

## CREATE ADVISORY RECREATION BODY, APPOINT FIFTEEN

Foundation Group Augmented By Town Officials, To Study Long-Range Master Plan

A municipal Recreation Advisory Committee was created Tuesday night when the Commission adopted a Noll resolution bringing the body into existence and naming fifteen members to it.

The resolution declared that the purpose of the new group is to study the recent survey and report of the National Recreation Association and to "recommend suitable action" on it. Members will serve without salary.

Town officials named to the committee are Mayor Williams, Commissioners Noll and Mertz, school Commissioners Schmutz, Gilby and Gebhardt and school Supervising Principal Parmer.

Also appointed are Rev. Joseph M. Kelly, Rev. O. W. Chapin, Rev. Benedetto Pascale, Elwood P. Russell, Kent R. Costikyan, James A. Leonard, John W. Watson and Harry G. Specht.

Miss Greta Kinnealy, deputy director of Parks and Public Property, was selected as secretary of the committee.

The new committee is an outgrowth of the move initiated last year by the Belleville Foundation, of which Specht is president, to reorganize the recreation of the town.

The Foundation was successful in persuading the Commission to retain the National Recreation Association to make the survey of the town at a cost of \$1,000.

The report of the survey was rendered four months ago and showed Belleville to be lacking in many recreational facilities, leadership and programs.

Library Trustee Michael Capanear of 84 Franklin street is a trustee of the Free Public Library.

Succeeding Miss Kinnealy who resigned after accepting her present position. The term runs to March 1, 1945.

The Commission will confer with the Foundation's veterans' rehabilitation committee Wednesday at 7:30 in town hall after receiving a letter of rebuke from Specht.

Specht wrote that he had asked three months ago for a conference and that his letter had not been answered by the Commission. "Three months," he declared, "is long enough to wait."

The purpose of the meeting will be to discuss coordination of efforts in behalf of the returning veteran. The Foundation has evolved several thoughts and wants to discuss them with the town fathers, Specht said yesterday.

The Foundation expects shortly to publish a booklet of advice to the veteran and acquainting him with the advantages which are to be met in Belleville.

Tuesday's meeting was one of the most sparsely attended on record. During most of the confab the council chambers were peopled solely by Mayor Williams, Commissioners King, Mertz and Waters, Town Clerk Morey and three news reporters.

Two men strolled into the audience a little later but left after five minutes.

## Postwar Belleville Industry To Increase Employment

CED's Browning Tells Manufacturers Survey Shows 50 Percent Increase Over Last Peace-time Year; Will Canvass Town's Retailers

Belleville's war industries have nearly trebled their 1940 employment figures, according to the preliminary survey of 38 members of the Belleville Manufacturers' Association which represents the bulk of the industrial employment in the town. These were the figures revealed by Robert T. Browning, chairman of the local Committee for Economic Development, last week after a dinner-meeting of the Industrial Relations Committee of the BMA at Forest Hill Field Club.

Browning's figures cover more than fifty percent of the manufacturing corporations here but he said that the survey of the retail merchants had not yet started and that a true picture of post-war employment in Belleville is not possible until that has been completed.

The 38 industries surveyed employed 3,232 people in 1940. Today these plants employ 8,523. After the war, the industries estimated, they will require 4,938 of which only 913 will be women.

"While this represents a difference of about 3,600 people below today's employment, the estimates show fifty percent increase over 1940, which was a reasonably good business year," Browning declared.

**Health Condition**  
"In relation to national estimates and preliminary figures of the national survey being conducted by CED, these results for Belleville show a healthy condition."

"In 1940 the town employed 46,000,000 people and in the country with 600,000 in the armed services."

## ELDERLY WOMAN IN ABORTION CHARGE

67 and Mother of Eight, Faces Grand Jury after Arraignment With Two Men Here

Charged with committing an abortion on a 22-year-old unwed Newark woman, Mrs. Frances Maioran of 96 Belmont avenue was released in \$3,000 bail after arraignment Friday morning before Police Recorder Smith.

Free under \$1,000 bail each on similar charges are Louis Muha, 28, of 559 South Twelfth street, Newark, and Rocco Caggiano, 32, of 4 Maple avenue, Montclair, the alleged accessories to the fact. All three pleaded not guilty.

According to the statement of the young Newark woman, secured after Deputy Police Chief Leighton and Detective McGinnis had investigated the case, she had been intimate frequently with Muha, who is married.

When she discovered that she was pregnant, Muha allegedly introduced her to Caggiano who made the contact with Mrs. Maioran who is charged with having performed the illegal operation in the kitchen of her home August 16.

Police learned of it earlier this month when the Newark woman was taken to Newark City hospital suffering from hemorrhages. She declared that Caggiano received \$130 from Muha and herself for the operation but Mrs. Maioran asserted that she received no payment.

Mrs. Maioran, the mother of eight children herself, was originally held in \$5,000 bail but the figure was reduced to \$3,000 by Smith in view of the woman's age, 67.

He refused to lower it further because Mrs. Maioran was convicted of a similar charge in 1927 and placed on probation for three years.

## GIRL SCOUT HEAD NAMED MONDAY, STARTS DRIVE

Elizabeth Bardagjy Appointed Scout Director; Inaugurates Move for 1,000 Girls

Miss Elizabeth Bardagjy

The appointment of Miss Elizabeth Bardagjy of Jersey City as acting executive secretary (equivalent to director) of the Belleville Council of Girl Scouts was announced Monday by Mrs. Elmer S. Hyde, council chairman.

The new director immediately revealed that plans are under way to expand the Girl Scouts in Belleville to at least 1,000 by next spring and that a leaders' training course will soon get under way.

"We will recruit as many women in the community as are interested and will invite them to join the training course to become leaders of the new troops which we hope to organize," said Miss Bardagjy.

Belleville Girl Scouts now number about 330, divided into a senior, nine intermediate and two Brownie troops.

Miss Bardagjy, who has been teaching school in Teaneck, has been connected with Girl Scout activities for more than ten years, principally as a leader of troops in Montclair and Jersey City.

She was formerly supervisor and assistant director in Jersey City and in charge of the leader-training program in that city.

## Professional Leader

She is an alumna of the Professional Leadership course at National Camp in Sussex County and a member of the first institute of New Jersey State teachers colleges in camping education at the National camp.

In 1943 Miss Bardagjy was in charge of programs at the Jersey City Scout day camp and during the past summer studied at Camp Edith Macy at Pleasantville, N. Y., of the national training school for Girl Scout leaders.

Miss Bardagjy attended Montclair State Teachers College, New York University and the teachers college of Columbia University. Last year she taught art in Teaneck high school.

## Times Presents Transcript of Williams-King Questioning On Eve of Grand Jury Investigation of Gambling Link

Ready for investigation by the grand jury are charges that Mayor Williams acquiesced to plans to open a gambling house in Belleville. After laying dormant in the public mind for nearly six months, the sensational story may reach its climax in the next few weeks after the jury has completed its fact-finding query. The matter first came to public attention in April when Mayor Williams, taking the offensive, questioned Public Safety Director King at length. This questioning has been the only public explanation thus far vouchsafed by either of the principals and great emphasis has been put on it, although the grand jury's investigation will delve much farther into it.

Believing that the public should know the background of the case now under scrutiny and because all published statements regarding the questioning have not been entirely accurate, The Times herewith presents the first published transcript of the grilling to which Mayor Williams subjected Commissioner King, Police Chief Spatz and Deputy Chief Leighton. Two facts should be borne in mind: 1) this is not necessarily a complete statement of the case; and 2) this transcript is from the official minutes of the meeting kept by Town Clerk Florence Morey and are not the notes taken by a public stenographer who was not sworn in before he began to take down the conversation.

## HEADQUARTERS SET FOR WAR CHEST

Operate at 338 Washington; Lester McCorkle to Head Business Drive Again

Headquarters for the forthcoming Community War Chest campaign are being established at 338 Washington avenue in the former office of realtor Arthur E. Mayoy, it was announced last Wednesday at the Chest council's first meeting since August 15.

Lester McCorkle of 293 Joralemon street was announced as the business canvass chairman but the principal position in the drive, that of the general chairman, has not yet been filled.

The town's civilian defense map which divides Belleville into five zones including 44 districts will be used as the basis for the house-to-house campaign, it was decided.

This step was taken after it was pointed out that the school district map, used in former years, creates an unwieldy organization because of the size of the divisions.

The 1943 drive (held in February 1944) saw a total of \$54,562 pledged out of the only \$45,476 has been paid to date. The planned dates for the next drive have been set for October 9-23 with the house-to-house solicitation occupying the second week.

## Will Dedicate North Belleville Honor Roll Armistice Day

Armistice Day has been set as the date for the unveiling of the new North Belleville honor roll which is now being erected on Union avenue north of Fawcett Memorial Presbyterian church.

Chairman Joseph Steinhilber made the announcement yesterday, at the same time inviting workers and friends of the section to attend the weekly meetings which are held Thursday nights at 8:30 in the Recreation House.

"Every effort is being made by the committee to canvass this section thoroughly for names of all servicemen," Steinhilber said, "but names are not coming in as rapidly as expected. Cooperation of the neighborhood is requested."

Mrs. Robert N. Hayes of 205 Overlook avenue (Be. 21107-J) is chairman of the committee in charge of securing the names of all North Bellevillites in uniform and she has requested voluntary contributions.

## JOHNSON EXPLAINS ABSENCE OF BAND AT GRID GAMES

Lack of Instruments, Players Reasons for Abandoning Band in High School

Queried yesterday by a Times reporter, high school principal Burt P. Johnson declared that two things prevented the formation of a school band this year: lack of instruments and lack of players.

The Times interviewed Johnson and Supervising Principal Parmer after numerous complaints had been received regarding the band's failure to put in an appearance at Saturday's Belleville-Good Counsel football game.

Johnson indicated that the present status of the band is the culmination of several years' deterioration. Collapse of the endeavor was avoided by a fraction last year, he said.

The player shortage has been creeping up on the school, due mainly to the lack of instrument instruction in the elementary schools, he declared. Last year's band never had more than twenty members and they disbanded immediately after the football season.

When the registration for the band first went out shortly after the opening of school, only eight applicants put in an appearance. The majority of these could play no instrument but were willing to learn.

Two could neither play nor read music of any kind, a saxophone hopeful knew the first four notes of the scale, a clarinetist of four years' experience said "I don't think I want to be in it."

Only Two Frosh  
In desperation a complete canvass of the freshmen class was made only to discover that only two out of nearly 400 yearlings could play a band instrument. It was then the abandonment decision was made.

The instrument question was another contributing factor in the decision. It was found that the school does not possess sufficient instruments to equip a band, despite a requisition which Johnson made last May.

An inventory showed that the high school has twelve horns of various types, five drums, a pair of cymbals and a bell lyre. There are no trumpets, clarinets, tenor saxes or French horns.

Many of the instruments were purchased from the defunct Elks Club band about twelve years ago. Many more were bought by funds raised from the school's annual music festival.

Probably the reason why little money was ever invested in instruments is the fact that most of the students in the band and orchestra own their own instruments, Johnson said. Johnson twice during the year he has been in Belleville, has warned of the impending collapse of the band. In his December 1943 report he wrote:

**Greater Emphasis**

## PETTY ROBBERIES BREAK OUT AGAIN

Four Breaks Within 24 Hours Second Wave in Three Weeks Cliff's, Di Bella's Robbed

Another spurge of petty robberies, the second wave in three weeks, had the detective bureau busy investigating again this week. There were four breaks within 24 hours Thursday and Friday nights.

Friday morning Cliff's Diner at 218 Washington avenue and Di Bella's men's shop at 155 Washington avenue telephoned police that persons unknown had broken into the rear of each place.

Di Bella lost \$25 in cash. At Cliff's a like amount was stolen from the cigarette machine and an additional \$4.50 from the cigar machine. In both cases a window was broken to gain entry.

While Mrs. Margaret Lewis of 30 Watchung avenue was away from home during the day Friday, she said, burglars forced a rear window and stole a silver fox fur jacket valued at \$125.

George Yanz of 715 Belleville avenue reported that some time Friday night burglars had broken into his garage and stolen two boys' bicycles.

Tuesday evening Joseph Johnson, 14, of 79 Mt. Prospect avenue reported that his Shelby bicycle had been stolen from his garage. It is black with white trim, 28-inch frame and has balloon tires.

## SCAVENGER BIDS FROM 4 FIRMS

Cuozzo, Miele, Viola, Capasso Return From Questionnaires Before Deadline Yesterday

The Commission will consider bids October 10 from four companies who are seeking the Belleville scavenger contract beginning next year when the contract with Charles Cuozzo of 56 Continental avenue expires.

Cuozzo will be one the four bidders. The others are Miele Brothers of Caldwell, Thomas Viola and Sons of Nutley and Capasso and Pucillo of Ridgewood.

The deadline for filing preliminary questionnaires regarding experience and equipment was passed yesterday afternoon and no indication had been received from Patrick Ansetta and Sons of Newark which had taken out a form.

Cuozzo has held the local contract since 1928. Bids this year are being received on a one, three- or five-year basis. Questions and companies will be inspected by Commissioner Mertz and Health Officer Berry before bids are received.

## Commission Continues Its Policy

The Commission is continuing its policy of "laying things on the table" for consideration before acting on them.

Tuesday night Commissioner Waters said he "did not like" the proposed anti-noise ordinance which passed first reading during his absence. It was promptly laid on the table for further consideration and study.

Later Town Attorney Keenan mentioned that he still was holding the anti-ragweed ordinance which has been tabled for a month. He was greeted by a chorus from the Commissioners to "hold it over" for further study. The record for tabled measures is still held by the proposed town planning ordinance which has been "on the table" for seven months.

The Kirwin twins are separated. This was made known Sunday when Mr. and Mrs. John F. Kirwin of 90 Forest street were notified that their son, Aviation Ordnanceman 3/c John Francis Kirwin has been killed in the South Pacific.

No further details were given in the Navy telegram other than that he died when his PBM crashed in the Pacific area, probably at sea.

John Kirwin was another boy who left Belleville high school before graduation. Only 19, he enlisted in February 1942 when he was a senior. Born in Newark, he lived most of his life in Belleville.

He took his boot training at Sampson and specialized training in Tennessee, Florida and California before going overseas in July of this year.

His twin brother, Aviation Ordnanceman 3/c James Edward Kirwin, went all through training with him until John left for the Pacific. James was last heard from in Alameda, Cal., but is now believed to be overseas.

**Pvt. Robert A. Stecker**  
The death of Pvt. Robert A. Stecker Jr of 76 Beech street in action in France was revealed last week by his wife, Mrs. Ruth McGarvey Stecker of the Beech street address.

Pvt. Stecker, who was killed August 15, was the thirty-fifth man from Belleville to lay down his life for his country in World War II.

Wounded for the second time, Lieut. Edward A. Flynn Jr, son of Dr. and Mrs. Flynn of Rossmore place, was just "sidelined" he wrote his parents this week.

The injury was sustained in a fight in Luxembourg. "I was slightly wounded again in a fight, but by a shell fragment, just enough to slow me down," he wrote.

He was wounded the first time in France in August when "a Jerry bounced a machine gun bullet off my head a couple of times. My helmet saved me."

Hospitalized in England, he returned to action September 3. His second letter was dated two weeks later. He has been overseas a year and on the continent since July.

His brother, Sgt. Russell Flynn, is now back in the States after having recovered from wounds received in Italy.

answer any questions here now. I am the Commissioner of Public Safety and I guess I have a right to be in the office.

Q. Was there anything ever done by Mayor Williams that you thought was unethical?

A. No, sir.

Q. Did you discuss something with them?

A. I did not open my mouth with them.

Q. Did they discuss with you that Mayor Williams was associated with gamblers? (No answer.)

Q. Was anything of an unethical nature discussed by you?

A. Yes, that developed.

Q. As a result of the interview was a signed statement made of the discussion these men had?

A. Capt. Leighton made it up

and signed it and gave it to me.

Q. Were there expressions in that statement that you would regard, if true, injurious and detrimental to the reputation of Mayor Williams?

A. I would say so.

Talked to Commission

Q. With what other person did you discuss the matter?

A. Commissioners Mertz, Noll and Waters knew about it.

Q. They all read the statement?

A. I believe they did.

Q. Commissioner Waters read the statement?

Waters: Wait a minute — I never read a statement; I never heard a statement.

King: The four of us sat down. I thought they had seen the statement.

Waters: The answer is no — Commissioner Waters did not see the statement.

Williams: When did you tell this story to Commissioner Waters?

King: As soon as I got the information.

Waters: When was this told to me?

King: It must have been about four months ago.

Williams: And we are talking about a meeting in Leighton's office a few Saturdays ago.

King: There was no meeting in Leighton's office.

Q. When did you discuss this with them?

A. It must have been some time ago, last November as near as I can remember.

Did Nothing?

Q. Since last November you have had this information.... and you did nothing about it.

A. Did it not develop?

Q. Do you have in your possession a statement demanding that someone resign from public office and if true, some person should resign from their office? (sic).

A. I do not think so.

Q. What evidence did Capt. Leighton have to your knowledge to create that statement?

A. From personal investigation.

Q. From observation?

A. I do not know.

Q. Did the statement cover statements that gamblers had been given approval to operate institutions in Belleville?

A. I do not know.

Q. Do you believe Capt. Leighton prepared that statement?

A. He signed it.

Q. Where is that statement now?

A. In my office.

Will You Deliver?

Q. Will you deliver it to the board of Commissioners and make it a part of the records of the town of Belleville?

A. I do not think it ever happened.

Q. This statement is in your possession?

A. Yes.

Q. Then I am asking you as mayor to deliver it to the board of Commissioners and make it a part of the records of the town of Belleville. You are a servant of this town the same as I am. As the mayor of this community, I am going to ask you to present it to this board. This statement is not against this board, it is against this community. It is an official record prepared by an employee of the town and at the request of any member of this board it should be produced at a meeting of this board and made a record of this town. Will you do that tomorrow?

A. No.

Williams (turning to the town attorney): Mr. Keenan, if a police captain makes a statement made on self evidence that he has found or something he has dreamed, am I in order when I say it is an official record or statement of the town of Belleville?

Not Obligated

Keenan: The board can request a statement of that type but, if the director who has the official under him in that department deems it best not to do so, it would not have to be turned over.

Williams: He can keep a statement of a slanderous nature if he sees fit?

Keenan: If it is in his department, he can do that.

(to King): You brought it to everyone but the man whose character was at stake.... Do you think that was decent sportsmanship that you did not give me the same opportunity?

King: When I refute a statement, it is filed away and no one ever sees it.

Q. Why did you not bring such a statement to the full board?

A. I thought I would call the other members for advice.

Q. And then you did not say anything to the man who you were associated with for ten years or more, a man who you said previously you knew had never associated with people of bad repute.

Put It Away

A. That is so. That was why I put it away.

Q. If you wanted to do your sworn duty, why did you not take it to the prosecutor of Essex County? Why did you not ask Capt. Leighton to prove to you that such statements were there? You don't know why the newspaper men were asked to rush to the town hall to the police station, that a scandal was about to

break? Why did you not ask Mayor Williams for a statement?

A. I will say this: other members of the board did not see the statement.

Q. But they knew the contents of the statement?

A. Only after the first meeting.

(There followed several questions during which the mayor sought to find out why Spatz was not called into the "conference." King merely answered that he "trusted Spatz.")

Q. Is it true that Capt. Leighton reports to you and not to Chief Spatz as chief?

A. I am not answering that.

Q. Don't you know that Capt. Leighton tried to have Commissioner Clark and Mayor Williams separate the detective department from the police department? (No answer.)

Q. I reported this to the board when I had charge of that department. Have you any idea why Capt. Leighton wants to make it a separate department?

A. I have no idea.

Brings In Gow

(The mayor then sought to link King with William Gow, a "political ally of a candidate in the 1942 campaign" and to show that Gow called newsmen and asked them to "rush at midnight to the police station." Gow, who was in the audience, came forward to object and the mayor ordered Spatz to "take the proper steps if I am interrupted again.")

(The mayor also injected the names of several financial and civic organizations of which King was a member. Because The Times believes they are not involved and their inclusion was not ethical, their names are omitted.)

(The mayor then questioned Chief Spatz and the latter replied that he did not know of the meeting, that he would expect to be consulted in such matters and that "I do not do any deciding" of chance appointments.)

(Questioned, Commissioner Mertz said he was in the office at the time of the meeting but "it was very short and snappy and I did not pay any attention to it.")

A. I will turn it over to my Commissioner.

(After a general discussion among the mayor and Commissioners King and Mertz, the meeting continued with routine business.)

### CONSTITUTION REVISION

A Non-Partisan Effort to Enable a Better Government of New Jersey.

Hon. Walter E. Edge, Governor of New Jersey during World War I and now again Governor during World War II, advocated the need for Constitution Revision — then and now!

Governor Woodrow Wilson warned of the need of a new Constitution when he said, "The powers of corrupt control have an abiding advantage under our arrangements as they stand."

Governor Charles Edison states, "The proposed Constitution would restore to the legislature the power to investigate suspected officials." — "In this and in other respects we should get better legislators — better legislation."

Vote "yes" on November 7th for the adoption of the Revised Constitution for New Jersey.

## RUMOR MONGERS

WEBSTER'S DICTIONARY says a rumor is "a current story without known authority for its truth." A monger is "a dealer or trader." Therefore, a "Rumor Monger" is a dealer who trades in telling stories that have no known authority for their truthfulness.

IN NINE CASES OUT OF TEN, a rumor is not founded on truth. It is circulated to accomplish a selfish purpose. It accomplishes no good and generally is destructive in its objective.

BELLEVILLE CITIZENS must be wary of "Rumor Mongers." Evaluate carefully all rumors and the persons who tell them to you. This is especially true in the coming election. Rumors increase in political campaigns, for politicians and would-be politicians cater to rumors — it is their stock in trade.

TO KNOW THE FUTURE, you should read the past. You will then realize how much untruth there has been in past rumors. Voltaire said, "When once a nation begins to think, it is impossible to stop it."

AS COMING EVENTS begin to shape themselves, be slow to judge them until they are well formed. Think for yourself and plan for the years of prosperity that lie ahead. With patience, intellectual honesty and hard work —

Let us Plan for the future.

Let us Build a Better America.

# Bellboys Trip Good Counsel, Prepare to Meet Barringer

Face New Yorkers on Clearman Field Saturday; Fumblitis Hampers Blue and Gold in Opening Victory; Pasquariello, Pudney Score TD's

Fresh from its 14-0 opening triumph over Good Counsel of Newark, the high school aggregation is looking forward to a repetition of last year's win over untried Barringer. The kickoff is scheduled for 2:30 Saturday at Clearman Field and the Bellboys' mentor, Bill Chapman, is planning the same starting line-up which cracked the Good Counsel defense last Saturday. Barringer, never a pushover, surrendered by a mere 7-0 count to the Blue and Gold last year but holds a margin in the overall series with the localites through the years.

The Good Counsel game proved to be a field day for visiting coaches. Since Belleville opened a

his offensive strategy to a minimum, thus holding down what had been expected to be a slight walk-away for his charges. Belleville drove deep into enemy territory three times, scored twice.

The Bellboys started off strong. Les Del Tufo returned the kickoff from his 30 to midfield and three plays later Distasio made it a first down on Good Counsel's 34, and followed up with another first on the 23.

A pass from Vic Pasquariello to Tony Grecco, following a penalty which set the Bellboys back to the 35, carried to the 7 but the threat ended when Pasquariello fumbled on the 5.

In the second stanza an exchange of fumbles left Belleville with the ball on its own 40. Joe Paganelli started off a new drive with a sixteen-yard sprint.

Pasquariello and Pete Del Vecchio took it to the one-yard line from where Pasquariello plunged over the goal. He then dropped the extra point.

Vic set up the second score in the final period when he returned a punt from his own 49 to the enemy 12. With last down coming, Del Vecchio tossed a pass to Pasquariello on the two.

After catching it fairly, Vic fumbled but Bob Pudney fell on the ball across the line for a touchdown. Pasquariello again dropped the extra point.

Mike Merola and Matt Carracino are co-captains of the outfit while Jim Nelson, Clarence Troublefield and George Russomano are the vets in the running attack. Allen is still undecided whether to start Troublefield or Russomano at right half.

## Record Buster

Ed Littig

The old rivalry between Ed Littig and Ray Bryan cropped up again Sunday morning and the former mounted his racing bike at city hall New York to smash Bryan's three-year-old New York Philadelphia speed record by 5 1/2 minutes.

Littig started on the 95-mile trip between city halls at 6:12 and wound up in the city of brotherly love at 10:54 1/2, lowering Bryan's standard from 5:38 to 4:42 1/2.

Paced by two American Bicycle League cars, one of which contained Walter Grenda, the official timer, Littig pedaled his wheel through Manhattan's sleepy streets, took seventeen minutes on the ferry and set off down Route 1.

Four hours later he crossed the Delaware, raced through Roosevelt boulevard and down Broad street to the massive old Philadelphia city hall. His average time was thirty miles an hour.

Littig, who is 36, has been active in bike circles for twenty years. In 1924 he was the Newark city champion and in 1925 the Newark roller king. He has been Belleville Bicycle club champion for the past two years.

He moved to Belleville five years ago from Newark and lives with his wife and three children at 133 Cedar Hill avenue. He operates a cabinet making shop at 58 Schuyler street.

**Capitol Theater Changes Policy For Matinees October 21**

Beginning Saturday, October 21, the Capitol Theater will inaugurate a new children's policy for the Saturday matinees only. Starting the programs at 1 instead of 1:30, an added feature will be shown, replacing the present cartoon half hour.

Many young patrons have requested certain pictures which were not on the regular Capitol schedule. Therefore Warners will give them added entertainment for the afternoon. No advance in prices will be asked.

**Fogarty Sisters Will Appear With Sammy Kaye at Adams**

Virginia, Marie and Maureen Fogarty, dancing daughters of Mr. and Mrs. John Fogarty of 58 Eighth street, successfully auditioned Monday for Sammy Kaye who will open an engagement to-night at the Adams theatre in Newark.

Virginia, a tap dancer, will appear this evening; Maureen, youngest of the sisters, will present a Hawaiian song and dance at the Saturday matinee.

Marie Fogarty, who teams with Grace Potazzi of Cedar Grove under the title "The Heart Sisters," will be seen Sunday afternoon. The girls will perform an adagio dance.

Oldest of the Fogarty sisters is Miss Frances Fogarty, professional dancer, who is now auditioning for overseas USO appearances.

Marie Fogarty, who teams with school students; Maureen, holder of several New Jersey beauty contest titles, attends school No. seven.

**Bids Not Needed**  
Further advertising for bids for parking meters will not be necessary, town attorney Keenan has ruled. No bidders appeared after the first advertisement, thus relieving the Commission of its obligation, Keenan said. The meters are for the Washington avenue block between Belleville avenue and William street.

## Henderson Outsmarts Bikers — Or Himself — in BBC Race

Belleville Bike clubbers are still trying to decide today whether Henderson was too smart for them or had missed up on one of the clues which would have brought home a winner in the annual hare-and-hounds race Sunday.

Henderson was the road captain who left the club at 8 a.m. with the clues. He distributed them at various points and marked arrows to show the next direction of the "hounds" to follow.

Bob Arnot, Chuck Wille, Ray Bryan, Wilbur Guerin and Tom Hammon came out a little later but soon lost the scent. They claim Henderson forgot an arrow somewhere along the line.

Hannon later won the balloon-tire pursuit at the Municipal Stadium. He caught Henderson after seventeen laps in the final. Results of the heats were:

Heats — Hannon caught Chuck Wille in 23 1/2 laps; Russ Wille caught Wally Reed in 2 1/2; Henderson caught Bryan in 2 1/2; Chuck Wille caught Guerin in 6 1/2; Semifinals — Hannon caught Chuck Wille in 3 1/2; Henderson caught Russ Wille in 5. Finals — Hannon caught Henderson in 17.

## Boxing Permit Denied

Benjamin Grossman of 141 Belleville avenue has temporarily been refused permission to inaugurate a boxing program at Riviera Park roller skating rink. Boxing Commissioner Hank told Grossman to wait until loosening military requirements released some boxers.

**Bike Owners Enthusiastic**  
More than 210 youthful bikers had flocked to Police headquarters up to yesterday to register their bicycles, Chief Spatz announced. The program has averaged more than 100 a week thus far and all other bike owners have been urged to participate in the plan.

# Describes European Landing in Short-wave Broadcast

Seaman 1/c Andrew M. Beck jr Tells of Invasion in Conversation with Haymes and Betty Hutton; Has Made 17 Trips Across English Channel

From a base somewhere in England, Mr. and Mrs. Andrew M. Beck of 57 Wilber street, heard a first-hand account of the invasion of France, when their son, Seaman 1/c Andrew M. Beck jr spoke by two-way short-wave radio over station WEAJ Tuesday.

The young Belleville serviceman, who is with an LST unit, was one of two New Jersey veterans of the Normandy, African and Sicilian landings who chatted via trans-oceanic hookup with Dick Haymes and Betty Hutton, screen and radio stars, during the broadcast of NBC's "Everything for the Boys."

Beck, who has been with the Navy for two years, made seventeen trips across the Channel with his LST unit, unloading supplies on the beachheads and at Cherbourg harbor.

At Cherbourg he saw the devastation which American bombs and shells had done to the harbor, the breakwaters and many of the waterfront buildings.

Beck's ship had no trouble with bombings, U-boats or E-boats, but

he just missed being injured by an exploding land-mine when he went ashore for a visit.

During the successful broadcast, a transcription of the program and his part in it was made for his parents as a special gift from Haymes and his sponsor.

Beck, a 1941 graduate of the high school, entered the Navy two years ago. His brother, T/Sgt. Edward A. Beck, has been with the Army transportation corps in England for the past two years.

**Nutley Man Severely Lacerated in Main - Rutgers Collision**

It required 37 stitches to close the cut over the eye of Nicholas Cafone, 37, of 94 King street, Nutley, after his car collided with another at Rutgers and Main streets, the entrance to Belleville Bridge, at midnight Thursday.

Cafone was driving east on Rutgers, Pietro Cerqua, 27, of 17 Warwick street, Newark, south on Main at the time. They were taken to St. Mary's hospital, Passaic, and Cerqua was treated for abrasions of both legs.

George Fields' attempt to avoid hitting a dog caused him to swerve into the rear of the parked auto of Bernard Lombardi of 47 Mt. Prospect avenue, he told police.

Fields, who is 35 and resides at 86 Main street, Lodi, said the dog ran out into the street. The accident occurred Sunday night on Washington avenue near Essex street.

Admiral Ernest J. King—"The dollars of every patriotic American must continue to build invasion ships to transport our men and materials in increasing numbers to the many active fronts. In 1944, more than ever before, the money we invest in War Bonds is of supreme importance."

General George C. Marshall—"The American people must give not only their full personal effort but the full use of their dollars invested in War Bonds to back these attacks. There is no alternative. Total victory is in sight, but it can only be won by concentrating every resource of America to the task."

*The first 3 years have been the easiest!*

It's easy to give everything you've got when you're scared to death and fighting for your life. It's hardest to bear down when things look "in the bag."

As the war looks today, for instance.

Over-confidence may not lose us this war. But if it makes us ease up, it can prolong it.

Even if only one extra day is added to the war—just one—thousands of American boys may die for it. Perhaps, God forbid, a friend of yours, or son, or brother, or sweetheart, or husband.

So don't slow down now. Don't coast. Buy Bonds with that extra cash—all the Bonds you can.

After all, buying Bonds is not only a patriotic but a very wise thing to do. The dollars you put in Bonds now will come back to you—bringing more dollars with them. Dollars that can mean happiness, security, comfort—just when you'll want those things most.

Buy War Bonds for your Country. Buy them for yourself. They're the world's safest investment.

## New Political Alliance Comes over Horizon

The tides of political fortune are probably the most swiftly shifting of any which human beings can control. In the politician's life in America, practically every move is made with the consideration of its effect on the inexorable ballot box. And between elections life is filled with a constant struggle to maintain the balance of power or to be a member of the coalition which will dominate the actions and policies of the governing body.

Belleville politicians are probably no different from those in any municipality in America. As soon as one election is over all political eyes are centered on the next one, four years away. And the line-up at town hall has ever been an engrossing subject even to the casual observer. With every shift in the balance of power, there is a host of speculations of what the new alignment will mean to the future of the town and the welfare of its citizens.

For these reasons the apparent mending in recent weeks of the former wide breach between Mayor Williams and Commissioner Noll has, after the first shock of surprise has been overcome, given rise to many speculations of its portents. Coalitions involving former enemies are not unknown but seldom have two men with the bitterness which Mayor Williams and Commissioner Noll displayed in public and in private been able to settle their long-lived disputes and lie down together like the lion and the lamb.

Mr. Noll first entered the Commission in 1938 as a minority member. Shortly after his election, he was given the so-called minor office of town government and forthwith stripped of most of the powers which normally went with it. For the next five years he remained in that status while Mr. Williams, who finished top man in 1934 and 1938, led the thinking and the acting of the

governing body. He was nearly always assured of the necessary majority vote.

The tide began to shift in 1942 when the mayor took a sudden slip into second place when the votes were counted. After Commissioner Clark's death, the battle to name the fifth commissioner droned on for nine months with Commissioners Noll and King on one side, Mayor Williams and Commissioner Waters on the other. When Mr. Noll and Mr. King finally emerged victorious and got Mr. Mertz in, the balance of power had shifted clean away from the mayor, who was subsequently defeated on at least two counts: his backing of Greylock Gardens and his opposition to police and fire raises.

The first indication that Mr. Noll and Mr. Williams might have reached some understanding was given three weeks ago when, at the round-table discussion of the National Recreation Association report, the former publicly thanked the mayor for his "cooperation" in dedicating two properties for recreational development. This was a small thing in itself; it was important mainly because it was the first incident of its kind in more than six years of public life together. Ten days later the two men had lunch together in a Belleville restaurant, a thing which six months earlier would have been deemed definitely impossible.

Burying hatchets is an old American custom and, if the new alliance will work for the eventual betterment of the town, then Mr. Williams and Mr. Noll are to be congratulated for being big enough to forget the harsh words they have spoken of each other during the past years. But they, as all public officials, must remember that their election was based on hopes for greater civic welfare and not merely for self-perpetuation in office. The new concord has it within its power to bring great things to the people of Belleville.

## A Fair Test of Government in Industry

Rarely does the public have an opportunity to compare the relative merits of government versus private operation of industry, unclouded by prejudiced arguments and accidents of circumstance which make impartial comparison difficult. But it has such an opportunity in the case of the railroad industry. It is worth repeating that in the first world war the railroads were operated by the government. During the current world war, they have continued as a private enterprise. The periods of respective operation have been under similar circumstances. Therefore, the public can base its judgment upon performance alone.

During the first war, operation of the railroads by the government was inefficient and wasteful. A news dispatch of May 25, 1919, says: "To finance the railroads for the balance of the year and to pay the government's operating loss for 16 months up to this month, an appropriation of \$1,200,-

000,000 was asked of Congress yesterday by the Director General of the United States Railroad Administration. The \$1,200,000,000 is in addition to the \$500,000,000 appropriated by the last Congress."

During the present war, the railroads have paid billions in taxes to the government, instead of creating Federal deficits — nearly \$2,000,000,000 in the year 1943 alone. Aside from their tax contribution to victory, they have carried the unprecedented transportation load of mechanized warfare without a hitch.

An immediate question after the war will be whether or not socialized industry in the United States shall displace the enterprise of the private citizen. In the railroad industry, public ownership and private ownership have had a fair test. That test should be a determining factor in the final choice of the road America follows.

## Football Lacks Color Without a Band

Students and public alike are much exercised over the fact that Belleville high school will not field a band at its football games this year. The absence of the spirited music, which is fifty percent of the color, was decidedly noticeable Saturday at the gridiron opener. The fact that no band was available might have been startling to the spectators, but it came as no surprise to school authorities.

The high school band has been on a hit-and-miss basis for many years. There has been no trained bandmaster (one of the teachers voluntarily helped out and did as good a job as possible under the circumstances.) Instrumental music has never been taught on a large scale in the elementary schools with the result that the band is usually recruited from high school students who learn to play after they reach the school.

The school system has never owned sufficient instruments to equip a band because most instrumentalists who have been taking lessons own their own instruments. For the past year the demise of the band has been foreseen by school authorities (the principal warned of it last December). Now during

war time it has been almost impossible to purchase instruments; so this year BHS is left high and dry without students who play and without the equipment to teach them to play.

There is also a certain element of student psychology to blame for the situation. It is the thought that all activities, including extracurricular, should be taken care of during school hours, forgetting the "extra" part of the word. School activities such as musical, dramatic, debating organizations, school newspapers and others are almost necessarily after-school functions and, if the students want these things, they must learn that a mighty amount of work must be done after hours.

Plans for offsetting repetition of the current band situation should be made without further delay. Pre-high school training may be taken care of by the establishment of the promised junior high school after the war. Other phases of the problem such as the securing of instruments and teachers for the program, must of necessity await the postwar period but planning for them cannot wait until then without guaranteeing continuation of the present state of affairs.

## ALL-AMERICAN TEAMWORK!

## LETTERS

The opinions expressed in this column are those of the authors of the individual letters and do not necessarily reflect the opinions of the publishers or editors of The Times.

### Dangerous Condition Along River

From Mrs. Mary Peck, Secy. Valley Improvement Assn. 34 Van Rensselaer street To the Editor of The Times:

Enclosed is a copy of our letter of June 6, 1944, to the Board of Commissioners of Town with copies to the Essex County Highway Commission and the State Highway Commission. In reply to your letter we were informed by these Commissions that the strip of land in question is the responsibility of the Town of Belleville since it is out of their jurisdiction. Therefore, they are unable to take the action which they admitted is necessary.

Up to the present time the Town of Belleville has made no effort to remedy this condition or taken action on our letter to them. In view of this we would appreciate any help you may be able to offer our organization in clearing up this matter.

Board of Commissioners Town Hall, Belleville

We would like to call your attention to the dangerous condition prevailing along the river bank, the strip of land located between the end of the Essex County Park and the Nutley Line is a hazard to both pedestrians and motorists and we suggest that some sort of a guard rail be constructed here. In times like these every precaution should be taken to safeguard the lives of the people who are doing so much for the war effort.

Many defense workers use this road in traveling to and from work and the recurrence of the Passaic has tragedy can more than likely be avoided if proper steps are taken to guard this strip of land.

Because of priorities it will probably be impossible to erect a permanent guard rail at the present time but steps should be taken to construct a temporary rail at this location.

### Responded Within Five Minutes

From William Kohlheim 280 Belleville avenue To the Editor of The Times:

I would like publicly to express my thanks to the Police department which responded with the town ambulance within five minutes after I telephoned them last Friday night in the illness of my wife.

Particularly remarkable is the skill and gentleness with which they transported her to American Legion hospital.

### Wonderful Piece of Engineering

From Miss Eleanor E. Graves 332 Stephens street To the Editor of The Times:

Through the columns of your newspaper, I wish to thank the Commissioners, Firemen, men of the Civilian Defense and the Shade Tree Commission, and all others who helped, for the wonderful piece of engineering they did in removing the tree that blew down on my house during the recent storm.

The tree was lodged against the house in such a difficult position, and was so heavy, that I expected the property would be damaged in removing the obstruction.

But due to the careful work which these men did, the damage done was only that which occurred when the tree fell.

This work was so capably done, and all who helped were so kind, that I would like to express my thanks and gratefulness to all concerned.

### "Where Was That Gas?"

From Pvt. William E. Thetford Jr 144th QM Trucking Company APO 758, c/o Postmaster New York City To the Editor of The Times:

Just received the "Belleville Times" of July 27th a few days ago. While reading the paper I noticed an article of "Servicemen Get More Gasoline."

There now getting a gallon per day in place of five gallons per furlough. "Where Was That Gas For Us Belleville boys, who were drafted April 8th, 1943 and went to Camp Croft, S. C."

In July 24th to August 7th we got our one and only furlough, before leaving for North Africa. When we ask the board for our 5 gallon; The gas was, "No Gas For Servicemen On Furlough."

While we watch civilians get vacation permit to take their car with them. So they can no doubt enjoy used of it. While we have to ask friends and relatives to use both car and their gas.

Some filling stations, however, did help by giving us a few gal-

lons, without stamps and at cost prices. While our dear rationing board turn down.

We same fellows have now been through North Africa, Sicily, Italy and France, and all we ask, "Where Was That Gas?" for us. We would like very much to know before we get back. The few that are coming home.

### Oppose Prisoner Coddling

From George Perks, Adjutant Younginger Post 275 Veterans of Foreign Wars 17 Belleville avenue To the Editor of The Times:

At the August 3rd meeting of this post a motion was passed that a resolution be drawn and sent to the Essex County Council, V.F.W. in regard to the treatment of war prisoners.

We would appreciate it very much if you would publish the following on the editorial page of your next issue.

"So, be it resolved that the Geo. A. Younginger post 275 of Belleville, N. J. is entirely opposed to the extreme considera-

tion being shown to the prisoners of war in this country.

"Whereas, our service men and civilians too, are deprived of quite a number of the privileges to which they are accustomed, we believe that the prisoners of war should be treated as such and no more."

The judicial power shall be vested in a Supreme Court and in a Superior Court and in inferior courts of original limited jurisdiction, which inferior courts may from time to time be established, altered and abolished by law. Such inferior courts may be integrated with the Superior Court in any manner and to any extent, not inconsistent with this Constitution, as may be provided by law.

**Law and Equity** 2. In all matters in which there is any conflict or variance between equity and common law, equity shall prevail and, subject to rules of the Supreme Court, every controversy shall be fully determined by the court or justice hearing it.

**Sittings and Terms of Courts (3, 4)** 3. The Supreme Court shall sit at the seat of the State Government and the Superior Court shall sit in each county except the appellate divisions thereof which shall sit at the seat of the State Government and at such other places as the Chief Justice of the Supreme Court may designate.

4. The Supreme Court and the appellate divisions of the Superior Court shall hold continuous yearly terms, and the sections of the Superior Court shall hold such terms as may be fixed by rules of the Supreme Court.

**SECTION II**  
**Supreme Court** 1. The Supreme Court shall consist of seven justices, namely: one Chief Justice and six Associate Justices. Five members of the court shall constitute a quorum. The Chief Justice or, in his absence, the justice of the court presiding as provided by law shall designate a justice or justices of the Superior Court to serve temporarily when necessary to constitute a quorum.

**Supreme Court Jurisdictions** 2. The Supreme Court shall exercise appellate jurisdiction in the last resort in all cases designated in this Constitution. The court may, by certiorari allowed by the court or any justice thereof, review any indictment, before trial, according to law. The court shall also have jurisdiction of the admission to the practice of law and the discipline of persons admitted.

**Supreme Court Rules** 3. The Supreme Court shall make rules governing the administration of all of the courts in this State. It shall have power, also, to make rules as to pleading, practice and evidence, which may be applicable to all of the courts in this State, and which shall have the force of law unless changed or abrogated by law.

### SECTION III Superior Court

1. The Superior Court shall consist of such number of justices as may be authorized by law, but not less than twenty-seven, each of whom may exercise the original jurisdiction of the court subject to rules of the Supreme Court. There shall be at least one Resident Justice of the Superior Court for each county who shall be appointed from the residents of the county and who shall reside in, and shall annually be assigned by the Chief Justice to sit in the law section of the Superior Court in said county, but who shall be subject to assignment, from time to time, to sit without the county, only, if and when his duties within the county shall not require his presence there.

### Superior Court Jurisdiction Sections, Parts (2, 3)

be divided into

- (1) a law section, to exercise civil and criminal jurisdiction at law; and matrimonial jurisdiction and jurisdiction in cases involving the allowance of alimony and maintenance and the custody of children, without jury trial; and
- (2) an equity and probate section, to exercise all other jurisdiction of the court,

but either section shall exercise the jurisdiction of the other when the ends of justice so require. Each section of the Superior Court shall have such parts as may be provided by rules of the Supreme Court.

### Prerogative Writ

4. Any Justice of the Superior Court or an appellate division thereof may allow prerogative writs returnable in an appellate division which shall determine, in such manner as the rules of the Supreme Court may prescribe, and without a jury, questions of fact arising therein; or, when so prescribed by rules of the Supreme Court, the hearing may be in the first instance before a single justice, whose determination, both as to law and fact, shall be reviewable by an appellate division. On an application for any prerogative writ, the appellate division or the Justice of the Superior Court shall allow such writ as the case shall warrant.

### ARTICLE XI—SCHEDULE—SECTION IV

\*The "Schedule" provides for orderly transition from the old to the new Constitution. In the official text it appears as a single Article (XI) at the end of the Revised Constitution. For ready reference, however, the Schedule is being printed in appropriate parts with the Articles to which it relates.

Gifts for War Prisoners Ready for Yule Mailing

Red Cross Home Service Chairman Announces Contents of Christmas Packages; Reiterates Next-of-Kin Yuletide Mailing Regulations

Packing of Christmas parcels for prisoners of war in Europe is virtually completed and they have been mailed from the packing center at Philadelphia, Mrs. Louis A. Noll, chair-man of home service, announced this week. Red Cross of-ficials have suggested that families of war prisoners use the current next-of-kin labels to send their own Christmas par-cels since no special Christ-mas label will be issued by the Provost Marshal General's office.

Transportation conditions in Europe are steadily deterio-rating. Therefore parcels should be sent promptly in order to reach the men in European camps in time for the holidays. The Philadelphia packing center will provide a Christmas package for each American prisoner of war civilian internee held by Ger-many. A wide margin has been allowed, so that there will be suf-ficient supply of packages for dis-tribution to additional servicemen taken prisoner between now and the holiday season.

**Merry Christmas!**  
The Christmas package will con-tain turkey, plum pudding, sau-sages, butter, deviled ham, ched-dar cheese, bouillon cubes, tea, hone, strawberry jam, candy, mix-ed salted nuts, fruit bars, dates, sliced pineapple, chewing gum, playing cards, cigarettes, smoking tobacco, a nine, a game, a wash-cloth and a picture for the bar-racks walls.

Some of the pictures will be photographs of typical American scenes, such as Old Faithful gey-ser, Niagara Falls, while others will be reproductions of Currier and Ives prints of humorous subjects. The Red Cross packing centers at New York and St. Louis will continue packing the standard food parcels, which go weekly to American prisoners in Europe, and to those in the Orient, when-ever Japan permits. Continuous efforts are being made by the United government and the Red Cross to get food parcels to Americans in the Far East.

"Unreality" is the Lesson-Ser-mon subject for Sunday. Golden text: "The things which are seen are temporal; but the things which are not seen are eternal." Sermon: Passages from the King James version of the Bible include: "And great multitudes came unto him, having with them those that were lame, blind, dumb, maimed, and many others, and cast them down at Jesus' feet; and he healed them;" (Matt. 15:30). Correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy include: "Inasmuch as God is good and the fount of all being, He does not produce moral or physical deformity; therefore such deformity is not real, but is illu-sion, the mirage of error. Divine Science reveals these grand facts." (p. 243)

Kidde Announces Improved Employee Insurance Plan

Revised Group Insurance Benefits Incorporate Surgical Expense, Hospitalization, Death, Accidents, Weekly Sickness Payments

More than 5,000 employees of the Walter Kidde and company, and all of its domestic subsidiaries are being offered protection under a revised and improved group insurance plan announced September 1 by John F. Kidde, president of that organization, from the executive offices in New York. The amount of the coverage is about \$12,000,000. For many years Kidde company has had in effect a group in-surance program which provided various types of protection for all regular, full-time employees.

From time to time this program has been revised and improved to provide maximum benefits avail-able under existing conditions.

During the past several months a careful survey has been made to determine how the employees in-surance program could be im-proved to better meet conditions as they now exist.

A new surgical expense ben-e-fit has been included, the entire cost of which will be borne by the company. Other benefits to employees under the group poli-cies issued by the Prudential In-surance company cover virtually every contingency for which pro-tection may be made. They include:

**Insurance Provisions**  
1. Life insurance in amounts ranging from \$1,000 to \$10,000 each, dependent upon the earnings
