HOSPITAL Accommodations Available For 47 Veterans But Only 10 Are in

The Soho housing project, set up by the Essex Board of Freelders, has received the "cold houlder" from veterans in spite

of the acute housing shortage.

One of the reasons advanced for the lack of interest came from Edward Goerke, commander of the Veterans Alliance, a group that screens all applications for the rooms. He stated it may be that couples with children are not elig-This Winter sports program ible, which eliminates some vets consored by the town recreation who might be interested.

Travel To Face Strong Bloomfield Tech Five Tuesday

The high school basketball team travels to the Bloomfield Vocational school Tuesday to tangle with a tough Bloomfield Tech five. The varsity contest is scheduled

to commence at 8:30

The Bellboys will floor an untied team, and the entire varsity of last year has been lost through graduation. The four men in the front court scheduled to alternate in the contest are Capt. Frank Takish, Mike Tortoriello, Jimmy Di Ruggierio and Steve Smallidge. All are fast but inexperienced.

At the center post, three big men are slated to see plenty of action. Al Smith, Don Smith and Gene Glancy will handle the important ball-handling post, with the latter being held in reserve by Wische to send in after dopby Wische to send in after dop-ing the opposition's plan of attack or their defense. Glancy is a good ball handler, and has been im-pressive in practice.

In the rear court, the name of Stuart White, a freshman elevated from the ranks has been added to

the guard candidates. They are Al Lombard, George Mapes, Ken Snook, Curtis Gilmore, Bob Mil-ler, Walter Godfrey and Robert

We are now in the closing stages of the Ith and what well may be the final Victory can drive. Belleville has gone well over reir overall quota, but E bonds, the kind hat you and I buy, are under 50% of the stablished quota.

This is not a local condition, but is prevaent throughout the nation. Strikes, lack of mployment and Christmas spending are the ause of many families and individuals cashing in their bonds. But it cannot be stressed too emphatically to hold onto your bonds, and not only hold them, but buy more. Give them for Christmas presents.

How many times have you heard someone remark, upon the beginning of a New Victory Loan Drive, "I suppose I have to buy another bond. But I don't see how I can afford it."

This is just like saying, "I suppose I really ought to start saving money, but it's an awfully expensive thing to do."

The fact is, of course, that you don't buy bonds. You can't spend money on bonds. You simply take them. They cost you nothing. Your E bonds are nothing but certificates showing that you or your family have made a deposit in the U.S. Treasury instead of a bank or a cookie jar. We put in noninterest notes and we get an interest-bearing note as our deposit slip.

To take a bond-note that word "take" is still a patriotic act. That alone is inducement enough for any American. Just as your money in the bank pays for loans and investments and all the bank's manifold activities, so your money in the U.S. Treasury helps to care for the wounded, to end war contracts, to maintain armies of occupation, to bring home returning fighters and to prevent inflation. Your bonds brought about the mighty atomic blast that slapped a pe-Mod after the word "war." Today, your bonds are putting flesh back upon the bones of the survivors of Bataan, of the wounded and the unknown thousands of our men yno suffered prison camp tortures.

There is the case of one George Lott, whose two arms were shredded by mortar shrapnel on the Lorraine front in France. From his battalion aid station Lott was transferred 4,500 miles in easy stages, by ambulance, train and plane. He passed through three field dressing stations, five hospitals in France and England and finally back to the United States for recovery. All the wonderful care that made this feat possible was paid for by your War Bond purchases.

And yet you count on getting back \$4 for every \$3 you put in. Where can you find a better investment?

Let's go all out and push this drive over the top, buy that bond now and hold on to it. Remember, it cost money to put them in and it is costing money to get them out.

Taft In The Saddle

84 Overlook Avenue

Republicans who supported Wendell Willkie must have been bitterly disappointed in the news of the policy meeting of their party in Chicago.

Although he was not present, Senator Taft, the dispatches said, dominated the meeting, and it is his views and the views of those who think as he does that are governing the machinery of the party. Last week Senator Taft was one of the handful of Senators who voted against the bill implementing our participation in the United Nations Organization. He not only is one of the country's leading isolationists, but his views on domestic affairs are usually considered among the most reactionary of the Republican Old Guard. At last year's election he barely squeaked through by a 25,000 plurality in the huge state of Ohio.

Of particular interest to Willkie supporters must have been the re-emergence of Werner Schroeder of Illinois as one of those in control of the party machinery. It was Schroeder, it will be recalled, whom Willkie forced out as vice chairman of the party when Willkie ran for the Presidency. Schroeder is generally accepted as a stooge for Colonel McCormick of The Chicago Tribune. Indeed, those mid-Western Republicans who follow the Tribune line in international affairs seem to be dominant in the party.

Senator Taft and people like Schroeder are apparently aiming to take the party back to the days of Harding. This may satisfy the Republican politicians of the Middle West, but it will hardly win votes in the East. And without the East, the party will never reach the White House.
