The Wesley Methodist Church

Wesley Methodist Will Celebrate Its 169th Anniversary Sunday

Wesley Methodist Church of Belleville will celebrate its 169th anniversary this Sunday at the 11 o'clock service. The theme of the anniversary celebration will be "Inspiration from the Past to meet the Challenge of the Future" and the pastor, Reverend Clifford A. Hewitt will conduct the service, which will feature a birthday cake with 169 candles.

The church was founded in Belleville, then known as Second River, in 1791, the year of John Wesley's death, and only seven years after the world's first Methodist church was organized at the Lovely Lane Meeting House in Baltimore, in 1784.

EARLY HISTORY
The starting growth of Methodism to nearly 10 million, making it the largest Protestant denomination in the country, was due, particularly in the early

days, to the "circuit rider," an institution which Methodism did not invent but brought to its fullest flower.

The rider was an itinerant minister, his saddle bags, stuffed with scriptures and tracts, who served a circuit of some 20 or 30 points of ministry.

Francis Asbury, the circuit riding "apostle of the Long Road" estimated that he covered about 6,000 miles a year on horseback preaching and exhorting. After the Revolution, the English Wesleyans had sought to remain within the Anglican Church as a Society of Methodism. Francis Asbury led an informal organization of 83 circuit-riding preachers and organized the Methodist Church. Their average age was only 35 because the circuit was a grueling experience and few lived to a ripe old age.

Belleville was the scene of Bishop Asbury's first preaching within the Newark area on August 29, 1774. He wrote in his diary, "I visited Second River, where a number of Low Dutch people attended the word, which was delivered with a blessing." After 1790 Asbury often travelled through Second River on his trips between New York and Philadelphia because of improved roads and the Passaic and Hackensack bridges. On May 5, 1806, he wrote, "I preached at Elizabethtown and then on to

Newark. After stopping a while we moved forward to Second River and called a meeting . . . We have a warm day, the harbinger of spring. Universal nature seems stealing into innumerable forms of promise of the fruitful year—O that it may be so spiritually!"

ORGANIZED IN 1791

The church was organized in 1791 through the efforts of two young women, Miss Margaret Dow, later Mrs. William Holmes, and Miss Mary Ann Stewart, who became Mrs. S. W. Bonsell. Through the joint labors of the two young women, who first conducted meetings in their homes,

Rev. Clifford A. Hewitt

the group eventually grew so large that a church building was required and in 1803 an edifice was erected on the west side of Main Street, south of Belleville Avenue. This was replaced in 1846 by another building on the same site, which was abandoned in 1900 for the present structure on Washington Avenue at Academy Street.

With a membership of 650, the congregation has completed a fund raising drive to provide for a new organ and a youth education addition to take care of its growing needs for service to the community.

Snow Storm Hits Hard, Local Man Dies Of Attack

The biggest snow story since 1947 hit this area last week and sent scores of municipal workers into a huge mop up program. The snow fall, which measured 13.8 inches at Newark Airport, caused insurmountable traffic jams and confusion. One Belleville man's death was attributed to the storm.

Alfred F. Esposito, of 80 DeWitt Avenue died of a heart attack while shoveling snow in front of his home Friday afternoon.

The snow removal operation and street cleaning was supervised by Hugh Welsh, administrative assistant, department of public works, and by Commissioner Robert Gruhin.

At the height of the storm, the department had 37 men and 13 plows scattered throughout town. Twelve outside men were hired eight hours each to assist with the cleanup.

Welsh told The Times, "it was the biggest storm we've had since December 26, 1947."

LUN TOO

A survey of local parks over the weekend found hundreds of children and adults participating in winter sports. Sleigh riding was most popular as can be expected. Some visitors at Belleville Park wore skis, others made snowmen. Old-fashioned sleighs, brought along summer lawn chairs, donned sun glasses and relayed watching children and parents bounce on and off sleds on the park's steep hills.

Welsh notes that trucks went into operation 7:15 a.m. last Thursday as the storm approached.

Approve '60 Budget With \$8.25 Tax Rate At Golden Talkathon

After listening to citizens for two hours of which all but 12 minutes were occupied by comments of James Golden of Tappan Avenue, the Belleville Board of Commissioners Tuesday night adopted an unchanged 1960 municipal budget totaling \$2,704,751.

Mayor Isadore Padula reports the new tax rate for Belleville will be \$8.25, an increase of 25 points and one of the lowest in

creases this year among Essex and result in lower insurance premiums.

Golden was the first to speak at Tuesday's public hearing on the budget. With several books, penciled memos and typewritten notes, he began his marathon which literally touched upon every item in the schedule at 8:10. His talk concluded two minutes before 10 o'clock.

ASK 21 POINT CUT

A frequent critic of town affairs, Golden concluded his remarks by asking the commissioners to cut the budget \$147,916, or 21 tax points.

His examination of the budget included such picaresque items as a \$7.50 increase for water bills of the public library. He criticized the creation of a \$500 a year job of a public relations officer for the department of public property and asked for the elimination of the assistant town attorney's post.

Most startling of Golden's remarks Tuesday was the suggestion that the commission forget about the proposal of adding 10 new firemen which supposedly would raise Belleville's ratings

FORGET FIREMEN

Golden said that the increase taxes to affect the higher ratings (the 10 new firemen, a possible new firehouse and a fire tower) would actually cost the homeowner more in taxes than would be saved if this costly program were adopted and insurance rates lowered.

He said \$36,000 could be eliminated from the budget if this suggestion had been accepted by the board.

Other highlights of Golden's remarks, which were briefly echoed by tired citizens who waited until the Tappan Avenue resident finished to address the commission, included the inclusion of salaries in the budget "for jobs which are not filled today."

Among these vacant jobs, Golden said, is the health officer who is to receive \$6,000, two school crossing guards and a number of posts in the department of public affairs.

"I am endeavoring to prove that the 26 tax point increase is unwarranted and is the result of excessive fat," he told the public hearing.

Addressing himself to Robert Gruhin, commissioner of public works, Golden said this department "has heavy payrolls and there seems to be needless jobs . . . no-show jobs."

Gruhin snapped back saying "these are all unfair accusations and you've made them all before."

SURPLUSES

Golden asked that additional surpluses be used. "You told the board of education to use its surplus, why don't you do the same?" he asked. He then went on to attack the \$10,000 appropriation for the planning board ("I predict that this is only the beginning with this board" he said) and asked that \$3,000 be slashed

The transformation of a house into a beautiful home is often accomplished with just a little paint and a few repairs.

Often the reason for putting off the making of improvements is that the owner does not have the ready cash. Probably he does not know that our modernization plan could help him.

Thank You — Belleville Foundation!

Recently The Belleville Foundation announced the establishment of a \$25,000 revolving fund to provide direct loans to religious, fraternal, civic or other organizations operating in the Town of Belleville to aid capital improvement projects within the town.

The first beneficiary of this fund is the Fewsmith Memorial Presbyterian Church which has been granted a loan to aid it in the completion of its Christian Education Building. The Community Aid Fund will operate in addition to the Foundation's Scholarship Loan Fund under which 42 Belleville students have received scholarship loans and as the fund revolves through the loan repayments an increasing number of students will be aided.

Few communities can boast of the existence of such a philanthropic organization whose members for the most part live elsewhere. Belleville is their adopted town. The citizens who head up the Foundation are unselfish, dedicated men. Some enjoy state and national reputations, being recognized leaders in their chosen fields of endeavor. They have contributed much and have asked nothing in return. This is citizen action at its best.

Twenty-five determined men in December of 1942 organized the Belleville Foundation. Its special activities have included child welfare, youth training, adult education, musical education, health and welfare, homes for the aged, and cooperation with religious groups and physical recreation programs. Much apprehension accompanied the birth of the organization. It was accused by some of setting goals beyond its reach. Cynics were on hand to discourage the optimists. Conviction, faith, and determination combined to produce for Belleville citizens an organization which is the envy of every surrounding town. The Foundation's leaders have merited the thanks of a grateful community.

Since its organization, The Belleville Foundation has had only two presidents, both outstanding citizens who have adopted Belleville as their second home. Harry Specht, former vice-president of Eastwood-Nealey Co. spearheaded the organization's incorporation in 1942 and remained president until he retired from the post in 1956. He was succeeded by an equally dedicated philanthropist, William J. Orchard, retired general manager of Wallace & Tiernan, Inc.

Under the leadership of these two great men The Belleville Foundation has contributed \$175,000 for Clara Maass Hospital; \$30,000 for Camp Ro-Li; \$30,000 for the Belleville Free Dental Clinic; \$20,000 for the Foundation Scholarship Fund; \$10,000 for the American Legion Hospital; \$6,000 for the Cerebral Palsy Fund, and now has established a \$25,000 revolving fund to provide direct loans to religious, fraternal and civic organizations.

The community has been enriched by the Foundation's activities. Belleville could use more of the community spirit reflected in the unique accomplishments of the Foundation. We in Belleville, could use a little more of that "togetherness" which has made the work of the Foundation such an outstanding success.

We congratulate the Belleville Foundation for establishing the \$25,000 revolving fund and with confidence we face the future with the knowledge that within the framework of the Foundation we have men who daily dedicate themselves to the task of making Belleville a better place in which to live and work.

A Point Well Taken

Recently, the Port of New York Authority was sued by a private citizen, Harry W. Wolkstein, a certified public accountant. Mr. Wolkstein, a Newark tax specialist, contends that the tax exempt status of the Port of New York Authority discriminates against private business.

In his suit against the Port Authority, filed in the United States District Court in Newark, Mr. Wolkstein challenges the Federal income tax exempt

status of the Port Authority's proprietary ventures and bonds. Mr. Wolkstein makes some very compelling arguments in favor of taxing the Port Authority.

"By the Port Authority's own estimates, rental revenues from its proprietary ventures in land and buildings would amount to \$3,600,000 in 1959." The point is that this rental income is accumulated under a questionable tax-exempt status which is the basis of Mr. Wolkstein's suit in Court. Far from substantiating its right to the privilege of income tax exemption, the Port Authority merely denies the jurisdiction of the U. S. District Court. In simple justice to the millions who pay taxes, it is the solemn obligation of government to insure a just enforcement of the federal income tax laws.

Mr. Wolkstein continues, "There is a compelling need for the investigation of the Port of New York Authority's financial practice:

- Are the Port Authority's financial reserves in excess of its true requirements?
- Is the Port Authority's bridge and tunnel toll structure fair and reasonable?
- Are the consolidated bond issues, under which the PA's bridges and tunnels are made to support its airports, in the public interest?

- Is the Port Authority's policy of continued and aggressive expansion by acquisition harmful to the future development of our municipal governments? Take the case of the City of Newark. Back in 1948, the Port Authority acquired Newark Airport and Seaport from the city and now pays the city about \$100,000 annual rental under its long-term lease. The City of Newark has lost considerable ratables thereby, since the Port Authority now collects annual rentals from its commercial tenants who occupy about 2,900 acres of land at the airport and seaport. The City of Newark now loses \$1,800,000 per annum in such real estate taxes."

To the casual side-line observer, loss of tax revenue to the City of Newark may appear not to have any effect upon real estate taxes paid by Belleville taxpayers. Unfortunately, this is not true. Each municipality within Essex County pays a County tax based upon the assessed valuations of property within its own boundaries.

Were the Port Authority holdings in the City of Newark placed on the assessment rolls of the city, Belleville's taxes to the county would decrease. This, however, is only a side benefit to be derived from taxing Port Authority's operations which compete with private enterprise. The heart of the question is whether or not the Port Authority, with a tax-exempt status, has the right to compete unfairly with private enterprise.

We agree with Mr. Wolkstein that 'his question should invite the attention of our New Jersey Legislature. And if the remedy to this unfair competition is to be found in the halls of Congress, then the question should invite the attention of our Congressmen and United States Senators.

Allow More Distance

During Winter months, drivers on thoroughways should allow more distance between themselves and the car ahead. Poor visibility and other winter conditions often cause drivers to brake suddenly. Tailgate collisions increase as Winter darkness falls. Multiple collisions are more frequent.

first deck of the bridge, to be completed in 1932.

Pollution of the Passaic River by Belleville ended with completion of a last link of sanitary sewer connecting with the Union outlet truck sewer. The last link of the sanitary sewer was an extension of the Franklin Avenue line which relieved a small stream of sewerage formerly carried by it into the second river.

School Four Marks 'Brotherhood Week'

Brotherhood Week has come and gone but it still lives on in the hearts of the children and teachers at Belleville's James G. Shawyer School. Their Brotherhood Week activities were centered around the theme, "Every Week is Brotherhood Week." As a result of the many activities carried on by each class, the children received a lasting impression that "brotherhood" is a term meaning "equality among all men" which is to be applied to every one's life on every day of the year.

Students Report Many Activities At School Three

CARD PARTY HITS NEW HIGH

BY DAVID SKINNER

Card party time has come and gone at Number Three. As usual, it was a great success. A lot of the credit should go to the boys and girls who did an outstanding job of selling tickets.

There were three groups of classes competing: kindergarten through third grade, fourth grade through sixth grade, and seventh grade through eighth grade. The first group of classes was led by 3S selling 56 tickets, the second by 5S with 79 tickets, and the junior high section was led by 7P with 101 tickets. However, it was more than just these three classes which made the card party such a tremendous success. The whole school, including the PTA, Mr. Jones, the entire faculty, and all the students, contributed to make this one of our greatest ticket sales ever.

PAST AND PRESENT

BY G. LESLEY SMITH

Have you ever wondered about the history of Number Three? Anyone who has ever walked through the corridors of our third floor has. Up there you get the feeling that time has stood still these many years. Here are some facts concerning our school that the staff thought you might be interested in reading about.

Number Three was built in 1892. At that time, it consisted of eight classrooms and an office. Each morning the bell in the tower was rung to call the children to school.

In the spring of 1908, a new addition was added, to make Number Three the only high school in Belleville.

Of course, the children had to do without modern conveniences. There were no electric lights until 1910, and the boards in each class were made out of slate. The chairs and desks were attached to the floor, and alarm clocks had to take the place of electric clocks.

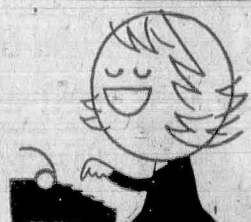

Finally, in 1957, the most modern addition to our building was added. Now parents, students and faculty can be proud of Number Three, one of the finest elementary schools in Belleville.

I saw a mountain so very high. It rose until it touched the sky. On its top was glistening snow. And from the rocks streams did flow. Touching mighty rivers bent toward the sea. Oh, how wonderful nature seems to me.

I saw a squirrel go scampering by. And then came a butterfly. A bee was visiting a flower it had found. And a few ants crawled on the ground.

Some birds were nesting in a tree. Oh, how wonderful nature seems to me.

BHS Senior William Daddis Named Finalist In Merit Scholarship Program In U.S.

William Daddis of Belleville High School has been named a finalist in the 1959-60 competition of the National Merit Scholarship Corporation Program and has been awarded a Certificate of Merit, according to Principal H. D. Kittle.

This senior distinguished himself by his high score on two college aptitude tests used in the National Merit Scholarship competition. About six-tenths of one per cent of the seniors in each state received the awards. A national total of 10,000 students were honored.

Over 550,000 students were tested in the 1959-60 National Merit Scholarship competition which began last April. The test results have pared the competitors down to the 10,000 finalists from which the Merit Scholars will be selected and announced this spring. They, and the colleges they have chosen will share in the several million dollars in Merit Scholarship funds to be offered by over 110 different organizations and individuals and by the corporation itself. The winners will be announced about April 27.

At an earlier stage of the competition the names of all who had reached the semi-finals of the competition were published in a booklet which has been widely distributed to colleges, universities, and other scholarship agencies for consideration of other scholarships offered outside of the Merit Program.

Previous experience indicates that the finalists will be offered some \$2.5 million worth of freshman-year scholarship assistance from these sources, in addition to the awards made to those selected as Merit Scholars.

"The Certificate of Merit winners, the top performers in the competition, constitute our country's most valuable single resource," said John M. Stalnaker, president of the National Merit Scholarship Corporation. "Representing the best of each state in the Union they deserve the maximum recognition and encouragement of every citizen concerned with the future of America. The brilliant record of the Merit Scholars of other years speaks for itself. The far-sighted donors who have sponsored Merit Scholarships in other years have made an incalculable investment which will benefit everyone. We urge others to join them in this important crusade for excellence."

The selection of the finalists who will be awarded Merit Scholarships in 1960 is performed by the Merit Scholar Selection Committee, a panel of experts in academic selection, and by special judging teams convened by various donors of Merit Scholarships. High school grades, leadership, citizenship, and extra-curricular activities are considered as well as test scores.

Merit Scholarships are four-year awards, and carry stipends that range from \$100 a year to \$1,500 a year. Each stipend is individually determined on the basis of need. The amount is based upon family resources, summer earnings, and college costs, all of which vary for each winner.

No Merit Scholar may accept other major scholarship assistance in addition to his Merit Scholarship stipend, a rule followed by most private scholarship donors. The aim is to distribute available funds to as many outstanding students as possible. Most Merit Scholarships also carry grants to the colleges. Each student chooses his college and course of study. Gaining admission to college is the responsibility of the student, but in 1960, the National Merit Scholarship Corporation gave additional assistance to the 37,000 top scorers in the National Merit Scholarship Qualifying Test, by sending, without charge, test scores to their first and second choice colleges.

William Daddis

The National Merit Scholarship Corporation was established in 1955 with grants of \$20.5 million from the Ford Foundation and the Carnegie Corporation of New York. The current program is the fifth that has been conducted. Over one and one half million students have participated. Of the more than 300 Merit Scholars selected in the first four programs, 26 have already graduated having completed their studies in three years or less, all had distinguished records.

The sixth program will begin on March 8 with the National Merit Scholarship Qualifying Test to be given in an estimated 15,000 high schools.

St. Peter's CYO Tracksters at County Events

PEP TALK: Coach Hugh Welsh of St. Peter's, Belleville, gives some of his boys a pep talk after each had played first in qualifying heats in the annual Essex County CYO track meet. From the left are Bill Duffy, Bob McCarthy, Emil Liloia and Welsh. Only Duffy, however, was able to place in the finals of this event.

CYO Cindermen Give Poor Showing

St. Peter's, Belleville, failed to take a single first place in any division in the annual Essex County CYO track meet held at the Sussex Avenue Armory in Newark on March 5.

The Petreans scored eight points to place third in the six-team intermediate class, didn't score at all in the junior division and tallied seven points by scoring in three of 10 events to place ninth in the grammar school competition.

St. Peter's got four of its eight intermediate points in the 60-

yard dash where Jim Fitzgerald placed third and Marty Higgins came in fifth. They doubled up and ran legs on the half-mile relay team which came in second to St. Rose of Lima, Short Hills, the new intermediate champion. Marty McNish and John Van Dune ran the other legs in the race.

In the grammar school division, St. Peter's picked up a point when Bill Duffy placed fifth in the 50-yard dash for 75-pounders. He also ran the opening leg for the 75-pound relay team, which came in third in an event where Our Lady of Sorrows, South Orange, broke a meet standard which had stood since 1956.

Also placing third was the 105-pound relay team, also beaten by a foursome from South Orange as Our Lady of Sorrows easily retained its grammar school title.

Jeanne O'Neill Still High Bowler In League

Commissioner George F. Kiernan announced this week that no one has topped Jeanne O'Neill's high game of 297 or her high series of 50, in the Recreation Department's Woman's Bowling League. Eleanor Flanagan holds the record for high average but Betty Rosamilia is a very close second place.

Ladies Forming Bowling Day Leagues in Town

The Olympic Bowl is the scene of gaiety and fun Thursday afternoons when the Recreation-Olympic Housewives Bowling League has its session. The initial program started with a buffet luncheon, which consisted of all kinds of sandwiches, salads, cold cuts and desserts. After they finished their coffee the girls went upstairs and started rolling.

There were three qualified bowling instructors on hand, to teach the new bowlers, and help the more experienced ones, correcting their hook, form, etc. The girls all bowled three games. All enjoyed a wonderful afternoon, and did not have to worry about their youngsters as they were in the Nursery in the hands of a very competent baby sitter. Hil-ton Halpern, manager of the Olympic Bowl, provided every thing free of charge, luncheon, instruction, games, shoes, etc., for the housewives.

Regular teams are being formed.

Bellboys See Better Luck In 1961 With JV Graduates

Varsity Climaxes Dismal Season, Recap of Slate

BY DOM GIOVACHINO

Things may be looking up for Belleville High's basketball squad as far as next season's team is concerned. The Bellboys will have nine Varsity players ready to come out for the team again next year. Also there are a number of promising JV's who might be able to play Varsity.

This year's squad, which was coached by John Westlake, consisted of but four seniors, Charles Apostel, Richie Burlazzi, Mike Smith and Richie Boyce. Boyce one of the outstanding members of the team, scored 21 points in the first game against Garfield, playing with a bad ankle. Then, before the next game, he hurt his back in practice, but continued to play anyway. He never did as well, and after the fourth game he was forced to quit for the remainder of the season. This was very unfortunate indeed, for there were many close games where his extra drive might have given Belleville a victory.

After this, sophomore "Red" Higgins began to take over as high scorer, getting into double figures in eight games and scoring in every game he played in, for a total of 152 points on the season. Higgins also scored the most points in one game, 22, against Columbia.

Second high scorer for the season was 6-4 Mike Sandomeno, with 109 points. His best performance points-wise was in the Kearny game in which he scored 20 points.

Next, in order of points scored, were Frank Annichiarico, a junior, Richie Burlazzi and Charles Apostel, with 67, 65, and 60 points respectively, all of whom improved greatly towards the end of the season. Bob Laird, a junior, had 48 points, while Boyce and Junior George Sheridan each had 47.

With the meat of the team coming back next year, it looks like they should give a much better season than this year's 2-13.

In the Big Ten Conference, the

Seated, left to right are: Richard Burlazzi, Charles Apostel, George Sheridan, Ralph Casale, Marty Higgins, and Larry Latore. Standing left to right are: Frank Annichiarico, Walt Smith, Howie Ellis, Mike Sandomeno, Mike Smith, Sal LoCoco and Bob Laird. JV's will be pictured in next week's issue.

Mango's Market Season Champs In Basketball

Commissioner George F. Kiernan, this week proclaimed the Mango's Market team as champions of the 1959-60 Recreation Intermediate Basketball League. The Mango's won their shot at the championship playoffs by winning the second round of the league without a defeat, this placed them in the playoffs against Roy's Sport Shop, the very strong winner of the first round.

In the first of the two and of three playoffs the Mango's dealt out a stunning 48-25 loss to the Roy's. The second game of the playoffs again saw the Mango's march the victory trail but this time with a tighter score of 48-41. Only during the last period did the Roy's outscore Mango's but they were unable to pour in

Scorekeeping Classes Are Underway Here

Commissioner George F. Kiernan announced this week that the Recreation Department's Girls scorekeeping classes are now in progress, under the capable direction of Edward Carney, who was the originator of the scorekeeping training program. There is still room for a few more in this class, any Belleville girl in the sixth, seventh or eighth grade is eligible, also any adult who wishes to increase their knowledge of baseball are also welcome.

Carney wants to advise the girls who have already completed the course in previous years, that in order to work this summer with the Farm, Little or Junior Leagues, they will have to attend the last three sessions of this class. The girls meet every Thursday evening at 7 o'clock at the Recreation House.

Your Annual CHECK UP

It's a good idea to have a check up every so often. And the idea ought to be extended to our spiritual as well as our physical health.

For instance, how much are we *thinking* about the truths our churches teach us? Do we understand God... His love for men... the sacrifice of Christ for our sins... the way of Christian living?

And how much are we *doing* for God and our own souls? Are we worshipping every Sunday... rearing our children in the Faith... serving the Church and fellowmen according to our talents and physical strength?

And how much are we *giving* for God to use? Do we promise Him a fair proportion of our income... do we set it aside regularly as a sum that belongs to God and to those who need our help... do we have the courage and faith to strengthen our Church by more generous support?

HIGH TENSION

So many people are so busy and seem to be living in such a state of tension that it is impossible for them to relax — sleep is difficult and they are easily irritated. A spinal checkup usually reveals the cause, and after having it corrected, sleep and relaxation is the natural result.

Mrs. Rochau

(Continued From Page 1)

en PTA back in 1938. Miss Joan Woodman of Belleville, a charter member of a Browne troop organized by Mrs. Rochau was a guest on the "This is Your Life" show.

Rev. Oliver Chapin, former minister of the Montgomery Church, told the audience, "They say faith can move a mountain. I've already seen Mrs. Rochau move some hills, and if you ask me, faith is the answer to her life." The Rev. Chapin said that in addition to attending church services and singing in the choir every week, Mrs. Rochau has been a Sunday School teacher, director of the Daily Education Bible School Program and makes frequent visits to the ill at the Clara Maass Memorial Hospital.

Mrs. Rochau's singing teacher, Mrs. Georgiana Terico, formerly of Belleville and now of Glen Ridge, visited the program. Former Belleville Mayor James Tully of Toms River had been expected to attend but could not because of an illness. He telegraphed his best wishes. Mayor Tully appointed Mrs. Rochau to her first seat on the Belleville Board of Education.

Finally, Dr. William Twitchell, Essex County superintendent of schools, appeared and thanked Mrs. Rochau for her work on the county PTA and educational levels. To close the program, all of Mrs. Rochau's grandchildren paraded across the stage.

HUMOR

While Monday's program appeared professional in production, it was without humor.

Mr. Rochau, for example, told of his wife's stepping backwards and down a flight of steps and she was posing for a photographer on the couple's honeymoon.

"And he spent the rest of our honeymoon bandaging my knee," Mrs. Rochau chuckled.

Then Rosamilla quipped, "Yes, Mrs. Rochau. And now you can always say that you didn't fall for your husband until after you were married."

Everyone laughed — typical of people who are thoroughly having a good time.

Town Budget

from the civil defense appropriation.

OTHER CITIZENS

Others addressing the commission Tuesday included Citizens Tax Council President Salvatore Colabro, Thomas McGill of Rutan Estates, Mrs. Hazel Ritchie of Baldwin Place and Lee Garcon also of the tax council.

Colabro suggested "we do away with the things we'd like to have and keep only the things we have to have." Without going into detail, he told the commissioners they ought to give serious attention to Golden's comments. "If you accepted half of Golden's recommendations and applied some more of the surplus, you could keep the tax rate the same," Colabro said.

He added that the citizens "have had it as far as taxes are concerned." He said talk about the number of voters in the school election as not being representative of the town is "nonsense." Colabro said that only 300 votes are needed to be representative of the population's wishes.

McGill followed the comments presented by Golden. Mrs. Ritchie questioned the \$9,000 appropriation for planning board consultants and Garcon asked "what good can these consultants do anyway?"

When Garcon sat down, no hands were raised; the hearing was promptly closed and the budget was unanimously adopted without further comment by the commissioners.

Belleville Cancer Group Initiates Educational Plan

Increased public interest in cancer detection and control information has resulted in an expanded 1960 educational program by the Essex County Chapter American Cancer Society, John P. McLaughlin, chairman of the county cancer education committee, told The Belleville Times.

"Now any civic, church, fraternal, school or other group in the Belleville area can easily arrange without cost a particularly timely and interesting program for their organization," said McLaughlin, administrative assistant to the superintendent of Newark schools, who also is a vice-president of the Essex County cancer group. "If dreaded cancer is to be controlled more people need to be informed of cancer's seven danger signals and the need for regular physical checkups. No funds are ever solicited at these program meetings."

McLaughlin said the Belleville cancer education committee is under the chairmanship of Dr. Harold Grubbin of 690 Clinton Avenue, Newark. Any Belleville group may contact either of these committee members to arrange a program of either a special speaker or the showing of cancer control films ranging from nine to 28 minutes in length.

MARCH 17

McLaughlin said Dr. Grubbin has been invited to attend a special training school in East Orange on March 17 to learn about the newest cancer control educational materials. They also will hear about plans for the April opening of the 1960 Essex County Cancer Crusade to raise much needed funds for cancer research, education and service.

McLaughlin made clear that in the cancer control educational program every effort is made to give laymen full information but not to frighten anyone. Cancer's seven danger signals, he added, are: unusual bleeding or discharge, a lump or thickening in the breast or elsewhere, a sore that does not heal, persistent change in bowel or bladder habits, persistent hoarseness or difficulty in swallowing or a change in a wart or mole. Cancer authorities advise that if a person detects any of these signals, and they persist for two weeks, that the person should see his own doctor.

Welsh and most of the department worked from early Thursday morning straight through until 3 a.m. Friday then rested until 7:30 the same morning and went back to work.

Commissioner Grubbin was at the town garage until 3 o'clock Friday morning and helped throughout the clean-up operation. Police department members assisted the road crews in areas.

home owners, by sharing part of our growing school costs. Our state and national lawmakers are aware of the necessity of good education to the survival of our free country, however, it was Will Rogers who said, "We ought not to spend money we haven't got, for things we don't need." Rather let us spend our money for the most important things first, and certainly after home and the churches there is nothing more important than our schools."
