help in cleaning up afterwards. She would not wait endlessly for assistance. "It is interesting that I was unable to realize such a simple thing," Jane X stated over the phone. "Talking things out does make a difference."

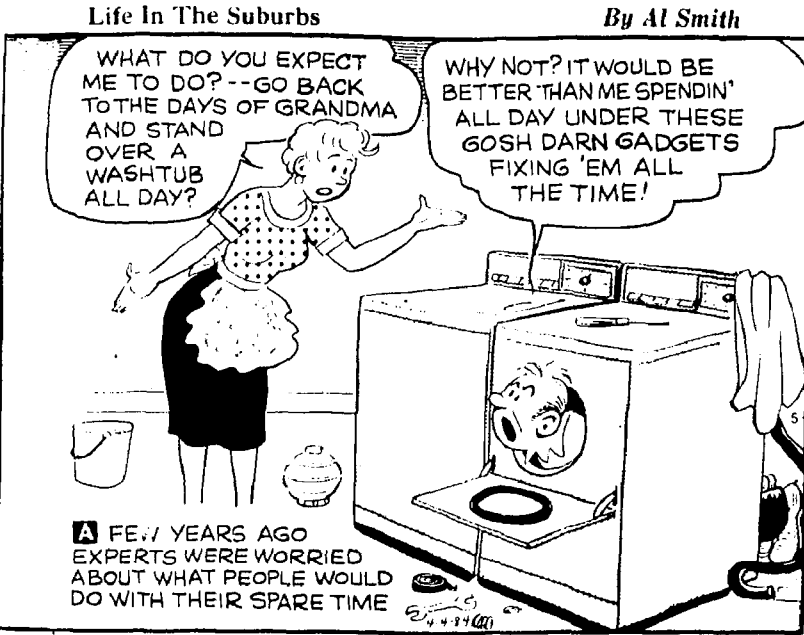

The post holiday Hung Up Hot Line, wherein Faith will be answering inquiries, will be in effect 9 a.m. - 11 a.m., Monday, April 30 through (and including) Friday, May 4. The phone number is 233-2042.

Milton Faith clarifies that the latest trend in mental health is to reach out to the public. Some individuals do not feel they want to come to an office and expose themselves. They are more comfortable reaching out anonymously to "Dear Abby" type columns, or "call-in" programs on radio, such as Dr. Toni Grant's show. Youth and Family Counseling has been serving Westfield, Berkeley Heights, Clark, Cranford, Garwood, Mountainside, Rahway and Scotch Plains since 1918. YFCS is a United Way (Fund) agency and is a member of the United Fund of Westfield and the United Ways of Berkeley Heights, Eastern Union County, Cranford, Mountainside and Scotch Plains.

Report from Washington

By Congressman

Matt Rinaldo

7th District, New Jersey

Congress should move to restore public confidence in the government's commitment to cleanup the nation's toxic waste dumps by reauthorizing the superfund program with increased funding.

Surveys have shown that the hazardous waste threat is a major environmental concern in every state in the country. This is particularly true in New Jersey which has 85 of the 546 hazardous waste sites on the superfund national priority list. That is far more than any other state.

As a senior member of the House Energy and Commerce Committee, I am pushing for reauthorization of the superfund program for another five years with a substantial increase in funding. The program was authorized for five years in 1980 with a \$1.6 billion budget derived primarily from an assessment on the chemical industry for the purpose of cleaning up the nation's most dangerous toxic waste dumps.

New Jersey has received \$48 million in superfund money this year for work on 41 of the state's dump sites. The lion's share of that money has gone for planning for the actual removal of waste, which is expected to begin at 13 of the state's sites next year.

However, there is growing concern that if Congress fails to renew the superfund program this year, uncertainty about its future could disrupt the cleanup schedule and stall work at many waste sites across the country, including some in New Jersey. This would be a serious setback and is unacceptable to most New Jerseyans.

Part of the problem is the Reagan administration's proposal that action on the reauthorization be put off until after the November election. Because of the importance of the program and the harm that could result from a lengthy delay in extending it, I have urged the administration to reconsider its position and to work with the Energy and Commerce Committee in coming up with a bill that would have bipartisan support and would be acceptable to the public.

To neutralize superfund as a campaign issue and to build public confidence in the government's commitment to cleanup the nation's hazardous waste sites, the administration should signal its willingness to work for the speedy consideration of the superfund bill.

Not only must the superfund program be renewed, funding must also be substantially increased so that the program can be broadened to include the cleanup of the new toxic

being discovered around the country every year. The \$26 million price tag for cleaning up hazardous waste at the Chemical Control site in Elizabeth points up how woefully inadequate the \$1.6 billion superfund budget is to meet the problem.

Unless funding is increased to \$5 or \$6 billion, the Environmental Protection Agency may be forced to remediate a site's most serious problem and then move on to other sites on the priority list, eliminating immediate threats to public health and the environment without finishing the job.

That's not enough, the public wants and deserves a tough environmental protection toxic waste enforcement and cleanup program.

# Money Management

You don't have to be a financial wizard to assemble a sound investment portfolio. There are some basic guidelines that most investors can use, according to the New Jersey Society of Certified Public Accountants (CPAs).

Before planning to manage your portfolio, ask yourself: Do I have a reserve large enough to cushion myself against heavy losses or sudden emergencies? Generally, that sum should equal three to six months of your take-home pay, depending on the number of people you support.

The best place for the reserve is a money market account at a bank, or in a money market fund through a brokerage house. Money market funds may yield a bit more interest, but you may still prefer the convenience of having your money readily accessible at your bank. In either case, its liquidity is reasonably assured.

Once you satisfy the need for that nest egg, you can begin to expand your investments. Basic considerations in managing your portfolio are balancing your investments and evaluating risks. Let's focus on risk first.

There's some risk in all investing. Generally, the higher the risk, the greater the potential return. A single person with a steady job could probably afford to speculate more than one with a young family and a huge mortgage. The speculator may put as much as a half of his or her portfolio into stocks of little-known companies on the chance they may develop into major players. Not everyone can comfortably accept risk for the chance of a bigger return, so be sure you have the temperament to go with the risk.

Balancing investments means selecting investments with varying degrees of risk according to your total financial picture. Someone positioning his or her portfolio around gold or silver probably ought to put some money into a less volatile income-producing instrument, such as Treasury bills.

For instance, a young working married couple with no children may put 15 percent of their investment dollars into gold or silver mining company stocks. This is a good hedge against inflation, but risky because of possible downward fluctuations in the price of hard assets. The couple might balance out their portfolio by placing 15 percent of their money in a money market account, 5 percent in U.S. Treasury Bonds, 30 percent in an income mutual fund and 35 percent in stocks of emerging companies.

Buying stock in emerging companies is one of the most common ways to make speculative investments. If selecting the stock requires more time and savvy than you possess, consider buying shares in an aggressive growth mutual fund. These funds, also called capital appreciation funds, employ money managers who purchase stocks for shareholders. For more information on such funds,

you may want to contact the Investment Company Institute, the Washington, D.C. - based trade association representing these funds.

A more secure, income-oriented investment can be found in growth - and income-producing mutual funds or in certain stocks that yield dividends. The safest type of dividend stocks are called preferred issues are given dividends before common stock shareholders.

One of the investments regarded as most conservative are U.S. Treasury Bonds. As you get closer to retirement and the need for a secure source of regular income becomes more important, this type of investment becomes more attractive. Be careful, however, of locking yourself into the same interest rate for long periods of time.

**MONEY MANAGEMENT** is a weekly column on personal finance prepared and distributed by the New Jersey Society of Certified Public Accountants.

A soap box derby was approved for staging on Gallows Hill Rd. Saturday, June 9 (rain date June 16). chemistry from Brandeis University, a bachelor of arts in general chemistry from Radcliffe, and is working on a master's degree in science and environmental reporting at NYU. She had previously been employed at the Aerospace Research Application Center in Indiana as a consulting chemist, acting director of technical services and a staff chemist.

Mrs. Cordes stated: "We have been residents of Westfield for the past five years and we believe that it is a beautiful and well-run town. I am anxious to contribute some of my time, efforts and talents to preserving the beauty of Westfield and at the same time learn more about how town government works. I look forward to meeting the residents of the fourth ward and I am planning an ambitious door-to-door campaign in order to meet the people of the town on a person-to-person basis."

Frigerio is completing his first two-year term in the office as mayor. Elected in 1982, Frigerio previously had served as a Town councilman from the fourth ward for four years, had been a member of the Westfield Planning Board and chairman of the Westfield Town Republican Committee.

A partner in a general insurance agency in Union, Mayor Frigerio is a member of the Westfield chapter of Unico and of the 200 Club of Union County. He also has been active in Holy Trinity school affairs.

An 18-year resident of Westfield, the incumbent mayor and his wife Janet have three children, Susan, Gregg and Cheryl.

A resident of Westfield since 1959, Boothe was appointed to the Council in September 1980. He was elected to two-year terms in 1980 and 1982. He is now chairman of the public safety committee, and has been active on the public works, traffic and transportation and solid waste committees.

"Serving on the Westfield Council and dealing with the problems and improvements to this wonderful town has been one of the most rewarding experiences of my life," the candidate said. "I have enjoyed being a part of successfully completed projects, such as the Gumbert Field renovations, and I look forward to working on several things now underway, including the fire house renovation, computerization of the police department and meeting the needs of parking and the library."

One of the most challenging matters in which Boothe was active was the "Stop the Mail" campaign of 1982. Working with former councilwoman Betty List and the Westfield Chamber of Commerce, Boothe actively participated in 18 hearings before the Springfield Planning Board. These culminated in the application by a developer being rejected. The project would have allowed a massive shopping mall at

Union County Police Officer David Manganiello mans the Crimestoppers number, 654-TIPS, under the watchful eyes of Crimestoppers President Ron Posyton, Roselle Police Chief Vincent Trolan, president of the Union County Police Chiefs Association and Union County Chamber of Commerce President Clifford Peake of Westfield.

## Crimestoppers Seeking Donations

Crimestoppers of Union County Inc., a non-profit corporation that will pay anonymous tipsters for information leading to the arrest and indictment of criminals, is accepting donations from business interests to begin its mission.

In a joint statement released today, Chamber of Commerce President Clifford M. Peake of Westfield and Union County Prosecutor John H. Stamler announced the formation of a board of directors to review reward proposals, the establishment of a bank account to fund the tip payments and the development of plans for a 24 hour hotline to receive the calls. The number to call is 654-TIPS.

The program is similar in operation to a New York City Police Department venture which has already generated thousands of calls, paid \$8,000 in reward money to people whose

identities remain unknown and has led to 34 arrests including a number of previously unsolved homicides.

Crimestoppers Inc. would pay amounts from \$25 to \$500 to persons providing information that is checked and found to be instrumental in solving a crime.

The program has been endorsed by the Union County Chamber of Commerce, the Union County Prosecutor's Office, the Municipal Investigator's Association of Union County, the Union County Police Chiefs Association and the Union County Association of School Administrators.

Local businesses have already contributed to the non-profit, tax exempt program and the calls are beginning to come in.

The ten-member board of trustees, a group of concerned citizens will review all information by

anonymous informants for the possibility of reward payments.

Here's how Crimestoppers works: the caller is given an identification number and the information taken down. The information is checked out, and when the informant calls back he or she will be told if a reward is possible. If an amount is approved by the board, the bearer of the special i.d. number will be able to pick up the cash amount at a local bank, no questions asked.

The success of the program, according to the organizers, depends upon a joint effort by the community, business interests, law enforcement and the media.

Donations may be sent to "Crimestoppers", P.O. Box 300, Elizabeth, N.J. 07207.

## Eye Openers

By Dr. Bernard Feldman  
Optometrist

WHO IS A SAFE DRIVER?

The American Optometric Association has published a profile of what it terms "The Safe Driver."

The safe driver does not mix alcohol and driving, nor driving with drug-taking or even smoking. He or she reduces speed at night and adapts driving habits, during the day, to conditions of the road, the traffic and the weather.

"Safe drivers," says the A.O.A., "recognizes the importance of visual skills, of visual acuity, depth perception, field of vision and their ability to see clearly after nightfall and before dawn."

The safe driver knows his visual capabilities and uses them to the utmost. But he also knows, based upon his eye doctor's diagnosis, his visual limitations. And he compensates for these limitations by being a "defensive driver."

### Jr. League Members To Attend Conference

Sonja Burkett, Kristine Luka, and Cissy Parham, all of Westfield, will represent the Junior League of Elizabeth-Plainfield when The Association of Junior Leagues, Inc. (AJL), an international voluntary organization, convenes its 62nd Annual Conference, May 6-9, at the Marriott Hotel City Line in Philadelphia, Penna.

Taking as its theme, "Critical Needs-Creative Responses," the conference brings together 750 delegates representing 160,000 members from across the United States, Mexico City and Canada to meet with food, housing and other emergency needs specialists. League members will exchange information about programs and ideas that have been initiated in their own communities to meet the ever-increasing demand for the delivery of basic human services.

Conference Chairman Virginia T. Austin, Oklahoma City, Okla., says, "In many communities there are those who are enjoying considerable economic prosperity, while others have fallen below the poverty level. Increasingly, Leagues are being called upon to assist in a wide range of emergency situations. We can't fall back on accustomed ways of responding in an emergency if those ways don't permit us to move fast enough. A hungry child can't wait. A homeless man can't be left to shiver in the cold."

League delegates will meet with experts drawn from industry, government and other agencies to take part in discussions and

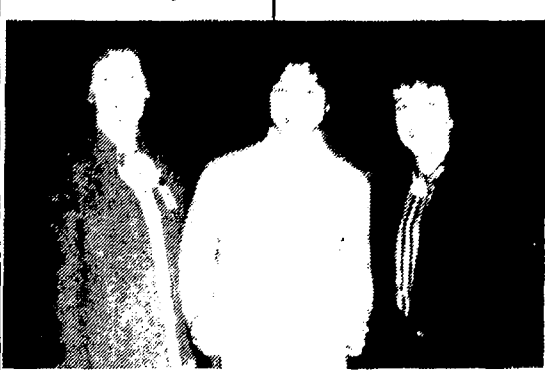

workshops that explore organizational obstacles to meeting emergency needs. They will also examine how public policy affects the delivery of direct services at local, state and federal levels, and review projects initiated by Junior Leagues and other organizations that could be replicated.

Among the projects being presented to the delegates that exemplify creative responses to critical community needs are: Project LEAD Food Drive (Leadership, Experience and Development), a program initiated by teens in Sioux City, IA, under the auspices of the Junior League of Sioux City, to feed the hungry; The People's Emergency Center of Philadelphia, PA

(sheltering the homeless); HELP (Harrisburg-Area Emergency Life-Survival Project), a coordinated community service program, Harrisburg, Penna.; and CoDe North, a community development program in North Memphis in which the Junior League of Memphis, Tenn. participated.

Some of the programs addressing basic needs that the Junior League of Elizabeth-Plainfield has initiated over the past year(s) includes the Management Assistance Program (MAP) and CHEMOcare.

One full conference day is committed to introducing the delegates to a training program designed to help Junior Leagues plan effective change strategies.

Pie Ran Ho, son of Mr. and Mrs. Pu-Kuei Ho of Westfield, an eighth grade student of Roosevelt Jr. High was recently named second place state winner on the eighth grade level in the annual American History Contest sponsored by the Westfield chapter, DAR. Pie Ran was a guest at the annual Awards Day program held at Rutgers University in New Brunswick where he was presented with an award for his winning essay on "My Master, The Blacksmith". Pie Ran is pictured with his eighth grade teacher, Mrs. Carol Noldo (right) and Mrs. Joseph Stoner, Chapter Regent.

League of Women Voters members Mrs. James Pulliam, Mrs. Lewis Maxwell and Mrs. Hugh Gleason prepare for the League's upcoming garage sale.

### LWV Garage Sale In May

The Westfield Area League of Women Voters (which includes Fanwood, Mountainside and Scotch Plains) will hold its first garage sale on May 11 and 12 from 10 a.m. to 3 p.m. at 513 Edgar Road, Westfield.

Donations of household goods and furnishings are needed to assist the League in continuing its many local programs. Each fall the League compiles addresses and mails over 19,000 "Know Your Candidate" sheets to

registered voters in the Westfield area. The League also distributes voter registration materials at high schools and area events, and provides trained moderators who preside at public candidate meetings. The League of Women Voters is a non-partisan, nonprofit organization whose purpose is to encourage citizens to participate in government.

This instrument was made especially for Mr. Wolosonovich on Service Electric's Cable T.V. stations in Allentown, Penna. and was used for his New York debut in Carnegie Recital Hall.

Junior Women's Club of Westfield officers for 1984-85 are: Seated from left, Norma Nemec, secretary and Pat Lenehan, second vice president. Standing from left, MaryAnn Harmer, first vice president; Linda Kreil, president and Mary Brautigam, treasurer.

## Jr. Woman's Club Elects Officers

The Junior Woman's Club of Westfield has announced the new officers for 1984-85. Linda Kreil will serve as president assisted by MaryAnn Harmer, first vice president; Pat Lenehan, second vice president; Norma Nemec, secretary and Mary B. Rautigam, treasurer. The Junior Woman's Club of Westfield is a member of the General Federation of Women's Clubs, a world-wide association that raises funds for charitable and educational purposes.

The club's major social service project this year was its fundraising for the Juvenile Diabetes Foundation - a \$10,000 check was presented to the Juvenile Diabetes Foundation at the club's April business meeting. Another social service project was the Unique Boutique Craft Fair whose proceeds help support various local charities such as the Westfield Rescue Squad, YMCA, YWCA and the Westfield Day Care Center. Club members also helped to organize and staff the blood drive of the

Westfield-Mountainside Chapter of the American Red Cross held this past January.

The new officers have already laid the groundwork for next year's major fundraiser, the eighth Annual Grand Auction, which will benefit The Arthritis Foundation. Club members will solicit donations for dinners and specialty items from local merchants and vacations from hotels world-wide.

Women interested in becoming members of the Junior Woman's club of Westfield are invited to attend monthly business meetings at the Woman's Club House, 318 South Euclid Avenue. The next general meeting of the club will be held on Tuesday, May 8 at 8 p.m.

## "Jam-boree" At Congregational

The Westfield Strawberry Jam-boree, to be held May 19 at the First Congregational Church, 125 Elmer Street, will replace the Westfield Antiques Show as the primary fund-raising project of the Women's Fellowship.

A variety of lunches, desserts, and snacks will be served, including fresh strawberry sundaes and shortcake, chicken with baked beans, barbeques on a roll, hot dogs, popcorn and soda. There will also be a bake sale and a recipe contest.

Many special children's activities — such as pony rides, face painting, a marionette show and cartoons — will also be on the agenda.

Members of the Women's Fellowship have been making hand-crafted items for the Strawberry Basket Boutique, including stencilled and fabric-lined mushroom baskets, cabbage patch doll clothes, hand painted wooden items, ceramics and needlepoint boxes.

Local craftsmen and artists will also be demonstrating and selling hand-made children's clothing, shadow box dollhouse miniatures, needlepoint and quilting.

Tickets will be available in advance from several locations in Westfield and surrounding towns. They may also be purchased from the church office.

The Westfield YWCA's Annual Supporting Membership Drive was launched this week at the 125th birthday celebration of the national organization, YWCA - USA. According to Hattie Harris, chair for this drive, a goal of \$12,500 has been set to help the Westfield YWCA continue its programs of physical health, education and personal improvement for women and girls in the community. This drive will continue through the end of May.

## YWCA Marks 125th With Fund Drive

The Annual Supporting Membership Drive of the Westfield YWCA began this week with a celebration of the national organization's 125th birthday. This association has grown to 400 associations operating in 5000 locations throughout the country; some 2.5 million women, girls and their families currently participate in YW activities.

The Westfield YWCA is going strong in shaping programs which meet the contemporary needs of women. Directed by Diane Jackson, the Women's Program offers classes in subjects such as prenatal preparation classes, and surviving the loss of a relationship, as well as trips to cultural events throughout New Jersey and New York and sessions regarding the practical concerns of learning, earning and surviving economically.

Donna Newman, Director of the Physical Education Department noted that the Swim & Gym for children has been the initial introduction for many women into the YW programs. Many women begin their children in the infants' programs and now senior citizens have a program they have helped design called Serendipity. Camp Runamok, operated each summer, provides teens with counselor and leadership experience.

The Y-Teens stress areas of interest to young

people from make-up and modeling techniques to PSAT and SAT preparation and weekend get-away trips. The Young Adult Singles Program offers weekly social gatherings followed by volleyball games and seasonal sports such as basketball and softball. Irene Flynn, director of these two programs, has also scheduled two sessions for preparation of GRE (Graduate Record Examinations) during May.

To meet financial needs, the YWCA of Westfield depends on several sources including the Westfield United Fund, program fees and membership dues. However, according to Hattie Harris, chair of the Supporting Membership Drive this year, these funds are not sufficient to provide all the quality services the YW is noted for. The Annual supporting Membership Drive provides an opportunity to help the Westfield YW continue to be "both a leader and innovator in the community."

To mark the 125 years of service in the USA, the Westfield YWCA has set a goal of \$12,500 this year. The culmination of this drive will be the annual luncheon meeting of the organization to be held at the end of May. Area residents are invited to attend this meeting to learn about the YWCA's future plans.

In rehearsal for "The Princess and the Pea", this spring's production by the Westfield Recreation Department's Drama Workshop, Jennifer Thompson as the King and Judy Kelly as the Queen explain to Prince Peter (Amy Metroka) where their kingdom is.

## Drama Workshop Presents "Princess..."

Free performances of "The Princess and The Pea," a dramatization of the Hans Christian Andersen story, will be given Friday and Saturday, April 27 and 28, at 8 p.m. in the auditorium of the Board of Education administration building at 302 Elm Street.

The comedy about the discovery of a real princess is being presented by the Drama Workshop of the Westfield Recreation Department. The cast is made up entirely of Westfield youngsters in grades 7 through 9. The production is the culmination of six months of weekly classes in improvisation, mime and acting techniques under the direction of Jan Elby. She has been assisted by Ellen Brandt.

The play will be repeated in May for audiences from Franklin, McKinley and Wilson Schools at special matinees.

## Children Learn a Hospital Can Be "Fun"

Children's happy voices bubble over from the Overlook Hospital auditorium as nursery school tots whiz down the aisles in wheelchairs, listen to each other's heartbeats and ride up and down on a hospital bed.

These voices belong to 202 four and five-year olds from area nursery schools including the Westfield Co-op Nursery School, who recently participated in Overlook Hospital's pediatric orientation program.

The popular program is a community service provided by the Health Education Department of Overlook Hospital in conjunction with the Junior League of Summit for the children of surrounding communities. Its aim is to give young children a happy introduction to the hospital so that if they

become patients they are prepared to face the situation. With the aid of a film featuring "Mister Rogers," a favorite children's television personality, the youngsters visiting Overlook get a glimpse of what it is like to be a hospital patient. Junior League of Summit volunteers, coordinated by Cass Miller of Morristown, encourage the children to talk about what they have learned and give the youngsters firsthand experience with some of the procedures and equipment used in today's modern hospital.

Each child puts on a hospital bracelet bearing his or her name just as if they were patients. They get to ride in a wheelchair, sample the motion of an adjustable hospital bed and learn where their heart is

What a Ride! Karen Anderson of Summit, left, a Junior League of Summit volunteer, operates an adjustable bed at Overlook Hospital, as preschoolers Elizabeth Held, center, of Westfield, and Nicole DeSantis, right, of Westfield, stretch out and enjoy the ride. The children participated in Overlook's Pediatric Orientation Program this spring with their classmates from Westfield Co-op Nursery School.

and what it sounds like by using a stethoscope.

What do children like best about their visit to the hospital?

"I like the doctors the best!" ... "I had stitches once!" ... "My Daddy was here!" ... "I have one of those name bracelets!" ... "I liked everything!" were some comments from the most recent visitors.

"It's definitely a good learning experience," commented nursery school teachers who brought their classes to Overlook in March. "We come every year. It takes some of the fear out of the hospital and sets the children's minds at ease."

"Look What I Got!" — Cathryn Hager of Westfield shows the coloring book she received at Overlook Hospital when she and her classmates from Westfield Co-op Nursery School participated in the hospital's Pediatric Orientation Program this spring.

## Softball Team Ups Record With Two Shut-Outs

By Laura Schwartz

The WHS varsity softball team upped their record to 4-2 last week as they soundly defeated Irvington (9-0) and Johnson Regional of Clark (7-0).

This could very well be the year for the batwomen. It seems as though things are starting to go their way. When a team rallies for five runs, with two outs, as did the Devils against Clark, things are looking good.

Also looking good is junior pitcher Nancy Kasko. Against Irvington Kasko threw a no hitter. Going into the top of the fifth inning she had a perfect game going, no hits no walks and no errors committed by the defense. It was the leadoff batter for Irvington who drew a walk from Kasko which ended the perfect game. Kasko finished the game striking out a total of 11 Irvington players.

Defensively the Devils can play against any team in the state; it has been offensively that the batwomen have had their problems, according to coach Carol Donner.

Against Irvington third baseman Kim Canata lead the Devils going 2 for 3 and a walk. Canata hit a single and a double driving in a total of three runs. Other than Canata's, the Westfield bats were silent throughout the game. The Devils collected a total of eight walks and five hits.

It was against Clark that the Devil bats really got hot. Four hits, a walk and three errors by Clark produced five runs in the bottom of the first inning. Kasko had one of those first inning runs producing hits along with two other singles in the third and fifth inning as she went 3 for 3 on the day.

On the mound for Westfield was once again Kasko and once again she

had a great day. She struck out four, walked two, and allowed only two hits. Kasko's ERA now stands at 0.68.

## Devils Split Games

By Todd Slamowitz

The WHS varsity baseball team struggled through another week of uneven play. The squad opened the week with a well-played 2-0 win over Linden, evening their record at 3-3. However, the team plummeted under .500 with a disheartening 3-1 loss to Johnson Regional of Clark.

The Devils mustered enough offense against Linden to back up Kevin Price's pitching performance. Price went the distance, yielding six hits while striking out three batters. He managed to work his way out of trouble in almost every inning. In the first, Price faced Linden with two men on and one out and managed to end the inning with two comebackers to the mound.

In Westfield's half of the first, Mike Parrish led off the game with a walk and scored on a Ken Miller double to left centerfield. The Devil bats stalled until the third frame when sophomore Derek Muller opened the inning with a home run over the leftfield wall. This concluded the scoring for the afternoon and that was all Price needed. He was backed up by a defense led by Muller at shortstop.

Westfield travelled to Clark next only to see its modest two game winning streak snapped. The team displayed overall a poor output both offensively and defensively. They managed only five hits and committed a season high five errors. The lone run came in the sixth after Johnson Regional had taken a 3-0

game will be against arch rival Union. The Devils were downed 4-3 earlier in the season. The game will take place May 4 at 3:45 in back of the high school.

lead due to poor defense. Parrish doubled and scored on a misplay by the leftfielder on a Padula fly ball. This contest saw Johnson Regional neutralize the Devil's running game as Westfield could manage only one stolen base in three attempts. The lone bright spot of the contest was the pitching of Steve Buontempo, who, despite the lack of defense, completed the game. He yielded six hits while fanning five and gave up no earned runs.

For the week, Westfield stole three bases in six attempts. Prior to that, the team was swiping bases at an 83% clip. The Devils suffered a major setback when Dan Hauck went down with an injury to the jaw two games ago. Hauck, a team leader, was hitting .467 with a team-leading six stolen bases. He will miss at least a month of the season. Dan Grasso is hitting at a .333 clip with two homers and nine runs batted in. This week, the Devils faced Plainfield away Tuesday, meet Scotch Plains home today and have a county game on Saturday.

## Residents Aiding Rebuilding Of Israel Town of Kadima

About a dozen Westfield residents are actively involved in the revitalization of Kadima, a town in Israel, northeast of Tel Aviv.

The town has been adopted by the Jewish Federation of Central New Jersey, which working with the people of Kadima, are developing both pro-

grams and budgets to supply the necessary support.

Working on the project from Westfield and Mount ainside are Harold Cohen, Tom and Bonnie Forgash, Alan Goldstein, Geri and Richard Samuel, Betty and Herb Seidel, S. Irving Sherr, Polly Tannenbaum and Robert Weinberg.

The second half was once again a shooting exhibition for the Devils, as they scored seven more time to make the final 6-4. Gilday led all scorers with three goals and five assists. He was followed by three other Westfield players with hat-tricks; Chris Aslanian, three goals and one assist, Goski and Rob Schmalz each had three goals. John Kelly, Ron McGann, and John Rochford each had one goal apiece, as did Hone, but he also tallied an im-

pressive four assists. Defensemen Chris Goss and Doug Unger, along with midfielder Jim Miller played tenacious defense. Miller was especially aggressive, as he laid claim to almost every ground ball in his area, regardless of the number of North Hunterdon players around. Saturday against Hunterdon Central Saturday 6-4. The Blue Devils record now stands at 4-2.

One minute into the North Hunterdon game Dave Hone gave Dan Gilday a pass and Gilday converted it into a goal. From there on out the game was never in doubt. Westfield added two more scores in the first quarter when Paul Goski scored unassisted and John found the net off of a Hone pass. The first quarter score was 3-1 with North Hunterdon attempting a comeback, but the Devils exploded for six second period goals to put the game out of reach at 9-3 at halftime.

The fourth period was also action packed; as it saw Devil goalie Dennis Lynch make several fine saves to keep the Devils in the game, he had 14 saves on the day. However one Lynch didn't save gave Central the lead at 4-3 with just eight minutes to play. Two minutes later the G&G combination (Goski and Gilday) hooked up, when Goski hit Gilday with a perfect pass as Gilday was cutting towards the goal. Gilday's goal tied the game at 4-4. He then proceeded to put the game away for the Blue Devils; when he assisted on Schmalz's go ahead goal, and then iced the game on another

## Stickmen in Top 10 With Latest Victories

By Dave Coates

After three weeks of trying, the Westfield High School varsity lacrosse team finally broke into the Top 10 poll. The stickmen were ranked #10 after an impressive 16-4 win over North Hunterdon Thursday, and should move up in the poll after a hard fought victory over Hunterdon Central Saturday 6-4. The Blue Devils record now stands at 4-2.

One minute into the North Hunterdon game Dave Hone gave Dan Gilday a pass and Gilday converted it into a goal. From there on out the game was never in doubt. Westfield added two more scores in the first quarter when Paul Goski scored unassisted and John found the net off of a Hone pass. The first quarter score was 3-1 with North Hunterdon attempting a comeback, but the Devils exploded for six second period goals to put the game out of reach at 9-3 at halftime.

The fourth period was also action packed; as it saw Devil goalie Dennis Lynch make several fine saves to keep the Devils in the game, he had 14 saves on the day. However one Lynch didn't save gave Central the lead at 4-3 with just eight minutes to play. Two minutes later the G&G combination (Goski and Gilday) hooked up, when Goski hit Gilday with a perfect pass as Gilday was cutting towards the goal. Gilday's goal tied the game at 4-4. He then proceeded to put the game away for the Blue Devils; when he assisted on Schmalz's go ahead goal, and then iced the game on another

unassisted goal of his own to make the final 6-4.

Gilday's 13 point week, 6 goals and 7 assists, enabled him to move into a tie with Summit's Chris Tyler for the state's scoring crown lead. Each player has 26 points on the year. The stickmen faced Clifton yesterday, and will play Hanover Park Saturday morning away at 10. The Devils also face their toughest game of the season Wednesday when they play #1 ranked Montclair home at 3:45.

Central dominated the first half of play, shutting down the Westfield offense and taking a 2-0 lead at the half. However at halftime Westfield coach Shaun Cherewich decided to make an offensive switch. He chose to play high scoring Gilday behind the goal, instead of his usual crease position. In the first half Central had on defensemen following Gilday all over the field, but with Gilday behind the net, Central was unable to play this type of defense. As a result, Gilday was able to receive the ball behind the net and from there attack the goal.

Coach Cherewich's move payed off when Gilday got the ball and went one on one to score the first Westfield goal early in the third period. Central then scored to up its lead to 3-2. McGann then took a Gilday pass and found the back of the net to cut the lead. Goski then scored unassisted to end the third quarter knotted at 3-3.

The fourth period was also action packed; as it saw Devil goalie Dennis Lynch make several fine saves to keep the Devils in the game, he had 14 saves on the day. However one Lynch didn't save gave Central the lead at 4-3 with just eight minutes to play. Two minutes later the G&G combination (Goski and Gilday) hooked up, when Goski hit Gilday with a perfect pass as Gilday was cutting towards the goal. Gilday's goal tied the game at 4-4. He then proceeded to put the game away for the Blue Devils; when he assisted on Schmalz's go ahead goal, and then iced the game on another

## JV Lacrosse Record 3-2-1

The Junior Varsity Lacrosse Team has started another season with three wins, two losses, and a tie. The J.V. won against Princeton (5-4), Clark (4-3) and North Hunterdon (8-3). The losses came from the team's own mistakes at Delbarton (5-3) and Hunterdon Central (2-1). The Westfield's J.V. tied Summit (3-3).

The first midfielder, John Macoluso, Jerry Chen and Jim Russell, took more than 50 shots in the last six games. Paul Schirmer has had four goals and is on his way for more. The defense has saved the most outstanding shots by their opponents. The two goalies, Steve Ciarraco and Paul Kiltika, made excellent plays in all six games. Although the team has been hurt with penalties, the team is well on its way to the state's championships.

## Netsters Undefeated

By Rick Bartok

The WHS boys' tennis team continued to look impressive as the Devils pushed their record to 5-0 with wins over Summit (4-1) and Linden (5-0).

The netsters opened up their week against Summit, perhaps Westfield's strongest challenger for the Union County crown. The first doubles team of Peter Sherman and Andy Yearley captured the netsters' first point with a 6-0, 6-0 route of Summit's Chris Keating and Jim O'Mara. Sherman and Yearley were able to take

control of the net early and never looked back.

Second singles Jerome Lopez won his match against Mike Newbold without dropping a game. Lopez continually fired away with his forehand, scoring from the baseline nearly at will.

Rob Rogers and Keith Komars, the netsters' second doubles tandem, looked impressive during a 6-1, 6-1 downing of Summit's Tom Inglesby and Steve Hubbard. Rogers and Komars overpowered their opponents with strong serves, while following them up with crisp volleys.

Third singles Carl Kumpf was able to frustrate Jeff Peterson with a mixture of a baseline and net game. Kumpf was in control throughout his 6-0, 6-1 triumph.

Westfield's first singles Rick Bartok was never able to get on track during his 6-2, 6-3 loss to Summit's John Christensen.

Christensen used a varied attack for the win.

Westfield's fifth consecutive win of the season came at the expense of previously undefeated Linden.

The netsters started the match with three freshmen — Mike Drury, Hampden Tener, and David Weiner — seeing their first action of their high school careers.

Drury teamed with Paul Markson at first doubles and posted a 6-0, 6-0 win over Dominick Esposito and John Billero, while Tener and Weiner coasted to a 6-1, 6-0 victory over Kurt Leithner and Edward Tyliki.

First singles Bartok downed Linden's Al Rodriguez 6-1, 6-3. Yearley moved up to second singles and took a 6-0, 6-1 decision over Dan Kwiecien. Rogers won his match by a default.

The netsters continue to play top 20 teams as they face Bergen Catholic Tuesday.

Mayor Ronald J. Frigerio has issued a proclamation in support of the 10th annual fund raising drive of the New Jersey State Council, Knights of Columbus for the benefit of mentally retarded citizens, and those with learning disabilities. This annual Tootsie Roll Drive will be conducted on April 26, 27 and 28. The statewide fund drive by the Knights of Columbus Councils throughout New Jersey raised more than \$4,000 for this cause.

"I am pleased to lend my support to this outstanding fund raising effort," said Mayor Frigerio. "The money raised will be distributed to organizations in the Westfield area that works exclusively in the field of mental retardation and learning disabilities. I sincerely hope that our citizens will contribute generously to this program."

**Comets 5-Asteroids 5**  
The Comets marched to a 25-5 victory over the Asteroids. Asteroids took their first victory of the season. A fine defense proved to be the stopper. The infield play of Chris Manning, Dennis McKeever, James M. McKeever, Olivera and Adam Yanuzzi kept the Asteroids off the bases in the first three innings, while the offense produced 13 runs putting the game out of reach. James Nicol and Adam Yanuzzi each scored five runs with 5 for 5 performances. Power hitting Dennis McKeever homered in the fourth inning, and was also 5 for 5. Michael Dickey, Wally Biotta and Greg Murphy each collected a hit. Hillary Cooper and Mary Wampler played excellent defense in the outfield, slopping all balls hit to them.

**Cosmos 38-Rockets 10**  
In their second game of the season, the Cosmos' power at the plate overwhelmed the Rockets 38 to 10.

All of the Cosmos' batters had a good day. Jeff Haag, Brian McGuire and Mike Downing all had a perfect day at the plate. Jeff went 6 for 6 while Mike and Brian went 5 for 5. Seth Coren played a steady first base. He contributed five runs to the winning cause with his 5 for 6 effort. Glenn Gutterman also had a 5 for 6 day and scored three times. David Fela, at short stop, and Jamie Gutterman at third combined to make the left side of the diamond a defensive stronghold. At the plate, David went 5 for 6 with a home run, Jamie demonstrated his hitting power with two well hit triples. Doug Breed and Gary McMillan each had five hits and scored four runs. Janna Chernetz had three hits and scored twice. Aldeen O'Keefe played well and had a single.

Even though they lost, the Rockets did play well. They had several well hit doubles and triples and executed several good fielding plays. The Rockets players are: Kevin Boyle, Billy Rodd, Rodney Hayes, Chris Manos, Matt O'Leary, Vicki Lippera, Rick Kostro, Chris Garofalo, Mike Mahino and Eric Frankel.

**Jets 12-Satellites 9**

Jonathan Tischler started the winning rally with a double which was followed by singles by Allison Birchall, Rue Salto, John Clare and doubles by Matthew Curry and Chris Black. Singles by Boomer

Wertheimer and Tara McEnerney brought in the final two runs of the inning.

In the last inning the Satellites comeback was fueled by hits by Chris Partelow, Steve Ketcham, Kevin McClane, Dave Kressner and Aaron Beyerlein but a fielding gem by Chris Black of the Jets helped seal the rally.

with six hits apiece. Brian also paced the scoring by crossing the plate all six times he was on base.

Early in the game the Stars battled tough as they held the Jupiters to a 7-5 lead after three innings. A possible big second inning for the Jupiters was blunted by an outstanding catch by second baseman Chris O'Connell of a sure extra base hit by Keith Zadorian, who had four hits on the day. Neal Sharma at third base and the outfield of Andy Ruggiero, Dan Urbano, Julie Vincentson and Megan Joyce also played well defensively for the Stars.

The Jupiter offense exploded for twelve runs over the last three innings. Sal Zurino, Carl Stofers and Louis Guzzetti each wound up with four hits and Kenny Kretkowski contributed two hits to the late inning rallies. Erin McCarthy batted in a run with her first double of the season. The Jupiter defense was anchored by Keith Zadorian at first base and Greg Rhodes, who had numerous assists, on the mound. Carl Stofers, Sal Zurino and Kenny Kretkowski also made nice plays in the field.

The Stars' attack was led by Brian Ramsthaler who went 3 for 3, including a triple and two doubles, in three trips to the plate. Danny Zemsky had a double and a single, while Tim O'Brien had a pair of singles and scored twice. Kelly Feeney and Mike O'Hare each scored once for the Stars.

## Crusaders Lose To Lions 9-8

Keith Rich hit a deep drive to left field enabling Tom Diemer to score from second giving the Lions their opening day win over the Crusaders. In the first inning the Crusaders scored three runs, but in the bottom of that inning Lions' David Olivella singled and stole second and Brandon Lopresti singled him home.

In the bottom of the fifth with the score 7-3 in favor of the Crusaders, a single by Mike Conneeny started a run rally highlighted by a three run home run by Anthony Bussico. With the score tied 8-8 going into the bottom of the seventh,

the Lions Tom Diemer doubled and this set the stage for Keith Rich's drive into left field.

Excellent pitching by Tom Diemer and Brandon Lopresti held the Crusaders in check for most of the game. Diemer struck out six while allowing five hits. Lopresti struck out 5 while allowing three hits. Defensively, the Lions were led by the strong catching of Steele Williams and the second base play of Philip Hofer.

For the Crusaders, Sean Lucas and Kevin Smith provided strong pitching for the Lions' offense.

### SPRING SOCCER RESULTS

Livingston - 3 Westfield - 1

A sunny cool spring day saw the Astros and Lasers meet with some difficulty. The Livingston field was not ready for the game and required a field change prior to the start of the game which was delayed about a half hour. The experienced Astros fought bravely but were fighting both a strong wind and a Livingston team that had played two seasons together as a team.

Livingston quickly took the task of the Westfield defense for two quick goals in the first period. The Astros fought back led by the excellent play of J.P. Maloney at wing and Matt Bilodeau at striker. A determined performance was turned by Michael Reiss who tried several times to penetrate the Laser defense. Livingston returned the attacks, by Westfield, scoring again in the 2nd Quarter.

The third quarter the Astros came to life led by the midfield control of Justin Burchett, Bob Berry, Craig Korb, Grant Cowell and Matt Bilodeau, resulting in a quick goal by Bob Berry. The assist from J. P. Maloney. The alert defense of fullbacks Jose Escobar, Rob Rittenhouse, Matt Fahey and Bob Wilson help keep the Lasers from scoring on several occasions.

The excellent goal keeping of Bob Wilson and Bob Rittenhouse shut out the Lasers during the second half of play, as well as the note worthy performance of Steven Hegarty at fullback. The Astro attack greatly missed the ability of Joey Agnone who came down with chicken pox on Saturday morning. The final score ended with Lasers-3 and Astros-1.
