BELLEVILLE, N. J., FRIDAY, AUGUST 23, 1929

TOWN OF BELLEVILLE

PRICE TWO CENTS

## Lowest Bidder On County Road Job

Newark Concern's Figure Is Given On Union Avenue Work In Belleville And Nutley

A bid of \$178,378.80 by the Franklin Construction Company of Newark for the paving of Union avenue, from Jorammon street, Belleville, to Center street, Nutley, was the lowest received by the county for that work. Bids for several paving jobs were opened by County Purchasing Agent George C. Bergen, Monday and tabulated by County Engineer William A. Stickle Tuesday.

The Union avenue pavement will be of asphalt, forty-eight feet wide. Of this the county will pay for forty feet and the towns for the remaining eight.

The lowest bid for storm drains in this street was from Cosmo DeFazio of Orange. The bid was \$32,562.90.

The low bid for a concrete pavement in Normal avenue, Montclair, from Valley road to Upper Mountain avenue was from A. J. Milmo of Newark at \$28,898.35.

A low bid of \$5,982 for a concrete culvert under Grove street, Montclair, at Mt. Hebron road, was from A. K. More Company, Inc., of Belleville.

## Funeral Services For Hero Of World War

William F. Breen Fatally Injured In Auto Accident

A solemn high mass of requiem for William F. Breen, of 109 Mt. Prospect avenue, who died at City Hospital, Friday, after an automobile accident, was offered at St. Peter's Church, Monday morning at 9 o'clock. Burial was in Holy Cross Cemetery, Arlington.

Mr. Breen was fatally injured Tuesday, when the automobile in which he was riding at Clifton and Park avenues, Newark, was in collision with a taxicab driven by John Seeds of 330 Second avenue. Mr. Breen suffered a skull fracture, crushed ribs and fractures of both legs. He lived eighteen hours after the accident.

Born in Newark thirty-five years ago, August 10, Mr. Breen lived there until he moved to Belleville two years ago, when he bought a home for his mother. He was an assistant superintendent at the James Crowell Lumber Company. Enlisting for service at the beginning of the World War, he engaged in mine sweeping the Atlantic until the war ended. He received four medals for bravery.

He was a member of the Newark Elks, the Naval Reserve, St. Patrick's

WILLIAM F. BREEN

Parochial School Alumni and the Thomas Vessey Association.

Besides his mother, he leaves three sisters, Mrs. Arnold Banzhaf of East Orange and the Misses Catherine C. and Elizabeth B. Breen of the Belleville address.

## CHRIST EPISCOPAL CHURCH

Rev. Peter R. Deekenbach

Morning prayer and sermon on Sunday at 11 o'clock. Mr. Hal W. Earl, lay reader, who has been in charge during the rector's absence, will preach on "Habit Formation." Union evening service at 7:30 o'clock at Christ Episcopal Church, with Rev. B. F. Dickisson, preaching.

## SCHOOL OPENING ALL SET FOR WEDNESDAY, SEPT. 4

School Commissioner James L. De Rossett Kicks Over New Cars At Meeting Of Board Of Election

Belleville Public Schools will open on Wednesday, September 4, for the reception of pupils and the beginning of the term's work. During the vacation period the buildings have all been renovated and are ready for occupancy, and new No. Ten School, Belleville and Franklin avenues, will be ready for use.

Former pupils will all report to their previous schools and classes with the following exceptions, those who finished the eighth grade in the grammar schools in June should report direct to the high school. The pupils who have completed the seventh grade at No. Nine should go to No. One on the opening morning, and those who are through the sixth grade at No. Two should attend No. Four if they live west of the canal bed and No. Eight or No. Ten if east of the canal bed. Those pupils living within the following lines should go directly to the new No. Ten building. This district is bounded north by a line on Franklin and Garden avenues midway between Jorammon street and Belleville avenue, east by a line midway between Park View and Columbus avenues, south by the Greenwood Lake Railroad, and west by the Bloomfield line.

All pupils should attend the school in the district where they reside without regard to the building wherein they were enrolled. This concerns some children who were transferred out of their district because of lack of room or other cause.

Kindergarten classes will be opened in Schools Five, Eight, and Ten in addition to that established at No. Three.

Transportation by bus will be provided for high school pupils and certain others from Soho and Silver Lake as heretofore.

It is expected there will be con-

(Continued on Page Nine)

## PLAYGROUND WIND-UP FEATURE WILL BE WEDNESDAY AFFAIR

Playground activities are winding up the season and the big event, is on Wednesday morning when all grounds will compete for athletic honors. The track meet is to be held at Belleville Park under the direction of the Recreation Commission and is the annual affair of the playgrounds.

For each event, the grounds may enter six contestants. The meet is divided into two divisions according to size and age of athletes. In the senior division of the boys, there is a 100-yard dash, running broad jump, and 440 relay; for the junior boys a 60-yard dash and running broad jump. Junior girls will compete for honors in a 40-yard dash, with the senior girls running a 60-yard dash and running broad jump.

Aside from the track meet, finals to decide the championship in checkers, hopscotch, jacks, horseshoes and target are scheduled for the last week. The schedule: Monday, August 26, 9:45, Horseshoes, Cortlandt, Pascall-Petrucchi; Tuesday, August 27, 9:45, Jacks, Silver Lake, Miller-Walker; Wednesday, August 28, 2, Checkers, Friendly, Petrucchi-Pabst; Thursday, August 29, 2, Hopscotch, Recreation Grounds, Bbotay-Pascal and Friday, August 30, 10, Target, Silver Lake, Miller-Mason.

**Recreation House Grounds**  
Golf has brought out a large number of boys. A miniature seven-hole golf course has been laid out by the youngsters. Hazards of all descriptions are included. A golf tournament is to be staged in the near future with prizes for the winner.

The Recreation House girls' volleyball team gained a victory over Friendly girls by taking two successive games. In volleyball, the Cortlandt street team are the undefeated champions.

**Silver Lake**  
Thursday afternoon a game was played by the track athletes of Silver Lake ground in order to fit them for the races. It was "hare and hounds." This is especially good for the lungs and legs of the youngsters—not too fast, not too long.

**Window Cleaning Time.**—We are equipped to do it for you. Greylock Window Cleaners. Phone Bell. 2293, 356 Greylock avenue.

## Thirteen-year-old Boy Admits Factory Thefts

Because This Is First Offense No Charge Will Be Made

Reading newspaper accounts of four safe burglaries in Belleville factories the last three weeks was amusing for a thirteen-year-old school boy until he was sent for by Police Chief Michael Flynn Friday night and prevailed upon to confess he was the culprit.

Because the burglaries constituted his first offense, none of the factory owners will press a charge against him. His father was informed of his nightly prowling, however, despite his threat to police he would run away if his father were told.

In each factory safes were opened and contents strewn over the offices. But Liberty Bonds, indorsed checks and such valuables were never taken—only cash.

One night after 11 o'clock the boy, strolling in the dark near the Erie Railroad tracks, was met by Patrolmen Leighton and Flynn, who had been detailed in plainclothes to watch the factories.

"Why, I'm coming home from the movies," the boy told the officers. They let him go, wondering why a boy should choose such a lonesome way to walk, but not certain he could be the one they were after.

Suspicion grew in the chief's mind. Friday night he and the boy breathed easier after the confession.

## Hill Association Plans Block Dance

This Year's Affair Promises To Eclipse Previous Successes

The Belleville-on-the-Hill Improvement Association is planning to hold a block dance on Adelaide street between Tiona avenue and Little street on Saturday evening, September 14.

The year's affair promises to eclipse the ones held in former years which have always been great successes. The dance held last, attracted in excess of 1000 people and was one of the largest affairs held in town.

To handle the dance an Executive Committee has been appointed by President Robert S. Stivers, consisting of: Leo P. Dempsey, chairman; John Herrman, Treasurer and Joseph W. Steinmetz, secretary.

The following committee will have in charge the detailed handling of the dance: Music, J. M. Lynch, chairman; H. A. Macaulay, W. T. Robinson, Joseph C. Tully and Otto Schantz, Location, R. C. Stivers, chairman; Fred Ochsner, Frank A. Giraud, E. R. Ackerman and F. J. Ewald. Refreshments, Frank J. Wolenski, chairman, Miss E. C. Campbell, Mrs. C. Connors, Mrs. George Harrison, Mrs. J. G. English, Mrs. J. M. Lynch, Mrs. Leo Dempsey, Mrs. Theodore Farrington, Mrs. R. C. Stivers, Mrs. J. Herrmann, Mrs. A. E. Kirchdoerffer, Mrs. S. C. Sumerfield, Mrs. S. J. Straker, Mrs. F. J. Wolenski, Mrs. J. W. Steinmetz, Mrs. Edw. Helmlinger, Miss Regina Lynch, Miss Ruth Farrington and Mrs. F. C. Ochsner.

Lighting, David Simpson, chairman, Ray Miller, R. I. Eason, J. C. Morgan, D. Reardon, Arthur Kuhn, E. J. Keegan, D. Campbell, Edward Helmlinger and George Harrison.

Publicity, J. W. Steinmetz, chairman, and A. E. Kirchdoerffer; Ticket, S. J. Straker, chairman; Andries Kersten, George Shaw, E. E. Briggs, Adolph Kuhn, Clarence Connors, E. Delhagen, J. E. Dyson, E. W. Kraemer, C. W. Graham, James Reilly, William Brown, C. W. Koester, S. C. Sumerfield and James J. Smith.

## "Septs" Look For Close Ball Game

Belleville Team Takes On Lackawanna Nine Tomorrow Afternoon

Belleville Separates, who are setting a fast pace in semiprofessional ball, look for a hard tussle tomorrow afternoon when they take on Jack Smith's Lackawanna Club at Clearman Field.

Johnny Woods, one of the best prospects in sandlot baseball, will hurl for the Separates. Hurling for the local Club, Woods has registered wins over several of the leading nines hereabouts.

Due to a change in dates by the Hillside A. A. the Separates are without a game for Sunday away from home. Such teams as McConnells, St. Benedicts, Ironbonds and teams of like strength are preferred. Write Charles White, 127 Passaic avenue, Belleville, or telephone Belleville 4045-W.

## Postal Telegraph Inspects Site Here

Company May Open New Office About The First Of September

The Postal Telegraph authorities this week inspected Belleville locations for a proposed office. A Washington avenue site, south of Belleville avenue was looked over. Henry E. Wilson of 284 Union avenue was in charge.

Emil J. Huber and William C. Daviet, officials of the company, are expected to visit Belleville soon. It is believed the office will open about September 1, or soon after.

Mr. Wilson, who is assistant to the superintendent of the New York district, may manage the Belleville office. He has been with the company forty-six years, since it was organized.

THE ONLY PAPER PRINTED IN BELLEVILLE FIRST In Circulation. In Advertising. With the News.

## Miss Boehmer's Engagement Has Been Announced

MISS CECILIA BOEHMER

The engagement of Miss Cecilia Boehmer, daughter of John H. Boehmer and Mrs. John H. Boehmer, Jr., of Newark, and the following from Belleville, Mr. and Mrs. Rudolph Zoeller, Sr., of 128 Linden avenue, both of this town, was announced at a bridge held at Miss Boehmer's home Tuesday night.

Miss Boehmer attended the Belleville grammar and high schools and Mr. Zoeller is a graduate of the Orange Vocational School.

## BOARD OF GOVERNORS OF A. A. GOES ON TRIP TO LOCUST LAKE

The Board of Governors of the Belleville Athletic Association met at the corner of Tappan and Washington avenues, Sunday, and motored to Locust Lake, a new development in Warren County. Those in the party were Mr. and Mrs. George R. Gerard, Mr. and Mrs. Charles Kintzing and daughters; Mr. and Mrs. August Plenge and daughter, Mr. and Mrs. Stephen Weir, Mr. and Mrs. J. C. Kroesen and Mr. and Mrs. Charles Kelly and daughter. Mr. and Mrs. L. S. Graham and Mrs. Graham's mother, Mrs. Kessell, and Mr. and Mrs. G. Bender and daughter, the latter of Oradell, went as guests of the party.

Upon arriving at the Lake, all donned bathing suits and enjoyed a swim. The Locust Lake Company turned Queen Anne cottage over to the party for the day.

Races were a feature of the day. Mrs. Weir placed first in the ladies' swimming race with Mrs. Gerard second. Mr. Gerard came in first in the row boat event.

Mr. Kroesen had his moving picture camera along and took pictures of the party.

The dinner was served by the well known Delaware chef Edward Millheim. Contests took place at the table as well as on the lake for we learned that Mr. Kintzing took the leather medal for eating the most chicken and Mr. Graham the most corn. The committee wished to announce that the prizes will be awarded at the first basketball game of the association.

On arriving home the party agreed that the outing had been a wonderful success and that they had all had a fine time.

## Two Injured

Two persons were injured Thursday in Belleville when two cars collided on Washington avenue, near Belleville avenue.

Mrs. Gerald DeGroot was treated for lacerations of the back at the Passaic General Hospital, received when a car driven by her husband, Gerald DeGroot, crashed with a car driven by Michael DeAdamo of 16 Lincoln terrace, Belleville. Marinus DeGroot, father of the driver, of 65 Bond street, Passaic, was also treated for lacerations of the face.

## Masquerade Party At New Playground

Seventy-Five Children Take Part In Affair At Friendly

A masquerade party was held Friday afternoon at the Friendly Playground at the Italian Baptist Church. Singing "Hail, Hail, the Gang's All Here," seventy-five children dressed as pirates, bootblacks, farmers, policemen and what-not paraded the grounds before lining up at the judges' bench.

Seven prizes were awarded. James Bruno was adjudged the funniest. He was stockinged and wore a vivid silk dress terminating several inches above the knees. A close fitting hat pulled smartly down about the face completed the costume.

Marie Longo, not yet two, attired in a long trousered tweed suit, won the award for the cutest costume.

The prize for the handsomest went to Louis Rinaldi, who represented a toreador. Margaret and Mildred Scavone, each impersonating Miss Columbia in perfectly fitting red, white and blue costumes, made a striking picture and were adjudged the neatest. Nancy Filaci, looking like the feminine half of Toots and Casper, got the prize for the most elaborate apparel. Marie Monalbano's rig won the prize for originality and Carmine Ferriello's for the most clownlike.

Judges were Mrs. Katherine LePond, Mrs. Clara Longo and Mrs. Jasmine Petrucci, wife of the director of the playground.

The playground opened this season, the property having been acquired by the church six weeks ago. Until last fall it had been for many years a mission of the First Baptist Church of Bloomfield.

Little cash was left for the operation of the ground. Several members of the congregation donated their time to clearing the lot and another donated pipes for water.

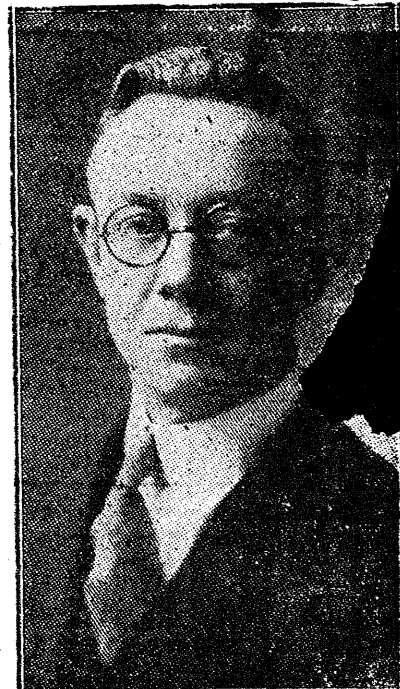

The grounds are being enclosed with a high wire fence, also a gift. Though not new, it will be practically so when given the coat of paint the men of the church intend to apply. The interest and cooperation of the Recreation Commission having been secured through Mayor Samuel S. Kenworthy that body has undertaken the salary of the director.

It also donated its discarded swings needing slight repair. These have been reconditioned and set up.

## W. B. Smith Has Done Much For Our Town

By EDDIE TAYLOR

"A conscientious, reliable man," is the opinion of W. Band Smith, former health officer, held by the citizens of Belleville. The quietness and unobtrusiveness of Mr. Smith has won for him in this town a host of friends, while his ability to fulfill

W. B. SMITH

any obligation thrust upon him, has gained him the confidence of his friends.

This confidence is exhibited in the numerous offices he holds. Besides being a plumber for twenty-five years, and he is a plumber yet, he was health officer of Belleville for fourteen years, from 1911 to 1925. Also, and this is a mean "also," he is secretary of the Master Plumbers' Association of Newark and also of the Belleville unit; past exalted

(Continued on Page Eight)

## Fewsmith To Improve Grounds Of Church

The Fewsmith Christian Endeavor Society has extended to the board of trustees a request that they be permitted to assume responsibility for the care of the church grounds.

It is their belief that the Church should present the best appearance of any building on the Hill and they plan to plant shrubs, bushes and trees when the Board gives their permission.

Charles Knowles is chairman of the Church Grounds Committee of the C. E. Society. Those willing to contribute bushes and plants for this work will kindly so inform him.

## IN SOCIETY

J. M. Moore of 7 Bremond street, who with Mrs. Moore left for Toronto, Canada, two weeks ago, has returned. Mrs. Moore will remain until the first of September.

Harry Suderley, son of Mrs. Harriet J. Suderley of 22 Bremond street left Saturday on a two weeks' motor trip to Erie, Pa. He was accompanied by Harold Compton of East Orange. Mrs. Suderley is entertaining her sister, Miss Anna McCrea of Middletown, N. Y.

Robert Stoddart, son of Mr. and Mrs. James Stoddart of 16 Beech street, has been at the Y. M. C. A. Camp Kiamasha, since the first of the month and will remain for the season.

Miss Mildred Garabrant of 124 Little street was the week-end guest of her sister, Mrs. E. R. Harris of Cranford.

Mrs. Sydney J. Straker and Miss Leonie Michel of 49 Adelaide street are at Bridgeport.

Mrs. Samuel Tiger of 1 Davidson street, who has been spending the summer at Califon, has returned.

Mrs. Anne M. Callaghan and son Robert B. of 90 Division avenue are at Asbury Park for the month.

Mrs. Arthur Mayer of 114 Division avenue is spending the summer at the Highlands. Her daughter, Miss Emily Mayer, is with her this month. Mr. Mayer is spending a fortnight with them.

Mrs. Carrie T. Hassett of 201 De Witt avenue has ended a visit at Towaco. Her daughter, Miss Lillian Hassett, is on a motor trip to Cape Cod. She will visit relatives in Massachusetts.

Mr. and Mrs. Thomas McNair and daughter Jean of 108 William street are at Asbury Park to be away till after Labor Day.

Rev. Benedetto Pascale, pastor of the Italian Baptist Church is vacationing at Ocean Grove. He is accompanied by Mrs. Pascale and their children Alba and Elmo.

Mrs. Nettie Swett and daughter, Miss Lucy Swett, of 54 Holmes street have returned from Buck Hill Falls, Pa.

Miss Madge Osborne of 20 Rossmore place has left on an automobile trip to Bethlehem, N. H., with friends from Beacon, N. Y., and will be away a month.

Mrs. Joseph Calder and daughters Misses Florence and Ruth Calder, of 48 Oak street went to Asbury Park recently to remain the rest of the month. Mrs. Calder's mother, Mrs. Emily S. Romine of the same address and Miss Whitehead of Malone, N. Y., a guest of the Misses Calder, accompanied them. Mr. Calder drove down.

Miss Marjorie Taylor of 49 Van Houten place returned from Europe Friday on the Aquitania. She has been abroad since July 3, visiting England, Scotland, France, Switzerland, Holland and Germany. She also saw Venice, the Italian lakes and the Austrian Tyrol. Miss Taylor, who is the daughter of Mr. and Mrs. George Taylor, is a teacher at School No. Her marriage to Elbert Rhoades of Belleville will take place in the

and Mrs. George Vintere of 26 street and their son and daughter, Mr. and Mrs. C. F. Vintere, of 8 DeWitt avenue, have ended a trip to Niagara Falls, Canada. They stopped at Mich., to visit Mrs. C. F. Vintere's father, Theodore Ruff. Fred A. Ruff of 25 Bell street, a brother, was a guest at the same time. He also returned to Belleville.

## ORIENTAL RUGS

Miss Ruth Wittel of 44 Linden avenue and Miss Anne Dolan and Arthur T. Dolan of DeWitt avenue are on a two weeks' trip to Niagara Falls, Canada and the Thousand Islands and will stop on the way at Old Orchard Beach, Me.

The Misses Emma, Anna and Josephine Wharton of Holmes street are visiting Miss Mary Dawson in Avon.

Mrs. Theodore Stanka and son Erhardt W., and daughter, Miss Ethel Stanka, of 26 Oak street have concluded a vacation of two weeks at Lutherland in the Poconos. Another daughter, Miss Helen Louise Stanka, is spending a month at Skyland, a ranch topping the Blue Ridge Mountains in Virginia. She is accompanied by Miss Edna Bremms of New York City.

Mr. and Mrs. J. H. Hardman and daughter, Miss Peggy Hardman, of 201 DeWitt avenue, will leave this week-end for a motor trip to Massachusetts, where they will visit relatives. Their itinerary will include a stop-over at Cape Cod.

Mr. and Mrs. Abram Stanfield of 33 Lincoln place had as week-end guests Mr. and Mrs. John Boehmer, Jr., and their son John Francis, Jr., of Newark.

Mr. and Mrs. William F. Entekin and family of 263 New street have been at Meredith, N. Y.

Miss Cecilia Burns, daughter of Mrs. Mary Burns of Linden avenue has returned after a vacation in Pittsburgh.

Mr. and Mrs. Paul Hurlburt of Philadelphia and their son, Professor Albert Hurlburt of the University of Pennsylvania are spending the week with Mr. and Mrs. George Hurlburt of 74 Garden avenue. Arthur Parent of Vineland also is a guest at the Hurlburt home.

Rev. Edgar M. Compton, pastor of Wesley Methodist Episcopal Church, and his family have returned from an automobile trip to Clarksburg, W. Va., where they visited Mr. Compton's sister, Mrs. J. M. Carskadon. Their tour included a stop at Valley Forge and Gettysburg. This week-end the family will go to Ocean Grove to remain over Labor Day.

Mrs. Russell L. Kearney and son Russell have ended a visit at Belmar. Mr. and Mrs. Kearney recently concluded an automobile trip to Miami, Fla. They were accompanied by Mrs. Kearney's brother-in-law and sister, Mr. and Mrs. Joseph Kroeger of Newark.

Miss Lillian Harris, daughter of Mr. and Mrs. Ernest Harris of Union avenue, has returned from a week-end visit at Ocean Grove. She will leave tomorrow for Sparrowbush, N. Y., to remain until after Labor Day.

Mrs. Jack Goldberg of Holmes street is spending her vacation at Providence, R. I. and will return next week.

Mr. and Mrs. Harry F. Nees of Elena place have concluded a two-weeks' stay at Culver's Lake.

Mr. and Mrs. Herbert V. Hardman of 269 Union avenue have ended a visit at Wallaston, Mass.

Mr. and Mrs. H. G. Smith of DeWitt avenue have returned from a visit at Tunkhannock, Pa.

A son, who has been named Hugh Murphy Jr., has been born to Mr. and Mrs. Hugh Murphy of 424 Union avenue. Mrs. Murphy returned to her home Saturday from St. Barnabas's Hospital.

Mrs. Edward J. Stevens, Jr., and daughter, Jeanette of 32 Mertz avenue, left Thursday to join Mr. Stevens in Montreal, Canada. Mr. Stevens, who is employed by the Gurney Elevator Company has been transferred to Montreal, where they will make their home for the present.

## Urges States To Assume Wider Highway Powers

By E. E. DUFFY

The man across the way, seven floors up, with hat on and one arm in his coat, picked up the dictophone mouthpiece and hurriedly recorded a last minute message.

Soon many farmers in the corn belt will be out with mechanical corn pickers that will do the work quicker and cheaper than man.

In industry such contrivances as the waste heat boiler, which utilizes heat that formerly escaped unused up the smokestack, are enabling man to do his work better and at less expense.

Efficiency is coming into all forms of human endeavor. The business of government, however, has in many instances failed to keep pace with the modernism of private business, whether it be a farm in Ponce County or a Parisian hat factory in the Bronx.

In highway building, for example, certainly a great deal has been accomplished, but there are ways open in which road building funds can be made to do better work. Of the total annual highway outlay, about half is spent directly by state highway departments, most of which are first class engineering organizations.

The remaining half of the highway expenditure, however, is spent by county and township road building agencies. Obviously, no matter how conscientious the men at the helm of the small governmental unit, the efficiency of the county or township does not usually compare favorably with the state highway department.

State highway departments are manned by outstanding engineers of broad experience. They command greater salaries than the small unit of government can pay. The state, through its greater scope and finances, can let contracts for long mileages of roads at one time, thereby obtaining better prices than can the county or township. Further, state supervision of road construction is naturally better, so under its guidance the surface presented the motorist is more likely to be smooth, inexpensive to maintain, and long lasting.

Several states are now exerting a beneficial control over local road building. In Pennsylvania a certain portion of the total highway income is allocated to counties and townships. In refunding this money, however, the state asks that it be spent on roads under the supervision of the state highway department. Most Pennsylvania county and township roads, therefore, are built under the same excellent supervision as the main highways.

In other instances, state highway departments may assume control over the construction of local roads through the maintenance factor. For example, in Illinois main county

roads must be built of certain types of surfacings before the state will take them over for maintenance. This, in effect, means that most Illinois county roads are built under state supervision.

Mass production of roads is just as necessary in road building as in anything else, and if adequate provisions are to be made for the automobile, the state and its counties and townships must cooperate more closely, with the smaller units taking greater advantage of the facilities and abilities at the command of the state highway department.

With an account at this bank you will have at your command every modern banking convenience. You will receive the utmost co-operation in the transaction of all your financial affairs. Women as well as men, people in all walks of life and every line of endeavor, can benefit by using the banking service we offer.

## Refrigeration Operated by GAS Is Reliable, Convenient, Silent

CONTINUOUS self-regulating refrigeration produced by gas is satisfactory for both domestic and commercial uses. The purity and flavor of foods are retained in the gas refrigerator because the ideal conditions for food preservation—dryness and cold—are produced by the machine. Refrigeration by gas is simple and the lack of complication helps to insure uninterrupted service.

The gas rate recently adopted by this company of 9½ cents per 100 cubic feet for all gas used in excess of 1400 cubic feet, helps to make gas refrigeration still more attractive on the basis of economy.

Our customers who are interested in refrigeration by gas will find its operating costs surprisingly low when its efficiency and convenience are considered.

**PUBLIC SERVICE**

## New Crosley Moonbeam Plane Transports Parts

Cincinnati, O., August 22.—When the purchasing department of The Crosley Radio Corporation found it necessary to have a shipment of volume controls from a plant in Milwaukee, for use in the manufacture of new receiving equipment, Powell Crosley, Jr., president of the corporation, placed the new Crosley Moonbeam at the disposal of the radio plant. The Crosley Moonbeam, piloted by Russell O. Wiest, left Cincinnati in the morning and returned in the afternoon with a shipment of equipment. The success of this experiment, the first to be made by the Crosley Moonbeam in the transportation of merchandise, has prompted the Crosley corporation to utilize this method of delivery daily.

An additional feature of this experiment is found in the fact that it affords the Crosley Moonbeam airplane engineers an opportunity of

observing the performance of the new plane in cross-country flights. Crosley Moonbeam airplanes will be manufactured in the near future and the recently acquired test field at Sharonville, Ohio, will be placed in condition for experimental use.

Powell Crosley, Jr., is a member of the Cincinnati Chamber of Commerce Aviation Committee and utilizes airplanes whenever possible. His recent delivery of new radio receivers simultaneously with the announcement of the "big news in radio" was most successful, making it possible for distributors to have new models in a brief time after leaving the factory in Cincinnati.

A production program of tremendous proportions is now in progress by the Crosley Radio Corporation in Cincinnati. Production in the present plants is increasing daily and thousands of men and women are employed. A new building for the assembling department and shipping department has been utilized since August 1. This is a steel and brick structure 540 feet long by 107 feet wide and is connected by a bridge with the new eight-story building

now under construction. Conveyors will carry the products to the final assembly department. This building and the adjoining land, a portion of which is used at present for automobile parking facilities for some employees, represents an estimated outlay of \$500,000.

The new eight-story structure being erected to provide additional space for offices, WLW studios and assembly plant, is being rushed to completion. This new additional structure is estimated to cost \$750,000. Double the number of employees will be required to take care of the orders from distributors for the output of the season.

When the buildings are ready for use, they will represent one of the most radio manufacturing plants in the world. Every new device will be installed to facilitate rapid production with the utmost accuracy. Conveyors will speed up production, making it possible to produce the radio equipment on a basis that will meet the demand for Crosley radio receiving equipment.

## Candy Sweetens Trails of Motor Gypsies This Summer

READY TO PITCH CAMP

CHICAGO—Motor vacationists, picnickers, and "week-enders" ranging America's half million miles of highways will sweeten their outings with candy this summer.

"Tourists wise in the lore of the open road know the value of candy as a physical restorer on a long automobile trip," declared Ferdinand A. Bunte, of Bunte Brothers, Chicago candy manufacturers. "They regard candy as indispensable a part of their equipment as spare tires, extra tubes, or a tool kit. It is just as necessary to refuel the human system as it is to replenish the car's gasoline supply."

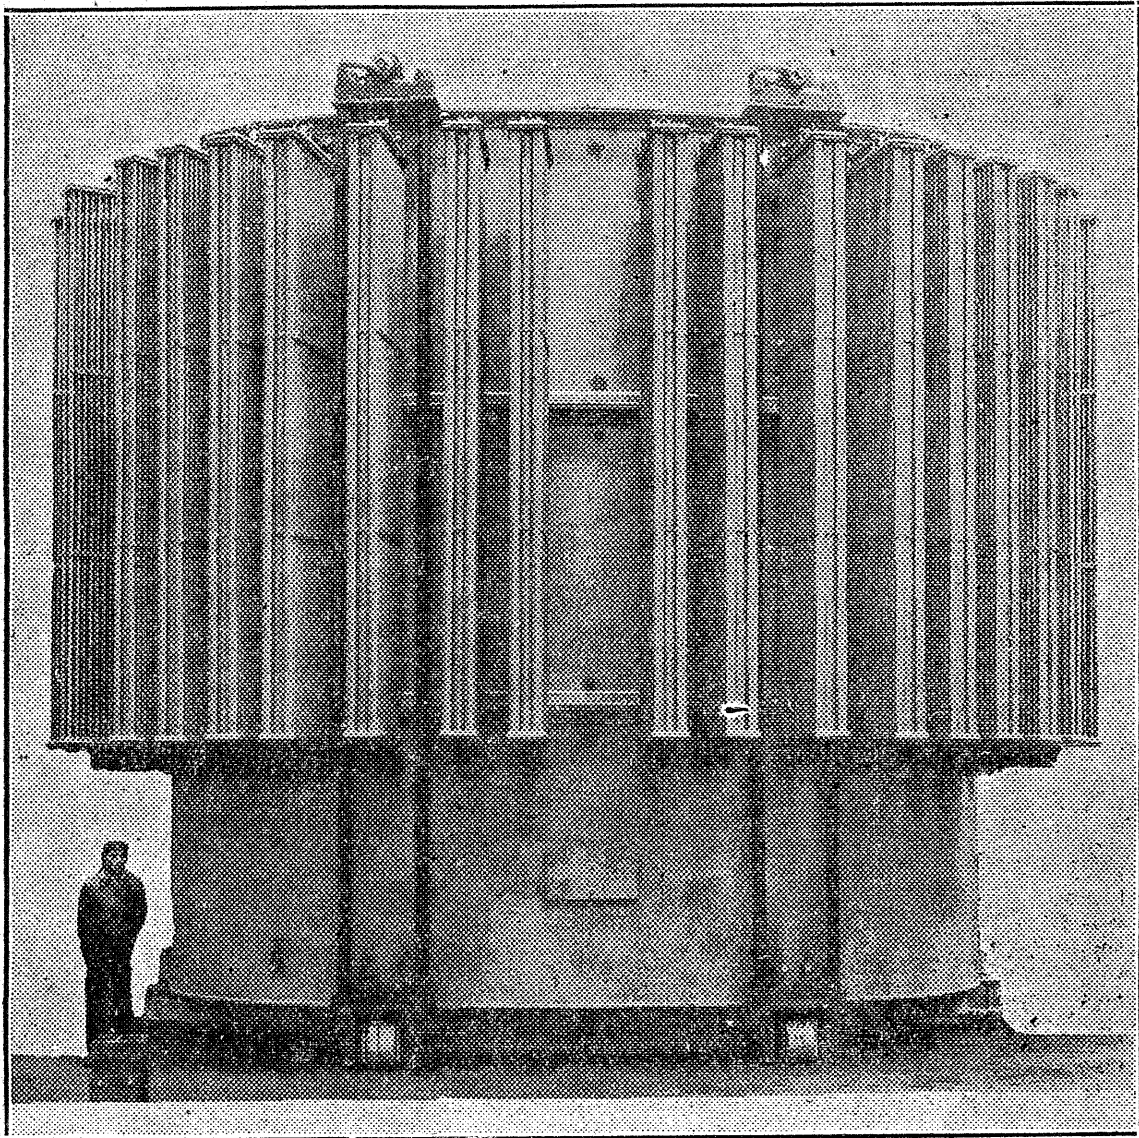

"A bar of candy or a handful of hard, tart centered sweets from a cool, air-tight container will refresh and energize the driver and keep the family in an amiable mood over the dustiest and most fatiguing road. It will tide a motoring party over long stretches of highway where roadside 'hot dog' stands are few and towns well scattered, since candy imparts vigor to the human body more quickly than any other food."

"Resourceful hostesses on summer

picnics and outings always tuck a jar of jelly beans or diana jackstraws into the lunch basket. These confections make a delightful addition to lunches spread out under the trees at roadside stops. They supersede conventional desserts and offer a variety that piques the most exacting palate."

WAYSIDE PICNIC

## One of World's Largest Electric Transformers

THE above picture of one of the four largest transformers ever built shows that the electric power industry is doing its part to keep ahead of the rapidly growing demand for increased power and light. It is one of the four 30,000 K-volt transformers built by the Westinghouse Electric

and Manufacturing Company for Public Service Electric and Gas Company to be installed at the company's switching station at Roseland.

The moving of these transformers, now in progress, from the Westinghouse plant at Sharon, Pa., to their New Jersey destination requires a

large force of men and fifty-six specially built freight cars, the strengthening of bridges and the lowering of railroad track.

The apparatus when installed will be used as part of the interconnection system in one of the largest power pools in the world.

## Radio Leaders Say Screen-Grid Greatest Improvement in Years

O. H. Caldwell, radio engineer and former member of the Federal Radio Commission, looks upon screen-grid radio as one of the outstanding advances in the science of radio.

"The screen-grid alternating current tube," says Mr. Caldwell, "certainly marks a tremendous technical advance in tube design in the matter of both amplification and sensitivity of operation. On that, all engineering advice seems to agree."

"The outstanding characteristic of the screen-grid tube, of course, is that it greatly increases amplification in both radio and audio-frequency stages. This, together with its use as a power detector, gives increased distance reception and added quality of reproduction."

"Due to the high-amplification possibilities of this tube, an extremely sensitive set can be designed," said Mr. Caldwell, a statement wholly in agreement with the opinion of A. Atwater Kent, who said:

"I regard the screen-grid tube as thoroughly scientific and practical, when used in a properly designed set. Many thousands of our new screen-grid radio sets are already in use. Reports by the owners stress especially the decided increase in the range of these sets, their exceptional selectivity and beautiful tone quality."

Mr. Caldwell, editor of Radio Retailing, in a recent issue listed the advantages which advocates of screen-grid have set forth as follows: "tremendously increases amplification;

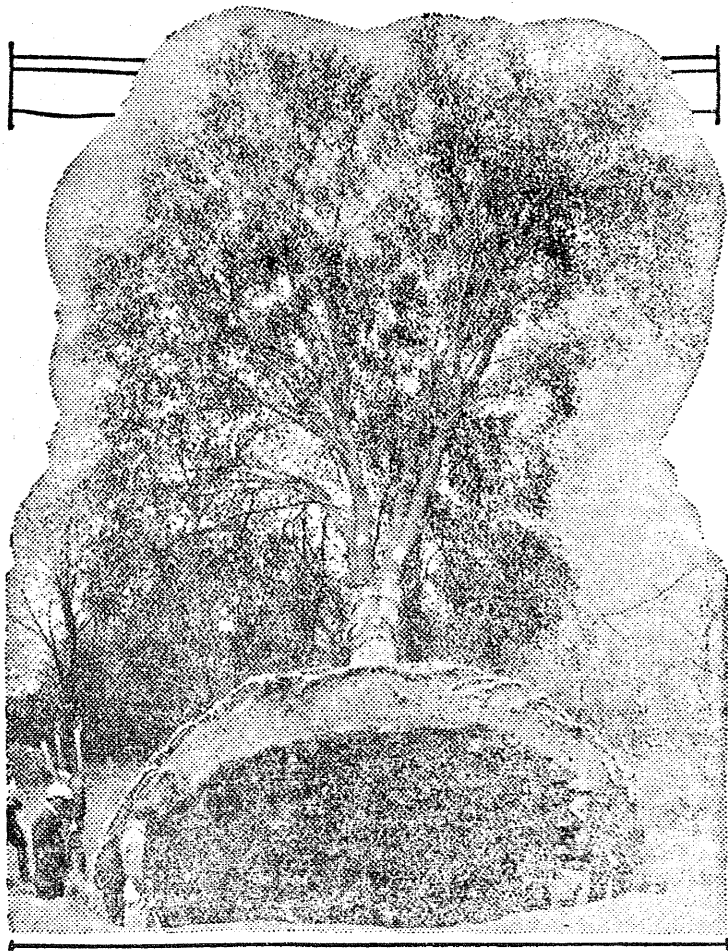

O. H. CALDWELL

makes greater sensitivity and selectivity; will produce great volume with fidelity of tone; is independent of line-voltage fluctuations."

Mr. Caldwell is a native of Lexington, Ky., and was graduated from Purdue University at Lafayette, Ind., in electrical engineering. He was for seven years associate editor of Electrical World and for ten years edited Electrical Merchandising.

## FROM THE FOREST TO YOU—HOW BIG TREES ARE MOVED

This tree is on its way from a forest to a city man's lawn. That gigantic ball of earth in the foreground contains its roots. The tree is inclined to an angle which will permit of its being lifted by special apparatus used by tree experts. This particular tree is 75 years old. It is more than two feet in diameter, has a limb spread of 45 feet and stands 65 feet high. The ball of earth in which the roots are embedded weighs 20 tons. Note the size of the men in comparison with it. In order to transplant this tree successfully the earth in the new location must be specially treated, and the tree will be given "medical attention" at intervals for a period of two years by the experts who moved it. Scientific tree moving was developed by the research department of the Davey Tree Expert Company at Kent.

## World's High-Speed Construction Record Set On Pardee Dam

### California Project Completed Year And A Half Ahead Of Schedule

San Francisco, Cal., August 22.—In completing Pardee Dam on the Mokelumne River, California, a year and a half ahead of schedule, world's records for high-speed construction toppled before modern engineering efficiency and materials, according to engineers' reports. Approximately 630,000 cubic yards of concrete were involved in the project.

New records for high-speed placement of concrete were established when 1,600 cubic yards of concrete were placed in eight hours, 3,600 cubic yards in 24 hours, 67,000 cubic yards in one month and 514,000 cubic yards in 12 months.

The dam is 357 feet high and creates a reservoir of 240,000 acre-feet capacity, storing water from a 575-square-mile shed. The project is 85 miles east of San Francisco Bay. The impounded water is to serve the nine cities of the East Bay Municipal Utility District.

The high-speed and permanent construction secured by the use of concrete in modern engineering, say authorities, has made tremendous projects possible within a few years of conception, which, without its use, would take decades and often lifetimes for completion.

### C. E. Society Plans

The Young People's Society of Christian Endeavor of the Pewsmith Memorial Presbyterian Church will reopen their Sunday evening devotional services September 8, at 7 p. m. in the church parlor. Everett Nestell, president of the Society, will lead the meeting with a discussion of the society's plans for the coming season.

An interesting program has been outlined for the season in social and devotional activity. Various social month. The first to be held September 8 will be an "Indoor Track Meet." Unusual and interesting games will be played and the chairman of the Social Committee, Miss Helen Colard, will be in charge.

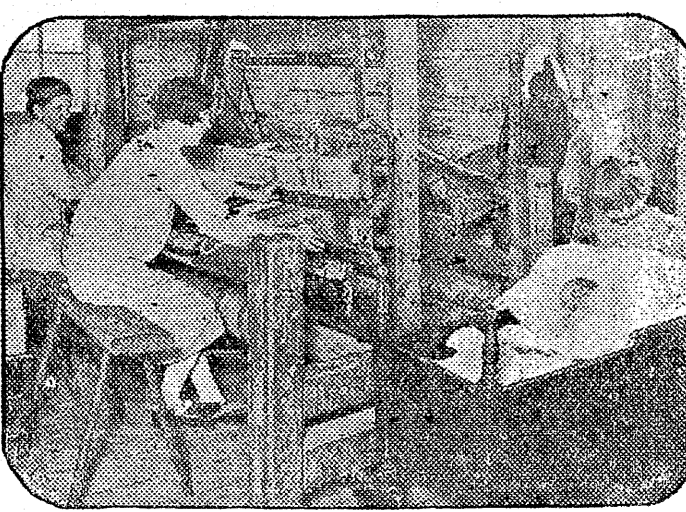

Particular attention is being paid to the work of the Devotional Committee in charge of Miss Helen Just and it is expected that these meetings will be of unusual interest. Pewsmith Christian Endeavor extends to every young person in Belleville a cordial invitation to join their society and enjoy this interesting work.

## Quebec Handicrafts at Murray Bay

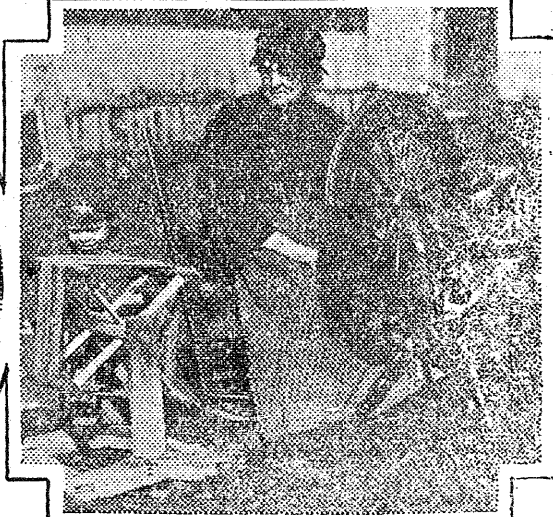

HABITANT WOMAN WASHING WOOL

SCENE IN A HABITANT COTTAGE—WOMEN WEAVING

HABITANT GIRL CARDS WOOL

HABITANT WOMAN SPINNING AND CHILD WINDING THE WOOL

In the Lower St. Lawrence country surrounding Murray Bay the home arts have not been lost in the advances of our machine age. The Province of Quebec, through its Department of Agriculture, and Canada Steamship Lines, through its specialty shops, have done much to encourage these homely crafts.

From September 9 to 14 the Provincial Government will conduct the

first annual festival of Quebec handicrafts at the Manoir Richelieu at Murray Bay. The home economics branch of the department of Agriculture has been instructed by the Minister, Hon. J. L. Perron, to make every effort to secure the most representative types of handicraft workers as well as the most skillful.

Spinners, weavers and wood carvers will be at the Manoir carrying on their work. The hotel, with its 18th century atmosphere, will provide an

appropriate background for these workers, who are producing the woolen goods which have been famous for generations. As well as the workers there will be on display and for sale some of the best work from the habitant homes of Quebec.

The opening of the exhibition will be a significant event in the revival of the handicraft arts and it will be attended by many persons in public and private life who are interested in the promotion of this work.

## Durant Names Dunlap Sales Promotion Head

Creation of a new sales promotion department with Zac Dunlap, former Durant branch manager in the Chicago area, as manager, is announced by Durant Motors. Effective August 1, Dunlap will assume his new duties in the Detroit offices of Durant in the Macabbee Building.

ZAC DUNLAP

Dunlap first became known to the automobile industry by his work in the cause of good roads, having organized the National Old Trails coast to coast highway in 1912, established state highway departments in 14 Southern states during 1914, and organized the Dixie Highway from Macinac, Mich., to Miami, Fla., in 1915. During the war he participated in the Liberty Loan drives, after serving as assistant director general of the National Highways Association. His first connection with Durant was in 1925, when he became local distributor in his home town of Ames, Ia., after several years as Ford dealer. Immediate success with the Durant franchise, obtained through novel advertising and sales methods, brought his appointment to the branch management of Durant at Chicago in 1927.

His brother, H. B. Dunlap, is now distributor for twenty-five counties in Iowa with headquarters in Waterloo. Dunlap will be succeeded in the Chicago post by George Watson, now district manager for Durant in the Milwaukee territory. Beginning August 1, Durant activities of the Chicago and Milwaukee branches will be combined under supervision of Watson, with his main office at 910 South Michigan avenue, Chicago. The Milwaukee district office will be retained as a branch.

## Tune In On Judge Rutherford

Judge Rutherford of Brooklyn, N. Y., will lecture Sunday morning at 10 o'clock, Eastern Daylight Saving Time over station WBBR on the subject, "Health and Life for the People," from his book "Life." The program which includes musical numbers besides the lecture will be sponsored by the International Bible Students Association. "Life" is Judge Rutherford's latest creation and was released by the publishers in July. The letters WBBR stand for "We Broadcast Bible Religion." The station is located at 117 Adams street, Brooklyn. The Kingdom Message of the International Association is, "They shall beat their swords into plowshares and their spears into pruning hooks; nation shall not lift sword against nation, neither shall they learn war anymore. They shall all sit under their vine and fig tree and none shall make them afraid. This is taken from the Book of Micah, 4:1-7.

## Jailed As Disorderly Slashes Wrist In Jail

Cyrus Shoop, arrested Saturday on a charge of threatening to kill his wife and two children, attempted to commit suicide in jail Sunday by slashing his wrist with the ragged edge of a tin box cover. He was treated by Town Physician E. A. Flynn and held in \$1,000 bail for the grand jury by Recorder Fitzsimmons on a charge of threatening to kill. According to police, Shoop is under indictment on a charge of having deserted his family four months ago. He returned Saturday and entered the house of his father-in-law at 10 Brighton avenue, where his family was. He was arrested first for disorderly conduct by Patrolman Lukowiak.

## Service By Nash Has Made Roads Easy For Cars

Standardized automobile maintenance has made all roads easy for the 1929 tourist army.

Thousands of motorists are heading into the dim distances and enjoying the greatest of all highway vacation seasons as never before, thanks to this development, to standard service tools and to better service education, according to Nash Motors Company engineers, who have completed a mid-summer survey of the national convenience offered motor pilgrims in every nook and corner of the country.

The survey shows that Nash maintenance has reached the height of its development following years of intensive study and constant improvement, insisted on by C. W. Nash as one of the foundations of his highly successful manufacturing policy. For years it has been an axiom with Mr. Nash that courteous attention to the needs of the car owner is as vital as when he is a sales prospect.

"One dissatisfied owner can cause more harm to an organization of any kind than a hundred satisfied owners can amend," he has told Nash distributors, dealers, and their working forces during scores of personal inspection trips. Service facilities are always a point of particular interest for the industrial leader, and he makes it a point wherever possible to address all of the men who are responsible for the welfare and comfort of Nash owners.

Every "trouble prevention" and automobile maintenance requirements is provided for the standard Nash operations, which make it so easy and economical for owners to enjoy their cars to the limit without any of the inconveniences, delays and road repairs which marked the early days of motoring. A series of regular inspections—each with its nominal standard price—keeps the car in perfect condition for the thousands of drivers who have learned to take full advantage of the famous Nash maintenance system. This regular attention, the survey shows, prevents any possibility of big repair bills that might result from neglect or driving carelessness, and has helped materially to bring Nash service demands to the lowest point in company history.

While the great Nash factories continue the quality manufacture of the new type "400" cars, whose low maintenance requirements have become a manufacturing achievement one of the greatest maintenance organizations developed by the automobile industry is seeking constant improvement in the care of cars.

Improved methods and maintenance practices keep step with changing motoring conditions through regular factory meetings of all Nash service managers in which the highest officials of the company take a prominent part. Regular meetings are also held in all distribution and dealer points when factory representatives, Seaman Body experts and service managers meet with heads of local merchandising organizations and their maintenance men to keep Nash policy constant in every city and town where there is an authorized maintenance station.

This expert supervision, coupled with factory training for all maintenance men and the standard Nash tools are used in every station, makes the maintenance work everywhere as nearly perfect as it can become, the engineers declare. Every driving contingency is considered in the standardized system, and costs to car owners have been reduced to a minimum.

At present the entire organization is particularly interested in smoothing the way for the summer vacationist.

## Announcement Of Sweeping Reduction On "400" Series Nash

Kenosha, Wis., August 15 (Special)—One of the most important announcements of the current automobile year came today when C. W. Nash, president of The Nash Motors Company, notified his national sales organization of sweeping reductions in the retail prices of the famous Nash "400" Series cars.

Effective August 12, he declared, the motoring public will benefit by reductions on "400" models, ranging as high as \$300 a car. This drastic lowering of prices on the cars whose international popularity has broken all Nash sales records will effect models in the two popular price groups—the Advanced Six and the Special Six series. The exact reductions on each model will be announced locally.

This big Nash price reduction, comes as a welcome surprise to motorists the country over following the brilliant success of these new type, twin-ignition and advanced design cars, is made primarily to clear the manufacturing decks for the introduction of new Nash models later this year, according to company officials. The new cars, they declare, will carry prices higher than those prevailing before the present reduction. Thus the buying public is offered triple benefits in securing new Nash cars before the arrival of the 1930 models.

Buyers may avail themselves of the finest type of automobiles ever developed by the great Nash factories

and cars which have incorporated in them the advanced engineering principles which will also feature the year's new models. They are given the opportunity to write off the considerable sums in depreciation which usually affect current models when new ones are announced; and they may secure automobiles far in advance of their field at costs which strike a new low note in automobile merchandising.

In the estimation of automotive engineers, these Nash reductions represent the highest automobile values known in American motor car history.

## NEW HUPMOBILE BEAUTY, QUALITY INVOKES PRAISE

Detroit, Mich., August 23—Hupmobile's introduction a week ago of a new six cylinder automobile in the \$1000 price field powered by the same engine as was the previous higher priced Century models, has brought unstinted praise from hundreds of thousands of persons who have seen the new car.

The new Hupmobile Six is made in the Cleveland plants in four body types and priced as follows: Commercial Coupe, \$995; Sedan, \$1,060; Convertible Coupe, \$1,075; and Phaeton, \$1,100.

Particularly favorable are the comments on the striking beauty and unusual quality of the new car.

"That's a marvelous car for the money," and similar remarks are heard on every side. And in this connection Hupmobile points out that the new model "S" in utilizing the same proven engine with added refinements, actually presents "25 per cent greater value at greatly reduced price." The original list price of the Century Six was \$1395 as compared with the list price of \$1060 for the new model "S" Sedan.

An outstanding quality feature of the new car is its greatly increased interior room which is even greater than its predecessor. In the tonneau more than ample seat width and leg room is provided.

In the new model "S" bodies Hupmobile has introduced startling new lines and refinements. In style and appearance the new car represents an advanced step similar to the vivid beauty which two years ago brought overnight acclaim to the Century Six models.

The new Hupmobile has even less overall height than its predecessor yet neither headroom nor road clearance has been sacrificed.

Another new feature is the non-glare, tilt-type windshield. It is operated by a conveniently located control crank. It can be widely opened to provide complete ventilation. Ordinary ventilation is obtained from the cowl ventilator.

Front fenders are long and sweeping. Rear fenders are smartly arched with a slight flare at the rear skirt. The sheet metal tailoring has been redesigned particularly for this new car. The front splash apron, in addition to concealing front spring ends and bumper attachments, has been repatterned and extended downward to a smartly moulded point. The rear sheet metal covers the entire gasoline tank and bumper attachments. It is ribbed to provide in-

creased rigidity and improved appearance.

Among other details which have elicited favorable comment on value and appearance are included; French roof, front fender-mounted parking lights, tri-spoked safety type steering wheel, foot-controlled dimmer switch, dash-mounted starter control, indirectly-lighted instrument panel with distinctive instrument groupings, grease-retaining spring shackles, four hydraulic shock absorbers, and full vision windows.

Some of the outstanding mechanical quality features are: counterbalanced crankshaft weighing 76½ pounds, rifle-drilled connecting rods, diamond bored connecting rod bearings, force feed lubrication to all main, connecting rod and piston pin bearings, completely water jacketed valve seats and cylinder walls, pistons balanced to within one-sixteenth of an ounce, honed cylinders and matched and doimed cylinder heads.

## Bill For Maps On Re-Warding Held Up For A Week

## Board Finally Passes The Ordinance For Building Set-Backs

The Town Commission Tuesday night held over a bill of \$250 as submitted by Matthew J. Sheehan, of the engineering department for preparing maps of wards of the town. Mayor Samuel S. Kenworthy said he thought the charge high.

Mr. Sheehan was called upon to do the work last spring when additional districts were added in Belleville, necessitating a fourth ward with a total district layout of twenty-two districts. The work was supervised by a committee, Town Clerk John J. Daly, Homer Zink and Republican County Committee Chairman Thomas Berry of Belleville, which was named by the commission.

Mr. Daly said it was necessary to hire clerical and engineering help, adding it was "quite a job and we consider this a fair price. This is the entire cost of the whole re-warding of the town."

Commissioner James Gibson said payment should come from the election instead of contingent fund, as planned. This is what held up payment of the bill Tuesday night.

The Mayor reported that the Second River Joint Sewer will be ready in about two months. He suggested Belleville make plans now to hook up so that criticism of the town polluting the Passaic will be eliminated.

Town Engineer Albert S. Blank reported Belleville will make connection at a point in Franklin avenue to carry Soho and Silver Lake sewage. The cost will be about \$2,000, he said, adding plans will be made up at once.

From New street to Passaic avenue on the north side of Jorammon street the town plans to establish set-back lines for buildings of thirty-five feet from the center of the road. From Passaic avenue to Franklin avenue on the same side the set-back will be forty feet; from New street to Passaic avenue, south side, it will be twenty-nine feet and Pas-

saic avenue to Franklin avenue that side thirty-five feet.

An ordinance in this connection passed final reading. Members of the board said many taxpayers construed the purport of the ordinance to mean that improvements will be made in the section and assessments were feared. The ordinance is merely to establish building lines, said the Mayor.

## Sentiment Leads To Improvement Body In Passaic Valley

## Residents From Each Street Discuss Association In Section

Because "sentiment favored it" an improvement association, The Passaic Valley Improvement Association, was formed Monday night for the "valley" in the home of Walter P. Weiss, 242 Ralph street. Residents from each street in the section between Terry street and Nulley were asked to discuss ways and means to organize.

Dues are nominal, \$1 for three months, including the initiation fee. A program of activities concerning local improvements and taking an active part in civic affairs were approved.

"Considerable and diligent work will be the watchword for the officers, committees, and every member, to make their efforts bear fruit," it is said.

The officers elected are as follows: Walter P. Weiss, president; William B. Frey, vice president; Mrs. Josephine McM. Tiger, secretary; Joseph Schwartz, treasurer; Mrs. Mabel S. Burrell, Chester E. Kraft, James Roviello, trustees, and Samuel Tiger, sergeant-at-arms.

The following chairmen were appointed: George F. Gerlach, membership, and John A. Burrell, entertainment. The finance committee was held open until next meeting. Temporarily the president will take care of the legislative committee.

NOW!  
Gas  
Refrigerators  
are Reduced  
in Price by  
\$20 to \$30

THE prices of Electrolux Servel refrigerators have been lowered. In every detail the Electrolux Servel cabinet is built for durability. Its walls are of Armco iron thoroughly insulated and finished in lacquer.

The temperature maintained by the gas flame in these refrigerators does not vary. There is a compartment in which ice cubes are frozen for table use. Salads and desserts may be chilled in the same way.

Gas refrigeration is surprisingly low in price considering its many advantages and our easy form of payment, a small sum down and seventeen months to pay balance is a convenience to the purchaser.

Public Service Electric and Gas Company  
Your representative may call to show me photographs of the Electrolux Servel refrigerators. No obligation incurred.

\$1000 field

the  
**Roosevelt**  
MARMON-BUILT

THERE have been any number of four-cylinder cars at this price. Today there are many sixes at this figure. But there is only one straight-eight—the Roosevelt.

You can do things with this Roosevelt that have never before been possible with any car selling around \$1000.

There's power, punch and get-away that no other car at the price can possibly cope with.

There's sureness and con-

fidence of control that takes all the fight and tension out of driving.

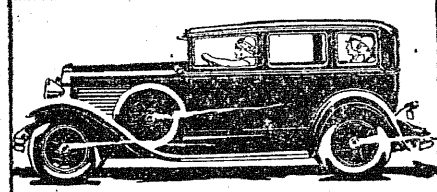

There's new hill-climbing ability—just give the Roosevelt a little heavier toe and watch eight cylinders really go to work.

There's comfort made possible by extra-long springs and extra-deep cushions.

A Roosevelt is ready for you today.

## OFFICERS' STAR OF HONOR GIVEN THREE AMERICANS BY BELGIUM AT WORLD SCOUT JAMBOREE

G. Barrett Rich, Dr. James E. West and Lorne W. Barclay Honored For Distinguished Service To Boyhood

For their services to Boyhood extending over a period of more than fifteen years, Belgium has conferred upon G. Barrett Rich, member of the Executive Board and Chief of the American Camp at the World's Scout Jamboree; Dr. James E. West, Chief Scout Executive of the Boy Scouts of America; and Lorne W. Barclay, Executive Officer of the American Jamboree Contingent L'Etoile D'Honneur which is the Officers' Star of Honor, conferred only on those who have rendered exceptional service to boyhood, according to dispatches from Europe.

Each of these three American honored by Belgium has had a long and distinguished career in service to boyhood. Mr. Rich who was honored by being selected as the American Camp Chief at the World's Scout Jamboree has been successively a Scoutmaster, Scout Commissioner and member of the Scout Council at Buffalo, N. Y., and through his splendid work won National recognition. He was one of the incorporators of the Boy Scouts of America and is now a member of the Executive Board of the National Council of the Boy Scouts of America.

Dr. West has been the Chief Scout Executive since the founding of the Boy Scout Movement in America and has seen the organization grow from a few troops in 1910 to a membership of nearly 800,000 boys. Lorne W. Barclay, Scout Executive of Tampa, Florida, who is Executive Officer of the American Contingent at the Jamboree, is internationally known for his work among boys. For many years he was Director of the Department of Education of the Boy Scouts of America and at the close of the World War was decorated by the French Government with the Legion of Honor medal for his work in the Reconstruction Camps of Europe. He has also been decorated by the Spanish Government for his work among the Spanish speaking people of Florida.

Both Mr. Rich and Dr. West possess the coveted award of the Silver Buffalo, which is the highest honor the Boy Scouts of America bestows on distinguished service to boyhood.

### SCOUT HEROISM

From a hospital bed in the Johnson Memorial Hospital of Stafford Springs, Conn., Scoutmaster A. R. Grenier has directed the activities of a troop of Scouts and has developed in his community one of the finest troops in Connecticut. The story of this crippled Scoutmaster's heroic work and the manner in which the Scouts of his troop have carried on is one of the most interesting stories in the annals of Scouting.

### New Troop

In January, 1925, Troop No. 1 of Stafford Springs was organized with A. R. Grenier as the Scoutmaster. The troop had thirty-two members. It was hard to get a Scout Troop started at Stafford Springs. There were not very many men who were interested in giving time to leadership in Scouting for boys but Scoutmaster Grenier kept on. He organized a troop committee and soon the troop was flourishing.

In May, 1927, while working on a large truck, the blocks and jack slipped and Scoutmaster Grenier was crushed beneath it. He was so seriously injured that all hope for his recovery was given up and it was necessary for surgeons to put his entire body in a plaster cast. For months, in the Troop, more than in any other while he hovered between life and death, only his nearest relatives could visit him. The Troop of Scouts, without adequate leadership, broke up and many of the Scouts drifted away.

### Real Heroism

Months went by and Scoutmaster Grenier got a new hold on life. He re-registered as Scoutmaster of his Troop and called together a committee of the men of the town to discuss Boy Scout matters. And then, without being able to sit up in bed he re-organized his Scout Troop with the help of his friends. That was more than 18 months ago and they have been the busiest months in the history of the troop.

Over-night hikes, parades, camp services, guiding jobs, even Scout could do, was carried on by the Troop which now numbers 7 of which are First and Second Class rank. And activities were carried on

while the Scoutmaster was confined to a hospital bed. The loyalty of the Scouts, his Scouts, has been one of the things that has helped to give Scoutmaster Grenier a chance for life. And from the inspiration that this Scoutmaster has given to the boys who served under him, Troop No. 1 of Stafford Springs has become an outstanding Boy Scout Troop.

### REMOVE SIGNS

Old advertising signs and placards on trees and fences along Bellefontaine Road, St. Louis, Mo., were removed by Boy Scouts recently in their campaign to keep their city beautiful. The work of the Scouts was done under the auspices of the Bellefontaine Road Improvement Association.

### NEW CAMP

A fifty acre tract of woodland near Tazewell, Virginia, has been given to the Southern West Virginia Boy Scout Council for a permanent camp. The tract, which will be known as Camp Roland, is located 18 miles south of Bluefield and is reached by the Bluefield-Wytheville road.

The Camp will be used both for a summer and short term camp, and a few troops in 1910 to a membership of nearly 800,000 boys. Lorne W. Barclay, Scout Executive of Tampa, Florida, who is Executive Officer of the American Contingent at the Jamboree, is internationally known for his work among boys. For many years he was Director of the Department of Education of the Boy Scouts of America and at the close of the World War was decorated by the French Government with the Legion of Honor medal for his work in the Reconstruction Camps of Europe. He has also been decorated by the Spanish Government for his work among the Spanish speaking people of Florida.

The mess hall will be made large enough to accommodate 150 boys, and will be so constructed that it may be used as an indoor meeting place during the rainy weather. A large fire place will be built in one end of the building which will add much to the camp fire programs.

The state will be asked to officially declare the fifty acres a game refuge and the State Forestry Department will be asked to include this reservation in its forestry program.

### JAPANESE SCOUTS

A troop of Japanese Boy Scouts, all members of the Sacramento, Cal., Council of the Boy Scouts of America, are conducting a good will tour of Japan this summer. The 33 Scouts, led by Scoutmaster George Murray and Dr. C. B. Jones of Sacramento, will spend the summer in Japan, returning to their homes in September.

One of the features of the trip is the fact that the group did not touch land until they arrived in Japan. Leaving Sacramento, they took a steamer down the Sacramento River to San Francisco, where they changed to an ocean liner in San Francisco Bay. The day before they reached their destination, a ship loaded with Japanese Scouts embarked from Yokohama and greeted the tourists at sea.

The boys are spending 40 days in Japan, 25 of which will be required for contemplated inland trips and the youths will then disembark for 15 days in order to visit relatives.

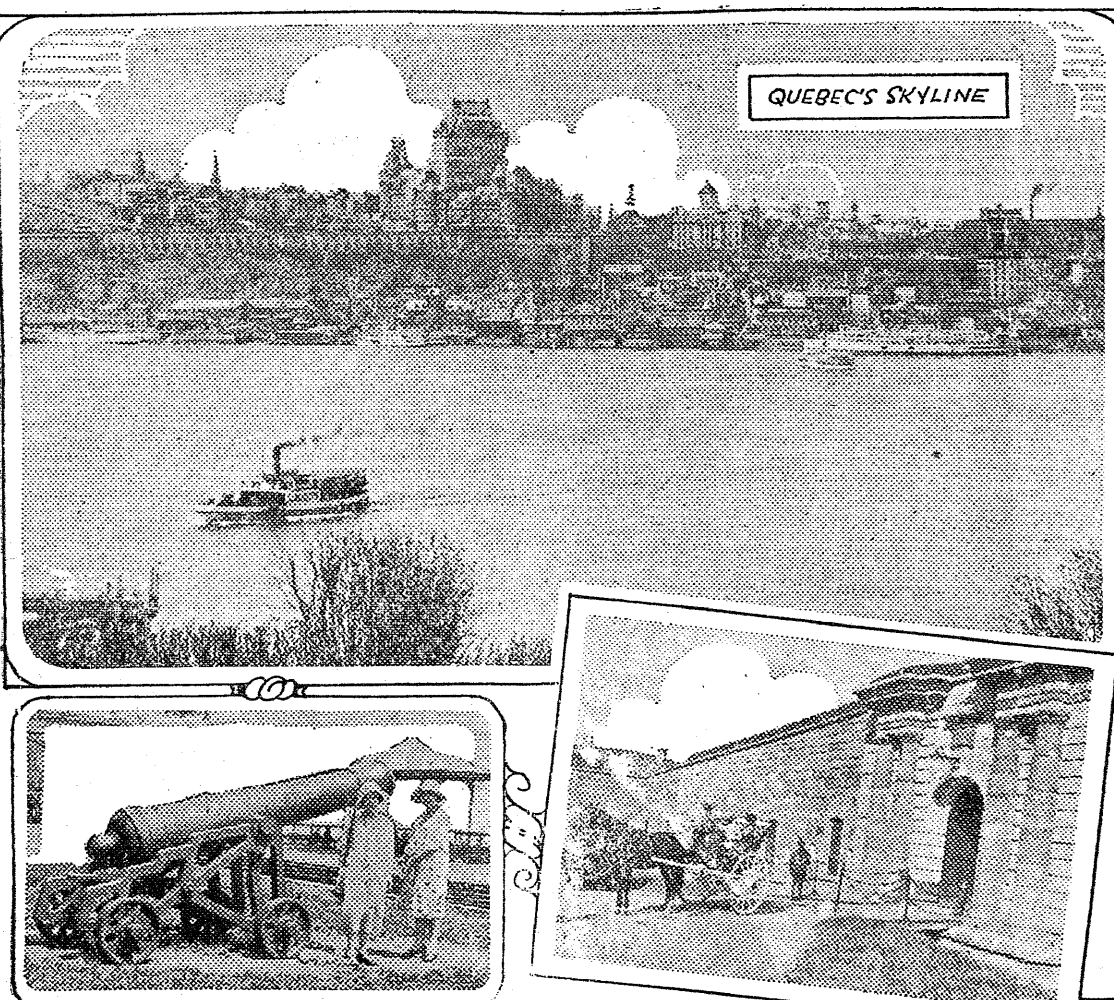

It is the first time in the history of Scouting that an entire Troop of Scoutdom from an entire Troop has made an official visit to a foreign country. The trip is in the way of a reward. The Troop having done some life was given up and it was necessary for surgeons to put his entire body in a plaster cast. For months, in the Troop, more than in any other while he hovered between life and death, only his nearest relatives could visit him. The Troop of Scouts, without adequate leadership, broke up and many of the Scouts drifted away.

### Good-bye Stained Teeth

New Safe Treatment Bleaches Dark Teeth in Three Minutes

Dentists have discovered a new safe treatment which bleaches stains from teeth, giving yellow discolored teeth a beautiful shining whiteness. It is called Bleachodent Combination, and consists of a remarkable liquid which cures or softens the stains, and a new kind of paste, which instantly removes the softened stains, and prevents new stains from forming. Simply brush the teeth with a few drops of the liquid—then use the paste—and even the dulllest teeth are quickly whitened. Tobacco stains disappear after first use. Applications. Bleachodent Combination was first made for children's teeth to avoid the use of harsh gritty pastes which are so harmful to children's soft sensitive teeth. While Bleachodent Combination will instantly remove surface stains, do not expect it to remove stains caused by silver fillings, as these are below the enamel, and Bleachodent Combination is not intended to act on the enamel in any way. Fine for the gums. Bleachodent Combination is widely used and recommended. Costs just a few cents, and money back if not delighted. Get it today at all good dealers, such as:

## Lovely Old Quebec, Only Walled City in the New World

CANNON ON DUFFERIN TERRACE " " CALECHE LEAVING CITADEL "

Summer visitors to eastern Canada should not fail to include Quebec, the Ancient Capital, in their itineraries, for this fine old city, with its hospitable Chateau Frontenac, is the strategic center for all sorts of excursions and outings arranged for the stranger within its gates. The city itself is replete with memories and landmarks of bygone days, and from Dufferin Terrace, that splendid promenade high above the broad St. Lawrence, a panorama of unforgettable beauty greets the eye.

Quebec enjoys the distinction of being the only walled city in the New World. The fine old stone fortifications are still visible in the city.

1928, a total of 18,522,767. The time element involved in securing authoritative data from the more distant countries makes it impossible to get strictly comparable figures for a later date for the world.

## Endurance Flyers Deafened By Noise

"When the endurance flyers landed it was found that they had become deafened by the constant noise incident to flying day after day."

This familiar extract from practically every news-story of the endurance flights which have been held his year affords striking proof of the advancements made by leading automobile engineers in eliminating noise from their product.

The noise in airplanes is chiefly created by the exhaust of the engine and the terrific rush of air caused by the propeller. Mufflers are not usually used on airplane engines as they do to the weight and slightly retard engine efficiency.

The automobile has many more potential noise sources. It, too, has the same potential engine noise and the rush of wind while traveling at 60 miles an hour or more. In addition it is operating over a solid road which creates a certain amount of tire noise. In spite of all this, it is possible to converse without difficulty in the better made cars while rolling along at high speeds hour after hour.

In striving for an unusual degree of quietness in the Oldsmobile Six, engineers had the advantage of device designed by General Motors engineers and used at the General Motors Proving Ground to "measure" noise.

This mechanism consists of two instruments which are placed in the interior of the car. They somewhat resemble early radio receiving sets. One contains a loud speaker apparatus which magnifies all sounds within the car and transmits them to an ear horn connected with the left ear of the tester. The right ear phone is connected to the other instrument in which noise is artificially created and its volume controlled by a dial.

When the noise striking both ears of the tester reaches an equal intensity, the reading of the dial on the second instrument gives a measure of the noise created by the car when traveling at that specified speed.

By means of this measuring stick, Oldsmobile engineers were enabled to try various means of reducing the noise and have a reliable test of the results in each case. Some of the changes which produce the unusual quietness found in Oldsmobile operation include specially designed rubber engine mountings; taking all instrument or accessories, from the owl dash; lining the entire front compartment with felt and rubber; placing a layer of felt in the roof construction; using a specially designed clutch hub, and perfecting many other details which all contribute to quietness.

## Americans Use Phones Extensively

This country not only has more telephones than all the rest of the world, but Americans use the telephone to a greater extent than people anywhere else, a recent compilation of world telephone statistics discloses.

The United States, according to the compilation, had 15.8 telephones for each hundred people on January 1,

1928, a total of 18,522,767. The time element involved in securing authoritative data from the more distant countries makes it impossible to get strictly comparable figures for a later date for the world.

The only country close to this in telephone density was Canada with 13.2 telephones per 100 population. New Zealand ranked third with ten, followed by Denmark with 9.3. Sweden with 7.7 and Australia with 7.2 telephones per 100 population. Germany, which has more telephones than any other country except the United States, nevertheless has only 4.4 telephones for each 100 people, and Great Britain and France have even less. The most telephone-developed country in South America, Argentina, has 2.2 telephones per 100 people, the same as France. Japan leads the Asiatic countries with 1.2 telephones for each 100 population.

There were 224.7 conversations by telephone per capita in the United States in 1928, 221.5 in Canada; Denmark 135.8; Germany 35.5; Great Britain 28.6 and France 17.2. All the rest were lower.

The total number of telephones in the world was 30,990,304, with 60 per cent. of them in the United States. Europe had about twenty-eight per cent. of the remainder. Sixty-nine per cent. of the total telephones in the world are under private ownership, including all the telephones in this country.

## No-Accident Bonus Plan Profitable For Employees Of P. S.

Under the no-accident bonus plan of the company, 2,654 operators of street cars and buses of Public Service Co-ordinated Transport are being paid \$49,990 in bonuses for the four-months' period ending July 31. Of this amount \$2,255 is a special bonus which every operator attached to the carhouse which had the best record for the period in its division shares. In this special bonus 451 men will participate.

In Essex Division \$15,200 in bonus money will be paid to 845 operators. Hilton Carhouse had the best record in the division and 281 men at that carhouse will share in a special bonus of \$1,405. The men of this division will assemble August 27 in the auditorium of the Newark Terminal Building to get their bonus checks, the day operators assembling in the evening and the night operators in the morning.

Other divisions will share in the bonus as follows: Hudson, \$8,695.50 to 486 men; Morris, \$1,105 to 78 men; Passaic, \$7,600 to 422 men; Central, \$5,944 to 320 men; Southern, \$6,600 to 367 men; Bergen, \$2,590.50 to 136 men. Hoboken Carhouse had the best record in Hudson Division and Vineland Garage, the best record in the Southern Division. Central and Morris Divisions were combined and Springfield Garage had the best record. In Passaic and Bergen Divisions, which were also combined, Riverdale Garage had the best record.

Under the Public Service plan the year is divided into three bonus periods. Bonuses are paid as follows for each period: \$20 to operators having a perfect record; \$19 to operators having no more than one accident;

## Four Persons Hurt In Motor Accidents

Four persons were injured in four motor accidents in Belleville over the week-end.

Bernard Hoere of Richard street, Passaic, bit nearly through his tongue when the automobile in which he was riding struck a hydrant in Washington avenue near Riviera Park Sunday night. William Burns of 185 Harding avenue, Clifton, the driver, suffered lacerations to one knee. Police said he lost control of the car. Hoere was treated by Dr. Martin Meehan and taken to St. Mary's Hospital, Passaic.

Edward Waitt, twelve, of 22 Magnolia street, suffered lacerations of the left side of the face and a sprain when struck by a machine driven by Angelo Cianci of 55 Magnolia street. The accident occurred in that street.

Saturday night Walter Gavin and Percy J. Magasee of the United States Navy were thrown from a motor-cycle near 136 Belleville avenue when the machine skidded into a telephone pole. The former's back was wrenched.

Patrick Sogaro of Belmont avenue, suffered knee injuries when struck by a car driven by Samuel Lopotro of 656 South Eleventh street, Newark, in Belmont avenue.

### Light Exercise for Invalid

Babe Ruth has gone back to hitting home runs, probably to save his heart.—Toledo Blade.

\$17.50 to operators having no more than two accidents; \$15 to operators having no more than three accidents. Operators having perfect records for all three bonus periods of the year will be given a special bonus of \$20 in addition to the period bonuses.

## Nubi Makes Her Screen Debut In "The Squall"

Most Talked-About Vampire  
Of Stage Now Plying Her  
Art In The Movies

Nubi by public demand. The retention of Nubi in the screen version of "The Squall," which comes to the Capitol Theatre, Wednesday and Thursday, was forced by public acclamation when First National Pictures first announced that the gypsy vampire's name had been changed to Sari.

When the studio officials decided to change the locale of the famous stage play from Spain to Hungary because of the greater pictorial possibilities, they also decided to change the cognomen of the fiery little gypsy who created such havoc in a peaceful home. Numerous complaints, however, poured into the production headquarters and Sari returned to Nubi.

Nubi's fame as a devastating vamp has been so far-reaching that it has virtually become an adjective descriptive of the very newest in vampires.

In the First National Vitaphone production of "The Squall" Nubi is played by Myrna Loy, while the mother is played by Alice, and the ingenue by Loretta Young. Alexander Korda directed it and Ray Rockett produced it. Bradley King adapted "The Squall" from the stage play by Jean Bart. Both the play and the picture enjoyed long runs on Broadway.

## Is your HEATER ready for Fall efficiency?

The Summer job of your heater is easy—just waiting for Fall and cold weather. But don't forget that it has a real burden to carry through the Winter. And now is the time to fit it for the job.

The removal of dust\* from the heating surfaces will save coal. A layer a quarter-inch thick causes a serious waste. One of our experienced men will be glad to consult with you on the conditioning of your heater.

## NUTLEY DELAYS BATHING POOL

### Children To Be Told Cost Is Too High To Permit Work This Year

The petition of children to the town to build a swimming pool this summer has been rejected. At the meeting of the Board of Commissioners Tuesday night at Town Hall, Mayor Cook announced that construction of a swimming pool this season would be impossible because of other town improvements which must go through. Mayor Cook made a survey of the subject and found that a pool would cost \$75,000.

The Mayor told Town Clerk Blum to notify Harold Alston of 103 Brookline avenue of the rejection. Alston drew up the petition, which was sent to the town clerk's office more than a month ago. It was signed by 218 boys and requested the town to build a pool "right away."

A petition signed by eighteen property owners in Harrison avenue asked the town to install a gas main in that avenue from East Passaic avenue, 400 feet east of Franklin avenue.

The same delegation petitioned the town to give one name to Harrison street, Harrison avenue and Edgar street. It was pointed out that the three streets are continuous.

This petition was referred to the committee in charge of renaming streets. Mrs. Emil Diebitsch of 189 Walnut street is chairman.

Anthony Pucci, twenty-three years old, of 185 Hancox avenue, Nutley, requested the town to make him a constable. The Department of Public Safety will act on this application.

Mack Jenkins of 109 Lorraine avenue, Montclair, asked permission to operate a pool room and barber shop at 10 Coppola street. Frank DeVerano requested authority to operate a lunch room at 2 East Passaic avenue. They were referred to the Department of Public Safety.

Town Clerk Blum read a petition from Harry Kerner of 165 Augusta street, Irvington, requesting permission to install a gasoline station at Center street and Washington avenue. The site was formerly occupied by a building, which was moved recently. Kerner's petition will be referred to the Department of Public Improvements.

### Reject Apartment Petition

The board rejected a petition filed by the Grecco Construction Company of Belleville for permission to build a twenty-five family apartment house at 80 Union avenue.

An ordinance was introduced by Commissioner Sherwood which provides for acquisition of land for the extension of Memorial Park in Nutley. The ground is near Vreeland avenue in back of Gustave Dahlberg's residence at 67 Vreeland avenue.

According to Mr. Sherwood, Dahlberg, who owns the tract, is willing to sell it to the town for \$300. A final hearing on this ordinance will take place September 4.

A resolution was passed granting permission to the Sanganaro Club of Nutley to observe the "Feast of Sanganaro" in a lot at Bloomfield avenue and Harrison street, September 21 and 22.

Mayor Cook introduced a resolution which provided that the regular meeting of the Board of Commissioners, scheduled for September 3, be postponed to September 4.

### To Seek Street Bids

Town Clerk Blum was authorized to advertise for bids for the improvement of Hancox avenue, DeVauseney place, St. Mary's place, from King street to Hunt place; Wilson street, Gabriel street, Rutgers place, from Passaic avenue to Whitford avenue; Cortlandt street, Homer avenue and School lane. Bids will be accepted at the office of the town clerk until the night of September 4.

The contract was awarded for the purchase of four tool-proof window guards for the main cell room and passageway in the New Public Safety building to the Pauly Jail Building Company of New York. The cost is \$159.

An ordinance passed provides for the construction of sidewalks and curbs and the paving from curb to curb of Union avenue from Center street to the Nutley-Belleville line. The estimated cost is \$10,000.

### Nutley Rotarians Meet

At the meeting of the Nutley Rotary Club in Yountakah Country Club last week, it was announced that Joseph D. Little of 48 Hawthorne avenue would speak before the club today on "The Romance of Silver."

## Lions Club Holds Baseball Game

Nutley and Belleville Lions will face each other in a baseball game at Park Oval, Nutley, today. The game will start at 4:30.

After the contest, the visitors will be dinner guests of the Nutley chapter at the Yountakah Country Club.

The Nutley Lions' team held one practice session at Park Oval Tuesday evening. The following are expected to play today: Richard Leete, Paul Charles, Dr. Nathan Gilman, Dr. Levinson, David Halliday, David Nichols, Mr. Gaito and Joseph Novotny. Mr. Daniels will be playing manager.

## Belleville Park's Children Hosts

### Luncheon And Games Given Boys And Girls From Other Neighborhoods

A whirl of parties is beginning among the playground set of Essex County Parks.

Children of Belleville Park entertained Tuesday a group of youngsters from Yanticaw Park, Nutley, Branch Brook, Independence and Riverbank Parks, Newark.

The guests arrived by bus, through arrangement of the Essex County Park Commission, in time for lunch. The children were ready to receive at 11 o'clock, and they prepared a program full of fun to keep the visitors gay throughout the day.

Contests of all kinds, drills for boys and girls, dances and races helped to make the day pass pleasantly. After luncheon, the Belleville children served their guests ice-cream, cake and lemonade.

## Vets Theme Song Has Been Selected

Kansas City, Kansas, August 22—"Here Comes the Bride" will be the theme song of the 30th national convention of the Veterans of Foreign Wars of the United States, to be staged at Saint Paul, Minn., August 25 to 31.

Kittie Mulhull, Chicago colleen and well known welfare worker recently elected president of the Illinois auxiliary for the coming year, will be the blushing bride.

And will she blush! Well—she ought to because every delegate, married or single, at national V. F. W. encampments for the past ten years, has made love to Kittie Mulhull, long since recognized as the "sweetheart of the V. F. W."

Kittie Mulhull's popularity in veteran circles is bounded only by the coast lines of the country. She is known to more ex-service men than General Frank T. Hines would suspect on his rolls at the Veterans' Bureau.

But Kittie's only love has been the welfare of disabled war veterans and their comfort in the hospitals. She has been head of the V. F. W. welfare work in various hospitals near Chicago so long that memory of man runneth not to the contrary.

She has distributed more cigarettes to hospitalized veteran patients than the vast number that have appeared in newspaper blindfold contests.

Stationery, comfort kits, and other necessities that hospital facilities fail to provide have been scattered like sunshine throughout hospital wards by the truckload, all due to the genius of this Chicago lass whose heart and soul is devoted to the welfare of the ex-service man.

Kittie Mulhull loves the ex-service man for many reasons. But primarily there is one reason that explains her devotion. Kittie's brother, a big strapping youngster, was killed in action overseas during the world war. And Kittie can't forget.

In tribute to Miss Mulhull's popularity, the convention committee has completed all arrangements for a wedding that will be attended by those who know and love her best—her friends of the V. F. W. from all over the country.

The wedding ceremonies will be staged in Saint Paul's Cathedral, famed internationally for its architectural beauty, at 8 p. m., Monday, August 26, with Rev. Father Lawrence F. Ryan officiating. And after the words that take Kittie Mulhull from the arms of thousands of her doughboy friends and give her into the keeping of one are pronounced, the wedding procession will file out beneath an archway of flashing sabres held aloft by members of the Officers' Reserve Corps.

Chris Paschen, Chicago's building commissioner, will give the bride away. Robert B. Handy, Jr., Kansas City, Kansas, national adjutant, will officiate as "best man." The remainder of the wedding party will include national officers of both the V. F. W. and the Ladies' Auxiliary.

## India, Land of Seers, Sages, Temples, Peaks and Palaces, Where Moguls Design Like Titans and Finish Like Jewelers

A land of sages, saints and seers, of mysteries, marvels and martyrs, of peaks, jungles, castles and mountain peaks, India continues to be one of the world's great fascinations. The giant peninsula, stretching from the arctic heights of the Himalayas to the very rim of the equator, contains more than a fifth of the world's population, 350,000,000 souls, who speak an aggregate of 147 languages and worship innumerable deities in a host of religions. The still unscalped Mount Everest looks down upon a land of faith, beauty, variety and contradiction. There is the crowded life of Bombay, Madras and Calcutta, the jungle life of the Central Provinces and the high degree of architectural skill revealed by the shrines and memorials scattered over the country. At Agra stands the thrice famous Taj Mahal, the most perfect piece of Mogul architecture. Built in 1632 by the emperor Shah Jahan to the memory of his favorite wife, it justifies the saying "the Moguls designed like Titans and finished like jewelers." The mausoleum inspired Lord Roberts to say: "Go to India. The Taj alone is well worth the journey." Since 1853 the Indian State Railways have made the fastnesses of India more and more accessible. Today there are 41,000 miles of track. The fastest long-distance train is the Frontier Mail, linking Peshawar with Bombay, 1450 miles away, while other expresses serve the major centers. The growing popularity of round-the-world cruises has yearly increased the number of visitors who travel inland by the railway system. The liner Empress of Australia, sailing from New York Dec. 2 on the seventh annual Canadian Pacific World Cruise, affords her passengers a full week to explore the interior of India. Debaring at Bombay, the tourists proceed by special train to Delhi, site of seven former capitals of India, stopping enroute at Agra to visit the Taj Mahal. Optionally, there is also a spectacular across-India trip from Agra via Benares to Calcutta, whence the traveler proceeds by rail to Darjeeling and remains a day to ascend Tiger Hill for a view of the sunrise on snow-covered Mounts Everest and Kinchenjunga.

## Dartmouth Claims Five Nutley Youths

Five Nutley boys will return to Dartmouth College in the fall. They are Morton Smith, a senior, of 226 Whitford avenue; Donald Stoddard of 198 Hillside avenue; and Robert Fendrich of 49 Daily street, juniors; Paul Leach of 120 Hillside avenue and Frank Gilbert of Erie place, sophomores.

The five boys are Nutley High Graduates. Smith was graduated in 1925, Gilbert in 1926 and Stoddard, Fendrich and Leach in 1927.

## Bloomfield Wins

Tony Foresta held the La Monte baseball team of Nutley to five hits Thursday night and the Bloomfield All Stars batted out a 6-1 win. A home run with two men on the bases in the first inning by Leo Jentis enabled the winners to take a commanding lead.

A single by Harry Jacques, his second of the game, which scored Stager, robbed Foresta of a shutout. The loser's lone run was tallied in the fifth inning. The game was called at the end of the seventh.

McPherson, on the mound for the losers, pitched fine ball after Jentis' home run. His deliveries were solved for nine safe blows.

## Motor Fines

Recorder Charles Young fined nine motorists in Nutley Friday night for violating motor vehicle laws. Seven assessed \$3 each for failing to observe the stop street law are George Astbury, 433 First street, Roselle; Frank Brantigan, 649 Summer avenue, Newark; George Sharp, 59 Fairview avenue, Newark; John Antonio, 14 Cedar street, Orangeburg, N. Y.; Edwin DeGroot, 210 Lawrence street, Paterson; Harry Chales, 234 West 142nd street, New York; and Herman Hirschel, 178 Runyon street, Newark.

Stanley Benford of 336 Lyons avenue, Irvington, and Joseph Alecock of 34 Ridgeway avenue, Hillside, were fined \$11 each for speeding.

## HARTLEY URGES RIVER CLEANING

### Calls On Larson To Act For Use Of Passaic Valley Sewer.

Representative Fred A. Hartley has called on Governor Larson to take action to halt the alleged pollution of the Passaic River by factories which have not yet made connections with the Passaic Valley Sewer System.

It became known that the work some time ago, but held up pending of dredging the river, authorized preparatory work, will be begun by the War Department within a month.

### Refuse On Banks

This is expected to aid considerably in clearing the stream of its present polluted condition for it is pointed out that the pollution is due partly to slime and refuse matter on the banks which accumulated before the sewer was built and which has been above water in the present season of heat and drought.

Lieutenant Colonel Thomas M. Robins, in reply to questions by Mr. Hartley, said that the dredging had been held up until a suitable disposal place for the refuse and a terminal in the act authorizing the work.

The disposal place is already available, he said, and a terminal at Passaic would be ready soon and the work will start within a month.

Hartley, in his letter to Governor Larson, asked the governor to give the matter his personal consideration and to take action, if necessary, to see that State laws regarding the disposal of acids and refuse of plants be strictly enforced.

## Engaged

Mr. and Mrs. Lloyd Merle Kennard of Stewart avenue, Nutley, have announced the engagement of their daughter, Miss Stella Louise Kennard, to Rodney P. Gibson, son of Mr. and Mrs. David Gibson of Grant avenue.

Mr. Gibson is a graduate of Rutgers University and a member of Lambda Chi Alpha.

## Motor-boat Theft Laid To Youths

Three youths were arraigned before Recorder Charles Young in Nutley Monday to answer a charge of stealing a motor-boat owned by Howard Zitka of 313 Passaic avenue, Nutley.

Zitka told the Nutley police the three had the boat two days. They took it from the Nutley side of the Passaic River. The youths were arrested Saturday afternoon by Patrolman William Wallace.

## Nutley Nine Wins

In a game featured by the hitting of Leo Jentis, who hit a home run and three singles in four trips to the plate, the Nutley Athletic Club defeated the George Mack Association of Clifton 9 to 3 in Nutley, Saturday.

Tommie Garrison, Manhattan College athlete, was on the mound for the winners and after the second inning he held the opposition scoreless. He hit two doubles, scored one run and drove in two.

## Mrs. Emil Yunker

Funeral services for Mrs. Christine Yunker, wife of Emil Yunker of 87 Rutan place, who died at her home Wednesday after a short illness, were held at her home Saturday afternoon at 2 o'clock. Burial was in Evergreen Cemetery, Elizabeth.

Mrs. Yunker was born in Rosenthan, Germany, fifty-eight years ago. She had lived in Nutley fifteen years. Besides her husband, she is survived by two daughters, Lillian and Marion, and a son, Arthur.

## WANTED

Three or four neatly furnished rooms in private home in Belleville, by a couple with one child. Garage accommodation if possible. Willing to pay moderate rental and furnish best of reference. Kindly send replies to Box 33, care of Belleville News.

## Refuses To Pay Cab Fare, Held In Jail

Charles Rosenwald of 99 Maine street, Newark, was arrested by Nutley police Thursday night on a charge of refusing to pay his fare to a taxi driver who had taken him from Newark to Nutley. After spending the night in the Nutley jail, he was released in \$20 bail Friday to appear before Recorder Charles Young Monday.

Aloysius Dietl of 106 Houston street, Newark, was the driver of the taxi.

## Huelsensbeck Named To Succeed Mills

### Republican Committeemen Will Ask Executive To Approve Him.

Assemblyman Harry L. Huelsensbeck Monday was chosen Republican nominee for sheriff by the committee on vacancies of the Republican County Committee to take the place of the late Rupert F. Mills.

The nomination will be given to executive members of the county committee for approval. The committee on vacancies is composed of County Clerk John H. Scott, Frederick W. Parker and Mrs. Gilbert C. Higby.

Captain Louis E. Batchelor will be offered the job of under-sheriff by Mr. Huelsensbeck, if elected.

### Born in Newark

Mr. Huelsensbeck, born in Newark April 25, 1886, was educated in the Newark public schools. He served two terms as alderman from the Thirteenth Ward several years ago when Newark had aldermanic form of government and also was a City Home trustee. The last two Republican National conventions saw him a delegate.

The candidate is vice president of the Granite Building and Loan Association and a member of Forest Hill Golf Club, Thirteenth Ward Republican Club, C. V. Baumann Republican Club, Vailsburgh Civic League and a number of fraternal organizations. He is an undertaker.

Mr. Huelsensbeck is completing his third term as an Assemblyman. He was elected to the Assembly for the first time in 1926 and he was re-elected in 1927 and 1928. He is married.

His nomination was recommended by the Thirteenth Ward Republican Committee and other city ward committees and political clubs.

## Theft Of Bicycles Discovered In Nutley

When Sam Evans, colored, of Passaic avenue, Nutley, left a borrowed bicycle in front of a lunch room at Center street and Franklin avenue, Saturday, he did not know he was producing evidence which would clear up the mystery of two stolen bicycles.

Franklin Trench of 6 Division avenue, Belleville, who was working in a grocery store nearby, noticed the bicycle was one stolen from him several weeks ago in Newark. He told Patrolman Peter Somoracki and the patrolman took Evans to headquarters.

Evans said he borrowed the wheel from a sixteen-year-old boy. The latter was arrested by Patrolman Somoracki and confessed he had stolen Trench's wheel.

He said he and a twelve-year-old boy went to Newark on bicycles and stole two wheels they liked better. One of the wheels one rode first was stolen at Nutley High School last June from Andrew Young of 201 Coeyman avenue, Nutley. One of the bicycles stolen in Newark was Trench's and the other belonged to Robert Michaelson of 29 Oak street, Belleville.

The two boys were paroled in custody of their parents for a hearing before Recorder Charles Young Monday.

## Fenton-Inness

Miss Alice Beatty Inness, daughter of Mr. and Mrs. A. B. Inness of Terrace avenue, and Louis Fenton, son of Mrs. H. L. Fenton of Highfield lane, were married Saturday in Grace Episcopal Church, Rutherford. Rev. Charles W. Popham, rector of the church, performed the ceremony.

The bride, who was given in marriage by her father, had as her only attendant her sister, Miss Mildred Inness, and Addison Fenton, brother of the bridegroom, was best man.

After a motor trip the couple will reside in Belleville.

GEORGE HATHAWAY, Painter and Decorator; Sign Painter; Paper Hanger; We make your home bright. Tel. Nutley 2901. 20 Erie place, Nutley, N. J.

## School Opening Set For September 4

(Continued from Page One)

considerable increases in the high school and in some of the grammar schools, but it is believed that all will be cared for without overcrowding.

### De Rossett Kicks Again

"To satisfy a whim" is how School Commissioner James L. De Rossett characterized the board's decision to purchase two automobiles, one for the use of School Superintendent George R. Gerard and the other for Business Manager James J. Turner, who will turn over his present car to Trust Officer Thomas Berry.

Commissioner Watson Current suggested the purchase of the additional machines, explaining that it is necessary for Mr. Gerard to visit schools about town and not "right for him to use his private car." De Rossett said the board could not afford to buy the cars, adding they are unnecessary. He voted against the move, but his colleague's, President John P. Maher, Mr. Current and Paul J. H. Hollberg favored it. Mrs. Judson Stickle, who usually votes in a manner similar to De Rossett, was not at the meeting. She has not been at a board meeting for some time.

### Resignation of Miss Edna Skonberg

Resignation of Miss Edna Skonberg, fourth grade teacher at School No. Seven, and Mrs. Marie Wall, second grade teacher at School No. Four were accepted. New appointments were Misses Georgia O'Connor, Eleanor Finell and Adelaide Rodgers. Miss Gladys McConnell, principal of School No. 9 was named to take up similar duties at the new school, No. Ten, Franklin and Belleville avenues, this fall. Thomas Gryczka, eighth grade teacher at School No. One, will take over Miss McConnell's duties at No. Nine.

### Grading at School No. 10

was awarded the B. E. Daniels Company of Nutley in the amount of \$14,788.50. Minor contracts for miscellaneous work at various schools were awarded other concerns.

It is expected that within a week No. Ten School will be entirely finished and ready for occupancy.

## Playground Windup Feature Track Meet

(Continued from Page One)

work of the Cortlandt streeters, who played as a unit. The following girls played for Cortlandt—Carrie Byrnes, Viola Murrin, Edna Baun, Helen Kaluzer, Mary Hogg and Dorothy Bloemeke. In the absence of the Friendly star Helen Corbo, the best players for Friendly in this game were Clara DeBartola, captain, and Mildred Neale. The others who played were Marie DeJuro, Mildred Wright, Ida Cucuninello and Jennie Buchina.

## Boy Coaster Hurt As Wagon Upsets On Railroad Tracks

Clarence Seabert, twelve, of 115 Main street, found coasting down the William street grade delightful Thursday evening until his little express wagon struck the Erie railroad tracks, careened and turned over.

The rider was flipped onto his side and as a result was taken in the police ambulance by Patrolmen Scott and Flynn to St. Michael's Hospital, Newark. Five stitches were taken in his right instep. His right arm was lacerated.

## Contest Winners

Winners in the "N" Contest are, Ramona Curtis, 425 Cortlandt street; Elaine Van Riper, 81 Wilber street; Marion Robbins, 432 Joralemon street; Irene White, 563 Washington avenue; Edward Howell, 703 Belleville avenue; Lillian Hull, 179 Garden avenue; Edith Stauffer, 140 Adelaide street; Carolyn Byrnes, 293 Main street; Helen Thalheimer, 19 Fairway avenue and Marion Witt, 126 Academy street.

## Legion Delegates

Walter Ryan and Roscoe Symonds will represent Nutley Post, American Legion, at the state convention in Elizabeth September 5, 6 and 7. It has been announced by Commander David Halliday, Franklin Bailey and Charles McBride will be alternates.

The delegates of the Women's Auxiliary will be Mrs. Ryan and Miss Eulah Symonds.

Mr. and Mrs. Morris Wright, Sr., of 163 Main street, are entertaining Dr. and Mrs. George Wilbur Millett of Portland, Oregon, for a few days with their daughter and son, Fred and George. They are home by way of Mexico.

## ROADSIDE MARKETS INCREASING IN NUMBER

The director of the New York State Agricultural Experimental Station, Dr. U. P. Hedrick, recently directed the attention of the public to the growing economic importance of the roadside fruit and vegetable stands. They came into being with the automobile, have been steadily increasing in importance as a channel for the disposal of the farmers' produce and the annual business these stands are doing now amounts to a very large sum in New Jersey and in every other state.

Such roadside markets are more numerous within a radius of ten or fifteen miles of a city. Some of them are elaborate, having been especially constructed to catch the attention of the motorist who goes flying along the highway. Others are little more than rudely constructed stands, placed in the shade of the trees by the roadside where fruit or vegetables and other things are displayed.

A great many people living in the cities of our State patronize these roadside markets. It is not often that they find the things they buy in them cheaper than the prices charged by the city merchants but most people think the fruit or vegetables they buy in the country are fresher and better than the city markets will afford.

Some people make it a point to combine business with pleasure and do their marketing while they are taking their week-end ride through the country. Many a country boy or girl has profited by this easy market by picking berries when they are in season and selling them from the stand in the front yard. Neighbors who are not fortunate enough to own property on the main thoroughfares often keep the roadside stands on the trunk line supplied with fruit and vegetables. In this way the entire community is benefited and gains some ready cash.

In some states, notably in New Jersey and New York, the farmers' wives are achieving fame and adding materially to the family revenue by cooking things which may be sold at these roadside stands. Some women began in a modest way making pies. They found that there was a great demand for them. They sold all they could make and at good prices. Today the roadside stands near the larger cities where food products of this kind can be obtained, are known to a great many motorists and are well patronized.

To successfully operate a roadside market there must be a place available where motor cars can swing out of the highway and be parked for a while. The markets which are doing the best business are those which have had signs placed by the roadside about fifty or a hundred yards away from the stand so that motorists may slow up a little and inspect the goods offered for sale without leaving the car. Good merchandising is required to make such stands successful. Some farmers or their wives are very clever at this sort of thing and many of them are finding this source of income most certain and satisfactory.

## OUR NEW ISLANDS

The United States grows amazingly in population, but our territorial gains have been slight since the close of the Spanish war. So it is interesting to learn that we have just added a few acres to our possessions. The Turtle Islands, between Borneo and the southern islands of the Philippines, are to be recognized by formal treaty as possessions of the United States.

There are but seven of them, and they are so little that they support a population of only 200. The acknowledgment that the group now belongs to America will not arouse much of a stir in the United States. But we suggest that it is a news note of some importance when the United States grows in territorial ownership, even if only by addition of seven little islands which hardly any Americans will ever see.

## AIRPLANES AND SUMMER HOMES

What a tremendous boom the development of aviation will give the summer resorts! Just think what it will mean to places at the shore to be within 30 to 60 minutes of the Metropolitan district.

The future of real estate development, so far as the summer resorts go, is tied up closely with the possibilities of the airplane. The day that travel through the air becomes cheap and universal we shall witness the beginning of the greatest real estate boom in history. Hundreds of thousands of people will work in Newark and New York and in summer live at seashore and country resorts 30 to 100 miles from the city, and commute daily as easily as via trains to-day.

## SOME ARE STILL HERE

August first brings forward the annual puzzle. Railroad statistics and the long auto lines stretching along highways leading almost anywhere have been proving for weeks that this year nearly everyone is taking a vacation. Many of our friends are away, scattered at the shore, country, or perhaps in Europe. Familiar clerks in stores are away. For weeks we have been hearing about people going away.

By August who could go must have gone. Yet Belleville was as crowded yesterday with pedestrians and autos as on any day of the year, except in the Christmas rush. No one, to look at the streets, appeared to have left town. Yet we know that a good-sized town could be made up of Bellevillites who are away. It is rather puzzling.

## The Voice of Others

**The Mysterious Genius**  
How they do it is a mystery to us but in almost every community there is some fellow who has the reputation of being very smart who has made a failure of everything he has tried to do.—Hillsboro News-Herald.

**We Can Do That Anyway**  
In view of our inability to do anything about the weather, perhaps the next best thing is to do something to the chump who's always reminding us of it.—Chicago News.

**The Harmless Nut**  
Pure ignorance, after all, is the best alloy for vanity, for a vain phool is quite harmless.—Josh Billings.

**Our Important Mail**  
Before you leave on your vacation give the postmaster your new address so that you will not miss the fun of reading your get-rich-quick letters.—Milwaukee Journal.

**Present Supply May Suffice**  
Just a few more laws and the National bird will be the jailbird.—Akron Beacon-Journal.

**Always Some Drawback**  
"One trouble about these darn backless dresses," remarked Miss Myrtilla, "is you stick to the back of the chair when you sit down."—Macdon Telegraph.

**Agent Loses It Too, Fortunately**  
Give an agent five minutes of your time when he asks for it and you have lost an hour and a half out of life.—Toledo Blade.

**Worse And More Of It.**  
"There are lots of people who do not know where their next check is coming from," avers a financial writer. Also there are lots with a strong suspicion that their last check is coming back.—Norfolk Ledger-Dispatch.

**An Elderly Girl**  
And then there is the local girl who recently had a birthday cake with so many candles on it that when they were lit the neighbors turned in the fire alarm thinking the house was on fire.—Augusta (Kans.) Gazette.

**The Exceptional Publicity Man**  
Every once in a while, says F. L. D., you see a publicity man who comes right out and admits that's what he is, instead of calling himself a director of public relations.—Kansas City Star.

**They're All Artistic**  
By golly, we like all the portraits on the new money.—Toledo Blade.

**No Place For Inhibitions**  
I don't know but a prude may possibly fall in love but, if they ever do, they won't know it.—Josh Billings.

**Science Reveals Startling Fact**  
Thanks to science, it is now possible to announce that the mosquito has only 22 teeth, after all.—Kansas City Star.

**This Is Woman's Day**  
A crowing hen and a cackling ruster are very misfortunate poultry in a family.—Josh Billings.

**Great Need Of The Times**  
Isn't there some sort of insect powder that will keep mosquitoes away from bare legs?—Toledo Blade

That advertising is mighty; it controls business. But as great and mighty as it is—with all its powers—it cannot bring bigger and better business to those who use its aid unless it is truthful and backed by quality.

Continuous newspaper advertising of quality brings wonderful results. Continuous advertising of substitutes of quality and untruthful advertising will make any business wither like the fragrant petals of the rose after a frost.

Continuous advertising of quality wins not only steady business, but makes new customers, good will and friendship.

Too much care cannot be taken in selecting places in which to spend your money. It is always best to trade with continuous advertisers. They can always serve you best, for what you really want is the best at the price you can afford to pay.

No person wants to buy something from a concern and then get something other than what they thought they were purchasing. Newspaper advertisements are guarantees by the dealers that the goods are as advertised.

Continuous newspaper advertising is an acid test of reliability. Continuous advertising could not get away with selling not-so-good merchandise.

Caution should prompt people not to swallow every "cock and bull" story in the hand-bills that they find on the front steps.

## Citizen Cites

If you play the game crooked you lose in the end. At first you may draw diamonds but at the last you are certain to draw clubs or spades.

Middle age in life is that period when your idea of getting ahead is staying even.

Speeches are made after dinner because when men have eaten plenty they are too torpid to resent old jokes.

The doctor is often your best friend in time of sickness, and only a distant acquaintance when bill paying time comes.

The floating population should always be able to keep its head above water.

We would never know how honest some people are if they didn't keep constantly telling us.

Real gratitude not only expresses thanks, but passes on kindnesses received.

Money can get a man into almost as much trouble as it can get him out of.

He who laughs last may be one of the first to be laughed at.

We are not always what we think we are, but as we think, so are we.

The man who aims to be popular should give more applause and less advice.

Your character is formed by the thoughts you habitually entertain.

About the only mark some people want to make in the world is the dollar mark.

## Relativity

The automobile is the means of judging the class superiority of the present day. When one wishes to explain the class standing of an individual one falls back on the concrete by saying—"Bill Jones has a Pierce-Arrow," meaning, of course, that the estimable Bill has mounted the ladder of class distinction to some considerable height.

Yet the ownership of a Pierce-Arrow is purely relative. What do I mean? Let me explain.

Draw a circle one half of an inch in diameter. You will say it is a small circle. Draw another circle one-quarter of an inch in diameter. Voila! That is smaller still. Then the one-half inch circle becomes a large one. Draw another circle one inch in diameter. That is a large circle in comparison to the two others which become small circles.

Then there are no big circles and no small circles but they are only big or small relatively or in relation to each other.

That's what is meant when it is propounded that the ownership of a Pierce-Arrow is purely relative. To possess such a car does not make the man who owns one feel the superiority which one would believe he should feel. It makes him feel bigger than the smaller circles but he always has to attain the size of the bigger circles.

EDWARD M. TAYLOR.

## Our Poets' Corner

**TRAFFIC SIGNALS**  
Do you always watch the SIGNAL  
When you wish to cross the street.  
Does it have for you a meaning  
It is there for you to greet.

When the RED LIGHT flashes DANGER,  
That means STOP. That means STAND STILL.

When the GREEN LIGHT MEETS your vision  
You may cross the street at will.

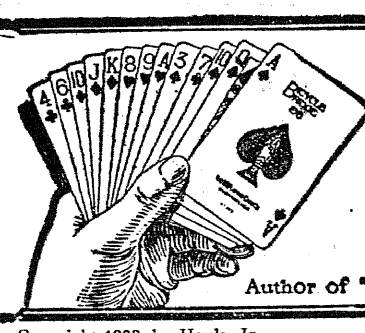

Friend, please stop and think a moment,  
As you rush along life's way.

'Tis for you these SIGNAL FLASHES  
Speak the silent word OBEY.  
TRAFFIC, has become a problem  
When we wish to cross the street.  
Danger waits at every crossing  
For a victim it may meet.

Then remember, WATCH THE SIGNAL,  
When you wish to cross the street.

See the RED LIGHT'S timely warning  
And the GREEN LIGHT gladly greet.

MYRON W. MORSE

## How to Play BRIDGE

Series 1928-29 by  
Wynne Ferguson

Author of "PRACTICAL AUCTION BRIDGE"

### ARTICLE No. 34

Attention has been called in these articles many times to the folly of bidding no trump with a hand just because it contains 100 aces. Every player loves to hold 100 aces and the logical bid usually is no trump; but if the hand contains a singleton the no trump usually is a dangerous bid. Here are two hands held the other night that illustrate the point very well:

Y : A 9 8 7 6 5 4 3 2  
Z : A K Q J 10 9 8 7 6 5 4 3 2

Hearts—A, 10, 9, 8, 4  
Clubs—A, J, 7  
Diamonds—A, J, 8, 5  
Spades—A

No score, rubber game. What should Z as dealer bid with the foregoing hand? Most players would bid one or two no trump and hope against hope that the opponents would not open the spade suit. In this particular case, however, Z happened to be a very fine player who figured that he would have a better chance for game at a suit bid than at no trump. He bid one heart. A bid one spade, Y bid four hearts and all passed. A opened the ten of diamonds. Y's hand was as follows:

Hearts—K, Q, J, 6, 3, 2  
Clubs—6, 2  
Diamonds—K, 4  
Spades—8, 4, 2

With a diamond opening, Y Z made a grand slam, as Z was able to discard one of Y's club on a good diamond. At no trump, however, with a spade opening, Y Z could have scored only four odd. At hearts the score was 56 for tricks, 50 for honors, 100 for the grand slam and 250 for rubber; a total of 456 points. At no trump, the score would have been 40 for tricks, 100 for honors, and 250 for rubber; a total of 390 points. The comparative scores thus show a balance of 66 points in favor of the suit bid.

The second hand was as follows:

Y : A 9 8 7 6 5 4 3 2  
Z : A K Q J 10 9 8 7 6 5 4 3 2

Hearts—A, 8, 7  
Clubs—A, 7, 6, 2  
Diamonds—A  
Spades—A, 9, 8, 5, 3

No score, rubber game. What should Z as dealer bid with the foregoing hand? Z should undoubtedly bid one spade in preference to one no trump. The singleton ace of diamonds is a danger point and should warn a player to avoid the no trump bid.

the actual play, however, Z bid one diamond suit and Y Z only made one odd, while at spades they could have scored an easy game.

At no trump, Y Z scored 10 for tricks and 100 for honors, a total of 110 points. At spades, they would have scored 36 for tricks, 30 for honors, and the rubber, worth 230 points; a total of 316 points—showing a point advantage of the suit over the no trump of 206 points. Be on the lookout for hands of this type and don't hesitate to bid the suit, even if you do hold 100 aces, when the hand contains a singleton.

Here is another hand that was played the same evening and caused considerable discussion:

Hearts—A, 9, 8, 5, 4  
Clubs—A, 5  
Diamonds—A, J, 10, 9, 7, 3 : A : Y :  
Spades—none : Z : B :  
No score, rubber game. If Z dealt and bid one spade, what should A do? With a two-suit hand as strong as this, A should certainly bid two diamonds over the spade bid and then on the second round, show the hearts. Bid in this way, partner should know that A has a two-suiter and that the diamond suit is the longer. Otherwise A would have bid the hearts on the first round.

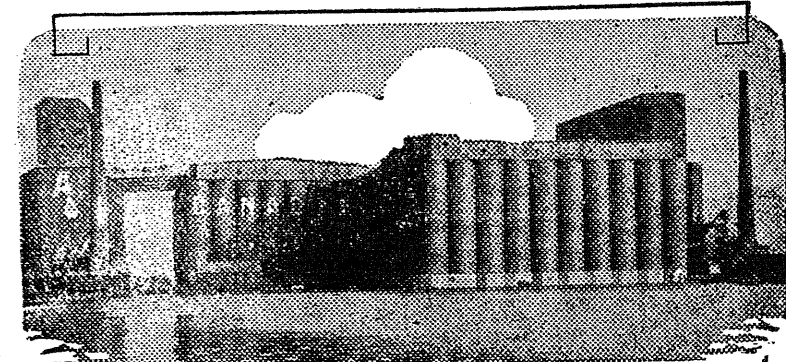

It is a very valuable and common sense rule to bid the longer of two suits at the first opportunity as it enables your partner to decide much more accurately which of the two suits offers the better chance for game.

In the actual play of this hand, however, A doubled one spade. An informative double with a two-suited hand of this type is very bad procedure, and turned out so in this instance. Y passed and B, with three suits of three cards each and four spades to the queen, bid one no trump.

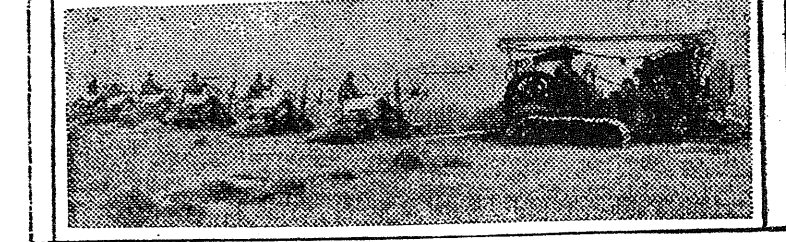

Z passed and A had another chance to get the right bid but figured (wrongly, of course) that if B had the spades, they should easily score game. A passed, therefore, and Z opened the four of spades. Y won the trick with the king and returned the nine which held the trick. Y then led a low spade and thus enabled Z, who held the ace jack, to pick up B's queen.

As a result, Y Z made five spade tricks and thus saved game. At diamonds or hearts A B had an easy game so A's informative double was very costly. Don't double with a two-suit hand of this type. Show both suits, if possible, and that, for, your partner point and should warn a player to avoid the no trump bid.

## Co-Operative Wheat Pool Expands Its Grain Marketing Facilities

WHEAT POOL ELEVATOR ON GREAT LAKES

REAPING GOLDEN GRAIN

WINNIPEG, MAN.—When the three provincial wheat pools of Western Canada have completed their 1929 building programs, 1,608 grain elevators will be operated in the wheat belt. Saskatchewan will have the greater number, 1,055 being its share, with 390 in Alberta and 163 in Manitoba, according to a bulletin by the Department of Colonization and Development of the Canadian Pacific railway.

The elevators put an immense storage capacity under the control of the pools, which are owned and operated by the farmers themselves, says the bulletin. "The elevators will have, at shipping points, a capacity of from 30,000 to 45,000 bushels each."

"The building program of the Saskatchewan Pool calls for the erection of eighty-one elevators this year, made up of twenty-seven at new points, each with 35,000 bushels capacity, second elevators at thirty-one points with a capacity of 45,000 bushels each, and twenty-three old houses to be torn down and rebuilt."

"In Alberta and Manitoba, the construction will be mostly at new points. Alberta will erect seventy-two elevators and Manitoba twenty. The building programs will result in the erection of 173 new elevators in the Prairie Provinces this year. They will all be under the control of the co-operative grain organizations. The pools control great terminal elevators at the head of the Great Lakes. From a handful of farmers organized a few years ago to market their grain, the wheat pools have developed into one of the largest co-operative farm organizations in existence."

## Nutley Socials

Mrs. Gilbert R. Livingston and daughter, Miss Fay Livingston, of Nutley avenue left last week for Carmel, N. Y., to remain until the end of the month. Robert Livingston will leave soon to spend a vacation at Third Lake in the Adirondacks.

Theodore Thomas of Rutgers place has returned after a six-week trip to Panama and South America. He will go to Sandwich, Mass., to join his mother and brother, Mrs. Herman Thomas and Philip Thomas.

Miss Ruth Libby of Chestnut street is home from Babylon, Long Island.

Mr. and Mrs. Arthur Dickinson of Vreeland avenue will leave soon on a trip to Nova Scotia.

Archibald Coe of Walnut street is home from Martha's Vineyard.

Mrs. Rudolph Weyrich of Maple place left last week for Sound Beach, to be a guest two weeks of Mr. and Mrs. Claude H. Ritch.

Mr. and Mrs. Howard L. Olcott and family of Raymond avenue is at Madison, Conn., to stay at Dolly Madison Inn until after Labor Day.

Mr. and Mrs. Charles H. Lawrence of Mountain View avenue entertained Thursday night at dinner. Their guests were Mr. and Mrs. F. B. Coons, Miss Evelyn Coons and Mrs. N. F. Cornwell of South Orange.

Mrs. J. M. Quigley of Washington avenue was hostess Thursday at a luncheon-bridge in honor of her guests, Mrs. H. N. Allavaugh and Mrs. William B. Moyer of Perkasie, Pa. The party included Mrs. Arthur Madge, Mrs. Howard Ferris, Mrs. Leonard Pikaart, Mrs. Ashley Waller, Mrs. Vincent Hoehn, Mrs. Clifford George, Mrs. Franklin Grege and Mrs. Albert Meyers, of Nutley, and Mrs. Wilfred Lindstrom of Oradell.

Mr. and Mrs. Walter Lotham of 94 New Nutley avenue are spending the remainder of the month at West Bay Inn, Osterville, Cape Cod.

Mr. and Mrs. Ernest Pulsford of Vreeland avenue had as guest this week, Mr. Pulsford's sister, Miss J. A. Pulsford of South Orange.

Miss Kate Lambert of Highfield lane has returned from Cutchogue, Long Island, where she was a guest at the summer home of Mrs. Kurt Moebius of Whitford avenue.

Harold Burrell, son of Major and Mrs. H. P. Burrell of Highfield lane has returned from a stay of ten days at the scout camp at Montauk, Long Island.

Van Dyke MacBride of North road spent the week-end with his family at Shandaken, N. Y.

Mrs. David Munroe of Portland, Ore., who has been visiting friends in Virginia several weeks, returned last week to the Kingsley House.

Mrs. Mary Kingsley and daughter, Miss Winifred Kingsley, of Whitford avenue have returned from a motor trip to Montreal.

Mr. and Mrs. Peter Ausberger and daughters, Elizabeth and Mary Isabel, of Brookfield avenue left Saturday morning to spend two weeks at Lakewood.

Dr. and Mrs. Horace Tatum and children of Rutgers place are spending the remainder of the season at Ocean Grove.

Mr. and Mrs. Benjamin Colwell of Prospect street entertained at dinner Friday night in honor of Mrs. Colwell's parents, Mr. and Mrs. William T. Bather, also of Prospect street, who returned recently from abroad.

John Russell Losee of Franklin avenue is spending his vacation at Lake Sunapee, N. H., where he is a guest at the summer home of Mr. and Mrs. G. H. Kingsley of Bogota.

Mrs. Louise Barnes of Erie place has left for a stay of two weeks at Marlboro, Vt.

Mrs. George Fitting, Miss Christine Fitting and Charles Fitting of Chestnut street and Miss Indiola Ellinger of Newark, left recently for a stay of two weeks at Lake George.

Mrs. J. C. Ross of Nutley avenue is a guest of her daughter and granddaughter, Mrs. Eugene S. Bisbee and Mrs. Edward W. Nelson of Scarsdale, two weeks. Another daughter, Mrs. Howard Pendleton of Nutley avenue will leave soon for Pine Island, Orange County, N. Y.

Douglas Tucker and Charles Hudson of Chestnut street has left for Camp Demarest. Those returning from the camp recently are Robert Parr of Melvina street, and Robert Rhoades of Chestnut street.

Julia Stadyk, who has been a guest of Miss Jean Bowden of Hillside avenue a week, returned recently to her home in Jersey City.

A. V. Bugbee and sons, Alfred and Walter, of Chestnut street, have left for a two weeks' camping trip at Hamanaset Beach, Conn.

Mr. and Mrs. J. M. Quickley of Washington avenue entertained at bridge Saturday evening for their guests, Mr. and Mrs. H. M. Allavaugh and Mr. and Mrs. William P. Moyer of Perkasie, Pa. Other guests were Mr. and Mrs. Clifford George and Mr. and Mrs. Ashley Waller of Nutley.

Mrs. J. A. D. Wyckoff of 106 Union avenue returned Saturday from Seaside Heights, where she has been spending the summer with her children, Elsie and Jack.

Dr. and Mrs. George B. Philhower of Grant avenue entertained at dinner Thursday night for Dr. Carl Gray of Tusculum, Tenn. Dr. Gray is president of the Tusculum University.

Mr. and Mrs. Stephen Dorr of Satterthwaite avenue will move the end of the month to Murray Hill. Mr. and Mrs. Richard Carmel of Satterthwaite avenue have purchased the Dorr house.

The Misses Mallaby of the Enclosure will leave soon for a two weeks' stay in Toronto.

Mrs. John Headdon and Miss Laura Underwood of Rutgers place, who have been guests of their brother-in-law and sister, Mr. and Mrs. Seward Davis, at Shelter Island, have left for Erie, Pa., to visit their niece, Mrs. John C. Anderson.

Mrs. D. Anthony Usina of Satterthwaite avenue is expected home soon from Europe.

Mrs. E. E. Bush of Chestnut street is spending two months at Thirteenth Lake Lodge in the Adirondacks.

Miss Helen Cumming of Sylvan place has returned from Kew Gardens, where she was a guest of Miss Mary Davis.

Mr. and Mrs. W. H. Jefferay of Chestnut street have returned from Spottford, N. H. William Jefferay returned yesterday after spending the summer at camp there.

Mrs. Horace Tatum and daughter Catherine of Rutgers place have returned from Philadelphia, where they visited Mrs. Tatum's parents, Mr. and Mrs. I. W. Merrill.

Miss Ruth Parker of Howard street is at Natick, Conn., where she is a guest at the summer home of Mr. and Mrs. Earl McAllister of the Enclosure.

Mr. and Mrs. H. Bargfrede of Melrose street have had as guests Mrs. Bargfrede's niece, Miss Gladys Tatz of Syracuse.

Mr. and Mrs. Frederick Steck and son of Ridge road are spending a vacation at their cottage at Lake Estling.

Mrs. J. W. Russell of Melrose street had as guests over the week-end her son and daughter-in-law, Mr. and Mrs. C. E. Russell of New York.

Mr. and Mrs. F. D. Mizer of Cathedral avenue entertained Friday night for their son Frederick, who observed his eighteenth birthday. Guests were the Misses Helen Ahern Doris Evans, Ethel, Elsie and Ann Mizer and Martha Hackett of Newark and Elger Cueman, Paul Zoerner, Jack Evans and Clarence and Edward Daniels. Table decorations were pink and white. There were games and dancing.

Carl Royce of Satterthwaite avenue returned Monday from a two weeks' vacation at West Hampton, Long Island. Miss Nancy Royce is at Lake Waramaug for two weeks.

The Misses Mallaby of the Enclosure left this week for Toronto where they will be guests at the home of Miss Henrietta Packer.

Mrs. John B. Taylor Jr., of Brookfield avenue and Mrs. Donald Taylor and daughter Patricia of Rutgers place are home from Eagle Lake, N. Y.

Mr. and Mrs. A. P. Hoyt returned Saturday to the Kingsley House after a three weeks' fishing trip in Canada.

Mr. and Mrs. Arthur P. Dickinson of Vreeland avenue left Monday for a stay of two weeks in Nova Scotia. Mr. and Mrs. Allen Shaw of Hillside avenue returned Sunday from a short stay at Peconic Manor Inn.

Norman MacDonald, son of Mr. and Mrs. N. A. MacDonald of Grant avenue, is in St. Mary's Hospital, Passaic, where he recently underwent an operation for appendicitis.

Stanley Richardson of Kingsland road is at Camp Demarest for two weeks.

Paul Rigo of Highfield lane left Saturday to join his family in Maine.

Miss Barbara Eville of Rutgers place spent the week-end at Belle Island, Conn.

Mrs. William Bodge and Mrs. Florence Martell of Whitford avenue left this week for Boston. From there, Mrs. Bodge will go to Bailey's Island, Me., and Mrs. Martell to North Reading, Mass. Mr. and Mrs. Kingsley Martell of Springfield, Mass., are visiting Mr. Martell's aunt, Miss Winifred Kingsley.

The Misses Mary and Jessie King Feland of the Enclosure and Miss Jeannette Quinby of Cathedral avenue are at Lavalletta.

Mr. and Mrs. Ernest Bickell of Lansdowne place have as guest Mr. Bickell's sister, Miss Beryl Bickell of Toronto.

Mr. and Mrs. Gustav Dahlberg of Vreeland avenue will leave shortly for a stay of two weeks at Sag Harbor, Long Island.

Mr. and Mrs. Leonard Pikaart and family of Montclair avenue are spending the week at Oxford, N. Y.

Mr. and Mrs. Harry Carland and Miss Betty Carland of Highfield lane spent the week-end at Lake Waramaug, Conn.

Kenneth Sharp, son of Mr. and Mrs. Edwin Sharp of Satterthwaite avenue, returned Monday night from a week's stay at Hingham, Mass.

Mr. and Mrs. Charles E. McCarthy of Elm place are home after spending several days at Sound Beach, in Connecticut.

Joy O'Neill and Thomas J. O'Neill, 3d, children of Mr. and Mrs. T. J. O'Neill of Elm place, returned Monday after spending the summer at camp. Joy was at Pathfinders' Lodge and Thomas at Camp Chenango, Coopers-town, N. Y.

Mr. and Mrs. Jackson B. Hayden of Passaic avenue left Monday for Sacó, Me., where they will be guests of Mrs. Hayden's parents, Mr. and Mrs. Frank Rowe, until after Labor Day.

Mr. and Mrs. Hartley C. Humphrey of Burnett place returned Monday from a two-week motor trip through Rhode Island and the White Mountains.

Mr. and Mrs. Arthur Downes of Whitford avenue have returned from an automobile trip to Cleveland and Buffalo.

Mr. and Mrs. Sheridan Knowles of South Orange were guests over the week-end of Mr. Knowles' parents, Mr. and Mrs. James A. Knowles, of Burnett place.

J. T. Hancock of Vreeland avenue is spending a week with his mother, Mrs. J. T. Hancock at Manasquan.

Theodore S. Newman of Chestnut street announces the engagement of his daughter, Miss Beatrice G. Newman, to Frederick J. Moyle, son of Mrs. Beatrice Moyle of Spring street.

## Paris Adopts Pointed Seamings

Pointed seamings have become very popular in Paris this season, perhaps because they give such a nice excuse for decorative notes on the surface of a frock that wants to remain rather tailored. Each couturier has his or her own method of using a style point effectively.

Vionnet has always advocated simplicity and is sponsoring it even through this current upheaval of femininity. Stressing seamings, she achieves chic through subtle cut, and novel treatment of the diagonal lines of the front of the dress, and by the use of the flattering scarf collar that adds a relieving note to an otherwise severe tailleur. As in the majority of the season's street frock the belt raises the waistline. For street wear this frock is very smart made of novelty tweed or kasha, and for those who prefer dressier fabrics printed crepe is the thing.

## On With The Show

By ARLINE DE HAAS

Copyright 1929, Warner Bros. Pictures, Inc.

"ON WITH THE SHOW," is the first 100% natural color, Vitaphone picture. It is a Warner Bros. picturization of this novel.

### SYNOPSIS

"Welcome Home," a musical comedy trying out on the road, is stranded. Willie Durant, the financial backer, is friendly with Nita French, the star, but, strangely enough, refuses to put up any more money. Behind Nita's back he is attentive to Kitty, the check room girl with stage aspirations, and has induced her father, "Dad" Malone, stage doorman and one-time actor, and Jimmy, head usher and Kitty's sweetheart, to invest all their savings in the piece. It is Saturday night just before the show, and the actors are looking for salaries.

### CHAPTER II—Continued.

"Good evening, ladies," Dad rose and bowed solemnly. He limped over to the key rack, took down a dressing room key, sorted out the mail, and presented the key to the girls. "Think the ghost will walk to night, Dad," inquired one startled red-haired young woman. "Yes, is Durant around here . . . Well, I want to see Jerry, if you ask me . . . I'll be glad when I'm out of this bust." Still talking the girls made their way down the long hall and up the flight of winding stairs to their dressing room.

"Dad" Malone sat down in his chair and sighed wearily. A little worried frown crept between his eyes. So everybody thought this show was a bust. But he believed in it with all his heart. He had even wanted a piece of it and had been more than willing to risk everything at the urgings of Durant. He had put every available penny he had into the venture. Perhaps he had taken the very roof from over his Kitty's head. He shuddered.

Then once more he was on his feet as two brown-haired, red-lipped girls each the exact replica of the other, swung in the door. Dressed alike, made up alike, acting alike. It was more than difficult, even impossible, to distinguish between Betty Dorsey and her twin sister, Berta. In fact, the dancing twins thought alike, for in the most disconcerting manner each had the habit of finishing the other's sentences.

"Good evening, ladies," Dad bowed and reached for the key, at the same time handing them several letters from their mail box.

"Make mine vanilla," piped up one twin, although for the sake of his life Dad couldn't have told whether it was Berta or Betty.

"Fish seldom perspire," flipped the second twin, and with a flash of silk-stockinged legs they had vanished around the corner to their dressing room.

"Too blamed fresh, both of them," Malone scratched his head, still looking after the disappearing forms.

"Say, is my laundry back yet?" Dad turned quickly to greet the comedian of the show, Joe Beaton, who was one of the most pessimistic pests when not playing a role. His lank form was enveloped in a huge, heavy coat that for all practical purposes might have been worn at the North Pole. His wide mouth looked as though someone in a careless moment had slit a gash across his face with a sharp knife.

"Good evening, sir," Dad returned. "No, I haven't seen your laundry."

"Well, where is it?" Beaton moaned. "Fine state of affairs when a gentleman can't get his laundry. Most terrible engagement I ever played. No light in my dressing room, never any hot water, never get paid. The sooner we close in this bust the better I'll like it."

"Well, I won't," Dad declared vehemently. "If this show falls my next home will be over the hill."

"Yeh, it's bad enough to have to go to the poor house let alone climb a hill to get there," Beaton returned sourly. "But anybody who puts money in a flea circus like this deserves to go to the poor house." He paused, noting the worried look on Dad's face. "Oh, forget it, Dad, everything will be all right. My public will support the show. People will come to see a comedian like me in anything."

He took his key from the rack and twirling it in his fingers, disappeared. Dad seated himself once more in his chair, attempting to analyze the painful situation. He saluted, as Jerry Connolly, manager for "Welcome Home" hurried past with a brusque nod and a "Hello, Dad."

Jerry, too, bore a look of uneasiness. His otherwise genial face seemed careworn and disturbed by worry. He stepped quickly through the wings onto the stage that had by this time begun to assume the appearance of a good old Mississippi levee. He stopped, his feet set wide apart, his hands thrust into his pockets, and glanced nervously about.

All set, Pete?" he called to the carpenter.

"Yes, sir, O. K. in just a minute."

"Say, if you see anybody looking for me, Pete, tell 'em I've gone to Jericho, or any other likely place you can think of." Jerry hastened across the stage and disappeared into the opposite wings.

"Are we late, Pete?" the fluttering voice of one of the Dorsey twins shrilled.

"Slide and you'll make it," Pete answered sharply.

"Go sit on a tack," came the unfeeling rejoinder from the second twin.

"You Dorsey sisters is jus' about de sweetest goils in de show, ain't you?"

"Go sit on a tack," the first twin ordered.

"Tink up a new one," Pete turned his back in an effort to portray disgust.

"Aw, go sit on a tack," came simultaneously from both twins as they scurried across the stage again.

"What chanet has a good clean guy got in dis racket?" Pete shook his head sadly. "Get goin'." He turned suddenly on the crew. "You're hired to shove dat scenery, not lean on it."

"Has Jerry come in yet?"

Pete whirled about to face a young man, make-up towel in hand, vigorously applying grease paint to his face. Harold Astor, the juvenile lead, looked harassed and worn, and his brown eyes were troubled.

"Lissen, Harold, Jerry's got enough worries wit'out lissenin' to you actors sob." Pete thrust out his chin belligerently. "What's eatin' you now?"

"Money; I haven't been paid!"

"Well, what makes you think you are any exception, pretty boy?" The voice of Beaton interrupted the juvenile. "I got worse troubles than that. Listen, Pete, I can't get any air in my dressing room."

"Well, if you're astin me, I'd suggest writin' a letter to Beatrice Fairfax about it," Pete grinned.

"You're not funny," Beaton retorted.

"Neither are you," Pete came back at him quickly. "Mebbe dat's what's wrong wit' de show."

"Oh, go and cut yourself some paper dolls," Beaton growled, and turned away.

"But really, Pete," Harold began again, "I've got to have some money. My case is different. I'm frantic with worry."

"Yeh, you're one of them eatin' actors, I suppose. What do ya want me to do? Hol' your hand?"

Harold turned on his heel and stepped across the stage, registering pain, sorrow and indignation.

(To be continued)

## "Drag" Is Second Barthelmess' Talkie

"Drag" the new First National Vitaphone feature starring Richard Barthelmess, which comes to the Capitol Theatre on Monday and Tuesday, is the second Vitaphone feature with dialogue and sound in which Barthelmess has appeared.

The first was "Weary River," which became an instantaneous hit throughout the country and is still breaking records everywhere. It thoroughly established Barthelmess as a speaking star of the first rank and made him one of the most brilliant box-office stars on the cinema firmament.

"Drag" presents the star in a dramatic narrative concerning a young, ambitious newspaperman who goes to a small town to edit the local weekly paper. While there he falls in love with a girl and after marrying he finds himself supporting a whole family of parasitic "in-laws." He composes a musical show called "The Love Prince" for the local Women's Guild; its success encourages him to go to New York, sell his play, and find that happiness which so eluded him in the small town.

The story of "Drag" is based on the novel by William Dudley Pelley and was directed by Frank Lloyd, who also made "Weary River." The supporting cast is headed by Lila Lee, Alice Day, Katherine Ward, Margaret Fielding, Lucian Littlefield and Tom Dugan. "Drag" is a hundred percent all-talking picture.

Mr. and Mrs. Peter J. Daly of 492 Mill street, parents of Town Clerk John Daly, left Tuesday on a motor trip to Waterford, N. Y. They will visit Mrs. Thomas Dumphy, a niece of Mrs. Daly and are expected back today.

## Belleville American Legion Nine Trounces Hawthorne Spartans 13--2

Behind a fine, six-hit twirling performance turned in by Jimmie Mallack in his first mound start with the locals, the local Legion nine had an easy time of it trouncing the Hawthorne Spartans to the tune of 13-2 at Clearman Field on Saturday afternoon.

The visitors were never in it with the Bell-boys, who amassed a collection of no less than twenty safe wallops of various dimensions, getting at least one hit per inning and every man in the line-up accounting for at least one bingle.

After Jimmie Mallack had whiffed two of the first three batters to face him in the initial canto, the Lawlor men got right after Kline, Spartan moundsman, to dent the rubber seven times on four smashes. Jimmie Mallack's long homer to right, his first of the day, with one on, added spice to the heavy run-scoring in this chucker. Several misplays on the part of the Hawthornes also figured heavily in the scoring in this round.

### This Whirl Of Sport By Arthur Bloemeke

In their decisive win on Saturday the local Legion nine showed something that it has not shown in such striking fashion in previous tilts. This something is the happy faculty of combining good fielding and hard hitting with a good mound performance.

A lone misplay with several brilliant stops and catches embellishing their splendid work suffices in speaking of their fielding, while any team that can slam out twenty clean bingles, including a trio of homers need not worry on the batting score. The effective hurling was attended to by Jimmie Mallack and the way he performed his task was a tonic for the many fans who witnessed the game. He allowed a meagre six hits besides fanning nine of the visiting batsmen.

Not content with his splendid twirling Jimmie also garnered the slugging honors hitting a pair of homers, a feat that was performed for the first time at the local ball-yard.

According to batting averages compiled a week ago, the hard-hitting Capitols are slugging away in the League at a great .382 gait to easily lead the rest of the teams in this department.

Every regular on the team is hitting well over the .300 mark with the exception of Joe Flynn, who is a few points below the coveted average.

Jimmie Dunleavy is leading this fine array of sluggers with an almost unbelievably high average of .558. He has also collected the most hits, 24; Gelschen has the runner-up position with a splendid .485 mark for rival players to shoot at.

Jim Mallack is third. He has slugged out 22 hits, the second highest in the League, for a .449 mark. John Mallack comes next in line, twenty hits being his allotment giving him a fine .417 average, while the rest of the members of the line-up follow these leaders at various points above the .300 mark.

Their fielding has been equally good and we look for the Caps to take the rest of their League games to be the Belleville Legion League's first pennant winner.

Although St. Peters seem to be the only League team to have a look-in with the Capitols to win the pennant, the remainder of the teams in the League are certainly engaging in a great battle for a higher position than that which they now occupy. Thursday's victory for the Bachelor's over St. Anthony only served to tighten up the situation in the battle for third place. The triumph placed the Bachelors in a tie with the Bell-Nuts for fourth place and moved the St. Anthony nine further down the League ladder. They are now holding the third place position by an extremely scant margin.

The Bachelors' victory over the St. Anthony team was gained at the expense of the St. Anthony's best team, which will represent the Saints for the remainder of the season. Johnnie Lawlor, who toed the rubber in the league for the first time in months was a complete puzzle to the St. Anthony's who were held scoreless for the first six frames under the spell of his wizardry. Although he eased up in the seventh to allow the Saints to score a useless three runs, Johnnie's twirling was one of the year's best League mound performances.

After retiring the visitors in order in the first two frames, Mallack eased up in the third and the Hawthornes tallied twice on three hits to avert the whitewash brush. Doubled by G. Paxton and Kline were the big blows of this rally.

For the next six frames Mallack fed the losers a diet of goose eggs, while his teammates were busily employed in slugging out a huge margin.

After four bingles had been wasted in the second, third, and fourth innings, the locals set to work in earnest in the fifth on Kline. Singles by Lilori, Jim Mallack and Dunn, coupled with a double by Gelschen, a pass to Carragher and a Spartan error allowed the locals to register four times to increase their margin.

The sixth and seventh frames were productive of one run apiece for the Bell-boys to close their day's scoring at a mere thirteen tallies. In the sixth Dunleavy came through with his first hit of the game, a Ruthian swat to deep right good for an easy tour of the bases.

In the seventh Jimmie Mallack's big bat again belched forth its fire. This time he clouted the pill far over the center-fielder's head for his second home run of the tilt. It was a big day for Jimmie and he fully deserved the big round of applause he received as he cantered across the plate with the locals' thirteenth and final marker.

After Kearney had singled in the same canto, Dunleavy almost duplicated Mallack's feat with a long double far over the left center field fence that missed being his second homer by inches. Both runners were stranded as Johnnie Mallack's smash to center was gathered in by Keiser.

Successive singles by Gelschen and Jimmie Mallack, their third and fourth respectively of the day, failed to produce any tallies in the eighth as they were left on base.

Jim Mallack, with two homers and a brace of singles, Lilori, who garnered four consecutive singles, Gelschen, who collected a pair of singles and a double and Dunleavy with his homer and double were the chief agents in bringing in the easy victory, while John Mallack and Lilori were the fielding demons.

The Paxton brothers with four safe wallops between them were the individual stars for the Spartans.

## Hoople Club and Vets Plan Field Day with Baseball Game

A field day and baseball game are to be held by the Hoople Club and the Veterans of Foreign Wars at Riviera Park, September 8. The grand finale will be a baseball game between the Hoople Club and the Vets.

## Panthers Defeat Marne Cubs, 15-11

In a free-hitting contest marked by no fewer than five home run smashes the Belleville Panthers chalked up their sixteenth victory of the season with a classic 15-11 victory over the Marne Cubs of Newark at Branch Brook Park, Sunday.

After some heavy hitting on the part of both sides had fixed the score at 9-6 in the losers' favor at the beginning of the sixth the Panthers promptly tied the score with a three run rally in the their half of the inning. Byrnes' triple featured this rally.

Both teams were held scoreless in the seventh and in the eighth the Panthers kept pace with the Cubs matching the two runs they got in this canto to increase the score to 11 all.

The Panthers were not to be stopped, however, and in their half of the ninth unleashed a home run barrage that easily sewed up the game for them.

In this round Bloemeke got a homer to start with, Byrnes singled and promptly scored ahead of Murphy on his swat to left good for four bases. D. Lamb then closed the scoring with another four-bagger to center.

Byrnes, McCarthy, Murphy and D. Lamb each got three hits to lead the Panthers' eighteen hit attack. Cochran and Forech hit homers for the losers.

## Bachelors Defeat St. Anthony Nine

Lawlor and Loesner Feature  
Belleville American  
Legion Contest

The Bachelors handed the St. Anthony tossers a 6 to 3 setback Thursday night in a Belleville American Legion League Game at Clearman Field.

Johnny Lawlor shut out the Saints with only four hits for the six frames but eased up in the seventh. Snell, St. Anthony ace, was hit hard by the Bachelor batsmen, eight hits at opportune moments spelling his downfall.

Loesner's three hits, including a double, featured the Bachelor's attack. Dunn ran him a close second with a brace of timely smashes. Julian and Snell had two wallops each for the losers.

## Louis Perez Scores Sensational Knockout

Louis Kid Perez, the well known Cuban fighting star, scored a knockout over Bobby Marks of Perth Amboy last Monday night in the Highlands A. A. Louis showed that he has a terrific punch and he sure used it when it took him only 30 seconds to put "Bobby" asleep. The bout was an 8-round semi-final. Both boys weighed 135 pounds.

In the 10-round main bout Billy White, the New Jersey welterweight contender, scored a 3 round knockout victory over Roy McMahon from New York. White weighed 146 and Roy 141 pounds.

Billy and Louis are under the management of the well known Jersey City sportsman, Lawrence Steierman. The Cuban will fight again August 29, in New York. His opponent has not been selected just yet.

## Parks Bow To St. Peters For The Fourth Time, 4--1

In a game marked by some airtight twirling by "Ral" Flynn, St. Peter mound ace, St. Peters were hardly extended in taking the tail-end Parks in camp by a 4-1 score in a Legion league contest, Monday.

Flynn was in unbeatable form getting no less than twelve Park batters on strikes, to hang up a new League record. For the first four cantos, one scratch single was the sum total of the Park's batting while nine of a possible twelve of their number cut the ozone for the third strike.

With his teammates piling up a sufficient four-run margin for him to work on, "Ral" eased up in the sixth and two hits coupled with a pair of passes permitted the Parks to enter the run column for the first and final time of the evening.

Joe Paul, Flynn's opponent on the hillock was also in rare form, holding the hard-hitting Saints to six hits. Wengel, however, proved the thorn in his side, banging out a trio of safe smashes, half of his team's total, to account for three of his side's four tallies.

After being blanked in the first, Curran opened the St. Peter half of the second by working Paul for a free ticket and moved up on a Park error of Comiskey's grounder. A wild pitch advanced both runners, who scored a moment later on Wengel's first bingle, a wicked liner to left.

After "Ral" had given a remarkable mound performance in the first two frames by retiring the side on strikes in both innings, the Catholic boys added another tally in the third on Button's hard triple to right center, scoring Carragher who had been hit by a pitched ball.

Their fourth and final run of the game was produced by the Saints in the next stanza on singles by Wengel and Sullivan sandwiched in with an error by the usually reliable Vogel.

In their half of the sixth the Parks evaded the whitewash brush with a lone marker. Reeves walked as a starter and moved all the way to third on Lawson's single to left center. Cavallo, next up, drew another pass to fill the bases with none out. "Ral" rose to the heights, however, and fanned Travers and Murphy in quick succession. Paul, the next batter was not as easy, and on the hit and run play Reeves scored on Paul's timely bingle to right. Lawson also attempted to score on the hit but a fast relay, Sullivan to Wengel to Buttons, cut him down in a close play.

Mitschke collected a pair of bingles to shine with the stick for the losers.

## Capitols Eke Out 8- Win Over Bachelors

Two Home Runs By Dunleavy Feature Twilight Contest

In a free-hitting contest featured by two successive home runs by Jimmie Dunleavy, slugger de luxe of the Capitols, the Bachelors dropped a hard-fought 8-7 tussle to the league-leading "Caps" on Tuesday.

"Jimmie" Mallack, who toed the rubber for the losers, got off to a shaky start in the first when six safe wallops gave the hustling Bachelors five runs and an early lead.

Fitzpatrick started the onslaught with a nice bunt down the third base line, which he beat out. Parcells sacrificed him to second from whence he scored on Lawlor's slashing single to left center.

After Loesner had strolled Connelly came through with another safe wallop to left scoring Lawlor. Clark's Texas Leaguer along the right field foul line added a third marker, after which Gebhardt cleared the sacks with a whistling double to center, bringing the Bachelor total to five.

"Tom" Byrnes, Bachelor hurler, flashed brilliant form for the first two rounds twirling hitless and runless ball, although three passes got him into hot water in the second.

The "Caps" got to him, however, in the third for three runs on as many hits. "Joe" Flynn started things with a single to left, advanced on a passed ball and tallied on Johnnie Mallack's hefty single to center. Dunleavy then strode up to the plate caught one to his fancy and lambasted it over the center field fence for a tour of the bases, scoring Johnnie Mallack ahead of him. After that blow Byrnes momentarily lost his control and passed three Capitols batters with two out, but he rose to the occasion by striking out the next batter with the bases clogged.

The "Caps" were not to be denied though, and promptly knocked Byrnes out of the box in the next round, while tallying four times. Johnnie Mallack's second single of the game with two on added one marker. Jimmie Dunleavy took care of the rest with his second successive homer over the distant center field fence. He trailed Tommie Dunn and Johnnie Mallack across the rubber.

Following his poor first round Jimmie Mallack suddenly recovered his usual brilliant form and retired the Bachelors in order for the next three rounds.

Lawlor's single, a fielder's choice, and a single to left by Clark finally broke the ice in the fifth to give the Bachelors a lone tally.

In the sixth Fitzpatrick singled to right center and moved to third on Purcell's safe wallop to right. They then worked a double steal that allowed Fitzpatrick to cross the plate with the tying marker.

In the "Caps" half Jim Mallack singled and reached second on Schessler's perfect sacrifice. A timely single to right by Jimmie Dunn scored Mallack with the winning marker a moment later to end the contest.

John Mallack, with three consecutive singles and brother Jim, with a pair of hits in as many official trips to the platter, starred at bat for the winners, while Jimmie Dunn starred afield.

Fitzpatrick, Lawlor and Clark each got a pair of base hits to feature the Bachelors' attack.
