

Clean Up Week Is To Start In Town On October First

A Clean-Up Week for Belleville October 1 to 6 inclusive was announced this week by Ralph A. Vara, superintendent of the Department of Public Works and Affairs, and Edward Burdzy, health officer.

"A clean town is an asset to business and health and a sign of alert, civic minded citizens," the pair said in a joint statement. "On the other hand, the littering of streets and private property is unsightly, unhealthy, costly and shows a lack of community pride."

The statement continued:

"The citizens of Belleville should remember that laws alone cannot keep the community clean, but each can do his part by observing the following rules:

"Garbage must be kept in a metal container with a water tight cover. The garbage should be wrapped in paper or paper bags before placing in the can, to prevent it from sticking or freezing to the can."

"Place other refuse and waste materials or materials such as hedge clippings, grass cuttings, weeds, bottles, leaves, ashes and hard substances in any kind of container except cardboard cartons or paper bags. Containers weighing over 100 pounds will not be taken."

"Newspapers, books, magazines or substantially similar paper articles should be securely bundled and tied and all paper boxes and cartons must be made flat, bundled and tied. Loose paper should be placed in a jute or cloth bag or substantially water-resistant container."

"Limbs of trees, roots and wood will not be picked up unless tied and must be in small bundles, not over 3 feet in length."

"Contractors' building waste will not be removed by the clean-up contractor. Garbage, refuse and other materials put out for collection must be placed between the sidewalk and the curb, not earlier than 10 p.m. the night before collection day, nor later than 8 a.m. the morning of collection day. Garbage, refuse and other materials must not be placed out after the collectors have passed. Empty containers must be removed away from the sidewalk after collection."

"We are doing our best to keep the town clean. Please help!"

Pioneer Learning Program Is Now Under Way Here

Nine children with special visual problems are taking part in a pioneer learning program launched this term at the Cerebral Palsy School and Treatment Center, Belleville.

Robert Conway, Jr., 8, son of Mr. and Mrs. Robert Conway of 85 Ralph Street, Belleville, is one of the students in the experimental class.

Among the many types of brain damage affecting cerebral palsied youngsters, inaccurate visual perception is one of the least explored areas, according to Miss Edith A. Ayres, executive director. New techniques employing other senses, such as sound and touch, have been developed to teach these youngsters how to read.

Miss Judith Ann Peterson of North Bergen, a specially trained teacher, is in charge of the class which is sponsored by the Belleville Board of Education.

To illustrate the visual difficulties these children experience, Miss Ayres explained that when looking at a picture on a wall, the wall is predominant and the picture recedes. "That is why other senses must be taught to take over," she added.

"If the experiment in teaching these otherwise minimally handicapped children is successful,"

Community Welfare Group Is Organized

The Belleville Community Welfare Council was formed last week at the DeWitt Savings & Loan Association.

The new organization will be patterned along lines similar to the Irvington Community Welfare Council and West Hudson Community Council. It will also be affiliated with the Welfare Federation of Newark and the Council of Social Agencies of Newark, Belleville, Irvington and West Hudson.

Attorney Alan H. Bernstein was elected "first" chairman of the group. He said the Council will be "as the social conscience of the community."

The Council will serve the town of Belleville as a medium through which citizens may more effectively coordinate the general welfare services in Belleville and carry on social planning in the areas of family counseling, group work and recreation, health programs and child care services.

Elected to serve with Bernstein were vice-chairman Victor L. Hart and George Mitchell. Bernstein, Mrs. Hart and Russell Sargent were also selected as the first Council representatives on the board of trustees of the Welfare Federation.

Miss Ayres stated, "then the benefits of this new cancer program will be of value to the whole field of cerebral palsy."

Dr. Howard Eisenstadt, director of the center's eye clinic, and Leonard Hockman, staff psychologist, tested and screened the children to select those who need this special class.

Louis Long Jr. Will Teach At Great Mills

LOUIS M. LONG JR., son of Mr. and Mrs. Louis M. Long of 29 Cella Terrace, Belleville, has accepted a position to teach social studies and act as assistant coach to the football team at Great Mills (Md.) High School.

Mr. Long is a graduate of Belleville High School, where he played on the baseball, basketball and football teams.

He graduated from Bloomfield College with a B.A. degree in social studies. He was also junior representative for the Presbyterian Youth Group. He was elected senior class president, president of Tau Alpha Kappa, and chairman of the senior dinner.

He was also a part of the baseball and basketball teams at Bloomfield, and he was awarded the fraternity athletic award and the college citizenship award.

Route 21's Death Curve claimed another victim last Friday. Robert Kotloff, 30, of Hewitt died at Clara Maass Memorial Hospital three hours after his panel truck was involved in a five-vehicle crash on the rain slicked highway at Bayard Street. It was the same location where four persons lost their lives on September 4.

The accident brought demands from Town Manager William A. Sommers, Mayor Robert M. Laterza and Police Chief Charles H. McGinnis that the State Highway take immediate steps to eliminate the death trap.

"This hazard must be eliminated at once!" they said.

Harry A. Hartmann, supervising engineer of planning and traffic of the Highway Department, replied that his office had already completed a study for a temporary solution to the problem, and that a more detailed study will follow.

He said his department, working in cooperation with the Belleville Police, would add more patrols, more warning signs and take any other practical steps to slow down motorists and make them aware of the danger on the curve.

Hartmann said part of a long range study of the problem would be to determine if speeds permitted on the highway are excessive. He said the study would take into consideration a suggestion of Chief McGinnis that signs be posted in the southbound strip warning that the road narrows from three to two lanes and reducing the speed from 50 to 40 miles an hour.

Belleville officials were reportedly not completely satisfied with Hartmann's promises and vowed to pursue the matter themselves.

The Friday accident was touched off when Kotloff's truck going north in Route 21, crossed over the white center line and crossed the left rear of a southbound flatbed truck driven by Freddie L. Morris, 29, of Newark. The truck is owned by R. Gieb & Sons of Union.

Kotloff's truck continued into oncoming traffic and smashed into the Emporio car almost head-on. Both the Morris flatbed and Kotloff's panel truck spun about and slammed into a southbound van driven by Louis Prithell, 65, of Newark, for Mechanics Over-all Services, Inc., of Newark.

Then Morris' truck rammed into a sedan. Its driver, Arch K. Foster, 29, of Paterson, was not hurt. His 8-year-old son, Darryl, a passenger, was taken to Clara Maass Hospital for examination and released.

Early rush - hour traffic was tied up north to Nutley and south to Newark as police worked to clear the wreckage strewn across the highway.

Police booked Morris as a material witness and released him in his own custody. He was given a summons for failing to report a change of address to the state Division of Motor Vehicles. No other summonses were issued.

The State Highway Department early this year announced plans which would eliminate the S-curve and drop in speed limit in the Bayard Street area.

The plans are to replace a 1.2 mile unimproved portion of Rte. 21 — McCarter Highway — with a new section of freeway along the west bank of the Passaic River.

The new freeway link would connect the six-lane roadway north of Bayard Street with a previously widened section south of Elwood Avenue, Newark.

High-speed traffic then would be diverted off the old McCarter Highway, which would become to a great extent a service road for industries fronting on it.

A BOOST FOR THE BOOSTERS

At B.H.S. much of the chatter has turned to the up-coming sport — football. Mr. Testa, Belleville's newly appointed coach, and his assistants are trying their best to get our team in shape for a victorious season. Coach Testa has started a new trend at school. He has wisely organized a "Booster Club" of girls to arouse school spirit.

Every girl at Belleville High is most welcome to join. All members are seated together at pep rallies and football games. The "Football Booster Club" is an outstanding group of young ladies. They are often heard chanting school cheers and songs on school buses, in gym classes, and especially at rallies and games. At the games on Saturdays these girls can easily be

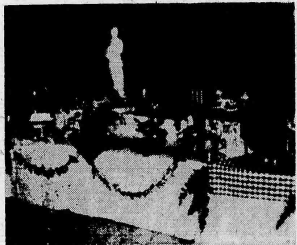

recognized in their new blue and gold shirts.

Strong congratulations go to Suzanne Paparazzo, president; Marie Ferrentino, vice-president; Joann Bonfante and Linda Frey, treasurers; Ruth, Ann Long, secretary; and to Susan Walters and Phyllis Connor, publicity chairmen. These girls give much of their time to help make this club a success.

Girl Scouts Elect Their New Officers

Intermediate Girl Scout Troop 948, which meets at the Belleville Reformed Church, with their leader, Mrs. Andrew H. Verhaeghe, assisted by Mrs. Lawrence Bartholomew and Mrs. Nelson Morrell, held their first meeting and annual election of officers, Tuesday, September 11. Elected were: Patrol Leaders Charlotte Mc Minis, Ellen Sanders, Teresa Thomas; assistant patrol leaders Karen Jinks, Patricia Karatz and Felicia Makes; Secretary Nancy McCarthy, Treasurer Carol Cowan, and Troop reporter Karen Jinks.

Girl Scouts In First Meeting Of Scout Year

The Girl Scouts of Senior Troop 921, under the leadership of Mrs. Andrew H. Verhagen, had their first meeting for the Scout year on Tuesday, September 11.

The meeting was primarily a business one, concerning the agenda for the year. Among business discussed was changing the weekly meetings to twice monthly, the second and fourth Tuesdays, a morning of horseback riding, a service program for the

year, new membership, and the upcoming calendar and cookie sales, which are the Scouts only means of making a profit to enlarge their treasury.

After the meeting pizza pie and soda pop was provided by Mary Lou Bedarbis, a former member of the troop now attending college. Mrs. Verhagen showed slides of her summer visit to the Girl Scout Senior Roundup in Button Bay State Park, Vt.

The Senior Troop offers many exciting, challenging and valuable experiences to all its members. Any girl 14 through 18 who likes both fun and work is welcome to join. The Scout program includes all fields of interest to fit the needs and pleasures of every girl. Anyone interested may write or call Mrs. Verhagen, 112 Hornbrow Avenue, Belleville, or drop in at one of the meetings the second and fourth Tuesdays of each month at the Belleville Reformed Church, Main and Rutgers Streets. The meetings are held from 8:15 to 9:30 P.M.

S.O.S. Chairman Asks Prosecutor To Visit HS Site

Al Gaudio, chairman of the Belleville Save Our Schools Committee sent the following letter to Brendan T. Byrne, Essex County Prosecutor, on September 17, and has requested that he be published in The Times:

Mr. Gaudio's letter follows: "Dear Mr. Byrne: "As Chairman of the 'Save Our Schools Committee', I wish to relate to you that the S.O.S. Committee was organized by interested citizens for the sole purpose of backing the December 21, 1962 school referendum, so that accreditation could be re-established to our Belleville High School, and to restore dignity and pride to our town.

"The referendum was held with no misconceptions, nor clouded issues to the people of Belleville. The facts were clear and to the point. The people went to the polls to cast their votes with a clear picture as to the need, the location of site, and estimated cost set forth by the Board of Education and Mr. A. Alvarez, the architect and the Educational Consultant, Dr. Felix McCormack of Columbia University.

"All pertinent facts relating to the new school referendum, based upon the knowledge and advice of the experts.

"We stand for good education in Belleville and a decisive movement forward in this area. Also, we as the S.O.S. and other sympathizers in our town of Belleville invite and urge you, Mr. Byrne, along with the members of the jury to examine for yourself, by visiting our town as to the site for the new high school and our present high school and judge for yourself the necessity. It would also be quite educational to you if you toured our town in search of a probable better location than we have thus far chosen.

"In conclusion we trust that

Beck's Column

The House of Representatives has approved the all-channel television bill. The President has come out already in favor of the bill and no doubt will sign it.

Thus we will soon enter a new phase in TV. Under the bill, all TV sets shipped in interstate commerce must be capable of receiving all 82 TV channels. There are 12 channels in the VHF (Very High Frequency) and 70 in the UHF (Ultra High Frequency) band. It should be noted that we, in this vicinity, will be relatively little affected by this impending change. Forgoing we will continue on our present channels. There will be, no doubt, additional educational stations even in this section on UHF, but it is questionable whether New York or this immediate vicinity will have additional commercial UHF stations. Anyway, you won't have to worry about obsolescence of your present TV set for a long time yet. It may take 2 years or more before the new law will go into effect. If we should have one or two UHF stations, it is not difficult to convert your present set to receive these stations.

The bill will benefit mainly those areas that have only one station or none at all. It would provide for at least 4 commercial stations, in some combination of VHF and UHF, in each large population center; at least 3 in medium sized and at least one in each community of appreciable size.

The FCC (Federal Communications Commission) has indicated that it expects to see the wide use of UHF television within a span of 4 to 6 years. If this works out, this bill could be a real boon to many TV hungry people in outlying sections.

We service what we sell. BECK'S RADIO TV HI FI ORGANS

Nutley 667-2275

this letter will stimulate the interest for such a visit to our town. The referendum was the mandate of the people for a new high school and not based upon the distortion of facts as certain persons would have you believe.

"These people have obstructed the new high school program since its beginning in 1959. They even objected to the Rutgers Survey which advocated a new proposed new high school. These same obstructionists we speak of unsuccessfully tried twice to prevent having the referendum.

"You are the judge, the decision is yours to make. We hope and pray that you will consider our children of Belleville and their rights toward having an accredited first grade education. No man would deny this to their children.

"Sincerely and respectfully, "A. GAUDIO, Chairman."

HAS STATISTICS ABOUT FIREFMEN

The Editor, The Times-News: I have read the article in The Belleville Times in regard to the demands of the Fire Chief, who says he can't do a good job unless he receives 22 more men. Up until now our firemen are doing good work, therefore I cannot agree with his statement.

The answers given to the Fire Chief by the editor of The Belleville Times are the same as mine. The new form of government was approved by the people for a purpose — to bring about tax relief and cut expenses wherever possible, not to add on a heavier tax load.

The question approved by the people was for a reduction in working hours from 56 to 42. It did not mention 22 more men, which would increase the payroll \$130,000 or an increase in the tax rate some 25 points. If it had, it would have gone down the drain.

Any new men added on to our present staff of 69 men won't make it any better. It would just be a waste of the taxpayers' money. The staff is big enough to take care of the town without any loss of protection at any time. I have recommended a 5 day work week with 2 days off, around the clock, which can be done.

In order for our new form of government to succeed, we must all cooperate. The people have

made many sacrifices in the past. It's about time all town employees do likewise.

Let's take a look at some other towns with a 42-hour work week. Nutley, about the size of Belleville, will start working 42 hours in January, with 26 paid firemen. Hillsdale, N. J., 45 paid firemen. Greensburg, Pa., a beautiful town where I spent five days doing research work, population in 1960, 18,900 people, no paid firemen, 480 volunteers, 215 men on call at all times, tax rate \$5 per \$100. Police force consists of 28 men which includes the Police Chief. They have an amusement tax of 2 1/2 per cent, a sinking fund of 20 mills. A mill is one tenth of a cent, they have 12 grammar schools, a high school, a junior high, and have just completed a new high school, with no increase in the tax rate, costing \$4 million dollars. They have a Mayor-Council form of government. The mayor is elected at large, his salary is \$3,000, the four councilmen, one from each ward, receive a salary of \$2,400 each. The starting salary of a policeman in Greensburg is \$4,150 dollars. While I was there 10 new teachers were hired by the School Board for the high school, starting salary \$4,000. Cost of living there is the same as here. I have received all this information from the editor of the Greensburg Review and have given a copy of it to Jim Golden to show to the other Councilmen, in the hope they can work together and make our town as good in the years to come.

Cranford, N. J., has a paid Fire Department of 22 men, at present working 56 hours, also seeking a reduction to 42 hours. If approved, the mayor said he would add only five more men to the department for a total of 27 men, starting salary \$4,900.

After considering all these facts, I feel the people are tired of being made the suckers to pay the bill. Many are out of work, others retired and living on a pension. Since none of us has any say in this matter, it should be left up to the Manager and the Council to decide, without any pressure from anyone, or place the question on the machine, and leave it up to the people. In that way we can put an end to these side shows at the Town Hall meetings, which are

Red Cross Is Searching For Volunteer Workers

The Belleville Chapter, American Red Cross will be ringing and typewriter will be clicking under the direction of Red Cross Staff Aides. Sewing machines will be in operation by Red Cross Production personnel to show all the different things made for the hospitals. Hours will be 10 to 3 each day.

The slogan for the drive will be "Wanted, Not your Money But You, Volunteer Some of Your Time."

The opening ceremonies will be on Monday morning, September 24, at 10 o'clock with John A. Gambling, well known star of the WOR radio station, as guest of honor. He will cut the ribbon signaling the start of the drive. A color guard from the Nike Base at Hanover, N.J., will take part in the flag raising. The U. S. Army Band from Fort Monmouth will play for the occasion.

All week long, teams of men and women Red Cross workers will staff booths and tables on assigned Tuesday morning, September 25.

Live demonstrations of Red Cross services will be put on. Visitors will see Gray Ladies and Gray Men caring for wheel chair patients as one of the many services they perform in hospitals. Nurses Aides will be taking care of a patient in a hospital bed. Motor Service personnel will be on duty.

Telephones, furnished through the courtesy of Tepper's store,

getting out of hand and destroying the confidence of the people. It will only lead to recall movement, which the people are trying to avoid.

By the deeds and acts of the Council, which started off on the wrong foot, we will know within one year if this new form of government is a success or a failure.

Judge Abromson's Reappointment

The reappointment of Magistrate Edward J. Abromson to another three-year term on the municipal bench with the unanimous approval of the entire Town Council a full ten weeks before the expiration of his present term shows the high esteem in which the Judge is held by the governing body of Belleville.

This high regard is well deserved. Judge Abromson has served the community faithfully since the date of his first appointment to the post, December 2, 1951.

His decisions have been free from political consideration.

When circumstances of the case warranted it, he has tempered justice with mercy.

When the need to crack down was apparent he never hesitated to apply the full force of the law.

A recent example of the latter was when Judge Abromson decided to "get tough" with traffic violators caught in Belleville. He ordered a jail term for one speeder and revoked his license for 60 days. He fined other speeders heavily.

"I won't stop this until people know I mean business," he said. "We're tough now, and we're going to get tougher before we're through."

Belleville citizens should be proud and appreciative of their eminent magistrate.

The Town Council Chambers

The Town Council meeting chambers in Town Hall leave considerable to be desired.

Although the seating area was recently enlarged by the elimination of the enclosure at the rear of the room, there is still insufficient space to seat the crowds who are currently attending Council sessions.

When the crowds spill out into the hall and down the stairs, as has been the case more than once, there is definitely a safety factor involved.

Another bad thing about the meeting chambers is the poor acoustics. A citizen commented at a recent Council gathering that it was tough to have to stand for two hours and then hear nothing but mumbling.

To move the railing separating the audience from the Council further to the front, as has been suggested, might allow for another row of seats.

To install a public address system and provide the Councilmen with microphones, as has also been suggested, might help toward eliminating the acoustics problem.

Neither of these suggestions are likely to be proper for long time solutions to the problems, but they might be considered as temporary alleviations of annoying situations.

Is There A Home For Blackie?

A homeless puppy can be a pretty pathetic little animal. Hardly a week passes that this newspaper is not asked to spread the word that some tiny canine creature is looking for a kind master and a warm abode. This week came a really touching request.

It seems that a former Belleville School 4 student, Rosemary D'Alessio, now a high school girl in Newark, was walking through Irvington Park with a girl friend when a man driving by threw a black-cocker spaniel puppy about four months old out of his car with the words, "Get yourself a home, mutt."

The puppy, bewildered and dazed, ran over to the girls and looked up at them appealingly. They "adopted" him on the spot, of course. But at home they were told they couldn't keep him.

So Rosemary turned to her former hometown paper, The Times News, for help.

"Please help my friend and me find someone to adopt Blackie," she pleaded. We were moved by the request, so we agreed to print this appeal.

The puppy is at the home of Rosemary's friend, Sandi Wasserman, 10 Willoughby Street, Newark. We hope someone who reads this will be interested enough to call Sandi at WA 6-2552 after 4 today or tomorrow.

"We have to get rid of Blackie by Friday," Rosemary said. "That means if someone doesn't take him he'll have

to go to the pound. We don't want that to happen."

We don't want it to happen, either. Please give Blackie a home.

Flat Tire? Here's Advice

Clomp, clomp, bump. Stop.

You have a flat tire. What next?

If you don't value your life, just set the brake of your car and repair the tire.

Of course, if you would like to live a little longer and prevent a few other people from being killed or badly injured, here is what you should do:

1. Get your car off the roadway. You say you don't want to ruin your tire by driving a few hundred feet down the road to a point where you can get off the road. Brother, you're like the sea captain who wrecked a \$10,000 ship because he didn't put in a \$1,000 compass.

Ruin the tire, if necessary, but get off the road.

2. Set the brakes on your car and, if you have an automatic shift, put the gears in the "park" position. If you have a manual shift car, put it in the gear opposite to the direction the car might roll, i.e., reverse if the car might roll forward, first, if the car might roll backward.

3. If your flat happens at night, turn on all your lights, using the turn-signals as well as headlights, interior lights and tail lights. If it's daylight, at least use your turn-signal lights.

4. If you have a passenger, ask him to go about a 100 yards behind your car to warn oncoming traffic. If it is nighttime, have them use a flashlight. If you have a pot flare, fuze or reflective device, put it down as an additional warning to traffic coming up behind you.

5. Get off the road. If this sounds like the record is broken, just remember that it's better that you might have to listen to a broken record than to have your car . . . and your head . . . broken just because you didn't get off the road when you had your flat.

Don't Be A Sucker

"Your sedate next-door neighbor probably would not pay thousands of dollars for a single tulip bulb, or finance a steampoint to go and trade with the natives in an unknown country. — However, at a word from his barber, he may have gone overboard for one of the glamour stocks so popular in 1900 and '61."

That quotation comes from a new book, "What About Common Stocks?" by John A. Straley, published by Harper & Row.

Mr. Straley's book is designed to give advice to the ever-increasing number of people who are investing in common stocks, and to aid them in making the most of the opportunities that are open.

He deals with pitfalls to avoid. And he also touches on stock swindlers, which are carefully designed to trap the unwary and the unknowing. The "fast operator" can usually be seen for what he is if the potential victim will ask and answer a few questions. Is he in a hurry? Can you check his reputation? Is he pushing a single stock? A typical swindler is the one who joins a church, tips the pastor off on a "good" stock, and promises to reimburse any losses. The swindler's theory is that the kind-hearted pastor will pass the tip along to his parishioners.

The point, of course, is that nothing takes the place of knowledge and down-right horse sense in investing or in any other activity of mankind. The investor who buys merely on tips and hunches is asking for financial disaster.

Elaborate laws and regulations are in existence, imposed and enforced not only by governmental agencies but by the leading stock exchanges, which are designed to protect the investor in every reasonable way.

But there is no sure-fire protection, and there never will be, against ignorance, gullibility and unreasonable greed for a vast buck.

Non-Drivers And Danger

Most pedestrians killed by automobiles are non-drivers, a fact that would seem to indicate a need to know how to drive in order to walk or at least walk safely.

Most non-drivers do not realize the limitations of handling a vehicle and too often think traffic laws apply only to motorists.

This is something for the non-driver to ponder. Obviously it is not practical or even possible for everyone to become an automobile operator. However, it would seem advisable that everyone who is going to walk should learn the fundamental pedestrian problems from the point of view of the driver.

SPORTS TIMES

BENEFIT PLANNED FOR RATNER

Friends of ailing Ernie Ratner, a former boxer of note, will hold a benefit amateur boxing show for him at the Friendly House Hall, 21 Frederick Street, Belleville, on Wednesday evening, October 17.

Belleville Councilman Vincent T. Strumolo leads members of his organization, the Vincent T. Strumolo Association, in underwriting this much talked about boxing show.

The Councilman has placed boxing show arrangements in the capable hands of Anthony "Speed" DeBenedictis, who says the entire proceeds will be turned over to Ratner.

In his boxing prime during the late '20's and early '30's Ratner was known as the Silver Lake Bumblebee because of his swarming style of boxing. Ernie was severely injured on his Belleville town job two years ago and is without an income and unable to work.

The boxing show will feature ten bouts pairing Golden Gloves and State AAU Champions with trophies to the winners and losers. Madison Square Garden famous announcer Johnny Addie will be in his favorite spot announcing the bouts.

According to "Speed," former world champions James Braddock, Gus Lesenich, Tippy Larkin, Barney Ross, Red Cochrane, Charles Fusari, Tony Galento, Willie LaMorte, Ezzard Charles and others will be on hand. General admission will be \$2 and festivities will start at 8 p.m. Tickets can be purchased at Strumolo's quarters, 64 Franklin Street.

SPRIT AND DETERMINATION By RAY FERSKO

The gridiron season is here again and it looks like spirit and determination will be the deciding factors for Belleville. Under the direction of new coach, Tom Testa, 130 boys showed up for practice on September 1. This year's club is very young and does not have much depth. Coach Testa is depending on a united team under Captain Joe Latore to make-up for the lack of size and experience.

Returning to the squad this year, and looking promising, are Richard Luzzi at halfback; Stan Tomashevski, fullback; Joe Latore, quarterback; Louis Pomporio, end; Jim Bade and Drew Horvat, tackles; Joe DelGuercio,

center; Warren Ceres and Bob Beyers, end; and Bob McGeown, guard.

This year the squad also as Sophomores Joe Cervasio, halfback; Harold Avalone and Ed Carney in the guard slots; and Lenny Luongo, center. If the whole squad, from sophomores on, keep up their enthusiasm, eagerness and spirit, Belleville will carry the ball this 1962 season. Coach Testa has said, that the main problem is man power, but if the Belbolls get tough and open those holes nothing is going to stop quick flashing backs such as Luzzi or Latore.

Many new features have been added to football in Belleville. For one, this year a season football ticket book of reserved seats at \$1.50 per ticket is available. This will entitle the holder of a book to a regular numbered seat at all home games.

In addition to varsity football games, this year's schedules will include freshman, sophomore and junior varsity teams. This will keep interest in football and it will provide a team for everyone.

Another innovation of Coach Testa is the Parent-Son Night. The second is tonight, September 20, at 8 p.m. in the High School auditorium. At this time, equipment and safety precautions will be shown. All parents are invited.

This year we have two new coaches, John Jacone, sophomore coach, and Vincent Harris, varsity line coach. Also returning to this year's coaching staff are Stan Scher and Nick Petty, coaching freshman football and Pat Forte, helping as a varsity line coach.

The boys have been working very hard and have a tough schedule ahead of them which this year includes the West Orange swap for South Side.

They do deserve your support. Win, lose or draw, let's have the people of Belleville back their team this Saturday and every Saturday for the remainder of the season.

Girl Scout Roundup Film To Show On National TV

A real-life treatment of the 1962 Girl Scout Senior Roundup at Button Bay, Vermont, which was attended by six Senior Girl Scouts from Nutley and Belleville, as well as by several adult volunteers from these communities, will be seen on Channel 2 (Station WCBS-TV) from 9 to 10 p.m. on Monday, September 24.

Titled "The Road to Button Bay," and filmed by the prize-winning documentary film unit of Time, Inc., "The Road to Button Bay" will be shown over the CBS-TV network in prime evening time.

DeGeorge Calls Cuba Situation Important Issue

At a Conservative rally at Montclair Frank DeGeorge of Belleville, the Conservative candidate for Congress in the 10th District, stated in a joint release with the other Conservative candidates for Congress from Essex County, that he considered the situation in Cuba to be the most important of the campaign issues.

The statement said: "The fact is that Russians and Russian military equipment are now arriving in Cuba in open violation of the Monroe Doctrine. The Administration may interpret as defensive this activity in conjunction with a foreign power whose admitted long term objective is 'We will bury you' but we think that the facts are clear enough and the issue important enough for the voters to decide for themselves whether to endorse such an interpretation or not."

"Therefore in the interest of our national security we are joining the issue by stating that we are in favor of the immediate, unilateral enforcement of the Monroe Doctrine by the United States, even to the extent of sending troops, if necessary."

Enrollment At Cerebral Palsy School Is Up

Eighty-five handicapped children, an increase of 14 per cent over last year, joined the back-to-school ranks when they entered classrooms last week at the Cerebral Palsy School and Treatment Center, Belleville. The Belleville Board of Education sponsors three of the classes and three are conducted by the center.

The youngsters, unlike other public school students, receive regular therapy together with their classroom work. The center stresses a balanced program between educators and therapists, according to Miss Edith A. Ayres, executive director.

The total enrollment of youngsters being treated for cerebral palsy also rose this year from 183 to 203. Those who are not attending classes come to the center for therapy and medical and dental service.
