

## 1945 CHEST TO BE TEST OF RESPONSE OF RESIDENTS

Officers Confident Well Organized House Canvas Will Meet Challenge

Although the final quota of Belleville's Community Chest Victory drive awaits determination of the National War fund budget, details of the campaign which will be held in October are rapidly nearing completion. James Powers, house-to-house chairman in announcing zone captains in three of the five town divisions, stated this week that the house solicitation will be of greater importance this year than ever before.

Saying that the drive will come during a time of temporary displacement in local industrial employment because of reconversion, Mr. Powers declared that the reduction in contributions from industrial employees must be compensated with increased donations from Belleville families.

"Last year industrial employees contributed approximately \$15,000 to the chest drive," he said. "Due to conditions this year we must expect a reduction in that total. I am satisfied, however, the residents will be glad to make up the difference by giving a little more. The success of the war loan drives and my experience in the Red Cross campaign have convinced

### Volunteers Needed

James Powers, house canvas chairman, has called for additional workers in the town-wide solicitation for the Community Chest Victory Drive which will be held in October. Pointing out that this work will provide an opportunity for those interested in Belleville's reconstruction, he asked that volunteers register by telephoning Be. 2-1020.

me that Belleville people are aware of their responsibilities and are willing to meet them."

Chest officials are also confident of the success of the house canvas. It was learned this week, however, that it was admitted that in the past, the house solicitation in Belleville compared unfavorably with surrounding communities, it was pointed out that Mr. Powers and his committee of Mrs. George Gerard and Edward J. Vogel, working with Ronald Brunner, chest secretary, have formed an organization that will insure complete coverage of every one of Belleville's 8,000 families.

"This year's drive will be a test of whether or not Belleville residents are willing to support a program of community welfare," a spokesman said yesterday. "If each one of Belleville's 8,000 families will give a reasonable amount in accordance with its means, the success of the drive will be assured."

## TRIPOLI PARK CLUB PLANS MEMORIAL

Breaks Ground This Fall for \$30,000 Clubhouse on Land Bought From Town

Plans for the erection of a \$30,000 clubhouse for the Tripoli Park Political and Social club as a memorial to World War II veterans got under way this week when members received the deed to a plot of land on the northeast corner of Newark and Cozaca avenues where ground will be broken this fall.

Frank A. Palmieri of 36 Arthur avenue, recording secretary for the club, and chairman of the committee for the land purchase, presented the deed to the club on Tuesday night. Frank Zarro Jr., Michael Capaneri, former officers, and Vincent Branaccio and Salvatore Frustieri were members of the committee.

Members of the building committee with Palmieri as chairman, are Anthony Forgiano, Vincent Piptone and Frustieri. Advisors will be Capaneri and Zarro.

The land, 150 by 100 feet, part of a 40,000 square foot plot of town-owned property, was purchased by Palmieri for the club at public auction, early this summer. Palmieri and Mayor Williams entered into an altercation over the club's attempt to purchase the same property about a year ago, when the Mayor stated that the commissioners did not wish to lop off a portion of the property that would make a good industrial site. In addition, he said the club's bid on the property was too low. Palmieri as club secretary, stated in a letter to the Mayor at that time that Williams had always claimed to have a regard for the interests of Silver Lake and that residents in that area preferred that the land be kept residential.

Thomas Strumolo of 49 Franklin avenue is president of the club having a membership of 72, which will finance the building project. The clubhouse will be two stories with dimensions of 45 by 70 feet. It will contain lounge rooms, bowling alleys and an auditorium. Plans will be announced later, for a dance to be given on October 13 to help finance the project.

## Coincidences Just Happen to Sgt. Robert B. Reilly

Best is His Work With W & T Water Purifiers Produced Under Dad's Supervision

Coincidences abound in the Army life of 20 year-old Sgt. Robert B. Reilly who as a member of General Patton's Third Army, was in Germany on V-E Day. Re-deployed directly to the Pacific theater in July, he received the news of V-J Day on Luzon.

While in France he had the pleasure of turning over a number of German prisoners to a friend and neighbor, George Smith, husband of Lillian Ressler Smith of 94 Fairway avenue. Later, in Regensburg, Germany, he chanced to meet another friend and schoolmate who has since arrived home, Pfc. William Armstrong of Carpenter street.

But the three-way coincidence that pleases him most is the fact that he is engaged in purifying water for the troops with the Wallace and Tiernan mobile, portable and camp purification units, production of which is supervised in W & T plants by his father, Edward J. Reilly of 93 Fairway avenue. His father who has been with the company for the past 25 years operated W & T purification equipment in France during World War I.

While still in the ETO, Bob wrote to his father, saying he'd be kicking around his old stamping grounds, and advised his dad to "keep the units rolling, we need them." Through some happenstance, the V-J letter, enclosed, became the W & T poster of the month, displayed in all plants, with the caption, "Like Father, Like Son."

As a member of the 1303rd Engineers, Bob arrived in England in March, 1943, and went into France with the Third Army shortly after D-Day. He has received battle stars for the Normandy, Northern France, Ardennes, Rhineland and Central European campaigns, and was near Czechoslovakia when the war in Europe ended.

His regiment built the largest bridge in military history over the

Sgt. Robert B. Reilly Rhine river at Mainz. The sergeant graduated from Belleville High school in June, 1942, attended Stevens Institute of Technology for a year and volunteered for induction in the Engineer corps prior to his eighteenth birthday. He was called to active service June 15, 1943 and assigned to Camp Claiborne, La. He subsequently went to Camp Ellis, Ill. where he trained with the 1303rd Engineers.

Sgt. Reilly's engagement to Cadet Nurse Barbara Sturges of Cedar Hill avenue was announced in April.

## BEGIN EXPRESS ON PS BUS NO. 28

Noll Announces New Service For Rush Hours Will Start September 24

Belleville commuters will receive rush hour express service to Newark on Public Service Bus No. 28, beginning Monday, September 24, Commissioner Noll, director of transportation, announced yesterday.

The service will be maintained for Belleville and Nutley passengers from 7 to 8:35 a.m. and from 4:30 to 6:01 p.m. The same Newark stops will be maintained to discharge and pickup Belleville and Nutley passengers only.

Commissioner Noll said yesterday that he has requested the Public Utilities commission to reinstate the local skip stops eliminated early in the war by the Office of Defense Transportation. He was advised that this order would have to come from ODT which he may expect to receive in ten days time.

The commissioner also stated proves successful, he will attempt that if the new rush hour service to obtain the same service on the other lines running through town. The express service on P. S. No. 28 has resulted after two years of agitation during which time commuter meetings were held by Commissioner Noll and Belleville representatives and Belleville commuters in an effort to obtain better rush hour service.

Noll said that this is the third major improvement in bus transportation in Belleville during the last three years. In 1942 through his negotiations with Public Service representatives, the No. 37 line running from Silver Lake to Belleville was started. Just across as the McCarter Highway bus, running from Belleville to the Pennsylvania station in Newark was begun.

### Who Lost A Pay Envelope?

Police Chief Spatz has reported that a pay envelope found on August 14 has been turned over to him, unopened. The owner may have it by supplying the proper identification, he said.

## RATIONERS RELAX WITH END OF GAS, FUEL RENEWALS

Price Control Will Be Next Major Function, Board Chairman Declares

A decided decrease in activity at the Belleville War Price and Ration board has resulted from taking gasoline and fuel oil off the ration list, Herbert Schmutz, board president, revealed yesterday. Paid workers have already been cut from eight to five and the interest of volunteer workers has visibly waned, he said.

This is understandable when it is learned that from 10,000 to 12,000 gasoline coupon renewals were processed monthly, an activity which was doubled seasonally when fuel oil applications were reviewed.

Emphasis is turning to price control, Schmutz said with a detailed program of information and education projects just issued by the Newark OPA. "With many people receiving lower wages since the end of the war and some victims of reconversion temporarily without incomes, we expect that the public will begin paying more attention to ceiling prices," he stated. "This should result in an influx of complaints which will be the duty of the ration board to investigate. Action for violators can be taken to the local court since Belleville has passed on OPA ordinance."

To reach those who need the protection of price control most, information projects will be carried on in U.S. offices, and in factories. An information display has already begun in the Newark and Harrison U.S. offices where price lists, consumer reporting forms, and other materials are available for the public.

Other projects to be used by Community Service Panel to carry the anti-inflation message to the public include speeches before groups, schools, and organizations; movies; window displays comparing inflated grocery prices after World War I, when there was no price control, with the present controlled ceilings; and distribution of pocket-size meat price lists for consumers, and overcharge reporting forms.

While it is expected that the food, tire and shoe panels will continue to function for at least three months at the local board, Schmutz said that industrial users will be referred to the Newark district office for rationing after the September allotment which is for a two month period.

### May Amalgamate

The general opinion is, it is understood, that there will be an amalgamation of boards within a district area, as an economy move, with Nutley and Belleville residents probably going to Newark.

At present there are 29 representatives of both towns on the combined ration board, who, with volunteer workers, make a corps of 35 to 40 people who can be called on when work piles up. "Many volunteers have put in many hours of faithful service," Schmutz said and it would have been impossible for the board to function without them."

Hours for the paid workers have been cut back to 40 per week and the office at 444 Washington avenue is now closed on Saturdays. Although the force is at the office from 9 to 5 daily, hours open to the public are 11 to 3, five days a week and 7 to 9 on Tuesday evenings.

The ration boards were inaugurated in January, 1942, when automobile tires were first to be frozen. Gasoline and autos and other commodities followed soon after. First appointments to the boards were made on January 4, with the late William J. Schenck as chairman of the Nutley board and Edward T. Gramk vice-president of Jergens, chairman of the Belleville board.

On July 17 of that year they were combined and moved to Belleville when Ruel Daniel of town became chairman of the consolidated board and Lloyd Kenny of Nutley was secretary. Schmutz succeeded Daniels as chairman of the consolidated boards in November of the same year, at which time Mrs. Alice B. Hunnington of Maplewood succeeded Kenny.

Of the original appointees, only Charles Sherwood of Nutley, George McLaren and Schmutz of Belleville are still serving. Mrs. Dorothy Eldridge of Nutley, an original appointee, resigned about two months ago.

## Resident Opens Newark Store For Electrical Appliances

F. J. McLaughlin of 23 High street has announced the opening on Monday, of his new store at 204 Broadway, Newark, in which he will carry a complete line of Crosley electrical appliances. Refrigerators, radios, washing machines, vacuum cleaners and smaller electrical items will be available, he said.

A resident of town for three years, Mr. McLaughlin has been with the J. E. Fitzgerald company of Union City, Crosley distributors, for thirteen years as sales manager. In 1933 he won the state prize for the best sales record for Kelvinator products.

## TB GROUP ASKS PUBLICITY AID ON CLINIC WORK

Seeks Organizations' Help In Acquainting Public With Value of X-ray

Again pointing out the preventive value of chest x-rays, in the control of tuberculosis, John J. Hewitt, chairman of the all-day clinic which will be held at Belleville high school September 22, this week instructed members of the Nutley-Belleville Tuberculosis association publicity staff to request the help of churches and local organizations in familiarizing Belleville residents with the clinic.

The National X-Ray Survey company of Orange will have its equipment and staff in the high school gymnasium at 10 on Saturday morning, September 22. X-rays will be taken until 7 in the evening. Mrs. Ernest W. Whyland, registered nurse for the local association, will be assisted by town nurses from Belleville and Nutley in caring for the public.

People of all ages, who reside here or are employed here, are urged to attend the clinic for free pulmonary x-rays, the greatest preventive measure known.

Quoting a tuberculosis slogan, Frank G. Simmons of Nutley, inaugurating of the free clinic two years ago, gives three excellent reasons for everyone availing himself of the test. "If the x-ray shows a healthy chest that is good news; if it shows you have already fought the disease and won, that is good news; if it shows that you have tuberculosis in the early, symptomless stage, that is good news too, because when found early, chances for complete recovery are excellent provided treatment is started at once."

### Clinic Analysis

An analysis of last year's clinic at Nutley by Dr. Martin Castellano of Newark, who reads and interprets x-rays for the association, shows that 33 percent of those who appeared for pulmonary x-rays were between the ages of 31 and 50. These, coincidentally, are ages between which individuals are most susceptible to the disease.

Twenty-six percent of the tests were made with children between the ages of one and ten which indicated a desire on the part of their parents for peace of mind and protection. Although the Patch test is administered in the high school here to detect the disease in young people of that age group, there is no test given younger children.

Last year Health Officer Eugene Berry, also a member of the Tuberculosis association, pointed out this protection for high school students, established by State law in 1939, and appealed to their parents to avail themselves of the clinic which is their opportunity to prevent the condition in themselves at no cost.

### Few Active Cases

As previous newspaper articles have pointed out, a very low percentage of active cases of tuberculosis have been discovered in the yearly clinics. Most people have been given peace of mind by the results of the chest x-rays, which are known only to the individual, his doctor and the association nurse. More than that, cost of the cure for those who have a tubercular condition to overcome is greatly lessened if it is started in its early stages.

Lack of other symptoms in its early stages make the chest x-ray the only safe check on the disease.

Mrs. William J. Vail of Nutley, secretary of the association, Miss Flora Loudon and Mr. Simmons, also of Nutley will be present to oversee the clinic with Mr. Hewitt. Mr. Hewitt was president of the association last year. It is known to Belleville people through his administration of the Welfare Federation, of which he was director.

Mrs. Leonora Willette, Mrs. Charles Bayles and Mrs. Frank McFadden of this town and Mrs. Joseph Dow of Nutley will also be in attendance at the clinic. All are members of the association.

## Buster Chalks Up 16 Years In A Canine's World

Buster, brown and white pet of Mr. and Mrs. Charles Kline of 33 Maier street, celebrated his sixteenth birthday last week. The dog, who boasts no particular lineage, is well according to his owners and has perfect eyesight.

The Klines feel that Buster is well known about town since they lived on Floyd street before their seven year residence at their present address. Buster has accompanied the Klines on vacations in New Jersey, Massachusetts and Washington, D. C. during his sixteen years.

Judged by human standards Buster's age may be quite phenomenal. A local veterinarian says that, depending on the breed, one year of a dog's life may equal four to ten of a person's life.

## Paper, Tin Salvage Continues

Salvage of waste paper and tin cans is still vitally necessary, salvage officials report, and ask that residents continue to put paper out for collection for the regular Wednesday pickup in their respective zones. Tin cans are still being collected at the schools.

## Artist of Six Months Exhibits Work at Public Library

Localite Succumbs to Urge to Paint, Receives Favorable Comment On Oils

Nancy Campbell Crisp of 23 Perry street will exhibit twenty oil paintings in the reading room of the public library, by courtesy of that institution, for three weeks beginning Monday. Mrs. Crisp will thereby share with fellow Bellevilleites a promising career which has so far progressed with whirlwind speed.

The first of these paintings, which include land and seascapes, still life paintings and portraits, was painted last March. The most recent, expected to be the highlight of the showing, is being completed at this writing.

In the six month interim the young woman, who has had no formal instruction since high school art classes, has painted steadily and has been awarded prizes for a landscape submitted in a competition of the Eighth District of Women's clubs of New Jersey. She has had encouraging appraisals of her work by professional artists.

Now 33, she is the wife of Allan Crisp who is with Thomas A. Edison Industries in West Orange. The couple's son, Robert, is five. Mrs. Crisp's parents are Mr. and Mrs. James Campbell of Greycliff parkway.

During the years when she was employed by the Prudential Insurance company after her graduation from business school and the ten years of her married life Mrs. Crisp satisfied her artistic ability by designing and making her clothes and the accoutrements of her home.

### Started Last Spring

Last spring she satisfied her urgent desire for more serious expression by purchasing palette, easel and paints, together with some reference books treating of oils and went to work in earnest.

"Winter Moon," her first landscape, was painted from Mrs. Crisp's recollection of a New Year's eve scene at Lake Mohawk. "Dawn," which won the Woman's club award, and many of the other paintings have likewise

## GOT POISON IVY? HERE'S SURE CURE

If You Can't Keep Away From It F. W. James Has Remedy To Get Rid Of It

Sage advice on poison ivy and its unpleasant relatives is "Learn to know them. Then keep away from them." When this doesn't work, and it frequently doesn't as Boy Scout Leader F. W. James of 1 Essex street can attest, his simple solution of aluminum acetate "picks a knockout wallop" for the pesky skin irritant.

This remedy which many a Boy Scout in his troop has been thankful for, during the past 26 years, recently made the news in the science department of the Sunday edition of the New York Times, and subsequently appeared in last week's edition of Time magazine.

Mr. James explained that early in the summer the New York City Department of Parks supplied the New York Times with some stock

## Aid in Cause and Effect of The Japanese Surrender

Agent on Bomb Project Over Two Years; Seaman Witnesses Surrender Ceremonies

The cause and effect of the Japanese surrender were aided by a Belleville soldier and sailor; it was learned this week, when it was officially revealed that Andrew A. Walker special agent in Military Intelligence for the War Department, received a commendation for his two and a half years of confidential work on the atomic bomb project and Seaman Wendell J. Vincent, aboard the USS Missouri in Tokyo Bay, witnessed the signing of the historical Japanese surrender documents.

First inkling that their son had worked on the atomic bomb mission came to Mr. and Mrs. Albert Walker of 150 Delavan avenue when they received the news in a letter from him this week.

Mr. Walker said that he had known his son, based at Santa Fe, New Mexico, had travelled extensively in this country and now he knew he was in the Pacific at the time it was later revealed in news reports that the bombs had been shipped out.

The commendation which was forwarded from a B-29 base in the Marianas, was signed by Rear Admiral W. R. Purnell, Brig. Gen. T. F. Farrell and Capt. W. S. Parsons. Its words, "The unqualified and outstanding success of the atomic bomb is now world history. By your hard work, by your many services, and by successfully maintaining the security of the program, you have contributed greatly to bringing the war to a successful conclusion."

The special agent was a member of the Essex County Park police when he entered service four years ago. Thirty years old, he is a graduate of Belleville High school and was an instructor in pistol shooting before joining military intelligence.

Mrs. Allan Crisp

been scenes from memory.

However, Mrs. Crisp sketched from life the painting on which she is now engaged, a rainy night scene at the corner of Union avenue and Joralemon street. Done in tones of grey this work illustrates Mrs. Crisp's skill with sweeping brush strokes and tone blending.

For these characteristics her work was commended by James Carlin, judge of the Woman's club exhibit. Mr. Carlin, a comrade of Mrs. Crisp's, said:

## ROTARIAN'S B-29 LAST OVER JAPAN

Crew Captain gives accounting Of Stormy Petrel's Record In Letter To W. D. Clark

Local Rotarians are enjoying the unique satisfaction of knowing that the B-29 bomber they purchased in the Sixth War Loan drive was the last to bomb Japan. This was revealed this week in a letter to W. Douglas Clark, former club president, by the crew captain, S. J. Schmidt who is now based at Tinian.

The plane, christened the Stormy Petrel, has eighteen missions to its credit and dropped 180 tons of bombs and mines, the captain reports. Eleven missions had been flown over Japan and Korea when the boys were sent to lead crew school for three weeks. Proud of their distinction, they returned to be placed with the Stormy Petrel in No. 3 position.

On the last mission out, Capt. Schmidt who was leading, was forced to fly another plane for this position since the Petrel was not ready to take off. With quick repairs by the ground crew, the Petrel was in condition in an hour and a half later in time to join the mission as the last plane out. Flown by Capt. Jennings, it made a good flight, and was the last to lay big, 2,000 pound mines in the Shimonoseki straits.

On the return trip, the plane radio broadcast that the Nips had accepted the Potsdam terms.

When Capt. Schmidt gets back to the states, he will visit in Rutherford. When he does, he will tell the Rotarians, he said, since he has some stories he thinks they would like to hear.

## USS Missouri Comes Home

Present at the momentous occasion of the official Japanese surrender, nineteen year old Seaman Wendell Vincent, who has an eye-witness account of the occasion to give his family when the USS Missouri, flagship of Admiral Halsey, commander of the Third Fleet, anchors up the Hudson river on October 27 for a Navy day celebration.

It will include no doubt, descriptions of General of the Army Douglas MacArthur, supreme Allied commander, Fleet Admiral Chester Nimitz, commander-in-chief of the Pacific fleet who signed the document for the United States, Admirals Halsey and Sherman, Lieut. Gen. Jonathan Wainwright of Corregidor and other famous American military and naval chiefs who were present.

Son of Mr. and Mrs. Arthur H. Vincent of 310 Greycliff parkway, he has been aboard the now historic ship since it was commissioned last June and has seen plenty of South Pacific action including Iwo Jima and Okinawa. The seaman enlisted in March, 1943, when he was 17. He took his boot training at Sampson, N. Y., and gunnery at Newport Va. He attended Belleville High school before enlisting.

DIAMONDS, WATCHES, JEWELRY, at prices always in line with the quality of the merchandise offered. Victor Hart, Jeweler, 457 Washington avenue, Belleville N. J.

## WORLD CITIZENSHIP KEYNOTE FOR NEW SCHOOL TERM

Parmer Stresses Responsibility of Teachers in Forging Of Permanent Peace

Permanent peace can be assured by a central government that is predicated on an abandonment of nationalism for the broad concept of world citizenship. This should be the keynote for all teachers not only in Belleville and the United States but in all countries around the globe, Superintendent of Schools Wayne R. Parmer told the Belleville faculty in his annual talk yesterday morning.

Quoting from an article by Norman Cousins in the Saturday Review of Literature, Mr. Parmer said, "National sovereignty becomes obsolescent after the atomic bomb. The problem of policing the atom of keeping the smallest particle of matter from destroying all other matter" can only be solved with a central world government.

"War increases in direct proportion to the effectiveness of the weapon," he said.

Mr. Parmer pointed out that in a large measure, the responsibility of insuring a change of thinking to a world-embracing plane, falls upon the teachers of young America. Teachers should be the most resourceful group of their size, he declared, trained to develop coming generations at their most impressionable age, in social, moral and philosophical aspects.

"I ought to be guilty of imagination," the educator said. "Men are now imagining world peace, as centuries ago they imagined the airplane, control of economics and more recently the separation of the atom. These have all been realized and the task of educating children to think in terms of the world instead of nations is not as hard as may be imagined," he stated.

### Taught Resourcefulness

He declared that the resourcefulness displayed by our military forces in the war was due to the teachers of American youth. "I had produced 'good thinkers.' Known as a people for our individualism, we nevertheless were able to unify not only as adults but as boys and girls in school, in a regimentation of purpose to win the war. 'That same unanimity should now take on a new challenge,' he said. 'It is of equal importance with its center of emphasis the teaching

## SEEK DIRECTOR OF COMMUNITY HOUSE

Board of Managers Hold Meeting To Consider New Resident Head

A special meeting of the board of managers of Silver Lake community house will be held Tuesday morning at the house at 10-11th streets. Julius Greenbowe of Montclair, president of the board, announced the meeting as an emergency measure in consideration of the departure of Mrs. Martha Herkins, director of the house, who will retire on September 14. The board has had difficulty replacing Mrs. Herkins who resigned in June. Although several replacements have been considered, Mrs. Greenbowe has pointed out that the board desires to locate a director who will be sympathetic to the needs of Silver Lake residents who patronize the community center.

Members of the board will supervise the house until a resident director is obtained so that regular activities will not cease. Typical of these is the Baby Keep station conducted Wednesday afternoons at 2:30 by Miss Ethel Ackerson, town nurse; a girl scout troop meets Tuesday evenings, the Community leisure club for mothers which convenes Monday evenings at 7:30 and after-school clubs for children of all ages.

Organizations and clubs among young people at Silver Lake community house are very flexible, according to the resigning director. Needs of specific groups according to their ages and pre-occupations, which vary with their progress in school and in the community, are the keynote of their organization. All groups operate under parliamentary procedure and are thus encouraged to respect the rights of others in their daily lives.

Open house will be held at the center Wednesday afternoon and evening, September 12, at which time Mrs. Herkins will receive her young people and adults of the community in a farewell gathering. She has been director thirteen years. Mr. and Mrs. Herkins will make their home in Youngstown, O.

### Poll Area On Road Needs

### Highway Department Polls Residents On Road Needs

Plans Survey to Locate Areas Of Greatest Congestion in North Jersey

In cooperation with the U. S. Public Roads Administration and municipal officials, State Highway Commissioner Spencer Miller, Jr., has started a survey in North Jersey's metropolitan district to learn from residents what new arteries will be of greatest benefit for traffic relief.

The poll will include Belleville in the survey of Essex, Hudson, Bergen, Union, and Passaic counties. The data will guide the Federal government in approving highway aid for New Jersey; it will also aid the State Highway department in planning its improvements in the metropolitan areas.

Credentials will be carried by State Highway Planning bureau employees on calling at one of each thirty homes to ask the occupants their normal starting and stopping or origin and destination of their journeys.

No names will be taken nor car numbers recorded as the questionnaire is designed to be impersonal and voluntary. On approximately 60 principal roads about one of each ten passenger car drivers will also be asked the starting destination points of his trip.

Sigvald Johannesson, chief of the Highway Planning bureau, who will be in charge of the work, said that "municipal or State Police will direct traffic at the locations for the interviews, to prevent congestion, the road-way work will be eliminated on Saturdays, Sundays and holidays, and at times when weather conditions might add to the driver's inconvenience.

"The compilations," he continued, "will be of more value than our traffic counting which does not reveal whether many road users would avoid the present

congested trunk arteries if they had other modern thoroughfares for shopping and other trips."

### Arcady Farms Calf Quads

DYER, KY. — The famous quadruplet calves borne by Eva Arcady, a 5-year-old Hereford, on the farm of C. D. (Charlie) Lucas, here, take their daily outing in the blue grass pasture with the assistance of Winnie, the favorite daughter of the farmer. This is the first time in history that calf quads have survived more than a few hours or days and Lucas attributes their amazing health to a scientific feeding program he has been using for the past seven years.

### Girl Scouts

Continued from page one  
ing facilities and the establishment of a day camp in Belleville are outstanding. Mrs. Victor Hart, chairman of camping which is now confined to summer camping in South Mountain reservation.

Money raising events are anticipated, if necessary, to make the day camp of value to Belleville scouts.

The Council, for its third step in the expanded program, will attempt to bring its members closer to the scouting tendencies of the girls themselves by including on council committees more troop leaders. This is in accord with the National scouting policy to draw on the scouts for aims and suggestions in establishing the yearly program.

Anxious as it is to cooperate with all phases of community life, the Council feels that a perfected and enlarged scouting program is the greatest contribution it can make at this time to Belleville. Its final aims for the coming year include this and a campaign, to secure more sponsoring agencies among the men's and women's organizations and Churches of the town.

The Council has pledged itself to share the responsibilities of any community plan for recreation or other venture in which their organization can serve. Girl scouts expect to work as closely as possible with other youth organizations in the town, such as boy scouts or Catholic Youth Organization.

From the survey which has been made of individual troops, it is evident that the girls appreciate their responsibilities in the home, community and world at large. The Brownie troop already cited is also anxious to make puzzle scrapbooks for hospitalized children. Another Brownie troop wants its members to be "better citizens at home" by becoming mother's helpers. The youngsters have also decided to familiarize themselves with public institutions such as the post office and public library. Brownies are under ten years of age.

Among the older girls are in-

**AKERS-HERRMANN  
NUPTIALS HELD**

Ceremony Took Place in  
Bethany Lutheran Church  
On Saturday

Miss Dorothea Louise Herrmann of 64 Tiona avenue, and Lieut. (j.g.) George Ellsworth Akers, son of Mr. and Mrs. J. Ellsworth Akers of 254 Little street, were married Saturday in Bethany Lutheran church by Rev. Guy Brown. A reception was held in the Marlboro Inn, Montclair.

The bride, attended by Miss Dagmar Nord of Lincoln Park as maid of honor and the Misses Beatrice Cory of Belleville and Betty Karg of Elizabeth as bridesmaids, was gown in a lace and marquisette frock. Her illusion

veil was held by a Juliet cap of pearls and her bouquet was of white roses and orchids.

Her attendants were gown in white and carried bouquets of mixed flowers.

Lieut. Akers had as best man Andrew Christenson of Nutley. Ushers were William Schoeller of Caldwell and Electrician's Mate 2/c Jack Schuster of Fairway avenue.

The bride attended Belleville high school and Upsala college. The bridegroom, also a graduate of Belleville high school, was graduated from Newark College of Engineering. He served sixteen months overseas with the Atlantic fleet and is on leave.

Lieut. and Mrs. Akers are honeymooning in the Poconos.

**John J. Kant Jr. On Way Home  
After 26 Months in Pacific**

On his way home after serving 26 months in the South Pacific, John J. Kant, Jr., son of Mr. and Mrs. Kant of 40 DeWitt avenue has recently been advanced to the rank of gunner's mate, first class aboard the USS Oceanus, a repair ship.

In a letter to his family this

week, he attributed his lucky home coming by the men in his crew drawing lots for first passage home.

Kant who has seen action in two oceans spent seventeen and a half days on a life raft in July of 1942, before being rescued after his merchant ship on which he was a gunner, was torpedoed in the Mediterranean. At that time he was reported missing in action. Later he was given more training and transferred to the fleet.

The Belleville sailor has been aboard the Oceanus more than two years and has participated in the invasions of the Palaus, Iwo Jima and Okinawa. Twenty-four years old, he graduated from Bloomfield High school and was employed by Weston Electric Instrument company in Newark and attending Newark College of Engineering nights, when he enlisted January 18, 1942.

**AGNES BEEGLE WAS  
BRIDE SUNDAY**

Marriage to Peter Ockers of  
Clifton Took Place in After-  
noon Ceremony in Nutley

The marriage of Miss Agnes Beegle of 14 Brighton avenue and Peter H. W. Ockers of Clifton took place Sunday afternoon in St. Paul's Congregational church, Nutley where the ceremony was performed by Richard Adams, theological student at Drew Seminary. Rev. Robert C. Falconer, pastor of St. Paul's could not be present.

Mrs. Ockers is the daughter of Mr. and Mrs. Arthur Beegle. The family has lived here two years before which they were residents of Nutley. Mr. Ockers mother is Mrs. John Bomhoff of Clifton. The couple were attended by Miss Constance Beegle, sister of the bride, and Terry Leonard of Paterson.

A reception for two hundred guests was held at Hilltop Hall, Bloomfield.

The bride was gown in soft grey, her two piece suit matched by a blue veiled hat. Accessories of navy blue and a corsage of white orchids completed her costume. Her sister's cherry colored suit was also worn with navy accessories and her corsage was of Talisman roses.

After an automobile trip through the southern states the couple will reside in the Hilltop Manor apartments in Passaic. They will be at home after Sunday.

Mrs. Ockers was graduated from Nutley High school; her husband, from Clifton high school. Both are employed by Hoffman La Roche in Nutley.

**St. Peter's CYO Takes Another  
Excursion to Rye Beach**

St. Peter's CYO had a large group on the boatride last Friday, when ninety youngsters and fourteen adults took the jaunt to Rye Beach. The affair was specially arranged when a large number of members requested another excursion. St. Aloysius CYO of Caldwell accompanied the local group.

**PEOPLE  
You Know**

Miss Antoinette Orsulak, daughter of Mr. and Mrs. Stephen Orsulak of 56 Dow street spent last week-end at the Slovak Girls' Academy, Danville, Pa. Miss Orsulak graduated from the academy in June.

Mr. and Mrs. Everitt Sooy of Howard place have returned from Belmar where they spent a week as the guests of Mrs. Sooy's father, former Belleville Police Chief Michael Flynn. Their son, Joseph will return on Sunday after spending two months there.

**Artist Exhibits**

Continued from page one

mercial artist and trustee of the Irvington Art and Museum association, has exhibited his own works in London, Ireland, and museums in major American cities including the Grand Central and Metropolitan museums in New York.

John Grabach, director of the Irvington museum, has also viewed Mrs. Crisp's paintings and commented favorably on her work. She is now a member of the museum association.

Latest appraisal was made by P. Webster Diehl, art teacher in Belleville High school, who has recommended Mrs. Crisp for membership in the Art Student's League of New York. He has remarked Mrs. Crisp's "definite talent" and said that the calibre of her work warranted professional training.

Mrs. Crisp will be present at the opening session of the exhibit from 7 to 9 Monday evening. The library is open daily from 9 to 9 and on Saturdays from 9 to 12. Several of the young woman's pictures will be loaned by their owners for the coming exhibit among which are a landscape owned by Mr. and Mrs. Samuel Shaw of Perry street, a still life belonging to Mr. and Mrs. Pier-son Crisp, also of Perry street, and a marine painting owned by Mrs. Frank McFadden of Floyd street.

Mrs. Crisp has painted two portraits. The first, done from a photograph, was of Mrs. Robert C. Kay, now deceased, who was a sister of Mrs. Edgar M. Compton of Belleville. The portrait will be unveiled in the Peapack-Gladstone library, dedicated in Mrs. Kay's honor.

Mrs. Kay's and her niece's portraits will be loaned for the exhibit here which opens Monday. Mrs. Earl Carlson, Mrs. Compton's daughter, sat for Mrs. Crisp's second portrait, completed several months ago.

Mrs. Crisp has also modeled two heads in clay: one of her son and one of Mrs. McFadden. The latter was also awarded a prize at the spring Woman's club district conference.

Mrs. Crisp is chairman of the newly revived art department of the Belleville Woman's club, an officer of the Women's Society for Christian Service of Wesley Methodist church of which she is a member and chairman of the membership committee of the Belleville Girl Scout council.

It is her aim to stimulate membership in the Woman's club art group among all women who have creative talent ranging from handwork to the major arts. The constructive approach to community life of this attractive young woman is matched by the serious desire for self-expression which has given depth and meaning to her rapidly developed talent in oil painting.

**Men in Service**

S/Sgt. Benno E. Seidler, son of Mr. and Mrs. Herman Seidler of 47 Center street, was honorably discharged from the Army Air forces last week at Borden General hospital, Chickasha, Okla. He spent three years and five months in service.

He had been stationed at Spence Field, Moultrie, Ga. where he was an instructor in aircraft wood-working. He was instrumental in the construction of bowling alleys, a library and other structures the base.

He attended Forest Products laboratory at the University of Wisconsin and received instruction in chemical warfare at Spence Field. Sgt. Seidler wears the good conduct medal.

Lieut. Marcus Wertz, Jr. of Melville, R. I. recently received promotion to the rank of Lieutenant Commander at the Atlantic Fleet's Motor Torpedo Boat Repair Training Unit where he is executive officer. He and Mrs. Wertz have made their home at the base in Melville for two years. They are the parents of two daughters, Nancy, eight months, and Roberta, 4 months.

Commander Wertz, who is the son of Mr. and Mrs. Marcus Wertz of 229 Overlook avenue, was graduated from Lehigh University in 1939 and was employed by R. K. Laros in Bethlehem, Pa. before entering the Navy in 1941.

He wears the American defense service ribbon and the American and Asiatic-Pacific theatre ribbons with one combat star. He served overseas seventeen months previous to his present assignment. His brother, Lieut. Robert M. Wertz is in the Army Air Forces.

**Belleville Youth  
In College**

Miss Janice Whetsone of 226 New street, an honor student in the June graduating class at Belleville High school, entered Skidmore college, Saratoga Springs, N. Y., this week. She will take a course leading to a bachelor of arts degree.

George Cassidy on U.S.S.  
Trothen, Sees Pacific Action

If Navy ships won combat  
points the destroyer USS Trothen  
could head the glory queue for a  
job well done in twenty-three  
months through every major Pacific  
offensive. MOMM 2/c George  
Cassidy of 118 Cortlandt street is  
a member of the crew.

The vessel's tally, at least 18 is-  
land assaults that cost the Japs  
planes, barges and gun emplace-  
ments.

Her boast: Emerging unscathed  
in actions from the Marshall is-  
land to Okinawa, and rescuing  
several downed American pilots to  
augment a flattering fighting role.

The ship, which completed a  
shakedown cruise in August, 1943,  
began fighting one month  
later, downed three Nip planes in  
her initial action. Glorious names  
on the Navy's Pacific chart were  
likewise for the Trathen junctions  
en route to Tokyo, Wake, Tarawa,  
Kwajalein, Eniwetok, Bikini,  
Palau, Leyte, Luzon, Formosa,  
Iwo Jima and Okinawa.

The son of Mr. and Mrs. Joseph  
L. Cassidy of the Cortlandt street  
address, the Navy man who is 24  
years old, attended Boys Vocational  
School in Newark and was em-  
ployed by the Technical Devices  
corporation in Bloomfield before  
he entered service in July, 1942.

He joined the crew aboard the  
Trothen in November of last year.

month. On Holy days of obliga-  
tions there are masses at 5:30, 7,  
8 and 9 a.m.**ENGINEER COURSES  
REORGANIZED****Newark College Stresses Need  
Of Peacetime Industry in  
Day, Night Subjects**Stressing the need by peace-  
time industry for thousands of  
trained engineers, Dr. Allan R.  
Cullimore, president of Newark  
College of Engineering this week  
announced revisions in the day and  
evening curricula of the College.The reorganization of the pro-  
gram is being designed to meet  
present day training needs. The  
day college, offering course in  
civil, chemical, electrical and  
mechanical engineering for B.S.  
degrees, will return to its nor-  
mal program. The inclusion of  
social and humanistic studies in  
the curriculum is being continued  
and broadened Dr. Cullimore said.Included in this year's evening  
programs of the College are the  
senior evening group, long a fea-  
ture of the school, and the junior  
division. The latter is an addition  
this year offering college level  
study of the basic engineering sub-  
jects.Also scheduled are short courses  
at college level to be conducted by  
the College during evenings. Dr.  
Cullimore explained that these  
studies will be for men and women  
whose academic background is  
secondary to industry and tech-  
nological experience but who re-  
quire classroom and laboratory  
training at college level for their  
work in local industries.Dr. Cullimore said that indica-  
tions point to heavy enrollments in  
both day and evening schools. The  
discontinuation of the 48-hour  
week by local industry, reconver-  
sion by industry to peacetime com-  
petitive methods, and the return  
of war veterans who wish to con-  
tinue their engineering studies,  
are seen as significant factors in  
the increased enrollment.**Dr. Close Chooses Sermon  
Topics For September**Dr. O. Bell Close will devote  
the remaining four Sundays of  
September in Fewsmith church to  
a series of sermons on the general  
topic, "Seeing the Unseen." Titles  
of the talks by which he will de-  
velop his theme are "Looking At  
Little Things," "Seeing Things in  
the Clouds," "Seeing Through the  
Centuries" and "Seeing the Great  
Sacrifice."Later Dr. Close will preach his  
concluding sermons at Fewsmith  
prior to his retirement which will  
become effective October 15. He  
has been in the ministry more  
than fifty years.The next week will see the re-  
sumption of activities by Fewsmith  
committees with Men's club and  
Fellowship Circle meetings on  
Tuesday evening and the first fall  
meeting of the Woman's Guild  
Thursday afternoon. September  
20. A covered dish luncheon  
at 1 for this group will be  
followed by a business meeting.  
The Mothers' club will convene  
Tuesday evening, September 18.**RUTGERS BEGINS  
REGISTRATION****Courses Back to Pre-War  
Basis; New Classes an Aid  
In Reconversion Problems**Registrations for the evening  
sessions of Rutgers University col-  
lege begin this week and will con-  
tinue daily from 9 a.m. until 9  
p.m. to September 29 at the even-  
ing college office, 27 Lincoln ave-  
nue, Newark.The fall schedule is being rapid-  
ly adjusted to meet the changed  
educational needs of a nation at  
peace. As a result, the new even-  
ing program is being changed to  
practically a pre-war basis, Dean  
Norman C. Miller, reported to-  
day.

Now courses especially helpful

## Poison Ivy

Continued from page one  
material on poison ivy, listing many ineffectual "cures". When it failed to include the aluminum acetate remedy, Mr. James in the interest of poison ivy sufferers, sent his own formula for the stuff to the science editor, citing his 100 percent record of 26 years standing.

New ivy rash treated with AA is usually terminated overnight or sometimes in two or three hours, Mr. James states. An old rash may require applications over two or three days however, and extreme cases may take longer. However, it is also valuable to know that the solution may be used with confidence as a preventive where it is necessary to handle ivy. The solution will destroy the poison on the skin before poisoning can take place.

## How It is Made

These sure fire attributes are contained in a one and a half percent solution, Mr. James declares and points out that a one-half percent wet compress pack of this chemical has been standard medical practice for many years.

The solution is made by dissolving a level teaspoonful of lead acetate in one-third glass of boiling water and three level teaspoonfuls of alum in another one-third glass of boiling water. The alum is then poured into the lead,

stirred briskly and set aside to allow precipitation. When cooled, the clear solution containing the aluminum acetate is poured off and the sediment containing most of the lead, discarded.

It is best used without the aid of soap in any stage of the treatment. Applied in a wet dressing until the solution begins to "bite" or for not more than five minutes, the affected area should then be allowed to air-dry. If the case is of long standing, the solution should be diluted with equal parts of water. It is safe in the hands of the unexperienced provided care is taken not to burn the skin by excessive application.

## World Citizenship

Continued from page one  
of world citizenship.

Its accomplishment is in an extension of Belleville's present program from emphasis on the United States to other nations. A knowledge of other people can lead to a greater tolerance, understanding and friendliness Mr. Farmer said. He pointed out that it can be achieved with the methods now employed, through stories, plays, pictures and maps in the elementary grades, literature and history, debate, assemblies etc., in high school. This program will not only develop an esteem for other countries but should develop a sense of responsibility in

world citizenship, he concluded. Mr. Farmer thanked the faculty for their splendid job in the emergency years, in extra-curricular activities such as war bond sales and salvage. "Nothing has been asked that hasn't been carried on to the entire satisfaction of myself and the board of education," he declared.

His talk was followed by a luncheon for the entire faculty in the High school cafeteria, given through the courtesy of the board of education.

## 1945 Chest

Continued from page one

sured, in spite of any loss of revenue from other sources," he stated.

Frank McFadden, drive chairman, has already announced a budget of \$26,000 for local participating agencies, which are the Boy and Girl Scouts, Visiting Nurses, Silver Lake Community house and Community Service bureau. The Associated Catholic Charities budget is \$15,000.

Zone captains announced this week by R. Powers are John M. McCann, Zone 1; Alexander Thomas, Harry Brumbach and Mrs. Lydia Baker for Zone 2; Mrs. Charles Nutt, Zone 3; Godfrey Johnson and Mrs. Harry C. Fredericks, Zone 4 and Anthony Pascal, Zone 5.

The house to house group will be busy for the next three weeks, preparing for the drive. Fifteen thousand cards are being typed with the names and addresses of potential donors. These cards must then be sorted by zones, sectors, and streets. They are then passed on to captains for redistribution to neighborhood collectors.

Hundreds of Belleville men and women have volunteered to work with this committee, and all are serving without pay. No drive chairman or workers will be paid for their work. All are volunteers and no outside organization will be employed this year. Campaign expenses will be limited to payment for typists, headquarters rent, telephone, stationary, printing etc. An economical policy has been adopted to insure that the largest possible part of every dollar contributed will go to the chest agencies, official said.

## Mark Golden Wedding

Mr. and Mrs. James B. Drysdale

Labor Day was the fiftieth wedding anniversary of Mr. and Mrs. James Blyth Drysdale of 58 Tappan avenue who were married in Peekskill, N. Y. in 1895. They came to Belleville from Newark thirteen years ago.

They were guests of honor at a reception Monday at the home of Mr. and Mrs. John R. Carlough of 143 Forest street, their nephew and niece.

## St. Peter Oldtimers Trim CYO in Labor Day Game

Take Youngsters in 3-1 Diamond Tilt; Dunn Aggregation Noses Out Kastner Team 2-1

The Oldtimers defeated the St. Peter's CYO baseball team again on Labor Day, before a capacity crowd, by 3 to 1.

James Mallack on the mound gave three hits to the youngsters. Daniel Howell, gave three hits from the pitcher's box and a close contest. Winning runs were chalked up by the Oldtimers in the fifth inning of a six stanza work-out.

The first score was made in the second inning when Dunleavy of the Oldtimers got by on a walk. McCabe struck out, but Dunleavy advanced to second in a cloud of dust, as he slid in to beat the peg. Jim Dunn also struck out and again Dunleavy stole, getting to third base. Then Dan Howell walked Jim Mallack, Joe Lillore, and "Sugar" Flynn so that the first run of the ball game was scored. Marty Mallack then went down swinging for the third out.

The youngsters came back in

the same inning to even the score. Frank Lechleiter got to first on an error. Cook managed to get to first also when "Sugar" Flynn fumbled a throw at first. Charles Hood, next man up, struck out. Daniel Howell hit safely and Lechleiter managed to come in to even the score. Ray Howell then got on base through an error. Cook however was caught and put out for number two between third and home. McConnell then grounded out for the third out leaving the two Howells on the base paths.

The third and fourth innings went uneventfully. In the fifth frame Joe Lillore of the Oldtimers singled and Flynn grounded out. Marty Mallack got on safely when the throw to first was held up to keep Lillore from advancing to third. Joe Lister Sr. then struck out for out number two. Tony Paschal then came to bat and hammered out a double to bring Lillore and Mallack in. Sullivan then grounded out for the third out.

Hickman managed to hit safely in the sixth frame but was put out at second on a fielder's choice. Kleinknecht got to first on this but was caught in a double play which put him out and also Lechleiter.

The game on the whole showed an improvement on the part of the youngsters. They had more confidence and did not pull too many mistakes. This game was the last of the season for the CYO team.

Umpires: Leo Jackson, "Bun" Derbyshire, "Doc" Hood.

The second game of the afternoon featured two Oldtimer nines. Tom Dunn had gathered so many volunteers there were three full teams of Oldtimers. One team defeated the CYO outfit and the rest lined up against each other for another tight ball game. The team featuring Mike Hardaway

was victorious, by a score of 2 to 1. Tom Dunn found himself on the losing side.

Butch Kastner's outfit started off with a bang in the first inning. Kearney, McDaniels, and Juliano each getting hits off of McHugh. Kearney was the only one to score, McDaniels dying at third and Juliano getting no further than first.

In the third inning the Dunn aggregation made the score even. Jacques and McHugh drew walks. Loesner advanced them on his sacrifice. Jacques was put out trying to get to third. John Mallack walked. Tom Dunn hit a single to deep left to bring McHugh home for the tying tally. Gelschen then struck out for the third out.

Kastner's team got the winning run in the fourth frame on a combination of errors and walks with no hits. McDaniels, first up, walked. Juliano grounded out. Sullivan got on through an error. McCabe walked and so did Richardson. The run came in to clinch the lead in the ball game. Hardaway then flied out to retire the side.

The final score at the end of the six innings was 2 to 1. The two teams of Oldtimers enjoyed the game and made a good showing during the years that they had been away from the field. "Bun" Derbyshire, Leo Jackson, and "Doc" Hood were there to umpire and did an excellent job.

## THUNDERBIRD MAN COMING HOME

Pfc. Innicelli In Outfit That Has Won Five Congressional Medals of Honor

The 45th Infantry Division is coming home from Europe, but no Japanese can take comfort in the fact. The "Thunderbird" is merely going to sharpen its combat-hardened beak and claws for the final assault on Fascism's last stronghold.

The division, of which Pfc. Antonio J. Innicelli of Prospect avenue is now a member, already has established a brilliant record as a spearhead unit in the drive to free Europe from Nazi rule.

Now, at Camp St. Louis in the Marmelon Sub-Area of the Assembly Area Command in France, it is undergoing processing for redeployment, and its members will receive 30-day furloughs in the United States before transfer to the Pacific.

Under command of Maj. Gen. Robert T. Frederick, and previously led by Maj. Gen. W. W. Eagles and Troy H. Middleton, the Thunderbird Division has fought through 511 of the most savage days of the European war, crushing powerful German defensive positions in four invasions, over more than 1,000 miles of the most difficult combat country in the world.

Men of the 45th charged ashore on D-Day in Sicily and, at Salerno. They created, grimly held and finally broke out of the Anzio beachhead, and chased first-line Nazi troops out of Rome.

They hit the coast of southern France, drove the Germans up the Rhine, and finally fought into the heart of the Nazis' "Southern Redoubt," overrunning Nuremberg and Munich and, in the capture of the Dachau concentration camp, receiving a direct object lesson in the reason for their fight.

They won, among them, five Congressional Medals of Honor and more than 4,500 other individual and unit decorations for valor, and now many of them have volunteered for Pacific service. They have a job to finish.

Pfc. Innicelli holds the Good Conduct Medal, ETO ribbon and two Battle Stars and the Combat and Medals badge.

Danger In The Streets

During the past few weeks, an increased laxity has been noticed on the part of bicycle riders in the town to exercise caution on the streets, particularly in the heavily traveled traffic arteries. So far no serious accidents have occurred this summer, but many a motorist will verify that this is in many cases due more to good luck than good management.

Greatest offenders at darting in and out of traffic, passing red lights and general disregard for traffic regulations are among the older boys. It seems that throughout the school year, the schools keep hammering on the subject of traffic safety until a considerable degree of caution is observed. Once the schools close, however, the children gradually forget their training and show noticeably less respect for their own lives and consideration for motorists.

Children riding on bicycles are governed by the same traffic laws that apply to drivers of automobiles. They are not a privileged class, allowed to sneak through red lights, to dart full speed out into busy arteries from side "stop" streets, or to pull other reckless stunts in violation of town traffic ordinances. Older children acting recklessly on bicycles continually set a bad example for the younger children who will be riding bicycles in a few years.

The local police have been instructed to reprimand children seen violating the traffic rules or behaving recklessly on bicycles, or to notify the child's parents. It might be well if parents took a greater interest in their offsprings' responsibilities as bicycle owners and acquainted them fully with traffic regulations before they are allowed to ride on the streets.

There is more to safe bike-riding than just obeying the traffic laws. Riding three or four abreast on heavily traveled roads, stunting, riding passengers and darting in and out of traffic from the curb to the center of the road without thought of automobiles that are passing or may be pulling out from the curb, are practices seen much too frequently on the streets lately. A little emphasis on bicycle safety now, may halt this laxity in observing the rules of sane riding before a serious accident brings home the subject in terms of injury and destruction.

Now Is The Test

Because we won, we are inclined to believe that democracy successfully met its greatest test. To a large extent, of course, this is true. But in a broader sense such a belief is erroneous, because it is in peace, not war, that democracy undergoes its severest trial; and in this moment of triumph, as America stands like a giant amid the world's ruins, we face a test of our democracy much more challenging than that which confronted us at Pearl Harbor. Indeed, the next few years may well determine the true stature of our character as a people.

To say we won this war because we are a democracy is not entirely correct. As in all our wars, we fought this one by voluntarily giving up many of our democratic practices. It is a wartime phenomena of our democracy; it is the way we traditionally conduct war within the elastic framework of our Constitution. To keep a united front against the foe we call a political truce; for the sake of victory we impose restraint upon our tongues, our press, our appetites; to prosecute the war to a successful conclusion the divergent interests within the country submerge their differences for the duration. All our energies become centripetal, and we stand like a rock, dismaying our foes by our unity.

Now, however, we face a task scarcely

less important to the future than the war itself. This is the job of world reconstruction. Upon the proper discharge of this task depends the answer to the question of whether we shall have a world which will make war impossible.

In addressing ourselves to this task, however, we shall not have the benefit of wartime unity or patriotic ardor. There will be no aggressive and powerful enemies to force us into unity. There will be no insult to our national honor to stir our emotions, no brutality to Americans to inflame our wrath. On the contrary, all the forces within us will once more tend toward divisiveness.

This internal dissension, characteristic of democracy and, indeed, essential to self-government, will be upon us as we face a tedious, irksome, pedestrian struggle, conducted in countries whose names already have become tiresome, among peoples whom we shall be tempted to scorn as beggars. At home the voices of selfishness will try to beguile us. We shall be told once more that what happens in the Balkans is none of our affair, that Americans must not meddle in the troubles of DanDang, that we are interested only in abusing the umpire, eating another piece of mince pie and buying that new car. On a people weary of the world's troubles these voices will fall with all the lure of the sirens' song. Then will come our true test, the test of our greatness.

On the record the prospect is none too cheering. Great as our hopes are in the United Nations organization, one must not forget the hesitations, the selfishness, the cowardice that marked the democracies' march to Munich. One must not forget the ignoble "normalcy" of the Harding 20's; indeed, one must not forget the sneers and gibes of the Wheelers, the McCormicks, the Pattersons, the Hearsts and the Lindberghs of today. Those voices are potent; they are cynically keyed to man's lower instincts, and it would be folly to pretend that our character has entirely changed in a few decades.

No, the challenge to our democracy was not at Pearl Harbor; it was in Tokio Bay. It is a subtle challenge, a corroding challenge, a long-enduring challenge. We say we want peace; it is peculiarly within our power to have it—forever. Since we are the most powerful nation in the world we almost can bestow it as a gift on all the nations of the earth. But we must work for it. We must be intelligent, patient, self-sacrificing, courageous. We cannot say it is the duty of our statesmen alone. It is ours, individually, to give or deny by our daily attitudes.

If we dodge this challenge, if again we retreat into our ant-hill, the world will forever know that democracy is impotent, that America is materialism rampant. But if we meet this challenge with the qualities we have shown we possess, we shall know that we are not merely a lucky people, an ingenious people, a rich people. We shall know that we are a great people, with a spiritual stature that matches our military might.

State History

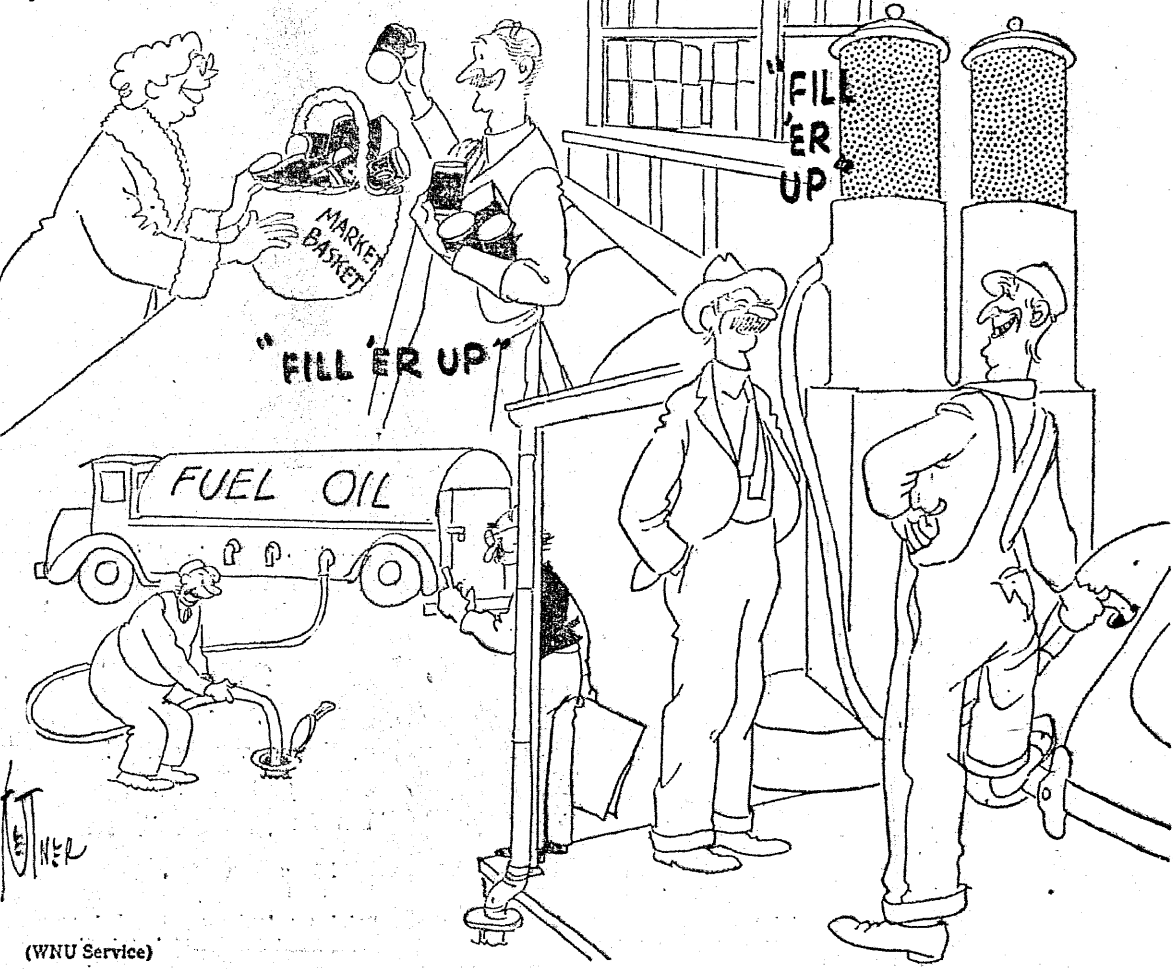

It is to be hoped that the length of "The Story of New Jersey," now on file in the Nutley Free Public Library, will not deter citizens from reading it, although the prospect of wading through three volumes is not an inviting one. It has always struck us that New Jersey people are singularly lacking in state pride. This no doubt is due to their divided loyalty between their home state and the place where they earn their living, New York or Philadelphia. This is too bad, because New Jersey has a history crowded with stirring events and developments significant in the history of the country. More people should know about Jersey, its achievements and struggles, and we can think of nobody better qualified to tell the state's story than the author of this history, Dr. William Starr Myers.

End Of Summer

The crickets sing their melancholy dirge; in the hollows the birches are already turning yellow; the lawn is strewn with the first brown leaves, the grass is long and dank; the dahlias flame, the marigolds give forth their musky smell, the white and purple asters rear their heads beside the waning phlox, and the mornings are cool and crisp. Summer smiles valiantly, but already we feel the tang and smell the pungent odors of the "season of mists and mellow fruitfulness."

Happy Days Are Here Again

"FILL 'ER UP"

(WNU Service)

NINE TROOPS WERE AT MOHICAN

Active Summer At Camp Will Be Concluded With Camporee On September 29, 30

Nine Troops of the Belleville district of Robert Treat council had 53 Scouts at Camp Mohican this summer, according to an analysis of the enrollment completed by council officials under the auspices of the district camping and activities committee.

Many of these Scouts will participate in the camporee to be held in Belleville Park on September 29 and 30. The camporee will open at 9 a.m. with the registration of Troops and Scouts. Parents of Scouts as well as their friends and relatives and others interested have been invited by the Scout leaders and the district committee to visit the camporee to inspect the site and to witness the games and other activities as well as preparation by the Scouts of their meals and beds. The carrying out of other camping duties and functions will be organized on a Patrol basis.

All other districts of the council are conducting camporees during September and October. Troops are also making their plans to conduct boards of review this month in order that Scouts may have an opportunity of advancing to higher ranks. The council board of review will be held in the council office on Monday, September 17. Completed applications are to

be filed by Scoutmasters within a few days for those who are qualified.

District officials are filing the names of men who will attend the Scout week-end at Mohican, September 15 and 16, when leaders from all districts of the council will spend two days at the campsite located in the Kittatinies near Blairstown. Some of these and other men are enrolled in the troop camping course which opens on September 6.

Skipper Wally Jones of Sea Scout Ship 303 reports that their power boat has been put in working order and that week-end cruises are contemplated by the Ship in the coming months of September and October. The tentative date of September 22 has been set for the christening of the picket boat by Mrs. Walter Kidde. The boat is to be christened the S.S. Walter Kidde and the ceremony will take place on the river at the site of the Walter Kidde plant.

MIGRATORY BIRD SEASON TO OPEN

Fish And Game Council Lists New Regulations For Fowl Hunters

New regulations governing the hunting of migratory game birds fix New Jersey's waterfowl season this year between October 13 and December 31, the Fish and Game Council of the State Department of Conservation announced this week.

According to a memorandum sent to the State Fish and Game Council by the United States Fish and Wildlife Service in Washington, the daily bag limit during the season will again be ten ducks, including not more than one Wood Duck. The possession limit on ducks is two days' bag (except Wood Duck, only one allowed at

any time). The additional 'daily' bag of 5 mallards, pintails or widgeons is no longer allowed. A Federal duck stamp is required for all duck hunters over 16 years of age.  
During the season, hunters may take ducks, American and Red-breasted Mergansers, Geese and Brant, and Coot. In order to promote the Coot as a table delicacy, it has been rechristened "Whitebill" by Ducks Unlimited and it is hoped that the new name will persuade more sportsmen to put this fowl on the table and thus help control the disproportionate increase of the species. According to the U. S. Fish and Wildlife Service, the "Whitebill" is the third most plentiful amphibious migrant, as it ranks close behind the mallard and the pintail.

Daily Limits

The daily limit on Mergansers, American and Redbreasted, is 25 and the daily bag limit on "Whitebill" is also 25. The possession limit on "Whitebill" is one day's bag. The daily bag limit on Geese or Brant is two of either. The possession limit is two days' bag. There is no open season on Snow Geese or Ross's Geese, or Swan.  
The taking of waterfowl by means of bait, live ducks or goose decoys is again prohibited by the 1945 regulations. It is unlawful to use any gun except shotgun not larger than ten gauge and holding not more than two shells.

The 80-day season on ducks fixed for New Jersey is shared by twenty-one states as follows: Colorado, Connecticut, Delaware, Idaho, Illinois, Indiana, Kansas, Kentucky, Massachusetts, Missouri, Nebraska, Nevada, the greater part of New York, Oklahoma, Oregon, Pennsylvania, Rhode Island, Utah, Washington, West Virginia and Wyoming.

NOW THAT IT'S OVER!

**ALL OF US** are looking forward eagerly to a speedy return to normal living. And a telephone in every home is a definite part of that picture. It would be less than natural if hopes were not aroused for a quick reduction in the number of New Jersey families waiting for telephone service. We expect to fill at least 15,000 of their orders before the first of the year, but there is a long, hard road ahead before everyone can be supplied. That's because to serve 3 out of 4 now waiting requires not just telephone instruments but also cable and central office equipment, which take longer to make and install.

The modern telephone system is extremely complex. Unlike a commodity, it is composed of many kinds of equipment which must be combined and made to work smoothly with the apparatus already in service. Enlarging the system is a long process.  
Reconverting factories and getting raw materials is a huge task—but it's only a start. The shortage of telephone equipment is nation-wide. New Jersey's share of the national output calls for great quantities of switchboards, cable, wire, telephone instruments, and scores of other items. Cable and wire alone run into staggering figures, many millions of feet.  
New switchboards take months to build, and then more months to install. Miles of new cable must be made and laid under streets and along highways. And for each installation of new apparatus, there must be myriad wire-end connections, each completed by hand.  
Nearly all of New Jersey's 200 telephone exchanges, over-burdened during the war, need to be expanded. In some instances, new or enlarged buildings are required.

For the job ahead, the war record of the Telephone Organization is the best index of what may be expected of it in peacetime. That same capacity will be thrown solidly into the task now getting underway. No effort will be spared to cut down the waiting list as quickly as possible and speed the return of "service on demand" for everyone who wants it.

## Bellevillites In Uniform

Award of a Presidential Citation, highest honor an Army unit can receive, to the 3rd Battalion, 397th Infantry Regiment, of the 100th Division, has recently been announced by Seventh Army Headquarters. Sgt. Ralph L. Jore Jr. of 22 King street is a member of this group.

The Citation honors the valiant action of the 3rd Battalion in holding off repeated vicious German attacks on the Bitch sector near Rimling, France, from January 1 to 5, during the huge Nazi winter counteroffensive on the Seventh Army front intended to retake the vital Saverne Pass.

Pfc. Philip Androsigla, son of Mrs. Josephine Androsigla of 26 Columbus avenue, is currently stationed at the Redoubt station, Fort Oglethorpe, Ga., where he will spend two weeks before reporting to his new assignment in the United States.

Pfc. Androsigla was returned recently to the United States after having served eleven months in the European theater of operations, where he served as a mortarman in the infantry. He holds the Bronze star, Purple Heart, Combat Infantry Badge, Good Conduct ribbon and the European Theater ribbon with two campaign stars.

Sgt. Joseph Leto of town, has reported to the "Green Project," an Air Lift Distribution Center at Camp Blanding, Fla., according to an announcement made by Major M. S. Edelstein, Commanding Officer of the Center.

Sgt. Joseph Leto was in a recent shipment of men who were returned to the United States from the European Theater of Operations, via Miami, by planes of the Air Transport Command.

Returnees passing through the "Green Project" are sorted for transfer to a reception center of their own choosing. This choice is made by the men while they are still overseas, and is usually based upon the place where they desire to spend their return furlough.

Sgt. Joseph Leto whose address is 40 Magnolia street has spent 41 months overseas, and is now looking forward to visit with his many friends and relatives.

Richard J. O'Brien, of town, a member of a Malaria Control Unit of Brig. Gen. Earl W. Barnes' 13th AAF Fighter Command in the Philippines has recently been promoted to Corporal.

He has been overseas since 1944 and has been with the "Jungle Air Force" throughout the New Guinea, Netherlands East Indies, and Philippine Islands campaigns. O'Brien is the son of Mrs. Frances O'Brien, who resides at 46 Cleveland street.

Sgt. Andrew J. Thoma son of John J. Thoma of 269 Hornblower avenue, is now stationed in Puerto Rico with the AAF Caribbean Division ATC. Sgt. Thoma has spent 26 months overseas in England and France and wears the ETO Citation, seven Battle stars for Rome, ARNO and the Sicilian campaign. He attended Belleville High school and was a stock clerk before entering the service.

The Caribbean Division, in which Sgt. Thoma is now serving is the Air Transport Command organization now engaged in transporting thousands of American troops by air each month from the European and Mediterranean theaters of operation to the United States. In addition to this, the Division continues to maintain its aerial supply route to American forces fighting in the China-India-Burma theater.

A veteran of nearly 40 engagements in the Pacific aboard the light cruiser USS Mobile, Anthony M. Lunetta of Belleville, has been advanced to radioman, first class, USNR.

Lunetta is the son of Mrs. Dorothea M. Lunetta of 75 Lake street. Aboard this cruiser two

**PUBLIC NOTICE** is hereby given that I, William H. Williams, Mayor and Director of the Department of Revenue and Finance of the Town of Belleville, N. J., will sell at public sale the highest bidder for cash the following properties in the Town of Belleville, County of Essex and State of New Jersey:—

THIRD TRACT: 37-39 Cuzco St., Block 712 Lots 40-57  
FOURTH TRACT: Part of interior 41-49 Passaic Ave., Block 499 Part of Lot 45  
FIFTH TRACT: 27, 29 & 35 No. 8th St., Block 752 Lots 14, 13 & 11  
SIXTH TRACT: 36 Washington Ave., Block 66 Lot 11  
SEVENTH TRACT: 145 Newark Ave., Block 741 Lot 13  
EIGHTH TRACT: Wly 50 ft. of 170-182 Mill St., Block 180 Lot 65

Said lands have been acquired by the Town of Belleville by deed and/or through tax title lien foreclosure proceedings. Said lands will be sold in accordance with the provisions of an act entitled "An Act Concerning Municipalities," Chapter 152 Laws of 1917, and the acts supplementary thereto and amendatory thereof.

Said sale will be conducted in the Meeting Room of the Commissioners (sometimes called the Council Chambers) on the second floor, Belleville Town Hall, on Friday afternoon, September 7, 1945 at 2:30 P.M., Eastern War Time.

Said properties will be offered for sale on terms and conditions which will be stated prior to the sale, which conditions can be seen at the office of the Department of Revenue & Finance, and will be sold in accordance with said terms and conditions to the highest bidder for cash.

Said sales will be subject to confirmation by the Board of Commissioners. The Town of Belleville reserves the right to reject any and all bids. Minimum bidding on First Tract will start at \$750. Minimum bidding on Second Tract will start at \$1000. Minimum bidding on Third Tract will start at \$540. Minimum bidding on Fourth Tract will start at \$750. Minimum bidding on Fifth Tract will start at \$200. Minimum bidding on Sixth Tract will start at \$600. Minimum bidding on Seventh Tract will start at \$130. Minimum bidding on Eighth Tract will start at \$750.

WM. H. WILLIAMS Mayor & Director of the Department of Revenue & Finance  
Fees: \$15.84

## Brothers Receive Promotions

Seaman 1/c Robert Rame

Brothers who have received Navy and Army promotions respectively are Seaman 1/c Robert Rame and Pfc. William E. Rame, Jr., sons of Mr. and Mrs. Rame of 112 Hornblower avenue. Robert, 18, who was promoted after graduating from AMM and N.A.T.C. at Memphis, Tenn. is now at Norman, Okla. where he is studying radar for two weeks, after which he will go to Florida for gunnery instruction.

A graduate of Belleville High school, he attended the Newark College of Engineering for two years before enlisting in the Navy Air corps with two other Bellevillites, Jack Dempsey and Brandon Dewar, in December of last year.

and a half years, Lunetta has seen action in major Fleet operations ranging from Bougainville to Okinawa.

Joe E. Miller, 19, seaman, first class, whose wife lives in Exeter, N. H., is serving on board a submarine at a Pacific base. Miller is the son of Mr. and Mrs. Jacob Miller of 30 Van Rensselaer street. He graduated from Belleville High school and was employed by the Comprometer company of Newark, before entering the Navy in February 1944. A brother, Cpl. John, 32, is in the Army.

Pvt. Joseph J. Ferraro, 26, of 754 Washington avenue, son of Mr. and Mrs. J. T. Ferraro has recently returned to this country and is now temporarily stationed at the Army Ground and Service Forces Redistribution station at Atlantic City.

Pvt. Ferraro served 26 months as Rifleman in the European theater of operations. He wears the European-African Middle Eastern Campaign ribbon and Good Conduct Medal.

Before entering the service Pvt. Ferraro was proprietor of a liquor store.

Frank H. Bridge, Jr., aviation radioman, first class, USNR, has

completed the course of Physical conditioning and ground school work at the U. S. Navy Pre-Flight school at Athens, Ga., and has been ordered to a Naval Air Station to begin progressive flight training preparatory to joining a combat unit.

Bridge, who lives at 217 Malone avenue, is a 1939 graduate of Belleville High school, where he won varsity letters in basketball and baseball. He saw action in the Gilberts, Marshalls, and Saipan theaters before entering Naval Aviation. He now reports to the Naval Air Station, Memphis, Tenn.

John F. Rhodes, fire controlman, first class, USN of 30 Lincoln terrace is serving on the Alabama in Tokyo Bay, a battleship which is part of the powerful Pacific Fleet completing the first stages of the occupation of Japan.

Under the operational control of Admiral William F. Halsey, USN, the Alabama, with 11 other battleships, 17 aircraft carriers, six es-

cor carriers, 20 cruisers and more than 290 other U. S. ships, is helping take over control of the Nips' big naval bases.

The explorer, Rear Admiral Richard E. Byrd, USN, was on board temporarily during a shore bombardment near Tokyo shortly before the end of the war. He called this bombardment "a milestone in warfare" because the ship was "able to hit the target so accurately without being able to see it."

## SGT. JOHN FRANZI IN CRACK OUTFIT

His Service Company Is In 80th Division Which Has Been Cited for Achievement.

1st Sgt. John D. Franzi of 36 Naples avenue is first sergeant in the Service Company of the 80th "Blue Ridge" Infantry Division's 379th Infantry Regiment which was recently awarded the Meritorious Service Unit Plaque for "superior performance of duty, achievement, and maintenance of a high standard of discipline" in serving and keeping its fast-moving, hard-hitting Regiment supplied with the materials of war during the campaigns from August 8, 1944 to V-E Day.

Son of Mr. and Mrs. Anthony Franzi of the Naples avenue address, the first sergeant has been overseas a year and wears the Purple Heart which he at first refused, for wounds received on Christmas eve in the fighting between Belgium and Luxembourg. He also wears the Bronze Star medal for heroic achievement but the incident for which he received the award is unknown to his parents.

Franzi who is 25 years of age, attended Belleville High school and Bloomfield Vocational school. He was employed by Ernest Stefanelli at his service station in town before entering service in February, 1942. His brother, Nove, twenty years old, is an army private and has been stationed in the South Pacific for the past year.

As a member of the 80th division's service company, despite continued adverse operating con-

ditions, periods of critical supply shortages and frequently overextended supply lines, the unit, through skill and ingenuity, never failed to deliver on time and at the designated place, the vital ammunition, supplies and transportation that enabled the 319th Infantrymen in every instance to accomplish their battlefield missions against the German Armies in the West.

### Superior Record

From the Regimental Supply Section and the Ammunition Section which hauled supplies and ammunition over a hundred mile-long supply line to back up the first successful crossing of the Moselle River to the Regimental Headquarters Section which coordinated all the hundreds of administrative details that keep a modern combat unit functioning, every Service Company man was commended for the enthusiastic execution of orders and esprit de corps that wrote this superior record in ten battle-packed months from Argentan to Austria.

When von Rundstedt's winter of-

fensive bolted out of the Ardennes last December, Service Company's Headquarters Section assisted in making the plans and coordinated all available transportation for the all night, 110 mile march that threw the Regiment's fighting strength against the southern flank of the Bulge north of Luxembourg City. This section processed and equipped the large number of reinforcements and men returning to fill the fighting ranks throughout the bloody, bitter fighting that cracked the vaunted Siegfried Line and opened up the Rhine and Central Germany to the "Blue Riders."
