

## Planning Consultants Propose 43-Acre Park Along Third River

Passaic Valley Association Estimates Cost Of Land Acquisition At \$675,000, Barely Half Of Amount County Gets For Riverbank

The Passaic Valley Citizens Planning Association, professional consultants to the Town Planning Board, filed with the Essex County Park Commission, yesterday, a composite proposal for an intermunicipal county park of 43 acres along the Third River, between Harrison and Joramelon Streets, to cost an estimated \$675,000.

1. Pointing out that the cost of acquisition is almost half of the \$1,250,000 which the county received from the state highway department for the acquisition of the Passaic riverfront park at the site of the Route 21 expressway, the Planning Association insists that the County Park Commission has a "moral obligation" to replace the riverbank park.

"Recent studies reveal that by 1975, Essex County will be saturated by urban-suburban development," the Planning Association's report stated.

"With each passing day it becomes more apparent that the highly industrialized, heavily populated eastern portion of Essex County is located on an adequate amount of public park land. Moreover, few opportunities indeed remain available for expanding such open-land facilities."

"Availability of funds to purchase additional park lands usually is limited by the Essex County Park Commission with a hard choice between relatively costly land close to the center of population and relatively inexpensive land in the less populated western portion of the county."

"It is often a difficult decision to make when one site is located where the greatest need exists and another where the need is less. Potential users will further overburden roads and highways but land costs permit purchasing ten times as much acreage. The Park Commission has purchased some of each type of land in the past. The considerations have been different, since both types are necessary for a complete park system."

"The Planning Association feels that the Essex County Park Commission possesses a moral obligation to replace the lost parkland in an immediate urban area. It is our unqualified opinion that the creation of the Passaic Valley Park, Nutley County Park will constitute a much wiser use of the Route 21 proceeds than a further extension of the Park Commission's western Essex reserves."

"The Planning Association feels that the Essex County Park Commission should acquire the 43-acre park along the Third River, between Harrison and Joramelon Streets, our proposal calls for a drainage strip Avenue of varying width averaging 60 feet or so."

"From Albany Avenue the park proceeds south along the Third River, taking in water right of way running from Harrison Street to the corner of Franklin Avenue and Albany Avenue, a land-locked tract backing up to the lots fronting on Prospect Street, and other land-locked tract backing up to the lots fronting on Albany Avenue, and a tract fronting along Harrison Street. This is definitely a useable recreational area of more than two acres."

## Mayor Padula Says Proposed Park Is Good For Belleville

Head Of Town Government  
Promises To Do All In His  
Power To Help Proposition

In connection with the Intermunicipal Belleville-Nutley Park Commission, Mayor Indure J. Padula of Belleville this week issued the following statement:

"The idea has interested me for some time. I am happy to note that the proposal offered by the Passaic Valley Citizens Planning Association is similar to the proposal I made the Essex County Park Commission on July 25 of this year, relative to Belleville."

"The proposal as offered by the Planning Association has been extremely worked out, although many of the problems must be handled individually. It is my belief that the people of both communities, and of Belleville in particular, will welcome this park for its beauty and recreation."

"For example, the engineers find portions of the Rutan section undesirable for the proposed park. The proposal there is, in fact, Section Two is still under agricultural cultivation, that the park project, through purchase by the county."

## MRS. PASCALE DIES, LONGTIME CHURCH WORKER IN CITY

Had Aided Husband At  
Silver Lake Baptist  
Church For 39 Years

Mrs. Rachel Louis Corbo Pascale, a lifelong church worker, most of it in Belleville, died at Mountsides

MRS. RACHEL C. PASCALE

Hospital, Montclair, Wednesday, August 28, of cancer at the age of 63. She was the wife of the Rev. Benedetto Pascale, founder and pastor of the Silver Lake Baptist Church, Belleville, and had lived at 10 Florence Avenue.

Services for the late Mrs. Pascale were held at the church Saturday, August 31, with the Rev. Charles DiSalvo, chaplain at the Veterans Administration Hospital in Lyons, officiating and burial was made in Bloomfield Cemetery.

Born in Newark, the late Mrs. Pascale was a missionary specialist following her graduation from Burlington High School. From 1916 to 1918 she was a mission agent at the First Baptist Church in Millburn, working with the Italian families in that area. An accomplished pianist and harpist, Mrs. Pascale played before women's clubs and church groups throughout the Eastern Seaboard.

In 1918 she was married to the Rev. Mr. Pascale and the rest of her life was devoted to the church.

## P. S. Will Provide Flu Vaccine To Employees

Public Service Electric and Gas Company has announced to its employees that it will make available to them, without cost, Asiatic influenza vaccine inoculations. The vaccine will also be available to those employees desiring it at any time.

A company spokesman said the inoculations will be administered to those employees desiring it and will begin soon as the vaccine becomes available to the company.

"At this session Miss Iris Smallwood will be installed as club president. Miss Judy March, president now and the Rev. H. E. Goldstein is pastor of the church. The Fall season of the Council will begin with a meeting Monday evening, Sept. 16, at 8 o'clock, at the home of Mrs. George A. Peterson, of 29 High St. Mrs. Eliza C. Goldstein is president and the reports that the program committee is preparing an interesting session."

"The park in the Rutan section should be approved by those who opposed the development on the grounds that additional homes would mean additional traffic, as well as more police, firemen and other public services."

"Anyone who objects to the park, on the assumption that since it will be sponsored by the county, persons living outside the Third River area will intrude upon the residents' folk, shows an attitude of intolerance and narrow-mindedness."

"Even if Belleville could finance a park where adults may find peace and relaxation and children find facilities for active recreation, it should be open to all well-behaved people."

"This Intermunicipal Park as proposed by the Planning Association is an important step in the direction of municipal-cooperation, and I shall do everything within my official power to help it succeed."

## Belleville-Nutley Chapter Of Hadassah Will Meet Sept. 19

The first Board meeting of the season will be held by Belleville-Nutley Chapter of Hadassah on Thursday, September 19th, at 8:30 p.m. at the home of Mrs. Jerome Hamburger, of 105 North Road in Nutley.

Plans for the ensuing year will be formulated under the leadership of the newly elected president, Mrs. David Frankfort of Nutley. All Board members and officers are invited to attend.

## OLDER WOMEN TO RECEIVE LARGE BENEFITS SOON

Social Security District  
Manager William J. Wilkie  
Makes Announcement

A decision that will try the pride of many women who reached the age of 62 in the last few months will either start social security checks immediately—or result in higher benefits at age 65.

Social Security District Manager William J. Wilkie reports that many youthful executives have apparently decided to pass up the smaller benefit at this time. He did not comment on the reasons for this decision, whether from a reluctance to admit to age 62 or from prudent actuarial computation, with the choice of a higher benefit at 65.

## Pirates Are Recreation Junior Ball Champs

1957 CHAMPIONS: In the picture above are members of the Pirates, champions of the Recreation Department Junior Baseball League for 1957. The champions had an 8-2 season record to nose out the second-place Red Sox and Giants, who sported a 7-3 record. Each team member and their coach received a championship trophy from the Recreation Department.

Deputy Commissioner James R. Lampman is shown presenting a trophy to Bob Laird, Pirates pitcher. Laird pitched a no-hitter against the Cubs in the season's final clinch pennant. Team members in the front row are, left to right: Jim Golden, Marty McNish, Ron Valente, George Vitale, Ron Savare and Paul Giordano. In the rear row are, left to right, Bill Cheatham, Ray Cozzorelli, Coach Paul "Bud" Hochstetl, Laird, Mr. Lampman, Assistant Recreation Superintendent Harold F. Brandt, who is League director. Team members not present are Charles Apostol, Jim Gormley and Kevin Roberts.

## "Who's Trying To Get Whom Off Hook?" He Asks; Favors Local Project By And For Town

Commissioner Elmer Hyde, director of parks and public property, took a strong position, yesterday, in opposition to the Passaic Valley Planning Association's proposal to incorporate 64 lots of the estate land along the Third River in Belleville-Nutley Park. "Who's trying to get whom off the hook," Commissioner Hyde asked in a hypothetical question.

Although he favors future development of municipal park and playground facilities on town-owned land along the Third River, Hyde said, in an exclusive interview with The Belleville Times yesterday, that he will not fight the scheme proposed by the Planning Association.

"It has come to my attention through the press, that certain individuals are proposing a County Park in Belleville, which will include the purchasing of 67 lots from the Rutan Estates at a cost of \$186,000 plus an additional 4 acres known as the Zimmer tract in the same area, at an undisclosed price," Hyde told The Times-News.

"To make my position clear in this connection, I have repeatedly been in favor of better recreation for our children and especially a strong advocate for a municipal park."

"However, I must oppose this plan if the main reason for this is to save the town of Belleville from the financial burden of a building who has apparently made a very bad business transaction."

"Belleville, for its size and size, has already turned over to the County a larger proportion of property than any other town of its size in the County and it can ill afford to continue this practice."

"As director of Parks and Public Property I have repeatedly recommended development of a park in the Third River area to the town of Belleville for the citizens of Belleville."

The Rev. Raymond Matthews of Newark will be guest speaker at the evening service at Little Zion U. S. Church, 67 S. 154th Street St., at 8 o'clock Sunday, Sept. 8. The Rev. M. A. Farrar is pastor of the church.

## Increase Pushes School Past Capacity; Meetings Of Staff, General Data Listed

Superintendent of Schools Evan H. Thomas announces the opening of Belleville schools Tuesday, Sept. 10. A list of names of high school pupils, together with the roomers to which they are assigned, appears elsewhere in this issue.

The average total enrollment for the 1957-58 school year is 5203. The superintendent reports he does not anticipate any significant increase in elementary enrollment. However, high school enrollment will reach 1560, and increase of 221 pupils.

"According to the 1950 Columbia University Survey report, the reasonable capacity of a high school 1125 pupils. Thus, it can be seen that this year our high school enrollment will exceed this reasonable capacity by 434. To say the least, Belleville High School's capacity is fast reaching the saturation point," the superintendent stated.

School Superintendent Thomas requests the cooperation of parents, Parent-Teacher Associations and employers to encourage their children to stay in school when the bells ring in their localities this month.

At 10 o'clock Monday morning, Sept. 9, there will be a conference of all principals and staff members in the superintendent's office. Following the principals' conference, there will be a general teachers meeting presided over by Mr. Thomas and attended by all principals and teachers in the school district auditorium at 11 a.m.

Grade School principals (Kindergarten through Eighth Grade) will report at 8:40 a.m. to 8:55 a.m. at their respective school buildings and should be in the rooms to which they will be assigned later than 8:55 a.m. Grades K-8 will be dismissed for lunch hour at 1:30 p.m. and will return at the afternoon session at 12:40 p.m. The afternoon session will end for those pupils at 1:15 p.m.

### CASE OPPOSES, RODINO SUPPORTS, FBI FILE CONTROL

Senator Clifford Case and 10th District Congressman Peter W. Rodino took diametrically opposed positions in the Administration's efforts to protect the Federal Bureau of Investigation files by regulating their disclosure. The Senate and House bills were intended to narrow the effects of the Supreme Court's June 3 decision in the Jencks case.

In a House vote on Tuesday, Congressman Rodino, a Democrat, voted for the Administration measure which was adopted by a vote of 361 to 17. In the Senate, on Monday, Senator Case was one of six Republicans who voted with 39 Democrats to defeat amendments sought by the Administration to the bill authored by Senator Joseph C. O'Mahoney, Democrat, of Wyoming.

Rodino supported the Administration in its efforts to tighten the security even though the chairman of the House Judiciary Committee, of which Rodino is a ranking member, Rep. Emanuel Celler, Democrat, of Brooklyn, said that the bill "exaggerates the need for legislation."

In Columbus, on Tuesday, also, Rep. Rodino voted for the passage of the compromise civil rights bill which the House adopted, 279 to 97.

### THIRD RIVER

(Continued From Page One)

"To this point the approximately four acres of land suggested has little more than scenic, drainage and local play

area value — however, it is our understanding that the Town of Nutley is in a position to donate most of the land to the County Park Commission. We hope the County will view kindly this link between Third River and the following suggested major recreational area. Continuity of the park system along Third River in our opinion has great merit.

"The entire Nutley area from the end of the drainage strip across the town center to Prospect Street to the Belleville line and including the Third River, covering approximately six acres, should be purchased for County Park purposes. The property averages better than 400 feet depth off Prospect Street, which is certainly adequate for active recreational purposes. Currently it is in use as an active truck farm. The land is fairly level, sloping gently toward Third River.

"Therefore, in Nutley we propose a total of approximately ten acres for County Park purposes, the area is of high scenic value and is well suited for active recreational purposes, leaving only two acres for possible future development reserve purposes.

"Between the Nutley line and the Third River we propose approximately twenty-two acres of parkland. Included in this figure is the Public Service right-of-way, eight acres of which can be utilized for active large scale recreational activities. We have included 350 feet of frontage on Franklin Avenue, suggesting the vacation of Trison Place. The entire lake bed, now being filled, is included in our area proposal.

"Included also are 67 lots of Section 2 of Rutin states. At least fifteen of the lots are in a flood area, and questions concerning their use have been proposed by engineers consulting with us on the project. The subdivided area is still under active acquisition, so there is still time to acquire by purchase or condemnation the 67 lots in question.

"Our park design in this section suggests home along Plenge Road and Gregory Terrace fronting upon the county park. We feel that Belleville will reap an increase in value in the proposed residential construction. We also recognize that the county may have to share street costs with the developers. We have also striped off the dangling lots along Jonlemont Street. We feel this will enhance real estate value generally.

"We join Mayor Hildore J. Padula, of Belleville, in suggesting that an eleven acre tract south of Jonlemont Street be taken over for County Park purposes. The area is very low and marshy but could in time be improved. The proposed park area abuts a cemetery and lies in nicely with County plans for possible relocation of the Jonlemont Street Third River culvert.

"Therefore, in Belleville we propose approximately 33 acres of County park land. Much of this area is unsuitable for build-

ing purposes, and four acres is taken up by Public Service right-of-way.

In conclusion, this County Park proposal in total area covers approximately forty-three acres. In the final analysis, its best and highest use as far as the Towns of Belleville and Nutley are concerned would be for park purposes — as the park will tend to promote and preserve proposed and existing residential values in the region, while the high density of development is out of keeping with modern metropolitan demands for spacious suburban living."

church he had founded here four years earlier. When the Friendly House Community Center was added to the church in 1929, Mrs. Pascale directed the serving of 4,000 meals to the volunteers who erected the building. From its founding to her death, Mrs. Pascale had much to do with the playground at the center.

Throughout the 39 years of her marriage and association with her husband's church, Mrs. Pascale served as choir director and organist. One of her outstanding achievements was the creation of Junior, high school and adult choirs within the church. The senior group sang in concerts all over this area, a high spot being the choir's appearance at the New York World's Fair in the Flushing Meadows, New York.

Mrs. Pascale's activities also included representing the local

church in the Women's Auxiliary of the Baptist Home for the Aged in Newark and in numerous denominational and interdenominational organizations in the Belleville-Newark area.

Surviving Mrs. Pascale in addition to her husband are a son, the Rev. Elmo Pascale, who is director of the Student Christian Movement of Belleville, and a grandson, a vocal soloist. Three grandchildren also survive.

### OLDER

(Continued From Page One)

The eligible woman who was 62 in November 1956 may apply by November 30, of this year, and under certain conditions, receive benefits for all months back to November 1956. "Eligible women" include the wives of retired workers who are receiving retirement benefits themselves, and women who, on the basis of their own employment, are insured for retirement benefits. The latter's benefit at age 62 is reduced 20% from the amount she would receive at 65, and once reduced it generally stays reduced for life. The wife's benefit, based on her husband's benefit, will be reduced by 20% if she applies at 62 instead of 65 years of age. Widows aged 62 and dependents mothers of deceased insured workers, however, are given preferential treatment under the law. In their cases, there is no reduction in benefit amount at age 62 — they receive the full widow's or parent's benefit based on the deceased worker's account.

According to Mr. Wilkie, the eligible wife or retired woman worker, who postpones her decision to file after November 30, may still pick up the maximum of 10 retroactive years — reduced for life. Any benefits she has not claimed between the ages of 62 and 65 will serve to make her life-time benefit amount slightly higher when she does apply.

Mr. Wilkie feels this provision of the law is so important to under 65 year old women that they should get more specific information from the social security office. Full information and free booklets, "Benefits for Women" may be secured from Essex County

social security offices located at 1016 Broad Street, Newark; 2 Broad Street, Bloomfield; 428 Main Street, East Orange; and 1040 Springfield Avenue, Irvington, New Jersey.

### SCHOOLS

(Continued From Page One)

Sanford Ave. will begin at 9 o'clock. The Board of Education provides transportation to Belleville children enrolled in all special classes.

The first two days of school this year Kindergarten children will attend for only a one-hour session. That is a continuation of a practice begun in 1953. This practice of short sessions was instituted so that Kindergarten children might make a less transition from home to school with the least amount of emotional disturbance. Similar Kindergarten orientation programs are to be found in most of the schools in this area.

**Cooperation Asked**  
The cooperation of parents of Kindergarten children is requested. Mothers are urged to call for their children who are attending the morning session at 10 a.m., and for those who are attending the afternoon session at 1:45 p.m. Any details regarding this innovation will be cleared up by contacting the building principals.

The school session for special classes, slow-learning children, will again be a continuous one from 9 o'clock on, since the Board of Education has approved an early closing of the school day for these pupils. Special class children will be dismissed from the James G. Shawer School at 2:30 p.m. daily.

### Bus Provided

According to previous practice, the Board of Education provides bus transportation to children enrolled in these classes. To comply with the state law that requires school systems to provide for the education of all trainable children hitherto largely excluded, the Board has established a special class for trainables in the Shawer School. A state-approved school psychologist handles the screening of such children, and will also oversee all the guidance and testing services of the school system.

### Who May Enter

Children who are five years old or

before Dec. 31, 1957, may be admitted to Kindergarten in September 1957. Children who are six years old or will be six years old on or before Dec. 31, 1957, may be admitted to the First Grade in September 1957. The Board of Education wishes to state that there will be no deviation from this policy which has been in force for 18 years.

All new entrants to the Belleville schools must present a vaccination certificate by Sept. 21 in accordance with a long-standing policy of the Board of Education.

**Parents Cautioned**  
Mr. Thomas cautions against overlooking the importance of Kindergarten for their children, but in spite of this fact each new year a few children who have not had the advantage of Kindergarten are registered in First Grade. He says: "To deny a child Kindergarten advantages is not only unfair to the one so unfortunate, but it is also unfair to the rest of the children who attended Kindergarten, since it requires of the teachers time to care for such an individual which normally could be spent on the whole group. To deny a child the advantage of Kindergarten training places him at a distinct disadvantage."

Most children were registered for Kindergarten in the closing months of the past school year. If your child is not registered, you are requested to register your child for Kindergarten on the very first day of the school year, Sept. 10, if at all possible, so that he may enter into the new adjustments to be made when all other children are having similar experiences.

The School Law clearly states: "Children who shall have never attended a public or private school may be admitted to a public school during the ten days immediately following the opening of said school and at no other time except by a majority vote of all the members of the Board of Education of the school district in which said school shall be situated."

# Letters To The Editor

## RECOMMENDS REAPPOINTMENT OF MAGISTRATE ABROMSON

Editor, Belleville Times-News:

While the time is yet remote, almost 4 months in the future, our town Commissioners should give serious thought to the comments Governor Robert Meyner uttered recently at the annual magistrates conference at Trenton, presided over by former Chief Justice Arthur T. Vanderbilt, when they consider the reappointment of Belleville's municipal magistrate, Edward J. Abromson.

The Governor emphasized the advantages of according to local jurists that degree of "reasonable tenure" that would unite local courts from municipal politics, which, he said, sometimes is inevitable where there are no provisions for "reasonable tenure and the magistrate is subject to the whim of the local administration which happens to be in office at the time the judge's term expires.

Judge Abromson has conducted his court in a commendable manner consistent with the most admirable precedents advocated by New Jersey's eminent and renowned late Chief Justice Arthur Vanderbilt. Belleville's magistrate has lent dignity and refinement to the administration of justice on the local level, which indicates the desirability of according to him that tenure protection assured by reappointment.

Gov. Meyner, in his comments, suggested that magistrates contribute to the "respect for and understanding of the law," among other things, by joining in work to curb juvenile delinquency. Judge Abromson did, some time ago, take just such action in a well-rounded proposal to our town Public Safety Director, and town governing officials. That his recommendations of considerable merit were not favorably acted upon can in no wise detract from his sincere and valuable contribution to fulfill in abundance those obligations which the Governor urges of members of the state municipal judiciary.

The state's Chief Executive by his comment that he would "give sympathetic consideration" to any proposal to give them (magistrates) reasonable tenure may soon open the way for legislation to take this vital judicial officer out of the no-man's-land of politics.

Until this becomes a reality, it would be well for our Commissioners to forget politics and, in heeding the Governor's suggestion, retain a good magistrate to justice.

## Rodino Corrects Letter

To The Editor, The Times-News:

My attention was called to an item which appeared in The Times-News on August 15, "Congressman Rodino Votes For Raise In Postal Rates." This article is in error.

I voted against the increase in postal rates on first class mail. My reason for this action was based on a close study of the committee report on this legislation. The committee report, which is identified as Report 524, clearly indicates that first class mail is paying its own way.

Therefore, in my opinion, there was no justification for an increase of rates in this class of mail. However, according to the same committee report, second and third class mail do not pay their own way.

Yet, according to this legislation, first class mail users would be required to assume the deficit incurred as a result of the handling of second and third class mail. To be precise, according to the report, second class mail is 24.7 percent of the total mail handled in pound weight.

Despite the fact that second class mail is one-fourth of the total mail handled in pound weight, this mail pay into the Post Office receipts only 2.7 percent of total revenues. That means, in plain language, that for 20 percent of use there is made a contribution of less than 3 percent to the cost.

In the committee report's own words: "Since 1945 the costs of handling second-class mail have exceeded revenues from this mail by over \$2.3 billion. In 1956 the excess was \$252,000,000. The (second class) increases recommended by the committee will produce additional revenue of \$33 million when all rate adjustments are in effect."

In summary, this means that as a contribution to an annual loss of \$252.3 million in the handling of second class mail, the public is responsible for the loss, and benefiting from it, pay only \$10 million leaving \$242.3 million to be borne by first class mail users and others.

Therefore, in good conscience, I could not lend my support to such an inequitable distribution of the rate increase.

Peter W. Rodino, Jr., M.C.

## "The People's Welfare"

To The Editor, The Times-News:

As State Chairman of the Communist Party, I wish to make the following statement in reply to allegations made about me by William Wallace, FBI informer, before the House Committee on Un-American Activities.

## Un-American Activities

Wallace's testimony before the House Committee, like that of other informers, is a pack of lies. In the first place, he does not tell the truth about his membership in the Communist Party. He claims he wanted to quit the Party in 1952 but was prevented from doing so by the FBI who prevailed upon him to remain as an undercover agent for three years.

The real facts about his membership are that the Communist Party of New Jersey dropped William Wallace from its membership rolls in the winter of 1951. He was expelled for responsibility and personal conduct unbecoming a member of our organization.

His references to my relationship to the Singer strike of '49 are equally false. His statement that I "kicked off" that strike must have given the workers at the Singer plant a big laugh.

The Singer strike was caused by the refusal of the Company to meet the union's demand for job security. Every Singer worker knows the strike was decided upon by a vote of the union and not by any outside force.

Even more ludicrous is Wallace's statement that I "collected" data from people working at the P. T. & R. and other plants on radar and on the Navy bombight but he does not know what I did with it.

My life-long efforts on behalf of labor are a matter of common knowledge. They have never been secret or clandestine. During the strike waves of the latter 40's I was very active in a community-wide movement to help raise funds and food for strikers.

I took a leading part in a public lobby at the State House where strikers pressed their demand for unemployment compensation for strikers. This demand is being raised again by many trade unions and the CIO's legislative program. My personal record, like that of the Party I represent, has always been one of defending the best interests of the working people and to rid our State of poverty.

Wallace's lying testimony is obviously just another effort by

one of the FBI's newest stool-pigeons to attack the labor and liberal movements of our country. But the recent events show that the informer racket is being exposed and discredited in our country.

The recent Supreme Court decision dealing with the testimony of informers will speed this process, while the labor and progressive forces who champion the Bill of Rights and the people's welfare are making significant advances.

Martha Stone,  
471 Clinton Avenue,  
Newark.

## To The Editors The Times-News

"Firewater" has long produced its demonic effects. Reluctantly, accepted by a modern society which insists upon its strict control; its menhite influence sometimes has an unholy way of seeping over into fields which should be spared its degenerative tendencies.

Its siren call luring many of our youth to perdition, as witnessed by the many tragic deaths and heinous crimes fomented by its reckless use leave a wake of broken hearts and despairing homes.

No course of "demon rum," however, can be more revolting nor more devastating than sinister attempts at political traffic in the mechanism of rigid regulatory control of this industry, which properly managed assumes a standard of prim respectability.

Belleville lacks a local Board of Alcoholic Beverage Control, an Excise Board, to control its liquor outlets. Instead the town Commissioners, politicians, run the

Two often their friends, some whisky salesmen frequently seen in the company of some of our town commissioners, seemingly attempt to peddle influence in a manner that reflects a harmful challenge to unbiased, fair handling of alcoholic matters. One questions if such interference isn't unlawful or proscribed by State ABC regulations.

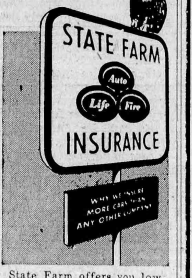

It definitely is not fitting for a town commissioner to be "invited" to hear saloon-keeper's pleas, no doubt, to influence his voting stand in the atmospheric environment of a tavern setting.

With an election looming, and considering the strong effect tavern "support" has in the past had upon local election outcomes, one must deary such tactics and subject to ridicule the Commissioners who ascribes to such type of electioneering.

His presense under such circumstances, whether he considers it "educational" or otherwise indicates the compelling need to take liquor out of politics. This may best be done by establishment of an independent Excise Board, free of political influence.

small clique on the inside officiously injected themselves into the running of the town's affairs in an unofficial capacity. It would be wise for our town commissioners to shuck off, now, and forevermore, these dress whose interests seem purely selfish and not in the public's behalf.

Harry E. Port, chief boat-sweeper's mate, USNR, son of F. A. Port, of 138 Forest Street, has returned to his home in Corpus Christi, Tex., after having spent two weeks aboard the escort vessel USS Haas in a training cruise in the Gulf of Mexico and the Caribbean Sea.

Young Port, a graduate of Belleville Grammar and High

Schools, spent 6 1/2 years in the navy on active duty, being discharged in 1947. He won the Silver Star decoration in Corpus Christi, where he lives with his wife, Judith, and their three daughters. Port operates a Ford dealership.

## TWO LOCAL NAVAL OFFICERS RECEIVE 'WINGS OF GOLD'

Two Belleville Naval aviators received the "Wings of Gold" of a Naval Aviator during designation ceremonies on Aug. 16 at the U. S. Naval Air Station, Corpus Christi, Texas.

One was Ensign Donald T. McCloskey, son of Mr. and Mrs. George R. Arnold, of 247 Ralph St., and a graduate of Belleville High School with the Class of 1951.

The other was Ensign Ralph R. Abrosio, son of Mrs. Josephine Zaccarelli, of 291 Union Ave.

Both officers won their wings while approximately half-way through the advanced training phase of flight training. Upon completion of the training course they will be assigned to operating squadrons in the fleet.

## RETURNS FROM LONG MEDITERRANEAN CRUISE

Boating Course Being Offered

The Northern New Jersey Power Squadron, a unit of the United States Power Squadron, will again begin free lecture courses in piloting and small boat handling on Tuesday evening at 8 p.m. at the Essex County Vocational and Technical High School, in Bloomfield, with Belleville boating enthusiasts invited to attend.

If you now own a boat or contemplate owning a boat in the near future, this is your opportunity to learn the fundamentals of small boat handling and to acquaint yourself with the rules and regulations that govern our waters.

These classes are conducted by well known local boatmen and will be given weekly for a period of ten weeks covering such subjects as the mariners compass, nautical charts, rules of the road and aids to navigation.

No other organization in the world has done more to develop interest in yachting and proper handling of small boats than the United States Power Squadron. Countless numbers have received instructions in these free piloting courses which are open to all.

Commander John Bergman urges all interested Belleville residents who wish to improve their knowledge of seamanship and small boat handling to take full advantage of these free courses.

### Foley Suffers Heart Attack

Bloomfield's Bill Foley, one of the greats in the scholastic coaching ranks suffered a mild heart attack recently and has been confined to Mountsinai Hospital, in Montclair. His condition was reported fair and visitors said he was in good spirits although his right side is partly paralyzed.

A coach and teacher at Bloomfield High School for 41 years, Foley piloted a number of championship football teams and won national recognition for his ability. He retired a year ago. Foley will always be remembered by old time Belleville football fans for the rugged games that always resulted when his Bengals and the Blue and Gold clashed head on.

### Kegling Season Closes In

The bowling season is not far off, and the nip in the air noticeably sometimes in the evening has sent once-awake keglers scouting for their bowling balls and searching for alleys where they may begin practice.

Summer bowlers are in the great minority, but the summer leagues are growing. Labor Day is the time for the starting gun for the regular bowling season.

Bowling balls may be new, so with the shoes. The alleys may be resurfaced, but you can bet the alleys will be the same old standards.

"I'm stale, I bowled too much this summer."

"This is a new pair of shoes I'm breaking in."

"I have a new bowling ball. Not used to it yet."

"Wait until mid-season. I'll be all right then."

### CYO Swimming Championships

A 10-event Essex County CYO championship swimming meet was run off at the Seton Hall University pool, in South Orange, last week.

Directing the meet was Harry McGarrigle, Seton Hall swimming coach and director of the Essex County CYO Swim Club. Only members of the swimming club, which closes its season next week were eligible to compete. Some 300 young boys are members of the club.

There were two races for beginners, four for intermediate swimmers and four for advanced swimmers. Medals were awarded for first, second and third-place finishes by Rev. Thomas Davis, CYO director.

Beginners competed at 30 feet and 25 yards. Intermediate and advanced swimmers were broken up into age groups of 8 to 10 and 11 to 14. For the intermediates there were races at 25 yards and 50 yards. The advanced swimmers competed at 100 yards and 200 yards. All events were freestyle.

An exhibition of clown diving was also part of the program which was open to the public.

The CYO operates a swimming club at Seton Hall each year. Daily swimming sessions are held during July and August with instructions for all members a feature of the program.

## SOFTBALL LEAGUE EDGES FAIRWAY

### Winners Bunch 5 Hits For 4 Runs In Seventh Frame To Cap Title On Tuesday

The Playground Junior Softball League was closed out this week with a league-ending game and a playoff to determine the championship. On Monday, Fairway Court defeated the Recreation House by a 9-2 score at the Municipal Stadium. Fairway got off to an early lead by scoring three times in the first inning.

In the third inning they added two runs on a hit by Frank Dunn. Vito DiRuggiero, pitcher for Fairway, limited the Recreation to six hits and two runs. Elmer Haag pitched for the losers. The Fairway victory placed them in the title with the Stadium for first place.

On Tuesday, Fairway Court met the Stadium in the playoff game for the championship. Fairway scored first in the second inning on a series of hits which culminated in a home-run hit by Joe Vaso. This gave them a two-run bulge which they increased with another run in the third inning.

Fairway's lead held up until the seventh inning when the Stadium bunched together for a four-run rally and the margin of victory.

George Sheridan hurried for the winners and got a big assist from Joe Caffrey who came through with two hits. Richard Patone pitched for the losing Fairway team.

### W. P. ROBLES BEGINS TOUR OF DUTY AT AFB IN PUERTO RICO

Airman Third Class Walter P. Robles, son of Mr. and Mrs. Iphigene Robles, of 586 Union Ave., recently arrived at Ramey Air Force Base, Puerto Rico.

He has been assigned to the Field Maintenance Squadron, a part of the 72d Bombardment Wing, which flies and maintains B-36 inter-continental bombers in performance of the Air Force's world-wide mission of preserving peace.

Airman Robles came to Ramey from Walker AFB, Roswell, New Mexico.

Ramey AFB is an overseas Strategic Air Command (SAC) airbase in the Caribbean, and is located approximately 90 miles west of San Juan, capital of Puerto Rico, 1000 air miles southwest of Miami, Fla., and 1600 air miles south-south-east of New York City.

### Forbes Rings Our Doorbells

State Senator Malcolm Forbes came to town yesterday to ring our doorbells and to ask us to vote for him, next November, in his fight to unseat Governor Meyner. Ringing our doorbells with him, by remote control, will be President Eisenhower.

Since the G.O.P. defeat in Wisconsin last week, a Republican victory in New Jersey in November becomes imperative. There is one difference, and a major one: In Wisconsin, Governor Walter J. Kohler, Jr., asked no help from the White House while Senator Forbes asked for, and is receiving, all the help that the Eisenhower administration can give him. While defeat in Wisconsin was hard to take, it was not an Eisenhower defeat. In New Jersey, Eisenhower is committed to a Forbes victory.

The White House has sent as its spokesman the President's appointments secretary, Bernard Shanley, who, although too little known to fare well in the G.O.P. gubernatorial primary was, none the less, The Times' News preferred candidate as a representative of "modern Republicanism." At the White House's urging, also, New Jersey's Senatorial and Congressional legislators, of a Republican stamp, are sharing in the gubernatorial campaign.

Happenings in Wisconsin apparently took the Democrats as much by surprise as they did the Republicans. In Democratic leadership circles, however, the brass is too smart to write off Kohler's defeat as an Eisenhower defeat although contending that there has been a shift of opinion since the President's overwhelming re-election just a year ago.

Here in New Jersey last year Mr. Eisenhower scored a tremendous 756,000-vote majority. It is obvious that that electoral strength cannot possibly be shifted in its entirety to Senator Forbes. To shift as much as possible, however, is the purpose of the White House's direct intervention. So

when your doorbell rang here yesterday, Senator Forbes was standing there but President Eisenhower's finger was on the button. R.E.H.

### Juvenile Delinquents Are Made, Not Born

Belleville, with the skyline of New York City on its horizon, is blessed with a freedom from the greatest scourge of the big cities — juvenile delinquency and its criminal expression in gang fights and killings. It is our contention that juvenile delinquents are not born criminals; they are a product of their unhappy environment.

With the reopening of our schools this week, the town's Summer playgrounds close but the valuable "Rec" program goes on through the Winter. Organized play has been proven to be the best antidote there is to delinquency. When there are idle hands, trouble is bred. Youthful energies and competitive spirit are served better in organized play than they are in gang conflict.

Belleville's "Rec" program is costing each of us \$1.35, this year. It provides organized recreation in six play areas for 4,000 children. The whole municipal budget for "Rec" for the year, is \$48,783. That provides the competition of the boys' leagues for baseball, softball and basketball. The program is so varied and so complete that, around the calendar, no Belleville boy or girl should get into trouble because there is nothing else to do.

No town in this area offers a more complete recreation program, and none spends less, per capita, than Belleville. Commissioner Elmer Hyde's annual report, made public this week, shows that in contrast to the per capita cost of \$1.35 here, the average throughout Essex County towns is \$2.07 per capita and some communities spend as much as \$5 per capita.

As an insurance against delinquency, our "Rec" program is worth many times over the amount we invest in organized play. R.E.H.

## One Man's Opinion

Russia May Provoke UN Debate On Algeria To Rally Arab Support For Her Action In Hungarian Revolt

By Ralph Eric Heinz

In diplomacy, as in military strategy, the best defense is an offense.

On the defensive in Hungary, Communism can be expected to go on the offensive over Algeria, and perhaps, over Syria when the 11th General Assembly of the United Nations reconvenes in New York City next Tuesday to resume its debate of the Hungarian repression. Russia and her satellites are preparing to answer the UN's scathing denunciation of Soviet policy and practices in Hungary by provoking, if possible, Assembly intervention in Algeria — over the stubborn resistance of France.

It is not even certain that the Hungarian regime of Janos Kadar will be represented at the Assembly. The Hungarian delegation walked out of the Assembly debate, at the height of the Hungarian crisis, and may not return Tuesday for the renewed 11th Assembly session, preferring to wait for the 12th Assembly session to follow shortly after.

About 86,000 Algerian insurgents have been killed and 20,000 captured by the French since the Algerian "freedom revolution" started on November 1, 1954. French losses include 4,000 military dead and 10,000 wounded, in addition to 6,000 Muslim civilians murdered by insurgents for supporting the French.

The entire Arab world sides with the Algerian rebels and would like to provoke a debate on the Algerian "war" in the UN. France, this far, has prevented Security Council action by using her veto. She cannot prevent an Assembly debate, however, if Moscow pools her votes and those of her satellites with those of the Arab nations and lands, such as India and Indonesia which take every opportunity to condemn Western "Imperialism."

Technically, Tuesday's UN meeting will be a "renewed session" of the eleventh General Assembly with its agenda limited specifically to the report of its five-member committee on Hungary, circulated in June, a 150,000-word document in English, French, Spanish, Russian, Chinese and other languages.

#### Blame For Moscow

The document was drafted by a special committee that spent five months taking testimony and examining records.

The committee agreed unanimously that the Soviet Union had used crushing military force to put down the revolt last fall. They also agreed that the present regime of Premier Janos Kadar had been installed and was kept in power by Moscow.

The eleventh Assembly recessed on March 5, subject to recall "as necessary" to consider either the Hungarian or the Middle Eastern situation.

period, arrived at the formula: an Assembly session on Hungary "as soon as practicable" — in other words after some consultation among friendly Governments and an attempt to work out lines of future action. Later, the United States plumped for the date of Sept. 10 now agreed upon.

Secretary General Hammarskjöld suggested last week that he might yet visit Hungary — from which he was excluded earlier this year — if that might be useful and if the Assembly so decided.

Most delegates appear to think it unlikely, however, that the session would recommend such action on the part of the United Nations' chief negotiator.

Reds Oppose Discussion

Meanwhile, of course, the Communist bloc stands opposed to any discussion at all of the "internal affairs" of Hungary — the characterization given to the revolt and the Soviet suppression thereof by Dimitri T. Shepilov, then the Russian Foreign Minister, at the last Assembly.

Some other nations, which base their policy on a balance between the Soviet Union and the West, also were unenthusiastic over the special meeting. Among them, it was understood, were some of the Asian-African group, now the largest in the United Nations.

They are certain to raise the issue of Algeria in the 12th Assembly.

Some of these, last year, were definitely reluctant to approve the Assembly's harsh condemnation of the Soviet action in Hungary as an open violation of the United Nations charter — a charge underlined even more strongly in the committee report.

It was quietly made known, for instance, that India, although willing to go along with the majority on the special session, would have preferred reference of the Hungarian issue to the regular twelfth assembly.

As the question stands at the moment, the course the renewed Assembly session may follow is doubtful.

At the least, the eighty-one-nation body could accept the report, without other action.

It could accept the report with another resolution condemning Russia and again urging the evacuation of Soviet troops from Hungary. Or it could send the Secretary General to Budapest to see what could be done by classical diplomacy.

RIGHT NOW is the time to purchase that BEAUTIFUL

NEW BUICK!

There are many reasons but a few to start you thinking might be:

FIRST:

Reliability and performance. We've had almost a year of experience with the cars you get now giving us the opportunity of delivering cars as free from "break-in bugs" as possible.

SECOND:

There is ample time to enjoy your car before winter sets in, and you'll want that new car to get you through the winter without the fuss and bother associated with your "used car".

THIRD:

PRICE — during September and October we are making every effort to clear our stock for the new models. We're letting them go for just about our own cost. "All we want is enough to assure us that you'll get all you're entitled to with the purchase of a new car."

*The Peaches are Great...*

### FROM THE GARDEN STATE

New Jersey is famed for the peaches which are produced in her orchards...and high-quality, tree-ripened New Jersey peaches are in the market from mid-July to mid-September.

Many of the top varieties of Garden State peaches were developed at the N. J. Agricultural Experiment Station at Rutgers, the State University.

Local residents can get these delicious peaches from their table fresh from the orchards because they are grown so close to nearby markets. With the exception of some earlier varieties, they are free-stone and suitable for canning and freezing. They are picked at a near-ripe stage and pre-cooled before shipping.

Next time you are buying fruits and vegetables, ask your grocer: "Are they from Jersey?" Help yourself to the riches of the Garden State.

MILLIONS RELY ON A&P FOR WELL-FED FAMILIES...

# AND *Well-Run* BUDGETS!

Nice picture, isn't it? A man, completely relaxed, secure in the knowledge that he has a little pile of money saved that's earning extra income for him every day.

How does a man on average income do this? You, for instance? It's easier than you realize. All you have to do is sign to invest in Savings Bonds on the Payroll Savings Plan.

You see, you don't have to save a lot at a time on the Payroll Savings Plan. There are people who save only \$3.75 a week on the Plan. (But that \$3.75 a week can bring them \$5,153.72 in U. S. Savings Bonds!) Imagine what just a few dollars a month will accumulate for you. And now—with the new earning power of these Bonds—the money you invest in them will bring you *more* interest, for *more* years, than ever before in history. The simple chart below explains it all to you.

Best of all, you'll find that you can save on the Payroll Savings Plan, even if you've never been able to save in the past. Because the money is saved *for you*, before you have a chance to spend it.

Put yourself in that picture of a relaxed, secure person—today. Sign the Payroll Savings Plan where you work. Or, if you are self-employed, go to your bank and have your banker get you started in the automatic Bond-A-Month Plan. It's as simple, as helpful, as the Payroll Savings Plan!

How you can reach your savings goal on the systematic Payroll Savings Plan			
If you want approximately			
	\$1,000	\$5,000	\$10,000
Each week for 5 years, save	\$3.75	\$18.75	\$37.50
Each week for 9 years and 8 months, save	\$1.85	\$8.80	\$18.75
Each week for 19 years and 8 months, save	\$0.75	\$3.75	\$7.50

This chart shows only a few typical examples of savings goals and how to reach them through Payroll Savings.
