TEMPORARY HEADS OF WAR FUND ANNOUNCED

Purpose Explained As All Town Groups Are Invited To Participate

At a meeting of the Belleville War Fund committee Tuesday night, Harry Specht was chosen honorary chairman. Paul deHagena, president of the Community Chest and Council of Belleville was elected to serve as temporary president of the War Fund committee with John Charlton, executive secretary of the same group, serving as temporary secretary and treasurer.

The Belleville War Fund is a temporary organization, later to be incorporated, which will help to raise the funds necessary to finance not only war agencies but other permanent agencies of peace. This War Fund is an agency which will incorporate the efforts of the Community chest, and which has been organized to save the time of solicitors for the community chest by raising money for 25 other organizations at the same time. In soliciting not only for the agencies included in the Community Chest but for others, the minimum cost of raising funds will be reduced.

The quota for the National War Fund Drive is \$125,000 with a state quota fixed by the National Board. \$5,000 has been set as the figure for the state quota and that goal has been accepted by the State War Fund committee. Part of the state quota will later be designated for Belleville. Franklin D'Olier, president of the Prudential Life Insurance company, is also president of the State War Fund drive. Julius A. Bopp, manager of the campaign for the state, will set the community quota.

The purpose of the funds solicited by the War Fund committee will be to aid the war agencies.

MAYOR APPOINTS TWO VETERANS

Two Others Also Receive Appointments To Police And Fire Departments

Belleville yesterday became one of the first municipalities to provide jobs for men returning from service, with the announcement by Mayor Williams, acting public safety head, of the appointment of two honorably discharged veterans of this war to the police and fire departments.

The vets are the former Sgt. Thomas Fitzgerald, of 1. Smallwood avenue, who was injured in the line of duty while serving overseas with the Coast Artillery, and the former Pfc. James Carlson of 5 Union terrace, of the Marines who was wounded in the Guadalcanal invasion.

Fitzgerald has been appointed a patrolman and Carlson a fireman. They are the town's two first veterans, injured in the line of duty to return from service. Fitzgerald who is 27, was in the army two years and was overseas in the North Atlantic area more than 17 months. He was discharged from the army in November. He is fully recovered from his wounds.

Carlson, 25, was with the first Marine invasion forces at Guadalcanal and returned to Belleville in December. Both are employed by Wallace & Tiernan Co.

Two other appointments were made by Williams and one, went

MEN IN SERVICE ARE GRATEFUL

Cigarettes Sent By Recreation Group Are Appreciated By All Fighting Men

The boys in service are never slow in catching up with their social correspondence and in sending hasty and interesting thank you notes for all small and large favors done them.

In the spring the Recreation department in an effort to do something for the boys in service, sent them cartons of cigarettes. These cigarettes were those obtained as admission charges to a basketball game held in the High school in March, between the High school's victorious nine and the Walter team, holders of the Industrial League championship.

To date the Recreation department has received many letters of thanks from Belleville men stationed all over the country. In general the letters state the appreciation of thoughtfulness on the part of the Recreation department in remembering boys who are far from home, who sometimes receive mail only at intervals and who like to be remembered by their friends at home.

Included in the letters is one from Bill Miller who is in the Navy. The cigarettes were mailed to him at a camp in the south where he was at that time stationed. He was transferred from that camp however, and the cigarettes were forwarded to him from place to place until they finally reached him on May 10 in North Africa. May 10 was his birthday and so the cigarettes were a double welcome to him. Bill stated that the carton of cigarettes which he got "happened to be the only package I got on the right day."

Cpl. Stephen Pallas was in a station hospital when he received the cigarettes, and stated that he was "happy to know that I already have so many friends in our community when I've never even had time enough to call it 'home.'"

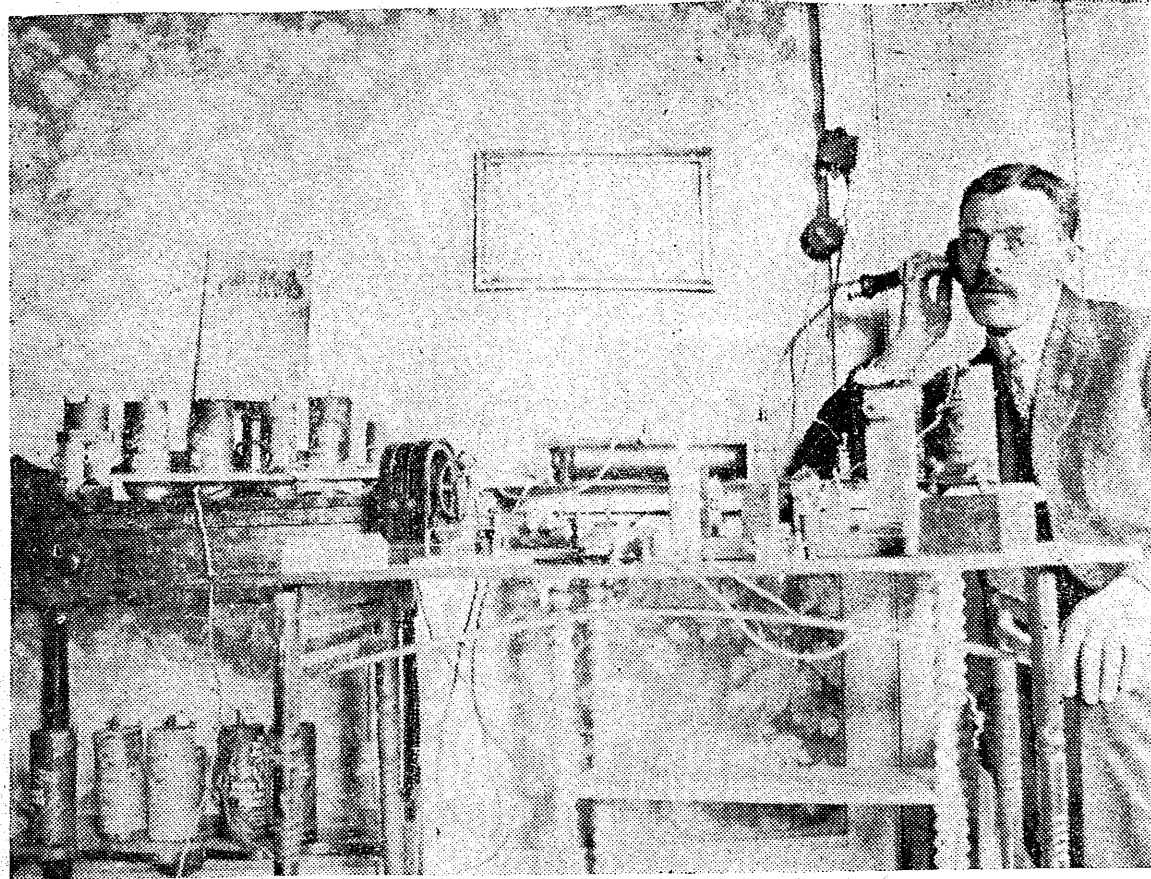

First Gift From Town
Sgt. Frank Lukowiak, who was stationed in Massachusetts, stated that he couldn't thank the department enough for the cigarettes and said that they were "the first thing I have received from an organization in Belleville." He said "Many of us fellows don't get a chance to come home very often and when we receive letters and cigarettes such as you have sent, it makes us feel very good."

Pfc. George C. Kistner, stationed in Illinois, said that "It makes a soldier feel good to know that the people of his home town think of him, even though sometimes, they may not know him personally."

Philip Delia stationed in Texas, stated that the gift of the cigarettes "makes me feel more at home, and also makes me feel as though I should put more effort into my work."

All the letters received by the Recreation department make one

He Lighted Main Street 50 Years Ago

FORERUNNER OF Public Service lighting is George Nixon of 10 Bridge street who, 50 years ago, turned Main street into a Great White Way with the operation of six street lights along the thoroughfare. The accumulation of coils, wires and what not above, is the wireless set he operated when he became a member of the Amateur Ham association of America back in 1909.

Remembers Electric Lights Before Public Service Came

George Nixon Who Threw First Switch Fifty Years Ago. For Six Light Line, Also Holds Radio "Ham" Record

Public Service Corporation may be 40 years old, but according to George H. Nixon of 10 Bridge street, the town of Belleville had electric lights ten years before it was organized. Nixon who used to work in the old Riverside Rubber company on Main street where the hat company now is, remembers when they had six electric lights there. That was 50 years ago. Nixon remembers this because he was the one who used to tend the switch box which put the lights on and off.

The battery which generated the electricity for the lights was an Edison two pole dynamo battery. The lights were always shut off at 10:30 at night and Nixon and another man took alternate turns at the switch. It took a while for the lights to come to their full power since the engine which ran the electricity was a steam engine coupled to a belt generator.

As far as Nixon can remember there were six electric lights along Main street. One was at Williams street, one between Williams and John street, one on John street, one on Rutgers and one on the outside of the Belleville ledge.

He recalls that unshaded lights were suspended from a tall pole over the middle of the street. The next to make their appearance in the town were kerosene lights and finally the Public Service installed carbon electrics.

Interested When A Youngster

Nixon lived at this time on Stephens street and worked for James Hardman in the Rubber company. He knows everything about electricity since he worked with all the new developments in electricity since he was a small boy. He went to work with Hardman as an office boy, and soon he learned how to make rubber compounds and became interested in electricity.

A man in Dover today holds the record for being the oldest radio "ham" but Nixon says that he can take this honor since he was making radios about seven years before. "I started to foolin' with the radio 30 years ago" Nixon says, "when Marconi had just sent his wire across the Atlantic." He said that he had listened to station WJZ the first week it was on from its plant at Orange and Plane streets in Orange. He had rigged up a radio set for himself with earphones and a receiver and he used to be the best radio builder in town.

When talking to other radio "hams" Nixon said that in the old days they used a combination of the Morse and continental code, instead of the whole morse code which is used by amateurs today. At the time he joined the Electricians and Mechanics Wireless club, a contemporary "ham" club, his number was 461 while today there are more than 36,000 "hams" in the United States.

At the time of aligning himself with the amateurs, Nixon's call number was G.H.N. and he operated on a 365 wave band with a one inch spark. This was a powerful length even for present times, since amateurs today are limited to a 200 band.

Incident Tests Are Held During Tuesday's Blackout

Even though Tuesday night's blackout was a surprise test, the local defense forces were ready for action. With every post, station, and casualty station manned, the group were subjected to five surprise incidents, one for each zone. This was the first time incidents had been staged during a blackout. The tests were staged on the advice of state director, Leonard Dreyfuss.

All doubts about the ability of the local defense forces to function in total darkness were dissipated as they manned all their stations with no slip or hesitation. The public was also more responsive to this blackout, according to Harry J. Sullivan, defense coordinator, and there were fewer violations.

A minor incident during the blackout was the removal of an emergency card from the car of Henry Denison, A.R.P. deputy, while the car was parked near the Recreation House. Defense officials pointed out that the penalty for misuse of an emergency card resulted in a \$10 fine or a year in jail. The person responsible for taking the card, would be excused however, if he returned it without its being used.

BOYS' PROBLEMS DISCUSSED AT FEWSMITH

Members Of Congregation Recognized For Service; Specht Gives His Ideas

A departure from the usual public worship took place in Fewsmith church Sunday when a series of speeches was given on the subject of "That Belleville Boy," by selected members of the Congregation who had done some service for boys, and who are interested in their problems. The members who were so recognized received meritis of their service in the presentation of awards.

The first speaker was Harold Ross, cub leader, who has built up his cub pack into one of the largest in the Robert Treat Council. A cub book was presented to him for his efforts. George Stewart, 15-year-old, who recently became an Eagle Scout, was presented with the Scout bible. John Charlton who is an official in the church and was recently elected district scout commissioner was awarded a medal. Robert Sutherland, who has done much in connection with the salvage program and who is the editor of "Belleville Today," was also recognized for his service to boys along with Raymond E. Mertz, who as a member of the church's finance committee, and chairman of the Red Cross drive, which contributes a substantial service to boys, was recognized for his efforts.

Harry Specht, as head of the Belleville Foundation attempted to point out the place of boys in the home, in the church, in industry, and in the town. Because each of these factors play an important part in the growth of the men of tomorrow, Specht stressed their integration in his speech, in an effort to bring before the citizens of the town the needs which face growing boys.

Concrete suggestions were the development of leadership in youth, better home training and explanation of the bible in the schools. Specht advocated that more churches institute broader recreational programs to reach a greater number of their younger members. Planned and supervised recreation is the job for the town to do, he said, for it would be the "merger of the youth returning (from war) and those at home, to make for a happier home and a more stable future." Industry's responsibility toward youth, in addition to absorbing the men returning from the war, is, he said, to "plan recreation." He added also, "we must work with the school, the church and the town, in their problems to help solve the problem of the returning men."

Cpl. Raymond Quiteri

QUITERI'S HEAR SON IS WOUNDED

Receive Word That Raymond, A Corporal, Received Injuries In North Africa

Word was received on Monday by Mrs. S. B. Quiteri of 62 Naples avenue, that her son, Cpl. Raymond S. Quiteri, had been wounded in North Africa on May 6. The telegram from the War department, only stated that her son had been wounded in action. On May 10, Mrs. Quiteri received a V mail letter from her son which stated that he was then alright and "feeling fine."

The letter which was written on Mother's day by her son, who said that it "was the first chance I've had to go to mass since I've been here," but, he said, "It wasn't that I didn't want to go, I didn't miss it on purpose. It was only because the Germans have been keeping us so busy." He said that all the Germans were surrendering and that "my outfit is back now, and the fighting is all over." He said, in his letter, that he would have more of a chance to write his mother now since "things are lots calmer."

Mrs. Quiteri, was not too worried about her son, since he is already a veteran of other battles and was previously wounded in December when he was shot in the shoulder, chest, and left arm. He told his mother at that time, that he did not remember being hit at all. When he woke up in the hospital, he could not even remember where he was. He was later sent to a rest camp and the family received a printed card for him, with the remarks checked on it, that he was well, had been admitted to the hospital, hoped to be discharged soon, and had her letter dated December 17.

VIKING UNVEILS HONOR ROLL

Lt. Kittle Speaking For Navy Lauds Workers As Well As Servicemen

Seventy-five of Viking Tool & Machine corporation's 250 employees now represented in the armed forces were honored yesterday afternoon when the company unveiled a bronze plaque bearing their names, at the entrance of the building.

The Main street manufacture of precision instruments who's now engaged in war work invited Lt. H. D. Kittle, the navy, formerly high school principal, to speak. The ceremonies were attended by plant employees, John Lindstrom, company president and Charles Lomax, secretary and treasurer. Part of the men in service are receiving announcements of the saving Lomax said yesterday.

Kittle who is in the civil personnel office of the third district located at 90 City street, New York City, observed that in honoring those already in service, equal honors should be given to those in the navy who are showing such a fine spirit of devotion. "The Navy is interested in this unveiling," Kittle "because the Navy is interested in getting the war over as quickly as possible. We need good men but we also need the machines with which to win them and that is your job home front."

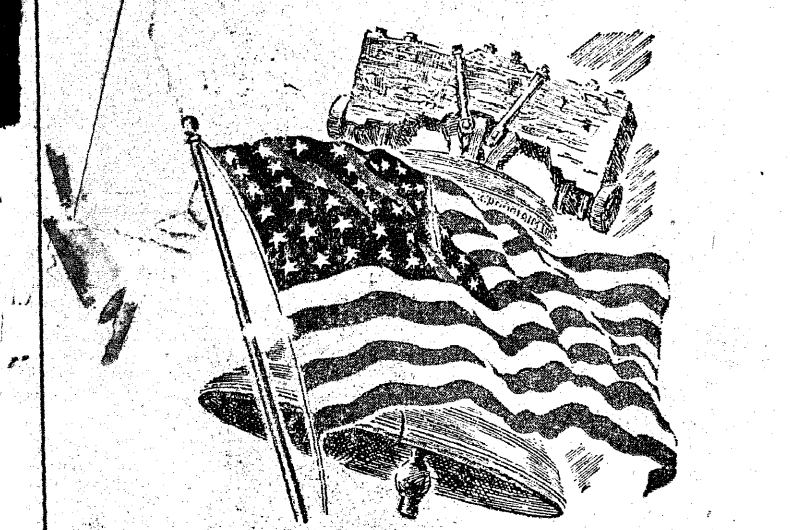

Your work record is appreciated by the Navy," he continued and figures cannot and do show your spirit of production. Your low absentee record and voluntary participation in the percent payroll deduction plan, buying more and more bonds."

He concluded by saying that men who have already entered service are using the same machines and precision parts helped produce at Viking. Some will be true for men you," he observed, "because of every three of you who are in the armed service by next July. All of this shows," he said, "the close tie-up between the at the front and the job you do at home."

As to coffee rationing, we're still the envy of Europeans. It's one-a-day he's—but the Belgians (if they're lucky) get 10 cups of chickery a month; Danes get about seven cups each 30 days; French working the "black mar-ket" might get a "real" cup every 10 days.

Food Fair Meat, Dairy Market, Damaged In Fire

A fire in the dairy and meat department of the super market at 524 Washington avenue, owned and operated by the Food Fair Stores, of Philadelphia, which broke out shortly before midnight Monday night, partially damaged two other buildings in the vicinity and caused prop-erty damage estimated at \$1,500 according to Fire Chief Reid.

Reid said he did not think stock damage to the super mar-ket was heavy. A bakery opera-ted by Henry Ludes, and adjoin-ing the market on one side, suf-fered most from smoke and water damage. A wall in Jack Deeny's

garage, adjoining the other side of the market was also burned.

Although the market was closed on Tuesday it opened again yesterday. The building in which the fire took place is owned by Harry Berenbium of 40 Hillcrest road, Caldwell.

HILLSIDERS WALLOP NUTLEY LIONS

In 16 Inning Game At Lions' Field Nationals Take Game In 9-7 Score

The Hillside Nationals defeated the Lions from the Nutley Orphanage 9-7, in 16 innings, Sunday, at the Lions' field. Twice the Lions rallied after two were out to send the contest into extra innings.

With the score 6-2 in favor of the Nationals, the Nutleyites blasted four straight hits good for the same amount of runs, to send the game into overtime. The big blow in the ninth inning was a long double by Nazzaro. Then the Hillside went ahead in the twelfth on John DeMunter's tremendous 300 foot home run. The lead proved to be only temporary as the Lions came back in their half of the inning to knot the count for the second time. Then in the 16th Bill Gray broke the deadlock with a long line drive homer on the left fielders head. The Nationals also tallied another run on a walk and Ferguson's double.

DeMunter not only pitched, but clouted two doubles and a homer, to lead the winners to their third win in 6 games. Clegg also had 4 bingles to help pace the Nat's offensive. For the Lions, Nazzaro and Gianfrancesco divided the mound work. Their big gun on the offensive side was Ondani who had 4 safeties.

Champion League Keglers

Although they have placed before, in the Newark Masonic League this year's tourney is the first championship to be copied by the Craftsmen club keggers. They have also added laurels to their crown by trimming Ophir lodge, winners of the Orange Masonic league, in a post season match. Keglers left to right in the back row are George Beck, Frank Dow, Roy Dickinson. Front, usual order, George Johnson, Winfield Hayes and Ashley Walker. Beck, Dow and Dickinson have rolled together on the team for 18 years.

CRAFTSMEN WIN FOR FIRST TIME

Finish Year By Placing First In Masonic League And Beating Ophirs

The Belleville Craftsmen Club bowling team which won the Newark Masonic League championship this year, for the first time rolled a special match with Ophir lodge, winners of the Orange Masonic League on May 25. The Belleville team won the match on a total pin basis, although they won two games also.

The games were rolled in the Bloomfield Recreation alleys and the pinning of both teams was under par compared to the averages they had accumulated in their respective league, since Belleville averaged 921 for the season and Ophir was well over the 99 mark in their league. Both teams rolled scores in the 800's. It was suggested that the lower scores were due to the fact that the Craftsmen had not bowled in eight weeks, while the Orange bowlers wound up their regular schedule a month ago.

The new eight ounce pins might have contributed to the lower scores, also a spokesman said. The local team won the first game by 39 pins, but lost the second by 66 pins leaving them 27 pins in the red. But they managed to come through in the last game to win by 57 pins which gave them the match by an edge of 30. Double century scores showed up only infrequently with the losers taking three to the Craftsmen's one.

Jack Deane with 216, Charley Appel with 214, and Howard Boynton with 247 led the way for Ophirs while Roy Dickinson had 213 in the last game for the local ones.

This year is the first time Belleville has ever won the league although they were second and third in all previous years except once when they finished fourth.

The lineup and score in the match with the Ophir's follow:

Home Owners Corporation Tells Of Improved Market

Steady improvement in sales or real estate owned by the Home Owners' Loan corporation. The New York region was indicated in a statement released by the corporation to Jacob's Realty Co., 484 Washington Avenue last week. The New York region embraces 13 eastern states from Maine to Virginia.

During April, 1235 sales offers from purchasers who desired to take advantage of the liberal terms offered by the Home Owners' Loan corporation were approved. 3,158 offers were approved from January 1 to May 7. Sales have been closed on 1,851 properties through April 30 and present trends indicate that the sales during 1943 will greatly surpass those for 1942 when approximately 8,000 properties were sold for a sum in excess of \$4,000,000.

It is apparent that potential purchasers are definitely cognizant of the limited supply of homes available for purchase, which has been demonstrated by the curtailment of new house construction. They also realize the benefits to be derived through the purchase of a home now, on the favorable terms offered by HOLC, together with the long term self liquidating mortgage.

The corporation is desirous of placing these homes with qualified purchasers as quickly as possible for there is the realization that home ownership is the greatest security that our nation can possibly have for the future. The utmost in security of investment is further manifested in home ownership, because a purchaser is aware that his monthly payments are definite and stable and thus not subject to change or increase of interest rate, or amortization at any time during the life of the mortgage.

I've been looking at a car that wasn't there

I WENT window shopping again yesterday.

I stared into a big, empty automobile showroom downtown—and pretty soon I saw a car.

She was kind of different from the bus I'm driving now. She was long, sleek and powerful-looking. The windshield sort of went clear around her, so that everybody inside could see out everywhere. There were no gears to shift. The cooling system was sealed—you never touched it from one year to another.

She had synthetic rubber tires you *couldn't* puncture—and that wear like iron. And fast? Man! The motor was only half as big as they are today—but how it would take the old girl along! And on one gallon of that new high-octane gas to every three my car uses now.

So—I made up my mind to buy her, then and there. And I will, too. One of these days, after the war's been over for a while, I'll walk in and drive her home. And I'll slap the money for her right down on the counter.

You see, I'm in the Payroll Savings Plan. Been in it ever since it started in my plant. Every single payday, I'm tucking away all I can in War Bonds.

That money's going to come back to me in ten years—and bring *more* money with it. Four dollars for every three.

I get a real kick out of thinking how that money's piling up for me. Money that's going to let me have some of the things I've always wanted to have—do some of the things I've always wanted to do.

★ ★ ★

Chances are, you're already in the Payroll Savings Plan—buying War Bonds—doing your bit. But don't stop there. Raise your sights! Do your *best*!

**How millions of Americans have done their bit—
and how they can do better:**

Of the 34 million Americans on plant payrolls, nearly 30 millions of them have joined the Payroll Savings Plan. (If you aren't in yet—sign up tomorrow!)

Those Americans who have joined the Plan are investing, on the average, 10% of their earnings in War Bonds. (If you haven't reached 10% yet—keep trying!)

BUT

America's income this year will be the highest in history: about 125 BILLION dollars! In spite of all taxes and price rises, the average worker will have more money than last year—more than *ever* before!

That is why Uncle Sam has a right to ask us, individually, to invest *more* money in War Bonds, through the Payroll Savings Plan. He asks us to invest not 10% or 15% or 20%, *but all we can!*

YOU'VE DONE YOUR BIT --- NOW DO YOUR BEST!

BOOST YOUR BOND BUYING THROUGH THE PAYROLL SAVINGS PLAN
