Belleville is located outside of Newark, between it and Paterson; ten miles from New York City, surrounded by other beautiful towns such as Bloomfield and Nutley and is bounded on its eastern side by the Passaic River. It is partly industrial and residential; being fortunate in having many sites still left for desirable industry to locate. The residential sections are of high type and are protected by a zone ordinance.

THE City Directory is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the classified list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers' Guide on earth. A modern up-to-date method of getting what you want.

BELLEVILLE NUMERICAL DIRECTORY

EXPLANATORY NOTES

The streets are arranged alphabetically with their descriptions, each description followed by a numerical arrangement of householders, places of business and street intersections. (Arranged by rotation where no numbers have been assigned.)

The abbreviation r between the street number and the name signifies "rear."

The word "vacant" after a number signifies that the house, office or store at that number was vacant when the canvass was made.

"Right even" after street description indicates even numbers on right side of street.

The symbol □ following a householder's name indicates that information has been secured during the canvass that the house is owned by some member of the family, but as the publishers cannot and do not guarantee the correctness of the information furnished, nor the complete absence of mistakes, no responsibility for errors can be or is assumed, nor can the publishers furnish further information than that shown.

Please Note The Zip Code For The Town Of Belleville Is 07109

The Mortality of Advertising

The waste basket is the grave of millions of dollars worth of advertising every year. Keep your advertising out of the waste basket by using mediums that are not thrown away. The City Directory is on the job 365 days in the year and no level headed man will think of the waste basket and the City Directory at the same time

“WHAT YOU SHOULD KNOW ABOUT YOUR TOWN”

“The Helpful kind of patriotism is the kind that grows out of a knowledge of one’s town, of her growth, her people, her property, her government and her needs. This knowledge develops first, an intelligent interest; then, a sympathy; then a reasonable affection, a wise and temperate jealousy for her good name and a wish that she may prosper and grow beautiful; and finally, a desire to help her to become greater and finer, a bright and clean workshop and a home for the best of men and women.”—John Cotton Dana.

Common Sense

About City Directory Circulation

The true value of advertising circulation is *circulation consulted*.

To be exact by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

To be conservative we will eliminate the sixty Sundays and Holidays when no tests were made.

For every thousand directories sold there will be an average of three and one-half daily consultations for each book for *three hundred and five days*, therefore -

$$1000 \times 3\frac{1}{2} \times 305 =$$

THE CITY DIRECTORY

Does not compete with any other advertising medium, but supplements and complements all other forms of mercantile publicity.

Intelligent Directory Advertising describes desirable merchandise attractively and directs you to the door of the man who has it for sale.

STOP OR GO!

Red means Stop—Green means Go. Your ad in the Directory is the Green signal to Go—and the results will be a Green light all along the way.

About City Directory Circulation

T*he true value* of advertising circulation is *circulation consulted*.

T*o be exact* by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

T*o be conservative* we will eliminate the sixty Sundays and Holidays when no tests were made.

F*or every thousand directories* sold there will be an average of three and one-half daily consultations for each book for *three hundred and five days*, therefore —

The Mortality of Advertising

The waste basket is the grave of millions of dollars worth of advertising every year. Keep your advertising out of the waste basket by using mediums that are not thrown away. The City Directory is on the job 365 days in the year and no level headed man will think of the waste basket and the City Directory at the same time

About City Directory Circulation

The true value of advertising circulation is *circulation consulted*.

To be exact by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

To be conservative we will eliminate the sixty Sundays and Holidays when no tests were made.

For every thousand directories sold there will be an average of three and one-half daily consultations for each book for *three hundred and five days*, therefore -

High Hurdles. . . .

In business as well as in sports there are High Hurdles to overcome. Your ad in the Directory, where multitudes will see it, will help to overcome many of the business hurdles.
