## FIRST FOUR ZONE TESTS COMPLETED BY TONIGHT

All Services Show Improvement Over Previous Tests; Ambulance Corps Commended

The first circuit of the zones will be completed tonight with the testing of Zone 4. Working tonight will be all wardens of the zone, the zone center at the Recreation house, the police reserves, the fire reserves, the demolition and repair crews at the zone headquarters as well as the crew located at J. Zandee's at 115 Carpenter street.

The casualty station at School No. 10 will function and the first aiders at that point will be augmented by the workers from Montgomery Chapel and School No. 7.

The usual starting time of 7:30 p. m. will prevail, all personnel being expected to report at 7:15 p. m. In the event of rain, the fire whistle will be used to call off the test by sounding signal 14 at 7 p. m. In the event of a postponement, the test would be put off for two weeks until June 10th, because of next week's meeting.

Last week's test in Zone 3 went off in good style. All services showed improvement, the ambulance corps in School No. 5 having a record turnout of nine ambulances. This was the first real test that this group has had, they being the victims of several changes in stations, but they proved their worth in last week's demonstration.

The wardens of Zone 3 made a good showing, both in numbers and in the excellent manner in which they handled the incidents. A high percentage of coverage was reported and the A. R. P. heads were well pleased with the wardens' performance.

No test is scheduled for next Thursday because of the meeting in the High school. Local Defense heads are also weighing the effects of the gas ban on future incident tests. No decision has yet been reached.

On Tuesday evening, the 44 Sector wardens of the town met in the Recreation house to receive their assignments in connection with the task of securing the present addresses of Belleville service men. This work is in connection with the mailing of "Belleville Today" to all men from the town who are now in service. It is hoped that the wardens will receive the cooperation of the friends and relations of service men, in order to help them in this patriotic endeavor.

## Ready For Any Emergency

READY FOR ANY EMERGENCY, members of the local Red Cross Motor Corps view above, the station wagon presented to the chapter by Dr. and Mrs. James R. Irwin. Fully equipped as a utility ambulance, the gift of an industrial kit, blankets and pillows contributed by Mr. and Mrs. Harold Pumyea, corps members will use it for civilian defense work in addition to the routine duties assigned by chapter headquarters.

## Irwins Present Station Wagon To Red Cross

The gift of a station wagon to be known as a utility ambulance, has been presented to the local chapter of the Red Cross by Dr. and Mrs. James R. Irwin. The station wagon is a fully equipped 1942 Ford and carries at all times a Red Cross industrial kit, blankets and pillows. These are gifts of Mr. and Mrs. Harold Pumyea.

The station wagon was donated to the chapter for the use of the Motor Corps which will man it. Members of the Motor Corps operate under the Red Cross Disaster Preparedness Committee, and the organization is divided into a Supply corps and an Ambulance corps. Services of the Motor Corps are purely voluntary. Each member bears the cost of maintenance and gasoline for her car, and purchases her own uniform.

To qualify for the Motor Corps, it is necessary to have a car at your disposal, pass a medical examination by your physician, take basic training, and designate the day and hour you would like to serve. Due to the emergency, the corps has instituted two units of workers, for which no training is necessary. These are Unit A—members who must hold a driver's license, and have a car at their disposal, and Unit B—members who do not have to be drivers but who serve as aides, going out on call on all chapter work, including that of the Supply Corps. Every person joining the Motor Corps must purchase an overseas cap at \$2.00 to serve as corps identification. This is all in the way of a uniform that is necessary in any branch of the corps service.

### Corp Members

Officers and members of the present motor corps include, Captain, Madeline Cort; Co-Captain, Winifred Struble; Adjutant, Gladys Irwin; Treasurer, Doris Scharfenberg; Secretary, Marjorie Haslam; Time Recorder, Frances Parker; and Insignia, Ruth Hess.

Officers of the day on duty at Headquarters at 258 Washington avenue are as follows: Tuesday, Lieutenant Barbara Pobert; Wednesday, Co-Captain Struble; Thursday, Lieutenant Katherine Stoen; Friday, Lieutenant Hilda Cooper; Saturday, Lieutenant Mildred Doran.

Other members of the corps include Emma Pincus, Marjorie Owens, Frieda Abramson, Estelle Cox, Theresa Sheehan, Anne Mishkind, Ruth Dickinson, Mary Jirak, Miriam Spotts, Rita Delane, Blanche Pumyea, Mildred Carr, Virginia Baxter, Kathryn Walker, Phoebe Spencer, Edna May Scully, Hazel Adams.

Paul Baxter, chairman of the First Aid Committee of the Belleville Chapter, has appointed Miss Phoebe Spencer, first aid instructor, to the corps, assisted by Miss Frances Williamson.

## Wake Carpenter Street Part Of Belleville Avenue; One Way

An ordinance was passed at first reading by the Board of Commissioners Tuesday night, providing for the conversion into a one way street of Carpenter street, and Belleville avenue for a certain distance.

Carpenter street for its entire length was designated as a one way street for north bound traffic and parking was permitted only on the East side. Belleville avenue was also designated as a one way street for East bound traffic only from Washington avenue to Main street. No parking is to be permitted on that section of Belleville avenue from Washington avenue to the end of the street.

## Spatz Warns Cyclists of Sealing

Police Chief Spatz has requested that children take more care of their bicycles. He suggests that all those who ride bikes to school or leave them in any other place, have a lock for them so that they will not be stolen. Children are also asked not to leave bikes around in driveways or streets so that they can be damaged. Bike stealing results from no locks on bikes, and accidents result from riding on dangerous streets or riding at night with no lights. All bike riders are warned not to leave bikes around without locks and to be careful where they ride.

## NOLL ASKS CARE OF PARKWAY

Wants Drivers, Pedestrians To Avoid Damaging Newly-Seeded Greylock

During the past few weeks the Department of Parks and Public Property, under the directorship of Commissioner Noll, with the able cooperation of the Shade Tree division of the Department of Public Affairs, have been busy beautifying Greylock Parkway. This task necessitated the cleaning, cultivating and re-seeding of the Parkway.

Commissioner Noll, upon completion of the work stated that it had been brought to his attention that many of the residents along the parkway have been driving and walking upon the newly seeded parkway, necessitating additional funds to be expended as well as the use of additional manpower hours.

The Commissioner stated, "Each year my department endeavors to make the parkway a source of pride to the people of Belleville. This effort takes a great deal of time and money. However, it is my belief that the people residing along this thoroughfare should take more pride in this work and lend their individual efforts in helping us to maintain the parkway in a satisfactory condition."

"Immediately after several of the blocks were reseeded there appeared several automobile ruts caused by residents using the plots to turn their cars around. It seems that some of the people drive upon the parkways rather than drive around the block. I appeal to the residents of Greylock Parkway to cooperate with my department to enable us to maintain the parkway in its proper condition by refraining from walking or driving upon the parkway and reporting to my office any infractions of this rule."

The Commissioner stated that his department is arranging that proper care be given to the parkway throughout the summer season.

## Thirty Motorists Summoned In Weekend Roundup By Police

Thirty motorists were rounded up in the drive conducted by the police department over the weekend for driving violations. Most of them were stopped at Esplanade and Franklin where police were stationed to check on OPA pleasure driving violations. They were summoned to appear last night before Recorder Everett B. Smith.

Of the total summoned, 17 were charged with driving without license, three for driving after revocation of license, one after two drunken driving convictions, four for conditional driving license infractions and the others for minor violations.

## ROD & GUN CLUB CHARGED AGAIN

A.B.C. Prefers New Charges Against Club After Reversing License Revocation

After having reversed the action taken by the Board of Commissioners on April 13, in revoking a liquor license for the Woodland Rod and Gun club of 215 North Belmont avenue, State Beverage Commissioner Driscoll, Friday preferred charges against the license of the club stating that the club was operated as a "front" for the rightful owner.

Reversal of the board's decision was taken by Driscoll Thursday because he held that the evidence presented failed to support the charge of the Board of Commissioners that "a brawl or brawls" had taken place in the club on January 30.

Was "Alleged Front"

A copy of the new charges against the club was sent to the Board of Commissioners on Friday with an attached letter from Driscoll stating that the case would be tried directly by the ABC on June 3 since the charge involved "an alleged front" and the Beverage Commission make it a policy to handle all such cases.

The charges against the club state that the applicant in reply to a question on whether any other person other than the applicant had a direct or indirect interest in the club, "falsely stated no." The charge maintained that "In truth and fact, Lawrence Burde was the real and beneficial owner" of the club and that the club since May 1940 had "knowingly aided and abetted Burde."

Burde, who lives at the Belmont avenue address is listed as the club treasurer in an application for license renewal filed with the town commission May 20, 1942. Others listed as officers were Arthur Hartwig of Greenwood avenue, Pequannock; Albert Colgate of 416 North 16th street, Harrison; and James Hoffman of 691 Mill street.

The application stated that the club was organized for "good sportmanship." Twenty bicyclists, two each from Newark and Harrison, and one from Pequannock are listed as members.

## Board of Education Announces New Graduation Schedule

A new revised schedule of day-time graduation exercises for the elementary schools has been announced by superintendent, Wayne R. Parmer. Such a program of day-time exercises was decided upon, according to Parmer, in order not to conflict with dimout regulations, to conserve the health and safety standards of children, to conserve electricity, and because of the lack of janitor service.

All elementary schools will hold day-time exercises while the High school will hold its annual twilight commencement at 6:30 p. m. in Clearman Field. The following schools will all hold their exercises in the same school unless otherwise designated. School no. 1 will hold exercises on Friday, June 18, at 10 a. m.; school 3, in the auditorium of school 8, on Friday June 18, at 1:15 p. m.; school 4, Wednesday, June 16, at 10 a. m.; school 5, Monday, June 21, at 10 a. m.; school 7, June 21, at 1:15 p. m.; school 8, Thursday, June 17, at 10 a. m.; school 9, Thursday, June 17, at 2:30 p. m.; and school 10, Friday, June 18, at 10:15 a. m.

Sixty-two women attended the previous meeting at which special dishes were prepared while 139 women attended Tuesday's lecture which was on the preparation of breakfasts. Heavy, light and medium breakfasts were demonstrated.

Ridgeway of 476 Washington avenue received specially prepared apples. Recipient of the \$25 bond donated by Wallace Lerman was David Annunziata of 14 Wilson place.

### Breakfast Important

All sorts of breakfast foods and ways of preparing them were discussed at this second lecture under the direction of Miss Della Cordery public Service home consultant. The importance of breakfast to the worker and school children was discussed. Suggestions were given for Sunday "Brunch" for the swing-shift workers' first meal, and the school child's breakfast. The easiest way to cook breakfasts was presented.

The subject for the next meeting on June 1, which was to be the preparation of noon meals will also be combined with the preparation of dinners since the last lecture will be devoted to canning. At this meeting on June 1, Miss Cordery will tell how to vary pack lunches and instructions will be given on what the war worker needs in his lunch box for energy provision. A list of fillings for sandwiches will be given and suggested recipes for thick stews and casserole dishes to be carried in a thermos bottle will be demonstrated. Packable desserts will also be shown at this lecture. The combination of a dinner demonstration at this lecture will include the basic foods in each day's menu and how to cook food for the whole day to get the most nourishment from them.

The lecture demonstrations will start at 2 p. m. instead of at 1:15 as previously stated. They are being held in the auditorium of school No. 8 and are open to any interested persons free of charge. ## Canning Sugar Certificates Available At Ration Office

The Belleville war price and ration board located at 444 Washington avenue, Belleville, announces that applications for canning sugar may be made at the office on Tuesdays and Thursdays between 1 and 3 o'clock.

However, OPA announced yesterday that no certificate up to additional 15 pounds will be issued until stamps 15 and 16 in Ration Book One, each good for five pounds, have been used. Neither the local board nor the OPA wish to discourage canning but they do ask public cooperation in applying only for amounts to fill their needs.

Sugar issued for canning is to be used for no other purpose, a spokesman warns. Because of the shortage, manufacturers who use sugar have had supplies cut drastically. The only reason consumers are being allowed extra sugar is in order that they may preserve food for the coming year. The OPA asks public cooperation in this program, the board states, and the OPA will not hesitate to prosecute any person who breaks the rules.

## 20 TONS COLLECTED IN METAL DRIVE

Tin Cans Will Be Gathered Today; Hope To Top March Total

Robert G. Sutherland, chairman of the Salvage committee has announced that 20 tons of scrap metal was turned in during Clean-up week. The most noteworthy contributions in the collections were the donations of several pianos and an automobile.

All the metal collected was hauled by town trucks to the new salvage lot on William street between Washington avenue and the Erie railroad. The old lot at Cortlandt that Little streets is being abandoned. The salvage committee is at present working on a contract with Joseph Resciniti for hauling away the metal collected. Resciniti has previously helped with the salvage collections.

### Tin Cans Today

The next tin can collection will take place today and Sutherland stated that he anticipated a much larger collection than the previous one owing to the fact that the cost of fresh vegetables had gone up, meat was harder to obtain, and people were therefore using canned meats and buying more canned vegetables than they had before. Sutherland estimated from recent surveys that the increase might be as much as 15 percent.

After an all time high for the month of March, the State total for April dropped considerably and it is hoped that the May collections will go up again. The continued building of reserve stock of canned goods for U. S. armed services, civilian and lend lease aid must be maintained by saving every tin can which comes into the home, and by giving it to the government. Tin cans are easy to prepare and it takes little time to place them outside for your garbage man when he comes today.

## MEMORIAL DAY

Once again we observe the holiday which commemorates those soldiers, sailors, and marines, who, in this war and in wars of the past, have given their lives in the service of our country.

Although it required World War II to make us realize the fact most of us are now beginning to appreciate what it means to be an American, what it really means to enjoy the blessings of freedom and democracy.

In order that those dead who have fought our battles for us "shall not have died in vain" . . . to quote from Lincoln's famous Gettysburg address . . . and lest in the end we lose those precious blessings of freedom and democracy, may those of us on the home front pledge ourselves from now on to give every possible support to our fighting forces. Let us commit ourselves to the liberal purchase of U. S. War Bonds and to the conscientious performances of our civilian duties whatever they may be.

## An Invitation To The Women Of Belleville

You are invited to attend a series of lectures and demonstrations designed to advance nutrition information to families of Belleville.

The lectures, strictly non-commercial, will not be a cooking school, nor will any brand of food or equipment be mentioned.

Dates—Tuesday, 2:00 P. M. — June 1st  
Tuesday, 2:00 P. M. — June 8th

Location: School No. 8 Auditorium, Union Avenue.

No expense is involved in attending the lectures and demonstrations, which have been planned through cooperation of the Belleville Defense Council Nutrition Committee, Red Cross, Belleville Manufacturers Association, Board of Education and the Home Economics Department of the Public Service Gas and Electric Company.

Rationing of foods requires keen consideration of proper food selection. Utmost nutrition is vital to every user of food products. Ways and means of preparing foods as well as suggestions on retaining food values will be demonstrated by Miss Della Cordery, Home Food Consultant.

The attendance of housewives is urged at each of these meetings.

### Long Distance Calls Will Be Limited To Five Minutes

Beginning June 1, long distance telephone operators will ask users of the service to limit the length of their conversations when lines in the direction they are calling are so heavily loaded that traffic is jammed and calls are being delayed.

When long distance callers hear the operator say "Please limit your call to five minutes—others are waiting," the request will mean that the demand for service for the time being exceeds the supply of available circuits to the particular city or section of the country they wish to reach, the New Jersey Bell Telephone company states.

However the Valley nine came back in their half of the same inning to tie the score at 3-3. ## YOUR VICTORY GARDEN

Cultivation; Technique of Thinning; Recognizing Harmful Insects.

By Dr. Charles H. Connors, N. J. College of Agriculture

By this time the early plantings in the garden are completed, and the harvest of most things, except radishes, is not yet in sight. Some hard work in gardening is at hand, and yet these chores should not be too much of a burden. They may even bring pleasure and inspiration if approached in the right spirit.

Many persons are having a garden for the first time. They have never been intimately associated with plants. The various operations performed in maintaining the garden should bring us closer to the plants so that we might know them better. The pleasure from learning how plants grow and watching them grow more than compensates for the labor involved in raising them.

In the care of the garden, the first job is cultivating. About once a week the soil should be loosened, as soon after a rain as it is possible to do so without puddling. Various tools may be used, "right the wrong way" up to the operator. Many gardeners use only a rake. Others stick to the old-fashioned hoe, while still others use the scuff-hoe or Dutch hoe. You can use any implement that will keep the top of the soil loose.

Cultivation does several things. Foremost, it kills weeds before they can make much growth. By loosening the soil, it is possible for air to enter and for gases to escape, for the roots absorb oxygen and give off noxious gases, in addition to the gases formed by decomposition in the soil. It also puts the soil in condition to absorb water when it falls.

If you did not apply fertilizer when the soil was dug, a side-dressing along the rows may be worked in by cultivation. Do not cultivate deeper than an inch or so, otherwise you may cause injury to the roots of your plants. Mulching, which will be explained next week, will save much cultivating.

### How to Thin Plants

Last week reasons were given for thinning plants. Today this important garden practice will be explained. Take carrots as an example. To secure fully developed roots, the individual plants should stand 2 to 3 inches apart. If you like to eat young roots, the first thinning can be to a distance of 1 inch. In thinning, which should be done as soon as the plants are 2 inches high, get the fingers down into the soil a little so that they can grasp the plant at its base of the leaves. In this way the whole plant will be pulled. Then, as the roots come to size, the alternate ones can be pulled for eating, allowing the others to obtain better maturity.

Beet tops make excellent greens. The first thinning should be to a distance of an inch when the plants are 2 or 3 inches high. If you have thinned enough to cook, use them, like spinach. Go over them again when the beets are about 1/2 to 1 inch in diameter, and cook these. This should be the final thinning. The plants should stand about 3 inches apart. Use this same procedure with the rest of your crops. Snap beans should be

thinned to stand about 3 inches apart, sweet corn, 12 inches for Golden Bantam and 15 to 18 inches for taller varieties.

### Watch for Insects

Be on the lookout now for the Mexican bean beetle. This is an almost circular insect, brownish with 16 spots, which eats holes through the leaves of all kinds of beans. These holes are the signs to watch for. Yellow eggs in clusters are laid on the undersurface of the leaves. When the holes appear, dust or spray with rotenone. When the yellow spring larvae hatch, they feed on the undersurface of the leaf, skeletonizing it. Any dust or spray used must be directed upward so as to hit the surface upon which the larvae are feeding.

Watch for aphids on peas. As soon as they appear, before they increase too greatly in number, give them an application of rotenone. With these insects, the application must be thorough, as the insecticide kills the insect by contact and not through feeding.

If any of your plants have small "shot-holes," look for tiny black beetle that can jump. Such plants as tomato, pepper, egg-plant, turnip and cabbage may be the victims. Use a dust of 1 part of calcium arsenate and 3 parts of hydrated lime on the foliage.

If you have planned your garden properly, it may be time for the second sowing of carrots, beets, snap beans and corn. Repeated plantings of these vegetables give a succession of crops for use on the table.

### Telephone Company Service Flag Attains 1,000 Mark

The service flag at New Jersey Bell Telephone company headquarters read an even 1,000 last week. To James J. Mullen, splicer who has been with the company 14 years, the distinction of being the thousandth employee to enter the armed forces. Mullen is 33, single, lives with his mother at 174 Laurel avenue, Irvington, and has joined the Marines, in the Signal Section of the Corps.

The 1,000 telephone employees in service include 70 women. The 930 men represent 20 per cent. of all male employees of the company. Over half of all the telephone men in service are in signal work in some branch of the armed forces. Included are 209 specially qualified supervisors and technicians requested by the U. S. Signal Corps to meet its specialized technical needs.

### Raymond Harmon Addressed Belleville Livestock Association

Raymond E. Harmon, Essex county agricultural agent, addressed the Belleville Livestock association Monday evening at the Recreation House at 8. He spoke on feeding parasite control, disease prevention and cannibalism of poultry and will answer questions generally.

Organized in April for the purpose of fostering interest in the production of small life stock and poultry, the association received its certificate of incorporation early this month. The certificate was signed by the charter members, Dr. W. J. Daley, officer holders are Frank Daley, Wallace street poultry producer, president; Albert Florinza, secretary; Daniel Merola, treasurer; Manning Morrow, Ray Williamson, Harry Muller, William Bolderman, Frank J. Petzel and Daley, trustees. Paul Hagara is the association's counsel.

The group acts as an agency for securing improved methods with small livestock and a general clearing house for dissemination of such information. Care of coops, comparisons of various chicken strains, cannibalism or pecking and destruction of feathers by chickens, were discussed at the May meeting.

### Murray Wilcox Appointed To Board

Murray H. Wilcox of 1 Essex street, instructor of physics in Belleville high school was appointed Saturday to the executive board of the New Jersey State Science Teachers' association. Appointment was made at a meeting of the organization in a Newark department store.

It was announced at the meeting that the fifty-fifth Department Convention will be held at Trenton on June 8, 9, and 10. The headquarters for the convention will be at the Hotel Stacy Trent. Members of the Vreeland Relief Corps will participate in the Memorial Day exercises to be held by the town, and will also take part in the services to be held at Rutgers street bridge on Sunday. ## APPLICATIONS FOR RATION BOOK NO 3 NOW CIRCULATING To Replace First Books, OPA Gives Detailed Instructions for Securing It

With mailmen beginning today to deliver to each family in the State an application card for War Ration Book Three, William H. McEnna, Chief Rationing Officer in the Newark District OPA office, outlined instructions to guide applicants in filling out and mailing them.

Emphasizing that War Ration Book Three is merely a replacement book to be used when Ration Books One and Two are used up, McEnna said that OPA would notify the public when the new book can be used. He urged everyone to fill out the application card and drop it into a mail box, retaining only the identification stub at the top of the card.

Mailmen will complete distribution of the cards by June 5, but distribution of the books is scheduled to begin on June 2, when 13,000 Newark high school students and 800 teachers supervised by OPA representatives will begin mailing the ration books based on the application cards returned by that date.

The instructions for filling in and mailing the application cards follow:

1. Detach the narrow identification stub at the top of the card and keep it.
2. A family unit should use a single card to apply for its books.
  - (a) The name and address of the head of the family should be entered in the space provided for "person to whom books are to be mailed." Print clearly.
  - (b) The name and address of the head of the family should be entered a second time in the space indicated at the top of the lower part of the card.
  - (c) The name of the head of

the family should be entered again on the first of the numbered lines provided at the bottom of the card for names of members of the family eligible to receive Ration Book Three. List all eligible members of the family here, with their dates of birth. If there is not enough room here for all the names, use the additional space provided on the other side of the card.

3. Every man, woman, and child is eligible for Ration Book Three except persons in the Armed Forces (Army, Navy, Marines, Coast Guard, and Women's Auxiliaries) and inmates of institutions of involuntary confinement.

4. Persons living with a family unit, but not related by blood, marriage or adoption, and persons living away from home for more than 60 days must fill out a separate application card.

5. Place a stamp in the space indicated on the face of the card; a two-cent stamp if you live in Newark, otherwise a three-cent stamp, and drop the entire card (except the identification stub, which you detach and keep) in a mail box. The card is already addressed properly to OPA Mailing Center, Newark.

6. If you do not receive an application card in the mail by June 6 or 7, or if you spoil your card and need another, go to your local post office for one.

7. If you have mailed in your application card promptly you will receive your War Ration Book Three by June 20.

8. War Ration Book Three is not to be used until the government announces the date on which it can be used. It is intended to replace War Ration Book One and Two when they are used up.

Ensign Louis E. Rau, son of Mr. and Mrs. Louis V. Rau of 135 New street, flew home from Boston last Sunday to be with his family for his birthday. His fiancée, Miss Doris Krohn of Union and his cousin Ensign Donald H. Peterson attended the party.

### Navy Department Will Buy Robot, German-Made Camera

A number of cameras made in Germany are needed immediately by the Navy Department for a vital activity in the war against the Axis, the Third Naval District announced this week in appealing for help in locating the desired equipment. Cameras answering specifications will be purchased for the Bureau of Ordnance.

The Robot, Model two, with either 30 millimeter or 32.5 millimeter Zeiss Tessar lens, is the only type of camera which will be accepted for this particular need, the Naval announcement said. It is an expensive camera, and efforts to date have turned up only a few.

Those who own such a camera or who know where one may be found are asked to write or phone the Naval Adviser's Office, 122 East 42nd street, New York, N. Y., telephone: Murray Hill 3-6805, extension 514. Full details as to age, condition and price asked should be made known.

## Lady Army and Navy

Precedented in the history of American war, the rapidly growing women's "army" which, when first instigated was upon as a means of keeping the girls occupied in trivialities that could hamper the war effort and which, by giving them smartly uniformed by leading them to their "equal rights."

Women in industry was also a hard hurdle for the average American male, in the example already old at our entrance into the war, of the accomplishments of women in countries experienced in the war. We confess to looking on too, with a mixture of awe and admiration, and in cheek, and crediting the uniforms of the reason for enthusiastic enlistments. Veteran army and navy officers, at the invasion of women into training camps, even as storekeepers and cooks, only predicted dire results.

But with the call for greater and greater numbers of men for the armed services, something had to be done to release them from all the non-combatative duties to which thousands were saddled and which were and are still necessary to the vast organization of soldiers, sailors and marines in efficient operation.

Today there are 60,000 WAACs, 18,000 WAVES, 3,000 SPARs and 4,500 women Marines on active duty. And the oldies, having changed their tune, are clamoring for many more women than there are numbers available. The WAAC's probably be-

cause they are the only group yet allowed to see overseas duty, are proving the most popular, although their quota is still far short of the 150,000 needed by 1944.

The Navy's current recruiting campaign for WAVES which specifies a minimum need of 5,000 officers and at least 75,000 enlisted women by next January, is quite an enlargement of the original quota set up in July of 1942 which called for 1,000 officers and 10,000 enlistees. Best testimonial to the lady navy is the right-about-face of veteran naval officers who after skepticism and suspicion, are now demanding numbers far exceeding the supply.

Besides the jobs of yeomen, storekeepers and radio operators, the WAVES will soon be at tasks more closely related to combat operations, such as gunnery instruction, air tower control work, parachute rigging and aviation aircraft maintenance and repair. And although the WAVES, SPARs and Marines are still beach-bound, they are hopefully awaiting Congressional and residential decision on whether they may soon follow the lady army overseas.

It is generally expected that the veterans of World War II because of their unprecedented numbers on returning from battle, will have an effective voice in post-war national affairs. But let them not discount the little women who, well versed in organizations, will undoubtedly have some talking of their own to do. And you can bet that it will be heard.

## "Make It Do" and "Do Without"

Knock-out blow to summer plans was dealt, neat and clean, in the pleasure-driven week that blanketed the Eastern states last week. Because fuel shipments to war zones logically are made from the Atlantic coast, Eastern consumption which has already eaten into reserves, must again be drastically cut.

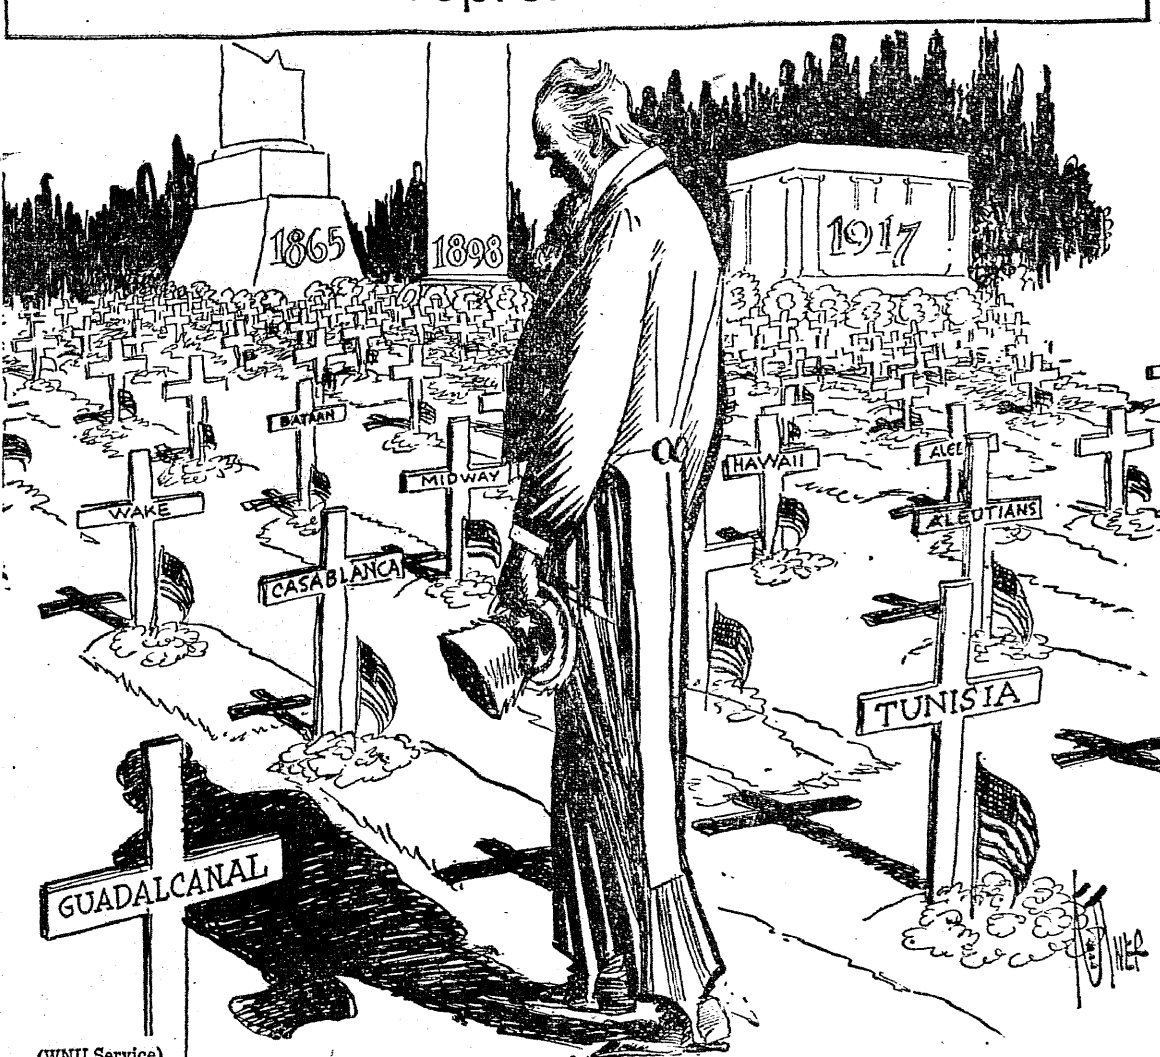

Proof that there will be no winking at infringements is the checking which is being done in this area. And seriousness of the immediate situation is seen in the drastic 30 percent cut in bus service which takes effect on Saturday, in addition to curtailment of deliveries which includes the edict that competitive concerns must not overlap deliveries in any area. This, plus the order to all ration boards to resurvey the B, C and D book holders for their eligibility bids well

to throw much everyday business even of an essential nature, out of focus. "Make it do" and "Do Without" will have to be the slogans of the Eastern seaboard until the situation is eased.

Effective in knocking off vacation plans before they crystallize, Washington must also have had Memorial weekend in mind in timing the edict as it did. Realization that the fuel is badly needed for overseas warfare is enough, however, to make stay-at-homers from Maine to Virginia curious to rediscover the advantages of their own back yards, neighborhoods and towns.

Our one persistent gripe has to do with the Washingtonians who, as indefatigable supporters of the railroads could, and didn't, provide long ago for oil shipments by other means than rail.

## LETTERS

From a Soldier at Pine Camp, N. Y.

To Our G. I. Rationers:

Here is an open letter to a wonderful ration board which is really patriotic.

I am a soldier recently on a three day pass which entitled me to five gallons of gasoline. A friend of mine who was in great need of his gas coupons, was helping enough to give up his ration full enough to give up his ration so that I might go visiting my close relatives, with my promise of returning the gas to him.

When I went for the ration to which I was entitled, the ration board refused to give it to me. It shows the great consideration they

have for us fellows who are away from home and making sacrifices for our country and for them.

No one knows better than a soldier that there is a war going on and that sacrifices must be made. But it seems to me, that it is stretching it a little too far, to deny a soldier who is home on a short visit, his share of gas, to which the law entitles him. I wonder if this arm chair patriot and office commando felt that this sterner measure had to be taken and that such pampering might put Hitler on top, so no gas. I was only asking for something that I was entitled to and not for a favor so I just wonder if he would do the same for his son. Anyway, thanks a lot to you, your highness, and the ration board, for being so patriotic.

Ed. Note: This letter was received before the latest ODT pleasure ban went into effect.)

## "These Be RULES for Use of Thy Telephone in PARLOUS TIMES"

- Make no telephone call that is unnecessary.
- Avoid messages to distant places, for truly the lines are filled with an increasing multitude of messages of grave importance.
- Pester not the "Information" operator to seek from her numbers already in thy directory, for she is a most busy damsel.
- Take great care of thy telephone instrument; let it not drop and break, for repair parts are scarce as the teeth upon a hen.
- Leave not thy receiver off the hook to cause a bottleneck upon thy line and all it serves.
- Admonish thy children to be sparing in use of thy telephone, and set thou a good example.

For truly in these parlous times the highways of our speech are heavy laden, and the metals to enlarge them must go to smite our enemies upon the field of battle.

## ADELPHIANS PLAN CIVIL WAR SET

Antiques Loaned By Veteran  
 Bellevillians Will Grace Stage  
 On June 4-5

Many valuable antiques will adorn the stage for the Adelphi Players' production "The Virginia Heroine," a Civil War play to be given at the Grace Baptist church on the evenings of June 4 and 5.

A quaint spinning wheel on which some of the cloth for the Civil War soldiers uniforms was woven, will lend its grace to one of the settings, while an oil painting of Colonel Fay, who was an officer during the Revolutionary War will add to the atmosphere.

The cast has been busy selecting styles and hair-dos from Goody's Ladies Fashion Book and Magazine. These books were published during the years 1856 and 1865. Hoop skirts and bonnets accompanied by various types of shawls which also are relics of the Civil War period will be worn by the cast.

These antiques are the prized possessions of Mrs. Robert Wilson of Clearman place. Colonel Fay was an ancestor of the family. Mrs. Charles Speed will grant the use of several articles from her antique collection. Mrs. Henry Winkelman has offered the use of a few relics in keeping with the Civil War period which have been keptakes of her family. All these are being lent to Mrs. Lorena Clark who is coaching the performance and is also director of the Adelphi Players.

## SCOUT "CAMPOREE" THIS WEEKEND

South Mountain Reservation  
 For Annual Get-Together

A work program for Boy Scouts at Camp Carragher has been announced by John S. Charlton, local scout commissioner. Renovation and additions to the property and building will offer scouts a chance to earn merit badges in the fields of woodworking, handicraft, painting, plumbing, carpentry, conservation, masonry, electricity, camping and pioneering.

Supervised work periods will be held at the camp on Monday, Wednesday and Friday afternoon and evenings from 5 to 9 P. M. and on Saturdays from 1 to 6 P. M. Boys who so desire may bring food for cooking tests in which merit badges may also be earned.

Hoof To Reservation

Chairman of the scout camporee of Robert Treat council, which will be held this Saturday and Sunday at May Apple Hill in South Mountain reservation, is Robert Widdow. Camporee chief is Robert D. Smith. Charlton is Belleville district camporee chief. Scouts will reach the reservation by bus or hiking and instructions have gone out through various troop executives. Troop 388 of Christ Episcopal Church under the leadership of Robert Bartholomew will act as a service unit and will arrive at the site of the camporee Friday night in order to prepare camp for other Belleville troops.

The camporee will be subject to blackout regulations as it was last year and artificial campfires will be used after a designated hour Saturday night. Special exhibitions have been arranged in rope and lasso and in woodchopping with emphasis on the care of knife and axe. Camp will be broken Sunday afternoon.

Charlton received a certificate as camp director last weekend at the National School of scouting conducted at Schiff Reservation in Mendham. 50 men representing camps in 10 states attended the school. Their jurisdiction will extend this summer over nearly 50,000 encamped boy scouts.

## PUBLIC SERVICE BUSES

...More than 3,000 of them on the job every day!

TOTAL WAR demands the full use of transportation equipment. Public Service is operating some 3100 buses daily to carry war workers, business people and shoppers.

WAR WORKERS must have good bus service. They've got to be at their jobs on time. There must be no time lost in making planes, tanks, guns, and ships.

BUSINESS PEOPLE must have good bus service. They've got to be at their offices on time. They have an important part in keeping the war machine operating.

SHOPPERS must have good bus service. They've got to get to the stores. Families must be properly provided for.

Public Service buses are handling a war time traffic load of two million passengers daily—an increase of nearly three-quarters of a million riders daily since Pearl Harbor. Public Service transportation is doing its war job.

## Here's the clincher for me

*THIS is my kid.*

He's a pretty good kid.

I always used to figure he'd get along all right in the world, the same way I did.

But a war starts you thinking.

Nobody knows for sure just what kind of a world my kid will have to grow up in. But whatever kind of a world it is, a little money behind him will help.

That's why I'm salting money away for him now.

I'm not taking any chances with his future. I'm guaranteeing it in the best way I know how.

*Every pay day, nearly a quarter of what I make goes into War Bonds. Not just when I can spare it. But every single pay day—week in, week out.*

It's taken right out of my pay, on the Payroll Savings Plan. That way, I hardly miss it. But it mounts up fast.

And every one of those War Bonds will pay back *four dollars for three.*

Pay it back when my kid may need it most:

Sure, I'd be buying bonds anyway. I know the Government needs money to win the war. And, it's the least sacrifice a guy can make for the country that's been good to him.

But the clincher with me is my kid:

★ ★ ★

CHANCES ARE, you're already in the Payroll Savings Plan—buying War Bonds—doing your bit. But don't stop there. Raise your sights! Do your best!

**How millions of Americans have done their bit—and how they can do better:**

Of the 34 million Americans on plant pay rolls, nearly 30 million of them have joined the Payroll Savings Plan. (If you aren't in yet—sign up to-morrow!)

Those Americans who have joined the Plan are investing, on the average, 10% of their earnings in War Bonds. (If you haven't reached 10% yet—keep trying!)

**But . . . . .**

America's income this year will be the highest in history—about 125 BILLION dollars! In spite of all taxes and price rises, the average worker will have more money than last year—more than *ever* before!

That is why Uncle Sam has a right to ask us, individually, to invest *more* money in War Bonds, through the Payroll Savings Plan. He asks us to invest not 10% or 15% or 20%, *but all we can!*

# YOU'VE DONE YOUR BIT --- NOW DO YOUR BEST!

**BOOST YOUR BOND BUYING**
