

Hartley Offers To Debate Mayor On Town Hall Steps

The primary battle between Congressman Fred A. Hartley Jr. and Mayor Williams for the Republican nomination for congress winged off to a flying start this week with Hartley losing no time swinging back at Williams after it was announced by Clean Government that they would run the local public official.

Hartley yesterday issued a statement in which he offered to debate both Williams and Arthur T. Vanderbilt, recognized Clean Government leader, on the front steps of the local town hall on the congressman's record in office.

In his opening statement of the campaign, Williams labeled Hartley as a "has-been" and stated that he felt sure that the people of this district wanted to end Hartley's 14-year reign as representative from this district. He charged that Hartley had done everything to block America's effort to help England in the war. He further charged that the congressman had associated himself with groups that "were not constructive from the American viewpoint."

"Ain't What He Used To Be"

Following a full over the weekend, Hartley blasted the mayor in a statement in which he accused Williams of "treacherous and scurrilous lies." Labeling the mayor as treacherous as the Jap at Pearl Harbor, the congressman said that there was no public official in his district who had asked for and received more favors from him than had Williams. He added that Williams "in his lust for greater office which is well-known has become the stooge for that Short Hills dictator, Arthur Vanderbilt." As a final quip, the congressman added: "The old gray mayor ain't what he used to be."

In yesterday's release in which he offered to take on both Williams and Vanderbilt in a debate, Hartley stated:

"Boss Arthur T. Vanderbilt, who neither lives nor votes in the 10th congressional district, has precipitated a battle in the district this year by having one of his stooges, Mayor Williams of Belleville, oppose my renomination in the primaries.

"This is a deliberate attempt to purge, engineered by the Short Hills dictator, of certain elements which also hail from outside the 10th district. They have not troubled to learn the wishes of the voters of the district, or the sentiment and judgment of responsible party leaders in the area. Vanderbilt is simply imitating his Democratic prototype from Jersey City, except that by this arrogant demonstration of his power over the party he is trying to out-Hague Hague.

"I know that the rank and file of the Republican party is not behind this attempted purge, and there is no guesswork about that. My mail, my telephone and personal contacts everywhere in the 10th district furnish me with full and complete proof that the great body of Republican voters approve of my course in congress, and have no desire to experiment with our nation's policies in this critical hour. Especially is this so where the purge is tried in order to gratify the ambition for power of a political martinet such as Vanderbilt has become, and to satisfy the craving for vengeance by the outside element supporting him.

Compare Record With Others

"Without doubt I shall be attacked in this campaign on the basis of my course in Washington, and that is well. For I hereby request Mr. Vanderbilt to publicly compare my record in congress with that of the entire New Jersey Republican delegation—and I defy him to show that I have record differs substantially from my colleagues with respect to the foreign policy of the United States. And I defy him further to state why I alone have been selected for purging from the congressional delegation.

"I stand ready at any time to debate any or my stooges in any public place in the 10th district—including the front steps of the Belleville town hall. And I guarantee that I will drive their lying, underhanded insinuations down their throats with conclusive, documentary proof from the congressional record and the files of the war, navy and justice departments in Washington."

Twenty-four hours after he had told The Times that he knew nothing officially about his candidacy and that he had not made any efforts to inquire in Clean Government headquarters, Williams is opening his campaign in

FIRST "INCIDENT" TEST IS PLANNED FOR NEXT WEEK

Defense Council Orders All Units Out For Thursday Night

The civilian defense organization is scheduled to be put through its first of a series of "incident" tests to determine its efficiency and sound out weak spots next Thursday night. Every member of all units in the setup is expected to be at posts by 7:30 p.m. The tests are scheduled to continue until 9 p.m.

Defense Coordinator Harry J. Sullivan will be in charge and is now plotting on the series of "incidents" which will give virtually every unit an opportunity to function and demonstrate whether it is prepared for an actual air raid or not.

Both the police and fire departments will cooperate with the defense council in carrying out the affair.

At Monday night's meeting of the council, Defense Chairman Everett B. Smith said that he was most anxious to get the "incident" series started believing that it was time that the defense organization was moved from paper in to the actual test of its ability to function properly.

A number of municipalities in this area have been holding tests for the past two months, and experts from the state defense council have been witnessing their work and rating their efficiency and making recommendations for improvement of work.

Sullivan hopes to whip the local organization into shape so that it will shortly be ready for scrutiny by state council representatives.

Must Be On Duty

It was stressed that it is important that every volunteer be on duty, and unit chieftains were urged at Monday night's meeting

Test Is Off If There's Rain Or Blackout

If the air raid alert should sound next Thursday night before or during the "incident" test, it will supersede the test. No siren will be sounded at any time during the series of "incidents," but defense officials pointed out that it would be possible that the two-state blackout test, embracing New Jersey and Pennsylvania, would be called at that time.

L. rain should start before 7 p.m. the test will not be held, but if it is still clear at that time the test will be held although it may rain during it. The fire alarm signal for no school, 14, will be sounded if the "incident" is to be postponed.

to be sure that every member of their organization is notified of the date and hour with instructions to be prepared.

In a typical "incident" test, a householder who has previously been given an envelope is told to open it and take it out on the street and hand the card in it to the warden who is on duty. The card may state that the householder's home has been hit by an explosive bomb. The roof has caved in and three persons have been injured, one seriously. A fire has started. The warden, as he would in actual raid, proceed immediately to the nearest post telephone and calls the control center at town hall, describing the extent of the damage so that those in charge at control center know which emergency units to send immediately to the scene of the "incident." In a case such as the one just named, the services of the police and fire reserves, in addition to the regular fire department, demolition, rescue and repair crews and first aid ambulance crews might be required.

Wardens Must Observe

The warden must observe how quickly each unit arrived and prepared to go about their work. He must make a detailed report of the "incident" to control headquarters.

It is likely that more than one "incident" will take place at one time, thus requiring the control center to split up the various crews which would be called.

Sullivan said that it would be impossible to give every unit in every section something to do in the first test, but emphasized that every person must be on duty for they do not know when their section may be called upon to answer an emergency.

All rules and regulations which would prevail in a blackout test, except the halting of traffic, will hold during the test in the area in which the "incident" occurs, Sullivan said.

Songbooks Are Listed

This week the public library stresses song with the following volumes, for those who like to sing both old and classical favorites:

Songs: America Sings, Van Loan; Everybody's Songbook, Dore; American Songbook, Sandberg; Famous Songs and Their Origins, Geller; Songs of Yesterday, Jordan; Rolling Along In Song, Johnson; George Gershwin's Song Book, Wasserman; Treasury of Gilbert and Sullivan,

Board Isn't Drafting Men Married Before Pearl Harbor

The draft board members were quick this week to correct the impression given in The Times story last week that married men were being called locally without respect to the time when they were wed. It was made clear by the board this week that men who were married before Pearl Harbor and since then have been divided into two groups. Those who have been married since December 7 are the only ones who are at present subject to induction under the board's interpretation of regulations.

The largest group to leave town for army service was inducted on Tuesday morning. The majority who were accepted immediately took the two-week furlough granted by the army to straighten out their personal and business affairs.

Among those accepted was Fireman Joseph B. Oldham of 132 William street. At Tuesday night's commission meeting, the commissioners approved Public Safety Director Clark's recommendation that Oldham and Frank Rovell, electrician in the signal department, be given three months' pay. Rovell has enlisted in the air forces.

DRISCOLL LICENSE ORDER DELAYED

Town Fails To Act On Nappa Case Because Of Letter From Tax Dept.

Although there was an order from State Alcoholic Beverage Control Commission Alfred Driscoll instructing them to immediately issue a liquor license to Mrs. Santa Nappa for premises at 14 Belmont avenue, the town commissioners failed to act Tuesday night because of a last-minute request from the liquor division of the state tax department.

Mrs. Nappa had scored a victory over the town before Driscoll when she appealed the town's refusal of a license for the Belmont avenue location. Driscoll ordered the town to grant the license.

At Tuesday night's meeting, the name of Anthony Picone, an entirely new one, was injected into the matter. The tax department stated that either Picone or the estate of Florence Core selling the tavern to Mrs. Nappa, which one was not made clear, had failed to file monthly beverage reports with the department and requested the commissioners not to issue the license.

Mrs. Nappa's attorney, Max Simon, argued that the board should comply with the order from Driscoll. However, both Mayor Williams and Commissioner Waters, who has most strenuously objected to granting the license, contended that no action should be taken until the matter was cleared up with the two state offices.

Yesterday afternoon no decision had been made by the ABC on the latest angle.

On July 1, the commissioners refused to grant Mrs. Nappa's application for the transfer of the license for the Belmont avenue address and also for a license for the new fiscal year for liquor stores and taverns beginning on July 1.

With Commissioner Waters absent, the board voted unanimously to turn down the application after two conferences among the commission members and phone conversations between Mayor Williams and Waters who was understood to be unable to attend because of work.

When the application was first presented early in June, Commissioner Waters voted that it be tabled for three weeks to permit investigation. At the June 30 meeting, Williams said that it

RALLY TO BOOST WAR STAMP SALE CRAFTSMEN PLAN

Affair To Be Staged Sept. 19 At Stadium; Stamps Will Be Admission

A huge war rally to make Belleville citizens more war bond and stamp buying conscious will be sponsored by the Belleville Craftsmen's club at the municipal stadium on Saturday afternoon, September 19.

With plans still in a preliminary stage, the feature of the afternoon will probably be a softball game between teams representing the Craftsmen and the American Legion post. The former issued a challenge to a veterans post this week and a reply will be received shortly, it is expected.

The cost of admission to the stadium will be a defense stamp at 25 cents, or if the purchaser wishes, a greater amount of defense stamps or even a bond. More than 5,000 tickets will be distributed by the Craftsmen which will be sold for 25 cents each. These may be redeemed at the stadium for a defense stamp. An individual may purchase as many of the tickets as desired.

Members of the committee arranging the event in cooperation with Philip Dettelbach, local war stamp and bond chairman, and his group are Harry Winfield, Craftsmen president; Frank Bangert, Jr., A. S. Jacobus, Edward J. Maguire, George E. Walker, Charles M. Nutt, James L. Lampman, Harry Wortman and Daniel Kelly, who is the committee chairman. Bangert and Nutt will have charge of the sale of tickets.

In addition to the softball game, there will be numerous other attractions including athletic races in which Boy Scouts and other youngsters will compete with war stamps as the prizes.

It has been customary for the Craftsmen to hold an annual outing, but this year the organization voted that they should cancel the picnic and replace the event with some patriotic effort. It resulted in the decision to hold the war rally. The Craftsmen are the first organization in town to schedule such an event to help swell the town's sale of war bonds and stamps.

Every penny that is contributed by the public will go toward the purchase of bonds and stamps. The expenses in connection with the staging of the affair will be borne by the Craftsmen's organization. A meeting of the committee is planned for next week at which further details for the event will be discussed and made.

The sale of bonds and stamps has steadily increased in Belleville each month with the employees of a number of plants, particularly those engaged in war work, helping to boost the totals by voluntarily enrolling in the payroll deduction plan.

Volunteers Get Thanks From OPA Rent Registrar

Earl W. McCarr, who had charge of the OPA rent registry here last week, extended his appreciation to the women volunteers who worked with him.

Among those who assisted were Mrs. William S. Denton, Mrs. John Monahan, Mrs. Peter Ross, Mrs. Maurice McGilgott, Mrs. E. J. Reilly, Miss Catherine Mingie, Miss Roxanna Puckhaber, Miss Frances Williamson, Mrs. John Charlton, Mrs. Raymond Connelly, Mrs. Burton C. Whidden, Miss Angela DeNoia and Mrs. Edmond Ray. Eugene R. Kline also assisted. Paul deHagard, head of the local fair rents committee, was in charge of the volunteers.

May Cost Town \$54,000 To Harness Flood Water Trouble In Second River

TOWN ON ALERT FOR BLACKOUT

Two-State Test Scheduled Between Now And September 1

All defense units were put on the alert this week for the two-state blackout, covering New Jersey and Pennsylvania, which will be held some time between now and September 1.

Traffic rules to be followed both by defense volunteers and the general public were forwarded to the town by J. J. Sparr, 2nd, Newark area administrator for the office of civilian defense.

Defense Coordinator Harry J. Sullivan asked yesterday that the public give complete cooperation and obey the requests of members of the various defense groups. He pointed out that since the first test was held Belleville has had no major violation and that there have been no accidents.

The rules set forth are as follows:

PARKING — Cars must be parked off the main portion of highways and ignition switch and car doors left unlocked. Occupants must leave parked cars and proceed to nearest shelter.

MOVEMENT — Make certain that emergency vehicles, including bicycles and motorcycles, are permitted to move that are entitled to do so. Note: If some such vehicles have not as yet received their "emergency" motor vehicle cards, they should be permitted to move in this blackout.

LIGHTS — All vehicles shall be operated with low-beam headlights, with the following exceptions: vehicles of the armed forces, state guard, ambulances, fire apparatus and police vehicles. Note: Bicycles and motorcycles operated by couriers must have lights and operators must wear arm bands.

SPEED — No person shall drive or operate any vehicle at a speed in excess of 15 miles per hour, except vehicles of the armed forces, state guard, ambulances, fire apparatus and police vehicles.

PENALTY — Any person who shall be found guilty of violating the regulations contained in this proclamation shall be adjudged a disorderly person and shall be punished by imprisonment in the workhouse, penitentiary or county jail, for a term not exceeding one year or by a fine not exceeding \$175.00 or by both, such fine and imprisonment at the discretion of the court.

ARMY TO GET OLD FIRE TRUCK

Working Days Are Not Over Yet For Ladder Truck Being Replaced

The days aren't ended for the town's aged hook and ladder truck which will shortly be replaced by an aerial ladder truck of latest design. For some time the fate of the old truck, which has given many years of good service was debated, and in recent weeks it looked as though the nation's scrap heap would win out.

But it was saved by the bell this week and may live to go roaring off to a good many fires yet. The war department of Public Safety Director Clark if he would turn the truck over to them. It would be used as part of the fire-fighting equipment on a large project at Merrick, L. I., where the majority of the structures are of wood and the danger of fire is great.

Following conferences which Mayor Williams and Chief Robert Reid held in New York last week with OPA officials, it is expected that the new truck will arrive by the end of the month. Although it was ordered a year ago, delivery has been delayed because of inability to obtain priorities.

The board voted to sell the old truck to the army for \$1. It will be taken to Long Island shortly.

DeWitt S. & L. Is An Agency For Sale Of War Bonds

Edward P. Cantwell, secretary-manager, announced today that the DeWitt Savings and Loan association is cooperating with Philip Dettelbach, chairman of the Belleville staff for war savings bonds and stamps. The convenience of the DeWitt office is offered to those who are purchasing bonds and stamps.

Savings and loan associations throughout the nation are working as a closely knit unit under the guidance of the United States Savings and Loan league and in New Jersey, in cooperation with the New Jersey Savings and Loan league, in an all-out effort to assist the government in its program of financing the war.

While the storm floods in the past two weeks have not done any serious damage here, they indirectly threatened to seriously hit local taxpayers' pocketbooks. With clamoring coming from other municipalities, as well as from some local complainants, for the walling of the Second river, it was learned Tuesday night that they may be faced with a \$53,372 expense.

The river, which flows from Bloomfield into Belleville, past the National Grain Yeast plant, through the Branchbrook park extension and into the Passaic river, has run wild in recent storms and done considerable damage. In a storm two weeks ago, its flood waters washed out the Willett Street bridge. In Bloomfield, it did considerable damage, overflowing the cellars of stores and manufacturing plants, the owners of which are now threatening to sue the Town of Bloomfield for damages.

Hugh Welsh, deputy director in the department of public works, submitted estimates to the commissioners at Tuesday night's conference which showed that the cost of building a concrete wall on both sides of the over-sized brook would be \$53,372. Divided into two sections, it was figured that the cost of walling the stream from the Bloomfield town line to the Willett Street bridge would be \$10,168. From the bridge east to the National Grain Yeast plant, it would cost the balance of the total estimate, it was stated.

Mayor Williams attended a meeting in Bloomfield on Monday night at which officials representing a number of municipalities through which the Second river passes conferred on solutions to the flood menace problem.

At Tuesday's conference, following the reading of the estimates on the cost of building the wall, Williams stated that he believed the county should be given the authority to do jobs such as the river wall and that the rivers should be under county supervision and maintenance.

"We are getting the bills of improvements from communities as far as 20 miles away," the mayor continued, explaining that as home areas have been built up and more streets paved, the water, having no other outlet, has gone into the river.

"It is not equitable that Belleville taxpayers should pay all of it," the mayor stated.

Other board members were in agreement that it would place an unnecessary burden on local property owners if all of the work were done. The question of priorities for obtaining materials was also raised by several board members.

It was finally decided that the Mayor and Welsh should confer with county officials to see if some financial solution could be found, contending that it is not a municipal problem but one for the entire area.

At its meeting on Monday, the board of freeholders voted to spend \$5,000 to repair the Willett Street bridge which was damaged by the heavy flow in the stream. The bridge is closed to traffic at the present time.

Public Works Gets \$22.50 For Rubber Collected

The public works department learned this week that the return on the scrap rubber which it collected amounted to \$22.50. During the drive, Commissioner Waters, department head, offered to have his trucks pick up rubber articles at homes of people who were unable to get to gasoline stations.

The total amount turned in included some which was contributed from the various town departments.

The check has been turned over to Town Treasurer Sarrentz to be held until it is learned where it should be turned over to the U. S. O. since there may be a campaign locally.

Red Cross Nurses' Aide Head Is Selected

The selection of Mrs. Kay Bamford as chairman of the chapter's nurses' aide committee was announced at Monday night's meeting of the executive committee of the Red Cross chapter.

The meeting was addressed by Leonard L. Matthews, general field representative for the national chapter.

DIAMONDS, WATCHES, JEWELRY, at prices always in line with the quality of the merchandise offered. Victor Hart, Jeweler, 457 Washington Avenue, Belleville, N. J.

CONTROL ROOM STAFF TEST

Is In Preparation For Forthcoming Series Of Incident Tests

Defense Co-ordinator Harry J. Sullivan announced at Monday's meeting of the defense council that a test of the control room personnel would be staged this evening at 8 o'clock.

Taking part in the drill will be Mayor Wm. H. Williams as commander; Controller Arthur W. Clark; Chief of Emergency Medical Division Dr. George W. Kaden; Chief of Public Works Division, Hugh W. Welsh; Fire Chief R. A. Reid; Chief of Police George R. Spatz; and Planning Clerk Clifford G. Faust.

This practice is a brush-up for the forthcoming town-wide incident test which is to be held

on next Thursday evening beginning at 7:30 p.m. and continuing until 9 p.m. at which time incidents will be staged throughout the town in an effort to try out the various defense units.

Arrangements are being made by the various groups to clear up last minute details in order that they might make a good showing. In the event of rain on or before 7 o'clock the test will be held over until a future date. If it should become necessary to call off the test at any stage of the practice the fire whistle will sound signal No. 14, which significantly enough is "No School." Should the impending blackout occur during the test, the air raid siren will be sounded and the personnel will remain at their posts until the "all clear" is given.

LOITERING BILL IS KILLED

Objections To Wording But Not Purpose; To Draft New Measure

The latest attempt by the town to pass legislation to halt loitering was tabled by the board itself this week and Town Attorney Lawrence E. Keenan was instructed to draw up a new measure.

Before any action was taken on the ordinance Tuesday night, Mayor Williams moved that it be tabled for further study. He admitted that there had been objections to the wording of the ordinance, although there had been no criticism for the removal of the nuisance for which it was intended.

The measure introduced two weeks ago was sweeping in its wording and would have prevented any two or more persons from gathering on the street and talking, technically speaking. It also prohibited public assembly. Action against loitering on street corners by groups of young men was taken on the request of Public Safety Director Clark because of the numerous complaints which have been made to the police department. At present, the director said, the town does not have any legislation on the books which empowers the police department to arrest and prosecute for loitering and causing a nuisance or disturbance.

Two years ago an attempt was made to pass a loitering measure which had the same wording as the one which was tabled this week. It was then tabled by the board because of similar objections.

Mr. and Mrs. Cono Rosamelio of 6 St. Mary's place announced the engagement of their daughter, Miss Faye Rosamelio, to Peter Malato, son of Ignazio Malato of Lyndhurst, Saturday evening. A party was held to celebrate the engagement.

No plans are made for the wedding because Mr. Malato expects to be inducted within a month.

Navy Leads This Week In Promoting Localites

Clifford J. Smith, August Bechtold 3rd, Now Training In Midwest; Carmen Giordano Passes Ship-fitters' School; Sullivan's Advance

The navy led this week in reporting promotions and advancement in training for local youths and for two others who resided here until recently. Now on "active duty" studying at the naval training school at Miami University, Oxford, Ohio, for radioman is Clifford J. Smith, 21-year-old son of Mr. and Mrs. Clifford B. Smith of 37 Fairview place.

He is receiving courses in radio theory, international code, type-writing, receiving and sending code, and naval communications procedure. Upon completion of the 16-week course, he will be eligible for a petty officer rating of radioman, third class.

Smith, who enlisted in the navy in April, went through recruit training at the naval training station, Great Lakes, Ill. After finishing school here, he will be assigned to duty at sea or some other naval station.

In Electrical School From Newport, R. I., comes word that August Bechtold 3rd, son of Mr. and Mrs. August Bechtold Jr., of 369 Jorammon street, is now in the midwest training at one of the navy's schools as an electrician's mate. He is 19 years old and recently completed his basic training in Newport.

He will learn to use electrical tools and perform soldering and brazing necessary to electrical repairs, repair open circuits, locate grounds and run wiring for electric systems; operate and repair searchlights, operate and maintain electric motors, and charge storage batteries; as well as to be familiar with all boat electrical equipment generally and be able to locate and remedy electrical troubles.

Bechtold was graduated in 1941 from Belleville high school where he played football and baseball. Prior to enlistment in the naval reserve he was employed by the Federal Leather company.

Upon satisfactory completion of the present course he will be eligible for service with the rapidly expanding fleet. The knowledge which he now is acquiring will aid him in attaining a rating as electrician's mate.

George Baldwin

Another Belleville high school athlete enlisted in the service this week when 18-year old George Baldwin of 120 Stephens street reported for duty with the navy.

A star half-miler on the Blue and Gold's track team for the past two years, he was in the June graduating class. Since then he had been working for the Western Electric company. Young Baldwin has a brother, Richard, who enlisted in the air force two years ago and is now on duty in Australia.

The youth's parents, Mr. and Mrs. J. N. Baldwin, were hosts at a party in his honor on Saturday night. Guests from Belleville were the Misses Emma Goldacker, Ann Preston, Phyllis Cohen, Geraldine McKenna, Norma Sorge, Charlotte and Dorothy Baldwin, Jean Walker, Muriel McCarthy and Lillian Baldwin and Mr. and Mrs. Charles Beresford, Mr. and Mrs. William Sayre, Mr. and Mrs. M. S. Baldwin, Mr. and Mrs. John Holler and George, William, Edward and Christopher Holler, Norman Gorski, Thomas Higgins, Walter Antonik, Eugene, Jack and John Baldwin, Chester Podgorski, Kenneth Place, Mrs. John Higgins and Mr. and Mrs. William Davies and Miss Lena Kussus of Rutherford, Augusta Imperato of West Orange, Robert B. Johnson of Long Island and Joseph Smith, now serving in the navy.

Baldwin reported to the Brooklyn navy yard for duty.

Made a Colonel

Lt. Col. Charles H. Berle of 22 Fairview place has been promoted to the rank of colonel. He is commanding officer of the 21st coast artillery and is now stationed at Fort Miles, Del.

Col. Berle was born in Newark and lived there until two years ago when he moved to Belleville. Col. Berle, who is 43, was graduated from coast artillery school in 1919 as a second lieutenant. While he was on the reserve list he was promoted to first lieutenant, captain, major and on January 10, 1941, to lieutenant colonel. He returned to active duty December 26, 1941.

Pvt. Frank Van Dyke of Camp Forrest, Tenn., has been promoted to the rank of corporal. He is the son of Mr. and Mrs. Frank G. Van Dyke, of Oak street.

Now on duty with the ferrying command at Morrison field, West Palm Beach, Fla. is Pvt. Albert Venezia. In the service for six months, the local youth enlisted in the air corps technical school and was graduated from the New England aircraft school at Boston, Mass. last week. Prior to that he was stationed at Sheppard field, Tex.

He is the son of Mr. and Mrs. Angelo Venezia of Heckel street. His mother attended the exercises at Boston and for the past week has been a guest of her cousin, Mrs. Abbie Manfra of Boston.

Cpl. William J. Hanrahan, son of Mr. and Mrs. D. F. Hanrahan of Stephens street, is now studying at the chemical warfare school at Edgewood arsenal, Md. On successful completion of his course, he will be commissioned as a second lieutenant in the army.

Now Shipfitter

At Great Lakes, Ill., Carmen Giordano, son of Mrs. Carmela Giordano of 34 Salter place, this week completed a 16-week course of training in the school for shipfitters at that service school of the navy there.

Graduates of the service schools are immediately eligible to take the qualifying examinations for ratings as petty officers in their specialized fields. Men graduated are sent either to the fleet or to

Employment Service Head Reports More Jobs Open

In submitting the report of activities for the Newark office of the United States employment service for July, Herbert A. Bergen, manager, today announced that 1622 persons were placed in employment, this being made up of 690 men and 932 women.

During the month 4,322 persons filed applications for the first time, while 4,145 persons renewed their applications. Also, 3,268 initial claims were filed and 16,162 continued claims were processed. A total of 50,738 persons visited the office for some type of service.

The increasing tempo of the war production effort is opening job opportunities in all types of work, and Bergen therefore urged all persons whose applications had been allowed to become inactive to call immediately at the office to reactivate their applications. All placements are made from the active applications on file.

Training opportunities are open to men and women. A call at the office will bring immediate information as to the courses and

hours of training. The office is open daily from 8:30 a.m. to 5:15 p.m., and there is no charge of any kind to either applicant or employer.

June Relief Costs Set New Low, Erdman Reports

Relief costs in June established another all time low record, according to the report for that month just issued by Charles R. Erdman, Jr., director of the state municipal aid administration.

During the month of June, Erdman reports, relief to the amount of \$395,198 was granted to 16,938 cases containing 34,914 persons. Compared with May this was a reduction of 1,613 in cases; persons cared for decreased 4,222, and costs declined \$38,321. On a percentage basis cases were reduced 8.7 percent, there were 10.8 percent fewer persons receiving relief than in May and expenditures were 8.8 percent below the previous month's figure.

The number of employables on relief, Erdman's report reveals, declined 18.6 percent over the month preceding, resulting in 66.1 percent of the total load now being composed of cases contain-

ing no employable person whatsoever. More employables can reasonably be expected to be removed from the rolls as time goes on, says Erdman. His report contains a reminder, however, that few of the recipients of relief are as employable as they are classified as employable have the qualifications entitling them to first call when industrial openings are available.

Note To Traffic Bureau Rainy Days

From Matthew Grum Jr. 48 Fairview place To The Editor of The Times: I have found that through your medium, your efforts to

better conditions in traffic have been quite noticeable. I trust this will warrant a full study on the part of our traffic bureau in the very near future. I recommend that William street, from Clinton street, should be changed to a one-way street running toward Washington avenue. This change should only take effect on Sunday mornings as church members who travel by car cause quite a traffic jam, especially on rainy days.

Dear Friend:

The strong possibility of fuel rationing in this "War of Materials," boils down to one cold, hard fact. We all must take steps to effect a 25% reduction in FUEL OIL consumption.

Our answer is "VOLUNTARY SELF-RATIONING."

INSULATION Install throughout house.

STORM WINDOWS Use extensively. The finest fuel is Cannel Coal. We have it!

YOUR FIREPLACE Check your Heating Plant efficiency thoroughly with our heating engineers.

HEATING PLANT Do you know that it is possible to save 30 to 40% of Fuel Oil by insulating your Attic and installing Storm Windows (with no down payment and 36 months to pay).

We are vitally concerned and are ready, willing and able to help you conserve fuel in every possible way.

Should you desire to convert to Coal, we are able to do the job and furnish the necessary parts. Also handle the finest Coal obtainable, D&H Anthracite.

RED CROSS AIDS WAR PRISONERS

Supplies Now On Way To Japan; Being Financed By Organization

The Red Cross learned this week from the national chapter that a relief ship is enroute to Japan with a variety of supplies for American prisoners of war. The entire project has been financed by the Red Cross and funds are not being sought at this time to aid in the work.

The articles sent to Japan included food packages, clothing, large quantities of medical supplies, tobacco and other comforts. The supplies were shipped on the exchange ship Gripsholm and are now headed for Japan on one of that country's exchange ships. On arrival in the enemy land, the goods will be distributed under the supervision of the International Red Cross representative there.

BIG WEEK SET AT MOHICAN

Homecoming Celebration To Be Observed In Final Weeks At Scout Camp

Beginning on Sunday, Camp Mohican, the Robert Treat Boy Scout council summer haven near Blairstown, will begin the final two weeks of its season.

It promises to be a gala one with a program lined up for what is known as homecoming week. One of the features will be the initiation of the Order of the Arrow, national honorary scouting organization, in which the degree will be conferred on six of the year's most outstanding scouts. John Charlton is the chief of the Mohican lodge, which has as its totem the gray wolf.

Jack Lawson is the keeper of the legend and Ernest Reock is the quartermaster. During the week there will also be a boxing contest, movies, camp fire activities, boating, fishing, handicraft exhibition, swimming contests, the annual Thanksgiving banquet and a court of honor at which awards will be made.

Hope and Courage
Hope is the great physician of the soul, driving away weakness, lending energy, needed to overcome difficulty. It was said truly: "Hope awakens courage. He who can implant courage in the human soul is the best physician."

Board Votes \$2,000 Emergency For Recreation Department

Because of increased costs in supervision, Commissioner Noll, director of recreation, asked and received a \$2,000 emergency appropriation from the town board Tuesday night.

Noll explained that at the present rate of spending to conduct the summer program, there would be no funds left to conduct the indoor activities during the winter months. The director explained that play supervisors are difficult to obtain and that they want higher pay than they have previously received. An increased number of children are using the playgrounds, he said, necessitating additional equipment.

FOUNTAIN CASE OFF TWO WEEKS

Vacation Of ABC Man Delays Hearing On Minor Charge

The hearing by the town board of ABC charges against The Fountain, Silver Lake night spot, located in Watessing avenue, for allegedly selling and serving liquor to minors was postponed Tuesday night.

Mayor Williams said that one of the state liquor department's investigators who had worked on the case was on vacation. It was agreed that a hearing date would be set at the next meeting of the commission in two weeks.

The charges are an outgrowth of a fatal accident in Nutley early in May in which two young people were killed when their car crashed in an early morning accident. Four of the accident survivors, all under 21, stated to Nutley police that they had been at The Fountain and that they had been served intoxicating liquor. Subsequently, they were reported to have signed statements for the ABC.

The waiter who served them and Gene D'Agostino, the manager of The Fountain, both denied that the minors were served.

VOLUNTEERS NEED OF RED CROSS

Women Wanted To Help Fill Quota Of Surgical Dressings

Volunteers are needed immediately by the American Red Cross chapter to work on surgical bandages and sponges which are urgently needed in war zones where soldiers and civilians are being wounded.

The quota for the month set by national headquarters for Belleville is 39,000 sponges and bandages. It is understood that an increasing amount will be sought from Belleville in future months.

Mrs. Edward McLaughlin and Mrs. Lester Vreeland have been assigned to instruct the volunteers. Those interested should report to the Red Cross headquarters on Tuesday between 10 a. m. and 4 p. m. or any afternoon at the office there between 1 and 4 p. m. Mrs. F. H. Brown is chairman of the surgical dressing committee. Mrs. Harry Thompson, who has charge of all chapter production work, is looking for quarters where work can be done.

This is the first time that the Red Cross has called upon the chapter here to make surgical dressings.

Lions To Place Service Flag In Town Hall

The Lions club is planning to erect a service flag which would honor all local youths who have entered the armed forces. The organization asked the town board Tuesday night for permission to hang it in the town hall.

Placing the flag when it is ready was left in charge of Commissioner Waters.

NEW DEFENSE RULES ISSUED

Council Studies Them; Will Give New Instructions To Volunteers

Members of the defense council are studying the new regulations which have been issued by the state defense council for the conduct of civilian defense units and their duties.

At Monday night's meeting of the council Defense Chairman Everett B. Smith briefly reviewed the rules, contending that few of those listed would materially affect Belleville's present setup. Smith suggested that sections of the new rules which pertained to specific groups should be typed up and copies made for the various chairmen and assistants so that instructions could be given to the volunteer workers.

Rules and regulations, governing the conduct of civilian defense units in New Jersey were in the hands of officials of local defense councils this week after many weeks of study and consultation with "everyone who could be of assistance in giving the right answers on these complicated matters."

In a letter accompanying the rules to State Director L. E. Dreyfus, Smith said that "they will constitute the procedure to be followed in defense matters. I earnestly ask your help in carrying out these rules to the letter so that there will be uniform procedure throughout the state. Furthermore, we must keep in mind that these rules constitute state law that has been proclaimed by the governor and issued to you."

ARP No Police Power

"For example: Take the question of whether air raid wardens should or should not have police powers. Many communities felt strongly about this and believed that wardens should not have police powers. So we went long and searchingly into this question and 90 percent of those consulted voted against air raid wardens having police powers. They felt this would make for greater clarity of action, more efficiency and less confusion. It was not an easy decision to make as we had to decide this question for the good of the majority."

"Those of us who head the state defense setup have worked unceasingly to produce a set of rules that make sense and will work with the least friction and a minimum amount of disturbance to our citizens."

Many of the rules reiterate general orders that have been in effect. There are many others, however, that are new and the most important are the emergency traffic rules that become effective upon the sounding of the audible alarm or air raid sirens.

Only those cars bearing an "emergency" identification card in the right-hand corner of the windshield will be permitted to move. The cards, four and a half inches by thirteen inches, bear the word "emergency" in red across the face with the civilian defense emblem in the lower left corner and the state seal in the lower right corner.

On the reverse is the license number of the car to which it is issued and the signature of the issuing agent. It also has the rules for use and the penalty for misuse.

These cards will be issued by the motor vehicle agent in each community only on application signed by the chairman of the local defense council and the applicant. In the case of utility companies, county cars and the like, application will be made directly to the office of civilian defense director in Trenton.

Must Have It To Move
This card is the only official designation and only those cars having it in the windshield will be permitted to move during an actual or test air raid. Cars having it will be permitted to operate during a blackout or air raid with the low beam headlights. This will be in effect pending availability of officially approved motor vehicle blackout lighting.

The emergency traffic rules also provide that no vehicle shall be driven in excess of 15 miles an hour.

In the case of air raid wardens, the rules and regulations have this to say: "The air raid wardens shall be responsible for calling to the attention of the proper law enforcement representative of any evidence of failure to comply with blackout rules and regulations—warning the occupants of buildings of danger."

"He shall report over designated phones to the control center any vital information such as fires or fallen bombs—assist in fighting incendiary bomb fires, detect and report the presence of gas—advise the civilian population by clackers or other short-range warning devices of the presence of gas—direct persons in the streets to shelters during an air raid of explosives, incendiary bombs or gas attack—administer elementary first aid—assist victims in damaged buildings."

"The air raid wardens shall not have police powers, but shall report all infractions. He shall not act as a police officer and resort to force to secure compliance."

"The chief air raid warden shall direct the fire watcher units. The chief air raid warden or commander, as the local defense council directs, shall direct the emergency food and housing corps."

YOUR VACATION...

You Can Enjoy It At Home This Year

While "far hills always look green"—you may want to cooperate with our Government by not adding unduly to the strain on our already over-burdened transportation systems.

If you wish to take trips, why not confine them to some of the attractive and restful spots reached by local trains, bus or trolley—or, if you have a car, keep within easy four-gallon access of your home. You can hire a boat for a day, perhaps fish a little, cook your meals outdoors, do some hiking—or just relax and rest.

With the money saved on this kind of vacation you will be able to buy more War Bonds to help finance the needs of our fighting forces, to whom "vacation" will be only a meaningless word for some time to come.

DARK HOURS ARE HIS

Effective Hours!

He does effective work in the dark. He hunts, he feeds and he fights with no light to guide him.

Civilized man is different. Over the centuries his eyes have become less accustomed to darkness and more dependent upon artificial light. The past few years have seen great strides in electric illumination for the home, office, and factory until today we enjoy the relatively easy job of "seeing things" during the darkened hours of the day.

Do nothing to reduce this high level of vision. Good eyesight is a vital necessity in winning this war. Those of us who are behind the man behind the gun must keep our eyes fit for the job.

PUBLIC SERVICE

LEGAL NOTICE

TO THE CREDITORS OF THE CENTRAL BUILDING AND LOAN ASSOCIATION LIQUIDATING CORPORATION OF BELLEVILLE, N. J.:
Pursuant to the provisions of Section 17-12-86 of the Revised Statutes of the State of New Jersey, notice is hereby given to the creditors of the Central Building and Loan Association Liquidating Corporation of Belleville, N. J., to bring in and present to the undersigned, at the office of said Association, 302 Washington Avenue, Belleville, New Jersey, their several debts, demands and claims against the said Liquidating Corporation duly verified under oath, within three months from the date hereof, or they will be forever barred from any action therefor against the said corporation.
CENTRAL BUILDING AND LOAN ASSOCIATION LIQUIDATING CORPORATION OF BELLEVILLE, N. J.

Dated: June 15, 1942
Everett B. Smith
Attorney for said Corporation
310 Broad Street
Newark, N. J.

"BELLEVILLE PROPOSALS"

Sealed proposals will be received by the Board of Commissioners of the Town of Belleville at its meeting place in the Town Hall, Belleville, N. J., on Tuesday, August 25, 1942, at 8 P.M. Eastern War Time, for the construction of Municipal Yard and shed at the Northwest corner of Cortlandt Street and William Street, according to plan and specifications prepared by Clifford G. Faint, Engineer-in-Charge, and on file in the office of the Department of Public Works Belleville, N. J.
Proposals are to be submitted according to the requirements of the specifications and plans which will be furnished by the Department of Public Works. Each bid must be enclosed in a sealed envelope bearing on the outside the name and address of the bidder and the name of the project, and must be delivered to the Town Clerk on or before 8 P.M. Eastern War Time, on August 25, 1942, at the Town Hall, Belleville, N. J. No bids will be received after that time. The Town reserves the right to reject any and all bids.
FLORENCE R. MOREY, Town Clerk.

NOTICE

PUBLIC NOTICE is hereby given that L. William H. Williams, Mayor and Director of the Department of Revenue and Finance of the Town of Belleville, County of Essex, and State of New Jersey:—
FIRST TRACT: 57 Florence Avenue, Block 739 Lot 54.
SECOND TRACT: 73 Mt. Prospect Avenue, Block 268 Lot 64.
THIRD TRACT: 48 Lake Street, Block 765 Lot 3.
Said lands have been acquired by the Town of Belleville by deed and or through title lien foreclosure proceedings. Said lands will be sold in accordance with S. 40:60-26 et. seq. and also in accordance with the provisions of an act entitled "An Act concerning Municipalities Chapter 152 Laws of 1917, and the amendments thereto and amendments thereto."
Said sale will be conducted in the Meeting Room of the Commissioners (sometimes called the Council Chamber) on the second floor, Belleville Town Hall on Monday afternoon, August 24, 1942, 4:00 P.M. Eastern War Time.
Said properties will be offered for sale on terms and conditions which will be stated prior to the sale, which conditions can be seen at the office of the Department of Revenue and Finance, and will be sold in accordance with said terms and conditions to the highest bidder for cash.
WILLIAM H. WILLIAMS, Mayor and Director of the Department of Revenue and Finance.

LEGAL NOTICE

TO: Julia A. Hochstrasser, single, individually and as executrix of the estate of Henry Hochstrasser, Joseph A. Hochstrasser and Helen Hochstrasser, his wife, Thomas P. Hochstrasser, and Alice Hochstrasser, his wife, Elizabeth McKenna, James McKenna, her husband, Joseph H. McGirr, and Florence McGirr, his wife, Mary McDevitt and Harry McDevitt, her husband, Etta Oswald, and Mr. Oswald, husband of Etta Oswald, Mac E. Lockridge, and Mr. Lockridge, C. Dorothy Butler, and Mr. Butler, husband of C. Dorothy Butler, Catherine D. Butler.
By virtue of an Order of the Court of Chancery, made on the 28th day of July, 1942, in a cause pending wherein Atwood Investment Company is complainant, and Julia A. Hochstrasser and others, are defendants, you are required to appear at the office of Abraham I. Feltman, one of the Masters of said Court, at his office Number 175 Market Street, Paterson, New Jersey, on August 24, 1942, at ten o'clock in the forenoon, and pay to complainant, the sum of \$314.43, and interest from July 15, 1942, upon a certain tax certificate, had by complainant, dated October 30, 1939, and recorded in Book X-90 of Mortgages Page 305, besides the taxed costs in this suit.
In default thereof, said defendant and each of them do stand absolutely debarred and foreclosed of any equity of the right to redeem the property being known as 185 Kingsland Avenue, Nutley, Essex County, New Jersey.
Dated July 28, 1942.

DRISCOLL

Continued from Page 1

was a board policy not to act on a matter on which a commissioner had a recommendation or thought unless that commissioner was present. Commissioner King wanted the matter tabled for an additional two weeks.

Max Simon, Newark attorney representing Mrs. Nappa, protested that the town had five weeks to investigate his client and her qualifications to be granted the transfer and also the license. Representing Mrs. Core's estate, Attorney James Mangro of Orange pleaded for action, arguing that the estate could not be settled until the property was disposed of and that Mrs. Nappa's purchase of it was contingent on securing the license.

Made No Investigation

Following the board's action, Simon had placed in the record the fact that there had been no investigation of the applicant, and that the board's action was prompted solely by the informal request of Commissioner Waters. Nothing was brought out by any of the board members, Simon said, relative to the eligibility of Mrs. Nappa.

"The major reason for the denial is, as stated in the respondent's (meaning the town commissioner's) answer," Driscoll said in his opinion, "that one person by the name of Santa Nappa resides at 52 Belmont avenue, Belleville, N. J., as stated in the application made by the appellant in the within matter." Respondent produced no witnesses nor any proof on this issue.

"From the appellant's (Mrs. Nappa's) testimony which stands uncontradicted," Driscoll continued, "it appears that, although christened 'Santa,' she has always been known as 'Sadie.' Since her marriage about five years ago she has been referred to as Sadie Nappa and ever since then has resided with her husband at 52 Belmont avenue, Belleville, N. J. She and her husband are the hood persons in that neighborhood having the name 'Nappa.' Before filing her application with respondent, she consulted an attorney, who advised her to use her real name, Santa Nappa, instead of the name by which she was commonly known, Sadie Nappa.

"I am satisfied from the evidence that appellant does now reside, and for at least five years last past has resided, at the address given by her in the application filed with respondent, and that she did not deceive, nor intend to deceive, respondent as to her correct identity or address.

No Proof of "From the cross-examination of appellant, respondent's attorney attempted to show that appellant was a 'front' for her husband. The proofs, however, fall far short of showing that anyone other than appellant is interested in the license applied for.

"Respondent also sets forth in its answer that the applications were denied because 'the policy of the board of commissioners of the Town of Belleville is to diminish the number of plenary retail consumption licenses.' While this is a wholly salutary objective, I have already held that transfer of a license, whether from person to person or from

W. & T. SURPRISES

CARSONS 7-5

Eastwoods Win Two; Kidde Team Belts Newark Wire Club 19-11

Wallace & Tiernan softballers proved this week that the old adage—everything comes to him who waits—still holds good. After losing 10 straight games in the American division of the industrial softball leagues, W. & T. pulled an upset by knocking off the league-leader Carson-Newton team 7-5.

Although outhit, nine to six, the winners bunched their hits to topple the Carson's. Wallace & Tiernan did not do as well against Eastwood-Nealley, losing 6-1. The Eastwoods chalked up two wins for the week, also halting the Viking Tool team 10-7. In a slugging contest, the Newark Wire team in the National circuit bowed to Walter Kidde 19-11. The Kidde boys pounded the ball for a total of 21 hits while the losers had 11.

place to stage, cannot be denied on the sole ground that the issuing authority is desirous of reducing the number of licenses outstanding in its community."

Driscoll cited several opinions which had been written by his predecessor, the late Dr. Frederick Burnett, and then instructed that the town issue Mrs. Nappa a license on application.

Representing the commissioners was Town Attorney Lawrence E. Keenan. Simon appeared for Mrs. Nappa and Mrs. Core's estate was represented by F. S. Masucci.

First Aid for Butter Budget

—by Jane Knox

How often do you look at your grocery budget, wish that you could make that pound of butter go twice as far, and then decide with a sigh that you are just impractically day dreaming? Well, you can put your sighs away in moth balls for we have discovered a new recipe that will make your day dreams come true.

It sounds like magic, you say? Actually, it almost is! All you need for this aid to a better butter budget is one little envelope of plain unflavored gelatin, a can of irradiated evaporated milk, a pound of butter and an egg beater. Give the latter a few twirls and presto, you have two pounds of delicious spread from one pound of butter. It is just as easy as that!

It has a rich, buttery flavor and texture that will delight you. And it has good food value too, although it is lower in actual calories than butter itself (which will give it a double appeal to members of the family who are weight watchers). Butter is one of the most valuable sources of Vitamin A and you should include plenty of it in your diet. If you are to have a nutritionally balanced diet.

This magic recipe is easy and smooth spreading for lunchbox sandwiches or meal-time breads. You can use it in place of butter on bread, toast, vegetables, waffles, pancakes and muffins. It goes beau-

OPA NOW READY

TO ENFORCE

New Jersey's August quota of 1,043 cars came from the state's accumulated reserve instead of having been allotted by Washington.

This state was one of a few, it was explained, in which the reserve was adequate to meet August quota requirements. As a result, 217 more cars will be distributed this month than last. This still leaves 160 cars in the reserve to be used to make emergency adjustments, rationing officials pointed out.

The price control program in New Jersey is preparing to pass from an educational phase to "second important phase in which the emphasis must be on enforcement," according to a statement by Carl W. Priesing, state price officer of the office of price administration.

Priesing pointed out that the first phase of the OPA price control program necessarily dealt with education of both retailer and consumer. Although ignorance of the law is no excuse, he said, OPA assumed the responsibility for giving the public and the retailers every opportunity to become informed on the regulations before adopting stringent enforcement measures.

"The process of education," Priesing continued, "will go on and will overlap the phase of enforcement which is now in preparation. What form the enforcement procedure will take cannot be forecast until preliminary surveys and tests have been completed."

Priesing indicated that his department is now making field studies and surveys in various localities in the state to determine specific local conditions to be taken into account in formulating a program for New Jersey.

Priesing also reminded retailers that supplemental lists of ceiling prices on cost-of-living items were due to be filed on August 10. Priesing asked that such reports be sent to OPA headquarters, 20 Washington place, Newark.

The supplemental reports, he explained, should cover maximum prices for cost-of-living articles which the retailer had not offered for sale prior to July 1, 1942.

For the guidance of retailers in formulating the required lists of ceiling prices Priesing outlined the following procedure for estimating ceiling prices on articles never sold before:

The retailer will establish the price of the new article at the same level as the price of a similar commodity sold during March, 1942. If his establishment did not offer a similar article during that month, he is required to base his price on the price charged by the most closely competitive seller of the same class for that article or a similar article.

If either of the above procedures cannot be used, Priesing referred retailers to the formula given in Section 3A of the general maximum price regulation. This section states:

"In the case of a sale at wholesale or retail, the seller (1) shall select from the same general classification and price range as the commodity being priced under this section, the comparable commodity for which a maximum price is established under section 2 of this regulation and of which the seller delivered the largest number of units during March 1942; (2) shall divide his maximum price for that commodity by his replace-

ment cost of that commodity; and (3) shall multiply the percentage so obtained by the cost to him of the commodity being priced under this paragraph. The resulting figure shall be the maximum price of the commodity being priced."

To Get More Sugar

When industrial and institutional use of sugar apply to war price and rationing board for their September and October allotments of sugar between now and September 5, they will also receive a "bonus" covering the four-month July-October period. Notice of this has been sent by State OPA headquarters to all rationing boards.

Industrial users of sugar will get an extra allotment of 10 per cent of their July, August, September and October sugar base, while institutions, which include restaurants, hotels, cafeteria, drug stores, soda fountains, etc., will receive a 25 per cent bonus.

The sugar base, it was explained, is the amount of sugar used

Jergens Employees Vote To Affiliate With AFL

Employees of the Andrew Jergens company returned to work yesterday following an election held on Tuesday in which 76 of the plant's 86 employees voted to name the AFL as their bargaining agent.

A contract calling for a substantial wage increase, an eight-hour day and seniority rights will be presented to the company tomorrow. Thomas Parsonnet, attorney for Local 20389, Artificial Leather & Rubber Workers, announced yesterday.

HARTLEY

(Continued from Page 1)

sued a blistering statement against the congressman in a Newark newspaper.

Terming Hartley a "has-been" because of his attitude toward this war and America's part in it, Williams declared that he left the people of the district did not want the representative continued in office any longer and that it would be proven in the primaries of September 15.

"Hartley did everything he could to block the American effort to help England win the war last year. Today, with that record behind him, he has the temerity to ask the people of his district to return him to congress. A brief look at the record," Williams continued, "should be enough to satisfy any patriotic American that he does not deserve a voice in congress."

The mayor then claimed that Hartley had voted against the arms embargo, neutrality revision, military airplane appropriation, conscription and draft extension, repeal of the ban on arming ships, lifting of belligerent zones and land-leads.

Voted For Guam
"Inconsistently," Williams added, "he voted for the Guam naval base and the first land-lease appropriation."

On national matters, the mayor continued, Hartley opposed WPA, NYA, food stamp, public works, drastic labor amendments, the property seizure bill, the Smith anti-rumor spy bill, the Wolcott price control amendment, extension of the Dies committee and the power bill.

Locally, there is not as yet much activity on either the Williams or Hartley side of the picture and the same situation is true throughout the entire district. Clean Government strength in all of its efforts lies in such areas as Nutley, Bloomfield and Belleville, but even the movement's own leaders were willing to concede that they could not count on sweeping Hartley badly in these places. In all recent elections, general and primary, Hartley has run ahead of the Clean Government candidates seeking office although he has not been bracketed with them on the ticket.

Apathy Held Factor
Of more concern to political leaders is the general attitude of the public. Because of the number working many hours in defense plants and a general apathy noted in recent elections, it is recognized that there will be some hard work to get out a big vote.

Entering the picture as an important factor in the race between Williams and Hartley will be the anti-Clean Government ticket which has been placed in the field by Paul Williams, former ardent Clean Government supporter; the Giuliano brothers, Anthony, Joseph and James; and Rev. Lester H. Clee, who has split with Vanderbilt. While it has been denied several times that Clee is aligned with that ticket, it is generally believed that he has at least given the movement sympathetic support. Although Clean Government will throw its support to Gill Robb Wilson for United States senator, there will be plenty of support in the district for both Albert W. Hawker and Joseph Bowers, Montclair residents, who are also seeking the nomination.

Large campaign rallies will be few. Candidates in most instances will depend on workers to make the contacts. Hartley has already stated that his congressional work in Washington will prevent him from waging a campaign against Williams by visits throughout the district.

Over WPAT Every Monday at 6:15 P.M.

HARTLEY FIGHTS BACK

At Traducers Who Would Purge Him

You have heard their treacherous assaults on Representative Hartley's honor and patriotism.

Now, in justice to yourself, hear him fearlessly present the true facts of his side of this lively controversy.

REPRESENTATIVE HARTLEY'S responsibilities to his Congressional committee developing solution to the fuel-oil and gasoline shortage, and the synthetic rubber problem, require his constant attendance in Washington.

Therefore, his re-election campaign must necessarily be conducted largely through this series of vital radio talks,

EVERY MONDAY EVENING AT 6:15 O'CLOCK. Tune in for 15 minutes next Monday on courageous, independent, truly American REPRESENTATIVE FRED A. HARTLEY, JR.

Station WPAT—930 On Your Dial

John J. Sullivan

long residents of Belleville, moved from DeWitt avenue to Newark six months ago.

Another son, Joseph C. Sullivan, 21, who enlisted in the navy in May, has completed his basic training at Newport, R. I. and is now attending the naval hospital training school at Portsmouth, Va. where he is studying to be a pharmacist's mate.

A pharmacist's mate must know how to take charge of sick bay on board ship, do minor surgery and first aid work, prepare and administer simple standard medicines, insure that correct principles of hygiene and sanitation are carried out in the treatment of all cases, take care of the sick, administer anesthetics, and do other similar duties.

Was Athletic Star

Sullivan was graduated in 1940 from the local high school where he played football, baseball, and basketball. He also played with the Montclair-Essex County league. Prior to enlistment in the naval reserve he was employed by Wallace and Tiernan company of Main street.

He was selected for school because of high marks in the aptitude test given each recruit soon after he arrived here. When he has completed the course he will be eligible for duty at sea or ashore, wherever the bureau of naval personnel finds he is needed most.

In Aviation Cadet School

William A. Hooper, son of Mr. and Mrs. John H. Hooper of 79 Floyd street, is now enrolled as an aviation cadet in the army air forces pre-flight school at Maxwell field, Ala., where he is taking the initial steps toward winning his wings as a pilot and a second lieutenant's commission in the army air forces. Here he will undergo expert military, physical and academic training to better fit him for the job of learning to fly our fighter planes.

Cadet Hooper attended Belleville high school and Newark Preparatory and had 14 hours' previous flight training. He was accepted as a cadet in the army air forces March 17.

After completing his pre-flight course at Maxwell field this cadet will be sent to one of the many primary flying schools located in the Southeast army air forces training center for the first phase of his pilot training.

Pvt. Robert H. Bennett, son of Edward B. Bennett of 539 Joralemon street, was graduated recently from the Chanute field school of the army air forces technical training command.

While at Chanute field he was trained in various technical operations vital to the maintenance of the country's fighting planes.

Joins Coast Guard

Robert E. Hodgson, son of Mr. and Mrs. Ernest Hodgson of Essex street, has enlisted in the coast guard and is now stationed at Manhattan Beach for training. A graduate of the local high school, he worked with his father in the wire rope business before enlisting in the service.

Mr. and Mrs. William Cullen of Belleville avenue have been notified that their son, Howard, serving with the army somewhere in Hawaii, has been promoted to sergeant.

Named Medical Officer

Headquarters of the ninth naval district at Great Lakes, Ill. announced this week that Lieut. Howard F. Schwarzfeld of the Soho Isolation hospital has been named medical officer at the navy's school for radiomen at Indianapolis.

He is one of the officers in charge of some 560 navy enlisted men who have been chosen for specialized training through a series of aptitude tests given during their recruit training period. Following the completion of this course, these men will be transferred for duty with the fleet or serve at some shore station.

Lieut. Schwarzfeld, prior to his enlistment in the naval reserve in 1941 served as an interne at the St. Mary's hospital in Racine, Wis., and following this served as an interne at the Beth Israel hospital in Newark. He attended the University of Michigan, Ann Arbor, from 1932 until 1935, and then received his degree in bachelor of medicine and doctor of medicine from Louisiana State university, Baton Rouge, in 1939.

Gus Mitchell, who formerly resided with Mr. and Mrs. Edward McLaughlin of 40 Essex street, is the oldest man in his battalion at Fort McClellan, Ala. At 45, Mitchell, a Newark milkman, is still a good athlete and ran up a record in his battalion when he did the 50-yard dash in 8 seconds, chined the bar 10 times, did the pushup 24 times, a standing broad jump of 7 feet two inches and then for good measure climbed the rope three-fourths of the way up.

This information is supplied by the fort's weekly bulletin. Mitchell, a member of Company C, there, is a veteran of the last war when he spent 17 months on a navy destroyer. He enlisted in the army two years ago.

Attorney Now Lieutenant

Joseph P. Piscopo, 26-year old son of Mr. and Mrs. Rosario Piscopo of Joralemon street, has been commissioned a second lieutenant in the army quartermaster corps. Piscopo is an attorney-at-law

and has been in the armed forces since his induction in May, 1941. He served formerly as a motor transport clerk in the quartermaster corps at Camp Livingston, La. In April, he was promoted to corporal and was accepted as a candidate for officers' training and transferred to the officer candidate school, Fort Warren, Wyoming, where he completed successfully a three month course of training. He is now maintenance and supply officer of the 649th quartermaster company at McChord field, Washington. His duties consist of the administration of the servicing and repair of motor vehicles used by the air corps.

Lieut. Piscopo graduated from Belleville high school in 1933 and studied law at Newark university, graduating in 1940 with the degree of Bachelor of Laws. He then served a year's clerkship with the law firm of Farkas and Samuels of Newark. He took the N. J. bar examination in April, 1941 and was inducted into the army one month after. While on military duty he was notified that he had passed the bar, and while on furlough in October of 1941, he was sworn in as an attorney in the private chambers of Justice Bodine, state house, Trenton. Piscopo is also a solicitor in chancery and has been admitted to practice in the federal district court.

Seaman William J. Taylor

Now on duty with the navy at South Weymouth, Mass., is First Class Seaman William J. Taylor. The son of Mr. and Mrs. Henry Taylor of 79 Preston street, he is 22 years old and a native Belleville, having graduated from the high school here.

Before entering the service in February, Taylor was employed by a New York brokerage firm and later by the Eastwood-Nalley corporation. Prior to report-

Small Industrial Plant

4,000 sq. ft. Heavy reinforced concrete. Main building provides boiler room, mill room, shipping room and stock room—Laboratory, office and toilet rooms. Separate additional building 14x24 usable for varnish boiling and storage. Plant equipped with 440-volt electric power and Timken-fired R. & B. sectional boiler.

Lot 50x100 with adjacent land for expansion. Located—North Newark, near R. R. freight and passenger station and bus terminus.

Owner built plant 1931—moving to new industrial home. Plant could not be reproduced for near asking price—\$15,000.

Helpful Hints on HOME MAINTENANCE

Editor's Note . . . The recent government limitation of \$500 on construction work, does not apply on home maintenance or repairs. On the contrary, every home owner is urged to keep his house in good condition in order to extend its usefulness to the maximum.

Roof Endurance Is Important

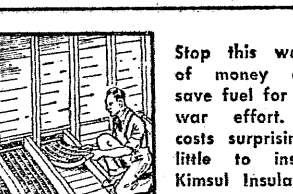

There never was a time when the life of your roof was as important as right now. If it shows the least sign of wear, re-roof immediately. Sturdily constructed, Bird "Master-Bilt" Thick But Shingles, approved by Underwriters Laboratories, will give your home double protection for many years. They are fire-resistant, weatherproof, colorful and inexpensive.

Low Cost Modern Interiors

Transform your rooms into attractive modern interiors with Armstrong's Temlock, the new and economical way to achieve lovely, colorful, factory-finished walls and ceilings. Temlock acts as added insulation. Highly sound absorbent. Quickly installed. It replaces plaster, paper and paint. Easily cleaned with damp cloth. Available in variety of shapes and sizes.

Prevent Attic Heat Leaks

Stop this waste of money and save fuel for the war effort. It costs surprisingly little to install Kimsul insulation in any exposed attic floor or roof, and it actually pays for itself in fuel savings. Kimsul is fire-resistant, moisture-proof, light in weight and permanent. Will not shift, settle or disintegrate. Keeps homes cooler in Summer and warmer in Winter.

All Year Comfort and Beauty

Add new character and greater value to your home with the brick-like beauty of Bird "Insulated" Bird Siding. Easily, quickly and economically applied, it not only modernizes but insulates and damp-proofs the house as well. Saves fuel. Eliminates repainting. Gives year-round comfort by keeping Summer heat out and Winter heat in.

'George Washington Slept Here' Next Mosque Attraction

"George Washington slept here," the George S. Kaufman and Moss Hart comedy which was a smash hit on Broadway, will be the fifth presentation of the summer season at the Mosque Theatre in Newark. It begins a week's engagement on Tuesday night with matinees on Wednesday, Thursday, Saturday and Sunday.

With the production of "George Washington Slept Here," at the Lyceum theatre in New York, Moss Hart took the lead away from Marc Connelly as George Kaufman's most consistent collaborator. Till then Connelly had

been running neck and neck with seven collaborations apiece. The new comedy marked the eighth jointly written production from the typewriters of Kaufman and Hart. Their association began with "Once In A Lifetime" of the season 1930-31. There followed a year, "Merrily We Roll Along," "You Can't Take It With You," "Id Rather Be Right," "The Fabulous Invalid," "The American Way," "The Man Who Came To Dinner" and the "George Washington Slept Here."

Miss Rosamelio, a graduate of Belleville high, is now employed by the Lousone Glove company of Newark. Mr. Malato attended Lyndhurst high school and is now employed by the Picatinny arsenal at Dover.

CHURCHES

Church of Christ, Scientist

605 Broad Street, Newark.
"Soul" is the lesson-sermon subject for Sunday, in all Christian Science churches and societies.

The golden text is: "My soul shall be joyful in the Lord: it shall rejoice in his salvation."
Among the lesson-sermon citations is the following from the Bible: "Incline your ear, and come unto me: hear, and your soul shall live; and I will make an everlasting covenant with you, even the sure mercies of David."
The lesson sermon also includes the following passage from the Christian Science textbook: "It is our ignorance of God, the divine principle, which produces apparent discord, and the right understanding of Him restores harmony. Truth will at length compel us all to exchange the pleasures and pains of sense for the joys of soul."

Cedar Hill Chapel

Ohlson and Highland avenues, Nutley.
Lord's Day Services: 9:30, Bible School for all ages. 11, Worship and "Remembrance of Lord's death till He Come," 8, Gospel service.
Friday, 8 p.m., prayer and Christian Doctrine at the chapel.

Grace Baptist Church

The Home Front

Union for victory is the new slogan in many sections of New Jersey and many industrial firms have joined together, pooling their machinery, technique and skilled workers, to enable them to undertake sizeable contracts to turn out war material for Uncle Sam.

One North Jersey pool, with combined resources and more than \$13,000,000 is now producing on war contracts. It has 20 member companies and more than 1,200 employees.

Women On Labor Front

Today there are some 13 million employed women in the U. S.—600,000 more than last January. In war industries alone, the count reaches 1,750,000. And by the end of next year Uncle Sam's

arsenal and production for our allies, will bring between four and five million more women into the smoking factories and the clattering armament workshops.

It means, for example, that New Jersey's home life will have to change. In almost every community three out of four housewives between the ages of 18 and 44 years will be needed to keep America geared for victory. Naturally there cannot be equal distribution of work in the state. But in some communities, every woman who can work will be asked to join in.

War Bonds, Savings Banks vs. Inflation

Last year Garden staters bought household gadgets and appliances as never before. Workers were going back to jobs by thousands and our nation's armament program had not reached the colossal dimension it is today. Thus there were available aluminum, steel, rubber and tin for gadgets and other desires.

Well, what's happening to our money today—with less and less in the way of goods to purchase?

According to governmental agencies, New Jersey citizens are a cagey lot. That's why their purchases of war stamps and bonds have soared. And according to the department of labor, a survey reveals that were saving almost 70 percent more than we did last year. Money in the bank to buy those gadgets, homes and luxuries when Hitler has been toppled to the ground. Savings, too, that represent one of our biggest weapons to beat inflation.

Atlantic Charter Anniversary

Speaking of the future world, tomorrow we and the other United Nations celebrate the first anniversary of the Atlantic charter. Just 12 months ago President Roosevelt and Prime Minister Churchill met aboard an American battleship to draft one of the most famous documents of modern times. Signed soon after by 26 other nations, it demonstrated to Hitler and his infamous partners that we had jointly resolved to overthrow him to in-

sure the four freedoms throughout the world: Freedom of speech—freedom of religion—freedom from want—freedom from fear.

OPA Cracks Down On Violators

The OPA cracked down on 60 Yonkers, N. Y. retailers charged with violating their own March ceiling prices, or failing to post ceiling prices on cost-of-living items as required by federal regulation. In the first step taken in the United States toward suspension of the licenses of such shopkeepers, Sylvan Joseph, regional further violation might lead to court proceedings for orders suspending their licenses to do business.

Dr. Samuel J. Preston Surgeon-Chiroprapist

wishes to announce the removal of his offices to
36 Central Ave., Newark, N. J.
(near Halsey Street, Street Floor)
Ma 2-6113 — Hours: 9 a.m. to 6 p.m.

SAFEWAY Homemakers' Guide

Looking for ways to make box lunches more interesting?

More than ever, it is imperative that the meals you serve your family be appetizing, filling, and up to nutritional standards. And that goes for a box lunch as well as any other meal of the day. In many cases (war workers on night shifts, for instance) the box lunch is the most important meal of the day. And it must not only be appetizing and nutritious, it must be planned and packed to stay attractive for hours after it's been prepared. So don't use less of your menu-planning ingenuity on box lunches—use more.

Here are a few hints and a few menus, planned and tested by the Safeway Homemakers' Bureau, that might help you in your planning. Use the best equipment available. Be sure the tops to all jars and bottles fit perfectly. Use plenty of wax paper.

Vary the bread for sandwiches. Use the more uncommon types of bread once in a while—pumpernickel, raisin, nut bread, sesame seed, etc.

Use lots of butter. This helps keep sandwiches from drying out.

Don't include sandwiches like tomato and lettuce. They're almost certain to wilt. If he likes tomatoes, put in a whole one instead.

SHIPYARD WORKER'S LUNCH

2 Cold Pot Roast Sandwiches on Enriched White Bread with Pickle Relish or Chili Sauce
2 Sliced American Cheese Sandwiches on Pumpernickel Bread
Container of Cole Slaw
Potato Chips
Apricot Turnover

Mrs. Robert Andrews, Mrs. John Comiskey, Mrs. Robert Dow, Mrs. Rudolph E. Zoeller Jr., Mrs. Leroy Hilton and Mrs. Edward A. Rochau.

Tony Ippolito of Magnolia street and Tony Valenti of North Bloomfield, have returned from a week in Atlantic City.

The Misses Lucille Federici and Ann Filippone, both of Heckel street, are home from a week in Long Branch.

Mrs. Michael Carro and daughter, Mrs. Larry Corbo, and her son, Larry Jr., all of Heckel street, have also returned from Long Branch.

Miss Doris Koehler of Charles street is a guest of her grandmother, Mrs. Gus Koehler of Jersey City for two weeks.

The Friendly club met Tuesday afternoon at the home of Mrs. Henry D. Riepe Jr., of Wilber street. Mrs. Walter A. Kayser, Mrs. William C. Koehler, Mrs. William S. Kitchell, Mrs. Harry Mueller, Mrs. Joseph T. O'Brien, Mrs. James Mazerolle, Mrs. Maurice E. Mott and Mrs. Fred Singer attended.

Miss Kathleen Botsford of Newark, niece of Mr. and Mrs. Edward A. Rochau of Fairview place, is their guest for the remainder of the summer. Yesterday the Rochaus, Miss Isabel P. Rochau, Kathleen Botsford, and Helen Gabrielsen, also of Fairview place, spent the day at the Bronx zoo.

Mrs. Raymond Moller and son, Raymond Jr., of Jersey City, are guests of Mr. and Mrs. William Koehler of Charles street for four days.

Mr. and Mrs. Albert Kleiner and daughters, Carole Jayne and Janice Lynne, of Wilber street, Mrs. William F. Kull, also of Wilber street, Mrs. George Kleinknecht and Mrs. August Miller of Newark spent Monday at Cranberry lake as the guests of Mr. and Mrs. Howard W. Kull of Red Bank.

Gregory Shaw of Forest street is home after two weeks in Miami, Fla.

Home from a week at Camp Columbus, Culvers lake, are Don and Bill Barron, Jack Conway and Joseph Orsulak of Howard place.

OLD RESIDENT IS HONORED
Mrs. Catarina Juliano Has Party On 82nd Year; Lived Here Over 50 Years

Feted on Tuesday in honor of her 82nd birthday was one of Silver Lake's oldest and best-known residents. Mrs. Catarina Juliano of Watchung avenue. A dinner was given in her honor by Miss Marie Serritella of Magnolia street.

Mrs. Juliano, who has been in this country for more than a half century, was born in Ricigliano, Province of Salerno, Italy. One of its oldest members, she has been active in the Mother of Sorrows society at St. Anthony's church for the past 22 years. She has two sons, Angelo and Peter, both of whom reside here.

Guests at the party included Mrs. Vitella Serritella, who is 79 and mother of the hostess, and Mrs. Marie Abato, Mrs. Clementine Zarrillo and Mrs. Frances Maniscalco. Born in the same town, Mrs. Serritella and Mrs. Juliano have been close friends since girlhood.

Mr. and Mrs. Michael LePonde of Newark, former residents of town, are receiving congratulations on the birth of a daughter on Wednesday at St. Michael's hospital, Newark. The child will be christened Joan Anita.

Mrs. Louis Gintella and her daughter, Rae, of Lake street, Mrs. Patsy Grasso and son, Patsy, of Franklin street were guests of Mrs. Frank D'Antonio of Kearny, on Saturday.

Mrs. William Hood of Academy street was hostess last evening for the Ladies' Pinochle club. Guests were Mrs. Harry Hood,

Should Be Spread About Equally

The sad news was handed the town commissioners this week that there is an excellent prospect that the town treasury will be touched for some thousands of dollars to build a wall in the Second river from the Bloomfield line east as a flood control prevention move.

Belleville being situated where it is on this stream which looks like any other brook, except when there's a storm, gets the benefit of all of the excess water that pours in from other communities for miles back. At a meeting this week of representatives of a number of towns, it was shown that many were affected by the flood problem, but the prospect developed that

Belleville would have to bear a greater proportion of the expense than some of the other communities. This is not a problem simply for Belleville, Bloomfield or any other of a number of towns. It is a general condition in which the taxpayers in any single municipality should not be asked to pay a greater share of the expense than other towns. Belleville is virtually being asked to pay for somebody else's storm water that flows into the brook, not its own.

The state controls streams such as the Second river. It seems to us that it should also make provisions and bear the expense of harnessing them so that they will not cause damage during storms as has happened during the past two weeks.

Help To Junk The Axis

Salvaging scrap materials for war is becoming an increasingly important job for every householder. To date, the pleas which have been made for old metal, rubber, tin cans and fats and greases have been simple appeals to patriotism. But, now, the pleas of the government are becoming more stern with emphasis on the fact that it is vital that all kinds of scrap be turned in or the full rate of production in the war effort cannot be attained.

The local committee has done its part to acquaint residents with the need, but now it is about to embark on an all-out effort to collect all the junk and unused articles that can be turned up in every house, cellar, garage and yard in Belleville.

Anything you have—old brass, copper, zinc, lead, tin, and iron—will all help to turn out materials which will help to smash

the Nazis and the Japs. Perhaps you have made a half-hearted effort to do your part, but now you must seriously get down to the job of finding things which you do not really need and turning them in.

How about that old lawn mower that you don't use any more? The old gas range, sewing machine or odds and ends of tools for which you no longer have a need? Maybe you don't think that they can help win this war, but they can in many ways that you would never have imagined.

Start to look around now. Gather up your old junk and then wait until the salvage committee starts its scrap drive in mid-September to put the town at the top of the heap of those communities that are determined to do their part in the effort to turn all of the nation's junk into arms and munitions that will junk the axis.

Should Not Wait Until Winter

A glance at the calendar shows that fall is not far away and that it won't be long before people will be starting up their fires. The home owner who has an oil burner, and knows that the chances of converting to coal are remote, is faced with the biggest problem of all.

All official figures point to the definite fact that the fuel oil supplies now coming into the Eastern states daily are far below the home and industrial needs for the entire seaboard. Every bureau in Washington is talking about the situation and has been for weeks, but that is about as far as it has gone.

It is readily realized that because of the number of Nazi U-boats lurking off our coasts and because of the need of tankers to carry fuel elsewhere, there will be no step-up in deliveries through this means of

transportation. The government claims that a maximum of railroad tank cars are now being used to haul products to the East.

A number of experts have pointed out that there has been a failure to use the shipping facilities of the Great Lakes and the New York barge canal to haul oil supplies over an inland water route where tankers won't be menaced by submarines. Statistics show that there is an abundance of fuel oil in the midwestern states, but it is not doing us any good laying in storage tanks out there.

Now, Washington is starting to talk about the possibility of using the Great Lakes and the barge canal. At the rate they are moving, the lakes and the canal will be frozen over with ice before tankers start to move eastward. If we are to get more oil, now is the time, not after winter arrives.

Are Clearing The Atmosphere

The state office of civilian defense issued new rules and regulations to all municipal defense councils this week with the notation that they are to be followed to the letter of the law.

Since Pearl Harbor many community groups have been floundering about attempting to follow inadequate and conflicting regulations which were established by the state and the office of civilian defense in Washington prior to the declaration of war.

In the months since our official entrance into the conflict, the state has had a chance to observe the good and bad points of its preparedness effort and make changes for the better. That local councils have done an excellent job despite difficulties was indicated in the praiseworthy report of Leonard Dreyfuss, civilian defense director, to Governor Edison. Dreyfuss ranked the state as among one of the few in the nation which is ready to meet an emergency.

However, this is no reason for councils

or the members of their volunteer units to sit back and await the falling of the bombs. The new regulations require study by all division heads and further instructions for all of their workers. Important is the fact that the state demands that all groups have the required amount of training before being given official recognition.

To comply with the state's requirements some revisions will have to be made for Belleville, but the biggest task will be making volunteers understand their work and eliminating an overlapping of duties.

Some idea of how well the local organization would work in an emergency should be gained next week when the council holds its first of a series of "incident" tests. This is not merely a pastime to amuse those who are in the defense corps. It is one of the few ways that leaders have of learning that they have units which are prepared to do a job. It is serious work and every volunteer and every citizen should act as if it were the real thing.

Will You Please Cooperate With Those Sleeping?

The 24-hour operation of defense plants to speed war implements to the armed forces means that many people must sleep during the daylight hours. Hundreds of Belleville residents are in this class.

Recently, especially since the schools have been closed, there have been many complaints registered at town hall, and particularly at the police department, about the noise caused in some neighborhoods, making it almost impossible for these defense workers to sleep.

No man can do a good day's or a good night's work unless he secures his proper rest. Unconsciously perhaps, you and your children are hindering the gigantic war effort. Won't you please cooperate by keeping the radios tuned down and telling your children to play elsewhere than near the homes where you know that people are trying to sleep?

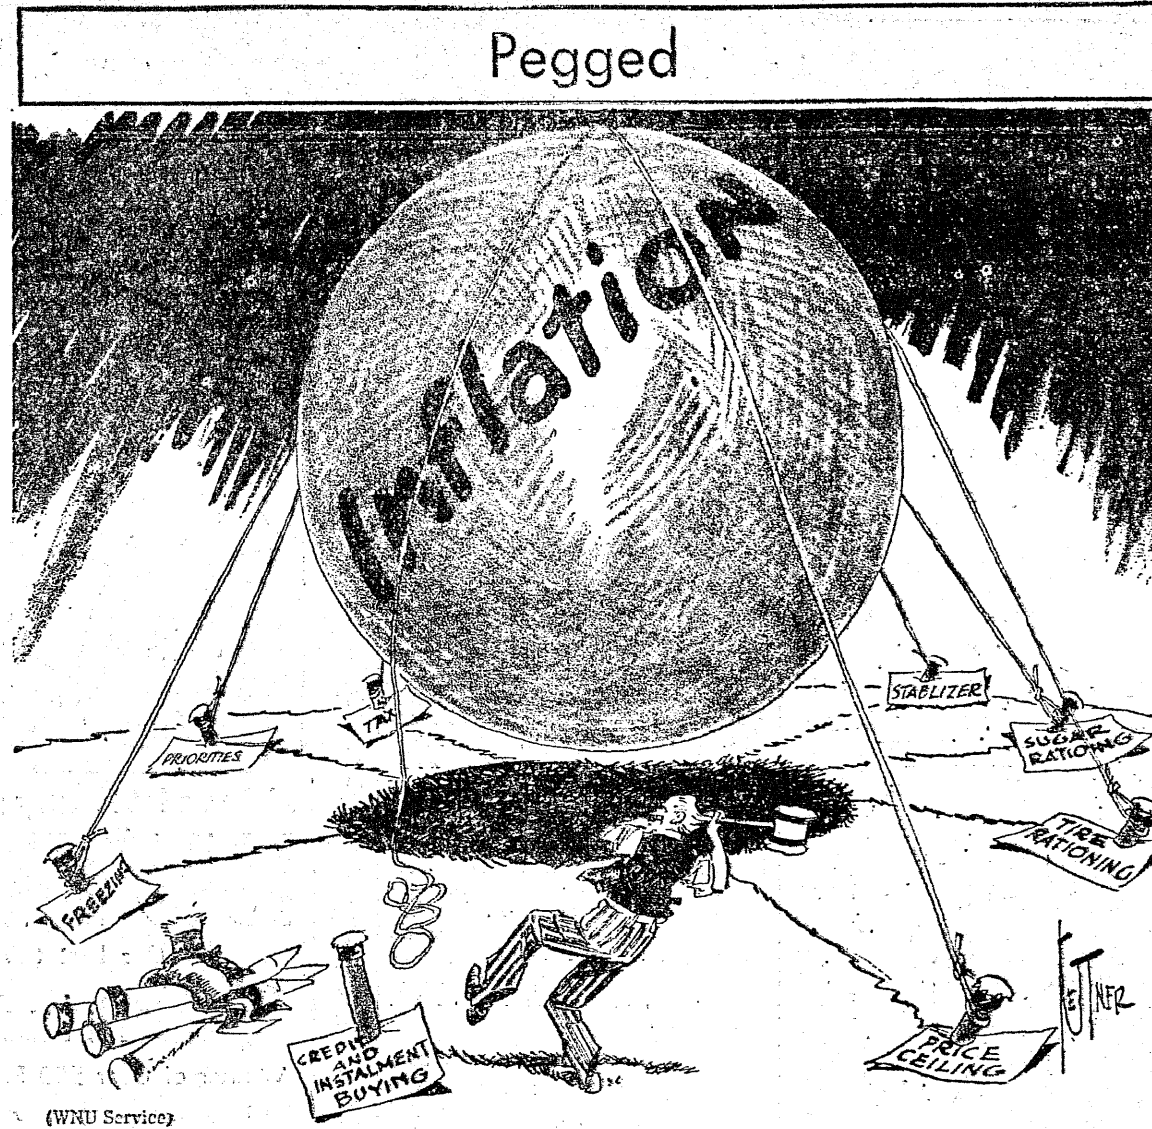

If there's a surplus of jeeps when the war is over, the little "battle bugs" may find wide use on U. S. farms. Tests now being made show the jeep has "great post-war possibilities," though its low gear is too fast for plowing and its chassis too low for some row-crop operations.

LETTERS

CHIDES PUBLIC ON TIN CAN IDEA

Salvage Member Says Some Grumble About The Inconvenience

From Sidney A. Browne
45 Van Houten place
To the Editor of The Times:

As a member of the salvage committee, and in charge of the tin can collection, I have had a number of phone calls inquiring as to the next date of the tin can collection. At the present time the Girl Scouts are delivering to each householder a list of instructions of how to prepare various items of salvage and when and how to dispose of same. The householders will note on this list that the next tin can collection will be on August 27 and on the last Thursday of every other month thereafter.

It was rather discouraging to note the attitude that was taken by many of the persons who phoned me in reference to the tin can collection. It was brought to my attention the inconvenience that they were put through to save the tin cans, and I politely informed them that if they could not wait for the next collection the cans would cheerfully be picked up by the Girl Scouts, who through Mrs. Holden and Mrs. Cox have done a splendid job.

After listening to the inconvenience described by those who told me what they were put through, I kept thinking of an article I read recently as to how the German people were compelled to have at least eight different refuse receptacles in their kitchens not counting a space to store paper or scrap metal. They have to divide up their garbage so that fats and grease are in one receptacle, potato peelings and such in another receptacle, bones in another receptacle, glass in another receptacle, etc. As I think of this I can hardly believe that anyone can honestly think they are being inconvenienced in any way; and then too, if they think a little further as to what can be accomplished with the tin that is salvaged from these cans and how it will protect and possibly be instrumental in the actual victory of this war, they should be willing to be inconvenienced to even a greater extent.

I write this letter not with the thought of scolding or criticizing anyone, I simply write it to try to point out to people that in helping the war effort in this past is not only helping others but themselves as well and that a little inconvenience now will no doubt prevent a lot of discomfort later.

Finds Fault With Those On Gas Ration Board

From Anthony Di Gregorio
22 Greylock avenue
To the Editor of The Times:

Who gets all of the "C" rationing books? This question is no doubt being asked by many defense workers who cannot get the necessary gas to get back and forth to work.

Some people must be getting the "C" books. Can it be that "big shots" who know one of the commissioners or someone on the board, are getting these cards so that their cars will not get rusty from not being used?

I cite, as an example, a case which I have heard of.

A young fellow who works in a defense plant in Paterson, 13 miles from his home, applied for a supplemental gasoline rationing book. All he got was a "B" book, which gives him a total of 8 gallons a week. He was told that this was an ample amount for his needs. Maybe a board member can show him how to run his car a total of 175 miles on 8 gallons. This would be enough to get him back and forth to work four days. What is he supposed to do for gas the other three days?

To make matters worse, he works nights every other week. No doubt, everyone is aware of the poor transportation facilities in the early morning hours.

What is the matter with those on the gasoline rationing board? (We would have to have more facts at hand before we would wish to judge whether what this writer states is correct. For the job which they have done, we think that the war price and rationing board has performed its work faithfully and honestly, and we think that it is unfair to infer that they have performed special favors for their friends. If the young man of whom Mr. Di Gregorio speaks has a just complaint, there is a place for him to go—the rationing board and not elsewhere to criticize.—Ed. Note)

Liked Editorial

From Lillian M. Jones
161 Holmes Street
To the Editor of The Times:

I liked the editorial in the August 6th issue of your paper: "Appears To Be Too Sweeping." The point is well taken.

And Mr. Frederic W. James in his letter published in the same issue, hits the nail on the head when he says, "If the proposed law forbade unreasonable noise, disturbance of the peace, and obstruction or annoyance of passersby on a highway or public place, there could be no complaint against its terms, we would all be for it."

Personals

Mr. and Mrs. Thomad Waters and their daughter, Doris, of 61 Prospect place are home after a week at Ocean Grove.

Mrs. Fred Ingersoll of Belleville avenue has concluded a two weeks stay at Point Pleasant where her house guest was Mrs. Alfred Battles of Belleville avenue.

Mr. and Mrs. John J. Connors of Nutley, formerly of Belleville, and Mr. and Mrs. Walter Proff, also of Nutley, are the guests this week of Mrs. J. Harold at Newcombs Farm, Scarborough Beach, Me.

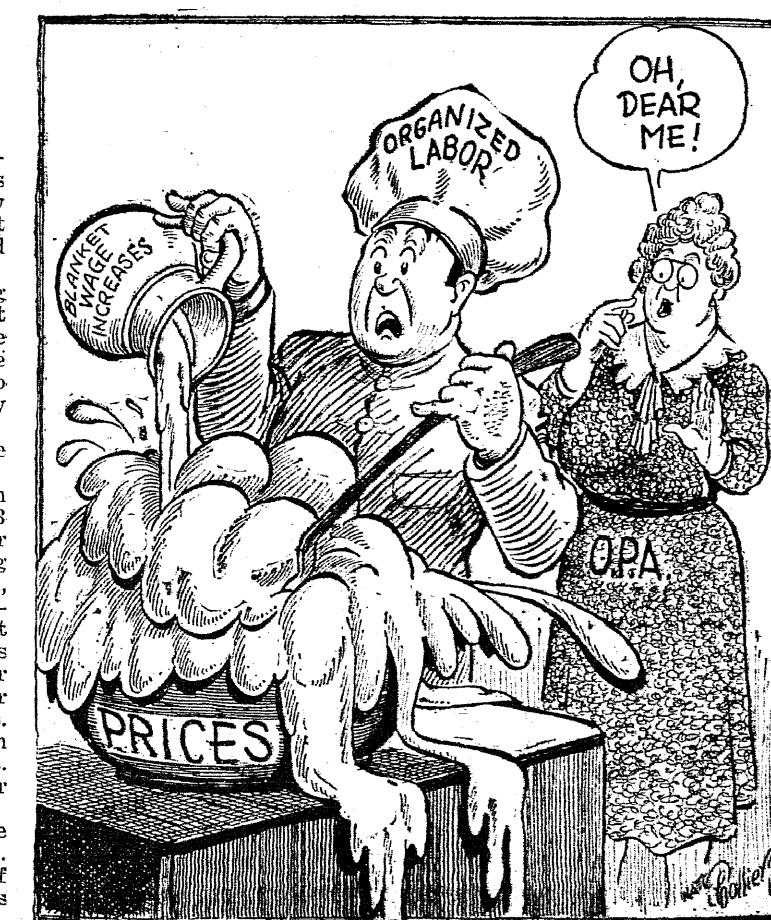

Mrs. Caspar Behring of Washington avenue, has left for a five week visit to Tacoma, Wash., to see her husband, Corp. Caspar Behring, who is stationed at Fort Lewis, Wash.

Mrs. Daniel Guldner and daughter, Ruth, of Union avenue have just returned from a week's stay in Ocean Grove.

Miss Lillian Scott of Butler is visiting for a week at the home of her aunt and uncle, Mr. and Mrs. Ralph Vreeland of Smith street.

Mr. and Mrs. Richard D. Shannon of Bremond street had as guests at their summer home in Breton Woods last weekend Mr. and Mrs. W. W. Magill and family.

WHAT'S COOKIN'?

ESSEX COUNTY POLITICS

The views expressed in this column are entirely those of the writer and not necessarily those of the Publishers or Editors of the Belleville Times.

by Meador Wright

Despite the war—and possibly to some extent because of it—the tempo of political interest in Essex is increasing. It seems sure now that there will be a second Republican ticket in the field. How strong this ticket will be remains to be seen. Some observers think Dr. Lester H. Clee will be back of it before the end of the campaign. This belief was given substance last Sunday when Edward S. Hipp—the Carteret of the Sunday Call—predicted Clee's eventual support.

Hipp may have had some information directed from Clee that I do not have, but my guess is just the opposite. I expect to see Clee keep both factions guessing until the last minute, then make one of his dramatic statements. This statement will re-emphasize his adherence to the principles of "Clean Government." In accord with these principles he will strongly urge the nomination of Albert W. Hawkes of Montclair, pointing out that Hawkes stands for the very thing that he (Clee) has been fighting for in Essex during the past decade. Then will come the drama. The long fight for "clean government" in Essex will be reviewed. The achievements of the organization that he and Arthur T. Vanderbilt jointly built up will be pointed out. A few of its faults will be mentioned by way of explaining why he is on one side of the senatorial fence and Vanderbilt on the other. Then will come the endorsement of the Clean Government county ticket, and Clee will leave the platform amid the proud applause of Clean Government leaders. Vanderbilt will smile one of his long, mysterious smiles and the "dirty necks" around the county will say what they think of both in profanity that would make even Vanderbilt blush crimson—not to mention Clee. It is a great game, this game of politics. And it is usually played according to the rules. But sometimes it isn't. The rules call for Clee to act as I have just predicted. Unlike sports, however, the rule book in politics is sometimes thrown away. If that should happen this year, Clee might conceivably do what Carteret expects.

What Sort Of Contest? The Clean Government organization has not shown its hand of cards that it is expected to play for Gill Robt Wilson. Until that happens it is hard to form a basis for judgment as to the nature of the contest that is developing between Wilson and Albert W. Hawkes. Right now Hawkes looks strong. A surprisingly large number of those usually with Clean Government are supporting him, especially among the women. But, as I said before, it is hard to appraise one side of a picture until the other side can be seen.

If this is true in Essex, it is hardly so in Bergen county. From this distance it looks like the Schroeder ticket in Bergen that is backing Hawkes has an excellent chance of sweeping the county. This ticket will stress the milk issue, and Arthur Foran's part in it. I would advise observers to watch Bergen carefully this year. While it is by no means built around Hawkes, he can profit by it. With the die finally cast in the 10 District between Fred A. Hartley and Mayor Williams of Belleville, observers are waiting for the fireworks. The nomination of Hamilton Fish in New York gives some encouragement to Hartley's backers. Everyone predicts a hard fight, and with no holds barred. Hartley is expected to get a large vote among Italian-American voters, and much will depend upon general war sentiment. As the campaign develops I shall try to keep readers of this column informed of the trends as I see them. It promises to be a real fight, and one worth reporting carefully.

Speed the War Effort

Keep long distance lines free from unnecessary calls
If you call... Be Brief

THE NATION'S war effort is crowding long distance telephone lines with the greatest volume of calls ever known. Record-breaking additions have been made to the network but important routes already are congested, especially those to Washington and to areas of military and industrial activity in the south. And the war drive has yet to reach its peak.

Further telephone expansion to meet this situation is "out for the duration." Materials now must go for weapons of war.

Your help is needed to make the present telephone system give the most service possible throughout the emergency.

Please avoid making unnecessary long distance calls. And call by number if you can...the connection can be set up faster.

Be ready to talk as soon as your connection is completed...if you leave your telephone, always make sure you can be reached quickly.

Be brief in your conversation. Call when the lines are less busy...before 10 a.m.,...between 12 and 2 p.m.,...5 and 7 p.m.,...and after 9 at night.

"The Mission Had Been Accomplished"

"A running fight between the bomber and the 18 Japanese pursuit planes continued for 75 miles . . . continued until the remaining pursuit ships exhausted their ammunition and turned back. With two engines gone and the plane practically out of control, the American bomber returned to its base after dark and made an emergency landing. THE MISSION HAD BEEN ACCOMPLISHED."

—President Roosevelt, in his Fireside Chat, April 28, 1942

THERE, in the words of President Roosevelt, is one of the war's most stirring episodes—a demonstration of how, with one man killed, another man's hand shot off, and a third man injured, our American boys stuck to the fight, bombed their objective, and brought their plane home.

Undoubtedly you felt a thrill when you heard it over the air, and maybe you'll have another thrill reading it again.

But your thrills won't win the war!

It takes planes—thousands of them—and tanks—thousands of them—and shells—millions of them—and bullets—billions of them! It needs ships and guns and jeeps . . .

It takes money.

It takes the money of *all* of us—the girls at their typewriters, the men at their machines—the clerks,

the farmers, the messengers, the bookkeepers and the salesmen.

It needs a surging, patriotic Nation of people who love their country enough to buy a share of America by investing 10% of their wages every payday—a dime from every dollar—in War Bonds.

It needs—and it's getting it!—the cooperation of Labor and Management to put the Payroll Savings Plan over the top.

Your money in War Bonds—10% of your salary every payday—not only will help pay the bill to create the most powerful *blasting* force ever put together—but you'll do yourself and your family a favor, too.

Because every time your savings amount to \$18.75, you'll get a War Bond—worth \$25 in ten years.

You don't *give* your money—you *invest* it, both for Victory, and for your own personal security.

That's *your* mission—will you accomplish it?

EVERYBODY— EVERY PAYDAY 10% IN WAR BONDS

This advertisement is a contribution to America's All-Out War Effort by

The Federal Leather Company

BELLEVILLE, NEW JERSEY

The Community Service Bureau From The Inside

(This is the first in a series of articles on organizations which annually participate in and benefit from the annual Community Chest drives. The articles are intended to better acquaint Belleville residents with the purposes and work of each group so that they may fully realize the need of supporting the chest campaign, which will be held early in the fall. Ed. Note.)

Do you know Belleville's visiting nurse? She drives from one end of our town to the other, all day, making frequent stops where she's needed, but, unless she has come to your house, you might not know about her. She could come to your house, or your next-door neighbor's, if there's need for a nurse and she's no further away than the telephone.

She comes from the Newark Visiting Nurse association at 292 Broad street, which also sends nurses to Kearny, Harrison and Irvington. Anyone who needs skilled nursing care may call for her by giving the name and address over the telephone. Call Humboldt 3-4221. A responsible person in the V. N. A. office takes the information and the nurse in the district gets it either while in the office in the morning, or by telephone at noon. The nurse comes as soon after that as it is possible, and will stay long enough to carry out the doctor's orders and make the sick patient comfortable.

Visits To New Babies
Almost any day begins with a visit to a new baby. Perhaps it has been born at home and, in that case, she takes care of the mother and baby every morning until the mother is out of bed. Sometimes it's a new baby just home from the hospital and a visit will be made to teach the mother how to bathe him, make a formula or just start the routine. The rest of the day is spent caring for the sick of all ages,

from the very new to the very old, and the day really flies. Watch this column for an account of some of the things she does. You can go along with her by reading the paper, if not in person.

The Newark Visiting Nurse association has been in existence since 1902, and has increased rapidly since that time to its present staff. There is now a director, Miss Anna Ewing, three supervisors, twenty-four staff nurses. All staff nurses are graduate, registered nurses and are paid a regular salary. The association also provides a two-month training period for senior student nurses from Beth Israel and St. Barnabas hospitals.

Visits are paid for by the John Hancock and Metropolitan Life Insurance companies for certain kinds of policy holders. If the patient is not insured in either of these companies the fee may be paid by the patient, or his family, if they can afford it. But there are many people who do not carry insurance that provides care and are not able to pay for the service; just the fee to the visiting nurse adjust the fee to the pocket-book. Since 1930 the Community Chest has reimbursed the Visiting Nurse association for those in Belleville who have been unable to pay at all. Remember when you see the nurse drive by, that your contribution to the community chest helped to make possible many of the visits she made last year to those who were unable to pay. She visits us all, from the very poor to those in the very best homes.

The visiting nurse works only under the direction of a physician, either your own physician or the city physician. She will call him to see if he needs his orders for your care, or interpret to you the orders which he has left in your house. Don't hesitate to call her—she likes to be busy.

SHERIFF'S SALE

Chancery A-392

SHERIFF'S SALE—In Chancery of New Jersey—Between Lucy G. Francisco, Complainant, and Francis Robert Parsella, also known as Frank Robert Parsella, Defendant, Et. Al., for sale of mortgaged premises.

By virtue of the above stated writ of fieri facias, to me directed, I shall expose for sale by public vendue, at the Court House, in Newark, on Tuesday, the Eighteenth day of August, next, at two o'clock P. M., all the following tract or parcels of land and premises hereinafter particularly described, situate, lying and being in the Township of Belleville, Essex County, New Jersey:

Beginning in the westerly line of Washington Avenue at a point therein distant twenty-five feet southerly from the south-west corner of Washington Avenue and Cleveland Street, as laid out on a map entitled "Map of lots of Cortland S. Van Rensselaer at Belleville, N. J., made by Van Dyne and Young, Surveyors, June 15th, 1887," thence running southerly along Washington Avenue twenty-five feet, thence westerly at right angles to Washington Avenue one hundred feet, thence northerly parallel with Washington Avenue twenty-five feet and thence easterly at right angles to Washington Avenue one hundred feet to the line of Washington Avenue and the place of Beginning. Being lot No. 66 on said map.

Property is known as No. 37 Washington Avenue in the Town of Belleville, New Jersey.

The approximate amount of the decree to be satisfied by said sale is the sum of Three Hundred Eighty-one Dollars and Forty-six Cents (\$381.46), together with the costs of this sale.

Newark, N. J., July 13, 1942.

GEORGE H. BECKER, Sheriff.

Irving Hupart, Sol'r.

LANDLORDS CAN STILL REGISTER

May Still File Forms At Newark Or East Orange High Schools

Local landlords who were unable or who neglected to register their dwelling units under the federal rent control regulation last week may do so today and tomorrow at either the Central high school in Newark or the high school in East Orange.

Central high is located on High Street near Central Avenue, while East Orange high is on North Walnut street.

Throughout the North Jersey defense rental area there were 103 registration places open last week. This number has been reduced to 19 for the extended registration period. The announcement that the time limit would be extended was made early this week by H. Russell Phillips, area rent director for Northeastern Jersey, who declared that the last minute rush had been so great that it was almost impossible to accommodate all landlords.

Those property owners who wish to file appeals against setting rent at the March 1 level may obtain information and appeal forms at the OPA office, 20 Washington street, Newark.

SHERIFF'S SALE

Chancery A-381

SHERIFF'S SALE—In Chancery of New Jersey—Between E. E. Steiger, Complainant, and John G. Willoughby, et al., Defendants, Et. Al., for sale of mortgaged premises.

By virtue of the above stated writ of fieri facias, to me directed, I shall expose for sale by public vendue, at the Court House, in Newark, on Tuesday, the Eighteenth day of September, next, at two o'clock P. M., all the following tract or parcels of land and premises hereinafter particularly described, situate, lying and being in the Town of Belleville, Essex County, New Jersey:

Beginning on the westerly side of Oak Street at a point therein distant northerly 111.06 feet from the corner formed by the intersection of said side of Oak Street and the northerly side of Jerusalem Street; thence northerly along said side of Oak Street 25 feet; thence westerly at right angles to Oak Street 100 feet; thence southerly parallel with Oak Street 25 feet; thence easterly parallel with the second course 100 feet to said side of Oak Street and point of Beginning.

Being lot No. 139 on a map entitled "Map of property at Essex Heights belonging to William Edinger and C. R. Simpson."

Being the same premises conveyed to the said John G. Willoughby, single, by Walter R. Romine and Alice F. Romine, his wife, by deed recorded in the Essex County Register's Office in Book 1-72 of Deeds for said County on Pages 395-399, 399.

Being known and designated as Street Number 7 Oak St., Belleville, N. J.

The approximate amount of the decree to be satisfied by said sale is the sum of Four Thousand One Hundred Eighty-six Dollars and Three Cents (\$4,186.03), together with the costs of this sale.

Newark, N. J., August 3, 1942.

GEORGE H. BECKER, Sheriff.

TWO OPINIONS OF IRELAND

One Soldier Writes Girls Are Pretty; Other Says "Beautiful Country"

That Ireland has its beauties, there appears to be no doubt in the minds of two local youths who are serving there with Uncle Sam's army, but there seems to be a difference on what impressed the two of them most.

"The Irish girls are very pretty," Cpl. James Travers, who is a medical technician, writes his brother Frank Travers of 109 Ralph street. Serving in the army since April of 1941, James writes his brother that he was recently promoted to corporal.

While admitting that the Eire damsels are quite an eye-fall, James adds, "but they have fiery tempers."

"A beautiful country with flowers," is the opinion that Sgt. John Deck on duty with the fifth general hospital medical corps has of Ireland. A graduate of the local high school, he is the son of Mr. and Mrs. John Deck of 251 Hornblower avenue. Before entering the army, he was employed in the Colonial branch of the Lincoln National Bank in Newark.

Cars Run On Coal Gas
Sgt. Deck was especially impressed with the beauty and size of the rhododendrons "which are twice the size of ours." Of the automobiles, which are smaller than those in this country, he writes that some of them are running on coal gas.

Over the protests of seven would-be owners John said that he has adopted an Irish setter.

"He is beautiful, now that we have washed him."

Writing on one of the new V-type letter, Sgt. Deck asked that it be kept so that he can see what the finished product looks like when he returns home. He wrote his family that he gets about on an Irish make bicycle which has everything but the kitchen sink on it. With a slight tinge of homesickness and looking to the day when he will return home, he comments, "I'm looking forward to the day that I'll be able to come home again, but I'm feeling fine and I guess I'm none the worse for wear."

Special Masses Saturday At St. Anthony's Church

St. Anthony's church in Franklin street has announced that masses for the Feast of the Assumption on Saturday will be held at 6, 7:30, 8:30 and 9:30 a.m.

The kindergarten classes conducted at the church's school hall by the Maestre Pie Filippini sisters, which were closed for two weeks, were resumed on Monday. Mothers are welcome to enroll their children.

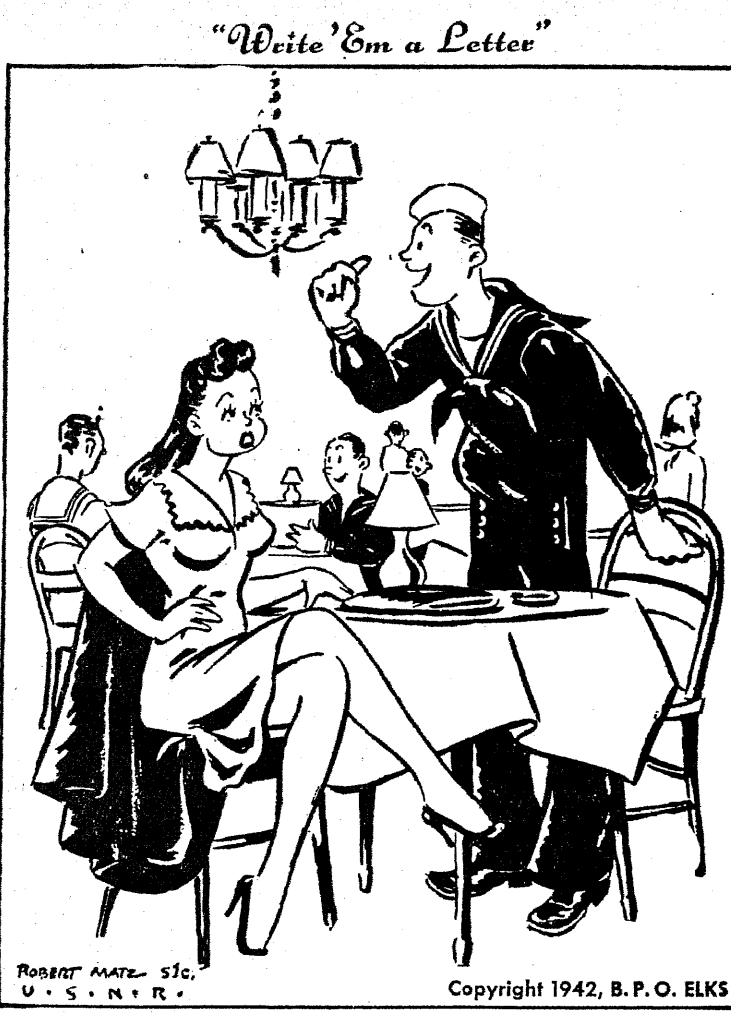

Held Services On Sunday For Gabriel Mazzeo, Bandmaster

The funeral of Gabriel Mazzeo, noted bandmaster, of 135 Smallwood avenue, was held Sunday for the Daimiano funeral home, 201 South Orange avenue, Newark. The burial was in Fairmount cemetery.

Mr. Mazzeo was born in Italy 55 years ago and came to Newark when he was 12. He moved from Newark to Belleville five years ago. He died at his home on Thursday.

Mr. Mazzeo has directed bands in this area for 25 years and at the time of his death, he was director of the Upsala college and Hilton (N. J.) firemen's bands. Formerly, he directed the band of St. Casimir's church, Newark, and also had bands at Asbury Park during previous summer seasons.

Mr. Mazzeo leaves his wife, Mrs. Josephine Ricci Mazzeo; his stepfather, Pasquale Iarussi; a son, Gabriel Jr.; a daughter, Dolores, all of Belleville, and a sister, Mrs. Fiore Cantelamo of Newark.

Veteran Dies At 46

A requiem mass was offered Saturday morning at St. Michael's church, Newark, for Angelo Nardi, 46, formerly of 87 Heckel street.

Nardi died Wednesday at U. S. veterans' hospital, the Bronx, after an illness of three months. He was born in Italy and moved from Belleville to Brooklyn two years ago. He was gassed while overseas during the last war. He leaves his wife, Mrs. Mary
