Prayer D-Day Solace, Churches Stay Open

Town Takes Invasion News Calmly; War Plants Pause For Reminder Of Industries' Responsibilities

Belleville, after the first flurry of excitement Tuesday morning when the electrifying invasion news first glued many ears to radios, took D-day calmly but thoughtfully. As happened in practically every community the length and breadth of the United States, local residents flocked to churches to pray for the safe conduct and return of their men in the thick of the battle.

Most war plants here paused at some time during the day to utter a little prayer and to listen to brief talks of ex-

Even the shopping sections of Washington avenue were somewhat deserted all day as housewives remained at home to listen again and again to the news and commentary which by mid-morning was practically memorized in every mind.

One solemn note came from De-Coordinator Brunner who stated that "in view of the fact that all our attention is directed to the invasion, we are prone to be lax about our own safety. "It is urged that the defens

personnel and the general public be on the alert in case the enemy attempts a suicidal raid here Alertness now will reduce casual ties if a raid should occur." Hundreds of Wallace & Tiernan

workers poured into the company's yard Tuesday morning to hear their president, Martin F. Tier nan, tell them they should be "proud to be part of a national industrial organization.

"Our slogan, 'Help W&T to Help Victory," is not just some-thing for the benefit of the own-ers," he said, "but an aid to the nation. Let there be no lessening in our production efforts.

Workers Pray

Rev. Peter R. Deckenbach de livered an invasion prayer. Also on the platform were William J. Orchard, general manager; Charles F. Wallace, vice president, John Walker and Charles Decker representing the employees' union: and Elwood P. Russell, chairman of the War Efforts committee.

Before the gathering disbanded to return to the machines, Eleanor Egan and George Hagetter led the workers in the national

That afternoon Mr. Deckenbach led similar prayers at the local plant of the Westinghouse cor-poration. Brief ceremonies were also held at numerous other in-

Man Fined \$150 For Molesting Young Woman War Worker

Recorder Smith levied a fine of \$150 against David O. Wooster, 44, of 85 Edison avenue, Nutley, after the man pleaded guilty to a charge of molesting a young woman war worker.

The complaint was brought by Deputy Chief Leighton who testifield that Wooster drove up in his car as the woman alighted from a bus at Holmes street and Washington.

He made improper advances to the woman but drove off without forcing the issue. He was traced through his license number furnished to police by the woman.

Invasion Responsibilities At Home

Our sons, our brothers, our husbands moved out of their English bases in the darkness of Monday night to keep a rendezvous with destiny. Heedless of the personal danger into which they were sailing, they invaded the Festung Europa to carry the torch of liberation to its enslaved peoples. At the same time they went into battle to make all the things we love and cherish secure for the future. We on the home front cannot be physically by their sides to aid them, but there are four endeavors which we can carry out for them.

In time of personal or national emergency, prayer is a potent weapon. It was the first natural reaction Tuesday morning when churches all over the country flung open their doors to the millions who went to pray for the safe return of their loved ones. Those prayers should continue to ascend to heaven in myriads until the job is finished and should be continued after that in thanksgiving for the victories which are in store for We must remain at our work producing the tools

of war and thus equipping our sons with the means to prosecute the war to a successful conclusion. If we fail, if we on the home front persist in these stupid work stoppages over comparative trivialities, we must answer the accusing eyes of the millions of men fighting for us.

The nation must be strong financially to fight the war and carry out the aims of the invasion. We at home are the ones who must pay for it. Now we need not even wait for the Fifth War Loan; now we should begin buying war bonds without delay — and we must keep them. It is indeed a strange patriot who will lend his money to the country today, who will give his nation strength today, and take it away tomorrow. Buy them and keep them.

Thousands of our fairest youth will die on the beaches of France and many thousands more will be wounded. They will need blood, more blood than we have ever given. They need our blood which we can give through the Red Cross. Without it thousands will perish who need not have died. A week from Saturday the Red Cross mobile unit will visit Belleville. It is asking for only 180 pints from our 30,000 citizens. Are there 180 persons who care? Telephone 2-2373 today for an appointment. Don't delay: a boy's life may depend on your haste.

It is here! The eagle is screaming. Amid incredible din, the invasion is on!

This invasion cannot fail; it cannot be tried over.

We can donate our blood to replace that lost in the agony of battle; and we can contribute generously to the Red Cross to minister to the boys. We can buy War Bonds with a large fraction of our income, which perhaps has been increased by the war while the lads on beaches are working for \$50.00 a month and board. We can deliver all that we can produce, for which we are paid, at the right price, and that price cannot be too lowwhile the price of their patriotism is so high. How can we slow down in the production of shells while there is no slowing down in their use? How can we be listening for the whistle while there is no stopping for our boys unless the whistle blows early for some? How can we buy and consume beyond necessity while every ounce of war material is needed to bring the boys back victorious?

Brunner Raps Salvage Storage Practice, Pays Tribute To Belleville Chairmen

Says Other Towns Store Up Collections For Publicity: Tin Salvage Leaps

Belleville's salvage record is as
done."

"Despite the very creditable showing of Belleville in paper collections," he said, "we are still their efforts, Defense Coordinator Brunner declared yesterday. As he made the announcement Brunner revealed that 5,314,312

pounds or better than 2,657 tons of scrap salvage have been harvested in the town in the first five month of this year.

He pointed particularly to the paper salvage figures. Paper has been collected, processed and forwarded weekly, he said, contrasted to some communities where it Brunner declared, "but we find figures more impressive.

He condemned this procedure, particularly in the field of "our most critical shortage," and declared that outside publicity was small satisfaction "for a job well

receiving urgent requests to step up the campaign even more. It is our most most critical short age today.

Credits Schools The great jump in tin can collections during May was credited to the appointment of boy and girl chairmen in every class in

every school in the town.
"The school children have done is stored for some time in order that many householders still fail to make the subsequent publicity to clean and flatten the cans before sending them in."

Union trounced Franklin 11-2 Wednesday for its third straight win. LaFalce effectively silenced the Franklin bats throughout and coasted all the way, although Cook relieved him in the seventh. Joralemon's seven-run uprising in the fourth inning gave the No. 3s a convincing 10-4 victory

Immaculate Conception Nine Scores 16-3 In Final Contest Of Season For Bellboys

With Frank Marra, Bellboy first sacker, the only Bellevillite showing any power with the willow, the homesters were snowed under 16-3 by Immaculate Conception of Montclair Saturday at the Municipal Stadium.

Seldom this year were the effects of baseball repression in Belleville more noticeable. The Bellboys wound up the season with a lone victory out

Four days previously Belleville had dropped a tight 2-1 decision to the Montclairians and for two innings Saturday's contest looked

like a replica as the locals stepped out to a 1-0 lead.

In the third, however, the Mounties landed with all feet. Four runs came across as hits rattled off their bats and in the next frame they put six more scores across on the now complete-

ly demoralized Bellboys.

The latter, dazed by the sudden crushing attack, committed nine errors in the course of the fracas

Held For Firing Shotgun At Boys Swimming

Larry Scolloveno, 28, of 10 Belmont avenue is at liberty in \$100 bail to await appearance before the grand jury charges of firing his air rifle at boys swimming in the Second River May 19.

Scolloveno pleaded guilty last week when he appeared before Recorder Smith to answer a complaint brought by Mrs. Rose Peacock of 20 Harrison street.

Mrs. Peacock alleged that Scol loveno took "pot shots" at the boys and that one shot hit her William near the left eye. Scolloveno declared that he was firing at a turtle and that one of the shots ricocheted.

Flag Day Proclamation

WHEREAS, the 14th day of June is National Flag Day, and

WHEREAS, Belleville will join with the nation in honoring its National Flag on that day, and

WHEREAS, the Flag of our Country symbolizes the ideals and principles upon which this great nation was founded and for which the citizens of the United States have fought and are fighting today.

I, therefore, as Mayor of the Town of Belleville, New Jersey, call upon the people of this Town to display the National Colors between sunrise and sunset of Flag Day at their homes and places of business.

Dated this 7th day of June A.D. 1944.

Mayor

Why telephones are hard to get

There are two reasons why we cannot fill orders for telephone service today as fast as we'd like:

The reserve facilities which enabled us to meet the service needs of Army, Navy, war industry and most others since the start of the National Defense Program in 1940 are now exhausted, and no more equipment is being built for civilian use.

All telephone manufacturing facilities and manpower are devoted to making communication and other electrical equipment for our armed forces. Their entire capacity is converted to war production.

We've done all we can to serve as many as possible by-

Reconditioning and using every facility that will give good service. Converting one-party lines to serve

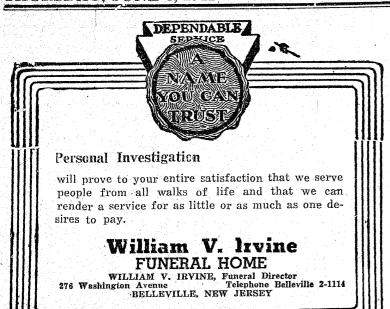

two or more families. Operating central offices beyond

their normal capacity.

* Taking extra-good care of equipment that can't be replaced.

If you are waiting for a telephone, we're sorry. The only facilities now available are those released when service is discontinued, and many of these are required for war purposes. We'd like you to know that we will take care of your needs at the earliest possible moment.

BELLEVILLE, N. J., THURSDAY, JUNE 8, 1944

High-Lights "30"

This will be the final edition of High-Lights, the student newspaper inaugurated last October and pursued through the year with great We Have With Us and little interest by the members of the staff.

During most of the year the paper was managed by Mr. Seymour C. Heck and its final issues were under the supervision of Mrs. Regina Lynch Kennedy. We of the staff wish to thank both of them for their continuing interest in our efforts.

Our thanks are also due principal Burt P. Johnson, the guiding light far in the background in our enterprise. And our gratitude is also expressed to The Belleville Times for the use of its columns throughout the year

As we leave Belleville high we look back on a year of straggling hesitant beginnings and with the sincere hope that High-Lights will not be allowed to die but will

The 17-year-old, blonde-haired brown-eyed valedictorian of the graduating class is the personable Catherine Anderson. As anbe nurtured into full-blown other indication of Catherine's maturity in the years to outstanding ability, she was one of the first group of 18 students recently chosen to represent the high school in the National Honor

Prerequisities for election to he society are outstanding scholastic achievement, service to the school, personality, and extra curricular activities.

Foremost among her interests outside the classroom are dancing and skating. When it comes to singers she doesn't seem to care for either Frankie or Bing, but Harry James rates just about tops with her as far as bands go.

Catherine's intense interest in school is highlighted by the fact that Algebra and French are her favorite subjects. As an outstanding member of the French and Latin clubs she again proves above average ability. Catherine is the senior chair-

man of the Schools-at-War program, which participates in such activities as the sale of bonds and stamps and promoting various drives throughout the year. She is also senior chairman of the

Junior Red Cross. When questioned as to plans following graduation Catherine said she intends to work; although she has not decided in what field Catherine's grand job as the maid in "Junior Miss" added that certain touch to the performance and this was only another among her numerous achievements as a Sen-

Their son was one of fearful importance: iether AFL or CIO truckmen should dever soda pop to the seven plants. The orkers happened to belong to one union, he drivers to another. Therefore, these atriotic individuals decided to aid the war ffort by stopping all production until the Il-weighty problem of who was going to bring them their soft drinks was settled.

In Saginaw, Mich., 2,800 unionists in hree Chevrolet plants went on strike as a esult of a dispute over a no-smoking reguation. Another mighty problem had to be ettled before the war on the home front fould go on. Last week there were other trikes: in the lumber industry in Oregon ud Washington, in a toolmaking plant in thode Island, among the Detroit bakery rivers. Every week there are a half-dozen r more strikes cropping up all over the ngth and breadth of the land. The reasons ir them are oftentimes just as asinine as he sods pop question and the no smoking egulation.

It is now an inescapable conclusion that abor's leaders have no intention whatsover of abiding by the solemn no-strike low that they took during the wave of atriotism that swept them off balance ight after Pearl Harbor. The vast majority f big and little labor shots still believe that ney are fooling the American people by enewing that promise but the people cerainly know that none of these strikes would e possible without getting the green light rom these labor barons who have managed get America's laboring masses in the alms of their hands and have bound merica's workers with almost unbreakble chains. They have formed a tyranny and a despotism which can be matched only by the forces of Nazism. The parallel between the rise of the two powers is so transparent as to be almost frightening. One is political, the other economic, both are absolute and brook no interference from any source.

> Where most common Americans made the grave error of judgment was in believing that these labor moguls were Americans first and labor leaders second. Such obviously is not the case. For the labor leaders have broken faith with the nation of their birth. In their lust for power and personal gain they have immeasurably retarded and sabotaged the successful prosecution of the war, they have cost America millions of dollars and thousands of lives.

Some few labor barons have recognized the swing of public opinion against them; some few are sufficiently realistic to admit that the cause of labor in the United States has suffered irreparable harm. Said UAW President Thomas to his soda pop strikers: "Public opinion has become inflamed. . . . Our union cannot survive if the nation and our soldiers believe that we are obstructing the war effort. If we do not (restrain ourselves), there will be no union after the

America Misisif

He's doing his part . . . We must do our part!

For him the terrifying grand climax of the war is at hand.

The supreme military risk—bloody, costly in American lives.

Our boys know this. They don't have to read the heart-rending headlines or casualty lists to know what is expected of them.

They are in it.

But they are not flinching ... not holding back.

They will see the grim venture through to the bitter, victorious end.

And if, for your boy, or some boy you know, the price of Victory is death, you can be absolutely certain that he did his part courageously . . . for the cause of Freedom.

For us, too, the terrifying grand climax of the war is at hand.

This supreme, desperate call for American dollars—16 billions of them—is to enable our fighting men to carry through the grim, bloody assault to a successful conclusion and Victory.

Not just American dollars—but the dollars in your pocket—in your savings account.

You must buy War Bonds—now! At least twice as much as you bought last time. If you are already buying Bonds on a pay-roll savings plan, buy EXTRA' Bonds during this Drive.

Your Government is counting on you. Your boy—and your neighbor's boy—millions of them—are counting on you. Just as desperately as you are counting on them in this fateful hour.

▶ Don't let them down! Do your part—as they are doing theirs. Dig down, America—dig down deep! While there is still time. This is America's Zero Hour—Civilization's Zero Hour!

And here are 5 MORE reasons for buying EXTRA Bonds in the 5th!

- 1. War Bonds are the best, the safest investment in the world!
- 2. War Bonds return you \$4 for every \$3 in 10 years.
- 3. War Bonds help keep prices down.
- 4. War Bonds will help win the Peace by increasing purchasing power after the War.
- 5. War Bonds mean education for your children, security for you, funds for retirement.

Back the Attack! - BUY MORE THAN BEFORE!
