Common Sense

About City Directory Circulation

The true value of advertising circulation is *circulation consulted*.

To be exact by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

To be conservative we will eliminate the sixty Sundays and Holidays when no tests were made.

For every thousand directories sold there will be an average of three and one-half daily consultations for each book for *three hundred and five days*, therefore—

$$1000 \times 3\frac{1}{2} \times 305 =$$

1,067,500

Cleveland Directory, January 9, 1925
 Old Arcade,
 City.

Gentlemen:

Referring to yours of yesterday acknowledging our order for Directory for 1925. Permit us to say that we know of no money we spend which brings so great a return as that for the City Directory.

Your product certainly represents a very important piece of work splendidly accomplished. In this connection also permit me to express my appreciation for the use of the directories of other cities which you keep on file in your office. I often find them a matter of great convenience and feel almost ashamed to make use of them without payment.

Very truly,
 THE W. B. DAVIS COMPANY,

The Sign Over Your Door

Is a good thing, isn't it? You would not think of doing business without it.

But it is only seen by those who pass your way.

If you could put a sign where everyone could see it would it interest you?

THE CITY DIRECTORY

Is where people look for you when they want to do business. You should make it easy for them to find you, by putting such information as a buyer wants, in the Directory properly indexed under all headings where he might look for you.

To be properly registered costs less than to be left out

BELLEVILLE NUMERICAL DIRECTORY

EXPLANATORY NOTES

The streets are arranged alphabetically with their descriptions, each description followed by a numerical arrangement of householders, places of business and street intersections. (Arranged by rotation where no numbers have been assigned.)

The abbreviation r between the street number and the name signifies "rear."

The word "vacant" after a number signifies that the house, store or office at that number was vacant when the canvass was made.

*Denotes householders and places of business having telephones.

"(Right even)" after street description indicates even numbers on right side of street.

Reference Advertising

ONE year is the life of a City Directory. Every day in that year thousands of business men all over the country search its classified sections to find where nationally advertised goods may be purchased. City Directory ("Reference") Advertising is the completing girder in the bridge between dealer and consumer, and should be part of all national and local campaigns.

INCREASE YOUR BUSINESS

BY Advertising in the **City Directory**. Others have done it and so can you.

The Mortality of Advertising

The waste basket is the grave of millions of dollars worth of advertising every year. Keep your advertising out of the waste basket by using mediums that are not thrown away. The City Directory is on the job 365 days in the year and no level headed man will think of the waste basket and the City Directory at the same time.

The Price & Lee Company

Do You Want

**GROWTH

PROSPERITY**

Appeal to the PUBLIC!

Let the **CITY DIRECTORY**
Give you **PUBLICITY**

If you fail to Advertise in the **City Directory** the public loses sight of you.

Ask yourself these questions:

Can I afford to be out of the **Public Eye?**

On whom do I depend?

How can I create a bond of sympathy with the **Public?**

NUTLEY NUMERICAL DIRECTORY

EXPLANATORY NOTES

The streets are arranged alphabetically with their descriptions, each description followed by a numerical arrangement of householders, places of business and street intersections. (Arranged by rotation where no numbers have been assigned.)

The abbreviation r between the street number and the name signifies "rear."

The word "vacant" after a number signifies that the house, store or office at that number was vacant when canvass was made.

*Denotes householders and places of business having telephones.

"(Right even)" after street description indicates even numbers on right side of street.
