

THIRTEEN BILLION WAR BOND DRIVE OPENS MONDAY

Banks, Schools Start Campaign
For "Buy An Extra" War
Bond Month

With a goal of thirteen billion dollars, the second war bond drive will be officially launched under the auspices of the Treasury department next Monday. This drive is nation-wide and re- yet set in the sale of bonds and stamps.

"Buy a Bomber" "Outfit an Outfit" and "Buy a Cruiser" are some of the slogans which will keynote the drive. Local banks intend to contribute half of the share for Belleville whose drive goal is nearly one million and a half in bonds and stamps. Local banks stated that they were even willing to give more than their share if the drive fell behind in civilian participation.

The sale of bonds and stamps during the month of March was down owing to the number of bonds redeemed for the payment of income taxes. But the last nationwide drive in December which set its goal at eleven billion was over the top by an extra billion. Bonds may be bought in any of the bank offices and the banks will take an active part in the solicitation of the drive.

Grammar Schools Help

The local grammar schools are going all out for the purchase of bonds and stamps. Contests are sponsored among individual students, among home rooms, and among the schools as a whole. Any child buying bonds and stamps for outsiders is given credit for the purchase along with his own. Parents of grade school children are being invited to buy their stamps and bonds through the children so that their total will be tallied together.

Programs are being staged in the assemblies, graphs are set up in individual rooms, and charts with aeroplanes and tanks for markers are also being used to signify the amount of purchases during this "Buy an Extra War Bond" Month. In the school set up each teacher makes her own accounting, the home rooms make their accounting, and the principals make their returns so that there is competition all along the way.

High School Buys A Jeep

In cooperation with the department for increased sales of bonds and stamps each class in the high school has been challenged to buy enough in excess of their March totals to purchase an Army jeep. The price of one jeep is \$300.

Each class in the high school was mobilized on Tuesday or Wednesday with an officer of the class presiding and was addressed by a member of the faculty to further sales. The seniors met Tuesday morning to hear William Chapman. Bill Armstrong, class president, officiated. Juniors were called together Tuesday afternoon with Jack Coogan, acting president, and were addressed by Herbert Eitzenman. The sophomores and freshmen classes heard the story of the rally yesterday. Jean Walker is president of the sophomore class to whom Paul Brennan talked yesterday morning. Mary Daly, vice-president, headed the freshmen whom Miss Eleanor Rush addressed yesterday afternoon.

An eight foot reproduction of an Army jeep, furnished by the art department of the high school is on display on the stage of the auditorium. The names of the classes will be superimposed on it in the order in which they meet their quotas.

Students will be given credit in this drive for bonds which they purchase in their classrooms in the names of other members of their families or outsiders. The March sales of bonds and stamps, exclusively.

Main Street Closed For Repaving To Nutley Line

The Public Works department announced Monday that Main street, which has been a constant source of worry to the resident and defense worker motorists, will be closed for repairs from Greylock parkway to the Nutley town line. While the work is going on traffic will be detoured through Washington avenue.

Resurfacing of the road from the Nutley line to Jorammon street is the main purpose of the excavation work which is going on at present. Much truck traffic is routed on Main street between Newark and northern points.

Thomas Gallo of Irvington is contractor and funds are being supplied by the state and town. At a special session of the board of commissioners Tuesday afternoon Public Service Electric and Gas Company was given permission to move light poles from the East to the West side of Main street while repairs are in operation.

FOOD FITNESS GROUP MEETS

Plans Lectures On War Worker
Meals To Be Given By
Public Service

An organizational meeting of the Food For Fitness Committee under the chairmanship of John Hewitt of the War Service committee was held Tuesday afternoon in the Town Hall. Fifty members of various civic and manufacturing groups were present at the meeting which was called by Mayor Williams for the purpose of deciding when the Food for Fitness program could be launched and how many would attend the sessions of the group.

The Food For Fitness group is a program composed under the auspices of the Public Service for giving aid to women concerned with getting meals for war workers. In an effort to enlighten women on the subject of nutrition and in order to help them provide better meals for war workers, the Food for Fitness is sponsoring a series of four lectures and demonstrations which will be open to any man or woman interested in the nutrition possibilities of preparing food.

The general opinion at the meeting was that the homemakers and the people who worked in Belleville were those who should be most interested in this plan. It was decided that the meetings would be held in the afternoon in the auditorium of School No. 8. The first lecture will take place a month before these courses are started because the public service has to install a pipe line in the auditorium for the demonstrations. It is planned to invite all those interested in the plan to attend the demonstrations, this will be done through the members of the Block leader group of the Defense Council under George Weston, by letters sent to parents through school children and by publicity of the plan.

Two Sessions Available

The lecturer for these demonstrations Miss Della Condery is the Public Service home consultant who is willing to run two sessions of each lecture if there are enough people interested. Anyone who wants to enroll for the series of four lectures may get in touch with their block leader or with the nutrition group headed by John Hewitt.

Main meal feedings from a nutritional standpoint and lunch pail meals from the same standpoint, will be stressed in these demonstrations. All war workers and all mothers who help to feed war workers are asked to attend these lectures. Physical stability can only be maintained through the proper diet and that is what the Public Service consultant will explain in her demonstrations.

The Food For Fitness committee is part of the Community War Service group of the defense council and includes present nutrition groups.

If you haven't gotten around to buying a Second War Loan Bond, stop and think what it would mean to you if our soldiers hadn't gotten round to the fight.

Learning To Be Mothers' Helpers

CERTIFICATES will be awarded these girls on April 21 in School No. 5 where they have completed the course in child hygiene and care of the sick given there annually by Miss Angele Chapman, R. N., town nurse. On Miss Chapman's right in the picture above, where she is demonstrating the proper method of dressing an infant, is Dorothy Eller. Behind them, from left to right, the other members of the class are: Florence Gorman, Jean Lane, Gloria Walsh, Doris Russell, Rita Jacobson, Audrey Todd, Dona Feuerstein, Jane Cory, Marie Marinaccio, and Mary Watson. Not in the picture are two other students, Betty Ann Kean and Jeanette Friday.

Eighth Graders Are Taught Infant And Child Care

This Group Is Concluding A Course Of 10 Lessons
Which Include Hygiene, Nutrition And Care of
the Sick as Well as Emergency Aids

Classes, conducted annually in some local schools, by Belleville Maternal and Child Health nurses of the Health department for the purpose of instructing girls in child hygiene and the care of the sick are now drawing to a close.

Eighth grade students are eligible and a dozen or more girls enroll every year in each course of 10 lessons. The instruction and practice are carried on after school. Miss Angele Chapman, who has conducted such classes here for 15 years, held her classes in School No. 5. Miss Mary Millar has completed a course in school No. 1 and the Misses Esther Olson and Helen Gilsenan, all registered nurses of the town staff, will shortly finish classes at School No. 7 and St. Peter's school.

These juvenile home nursing courses stress the care of the infant and pre-school child with a view to making the girls proficient in their roles as mother's helpers or big sisters. Their personal hygienic methods of avoiding common ailments, proper nutrition and care of the sick in bed are also taught and demonstrated to the girls. Those who are Girl Scouts benefit by earning one of their required badges and others find their training a fine recommendation when they apply to care for other people's young children.

They have been trained to recognize and minister to youngsters in an emergency.

Woman's Club Installs Newly Elected Officers

Mrs. John J. Hewitt of 334 Stephens street will be the hostess this afternoon to members of the literature department of the Woman's club. The group will meet at 2 when "Circle in the Water" by Helen Hull will be discussed by Mrs. F. J. McFadden and Mrs. Theodore Voelter will review "Guadalcanal Diary" by Richard Tregaskis.

Following the board of trustees meeting at 10 and a session of the board of director of the club at 10:30 Monday evening installation of officers will be conducted Monday afternoon at a business meeting of club members.

Newly elected are Mrs. Frank J. Ackerman, president; Mrs. Dwight N. Streeter, first vice-president; Mrs. William V. Irvine, treasurer; Mrs. Fred Idenden, recording secretary; Mrs. William Chapman, assistant corresponding secretary and Mrs. William P. Adams, federation secretary. Those who will continue in their present offices are Mrs. William Allen Jr., Mrs. Elwood Russell, corresponding secretary and Mrs. Morris Rochlin, assistant treasurer. Stepping into membership on the board of trustees will be Mrs. John Denike, retiring president, and Mrs. Leslie Woodruff. Mrs. Charles Smith has been made chairman of legislation and Mrs. Daniel T. O'Connor chairman of printing.

Mrs. Ackerman will name chairman of hospitality, program, publicity and for the management of the yearbook.

If every man, woman and child in the United States lays aside \$100 the aggregate will be about \$13,000,000,000 or the amount the Treasury must raise in its Second War Loan.

DIAMONDS, WATCHES, JEWELRY, at prices always in line with the quality of the merchandise offered. Victor Hart, Jeweler, 457 Washington avenue, Belleville, N. J.

Hope For Action On Fifth Man Question Tonight

The question of choosing a commissioner will again be discussed by the board of commissioners at a dinner meeting tonight called especially for discussion.

A special meeting was called noon in order to rush through by the Mayor on Tuesday afternoon approval of a certified copy of the 1943 municipal budget for State Commissioner of these local government Darby. The board also granted Public Service permission to move light poles on Main street.

No names of candidates were voted upon at the meeting. Commissioner Noll and King have held out for the nomination of Raymond E. Mertz while Waters and Williams are desirous of putting Michael J. Flynn formerly of the police force.

RATIONERS MOVE ON SATURDAY

Give Notice For Coupon Holders
Wanting Supplemental
Rations

Herbert C. Schmutz, chairman of the Belleville war price and ration board has announced that the board will be closed all day Saturday while the move to its new headquarters on 44 Washington avenue takes place. The move is being made to provide more space for the office staff.

The hours of the board are from 10 a.m. to 4 p.m. on Monday, Wednesday, and Friday, and 11 a.m. to 3 p.m. on Tuesday and Thursday and from 7 p.m. to 9 p.m. on those nights. The Saturday hours are from 9 a.m. to 12 holders of "A" gasoline ration books who because of the reduction in rations require supplemental gas to continue their necessary occupational driving may apply to the local board on and after April 22.

Supplemental Ration

All applicant for supplemental rations must show to the satisfaction of the board that they have formed a car-sharing club with three or more people. Only under exceptional circumstances will the board issue supplemental ration where no car sharing plan has been formed. These applicants must also have their tires inspected.

It was expected that because of the reduction in A rations, some B and C book holders would need more gas an such drivers will be given supplemental rations if they can prove that there is a need, but they have been urged to live within their allotments.

Holders of B and C books which come up for renewal will apply in the same way as usual. Under the amended regulations a new procedure for the issuance of B books will be followed by the local boards. With maximum mileage for B book holders established at 360 miles a month, all B books will be issued for a period of four months, and will be tailored to fit requirements of each individual applicant. For the present the board issues two B books for the maximum mileage of 360 miles a month but a new type of book containing 82 coupons will be issued soon to offset the two B books.

SPRING SALVAGE DRIVE OPENS

9 1/2 Tons Of Tin Cans Collected
In Last Month's Drive;
Boy Scouts Help

Robert G. Sutherland, committee chairman salvage, has announced that nine and a half tons of tin cans were collected for the month of March. Though this represents a drop of four and a half tons from the February collection it is better than was expected point rationing. February's collection was high since part of it was from an uncompleted January collection.

Sutherland denied a statement made in a Newark newspaper that he was attempting to have the town pass an ordinance making the preparation of this mandatory. Stating that he had talked with others in the defense council about the idea, Sutherland said "We do not feel that an ordinance regulating the collection of tin cans is necessary at this time." He said it is the consensus of opinion that in conducting the drives on a voluntary basis all the people who could, would contribute.

The salvage committee will hold a meeting shortly to determine plans for the Spring Drive for more metal and within the past weeks several surrounding industries have had to close their doors because they were unable to get enough eleven national groups embracing all phases of the nations dry cleaning and laundry industries are taking part in efforts of the Industrial Salvage branch of the WPB which is attempting to raise 3,300,000 tons of scrap during the first six months of 1943.

During the drive laundry and dry cleaning establishments will be encouraged to scour their premises for every bit of scrap that can be thrown back to war production. Usual scrap channels will be used for the disposal of the scrap material. All the Boy Scout troops will also participate in the drive. Each troop has been approached by Sutherland and Robert Batholonev, who have worked out a plan for the troops so that each will cover a sector of town in both collection of metal and fats. Through such a coordinated effort, Sutherland feels that the Boys Scouts will be able to canvass more sectors than they have previously done. Each troop which takes a part in any branch of the salvage drive is entitled to a certificate of award for participating in civilian defense.

Metal helps to keep production going and builds tanks, warships and planes for our fighting men. Householders solicited in the metal drive will be asked to give only that which they do not need. Necessary metal is not requested in the drive, only metal that is useless and can be salvaged is being sought.

Third Heat Violation Costs Defendant \$28

In the third case tried in Belleville during the last month, Stewart Holding company of 195 Broadway, Newark was fined \$25 on a heat violation charge in Recorder's court Monday night.

Benjamin Garfinkle, president of the company which owns an apartment building at 103 Washington avenue, pleaded guilty to a charge by Edward O'Connor, assistant building inspector, that on March 4, the company failed to keep an average temperature of 65 degrees as provided by the town ordinance from 6:30 a.m. to 10 p.m. when the outside temperature was less than 50 degrees.

One apartment house owner was fined \$10 in a heat violation case recently and as yet, Judge Smith has reached no decision in the third case.

DEFENSE COUNCIL ASKS AMBULANCE CORPS SUPPORT

Drivers Are Needed For Emergency Cases; Last Lecture
To Be Held Tonight

Stating that the falling off in the number of ambulance drivers in the local defense forces seriously threatened to sabotage the Emergency Medical set up of the Belleville Defense Council, Defense Council, Defense Coordinator Harry J. Sullivan yesterday made a strong appeal for replacements. "In Belleville," Sullivan said, "we have a medical plan that is second to none for a town of our size. Our physicians are without question the equal of any similar group. Our nurses are competent and ready. Our nurse-aides are well trained. Our first aiders are constantly reviewing their training and would do a good job. Our merchants, manufacturers and laundry owners have volunteered the use of their equipment. Those drivers of the Ambulance Corps who have loyally stuck to their job in Civilian Defense are extremely capable, but due to the loss through indifference, lack of public spirit, enlistments, the draft and war work, their numbers must be supplemented.

"I cannot too strongly urge that this threat be met and overcome. Twenty-five strong able-bodied men who can drive and who are not now engaged otherwise in Civilian Defense are needed at once. Women too, can volunteer, there are a great number already in the Corps, but men are especially needed because their greater strength makes them useful for handling stretchers.

Can't Forecast Future

"No one can forecast the future. If the enemy should come, a man who volunteers now and is trained may be the means of saving the life of someone he loves. If however, he fails to enlist now, the ambulance that fails to arrive might have driven, had he volunteered. The failure of that ambulance to arrive may be the difference between life and death. Please consider this and join at once."

The last lecture in a series given by the Ambulance Corps will be held tonight at 8:30 at School No. 8 and will feature the State Motor Vehicle department on emergency rules and regulations, without driving, and conveyance.

L. B. McCloskey, head of the Corps has announced the resignation of Capt. Harold Hollar of Casualty Station No. 3 for business reasons, and has appointed Edward Gauss of 114 Tappan avenue to succeed him.

McCloskey also announces that plans are under way to give instruction in the Municipal stadium when the weather is warmer, on emergency roadside repairs, and difficult driving.

Red Cross War Fund Goes Over Its Goal With \$3,800 To Spare

Drive Chairman

Raymond E. Mertz

German Refugee Will Speak Before Joint Rotary Meeting

Leonard Gunther, German refugee, will be guest speaker at the joint meeting of the Belleville Lions club at their meeting next Wednesday noon at the Forest Hills Field Club. Wayne R. Farmer, Belleville president will preside with Luther Van Pelt, representing the Lions club and Dr. Kenneth Magee representing the Nutley Rotary.

Gunther has been on a speaking tour for service clubs in Massachusetts and is now staying at the Hotel Hamilton in Trenton. He will give several speeches before New Jersey groups. His subject will cover some phase of German life. Over 100 members of these three clubs are expected to attend.

Legion Endorses Labaugh For County Commander

American Legion at their meeting on Monday night unanimously endorsed William I. Labaugh for Essex county commander. The election for county officers will be held at the county convention in June. Labaugh is now one of the county vice-commanders. He is post commander of the local post and is active in post affairs.

John Dailey, a member of the post gave an informative talk on the work of these draft boards. Word has been received that Past Commander Robert A. Van Voorhis has been promoted to a Commander in the navy. The post has three other members active with these armed forces.

The local war fund drive, the Red Cross has topped \$26,200 goal by \$3800 making total of \$30,000 in the first extension of the drive. The contributions resulted in a 15 cent increase over the drive of the house-to-house canvass. The house-to-house canvass resulted in one of the largest contributions ever received from people of Belleville, with the people of Belleville with the help of Raymond Mertz, chairman, expressed his appreciation of whole-hearted cooperation of 5000 workers who made the drive the most successful one yet. Belleville has ever participated in individual contributions amounting to \$18,500 of which half was donated by the workers and the other half was given by the manufacturers themselves. In most cases, donations from the workers were matched by the company and some cases the amount was doubled and tripled.

Gilbert L. Wright, war industries committee chairman, credited to the cooperation of local management in the drive which made it such a "spite success." The support given by the workers in industry and in the manner in which they worked made the total from industry most 100 percent.

Large Contributors

The large contributions were made by Walter Kidde and company in which the tabulations are not yet completed, but the donations were over \$4000. Wallace & Tiernan donated \$2,000 and tabulations are not yet completed. Isolantite with tabulations practically completed raised \$200 and Andrew Jergens with a small staff donation and large company donations contributed \$1,010. Westinghouse in conjunction with the local C.I.O. contributed \$950. Hoyer Products, \$775, Federal Leather, \$582, and National Grease, \$506.

B. Thomas Aiken, president chapter, has expressed his appreciation for the cooperation and aid given by the workers and the response of those solicited. This cooperation was responsible for making this drive reach for success of any amount ever realized locally for any charitable purpose.

Albert P. Luscombe, treasurer chapter reports that \$21,500, cash is on hand and that \$8,500 has been received in pledges. There are still some final reports to be made from the factories according to Luscombe.

The three local appeals made various civic branches netted \$850 with \$500 of that amount coming from collections taken at the C.I.O. hall under the auspices of the Warner Brothers theatre. \$250 of it coming from the local Skating benefit put on by the

Five's Success A Tribute to the Town

In spite of a slow start, Belleville has done what it can do, in not only meeting the quota for the Red Cross war fund but exceeding it by fifteen percent. One of the most successful drives for charitable purposes the town has ever had, both the manufacturers and the townspeople have greatly extended their usual peace-time contributions, to make this possible. Employee contributions among local industries have shown a doubling of their usual totals, and many 100 percent Red Cross banners are their reward for their

response to this worthy cause. The fact that the firms in some cases more than matched the employee totals accounts for a good share of the \$30,000 turned in. However, back-bone of any campaign is the house-to-house group composed of volunteer workers who must persistently repeat their calls on residents if they are to reach the quota established for their group. The fact that the doorbell ringers brought in around \$10,000, far more than ever before, is a tribute not only to the workers and the drive committee, but to the patriotic response of the townspeople

On Choosing A Fifth

The stalemate on the choice of a fifth commissioner to fill the vacancy caused by the death of Commissioner Clark six months ago, we hope is not destined to become permanent. Although at the recent conference called for an amicable discussion, action was again delayed, it is hoped that at tonight's meeting, something definite will be accomplished. Even the least informed and observing realize after this lengthy delay, that it is being caused by a jockeying for power among the members of the present board who are split two and two. Either the pre-

sent teams will have to be split by the commissioners themselves, or the townspeople, if they are interested in their local government, will have to exert pressure in dissolving the deadlock. Our municipal government, set up under the Walsh act, calls for a five man board. The commissioners, as public servants elected and hired by the townspeople, have a responsibility they are slow in fulfilling. An agreement should be reached without further delay. When the choice is made, it should be made in the interests of efficient management of town affairs.

Solve Your Nutrition Problems

Although we are constantly hearing about nutrition and well-balanced meals being more important than ever under the ration program we're quite sure that the word "nutrition" is as nebulous to a lot of people as the list of vitamins we're supposed to eat daily, in a sort of alphabet soup. And even the well-informed are doing plenty of juggling these days, to get a "well-balanced" diet out of the foods and budgetary allowances available. All of which proves the timeliness of the lecture series beginning soon under the sponsorship of the defense council's nutrition committee under the community war ser-

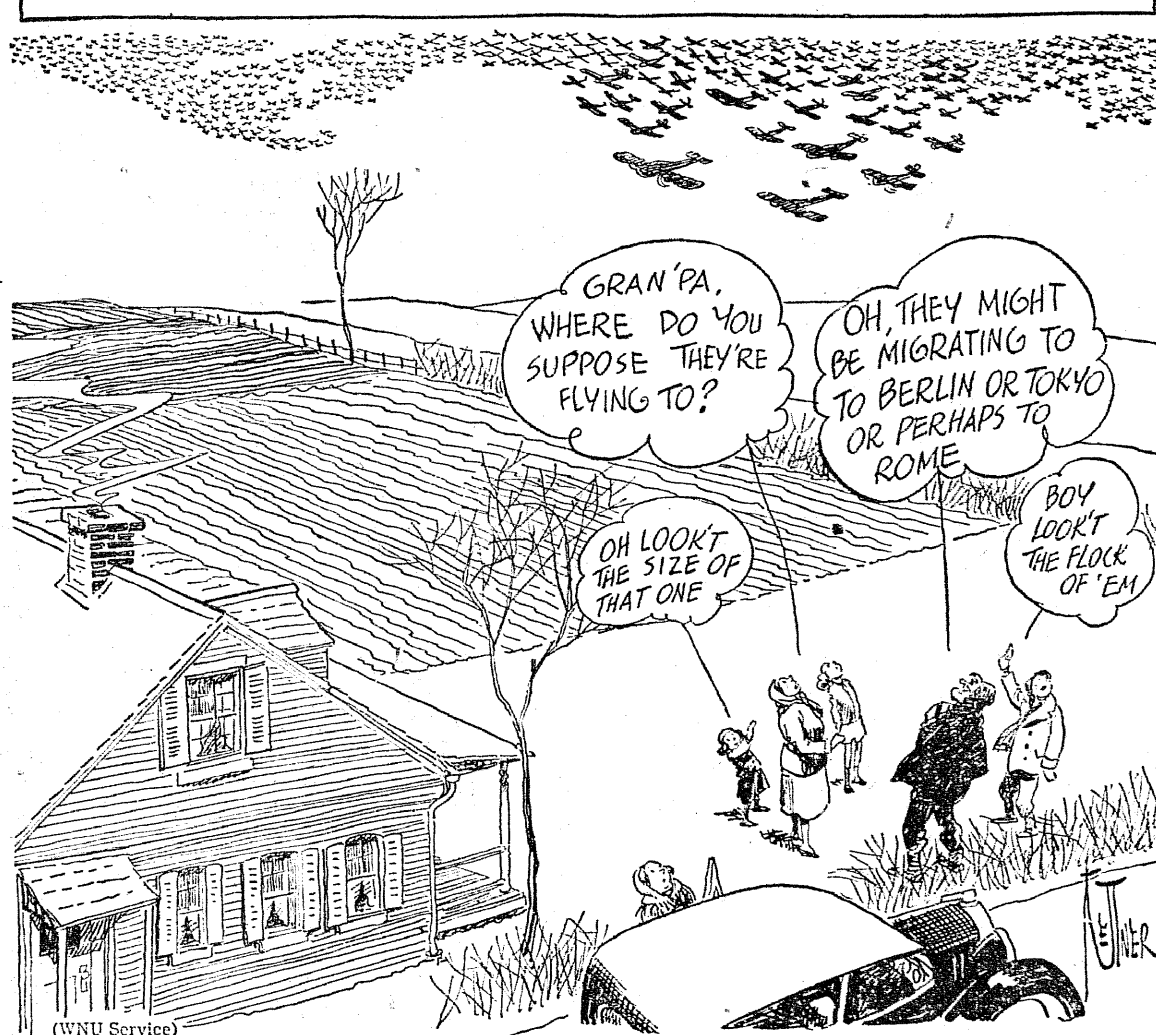

vices. The committee which has been concerned mainly in disseminating information on well-balanced diets to hundreds of local women, is taking a worthwhile educational role on the "home front." It has, among other things, debunked the illusion that those with the highest grocery bills are the best fed. Bringing a home economist to town to solve the menu problems of harassed housewives, particularly those cooking for war working members of the family, is a service that should be well appreciated by those interested in getting the most and best out of those little red and blue stamps in their ration books.

Prepare For Scarcity

In the bothersome stage at present, the food shortage may well become a serious problem by the time next winter rolls around. Skipping the vicissitudes of Washington mismanagement of ceiling prices and government hoarding, our eating habits will definitely be curtailed—to ship ever-increasing supplies to our servicemen and to feed our Allies under growing lend-lease arrangements. We could be slightly optimistic if we thought the farm labor shortage would

be solved or that Washington, by some lucky quirk might abandon control to the old law of supply and demand. Since these possibilities appear remote, it behooves us all to grow a share of our own "rations" for next winter. For those lacking sufficient land, town plots are available. We understand that a 50 by 50 foot plot will produce fifty or sixty dollars worth of vegetables. This sounds like a supply which could go a long way in any family, when scarcity arrives.

Sea Scouts Turn Commandos In Mock Raid Tomorrow Night

Tomorrow night a mock commando raid, the first to be conducted in the Robert Treat council area, of Boy scouts, will be staged by Sea scouts, Ship 303 of this town.

The raid will be directed by Fireman Carl Hunterfund skipper for the past three years of Ship 303. The ship's port crew will operate and defend a short wave radio station at a predetermined spot along the Passaic river. The star board crew will be the attacking party. Operations will commence at 8:30.

Joseph Hughes will command the defending crew and Frank Larkin will lead the attackers. Chalk with which to make wound stripes and flour bombs to indicate enemy strikes will be employed. Assisting Fireman Hunterfund, who will referee the struggle, will be Sea Scouts William Schable, Douglas Sharp and Bernard Yasehal.

Bank Teller Speaks To Junior High Students

Victor J. Preston, note teller of the First National Bank of Belleville and member of the public relations committee of the A.I.B., Essex County chapter, addressed the Junior High school students of Public School No. 5 on March 23.

"Banks, And What They Do" was the subject of the talk. Preston covered the purposes and advantages of proper banking facilities and their connection with present day industries.

|  Tongue (beef, calf, pork, lamb) | May be purchased fresh, pickled, corned, or smoked. Make tender by proper cooking. Pork and lamb usually purchased ready to serve. | Good source of iron, phosphorus, B vitamins and quality protein. | 1 beef — 3 3/4 lb. 1 calf — 1 1/2 lb. 1 pork — 3/4 lb. 1 lamb — 1/2 lb. | 12 to 16 3 to 6 2 to 4 2 to 3 | Simmer in seasoned water until tender. Remove skin; serve as desired. |
|  Tripe (beef) | First and second stomachs of beef. Plain and honeycombed, latter preferred. Purchased fresh, pickled or corned. Make tender by proper cooking. | Good source of quality protein. | Plain — 7 lb. Honeycomb — 1 1/2 lb. | 3/4 to 1 lb. for four | Pre-cook in water to make tender. Then broil, fry or braise. |
|  Sweetbreads (beef, calf, lamb) | Divided into two parts: Heart and throat sweetbreads. Tender and delicate in flavor. | Good source of riboflavin (vit B2) and quality protein. | 1/8 lb. | 3/4 to 1 lb. for four | Pre-cook in water to help keep and make firm; broil, fry, braise or cream. |
|  Brains (beef, calf, pork, lamb) | Very tender and delicate in flavor. | Good source of iron, phosphorus, B vitamins and quality protein. | 3/8 lb. | 3/4 to 1 lb. for four | Pre-cook in water to help keep and make firm. Then scramble, fry or cream. |

*All variety meats are processed and have high percentage of edible meat.

This handy chart on variety meats is designed to assist the housewife in solving her wartime meat problem. The variety meats are deserving of special consideration because they are high in food value and may be prepared in many appetizing dishes to supplement the usual chops, steaks, stews and roasts.

A Planning Guide For Your Victory Garden

New gardeners are shown in this, the seventh article by R. E. Harman, County agricultural agent, what to expect in the line of started plants for their cabbage and tomato crops and all other seeds which cannot be sown directly in the garden. He warns that "bargains" in little plants will profit the gardener little and lists a few of the characteristics which distinguish healthy plants.

Gardeners who have had success with rearing young flower plants from seed sown indoors should also be able to grow vegetable plants indoors. However, it is now too late to grow indoor plants. Most vegetable seeds are sown indoors no later than February 15. This article then will deal with growing plants for late crops. These can be started outdoors and include cabbage, celery and broccoli. They are planted in the garden late in June and four to six weeks from seeding is required for growing the plants.

In the main, gardeners have planned to purchase started plants. Florists and nurserymen who have plant growing facilities were urged to grow many more plants in 1943 than has been their custom. In spite of this, there may be shortages of some vegetable plants. If you cannot locate sufficient when planting time comes, you will just have to grow more of the other vegetables in order to fill up your garden space. A smaller number of plants well cared for may result in just as large a harvest. One could easily plant too many early cabbage and cauliflower plants as they will not keep long once the head has matured and hot weather sets in.

In the purchase of plants, there will be no "bargains." One seed flat will contain more plants than another. One seed flat will have the plants growing in separate wood-hand pots while another will contain untransplanted plants. Other plants may be available in clay flower pots to which they were transplanted from seed flats. Some plants will be "spindly" with sturdy stems and fewer leaves than others. Some leaves will be of rich green color while others will have undernourished looking leaves. There will be no "bargains."

The next article will deal with transplanting vegetable plants.

Soap may become scarcer this year. WPB has currently limited the soap industry to 84 per cent of materials used in average calendar years 1940-41. Which reminds me, soldiers and sailors use twice as much soap as the average civilian—about two and a half pounds per month, per man.

The 2nd War Loan Starts April 12

13 billion dollars must be raised!

THE GOVERNMENT of the United States is asking us to lend it 13 billion dollars in the next few weeks. We can do it. And we *must* do it. Every American must realize the truth:

In this, our toughest war, we've made a good start. We've trained a lot of men—made a lot of weapons—built a lot of ships.

But it's only a start. No man or woman among us would content for a single instant that we're doing enough *now* to win this war!

We've Got to Build More!

We broke all records building 8 million tons of shipping last year. But grim-faced Army and Navy men will tell you that the 18 MILLION tons we're building this year *still* won't be enough!

We've Got to Fight More!

From now till this war is won, America must be on the offensive. In ever-increasing numbers, your sons, brothers, husbands must go into actual battle. Our losses have already begun to mount—and they will not grow less.

And We've Got to Buy More War Bonds!

Sure we're all buying War Bonds now. But we've got to help pay for our increased fighting and building . . . We've got to match, as best we can, the sacrifice of those Americans who are toiling and sweating on a dozen battlefronts—with the bloodiest yet to come. The blunt fact is this: to keep our war machine going, we've got to dig up 13 billion *extra* dollars this month—13 billion dollars over and above our regular War Bond buying!

In the next few weeks you may be visited by one of the thousands of volunteers who are contributing their time and effort to this Drive. But don't wait for him. Make up your mind now that before this drive is over, you're going to march right down to your nearest bank, Post Office, or place where they sell War Bonds, and do your duty. And don't ever for-

get this: in doing your duty, you're doing yourself one of the biggest favors of your life!

For United States War Bonds are the greatest investment in the world—bar none. They're investments tailored to fit your particular situation. And they give you the chance of a lifetime to order and *get* the kind of world you want to live in after this war. Every cent you put in War Bonds now will help to guarantee plenty of peacetime jobs making peace-living for every one of us.

For your Country's sake—for your *own* sake—invest *all* you can!

There Are 7 Different Types of U. S. Government Securities—Choose The Ones Best Suited For You:

United States War Savings Bonds—Series E: The perfect investment for individual and family savings. Gives you back \$4 for every \$3 when the Bond matures. Designed especially for the smaller investor. Dated 1st day of month in which payment is received. Interest: 2.9% a year if held to maturity. Denominations: \$25, \$50, \$100, \$500, \$1000. Redemption: any time 60 days after issue date. Price: 75% of maturity value.

2½% Treasury Bonds of 1964-1969: Readily marketable, acceptable as bank collateral, these Bonds are ideal investments for trust funds, estates and individuals. A special feature provides that they may be redeemed at par and accrued interest for the purpose of satisfying Federal estate taxes. Dated April 15, 1943; due June 15, 1969. Denominations: \$500, \$1000, \$5000, \$10,000, \$100,000—also \$1,000,000 if registered. Redemption: Not callable till June 15, 1964; thereafter at par and accrued interest on any interest date at 4 months' notice. Subject to Federal taxes only. Price: par and accrued interest.

Other Securities: Series "C" Tax Notes; ⅞% Certificates of Indebtedness; 2% Treasury Bonds of 1950-1952; United States Savings Bonds Series "F"; United States Savings Bonds Series "G."

The Series C, Tax Notes; ⅞% Certificates of Indebtedness; 2½% Treasury Bonds of 1964-69; and 2% Treasury Bonds of 1950-52 are acceptable as bank collateral.

In order that you can subscribe liberally we are prepared to make amortizing loans for the purchase of any of the issues eligible for bank collateral at low interest rates.

Securities to meet the needs of all classes of investors are being offered by the Treasury. We will gladly assist you in determining your requirements and in placing your subscriptions.

 "A sin, disease, and Death real?" is the Lesson-Sermon subject for Sunday, in all Christian Science Churches and Societies.
 The Golden Text is: "God be merciful unto us, and bless us; and cause his face to shine upon us; that thy way may be known upon earth, thy saving health among all nations."
 Among the Lesson-Sermon citations is the following from the Bible: "He that is our God, is the God of salvation."
 The Lesson-Sermon also includes the following passages from the Christian Science textbook: "Sickness, sin, and death, being inharmonious, do not originate in God nor belong to His government. His law, rightly understood, destroys them." "All reality is in God and His creation, harmonious and eternal. That which He creates is good, and He makes all that is made."
