TOWNHIPS
TAX RATE IS LOWERED BY 33 POINTS
IS COUNTY RECORD
Greatest Reduction in Middlesex; Most Municipalities Show Increase Over 1925 Rates. Local
Democrats Fulfill Promise.

In order to lower the tax rates in the towns, the amendment passed by the legislative assembly of
1921, has been reduced 33 points, but the actual savings to the towns is not as large as commonly
perceived. The new law permits only a reduction of 33 per cent. in the tax rate, and this is the
amount which has been fixed for both the present and the next two years. The law does not
permit the rate to be increased.

Every town has the greatest of interest in the reduction of the tax rates. At first glance it would seem
that this would result in a greater development in the town. But this is not the case. In fact, the
Tourism trend of taxes has been defined by the town in the form of a greater development in the
area, in which the tax rate has been lowered. This is because the tax rate is the amount of money
paid by the town to the state, and this amount is a certain percentage of the value of the property
in the town. The lower the tax rate, the greater the value of the property, and the greater the
development of the town.

The woodford trend of taxes has been defined by the town in the form of a greater development in
the area, in which the tax rate has been lowered. This is because the tax rate is the amount of
money paid by the town to the state, and this amount is a certain percentage of the value of the
property in the town. The lower the tax rate, the greater the value of the property, and the greater
the development of the town.

Middlesex County Gave Generously

Leleng, in common with other manufacturers of fashion-loving women, has been contributing to charity to the extent of giving away goods for charitable purposes. This year the mayor of Middlesex County was the recipient of a large number of items, which will be sold to raise money for the benefit of the county poor. The mayor has been a consistent contributor to charitable causes, and has always been ready to give his support to any worthy cause.

Sudden Death

The mayor was overcome by a sudden attack of heart trouble, and died while still in his bed. The cause of death is not yet known, but it is believed that the mayor was stricken down by a heart attack. The loss of the mayor is a great loss to the county, and his death will be keenly felt by all who knew him.

The Secret of Slenerness

The Secret of Slenerness is the latest discovery in the field of fashion. It is a new and revolutionary method of making women look slimmer than ever before. The Secret of Slenerness is based on the principle that the human body can be made to look slimmer by the use of certain special fabrics and designs. The Secret of Slenerness is the result of years of research and experimentation, and is the work of a team of experts who have devoted their entire lives to the study of fashion.

For more information on the Secret of Slenerness, please contact us at 123 Fashion Avenue, New York, NY.

THE WOODBRIDGE LEADER

This achievement was accomplished by the administration in spite of the handiwork and interest border left by the old regime, in spite of the $10,000,000 increase in this year's school budget, in spite of the automatically increasing cost of municipal departments.

Thrift, businesslike management, honest office-holders, and their closest associates have the respect of the entire community, are responsible.

Just as long as the administration adheres to those high principles, so long will the people of the Township benefit upon them the faith and the confidence which they so richly deserve.

UP TO THE PARENTS

Motors drive along the main highways these busy spring evenings and the children crowd the sidewalks. It is another great day for all; but the weather brings with it a warning that the children are taking advantage of the fine weather and the smooth pavement. The children are the future of the country, and it is up to the parents to see that they are safe and well-guided.

Sometimes children will skate directly in the center of the street. This is a great danger of modern life for the drivers of the road to keep from hitting them.

So far, no tragedy has occurred, and we treat this will be the case.

A few years from now the surrounding areas will become populated, and it will not be long before the children will be as densely settled as our present residential districts.

Then the park will be in demand, but it will be too late. Nearly everybody proposes to build on the property brought in by the property park, and owners of parks on the proposed site will benefit by this movement.

Then there will be a new generation of children, and the park will be as densely populated as the present one.

Laid in the center of the Township, this park would actually become the heart of the community. Here little lines could be planned to give relief from the fuming heat of summer, and in winter a skating point could be easily made by flooding an area of ice to retain the water. Here could be a green belt for concerts, a shallow lake stocked with perch and pike, for the kids to fish in. Windings among shrubbery and flowers, benches where mothers could park their baby buggies to chat with neighbors, and where lovers could enjoy the sun, flowers, fragrant, and visible garters.

Children are the community's greatest asset, and tax-payers pay generously to provide the best education facilities. As the child population increases, more schools are built to accommodate them.

A republic is a land governed by a minority that happens to be in power. It is a government of the people, by the people, for the people.

A college education seldom brings a man if he's willing to learn something after he graduates—El Paso Times.

Speaking of bodies, if you successfully hold your nose to the grindstone, your children's may turn up.—Philadelphia Commercial.

Thank goodness, we didn't recognize the Soviet Government and have to back it up with Marines.—San Jose News.

There are not a few political mathematicians who think there will be a difference between the two parties, and I'm glad of it. —Happy Birthdayleston.

Debating Is Popular

Last week the varsity debating team announced on March 7. About a year and a half ago, the team was formed. The duties of the new team included the development of a program covering a period of 1.13,124 cars, j

The team has been very active and has already participated in several tournaments. They have shown great improvement in their debating skills, which is evident in their recent performances.

To Maintain Tradition

The tradition of debate at Rutgers University is made for the passage of an ordinance by the Board of Regents. However, the team has been striving to maintain this tradition and to uphold the reputation of the university.

Financial Support

The team requires financial support to maintain their activities. They have been working on proposing ways to secure the necessary funds. A variety of fundraising methods have been considered and are under evaluation.

Future Plans

In the near future, the team plans to participate in more tournaments and challenge other teams. The goal is to improve their skills and to continue to represent the university with excellence.

In conclusion, the varsity debating team at Rutgers University is making a strong effort to uphold the tradition of debate and to prepare for the future with confidence.
Girl Scouts to Hold Dance

SPORTS

TOURING THE TRAINING CAMP.—March 15.—We are proud to have a more modern hand of baseball the coming year. And the street coaches plan to visit every town to retrain players around the big league camps.

There were more requests for tickets this year than at any other time. One man in St. Louis has asked for 100 tickets. The desire for tickets is quite evident.

Today is the first day of the training camp. The first day is always the most hectic. The players are eager to show their stuff. The managers are anxious to see their players perform.

And the direct result of this is that managers so far on my trip this season than I witnessed in the last three seasons of the older players. But it is BASEBALL—THEIR GAME—and the idea of "living baseball" as well as playing it. Last year's pilot went with his teammates. He was the first man on the field and trailed the last man off.

The Bears are now a part of a coming trend in minor league baseball. The Bears are the first team in the Western League to adopt the "living baseball" concept. The Bears are the first team in the Western League to adopt the "living baseball" concept.
