granted inequity adjustments in salaries, made them effective July 1, rather than retroactive. This was an abuse of the former Commission-Government and very costly to the embattled taxpayers. The Councilmen who now represent us don't believe in going backward. There is to be a forward moving body.

Those loud-mouthed defamers of the Public Works Superintendent who are wont to criticize his recently passed salary adjustment NEVER point out that at this very moment the same situation exists in the town's

public works department whereby the administrative clerk is getting \$8,500 per year, while his boss, the Superintendent is getting \$1,500 less. This inequity is one of those that will be adjusted starting July first, even then in this case both men will be getting the same amount for 1963. This disclosure should take the starch out of the fat finders who have found so little to complain about in the way things are moving at Town Hall that they are using magnifying glasses and their imaginations to seek out any possible flaws.

The card party for Congresswoman Pete Rodino held at Thom's was well attended by local personalities, especially the ladies of the Democratic County committee. Councilman Vin Strumolo was there with his wife, Lillian. Jim Golden does not get away with much when Lil is around. The politicians should try to get her on their side.

That end of the road picture showing the gap over the Third River at Rutan sure establishes the need for a bridge at this point. Somebody slipped up badly at Town Hall during the period of construction and development of the Rutan Estates colony when they neglected to have the developers build a bridge. With all this investigation stuff, maybe it would be worth while investigating this one.

Nick Juliano, President of local Board of Education, had a busy weekend. He is business agent for the group striking Blue Cross — Blue Shield.

Brisk business after Town Council meetings. Gutch's Tavern gets the guzzlers while North Arlington Diner gets the gourmets. Rank and file alike take a drink or a bite.

NEW WAY TO BE SUDDENLY SLIM

Are you a woman whose figure is on the good side but might look perfect? You'll be thrilled by the new easy way science has discovered for you to become Suddenly Slim. If you're more than 15 pounds overweight, then this idea is not for you. If your weight problem falls within this range, then you can realize a new, another figure today, without diet or exercise.

Suddenly Slim is an all-new kind of 4oz. girde constructed of silicone fibers. One startling innovation is the sheer nylon front panel. This is permanently stiffened by a science process and cannot give or sag. It's surrounded by a slimming action border. A featherstitched panel down each side of this girde will contour your hips if they are a problem. The girde itself is of a "wonder" Lycra spandex blend. It's a new power net consisting of nylon, acetate and spandex. It feels like nothing on but has such slimming strength, it gives your figure everything that's possible with a foundation.

"Suddenly Slim" is the peak achievement of the design-geniuses, Olga.

Be "Suddenly Slim" today in either girde or panty version. Featured at LADY FAIR, 510 Franklin Ave., Nutley NO 7-6000

Only 1 person in 300 has a phone like this

This telephone is made for the hard of hearing; it has a volume control built into the receiver. There are many other items we make for handicapped persons, such as an artificial larynx for those with impaired speech—and special school-to-home teaching equipment for shut-ins. The call for these services isn't big. But if the need is there, we make them available. They make it possible to extend to everyone the good phone service all of us enjoy. NEW JERSEY BELL

Miss Diane Owen Earns Degree At Mt. Holyoke

MISS DIANE OWEN

Miss Diane Owen, daughter of Mr. and Mrs. John Owen of 256 De Witt Avenue, is a candidate for graduation from Mount Holyoke College on June 2.

Miss Owen, a major in medieval civilization, is doing honors work this year in that field, and plans to continue her study of medieval history in graduate school. In her Sophomore year, she was named a Sara Williston Scholar in recognition of high academic achievement during her first two years. She was elected this year to the Theta Chapter of the honorary society, Phi Beta Kappa.

Miss Owen has been active in the student government association and this year served as chairman of College Chest, the annual fund drive for selected charities. During her freshman year, she played in the college orchestra and recently appeared in a Latin play, Menaechmi. Miss Owen spent her junior year at St. Andrews's University in Scotland. She is a graduate of Belleville High School.

This year, Mount Holyoke's 125th anniversary year, U Thant, Secretary General of the United Nations, will deliver the commencement address. The Rev. William G. Cole, President of Lake Forest College, will present the baccalaureate sermon.

In The Book

Alice Fitzpatrick, 31 Walnut St. who will graduate from Seton Hall University this spring, has been named in "Who's Who in American Colleges and Universities," announced Seton Hall University authorities.

Capozzi-Oliver Nuptials Held In St. Anthony's R.C. Church

The marriage of Miss Catherine R. Oliver, daughter of Mr. and Mrs. Benjamin Oliver of 40 Magnolia Street to Louis F. Capozzi Jr., son of Mr. and Mrs. E. F. Capozzi of 94 Hechel Street, was solemnized Sunday afternoon, May 26, at St. Anthony's R.C. Church.

The Rev. Salvatore Malanga of Holy Rosary Church, Jersey City, cousin of the bridegroom, performed the ceremony. A reception was held at The Fountain, Belleville.

Given in marriage by her father, the bride wore a bridal gown of silk peau de soie, designed with long sleeves, full skirt and detachable train. The train featured a sweetheart neckline with embroidered appliques of lace studded with sequins. Her three-tiered veil fell from a crystal crown, and she carried a bouquet of three orchids with lilies of the valley.

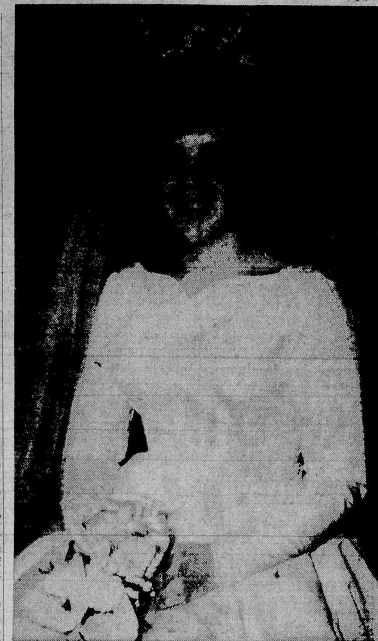

Mrs. Dominick Oliver of Belleville, sister-in-law of the bride, was matron of honor, and bridesmaids were Miss Carmelann Esposito and Miss Phyllis Serritella of Belleville, and Miss Helena Gelsio of Montclair, a cousin of the bridegroom. Donna Marie Oliver of Belleville, a niece of the bride, and Denise Capozzi of Bloomfield, a niece of the bridegroom, were flower girls.

The bride's attendants were dressed identically. They wore sheath gowns of crystal peau de soie with detachable overskirts of silk organza. They wore rose headpieces with veils and carried bouquets of white tea roses. The matron of honor was in green; the bridesmaids in orange.

The flower girls wore short dresses of green, fashioned with peau de soie bodices and full silk organza skirts. They carried baskets of tea roses.

Ronald Cuomo of Belleville was the best man for Mr. Capozzi. Ushers were Dominick Oliver, brother of the bride, Daniel Oliver of Springfield, a cousin of the bride, and Anthony Ferrara of Belleville High School. The bride is an employee of Orr Newark, a nephew of the bridegroom, was ring bearer.

The mother of the bride wore a turquoise gown of peau de soie, accessories to match, and a white orchid corsage. The mother of the bridegroom wore a pink lace sheath with detachable chiffon overskirt, matching accessories, and a corsage of white tea roses.

SOCIAL AND CLUB NEWS OF COMMUNITY INTEREST

Origin Of Bridal Customs Stretch Back Into History

There'll be about 1½ million weddings in the United States this year, and, as usual, June is the most popular month for the altar-bound.

Why June has become the traditional month of weddings and, probably relates to the transportation difficulties in early America. Too much snow in the winter go get to a wedding celebration. Spring and summer were bad times, too, because folks were busy with planting or harvesting.

Another influencing factor may have been that June is named after the Roman goddess, Juno. The Greeks had a different name for her — Hera. Anyway, the point is that Juno (or Hera) was the goddess of womanhood, of marriage and of maternity. She was usually represented as a matronly type, but nonetheless beautiful. The peacock, the cuckoo and the pomegranate were sacred to her. Homer spoke of her as the "white-robed goddess" and the "one-eyed queen" — all of which adds up to the kind of deity every prospective bride ought to have on her side.

These and many other interesting observations about the origin of wedding customs are culled from Compton's Pictured Encyclopedia. Here are some more:

For instance, the engagement ring represents the very old custom of a gift to a girl desired in marriage. The diamond ring originated in Italy where the diamond was believed to be a "flame of love." In ancient Egypt, the ring was a symbol of eternity. It also symbolized the "captive bride" whose hands were tied to prevent her from escaping. Anglo-Saxons put the ring on the right hand until the wedding when it was transferred to the left.

Another custom credited to ancient Egypt is throwing old shoes or tying them to the bridal car. In the land of the pyramids, the father handed the bride's sandals to the groom, symbolizing a transfer of authority.

Mohammedans, back in the Middle Ages, used orange blossoms in their ceremonies, as the orange was their most prolific fruit. Today, orange blossoms symbolize the hope that the wedded couple will be blessed with children. Throwing rice carries the same wish . . . but in ancient times it was also a way to "protect" the marriage from evil gods.

Since the sun was a god in many early societies, it was believed that if a bride-to-be gazed on the sun she would be certain to have children. This may explain the old saying, "Happy as the bride the sun shines on."

Even though her wedding day is her happiest day, the bride is "supposed" to cry, symbolizing the dismay of the bride of olden times captured by force. The capture is also reflected in the custom of the groom carrying the bride over the threshold of their new home.

Centuries ago in France the bride threw her garter and the girl who caught it was believed to be the next bride. Today the bride is somewhat more subdued and throws her bouquet — but the bridesmaids still scramble to make the catch.

In ancient times, the date of the wedding was often chosen at some phase of the moon when the gods were presumed to be favorable. This practice, with the custom of eating honey at the marriage feast, may be the origin of the world honeymoon.

Sometimes the marriage ceremony involved guarantees. The veil over the bride's face may have indicated that she had been secluded from men, and her white robe was a warrant of her purity. Even now it is thought bad luck for the groom to see the bride before the ceremony on their wedding day.

Japanese tradition requires the bride to wear a veil over her elaborate hairdo called a "horn cover." Jealousy is thought to vanish when it is removed.

Another widespread custom is for the bride to wear "something old, something new, something borrowed, and something blue."

In ancient Israel, the bride's robe had a blue border signifying purity, fidelity and love.

High-caste Brahmins in India believe a girl should marry at puberty. Usually the child bride remains with her family until she is 15 or 16. Marriage celebrations in India are so elaborate, Compton's points out that "the expense of the affair and of the bride's dowry frequently drives the father to the money-lender." Many American fathers can testify that this turn of events is not exclusive with India.

Tri-Town Sets Installation

Committee members in charge of formulating plans for the installation dinner of the Tri-Town Business and Professional Women's Club met recently to complete their arrangements.

The dinner will be held at Rock Spring Corral Inn, West Orange, on Thursday, June 20. Miss Helen Hurd, first vice-president of the State Federation of Business and Professional Women's Clubs, will install the incoming officers, and Miss Marie Shepherd of Maplewood will present the entertainment, "Norwegian Holidays."

Court Gratia To Install New State Of Officers

Installation of the officers of Court Gratia 731, Catholic Daughters of America, who were elected at the May business meeting, will take place Monday evening, June 3, at 8:30 p.m. at the Knights of Columbus Hall, Nutley.

Mrs. Fred Scott Jr. will be re-elected as grand regent, and Mrs. Stanley Kowal as vice grand regent.

Other officers being installed that evening include Mrs. Malcolm Cordon, proboscist; Mrs. Walter McCarthy, financial secretary; Mrs. Arthur Watts, historian; Mrs. Chester Murphy, treasurer; Mrs. Louis Magnifico, monitor; Mrs. Albert J. Ildes, lecturer; Mrs. Edward Grady, organist; and Mrs. Gerhard J. Kuns, Mrs. Willard Simpson and Mrs. Russell R. Hartman, trustees.

The Rt. Rev. Msgr. James J. Owens, pastor of St. Mary's Church, Nutley, and chaplain of the court.

The "music under the stars" program will be directed by Nicolas Cambourakis, who will lead the 60-piece orchestra in a varied program of light classics and musical comedy favorites.

The pianist, a native of Howard Lebow, noted concert artist and a faculty member of the Juilliard School of Music, will play the first movement of the Grieg Piano concerto. A native of Clifton, the young performer acquired his interest in the piano from his musically-trained parents, Mr. and Mrs. Myron Mischanik of Allwood.

His mother, a graduate of Juilliard and teacher in the Clifton Public Schools, was his first instructor. Later, he studied with Grace Castagna of Wood-Ridge, internationally known pianist who had a major part in shaping his musical career.

Clubhouse in appearance and style, the 6-foot, 4-inch tall youth has won considerable notice for his musical talent and insight in the interpretation of both the classic and modern repertoire. He attended Clifton High School and the New York Military Academy.

POLICE OFFICERS REVIEW THE BASICS THAT ASSURE THE TOWN'S PROTECTION

DETECTIVE SERGEANT JOHN DEAN, in foreground, checks the roster before his men take off for the nearby pistol range which adjoins the classroom in Bloomfield Avenue. All of the men are reviewing police techniques and various points of law

which they normally handle. The refresher courses are designed to keep the men in top shape for the difficult job they perform. For the morning target practice the men wore informal work clothes.

READY ON THE FIRING LINE! Here the men level the short barrels of standard 38. caliber Police Specials at the target 25 - yards away. There were many "bull's eyes" and near misses as the cops drew a bead on

the stationary targets. From front to rear is Harold H. Rossi, Sgt. Roach, Ptl. David V. Martin, Harry D. Lammo, Martin A. Natale, Robert A. Russo, Rocco Westpy, Cornelius N. Berrigan, and Lieut. Frank D. Haight.

Sgt. Dean, Lieut. Haight, and Sgt. Harold H. Roach are shown checking the result of firing by members of the department. Most of the bullets smacked into the six-inch bull's-eye, and even those which missed by a fraction of an inch could easily bring an

escaping felon down. Bue even so, it's been a long time since a Belleville patrolman shot a man. The sight of a snub-nosed 38, such as Dean's is usually enough to convince a law-breaker he should be more cooperative.

Target Practice, Review Of Law Is Routine For Men

Last week the sharp crack of 38. caliber Police Specials shattered the quiet along Bloomfield Avenue sending birds squawking and causing curious housewives to peep from kitchen windows.

It was the Belleville Police Department giving its men more practice in handling their firearms, their primary weapon in the constant battle against the lawless element that invaded the town from time to time.

Detective Sergeant John Dean emphasized that target practice and the class room instruction held in the nearby building was really a "refresher course" for his men. Top men in the department have been used to instruct their fellow officers in the various facts of police work with which they're best acquainted.

On the day before and after these pictures were taken other groups of officers had taken their turns on the firing range — and turned in some pretty good shooting, too. Dean, who recently completed a police course at the New York Police Academy, took his turn instructing the men.

A one-pool for work?
Why not one for church?
Invite your neighbor to join
you at church this week.

If you ever look into the north end of a gun pointed south — you're just on the wrong side of the law! Here Ptl. Barton J. Rossi, 34, who has been on the Belleville Police Force for the past four years, takes a bead on an imaginary felon. Rossi is but one of the men in the department who have attended the Essex County Police Academy.

Mrs. Sarah E. Griffiths

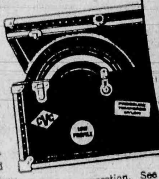

A High Requiem Mass was offered for Mrs. Sara E. Griffiths, 82, of 39 Van Houten Place, Friday morning, May 24, at 10 o'clock, in St. Mary's R. C. Church, Nutley. Interment was in Gate of Heaven Cemetery, East Hanover.

Mrs. Griffiths died Tuesday, May 21, in Clara Maass Memorial Hospital. Born in Liverpool, England, she had resided in Belleville for the past six years, coming here from Chester, Mrs. Griffiths was a charter member of the Rosary Society of St. Lawrence Church, Chester. The widow of George F. Griffiths, Mrs. Griffiths is survived by a son, John E. Moore, at home. Funeral arrangements were made by the Johnesee Natural Home for Funerals, Nutley.

New U. S. Royals...
Engineered to keep
your spare in the trunk

Wallace Cobb says:

Take it from me, when you put new U.S. Royals on your car, they're so good the spare tire goes along just for the ride. If you don't rotate the tire, you may never use your spare. One reason why is CVTMC. This patented bonding agent fuses rubber and tire cords, virtually eliminating a major cause of tire failure, tread separation. See these tires. Get the price. And you'll go U.S. Royal all around.

Take your choice...

Tercentenary Tales

Father Of The Gold Rush

By JOHN T. CUNNINGHAM

If ever there was a man who proved that "all that glitters is not gold," it had to be James Wilson Marshall of Lamberville, the New Jerseyman who discovered gold in California.

Marshall learned a trade in his father's wagon shop in Lamberville, but soon after he reached his 21st birthday in 1831 the young wagonmaker headed West. He wandered through Indiana and Illinois to Missouri, where he settled down in seaming prosperity.

Ill fortune struck Marshall's doctor told him that Missouri climate would kill him. The terse advice, "Move on or die," forced the Jerseyman Westward again, this time all the way down into California's Sacramento valley.

There Marshall met Captain John Sutter, who, like Marshall, eventually would be ruined by gold.

Sutter hired Marshall and the wonderful hands of the Lamberville man turned out tables.

Marshall persuaded Sutter to back him in a new lumber business on a stream in Coloma Valley, about 40 miles east of Fort Sutter. Water flowed rapidly in the valley and tall timber topped the surrounding hills. James Marshall had found exactly what he needed to make him rich.

Then, on a morning in January 1848, as Marshall walked along the mill raceway, his eye caught the glint of the sun reflecting off an object lodged in a crevice beneath the water.

Marshall placed the specimen on a flat rock, pounded it with another rock. It did not chip or scale off but simply bent under his blows.

This, then, was gold! The cook at Marshall's camp suggested another test: throw it into the lye kettle in which she was making soap. She declared: "If it's gold when it goes in, it will be gold when it comes out."

Hours later she cut the soap into chunks and found no nugget. She shrugged her shoulders as if that was that, but when she cleaned a double handful of potash out of the bottom of the kettle, there, "bright as could be," shone Marshall's gold.

Sutter urged secrecy, but that was like holding back the ocean. Prospectors streamed in from nearby and within a year the "Forty Niners" made the Gold Rush a raging fury.

An amazing assortment of humanity surrounded the Sutter. It had to be either sulphate of copper or gold, Marshall reasoned. If it was sulphate of copper, it would be brittle. If gold, it would be malleable.

Marshall dug it out, found it to be very heavy and of peculiar color.

Hours later she cut the soap into chunks and found no nugget. She shrugged her shoulders as if that was that, but when she cleaned a double handful of potash out of the bottom of the kettle, there, "bright as could be," shone Marshall's gold.

Sutter urged secrecy, but that was like holding back the ocean. Prospectors streamed in from nearby and within a year the "Forty Niners" made the Gold Rush a raging fury.

An amazing assortment of humanity surrounded the Sutter. It had to be either sulphate of copper or gold, Marshall reasoned. If it was sulphate of copper, it would be brittle. If gold, it would be malleable.

Marshall dug it out, found it to be very heavy and of peculiar color.

Marshall placed the specimen on a flat rock, pounded it with another rock. It did not chip or scale off but simply bent under his blows.

This, then, was gold! The cook at Marshall's camp suggested another test: throw it into the lye kettle in which she was making soap. She declared: "If it's gold when it goes in, it will be gold when it comes out."

Hours later she cut the soap into chunks and found no nugget. She shrugged her shoulders as if that was that, but when she cleaned a double handful of potash out of the bottom of the kettle, there, "bright as could be," shone Marshall's gold.

Chamber Of Commerce Breakfast Attracts Town's Early Birds

ON HAND for the Chamber of Commerce "kick-off" breakfast held at Clara Maass Memorial Hospital Monday morning was a large segment of the town's merchants who have banded together to promote Belleville. Standing at rear is Mayor Robert M. Laterza, F. Douglas Wadsworth, general chairman of the chamber; Albin H. Oberg, executive director at Clara Maass; and Arthur Jackson, group chairman of the Chamber.

Wins Award To N. Y. U.

NICHOLAS SAMPIERI

Nicholas Sampieri of 100 Baldwin Place has won a college scholarship awarded by Metropolitan Life Insurance Company of New York.

Mr. Sampieri will graduate from Essex Catholic High School on June 16 and will enter the New York University School of Business Administration in the fall.

Belleville Girl In Peace Corps Back From Peru

Kathleen Peck, a Peace Corps Volunteer from Belleville, has been temporarily relieved from her regular work assignment in Peru where she helped alleviate the plight of thousands of villagers made homeless from a recent flood.

She is one of 17 volunteers doing this emergency work.

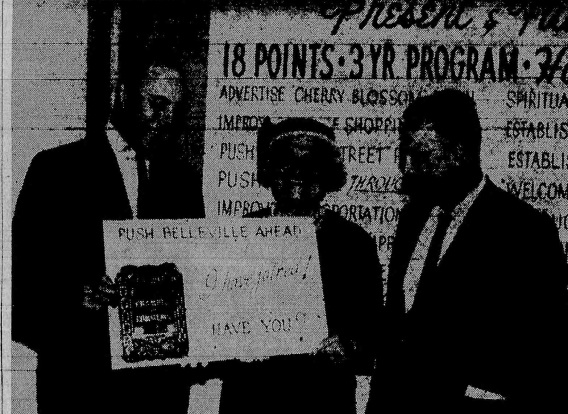

Ica is a hot, dusty town located on the Peruvian desert at the base of the Andes. Recently in the Sierra, heavy rains sent a five foot flood crest through the bed of the Rio Ica, which passes through the center of the town. This may be nothing compared to what the Mississippi can do, but to thousands of Iquenos it was a disaster. Several neighborhoods were flooded and their homes demolished. Their residents are now threatened by epidemics of typhoid, malaria and dysentery.

Local authorities appealed to the Peace Corps. The Peace Corps responded by detailing 17 volunteers who were working in Lima. They are in Ica now giving shots, distributing food and helping in the reconstruction in cooperation with town officials.

Ken Hansen Serving On Destroyer Now At Sea

Kenneth A. Hansen, fireman apprentice, USN, son of Mr. and Mrs. Henry Hansen of 38 Gardner Avenue, is serving aboard the destroyer USS Warrington, operating from Newport, R.I.

During a recent cruise, the destroyer turned in an outstanding performance in transferring personnel at sea while underway. There were 44 passengers transferred from the aircraft carrier USS Essex.

MARIE SERRITELLA, Belleville real estate and insurance agent, became the newest Chamber of Commerce member during its drive for new members. She is shown accepting a plaque from William McDowell, real estate and insurance chairman. At right is Michael Albertine. Over 50 persons attended the "kick-off" breakfast.

A PRETTY POINTER—Student Nurse Jo Ann Coomber adjusts one of the suggested 18 expansion points made by the Chamber of Commerce here during its breakfast Monday. At left is Mayor Laterza, who forwarded the Chamber a resolution backing their drive for a Better Belleville. At right is Arthur Jackson, group chairman.

William E. Dorival Is Named District Scout Executive

William E. Dorival will be the new district executive of Belleville District, Robert Treat Council-Boy Scouts of America announced William H. Keith, president of the council and Ernest Arvidson, district chairman today. The appointment is effective June 1.

Dorival will be a guest of the district at School Seven Tuesday evening, June 4. Arvidson said a welcoming committee composed of the presidents of clubs and organizations in Belleville is in the process of formation. The special program will be carried out at the reception with council and committee leaders taking part.

Mrs. George Livingston, newly-elected president of the Parents-Teachers Association, and members of the association will serve refreshments.

Dorival is a native of Preston, Minn., and a graduate of Hamline University and the National Training School of Scout Executives. In his youth he was a Cub Scout and achieved the rank of Eagle Scout. In St. Paul he served as a committeeman and as a troop leader.

He has been a member of the professional service of the Boy Scouts of America since April 1953 and has held positions of District Scout Executive at Moorestown, and Brooklyn. At the present time he is District Scout of America since April, Boys' and Girls' State programs at New Brunswick.

Chamber Was Host Tuesday

'Kick-Off' Breakfast For Businessmen Is A Membership Drive

The Belleville Chamber of Commerce was host to 70 leaders of business and industry at a breakfast Tuesday, May 21, at Clara Maass Memorial Hospital.

F. Douglas Wadsworth, general chairman of the Chamber's expansion program, outlined the ambitious 18-point program designed to encourage progressive industry and business to become active members and to further town growth.

Arthur Jackson, division chairman, spoke to the group and discussed the program and reviewed, for prospective and present members alike, the three-year plan. Its major points were:

Advertise Belleville as the "Cherry Blossom" town.

Continued improvement of the shopping area.

Push for more "Off-Street" parking.

Push progress through action for Belleville by originating projects to stimulate Civic Pride and United Effort by All for the Good of All.

Meetings were held previously of all committee chairmen who personally invited these businessmen to the kick-off meeting.

During this meeting, F. Douglas Wadsworth emphasized that this is the first attempt to bring all town improvement activities together for one common cause. With a longer membership and strong leadership, the Chamber can establish its goal before long. He also urged the townspeople to look for the plaque in their local shops which signifies active membership.

Mayor Laterza was among the invited guests.

Belleville Man Joins Baris Firm

RONALD MARGOLIS

The appointment of Ronald Margolis of 17 Carpenter Terrace as a sales representative for Jordan Baris Inc., Newark real estate organization, has been announced by Jordan Baris, president.

Mr. Margolis, a native of Newark, was formerly in the florist business in New York City.

Her Aptitude Is Nearly Perfect With 99 Score

Released on May 18 by the Jets (Junior Engineering Technical Society) are the results of the National Engineering Aptitude Search Testing Program.

This examination was given nationally for students interested in engineering; locally it was given at Hawthorne High School on March 23, 1963.

Sharon Grundfest, daughter of Dr. and Mrs. Jack Grundfest, 10 Van Ryeper Place, received the following scores: Verbal Reasoning 99 Percentile, Verbal Reasoning plus Numerical Ability 99 Percentile, which are the highest possible scores.

She scored in the upper third on all the remaining subjects. Sharon is a sophomore at Belleville High School.
