

Annual Financial Report Issued by Town Treasurer

(The Annual Financial Report for the Town of Belleville, 1964, was recently prepared by Town Treasurer Francis H. McCoy. Following is McCoy's report to the Town Council on the financial situation.)

The annual financial report of the Town of Belleville for the year 1964, together with various statistical data concerning our Town, is herewith submitted as required by Article 9, Section 9.8(g) of the Administrative Code. The report is prepared to show the Municipal Council and Municipal Manager the condition of the funds at December 31, 1964, and the results of operation of the individual funds of the Town as of that date.

In general this report consists of the following:

- Section 1 Letter of Transmittal
- Section 2 Financial Statements
- Section 3 Statistical Tables
- Section 4 Appendix

General Fund Operations during 1964 resulted in an excess of \$351,549.64 as compared with an excess from 1963 Operations of \$351,553.47.

Property Taxes
Taxation on Real and Personal

Property is Belleville's greatest source of income. In 1964 collection of property taxes totaled \$6,283,138.43. The collection of all property taxes, for local schools, county, and Municipal purposes is the responsibility of the municipality; therefore a reserve for uncollected taxes is required for all three purposes, and the total reserve is charged by law against the Town.

In 1964 the assessed valuations of property within the Town totaled \$177,720,376.00 based on estimated true value.

Non-Property Tax Revenue:
Receipts from anticipated revenue increased \$38,120.18 over 1963 to a total of \$656,044.89. These receipts are derived primarily from Licenses, Permits, Fines, Gross Receipts Taxes, Franchise Taxes, Bus Receipts Taxes, and revenue from interest on investments, and Banks and Savings and Loan deposits which totaled \$61,304.92, an increase of \$5,599.19 as compared with 1963.

Revenue From Other Agencies:
Revenues included in this classification are derived chiefly from state aid programs for roads, library, and highway lighting. Included also are refunds, from the state for motor fuel tax.

Delinquent Taxes:
Revenues from delinquent taxes amounted to \$136,578.35 in 1964, compared to \$145,026.85 in 1963.

Unappropriated surplus as of December 31, 1963 was \$666,427.41.

\$400,000.00 of surplus was appropriated in the 1964 budget to reduce the amount to be raised by taxation. Accruals during 1964 to unappropriated surplus totaled \$351,549.64, resulting in an unappropriated surplus as of December 31, 1964 of \$650,977.05.

Debt Service Fund:
Funds required for payment of bond principal and interest are

budgeted in the general fund, and are subsequently transferred to this fund for payment.

Bond Fund:
The Bond Fund is comprised of three classifications, i.e. bonds and notes, capital improvement fund and other capital funds.

The Capital Improvement Fund originates through general fund budgetary appropriation. This fund provides the statutory down payment for capital authorizations per N.J.S.A. 40A:2-11.

A total of eleven new capital projects were authorized in 1964.

Trust Funds:
Trust funds consist of resources received or held by the Town as trustee of the funds. Trust funds

are expended in accordance with the state law.

Surety Bonds:
All employees of the Town of Belleville are protected by a blanket surety bond in the amount of \$20,000.00. Certain other employees have additional coverage as set forth in a separate schedule in this report.

Bonded Debt:
Our debt as of December 31, 1964 totaled \$742,940.00. This is made up of total permanent bonds issued and outstanding in the amount of \$29,000.00 bond anticipation notes totaling \$206,940.00 and bonds authorized but not issued at \$7,000.00. This total (Continued On Page 15)

Girl Scout Activities

The mammoth job of delivering 16,284 boxes of Girl Scout Cookies begins today, when 700 Girl Scouts wind up their annual Cookie Sale. The quota of 12,184 boxes fell short of the mark by 2,900 boxes. TO help hit the top Girl Scouts will begin taking orders at the same time as they deliver the cookies. Mrs. David Hildenbrand, district cookie chairman, announced.

"Upon the success of this year's Cookie Sale depends next summer's successful camping season."

Mrs. Hildenbrand said, "The greatest number of girls in Council has almost 12,000 registered scouts, the largest number in its history. It is imperative that we continue to improve and enlarge the facilities at our camps so that citizens who purchased cookies."

Howley Gains Big Role in College Play

Joe Howley of Belleville has a role in Tarkio (Missouri) College's production of "The Lark" by Jean Anouilh presented this month at the college chapel.

A sophomore, Howley played the role of Cauchon in the play. He is the son of Mr. and Mrs. Joseph Howley, 249 Branch Brook Drive, Belleville.

The story of Joan of Arc, heroic maid who was instrumental in beginning a drive to oust the English from France during the early fifteenth century, has been the subject of many authors and playwrights. In "The Lark," Anouilh provides a stirring drama which emphasizes the dignity of man in the face of harsh and unrelenting opposition.

Joan of Arc will be portrayed and Howley.

Fathers Aid New Library

Fathers of School 9 recently undertook a project to enhance the new school library, which is in its final stages of completion. Early Saturday morning, amid the hubbub of power saw hammering, glueing and varnishing, a group of dedicated fathers united their efforts and skills in making picture frames to be used to display prints of works of famous artists. Some 40 pictures are to be framed. The entire south wall of the library will be used for this exhibit.

It is hoped that the library will be completed and opened for the pupils' use by the middle of February.

by Miss Nancy Mitchell, a junior from Whittier, California. Other leading roles will be played by Scott McVittie, sophomore from Rochester, New York, and Howley.

Are Belleville Taxpayers Suckers?

Every year except one, a long list of town employees headed by members of the Town Council and the old Town Commission attended the annual League of Municipalities convention. Belleville taxpayers foot the bill.

Only one year did four Councilmen stay home and save taxpayers a money. The Councilmen who performed this public service were former Mayor Robert M. Laterza, former At-Large Councilman G. George Addonizio and Thomas P. Greco, and former First Ward Councilman Vincent T. Strumolo. The record shows they cared how taxpayer money was spent.

Under the Council - Manager government both Town Managers - William Sommers and present manager John R. Burnett - were rather liberal with their invitations. Planning Board members, Board of Adjustment members, and it seems practically everyone except the custodian was invited to attend the Atlantic City shindig - of course, at taxpayer expense. Incidentally, this doesn't happen in neighboring Nutley where the cost of running Town Hall is much lower.

Rumors abound that taxpayer funds were spent without proper accounting. There is a rumor making the rounds that some bills were paid by the town governing "MR. and MRS." when, of course, the town has no right to pay expenses for an official's wife.

In the interests of accuracy, as a public service The Times - News will gladly publish, in minute detail, the entire breakdown of every penny spent at Atlantic City by our roving ambassadors of goodwill if only Town Manager Burnett will supply us with the information. We want the name of every person, dates of attendance, who roomed with whom, room expense, meals, liquor, etc.

The people have a right to know how their money is spent - and we are here to serve them - if the Manager and the Pico - Council block will permit us. FAO

WASTE NOT, WANT NOT, SPEAK UP

WASTE NOT, WANT NOT, READER TELLS COUNCIL

To the Editor, Times-News:

Every year, \$500 is allocated to each individual Councilman - in an expense account - paid by the taxpayer! This \$500 expense account is apart and an additional supplement to the \$1,500 salary each Councilman again receives.

At a previous Town Council meeting - one such taxpayer publicly reviewed certain bills

submitted by the Councilman quoting specific amount of taxpayers' money being spent by Belleville Councilmen at a recent convention they attended. Some of the bills paid were around \$100 and others closer to \$200.

The taxpayer wanted to know why such amounts of money were spent - and what benefits did the people of Belleville directly derive - from this spending of money by our elected officials? A comment during the Chairs' answering remark was, "It's legal."

Of course, IT'S LEGAL, to allow Councilmen to spend and sanction the spending of money - whether or not it is their own - or the taxpayers! We can be

sure that the citizen who asked these questions... wanted more of an answer... than to be told IT'S LEGAL!

Perhaps, the logical reasoning behind any taxpayers questioning can be found in the saying, "WASTE NOT, WANT NOT!" Though, the taxpayers opinion on waste might differ with his governing body.

Another example... of legal spending of money... is that of our paid advertisements. In the Feb. 11 edition of a local newspaper... there appears a municipal advertisement of an amended Town Ordinance. This... paid for by the Town... out of the taxpayers' money.

The point is this. Merely the amendment need be printed. This method is allowable under our laws. Using this method of advertising... saves the taxpayers considerable amounts of money throughout the year. During a number of years, any savings multiples and a sizeable amount of money in total is saved! Moreover, considering the high cost of advertising being what they are today.

"Waste not... Want not." is a good principle to follow. However, the Council need not adhere to this one method... for no one will deny IT'S LEGAL to repeat in print... the entire and longer advertising notification.

To cite one of Belleville's

wants... ice-skating was asked to be provided by the municipality this year... not an expensive rink... but merely a suitable, safe area!

Why it is... that we could not have ice-skating this year... but have to wait until another year?

Why can't Belleville be provided smaller services which would directly benefit the people now... instead of talks... on what will come in the future?

Due to the constant increasing of population, Belleville has many wants and needs to expand... as in the recreational field. If Belleville has to add to its services... why should this always mean an increase to the taxpayers or merchants... if money is handled wisely and without waste?

Can more be provided... with the amounts of money the taxpayer now provides?

Sincerely,
Mrs. Joan Barnes

Town Manager's Report

During the regular Council meeting of January 25, 1965, at all times for all people, I do bear an economic responsibility to discontinue those activities which meet with small success.

There is no pot formula known to me for determining local recreational interest. Certainly the shouts of people who have no intention of participating are a most questionable guide. I have built our program along accepted professional lines and have kept eyes and ears open for indications of sincere interest. For instance, adult basketball faded out a few years back because of the draft combined with college.

This past year several young men indicated that they had teams willing to play. I then went to work on rebuilding the League which has proven to be a successful six-team League. A phone call from a citizen regarding a Senior High Club indicated a nucleus of interest and a Senior High Rifle Club has been formed.

Attached to the beginning of each new activity is a cost, a need for a place, a need for qualified leadership. These needs must be dealt with while keeping in mind the best interests of the community in mind.

Attached hereto is a copy of our annual report ending June 1964.

Also attached is a list of our current activities by the day so that you will have them in a concise form. Activities including Teenagers are indicated by an asterisk.

Respectfully submitted
(Signed) Robert E. Cook

Supt. of Recreation
I have also directed Mr. Cook to appear at the regular Council meeting, February 8, 1965, at which time he will be available for questioning as to Recreation programs and facilities, either from members of the Council or from citizens, through the Mayor.

There are no licenses being presented for Council approval at this meeting because inspections in the Division of Health, Division of Fire and Division of Inspections have not all been completed and must be attached to the application forms.

I have written the following letter to Mr. Howard J. Wolf, Green Acres Program Administrator, requesting a 90 day delay in the processing of Belleville's Green Acres application in order to permit the Council to formulate a definite policy.

Dear Mr. Wolf:

While this is apparently a belated reply to your letter of January 11, it is the natural result of budget deliberations required of all municipalities at this time of the year. My apologies, nevertheless.

Please accept our request for further delay in making final that, despite my desire to have determination as to our hope of

acquiring certain properties for Green Acres programming in the Town of Belleville.

While Belleville is still very much interested in developing a proposed park area in conjunction with the Green Acres program, certain economic factors have not as yet been resolved. I am sure if you will give us a 90 days' stay in which to decide upon positive action, we will be able to make a definitive move as to our proposals.

BECK'S COLUMN

By MAX BECK

There is one major manufacturer that makes an issue of "handcrafted" assembly of TV sets. In their advertising they claim no printed circuits.

Printed circuits have not been used by TV manufacturers for many years. They all use so-called "bonded" circuit boards. This manufacturer uses this modern method of assembly in some of their station selectors (tuners). The tuner of a TV set is the section that requires the most accuracy and precision. Why bonded circuitry is good in the tuner, and why it is not good in the remainder of their sets, that is anybody's guess.

Far more important than hand-wiring is the design of a TV set and the quality of the parts used. Whether the wiring is done by hand or by machines, is insignificant.

It stands to reason that the assembly of a bonded board by a machine has to be more accurate and more uniform than assembling and soldering each part individually in a circuit. It is impossible to position a part exactly the same in thousands of sets. Fortunately, at least in black and white TV sets, extreme accuracy is not absolutely necessary, except in the tuner or station selector, where the position of parts and coils has a profound effect.

It is significant that there is no "handcrafting" or handwiring in the extensive and more complicated electronic devices used in radios and space vehicles. One reason is that bonded circuits can withstand the tremendous stresses encountered in these applications. In addition this method of assembly needs far less room. Bonded circuits will be used in the not too distant future by all manufacturers of electronic devices like TV, radio and phonographs.

We service what we sell.

WEDDINGS AND ENGAGEMENTS IN SOCIAL SPOTLIGHT

Former Belleville Girl Marries Here; On Wedding Trip To Virgin Islands

MRS. MICHAEL ABBASSO
Former Carol Cufone

St. Anthony's R. C. Church, Belleville, was the setting for the marriage of Miss Carol Frances Cufone to Michael Paul Abbasso Sunday afternoon, February 14. The double-ring ceremony was performed by the Rev. Edward Scandone. The reception was held at Bow and Arrow Manor, West Orange.

The bride is the daughter of Mr. and Mrs. Carl Francis Cufone of Belleville Avenue, Bloomfield, formerly of Belleville; the bridegroom is the son of Mr. and Mrs. Paul Abbasso of North 17th Street, Bloomfield.

Mr. Cufone gave his daughter in marriage. Her bridal gown of ivory peau de soie was designed with oval neckline and elbow length sleeves. The bodice was fitted to a cummerbund waistline enhanced with Alençon lace re-embroidered with seed pearls. The bell-shaped skirt, with side panels and motifs scattered through the back, terminated in a court train.

A crown of seed pearls held her bouffant bodice length veil. She carried a crescent shaped bouquet of phalaenopsis orchids and Stephanotis.

Miss Maureen Cufone of Bloomfield was her sister's maid of honor. Bridesmaids included the bridegroom's sister, Miss Paula Abbasso, and Miss Rosaline Capozzi of Bloomfield.

Miss Helen Ann Napolitano of Glen Ridge, the bride's cousin; Miss Evelyn Flexer of West Orange and Mrs. Raymond Scavone of Parsippany, Anita Rubino, another cousin of the bride, acted as flower girls.

The attendants were gowned in fitted bodices and long sleeves and bell-shaped floor length skirts. Their headpieces were of matching roses and leaves and they carried bouquets of white long-stemmed roses with variegated ivy. The flower girl wore a headpiece of fresh white roses and ivy.

Louis A. Prosperi of Bloomfield served as Mr. Abbasso's best man. Ushers were Joseph DeFuria of Newark, Nicholas Montana, George Perrillo and Anthony Palamara of Bloomfield and Frank Alfieri of Parsippany, the bridegroom's cousin.

The mother of the bride was attended in a floor length gown of pink chiffon with beading ascending the waistline. The bridegroom's mother chose a floor length pink brocade gown. Both had matching accessories and corsages of pink roses.

Mr. and Mrs. Abbasso were graduated from Bloomfield High School. The bride was graduated also from Essex County Adult Vocational School for Medical Assistants. She is presently employed at Columbus Hospital, Newark. Mr. Abbasso attends Monmouth College.

When they return from a wedding trip to Jamaica and the Virgin Islands, the couple will make their home in Bloomfield.

Cattails and hydrangea blooms are pretty in dried bouquet arrangements to be used in the home during the winter. Gather cattails in late summer. Dry thoroughly, then apply a coat of clear shellac. The shellac stops the tails from fuzzing and scattering when dry and also helps preserve them.

Mr. and Mrs. Martin Marasco

Miss Helen Castelli Bride Of Martin Marasco, USMC

In a Saturday afternoon ceremony in Holy Family R. C. Church, Nutley, the marriage of Miss Helen Dorothy Castelli to Martin Peter Marasco was solemnized on February 6.

The couple will motor to South Carolina and make their home in Beaufort.

A reception followed at the home of the bride's mother, Mrs. Helen Castelli of 35 Wilbur Street, Belleville. She is the daughter also of the late Humbert Castelli. The bridegroom is the son of Mrs. Martin Marasco of 56 North Maple Avenue, East Orange, and the late Mr. Marasco.

Victor in marriage by her brother, Robert Castelli of Cedar Grove, the bride was gowned in a long peau de soie sheath with Alençon lace bodice having scoop neckline and long sleeves. Her shoulder length veil of nylon tulle was attached to a seed pearl crown. She carried a prayer book with orchids and carnations.

Judges for the competition were Grace Ziebert, ballerina, and Sheryl Emmons of Madison who substituted for the ailing teacher; Leon Daniell, teacher at the Ballet Russe School in New York; Igor Youskevitch, ballet teacher,

According to the New Jersey Optometric Association from 1940 to 1949 the average annual increase in blindness was 6,700. But, by the early '50's they say, that this had risen to 30,000. This rise in rate is probably due to the increased life span. During the period in 1940-49, the population over the age of 65 years increased 75 per cent. Since the great majority of blind people are above this age, the rate will increase more rapidly as longevity increases.

Pizzuto Sparks Bellboy Five To 63-59 Win over Orange

By STEVE CHAREN

Orange came up with 30 points in the fourth quarter Friday to cut Belleville's lead from 17 points to two before falling 63-59. Pizzuto's accuracy saved the day in this final Big Ten Game. Pizzuto scored 12 of his 20 points in the last quarter and went 7 for 9 from the floor (77 per cent).

The Bellboys (12-7) never trailed in this game, and by 6:30 of the second quarter led by 17 points, 22-7. The Tornadoes (3-15) then rallied for a 29-30 half-time score. In the third quarter the Bellboys began to pick up momentum again. By the end of the quarter, it was 44-20.

Early in the final quarter (the first 40 seconds), a flurry of foul shots made the score 46-31 for a 17-point margin. Then the Tornadoes started to move again. Jerry De Angelis scored four to lead a seven point run that made it 48-38. The margin remained near 12 points for a minute until an Orange jump shot made the score 51-40. By 4:03 in the quarter, the Bellboys had brought the margin back up to 12. But, then four Tornadoes tossed in buckets to make it 57-55 at 2:32. At 2:42, Belleville's tall star man, Kenny Fulmore, had fouled out on an offensive foul. With 2:30 remaining and a four point margin, Orange's Frank Bell fouled out; Jimmy Brown then made half of a 1 on 1 foul shot for a five point margin. That margin went down to three when Mike Bellington hit on a jumper at 2:13.

The margin went up to six points and then down to four before De Angelis, Orange's "White Hope" and high scorer, fouled out with 1:09 remaining. Eight seconds later, Ron Jennings made a jump shot to make it 61-49. The Bellboys then closed out the scoring by making two of four free ones for the 63-59 final.

The Rushless Bellboys continued to have a well-balanced attack. Besides Pizzuto's 20, Rich Pucciarello had 18 points and Fulmore and Brown, 11 apiece. It was the second straight game and sixth time this season that four Bellboys have hit double figures. Since Len Luongo had eight points, the Bellboys were just one bucket from having all five starters in double figures.

The Tornadoes also had four players hit double figures: De Angelis scored 10 points in the final quarter to head the way with 16, Jennings hit six in the final to finish with 13, Billingslea scored eight in the fourth to finish with 11, and Bell scored 10 points before fouling out.

As has been the story seven times this season, this game was

decided from the foul lines. The Tornadoes took 55 shots from the floor and made 25 (45 per cent) while the Bellboys made 22 of 46 field goal attempts (47 per cent). This would have left the score at 30-44, but the Bellboys made 19 of 33 free throws (57 of 18 for Orange; eleven of Belleville's charity shots came in the final quarter. This was an extremely high-fouling contest; Orange was charged with 24 personal, and the normally foul-finding Bellboys, 20. The 20 personal were six above Belleville's previous high and nine above their average.

Although Belleville's attack was excellent, Rush was sorely missed. His absence under the boards was felt as the Tornadoes led with 31 rebounds to 23 for Belleville. Earlier in the season, the Bellboys had outdrew Orange 83-57 and controlled more than the whole Orange team. In that game, Rush had 28 rebounds which was nine more than the whole Orange team. In Friday's game, Fulmore led the way with 11 rebounds.

Since Belleville's Essex County Tournament game with Weequahic on Wednesday night, and this paper went to press Wednesday afternoon, it would be ridiculous to mention it now. Full coverage of the ECT battle will appear in next week's TIMES. The winner of the South Side West Orange "game" will meet the winner of Wednesday's game.

Speaking of tournaments, the Bellboys will face Morristown in the first round of the New Jersey State Interscholastic Athletic Association Tournament during the first week of March. The exact dates and places for the NJISAA Tournament games have not been set. East Orange will play the winner of the opening NJISAA game.

Bellboy Bounces: Orange's Junior Varsity scored 25 points in the second quarter for a 33-15 Orange

half-time lead and then stood off the Bellboy rallies to dump the J.V.'s 51-42 for their fourth straight loss. The tournament-bound J.V.'s (8-10) have dropped six of their last seven regular season games. Rich San Filippo and Jimmy Catalano had 15 of 10 second-half points, respectively, to lead the come-back bid that cut Orange's lead to a single bucket with 1:30 remaining in the game. . . . San Filippo finished with 19 points to hit double figures for the seventh time in the last seven games. Catalano finished with 12 points. . . . Rich Pucciarello, who had hit double figures in the past six varsity games, had his foul shot streak stopped at 18 straight when he missed a free one in the closing seconds of Friday's game. In the last seven games, "Puchie" has only missed two charity shots. . . . With the 19 game regular season over, the totals are quite revealing. . . . The Bellboys have scored 1071 points to average 56.4 per contest while allowing their opponents 929 or 48.4 per game. During the first nine games, while compiling a 5-4 record,

With Richie Cuccolo and Halfore Dave Ebert remained underavalone "under the weather" and Tony Sorrentino getting injured. Belleville's matmen had their winning streak snapped at six by a persistent Bloomfield squad, 55-18. The Bellboys last meet is with Columbia, then the tournaments.

Nicky Di Dominico tied to open the meet. Then, "Rusty" Bray was decided in his Varsity debut and Tony Festa lost on a take-down to make the meet score 8-2. Mike Luongo tied be-

Without their high-scorer (347-13-13. The Bellboys then ran off in the fourth quarter to lead a seven-point run for a 45-38 score. By Pucciarello to wrap it up. By it was all over. Late in the quarter, against the reserves, the Cougars cut the Bellboys margin from 19 to the final 12 at 50-38. Bellboy Bounces: The Junior Varsity (8-9) lost its third straight and fifth in the last six games by a 41-35 score. The main cause was a pair of "foul-happy" officials who charged the Bellboys with 20 personal and the Cougars 14. Belleville made 11 of 19 free ones (58 per cent) to 15 of 30 for Columbia.

Belleville (11-7) put together a well balanced attack to tame the Cougars; for the fifth time this season four Bellboys hit double figures. Rick Pucciarello hit double figures for the fifth straight game by leading the way with 14 points. Nick Pizzuto and Luongo had 11 apiece, and Fulmore, 10. The Bellboys were accurate, too, making 45 per cent from the floor to 27 1/2 for the Cougars (7-10). Visco Luongo and Pucciarello both connected on 5 of 8 field goal attempts (62 1/2 per cent) while Fulmore made 3 of 7 (43 per cent), and Pizzuto, 5 of 12 (41 per cent).

Only under the boards was Rush's loss really felt. Instead of the Bellboys controlling the boards, they trailed by two rebounds 23 to 21. Of course, without "Big" Bill, the Belleville attack was entirely different; one man wasn't led constantly. Belleville led most of the way Tuesday. After the Bellboys had taken a three point first quarter lead, the Cougar tied it up at 12-12.

Joe Villano's last period escape kept him undefeated with a tie. Billy Buist then won on a reversal to tie the match at 12-12. Danny Bivona took his 18th straight to give the Bellboys a 15-12 lead before Jim Lutz was decided for a 15-15 tie. Rich Bonkowski pulled out a win on riding time to make the match 18-15 going into Belleville's reliable heavyweights.

In the next match, Tony Sorrentino pulled a muscle and couldn't continue. The forfeit gave the Bengals a 20-18 lead. It was ironical that in his last match Sorrentino's opponent was injured.

A sickly Hal Avallone was pinned in the third quarter of a scoreless match to give Bloomfield a 25-18 win. "Olie" is now 6-2 as is the team, as Avallone goes so goes the Bellboys.

A Friendly NOTE

By ALFRED J. LUBERTO

Did you know that wide fingernails were once believed to denote a generous nature? Long fingernails indicated loose-spending tendencies and short nails were the sign of a liar. . . . The state of Arkansas has a town named Forty Four, Kentucky doubles that, however, with an Eighty Eight. . . . Maybe the French had a good reason for banishing Napoleon to Elba; the little Corporal was said to use some 60 bottles of cologne a month and to smother his skin with almond cream. . . .

Napoleon had no place like AL'S RIVERSIDE BODY & FENDER WORKS, 221 VALLEY STREET, BELLEVILLE to take his favorite Landau when it flipped a rim. For anything your car needs. . . . make the first stop AL'S RIVERSIDE BODY & FENDER WORKS and you'll be completely amazed at what wonders we perform. Call PL 9-1162. HOURS: 8:00 A.M. to 5:30 P.M. * 5 DAYS.

THIS WEEK'S HOUSEHOLD HINT: Thrifty motorists gas up in the cool of the evening when fuel expansion is less.

Stock or soup from a simmered fry as water, cook in the same boiler-fryer is great for cooking fashion; the vegetables will be vegetables. Use the same quantity in flavor.

Bass Issues Open Letter On Garden Apartment Site

(John Bass, former president of the Rutan Estates Homeowners Assn., last week released the following open letter to Belleville taxpayers relating the history of the Krugman & DePetro property currently being considered as the site for garden apartments.)

February 13, 1965
History of Krugman - DePetro Apartments.

Mr. McCoy, the town's treasurer, is on record in Town Hall that in November 8, 1956 meeting of the Belleville Board of Commissioners, when three commissioners, Mayor Padula, Elmer S. Hyde and Kenneth Smith, all said they would vote against Carl Zimmer's proposal to build two story apartments buildings on this property, which has since been purchased by Krugman and DePetro. This is the reason, McCoy said, these people couldn't claim "hardship" for they knew the situation.

April of 1958, Mayor Padula signed a subdivision map, approved by the Town Commission, permitting Krugman and DePetro to erect approximately 50 one - family homes on this property. The Krugman - DePetro firm wanted to stop change the zone from residential to an apartment site. Why, then, did they accept approval of a subdivision plan calling for the construction of one - family homes on this land?

Majority of the residents near the proposed site moved from congested areas into Belleville to escape the same conditions which would result if apartments were erected. The area is zoned A-2 (residential). This is the zone which was known and advertised to residents when they purchased their homes and properties in the adjacent area.

January 10, 1961, Krugman & DePetro came before the Town Commission with high rise proposal. It was defeated and a resolution was passed for Commissioner Kiernan to purchase the property for a park. Also, at this meeting, a petition of approximately 90 signatures was presented, which should be on record.

December, 1963, a third proposal was submitted of 208 units, including 92 one - bedroom and 116 two - bedroom apartments. This went by the wayside. Now a variance is sought by the same people for an 260 unit garden apartment project. Efficiency apartments, one bedroom and two bedrooms. They claim that there only will be 28 school children in this entire 260 unit apartment project. The proposed apartment development, near Fairway Avenue, would impose an additional tax burden on the Town.

These 260 garden apartments would produce a crowded school, congested streets, and devaluation of surrounding real estate. Figuring that the average family consists of 3 or 4 persons, that would mean between 260 to 300 school age children. Government statistics are 1.08 children per apartment. This, quite naturally, raises the question, "What school is available?" and "who will pay for it?" Two and one - half million dollars! Streets in this particular area are too narrow to handle the traffic.

If a variance was granted for these apartments, then, across Jaramela Street, in the Rutan Estates Area, the Lopzitz acreage could be developed with garden apartments of 110 units. There would be no problem of securing a variance under the law - no adjustment-based on town fathers could stop this project - once Krugman & DePetro received a variance to build garden apartments. Then, without question, a new school would be needed - two and one-half million dollars. One hundred to two hundred thousand dollars would be needed to condemn tax rates to provide the land for a new school, for there is no vacant land available! Another one hundred to one hundred fifty thousand dollars for widening of the streets, plus traffic and health hazards, plus police, firemen, sewerage maintenance and garbage disposal.

When you add the two projects, there will be 370 apartments, two cars per family is 740 cars, plus service cars and trucks emptying into Jaramela Street. Also, this 260 garden unit only could have one thirty (30) foot entrance into the project from Jaramela Street. This would also be the exit.

Belleville taxpayers will be called upon to spend three and one-half to four million dollars for return of - to quote the figures of Ancal Corporation which appeared in their full-page advertisement - \$84,000. And, it could be less, since these are their figures which are intended to present their proposition in its most favorable light.

The original planning board had a professional planning consultant, paid \$36,000 by the Town and I believe, partly by the State. They all voted unanimously to keep this area a Zone A area. Since 1958, most Town officials said "no" to apartments in this area.

An official traffic count on Jaramela Street and Bernice Road, taken by our Public Safety Division for six (6) hours and thirty - five (35) minutes showed that 144 cars passed this spot every minute. This was in 1961. Today, the traffic must have increased 150 per cent. Nutley built up 114 acres, Bloomfield, Garden State Parkway, Route 80 interchange into the Garden State Parkway and the Franklin Avenue hopping center, now contribute to the greater traffic count over the 1961 count.

These are the reasons why this objection is so strong by the people in this area. It should be so, all over Town for it would affect every taxpayer in Belleville. The variance should be denied and one - family homes erected.

Those short pieces of bias tape left from your sewing can often be used to bind a pot holder, baby's bib or some such small article. They also can be used for binding the ends of dish towels.

BROTHERHOOD WEEK

WHEREAS, Brotherhood Week, sponsored by the National Conference of Christians and Jews, gives freedom-loving people an opportunity to dedicate themselves as individuals to the basic ideals of respect for people and human rights, which are essential to our way of life;

WHEREAS, the Fathers of our country defined the purpose of its founding to be "to form a more perfect union," and in the words of George Washington to "give to bigotry no sanction, to persecution no assistance;" and WHEREAS, our way of life, granted to us as a heritage which we must safeguard for future generations, is threatened by the forces of Communism, which would destroy our liberties;

NOW, THEREFORE, I, Mayor Nuncio R. Pico, Mayor of Belleville, do call upon our citizens to join with other Americans in the observance of the week of Washington's birthday, February 21-28, 1965 as BROTHERHOOD WEEK, a period to affirm and to dedicate ourselves to the practice of the brotherhood of man under the Fatherhood of God.

NUNCIO R. PICO MAYOR

of permanent bonds, bond anticipation notes, and bonds authorized but not issued is classified in the New Jersey Statutes as total net debt. The bonded debt of \$280,000.00 is scheduled for retirement annually up to and including 1973.

On November 27, 1962 the Town sold bonds totaling \$626,000.00 including \$181,000.00 of Water Bonds. This proved to be one of the most successful sales Belleville has had in many years. The coupon rate was 2.55 per cent and the actual net cost to Belleville was 2.545 per cent. From the proceeds of the bonds sold all bond anticipation notes outstanding at the time of sale were called for redemption and paid.

The Department of Finance, we have supplied monthly reports of all revenues and budget operations to the Council and Manager, as well as separate monthly reports of budget and expenditures to date for each department. The Department of Finance expanded its utilization of the IBM equipment of Fidelity Union Trust Company. We improved our accounting system by computer to provide additional statistical data, such as the actual cost to each taxpayer of County, Local, State and Federal taxes. It is expected that we will gradually further enlarge on the utilization of mechanical equipment, permitting us to provide better and more readily obtainable financial information for the Municipal Council, Municipal Manager and our Taxpayers.

plains from witnesses for the opposition that they were required to take an oath before speaking and were required to undergo cross-examination by an attorney for the construction company. Councilman Golden has requested a transcript of proceedings from Chairman Norman B. Lauterette.

The variance has been requested by the Ance Company of Clifton to allow the construction of the apartments in the A-Resident's use zone. A company spokesman has said that if the variance is denied the firm will construct 48 one-family houses on the property.

was to be expected. The taxpayers are fed up with rising tax rates and big raises for Town employees, that leave the homeowners holding the bag with an empty pocketbook. We are surprised the school trustees, showing little sense of frugality indeed, without regard for the will of the voters, resubmitted the defeated budget 'impartially' without a change or reduction in it.

This is an insult and must be rejected. As part of an even more decisive defeat of the school budget a second time on Tuesday, thereafter it will have to go to the Councilmen to face pruning.

Motorists should beware of icy conditions on bridges and overpasses during the winter and spring months, according to AAA. Roadways on these structures may be loosed over, even though highways generally are bony dry because winds blowing beneath bridges quickly cool the steel and concrete while the soot beneath adjacent roadways acts as a 'heat pad,' AAA experts explain.

INSURANCE FOR BIKES REVIEWED

"My three youngsters all have bicycles. Don't you think I should have insurance for them in case they injure someone or damage something?" a parent asks.

Yes, you should have insurance. But before you run out to buy additional coverage, check with your insurance agent because your homeowners package insurance policy probably already covers the youngsters.

If you do not have a homeowners policy, protection against such accidents is included in the comprehensive personal liability policy.

Your homeowners policy also would pay for the loss of the bike were it stolen or damaged by fire. If you do not have a homeowners policy, a separate bicycle floater policy or be purchased.

Of course, under either policy, if the bicycle is stolen the theft should be reported to the police as soon as possible. Two things your youngsters can do to help prevent theft:

1. Keep the bike locked when they're not using it, and

2. Keep a record of the serial number and a complete description of the bike so that if it is stolen the police can identify it readily.

The Political Science Club will participate in and help organize the Student Elections. Having debates and panel discussions relating to political issues and world affairs will be some of the other activities of the club.

The club has elected the following officers: Anthony Roloff, president; David Bukunus, vice-president; Robert DePass, secretary-treasurer.

A committee, headed by William McCarthy, has drawn up the Political Science Club's constitution, and the Program Committee, headed by Gail Cronace and Jim Conceloso, is responsible for making the club programs as appealing and challenging as possible.

4 Youths Training at Fort Dix

JOHN ROIO

JOSEPH VARA

Four Belleville youths have been assigned to O Company of the 4th Training Regiment of the U. S. Army Training Center, Infantry, at Fort Dix, N. J., for eight weeks of basic training. During this program they will receive instruction in general military subjects to prepare them for more specialized training.

The youths are John Roio, son of Mr. and Mrs. Roio of 102 Smallwood Avenue; Joseph Vara, son of Mr. and Mrs. A. Vara of 2 Grove Street; Daniel S. Russomanno, son of Mr. and Mrs. Russomanno of 485 Franklin Avenue; and Michael A. Caravetta, son of Mr. and Mrs. Natale Caravetta of 54 Garden Avenue. After the initial eight weeks, the youths will receive two weeks leave, then enter advanced infantry training, be enrolled in one of the specialist schools at Fort Dix, or be sent to another Army post for advanced training.

Caravetta, Vara and Roio are graduates of Belleville High School. Russomanno is a graduate of Bloomfield Tech.

Rankiewicz Serves On Gemini Pickup

URS FORREST ROYAL — Rankiewicz, Third Class James R. Rankiewicz, USN, son of Mr. and Mrs. Joseph Rankiewicz of 2114 Appan Avenue, was a member of the task force which recovered the unmanned Gemini II space capsule January 15 while serving aboard the destroyer USS Forrest Royal in the Atlantic.

The anti-submarine aircraft carrier USS Lake Champlain made the actual pickup of the capsule.

The ship was part of a task force of 11 ships, 40 aircraft and more than 4,300 Navy men trained for the recovery of the space capsule.

First reports from the Lake Champlain indicated the capsule completed the flight in excellent condition.

The successful flight of the Gemini capsule paves the way for manned orbital flights in other capsules later this year.

High School Courses Slated

The Belleville Adult School will offer certain courses in the main high school subject areas: math, social studies, English, and science. These will be offered during the spring term commencing Tuesday, February 23, 1965.

These courses are designed to help students — who have not completed their high school education — prepare themselves to take the high school equivalency examination in each subject area. By satisfactory completion of the high school General Educational Test, given by the State Department of Education, the student will receive the New Jersey High School Equivalent certificate. For further information pertaining to high school equivalency contact Director Thomas A. Testa, Belleville High School.
