MAYOR AND COMMISSIONER CLARK FROWN ON CHANGE

The appointment of a new tax assessor, to take the place of James L. Davidson who has held office since September 1929, did not materialize at the formal session of the Commissioners in the Town Hall Tuesday night, although Commissioner William H. Williams seemed determined on making a change.

At the conference in the afternoon, the name of John F. Coogan Jr. was mentioned but Mayor Kenworthy and Commissioner William H. Clark would not agree that a new assessor was necessary.

Commissioner Williams brought the matter up by suggesting an ordinance change which would pay the assessor \$4,500 a year instead of the present salary of \$3,000.

Year's Probation

He supplemented this with the plan to introduce a resolution appointing Mr. Coogan as acting assessor for a period of one year at a salary of \$250 a month until such time as the board felt he was entitled to full pay under the terms of the proposed new ordinance.

Mayor Kenworthy and Commissioner Clark, the only two members of the board present at the conference besides Commissioner Williams, were unwilling to see the change take place, however, and said they could not see why a new man, without experience, should get the job at a salary higher than Assessor Davidson was now receiving.

What He's Worth

The discussion took several turns, but was marked by absence of unruly argument. Commissioner Williams said that he was consistent with business and to pay a man what he was worth, that the best results were always obtained under this policy.

Declaring that he did not want to discuss personalities, Mr. Williams expressed dissatisfaction with the way assessments had been made. He said, "I am responsible for the efficiency of the department. I believe that, as the Department of Revenue, where I am related to the Board and to the public, that I should give the public the best interest to the

BREAK GROUND FOR GYMNASIUM

Project Being Advanced By Italian Baptist Church and Rev. Pascale, Pastor

TO ADJOIN THE PLAYGROUND

Ground was broken Sunday for the new gymnasium which is to adjoin the Friendly playground in the Silver Lake section. Speakers were Herman Forg, vice-president of the New Jersey Baptist convention; Franklin Scene and Roy Allen of Bloomfield; Louis Scoiber of Newark, and Mayor Samuel S. Kenworthy.

Twenty-four of the 250 present autographed the shovel with which the Mayor broke the ground. The choir of the First Italian Baptist Church sang and Professor Pascale of Newark, brother of Rev. Benedetto Pascale, led the brass band.

At the official opening of the playground Monday, Rev. Pascale urged the children to play fair and to love and respect the directors. 200 boys and girls took advantage of the playground the first day.

About to Be Married, Miss Van Buskirk Passes Away

Funeral services were held at 8 o'clock last night at her late home for Miss Dorothy Gwendolyn Van Buskirk of 351 DeWitt avenue, who died Sunday night of peritonitis following appendicitis at the Homeopathic Hospital, East Orange.

Burial will take place at 9 o'clock this morning at Rockaway Cemetery, Rockaway. The Rev. O. Bell Close of Fewsmith Presbyterian Church will conduct the services.

Miss Van Buskirk, who was twenty years old, had lived in

Belleville for six years. She was engaged to be married in September to Frederick Eberhard, Jr. of 234 Union avenue. She was born in Newark and had been employed there recently by the Mutual Benefit Life Insurance Company.

Surviving Miss Van Buskirk are her mother, Mrs. Ella Van Buskirk, and two brothers, George and Andrew, all of the DeWitt avenue address; also two sisters, Mrs. Robert Wright of Brighton avenue, Orange, and Mrs. John May of Bloomfield.

Miss Van Buskirk had been ill for a week. She was a member of Fewsmith Church.

Gift Given Rev. E. J. Field at the Close of Silver Jubilee

The proverbial generosity of the people of St. Peter's parish was strikingly manifested during the silver jubilee of the Rev. E. J. Field, their pastor, June 23 to 25. Monday, June 23, the mass of Thanksgiving which was offered by the Jubilarian assisted by Rev. W. B. Masterson and T. J. Callery, was a source of spiritual inspiration.

The entrance of the prelates and priests of the attending societies of interest to a large number of visitors from local and distant parishes, and the assurance of the parishioners, verified in several solos of the choir.

A sermon, preached by the Rt. Reverend John J. Tierney, of Mt. St. Mary's College, was a source of spiritual inspiration. The kernel of eloquence and simplicity of treatment with the appreciation of the professor for a number of years of scholarship in college and seminary.

Present Play

The children of the parish presented "Tokens of Appreciation" to Father Field and his family, filled with Catholic adoration. The presentation was presided over by the generous little artists who were with the

spoke of the guest of honor as the neighbor, gentleman and priest.

Charles Gliese of Jersey City and Joseph O'Toole of Newark were the male vocalists. John A. Breen, one of the trustees of the church, spoke in the name of the parishioners and attributed the financial and material success of the parish to the sagacious leadership of Father Field. The freedom of St. Peter's from all financial obligations was the key to the presentation of a check for \$2,500 to the Jubilarian in the name of his friends and his parishioners.

Refreshments and dancing followed the presentation and "Old Home Night" closed the most impressive celebration in the history of old St. Peter's. Father Field, in his usual gracious way, expressed his gratitude to the committee and to his friends, and paid tribute to the loyalty of the parishioners.

Here's Instant Relief From Bunion Pains and Soft Corns

Actually Reduces the Swelling—Soft Corns Dry Right Up and Can Be Picked Off

Get a two-ounce bottle of Moone's Emerald Oil (full strength) today. Every well-stocked druggist has this, and it will reduce the inflammation, soreness, and pain much quicker than any remedy you ever used.

Your bunions may be so swollen and inflamed that you think you can't go another step. Your shoes may feel as if they are cutting right into the flesh. You feel sick all over with the pain and torture and pray for quick relief. What's to be done?

Two or three applications of Moone's Emerald Oil and in fifteen minutes all the pain and soreness disappears. A few more applications at regular intervals and the swelling reduces.

And as for soft corns, a few applications each night at bed time and they just seem to shrivel right up and scale off.

Druggists guarantee Moone's Emerald Oil to end your foot troubles or money back.

LEAVES SCENE OF ACCIDENT, THEN LEAVES HIS LICENSE

The driving license of Elmer Dunn, of 65 Delevan avenue, Newark, was suspended for six months and he was fined \$10 when arraigned in traffic court Wednesday night, last week, before Recorder George A. Fitzsimmons, where he was charged with leaving the scene of an accident. His car struck the rear end of a car driven by James E. Martin of 291 Waverly avenue, Newark, in Washington avenue June 22.

Recorder Fitzsimmons in the same session assessed a \$10 fine against Nicholas di Pasquale of 177 Adelaide street, charged with improper parking. He had previously been fined \$2 on similar charges.

Fred Kuhn of 34 East Twentieth street, East Orange, had his license suspended for thirty days for passing a red light.

NEW JERSEY BANKERS PLAN TRENTON STATE CONFERENCE

The second annual conference of New Jersey trust companies will be held in the Stacy-Trent Hotel, Trenton, November 13 and 14. This announcement has been made by Leslie G. McDouall, associate trust officer of the Fidelity Union Trust Company, Newark, chairman of the committee on trust matters, New Jersey Bankers Association.

This announcement is in line with the policy of the committee to take these meetings to the various large cities of the State. The first meeting was held in Newark last year at the Robert Treat Hotel, with an attendance of 200 presidents and trust officers of New Jersey banks, and was brought about at the request of the president of the New Jersey Bankers Association in view of the growing importance of trust business in the State.

THREE YOUTHS INJURED IN VERONA SMASH-UP

Three Belleville youths were treated at Mountside Hospital in Montclair last Thursday night for injuries received in an automobile collision at Bloomfield and Pleasant avenues, Verona, in which their driver, Mitchell Carchio, also of Belleville, escaped unhurt.

Carchio told police his car was forced to the left side of the road by another car, causing him to collide with a third car, driven by Benton Steck of Rockaway Neck.

The victims were Frank Zicaro, twenty-four, of 244 Belmont avenue, Silver Lake, a caddy at the Green Brook Country Club, who suffered lacerations of the left groin, and a cut in the left shoulder from which a piece of glass was removed; Anthony Lombardo, nineteen, of 21 Maple avenue, Silver Lake, lacerated right elbow, strained right arm and lacerations of the body; and Anthony DeCocco, sixteen, of 25 North Eighth street, Silver Lake, lacerations of both eyes.

The injured youths were taken to the hospitals by friends. After receiving treatment they were taken home.

Canton Water Clock

The water float or clepsydra used in Canton dates back some 500 years and has been destroyed and rebuilt many times. It is composed of three copper vessels placed one above the other on steplike platforms. In the bottom vessel is a float with an indicator scale passing through it, which, as the water fills the lower vessel, rises and shows the time.

SOCIAL SERVICE BUREAU, PLACE TO SEEK HELP

Executive Secretary Says Bureau Is Well Equipped To Give Service

TELLS OF BRIDGEPORT BOY WHO RAN AWAY FROM HOME

Miss Bertha Kline, executive secretary of the Social Service Bureau, said in an interview Monday that the bureau stands ready at all times to give assistance to those in need of its services. It is well equipped for this purpose and in a position to judge the real need of the individual. She voiced her opinion that a resident who has already contributed to the community budget should not be called upon for personal aid in cases where the bureau could be of help.

Recently a young man was referred to the bureau's office for assistance in securing work. After talking with him a few minutes, Miss Kline learned that his home was in Bridgeport, Conn. His family was communicated with through the Social Service Bureau of Bridgeport and it was found he had run away from home.

He was not mentally equipped to hold a position and arrangements were made to return him to his relatives, who were able and willing to care for him.

This is only one incident out of many which illustrate the wisdom of referring those in need of help to the bureau instead of soliciting aid privately, Miss Kline says.

FRAUDULENT STOCK ISSUES

A warning against fraudulent brokers and promoters who are offering stock in foreign Ford motor companies was issued today by the Better Business Bureau of Detroit, in conjunction with the National Better Business Bureau and affiliated offices throughout the United States and Canada.

Relying on the goodwill and integrity of the Ford name, thousands of persons throughout the country have purchased stocks which either turned out to be spurious or were not delivered at all, the warning said. There is no way of estimating the financial loss involved.

MRS. RUSSO DIES AFTER ACCIDENT

Struck Saturday By Car Driven By Eighteen-Year-Old Youth

FUNERAL HELD THIS MORNING

Funeral services for Mrs. Vincenzo Russo, forty-eight, of 71 Eugene place, who died in the Newark General Hospital Sunday night as the result of injuries suffered when struck by an automobile near her home Saturday, will be held from her late home this morning and St. Anthony's Church, Silver Lake. Burial will follow in Sacred Heart Cemetery, Bloomfield.

Mrs. Russo was crossing Franklin street at Eugene place when a car driven by Vincent Squaterito, eighteen, of 101 Franklin street, struck her. She was taken to the hospital where at first it was reported she had suffered nothing more serious than a fractured leg, but internal injuries added to this caused her death.

To Arrange Bail

Squaterito was arraigned Monday before Recorder George A. Fitzsimmons, who held him on a technical charge of manslaughter. He was turned over to the office of the prosecutor to arrange bail.

Mrs. Russo was a resident of Belleville eleven years and had previously lived in Newark and Montclair. She was born in Italy. Surviving her are her husband, six daughters and three sons. The latter three, Anthony, James and Louis, and their four sisters, Minnie, Rose, Tessie and Julia all live at the home address. The two married daughters are Mrs. Carmine Celso and Mrs. Salvatore Cataldo, both of Newark.

GIRL SCOUTS OF TROOP 7 ON INDIAN POINT OUTING

Twelve girl scouts went on the outing of Troop 7 up the Hudson to Indian Point Saturday, in charge of their captain Mrs. Lorena Clark of Arlington.

The troop held its last meeting of the season Tuesday, June 24. Dolores Sauvan and Dallerie Donnelly were acclaimed as the two girls who have done the most for Troop 7 and for scouting during the year.

They were also the only ones to receive their first class badges at the final rally. They will be given the choice of some article of scout equipment or a special outing.

The two girls in the troop who have the most merit badges are Edith Ferguson and Irene White. They have received first class badges and are now working for the golden eagle.

Mrs. Clark is leaving this week for her summer place in Pequannock where she will be until the latter part of September. She expects to have all of the girls in her troop as guests at different times.

Areme Chapter, O. E. S.

Areme Chapter, O. E. S., will go on a picnic to the Eastern Star home at Bernardsville Saturday, July 12. Buses will leave the Masonic Temple at 1:30. Everyone is welcome. For information call Mrs. Ellen Davis of Tappan avenue or Mrs. Mary Price of Malone avenue.

FIRST HEARING ON FARE JUMP, SEPTEMBER 23

The State Board of Public Utility Commissioners has suspended for three months from July 14, the new rate schedule filed by Public Service Coordinated Transport and has set September 23 as the date of the first hearing on the company's application.

The schedule presented to the Board on June 23, calls for a rate of ten cents cash, four tokens for twenty-five cents on both cars and buses, and is necessitated, according to a statement made to the Board by Edmund W. Wakelee, the company's vice-president in charge of law, by the failure of the present rate of ten cents cash, ten tokens for fifty cents to provide sufficient revenue.

At Tuesday's hearing Edward A. Tuson, the company's general auditor, testified that five months' operations under present rates have resulted in a decrease in revenues amounting to \$1,510,893.57, as compared to revenues for the corresponding months of 1929, trolley operation showing a decrease of \$881,766.38 and bus operation \$629,127.19. Revenues for May 1930, were \$455,544.69 less than those for May 1929.

The five months' operation under the present rate resulted in a deficit of \$766,337.64, as compared to a surplus of \$204,390.67 for the corresponding five months of 1929.

Del Guercio, Contractor, Free Under \$2,500 Bail To Appear In Circuit Court

CHARGE IS RAZOR ATTACK

Arrested by Deputy Sheriff D. D. Strobe of Newark on a capias last Wednesday in a \$25,000 civil suit, the outcome of an alleged razor attack upon Mrs. Esther Ott of 141 Stephen street, James Del Guercio, contractor, of 151 Washington avenue, was held in \$2,500 bail for appearance in Circuit Court, Newark.

Del Guercio surrendered to the police in North Arlington three weeks ago and, according to the police, admitted slashing Mrs. Ott with a mounted safety razor blade, when she sought to have him cease his attentions toward her. The old water tower just north of the Belleville Pike on River road, North Arlington, was the scene of the alleged attack.

After being committed to jail in Hackensack to await a charge of atrocious assault and battery, Del Guercio furnished bail, pending trial. Bail in the civil suit was also furnished and he was released.

Women's Relief Corps

At the meeting of the Henry Vreeland Post, Women's Relief Corps, last Thursday night, Mrs. Florence Rahm won the dark horse. A social hour followed.

From the Latin

"When at Rome do as the Romans do" comes from the Latin. St. Ambrose is quoted as saying, "if you are in Rome, live in the Roman style; if you are elsewhere live as they live elsewhere." In Cervantes' "Don Quixote" it is put like this: "When you are at Rome do as you see."

SAFE ESCORT

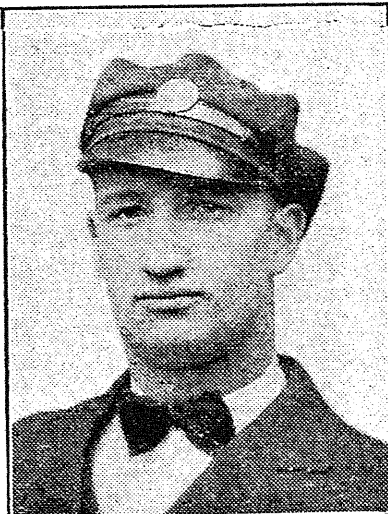

DE CAMP DEPENDABILITY

DE CAMP drivers have special instructions for escorting children with trustworthy attention. Many DeCamp patrons are sending their children alone, with the DeCamp driver, to and from New York. The youthful passenger is met at the Herald Square Bus Station, or at your own corner. The confidence of parents in the DeCamp organization is typical of the goodwill that has been built through three generations of DeCamp Service.

A BUS IS NO BETTER THAN ITS DRIVER

Leave Belleville, daily, Washington and Belleville Avenues, 7.55, 8.00, 8.15, 8.30, 8.45 a. m., then every 15 minutes on the hour, 15, 30 and 45 minutes after the hour until 11.30 p. m.

Leave New York, daily, Herald Square Bus Station, 36th Street and 6th Avenue, for Belleville 8.45 a. m., and every 15 minutes until 12.30 a. m.

Davis-Tallman Nuptial Held Saturday, Fewsmith Church

The wedding of Miss Marjorie Hackbarth Tallman, daughter of Mr. and Mrs. Edgar Louis Tallman of Adelaide street to Arthur William Davis, son of Mrs. Minnie C. Davis of Bremond street, took place at 4 p. m. Saturday in the Fewsmith Presbyterian Church. Dr. O. Bell Close performed the ceremony and Mrs. Abbie C. Niederbuehl, chaplain of the Grand Lodge, Eastern Star of New Jersey, gave a prayer.

The church was decorated with palms, ferns, lilies and baby's breath. The bride was given in marriage by her father. Her sister, Miss Jean Olga Tallman, was maid of honor and her four year old cousin, Clair Wickham Tallman of Ridgefield Park was the flower girl.

RELATIVES PARTICIPATE

Another cousin, of the same place, Miss Dorothy Lois Tallman, was the soloist. Irving Roger, a cousin of the groom, was best man, and the bride's cousins, Herbert Logan Tallman and Kenneth F. Hackbarth, were ushers.

The bride's attendants and the soloist were presented with crystal beads and the best man and ushers with leather wallets. Mrs. James Moore of Bremond street, church organist, played the wedding march and accompaniments.

The bride's gown was of rose beige chiffon and she wore a horse-hair hat, moire silk slippers and mitts to match. She carried a shower bouquet of Talisman roses. Her sister was dressed in green lace net with matching slippers, hat and mitts and carried a shower bouquet of pink roses.

THE FLOWER GIRL

The flower girl's frock was of pale pink chiffon and she carried

a basket of large pink roses, scattering the petals as she walked down the aisle to the altar.

Mrs. Davis was attired in blue flowered chiffon with matching hat, stockings and shoes and Mrs. Tallman wore a honeydew lace dress and hat with egg shell slippers and gloves. The soloist's gown was green and coral.

W. H. WILLIAMS ASKS INCREASE FOR ASSESSOR

(Continued from Page One.)

us all by submitting data to cur-tail the annual interest charges of \$40,000 for the \$700,000 sewer costs which have not been assessed for the past fourteen years.

"This interest is a gross waste of the taxpayers' money, involving the expenditure of more than \$500,000, and is all due to inefficiency during the past fourteen years in running the business of the town. I want to make those assessments and save this money for the taxpayers."

Would Save \$10,000

Mr. Williams was discussing the assessments for sewer work, done fourteen years ago, which have not

yet been charged to the property owners, so that the town is still paying interest on the bonds. By assessing taxpayers for this work, the interest would be paid by them and the town would save \$40,000 a year, Mr. Williams declared.

He wanted a new assessor to carry out this program and that the latter eventually should be given a salary that would be commensurate with his standard of living and the dignity of the office.

Mayor Kenworthy said that the present assessor was satisfied with the salary of \$3,000 and was willing to continue at his post.

"Best in History"

He said "Mr. Davidson is the best tax assessor that we have ever had in the history of Belleville and if he is willing to stay on at the salary he is getting now I personally see no reason why we should pay a new, inexperienced man, more money."

Commissioner Williams argued that the assessorship carried considerable responsibility and that the man who discharged the duties of that office should be given remuneration in proportion. He said that other town employees were receiving a higher salary than they deserved. The Mayor agreed with him.

Commissioner Williams also

charged that Mr. Davidson had, before election, been promised higher salary. Mayor Kenworthy denied that he had any knowledge of such a promise and when Commissioner Williams asked point blank, if he did not know of such an assurance to the assessor, the Mayor said, "I did not. I never made any such promise myself."

Commissioner Williams repeatedly asked if the Mayor or Commissioner Clark had any recommendations to make. After several negative replies, the Mayor finally suggested that the appointment of a new man be made for one year only with the same emolument as that of the present assessor. If, after that, the Board felt a higher salary was suitable, it would be reasonable to raise the salary.

"Not So Sure"

Commissioner Williams acquiesced to this proposition declaring that it was almost identical with the discussion he had with Town Counsel John B. Brown, but he did not introduce the necessary resolution at the formal meeting.

When he was asked, after the meeting, if he was determined to appoint Mr. Coogan, he said, "I not so sure."

Mr. Coogan is in the real estate business at 471 Washington avenue and lives on Malone avenue. He served with the 101st Marine Corps during the World War and is thirty-two years old.

Assessor Davidson is forty-four years old and is a retired builder being a former partner of Freeholder Joseph King. He lives at 263 Joralemon street. He was appointed last September to take the place of W. George Hunt, who resigned.

Here and There

By Harry Metz

This past week has been one of the most exciting weeks of baseball since the Legion League started. Thursday night's game between the Bell-Nuts and the Belleville A. was a well played game. Friday night's game in which St. Peter's emerged victorious over the Bell-Nuts was a humdinger, and Saturday night witnessed another game when the Bachelors defeated the Bell-Nuts. As far as interest goes probably the most exciting game was the Bell-Nuts-Bell-Nuts affair. There were some plays which cropped up in this game which were more spectacular than any we have seen.

It was a far better game than the average one played at Greater Newark stadium, home of the Newark Bears.

We don't want to be too stubborn but we still claim that St. Peter's did not defeat the Bell-Nuts the other night. The score should certainly be a tie. Umpire Derbyshire's decision when he called Kearney out at home didn't even look legal. About twenty-five fans came to us after the game (some of them St. Peter's rooters) and all held the opinion that the ruling was not in the books.

The American Legion nine which performs on Saturdays is certainly putting a bang-up brand of ball. Three victories in three starts is their record and if any team can do better than that they have to paddle. The situation is just the reverse from last season when the Legion nine lost three of their first four games.

After watching the Saturday afternoon games one has to admit that the Elks have a good team. A week ago Saturday only seven regulars were on the field. But they won the game. It seems that these Elks have a spirit which says "never say die."

Every Saturday victory so far, the locals have spotted opposing teams several runs in the first inning, but they always come through in the final innings. A good share of the credit for these victories should go to Manager

Johnny Lawlor. He has his men playing heady baseball and he has wisely picked most of the Elks players for the team because he realizes that they work together.

Interest in the Junior League is reaching a high pitch. The Clintons are leading the race, but one slip-up by the "Welshmen" and the Cardinals or St. Anthony Jrs. could tie them. If the Clintons get by Saturday's game with St. Anthony's it means they have a big edge on the latter, but they still have a couple of games with the Cardinals.

These Clinton-Cardinal games remind one of the Brooklyn-Giant feuds. Every time you see the Giants play Brooklyn there is action galore and the same can be said for the Clintons and the Cardinals.

We would not dare to make any

prediction on the outcome of the series. If we did, Danny I who manages the Cardinals, Hugh Welsh, the John McGraw the Clintons, would have our

"God" will be the subject of lesson-sermon in all Churches of Christ, Scientist, on Sunday, July 6, 1930.

The Golden Text is: "Thus saith the Lord the King of Israel, and his redeemer the Lord of hosts; I am the first and I am the last; and beside me there is no God" (Isaiah 44:6).

Among the citations which comprise the lesson-sermon is the following from the Bible: "I am the Lord: that is my name: and my glory will I not give to another, neither my praise to graven images" (Isaiah 42:8).

HOW THE CYCLE WORKS

If you buy out of town, and your friends buy out of town, and your neighbors all buy out of town--what happens to this town? You want your streets well paved. You want good schools, attractive parks, and good playgrounds for your children but these things are not entirely possible if support is not thrown to the local merchant

and business man who takes such an active part in helping to make this town a fine place to live. He works through the service clubs and his influence is felt through the Board of Commissioners in a way that is not possible with the individual resident. Support him and he will help to make Belleville one of the leading towns of the state.

WHO'S TO BUY THESE DOLLAR BOOKS?

Dollar books have been front page news for several weeks, or at least on the front of the book sections. If you have forgotten it already several mass-production publishers recently shot the book market to pieces by announcing that their new issues—not reprints—were to sell for a dollar instead of \$2.50, the recent average fiction price. That leads us to wonder who buys all the books. Thanks to free public libraries, circulating libraries and magazines it is possible for anybody to get all the fiction he possibly can read for very little or nothing, not to mention the fact that your friends and acquaintances will lend you books when they won't trust you with an umbrella. Anybody who will bother to observe the homes of his friends, especially apartment dwellers, will find most of them almost bookless. No, No, we're not discussing the wealthy or the erudite, just plain old or young John Citizen and his wife and kids. If they buy books or if their friends give them books what becomes of them? Why aren't they visible among the mass of magazines and newspapers that are in plain sight all the time in every household?

JUST A PART OF A GAME

Almost everybody agrees that the veteran's bill is pretty vicious legislation and both houses of Congress are excoriated for their part in passing it. The exclamation "thank God we have a president to veto such bills," is frequent. But let's not forget that we, the voters, are the ones who encourage Congressmen and Senators to use such legislation as moves in a game to get re-elected. No matter how low an opinion we hold of our legislators it is impossible to think that they would have approved many of the bills vetoed by Wilson and Coolidge if they had not been sure of a veto.

To vote for bad legislation because it will please an organized minority, with the assurance that a presidential veto will make it nothing more than a gesture is one thing. To know that such a vote will really cause vicious legislation to go into effect is another. We simply can't believe that our representatives would have approved the veteran's bill if they knew they must face responsibility for its effects.

CASH FROM A NEW SOCIAL HABIT

The day before yesterday the American Tobacco Company split its stock two for one and declared an extra cash dividend of \$4 a share. Newspaper advertising and smoking by women are given as reasons for the most prosperous year in the company's history. This prosperity has been so evident for a long time that it calls for no comment, but that it is due largely to a new social habit is interesting. What starts such changes? Why does a taboo disappear? Why does it suddenly become smart for women to do something they never cared to do before and which was considered immoral if they did do it? What possible importance is there in such a trivial thing? Why is it that people can differ so sharply on a matter so trivial? Why do those who bitterly oppose women smoking regard it as so important? As far as we are concerned these questions are all quite unanswerable.

THE HOLDING COMPANY

During the last few years the holding company has come in for a great deal of discussion, particularly in its relation to the electric industry.

As a matter of fact, an appreciable part of the progress made by public utilities is directly traceable to the holding company. It provided a means of getting credit on a large scale for new construction and expansion. It led in the development of better business and engineering practices. It was able to employ a type of executive beyond the means of small, isolated companies. It was necessary to the inauguration of the era of mass production and distribution of power by which better service is provided a larger number of people at lower costs.

The holding company is not peculiar to the electric industry. In the telephone, automobile and other businesses it has been an important factor. It is not an experiment or a theory, but an established, time-proven success.

Without the benefits made possible by large scale operation, finance and management we could not have the high standard of electric service common today both in great cities and in small towns.

Will Rogers Picks A Story For This Spot

THE Worst Joke I heard today was told to me by Mr. Edward K. Titus, Jr., of the Brooklyn Eagle. Well, this old Titus Boy, I runs myself into him away up in Warsaw, Russia. He comes a-sauntering in there, trying to find out something about this Pilsudski for the Brooklyn Eagle. Lord knows how the Eagle ever heard of Pilsudski, but then he was there

and he and I and Floyd Gibbons, the Chicago Tribune's Star man, and Dennewitz of the New York Times, why we all went out to the races. They have some hot races in Warsaw and we had a pretty good time of it. None of us ever saw Pilsudski. He had it in for all American Newspaper men. That should not have barred him from seeing me, however. Well, here is one direct from the Brooklyn Eagle. A colored Lady answered an advertisement as a Laundress. She was as black as a coal but she had children with her of every description in the rainbow, black, yellow, high brown. "Why, say, are these children all yours?"

"Yes, ma'am, they is all mine."

"But they are all different colors."

"Yas'm, you see it's like this. My first husband he was black like me; the second one was kinder brown, and then I decided for the next I would prefer Blondes."

Painter Gave Prospective Customers Sketch of House To Increase His Business

Showed Owner How Home Would Look With Brand New Paint Dress

WAS CAREFUL TO INCLUDE WOMEN IN CONFERENCES

New buildings, homes and warehouses, schools, churches, farm buildings, are always painted just as soon as the other craftsmen have completed their work. Why? To protect and to beautify, and to put the new structure in a dress which will cause it to take its rightful place in the surroundings. This applies not only to buildings having exterior wood surfaces, but to stucco and cement exteriors, to steel bridges, lamp standards, telegraph poles, traffic signals, and even fences.

Why is it that this doctrine does not apply with equal force with respect to re-painting of surfaces? Officials of railroad companies and those of other corporations, who are charged with the responsibility of protecting vast properties, have a regular schedule of repainting. They realize that there is true economy in the timely use of paint. But many individual property owners do not have the same appreciation for the value of regular repainting.

Realizing this, one up-to-date paint contractor sought to create business by inspecting the houses which needed re-painting. He examined the surfaces, made detail notes of places where the paint was no longer providing the protection for which it was applied, prepared a typewritten report and sent it to the owner with a request for an opportunity to go over the property with the owner. This painter secured some good contracts.

INCLUDES THE FEMININE

But, he noticed that many owners who seemed to have plenty of money to spend for other and less important things were not impressed with the necessity of re-painting as a means of checking deterioration, or they would plead

lack of funds or some other reason for deferring action. As an experiment, the painter added a sketch service to his selling equipment.

Instead of sending the typed report on the need for repainting for protection, he took it to the owner, usually in the early evening, and after going over the property to impress the owner, at the right time the painter produced a water color sketch of the house as it would look after re-painting.

He was careful to bring the lady of the house into the discussion, something that could not be done so well with the first plan. What happened? Well the sales have increased many fold, and the new business created, much of it thus taken out of the realm of competition, has more than repaid for the effort, the time spent in making surveys and the cost of the sketches.

We have to use modern merchandising methods to create paint business these days, but it can be done.

MULCH NEEDED TO KEEP SOIL IN CONDITION

Extension Service Speaker Tells What May Be Done To Prevent Baking

PEAT MOSS OR ASPHALT PAPER ARE RECOMMENDED

Flower beds must be cultivated or mulched to keep the soil in proper condition for the best growth, adviser A. C. McLean, of the New Jersey Agricultural Extension Service. The chief reasons for cultivation, he explains, are to control weeds and keep the soil surface loose to prevent baking. A baked soil cannot be penetrated by air, which is needed by the roots as well as by the tops of plants.

"The old theory that cultivation conserves moisture has largely been exploded by recess investigations, which have shown that evaporation is as great from a cultivated soil as it is from an uncultivated one," McLean asserts. "The home gardener will find that mulching is probably the easiest way to keep the soil in good condition for the best growth of plants."

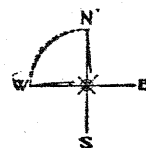

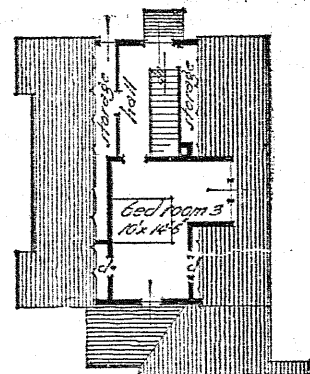

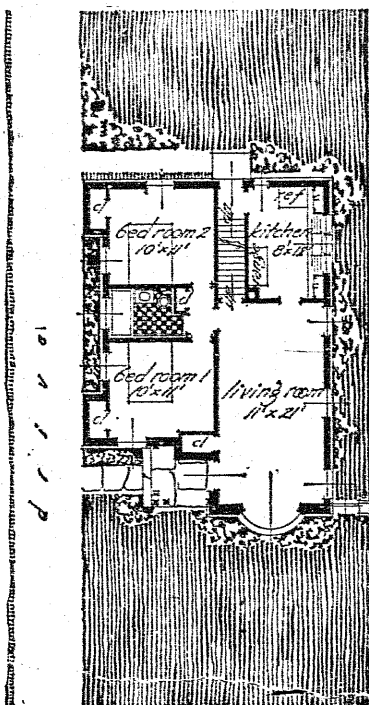

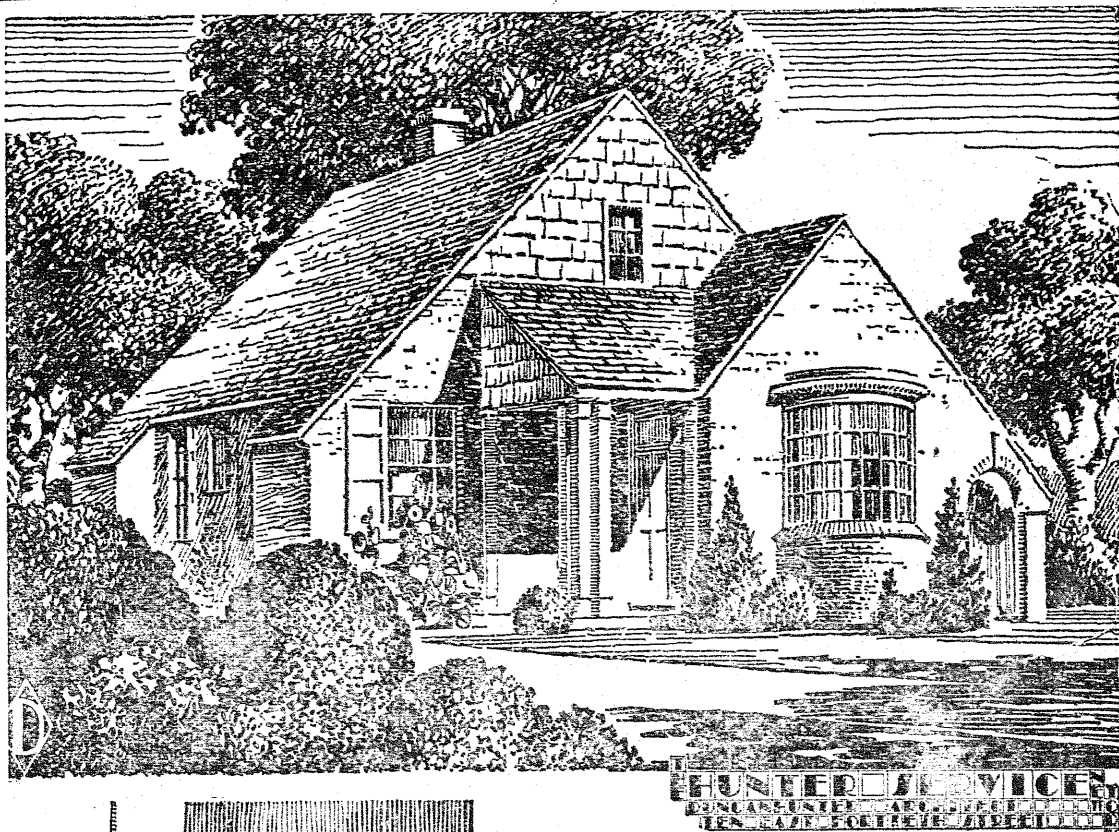

"One of the best of the mulching materials is peat moss, which should be put on now, if surface weeds have been destroyed. This material is reasonable in price, and is a good soil conditioner when dug in after it is no longer needed as mulch. For plants which require a large amount of lime, mix one handful of ground limestone to one bushel of peat moss. Lawn clippings or almost any vegetable material also may be used. Do not use sawdust, however, as it might slow up the growth of some plants."

"Another satisfactory mulching material is asphalt paper, cut in small pieces. This is rather difficult to hold down, unless well stapled to the soil with wire. Use staples that are at least ten inches long. Mulching annuals or perennials in the home flower garden saves a considerable amount of work in the hot summer when the ground will bake unless mulched or well cultivated."

THE SALEM

The early American cottages of New England are charming in their domestic simplicity, their quaint home-like and livable appearance has been admired for generations. To capture this old quality of charm and to incorporate it in a modern American is the problem. To begin, we must understand and appreciate the essentials; what must be retained, what rejected or modified, the general mass and the quaint details can be saved but, the plan must be livable. It must show plenty of windows of such size as to insure good light and ventilation and the rooms must be well laid out to save waste steps also good clear ceiling heights must be arranged. The kitchen and the bath room must be the last word in modern appointments. The Salem is a compact house that is economical to build and attractive in appearance. The exterior shows the low hung roofs of the old New England cottages, while the entrance porch, the curved bay window and the garden gate are details that run true to form. Within all is efficient and practical. The combined living-dining room and almost no hall makes for economy. The extra bedroom on the second floor serves as an over-mow, a play room or a study. Basement: laundry, heater space, etc. First floor: living-dining room, coat closet, kitchen, two bedrooms and bath. Second floor: one bedroom and storage space. Ceiling heights: basement, seven feet; first floor, eight feet; second floor, eight feet. Exposure: the plans as shown are for a lot facing south or west.

HOUSE H-131

For a lot facing north or east the plans should be reversed.

Lot size: house frontage, twenty-six feet; side clearance, left eight feet, right four feet; lot frontage, minimum, thirty-eight feet.

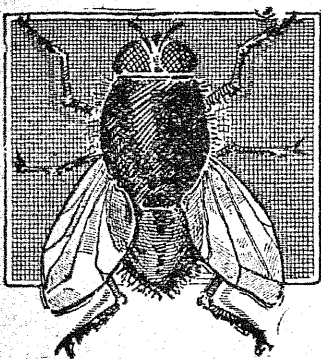

Construction: front wall of brick, other walls frame with stucco finish; roof, shingles; foundation, concrete; windows, double hung, with shutters; doors, wood, to special details.

Interiors: floors, wood; walls, plaster; ceilings, plaster; kitchen, composition tile; bath room, tile; steam heat, gas and electric wiring.

Cubiture, 14,000 cubic feet. Approximate cost, \$6,600.

WHITE PAINT ON SCREENS INSURES PORCH PRIVACY

As soon as the warm weather ceases it is a good plan to put the house and porch screens in good condition for next season. Paint on the wooden frames and the wire itself will do this. After a season of exposure to sun, wind and rain, if put away without repairs and reconditioning next spring may find the screening rusted and the wood warped. Incidentally, painting will improve

the appearance of the screens a hundred per cent, in addition to prolonging their usefulness.

A thin coating of white paint on the wire netting of screens makes it difficult for outsiders to see through to the inside of porch or house. This is a good point to keep in mind. Make a note of this when you put in your screens.

NEREID CAPTURES KEAN TROPHY

Wins All But Eight Oared Event In Saturday Regatta

Every Race Close With None Finishing More Than Length Apart

PRESIDENT'S CUP WON BY ACTIVE BOAT CLUB

With the exception of the eight-oared shell event, which did not count in points for the perpetual point trophy, the Nereid Boat Club crews raced every shell to victory in their dual meet with the Active Boat Club of Edgewater on the Belleville course Saturday.

One after another — starting with Stan Goodrich's decisive score in the singles — the local oarsmen fought five shells across the finish line ahead of the fighting Active's crews. Every race was a real fight, presenting spectacular finishes, much to the pleasure of the roaring fans who filled the stands. When the shadows lengthened on the calming course the Nereids had concluded one of their most successful regattas, retaining possession of the Hamilton F. Kean point trophy for another year.

ALL CLOSE RACES

Not one race finished with open water between the boats, although Goodrich had his race well in hand and crossed the line at a comparatively low beat, using that individual stroke which looks so promising to Coach Menne who intends to develop Stan into a single sculler of the first water. Stan stands six feet three and weighs 175 pounds.

The locals' second victory came in the double shells, a half mile sprint which provided not only the sport contestants with much to worry about but also the rooters. The red-headed stroke man of the Active double left the gun with a drive, and at the quarter mark the Nereid double, lifted along under the well co-ordinated strokes of Hardman and Stanianar had their hands full to keep bow and bow with the Actives.

THE LAST SPURT

The two silken-decked splinters did not before the hectic strokes that the Nereid double burst across the line with a half length lead covering their course and holding it, rowing at four seconds.

Ralph and Fred Van Dyne, first year men at the rowing club, took their novice double gig race after gaining a lead half way down the course and holding it; rowing at top speed and hard pressed by the Actives.

REVAMPED QUAD WINS

The revamped Nereid Quad, stroked by Rhoades with Jack Hicks at 3, Ken Hardman at 2 and Dalphond at bow, paddled up to the mile mark to go against a well boated, powerful Active crew; stroked by the former international canoe champion and three determined lads who put up a terrific fight in this event.

The Quad, perhaps the prettiest in the regatta, started holding the lead more than usual, but the mile grind, the battle on hand, decided to spend the last of the race over the line.

Forty-five members of each lodge were present. The affair was in charge of the entertainment committee, of which John

a length ahead, just four minutes and thirty-five seconds after the starter's gun fired.

NOVICE A THRILLER

The novice quad with Karrer in the bow, Shriver at 3, Goodrich at 2 and stroked by Walter McLaughlin won their race in 4:42, with the Active quad's bow piece opposite the Nereid's washbox on the forward deck—the closest race of the afternoon.

The feature open event, the senior singles, went to Janeczek of the New Bohemians, with A. O. Wirth of the Vikings second and Leo Menne third. Leo, brother of "Uncle" Frank Menne of the Nereid camp hails from the Nassau Boat Club on the Harlem.

Wirth led in this race but stopped at the wrong stand; giving Janeczek, who placed second to Myers, national champion on Decoration day, the opportunity to drive his shell over to win. When Wirth realized his mistake—he missed only one stroke before he did realize it—he pulled so heavily on his oars the forward bow was driven completely under water.

MAKE GOOD SHOWING

At 5:30 the Active eight paddled up from the clubhouse, followed by the Nereid crew. The latter was stroked by Frank Menne, Ken Hardman, 7; Jack Hicks, 6; Burt Stanianar, 5; Dingle, 4; Weeks, 3; Rhoades, 2 and Dalphond No. 1.

The Active eight oar shell had two races behind them this season and are training for the Springfield regatta; while the Nereid outfit has somewhat neglected to develop sweep men. It was not a bad showing, therefore, to finish within a length of the Active shell, which at one time held a lead of two lengths which was eaten off in the last quarter mile. The visitors carried back to Edgewater with them the President's cup, offered by Homer C. Zink, Nereid President and Gustav Eggerling, President of the Active Boat Club.

The Rotary Club of Belleville donated an elaborate plaque for the winners of the quadruple Shells which will stay in the Nereid Club rooms, within eyesight of the donors, who meet there.

LEGION OUTFIT HAS EASY TIME BEATING KEARNY

Scores Eight Runs On Ten Hits As Visitors Make Only Three Runs

TOMMY DUNN SCORES TWO BEFORE HIM WITH HOME RUN

The American Legion nine won its third game in as many starts by defeating the Kearny B. B. C. 8 to 3 Saturday afternoon at Clearman Field. The crowd was slim because of the Nereid Boat Club races held on the Passaic River.

Butch Kastner took the mound for the locals and held the Kearny team to one earned run. Baker twirled for the visitors and allowed ten hits.

Kearny started by scoring two runs although it was no fault of Kastner's. Johnson led off with a double. Kallenburg bunted safely, and when John Mallack threw wildly to first base, Johnson crossed the plate, Kallenburg taking second on the play. The latter advanced to third on an infield out and scored a moment later when Johnny Lawlor made a wild throw.

ALSO IN FIRST

Belleville also scored in the first inning. Joe Flynn led off with a single to center. Lawlor singled and Arty Lamb bunted safely, filling the bases. John Mallack flied out to the second baseman. Flynn scored soon after this when McCarthy dropped Tommy Dunn's fly to center field.

After the first inning the visitors failed to score until the ninth when Kastner eased up and allowed a run. Charley Beaucamp tripled and came home on Joe Beaucamp's single to left field.

DUNN CLOUTS HOMER

The Legionnaires scored three runs in the third frame. Joe Flynn grounded out for the first out. Johnny Lawlor walked for the second straight time. Arty Lamb singled, sending Lawlor to second.

John Mallack lined one out to the left fielder. Tommy Dunn was next up and he sent a terrific drive to right center for a home run, scoring Lawlor and Art Lamb ahead of him.

Kearny threatened to score in the fourth inning when they filled the bases with one out on three successive hits. A snappy double play, Dunn to Gelshen to Dunn, killed the visitors' chances. It was one of the fastest double plays seen this year at Clearman Field. Dunn and Gelshen performed like clockwork on the play.

Kastner's splendid pitching, Arty Lamb and Tommy Dunn's great hitting and the fielding of the latter were the features of the game. Mac Lamb also came in for his share of the glory by banging out

ROVERS CONQUER IRVINGTON COPS

The Rover A. C. surprised fans Sunday morning when they defeated the Irvington police by a score of 4-2.

Things looked bad for the Bell Boys in the first inning when Smith, pitcher, allowed the first batter to single to center and passed the next two men. With the bases loaded and none out he found himself and fanned the next three batters. The cops scored one in the second when Paul tripled to left field and scored on an infield out.

The Rovers tied the score in the fifth when Arnold doubled to left and Shaul sacrificed him to third, Lillori following with an infield out to score him.

The police took the lead in the seventh when Wells singled and Woods did likewise, sending Wells to third. Wells then scored as Lee hit into a double play, Lillori to Shaul to Murphy.

The Bell Boys hit three times in the eighth when Seibert doubled and El Burden grounded out. Arnold sacrificed him to third, then Shaul singled, scoring Seibert. Lillori followed with a home run to deep right field. The score:

Took Name of University

Illinium was discovered by Doctor Hopkins and his associates at the University of Illinois, and named in honor of the university.

That well-known Belleville-Nutley rivalry will again come into being Fourth of July afternoon when Biddy Carragher's All-Stars will play the Nutley A. C. Carragher's outfit is practically composed of players in the American Legion League nine.

The locals will take the field with the following line-up: Jim Mallack, pitcher; Gene Gelshen, catcher; Tommy Dunn at the initial sack; Johnny Lawlor, mid-way station; Johnny Mallack at the hot corner, and Joe Flynn at shortstop.

Art Lamb will patrol center field and will be flanked by Biddy Carragher in left field and Joe Curran in right field. Nutley will have a host of stars including the Sentner brothers, Pint and Ted; Leo Jentis, Emil Barbata, Alex Baykowski, Johnny Lamb, Les Burke, Pop Kappeler and Teddy Iliffe.

BELL-NUTS LOSE SECOND BATTLE

The Bachelors made it two in a row by taking the Bell-Nuts into camp Monday night 7 to 6. It was the second straight game the Bell-Nuts have lost by one run.

Mick Donnelly started on the mound for the Bachelors and for the first three innings held the Bell-Nuts scoreless. Meanwhile the Bachelors had scored a run in each of the first three innings. In the fourth inning Donnelly became wild and after throwing four straight balls to John Baney and three to the next batter, he was yanked out in favor of Johnny Johnston.

This move on the part of Manager McCarthy nearly cost the Bachelors the ball game as the Bell-Nuts hammered Johnston for six runs before the inning ended. Leo Jentis each had a double dur-

Hugh Clark, Bill Buttons and ing the hectic rally, while Mutch and O'Neil came through with singles. The Bachelors came back in their half of the fourth to score two runs, making the score 6 to 5. Several Bell-Nut errors aided the Bachelor cause in this fourth frame.

Johnston held the Bell-Nuts scoreless in the fifth and sixth innings although he was in trouble in both rounds, especially in the sixth when there were two men on base with none out. The Bell-Nuts ran into tough luck here when Eddie O'Neil's bunt went right into Johnston's hands. He threw to third for a double play.

The Bachelors sewed up the game by scoring two runs in the fifth frame. McCabe led off with a single and advanced to third on Johnston's double. Wengel scored McCabe by hoisting the ball to center field for a sacrifice and Johnston scored on an error.

CARDINALS WADE THRU PANTHERS

Ashworth, Pitcher, Allows Only Seven Hits; Drives Out Homer, Scoring Two

PANTHERS CRACK IN SIXTH

The Cardinals continued their winning streak in the Junior League by taking the Panthers into camp by an 11 to 3 score a week ago Wednesday night at Belleville Park. George Ashworth, a new addition to the Cardinal pitching staff, turned in a good performance for the winners.

The Cards started to score in the first inning when Comiskey doubled with one out and scored a moment later on Pat Dunn's single. They made it three more in the second frame when Bill Byrnes and Ryan singled in succession and both scored shortly after Ashworth's home run to left field.

The Panthers picked up runs in the second and third innings. Two hits and two passes gave them a run in the second and three successive singles by Lennon, Burden and Petrie gave them another run in the third.

ANOTHER IN FOURTH

The Cardinals picked up another run in the fourth. Leonard walked for a starter, but he was out on the next play when he tried to reach third on Byrnes' infield tap. The latter was safe as Burden failed to touch the bag. Byrnes stole second and scored on Sullivan's single to left field.

The Panthers blew up in the sixth and before the inning ended six of the Cardinals crossed the plate safely. Four hits and three runs were made. Sullivan was up at bat twice in this inning and crashed out a double and a single. "Sully" Sullivan, with a double and two singles led the attack for both teams. Johnny Leonard starred in the field, making several hard stops and throws. The scores:

WRITER TELLS OF ST. PETER'S-BELL-NUT GAME

The following communication to this office is supplied by a person who calls himself "The Man in the Moon." It was unsigned but we are publishing it for its value in giving some highlights of what was the season's best baseball game:

Those who attended the game between the Bell-Nuts and St. Peter's on Friday night last, witnessed one of the most exciting so far this season. The following is an account of the high-lights, side-lights, or what have you, as seen by the "Man in the Moon."

Taking the game itself—there were so many features that we can only give a few of them here—among the outstanding plays we name:

Kearney's wonderful stop at third and quick throw putting man out on first.

With a man going to second, Buttons, catcher for the Bell-Nuts, threw to Sentner. Curran on third started for home and Sentner, faster than seemed possible, returned the ball to the catcher who put man out at home plate.

Pascal caught one on the nose—it seemed headed for the fence—"Nip" Clark came out of nowhere to pull it down.

With bases loaded "Biddy" Caragher clouted one good to bring in two runs, Sonny Golden, high school star, making a sensational catch in left field, pulled it down in fine style.

O'Neill, another high school star, made a nice catch in right field on a clout that looked like a sure hit.

Johnny Baney was the Babe Ruth of the Bell-Nuts—his three hits counting for as many runs in the Bell-Nuts' scoring.

We have to give credit to Alex Baykowski—that boy certainly pitched a fine game of ball.

And now for Belleville's prominent baseball fans:

"Rus" Sandford, Belleville's leading and largest butcher, was perhaps more in evidence than anyone in the stand—at any rate he occupied more space.

We saw John Boylan, too, one of the old-timers.

Even "Stoney" Machette, a pitcher of some renown in by-gone days was present.

No one could tell who Billy Criss was rooting for. However, his intended son-in-law plays with the Bell-Nuts.

The catcher for the Bell-Nuts failed to appear and that good old sport Buttons agreed to help out. Manager Flynn agreed and Buttons went in and caught a real game.

"Cressy" Charrier let his printing business stand awhile and joined the party and Freddie Flohn left the tax searches long enough to come up and root for the Bell-Nuts.

Cliff Smith, the coalman, comes out even if it is summertime.

"Judge Landis" is always on deck—this time in a brand new panama.

Oh, look who's here! Pace Taylor, our old friend. Well, Pace, better late than never. And another new panama joins the ranks.

Harry Calhoun umpired the game from the grandstand—and in fine style, too.

Everyone was a little worried about heavy clouds overhead—the "Man in the Moon" predicted rain "any minute now"—we're still waiting.

The fair sex was well represented—"Sweethearts and wives."

The "Man in the Moon" kept his secretary busy taking down these notes—but there were a few things she missed.

BANK RESOURCES LOWER IN 1930

But Both Cashiers Consider Loss Without Alarm In View Of Conditions

TOTAL PUT AT \$7,495,743.31

Resources in the two Belleville banks decreased during the year ending June 30, statements made public yesterday from the Peoples National Bank and Trust Co. and the First National show.

The total loss in resources was \$280,704.46. Of this, \$36,321.85 was lost by the First National whose resources this year are \$5,093,979.40, and \$244,382.91 was lost by the Peoples, whose resources were published as \$2,401,763.61.

Although losses are not usually considered encouraging, both cashiers, John P. Dailey of the First National and Fred L. Wagner of the Peoples, expressed satisfaction. When consideration is taken of the business conditions in the country today, the loss in resources for the past year is anything but alarming, was the opinion of both officials.

BROOKLYN GIRL, STAYING WITH SISTER, HIT BY AUTO

Miss Elvira Gerici of 95 Manhattan avenue, Brooklyn, received painful bruises of the head, body and arms Tuesday afternoon when she was struck by a car driven in Franklin street at Magnolia street by Alfred H. Morgan of 210 Isabelle avenue, Irvington. She was treated at the Presbyterian Hospital, Newark.

Miss Gerici, who is staying with her sister Mrs. Mary Muccigrosso of 22 Frederick street, was standing in the street waiting for a truck to pass when Morgan's car, coming on the right side of the truck in an attempt to pass, struck her and knocked her against another truck, according to witnesses. She was taken to the hospital by Morgan.

MAN FINED \$50 WHEN FIRECRACKER INJURES TWO

Recorder George A. Fitzsimmons imposed a fine of \$50 on Andrew Garruto, twenty-seven, of 851 Summer avenue, Newark, in police court Monday night when he was arraigned on a charge of throwing a firecracker at Miss Mildred Lucarello, seventeen, of 75 Carmer avenue, Belleville.

Miss Lucarello was carrying her infant niece near her home July 4 when Garruto threw the firecracker at her. It exploded and set fire to her dress besides inflicting burns on both Miss Lucarello and the child.

Sam Dente of Orange, who was walking with the girl attempted to punish Garruto and a friend but was getting the worst of the fight when police arrived.

VERONA CHOIR LEADER TAKES UP WORK HERE

Chester A. Fell Fills Vacancy In Reformed Church Left By A. S. Ackerman

CAREER OF NEW ORGANIST BEGAN SIXTEEN YEARS AGO

Chester A. Fell assumed on Sunday, June 22, the duties of choirmaster and organist at the Belleville Reformed Church, of which Rev. John A. Struyk is pastor. Mr. Fell has been organist

in charge of the choir at the Verona Methodist Episcopal Church for the past three years.

His professional career started in 1914 at the Eighteenth Street Methodist Episcopal Church, New York. A year later he left to take a position in Jersey City at the Westminster Presbyterian Church where he remained for three years.

Before Verona He had charge of the choir and organ at Holy Cross Protestant Episcopal Church, Jersey City, a year and a half, after which he received appointment to the West Side Methodist Episcopal Church in Jersey City, where he directed the choir and played the organ for eight years before going to the Verona church.

Mr. Fell's studies began with D. J. Murphy, cathedral organist at Scranton, Pa., and continued with Philip James of New York City, choral and orchestral conductor, and composer of much church music. He also studied with Archibald Sessions, concert organist, of New York.

Would Try To Recover \$7,750 Which Supreme Court Said Was Town Claim

TOWN COUNSEL DECLARES AMOUNT ONLY AN ESTIMATE

An old issue was revived in the Town Hall Tuesday night when Commissioner Carragher objected to the town paying Philip Jannarone and Son, Inc., the retained percentage which the contractor left on deposit while he laid curbs and sidewalks on twenty streets five years ago.

The Commissioner said that Jannarone was not entitled to this money when the town had a claim against him for penetration paving work in Mill street from the Erie railroad to the Bloomfield town line, done in 1923.

In 1925 Chief Justice William Gummere appointed Robert S. Sinclair and Andrew Van Blarcom to investigate charges that the street was not paved according to specifications. Sinclair and Van Blarcom appointed two experts, Dow and Smith, to make tests to see how thick the street had been paved.

Less Than Specified

They reported that thirteen tests had shown a thickness of 3.53 inches instead of the seven inches specified. On these findings they calculated that Jannarone owed the town \$7,759.68, or \$1.18 a yard for 6,576 yards of paving.

Jannarone was paid in full for paving Mill street even though the objection was raised that the Supreme Court investigation showed

MAYOR TO VISIT MOTHER IN WEST

Leaves Town Saturday With Son, Robert, For Vacation In Denver

WILLIAMS ACTING MAYOR

Missing only two meetings during his four years of service as Mayor of Belleville, Samuel S. Kenworthy will be on vacation four or five weeks beginning Saturday. He will leave town with his son Robert, for a visit at the home of his mother, Mrs. Elizabeth Kenworthy of Denver, Colo.

During his absence, Albert S. Blank, town engineer, will serve as deputy director of the Department of Public Affairs, the department now headed by the Mayor. The Board of Commissioners concurred in this appointment at Tuesday night's meeting in the Town Hall.

Commissioner William H. Williams will be acting mayor in the absence of Mr. Kenworthy. The law provides that the Commissioner of Revenue and Finance shall serve as chairman of the meetings of the Board and also in the capacity of making contacts with persons having business with the mayor's office.

DANIEL WHELAN GIVEN A POLICE FUNERAL GUARD

Retired Patrolman Buried In St. Peter's Cemetery After High Mass

LIVED HERE FORTY YEARS; WAS AN EXEMPT FIREMAN

Escorted by a detachment of police the body of Daniel Whelan, a volunteer fireman and retired policeman, was carried from his home at 318 Washington avenue Saturday morning to St. Peter's Church

where a solemn high mass of requiem was said by Rev. E. J. Field, pastor. Burial was made in the church cemetery.

Mr. Whelan died a week ago Wednesday at the age of fifty-seven. He spent twenty-five years in the service of the town, being connected with the volunteer firemen seven years before his appointment to the police force in 1911. A year ago he retired because of ill health.

A resident of town forty years, he was an active member of many organizations. He belonged to both the Exempt Firemen and the Police Benevolent Association and was a member of the Loyal Order of Moose, Foresters' Lodge, and the Holy Name Society of St. Peter's Church.

Mr. Whelan is survived by his wife; one daughter, Miss Jane T. Whelan; a niece, Mrs. Mary Curran Whelan; two brothers and two sisters.

VINCENT WALSH BACK IN ARMY

Local High School Boy, Wounded
Five Times On Mexican Bor-
der, To Get Commission

GUARD TO COL. LINDBERGH

Vincent Walsh, graduate of
Belleville High School, class of '20,
left this week for Washington
where he will resume duties in the
U. S. Army, preparatory to re-
ceiving a commission as infantry
lieutenant. He will serve in the
War Department building.

Walsh has seen action on the
Mexican border in 1929 and has
been wounded five times in skirm-
ishes with bandits in that place.
Once, for valor in performing meri-
torious service in a particularly
sharp engagement, he was priv-
ileged to review the 12th Cavalry
in company with Col. Johnson and
Lt. Col. Hanson T. Ely.

He has made several airplane
flights over the contested area held
by bandits, and was one of Col.
Lindbergh's personal mounted
bodyguards when the famous flyer
was in that section. The former
high school boy is one of the few
Belleville people to have shaken
hands with the Colonel.

Passed West Point Test

Walsh has decided on further
army duties at Washington in
preference to West Point although
he passed a competitive examina-
tion and received an appointment
from the Eighth Congressional Dis-
trict. Army officers with whom he
formerly served, recommended this
step.

While on temporary leave at his
home in Belleville he interested
himself in the Old Belleville Hotel
which was known in former years
as Van Cortlandt's mansion. He
unearthed much of the past glam-
orous history of the old place and
recently organized a searching
party to run down the tradition
that a tunnel had been built under
the colonial "fortress."

The expedition did not meet with
success, however, and the party
could not learn whether a tunnel
had ever been built. Tradition said
that one ran out from the cellar
to an arsenal some distance away.
In the party with Walsh were
Fred Pascal, Robert Minor, Ernest
Salters, Walter Walsh, Albert Pas-
cal and Edward Teeney.

MRS. CATHERINE C. BURTT

fered yesterday morning for Mrs.

Mrs. Burtt lived with her sister
Mrs. James T. Boylan, for the past
seven years. Before that she was
a resident of Newark.

Compass Useless If Street Name Changed, Avers Clark

Carragher Aghast At Thought Of Dragging Politics Into The Question

WILBUR TO BE SOUTH WILBUR

Changing the names of two streets seems likely as the result of a conference on the subject by the Board of Commissioners Tuesday afternoon. On the request of the West Belleville Improvement Association, that Wilbur street, south of Joralemon street to the golf course, be changed to South Wilbur street, Town Counsel John B. Brown was authorized to draw up the necessary ordinance for passage on first reading at next Tuesday's meeting.

The street was formerly Hill street. When it was changed six months ago to Wilbur street to conform with the name of the street going north from Joralemon street, residents objected because it would be necessary to change the house numbers south of Joralemon street. The matter was referred to Commissioner William H. Williams last week.

ABOUT THE COMPASS

At the conference Tuesday, Commissioner William D. Clark objected to naming the street South Wilbur street as recommended by Williams, since the street was so short.

Williams then said "Oh, you mean that the compass would not have a real chance to function before a person could tour from one end to the other." But the change will be made.

It was also decided to change the name of one of the Newark avenues in Belleville. Commissioner Williams suggested that the street which continues on in Nutley be changed to Coolidge avenue.

WHAT! POLITICS!

Carragher, who is a Democrat by the way, interrupted with spirit hope you're not dragging politics into the naming of streets."

"No," assured Williams, "We're not that low yet." And then Mayor explained.

Coolidge is taboo with the Nutley Board of Commissioners, and

since it was our idea to change the name of that street, not only in Belleville, but in Nutley as well, we found no sympathetic response among the Nutley board members." "Change it to Morrow avenue, then," Williams suggested.

It is likely that another conference will be attempted but this time it will be left to the Nutley Board to suggest a name for the street. The other Newark avenue in Belleville will not be changed since it is too long, the Commissioners agreed.

National Convention All This Week Attended By Seven Belleville Members

PARADE PLANS GO ASTRAY

A delegation of seven Belleville Elks, led by Past Exalted Ruler Harry Estelle and Exalted Ruler Robert Anderson will be in Atlantic City today to attend the parade in connection with the national convention being held all this week in that city.

The others are Albert Hadley, William MacNair Jr., Edward Mathes, Richard Kenny and District Deputy Frank Strassburger. Headquarters of the local delegates with the exception of Estelle, are at the Hotel Traymore. The Past Exalted Ruler is at the Hotel Grand.

It was originally planned to join the Nutley Lodge and take part in the parade but Nutley, through a misunderstanding, made plans with Irvington. The Belleville Lodge consequently, will not be in the parade. It will be represented, however, at the sessions taking place from today until Saturday.

THE VALUE OF SOUND DESIGN

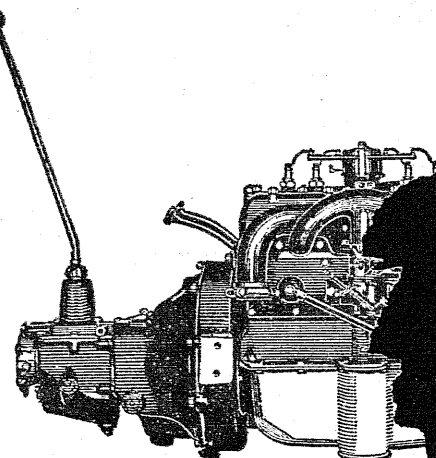

New Ford engine gives outstanding acceleration, speed and power without sacrificing reliability or economy.

THE good performance of the Ford car, so apparent on every highway, is due largely to the sound mechanical design of the engine.

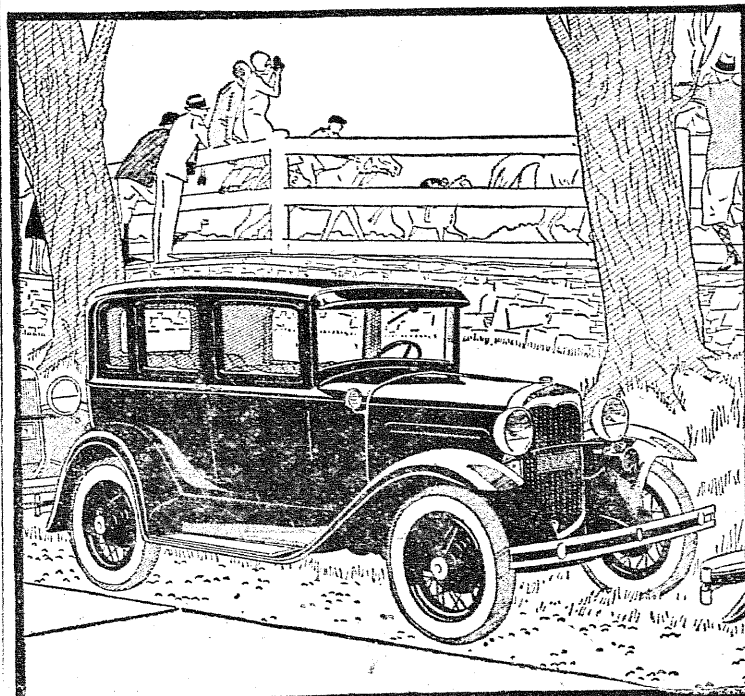

It has outstanding acceleration, speed and power, yet that is only part of its value to you. Greater still is the fact that it brings you all these features without sacrificing either reliability or economy.

That is the reason the Ford car has given such satisfactory service to millions of motorists all over the world and has been chosen by so many large companies that keep accurate cost figures. In every detail of construction it has been carefully planned and made for the work it has to do.

The design of the compression chamber is an important factor in the efficiency of the Ford engine. It is built to allow free passage of gases through the valves and to thoroughly mix the fuel

by producing turbulence within the cylinders during compression, thus flashes quickly through the fuel charge, resulting in quick and more effective engine performance. Other factors are the direct gasoline feed, the special carburetor, the new hot-spot aluminum pistons, chrome steel valves of larger diameter, statically balanced crankshaft, flywheel, the simplicity of the cooling, lubrication, and fuel systems, and accuracy in manufacturing.

Rayon Lace Dinner Gown Adapted for Formal Wear

By BEATRICE PAXTER.
Fashions from Paris bring a
number of interesting novelties,
such as the dinner dress above,
which, by unfastening a single
snap, may be transformed into a
formal evening gown. It is par-
ticularly practical for summer
week-ends, when the wardrobe
must be held to the minimum.
With its little capelet, this
charming creation of Patou
green, luminous rayon lace from
Bonwit-Teller is merely slightly
"low cut." An invisible snap fas-

tens the capelet on the left shoul-
der, and if you wish to go on from
an informal dinner party to a
more formal affair, this snap does
the trick of making you decollete.
Although the shops are busy
with the modes for summer wear,
the designers are hard at work on
creations for the fall. A hint of
what cooler weather will bring
may be seen in the style on the
right, above. The return to the
regal brings this luxurious trans-
parent rayon hostess or tea gown.

Incubator Ducks Ducks hatched in incubators are not allowed to go swimming until they are seven weeks old, in order to wait until their feathers are well oiled.	Uses for Sharks' Teeth Sharks' teeth are used for "money" in some of the Pacific is- lands, while in China they are mounted in gold to form attractive ornaments.

Alexander's Solution

Expression the "Gordian" has its origin in the tale of a Phrygian peasant, owner of a yoke of oxen, who became so dedicated his cart and oxen, and the knot of the Gordian, that he was so skillfully that he declared that whosoever could cut the knot of the Gordian it would be ruler of the world. When Alexander the Great cut the knot with his sword and applied the solution to himself.

Carthage in Mythology

Tradition has it that the actual founder of Carthage was Elissa, a king's daughter, who took the name Dido, which meant refuge. According to Virgil, Aeneas, escaping from burning Troy, stopped at Carthage on his way to Italy, where he was to found the line of Romulus. Dido, according to the poet, fell in love with Aeneas, and when he sailed away he saw the smoke from the funeral pyre in which she burned herself.

Wooden Arrow Shaft Best

An arrow with a metal shaft may be shot with accuracy, but not so consistently as the wooden shaft. The reason is that the metal shaft does not have the power of recovery that nature has put into the well-seasoned Norwegian pine shaft. By recovery is meant the action of the shaft as it leaves the bow.

NOTICE

PUBLIC NOTICE IS HEREBY GIVEN that the following proposed ordinance was introduced and passed on first reading at a meeting of the Board of Commissioners of the Town of Belleville held Tuesday evening July 8th, 1930, and further notice is hereby given that second and third readings of said ordinance will be considered by said Board at a meeting to be held at the Town Hall, Washington Avenue and Belleville Avenue, Tuesday evening July 22nd, 1930, at 8 o'clock P. M., when all objections to the passing of the same will be heard and considered.

JOHN J. DALY, Town Clerk.

AN ORDINANCE INCREASING THE APPROPRIATION FOR THE CONSTRUCTION OF A STORM SEWER IN MILL STREET, IN THE TOWN OF BELLEVILLE, FROM SECOND RIVER BRIDGE NEAR MONTGOMERY STREET SOUTH AND EAST TO HARRISON STREET, AND IN HARRISON STREET FROM MILL STREET TO SANFORD AVENUE.

The Board of Commissioners of the Town of Belleville, in the County of Essex, do ordain:

1. That an additional sum of \$1,000 be appropriated for the construction of a storm sewer in Mill Street, in the Town of Belleville, from Second River Bridge near Montgomery Street South and East to Harrison Street, and in Harrison Street from Mill Street to Sanford Avenue, authorized by an ordinance adopted May 12th, 1930.

2. That for the purpose of meeting such appropriation temporary improvement bonds or temporary improvement notes of the Town of Belleville, are hereby authorized to be issued in an amount not to exceed the amount of said appropriation pursuant to provisions of Section 13 of Chapter 252 of the Laws of 1919, and the acts amendatory thereof and supplemental thereto, which bonds or notes shall bear interest at a rate not exceeding six per centum per annum. All other matters in respect to said temporary improvement bonds or temporary improvement notes shall be determined by resolution of the Board of Commissioners of the Town of Belleville, or by the Director of the Department of Revenue and Finance, as the Board of Commissioners may hereafter by resolution determine.

3. Said improvement shall constitute a general improvement and the cost thereof shall be borne by the Town at large.

4. This ordinance shall take effect immediately.

DOES NOT FAVOR PAYMENT OF BILL

(Continued from Page One.) the discrepancy in thickness. Commissioner Carragher charged Town Counsel John B. Brown with authorizing Mayor Samuel S. Kenworthy to sign the bills.

Wasn't It True?

Tuesday night at the Commission meeting, the Town Counsel was subjected to cross-examining by Commissioner Carragher on this point. He was asked if it was not true that he said the town had a claim against Jannarone.

Brown answered that he had not said so, and when Commissioner Carragher, waving a copy of the Chief Justice's report, declared he had the record of it, the Town Counsel asked to see it.

Carragher had Town Clerk John Daly read a portion of the report where Commissioners Sinclair and Van Blarcom declared that the town's claim against Jannarone, according to the findings of Dow and Smith, was \$7,759.68.

Declared No Claim

Brown disputed that the findings of these two men represented a tangible claim and when Commissioner William H. Williams asked for an opinion about whether the town might collect this money, said that the claim could only be established after court proceedings.

The Town Counsel expressed doubt that a suit would show the discrepancy in thickness to be as Dow and Smith reported. He believed that expert engineers would testify that pavements wear down and that there would be no overwhelming evidence against Jannarone.

Commissioner Williams said he

would like to know what the Board should do about the matter—file the issue so that it would not continually bob up or take steps to sue Jannarone. It was decided to have the Town Counsel submit a written opinion telling whether it was likely that the town would recover this money.

To Original Issue

The controversy then reverted to the original question, that of paying Jannarone a retained percentage of \$1,700 on the contract for sidewalks and curbs on twenty streets.

In this issue, too, Commissioner Carragher contended that the contractor had not followed specifications. When, at the conference of the Commissioners, Town Counsel Brown submitted a report by Col. Howard, expert, that this work conformed from ninety to ninety-five per cent of specifications, Carragher disputed the accuracy of Col. Howard's tests.

Findings Do Not Tally

He declared that other tests made by John L. Fitzgerald, former assistant town engineer, revealed other facts. Mertz avenue was said by Commissioner Carragher to be only three inches thick instead of five.

Town Engineer Albert S. Blank declared that sidewalk thicknesses varied and that they would be under specifications in some points and over in others.

Mayor Samuel S. Kenworthy asked Philip Jannarone if he would be willing to accept payment on the basis of ninety to ninety-five per cent, according to the findings of Col. Howard and received an affirmative reply.

The other Commissioners agreed that this was fair and the Town Engineer was ordered to submit the total cost of laying concrete in order to find how much of Jannarone's retained percentage would be given back to him. Commissioner Carragher did not sanction the step, however, because of the old Mill street job.

Bullet's Velocity

The speed of a bullet as it leaves a rifle is 2,700 feet per second. That is approximately five times the speed of the fastest airplane. It should be understood that the velocity of a bullet decreases rapidly, while the speed of an airplane remains constant. It is for that reason that a comparison, as given above, is only for the speed of a bullet as it leaves the muzzle of a rifle with the speed of a fast airplane.

MARMON GUARANTEE EXTENDED TO A YEAR

Down through the ages of commercial history, the buyer of merchandise has assumed a more and more prominent position in the scheme of business and trade. The once important precept, "Let the Buyer Beware," is now definitely a relic of the past and the person who purchases a modern standard article of merchandise, whether it is a kitchen utensil or an automobile, is confident that he will receive a full measure of value from the money he expends.

Probably the latest example of this tendency to favor the purchaser is shown in the new and extended automobile guarantee that is being inaugurated by Marmon, according to Thomas E. Jarrard, Marmon general sales director.

"The automobile industry is by no means taking the lead in offering products that are guaranteed for as long as the term provided in the new Marmon warranty," Mr. Jarrard continued. "It must be remembered, however, that the motor car, while developed to a higher degree of perfection than many other articles of merchandise, is an intricate piece of machinery over the usage of which the manufacturer has little or no control after it is sold. To guarantee the automobile, therefore, for a considerably longer period than covered by the old ninety-day warranty is regarded as an outstanding departure which gives the purchaser a further degree of confidence in the car he has selected and in the ability of its producer.

The new warranty is extended to original purchasers of all new Marmon straight-eights and covers all material and workmanship for a period of one year or not to exceed 12,000 miles of driving, whichever shall first occur, from date

of purchase. Marmon cars covered by the warranty are the Marmon-Roosevelt, Marmon Eight-69, Marmon Eight-79 and Marmon Big Eight, ranging in price from the \$1,000 field upwards to the fine car field.

Welsh Surnames

The Welsh had no surnames until 400 years ago when they were compelled to adopt them by King Henry VIII. The "p" in Powell, Price, Pugh, Pritchard, etc., is "Ap," meaning "son of"; Ap Howell, Ap Rice or Rhys, Ap Richard, Ap Hugh, etc.

Flag Pledge

During the flag convention held in Washington in 1923, the flag pledge was changed. It now reads: "I pledge allegiance to the flag of the United States and to the Republic for which it stands—one nation indivisible, with liberty and justice for all."

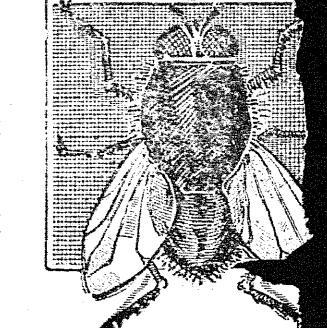

Remarkable Table Top

The National Library table top is on a table made by Gordon H. Turner when instructor of manual training, Greenwood (Miss.) high school. It is made with 5,022 pieces of wood taken from every state in the Union and our major possessions. It weighs 250 pounds.

Teacher's Afterthought

"Now, boys," said the teacher, "always remember that you should never end a sentence with the word 'with.' "That is," he went on, hurriedly, "unless you have nothing else to end it with."

CANTERBURY BELLS NOW

The commonly grown biennial, probably the Canterbury bell is the most popular. Many of the handsomeness exhibited in florists' windows in the springtime, hold the mistaken belief that this plant is difficult to grow. Yet, the Canterbury bell, which is rapidly becoming one of the most popular of garden plants, can very easily be grown in the garden if its requirements are met.

The seed should be sown now for the best results, and not later than the middle of July if plants sturdy enough to bloom next year are desired. The plant is not particular as to soil requirements, although the acidity is to be guarded against. If the ground is sour, a small amount of lime bearing seed.

The main difficulty experienced in growing this plant seems to be in winter. It holds its foliage all winter, while apparently hardy, but shows a fatal tendency to wither in the soil in which it is planted. The soil in which it is planted are to be wintered in a drained. A moderate covering of weeds and straw will do over, but not directly over the plants. Let fine brush, or evergreen boughs be used for covering material, as this will prevent smothering of the plants. Bear in mind that many of the Canterbury Bells are smothered by protection; more, in fact, than killed by cold weather.

There are three main types of Canterbury bells; namely, the single, the cup and saucer, and the cup and saucer. These types there are white, pink, rose, light blue, purple, and striped.

For the best seed. For information on this and other plants, flower or agricultural questions may be obtained from the County Extension Office, or the County Agricultural Agent, Caldwell. (Telephone

Christian Science Church

"Sacrament" will be the subject of the lesson-sermon in all Churches of Christ, Scientist, on Sunday, July 13, 1930.

The Golden Text is: "Jesus said unto them, I am the bread of life: he that cometh to me shall never hunger; and he that believeth on me shall never thirst" (John 6:35).

Among the citations which comprise the lesson-sermon is the following from the Bible: "The cup of blessing which we bless, is it not the communion of the blood of Christ? The bread which we break, is it not the communion of the body of Christ?" (I Corinthians 10:16)?

TIRED BUSINESS MAN

DECAMP DEPENDABILITY

MANY a business man, detained in New York beyond his usual hour, is enjoying the restful way back home via the DeCamp Bus Lines. Deep air cushions, open windows, a cool ride from the heart of the city to your own street—at a cost far less than you would ordinarily squander on a taxi fare from one office to another. The T. B. M. finds DeCamp Bus service a real economy in nerve-force as well as pocket-book. Prompt, safe and sure, DeCamp Buses serve him as well as any other DeCamp patron.

A BUS IS NO BETTER THAN ITS DRIVER

Leave Belleville, daily, Washington and Belleville Avenues, 7.55, 8.00, 8.15, 8.30, 8.45 a.m., then every 15 minutes on the hour, 15, 30 and 45 minutes after the hour until 11.30 p.m.

Leave New York, daily, Herald Square Bus Station, 36th Street and 6th Avenue, for Belleville 8.45 a.m., and every 15 minutes until 12.30 a.m.

EDWARD MAYES

Mr. Mayes is a resident of Livingston, N. J., where the DeCamp Bus Lines headquarters are located. Five of his seven years' driving have been spent on buses. In this time he has kept up an excellent record for safety and courtesy—proving the DeCamp rule that "A Bus Is No Better Than Its Driver."
