## GROUND IS BROKEN FOR NEW \$3,000,000 HOSPITAL IN TOWN

Freeholder Joseph King Of Belleville Is Chairman Of Committee Which Will Construct County's Largest Institution

Ground was broken yesterday morning at 11 o'clock at the Essex County Hospital for Contagious Diseases for the new \$3,000,000 set of buildings, which will make the largest county hospital in the country. The buildings will be six stories high.

Freeholder Joseph King of this town, chairman of the building committee of the freeholders, was in charge. Freeholder Mungle, chairman of the hospital committee, turned the first shovel of earth for the excavation for the buildings which will include a nurses home and hospital buildings. The location is where the present wooden structures are at Franklin and Belleville avenues. A. C. Windsor is the general contractor.

The speakers were Supervisor Reed of the county and Dr. Areson of the advisory staff of the hospital and Dr. Smith, the superintendent of the institution.

## MEXICAN MOTORCYCLE COSSACKS TO PERFORM AT LOCAL PARK

Lindbergh's Escort To Appear Sunday Under Auspices Of New Jersey Motorcycle Club—Flyer In Troop

The Mexican Motorcycle Cossacks, good will ambassadors from their native country to the United States and Canada, who are on their way to South America will appear Sunday afternoon at Riviera Park under the auspices of the New Jersey Motorcycle Club. This club is the oldest motorcycle club in existence, holding charter No. 1.

The Mexican motor patrol acted as Col. Lindbergh's escort in Mexico City. Included in the personnel is flying Lieutenant Luis Rojas, who found Lindbergh when he was lost in his Mexican Good Will flight.

The motorcyclists have appeared in the Hippodrome and other leading theatres and in all principal cities in the United States. They have been welcomed by leading governors and mayors. Despite the stormy times Mexico has been having the police have found time to continue their good will trip.

While most folks think of all South American countries as the procrastinating lands of the take-your-time and do-it-tomorrow street traffic in Mexico moves much faster than that in cities of the United States, and the job of directing and handling it is many times simpler.

This, possibly, surprising information comes from no less an authority than Major Gaston de Prida of the Mexico Traffic Corps of Federal police, who will be on hand personally

## PROGRAM ANNOUNCED FOR DISTRICT COURT OF HONOR

Epworth Leaguers Plan Busy Time

Hot Dog Roast Will Be Held At Brookdale Tonight

The June cabinet meeting of the Epworth League was held at the home of Miss Ruth Roehm, Malone avenue Monday evening, with President Leonard R. Emmott presiding. The League Hot Dog Roast at Brookdale will be held this evening, all members meeting in front of the Church. Quite a large caravan of cars is expected. Next Saturday is the scheduled time for many Leaguers to take a pleasant trip up the Hudson. The League's Amateur Night is drawing closer and final preparations are being made to make the evening a success.

There will be no meeting this Sunday evening due to the final rehearsal previous to the Children's Day exercises Sunday night in which many League members will take part.

One-Cent Sale At Kaden's Drug Store, 364 Washington Avenue.

## Junior Order Meets Tuesday Evening

Belleville Council No. 163 Jr., O. U. A. M. will have as its guest of honor State Councillor Roscoe C. Walker and entertain Representative Frederick G. Hartley of the Eighth Congressional District, Tuesday.

An elaborate entertainment has been arranged and refreshments will be served. All members of the Order in Belleville are requested to be present.

## Card Party

A card party will be given by the Belleville Ladies Auxiliary at 317 Washington avenue on Sunday evening, June 16. Many awards have been arranged for and a large attendance is anticipated.

## Scouts Camp

Sixteen boys from Troop No. 4, Boy Scouts, under the supervision of Scoutmaster Paul Schweikert spent three days last week camping at Lake Swartswood, Sussex.

Charles L. Steel, principal of the high school, will be presiding officer this evening at the program for Belleville district, Court of Honor, Boy Scouts in the high school. The Board of Review of merit badges preceded the court from 7 until 9 o'clock.

The program follows: 8, fellowship singing; 8:15, Reception of Colors, Sounding "To the Colors" Pledge to Flag and Scout Oath and Laws, led by Lindley Graves, Scoutmaster, Troop 50; 8:25 Presentation of Star badge to Scout Harold Drake, Troop 4; William D. Clark, Director of Public Safety.

## Rotary-Lions Play Baseball Tomorrow

Plans have been completed for the annual baseball game between the Rotary and Lions Clubs at Clearman Field at 3 o'clock tomorrow afternoon. Proceeds will go to the Girl Scout fund.

Indications are that a banner crowd will be on hand to see the service organizations play. While lacking the technique, perhaps, of some of the present day ball tossers the players will put up a scrappy game and receive well deserved support for the common cause for which they are working.

## MRS. LA FAVOR IS RECOVERING

Acrobat, Hurt In Fall, Escaped Internal Injuries, X-Ray Shows

The condition of Mrs. Louise Pierce LaFavor, 37, of Main and Joralemon streets, Belleville, is reported very good, by authorities in Orange Memorial Hospital, Orange, where she is recovering from injuries received in a fall Sunday night from a trapeze in Olympic Park.

She has a double fracture of the left leg and abrasions and contusions of the chest. Fears of doctors that she was also suffering from internal injuries and a skull fracture were allayed by X-ray photographs taken yesterday.

Mrs. LaFavor was performing in an aerial act with her husband Frank LaFavor, when she lost her grip on the bar of the trapeze and fell thirty feet to a wooden platform which gave way under her weight.

## SISTER CLAIMS BODY OF CHARO

Woman Shot In Belleville Still In Serious Condition

Andrew Charo, 28, of 104 Mill street, Belleville died Monday and Mrs. Helen Rafter Cowan of 144 Stuyvesant avenue, Newark, who refused a reconciliation with the man she had been friendly with for more than two years, is still in a serious condition in St. Michael's Hospital, from bullet wounds inflicted by Charo in the hallway of the Mill street address.

Charo and Mrs. Cowan separated five months ago following a quarrel. Saturday and Sunday Charo, according to police, haunted a Clinton avenue restaurant where Mrs. Cowan was employed, pleading for a reconciliation with her.

He is alleged to have promised her to return to his wife and family in Brooklyn, Sunday if she would accompany him to his Belleville boarding house to help him pack his clothes. With their arrival there he shot her as she ascended the stairs, a .38 caliber bullet passing through her neck and another imbedding itself in her shoulder.

Charo, according to the Belleville police, has been estranged from his wife and two children in Brooklyn, for two years. Mrs. Cowan, living apart from her husband, made her home with a sister, Mrs. Horace Hamfeldt of 144 Stuyvesant avenue, where her daughter, 7, also lived. Police have been unable to learn the whereabouts of her husband.

Charo's body was claimed Tuesday at the hospital by his sister, Mrs. Jennie Castorino of Brooklyn, who had left sent to her address for burial yesterday.

## Memorial Day Movies Shown At Capitol

Through the cooperation of Berney Fenias, manager of the Capitol Theatre, movies were taken of the exercises held on Memorial Day.

The pictures show the placing of wreaths on the Memorial Statue at the Town Hall, the parade going up Washington avenue and the services at St. Peter's including closeups of Bishop Walsh, Father Field and John A. Matthews. The film will be shown all this week at the Capitol and will be presented by Mr. Fenias to Father Field as a permanent record of the dedication.

## WATERS CONTINUES FIGHT FOR BUSINESS MEN'S INTERESTS

A. S. Micone Produces Webster's Dictionary To Prove This Learned Man Knows His "Hardware" As Regards Definition Of Word

Commissioner Patrick A. Waters

Commissioner Patrick A. Waters who has been waging a lone battle in behalf of merchants who desire to keep stores open Sundays, in particular Sunday mornings, continued his fight Tuesday afternoon at the commission conference.

Recently the board passed an ordinance at the request of seven of the nine hardware dealers in town prohibiting Sunday opening. Tuesday other store owners who handle accessories or articles bordering on hardware appeared before the board to say they are affected by the measure.

This is class legislation, said Waters. Inasmuch as Mayor Samuel S. Kenworthy and Commissioner James Gibson were not at the conference it was agreed by the other members to ignore prosecution of any violations this week.

"Fen forget Sunday" is what Waters termed this week's decision.

"The ordinance is too broad," the store owners said, and its reading in part, "It shall be unlawful for the proprietor of any place of business used, or to be used, for the sale of hardware, paints or household furnishings, to keep open his said place of business on Sunday," affected service stations selling wrenches, screw drivers and all other stores selling any form of hardware such as tacks, window shades, and so forth.

Webster Knows His Hardware

A. S. Micone, one of the protesting hardware dealers, and a member of the Lions Club of which the Mayor is also a member, had a dictionary with him. He gave a definition of "hardware," when this word proved a stumbling block to the commissioners.

After the debate on this small matter Micone insisted Daniel Webster "knows his stuff" and he agrees with Webster.

Micone said the ordinance was adopted primarily to "hit" him and now the board realizes it affects others. He outlined that the Mayor recently spoke at the Capitol Theater, urging "trade at home" while he, by this move, is driving Belleville business men out of town.

A communication from the Hillcrest Improvement Association, protesting against a proposed expenditure of \$10,000 at the recreation house in Joralemon street, which it is planned to improve, was ordered filed.

## DANIEL WHELAN FIRST PATROLMAN TO BE PENSIONED IN TOWN

Belleville Pension Commission Monday night decided to retire at half pay Patrolman Daniel Whelan, who has been totally incapacitated in line of duty. The retirement will be effective as of June 15.

Mr. Whelan, who has had one of the most picturesque careers of anyone on the force is known by practically everyone in town and liked by all. He has served for fifteen years as a patrolman. For the last fourteen months he has been in ill health.

Some years ago he acted as sexton at St. Peter's Church. He lives at 318 Washington avenue and is the first Belleville policeman to be retired under the pension fund.

D. of A. Activities

The Good and Welfare Committee of Good American Council No. 102, D. of A., met at the home of Catherine White, Wednesday. After the meeting an afternoon of cards was in order.

Jeanette Cole entertained at cards on Saturday.

The next regular meeting will be held this evening at which time there will be election of officers.

## Dettlebach Tells Rotarians About Dallas Convention

After Report He Gives "Sermon" On "Knife and Fork" Rotarians

Philip Dettlebach, who was Belleville Rotary Club's representative at the recent Dallas convention gave a report of what took place Wednesday at the club's regular meeting in the Nereid Boat Club.

At a future date Mr. Dettlebach will outline in detail what transpired. His talk Wednesday was extemporaneous and dealt in generalities as to the trip and warmth of reception at various stops, including the stay in Dallas.

Mr. Dettlebach concluded his talk with a Rotary "sermon." He used as the basis a phrase coined in Dallas, "knife and fork" Rotarians, who only attend meetings for lunch and leave immediately without participating in programs or lending a hand in major work, as outlined by Rotary International.

He urged that those who really accept Rotary in its full meaning impress upon "the few"—and there are only a few, who shirk—just what is expected of them. Mr. Dettlebach suggested that in the future incoming officers of the club should feel it compulsory to attend Rotary conventions.

The Full Meaning

"You do not get the full meaning of Rotary until you mingle with the leading men from all parts of the world," said Mr. Dettlebach, adding, "that experience is worth a great deal to the individual clubs all over and no one is better fitted to carry out suggestions and resolutions made at the convention than those who will head the various clubs during the year that follows the convention."

Over 9,500 Rotarians were at the Dallas meeting, said Mr. Dettlebach, who explained that this was the second largest Rotary gathering, the largest being at Cleveland. While no definite action was taken it was expressed that in the future it might be well to hold sectional conventions because of the increasing size of the convention attendance.

He explained that a motion was defeated, as submitted by England, to change the Rotary slogan, "He profits Most, who Serves Best." Mr. Dettlebach said the England delegates thought the phrase is not translated in its true sense in all countries, being looked upon by some as purely material meaning. Other countries, it was pointed out, the slogan is difficult to put in words. It is predicted that in a short time the Rotary movement, which encompasses the globe, will extend to over 100 countries. It has not touched fifty-two countries in parts of the world and has for common cause the making better the world for its so having been tended.

## Clambake

The club will hold a clambake at the Windmere Hotel, Greenwood Lake, a week from today. Cars will leave at town hall at 8:30 A. M. There will be baseball, quoits, three legged races and suitable award. The committee comprises Ern Wright, Sr., Mark Anton and Cliff Smith.

## Fire Truck Rams Into Newark Store

Accident Happens While Apparatus Is On Way To Silver Lake

Swerving to avoid striking an aged man walking in Broadway, near Elwood avenue, Newark, Tuesday night a new Belleville fire engine, responding to an alarm in the Silver Lake district, was damaged when it struck a building. No one was injured.

Belleville apparatus has to go through Newark to reach the Silver Lake district. The machine was going fast when the man walked into its path. William Flynn, the driver, turned toward Elwood avenue, but saw he would strike another machine. He applied the brakes and the fire truck jumped the curb onto the sidewalk and struck the side of a store.

## New York University Has Enrollment of 36,000 From All Sections of Country

New York University will soon celebrate its hundredth anniversary. The University was founded in 1831, with an opening class of 104 students. Today there are 36,000 students in its twelve degree conferring schools and five non degree conferring units. From its six centers in New York City, the University reaches out not only into the life of the community, but into that of the country as a whole.

At University Heights, where stands the Hall of Fame, a national institution created and administered by the University, are a liberal arts college, a school of engineering, including the Guggenheim School of Aeronautics, and a graduate school, enrolling in all more than 1,400 students.

The University department of architecture is located at 9 East 37th street in the midst of the greatest architectural center in the world. This rapidly growing new department has attracted advanced students from many other schools.

On East 26th street and 23rd street respectively, are the medical and dental school, both working in the closest association with one of the largest and most notable hospitals in the world, Bellevue. Both are among

the oldest University units.

On Trinity place, overlooking Trinity Churchyard, is the University's so-called Wall street Division, including the Graduate School of Business Administration, numbering more than 3,000 students, most of them attending evening courses. Many of them are graduates of colleges in various parts of the country who are aspiring to important business positions. The Bureau of Business Research and the Institute of International Finance contribute in-

formation of value to business men everywhere.

Most of the remainder of the University's 36,000 students are to be found in the educational development at Washington Square.

Here is a liberal arts college of about 6,000 students, certainly one of the largest in the world.

Here is its School of Law, which has contributed more judges to the New York Supreme Court than any other institution.

Here is its School of Education, the first of its kind in the country and one of whose influence is felt throughout the nation and in many

Sunday services June 9, 11 a. m.—The Pastor's topics for morning and evening respectively will be "Children's Day" and "Neutrality."

On Sunday morning the Children's Day service will be turned over to the School and the grown-ups banished from their usual places of prominence. The various school departments are vying as to which shall present the most brilliant program.

The Primary-Beginners' department will present the following: "A Convincing Welcome" recited by Billy Prophet; "A Sunshine Greeting" by Betty Lou Dunn; "A Good Example" by Freddie Holland; "A Little Girl's Piece" by Shirley Ruth Coyne; "God Thought of Them" by Dick De Long; "A Rose" by Dorothy Hansen; "Send Children's Day" by Marjorie Breen; "A Children's Day Ship" by Jack Shuster; "Why I Am Glad" by Billy Holmes; "Some Day" by Herbert Milan; "A Good Place to Walk" by Thalia Bartholomew; "The Rainbow" by Cecile Baker; "I'm Glad God Made It" by Jean Rowley.

The Junior department will give a Playlet "The Blue and the Gray," a Drill "The Flower Girls" (12 of them), "Grandma's Verses" will be recited by Irene Scholtz.

By the intermediate department, recitations: "First Children's Day," Marjorie Breen; "Old Glory," Elizabeth Ball; "Children's Day," Dorothy Mihon; solo by Verna Lyons.

By the Senior department; a Prayer, Frieda Martin and Robert Michaelson; Scripture Reading, Edward Armstrong, Carlyle Close and Augustus MacAllister.

Three department songs will be sung.

A most interesting feature will be the presenting to the "Junior Congregation" by Mrs. W. N. Stryker, their superintendent, of the certificate awards given by the Church to the following: For perfect attendance during the year, Edward Armstrong, Paul Breen, Theodore Mueller, Gilbert Mueller, Muriel Oschner, Mary Fleming, Eleanor Buist, Ruth Minker, Gladys Louer and Thomas Patterson; for Honorable Mention, Doris Prophet, Helen Glenney, Catherine Close, Carlyle Close, William L. Stryker, Ruth Buckley, Gertrude Robertson, Janet Buist, Shirley Nutt, Elinor Armour, Helen Kelsall and Donald Neibergall. The "Junior Congregation" are the scholars who, in addition to going to Sunday School, attend the regular Sunday morning service in the Church auditorium.

Wednesday evening Mrs. George Kelsall, Branch President of the Girl's Friendly Society, was hostess to the cast of eight girls who took part in the play, "Alice's Blighted Profession," also the two girls who took part in the dialogue, "What Street," and two of her associates at a performance at the Capitol Theatre.

Mrs. Kelsall's party included the Misses Elizabeth Yindra, Nellie O'Neill, Bertha Mumford, Marjorie Davis, Catherine McCluskey, Lorraine Ross, Jeanette Crockett, Julia Lewis, Ruth Hess, Ruth Williamson, Mrs. Harvey Mumford, and Mrs. Martha Peck.

## I TOLD CLEMENTINE I WAS THROUGH!

I had stood all I could... I didn't so much mind the glue-factory fragrance that paint gave off, or even the moments of "churning" which nearly wrecked my wrist—but when the furniture refused to dry for a day and a half—that finished me!... I was on the point of calling quits for keeps when Clementine brought in the peace-maker... A little can of Sapolin Speed Enamel—but how it worked!... Mixed as easily as a salad dressing—flowed from the brush like a fountain of lather—dried dust free in one lone hour, and was as hard and as smooth as glass within four... Amazing—that Sapolin Speed Enamel!... You should see the display of it they have in the windows of CHAS. ZUCKMAN, 472 Washington Avenue, and BELLEVILLE HARDWARE CO., 530 Washington Avenue.

Tonight will be observed as Rector's night and on Saturday, there is to be a hike in charge of Miss Frances Williamson and Miss Gladys Reyle with Mrs. Findley, Mrs. Mumford and Mrs. Kelsall as chaperons. Those participating will meet at North Newark at 10 A. M. and proceed by bus to South Mountain Reservation, where the hike up the mountain will begin by visiting Hemlock Falls. The girls will provide a picnic lunch and bring along frankfurters should they wish to indulge in a "hot dog roast." They will return at 4:30.

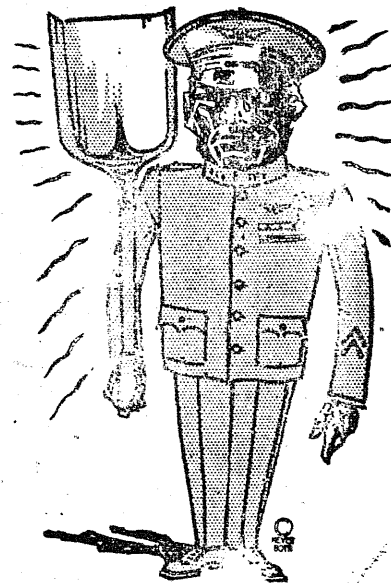

Sunday evening there will be a candle-light admission service when seventeen probationers will be received into the Society as regular members, and three others will be admitted as associates. Associates will be Mrs. Giles Findley, Miss Elizabeth Halstead and Miss Lillian Edwards, while probationers to be admitted are the Misses Marguerite Ault, Ellen Bartlet, Hazel Burke, Florence Dodd, Dorothy Dreaher, Marie Gundersman, Mildred Hahn, Stella Kerr, Elizabeth Martin, Rayna Maryott, Alice and Nancy Miller, Bessie Reitzel, Gladys Reyle, Char-

lotte Schwartz, Julia Sulis and Margaret Wilford.

Wednesday evening, June 12 will be the closing party of the Society at the Parish House, and this will be in charge of the president and her group of associates.

The Woman's Auxiliary held the closing meeting of the season at the Parish House on June 3. The presi-

dent Mrs. Frederick Idenden presided. The Auxiliary was represented at the Annual United Thanks Offering Presentation meeting held in Grace Episcopal church, Newark, recently by Mrs. Mary Lloyd, past president, Mrs. Edward, vice president; Mrs. J. ## Kindness To Animals Taught At New Scout Camp Building

### S. P. C. A. Presents Building To Boy Scouts Of Chester County Council In Pennsylvania

As a tribute to the work that the Boy Scouts of America are doing in promoting kindness to animals throughout the United States and to in a more effective way, impress upon the minds of the people of Pennsylvania, the need for proper treatment and care of domestic pets and other animals, the Pennsylvania Society for the Prevention of Cruelty to Animals has constructed at the new \$100,000 camp of the Chester County Council of the Boy Scouts of America, a large building dedicated solely to the purpose of educating the youth of the state in kindness to animals. The building was erected largely through the efforts of J. Gibson McIlvain, President of the Pennsylvania Society for the Prevention of Cruelty to Animals, who is also Scout Commissioner.

The building, which will be put into use during the camping season this summer, is the first building of its kind to be constructed at a Boy Scout camp in the United States. Already, because of the interest created in the erection of this building, the Society is making plans for the erection of a similar building at the camp of the Delaware and Montgomery County Council of the Boy Scouts in Pennsylvania.

Recognizing the program and aspirations of the Boy Scout Movement as outstanding in promoting kindness to animals, the Society for the Prevention of Cruelty to Animals proposes, from time to time, to erect at the respect Scout camps within the state of Pennsylvania, buildings devoted to the purpose of instruction in kindness to animals and the prevention of cruelty. The building at the Chester County Council Scout Camp, states Mr. McIlvain, is to be a place where the boys of Pennsylvania may study various forms of animal life and the building will be open at all times to representatives of the Society for the purpose of lectures and other forms of humane education.

#### EXTINGUISHES FIRE

The quick thinking of Scout Harry Pang of Troop No. 19, Honolulu, Hawaii, recently saved one of the Japanese homes near Kamamalu Park from burning. While the Scout was at Kamamalu Park awaiting the arrival of a friend, he noticed flames and smoke in one of the Japanese homes on Fort street, across the park. The Scout rushed to the scene, entered the home, snatched a blanket from the bed and threw it over a small kerosene lamp. He then rushed to the kitchen, thoroughly soaked an old kimono in water, and by fast work extinguished the flames on the wall behind the lamp.

It was learned that the lamp had been lighted in worship of the Shinto god and the woman of the home had gone to make a call on one of the neighbors. During her absence the wind blew the doll's clothes over the lamp and a lively fire was soon in progress. At the period of the Scout's arrival, clothes hanging on wall hooks and the wall paper were blazing.

#### CONSERVATION

With their eyes fixed upon the future, Queens, New York, Boy Scouts are planting 13,000 trees in their new week-end camp site, Camp Newcombe, near Wading River. Five thousand trees are being planted in permanent locations, while the remaining 8,000 are being placed in a nursery at the new camp.

Looking still further into the future, the Scouts are also planting 26,000 tree seeds in the nursery at Camp Newcombe. Of these 4,000 seeds are Japanese red pines, 8,000 are Scotch pines, 10,000 are Norway spruces, 3,000 are American arbutus and 1,000 are Colorado blue spruces.

Of the plants, 3,000 are white pines, 1,000 Scotch pines, 3,000 red pines, 1,000 Norway spruces, 1,000 white spruces, 1,000 white cedars, 1,000 balsams, 1,000 European larch and 1,000 black locust.

#### LINDBERGH CUP

A silver loving cup, appropriately engraved, the gift of Col. Charles A. Lindbergh, will be the grand prize to be awarded at the Annual Exhibition and Inter-Troop Contest of the Mercer County Boy Scouts of Pennsylvania. The cup will be awarded to the Scout exhibitor of the best model scale plane making the longest sustained flight in the aeroplane contest. William T. Howe, Scoutmaster, was a former air mail buddy of the flying Colonel.

#### HONOR BURROUGHS

Members of Boy Scout Nature Study Troops 451 and 452 laid a wreath upon the monument of John Burroughs in the Hall of Birds of the American Museum of Natural History in celebration of the birthday of the naturalist on April 3rd.

#### NUMBER OF HORSES

Boy Scouts of Norwich, Connecticut, have chosen as their special job the correction of the numbering system on all of the houses in the city. Duplication of numbers, which has given the city authorities much concern, has been eliminated, and the Boy Scouts are making a thorough canvass of the city to correct all other errors.

clude all of the Newton public schools in the autumn. Four times daily the boys take their assigned posts to safeguard the other children going to and from school at dangerous crossings. To avoid accident to themselves, the Boy Scouts have been instructed to stand at the curbs and display their red stop signs from that point Chief of Police Bernard F. Burke in a recent inspection, stated that he was highly pleased with the manner in which the Scouts conducted themselves while on duty.

#### SAVE BOY

When a small boy who was playing in a boat floated out into the dangerous tide rips of Washington Narrows recently, Sea Scouts of Port Orchard, Washington, put out a boat and brought the little fellow to safety. The Sea Scouts were members of the Bremerton, Washington, Troop.

#### PADDOCK A SCOUT

Charles Paddock, better known as "The Fastest human" and internationally known Olympic Champion, who a number of years ago was Scoutmaster of Troop No. 26 of Pasadena, California, is now an active member of the Pasadena Court

of honor. The great runner takes personal interest in boys and in addition to aiding them in their Scout work, he is always ready to give them some advice on running.

## Nutley To Seek Bids On Building

### New Public Safety Structure To Get Under Way Soon After Contract Is Let

Town Clerk Simon Blum of Nutley was instructed Tuesday night to advertise for bids for the construction of the new public safety building on Chestnut street, directly opposite the present Nutley municipal building.

The estimates will be received by the Board of Commissioners June 25. The old buildings on the site have been razed and two large trees removed to make way for the new structure. It is expected that actual work will get under way about three weeks after the awarding of the contract.

The Sost Contracting Company of Nutley was awarded the contract for

the grading of Ridge road. The price was \$3,685.

Mrs. Catherine Teeple of 456 Franklin avenue, represented by Skolkin & Cohen of Newark, requested the town to take steps to compensate her for an accident on October 8, 1928. Mrs. Teeple fell through the floor in the building at 224 Chestnut street, owned by the town and at that time occupied by the Social Service Bureau. The building was one of the group just torn down to make way for the new public safety building. The matter was referred to Town Attorney William F. German.

## Republican Club Closes Its Season

The Nutley Republican Club held its final regular meeting of the season at the Woman's club Monday night. Miss Isabel Summers, chief of the women's and children's bureau of the State Department of Labor, who was scheduled to speak, was unable to attend.

Members discussed nominations for the Republican County Committee and a slate will be presented soon at a special meeting. The ques-

tion of appointing or electing the Board of Education was discussed, but no action taken. At the next census it is expected the town will officially have a population over 20,000, requiring five commissioners and an appointive Board of Education.

The following new members joined the club: Leonard Wall, Warren H. Francis, Mrs. W. H. Francis, Albert D. Bates, Mrs. A. H. Marvin, Mrs. Cornelius J. Clark, Valentine Wilks, E. Avendeslan, Frederick A. Ditmars, Mrs. Ethel M. Epworth, and Howard J. Duncan.

## VACATION TIME AT SUNSET LAKE

How and where did you spend your vacation last year? Were you one of the unfortunates who battled traffic and cussed from the time you started until you reached home, or were you one of the fortunate ones who had foresight enough to locate at Sunset Lake, near Pluckemin, located between Somerville and Far Hills, New Jersey, within comfortable riding distance of your home, in the beautiful Washington Valley between the Watchung Mountains, a highly restricted Christian community, known for its fine bathing and boating, which is restricted to property owners and their guests. Come and see us, drive around the Lake and pick your own quarter of an acre which can be had on a small down payment. Gorgeous Sunsets, wonderful country. A fine place for the kiddies. Several houses for rent during July and August. Also some new attractive furnished homes.

## Kindergarten Urged In Silver Lake

### Community House Backed By Newarkers Now Only Means

The need of a kindergarten in the Silver Lake section of Belleville was brought to the attention of the Board of Education meeting Monday night.

Miss Nina Robertson, who is connected with the Silver Lake Community House, said that she considered a kindergarten a connecting link between the school and the home. A kindergarten, housing twenty-four children, has been established in the Community House, but like the house itself, is being maintained by a number of Newark residents who have taken an interest in the section. Miss Robertson requested that the Board either establish a kindergarten in the school in that section or take over the present one and provide a teacher. However, a kindergarten opened by the public school system would have to be open to all, and facilities are not present which would accommodate approximately 150 children who would want to attend from this section. The board is taking the matter under consideration.

The boundaries of the district covered by the new school No. 10, will be as follows: from the Bloomfield line east along Belleville avenue to a point midway between Parkview and Columbus avenues. From the Greenwood Lake R. R. northward to the middle of Garden and Franklin avenues. Continental and Berkeley avenues will be included in this district.

Superintendent George R. Gerard reported that he was keeping a check on the principals of the various schools to make sure that a temperature of 65 to 70 was being maintained during the cool weather.

Bids were received for the school supplies for the coming year. They were referred to Mr. Turner for tabulation.

## Fire Truck Rams Into Newark Store

(Continued from Page One)

Damage to the truck, which cost \$14,000, was estimated at \$300 and to the store about \$250. Flynn was praised for his driving.

Explosion in what is thought to have been a five-gallon still in a shed at 82 Belmont avenue started the fire which destroyed the shed and damaged slightly the adjoining three-family house at 84 Belmont avenue.

Two alarms were turned in, the Silver Lake and Belleville fire station responding. When the flames were extinguished the contents of the shed were so damaged police were not sure whether there had been a still although Recorder George A. Fitzsimmons advanced this theory.

Running out of her home to the fire on the next block, Florence Fuselli, seven years old, of 138 Belmont avenue, crossed the path of a coupe driven by Sebastian Lepore of Dover, Del. Lepore swerved to the right to avoid the child but struck her with the fender.

### Accidents

After striking the rear of a touring car driven by John R. Topping of 2 Smith street, which had stopped to make a right turn at Washington avenue and Joramelon street, a sedan operated by Andrew McKay of 200 Water street, Paterson, ran over the sidewalk and knocked down a street sign.

McKay had been drinking, but was fit to drive his machine, according to an examination by Dr. Frederick Bootay.

A sedan driven by Anthony Bergamini of 1243 Third avenue, North Bergen, going south Sunday night in Prospect place, on turning into Belleville avenue struck a coupe operated by Emile VanCauwenbergh of 18 Isabella avenue, Newark. One occupant of each car was hurt. Mrs. Pauline VanCauwenbergh of the Newark address was taken in the police ambulance to a nearby physician, where she was treated for a fracture of the nose, face lacerations and bruises of the knee. Mrs. Mary Bergamini suffered a sprain of an ankle. Both cars were damaged.

## Boy's Two-Story Tumble Sends Mother Who Saw Plunge To Hospital, Too!

Andrew Palmisano, 2, of 11 Magnolia street, is at Mountsides Hospital with a broken right leg and possible internal injuries as the result of a fall from the second-story window of his home Friday.

The boy pushed a screen from the window overlooking a rear yard and toppled to the concrete sidewalk below. He was taken to the hospital by Anthony Abbassa, a neighbor. His mother, Mrs. Ignazio Palmisano, became hysterical and was also taken to the hospital.

Here is its School of Commerce, Accounts, and Finance, historically the second in the country and one which is vitally affecting the business life of this whole metropolitan district.

Here is a Graduate School, New York University having two graduate schools and two colleges of liberal arts.

Here, finally, is the University's School of Retailing, which is sponsored by twenty great department stores, so valuable its work considered. Many students outside New York are enrolled here.

This enormous enlargement of New York University is not incompatible with the ideals of the founders. These were 165 prominent professional and business men who had a far sighted plan. They believed that while New York University should maintain the highest standards of scholarship, it should also place its learning at the disposal of all branches of the city's activities. They even went so far as to arrange for special students who might take a single course, whether in the day time or in the evening.

They saw the necessity of making higher learning accessible to all classes of citizens. Today there is scarcely a trade or profession which is not influenced, directly or indirectly, by the work which this University is doing.

With the beginning of its second century almost at hand, New York University is looking far ahead and planning solidly for the future. The Institution must have more funds, not for the purpose of expanding, but in order to consolidate and round out its present resources. The University receives no financial support

from either the city or the state and its private endowment is meagre. 86 per cent of the annual budget is met by student fees. The corresponding figures at Yale, Harvard, Columbia and North Western are, respectively, 20, 26, 46, and 50 per cent. The University authorities aim to lower the figure at New York University from 86 per cent to the neighborhood of 60 per cent. This does not mean that student fees will be less. Rather, the University desires to give the student greater value for the tuition dollar. Hence it proposes to seek public support for its endowment needs. The goal to be reached is \$73,000,000.

The following students from Belleville are attending New York University:

James K. Shaw of 354 Union avenue; Gerardo J. Tartaglia of 109 Chestnut street; Harold B. Stanlar of 62 Rossmore place; William L. Shriver of 256 Hornblower avenue; Harold W. ## Perfect Base for Tile or Linoleum

There are rooms in every house in which either tile or linoleum floors would be advantageous. The difficulty in making use of either of such floor coverings is in finding a thoroughly stable base.

Home builders who use concrete for their first floor slabs automatically possess an ideal base for either tile or linoleum. When linoleum is the desired flooring, a layer of felt is sometimes pasted to the concrete. Rolling with a 150-pound roller insures the felt lying absolutely flat. The linoleum itself is attached to the felt by means of a special cement and carefully rolled into permanent position. The advantage of the

The Rigid Concrete Slab Affords a Perfect Base for Linoleum.

layer of felt is in the greater resiliency of the floor and in the fact that the linoleum itself may later on be removed without damage.

When tile are used, the concrete is placed about two inches below the desired floor level. The tile are laid on a bed of cement mortar seven-eighths to one and one-fourth inches thick. The beauty and effectiveness of a tile floor depends entirely on the selection of the tile and the skill with which they are laid. Concrete gives both linoleum and tile their best chance for permanence and effectiveness.

No score, rubber game. Z dealt and bid one heart. A bid one spade and Y bid four hearts. B and Z passed and A bid five hearts. Should A double, bid five spades or pass?

In this hand it should be apparent that Y Z have a freak hand and can probably make five or more hearts. On the other hand, it should be possible for A B to make five spades. Even if they fail to do so, they probably will save a game and rubber with the bid.

For these reasons, A should undoubtedly bid five spades. Y certainly will bid six hearts, yet even that bid A should not double. In the actual hand, A doubled five hearts, Z redoubled and made a grand slam. Y was void of diamonds and Z was void of clubs. Y Z easily made all the tricks as Z also held the ace of spades. Be on the lookout for freak hands of this type and don't let the fact that you hold a big hand coax you into a double that the bidding should indicate cannot be made.

### ARTICLE No. 23

Learn to hold your cards in such a way that your opponents cannot see them. This advice may seem unnecessary to the majority of players; but, if they will take notice, they cannot help but admit that many players hold their cards in such a way that one or both opponents can get a good look. A fair opponent should call attention to this carelessness and request his opponent to hold his cards so that his cards cannot be seen.

On the other hand, many players will not warn an opponent of his carelessness. Their argument is that if a man is careless it is his own lookout; and they do not hesitate to take advantage. A player whose partner was particularly careless about holding his cards, said to him: "Partner, you had better show me your hand also, as both the adversaries have seen it." Don't be a "peeper" yourself and don't let the "peepers" take advantage of your partner or of yourself.

The hands given in the preceding article have proven very interesting to our readers. Here are the writer's analyses:

No score, rubber game. Z dealt and bid one club. A passed and Y bid three spades. B bid four hearts, Z bid four spades and A and Y passed. Should B double four spades, bid five hearts or pass?

Here is another freak hand and one that should be carefully considered. The bidding should indicate a blank heart suit or at most a singleton heart in Z's hand, and the same holding in clubs in Y's hand. If such is the case, B cannot figure on more than two sure tricks (the ace king of diamonds) and two possible tricks (one in hearts and one in clubs). A cannot be depended upon for a single trick, therefore B must win the required number of tricks in his own hand. As he cannot hope to win more than three tricks, he should not double the four spade bid.

On the other hand, when he figures that Y Z will make four spades, he certainly is justified in bidding five hearts. He can hardly hope to make this bid but, even though he fails to do so, the bid certainly will save game and rubber and is, therefore, justifiable.

If the opponents should then bid five spades, B should double. It is an interesting hand and should be carefully noted.

### Answer to Problem No. 26

No score, rubber game. Z dealt, bid one club and A bid one diamond. What would you do with Y's hand? Would you double one diamond, bid one no trump or one spade?

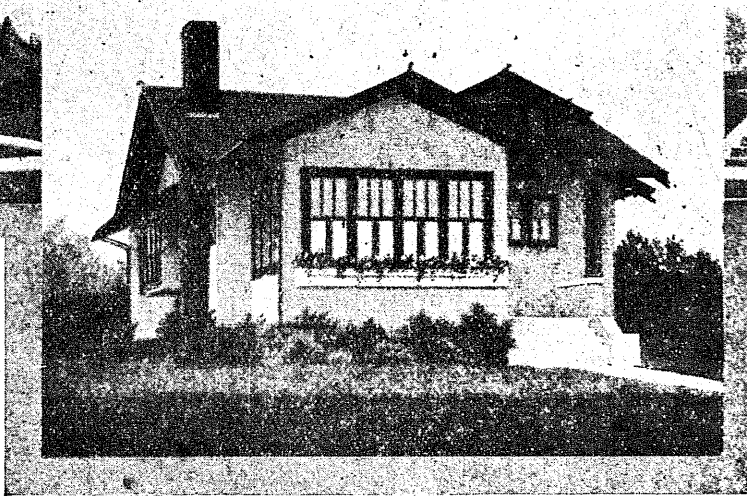

Y should not inform his opponents of the great strength of his diamond holding by doubling or by bidding one no trump. His proper bid is one spade. If his partner should bid two hearts, Y should bid two no trump. If his opponents should bid more diamonds (most unlikely) he should, of course, double. Don't be too eager to double a bid of one. It only warns your opponents of your strength and rarely gives your partner any information that is of any value to him.

## Nutley Loses Last Civil War Veteran

Corporal David Jenkins Passes With Memorial Day Fresh in Mind

Corporal David Jenkins of the Thirty-ninth New Jersey Volunteers, a Civil War veteran, to whom signal honors were paid Memorial Day by his fellow citizens, died Saturday morning after an illness of three months at his home, 155 Center street.

Mr. Jenkins was Nutley's last veteran of the War of '65. His illness prevented him from parading Memorial Day, as he had done for the last twenty-five years. A bouquet was presented to him and he heard the cheers of ex-service men when he received them for the last time on the lawn of his home last Thursday.

Interviewed at his home early in the week, the old soldier declared he would not parade and would not ride since it had been his boast he would not "fall in when his feet would not carry him." His sister, Mrs. Margaret E. Davis, and brother, Charles E. Jenkins, both of Nutley, were with him when he died. He also has three grandchildren.

Mr. Jenkins' regiment was attached to the First Brigade, Second Division, Ninth Corps, which participated in the engagement at Poynton Plank Road, Va., October 27 and 28, in 1864. He was in action in the capture of Petersburg in 1865 and also at Dabney Hill and Hatcher's Run. At Fort Mahone he was wounded by bullets through the shoulder and hip. Unable to get back to his own lines he was taken prisoner, held eight hours and returned to the federal lines. His wounds prevented further participation in the war and after his release from hospital he was given an honorary discharge.

**Full Military Honors**  
Full military honors were paid Mr. Jenkins at his funeral Monday. Services were held at his home, 255 Center street, at which the Rev. Charles Wright, pastor of Vincent Methodist Episcopal Church of Nutley, officiated. The flag-draped casket was placed on a caisson drawn by four mounted members of Battery A of East Orange.

Led by a detachment of Nutley policemen under command of Captain John Jameson, a procession, composed of veterans of the Spanish-American War and of the World War, the auxiliary of the Veterans of Foreign Wars, a detachment of the First Division of the regular army from Governor's Island and prominent citizens of the town, marched down Center street, along Franklin avenue, past the G. A. R. boulder on the Park School campus. School children lining both sides of Franklin avenue paid silent tribute as the marchers continued on down Chestnut street and along Passaic avenue to the Methodist cemetery.

The burial services were conducted by Stuart Edgar Post, V. F. W., of which Corporal Jenkins was an honorary member, under the leadership of Commander Earl Blair and Chaplain Edward S. Davis. A short eulogy was delivered by Mayor Cook. A volley was then fired by the First Division regulars and as the final strain of taps sounded, the body was lowered into its final resting place.

The pallbearers were David Hallday, commander of Nutley Post, No. 70, American Legion; Royal Stager, past commander of Stuart Edgar Post, V. F. W.; G. Russell Hartley, G. R. B. Symonds, Arthur Jenkins and James Murren.

## Exhibition Of Dancing Scheduled For June 8

The pupils of Vivian Dobbin's School of Dancing will give an exhibition at the Belleville High School Gymnasium, June 8, at 2:30 o'clock.

There will be two acts; the first, a scene of a gypsy camp at the time of their yearly festa. In this act gypsy merry making and revelry prevails. The second, "Bits From Everywhere" is well named as tap, toe, ballet and acrobatic dancing are its main features. Jane Ziph, a three and one-half year old vamp will do an acrobatic specialty; Jessie Mitchell four years old will do a parasol dance on her toes. Adele Tryon three and one-half years old, will sing "I Faw Down an Go Boom" also Shirley Church, four years old, will give us an idea of Japan as she does a Japanese fan dance on her toes. There will be about fifty other talented children taking part.

The public is invited to attend. Tickets may be purchased at the door.

## Asks Extra Fund For Sewer Repair

Nutley Commissioner Requests Additional \$25,000 To Finish Job

In order to complete the work of repairing the trunk sewer in the North road quarry in Nutley, Commissioner Charles A. Sherwood told his colleagues on the town commission Tuesday night that appropriation of \$25,000 will be necessary. Accordingly, an ordinance amending the original ordinance authorizing the bond issue of \$65,000 was introduced.

The commissioner stated that underground conditions in the section covered by the sewer are so uncertain that many difficulties are anticipated.

J. J. Conway of 492 Walnut street, asked the board to straighten out his tax paying status. He said that he had just paid one-half of his year's tax, part of which was the school tax. He told the board that because part of his property is in Clifton the board of education has compelled him to pay tuition in order that he might have his child in the Nutley school system. This situation he described as "unconstitutional." The matter was referred to town attorney William F. Gorman.

The contract for constructing a sanitary sewer in Kingsland road, Lakeside drive and Memorial parkway was awarded to Minieri Construction Company of Paterson, at a cost of \$7,299.1. The board passed a resolution of condolence on the death of Corporal David Jenkins, the last of the town's G. A. R. veterans, who died Saturday morning.

A communication from the Chamber of Commerce proposed cutting additional streets through Franklin avenue between Chestnut and High streets. The plan was brought before the former commission but no action was taken. The letter was referred for consideration.

**Elks Ask Circus Permit.**  
A petition from Nutley Lodge of Elks asked permission to hold a charity circus the week of July 22 on lots at Chestnut street and Yantacaw drive. The request will be considered.

A petition from the North End Improvement Association asked that brush on the northwest corner of Alexander avenue and High street be cut down, declaring it obstructed the view of motorists. It was referred to the Department of Public Safety.

## Belleville Man Beats Up Bandit

Turning on a colored would-be bandit who had just taken \$1 from his pocket, Paul Moylan, 34, of 31 Prospect place, swung on the thief, striking him on the ear. While the bandit was staggering trying to regain his balance, Moylan snatched the money back and pursued the colored man for a block.

Moylan said that he had been crossing at Chestnut and Hermon streets Newark, when the colored man approached him from the rear and prodded him in the back with something hard. Moylan submitted to a search, but watched for his chance and struck out with his fist. The thief got away.

## Doing Europe—And How Henry?

R. Henry Holst, Belleville's antique furniture artist and popular Rotarian, is doing Europe.

The last we heard of Henry was from Berlin where he spent May 23. In his travels he has so far visited London, Dublin, York, Edinburgh, Glasgow, Paris and Berlin. He is on his way to Copenhagen, Denmark.

## William J. McLean

Funeral services for William J. McLean, Erie Railroad brakeman, who was killed on duty at Little Falls Sunday, were held at his home, 9 Shepard place yesterday afternoon at 2 o'clock. Rev. Addison Molyneux of the Methodist Church, Haledon, officiated. Burial was in Fairview cemetery.

Mr. McLean was twenty-three years old. He was a member of General Oster Council, Jr. O. U. A. M., and of the Brotherhood of Railroad Trainmen. He leaves his mother, Mrs. Harry R. Allen of Nutley, and a sister, Mrs. Adeline Fitzsimmons of Newark.

## VAIL MEDAL WINNERS INCLUDE JERSEY GIRL

Honored for noteworthy public service are: 1.—Anna C. Yuresko, night operator of the New Jersey Bell Telephone Company at Rock-

For the second successive year a New Jersey woman has been selected from among almost half a million people in the telephone industry in America for one of the highest awards obtainable for noteworthy public service.

Announcement that the national committee of award has awarded a Theodore N. Vail Medal in silver and \$250 in cash to Miss Anna C. Yuresko, operator at Rockaway, was made last week by Chester I. Barnard, president of the New Jersey Bell Telephone Company.

The award to Miss Yuresko is one of four national awards of Vail Medals for outstanding acts of service performed during 1928. Three of the four medalists are women. It supercedes a regional New Jersey award of a bronze Vail Medal to Miss Yuresko announced early this year.

A bronze plaque commemorating her act has been awarded in conjunction with the medal to the New Jersey Bell Telephone Company, and will be placed in Vail Hall, the auditorium of the new Headquarters Building of the company in Newark. There it will be displayed with similar plaques commemorating the acts of Mrs. Mary E. Algor of Holmdel, last year's winner of a silver medal for saving another woman's eyesight and the acts of numerous telephone men and women honored in connection with the Lake Denmark Arsenal disaster of July, 1926.

The Vail Memorial Fund, established as a memorial to the late Theodore Newton Vail of Morristown, telephone pioneer and head of the Bell System many years, provides for awards of bronze medals regionally and gold and silver medals nationally each year.

The specific act for which the award to Miss Yuresko was made was the averting of a train wreck and possible disastrous consequences last June through resourceful and prompt use of the telephone facilities at her command.

Alone on duty in Rockaway Central Office shortly after 11 o'clock Sunday evening, June 24, last year, she answered the signal at the switchboard which told her that someone was calling from Rockaway 81, a telephone located near Mendez Bridges, spanning the Lackawanna Railroad tracks on the Denville road.

A woman informed her that an automobile containing two men had gone through the side of the bridge and had fallen twenty-five feet to the tracks below.

The cut through which the railroad runs is deep at that point, and narrow, Miss Yuresko knew, only wide enough for a single railroad track, and lined its length with concrete. She also knew that a passenger train from New York was due at 11:12 P. M. at Rockaway—a few minutes earlier at the cut. A sharp curve would prevent the engineer from seeing the wrecked automobile until too late. Unless a message could be relayed to the train crew a crash was inevitable.

The probability of a derailment, of the train hurled against the concrete walls of the cut, flashed through her mind. One chance existed to flag the train—through the Denville Tower, two miles away.

The railroad has its own private telephone system for the dispatching

of its trains. No line ran from the central office to the tower. The Denville Station which had a telephone was closed for the night. The Tower is isolated from homes that might have telephone, and occupants who would carry the message of warning.

Miss Yuresko remembered that late the previous night she had handled a telephone call for the Train Dispatcher's Office at the Lackawanna Yards in Port Morris, fifteen miles from Rockaway. The railroad's telephone system would connect the Yards and the Denville Tower. Remembering the number she had called before, she reached the Netcong Central Office and asked for "Netcong 115, Quick!"

In a few seconds she was telling her story to the Train Dispatcher at Port Morris. A moment later the towerman at Denville had his orders. The train was flagged, the crew informed of the accident and the wreck averted.

The greater danger past, Miss Yuresko then obtained police aid to look after the wrecked automobile and its occupants, by calling the State Police at Netcong when she was unable to locate the Rockaway Police Chief at his home or at headquarters. They were not seriously hurt.

The three other recipients of national Vail Medal awards, all of who received silver medals also, are Mrs. Mabel Hite, agent of the Northwestern Bell Telephone Company at Potter, Nebraska; Olin Etheridge Perdue, line measurer of the American Telephone and Telegraph Company at Atlanta, Georgia; Mrs. Althea P. Marks, agent of the Pacific Telephone and Telegraph Company at Saticoy, California.

In February, 1928, while on duty alone at the telephone central office at Potter, Mrs. Hite heard overhead an airplane apparently circling over the town. A blizzard was raging and she deduced that the pilot must be lost or in other difficulty, so called the Air Mail Field twenty miles from Potter. Told that the most helpful action she could do would be to mark out the boundaries of a possible landing field with red flares, which she might obtain from the railroad, she called a local garage and explained the emergency. The garageman obtained help, and marked out the landing field, enabling the pilot, carrying mail, to land safely, refuel the plane and continue on his way.

Perdue last September when a fellow worker encumbered with a heavy tool box and climbers had fallen into the flood-swollen Altamaha River, near Atlanta, dived from a twenty-foot trestle, reached his man, fought his way fifty yards through floating debris to the bank—and was unable to find firm ground there with his helpless burden. Standing on the submerged branch of a tree, he hauled the unconscious man up into the branches, unstrapped and cast off the tool box and climbers, fought his way twenty-five yards further through the flood to some logs lodged against a tree, pulled his comrade onto the logs and applied artificial respiration, restoring him.

Mrs. Marks on March 13, 1928, shortly after midnight answering a call at the switchboard in her home at Saticoy, California, learned that

phone Company. Potter, Nebraska and 4.—Olin E. Perdue, line measurer at Atlanta, Georgia, for the American Telephone and Telegraph Company.

The St. Francis dam had broken and the entire Santa Clara River valley was in danger of being flooded. Although aware that the enormous amount of water impounded by the dam might inundate the town, she remained at the switchboard, warned the residents of the community of the danger, kept everyone informed as to the progress of the flood and after it subsided without respite three nights and two days to render service essential to relief work.

## Plans announced In The Churches

There was a meeting of the White Church League of Franklin Reformed Church Monday night at 7:30 o'clock. The Women's Guild met Tuesday afternoon at 2:30 o'clock. The pastor preached last night and will continue his class in religious instruction Saturday morning at 9:30 o'clock.

The Woman's Home Missionary Society of Vincent Methodist Church met Tuesday afternoon at the home of Mrs. M. B. Johnson of Prospect street. The official board will meet tomorrow night. Children's Day will be observed Sunday with a special service and the sacrament of baptism.

The annual excursion to Ocean Grove in the interest of the Methodist Home for the Aged will be June 11. Mrs. Louis Evans is in charge of reservations.

There will be a meeting of young people of St. Paul's Congregational Church tomorrow night at 8 o'clock in the educational room to form a Christian Endeavor Society.

The Woman's Auxiliary of Holy Trinity Lutheran Church met yesterday afternoon at 2 o'clock. Junior choir rehearsal will be held this afternoon at 4 o'clock. The church council has postponed its session to June 11.

## To Enter Annapolis

Norman W. Gambling, eighteen, son of Mr. and Mrs. Thomas H. Gambling of 406 Hillside avenue will be the first Nutley High School graduate to matriculate at the United States Naval Academy at Annapolis. He received word this week he passed substantiating examinations in English and mathematics, with an average of eighty-five per cent.

He was graduated from Nutley High School in January, 1927, concluding a post graduate course of one year this term. His high school record shows a high scholastic standard.

While at high school he was active in the Dramatic Society, Glee Club and other organizations. He was a member of the board in charge of The Attic, school publication, four years, class historian and secretary of his class during the senior year. He will enroll at the academy in the fall.

## Entertains Daughter

Mrs. Arthur Proal of Nutley avenue has had as her guest her daughter Mrs. George Hill of Concord, Mass.

## Kearny Jolts Nutley's Hopes For High Honors

Gaul, Cardinal Moundsman, Allows Maroon and Gray Two Hits

Nutley's state diamond championship hopes were handed a wide jolt Saturday afternoon at Kearny when Gaul, Cardinal moundsman, wielded the kalsomine brush in an artistic manner and the West Hudsonites romped off with a 7-0 verdict over the hitherto undefeated (by a high school) proteges of Coach Stanford.

Gaul was at the top of his form in Saturday's encounter and the Nutley team never had a chance. The visiting Maroon and Gray aggregation was able to solve the Kearny flinger's delivery for only two safe swats, both in different innings, and these were the only Nutley players to reach first base during the course of the contest and incidentally their progress stopped at the initial corner.

Baykowski started the fray for the locals but an injury to his shoulder suffered before game time forced him to leave the game in the sixth stanza in favor of Fenrich. Both twirlers tossed well, but this went for naught as the Nutley clouters were unable to solve Gaul's slants.

Kearny started early by shoving up three markers in the second inning. Given a lead at the outset Gaul settled down to work in earnest and turned in one of the best performances of his career. Eighteen Maroon and Gray warriors returned to the bench following a third strike which added further to Gaul's pitching laurels.

Kearny bunched its nine blows well. The trans-Passaic boys required only two innings to tally its afternoon's entire quota of runs. The three run barrage in the second stanza put the Kearny outfit off on the right foot. Gee started the fireworks when he dropped a safety over short. Krook sacrificed him to second and McAteer pumped out a single to score him for the first run of the contest. McAteer advanced on the throw-in and raced for home when Brehme came through with a safe swat.

Although his arm was giving him pain Baykowski settled down and hurled until the sixth frame when Kearny found him for three hits to fill the bags. Fenrich took the mound but was unable to hold the Cardinal warriors and before the Kearny nine was finally retired four more tallies were chalked up, sewing up the contest.

Gaul's only objective in the closing innings was to shut out the Nutley team and he was able to produce the necessary pitching ability, thus atoning for a defeat at the hands of the powerful Stanford coached nine, earlier in the season.

## SUNDAY CLOSING

Anthony S. Micone, hardware dealer in Washington avenue, who has been the strongest objector against Sunday closing of hardware stores by the commission Tuesday told the members they are urging trade at home and are driving Belleville business out of town.

Micone set forth that he has a large payroll and he has to get it through the medium of his business, which includes Sunday morning. He declares that while he does not do a great volume of business on Sunday a certain amount is "good will" business and accommodation. Regular customers, who find it inopportune to buy during the week, often make purchases Sunday. In the case of Belleville stores closing these people go out of town where dealers, recognizing a new face offer bargains and "steal" Belleville trade.

Micone said that he would like to close Sunday, but he realizes he must cater to the public. Other dealers who want the Sunday closing should have considered their public duty before opening a store, he added.

The commissioners got into some real hot water when they passed the ordinance closing the hardware stores. Now other store dealers feel they come under the same measure. Blue laws for fair, they say, and they intend to fight. Commissioner Waters opposed the board move as did commissioner Carragher, who later changed his vote.

## NEW MONEY

On July 10 the American people will be provided with a new supply of paper money. The treasury department has been preparing it for months. More than 1100 tons of specially prepared paper has been used in making this new currency. Enough has been printed to give to every man, woman and child in the United States an average of \$26 each.

The new bills will be one-third smaller than those now in use. Because of their reduced size the Government will make a tremendous saving in paper. As this paper is the finest quality and specially prepared for the use to which it is put is very costly.

The distribution of the new currency will be made through the banks. All the old bills now in circulation will be replaced by smaller bills. The banks will accumulate the old bills as rapidly as they can and exchange them for new ones. For a while both the old and new currency will be in circulation. Little by little, it is expected, the old bills will disappear and new bills will take their place.

On the new dollar bill there is a picture of George Washington. There are many more dollar bills than any other kind and it is fitting and proper that the picture of the Father of His Country should be placed on them. Jefferson's picture will be found on the new \$2 bill. Lincoln's portrait is on the \$5 bill; Hamilton, the first Secretary of the Treasury, will have his picture on the \$10 bill. Jackson, who fought the United States bank tooth and nail during his two administrations, will have his picture on the \$20 bill which not so many people will see. Grant's likeness will be found on the \$50 bill; Benjamin Franklin's on the \$100 bill; McKinley's portrait will be on the \$500 bill; Cleveland's on the \$1,000 bill; Madison's on the \$5,000 bill and the picture of Salmon P. Chase, who was the Secretary of the Treasury during the Civil War, will have his picture on the \$10,000 bill.

Not many people will ever have a chance to examine the bill with Mr. Chase's portrait on it for its circulation will be somewhat restricted. Unless conditions change not a great many people will be passing around \$10,000 bills.

The front of the new money will be black and the reverse side green. Yellow backs, which everyone has been anxious to obtain as often as possible, will disappear. It is said that counterfeiters will find it even more difficult to imitate the new money than they have that which is now going out of circulation. The engraving on the new bills is such as to almost defy the counterfeiters. The new money is made of tougher paper and will wear much longer than the old money did.

## THE AIR AGE

There was a time when the zenith of about every boy's ambition was to be a locomotive engineer. No toy was more prized than the miniature railroad train. No book was more fascinating than Oliver Optic's "Through by Daylight." The train still is popular. But it has competitors. There are toy automobiles, taxicabs and motor buses. And, ever since Lindbergh's flight to Paris, there has been an increasing number of toy airplanes. It is to be assumed that the manufacture of these countless toy planes is in response to the demand. Toys are given to children because they want them, not for purposes of propaganda and education. Unless there is a striking reversal of history, the ever-increasing number of toy aircraft means that the air age is at hand.

## SIMPLE WORDS—BUT MAGNANIMOUS

No more significant talk, no better choice of words, magnanimous in their meaning, could please any patriotic citizen more than those uttered by Rt. Rev. Bishop Thomas J. Walsh, D. D., at the monument unveiling at St. Peter's Memorial Day.

The Bishop spoke the voice of most of us, regardless of creed. He spoke for America as it appeared to our forefathers. He spoke of it from a patriotic standpoint, in language that anyone could understand.

When he said that each citizen should respect each other citizen, whether naturalized or natural born the Bishop appealed to what has made this country the great country it is. In short, he meant no one is better than anyone else, from a patriotic standpoint. It is the privilege of each to enjoy what his fellow citizen enjoys. America is a free country, always has been and, no doubt, always will be. Whether we be Catholic, Jew or Protestant words of this nature coming from such an eminent Bishop can do nothing but make us all realize that bigotry should be a word relegated to the junk heap, so to speak, and we should settle down to the proposition of finding out the world problem of how to best live and let live.

## Floors that Make Homes Firesafe

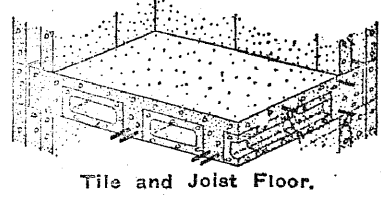

Reinforced Concrete Slab.

Concrete floors are standard construction in commercial buildings. They are built according to well established methods. These same methods may be used by the home builder in giving his home the fire-safety and stability which it should have if it is to be a long term, profitable investment. There are three major types of concrete residence floors. The first of these is the simple, reinforced concrete slab. This type may best be used when spans are not more than 16 feet. In thickness slab floors range from 4 inches for a 10-foot span to 6 inches for a 16-ft. span.

The second type, frequently used in commercial work, is the so-called "ribbed floor," a concrete floor cast over steel or wood forms which are removed when the concrete has thoroughly set. These forms are laid in parallel rows from 4 to 6 inches apart, so that the underside of the floor, when the forms have been stripped, appears

"Ribbed Floor"

Tile and Joist Floor.

as a series of arches and joists. In case it is desired to plaster the basement ceiling, metal ties are embedded in the concrete of the joists to support metal lath.

The third type is a floor in which the pan of the "ribbed" floor is replaced by concrete hollow tile, arranged in orderly rows, 4 to 6 inches apart. When the concrete is cast over and around the tile, it unites and bonds perfectly with them, resulting in a strong floor, smooth on the bottom and ready for plaster. All of these floors employ steel reinforcement to aid in taking up the tensile stresses.

Mrs. Josephine Feigel of Mount Vernon, N. Y., and Miss Stella Henges of Savannah, Ga., were week-end guests of Mr. and Mrs. Joseph M. Quigley of Washington avenue.

A spring festival will be held June 14 under auspices of the Woman's Auxiliary of Holy Trinity Lutheran Church at Franklin Reformed Community House. Mrs. George Jansen is general chairman. A varied program will be given by children of the Sunday-school, including a short play, "The Orphan's Dream;" a pantomime, "Old Folks at Home;" and a Grecian scarf dance, with nine in the cast. The junior chorus will render several selections and a tableau, "Liberty," will be shown in commemoration of Flag day.

## Jancovius Remodels A Department In Its Busiest Time

Remodeling one of the main departments of the business in the height of the season, is a feat just completed by Jancovius & Son, Inc., of 112-120 Arlington street, Newark, rug cleaners. The alterations, too were for the installation of machinery, which is the largest of its kind in the world, and the most modern in design.

The Jancovius concern, which after forty-seven years in business as an original Newark institution, has the distinction of being not only the largest of its kind in the world, but the one with the most modern equipment. Several of its machines have been invented by members of the firm, and they have attracted the attention of people in the same lines, who have come from various parts of

the United States to see them. This new apparatus is part of the equipment for "shampooing" rugs, something the ordinary individual has no conception of. After some preliminary handling the rug is placed flat on the floor and scrubbed with soap through the means of a power rotary brush. Then most of the water and suds are removed with large "squeegees." After this it is advanced to a tank where it is rinsed and passed through large pressure rolls, from which it comes with the water removed, and as bright and as silken as when it first arrived from the weaver.

Another apparatus conveys the rug to rollers which carry it up a story and straightening it out and lowers it into a heated drying room. This passes through slowly until thoroughly dried, after which it is lowered again into a brushing and folding room, and thence to the shipping room if to be delivered or to a stock room if to be kept until fall or some other date.

## GAS ROASTS your COFFEE

EPICURES tell us that upon the way in which coffee is roasted largely depends the flavor and the

aroma of this most popular of American breakfast beverages. And so, the best coffee that comes to your table is roasted by gas.

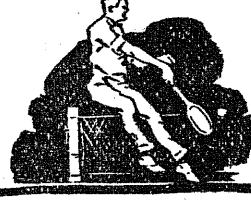

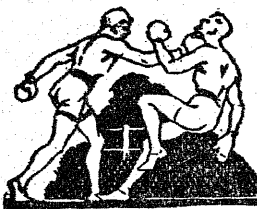

It is easy to understand the reason. Gas is easily controlled, permitting exact regulation of temperatures; it burns uniformly, assuring even heat; it is clean, and the apparatus necessary for its use is simple, saving space and eliminating the need of constant attention.

Whether it be in the home or the factory, gas—the controlled fuel—does its work efficiently, economically, and better than can be done in any other way.

## Bachelors Defeat Elizabeth Ramblers

The Bachelors continued in their winning stride by overwhelming the Elizabeth Ramblers, 13-2 at Capitol Field Sunday.

"Pat" Dunn, Bachelor twirler, was a great form allowing but seven widely scattered hits and striking out an of his opponents.

Polvis, twirling for the losers, was hit hard by the Bachelors who accumulated seventeen safe wallops from its delivery.

Dunn led the Bachelor stick-wielders with three safe wallops. "Jim" Clark also played well for the winners in the field, besides garnering two clean hits.

Meacham starred for the losers. Sunday afternoon the Bachelors will attempt to add the fast stepping Bloomfield Separates to their growing list of victories. The game is scheduled to be played at Capitol Field and will begin at 3 o'clock.

## Bachelors Win

The Bachelors and the Pastimes engaged in a practice game which resulted in a victory for the Bachelors, 3-2, recently.

Both teams played errorless ball with Reilly and Clamo starring for the victors, while "Flash" Luby lived up to his nickname by playing a remarkably fast game in right field and his three successive steals of second, third and home in the third inning were nothing short of sensational.

### Service Club Gets Practice For Rotary Game Saturday

The First National Bank defeated the Lions Club of Belleville, 15-11, in a seven inning game, at Capitol Field, Wednesday.

Dingle twirling for the First Nationals, did very well until the fourth inning, when a combination of errors by Karosen, two runs, and successive hits by Kenworthy, Charrier and Micone resulted in seven runs for the Lions. He was replaced by Karosen, who held the Lions Club scoreless for the remainder of the game.

Charrier started for the Lions Club and was greeted by a bombardment of hits, resulting in two runs in the first inning, but in the second, he managed to hold the First Nationals scoreless. In the third inning, he went to pieces after allowing nine runs to be scored, and was replaced by Doc Kavanaugh, who was greeted in the fourth with four runs, but from then on managed to hold the First Nationals scoreless.

The game was featured by the heavy hitting of Dingle and Miller for the First National Bank, and Kenworthy for the Lions Club. This game was a practice for the Lions, in anticipation of their annual game with the Rotary Club, to be played at Clearman Field, tomorrow at 3:30 P. M., for the benefit of the Girl Scout Campaign Fund.

The fielding features were furnished by Henry, right fielder of the First Nationals, and Doc Kavanaugh of the Lions Club.

## Cardinals Win American Legion Junior Ball League

Having decisively defeated two other teams in the American Legion Junior Baseball League the Belleville Cardinals have been picked as the local representative's in the nation-wide junior baseball competition for boys under sixteen, sponsored by the American Legion.

After the playing of several practice games with heavier teams to prove their ability the Cardinals will stack up against the team picked to represent Newark in the league competition.

The Cardinals have a strong team and should go far in the national tourney.

## Curious Desk Presented to C. W. Nash

The shield shaped emblem of the Nash Motors Company, inlaid in pearl and beautifully colored Asiatic woods, is the central motif in an unusual mosaic desk presented to C. W. Nash, president of the company, by N. Boukather of Beirut, distributor of Nash cars in Syria and Iraq.

The desk, a curious example of Byzantine art, was built by Levantine craftsmen. Over a quarter of a million bits of wood and pearl were used in forming the design, and the completion of the desk required the time of five men for sixty-two days.

## CAPITOLS NOSE OUT ST. PETERS WHO SUFFER FIRST DEFEAT 2-1

In the best played game of the league—leading St. Peter nine, Monday—St. Peter came out to a close 2-1 win over the Capitols—leading St. Peter nine, Monday night. It was the first setback of the season for the "Saints," who, nevertheless, played great ball in defeat.

It was a pitcher's battle from the beginning with "Rat" Flynn, who fanned nine, and "Lefty" Kintzing with six strikeouts, both in rare form. Flynn was invincible in the first four frames retiring the first thirteen batters to face him. "Jim" Mallach, however, broke the spell in the fifth with a mighty homer far over the center field fence. It was the longest hit yet recorded on Clearman Field.

This long wallop accounting for the tying run, as the "Saints" managed to get Kintzing in the first half of the inning on Johnson's single, Wengel's double and a sacrifice fly by Curran, to score their lone tally.

A marvellous bare-handed catch, which resulted in a double play, by "Biddy" Carragher, St. Peter's star left fielder, cut off possible scoring by the Capitols in the sixth.

In the seventh, however, the Capitols put over the winning marker, spoiling the "Saints" perfect record. Lilori's single, following Dunleavy's single and Schessler's infield out, provided the winning margin. This single ended a real ball game replete with sensational playing.

St. Peters Down Bachelors On Decoration Day the league leading St. Peter nine overcame the Bachelors in a thrilling game, 10-7.

"Tommie" Byrnes, Bachelor twirler, although hit hard at times, pitched good ball and with less erratic support from his teammates would have been the winning pitcher. "Rat" Flynn, after relieving Johnson, who was hit hard by the Bachelors, in the fifth, pitched superb ball for the remainder of the game, holding the losers at bay while his teammates accounted for the winning tallies.

Carragher's long home run over the center field fence was the offensive high light of the game. It scored the tying run for the "Saints" and started what later proved to be the winning rally. Johnson, with three safe wallops, also featured the St. Peter offensive.

Loesner was the Bachelor's batting hero with two doubles over the left field fence to his credit. Rothwell and Andrews also accounted for two clean hits, the former getting a brace of two-baggers.

"Jim" Clark featured in the field for the losers with a pair of sensational catches, while Carragher played a good defensive game for the "Saints."

## Belleville Separates Score Eighth Win

Belleville Separates scored their eighth victory by defeating their neighborhood rivals, the Nutley P. C. club in a ten inning game at Elk's Field Sunday afternoon by a 3-2 score.

"Peps" George, rated as one of the best semi-pro twirlers in the state was on the mound for the Belleville nine and proved his class by allowing but two runs and fanning ten opposing batters. Jacques and Del Guercio collecting four hits apiece led the attack for the Separates. Manager Johnny Woods of the Separates, first batter in the tenth inning crashed a home run to deep right field to give his team a well deserved victory. Degnan, De Bellis and McDonald played best for the losers, the latter getting a four base blow in the second inning.

A dispute arose in the tenth inning when Del Plato, Nutley batter, crashed a hit over second base, the ball rolling outside the grounds. Manager Zucker, who had made a ground rule allowing the batter two bases for a blow of that sort failed to keep his word when the occasion arose. Due to the fact that the Separates were leading at the time, and had to contend with the unorthodox manlike tactics of the Nutley Pleasure Club they have erased them off their schedule.

Saturday afternoon at Separates Field the Belleville nine have carded the undefeated Woodside Pros for an attraction. Sunday afternoon they will travel to Recreation Field to encounter the Senate Club of Harrison. Johnny Woods will face the Woodside Pros while "Peps" George will be on the mound against the Senate Club. Villicari will be held in reserve.

The Separates have a few open dates and would like to hear from the Nutley A. C. Club. Charlie White 127 Passaic avenue, Belleville is booking manager.

## Panthers Defeat Community Aces

The Belleville Panthers continued their winning streak with a decisive win over the Community Aces at Belleville Park, Sunday.

Mac Lamb, who relieved Schack in the fifth frame, pitched fine ball for the Panthers allowing but a lone tally during his stay on the mound.

Bonavita, who twirled for the losers was hit hard by the Panthers who clouded seventeen safe hits. This heavy barrage was led by Byrnes, Murphy and Lamb, each of whom accounted for three safe wallops. J. Bonavita starred for the Ace's with a pair of bingles.

## Bell-Nuts Defeat Park Players, 8-5

On Tuesday the Bell-Nuts went into a tie for second place in the American Legion League by a victory over the Parks, 8-5.

The feature of the game was a long home run to deep right center field by Al Ott, Bell-Nut second baseman, with the bases loaded in the fourth frame.

Leach, on the mound for the winners, although not especially effective against his light-hitting opponents, kept his hits and runs well scattered, the Parks being unable to get more than one tally in any one inning. Both Park hurlers, Holland and Paul, were ineffective, numerous bases on balls marring their work.

"Artie" Lamb led the Bell-Nut attack, garnering two of his team's four hits, besides playing his usual brilliant fielding game. Reeves played best for the losers, getting three safe wallops, including a double. Reeves featured the Park defensive game.
