YOUR CAR MOTOR LA

Motorism's gains in the session of Congress just closed were not altogether intangible despite the failure of the national legislative body to repeal or modify excessive Federal tax assessments against the country's car owners.

That, of course, would have proved the most intelligent and fair step which the 73rd Congress could have taken so far as the nation's motoring interests are concerned. In this connection, the Congress itself is on record as fully in accord with the claim of the various states, including New Jersey, that in entering this tax field, the Federal Government invaded one that belongs peculiarly to the states.

However, even though recognizing this in an academic way, the Congress manifested a definite refusal to do anything practical about it such as repealing or reducing these levies.

Motorism, therefore, is left to console itself with the knowledge that, if it refused to step out of the motor vehicle taxation field, the Congress did not adjourn without one compensation; namely, that of putting the Federal Government back on a permanent basis of participation in the nation's road program.

Regular annual Federal aid highway appropriations will be resumed on the basis of \$125,000,000 yearly with the beginning of the fiscal year, 1936, on July 1, 1935.

That means the Federal Government is going back to the highway policy established in 1916 and continued until 1933, and one which provided the foundation stone upon which the nation's great road network was built. When that policy was de-

serted, the country was in a road program in spite of agency appropriations made by the Federal Government for highway construction, improvement and maintenance.

The element of cohesive joint planning by the national governments was in terms of creating jobs through the making of jobs through the making of needed highway transition facilities.

The change left the state governments confused and dismayed, orderly progress of their road improvement programs was rendered impossible. They were left with finite knowledge of the intent of the Federal Government to go ahead with the Federal aid system which was far from finished.

During this interval, some in Washington saw fit to criticize the attitude of the states. (Especially were they bitter in their denunciation of motor vehicle tax diversions, smaller political sub-divisions, funds, it was said, were taken from the highway program and unwisely. The error of this criticism was in its overlooking the fact that the Federal policy had away the highway program.

Today, however, that situation has changed. The states are being that they again must match Federal money dollar for dollar on the basis. Undoubtedly, they will with alacrity that will prove their willingness to adhere to normal program when there is a program to follow and support.

Handy Hints for Oncoming Summer

THE backcloth of the very newest in adhesive plaster is a special waterproof fabric. The smooth surface and suntan color make it stay clean longer. Both the waterproof factor and the suntan color should make it useful outdoors.

No doubt, you've already had your first dose of sunburn and its accompanying discomfort. One of the simplest ways of cooling off a sunburn is to cover it with little patches of Red Cross gauze dipped in bicarbonate of soda. Relief is almost instant.

If hubby grumbles about picking moths, grasshoppers and other insects out of the radiator combs after an evening drive, here's a new stunt you can teach him. Take some waterproof adhesive tape and several yards of cheesecloth along on your next ride. Fasten the cheesecloth to the front of the radiator with the waterproof adhesive tape and the insects will adhere to the cheesecloth from which they may easily be shaken loose.

No doubt during your summer reading you will run across coupons in advertisements which you would like to answer, except that you do not have the requested stamps handy, or you do not have any way of mailing a coin without running the danger of its working out of the envelope. Here's an idea that will save you time and trouble—just fasten the coin requested to a sheet of paper with a strip of adhesive plaster, fold it up and mail it along with the coupon clipped.

Since they still haven't gotten around to NRA codes for the housewife, you probably are in the midst of spring cleaning right now. Here's a hint that may save you some embarrassment at the next bridge party—to prevent callouses from forming on the palms of your hands, wrap some waterproof adhesive tape which, of course, is also perspiration proof, around the handle of your broom.

You can't do anything about the heat this summer, but you can do something to make your feet more comfortable. To prevent blisters caused by the rubbing of your perspired heel against the back of your shoe, line the back of the shoe with a band-aid plaster taken from your medicine chest.

A new and attractive way of tackling back your old kitchen drapes is to stick them to the woodwork with zo adhesive tape which is white and may be painted a matching color.

Here's a simple and inexpensive trick that will settle the question of moths for you—apply strips of zo adhesive tape along inside of edges of chests and closets where sides and bottom join. This makes even an ordinary box tight and mothproof.

Food Market Advice

FRUITS are so plentiful and cheap this week that housewives will do well to serve them often. This means vacation from kitchen duties as fruits can be served with little preparation. Lest you fear skipping on a well-rounded diet, you will be reassured by the statement made last week by Dr. Henry C. Sherman, nationally known nutritionist. Dr. Sherman stated, "Fruits and vegetables may be considered as one group."

Fruits for This Week
BARTLETT PEARS are this week's latest arrival—nearly a month earlier than last year. This fruit is one of the most satisfying to eat out of hand and is equally good in salads, desserts or stewed. The first of the Hiley Belle PEACHES are also expected, the early Rose variety reaching the end of the season. The canning and jelly-making and preserving season is on for CHERRIES, CURRANTS, GOOSEBERRIES and BLACKBERRIES. BLUEBERRIES will be more plentiful later in the season. CANTALOUPE, MONEY-DEW and WATERMELON are plentiful and reasonably priced. A first of the early APPLES, Transparents, are in a few markets, but a real GREEN APPLE pie will be available to everyone soon.

While **FRUITS, SALAD VEGETABLES** and **CANNED VEGETABLES** are a boon to the summer housekeeper, most **FRESH VEGETABLES** require a surprisingly short time to prepare. Although the shipping of PEAS and LIMA BEANS takes time, this can be done out-of-doors; so who would sacrifice the pleasure of eating these delectable vegetables for greater leisure. Both are seasonal and fairly low in price. BROCCOLI and CAULIFLOWER are back in market, and these vegetables require little preparation. Summer SPINACH fortunately is much less trouble to wash clean than the richly priced grown in sandy soil. CABBAGE is very

cheap and, used either as a salad ingredient or cooked vegetable, it is little trouble to prepare and at the same time popular with most families.

TOMATOES are less plentiful than they have been but are not scarce. Other usual salad ingredients offer a wide choice. **VEGETABLES**, not commonly used, but excellent in salads, include such seasonable items as CARROTS, BEETS, WHITE TURNIPS, CAULIFLOWER and SPINACH. They are best when shredded or sliced very thin.

POTATOES are more or less a source of controversy—indispensable to some families and undesirable to others. They are a valuable food, especially in low cost budgets, and require a minimum of preparation if boiled in their jackets or baked. **POTATO SALAD** served with cold cuts is much liked by many people. **NEW POTATOES** are plentiful and low in cost, and cold cuts are cheaper than usual this week.

If you serve **ROAST BEEF, LEG OF LAMB** or **BAKED HAM** for the Fourth, a FOWL, fricasseed or made into jellied chicken or salad, or a **POT ROAST OF BEEF** will make a pleasant change. **CHOPS** and **STEAKS** always have an appeal. **VEAL** is relatively the least expensive meat available at this time.

A plentiful **FISH** supply is anticipated with many favorites priced fairly low. **FISH** requires little cooking and is therefore a good choice for hot days.

Here is a menu made up from foods which our experts consider seasonable:

Cream of Spinach Soup
Cold Cuts
Potato or Vegetable Salad
Cole Slaw
Currant Jelly
Rye Bread and Butter
Cantaloupe with Berries
Coffee or Tea (hot or iced) Milk
*This menu tested and tasted in the A&P Kitchen.

FOOD MARKET ADVICE 56—ALL

Sunday evening. Swimming and boating will be enjoyed, and a general outdoor picnic. The young people are enthusiastic about this outing, and are looking forward to a fine time.

Miss Ruth L. Williamson left on Friday for the Girls' Friendly Society Holiday House at Delaware, where she will be a counselor this summer.

The closing meeting of the Ladies' Guild was held at the parish house Thursday afternoon. The president, Mrs. Lloyd C. Nunn, occupied the chair. Some of the chairmen and committees for the annual two-day church bazaar and supper, to be held the latter part of October, were named as follows: Mrs. Lloyd C. Nunn, general chairman; Mrs. Peter R. Deckenbach, dinner committee chairman; Mrs. Horace B. Winship and Mrs. Sylvester Frazer, grocery booth; Mrs. Frederick Idenden and Mrs. Daniel H. Hyde, candy booth; Mrs. Annie H. Nelson, apron and towel booth; Mrs. R. H. Minion and Mrs. M. F. Apperson, gift booth; "Rebecca at the Well," Mrs. H. W. Mumford and Mrs. P. R. Smith; handkerchief booth, Altar Guild, Mrs. J. Harry Edwards; and cake booth, Girls' Friendly Society, Mrs. Herbert Ainsworth, Mrs. Martha Peck and Mrs. George A. Kelsall.

Ice cream and cake were served. Attention has been again called to the envelopes, in which it is hoped to save a "Mile of Pennies," this summer, with which to reduce the deficit appearing on the church books, when the pennies are presented at a parish rally in the fall. Sixteen pennies make one foot toward the mile. Friends should be asked to help also, as there may be some outside the parish who would be glad to do so. Then there are the "Aprons of Patches," (two of them) going the rounds of the homes of the congregation; and when one is received, please sew a patch anywhere on the apron, but place a coin under your patch, yes, "that's the catch in the patch!" Then kindly pass it on to someone else who will do the same. At the end of two months, the "patching apron" should be worth a considerable sum of money.

150 persons attended the annual Sunday school picnic on Monday. This year a new place was decided upon, Palisades Park, on the Hudson, where

a delightful day was spent. Special trolley cars left from in front of the church at 10:15, and returning left the park at 5 o'clock. Mr. Deckenbach was in charge, assisted by Mrs. J. Harry Edwards, John Westcott and Calvin Peck. A large number of adults as well as children were in the party.

"Sacrament" will be the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, July 8. The Golden Text is: "The bread of life is he which cometh down from heaven, and giveth life unto the world" (John 6:33).

Among the citations which comprise the Lesson-Sermon is the fol-

lowing from the Bible: Behold, I stand at the door, and knock: if any man hear my voice, and open the door, I will come in to him and will sup with him, and he with me" (Revelation 3:20).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Jesus established his church and maintained his mission on a spiritual foundation of Christ-healing. He taught his followers that his religion had a divine Principle, which would cast out error and heal both the sick and the sinning. He claimed no intelligence, action, nor life separate from God. Despite the persecution this brought upon him, he used his divine power to save men both bodily and spiritually" (p. 129).

WAKE UP YOUR LIVER BILE— WITHOUT CALOM

And You'll Jump Out of Bed the Morning Karin' to Go

If you feel sour and sick and the water looks muddy, don't exclaim a lot of size, it's your liver, bile, inactive and not working and expect them to make you suddenly feel good and full of sunshine. For they can't do it. They only move the bowels and a more movement doesn't get at the cause. The reason for your downy feeling is your liver. It should get out the pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You have a thick, bad taste and your breath is foul. Skin often breaks out in blotches. Your head aches and you feel lousy and out. Your whole system is poisoned. It takes these good, old CARLSBAD LIVER PILLS to get the pounds of bile flowing freely and out. They contain harmless, gentle vegetable extracts, amazing when it comes to melting the bile flow freely. But don't take for liver pills. Ask for Carlsbad Little Liver Pills, look for the apple Cart. Belleville County Leaguers Divide Week-End Bill

Hanley Stops Caldwell Following Orange's Easy Conquest

The Belleville tossers of "Mac" Lamb in the Essex County League split even over the week-end, coming back to trim Caldwell, last year's champions, 8-4, at Caldwell, Sunday, after having reached a 12-5 set-back at the hands of Orange, Saturday, at the Clearman Field grounds.

Mike Hanley pitched steadily and well at Caldwell, holding the home boys well in hand the whole distance. His mates backed him up to the hilt, knocking Phil Caruso, the former Barringer High School boy sensation out of the box and giving Hanley an 8-0 lead to work on in the first four innings. Tommie Dunn's fourth inning homer, his third straight hit, was the big blow for the Bell-boys, while Johnnie Daly caught Hanley in sensational style.

Johnnie Piccirillo's air-tight pitching and the hitting of Mullins featured Orange's win, Saturday.

Brightons Reorganize After Many Defeats

Lose To Bloomfield Cardinals At Belwood Park By 18-8 Score

The Brightons have made a drastic move in reorganizing a club which has put on a sorrowful exhibition of the national pastime, and the first move in their plans was the release of G. Bonnefond, Dopart, Matthews, Anderson, Reed and Fredericks. The only new member remaining is Tom Stockton.

Bitter wranglings have marked the career of the present aggregation, with sides being taken by the newer members against the older ones, and these feuds have even been carried to the playing field and have caused several of the locals' defeats. The club has won but seven of seventeen tilts, a sad state of affairs.

The latest defeat was inflicted by the Bloomfield Cardinals, and the score was 18-8. Stockton started for the locals, Fredericks followed and Dolph Caruso finished in good style. The winners made twenty hits, the losers fifteen, a total of thirty-three during the afternoon. Sohlgren and Billmeyer twirled for the winners.

Hank Caruso obtained four hits, as did his brother Dolph. Stan Dopart with three hits followed. Stan made the star play of the day, when with his back to home plate, and running out into deep center he made a great backhand catch of a liner labeled for extra bases.

The locals will play the Strand Cubs at 3 P. M. at Belwood Park, and the new outfit will display a better brand of baseball, something the fans have long awaited but have never seen thus far.
