This little tyke, whose ears betray the fact that he's not all dauchshund, is one of the more than 100 pooches and 50 cats corralled in Belleville by Belleville's dog warden since he began his duties here on May 15. But just because he's not a full bred dog doesn't mean that the Bergen County Dog Kennel doesn't have many dogs of excellent parentage available for adoption. There is a boxer, a collie, an Irish setter and many of the smaller breeds seeking homes instead of extermination.

higher from the damage caused by fire. Woodland tracts, too great in number, lose their store of precious lumber. Great precaution must be taken. Carelessness must be forsaken. Here's one fact of whic's we're sure. Prevention is the only cure. The one and only cure for the downhearted is a bit of cheer. An easy and inexpensive way

to spread sunshine is with flowers. Our Spring flowers, as lovely and gay, are destined to lighten the burden of someone in trouble. For the finest floral arrangements, for any occasion, come to Don's Flower Shop, 266 Washington Avenue. Tele-phone Belleville 2-1686.

Most of our customers don't know all the details of the OPS regulations concerning food prices.

After all, there are quite a few of these government rules, and some of them are very involved.

But we can assure you that the men and women of A&P are wholeheartedly living up to the letter and spirit of these orders as they apply to our operations.

So now, as always, you can buy at AsP with confidence that you will get the same high quality food to which you have been accustomed; and that you are being charged the correct price and getting full weight. .

If there are ever any doubts in your mind, please let us know, and we'll be glad to clear them up. Please write: CUSTOMER RELATIONS DEPT. A&P Food Stores

Pileated Woodpecker

Now through the forest stillness comes again a steady, muffled knocking, and we know the winged carpenter is at his work, chiseling some dead log or a tree. But do not try to find himtimid bird, the least intrusion will make him flee

beyond the creaking branch, the whispered word,

yet he himself,

usually silent, is sometimes noisier than all the feathered tenants of the wood. Listen for him early in the spring**across** the tree-tops hear the rolling drum, and though you do not see the bright red crest

the dark wings splashed with white, nor find the cavity he makes his nest, you can be sure the Pileated woodpeckers have come. -Mae Winkler Goodman.

A Fair Deal for Italy

It's time that this Administration, which boasts of its Fair Deal, gives Italy a fair deal. As the final election returns came in, it is apparent that Communism in Italy has lost the control of a large part of the local governments which they have held in their hands since 1946. Italy is proving at the ballot box that it is a Western Democracy, neither Fascist nor Communist but Republican and Democratic.

The biggest Communist upsets were the loss of the seaports of Genoa and Venice, the great industrial city of Milan. Only in Bologna did Communism hold its own, and even increase slightly its strength. Wherever Communism was beaten, it was a consequence of a coalition of liberals and right-wingers. By that intelligent co-operation, the anti-Communists won back the three great cities from the Communists.

Italy, having/proven at the polls that it is anti-Communist, can play a powerful role in the alliance of Western Democracies against Communism. Italy, alas, is hobbled by a treaty which Congressman Peter W. Rodino is seeking to invalidate. The 10th District Congressman has begun a campaign to revise the Italian treaty, removing some of the restrictions imposed shortly after the war, ended. One of those restrictions limits the size of Italy's army to 170,000 soldiers. Obviously, Italy can furnish an army of 5,000,-000. The West needs that strength.

Communism is far from dead in Italy, but anything that can be done now to strengthen the hand of the liberals and democrats will help to keep Moscow's Italian puppets out of the key offices of Italy's municipal administration. A revision of the Italian peace treat

The highest per capita earnings, outside of the United States, are in Canada, \$870; New Zealand, \$856, and Switzerland, \$849, all "decadent democracies" bereft of all the great advantages of the "peoples' republics." The survey showed that, of the 70 countries studied, 12 had a per capita income of under \$50 a year. Thirteen countries were in the \$50-\$100 class; while only 15 had per capita incomes exceeding \$400.

The lowest of all the 70 countries is given as Indonesia, with \$25 per capita.

The poorest 12 countries (under \$50) together contained nearly one-third of the total population of the countries covered. The poorest 25 countries (under \$100) together accounted for well over half the total population.

The figures given for some Asian countries : India, \$57; Pakistan, \$51; Burma, \$36; Thailand, \$36; Ceylon, \$67.

In the Middle East, the figures are: Egypt \$100; Iraq, \$85; Israel, \$389; Lebanon, \$125; Saudi Arabia, \$40; Syria, \$100; Yemen, \$40. In Latin America, the highest income is that of Argentina, with \$346; and the lowest is that of Ecuador, with \$40.

In western Europe, the highest income is enjoyed by Switzerland, with \$849. In the \$700-\$800 class are Great Britain and Sweden. Other figures for Europe are: Belgium, \$582; Denmark, \$689; France, \$482; Western line Chinese Communists and Germany, \$320; Ireland, \$420; Luxembourg, \$553; Netherlands, \$502; Norway, \$587.

If there is a moral to be drawn from all to gain and everything to lose if America, tually conflict with Moscow's went Communist. Bank or spend your per plans for Peiping. When that capita earnings of \$1,564 and thank God that you live in Belleville, and not in Russia, or for that matter any other place in the world.

Time Out for Politics

It's a long time until November 1952, but this is no ordinary election coming up. Skirmishing has begun, and sniping, too. If the conventions were held this month, instead of in June, 1952, we could-almost-write the tickets: Truman and Barkley for the incumbents; Eisenhower and Stassen for the challengers.

A study of the detailed reports of the meetings of the two parties' national committees, held a fortnight ago, makes it clear that the Democrats will leave it up to Harry. If he wants to run, he's their man; if he doesn't choose to run again, he can, at least, name his successor on the ticket. It is/clear, too, from the study that if Eisenhower has political ambitions, he could run on either ticket. Equally clear is the Republican imbroglio which can only weaken the party and its chances of victory unless it is cleared up as soon as possible without waiting for next June. The Republicans' trouble is that Robert A. Taft wants to be President.

New Jersey's 35 votes in the Republican convention are vital. It would be rendering the Republican Party a service if the GOP in this state could announce, right now, its position. Many another state would fall into line and a year of jockeying might be averted.

New Jersey would throw its 35 votes to

ONE MAN'S OPINION... International Law Experts Are Trying to Untangle the Problem of Peiping's

Claim to China's Seat in the UN By RALPH E. HEINZEN

Now that Communist China has "liberated" Tibet, the atmosphere has suddenly cleared. Even India begins to see last but not least by any means, daylight, and is not pleased with what it sees across its thou-sand miles of undefended common border with "liberated" the Communist government and Tibet. The United States veto power in the Security Council reconigzed as the political leader of the Moscow clique which teamed suddenly becomes worth its weight in gold. If Red China up with the Peiping Communists to ever wants to sit in the council of nations, it must pay the form the red coalition in power. price and Tibet certainly figures in the bargain.

Equally important is the bursting of the bubble, too long roster can only explode in time nurtured in Washington, that the Onnese treas north and the China's affairs, it is common Communists, but merely agrarian reformers. The only differ-knowledge that the two generals, knowledge that the two generals, nurtured in Washington, that the Chinese Reds were not real ence between Mao Tse-tung and Hitler, Mussolini, Stalin or any other dictator is the color of his skin. He is an aggressor, Chu Teh and Lin Piao are deadly an imperialist, a war-monger and all the other things that favor, but right now he is, accord Moscow calls us. He grabs land with speed and cunning very ing to Hong Kong intelligence rereminiscent of the Duce and the Fuhrer. He is a slant-eved ports, being groomed by Moscow Stalin, a Far-Eastern Fuhrer, a Mongol Mussolini all rolled to replace Chu Teh. Of all the into one. If there is one thing he is not, it is a Tito-type generals, he leans the most to-wards Moscow and he also seems Communist. He is a Kremlin Communist.

The true leadership of Red China and the membership of ion about as clear as the mud of

the Chinese Politburo seems korea. Judge Hudson views the change in China as nothing more to be a secret within a secret. than a change in administration-Mao is the front man for just as would be the case here, the regime, but behind Mao is. after November 1952, if the Repuban odd conglomeration of old-line Component of old-the Democrats. The only answer that The Nutof more modern Moscow ley Sun can give to that opinion is stooges. Sooner or later their this: Why, then, if this is merely ideologies must clash because a change of administration dic the Chinese have a program Great Britain, India and a few Soviet Russia and its satellites and that, it is that Belleville would have nothing for China' which must even- other nations hasten to extend diplomatic recognition to the Peiping regime? If it is the same government with only a new President in day comes, we will be able to the chair, what was the need of new recognition? The United judge where China is going. At any rate. THE BELLEVILLE TIMES NEWS

is imperative now-for our own mutual defense strength and for the good of Italian Democracy in its domestic fight with Communism.

To the Lowest Common Denominator

Communism has as its creed the creation of a one-level social and economic class. Alas, statistics have broven that in reaching that one-level class, it has resorted to the lowest common denominator.

The United Nations Statistical Office published this week a most interesting survey of per capita income which complements, in timely manner, the Sales Management survey which the Times-News published a fortnight ago establishing Belleville's per capita income in 1950 at \$1,564.

The UN survey set the average annual income of a Soviet citizen at \$308, the next lowest income per capita of all the industrialized nations in the world. Only Poland's percapita average income was lower, \$300, and Poland is merely a rubber stamp Communist replica of Russia's own economy.

In other words, any decadent Belleville "laborer" earned five times as much as his Russian or Polish counterpart. As for the buying power of his money, the UN is also the source of another statistical survey showing that in Russia a workman must work five times as long as in the United States to buy a loaf of bread. In other words, bread in Berdichev, in the land of red milk and honey, costs 35 times more in any laborer's sweat than it does in decadent old, but lovely Belleville.

It is interesting that the UN survey sets the average per capita income in the United States in 1949 at \$1,453. The Sales Management survey which is based on U.S. Census and federal income tax sources, set the American per capita average at \$1,311 and the New Jersey per capita income at \$1,546, both far below Belleville's per capita average of \$1,564 above par. The UN survey merely confirms the Sales Management survey.

Eisenhower without a doubt if the general support by India and Great Britain only announced that he would accept the Republican nomination. It would not be nearly as unanimous for any other candidate -Taft, Stassen, Warren, Dewey or Driscoll, of its authorities on international law, Judge Manley O. Hudson, an President or Vice-President.

The danger is that Driscoll, once again, will maneuver the state Republicans to line up the 35 votes for himself as New Jersey's "favorite son," at least through the first ballot. Apparently there is nothing to appease a Governor's political ambitions except to give him the doubtful honor of supporting him in the first round. He did it last time, and there is reason to fear that he will do it again. We can expect him to try to keep anyone from discussing the 1952 ticket until after the November elections.

Driscoll has been a good Governor, but there is nothing in his record or in his personality which would convince us that he would make a good President, or even a fairto-middling Vice-President. It is our editorial opinion that Mr. Driscoll would make a good Governor for another term, and leave things there. We are for an Eisenhower-Stassen ticket and we don't care who knows it.

Stassen is for Eisenhower for first place, himself for the secondary role. Any maneuver for the benefit of Driscoll could only weaken the Eisenhower-Stassen forces and ease the way for Taft or Warren or even, Heavens forbid, Dewey. The choice of a Vice-Presidential candidate has its importance this time. If the Truman-Barkley battery stays in the game, the Kentuckian is an excellent campaigner. If Truman steps out, Barkley will go out with him. No matter who heads the ticket, then, a Douglas or a Vinson, the Democratic choice for Vice-President may very well be Senator Kefauver and thanks to TV's broadcast of the crime investigation side show, the Tennessee solon has made many admirers. It will take a Stassen to score over a Kefauver, and Driscoll definitely does not have what that takes. R. E. H.

One American who sits on the Law Commission, seems to differ with our State Department. He contends that there is no issue as to the admission of a new state to membership, hence no question of a power of veto. The issue, he inists, concerns only the possession of power to designate representa-tives of the "Republic of China" which still holds the memberships in the UN and on its Security Council which it has held without interruption since 1945. THE MORE THE MERRIER!

The ball game took on a some-what of a wierd complexion as The crew season for Belleville High closed on Saturday afternoon when its four-oared and eight-oared frosh shells there were nine errors, five hit batsmen, two wild pitches and a triple play. Belleville left eight beat out Nutley High's teams on the Passaic River. While it is the end of a grind of some four hours each day for Bill men stranded as George Bartlett, Bennett, it is not the end of his activities for the year. It Cowboy right hander, allowed only three hits and was especially effective in the pinch. seems that spokesmen for both Kearny and Bloomfield High have made inquiries about the sport and Bill stands ready

to tell the crew story in words and moving pictures if called upon. What's more, to help the sport, he is even ready to obtain for them a couple of college shells gratis. moved to second on Rip Fahey'

Bill has done the same thing before. He was instru-mental in inaugurating a crew program in the high schools of Poughkeensie a famous name in rowing girdles. It took of Poughkeepsie, a famous name in rowing circles. It took throwing error by Travers. Chico two trips and an offer to put his freshmen on the Hudson at Santucci drew a walk, as did Bill the New York town, to convince some skeptics who listened Greenen, the latter forcing in a run. Dilworth then hit the pitcher, too well to the wailing of some college coaches who claimed the Hudson was too rough for boat racing. The time was that the Poughkeepsie race was the acme in the crew program of first of his two hits, a single which scored Santucci and every college in the country. Greenan.

"The river is big enough for us all," is Bill's opinion of the efforts of other schools to get in on the act. "In fact if runs on two singles, two walks there is more and better local competition it seems likely and a throwing error by Sam that a real schools adopting the program now are bound to increase the lead to 9 to 0 bebe four or five years behind both Belleville and Nut,ey, but fore the Bellboys even dented eventually the competition should even on and Esser the Sam Graziano singled non-municipalities will be the mecca for college coaches seeking Bob Dilworth, who had previously been hit with a pitch, and been hit with a pitch, and eventually the competition should even off and Essex-Hudson home plate. advantage of all."

Bill Bennett is able to devote a lot of time to crew because he is one of those fortunate men who own their own business. He owns a machine shop and his time is his own. To him rowing is the finest of recreations. He first became two local runs. interested in developing the sport on a schoolboy level when he sent two Belleville High boys, Harry Leiss and Howard Wilson, to the national championships in 1942. In 1945 crew got its real start when about 40 boys from Belleville High answered his call for candidates.

From the start Coach Bennett has insisted upon two things. First, that every boy have his chance on the water day, and second, that there be no squad cuts. As a everv result this year there were 98 candidates for crew, as many as report for football in the fall, and when the season ended on Saturday there were 64 boys left. The mortality of 34 was reflected in those boys who became ill and lost so much practice that they did not make a comeback, and those who took after school jobs. There was no loss due to lack of opportunity, loss of enthusiasm or squad cuts. It's no wonder that the sport is looked upon which such high favor here.

Coach Bennett says it is a natural inclination for boys to seek the river in the Spring time. Crew gives these inclinations full reign. The result is a carry-over sport which has resulted in the acceptance of more junior members by the Nereid Boat Club than it has had at any time in its threequarters-of-a-century existence. Each of these junior members has his own key to the clubhouse and if qualified may take out any club boat on the racks. The school owned shells Orange. will be stored in the schools during the Summer months.

Bill hopes that the efforts of the Varsity Club and the other groups in town raising funds to buy Belleville High a new eight-oared shell will meet with success before September. Boats must be ordered by that time to insure delivery the Spring. If the new boat is received in time, Coach Bennett can pull enough strings to bring four freshmen crews from Eastern Colleges here to race against the Belleville and Nutley varsity eights for the inaugural.

In the meantime with neighbors interested in the sport.

the day may not be far away when the state association will recognize the sport and award championships and trophies. At that time, Belleville as the pioneer, should rake in its share of honors.

YANKS STILL COMING

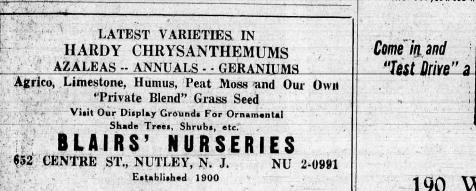

Belleville fans will have to adopt the New York Yankees as their favorites as a result of the latest influx of big league baseball talent taking up residence here. Since Bob Porterfield, now with Kansas City, started things by buying a house at 268 Forest Street, Joe Ostrowski and Cliff Mapes also took apartments here. Next week Gil McDougal, third baseman, and Freddie Sanford, pitcher, will also move their families into apartments here. Freddy Farmer, ye dispenser of spirits, in Washington Avenue, is partially responsible for this influx. He knows most of the Yanks personally and when they express a desire for living space he acts as a Belleville booster and what's more goes out and finds the accommodations.

COLLEGE LETTERMEN

June may be the month for brides, but it is also the month for the awarding of athletic letters in colleges all over the country. Two nearby schools list Belleville youths as winner's of insignia for their athletic endeavors. At Newark Rutgers Athletic Director Henry Bodner awarded a cross country letter to Robert Vivente, a sophomore; a wrestling letter to Henry Wozniak, a freshman, and a varsity basketball letter to Richard Skribner, a sophomore.
