Commissioners Adopt Municipal Pay Package

Union Playground Measure Defeated

The disputed town non-uniform pay raise ordinance was passed on final reading at Tuesday night's Commission meeting. The ordinance calls for a \$300 hike in 1969 and \$200 increases in 1970 and 1971.

Commissioner William Cullen objected to the measure, stating that five new positions were being created by the amendment of Ordinance #1773, which regulates the municipal working force and puts forth the Civil Service Reclassification of 1966.

Cullen cited the posts of legal assistant, Public Safety, cashier and principal account clerk, Revenue and Finance; office appliance operator and senior maintenance repairman, mason in Public Works.

Cullen, however, added the position of maintenance superintendent in his department, Parks and Public Property (salary range \$8350-\$1078 in steps) to the amendment.

He felt that the bill should be tabled for further comprehensive study and discussion, since "this is a document that for the next three years will regulate the lives and wages of town employees."

The parks commissioner also pointed to one job title that was given a \$1200 increment, instead of \$700.

Mayor Kenneth D. Smith argued that the legal assistant in his department of Public Safety was not a new position, but one that was open.

Commissioner Joseph McGreevy, Revenue and Finance director, opined that Civil Service ordered a test for cashier and that it's "been on the books for a long time."

"There's no such thing on the Reclassification Survey," was Cullen's rejoinder.

Commissioner Mary Senatore, head of the department of Public Works, noted that the person doing the work of repair mason was given the title by Civil Service and that it was not a new position.

Cullen's motion for tabling the ordinance was bypassed and the bill became law by a vote of 5-0.

At the October 28 Commission meeting, numerous Union Avenue residents present objected to the proposed erection of a playground at 602 Union Avenue. A petition signed by 115 citizens, protesting the use of the land for such purposes, was received by the commissioners.

The ordinance was removed from the table at Tuesday's meeting, but was defeated unanimously when read for passage. Commissioner Cullen completely killed the project by writing to the Planning Board requesting deletion of 602 Union Area from the master plan as a recreation area.

A resolution introduced by Mayor Smith calling for Belleville's participation in a county wide warning system was passed. The Warner Communications Police-Crime Radio system will be in operation initially for five years. It was arranged under the President's Safe Street Act. All 23 municipalities in Essex County have agreed to the hookup, which will put each in immediate contact with one another.

Other resolutions passed included: an authorization to advertise for proposals for construction of ice skating rink at Pansoon Playground and Fairway Avenue Playground and the reconstruction of pavement at fire headquarters; congratulations to Rev. Benedetto Pascale upon his 54th anniversary as pastor of the Silver Lake Baptist Church.

Also passing on second reading and adopted was an ordinance cancelling a council manager measure transferring state aid road funds appropriated and returning the balance to the Capital Improvement Fund.

Cancelled was \$28,726 worth of new curbs and sidewalks on Joramelon Street from Washington Avenue to New Street, \$16,551 of which came under state aid (making the town appropriation for the improvements \$11,500, plus (Continued on Page 2)

BELLEVILLE CUP — Ben E. Grimm (left) director of Belleville's Public Library, is presented the Better Belleville Award by Joseph Casale, president of the library board. Grimm was honored for his efforts in developing programs for the young and old at the library. The Times presents the award to citizens who contribute to the welfare of the town.

Library Director Lauded By Times

Last night the first in a series of meetings for students interested in attending college was held at the Belleville Public Library.

It is one of many programs initiated by Ben E. Grimm, library director. Grimm, who is president of the New Jersey Library Association, has developed the library's pre-school program into one of the best in the state.

When he came to Belleville in March of 1961, there were few, if any, activities offered by the library outside of reading. "Now, libraries are involved more and more in educational, cultural community activity," says Grimm.

Mrs. RoseMarie LiBrizzo, a professional children's librarian, assists in the program for pre-schoolers, conducting four 12 week classes a year.

A summer reading program is enjoyed by the children. "When we started it four, five years ago," says Grimm "I'd go and read stories on the playgrounds to kids who hadn't come to the regular gatherings."

"I had fun behind St. Peter's once. I was reading Paul Bunyan and some 14 year olds thought it was funny. But then I read about three chapters to them, toughening up the language a little and the couldn't hear enough. It's a thrill to see that happen. I often wonder if anyone like that ever comes into a library on his own volition."

Grimm hopes to incorporate more adult activities into the library's programming. "Twice we've had live concert series on Sunday afternoons. The most successful was one on contemporary jazz; the least successful a string quartet."

"We've had an adult discussion group which we'd like to bring back. They were very topical, dealing with foreign affairs, the Vietnam war and youth rebellion."

The library director has hopes of expanding facilities and staff. "Ideally at this moment we would have a professional staff of four," Mrs.

LiBrizzo and Grimm are the two professionals. Harry Maglione, a trainee, is the adult services librarian and Betty Johnson is an intern (a trainee is a college graduate enrolled in graduate library work; an intern is a college graduate who hopes to go into post graduate studies).

Maglione worked on the college orientation series. The purpose of these meetings is to bring together Belleville students interested in college to discuss methods of using libraries to best advantage, with emphasis on reference tools and research techniques.

Discussion won't be limited to these areas. It will range into all areas of campus life, covering any subject the participants wish to raise. Graduate students from universities will be available as guest speakers in the series.

The dire need is for an addition. "We feel we're out of room," Grimm lamented. "We have 52,000 volumes presently and want a minimum of 80,000, which would be two books per capita, not a large collection at all to meet local needs. We just don't have the space to carry on the things we've planned. And 120, 130 adults here on a Sunday afternoon indicates the desire for programs."

The current Belleville Library consists of 7800 square feet. "We're looking for more than twice as much. Even now we're insufficiently housed. We need reading and study space as well as book stack space."

The library board passed a resolution for an addition. Since there was no formal agreement between the board and town commissioners, objection arose this summer on part of the commission when the library made a \$1000 down payment on a \$5,000 option to purchase property owned by Dr. Brown on Washington Avenue, behind the library.

Town Attorney Nicholas Amato said the board was premature in making the payment without the permission of the commission. Total purchase price of the land originally (Continued on Page 2)

as well as producing static pictures. All the information taken from a scanning session is recorded on high-speed magnetic tape and may be replayed for comparison, study, computer analysis and research purposes at any time.

Albin H. Oberg, Executive Director, pointed out that this expensive equipment, which is being rented rather than purchased outright, will contribute significantly to the hospital's approach to modern techniques. It is the only machine of its type in northern New Jersey.

The new nuclear imaging device will be under the supervision of Melvin H. Freundlich, M.D., who is Director of the hospital's Department of Nuclear Medicine and Hematology.

These studies are made after administration of small doses of radionuclides to the patient, and will demonstrate blood flow into and out of organs in a dynamic fashion,

Costume Contest Winners Named

Last week the Recreation Department hosted two Halloween Costume Parties, one at the Municipal Stadium and one at #4 School. There was a large number of youngsters at both contests and the costumes were extremely original and of very high quality. In fact, the costumes were so good that the judges faced a nearly impossible task of narrowing down to four winners in each contest.

At #4 School Mrs. Philomena Pepe and Principal Michael Nardiello had the task of selecting finalists from the many superb costumes. Then three ladies from the Womans Club of Belleville had the awesome task of choosing the

winners. These judges were Mrs. Richard Shafter-President, and Mrs. Peter Spera and Mrs. Robert Davis of the Evening Department.

It was only after great deliberation that the winners were chosen. Diane Lembo was a winner as the Flying Nun, Christi Bini won with her clown outfit, Frank Corsi was the Hobo with the greatest charm and little Gary Garamella caught the judge's eyes with his pumpkin costume.

At the Municipal Stadium the judges were from The Womans Club of Belleville also. Mrs. Douglas Clark, Mrs. David Parry, and Mrs. J. L. Sparkman. Here again the task of selecting finalists and winners was almost overwhelming.

First the judges selected eight of the beautifully dressed children as finalists. They were: Patricia Bagin age 7, Valerie Caruso 2, Donna Guerrero 5 and Dawn Petruna 2, Louis Greco 5, Christopher Clemente 1 1/2, John DiLiberto 2 1/2, Donald Tsouhnikas 8, and Phil Linfante 9.

As the judges labored with choosing final winners from the select group, Mrs. William Kropp of The Woman's Club took numerous photos of the children.

Finally, with the expressed wish that they could have declared all of the children winners, the judges announced their choices for the four winners. They were Valerie Caruso, who was dressed as a little lady from the Gay Nineties; Dawn Petruna, who was a Dutch Girl, Louis Greco, a clown; and John DiLiberto as Bozo. There were lolly-pops for everybody and the winners received gift certificates.

Library law is ambiguous and this is what led to the problem," notes Grimm. "In one place it says the board may acquire property, in another place it says shall."

An additional problem is the fact that Dr. Brown plans to place the property back on the buyers market by January 1.

Meanwhile Grimm and his staff work on new programs to stimulate the betterment of the citizenry of Belleville.

The Nixon Victory

Naturally we are pleased our President-elect is the man we supported.

President-elect Richard Nixon may not be perfect but for our times and among the candidates who aspired for the office of President, Nixon is the best qualified.

We foresee Nixon policies to be a bold departure from those of the Johnson Administration.

Nixon opposes cheap dollars. Nixon wants to curb the reckless action of the street mobs and looters.

Under Nixon we will witness a return to the days of

law and order we once knew.

Under Nixon we will experience peace in our time.

Hubert Humphrey bowed out as he came in--a man ten feet tall with grace and dignity. In his forced retirement we wish Humphrey the best of good health and happiness.

For Nixon we invoke God's blessings to help him along the turbulent domestic and foreign highways. The burden of the Presidency is almost beyond human endurance. In Nixon we have the man who can endure and will succeed.

Voters Say No

"Clear It With Joe"

The Newark-based leadership of the Essex County Republican Committee received a thrashing at the polls last Tuesday--probably the greatest shellacking any political organization has taken in Essex County since the Depression days.

The landslide victory for Hubert Humphrey and the Essex Democratic candidates for Freeholder and Congress represented a repudiation of Republican candidates who became rubber stamps for the real boss of the Essex County Republican organization.

The man pulling the strings behind the County Chairman's seat is a fellow by the name of Joe Intile, head of J.I. Enterprises, Inc. Voters refused to "Clear With Joe."

An allegation has made the rounds among Republican leaders from one end of the state to the other to the effect that Joe Intile was convicted of a federal violation and required a presidential pardon to clear his name. Up to this writing, Mr. Intile has refused to deny or admit the allegation.

Mr. Intile is a Nixon Elector. In this role he will be invited to sit as an Elector December 15 and cast a ballot for Richard Nixon. Our legal authorities advise that a presidential pardon restores to a person every right except qualifying as a Pres-

idential Elector in the Electoral College. If in fact Mr. Intile has won his full citizenship rights by virtue of a presidential pardon there is a legal opinion that holds he is disqualified from voting as a Presidential Elector.

In the circumstances it would appear that Mr. Intile should either disqualify himself and resign as an Elector or put the lie to the allegation that he was convicted of a federal violation and subsequently granted a presidential pardon.

The election results in Essex County clearly demonstrate the Yeomans-Intile people were more interested in the election of three Freeholders than they were in the presidential and congressional candidates.

Almost immediately after the Primary election polls closed, word got around that GOP County Chairman Bill Yeomans and his political mentor, Joe Intile of the J.I. Enterprises, Inc. passed out the word to confidantes to concentrate only on the election of their three Freeholder nominees.

Based upon the results of the last two general elections it appears that Republicans must nominate Reform Republicans in Primary Elections in order to win a General election.

The Glue Sniffers

Whether we like to admit it and face it or not, a growing number of youngsters are becoming involved in the quick-thrill experiences of drugs and narcotics of various kinds.

The cut-off of the supply of airplane glue turned the attention of some youngsters to other vapor-producing products which include cleaning solvents and certain pressurized chemical agents rather easily acquired in stores.

But just a few days ago one school lad took a can of glue out into a field

near his home in Florida and took a deep breath of the vapor rising from it. He jumped up, ran about fifty feet and fell to the ground, where he died in a few seconds.

Thus the practice can be a deadly one. In addition to glue-sniffing, marijuana, LSD, pep pills and various barbituates are being tried by some youngsters. A few even try opium and heroin. An overdose of these can be fatal, with the exception of marijuana, which is smoked.

The New Congress

A major issue of the November 5th election... the failure of Republicans as the nation to add any effective strength in the House of Representatives. At the beginning of the election campaign polls indicated the G.O.P. would gain a minimum of twenty seats.

And while the Republicans did gain significantly in the Senate... minor gain in the House was a G.O.P. disappointment. What this means is that Republicans, in both houses, will once more have to look to a coalition arrangement with Dixie Democrats in certain fields.

The political philosophy of the new Congress will therefore be about the same as that of the 1967-68, somewhat economy-minded and less inclined than the 1965-66 Congress to inaugurate expensive new domestic programs. It may work reasonably well with the new President, but obviously there will be no close liaison, no really easy collaboration between the White House and Capitol Hill for the next two years. (This situation, incidentally, confronted Dwight Eisenhower in six of the eight years he occupied the White House.)

Larry Robinson, a Negro, won a court decision upholding his contention that the Branch Brook Manor had discriminated against him because of his race, by refusing to rent him an apartment. The Appellate Division of the Superior Court ruled that Robinson should immediately be rented an apartment but not under a normal two year lease because of the fact that the apartment owners, George and Martin Levin, were in the process of appealing the case and the ultimate court decision might be reversed.

Shopping Aid To Old

To The Times:

Can't we senior citizens be told of the new A & P store that is to come into the area. Land has been bought by A & P one block south of Heller Parkway on North Sixth Street and Monticette Street by North Seventh, right on the Belleville-Newark line.

We of Steven Crane Village, around 1000 families certainly will appreciate this. I go from my home, 900 Franklin Avenue to Belleville's A & P, a distance of two miles to get food.

We here at Steven Crane Village on the Belleville line have many of your interests as ours. These new buildings are not like other low income projects. They are beautiful and built for the comforts of older people. The rents are scaled according to your income. Belleville oldsters can move in here, but forget that. Belleville people are nice people, believe me.

Respectfully,

Grant The Police A Bingo License

To The Times:

When the county seeks more money from the taxpayers for any reason, good or bad, they use as their weapon the revaluation program. The state has the same idea and has many avenues to tap. The mororist is hit the hardest in many ways on his automobile, including new toll roads. The state also has the sales tax which they could increase. They also seek approval of Governor Hughes' \$990 million dollar bond issue, which was soundly defeated in a previous election.

If approved, it would put the state and the people in hock for the next 60 years. The state will also demand an increase in the sales tax, and a state income tax to pay for it. The

police and firemen are requesting more money. It would be impossible to increase property taxes in the cities with conditions as they are to meet their request, and the state has refused to help out.

The only solution I can see in this matter, harmless to the people, is to grant a bingo license to the police and fire departments to operate their own games. Some churches operating twice a week earn a profit of \$250 thousand dollars per year.

I believe this plan would boost the morale of the departments and give the people better safety conditions.

Sincerely,
Albert Guglicelli

Likes Elvis; Dishikes Beatles

The Beatles may have recorded a lot of records in the 4 1/2 years they have been recording, but do you realize who has been the most consistent in decent rock and roll recording the past 12 1/2 years? That's Elvis Aaron Presley.

Elvis has always sang wholesome rock and roll. The Beatles sing of pill taking and mis-leading records. He has been tabbed the King, and rightfully so. He now has a charming wife, Healways was, and always will be a man, and a sincere honest and decent

American. He's clean-cut and he's tough. The Beatles are long-haired pill-taking babies from another country.

Thank you, Mr. Presley for bringing to the world over 12 years of wholesome joy to people both young and old. It too is a tragic shame not one radio program has thought to dedicate their program to Elvis Presley.

Sincerely,
James Ferrara

Senator Williams On 90th Congress

Like an old soldier, the 90th Congress just faded away last week.

In the Senate, the threat of a Republican filibuster on a bill to waive equal time provisions, thus permitting TV debate among the major candidates, was the final act.

The filibuster threat and the failure to obtain a quorum killed any chance for ratification of the nuclear non-proliferation treaty.

And the House of Representatives, which passed the TV debate bill after the longest continuous session (26 hours) in this century, gave up in disgust and failed to muster a quorum for adjournment.

It was a disappointing ending to a Congress which, although it didn't reach the legislative heights of the 89th, had a reasonably good record.

We put the first gun control legislation on the books, although it didn't go as far as some would have liked. Similarly, the Open Housing Bill was a historic first, though not going as far as some would have preferred.

Truth-in-lending was enacted, partially, I suspect, as a tribute to Paul Douglas, who fought for its passage for so many years and left the Senate without seeing his dream come true.

The Redwoods Park Bill, another one of those on which some compromise was necessary for passage, was a signal victory for the forces of conservation. So was enactment of the Scenic Rivers Bill.

The income tax surcharge, coupled with budget cuts, was distasteful but necessary medicine.

We took major strides in education with establishment of the Teacher Corps and enactment of the Vocational Education and Elementary Education Acts.

And, there were many other new laws put on the books.

From my point of view, the 90th Congress was a highly successful one. Two legislative projects of long standing were successfully closed out.

As a matter of fact, the first bill I introduced as a member of the Senate, back in early 1959, bore fruit this year.

That was a bill to create a commission to decide upon a fitting memorial, in Washington, for Woodrow Wilson, the only President from New Jersey.

The bill passed and the commission was created in the early 1960's. It approached its work, I must say, with all due deliberation. But, it finally recommended a Woodrow Wilson Memorial Square, to contain a suitable sculpture of the late President, and a Center for Scholars surrounding the Square.

Legislation was drafted embodying these recommendations and the bill was enacted this year. The memorial will be located on Pennsylvania Avenue, opposite the National Archives. It ought to be an attraction for New Jersey visitors to Washington.

The passage of legislation establishing a flood insurance program, to be operated jointly by the Federal government and the private insurance industry climaxed an effort dating back to the storm of March, 1962, which devastated the Jersey Coast.

I won't bother tracing the whole legislative history. It's too tangled. The program is now law and the Department of Housing and Urban Development is presently setting up a program to give homeowners and small businessmen their first opportunity to protect their savings and investment against damage or destruction by floods.

Passage of legislation to require mass developers who sell building lots in interstate commerce to disclose all the pertinent facts about the property before the sale is made is a badly needed protection for small investors. It was especially needed by the elderly, who may invest their savings in a retirement home site without seeing the property.

We also enacted legislation extending this "full disclosure" principle to attempts to take over a publicly held corporation via the so-called "tender offer" method.

One piece of legislation enacted this year whose effect won't be felt for some time was my resolution calling a White House Conference on Aging in 1970. The first such conference, in 1961, was highly fruitful. Among other things, it gave badly needed impetus to the campaign to enact Medicare.

As Chairman of the Subcommittee on Migratory Labor and author of the bill, passage of a minimum wage for farm workers was gratifying. So was passage of legislation which tripled the size of the migrant health program and significantly broadened the migrant education program.

There were other legislative victories, too. In education, civil rights, conservation—we fought off those who wanted to cut the appropriation for the Delaware Water Gap National Recreation Area.

New Jersey's interests fared well in the 90th Congress. Sincerely,
Senator Harrison A. Williams Jr.

Grace Church Discusses Bi-State Transportation

The development of the bi-state area as the nation's greatest transportation center and leading seaport was discussed at a meeting of the Grace Church Men's Club, Nutley, New Jersey, November 11, at the church parish hall.

John Brennan outlined the Port Authority's contributions to this growth, and its role in developing and operating 23 land, sea and air terminal and transportation facilities in the Port District, an area encompassing nearly 1,500-square miles of land within a 25-mile radius of the Statue of Liberty. Supplementing his remarks was a colored slide presentation, vividly portray-

ing such internationally known facilities as Port Newark, the George Washington Bridge, the Port Authority Bus Terminal in midtown Manhattan and John F. Kennedy International Airport.

He also described the dependence of the metropolitan area on the flow of international commerce through the bi-state region, and of the Authority's continuing efforts to develop and expand this trade, and to protect the Port District from competing ports, discriminatory tariff rates and cargo handling practices.

Brennan, an Administrative Assistant in the Tunnels and

Bridges Department, joined the professional staff of the bi-state agency in 1964. In his present position he assists the Director and Deputy Director of Tunnels and Bridges in the administrative aspects of policy, operational and personnel matters.

A graduate of Fordham University, he also attended the University of the City of New York's Bernard Baruch School of Business. He and his family reside in Bergenfield, New Jersey.

Lerner Petersen of the Grace Church Men's Club scheduled this presentation through the Port Authority's Speakers Bureau.

FLIES ARE DIRTY AND A HAZARD TO HEALTH

The common house fly is an ill-bred, bad-mannered, pesty insect. They wade around in outdoor filth, garbage, sewage and manure. Then they fly to the nearest human home and get in through a crack in the door or a hole in the screen. Among the diseases spread by flies are bacillary dysentery, typhoid, staphylococcal food poisoning and amebiasis.

Flies are a nuisance at mealtimes. They crawl over anything from food to the baby's face, always depositing some of the filth picked up outside. Greet them with a shower of insect spray. We would like to help you select an effective product that will kill every fly.

YOU OR YOUR DOCTOR CAN PHONE US when you need a delivery. We will deliver promptly without extra charge. A great many people rely on us for their health needs. We welcome requests for delivery service and charge accounts.

The Rev. Louis Caputo of St. James Church, Penns Grove, performed the ceremony. A reception followed at The Fountain, Belleville.

Escorted by her father, the bride wore an A-line peau de soie gown with bell sleeves and bodice of re-embroidered Alencon lace and a detachable train appliqued with matching lace.

Month of October Was Beautifully Normal

October was warm with an average rainfall, according to the monthly report of Harold Duflocq, meteorologist at the Union College Meteorological Station in Cranford.

The average temperature in October was 56.8 degrees.

and is purchasing agent for Vornado Inc., Garfield.

The wedding is planned for May 25, 1969.

A grateful Electric Glassheat user says:

"If you notice the temperature you have the wrong heater"

BETTER SWITCH TO GLASSHEAT

"IT'S A COMFORTABLE HEAT that Glassheat gives—never too hot, never too cold," he continued. "So comfortable in fact you never notice the temperature at all. Regardless of the weather it feels like a sunny day indoors. Imagine—every room sunshine warm all winter long. No drafts, no cold corners, just comfort!"

No wonder Electric Glassheat reminds you of sunshine. It is the only heating system that warms with healthful radiant electric rays exactly like the rays of the sun. And this is true throughout the house for every room has its own money-saving thermostat and heating unit.

You can regulate the temperature of each room exactly as you want it, one quite warm, another cooler. And if a room is unoccupied, turn back the thermostat, close the door and save money!

IT'S HEALTHFUL HEAT TOO!

"We had fewer colds last winter and everyone felt fine" says an owner in Caldwell. This is a common report from owners because Electric Glassheat has no flame to burn up the life giving oxygen or produce toxic fumes. And the sunshine rays of Glassheat not only produce an even temperature but maintain humidity at the level doctors recommend for good health.

SAVE CLEANING TIME AND MONEY

"No soot, no smoke, no grime. Glassheat is wonderful," writes another user. "Have never seen any thing so clean. Saves me hours I used to spend cleaning and painting."

Another says "In 16 years the only room we have had to do over is the kitchen. No need to repaint the other rooms or dry clean our drapes. And our venetian blinds still look fresh and new. That's why so many owners say, 'Install Electric Glassheat and take it easy.'"

SAFE! Electric Glassheat is absolutely fire-safe and can't overheat. No fumes to worry about, and even accidental contact can't cause blistering.

Electric Glassheat is as silent as sunshine and as pleasant, for there are no moving parts. Saves space too for the area usually used by radiators, furnaces and flues is yours for extra living space.

SAVE MONEY ON HEAT! People admit that Electric Glassheat is tops for comfortable heating. But some feel that it is so ideal it might be too expensive. This is not true—as you will see from these letters describing Glassheat's economy.

One writes, "We installed Glassheat for its greater comfort with the hope that it would be reasonably economical to operate. So we were not prepared for our very low annual heating bills. And since

we can now take advantage of the special low heating rate, we save money on our regular current too. And there are no maintenance charges. It all adds up to better heat for less money.

"Though we added two extra rooms" says another owner, "my heating bill is only \$175. A pleasant surprise and we have never been so comfortable."

That's the Electric Glassheat story. People install it because of its many advantages—then are delighted to find it is an economy as well.

WHY PAY MORE FOR LESS?

Does Electric Glassheat sound luxurious? It is in every respect but cost. If you would like to know what Electric Glassheat will do for the health, comfort and welfare of your family—and how little it will cost, send the coupon, or phone.

If Your Evergreens Turn Yellow, Drop Needles, Don't Be Alarmed

Don't worry if the inside needles of you white pine and arbor vitae trees turn yellow and drop. Although it is very noticeable it's normal at this time of year, says John J. Kupcho, County Agricultural Agent of Essex County.

These evergreens remain green throughout the year because they do not lose all their foliage at one time as do our deciduous trees. The needles that are dropping off now were produced in the spring of 1967 and those that were produced this past spring will be due to drop next year at this time.

This year's needle drop seems to be more obvious than normal but there is a logical reason for this says Mr. Kupcho. Last year wet weather during the growing season set up ideal conditions for heavy growth while dry spells during this past year accounted for a lesser amount of needles. Since it's the 1967 needles that's dropping the yellow and brown needles are outnumbering those which are green.

Unfortunately, there is not always a right and wrong solution to a situation. Sometimes there are only two courses of action, bad and worse.

Week for Business Women Celebrated by Tri-Towners

The last day of National Business and Professional Women's Week (October 20 to 26) found 13 members of Tri-Town Business and Professional Women's Club of Belleville, Bloomfield and Nutley attending the First Congress of New Jersey Career Women held at Cherry Hill Inn, Cherry Hill.

Guests and members of the clubs were welcomed by Mrs. John McLean, New Jersey state president. After luncheon Mrs. McLean introduced the program "Things Go Better Together - The Total Woman" and the panelists. The first panelist, Mrs. Mary G. Robebing, president of the Treton Trust Company, spoke

"Thinking according to our individual perception can be our greatest obstacle or reward."

Miss June Strelecki, director of the New Jersey Motor Vehicle Division spoke about attitudes, how working relationships are so affected and reminded us, in closing, of the new slogan of the motor vehicle agency "Start your day in a pleasant way."

Mrs. Helen Stevenson Meyner, columnist and television personality, spoke about the diminishing obstacles in the paths of women and of those remaining, mentioning that 75 per cent of women in business have routine jobs and make less than \$5,000 yearly. She reminded the group that only 7 per cent of the doctors in this country are women compared to 75 per cent in the Soviet Union. Dr. Margaret Blair of the New Jersey Department of Education concluded the discussion by speaking of the full rich life of the career in addition to family life - that women have vision and dare to dream. She closed with "Where there is no vision the people will perish" from

Proverbs.

Tri-Town members who attended the luncheon and discussion were Mrs. Charles Boughton, Mrs. Mary Ellis, Mrs. Hazel White, all of Bloomfield; Mrs. Joseph Mulhgan, Mrs. Francis La Placa, Miss Frances Williamson, Miss Ruth Williamson, Mrs. John Westcott, all of Belleville; Miss Margaret Conlon, Mrs. Marion G. Johnson, Miss Marion Johnson, Miss Margaret Mostica, Mrs. Elliot Epworth, all of Nutley; Miss Irene Weyer of Newark, Mrs. Alex Mather and Mrs. Lillian Whittle, both of Kearny; Mrs. John Kellerman of Verona and Mrs. Dorothy Duncan of Glen Ridge.

On Sunday, October 27, Mrs. La Placa attended the founder's day breakfast of the North Jersey unit of the National Association of Negro Business and Professional Women's Clubs at Military Park Hotel in Newark, as a representative from Tri-Town and to join them in honoring persons who had given outstanding service to their community.

Kearny Going For Fifth Straight

The Belleville Times

News

Sports of The Times

By RICHARD DE SINA

The Packers appear dead and for more than just this year. The important parts of the machine that Vince Lombardi built are getting shopworn, though he still deftly trades for too draft choices.

Saddled with their fifth defeat, another by less than a touchdown, they must win their remaining five games and hope that both Minnesota and Chicago sustain two losses. The Pack gets another shot at Chicago which achieved a Pyrrhic victory over the 49ers: Gale Sayers is out for the year. They've lost twice to the Vikings.

Injuries have hurt, but failure to come up with the big play has been more of a factor. The club may have been conditioned to Lombardi's tongue lashings to drive it to supreme effort. The Dallas Cowboys know all about how the Packers can kill you with the big play; it's cost them two championships.

A team couldn't afford to make mistakes against the Packers. A fumble or interception meant six points. Henry Jordan's bad back, Bob Brown's broken arm, Ron Kostelnick's bum knee and Willie Davis' busted thumb forced Phil Bengston to go with rookies in the defensive line, weakening the pass rush, though Green Bay still leads the league in pass defense. The deep backs however, couldn't gamble for the interception.

The two straight years the Packers finished second, they had no kicking game. Jerry Kramer's absence, this season presented the same problem as key field goals sailed wide. The Packers are still a great team, but their best days seem behind them, not ahead as Vince Lombardi had predicted.

The divisional setup in the NFL, denigrated because of the Colts fate last year, is producing four close races this time. The Giants crept up on the Cowboys with their upset win. They still have to match the feat and pull off a victory against the Rams, who are again battling the Colts, to cop their division. Fans may be singing "Good-bye Allie" again in December.

The Jets look like sure winners in the AFL East. They still might decide to lose their last five and make it interesting.

In the NBA the Lakers are learning to play together and have won five straight. Another dynasty will topple for good: the Boston Celtics. It's Sam Jones last year and Bill Russell can't go on forever, can he?

What great Knick draft choice sparked his team to an overtime win over Cincinnati, denying the Bearcats bid for an unprecedented third straight NCAA title? Jerry Harkness, held scoreless until late in the game, helped his mates overcome a 15 point deficit by hitting three straight jumpers in regulation time and then Vic Rouse' layup won it.

Crew Finishes Fall Practice

By Steve Taffer

The Belleville High School crew, after six weeks of practice, finished fall rowing October 30 with a victory over Kearny.

The fall rowing program was initiated three years ago to give Belleville oarsmen a month and a half of extra practice. Four times a week the first, second and freshmen boats were rowing on the Passaic River under the direction of varsity coach Mike Lally and J.V. coach Sam Glufrida.

The first boat, coached by Lally, logged seven or eight miles a day. The crew rowed about 130 miles during the fall. The boys rowing in the first boat were three returning lettermen, Captain Peter FalTraco, Scott Fabian and Richard Beresford and five other oarsmen who graduated from last year's J.V. and freshmen shells.

The J.V. graduates are Gary Corino, Russell Jerusik and Larry Fink. Jack Fersko and James Drexler are sophomores up from the frosh. According to Lally, "they rowed very well, and are steadily improving." With only three returning lettermen and two sophomores, Lally stressed the fact that the boat is very young and inexperienced. Coxswains working with the first boat were senior Ricky Cavalluzzi the coach said, "the potential of the boat and its attitude are exceptional. Except for water problems due to the tide, the oarsmen and coxswains did not miss any practices and this will definitely contribute to a better team this spring."

Spring practice is scheduled to begin in early March, followed by interscholastic racing in April and May. Lally is hoping to schedule eight races. The varsity is out to improve on last year's

4-3 record.

The second boat, although it ran into some difficulty in getting on the water regularly is expected to be very strong in the spring due to the influx of an excellent freshmen crew of last year. Sophomores and juniors will comprise the J.V. boat, and junior Steve Taffer.

The development of the first shell was encouraging and as

Soccer Loop Needs Coaches

The new Recreation Soccer program has been growing by leaps and bounds and is now in need of more volunteer coaches.

Recreation Supt. Bob Cook, this week, has sent out an appeal for men who have had some experience. Belleville has an extremely enthusiastic group of boys who are diligently learning the skills of the sport. Everyone involved with the program has been pleasantly surprised both at the growth of the group and at the rapid assimilation of skills.

Belleville is receiving a great deal of assistance from friends across the Passaic in Kearny. These soccer veterans have been very complimentary about the abilities of

West Orange Bombed By Vitiello Air Barrage

AIR RAID -- Vince Costantino waits to cradle first Bellboy touchdown pass of the season as he straddles goal line, to chagrin of Cowboy John Bolan. Score hiked count to 13-0.

Belleville High School's football team didn't have first quarter troubles Saturday. In fact they didn't have any trouble with winless West Orange, slugging out a 33-0 verdict.

West Orange started well, taking the opening kickoff and gaining a first down to midfield. They were forced to punt and the Bellboys marched to their first score like Sherman through Georgia. The 71 yard drive was capped by a six yard jaunt into the Cowboy end zone by Jim Wille. Bob Ciallrella's placement made it 7-0 with 42 seconds left in the quarter.

The touchdown was accomplished entirely on the ground and was so time consuming that it appeared the Bellboys would only be able to score once each period. They tallied five times.

An omen of things to come for West Orange was their decision to have the Bellboys kick off again after being offside. They lost six yards on the seemingly sensible strategy.

Unable to move, the Cow-boys went into punt formation. A fierce rush resulted in a blocked punt. Carl Corino

recovered on the West Orange 24. Jim Wille carried to the 5, but a clip brought the ball right back to the 24. From there Joe Vitiello decided not to waste time and threaded a strike to Vince Costantino who had no trouble getting open, for the Bellboys first air touchdown of the season, making it 13-0.

The Cowboys then made their most serious threatening gesture. Stumpy Glenn Del-Russo carried for a sizable gain around right end and a face mask infraction brought the ball to the Belleville 37. Roy Newman put a quick stop to that, dumping quarterback Craig Shupper for a big loss.

Needing big yardage, West Orange went to the air. Joe Vitiello intercepted a tipped pass by lefty quarterback John Bolan and returned it to the West Orange 32. Wille scored from the six again. The extra point was blocked and the Bellboys led at the half 19-0.

West Orange decided to go for a first down on their own 44 and fell short in the third quarter. Belleville took over and their fourth TD took one play. Doug Brown spiraled an option pass to Vince Costantino that would have made Paul

Hornung envious. The placement made it 26-0 and Belleville had scored more points in less than three quarters than they did in five full games.

Vitiello came to the fore again, returning another Cowboy punt 22 yards to the West Orange 43. Doug Brown broke two tackles on a 12 yard run to the 31. An illegal procedure penalty brought the ball out to the 36. Vitiello then threw his second TD pass to Steve Banda and with 3:16 to go in the third quarter the scoring fireworks were over.

But an altercation erupted between Mike Drury and a member of the Cowboys of fensive squad. It was quickly quelled and the scrubbins

played out the contest. The 33-0 defeat was West Orange' seventh of the year and their fourth straight whitewash. Jim Wille gained 77 yards, to bring his season's total to 535.

Pennsylvania Dean Cites Miss Smith

Susanne E. Smith of 91 Brookfield Avenue, Nutley, was recently named for the dean's list for the summer term at The Pennsylvania State University. An average of 3.50 or better is required for inclusion on the dean's list.

Kards Feature Bill Griffin's Arm

The Bellboys are undefeated on the road. They face a formidable foe in their third round contest Saturday in Kearny. The Kards are 5 and 2 and their quarterback Billy Griffin has thrown 18 touchdown passes. Mike Landi has caught 14 of the six point-ers.

Kearny stacks up as a 34 point favorite according to common foe results. The Kards crushed Irvington 26-0; the Bellboys nipped the Campers, 7-6. Both squads downed Bloomfield, Kearny 20-0

and Belleville 10-6. Both were victorious over West Orange, the Kards by 26-0 and the Bellboys romped 33-0 last Saturday.

"Offensively it was our best showing of the year," fell head coach John Amabile. "It was our best blocking effort too. Jim Wille gave us another good game. He reads blocks well."

Bob Bonfante was given the game ball by his teammates. "Bonfante, Carl Corino and Bob Baumgartner have been consistent all year," Joe Vitiello, Steve Banda ("he made a fine catch") Vince Costantino and Doug Brown were all praised by coach Amabile as the Bellboys new found air arm exploded for three touchdowns.

"I'm very well pleased. We're getting more aggressive each week. Our biggest problem all year has been playing as well in the first half as we do in the second."

Griffin may be hampered by a twisted ankle he first received in the West Orange game and then aggravated against Columbia last week. However, he was effective enough to throw six TD passes in those contests.

"We know they like to throw the ball. We'll take it the way it comes. I think we can handle them. We'll measure up to the task. Our pass defense has been one of our stronger points (only three TD's given up all year: one to East Orange and two to Garfield)."

Kearny opened its season with a 34-0 thrashing of Emerson. They then lost to undefeated Orange 20-12 (the Bellboys Thanksgiving opponent) and powerful Montclair 33-20. Then followed four successive wins, against West Orange, Bloomfield, Irvington and Columbia 41-6. The Kards have allowed only one touchdown in those four games.

A strong running game complements Griffin's air show. John Aiello, Gary Yagiello, Pat Ryan, Steve DeAlessio and Mel Griffin, Bill's brother, have all scored on the ground. "They run the power sweep off the I formation," said Amabile.

The Kards used an eight man front to put pressure on Columbia's quarterback. "Their front four plays in a four point stance, so if we go for their knees, they're out of the play," noted Amabile.

It will take another top effort to get Kearny fans interested in soccer again, and if Griffin lives up to his name (a griffin is a mythical animal, part eagle and part lion) the Bellboys dream of reversing last year's record will become impossible.

INEFFECTIVE STRAIGHT ARM — Glenn DelRusso's attempts to ward off Joe Vitiello are nil as Bellboy safety corrals Cowboy wingback.

COME TO ME — Joe Vitiello prepares to pluck deflected aerial. Frank Fury (24) tipped toss away from intended receiver Stan Wilkes. Joe also starred on offense, throwing two touchdown passes.

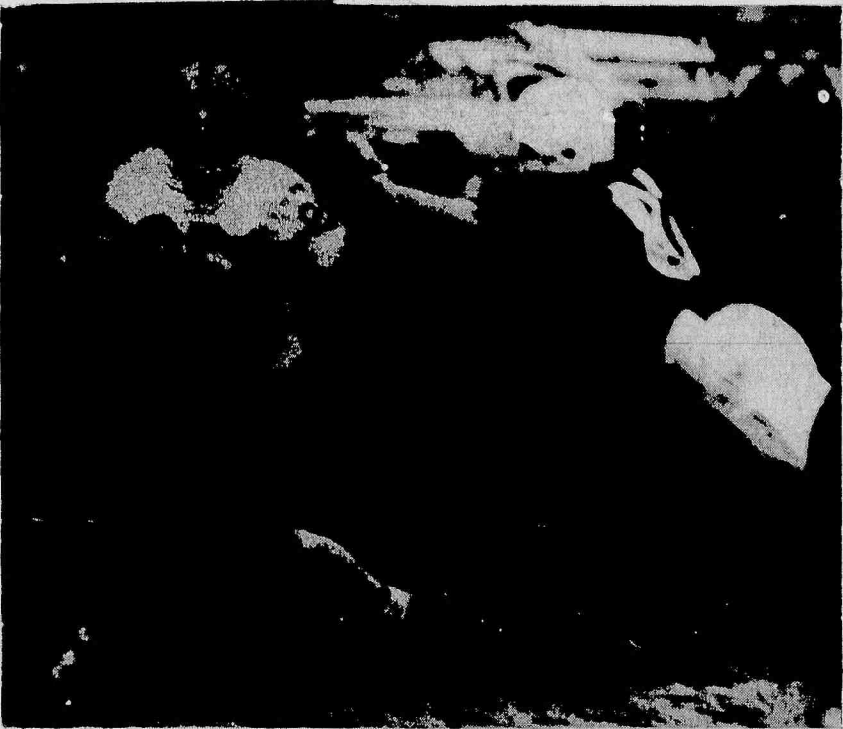

I'LL TAKE THAT — Carl Corino blocks punt by Jeff Taylor. It set up second Belleville TD. Joe Ritacco (20) assists.

NOT QUITE — Vince Costantino just manages to get kick away as Bruce Housel applies pressure. Vince has been booming them all year.

Bellboys Lasso Punchless Cowboys, 33-0

OUTTA MY WAY — Jim Wille pokes disdainful paw at Kevin Mulligan on second quarter sweep. Jim's season yardage total is 535.

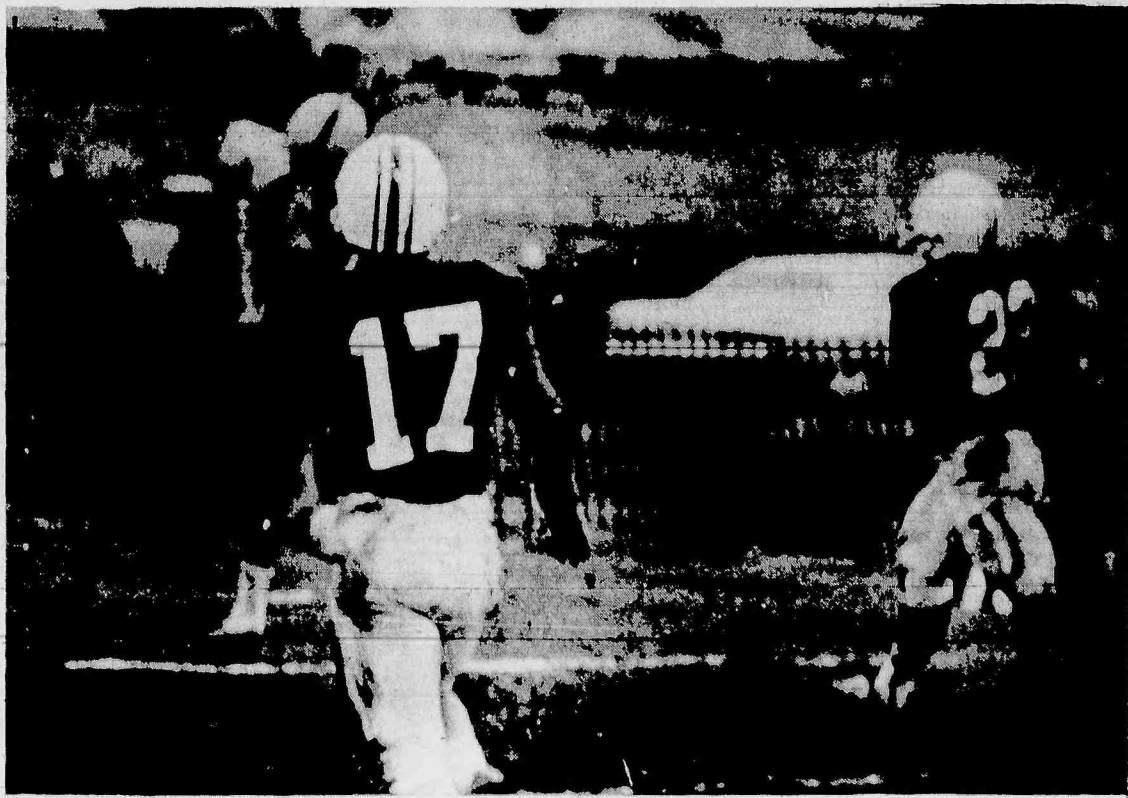

ACROBATIC DEFENSE — Bob Baumgartner (18) and Joe Vitiello smother pass meant for Pete Levens. Vitiello interception set up third Belleville tally; Baumgartner has picked off four this year to lead the club.

SECOND SCORE — Jim Wille goes over from the six for his second and Belleville's third touchdown. Holes this huge were opened all afternoon.

ALA HORNING — Doug Brown is about to release 44 yard scoring strike to Vince Costantino for Bellboys fourth TD in 33-0 rout.

OVER THE SHOULDER — reception is made by Costantino of Brown's bomb as Bill Rizzolo (23) and Glenn DelRusso (24) futilely pursue.

St. Paul's Church Presents 'Elijah'

On Sunday, November 17, at 7:30 p.m., the choir of St. Paul's United Church of Christ will present "Elijah" by Felix Mendelssohn. This oratorio ranks, along with the oratorio "St. Paul" and the symphony-cantata "Hymn of Praise" as one of Mendelssohn's outstanding achievements.

The chorus will be directed by Mrs. Sheldon R. Peed, Organist and Director of Music at St. Paul's church. It will be an augmented group, composed of St. Paul's Chancel Choir and members of other choirs from surrounding areas. The Concord choir of St. Paul's will also participate.

Social Security Office Handling

New Addresses

Social Security beneficiaries in Newark, Belleville and Nutley who need to report changes of address or other events that affect the payment of their monthly benefits may now do so through the social security office at the New Federal Building, 970 Broad Street, Room 500, in Newark, New Jersey, William J. Arnold, district manager, said today. Reports may be made by mail, telephone, or personal visit.

Arnold said that up to now beneficiaries were encouraged to notify the Social Security Administration about the occurrence of these events on postcard forms pre-addressed to one of six social security record centers throughout the country. Beneficiaries received the postcard forms when they initially applied for monthly benefits.

Arnold said that the change in reporting methods is designed to reduce the time needed to change addresses and process other information having an effect on payment of monthly benefits. The change is prompted by the increased capacity of social security district offices to transmit the information over high speed communications circuits to record offices.

In addition to address changes Mr. Arnold said that events that affect receipt of monthly social security checks include employment, marriage or remarriage in some instances, divorce, and death.

Pharmacy Footnotes

by Louis
In 1928, Alexander Fleming, a 47-year-old Scottish bacteriologist was working at St. Mary's Hospital in London. His principal project at the time was investigation of staphylococcus bacteria. In this work Fleming seeded staff germs in a nutrient broth contained in a laboratory vessel known as a petri dish. Under proper conditions the bacteria thrives on this diet and multiplies rapidly. Fortunately (as things later turned out) either Fleming or his assistant got careless and left a culture plate open to the air. As sometimes happens, outside contaminants landed on the nutrient surface. In this case it was a fungus known as "Penicillium." Thus opening another door in medicine! Penicillin is just one of the many "miracle" drugs we always stock at GARY'S PHARMACY, 349 Franklin Ave., 667-1003. Open: 9AM-10PM Mon-Fri, 9AM-8PM Sat, 9AM-1PM Sun. Bat Mitzvah Due For Paris

Peggy Dawn Paris, daughter of Mr. and Mrs. Albert Paris, Bloomfield, will be Bat Mitzvah at Temple Menorah, Bloomfield, on Saturday, November 16, at 11 a.m. Rabbi Nathan H. Fish, assisted by Cantor Henry Thalsheimer, will officiate. A reception will be held at the Burns Country Inn, Clifton, following the services.

Peggy is in the 8th grade at North Junior High School, Bloomfield. She is interested in swimming, tennis, cooking, art and twirling. She plays the violin, and is a girl scout cadet.

When an individual makes up his mind to go to work, he is usually surprised by the pleasant results.

GUY AND DOLLS — Mrs. Joseph G. Biancardi (left) of Belleville, co-chairman; Enzo Stuarti, famous entertainer and supporter of Girls and Boys Towns of Italy and Mrs. Felix Marilino of Short Hills, chairman, discuss plans for the Girls' Town of Italy luncheon, to be held this Saturday afternoon at Short Hills.

Jolly Cleaners Has Jolly Owner

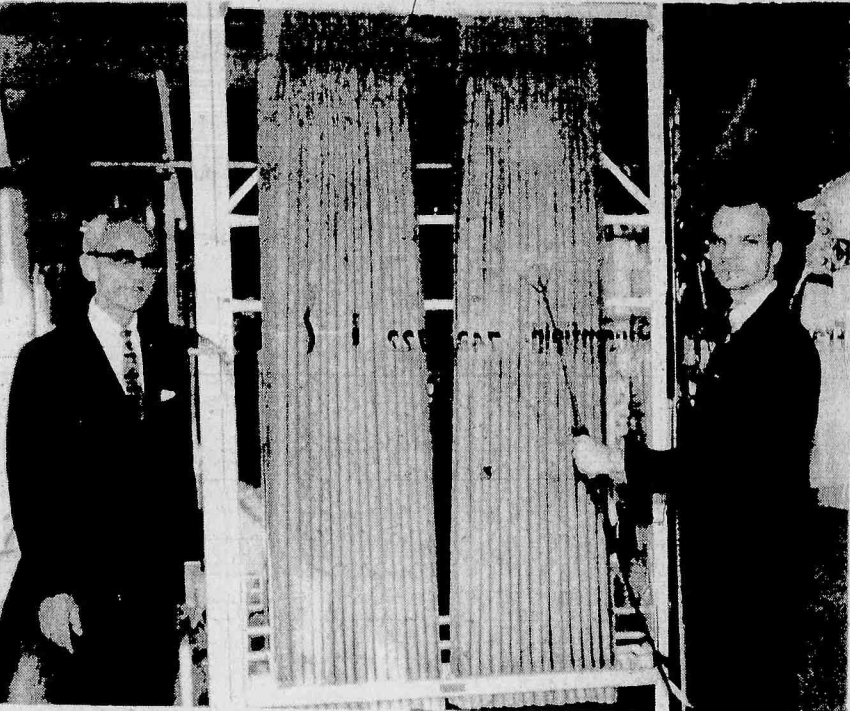

Art Jackson, much of whose earlier experience has been in the dry cleaning of draperies and other household items, has recently announced the opening of another new specialty department. With their new magic fold process, Jolly Cleaners now applies the popular decorator fold to draperies.

Customers at Jolly are enthralled to see this new process unfold before their eyes, as the equipment for completing the final stages is temporarily stationed in the reception area for all to see. Jackson emphasizes the

the finest plants in the metropolitan area. Then, in 1938 he opened his dry cleaning business in Westchester County, which he still operates.

Prior to coming to Belleville in 1955, Jackson was co-owner in the "Johnny on the Spot Drive In Dry Cleaning" chain, which operates through New York State. He is quoted as saying, "Building here in Belleville is the best move I have ever made."

Jolly services homes chiefly in the Belleville, Nutley, Bloomfield, North Newark area, in which Jackson has the

point that the decorator fold enhances the appearance of the home. The draperies, once merely functional, now become the focal point in the room, and a conversation piece as well.

Art Jackson made his debut in the dry cleaning industry some 37 years ago as a dry cleaning technician. In the earlier years he was employed in this capacity by some of

franchise for the exclusive, nationally advertised Sanitone dry-cleaning process. Sanitone, Jackson points out, is the only dry cleaning process that is recommended by leading clothing manufacturers such as "Botany" 500, Handmacher, McGregor, Hagger, R & K, and Catalina. Another specialized department at Jolly is the Heirloom processing and packaging of wed-

Public Library To Show Three Children's Movies

The children's department of the Belleville Public Library will show three exceptionally delightful movies on Saturday, November 23 from 10:30 a.m. to 11:30 a.m.

Highlighting the movie hour will be the enchanting fairy tale "Puss in Boots" - about an extraordinary cat who stands on two legs, walks in boots, and helps his poor master marry the princess.

Also scheduled is the film "Story of Peter and the Potter" which tells how the potter comes to Peter's rescue when he accidentally breaks a valuable family bowl.

Completing the hour is the popular short "Curious George Rides a Bike;" this color film, based on the book depicts the many adventures of a mischievous monkey named George.

So come on down to the Main Library, corner of Washington Avenue and Academy Street on Saturday, November 23, at 10:30 a.m. and enjoy an entertaining movie hour.

Really cultured persons never mistake vulgarity for originality.

Taiwan Professor Speaks At Bethany

Continuing its emphasis during November of "A Month of Missions," the guest speaker at the 10:30 AM worship service of Bethany United Presbyterian Church on Sunday, November 17 will be the Rev. Donald J. Wilson, Ph.D., Associate General Secretary in the Presbyterian Church of Formosa.

He was ordained into the Presbytery of Albany, New York in the same year as a student, Dr. Wilson was active in Inter-Varsity Christian Fellowship groups in different cities; engaged in rescue mission work, and was one of two staff members assisting in a university mission in Santa Barbara, California. In 1954 he was married to Marie Katherine Graf.

From 1952 until 1954, he was pastor of the Carmen Presbyterian Church, Schenectady, New York. During the next two years in Scotland, while working toward his Ph.D., Dr. Wilson served as pulpit supply in various churches; in his second year serving as assistant minister in the Larbert Old Parish Church.

From 1956 to 1958 he served as pastor of Leggat's Point Presbyterian Church in Metis Beach, Province of Quebec, Canada, and as missionary-at-large in the Lower St. Lawrence region of the Province of Quebec.

Dr. and Mrs. Wilson joined the General Board of Missions of the Presbyterian Church of Canada in 1958.

Pollution Violations Issued

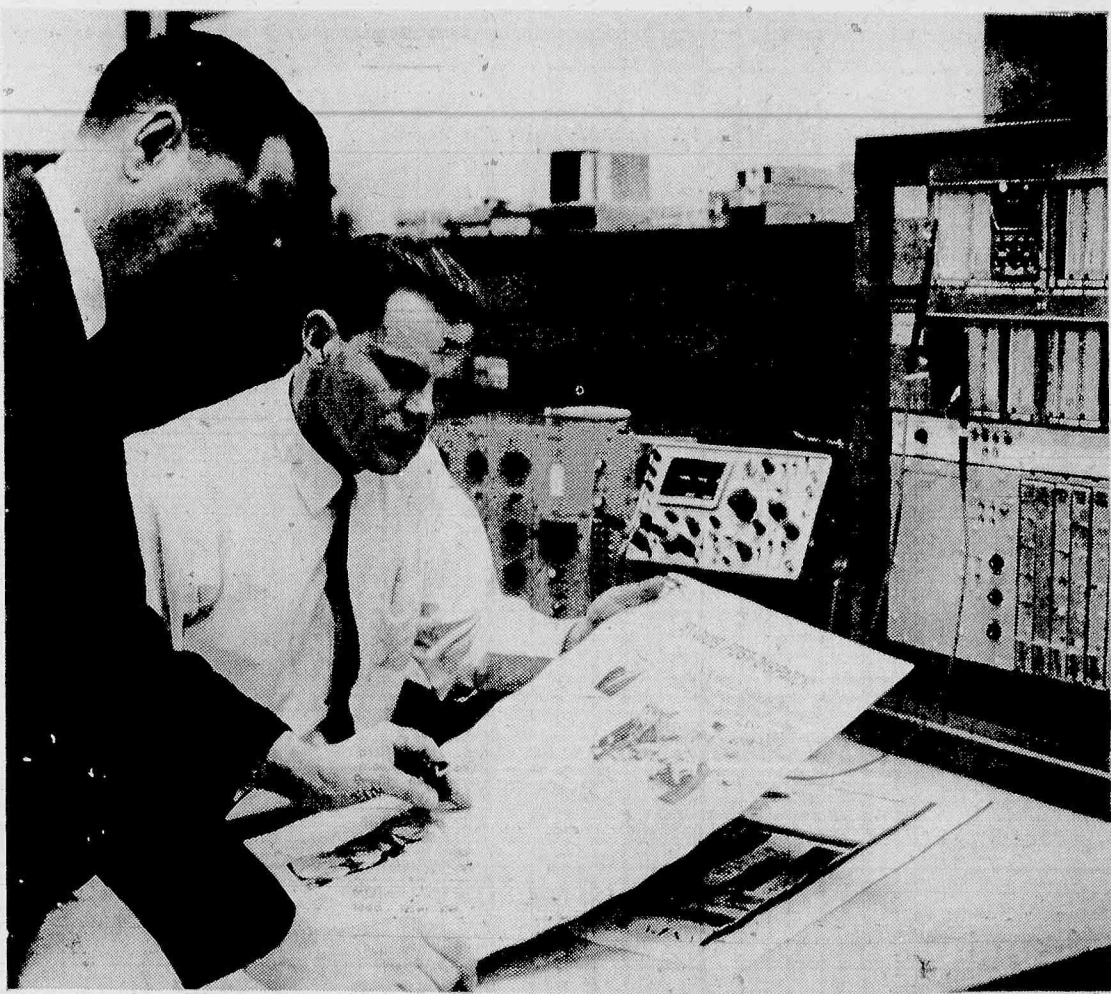

Richard J. Sullivan, Director of the Division of Clean Air and Water, State Department of Health, today announced 22 cease-and-desist orders issued against companies violating New Jersey's Air Pollution Control Code.

Ten orders for violations of Chapter 2 of the code were issued. This chapter forbids open burning for purposes of refuse disposal or salvage. Cited for open burning of salvage was: Hooker Chemical Corporation, 75 River Road, Nutley.

The issuance of an order is usually the first step in calling to account a violator of the state's air pollution control laws and regulations. The order specifies what the firm or individual must do to comply with the legal requirements, and the date by which compliance must be made.

If the firm or individual is aggrieved by the order, the violator may request a hearing on the charges involved within 15 days. Should the order be ignored and the violation continue, a notice of prosecution is issued.

A notice of prosecution stipulates a financial penalty which may be paid in lieu of court action. Any person or firm ignoring a notice of prosecution or continuing to violate the code incurs the likelihood of prosecution by the state's attorney general's office.

ELECTRONIC TRANSMISSION—Whole newspaper page facsimiles are sent over telephone lines using this new data conversion terminal (at right) being tested by R.C. Gifford (left) and S.J. Dutkowski of Bell Telephone Laboratories.

The terminal connects newspaper scanning and recording devices to telephone lines and transmits pages as a stream of electronically encoded pulses. The system transmits one newspaper page in six minutes.

Newspaper Page Facsimile Sent Over Telephone Lines

Newspaper pages have been converted into streams of electrical pulses and transmitted over telephone lines.

Using the pulse technique, along with a new data conversion terminal designed by Bell Telephone Laboratories, engineers have experimentally transmitted full newspaper pages in pulse form, at the rate of six minutes per page. A rate of three minutes per page will be possible in the near future. After transmission, the pulses are decoded to produce high quality facsimiles of the original pages.

In transmitting a newspaper by this system, each whole page is attached to the drum of a revolving facsimile scanner. The signal from the scanner is fed into the new data conversion terminal where it is converted to the language of binary pulses (bits). These encoded pulses are then transmitted, using a T-1 carrier telephone line which transmits 1.5 million bits per second.

Pulse transmission systems, used in many telephone links in the Bell System, can be used to carry all types of communications signals from voice to television, T-1 carrier transmission, designed by Bell Laboratories in the late 1950's and in use by the Bell System since 1962, can handle mixtures of voice, computer, facsimile, and teletype signals encoded as binary pulses. Other transmission systems at Bell Laboratories have carried

pulse streams of more than 200 million bits per second.

Newspaper samples transmitted in the experiments were standard offset and letterpress pages, test charts, and a reproduction proof of the front page of the "St. Louis Post-Dispatch." The data conversion terminals were built by Bell Laboratories. The scanning and facsimile recording terminals were built by Muirhead Instruments, Inc., and Litcom, a division of Litton Industries.

The experiments were coordinated by the American Newspaper Publishers Association Research Institute at Easton, Pa., and were an outgrowth of the work of the American Press Telecommunications Technical Committee. Organized in 1967, the committee includes representatives of the American Newspaper Publishers Association, the Associated Press, the United Press International, the United States Independent Telephone Association and the American Telephone and Telegraph Co.

In addition to Bell Labs and the AT&T Co., other participants in the experiments included the ANPA Research Institute, Muirhead Instruments, and Litcom.

The positive way people are responding to people's hours might help The Bank of Bloomfield to change its slogan, which is "The Smallest Bank in Town."

"People's Hours" Work For Bank of Bloomfield

"People's hours" are proving to be the people's choice, according to The Bank of Bloomfield.

When the bank opened its new Brookdale headquarters at Broad and Watchung last month, it announced an unusual schedule of hours at both offices to conform to the habits of people, rather than the traditional habits of bankers. The bank's center office is at 554 Bloomfield Avenue.

So "people's hours, not bankers' hours" came to Bloomfield. The Bank of Bloomfield provides service at its drive-up windows 8 a.m. to 6 p.m. daily, Monday nights till 8:30 and Saturday 9 to 12 noon. The bank lobby and offices are open Monday 9 to 3 and 6:30 to 8:30 p.m.; Tuesday through Friday, 9 to 3 p.m.; and Saturday 9 to noon.

Why should a small bank work the most hours? The answer of Thomas J. Carlon, president, is: "Because we're the smallest bank in town."

"Bankers' hours may be okay for the big banks, the ones with plenty of customers," Carlon explains, "but with us, the shoe is on the other foot: plenty of time, not enough customers."

"So we make ourselves irresistible with people's hours. We like people and want to make banking easier for them. We need customers and want to give better service in order to attract them."
