First Day of School - Jefferson School teacher Marie Byrne shows the opening date on the calendar to kindergartners Krista Matteo and Robert Golightly as schools opened yesterday for nearly 5,000 students in Westfield.

Five Teachers Rehired For Elementary Schools

Five teachers were rehired by the Board of Education Thursday night before a standing-room-only crowd attending the August business meeting. They will augment teaching staffs in Franklin, Jefferson, Wilson, Washington and McKinley schools.

The teachers will permit the splitting of large class sizes in these schools as well as eliminate a potential primary cluster class at Jefferson. Had the board not restored regular teaching staff, the high numbers in the classrooms would have necessitated the employment of teachers' aides under an established district policy.

Cost of rehiring a kindergarten teacher and four elementary teachers will amount to \$121,970; hiring of a kindergarten teacher and three aides, the alternate plan, would have cost \$45,331.

It was agreed that \$100,000 is available in the budget for the rehiring of the teachers and the additional \$21,000 "could be found." "We've always had a surplus," commented Carolyn Moran.

The teachers, among the 40 cut from staff previously, include Diane Russell, who was assigned to a half day kindergarten class at Franklin School and an additional half day at Jefferson, at a salary of \$25,750. Other assignments and salaries were awarded to Barbara Brandes, sixth grade at Wilson, \$21,445; Karen Kashiak, fifth grade Washington, \$26,100; Bette Tuthill, 6/5 cluster class at McKinley, \$26,100; and Elizabeth Lane, fifth grade Franklin, \$22,575.

With the addition of the five teachers, class sizes in Westfield's six elementary schools range from a low of 17 in kindergarten sections at McKinley and Wilson to a high of 28 students in two of the Jefferson sixth grade classes; most classes are in the 22-25 student range.

Additional staff members appointed by the board Thursday night were: Robert Bruno, replacing Anthony Lazzaro, retired, high school social studies, \$17,505; Daniel Fiadino Jr., replacing Gary Dushkin,

resigned, special services social worker, \$20,600; Janet Hertzberg, replacing James Geohagan, transferred, high school social studies, \$16,400; Joan Horn, replacing Diane Morris, on leave, Washington elementary, \$26,270.

Also Elsie Jones, half-time high school Spanish, \$8,858; Nancy Liggera, replacing Susan Carter, resigned, special services English as a Second Language, \$19,115; Jeanne Magliaro, replacing Janice Tighe, retired, Edison home economics, \$23,325; Lora Monfils, replacing Kelly Cullenberg, resigned, high school math, \$16,400.

Also Barbara Rottenberg, replacing Holly Slaughter, transferred, Jefferson elementary, \$23,800; Kathleen Zippler, new position, business education, Edison, \$18,660; Gladys Chambliss, replacing Beatrice Leib, on leave, high school computer aide, \$7,010; Christy Horner, special services aide at Jefferson and Tamaques, \$6,527; Susan Locascio, replacing Beverly Mauerer, Edison library aide, \$10,710; Morris Tarabar, replacing Nancy Dinicola, resigned, high school computer aide, four/fifths time, \$5,222.

Also Edith Cechini, former half-time art teacher at Franklin and Washington Schools, replacing Karthryn Brede Rifed \$18,960; Brenda Lupo, former phys. ed. teacher, to guidance counselor at high school, \$19,593; and Margaret McFadden, from part time special services adaptive phys. ed. to full time Edison phys. ed., replacing Linda Jablonowski, on leave, \$17,050.

The retirement of Robert Mayer as Jefferson principal, and the resignations of Elia Jimenez, high school Spanish teacher, Wandu McKenzie, Edison custodian, and Lenore Robina, McKinley safety patrol advisor, were accepted.

Special assignments included, at the high school, Joseph Miceli,

Tamaques Park Site For Fun Day Sunday

The seventh annual Family Fun Day will be held Sunday in Tamaques Park.

Family Fun Day, which has activities to get the entire family involved, is sponsored by the Westfield YWCA.

In addition, Family Fun Day raises funds to help support the Children's Specialized Hospital in Mountainside and Spaulding for Children.

The festivities will get underway at 10 a.m. with the One-Mile Fun Run. A Five-Mile Run will follow at 10:30 a.m. Runners and joggers who have not signed up for either event can do so on race day.

The children will take over the grass fields at 11:30 a.m. when they compete in Lollipop Loops, a series of four events (obstacle course, parachute play, potato sack race, and water balloon throw) for children under the age of 13.

The afternoon action will be

kicked off with a softball game between the Westfield Area Chamber of Commerce and the Town of Westfield. The Chamber Champs won last year's battle by one run. The game is set to begin at 12:30 p.m.

Two hours later, will be the main event of Family Fun Day. Sacks Pac, one of the most popular softball teams in the area, will take on the WABC-TV Channel 7 All-Stars, featuring correspondent and anchor of the

"Future of Westfield" Hely Campaign Theme

Jim Hely opened his campaign for Mayor before many volunteers gathered at his Westfield home by stressing a concern for the long-term future of Westfield. "Government by simple day to day management will not be enough to keep Westfield livable in the 1980's and 1990's," Hely declared. "There are economic pressures on the Town that weren't present in earlier decades, and we need a vision of where we're going."

Hely, who grew up and was educated in Westfield, as was his father before him, noted changes that have taken place over the course of years. "When my

father came back to Westfield after college and World War II, a young family could get a start here, get their children educated, and have an affordable home with affordable taxes. They could plan on living their entire lives here if they desired.

"However, what we see now is young people unable to come back to Westfield and older people being effectively forced out," Hely observed. "I consider myself lucky to have found an affordable home here, but I know that too many of my contemporaries have been kept away."

Dr. Cosquer Opens Campaign For Ward 3 Council Post

Dr. Armand Cosquer announced the opening of his election race for the third ward council seat today declaring that the theme of his campaign will be "governmental responsibilities and accountability."

Dr. Cosquer has been a foreign language teacher in New York City for the past 21 years. A former New York City resident, he received his B.A., M.A., and Ph.D. degrees in French from the City University of New York. He also holds an M.S. in educational administration.

Involved in union activities, he was chapter chairman of Seward Park High School for five years. Last year, although on sabbatical, he regularly travelled to New York to assist his replacement in that position. He also represents teachers at hearings

for unsatisfactory ratings. For the past four years, he has been a delegate to the conventions of the American Federation of Teachers and the New York State United Teachers. "The AFT believes in giving equal time to political aspirants," stated Dr. Cosquer, "in 1983 our convention in Los Angeles heard President Reagan's proposal of solutions to 'a nation at risk,' that is, school prayer and tuition tax credits, whereas this year in Washington, D.C. we were pleased to hear Vice-Presidential Candidate Ferraro propose to raise the quality and prestige of teaching with increased standards and better pay."

Sullebarger to Head Fund Appeal

The United Fund of Westfield has called on the leadership capabilities of Frank Sullebarger as chairman of the fund's annual 1984 appeal.

The appointment of Sullebarger as the chief organizer of what traditionally is the broadest based volunteer campaign in Westfield was announced by Robert L. Duncan Jr., president of the United Fund board of trustees.

"Frank is a long time affiliate of our organization and is sensitive to the needs of Westfield

and the services our 17 member agencies provide. We are indeed most fortunate in having him serve in this key role. Sullebarger has proven himself

an excellent organizer who can achieve results, and we are confident that his direction will provide a campaign that touches all Westfielders," said Duncan.

A 25 year resident, Sullebarger has worked as a solicitor in the special, advance, major, and residential divisions in the past fund appeals. He has many years of community service, having been a member of Town Council from 1979 to 1981, and is currently chairman of the Planning Board. Sullebarger was also a director of the YMCA, a member agency of the United Fund. He is a member of the Presbyterian

NUCLEAR WEAPONS

Editor, Leader:

President Reagan tells us that he is asking the Soviet Union "to join us in reducing and ridding the earth of this awful threat" (Nuclear weapons). It sounds good, but does he really mean it? We must judge a man by what he does, not by what he says. Let's look at the record!

1. Secretary of Defense Caspar Weinberger stated, in March 1983, that we must be prepared to fight a nuclear war and "to prevail." That means that we will win. This administration actually believes that we can win a nuclear war, and they are preparing to do so.

2. We now have more than 30,000 nuclear warheads (10,000 in strategic weapons and 20,000 in tactical weapons), and Reagan has authorized the creation of 17,000 more, to be built over the next five years. We already have enough to kill every man, woman and child in the Soviet Union twelve times over, (and they can do the same to us). Even the replacement of outmoded weapons cannot justify all of these additional warheads.

3. The President has refused to negotiate with the Soviets in good faith. Consider his zero-zero proposal, for instance. It sounded good. But what it said was — zero for the U.S.S.R. in intermediate range nuclear missiles, while the British aimed at the U.S.S.R. What kind of a zero-zero is that? Reagan and his advisors knew that the Russians could not accept such a proposal. That is precisely why it was made.

4. On Aug. 13, 1984 the President made his infamous remark, "My fellow Americans, I am pleased to tell you I just signed legislation which outlaws Russia forever. The bombing begins in five minutes." That is supposed to be a joke. But it isn't a joke. It is an accurate picture of a kind of thinking that goes on in the mind of this man.

5. Reagan and his advisors refuse to discuss a nuclear freeze, even though 70% of the American people are in favor of a mutual and verifiable freeze on nuclear weapons.

Now, let it be understood, we all abhor the government of the U.S.S.R. It has deprived the Russian people of their basic liberties and human rights. But we cannot endanger the human race on this earth simply because we don't like the Soviet form of government.

Reagan stands for nuclear weapons — in unlimited numbers. Can we live through the next four years with such brinkmanship? I don't really know. We might. And then again — we might not!

LIBRARY EXPANSION

Editor, Leader:

I am writing to urge that attention be given to the possibility of expanding the Westfield Memorial Library in its present building, thereby making unnecessary the \$3.5-million facility proposed for the Grant School site.

Fry Consultants, which produced a Facility Evaluation Study for the library in 1980, concluded that "The existing facility has no latent expansion capacity which may be easily tapped. The building will not accept incremental expansion of library collections over the years." However, little evidence was provided to support this conclusion. Shortly after the release of that report, architectural firms were engaged to design ways of expanding the library outward from its present walls. However, the library trustees decided to recommend construction of a new library building on the Grant School site.

Blueprints show that a significant amount of square footage is available for library use in the basement of the present library. Basement areas which could be converted to library use include: (1) an area presently used for storage of stolen bicycles, (2) an area presently used for weight-lifting apparatus, (3) half of the Waterkunk Room (meetings there seldom fill more than half the room), and (4) miscellaneous other areas in the basement not presently used for library or maintenance purposes. These

basement areas add up to about 5,400 square feet.

In addition, if the mezzanine in the adult area is expanded across the entire building, and if a mezzanine is added in the children's area, about 3,800 additional square feet would result. Thus, the present building has the potential for adding about 9,200 square feet to the library.

Library expansion in its present building would require attention to political, structural, and financial considerations.

• Political considerations. The weight-lifting facilities and stolen bicycles would have to be relocated. Arrangements would have to be made for any other users of the basement.

• Structural considerations. Plans would have to be drawn for basement rearrangement, mezzanines, and an elevator for the handicapped. Water seepage, which causes problems in the basement area presently used by the library, would have to be controlled.

• Financial considerations. Expansion of the library in its present building would entail some expense, although certainly less expense than the \$3.5-million facility proposed for the Grant School site.

In view of the foregoing, the Town Council should gather additional information about expanding the library in its present building, as the Council evaluates the results of the Nov. 6 non-binding referendum on the \$3.5-million library proposal.

Archaeologists Find Ammonite Seal, "Dig's" Treasures to be Shown Here

An outstanding find from the excavation in the Middle Eastern country of Jordan at Tell el-Umeiri is the seal impression of the Prime Minister to Baalis, King of Ammon. The find is making archaeological history because it carries an inscription naming a king known until now only in the Bible, Jeremiah 40:14. This is also the first time an Ammonite name has been found in any written record having "Milkom" used as a theophoric element. Milkom was the Ammonite name for deity.

The seal impression is about three quarters of an inch across and forms a conical jar stopper that is only about an inch long. A winged scarab in flight is the cen-

tral design motif. Archaeologist Lloyd Willis of Spicer College in India found the object close to the surface during the early days of the excavation. Permission to give information about the seal with its preliminary drawing was granted by Dr. Lawrence Geraty, project director, to Dr. Elizabeth E. Platt, minister of education in the Presbyterian Church in Westfield.

Dr. Platt served as object registrar and at the end of the excavation period had catalogued 502 objects: Arrowheads, slingstones, stone weapons, textile industry tools, millstones, grinders, querns, stone bowls, jewelry, fibulae, beads, seals, scarabs, lamps, human and animal figurines, and others. Normally the Antiquities Department of Jordan received 50 per cent of the finds, but in this case its officers chose only 13 objects for their museums. The rest were generously allocated to the Horn Museum at Andrews University in Michigan. The director of the museum has given permission to Dr. Platt to have an exhibit of representative objects at the Presbyterian Church sometime in the fall.

The first season's excavation at Tell el-Umeiri began on June 17 and ended on Aug. 10. The site is about six miles south of present-day Amman near the highway to the new airport. The

staff of the excavation was composed of 75 members and included specialists in paleobotany, anthropology, geology, osteology, lithics, hydrology, as well as the usual fields of pottery analysis, epigraphy, architecture, stratigraphy, surveying, drafting, and photography. The project was highly commended by the evaluation officers of the American Schools of Oriental Research who spent two days visiting the site and its laboratories as the "premier dig" of the archaeological season. They praised the cleanliness of the excavation methods, the promise of the site, and the comprehensiveness of the specialists and their documentation.

Ammon was a kingdom to the east of Israel across the Jordan River. Throughout Israel's

The Avodah Dance Ensemble

Dancers to Express Prayers At Temple's Sept. 14 Service

The Avodah Dance Ensemble
returns to perform at the Shabbat
service at Temple Emanu-El,
Friday evening, Sept. 14.

Under the direction of Dr.
JoAnne Tucker, a member of
Temple Emanu-El's congrega-
tion, it will present four pieces in
the Friday Sabbath service.
M'Chamocha, a recently com-
missioned work by a congrega-
tion in Cherry Hill, is inspired by
both the prayer in the service and
the account of Miriam's celebra-
tion in dance following the cross-
ing of the Red Sea. M'Vakshel Or
draws upon ritual movements in
the Torah service and includes an
improvisation based on the week-
ly Torah portion. I Never Saw
Another Butterfly is based on
poems written by children and
young adults in concentration

camp. It will be followed by
Kaddish, a setting of the opening
of Leonard Bernstein's Kaddish
Symphony No. 3.

Avodah has gained national
recognition for its unique ap-
proach of combining modern
dance and Jewish ritual move-
ment to express prayers and
culture. Rabbi Charles Krolloff
has recently joined Avodah's
board of directors. Company
members are Rabbi Richard
Jacobs, Beatrice Bogorad,
Rachelle Palnick, Dircelia Rodin
and Lisa Green. The Avodah
Ensemble appears under the
sponsorship of Temple Emanu-
El's Endowment Fund.

The service will begin at 8:15
p.m. and the community is
welcome and invited to attend.

Concert to Celebrate High Holiday Season

Temple Emanu-El will feature
the Roslyn Artists String Quartet
at its Sept. 22, Shlichot service,
the service which officially ushers in
the High Holiday season. Found-
ed in 1973, the ensemble has
devoted itself to performing
Jewish music for Jewish au-
diences. Their presentation of
traditional Jewish music through
the instrumentality of the string
quartet is unique and is meant to
enhance the audience's apprecia-
tion of its cultural heritage. The
group has spent more than ten
years gathering its repertoire for
this purpose.
The members of the quartet

have concertized widely in this
country and in Europe and Asia.
Each of the performers is cur-
rently affiliated with a major
symphony orchestra. All have
given notable performances both
as soloists and members of
various chamber ensembles ap-
pearing at Carnegie Hall, Alice
Tully Hall and Avery Fisher Hall
as well as radio stations WQXR
and WNCN. They include C. Col-
lins Lee and Beth Ahmarn,
violinists, Lee Coker, violist, and
Sandra Fine, cellist.

The concert, which will
precede the service, begins at 9
p.m. and is open to the public.

Methodist Women's Luncheon Sept. 13

The United Methodist Women
will meet at 10 a.m. Sept. 13 in the
Fellowship Room with Janet
Newill presiding.

Devotions will be given by
Helen Spooner.
Dr. Carolyn DeSwarte Gifford,
coordinator of United Methodist
women's history project at
Madison, will speak on "Suzan-
nah's Daughters-American
Women in Methodism."

social hall by the elected officers.

history in ancient times the
kingdom had various kinds of
political relations with Israel. Its
name has the same root as
"Amen" said today at the close
of prayers. The meaning has to
do with being firm, trustworthy,
strong, as in a strong, safe coun-
try. In liturgy it becomes an affir-
mation of trust such as "surely"
or "so be it." Today the capital
city of Jordan bears the name of
this ancient tradition, Amman.

ASPIRIN SUBSTITUTE
Because it lacks many of the side effects produced by aspirin, "acetaminophen" is gaining popularity as a com-
mon household pain reliever. However, there is a growing concern about the public's lack of awareness of its toxic-
ity. Acetaminophen has been shown to be harmful to the liver where it is broken down and destroyed. However, the
problem occurs only when very high doses are taken. Eight 500 mg. capsules, taken daily, does not cause any ap-
parent harm. However, twelve to fourteen 500 mg. doses, taken daily can cause such toxic reactions as nausea and
vomiting, loss of appetite and stomach pain. There is also evidence of liver damage and jaundice within two to four
days. Obviously, people with chronic liver conditions must be careful when using acetaminophen.

HELPFUL HINT: Even aspirin may be harmful if taken in very high doses.

VIDEO DISPLAY TERMINALS
If you operate a computer with a video display terminal, there is a 50 percent chance that you will be complaining of headaches, blurred vision, or eyestrain. More than half of today's VDT operators are doing so already.

These symptoms, a by-product of state-of-the-art technology, also cause tiredness and reduce efficiency.

Some of the vision difficulties of VDT operators are caused by: 1. blurred characters on the screen; 2. an increase in the number and complexity of eye movements at nearpoint; 3. poor lighting; 4. glare and distracting reflections; 5. the set-up of the workstation.

If you sit at a workstation for prolonged periods of time, talk to your optometrist about stress-relieving lenses designed for VDT operation. In many cases, efficiency in scanning and using both eyes as a team can be improved by visual training.

Don't ignore visual problems and eye discomfort. Continued symptoms of poor vision should be relieved to prevent permanent visual and eye problems.

Museum's Reopening Features Herbalist

Miller-Cory House Museum, located at 614 Mountain Ave., will begin its 12th season on Sunday, Sept. 9, with a demonstration of herb preservation presented by local herbalist, Nancy Wallace. Guided tours of the 18th century house and surrounding grounds will also be given by costumed docents throughout the afternoon. The museum is open every Sunday from early September through mid-June from 2-5 p.m.

Nancy Wallace, designer of the 18th century herb garden at Miller-Cory Museum, will reenact the colonial housewife's task of drying and processing herbs in order to preserve them for a variety of household uses over the lengthy winter season. Some herbs from the museum's garden included in the program are: lemon balm, lavender, mints, feverfew, tansy, and yarrow. A member of the Northern N.J. Unit of the Herb Society of America, Mrs. Wallace is a charter member and past president of the Rake and Hoe Garden Club of Westfield and the Director of the Herb Garden at Trailside Museum. This softball contest promises to be every bit as exciting as last year's battle between Sacks Pac and the WCBS-TV All-Stars.

The entire family is invited to Tamaques Park Sunday for Family Fun Day.

nomenon is even more distressing," according to Hely. "There is nothing sadder than to talk to a longtime Westfielder who wants to stay in Westfield where his or her roots are, but cannot stay because of lack of housing alternatives. The older citizen whose family has grown up here often no longer wants to maintain a large residence with its commensurate taxes. Yet, that citizen has little choice in Westfield and we're seeing a sorry exodus. We are unintentionally kicking out the guts of Westfield," Hely said.

Hely told the group of volunteers that the longterm stability of Westfield rides upon real planning. He also introduced and praised his running mates for their willingness to take up the challenge of "looking long and hard at the future."

The Democratic candidates for Town Council are native Westfielder Jon Leib in Ward 2, longtime Democratic Committeeman Robert Strommen in Ward 1, educator Dr. Armand Cosquer in Ward 3, and environmental lawyer Michael Diamond in Ward 4.

Hely concluded by promising to focus upon those issues and their causes throughout the fall campaign. "Solutions and a bright future are within our grasp, if only we have the vision to reach for them."

He resides with his wife, Joanne at 550 Highland Ave. The couple has three children: Beth, John, and Robert. In response to questions about his position as chairman, Sullebarger praised Westfielder for their traditional spirit: "It is as privilege and an honor to work with those who contribute their talent, enthusiasm, and leadership to the United Fund campaign's efforts. I am confident that Westfielders will respond to the calls of our volunteers and that this 1984 campaign will be a success, and the goal of \$480,000 will be achieved."

The following division chairmen have been selected for the 1984 campaign: Special gifts, Samuel A. McCauley; advance gifts, G. Carter Pratt and Mike Kelly; major gifts co-chairmen, M. Jockers Vincentsen, Richard Ahlfeld, W. Merritt Colehamer; special business, Frank MacPherson; retail business co-chairmen, Susan Arnold and Susan Pepper; professional division-dentists, Dr. Sheldon M. Mayer is a graduate of Paterson State College. He holds a bachelor's degree in elementary education and a master's degree in administration and supervision.

Last year he was involved in an automobile accident that made it necessary for him to take a leave of absence.

school in New York City is often a burdensome job, says Cosquer. Seward Park has a student population of 3600 with a staff of 230 including teachers, guidance counselors, secretaries, para-professionals and school based support teams. The chapter chairman must resolve matters of school policy with the principal while settling grievances and enforcing the contract. Despite differences occasioned by their respective positions, Dr. Cosquer enjoys the esteem and respect of his principal, who appointed him acting assistant principal in September. However, Dr. Cosquer expects to continue his COPE collecting activities.

Dr. Cosquer served as president of the Rahway Division of the Neighborhood Housing Services of Union County. An organization consisting of residents, city officials and bankers in a plan to revitalize their community, its primary goal is to provide means to assist residents in rehabilitating their homes and upgrading their neighborhoods. Dr. Cosquer is also a charter member of the Rahway Chamber of Commerce.

Since moving to Westfield from Rahway, Dr. Cosquer has been impressed by the amount of services and programs made possible by the volunteer spirit of its citizens. "It's too bad," stated Dr. Cosquer, "that our Republican town government is generally not supportive of these efforts." He has been a coach in both the Westfield Baseball and Westfield Soccer Associations, as well as a CCD teacher. He is married to the former Dolores M. O'Connor, who teaches French and Spanish at Spotswood High School. The Cosquers, who are communicants of St. Helen's Parish, are the parents of Patrick, age 8, who attends Jefferson School.

Boys' Football League Registration This Saturday

Registration for the 28th season of the Westfield Boys Football League will be held this Saturday at the YMCA from 9:30 a.m. to 12 noon. Officials of the league will be there to answer any questions, and conduct the weigh-ins.

The league is open to boys in the fourth through seventh grades, ages nine or older who weigh a minimum of 55 pounds. Eighth graders who are not in the Westfield school system will be considered if they meet all other requirements. The registration fee remains \$20.

Boys will be grouped into one of three divisions according to an age and weight factor. The oldest and heaviest boys will participate in the 'A' division with the middle group in the 'B' division and the smaller less experienced boys in the 'C' division. For the 1984 season all games will be played on Sunday.

Westfield teams will be competing in the Suburban Football League with games scheduled against Summit, Mountaintop, Berkeley Heights, Millburn, Chatham, South Orange, etc. Boys in the W.B.F.L. will be practicing and scrimmaging with each other, but all games will be played in the Suburban league. Questions about the registration or any other aspect of the league may be asked of Bill Monninger of 638 Boulevard.

The league is in need of adult volunteers for all aspects of the organization. Interested moms and dads should call Monninger at the above address.

Y Swim Team Tryouts Saturday

Interested swimmers in Westfield and surrounding communities are encouraged to tryout for one of the four swim teams at the Y. Tryouts are set for Saturday, Sept. 8 at 12 noon, and Saturday Sept. 15 also at 12 noon.

Boys and girls aged 6-18 are eligible for team membership. The Y has a comprehensive program for swimmers of all abilities. There are two teams for girls and two teams for boys, with four coaches providing the training and stroke instruction during the year. Together, the coaches have over twenty years of experience, and the teams have consistently been of championship caliber.

The Westfield YMCA swimming teams have long been at the center of national competitive aquatics — teams from Westfield have twice won the National YMCA Championship, and were runners-up a third year. Dozens of

swimmers passing through the YMCA program have gone on to become high school and college All Americans. Several have competed at the Olympic level. The facilities are among the best in the state. There are two pools, one for training and the other for stroke work.

Swimmers selected for one of the four teams will begin practice the week of Oct. 1. Anyone interested in joining the team should contact Head Coach Perry Coultas through the YMCA.

Westfield boys and girls born in the years 1968 through 1977 are encouraged to participate in the 10 week instructional program which is beginning its 15th year in Westfield. Also, a five week clinic for six year olds (boys and girls born in 1978) will be held again this year. The registration fee will be \$13 per child for the instructional league and \$7 per child for the clinic.

Any adult interested in assisting in the program is asked to note his or her special interest on the registration card at signups, there is a particular need for coaches and referees. Bob Berry of 306 Roger Ave. may be contacted for additional information.

Tennis Ladders

Final Pre-Play
Men's Ladder

Mike Siegel emerged as the most active player on the Westfield Tennis Association's Men's Singles Ladder as the Challenge Round ended on Labor Day. Mike finished the season with 25 matches; Mark Weiss was second with 23, and Joe Caratozzolo and Ed Weissman tied for third with 21 each.

In a stretch run reminiscent of Arnold Palmer, 1983 A Ladder winner Dave Lartaud regained the top seed position for the playoff round during the final week of play following an early season slump. Dave thus joins the strongest group of finalists in the history of the ladder.

The Playoff Round will consist of a double elimination mini-tournament to be held during the next 2-3 weeks. Finalists consist of the top eight players in the A and B divisions with eight or more matches; there will be no C playoffs. Finalists have already been notified of their opponents and the playoff schedule.

In addition to the ladder playoffs, the Westfield Men's Singles Tournament is scheduled for September 8-9. This tournament is completely separate from the ladder and is open to all Westfield residents. Interested players who have not already signed up for the tournament should call Don Lyon for further information.

Fuel Oil • One Day Service • 7 Days A Week
RT 1 & ALLEN ST • ELIZABETH, N.J. 07202

Dear Homeowner:

My company is offering a NEW CONCEPT in supplying oil for heating your home. If you can afford to PAY C.O.D. for your oil, you can take advantage of our MONTHLY OIL SALES and

SAVE UP TO 15¢ PER GALLON

Our company has been in business in Union County for over 70 years and we have supply contracts with EXXON—TEXACO—GULF—COASTAL HESS—ARCO—TENECO. Some of these contracts are over 25 years old.

If you fill your tank one time in the coming heating season which runs from September 1984 thru April 1985, we will guarantee you a supply of oil in the remote chance there is an oil shortage.

My company operates its own trucks, driven by our own employees. We also have 24 hour, 7 day-a-week oil burner service available for our customers, along with degree day automatic delivery.

If you would like to be put on our monthly oil sale list, without any obligation at all (no one will call), just CALL US. We'll be happy to mail you our oil sale price bulletin monthly and answer any further questions you might have.

Sincerely,

Donna Ramsey

Runnells Hospital Had Beginnings As TB

Health Center in 1910

This article is the second of a five part series of public information articles to explain in detail some of the many aspects of the long range plan unanimously adopted by the Union County Board of Chosen Freeholders affecting John E. Runnells Hospital, the county-owned hospital located in Berkeley Heights.

John E. Runnells Hospital is not a general hospital but is licensed by the State Department of Health as a specialized government hospital. Although commonly referred to as a hospital it has no functioning operating room, performs no surgery and its "emergency room" is a level four category, the lowest level permitted. The emergency room is restricted to furnishing not much more than "first aid" treatment, with other emergency victims having to be transported out of necessity to nearby general hospitals.

Of its total licensed bed capacity of 309, only about 9% to 10% of the patients are of a hospital level.

An act of the New Jersey State Legislature in 1910 permitted the establishment of county hospitals for the care and treatment of persons suffering from tuberculosis. In December of 1910 the Union County Board of Chosen Freeholders took action to purchase a large tract of land in what was then New Providence Township but today is known as Berkeley Heights. This tract of land was then the farm of Henry S. Fullerton.

Construction of the county's tuberculosis health care facility began in 1911 with it being dedicated in 1912 as the Bonnie Burn Sanatorium.

The original bed capacity of 60 was increased with subsequent additions and improvements over the years so that by 1933 the bed complement stood at 370 and included patients not only from Union County but also from neighboring Middlesex, Morris and Somerset counties. Dr. John E. Runnells of Canada was the first superintendent and medical

director of Bonnie Burn Sanatorium through its first 50 years.

The necessity to treat patients with tuberculosis went on a steady decline after World War II and in 1955 the state legislature permitted the county tuberculosis hospitals to admit persons suffering with other diseases. In that same year the Board of Chosen Freeholders renamed the institution as the John E. Runnells Hospital for Chest Diseases in honor of Dr. Runnells' many years of dedicated service.

In 1961 the Board of Chosen Freeholders expanded the admission criteria still further to permit patients afflicted with cancer and in need of physical medicine and rehabilitation among other maladies.

In 1962 the non-tuberculosis bed capacity was planned for expansion. Two 50 bed projects were undertaken, one in 1963 and the other in 1965. From this was born the Mary A. Connolly Hall wing of the facility. The namesake was for a long time business office employee.

In 1966 the Freeholders and Board of Managers voted to close the tuberculosis wing of the hospital due to their being too few patients. Those remaining were transferred to Glen Gardner where treatment was less costly.

Because of the continued long waiting list for other admissions it became necessary in 1967 to convert the underutilized nurses' and doctors' residence known as Rose Hall to patient use. That building was named for Hazel D. Rose, Dr. Runnells assistant for 45 years.

Also in 1967 the Freeholders received the Booz-Allen professional consultants report. It recommended that county sell or close the hospital due to some of the same similar shortcomings now revealed to the Board of Freeholders.

In 1971 extensive renovation was done to the "K" building which increased the bed capacity by 93.

The changing needs of Union County health services prompted

Runnells to get involved with in-patient psychiatric services and alcoholism treatment programs.

In 1977 the Board of Chosen Freeholders accepted the first professional, long range plan for John E. Runnells Hospital. It called for a brand new, 270 bed nursing home facility to be constructed on the Runnells tract. It was expected that ground would be broken in 1980 and the new facility opened in 1982. For a variety of reasons that plan was never implemented. The waiting list then numbered 160, now it numbers nearly 400.

In the late 1970's efforts also were begun to convert some of the underutilized hospital classified beds to be reclassified as long-term care or nursing home beds due to the ever-growing waiting list for that service. The conversion took place in 1981 and in the fall of 1983 still more beds were converted to nursing home use.

In its heyday Runnells had a daily census hovering around 600. Now there are 309 licensed beds with every effort being undertaken to reclaim the full 343 bed licensure that Runnells enjoyed up to 1983.

Runnells today offers on-site, 221 long term care or nursing home beds with 27 of them designated for care of the terminally ill in the oncology unit. There are 30 licensed beds in the alcoholism residential unit and 58 hospital level of care beds. Of these 58 hospital beds 23 are in the physical medicine and rehabilitation unit which offers both occupational and physical therapy. Another 17 are in the in-patient psychiatric unit with the 18 remaining being in the general acute care wing which had an average daily census of only 2 hospital level patients.

The new long range plan deals with the continuation of all of these services. It also provides for the continuing needs of the indigent and those of limited financial resources as well as the other residents of the county.

Pops to Play On Green Tonight

The Scotch Plains Cultural Arts Committee (SPCAC) will present the New Jersey Pops Orchestra in concert on the Scotch Plains Village Green's SPCAC Sevel Stage, next to the Municipal Building on Park Avenue at 8 p.m. tonight. (rain-date, September 11). This is the final performance in the ten-week Village Green Summer Series, which this year pays tribute to the Township's Tercentennial.

The 50-piece orchestra, conducted by its founder/director, Michael J. Buglio, includes in its repertoire light classics, Broadway and Hollywood hits, contemporary music, patriotic numbers, and even sing-alongs. The Scotch Plains tercentennial tribute under the stars will open with the "March and Procession of Bacchus" from the Ballet Sylvia by Delibes, and end with Tchaikovsky's 1812 Overture. Also included, among others, are such all time favorites as Hamlisch's "They're Playing Our Song," "That's Entertainment" and "Rocky."

To Offer Course On Tax Preparation

A 12-week course on how to prepare income tax forms will be given on the Scotch Plains and Cranford campuses of Union County College beginning Sept. 17.

The course, "Learn to Prepare Income Taxes," is being conducted in cooperation with H & R Block and is offered through the College's Division of Continuing Education and Community Services. It is designed to prepare individuals for professional tax form preparation.

Using classroom discussion, lectures and visual aids, instructors will cover the practical use of tax laws and tax forms. For the top graduates from the course, job interviews with representatives from H & R Block will be available.

The course in Cranford will be conducted from 9 a.m. to noon. In Scotch Plains, it will be offered from 7 to 10 p.m.

The course runs for 25 sessions, ending on Dec. 13.

To Launch Campaign On River Cruise

Rep. Matthew J. Rinaldo will launch his fall re-election campaign with a cruise on the Hudson River on Sept. 7.

About 600 supporters are expected aboard the twin-decked vessel which will leave from Port Newark at 7 p.m. for a three-hour cruise past the Statue of Liberty, lower Manhattan and the New Jersey Palisades.

Passengers will be treated to a Hawaiian luau and Hawaiian music and dancers in one of the most colorful campaign events in New Jersey.

Eager Readers Invited

To Special Library Event

Special programs will be held Saturday for children who have completed their reading contracts in the Reading Marathon Summer Vacation Reading Clubs at the Westfield Memorial Library. Admission is by pass only. Mini club members who have read five books, regular club members who have read 10 books and listening club members who "listened" to 20 stories are eligible.

Mini club members will receive Eager Reader certificates at an awards ceremony at 10 a.m. in the Waterkunk Room. At 10:30 a.m., the mini club members will be joined by listening club members and their families for a balloon launch at the flagpole in front of the Municipal Building. Each child will receive a helium filled "USA Reading Team" or

"Books Are Fun" balloon to launch. Each balloon will be tagged with a club members name and the library's address. Sally Wehr, children's librarian, hopes the people who find the balloons will send the tags, along with their names and addresses, back to the library. "We would like to see how far the balloons travel," she said, "and write to the people who respond."

Regular club members will have a film program in the Waterkunk Room. Second and third grade members will meet from 2 to 2:45 p.m. to see "Gerald McBoing-Boing," "The Lorax" and "Country Mouse and City Mouse." Members in the fourth through eighth grades will meet from 3 to 3:45 p.m. to see "Soup for President" and "Felix the Cat Mosaic."

Pictured is Ellen Schwartz, an exercise/firm-up instructor and new addition to the faculty of the Yvette Dance Studio, Cranford. Her firm-up course will appeal to women who find it difficult to maintain a firm body and wish to tone their muscles. Classes are Monday through Friday, a.m. & p.m. For more information contact the studio.

Concerned about Molested Kids, Senator Has Tips for Parents

"You may have read the horrifying headlines in newspapers recently about children being sexually abused at two state institutions in Monmouth County and in a day care center in the Bronx. We in state government are very concerned about this assault on our children that is reaching epidemic proportions," commented State Sen. Donald T. DiFrancesco today. More than 2,500 cases of child abuse are reported annually in New Jersey alone. Some 10,000 children are reported missing in the state every year and many of them are sexually exploited and physically abused.

"Efforts are underway by state officials to combat these heinous crimes," says DiFrancesco.

"A list of 4,000 people convicted, charged or suspected of child abuse has been compiled by the State Department of Human Services. This list will be checked before any individual is approved as a foster parent or adoptive parent, day-care worker or employee in a state institution.

"I will push for quick enactment of legislation requiring criminal background checks of individuals responsible for caring for children, such as school bus drivers and day-care workers.

"State Attorney General Irwin I. Kimmelman has ordered all police departments to immediately investigate missing children complaints as soon as they are reported and not wait the customary 24 to 48 hours.

"Yet, legislation alone is not enough. You, as parents, can do much in this effort to protect your children from becoming child abuse victims. You can instill in them certain basic rules to follow in order to watch out for their own safety," the Westfield attorney said.

The National Center for Miss-

ing and Exploited Children has published a list of guidelines to use to protect children from potentially harmful situations. Their suggestions include the following:

1) Their full name, address and telephone number.

2) How to make a long distance telephone call (both directly to you by using the area code and by dialing "0" for the Operator).

3) Never to go into anyone's home without your permission. Children should know whose homes they are allowed to enter.

4) If they become separated from you while shopping teach them not to look for you, but to go to the nearest checkout counter and ask the clerk: a) if she or he works for the store, and b) for assistance. Tell them to never go into the parking lot.

5) To walk with and play with others. A child is most vulnerable when alone. If your child walks to school, have him or her walk with other children.

6) That adults do not usually ask for directions. If someone should stop in a car asking for directions, the child should not go near the car.

7) If someone is following them, they should go to a place where there are other people, such as a neighbor's home or a store. They should ask for help. They should not try to hide behind bushes.

8) Never go near a car with someone in it. Never get into a car without your permission. They should know in whose cars they are allowed to ride. Warn your children that someone might try to lure them into a car by saying you said to pick them up. Tell them never to obey such instructions.

9) That a stranger is someone they and you do not know very well.

10) Instruct them to never tell anyone over the telephone that they are home alone.

11) Make sure they tell you if any adult asks them to keep "secret".

AS PARENTS YOU SHOULD KNOW:

1) Know who your children's friends are.

2) Never leave children unattended. Never leave children alone in a car.

3) Be involved in your children's activities.

4) Listen when your child tells you he or she does not want to be with someone. There may be a reason you should know about.

5) Notice when someone shows your child a great deal of attention and find out why.

6) Have your child's fingerprints taken. Know where to locate dental records.

7) Be sensitive to changes in your child's behavior or attitudes. Encourage open communication. Never belittle any fear or concern your child may express to you.

8) Take a photograph of your child each year (four times a year if the child is under two years of age).

9) Have a set plan with your child outlining what he or she should do if you become separated while away from home.

10) Do not buy items that have your child's name on them such as hats, jackets, and tee-shirts. An abductor could start up a friendly conversation with your child after reading and using the child's name.

11) Be sure their schools or day care centers will not release children to anyone but the children's parents or persons they designate. Instruct the school to contact you if your child is absent.

Hardwick Seeks Law Change on Child Abuse Records

Assemblyman Chuck Hardwick (R-Union) is pressing for a change in federal regulations to give private adoption agencies access to official child abuse records.

Hardwick, (R-21st), said federal officials are now reviewing the issue at his urging.

"I've been in touch with White House officials and the federal Department of Health and Human Services, all of who have begun to work on the issue and I have the support of President Reagan's office," said Hardwick, assistant Republican leader in the state Assembly.

Hardwick, a long-time advocate in the area of adoption and foster care programs, has sponsored legislation to streamline the adoption process, and to make medical histories of natural parents available to adoptive parents.

"We have the responsibility to protect our children from people who seek to harm them for personal gratification," he said.

"Recent actions at the state level to check child abuse records of employees at day-care centers and state institutions is only part of the answer," said Hardwick. Last year Hardwick sponsored legislation to provide such records to child placement agencies. His legislation had been passed by the Assembly Corrections, Health and Human Services Committee when he learned that changes in the federal law would be required first.

"I was surprised and disappointed when I found out about that," Hardwick said. "It seems to me only right that a private adoption agency be permitted access to child abuse records, and now that we've had all the trouble with day-care centers, I am more determined than ever to make sure the law is changed," he said.

"Private adoption agencies at present have nothing in the way of child abuse records on which to base a prospective foster parents' or adoptive parents' suitability for raising a child," said Hardwick. "In order to find good parents, these agencies must have access to child abuse records. The present law is out of step with the times, in which we have seen a greater incidence and reporting of child abuse. It's simply not fair to children to keep this information from adults whose mission is to secure a good family for them," he said.

On Monday the state Department of Human Services an-

nounced that it had a list of 4,000 persons convicted, charged or suspected of various forms of child abuse which it proposed to use to screen prospective foster parents, adoptive parents, and employees of day-care centers and certain state institutions. But, Hardwick said, because of

the federal law private adoption agencies cannot see this information.

"The right to privacy must be balanced when it affects the life of a child, and keeping child abuse records secret tips that balance in favor of the abuser," Hardwick said.

"Creativity is not the finding of a thing but the making something out of it after it is found."

LEARN to Launch Season on Sept. 17

The League for Educational Advancement for Registered Nurses (LEARN) offers an opportunity for today's active and active nurses concerned with continuing education to achieve and maintain a higher level of nursing knowledge and practice.

"Fluid and Electrolyte Balance" will be the topic presented by Marguerite Schlag, R.N., M.S.N., assistant professor, Rutgers University, on Monday, Sept. 17, at 7:45 p.m., in the All Saints Episcopal Church Hall, Scotch Plains. She will review the basic concepts of fluid and electrolyte across a life span and provide guidelines for making an assessment of fluid and electrolyte disturbances and formulating the appropriate nursing diagnosis.

Founded in 1974, LEARN, entering its second decade of service, is a self-supporting educational organization for registered

nurses whose membership is drawn principally from Central Jersey. Programs are determined by assessment of annual needs covering all areas of nursing theory and practice with emphasis on current therapy and technology. Program and operating expenses are supported by membership dues. Non-members are charged registration fees per session; special discounts are available to student nurses.

THE WESTFIELD LEADER

WESTFIELD'S NEWSPAPER SINCE 1890

Phobia Victims Can Get Help

A housewife from Westfield who was fearful of driving too far from home, a Garwood construction worker once terrified of heights and a Fanwood sales executive who neared panic everytime he had to entertain a client in an unfamiliar restaurant: as diverse as they are as individuals all have one thing in common... they have overcome their phobias with the help of professional therapy offered by the Phobia Release Education Program, or PREP, Nancy Marie Bride, director of the Cranford-based program noted, "along with literally hundreds of others."

"As summer nears its end and the beginning of autumn nears, the mood for change is in the air, including the desire for personal

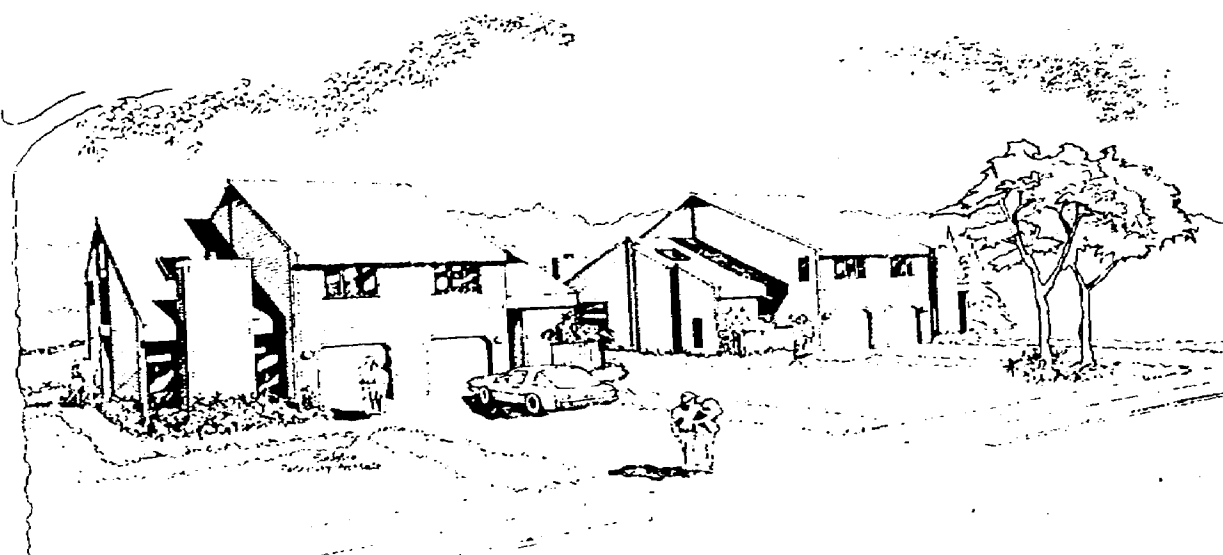

change, adjustment and self-improvement," Bride, who recently moved to Westfield, observed, "this is why we are looking forward to our new fall programs."

Bride, who has conducted the program headquartered at 15 Alden St. for five years, noted that "the National Institute of Mental Health has identified phobias as the second-most common emotional problem, after depression, with perhaps one out of ten Americans suffering from a phobia at one time or another. 'Fortunately, it is also the most treatable, with a very high rate of total cure,' the therapist went on."

"Our program, sponsored by the Union County Mental Health

Association, has helped many people of varying ages and backgrounds confront and overcome their phobic problems," Bride added, "and we are eager to discuss whether we can assist people who recognize themselves as, or who believe they are, phobics. For this reason we invited inquiries at our Cranford offices."

"I should like to point out that we offer extended counseling in addition to the regular 15-week program," Bride added. The PREP director noted that a new daytime program is starting up in mid-September, and a night program in October, but pointed out that "while we try to accommodate as many applicants as possible, the size of each therapy group is necessarily limited."

Located one block from Central Ave., the townhouses will be available in three models, ranging from 1,377 to 1,630 square feet including garages. Prices start at \$97,900.

Units will include either two bedrooms and a loft, or three bedrooms. All the townhouses will offer central air conditioning, wall-to-wall carpeting in a choice of four colors, General Electric kitchen appliances-dishwasher, stove, and range hood, tiled bathrooms, gas heat, electric garage door openers, and optional fireplaces at an additional cost of \$2,500.

Construction, which is scheduled to begin this month and finish in the first quarter of 1985, is being coordinated by J & S Construction Company, owned by Joe Scalzadonna, a builder in the Westfield area.

Realty World-Wyckoff Hess, Inc. is the exclusive agents for these townhouses, which are covered under the H.O.W. home warranty program.

Makes \$Million Club In First Year of Sales

Kathleen Mellina, sales associate in the Westfield office of Schlott Realtors, has qualified for the statewide Million Dollar Club in her first year of real estate sales.

"Kath Mellina is testament to the notion that a person can be very successful in real estate if they are willing to work hard," said Marilyn Kelly, manager of Schlott's Westfield office. "She put extraordinary effort into her first year of sales and saw that effort rewarded. As an example of her commitment to her new profession, she has already earned the Graduate, Realtors Institute (GRI) designation, an advanced certification held by relatively few real estate sales people."

Kathleen Mellina

A native of New York, Mellina is an alumna of City University. She is a member of the Westfield, Somerset, Summit, and the Union County Boards of Realtors, as well as the National Association of Realtors.

When not involved in her real estate responsibilities, the Westfield resident is busy with the activities of her children, Kristine, Thom and Karen.

Resident's Combined Skills, Talents Result in New Cultural Program

What makes for success?

For one thing, "not worrying about it." This is the formula of Mrs. Claire Angel of Westfield, a newly-emerging musical talent and apparently a born leader when it comes to inspiring and organizing others.

Mrs. Angel is responsible for evolving — after five years of persistence, organizational skill, and "quite a bit of luck" — a new cultural arts program at Union County College. The program has its roots in a small group of musical virtuosos, the "Mostly Music" chamber group, which she organized back in 1979.

Thanks to her leadership qualities, as well as a clear and often-expressed need in Union County, those early beginnings have developed into a comprehensive, year-long calendar of cultural events at the college.

"This is just what we need in this area," Mrs. Angel said. "And for me personally, it's an opportunity to be involved with the thing I've always loved — music — and what I call the 'music people,' meaning both performing artists and the audiences that come to hear them."

Mrs. Angel's love of music started early. Trained at the piano from the age of six, she was part of a highly musical family. Her Russian-born parents, Mr. and Mrs. Michael Boroff, had hopes that she would become a performing artist. Her father was a fine pianist and a teacher who played with chamber music groups and as accompanist to famous Met Opera performers. He was her first teacher.

In her teenage years, she entered the High School of Music and Art in Manhattan, commuting to school every day for four years from the Bronx. Four more years at Julliard groomed her for a professional career.

But there was another interest, one she had had for a long time: marriage and children.

"I always wanted to marry and have children," she said. "For me, it was not only the natural but also the most necessary thing to do."

Married now and with a daughter and two sons, Mrs. Angel said that a few years ago a certain artistic need took hold of her. "When my father died in 1979, I wanted to do something in tribute to him, something in music. I knew it would have made him happy to know I was back in music, participating creatively," Mrs. Angel said.

Throughout her married life, she had continued to study privately, teach piano, and occasionally give recitals with chamber music groups and community orchestras. This was not enough, though, she said. She then formed a small musical ensemble that gave performances in people's homes.

"I wanted to reenter the world of music and musicians, and when I did it on a small scale, I saw the response was good and that more of the same was needed," she said.

The result of the "Mostly Music" group, which was an immediate hit. Since then, it has been performing to capacity audiences in the Westfield/Cran-

ford area, attracting audiences from surrounding counties as well as from throughout Union County.

Last spring, this group became the nucleus of an idea to provide even broader cultural enrichment for people in this area — the cultural arts program at Union County College.

Now "Union County College Cultural Affairs Coordinator," her official title, Mrs. Angel says the huge organizational efforts have been worthwhile.

"Some great things," she said, "begin small. It all started with what I thought was going to be a limited project, but some inner resources helped me build it into something larger. We often don't know all the traits inside us until we call upon them. The main thing is to do what interests you, and not worry about success."

Roger Joslyn Guest Of Genealogists Thursday

"Compiling, Organizing and Writing a Genealogy" will be discussed by Roger D. Joslyn of Tenally at the first fall meeting of the Genealogical Society of the West Fields to be held at 1 p.m. Thursday, Sept. 13, in the Watenuk Room of the Westfield Memorial Library. An invitation is extended to all, whether or not affiliated with the Society.

Health Officers Schedule

Breast Exam Series

The Union County Health Officers' Association has announced that a "Breast Self-Examination Program for Women" will be offered on a monthly basis through Union County College during the fall semester.

The program is a cooperative effort of the Health Officers' Association, the Division of Continuing Education and Community Services of Union County College, and the Visiting Nurse and Health Services of Elizabeth.

Offered free of charge to all Union County residents, the program consists of four individual sessions. The schedule is:

Scotch Plains Campus: Monday, Sept. 17th 7-8:30 p.m.; Saturday, Oct. 20th 10-11:30

Cranford Campus: Thursday, Nov. 15th 7-8:30; Tuesday, Dec. 11th 7-8:30.

Applicants need only apply to one session.

The program will consist of lecture, film, practice on hand-held health education models, and a question/answer period conducted by Nancy Sullivan, the Health Educator, with the Visiting Nurse and Health Services of Elizabeth. "Women of all ages should consider this program as a very important supplement to their annual physical examination," said Mrs. Sullivan. "It's easy to learn and early detection of breast lumps is crucial to successful treatment."

Bob Sherr, Westfield health officer, state that "the program was developed as a follow-up to a cancer study by the Health Officers' Association to prioritize cancer prevention activities within the county. "This study had shown New Jersey to have the third highest cancer mortality rate in the county. Within Union County, the rate is even higher."

Class size is limited and registration is required. For further information contact the

Union County College's Division of Continuing Education and Community Services. Women can register by calling the College's Division of Continuing Education. Program applications will be made available at the Westfield Health Department, Municipal Building, East Broad St.
