The Central Jersey WBA accepts no responsibility for errors or omissions in this Average Book, but places the responsibility on the individual bowler to use her correct average in the event it has been incorrectly listed. This book has been done by a computer, and in some cases the averages differ from those submitted by the league secretaries, as they have been compiled by total number of pins and games as reported by the league secretaries. In a number of cases, the league secretaries have erroneously rounded-up the averages, and therefore submitted an incorrect average. The computer corrected these, the secretaries were notified by mail and requested to correct their records. The average shown here in those cases is correct. If you find that your average differs from that which you thought it should be, please contact the Central Jersey secretary, and she will check the Final Average Sheet.

The following leagues listed below do not appear in this average book:

BE026 WCI Daytime- D.L. Johnson - did not hand in Final Average sheet

BE0 Rhino Ball League - does not finish until August 12, 1990

CA069 New Brunswick Savings - William Hansel, Secretary - did not hand in Final Average sheet
