Teachers Launch Kayak Here Planning Long Water Trip

Will Follow Inland And Coastal Route To Key West

Dipping their paddles quietly in the Passaic River, two vacationing school teachers Sunday shoved off from Belleville in an eighteen-foot kayak on a 1,500-mile inland water trip to Key West, Fla.

Following a winter's preparation during which they had studied maps and camping equipment, the pair, Charles Fisher, 712 South Seventeenth street, a teacher in Central Avenue School, and Leon Kvedar, 3 Washington parkway, Bayonne, teacher in Hamilton Junior High School, Elizabeth, lifted their sleek craft, such as Indians and Eskimos use, from the dock into the water at 10:45 a.m., high tide.

The teachers, who are carrying a tent, cooking utensils, a first aid kit and radio in their small collapsible craft, plan a summer cruise through inland and coastal waters, carrying the kayak through city streets when necessary to reach waterways. They have taken extra clothing along and a movie camera to obtain pictures for the basis of lectures next year. They plan to spend each night camping ashore. Monday they spent "on the banks of the Old Raritan."

They started down the Passaic

to Raritan Bay, up the Raritan River to the Delaware and Raritan Canal and down that to Trenton. There they portaged through the city.

From the canal they will enter Delaware River and paddle the Chesapeake and Delaware Canal, Chesapeake Bay to Norfolk, the A. & C. Canal into Albemarle Sound, into Pamlico Sound and on to Florida waters.

JACOBUS ASSISTS GLEE CLUBS AT WORLD'S FAIR

Local Director Had Leading Part at Court of Peace

Arthur E. Jacobus, director of the Belleville Glee Club, was one of the accompanists Saturday of North Jersey vocalists and musicians who played a leading part in the concert of 3,500 male choristers of the Associated Glee Clubs in the Court of Peace at the New York World's Fair.

A total of 655 singers from cities in Newark, suburbs and other parts of the New Jersey metropolitan area participated. One of the conductors was William Penn Bentz, Mountainside, and accompanists included, besides Mr. Jacobus, Belleville, Howard Kasschau, Newark, and Julius C. Zing, Asbury Park. B. Franklin Hart, Montclair, was stage manager. An encore selection, "John Peel," by Mark Andrews, Montclair composer and organist, was well received.

Sunday Carl Bannwart and Kasschau of Newark acted as conductors for a concert of the Glee Club of America.

SCHOOLS REHIRE ALL NON-TEACHING EMPLOYEES

State Board Ruling In Hood Case Set Precedent

The Board of Education has rehired all non-teaching employees for one-year terms, effective as of July 1.

Among those listed are Business Manager Ruel E. Daniels, non-teaching clerks in schools, the board's clerical staff and clerks in the office of Supervising Principal Wayne R. Farmer, janitors and maintenance staff.

The hiring of the non-teaching staff for a definite period was decided upon after the State Department of Education ruling in the dismissal of William H. Hood last year for illness. The state board ruled Hood was not properly dismissed in that his appointment was for no specific period and that, inasmuch as he was paid several weeks' salary in July, he was automatically under contract for the entire year.

Auto Hits Cyclist

Losing control of her car when some water splashed in her face, Miss Norma Fullerton, 126 Belmont avenue "Wednesday" struck John Renna, twelve, who was riding a bicycle on that street. The boy was attended at Columbus Hospital for abrasions of the ankle and elbow. Miss Fullerton told police a group of children was playing with a fire hydrant and turned it on as she was passing.

Big Ball On Crane Batters Copper Mill Into Past Tense

Charles Cuozzo Contract Must Be Completed In Forty-five Days

A crane to which may be attached a scoop shovel or 2,250-pound ball, five men, two of whom are welders and cutters, and a truck are making short work of the old Belleville Copper Rolling Mill, which is being razed to make way for a new modern Jergens Pharmaceutical plant which would employ between 1,000 and 1,200 persons out Soho way.

Charles Cuozzo, who holds the town garbage disposal contract, is in charge of the demolition process which started on June 15 and must be concluded within forty-five working days. For each day the contract lags thereafter Cuozzo must pay the town \$50 and for each day under the specified time the work is completed Cuozzo is to receive \$25.

Don't Worry

"Don't worry about the job being done," Cuozzo informed this newspaper. "We bid slightly over \$800 for the job and other bids ranged upward from six to thirty-seven thousand odd dollars. I am going to prove to a few skeptics that I am working in the best interest of the taxpayers."

It is evident, too, that Cuozzo plans to keep within his allotted time, for while much cleaning up remains to be done, the bulk of

the tearing down process is over. Sunday his crew, augmented by relatives and friends for whom Cuozzo has often done good deeds "turned in" and helped "pal, Charlie." Likewise on July 4 the same friends helped out and one of three smoke stacks which are to be leveled, fell.

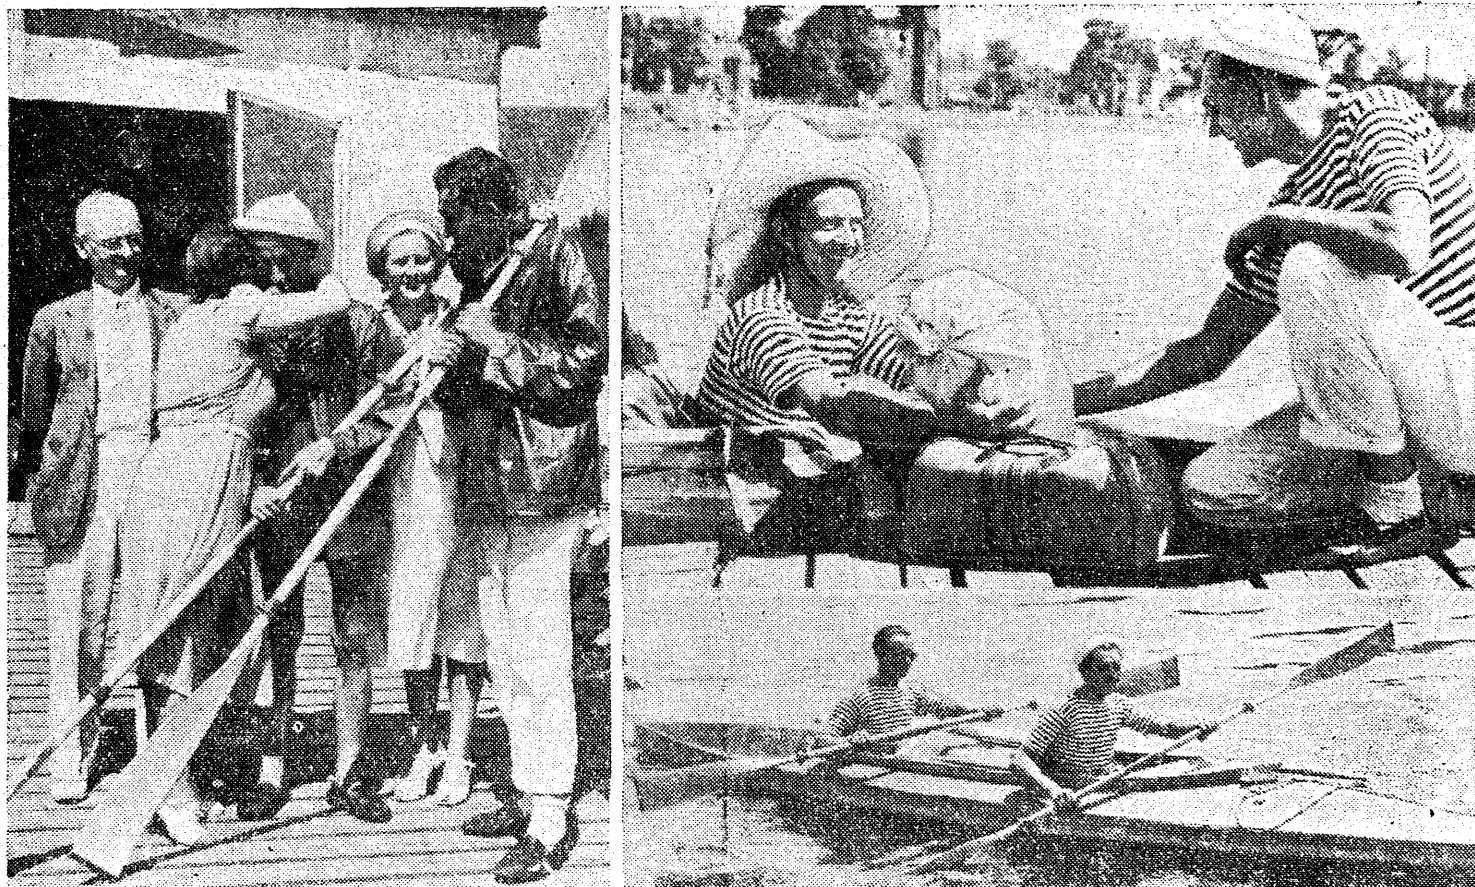

Director of Public Parks and Buildings Louis A. Noll is following the job closely, declaring he wants to see Cuozzo's bond. Noll claims Cuozzo showed him a bill from a bonding company, but as yet the bond has not been shown him or Corporation Counsel Lawrence E. Keenan.

"He doesn't have to worry about me," said Cuozzo. "This job is going to be done right. We'll see who is working for the taxpayers."

Noll says he does not intend to vote for payment for the job unless a bond is produced for fear of having "charges of malfeasance" in office brought against him. He says when the contract was awarded Cuozzo a bond was specified as one of the requirements for the performance of the work. Cuozzo hopes to make a profit from the job by salvaging iron, steel, copper, brick and lumber.

The Franklin Contracting Company has started work on the extension of Franklin avenue from Essex County Hospital. For Contagious Diseases to North Sixth street, Newark, and other stipulations of Jergens for improvements in the section are under way.

Start Long Paddle From Here

Bon voyage scene here Sunday as two New Jersey school teachers left for a trip to Florida waters via eastern inland waterways. Left, Mrs. Elvera Fisher, back to camera, bids good-bye to son Charles while Emery Fisher, the father, grins and Leon Kvedar, other member of the expedition, says farewell to his sister, Mrs. George Wirtz, Belleville. At right, bottom and top, Fisher and Kvedar throw their belongings into the transplanted Eskimo craft and paddle down the Passaic.

Why Smallpox?" Query Of Health Officer E. T. Berry

Local Official Lays Disease To Failure To Vaccinate

"According to reports received by the United States Public Health Service, the United States led all other nations of the world, except India, in the number of smallpox cases reported in 1937," says Health Officer E. T. Berry. "In that year, 11,673 cases occurred in this country, while in 1938 the disease prevailed to an even greater extent than it had in the preceding five years, and the number of cases increased to approximately 15,000. In 1936, according to reports of the Health Organization of the League of Nations, England and Wales, with a population of 40,839,000, reported 273 cases; France, with 41,906,000 population, reported 273 cases, and Germany, with a population of 67,346,000, reported no cases."

"Where and why is smallpox occurring in the United States? The answer to the first part of the question is given in the accompanying table, which shows the geographic areas in which the anomaly of smallpox prevalence still constitutes a challenge to health officers and enlightened public opinion."

Area	No. of Cases	Pop.	Cases Per 100,000 Pop.
New England	0	8,620,000	0
Middle Atlantic	100	17,484,000	0.6
South Atlantic	847	10,851,000	7.8
E. So. Central	1,506	13,021,000	11.6

"Some states have had no cases of smallpox for several years. An interesting comparison was pre-

sented recently in which it was stated that New Jersey, with a population of about 4,400,000 has not had a case for more than seven years, while the States of North Dakota, South Dakota, Montana, Idaho, Oregon, Wyoming and Utah, with a combined population less than that of New Jersey, reported during the same period a total of more than 12,000 cases.

Failure To Vaccinate

"The answer to the question why we continue to have smallpox is found in the three words—failure to vaccinate. One of the explanations—not excuse—for

BURNETT CONDUCTS RAID AT CLUB ON TOWN LINE

Hearing Today in Bloomfield on Late Closing

Club Evergreen, 7 Belleville avenue, Bloomfield, was raided Thursday night by Alcoholic Beverage Control agents and the proprietor and a bartender arrested on charges of serving liquor after the 2 a.m. closing hour.

Arrested were Frederick Bolinger, proprietor, who lives at the club, and Adolph C. Bachaus, 12 King place, Bloomfield police made the arrests after being notified of the violation by Agents Gold and Silverman. Bolinger and Bachaus were released in \$200 bail for hearing today before Recorder Huck.

this state of affairs is probably the comparative mildness of the disease in recent years and the reduction of incidence as com-

Eugene T. Berry

pared with that of fifteen or twenty years ago. Except in outbreaks of virulent type, relatively few persons now die of smallpox as compared with earlier years; and although authorities differ in opinion regarding the possibility of the malignant type developing spontaneously from the milder disease, past experience demonstrates that this possibility must be considered. In addition, there is always the danger that the malignant form may be introduced from outside our boundaries. In either instance the building up of a large group of non-immune persons by the neglect of vaccination presents an exceedingly serious situation. While it is to be hoped that a virulent type of smallpox will not again appear, we cannot rely on hope; for it must be remembered that the disease has, in the past, assumed epidemic propor-

tions and virulent form, as it did in Denver in 1921 and 1922, when 1,718 cases, with 285 deaths, were reported, and in Minneapolis in 1924, when 993 cases occurred, with 221 deaths.

"The experience of a Western state may be cited as a timely warning. Some years ago that state specifically prohibited compulsory vaccination. During the first twenty years following the passage of this law, approximately 3,000 cases were reported annually. This did not occasion any great worry or alarm, because the prevailing type of the disease was mild and few deaths were recorded. In the next year, however, malignant smallpox was introduced into the state, where there had grown up an unvaccinated population of susceptibles. Within twenty months 4,041 cases of the malignant disease occurred, taking 500 lives. It is reported that only seventy-two of these cases occurred among persons vaccinated within the preceding seven years and only one of these cases proved fatal. Of the other 3,969 cases about eighty-eight per cent had never been successfully vaccinated."

"The continued and increasing prevalence of smallpox, and the recent outbreak in an eastern state, in which the disease was believed to have been introduced by a non-resident traveler, should stimulate health officers and citizens with inquiring minds and concern for the public health to consider and apply the one specific preventive measure that will control the disease—vaccination. No other disease of mankind is so easily controlled. The efficacy of vaccination needs no further demonstration, and with modern methods this simple prophylactic procedure causes little or no discomfort. The cost is so small as to make it readily available and within the means of everyone. With a proper regard for, and the application of, this effective means of prevention, there is no doubt that smallpox can be eliminated from every section of this country," concludes Mr. Berry.

Police Rescue Five In Family As Fire Breaks Out In Store

Cruising In Radio Car Cruithers And Gross Note Blaze

Cruising in a police radio car early Sunday morning, Patrolmen Anthony Gross and Thomas Cruithers noticed smoke pouring from a window of the confectionery store of Mr. and Mrs. Michael Calabrese, 16 Bloomfield avenue, while the owners, their two children and Calabrese's mother, Mrs. Mary Calabrese, were asleep in rooms on the second floor.

While Gross ran to sound an alarm from a nearby fire box, Cruithers obtained a ladder from a neighbor, John Carsillo, 10 Belmont avenue, placing it against a wall under one of the second story

windows. The patrolman climbed the ladder, Gross carrying the seventy-five-year-old grandmother to safety. Other members of the family descended the ladder unaided.

The Calabrese children are Peter, seventeen, and Theresa, fourteen.

The fire, which was discovered shortly before 3 a.m., was quickly extinguished with slight damage to the store. The cause of the blaze remains undetermined.

WATER PRESSURE BUCKLES WALLS AT STADIUM

Filled-In Section Flooded By Storm And Broken Main

Flood waters Friday, augmented by water from a two-inch main which burst leading to the stadium under construction at the Turf Bog resulted in sections of the concrete stands cracking and bulging so badly that portions will have to be removed.

The torrential downpour and broken main poured tons of water into filled-in earth between the rear and middle concrete walls. The pressure, it is said by Town Engineer Matthew Sheehan, was so great it caused the concrete to give. The Government officials, he added, have looked over the situation and authorized the town to take down whatever concrete is necessary and rebuild it. The government will pay for the concrete.

Activities of Belleville Lodge, 1123, Benevolent Protective Order of Elks

By Joseph McGrath

Compliments and praise from persons who used the Elks' grandstand to view the recent centennial and Flag Day parade continue to pour in and to whom, do you think, should go a pat on the back for the thought to provide seats for the public? Philip Hargrave (Philly) to the boys, considered by many as one of the best mixers of drinks in the state. Yes, sir, if you have any trouble with one of your favorite concoctions, drop in to see if Phil cannot straighten you out.

Even though he is secretary here and treasurer there and an all-around printing business executive, Raymond Yerg manages to attend the Board of Governors meetings on Thursday evenings, always offering some constructive help to the club.

Shortly, hammers, saws, paint brushes and whatnot will be transforming the Elks' grill into one of the "classiest" places in the state. The trustees are now going over plans and, when completed, even the regulars will hardly recognize their second home.

Recently a Belleville man said: "I have been in this town thirty-five years. Never has an Elks approached me to join the organization. They must think I am an outlaw."

An Elk replied: "No, my dear man, this certainly is not true. It is, men such as you who should be Elks. Rarely do Elks solicit members and why this is so remains a mystery."

A Salute

TO YOUR SUMMER HEALTH

THIS seems to be a season of firecrackers, torrid weather, and 21-gun salutes in honor of everything. Just to keep in the spirit of the occasion, we want to send up a sky-rocket (with noises) in honor of a very worthy cause—your health. Without health it's impossible to enjoy the other blessings to be found in this old world of ours. And we know of no better way to guard it than to eat fresh, properly preserved foods combined in a balanced diet—the kind made possible through the good offices of automatic electric refrigeration.

With electric refrigeration at your disposal it is possible to have tempting food and drink the year around. Convenient ice cubes are instantly available. Increased storage space at scientifically determined temperatures makes it possible to save money by buying larger quantities of food at bargain time and storing it until used. Electric refrigerators may be operated for a few cents a day and are designed for many years of service. For added information about the advantages which electric refrigeration will bring to your home, consult the nearest electric appliance dealer or ask one of our representatives to call.

CHURCH WEDDING

The marriage of Miss Nellie Hedwig Geiger, 1 Essex street, daughter of Mr. and Mrs. Frederick Geiger, Kralruhe, Germany, to Leonard John Golon, son of Mr. and Mrs. John Golon, Harrison, took place Saturday evening in Christ Episcopal Church, Washington avenue, at 7:30 p.m. Rev. Peter R. Deckenbach, pastor of the church, performed the ceremony at the chancel which was a spot of beauty with its white gladioli, white peonies, palms and candles.

The bride wore a gown of ivory satin fashioned with a tight fitting bodice, heart shaped neck, around which there was a spray of orange blossoms, long tight fitted sleeves coming to a point at the back of the hand, full skirt, and a long train. Her long tulle veil of illusion was shirred to a coronet of orange blossoms. She wore a gold cross on a golden chain. She carried a white lily. She was given in marriage by a friend of her father's, Eugene Ehliedner, Newark.

Miss Elsie Geiser, East Orange, was the bride's maid of honor. She wore a gown of champagne tulle and tulle fashioned with short puffed sleeves, V-neck and full skirt. Her finger tip veil was attached to a spray of orchid flowers. She carried a bouquet of mixed flowers. The bridesmaids were gowned in orchid tulle and tulle. They were Miss Katherine Kretzmar and Mrs. Stanley Golon, Kearny, a sister-in-law of the bridegroom. Miss Helen Bush, Elizabeth, and Miss Alice Lynas, Belleville, wore gowns of tulle and tulle pale orchid. The gowns of all attendants were on the same style as the maid of honor. Their finger tip tulle veils were attached to sprays of champagne flowers. They all wore gold crosses on gold chains and silver slippers, carrying bouquets of mixed flowers. The flower girl, Marlene Miller, six-year-old daughter of Mr. and Mrs. George Miller, Belleville, was dressed in pink tulle and tulle, and wore a pink poke bonnet, and carried an old-fashioned bouquet of roses and corn flowers. Her brother, George, Jr., ring bearer, was dressed in white satin. He carried the ring on a heart shaped satin pillow.

Stanley Golon, Kearny, was his brother's best man. Ushers were Thomas G. Lynas, John Lennox, Meinhand Kretzmar, Belleville, and Robert T. Houdley, North Arlington. After the ceremony there was

a reception at the Swiss Yodel Club, Irvington.

Following the reception the couple left on a motor trip. Upon their return they will live in Belleville.

MARRIED

Miss Virginia Fernicola, daughter of Mrs. Vincent Fernicola and the late Vincent Fernicola, 131 Passaic avenue, became the bride of Bredus Bradley, North Newark, at a five o'clock wedding at the Holy Family R. C. Church, Nutley, Sunday afternoon, June 24. Father O'Connor officiated at the ceremony.

Mrs. John Balcato, Newark, was matron of honor. Her bridesmaids were Miss Louise DeRose, Newark, and Miss Natalie Savage, 544 Joralemon street. The best man was John Balcato, Newark. The ushers were Victor Fernicola, brother of the bride, and Robert Doyle, Belleville.

The bride wore a gown of marquisette made with sweetheart neck, short puffed sleeves, tight bodice, full skirt and a train. She wore a three point crown which was caught at the back with a long court train. Her bridal veil was of tulle of illusion and of finger tip length. She carried a shower bouquet of white roses, white sweet peas and valley lilies.

The matron of honor wore a gown of peach net with blue slippers, blue mitts and a natural leghorn hat trimmed with peach ribbon. She carried a shower bouquet of blue delphinium, blue sweet peas and peach gladioli from which there were blue ribbons streaming. The bridesmaids wore blue net with peach slippers, peach mitts and natural leghorn hats trimmed with blue ribbons. They carried bouquets of peach gladioli, blue delphinium, blue sweet peas from which there were peach ribbons streaming. The attendants' gowns were made similar to that of the bride, but theirs were without trains.

After the ceremony a reception was held for the bride party, relatives and friends at the Globe Restaurant, Newark.

What A Wonderful CONVENIENCE and ECONOMY!

Think of it! A checking account without ever having to worry about a minimum balance.

A checking account in which you pay only a trifling charge for each check you draw and each item you deposit.

A checking account that gives you the conveniences of a checkbook and eliminates all the embarrassments of having to ask others to write checks for you.

A checking account that means no more bothering with money orders (and a money order for \$10 costs you TWICE as much as a CheckMaster check for any amount.)

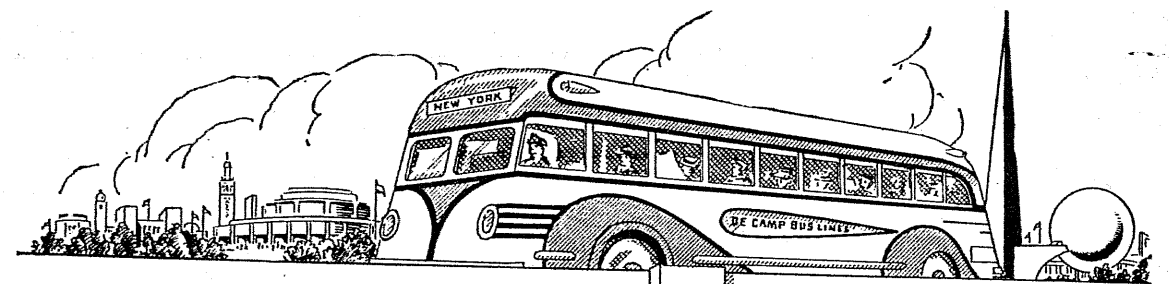

In every way, the CheckMaster Plan solves your personal banking problem. Your CheckMaster check looks just like any other check.

THURSDAY, JULY 6, 1939

TIME GOES ON

Watching workmen demolish the old Belleville Copper Rolling Mill out in Soho brings a slight tug at the heart strings. One cannot help but conjecture on the hard work that went into the making of that old mill that is finding its niche in the past tense. The sturdy old walls and some hand hewn beams attest to the labor that was required when the Hendricks family struggled 100 years ago to establish the copper business here. Belleville in those days was a farming community. Today — well, maybe it is progress that has changed it to a metropolitan suburban town. But we are just sentimental enough, or maybe we are getting older, to say: progress be hanged.

Give us the old chestnut trees from which we stoned and clubbed burrs. Give us the old waterfall — the one down by Tiffany's where we learned to swim. If we can't have it in fact we are going to stroll once again fancy free along the old Morris Canal and let our mind wander back to a stroll on a Sunday through the woods hard by the old Hendricks' property where we first heard the oriole sing and watched a brown and white spotted, pretty little thrush fly by.

We realize that progress must continue, but cherished memories are not easily blotted from mind. No truer word of mouth or pen:

Backward, turn backward,

Oh, time in thy flight,

Make me a boy again—

Just for tonight.

Dream as we will as time flits, it will only seem brief when Jergens' proposed modern plant will be razed for progress in the years to come. Truly time marches on.

NO CELEBRATION

Belleville once again had no July 4th municipal display of fireworks.

This is too bad.

While all around us our neighbors were celebrating, Belleville was deadlier than a door nail. There are many reasons for this. One is that those in the past, who stirred up enough enthusiasm for a fireworks display, have given up the plan because they feel their efforts have not been appreciated. Their idea is that there are others who may take up where they left off.

Whatever the reason, Belleville should have sufficient civic pride to get in step next year for a real celebration. There should be a complete program for the day. Parents owe it to their children to assist any committee that starts the ball rolling.

AMERICAN FRONTIERS

Any supposition that the day of the American frontiersman has passed is quite incorrect.

An official master map of the United States has disclosed that there are 503,000,000 acres of unchartered lands in the continental United States and in Alaska. Motion pictures have dramatized to a great extent the men and women who pushed back the frontiers to the westward, but the modern day frontiersmen are those who are heading for Alaska. The day of adventure has not passed by any means.

OPEN ALL YEAR

Enrollments for summer courses conducted by most of the nation's larger universities are generally high, in many instances breaking all records for formal summer study. The courses offered are many and varied. Columbia, for instance, offers 1076. Students are drawn from the country as a whole.

Not many years back schools and colleges closed their doors in June, not to open them until September. Education, however, is not limited today to any certain span of months and the make-up of these summer enrollments prove it is not limited to any one section or age-group.

ON THE JOB

Every once in a while some startling event receives publicity showing how alert are two branches of Belleville's official family. This time it remained for two radio patrolmen, cruising Sunday about Silver Lake in a police car, to discover, early in the morning, smoke pouring from a store above which the proprietor, his wife, two children and a seventy-five-year-old grandmother were asleep. The police acted promptly — sent in a fire alarm, obtained a ladder from a neighbor and led the family to safety down it, carrying the grandmother. The firemen were on hand pronto and damage from the blaze was slight. All in a day's work, you may say. Well, yes, but try to picture a tragedy, if you will, had the policemen, Thomas Cruthers and Anthony Gross, not been wide-awake and on their toes. This bears out a pet theme of ours — that while you sleep Belleville is well protected by the boys in blue and the smoke eaters.

EXPLORE YOUR ATTIC

Many families must be the possessors of valuable securities and are entirely unaware of it. The Treasury Department has announced that there are \$65,000,000 worth of overdue securities, including issues made as far back as 1791, in George Washington's time.

There is a fortune awaiting those holding securities issued in the Civil War and which are outstanding, while \$3,241,782 worth of thrift and Treasury savings stamps, purchased mostly by school children in World War days, should be cashed in. It might prove highly profitable to explore the attic and old bureau drawers. Some of these securities and stamps must be in homes right here in this section.

SUCCESS, AS WE SEE IT

When we think of success we must not only think of ourselves. We must consider the greatest good to the greatest number. No man or woman ever climbed the hill of success alone. To be a success along any line of endeavor we must be in harmony with our fellow men. If not, that which we dignify by the name of success will only be a mockery — a feast ready and garnished at which the candles have burned low and the invited guests have failed to come.

If we want to succeed in the world we must make our own opportunities as we go on. The man who waits for some seventh wave to toss him on dry land will find that the seventh wave is a long time coming. We can commit no greater folly than to stand by the roadside until some one comes along and invites us to ride with him to wealth or success.

SWIFT FLIGHT

The world of science seems to be moving at an accelerated rate of speed these days. In medicine, chemistry and other fields the discoveries of yesterday seem to be almost immediately outdated by the discoveries of today.

For example, we have been intensely interested for the past two or three years in the progress of construction of the new 200-inch telescope mirror, which will solve many of the problems of the universe when it is mounted on Mt. Palomar in California. Scientifically, it is one of the newest things under the sun.

Yet, before it is even mounted, science, in its swift flight, has discovered a new form of glass — a glass which will not be affected by the expansion and contraction caused by heat and cold.

The great telescopic eyes of the future are already planned before that of the present is in action.

A HEALTHY YEAR

One of the leading insurance companies finds the first five months of 1939 shows a better record than for a similar period in 1938, which was a banner year in the matter of health records. From January to May this year there have been declines noted in the mortality rates of the eight major diseases — tuberculosis, pneumonia, puerperal conditions, chronic nephritis, appendicitis, diphtheria and scarlet fever.

The results of the insurance company's survey indicate that in 1939 we may improve appreciably over even 1938. To the science of medicine, public health authorities and a better informed public must go the credit for such an excellent showing.

QUEEN'S FLOWER

Of all the blossoms that were presented to Queen Elizabeth on her American and Canadian tour recently, the one which she liked the best was the camassia, a wild hyacinth, which grows in the Canadian Rockies. Womanlike, she found that its color matched the blue of her eyes. As a result, a collector in that region is getting together many of these plants, so that they can be planted in the royal gardens of England, to remind a gracious lady in the years to come of her visit.

Two tickets for the Capitol go this week to Mrs. Hugh Clark, 55 Bremont street for a delicious recipe.

Macaroon Custard

1 pt. milk
2 eggs
1 1/2 tablespoons gelatin
1/4 teaspoon salt
2 tablespoons heaping of sugar
1 teaspoon vanilla
1/2 cup cold water
1 lb. dry macaroons

Heat milk in double boiler, add beaten eggs, sugar and salt and cook until smooth and the custard coats the spoon. Add the gelatin

Process of Toppling a Smoke Stack

Left: Start of operation—Center: Slightly tipsy. Right: It's all over.

Belleville passed a quiet July 4 so far as fireworks were concerned, but Charles Cuozzo, who is demolishing the old Belleville Copper Rolling Mill in Mill street, provided some excitement.

For the edification of a few friends and passersby Cuozzo at 4:30 that afternoon toppled one of three giant smoke stacks. At the left the stack is shown as it appeared at 4:20. A few seconds later it resembled the middle picture as cables cut through the stack at the base. A tractor pulled taut the cables to provide the cutting process. Also in the middle picture it will be noted that the cylindrical exhaust seen at the top left of the left hand picture has disappeared from the roof. When the middle picture was taken the stack had just started to topple toward Mill

which has been soaked in cold water, dissolve and strain into the custard. Add flavoring. Mould and chill. Roll macaroons fine and when ready to serve take custard in spoonfuls and roll in powdered macaroons. Serve with whipped cream which has been sweetened and flavored with a little vanilla. Garnish with fresh fruit or berries.

Mrs. Charles Everson of 314 Greylock Parkway also receives two tickets for a quickly prepared dish called

TWO PRIZES EACH WEEK —FREE TICKETS TO CAPITOL THEATRE FOR THE BEST RECIPES PUBLISHED.

Write out in full such words as "tablespoon," "teaspoon," "cup," "pound," "ounce," etc. Use numerals for such words as 1, 1/2, 3/4, etc., when referring to quantities.

1 small onion chopped fine
1 1/2 teaspoons salt
1 egg
2 cups milk
3 tablespoons chopped pimientos
1 teaspoon chopped parsley
2 cups canned or fresh cooked shrimp
3 tablespoons flour

Cook the shredded green pepper and the mushrooms in the butter for five minutes. Then add the chopped onion, flour, salt, pimientos, parsley, seasoning and shrimp. Heat gently about two minutes then add 1 1/2 cups milk gradually, while stirring constantly. Continue cooking until thickened. Then add 1/2 cup milk to which the beaten egg has been added. Heat well and serve on toast.

Miss E. Jeanette Donnelly

Mr. and Mrs. Clarence M. Donnelly, 32 Montgomery place, gave a family dinner in their home Sunday for their daughter, Miss Evelyn Jeanette Donnelly, whose engagement to Edward Vernon Boob, Jr., son of Mr. and Mrs. Edward Vernon Boob, Bloomingdale, has been announced. Miss Donnelly is a graduate of Belleville High School and her fiancé of Butler High School.

"Juarez" Now Showing At Capitol

The feature attraction at the Capitol Theatre for Sunday, Monday and Tuesday is the laugh hit "Kid from Kokomo" featuring Pat O'Brien, Wayne Morris, Joan Blondell, May Robson, Jane Wyman and Stanley Fields. On the same program Annabella and Robert Young are featured in a romantic comedy "Bridal Suite." Tuesday matinee for the kiddies' program the Mauch Twins are seen in "Sons of the Plains" in Technicolor, plus Chapter Two of "Daredevils of the Red Circle." Starting Wednesday for four days, the theatre features "Juarez" with Paul Muni and Bette Davis (both Academy Award winners) making film history in the dynamic story of Mexico's struggle for democracy. "Juarez" proves that facts of history can be woven into moving, compelling drama without once deviating from authenticity. It is three stories in one: it tells first the story of intrigue by which Napoleon III, Emperor of France, sought to make a puppet empire of youthful Republic of Mexico; it tells, collaterally, of the tragic fate of the puppet emperor and empress, Maximilian and Carlota, whom Napoleon made his hapless pawns; and it tells the inspiring story of the young republic born from the clutches of the imperialistic thieves which was waged by its president, the doughty little Benito Pablo Juarez, born a humble Zapotecan Indian but now revered as the "Abraham Lincoln of Mexico." The picture is a contribution to the liberty-loving peoples of the world. Included in the cast of 1188 players are Brian Aherne, John Garfield, Claude Rains, Gale Sondergaard, Donald Crisp, Joseph Calleia and Henry O'Neill. On the same program is the story of a woman who is a "Boy Friend."

CARDINALS WIN AT PATERSON BY 3-2 SCORE

St. Anthony's of Silk City Are the Victims

The Cardinal A. C. travelled to Paterson Sunday to defeat the strong St. Anthony's H.N.S., 3-2. The Cardinals, although outthit, took full advantage of all the breaks and made each hit count. The locals drew first blood in the third frame when Richards walked and went to second on a passed ball. McKay then came through with a hit to score Richards with the first run. In the fourth inning Barbatto singled to start the H.N.S. rally. A sacrifice put him on second when he scored a moment later when VanDyke made a wild throw to first. McGoldrick followed with another hit to score P. Dardia and put the H.N.S. in the lead. The Cardinals, however, came back in the next frame to score twice on a walk and two hits. This completed the scoring as neither team was able to get a man on base for the remainder of the game.

Martin played beautiful defensive ball for the Cardinals, making several nice plays on hard hit balls. McGoldrick was outstanding for the losers both at bat and in the field.

The Cardinals were idle Saturday due to the failure of the Ballentine Bruins to show up for a game at their field. Sunday's contest was a last-minute substitution for the North Plainfield White Sox, which team had recently disbanded.

Runs batted in: VanDyke, McGoldrick, G. McKern, J. Brown, VanDyke, 2; Pignataro, 2; Dunn, 1; Strickland, 1; Barbatto, 1; Walker, 1; Richards, 1; Barbatto, 1. Losing pitcher: Barbatto, 4.

Nereid Junior Quad Triumphs By Three Lengths On Schuylkill

Beats Fairmont, Crescent And Pennae; Intermediate Double Second

Special to The Belleville News

Philadelphia, July 4 — The Orange & Blue of Nereid Boat Club, Belleville, N. J., was again hoisted in victory in the annual Peoples' Day regatta held on the Schuylkill River here this afternoon.

Nereid's great junior quadruple shell rowed over the historic course in one of the best rowed races of the day to brush aside the challenge of three of the best crews in the east. Fairmont, Penn. Athletic Club and the Crescent Boat Club trailed along behind.

Another surprise was the excellent stroking of the light Nereid intermediate double shell, with Darrell Zink at stroke and Al Walker in the bow. The Nereid double pulled up from a bad last at the mile mark to come within a half a length of catching Penn A. C. These two crews left the rest of the field far behind.

The Nereid showing in this race was all the more startling since Walker and Zink are lightweighters and were forced to compete against men averaging 25 pounds more than they.

Homer Zink, rowing in the sen-

ior singles, found the competition of three former national champions too fierce and was forced to follow them across the line. Ervin Everson fell ill in the middle of the intermediate singles and had to withdraw.

Along Boathouse Row

But along Philadelphia's famed Boathouse Row tonight the talk is all of the Nereid junior quad: William Jones in the bow, Sidney Salomon at number two, William Fehon number three, and Dr. Brainerd Swain in the stroke seat.

The quad was unable to bring its own boat to Philadelphia, so borrowed one from the Malta Boat Club of this city. They had only one day's practice in the shell before today but the way they came over the course they might just as well have been rowing the craft for years.

All four boats started evenly and passed under the trolley bridge a quarter-mile down the course almost together, although Nereid trailed the other three.

Then the Nereid power opened up and, with long, smooth strokes, soon drew up to and passed the leaders. The last three-quarters of a mile it was Nereid all the way. The Belleville boys won going away by margin of three boat lengths. Their time was seven minutes and 40 seconds with the second boat twelve seconds behind.

pert Thompson, an outfielder, both hit well and have added considerable batting power to the Bears' offense. Hughes has played at shortstop for Newark and was recently switched to third base. In addition to playing in rightfield, Thompson has also played at first base since his arrival here.

Harold "Ty" Wagner, a catcher, was obtained on option from the Philadelphia Athletics. He is a recent college product. He played at Duke University in 1937 and was a battery mate of George Barley, Bears pitcher, at the Carolina school.

Blair Ready

Buddy Blair has practically recovered from his injury to his knee sustained last season and has been added to the active list. Blair, an infielder, presents another problem to Manager Neun. Hughes, playing at third base, Blair's regular spot, is hitting the ball at a .410 clip. Blair will be retained currently in the capacity of a pinch-hitter.

Hank Borowy, Bloomfield's contribution to the International League, has almost conclusively won his "spurs" in AA competition. Despite the fact that he inherited the uniform, No. 22 of Marius Russo, the hard-luck rookie, who after a brief stay with the Bears this year was shifted to the N. Y. Yankees, Borowy has won three consecutive games. He lost his first start, 2-0 in true Russo form.

Bears Return July 20

The Baltimore Orioles are listed for the first series of next Newark home stay. Jersey City, Buffalo, Toronto, Montreal and Rochester follow in that order.

A new lightweight fibre helmet for use in night games particularly has been introduced into the International League. Made of a black shiny material and padded with sponge-packed soft leather, the protector covers the vulnerable parts of the player's head and is not as cumbersome as the crash helmet style of cap originally suggested.

Mike Chartak, a leading hitter early in the season, who fractured his leg sliding, has had the cast removed and is expected to be in action when the team returns home.

Snoop's Snoops

The new president of the Belleville Lions Club, Clarence R. Lomax, certainly must have a very efficient and able press agent. His picture appeared in the Belleville News, the Newark Evening News and the Newark Sunday Call. We have heard from different sources that his photo is flattering, but the Lions received some much deserved publicity.

Bright and early last week A. Kelly McBride, coach of the Belleville High School basketball team, packed his bags and moved on to his summer home in Astabula, O. "Mac" is reported as saying he intended to do a considerable amount of fishing in the lakes and in all probability will find time to visit the Rideau chain of lakes in Ontario, Canada, to make a try for some great northern pike.

Frank Smith, coach of the High School football team, has also left town to spend the summer at his home in Massachusetts. Frank will need to do a lot of work during the summer and paper work to be able to figure out some means for his football team to win the majority of a very tough schedule that has been arranged.

The directors of the North Belleville Building & Loan Association had quite a gathering at the Forest Hill Field Club last Thursday, where the losers of a recent contest for new shares put on a dinner to the winning team which was captained by William Abramson. The president of the Building & Loan, W. D. Clark, director of public safety, acted as toastmaster and again repeated one of his nationally famous pieces of poetry.

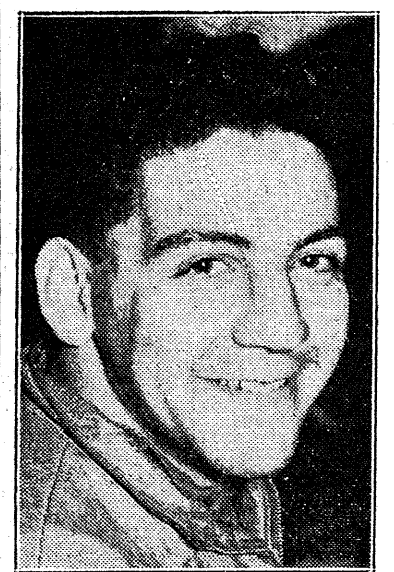

We see that Hugh D. Kittle, principal of Belleville High School is sporting a new Oldsmobile. We are not sure whether Hughie has left town, but saw a red canoe parked on the top of the car the latter part of the week and he was making tracks for Pennsylvania.

Have you been in the neighborhood of the Belleville Copper Rolling Mills plant? The WPA is certainly making fast work of demolishing the building so that they will be ready very shortly
