

Essex County Tax Board Asked To Investigate Gruhin's Purchase; A. A. Says It Has No Property There

Anything There Is 'Garbage,' Says Vice President

The Essex County Board of Taxation was asked yesterday to investigate property purchased by Commissioner Robert C. Gruhin, which is still on the record as tax-exempt.

The formal request for an investigation was made in a letter to Joseph Solimine, tax board secretary, by James R. Golden of 62 Tappan Avenue. No action was taken yet by Solimine, who was in Trenton Monday.

The property, purchased in 1960, formerly belonged to Congregation Ahavath Achim. Officials said the congregation has not used the property since June, 1960 when the Hebrew School finished its semester there.

POSSESSIONS

Gruhin has insisted that the purpose of the building had not been changed because the congregation still had possessions left there. David Robbins, vice president in charge of synagogue property, said that anything left in the building was "garbage, so to speak" and would be useless to the congregation. There are books and chairs there now.

Robbins said the sale was instituted in May, 1960 and Gruhin had agreed to let the building be used for another month.

Gruhin was accused by Golden at last week's Town Commission meeting of dodging taxes on the property. It is still recorded as tax-exempt. In October, 1960 when exempt status was given for a three-year period, title was still held by the congregation, Jack Orlinsky, president, said.

Golden had demanded to know why a deed had not been filed when the title passed. Filing a deed would have removed the property from the tax rolls as tax-exempt. Gruhin would not comment on the deed or on the date the congregation stopped using the property. He insisted at the meeting that all back taxes due the town would be received. The town can collect two years' back taxes, he said, according to an omitted tax assessment law.

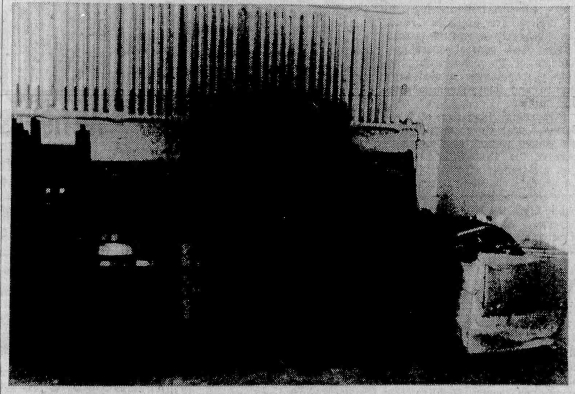

Padula Issues Statement Defending Himself, Gruhin

Mayor Isadore Padula, apparently stung with the publicity given the failure of his department to levy taxes upon property owned by Commissioner Robert C. Gruhin over the week-end came to the defense of himself and his colleague.

Padula's statement follows: "Commissioner Gruhin is a resident family man. Most of his clients are Belleville property owners and citizens. He is a lawyer whose reputation is known far and wide as honorable. He owns property in Belleville on which there are no tax liens and he is a staunch, respected member of the synagogue from which he bought the building on Washington Avenue. It is not unusual for buyers to take time in recording transfers for many reasons best known to property owners. The fact that Gruhin knows his law means that he knows he cannot pass private property taxes as exempt possibilities on the old ownership. It is an affront to Commissioner Gruhin and to the people who know him to presume such was his intention."

Concerning himself, Padula said, "Mayor Padula is also an attorney. He too knows the rules and regulations governing the transfer of deeds and tax responsibilities. He pointed out to the meeting that his department could not, under the law, take any action on assessment of the building until the deed had been submitted for a town record. Then, he (Padula) explained, whatever taxes were required from the time of sale, not the time Gruhin presented the deeds, would be collected.

"The Mayor is a tax payer of

INSIDE THE BUILDING—Books and chairs that Commissioner Robert C. Gruhin said were left for storage by the Congregation A.A. David Robbins, congregation vice president in charge of synagogue property, said anything left in the building was "garbage, so to speak."

Padula Asks Investigation Of County Grand Jury Use

Mayor Isadore J. Padula, apparently nettled by the criticism he is receiving over his department's failure to tax a piece of property owned by his political partner, Commissioner Robert C. Gruhin, now asks for a probe of the Essex County Grand Jury.

This is what the Mayor said in a statement issued Friday. "The Essex County Grand Jury has become a political boogymen for those who want to influence public opinion. This is a grave situation which in itself needs investigating."

Padula, Revenue and Finance Director, who plans to run for election next year, told Gruhin as his running mate for seats on the new Town Council, was prompted to make his Grand Jury statement because of a paragraph published in a page one

20 Form Young Democrat Club; Dasaro President

Twenty persons who served as Young Democratic workers in the Nov. 7 election have organized a Belleville Young Democrats club, under the leadership of Michael C. Dasaro of 124 Carleton Street.

Dasaro explained the group was formed because "young men and women of Belleville have been without an effective voice for the past three years. They need and want the outlet a Young Democratic club will offer them."

Dasaro has been closely associated with the Young Democratic movement for the past three years. Most of his activities have been in Newark, where he presently holds the office of executive secretary of the East Ward Young Democrats.

"The closeness of the past election," Dasaro said, prompted him to return to Belleville, where he felt he might best serve the Democratic candidates.

OTHER DEMOCRATS

Dasaro's Young Democrats join two other Democratic groups in Belleville. Heading one group

editorial of last week's Times-News.

The editorial paragraph which offended Padula reads as follows: "This is not the first incident (Gruhin-Synagogue Building) involving taxpayer complaints pertaining to the assessment practices of Padula's Revenue and Finance Department. In fairness to the taxpayers — and especially himself — Padula may want to invite the Essex County Grand Jury to investigate his department's assessment practices."

"To a politician about to seek re-election nothing is more negotiable than a clean bill of health from an objective, impartial, Grand Jury."

Kiwanis Drive Brings 14,000 Pounds Of Cloth

With the Kiwanis "Cloth for Cancer" drive just about completed, estimates have been made that 14,000 pounds of white sheets, pillow cases and shirts were collected.

The greater part of this cloth was old white sheets, invaluable to process into bandages. Contributions were made possible by volunteer work of members, school teachers, boy scouts, Landriens, Industries, Churches, Synagogues, Board of Education and the Citizens of Belleville.

"This is by far our greatest achievement, and we are most grateful to everyone who contributed to this worthy cause," said Joseph G. Fell, President.

Rotary Club To Play Host

"Bring A Friend Day" will be observed at the regular luncheon meeting of the Rotary Club of Belleville on Wednesday, Dec. 6.

C. Robert Horsfield, president of the service club announced. The club will meet at the For-Hill Restaurant at 12:15. Members will bring business acquaintances and friends. The purpose is to introduce business people to a typical Rotary Club meeting.

The Rotary Club of Belleville, organized in 1922 is one of the 11,048 Rotary Clubs scattered throughout the world in 124 countries. Present Rotary membership totals 211,536. The roster is made up of business and professional executives.

Horsfield announced that a timely program would be presented. Ludwig R. Pesa will speak on the subject of Civil Defense and Fallout Shelters.

Orange Invades For Annual Game

By ROGER WARTELL

The final game of the 1961 football season is the traditional Thanksgiving Day meeting between Belleville and Orange, this year at Municipal Stadium.

Belleville's record now stands 3-4 with the Tornadoes record at 4-4. The Bellboys lost their last four games and will probably go into the game an underdog.

The Tornadoes have lost a good deal of their championship team, which beat the Bellboys last year, but still possess a solid squad, which has improved since the beginning of this season. In their last encounter the Orangemen defeated a good Barringer eleven using a strong ground attack.

Although the Orange team doesn't pass often it can be effective at crucial plays.

The Bellboys have suffered injuries continually in their last few games and the lineup for next Thursday's contest is not definite. In the backfield Stan Tomaszewski has been put on the disabled list because of an eye injury suffered against South Side. Joe Latore at quarterback, Richie Luzzi and Pat Moreno at halfbacks and Tony Della Terra at fullback are Bellboys probable starting backfield. The end positions will be played by Fred Vase, Bob Byers, and Tom Weaver alternating in the middle of the line will be Joe MacDermott, Mike Suppa, Alex Iacullo, Joe D'Amola, Vince Sorrentino and Bob Pucciarello.

High School Renovation Would Cost \$2.77 Million Says Board's Architect

Street Paving Measure Fought By Rutan Group

An ordinance for the construction of concrete curbs and paved shoulders in a portion of Joralemon Street, is being fought by John Bass, president of Rutan Estates Home Owners Association.

The ordinance was introduced by Commissioner Robert C. Gruhin, director of Public Works, at last week's Town Commission meeting. It passed the first reading with affirmative votes from four Commissioners present. Commissioner George F. Kiernan was absent.

Curbing had been requested by the Rutan association members in a petition that also asked permission for them to build a bus stop shelter, which they would pay for.

The ordinance would provide curbing for 800 feet on Joralemon Street from Hoover Avenue to the westerly side of Third Avenue. The group planned the bus stop shelter between Bernice and Plunge Drive.

PAYMENT SPLIT

Payment for the paving would be shared evenly by the local property owners and the town.

In a letter to the town clerk, Eugene G. Barnett, Bass said town plans showed the shelter would require 12 by 4 feet of land. "Our petition stated we would pay for the shelter. Now,

State Says Town Is Providing Only Limited Education

The State Board of Education has warned Belleville that unless something is done to improve the high school building students will receive nothing more than a second-rate education.

In a report about the school system, the State repeated its earlier warning that approval was being granted only on a temporary basis, until June 30, 1962, in the expectation that plans would be made during this time to remove sub-standard conditions.

The report, issued this week by William H. Warner, state director of secondary education, came after a committee toured the high school on Sept. 21 to determine if conditions of education warranted state approval. The State provides financial aid to schools in New Jersey, if they meet minimum requirements.

Throughout the report are statements condemning the overcrowded facilities, which were said to hamper good education. The library was said to be "half the necessary size for a school this large." Shops and home-making areas, typing and secretarial rooms, as well as science laboratories were considered inadequate.

The committee observed classes, examined the building and facilities and consulted with the school staff and administrators. Later it met with Dr. Frank M. Durkee, superintendent of schools and Hugh D. Kittle, principal for conference.

SEVEN MEMBER GROUP

The committee consisted of the following members:

William S. Twichell, County Superintendent of Schools; William H. Warner, Director of Secondary Education; Robert W. Ward, Assistant in Secondary Education, Social Studies; Thomas H. Adams, Assistant in Secondary Education, Guidance, Music; Art Randall G. Marshall, Assistant in Secondary Education, Foreign Language; Everett L. Hebel, Director, Office of Health Safety and Physical Education and William D. Guthrie,

Operating Costs In Belleville Up \$230,058 In '61

Day-to-day "operating costs" of government in Belleville this year are budgeted at \$2,285,733. This compares with similar operating expenditures of \$2,055,675 in 1960, which averaged \$58.73 for each of the 35,005 residents of the municipality.

Reflecting the continuing running expenses of government, the operating cost segment of the municipal budget provides a barometer of basic spending trends, since it does not include expenditures for capital improvements, which can fluctuate largely from year to year, or for debt service. Last year, in addition to operating costs, this municipality spent \$224,141 for capital improvements and \$222,764 for debt service, or grand total 1960 expenditures of \$2,502,580.

The figures are among those reported in the 16th annual edition of "Financial Statistics of New Jersey Local Government," published by New Jersey Taxpayers Association. The 58-page annual reference work, based upon official records, is compiled by the Taxpayers Association as an aid to taxpayers and officials concerned with mounting tax bills. The booklet effects a true

Mrs. Schroeder Resigns As Head Of School 8 PTA

Mrs. Fred Schroeder resigned as President of School Eight P.T.A. at an executive committee meeting held Wednesday evening, November 15. She and her family, who reside at 906 Branch Brook Drive, are leaving Belleville to make their home in the shore area.

Mrs. Maywood Atherton of 83 Hornblower Avenue was elected to complete the year as president. She served as vice-president under Mrs. Schroeder. Mrs. Leonard Apper, 128 Branch Brook Drive, the former secretary, was moved up to the vice-presidency, and Mrs. George Ulrich, 81 Hornblower Avenue, was named secretary.

Following the meeting Mrs. Schroeder was honored at a social hour and presented with a gift from the executive committee in recognition of her many years' service to the school. Members of the Board of Education, the faculty of the school, and many members of its P.T.A. joined in ceremonies honoring Mrs. Schroeder.

\$30 Thousand More Than Price Of New Building

Still Wouldn't Improve Elementary Schools, Says Board Consultant

It would cost \$2,768,544 to renovate, build an addition and refurbish the present high school, according to Alfonso Alvarez, school board architect.

Alvarez presented the figures after a special Board of Education meeting Friday night. In order, to make the high school facilities meet state minimum requirements, he said, it would cost \$38,000 more than it would to build a new high school.

A new high school, which was defeated in a referendum Oct. 17, would cost \$2,730,000. The same referendum for a new school will go to the voters again on Dec. 21.

Costs would be high, Alvarez said, because mechanical improvements would amount to 50 per cent of the budget. In a normal new construction, he said, the mechanical costs for the school would run about 30 to 35 per cent of the cost. He gave as an example the necessary improvement of the fire safety system which he said was far below required minimum standards the state demands.

The expanded school would be a four-year high school designed to accommodate 1,350 students. The proposed new high school would hold grades 10 through 12 and accommodate 1,000 students. The referendum calls for the present high school to be used as a junior high, after the new school is built on municipal site.

(Continued On Page 2)

Rosamilia Made School General Supervisor

Michael T. Rosamilia was appointed general supervisor of schools by the Board of Education Friday night, to supervise curriculum and work with education programs in grades 7 through 12. The position carries an annual salary of \$10,000.

Rosamilia is head of the social studies department at Belleville High School and a guidance counselor.

His appointment was delayed when it first was proposed a month ago because of arguments over whether the post of general supervisor existed in the board's regulation. The position title was created at the last meeting.

Ernest S. Arvidson, board member, opposed the proposal at Friday's special Board of Education meeting, insisting that the board, rather than Dr. Frank M. Durkee, superintendent of schools, should have interviewed all candidates for the position. Nicholas Juliano joined Arvidson in the dissenting vote. Michael V. Albertine, the seventh board member, was not present.

Henry Miller was unanimously approved as head of the department of social studies to replace Rosamilia. This increases his annual salary \$550.

Son And Sister Make Map Page Contest Easy

Winning the map page contest last week was a family affair. Mrs. James Casilio of 17 Overlook Avenue identified her son, Russell, after her sister, Mrs. Peter Neri telephoned early Thursday to say the boy's picture was in the paper. "It was under the picture it was," Mrs. Casilio said. She won't split the \$5 prize money with her sister, she said, but "with the holidays coming maybe we'll all get a bottle of egg nog and share it."

Chamber Readies Christmas Lights

Planes to support ten strings of Christmas lights are already on Washington Avenue. Clayton Shepherd, manager of Shop Rite and Chamber of Commerce Christmas Lighting Chairman, assisted by Aaron Cohen of Charles Jewelers and Harry T. French, Executive Director of the Chamber, have almost completed soliciting merchants in the two-block area of Williams to Rutgers Streets.

Plaques reading "Contributor 1961 Christmas Lighting" will soon be displayed by those firms which have contributed to the lights. French, on behalf of the Chamber congratulated "these public spirited merchants for their part in bringing to Belleville the glowing warmth that this display creates."

Orange Invades For Annual Game

By ROGER WARTELL

The final game of the 1961 football season is the traditional Thanksgiving Day meeting between Belleville and Orange, this year at Municipal Stadium.

Belleville's record now stands 3-4 with the Tornadoes record at 4-4. The Bellboys lost their last four games and will probably go into the game an underdog.

The Tornadoes have lost a good deal of their championship team, which beat the Bellboys last year, but still possess a solid squad, which has improved since the beginning of this season. In their last encounter the Orangemen defeated a good Barringer eleven using a strong ground attack.

Although the Orange team doesn't pass often it can be effective at crucial plays.

The Bellboys have suffered injuries continually in their last few games and the lineup for next Thursday's contest is not definite. In the backfield Stan Tomaszewski has been put on the disabled list because of an eye injury suffered against South Side. Joe Latore at quarterback, Richie Luzzi and Pat Moreno at halfbacks and Tony Della Terra at fullback are Bellboys probable starting backfield. Unico Gives Party At CP Center

There were games and cookies, ice cream, marshmallows and apples for refreshments at the second annual Halloween party for the children of the Cerebral Palsy Center of Belleville.

The party on Oct. 31 was given by Belleville Unico. The organization also gave the center \$80 for a ceramic kiln, which has been ordered and will soon be used in the Occupational Therapy department.

Peter Coccia was the general chairman of the party, Vincent Piplone was assistant and Mrs. Sue Piplone, President of Ladies of Unico, Mr. Dominick Marchitto, President of Mens' Unico, and Mrs. Marchitto added their assistance.

Elks Stage Gets Proper Touches For Rejuvenical

Belleville Elks Hall is a place of activity for 14 dancer-actors who are bringing color, glitter and lights to the Elks stage in preparation for the first of a series of revues to be presented by Studio 'N' of Harrison on Friday and Saturday evenings, Dec. 1 and 2.

Mr. Cataldo is a printer at Watts Business Form, Clifton. Mrs. Cataldo, the former Mildred Marino of Belleville, does parttime bookkeeping and sales work with Blue Ribbon Wallpaper Co., Nutley. The couple has another child, Marina who is 3.

It is important in playing this fascinating game of identification to note the simple rules: 1) the winner must tell us who the person is whose photo is circled and where picture was taken. 2) Entries in the contest must be made in person or by mail. NOT by phone; 3) the prize will be awarded to the one who submits the first correct identification; 4) all decisions by The Times are final; only one entry per family is permitted; 5) contest deadline is 5 p.m. Monday. Failure to follow contest rules in all respects will cause disqualification.

If no one identifies the circled photo and the place where picture was taken, the prize money will be added to the following week's award.

Each week The Times staff photographer will take a similar picture somewhere in Belleville. Each week the picture will appear on the map page and test your ingenuity—and your power of observation. It can be lots of fun. Get started now. Work fast. Be the first to come to our office with the right answer. Remember, being first means being the winner.

separation of expenditures for municipal functions and school functions, regardless of the form of official reports.

SCHOOL EXPENDITURES

School expenditures in Belleville for the 1959-60 school year totaled \$2,483,781. These included \$25,387 for capital improvements, \$127,385 for debt service, and \$2,330,999 for general operating costs. These operating costs averaged \$438.92 for each pupil in the 5,211 total average enrollment reported for the district. The 1959-60 school year general operating costs compare with operating costs of \$2,065,181 reported for 1957-58. The local district in the 1959-60 school year also recorded "other" operating costs of \$27,749. The booklet showed that the general operating budget of this school district for the 1960-61 school year totaled \$2,454,611. For the current (1961-62) school year it amounts to \$2,549,287.

TAXPAYER STATISTICS

SCHOOL EXPENDITURES

School expenditures in Belleville for the 1959-60 school year totaled \$2,483,781. These included \$25,387 for capital improvements, \$127,385 for debt service, and \$2,330,999 for general operating costs. These operating costs averaged \$438.92 for each pupil in the 5,211 total average enrollment reported for the district. The 1959-60 school year general operating costs compare with operating costs of \$2,065,181 reported for 1957-58. The local district in the 1959-60 school year also recorded "other" operating costs of \$27,749. The booklet showed that the general operating budget of this school district for the 1960-61 school year totaled \$2,454,611. For the current (1961-62) school year it amounts to \$2,549,287.

TAXPAYER STATISTICS

Other municipal government statistics for Belleville presented in the Taxpayers Association's publication include: Taxable assessed valuation: 1957-\$50,728,000; 1960-\$62,513,000; 1961-\$63,052,000.

Local property tax rates; 1957-

we are willing to pay for the 12 feet of curbing and are not interested in 800 feet of curbing at this time," he said.

The curbing ordinance had originally been introduced at the last commission meeting. At that time it was joined with a proposal that the town build the bus stop shelter. Kiernan opposed the measure because he said it was against any major spending before the new government took office this summer. Mayor Isadore J. Padula had also opposed the measure, saying that building the shelter would have set a precedent.

There was no mention made in the new ordinance of the bus stop shelter. There will be a second and final reading and an open hearing held on the proposal at the next meeting, Tuesday, Nov. 28 at 8 p.m.

dium property at Passaic and Division Avenues. Plans for renovation were based on education requirements of the state. School officials

Young Demos

(Continued From Page 1)

Ralph Vara, Democratic committee chairman, has declared himself against Dennis F. Garop, county chairman. Heading the other, Mayor Isadore J. Padula endorsed the entire Democratic ticket in the last election.

Dasaro said he was very pleased with the performance of the Young Democrats during the election. "They performed admirably in the face of party strife," he said, referring to the Vara-Padula factions. He said he was not overly concerned with party divisions because he knew the party would "very capably arrive at a just and beneficial solution."

He said he and his group would follow the county organization of Young Democrats. The club will hold a meeting on Wednesday evening, Nov. 29 at 7:30 at the Galaxy. "All people between the ages of 16 and 40 are eligible for club membership," he said. He was confident membership would grow.

He stated the ideals of the club are: to perpetuate the sound government policies of the Dem-

Thanks Giving

The compassion of the American people for their fellow-men in need, whether at home or abroad, is nowhere more clearly expressed than in the services performed by our three great religious faiths through their world-wide, year-around programs of assistance to those in need abroad.

Not only are these great ministries of mercy an expression of a basic Americanism; they also give witness to the Biblical answer to Cain's "Am I my brother's keeper?"

And because their motivation finds parallel in the religious teachings of almost all peoples, these programs achieve an acceptance among individuals—particularly the impoverished, hungry and homeless—to whom they minister—that is well beyond the realm of governmental or other impersonal efforts.

It is eminently fitting that each of the religious faiths—independently but in common purpose—chooses our national thanksgiving season to emphasize its ministry to the suffering abroad, by which carries into everyday action the Spirit of Thanksgiving we in America express on one Thursday in every November.

At this time, in Protestant churches throughout the United States, there is being launched the 1961-62 appeal for the new Our Surplus program carried on by the churches by Church World Service, a finance free distribution of U. S. government-donated food supplies to millions of those in need overseas.

In Catholic churches, there is being made the Catholic Bishops' Thanksgiving Offering Collection—an appeal for wearables used clothing, shoes, bedding, etc., for similar distribution.

Concurrently, the United Jewish Appeal, as the instrument of the American Jewish community, is asking funds to help Jewish men, women and children in need throughout the world, including new immigrants to Israel and Jews in distress under other countries.

In each of these efforts, our people—through his own faith—has the opportunity to give evidence of his gratitude to God for the blessings we in America enjoy.

Each by his response—in the measure of the thanksgiving that is in his heart will put his gratitude into action that will make millions of others thankful.

Waste Of Taxpayers Money

Up for second reading at the next Town Commission meeting scheduled for Tuesday evening, November 28th is an ordinance introduced by Commissioner Robert Gruhin calling for the expenditure of \$700 to install 800' of curbing on Jonathan St. along the Glendale Cemetery. It is not clear how much, if any, of the curbing will include the Krugman-DePetro property which adjoins the cemetery.

Gruhin proposes that all Belleville taxpayers pick up the tab for half the cost of the curbing.

Why Gruhin insists upon spending taxpayers' money for curbing nobody wants nor quite clear to us.

The "watchdog of the town treasury," Finance Director Isadore Padula, running mate of Gruhin's in next year's Council election, is also supporting the expenditure.

Commissioner George Kiernan is opposed to the expenditure on the sound ground that all major projects involving expenditure of taxpayer funds be held over for the new Council to decide after election next May.

This policy makes sense to us. In the interests of Belleville taxpayers, Gruhin's spending ordinance should be defeated.

Mill Street Parking

Public Safety Director Harry Sullivan has introduced an ordinance banning parking on the north side of Mill Street beginning at the westerly side of Washington Avenue.

Mayor Padula opposes the ordinance on the grounds its adoption would create substantial handicap for the merchant who recently expanded his business, and as a result, if anything his parking needs were increased.

We too are opposed to the adoption

of the ordinance which comes up for second and final reading, Tuesday, November 28th. We believe Sullivan's parking ban, if intended to relieve Mill Street traffic congestion, is not the answer to the problem. On the other hand, if the purpose of the ordinance is to mollify complaining neighbors of the businessman who happens to operate a business on the corner of Mill St. and Washington Avenue it may accomplish that objective, but its enactment would not be in the interests of fair play for all taxpayers.

Sullivan should consider a substitute ordinance banning parking on both sides of Mill Street to accommodate the heavy traffic of motorists using Mill St. to travel to and from work during the early morning hours—7:30-9:00 and the late afternoon rush hours—4:30 to 6:30, Monday through Friday.

What About Catholic Schools, The Middle States Association, And The Lack Of Accreditation?

On the eve of the referendum vote on the new school question which took place on October 17th, the Citizens Tax Council said: "No Parochial school in New Jersey uses their (Middle States Association) services."

What is the truth? The president of The Middle States Association is a prominent Catholic educator, Reverend Laurence J. McGinley, S. J., President of Fordham University.

Among the Catholic schools in New Jersey which hold membership and accreditation in the Middle States Association are:

Academy of the Holy Angels, Fort Lee, (since 1933) Academy of St. Aloysius, Jersey City, (since 1954) Academy of Saint Elizabeth, Convent Station, (since 1928) Archbishop Walsh High School, Irvington, (since 1959).

Camden Catholic High School, Camden, (since 1934) Cathedral High School, Trenton, (since 1940) Immaculate Conception H.S., Lodi, (1961), Immaculate Conception H.S., Montclair, (1957).

Among the colleges that hold membership and accreditation in the Middle States Association are:

Rutgers University, Princeton University, Stevens Institute, Catholic University of America, Dunbarton College of Holy Cross, Loyola College, St. Mary's Seminary and University,

Seton Hall University, United States Naval Academy, Colgate University, Columbia University, Fordham University, United States Military Academy at West Point.

Drew University, Bloomfield College and Seminary, Jewish Theological Seminary of America, Temple University, Catholic University of Puerto Rico, University of Pennsylvania—a list which includes the great educational institutions of America—except Belleville High School that is.

So once more the Citizens Tax Council—for the fourth straight time has been guilty of circulating false statements in an obvious effort to undermine the new school program.

The Tax Council also accuses the Middle States Association of being a "private organization run for profit."

The truth is that the Middle States Association is a non-profit, voluntary organization of educational institutions in the Middle Atlantic States, the District of Columbia and Puerto Rico.

Officers of the association in addition to its President, Reverend Laurence J. McGinley, S.J., (President of Fordham University), the vice-president is Leslie R. Severinghaus, (Headmaster, T. H. E. Haverford School, Haverford, Pa.), secretary is Gene D. Gisburne, (vice-president of the University of Pennsylvania), and treasurer is Oliver Melchior, (Superintendent of Schools, Garden City, N.Y.).

These men serve without pay. To suggest they hold offices in the Middle States Association for profit is to smear citizens who are among America's leading educators.

But the Citizen's Tax Council appears not to be interested in the truth.

As its President once said, "We knew the literature we distributed contained false information but we figured it was one way of smoking out the school board."

With this campaign tactic as an organization creed it is little wonder every statement printed by The Tax Council contains misrepresentations, half truths, and yes—out right lies.

The highly respected Middle States Association has withdrawn Belleville from its list of accredited schools. Every high school about us is accredited—Nutley, Bloomfield, Newark's five high schools, Montclair, Kearny, North Arling-

ton, Lyndhurst.

How does loss of accreditation affect our school children? For the 40 per cent who plan to go to college a majority of them will find it difficult to gain admittance—some will be refused admittance.

For the Belleville High School graduate who has reached the end of his formal education—ahead is the certain road of unemployment. One of the important questions on any application of employment is the applicant's high school. Does anyone suppose the listing of Belleville High School will evoke a favorable reaction from a prospective employer who has before him a batch of applications from graduates of superior high schools?

Loss of accreditation adversely affects

every Belleville High School student. And no amount of double talk from the smear artists can prove otherwise.

The downgrading of Belleville High School is not a secret among Belleville citizens. New Jersey and New York daily papers played it up by using four column headlines to underscore the shame upon Belleville's fair name.

Forgetting for a moment the blot upon Belleville's fair name—what about our children who are forced to receive a modern education in a substandard high school. For them there is no second chance.

Belleville citizens can right a wrong on Friday, December 21st,—they can vote "YES" for the new school.

AAA Motors To Introduce Mercury Meteor

A Belleville dealership—AAA Motors, 25 Washington Avenue has been appointed to sell the Mercury Meteor, a completely new-sized car which will be introduced this month.

The Mercury Meteor will be unveiled across the country on Thursday, Nov. 30, at about 2,000 dealerships in the Lincoln-Mercury organization. Its introduction will climax the auto industry's Fall showings of the 1962 models.

The Meteor is regarded by the Lincoln-Mercury Division as a balance between the industry's compacts and big cars. Compared to its companions in the Mercury line, the Meteor is nine inches longer than the Comet and nearly a foot shorter than the Monterey.

In appearance, the Meteor emphasizes clean-lined styling. The car, which is built with a unitized body, incorporates features designed to reduce maintenance costs.

The new Meteor will be offered in four body styles — two and four-door sedans in both a standard and custom series.

State

(Continued From Page 1)

Assistant in Secondary Education, Science, Mathematics.

The committee reported that "Belleville High School with a functional capacity according to more than 900, presently enrolls over 1,500 pupils. The building located on a main street of the business section is old, having been constructed in four stages the latest of which was completed twenty-five years ago. It is without any adjacent recreation or play areas for physical education activities. These crowded conditions necessitate the use of every available space and create great difficulty in administrative scheduling, as well as extreme efforts on the part of the teachers and staff in general, in order to provide a comprehensive high school program. Under these circumstances, the high staff - pupil ratio and teacher load in many areas cannot be reduced since there are no available teaching stations for needed curriculum and staff additions.

RESTRICTIONS EVIDENT "The restrictions on the instructional program imposed by the overcrowded building were evident in the large number of teachers who had to "float" through the schedule, teaching in whatever room or area that was available. Two of the English teachers are teaching in five dif-

ferent rooms on three different floors. Many instructors are forced to use three and four different teaching areas. Obviously under these conditions the use of a variety of instructional materials and modern audio-visual aids would be most difficult if not impossible. Good teaching requires an environment that reflects the subject under study with interesting bulletin board displays, pupil projects, and many materials at hand and ready for use. Multi-use of classrooms practically precludes any area with this desirable educational setting for learning.

"The housing of 1,500 pupils in a functional 900 pupil school can be achieved only by the traveling of teachers described above and by large classes. All of the required health classes number 50 or more pupils. In addition, 33 per cent of the social studies sections exceed the maximum of 30 pupils recommended by the state; 50 per cent of the science sections; mathematics 44 per cent; English 37 per cent; and foreign languages 25 per cent.

Beck's Column

Pennsylvania and New York state have passed a law pertaining to the labeling of re-built television picture tubes.

It is well known known that a number of TV repairmen have sold these rebuilt tubes as brand new and charged the price as for a brand new tube. It is now necessary in these two states to clearly mark a tube as re-built, in a prominent manner, not just in hardly visible print as it was done previously.

The reason for the conspicuous marking was, of course, a great number of complaints. The customers this time got a powerful assist from the picture tube manufacturers and amazingly enough in Pennsylvania, from the union operating in the glass factories. The tube manufacturers all of a sudden came up with the idea that the useful life of the glass was just about 3 years. This really sounds funny. It so happens that the picture on many 21" tubes, when a set is used quite a bit, becomes "soft" after about 3 years' use and many people think of replacing the picture tube. The union simply backed the law because they want to keep on making new tubes and thus preserve their jobs.

On the basis of our experience we can not agree with the reasoning of the glass manufacturers. Once in a great while a picture tube develops a crack, but this happens with brand new tubes as well as with re-built ones. We do not recommend re-built picture tubes because we have seen so many which did not perform good compared with brand new tubes. Most re-builders are small shops which simply do not have the same facilities as the large tube manufacturers. If a tube has just a small defect, they pass it, while large factories would not. Another reason why we do not stock re-built tubes is the time it takes to return a tube to the re-builder, in case of failure, wait until he repairs it and the labor charges involved. A brand new tube will be replaced in case of failure from stock and without charges. In addition the price difference between a new and rebuilt tube is small. However, if a customer specifies he wants a rebuilt tube, we get it for him.

We service what we sell.

adequate and obsolete science facilities in the school with the urgent national need for modern and expanded instruction in science. The rooms are widely separated, contain about 50 per cent of the recommended floor space, devoid of storage and preparation areas, and equipped with out-of-date science furniture. The chemistry laboratory, because of its smallness, inadequate storage for chemicals and acids, and poor ventilation is a actual hazard to the pupils to say nothing of the limitations it places on instruction.

REPAIRS STYMIED

"The fact that two-thirds of the student body terminate their education with high school requires a program geared more to the needs of business, industry, and home-making. H-re, too, the building stymies the efforts of

the administration and faculty to provide a vital program. Shops and homemaking areas are inadequate in number, small in size, lacking in storage—all of which dictate a limited program. Business education rooms are widely separated and lacking in modern equipment. The typing and secretarial practice situations are particularly acute.

The overcrowding of the building in the gymnasium area precludes a program designed to provide the variety of activities necessary for meeting the physical development needs of the students. Some gym classes exceed 125 students, locker rooms are extremely small with insufficient number of lockers and very small aisles. The situation is potentially hazardous, unhygienic, and woefully limited in size and equipment for the student body,

Angelo M. Naturale
Angelo M. Naturale of 140 Fairway Avenue died suddenly on Wednesday, Nov. 15 at home. He was 63.
The funeral was from Megaro Memorial Home, Newark on Saturday, Nov. 18. A Solemn High Mass Requiem was offered in Holy Family Church, Interment was in Immaculate Conception Cemetery.
Mr. Naturale was born in Italy and came to this country when he was one year old. He resided in Nutley and then moved to Belleville 30 years ago. He was a barber, employed in Montclair.
He leaves his wife, Mrs. Lena Pellegrino Naturale; one son, Victor of Newark; two daughters, Mrs. Vincent Cappello of Neptune and Mrs. Michael Testa of West Orange; three grandchildren; three brothers, Anthony of Belleville, Carmine of Maryland and Joseph of Nutley; four sisters, Mrs. Nick Grande of Belleville, Mrs. Anthony Mattarollo of Lyndhurst and Mrs. Ralph Vitello of Mrs. Carmine Auricchio; both of Nutley. He was the brother of the late Mrs. Nellie Sasso and Mrs. Lucille Jannarone.

Michael Andreottola
Michael Andreottola of 93 Magway Street died Tuesday, Nov. 14 in Clara Masses Memorial Hospital after a long illness. He was 72.
A Solemn High Mass of Requiem was offered in St. Anthony's Church Saturday, Nov. 18 after a funeral from Zarro Funeral Home, Bloomfield. Interment was in Holy Cross Cemetery.
Mr. Andreottola was born in Italy. He came to the United States 60 years ago. He resided in Newark before coming to Belleville 43 years ago.
He was employed by the Newark Sanitation Department from 1917 to 1926. He returned in 1929 and worked there until he left on sick leave two years ago.
He leaves four sons, Rocco, Frank and Charles, all of Belleville, and Samuel of Newark; three daughters, Mrs. Gerald Volpe of Newark, Mrs. Thomas Fortuna of Belleville and Mrs. Grace Potroski of Bloomfield; 19 grandchildren and two great-grandchildren.

Nine Belleville Residents Earn Hospital Awards
Nine Belleville residents received awards at the annual Court of Awards held by the Women's Auxiliary of Columbus Hospital, Newark, Thursday evening, Nov. 16, at Essex House, Newark. Awards were given for efficient services to the hospital.
Miss Joanne Andreottola of 19 Naples Avenue, and Miss Judy Di Clemente, 28 Florence Avenue, received awards for 500 hours of service, and Miss Esther Cerlignone, 40 Naples Avenue, was the recipient of a 300-hour award.
Fifty-hour citations went to Miss June Jacullo of 115 Cedar Hill Avenue; Miss Angelo Cuzzo, 54 Salter Place; Miss Judith Del Guercio, 217 Forest Street; Miss Ella Di Martino, 34 Jannarone Street, and Miss Gail Ritchy, 753 Mill Street, and a 25-hour emblem went to Miss Maria Sprella, 96 Heckel Street.
The Rev. Edward E. MacEddy, of the Metropolitan Baptist Church, New York City, will be guest preacher at the Second Baptist Church on Sunday, Nov. 26. He will deliver an evangelistic sermon at the 11 o'clock morning service.

How Car Lease Charge Can Be Tax Deducted

Kenneth O. Hook, Acting District Director of the Newark District of the Internal Revenue Service, today outlined Federal income tax rules covering deduction of amounts paid for leasing of automobiles or trucks.

Mr. Hook said the information is intended to answer continuing inquiries which apparently stem from advertisements implying that all auto leasing expenses are fully tax deductible.

Federal income tax rules on this point are quite clear, Director Hook said. Auto or truck lease payments are deductible only if they represent ordinary and necessary expenses of and are directly attributable to the operation of a trade or business, he explained.

Under no circumstances are such lease payments deductible to the extent they represent personal use by a taxpayer, such as for vacation trips or driving to and from his place of business or employment.

No deduction will be allowed for so-called lease expenses which, in fact, constitute payments toward the purchase price of an auto or truck, Mr. Hook said. If the lease payments are so arranged as to constitute advance rental, such payments must be duly apportioned over the entire rental period.

Hospital Costs

One of a series of articles on hospital costs prepared for publication in this newspaper by New Jersey Hospital Association.

LIFE EXPECTANCY UP

Did you know that since the end of World War II, four years have been added to your life expectancy?

It's a known statistic that the average life expectancy has jumped from 66 years to 70 years over that period of time. A high standard of living has been a factor but the revolutionary advancements in the field of medicine and health care have been the main reason for the longer lifetime expectancy.

Things have changed and people in the health field, always aware of improvement, predict even better standards for the future.

Let's take a look at some of the startling developments in treatment of disease: polio, once dread killer, has been tamed by the introduction of the Salk vaccine; cures are in sight for cancer and heart disease, incurable in the past; the introduction of miracle drugs has reduced, and even eliminated, many sicknesses, and so on...

New Jersey's hospitals have kept up with these developments and play a vital role in your health today. But, the road hasn't been easy. More and more the hospital is looked upon with confidence and respect, and as a lifesaver. People go to the hospital to live, not to die. It wasn't always this way.

Hospital costs have risen. This is a known and often controversial fact. But the improvements and lifesaving techniques have climbed at a more proportionate rate; in some areas there can be little comparison of technological change to patient cost.

All of the departments in New Jersey's hospitals have shown marked changes since 1946. Refinements and advances in medical science have meant additional departments, expanded facilities, more personnel and, ultimately, new and costly construction and equipment.

While there have been notable achievements in the medical field, the need for specialization has risen sharply, according to the New Jersey Hospital Association. Once thought of as strictly professional, specialization also has effected a change in the training of certain hospital personnel. Today, there are needs for technicians and specialists in nearly all hospital areas. Nursing techniques also have made progressive strides.

Another improvement has been the strict set of rules and regulations laid down by the Joint Commission on Accreditation of Hospitals. This national organization acts as a "watchdog," insuring that hospitals hold strictly to accepted standards. It is the responsibility of the Joint Commission to assure you—the public—that a hospital is "safe" and conforms to high professional standards as well as providing good medical and nursing care. More than 98 per cent of all voluntary short-term hospitals in New Jersey are accredited. Throughout the nation it is the voluntary short-term hospital that records more than 80 per cent of admissions.

In 1946, statistics revealed that 98 of every 1,000 people were hospitalized during the year. Today, the figure (per 1,000) has risen to 122. And figures also reveal that in 1946 the average length of stay in a short-term voluntary hospital was 8.8 days. Today that figure has risen to 12.7 days. In 1961 people are getting better faster. It's all in line with the medical improvements, many of which are never seen or understood by the public, that this significant progress has been made.

In 1946 who would have thought that atomic research would ever result in effective treatment for certain forms of cancer? Yet, today, hospitals have monster cobalt machines that have proved effective against various forms of this dread disease. Many people never see the machines. Perhaps fewer understand their usage and value. But everyone can understand dollars and cents. The cobalt machine costs more than \$80,000. That's a lot of money for a single lifesaving advancement. In addition to cobalt, there are about a dozen other radioactive isotopes that are used for therapeutic purposes.

Automation has become a major factor in other fields. In the hospital, the laboratory technician can do 30 blood circuit detections in an hour. Before automation, each detection took 15 or 20 minutes. Other machines speed diagnostic studies.

The remarkable heart-lung machine makes possible the type of surgery a practice never before possible. This unbelievable piece of equipment allows the artificial operation of the heart and lungs during cardiac surgery. Another

remarkable innovation is the artificial kidney machine, which performs the function of a real kidney when needed.

Tremendous progress has been made in the field of anesthesiology which both comfort and protect the patient. The introduction of antibiotics and chemotherapy has made the job of the hospital pharmacist a more important one. Advancements in physical and occupational therapy, as part of the whole field of physical medicine and rehabilitation, have been breathtaking over the past 15 years.

Thus, while costs have gone up sharply over the years since the end of World War II, the improvement in hospital services and treatment have been remarkable. Four years have been added to the life expectancy over the past 15 years. What will the future bring?

SUPERVISE PLAY

The National Board urges that parents supervise all play with electrical toys, also those powered with fuels and chemicals.

On heat-producing and electrical toys the UL label of Underwriters' Laboratories is especially important.

New Jersey's hospitals have kept up with these developments and play a vital role in your health today. But, the road hasn't been easy. More and more the hospital is looked upon with confidence and respect, and as a lifesaver. People go to the hospital to live, not to die. It wasn't always this way.

Nation Is Asked To Help Cut Yuletide Fire Toll By Watching Children

Americans are being asked by the National Board of Fire Underwriters to keep fire safety in mind this Christmas and prevent a recurrence of the heavy toll of fire deaths recorded a year ago.

Fire deaths were up sharply last holiday season.

In the three days beginning at 6 p.m. on Christmas Eve, there were 77 fire deaths in the United States compared with 3 deaths the preceding Christmas.

A total of 66 persons died in fires during a three-day period last New Year's compared with 83 persons in a like period a year earlier.

CARE IS URGED "The Christmas season can be a joyous one for all of us if we use ordinary care," said Lewis A. Vincent, general manager of the National Board of Fire Underwriters.

"It is a well-known fact that three-fourths of all fires are caused by carelessness and forgetfulness."

the National Safety Council, are as follows:

Number	Fire Fatalities
Year of Days Christmas N. Y.'s	
1960 3	77
1959 3	43
1958 4	93
1957 1	27
1956 4	53
1955 3	68
1954 2	63
1953 3	61

GOVERNMENT GRADE A SHOP-RITE BRAND

TURKEYS

Your friendly neighborhood Shop-Rite market is proud to bring you these famous Shop-Rite turkeys... just wait till you see this fine addition to the proud Shop-Rite family... broad breasted, fairly popping with tender, solid white meat. And they're fresh from ready for the oven. So easy to prepare, too. Just thaw, stuff and season. The gullets are tucked away, made for use in the dressing and gravy... the legs are tucked so no skewers are needed, and the majority of leg tendons are removed. But the real proof is in the eating... and when you serve a Shop-Rite brand turkey, there will be smiles of pure satisfaction around your table as teeth sink into the finest, tenderest, most flavorful turkey you've ever cooked. WHY PAY MORE? Treat your family to your holiday best... for your best turkey buy... better buy... Shop-Rite.
