

Will Choose Essex Jr. Miss At High School on Sunday

BELLEVILLE LASSES entered in the 1973 Essex County Junior Miss Pageant are shown here with Jaycee coordinator Roy Ingalls (center). The girls, all high school seniors are (l-r) Marilyn Mobilio of 19 Rossmore Place, Maria Ancon, of 15 Wilber Street, Elizabeth Kadinski of 275 William Street and Kathie Janiec of 368 Washington Avenue.

Four young ladies from Belleville will be among 17 finalists competing in the Essex County Junior Miss Pageant this Sunday.

The four are Maria Ancon, daughter of Mr. and Mrs. Michael Ancon of Wilber Street, Marilyn Mobilio, daughter of Mr. and Mrs. Carmen Mobilio of Rossmore Place; Kathleen Janiec, daughter of Mr. and Mrs. Joseph Janiec of Washington Avenue, and Elizabeth Kadinski, daughter of Mr. and Mrs. Mathew Kadinski of William Street.

The Pageant, which selects the county's ideal high school senior girl, will get under way at Belleville High School Auditorium at 2:30 p.m. Charles Green, radio personality with WUNR and a newscaster with the Mutual Radio Network, will be master of ceremonies.

The winner will receive a scholarship and other prizes and will represent Essex County in the state pageant in January.

"This is not a beauty contest," Roy Ingalls, pageant director, pointed out.

"Judging is on the basis of scholastic achievement, poise and appearance, talent and personality."

The judges will be six professionals in the fields of communications and the performing arts.

Their selection will be crowned by Ellen Nemessnyik of Nutley, winner of last year's Pageant who went on to become New Jersey's Junior Miss.

Maria is a senior at Belleville High School, where she is a flag twirler and a member of the art club. She was

Hire Building Supervisor

Appointment Unanimous But Everyone not Happy

The Board of Education Monday night completed the second of three steps to replace the retiring school business administrator Harold Dufford when it hired Edward Brecka as its buildings superintendent.

Brecka was hired through an unanimous resolution by the School Board but the appointment was not without controversy. While Richard Mahmorian, Matthew Pica, Mrs. Norma McCool and Lawrence Schwartz voted in favor of the appointment, Board member Caesar Romano took no part in the voting and James Risoli abstained.

Romano went on record at the meeting as taking no part in the vote. He qualified his position by saying he did not oppose Brecka as the new buildings superintendent but rather he thought the appointment should be made from within the system.

"If we continue to go out of the system with our higher ap-

pointments it will badly hurt the morale here," added Romano. "We have many men now working in the Belleville school system who could have taken the new position."

Romano also said that Brecka was more than qualified for the position but added that a policy of promoting from within the system is better.

Recently Mrs. Mary

Shader, currently secretary to the School Board, was named to fill Dufford's position. Mrs. Shader will become secretary-business administrator the first of the year, when Dufford's resignation becomes effective. The second step in filling in for Dufford was to hire a buildings supervisor in Brecka. The School Board also plans to employ an accountant to handle some of

Mrs. Shader's old duties, but applications and interviewing for that position have not yet taken place.

According to Board president Mahmorian, the hiring of the two new persons will in the long run, save the School Board money. Brecka is being hired for \$12,000 while the accountant will be in the \$10-12,000 range.

However, some residents (Continued on Page 2)

Read 2 Bills When Commission Convenes

Two ordinances, one bill

governing parking and the other measure affecting the zoning board, are scheduled for a first reading when Commissioners meet tonight.

For the first time the Commission will convene at its new 8:30 p.m. starting time.

The opening time was changed from 8 to 8:30 o'clock so Commissioners could caucus directly before their regular meetings instead of early in the morning of the same day.

According to Commissioner Michael Marotti, one of those who backed the move, the new starting time should mean better attendance by Commissioners at their pre-meeting caucus.

Commissioner Mary Scatone is sponsoring an ordinance that would require applicants for a variance by the Board of Adjustment to furnish more documentation when the appeal pertains to a use other than a one or two family home.

Commissioner Robert Laterza, director of Public Safety, is backing an ordinance asking for new "no-parking" rules in certain sections of town. According to Laterza, he is introducing the proposal to facilitate traffic in certain areas and make it easier for street cleaners to get into certain areas.

The proposal sponsored by Mrs. Scatone would require buildings of multi-family dwellings when going before the Board of Adjustment, to submit a ground level map, a description of the structure,

and utility maps.

"I'm introducing this ordinance for the welfare of the people," said Mrs. Scatone.

"I want to see builders submit detailed plans to the Town when they are seeking to construct apartments."

"I think it will make work a lot easier for those men

working in our engineering and building departments too," added the Commissioner.

The ordinance also stipulates that certification shall be made by a licensed engineer and land surveyor as to the accuracy of details of those maps submitted.

Golden Comments

By James R. Golden

Despite the Nixon landslide, overall the results of the November elections establishes that the only thing about the Democratic Party that resembles a donkey is the Party's symbol.

Both Houses of the Congress have strong Democratic majorities and in Essex, our home County, the Court House rests securely in Democratic hands, assuring many patronage plums.

Belleville, which delivered handsomely will be in line for its share and don't be surprised if it's a nice big juicy one.

The big vote given Phil Rotondo by Belleville voters which helped to put him over the top in his quest for the County Supervisor post, got a lot of its impetus from the suave pleas of Comm. Mary V. Scatone, the town Democratic Chairman, who went all out to advance his victory.

Now the unwritten rules of politics are that you must reward your friends and punish your enemies. The Democratic Party has never, since Ralph Varas's days, had a more formidable and competent town Democratic leader, unless you care to go away back when another lady was the successful Party boss, May Meade Mazza; than its present Chairman, Mrs. Scatone. Her friends are legion. She knows her way around and even political enemies respect her strong qualities of leadership which she wields with a powerful hand.

What I'm getting at, is that she has done her job well for the Party. The Party is now beholden to the local lady commissioner for services well rendered. I'll bet many tongues were wagging at the Atlantic City League of Municipalities Convention, held a couple of weeks ago, about Mary's star rising in Democratic Party circles.

There is more than talk about it, too. Elder statesmen of her Party recognize the efficacy of her potent leadership. What is she in line for?

Simple... County Freeholder, to fill the unexpired term of one year of Phil Rotondo's term, which he will relinquish when he assumes the County Supervisor post, just elected to, on Jan. 1, 1973.

With Rotonda's vacancy, the seven remaining Democratic Freeholders will outvote G.O.P. Freeholder Jerr. Del Tufo, and name our gal Mary to fill the vacancy for one year, then she can run for a full term the next year.

Fire Hazard Exists at School No. 10!

Board of Education Tells Home, School Emergency Must Wait Until January 15

School No. 10 parents Monday night turned out in force at the monthly Board of Education meeting to protest inadequate lighting and potential fire hazards at that school. The dozen or so dissenters though, left the meeting with an empty feeling after receiving only more promises of action from Board members.

The group, led by School

10 Home and School Assn. president Roy Tice, complained that their children are in danger due to an outdated, overloaded main wiring panel in the building. Tice told the Board that "at times janitors must keep a window open near the panel box to keep it cool."

School Board president Richard Mahmorian, however, said that although

the panel eventually should be replaced, there is no immediate danger. Mahmorian did promise residents that something would be done in the near future, depending on the results of a survey now being taken by an electrical consultant firm.

Tice, in return, said for over 12 years School 10 had been asking to have the panel replaced but that all previous

efforts met with many promises but no results.

"Apparently the only way to get the panel fixed is if there is a tragedy at the school. The principal at our school has been requesting lighting for 10 years now," added Tice.

Mahmorian interjected that modernizing the lighting and wiring at the school is no easy task and he pointed to several

Clubbers Fete Footballers Tomorrow at Robin Hood

The 1972 version of the Belleville High School football team will be feted at a dinner affair tomorrow evening at the Robin Hood Inn, Clifton. The banquet is being sponsored by the Varsity Club with Jim Donahue as chairman.

Principal speaker for the evening is Ron San Filippo, a 1960 graduate of Belleville High School who is currently head coach of the football team at Newark State College.

Varsity Club president Bill Ellis heads the welcoming committee and Ralph Casale is the master of ceremonies for the evening. The in-

novation will be given by the Rev. Gerald Rouns.

An outstanding offensive and defensive back for the Blue and Gold, San Filippo starred at Montclair State College for three years where he was a member of the undefeated MSC gridlers.

At the affair, trophies will be awarded to all senior lettermen by coach Rocco Cafone. He will be assisted by Jerry Bonavita, Bob Cassin, Joe Cernero, Joe Grosch, Vince Sorrentino, Ernie Steffanelli, John Shelesky and Wayne Worley.

Until January 15 Home and Schoolers Told They Must Wait

(Continued from Page 1)
Matthew Pica said he personally visited School No. 10 and saw that the panel box does need replacement. However, added Pica, he thought the problem didn't warrant im-

mediate action.
Mahmariam, at the meeting, revealed that the School Board had recently entered into a contract with the Bickford and Spaeth Co. electrical consultants. The

firm will survey all schools in the Belleville system, excluding the Senior High School and School No. 2. Reportedly, the firm will report its results on January 15 of next year and the School Board will act in accordance with those results.

"I can't promise you that School No. 10 will be acted upon first but I can say the Board will act in accordance with the survey," remarked Mahmariam.

The Board of Education hired an electrical consultant in May of this year but fired that worker after two days. The Board said the man was not doing what the Board had requested.

Tice, however, didn't seem satisfied with the Board's solution and replied that replacing the panel box at School No. 10 is an emergency situation that required immediate attention.

Vice president Pica then said the Board "couldn't act on hearsay evidence alone."

Mahmariam also said that the Board should be ready sometime early next year to hold public hearings on a total package to repair and modernize Belleville schools.

Speeches are made for two purposes—to tell the truth or to hide the truth.

observing the moves of the Board claim the hiring of the new personnel will cost more than replacing Dufford with one new man. Among the critics is Steven Rogers, a 20-year-old candidate to the Board of Education, who claims the Board will be at a net loss of \$5,100 if the new personnel were hired.

Board president Mahmariam though, refuted Rogers' claim when confronted with it Monday night. In fact, Rogers and Mahmariam got in a heated discussion at the meeting.

Bra began work here yesterday. Currently a resident of Rahway, he was self-employed in the home improvement field before being hired by the Belleville system. Before that, he was a projects engineer for a Plainfield firm for one year and worked 14 years as a manufacturing superintendent with a New York firm.

Breka's appointment and the bit of controversy surrounding it apparently prompted Mrs. McCool to ward off any enterprising local politicians when Board appointments are made in the

future. Mrs. McCool made it clear that she would "go straight to the newspapers" in the future should she receive phone calls suggesting who to

vote for.
"I'm tired of hearing Belleville being known for its political intrigues," said Mrs. McCool.

Post Office Stresses the Need To Shop and then Mail Early

Newark Postmaster Joseph J. Benucci announced that the Post Office has already started its annual "Shop and Mail Early" Christmas campaign to assure that gifts and greetings mailed now will be delivered before the Holiday.

"This year as never before the public and business firms are strongly urged to cooperate with the postal service by doing their mailing the first week in December to assure prompt delivery," he declared.

Benucci said the anticipated volume of seasonal mail this year will far exceed that of last year. Stamps purchased now will eliminate waiting in long lines at stamp windows. The use of complete names and addresses, city, state and correct zip code numbers will expedite mail delivery. In addition mail must be bundled and separated for local, state and out-of-town destinations.

"Follow these tips and help us succeed in our goal to bring Christmas to all of our customers," said the Postmaster.

Mailing labels, zip code directories and additional information can be obtained by:

Belleville hasn't had a County Freeholder since the days of Joe King and that goes away back to the early thirties. Gee, it's tough to be old! See, I remember. We don't always agree, but good luck Mary, I hope you get the post. Belleville could benefit from your representation on the Freehold Board.

A couple weeks back I received a very inspiring letter accompanied by some time weathered photos of Herbert Hoover's visit to Belleville in 1928 which I had written about in an October column. The gracious sender was none other than the son of Belleville's Mayor, at the time, Sam Kenworthy.

Mr. Kenworthy stood out in the annals of our town's past political history as the prototype of Belleville's most progressive and successful Executives in public office. He went on to become the first Secretary of the New Jersey State League of Municipalities. His talent and acumen in matters pertaining to government, especially on the local level, have been rivaled only by former Mayor William H. Williams.

Belleville, under both of these fine men, knew its greatest growth, progress and expansion. Their sterling qualities of great leadership transcended politics bringing many divergent parties together in the bonds of unified action to cope with the then vexing problems of their day.

Another photo in the group shows Mayor Kenworthy in 1928 leading a group of Belleville kids on a trip to Ruppert Stadium in Newark to see the old Newark Bears play a ball game against their rivals.

I was most impressed by the postscript of the former Mayor's scion when Bob wrote... "Those were the days when Secret Service men were not needed to protect men seeking the presidency." How true... how true.

Thanks Bob Kenworthy. I'll make available to the news department of the Belleville Times your photos. Perhaps, as you suggest, some of us old guys may look over the prints and see ourselves as scrawny kids back in 1928 when Herbert Hoover came to Belleville with your dad, Mayor Sam Kenworthy as his official host.

While in an elevator at the Court House during my stay as a juror, a prominent Belleville commented, "That's some column you got in the paper," to which I diffidently responded, "It's not that good." To which he sourly responded, "I didn't say that." Well, I guess you can't please them all. So I meekly replied, "Yea, it's some column." It is some column, isn't it?

So the Lemon Ice King is now sporting a falsely painted mustache to make himself look younger than his advancing years. Why don't you give up, Jackie. You look like a dashing Dago.

December, 1972

Hail To December! say they all.
It Gave To Earth Our Christ, the Lord!

December, the last month of 1972 comes with happy anticipations of Christmas, homecomings and the wonders of winter and celebration. The children's wondrous world of Santa Claus, and — more important than anything else — observance of the anniversary of the birth of Jesus arrive in December.

There is December 7th, the anniversary of the Japanese attack on Pearl Harbor in 1941; Martin Van Buren, 8th President, was born at Kinderhook, New York, on the 5th in 1782. Delaware Day falls on the 7th, as does Labor Day in West Virginia. Wyoming Day is on the 10th and Indiana Day on the 11th.

Washington died on the 14th in 1799. On the 15th in 1791 the Bill of Rights

became a part of the United States Constitution. The Boston Tea Party was staged on the 16th in 1773. On the 17th in 1903, man made his first flight in an airplane at Kitty Hawk, North Carolina. On the 19th, in 1777, Washington encamped his 11,000-man army at Valley Forge, Pennsylvania, after the British had occupied the capital, Philadelphia.

The nation acquired the Louisiana Purchase on the 20th in 1803. Washington won the Battle of Trenton, N.J., on the 26th in 1776, the turning point of the Revolution, and Woodrow Wilson, 28th President and one of the great Presidents in the minds of many, was born at Staunton, Virginia, on the 28th in 1856. Andrew Johnson, 17th President, was born at Raleigh, North Carolina, on the 29th in 1808.

Mark Twain

One of the great figures in American literature was Samuel Longelsh Clemens, known to most Americans as Mark Twain. His father was descended from Virginia ancestors and his mother from a well known English family. He was born in Florida, Missouri, November 30th, 1835. His family moved to Hannibal, Missouri, on the Mississippi in 1839 and there his father died while he was only twelve; his education was terminated and he went to work to help his mother. He learned the printing trade and traveled the country as a journeyman printer — to St. Louis, New York, Philadelphia, Keokuk, Iowa, etc.

Turning to ships, he became an apprentice river pilot in 1857 and after two years became a fully licensed pilot on the Mississippi. When the Civil War broke out he at first wished to participate. He joined a group of volunteers, undecided on which side to fight. But then he thought better of it and went to Nevada and prospected for gold, unsuccessfully. Then he became a newspaper reporter, signing his first articles, "Mark Twain" — derived from the

term used on the Mississippi to denote a depth of two fathoms.

He then moved to California and wrote "The Jumping Frog," which brought him national attention. From this point on his career was in the ascendancy and he lectured, traveled the world and wrote. It was not until 1876 that he wrote the classic, "The Adventures of Tom Sawyer" and not until 1884, when almost fifty, "The Adventures of Huckleberry Finn." At seventy, Harper & Brothers, his publisher, gave him a grand anniversary party attended by many of the country's leading figures.

Another observance, climaxed November 30th, was held in 1935. President Franklin Roosevelt taking part. A museum was opened in Hannibal as part of the memorial.

Only in later years have Mark Twain's religious beliefs been published. They were suppressed for many decades as too shocking to the people and clergy. He belittled many pet Biblical stories, beliefs and miracles with sly humor and as a religious realist, proved far-ahead of his time.

FCC Abdcates

At the rate of backward movement the Federal Communications Commission is exhibiting, it might as well become a subsidiary of the giant television networks. Of all agencies supposedly guarding the public interest, the FCC record is uniquely disappointing, if only because there had been high hopes its chairman, Dean Burch, would become a forceful advocate in behalf of the public interest.

The latest abdication to the big networks is a newly-announced program of vacating much of the FCC monitoring responsibility. This is being accomplished

under the high-sounding phraseology of reducing the government's role in broadcasting — as if the government had really moved in and cleaned up broadcasting and telecasting.

(The FCC also recently refused to act when asked by California Governor Ronald Reagan to bar television election projections from eastern states on election day (where voting has ended) into west coast states, where polls were still open. The FCC reply was that it lacked the authority to act.)

Commission Approves Bill To Renovate Town Hall

By Elaine Auerbach

Five Years Ago

Two police officers were sworn into the Belleville Police Force. The new men were James A. Pindar, 40, Franklin Avenue and Fred M. Puleo of Fairway Avenue. Starting in January, the men were to attend a school run by the Essex County Chiefs of Police Association in cooperation with the FBI and supervised by the New Jersey State Training Commission.

The Town Commission approved both a \$3000 appropriation bill and an extra \$15,000 in funds to pay for the needed materials to complete the renovation of Town Hall. The emergency appropriations resolution was passed in order to pay for a reassessment program initiated by the county tax boards and the state courts.

Ten Years Ago

William A. Sommers, Belleville's 35-year-old Town Manager, was suspended from his \$15,000 per year job during a jam-packed special meeting of the Town Council at City Hall amid charges and counter charges of bossism. The resolution for suspension was introduced by Mayor Robert Laterza, and contained four charges asking Sommers' dismissal for failure to observe the municipal code, failure to comply with the council's orders, insubordination, and conduct unbecoming a public official.

The Board of Zoning Adjustment granted a variance to McAllister and Keelen Associates of Nutley for the construction of a proposed 28-family apartment building at 184 Mill Street. The 4-1 decision had been twice reviewed before the Board. The Board reserved decision on a second apartment project to be built at a 6000 Joralemon Street in a "Residential A Zone."

Mrs. Richard Shafter was elected president of the Board of Trustees of the Belleville Public Library at the library's annual meeting. Also elected to the board were John J. Hannon and Kenneth Broo.

Fifteen Years Ago

The principals of all public schools in Belleville, Assistant Superintendent of Schools Harold Dufford, Dr. Samuel Peck, Director of Music, and P. Webster Diehl, Director of Art, were granted pay increases by the Board of Education all by split votes. The principals were given across the board raises of \$400 each by the close vote of 4-3.

Mayor Isadore Padula told a large gathering of Washington Avenue property owners and merchants that before the end of December he would submit to the Board of Commissioners a recommendation that the

town engage an engineering firm to make a survey of the parking needs in the business section of the community with the view of determining if a Parking Authority should be set up to provide parking facilities in the Washington Avenue area.

Twenty-Five Years Ago

Belleville High School students forwarded a petition to the Board of Education urging the Board to renew the contract of high school musical director Samuel Peck. Public opinion had been aroused when it was rumored that Peck was to be ousted from his position. Peck was to come up for tenure review and a delay in passing a request for music supplies had started to suggest that he would not be rehired for the post.

Peter Calabrese, four year veteran of the Army Air Corps, was installed as Commander of the Tri-City Post No. 299 of the American Legion. The Post, which embraced members living in Belleville, Newark, and Bloomfield had their headquarters in Belleville. Installation ceremonies were conducted by County Commander Robert W. Smith.

Finance Director Williams urged the Governor and State Legislature to provide additional school aid in the amount of \$13,000,000 for relief of tax burdened towns. The request was submitted in a resolution offered by the finance director and it passed unanimously.

Forty Years Ago

Janet Jameson, Jack Paris, Baby Christina, Dorothy Ljva, Frances Avery and Bobby Crlari appeared at the Capital Theatre in a twenty minute, fast stepping revue by the pupils of the Cole Dancing School.

Mayor Samuel S. Kentworthy was named executive secretary of the New Jersey State League of Municipalities at a salary of \$6,500 a year following the ouster of Edward Crandall of Trenton because of illegal political activities.

Fifty Years Ago

The Mamoku Camp Fire Girls of Silver Lake Welfare Association cooked up a stew that made tongues wiggle with delight. The only distasteful course consisted of the substitution of pure arsenic for garlic salt, which did not lend any life to a discussion of epicurean treasures. Henry Leifurhands emphasized that even though the girls were usually very capable cooks, a little dash of the holiday spirit was always liable to rattle their reason a bit.

Speak Up!

He's Still Anti-Golden Comments

To the Editor:

The bus-jockey who masquerades as a columnist for your newspaper is still spouting mistruths and still labors under the misapprehension that his position grants him immunity from criticism: His latest prevarication is that in the past the Pathmark shouldered "Almost half" the cost of Christmas lighting and electricity on Washington Avenue whereas the actual figure is not even remotely close to Golden's typically vague insinuation.

Responsibility is intrinsic to journalism; responsibility demands accountability. Golden seems to think that criticism is a one-way street. All too long he has smugly-shamed abuse upon people — with arrogant impunity.

Since I dared to take issue with his allegations, Golden found that he was not comfortable in his heretofore journalistic position; of lying in the gutter; he chose to further degrade himself by slithering into the sewer, wherefrom his recent effluvia emanates: Golden resorted to vituperative name-calling in a shoddy attempt to humiliate my and my family's profession.

Golden's rank amateurism pervades his haup' y style of writing; using camouflaged obscenities, overreacting to criticism, resorting to name-calling, and writing definitive statements without having facts. This man has made a mockery of journalistic license.

Despite all of his claptrap about having the better interest of the town at heart, it is blatant in his constant anti-Belleville sentiments that Golden is a bitter man and has an ax to grind with the town.

A newspaper columnist is not a vehicle for a columnist's personal vendetta. Golden would have the townspeople believe that he is a knight in shining armor astride a white stallion, whereas his alter ego of a knave cloaked in drab bus-driver green perched at the wheel of a forty-seater coach pervades his facade.

The hazards of pushing a bus day-in and day-out are manifold: The cacophony of blaring horns, blustering buzzers, and droning exchange boxes could fray the busman's nerves. It is obvious from his writings that the hark-jerky movement of stop-and-go traffic and years of over-exposure to carbon monoxide fumes have taken their toll... In the better interest of the Town of Belleville and the Belleville Times, it would be most noble for James Golden to face reality and get off at the next stop.

Board Should Rally 'Round Home Rule

To the Editor:

Belleville's Board of Commissioners under the leadership of its able Mayor Joseph McGreevey, should move at once to be the innovator of an Essex County Group of Financial Officials to study the city of Newark's financial condition. "Don't be a follower. Move now!"

With conditions as they are in Newark, their own city officials are making statements that Newark is heading for bankruptcy and the county government is making a move to protect its interest. It is imperative that you move at once to protect local government. It is the local taxpayers of Essex County that carry the entire load.

With Belleville about to receive \$350,000.00 from the Federal Government under the Fox Sharing Grant, Belleville's tax rate can remain stable in spite of any raises that must be given to the employees of the school and town.

Most of the people in Belleville are without the knowledge that we are presently carrying a great deal of Newark's share of the load. Seventy (70%) percent of the relief of the county comes from the city of Newark and their monies regardless of where it comes from is Essex County taxpayers' money. These are the people you, the Board of Commissioners, represent, and you, "Joe", as its Mayor and Finance Director, must be prepared to protect if the city of Newark goes under.

One of the facets of the city government that should be looked into is its personnel files. Newark may be carrying a great many relatives and friends of city officials at very high salaries.

You may also look into the suggestion of appointing a committee of Newark's businessmen and give them the authority to study economy in Newark. This may need an act of the Legislature, and I am sure if approached you will receive their cooperation.

Let's act now before it is too late!

Moon News

The last Apollo series trip to the moon will come next month, and the nation is being prepared for the spectacular with press releases about the rocks to be found, the areas to be explored, etc. It will surely be good (and expensive) entertainment, as all moon trips have been.

Of more significance, however, is the recent announcement that U.S. and Russian spacemen will begin training next summer for a cooperative space flight two years later. That program has progressed to the point where crews are to be named for the first joint space venture in a matter of months.

The people of the world hope U.S.-Russian cooperation in the exploration of outer space will set the tone of this earth's explorations of other planets and outer space.

THE STATE WE'RE IN

You Can Be Against Something, Yet At The Same Time, For It

By David Moore

As an environmentalist, sometimes I'm confronted with the problem of being for something and against it at the same time. For example, I can be against the construction of a sewer line which ruins a stream bank, but simultaneously be in favor of the sewer line itself because it will help solve the pollution problem in the stream.

At last I can come down off the horns of that dilemma, thanks to a new regulation just decreed by the New Jersey Department of Environmental Protection. It's the best set of guidelines I've seen, regarding the environmentally harmless installation of sewer lines.

The guidelines call for some strict construction procedures to minimize environmental impact. One section calls for the preparation of environmental plans and specifications by anybody who is planning to build a sewer line. Such a plan is supposed to protect streams, wetlands, soil conditions, trees and other vegetation.

The plans should also explain where excavated is going, and respect aesthetic natural features. A sewer right-of-way must be selected on the basis of strict

guidelines which enumerate the same things as I've mentioned here, plus others. Furthermore, the guidelines spell out where sewers should not go, with streams and wetlands first on that list.

Such places are designated "critical impact areas" and also include slopes of more than 15 per cent, estuaries, natural or man-made subsurface drainage features, areas of high water tables, soils which are highly acidic or erodible, or which have adverse mineral conditions, and mature stands of native vegetation.

Those critical impact areas are to be avoided, but in the event that a sewer can't be built without crossing such an area, there is a list of requirements for bringing the area back to its natural condition once construction is complete.

One example of unavoidable entry into a stream and its corridor comes when the sewer line must cross the stream. In such a case the contractor must sod or sandbag the slopes and

must replant the work area with vegetation which should grow there. Where there is a high water table relatively impermeable soils should be used in backfilling trenches in order to inhibit seepage.

The guidelines list many actions which should never be used in construction of sewer lines. If you're planning any kind of construction on your own land, you'd do well to heed them also. They are:

Don't deposit excavated dirt on floodplains or wetlands, or in streams. Don't allow equipment to cross or work in streams. Don't pump or drain silt-laden water into streams. Don't damage vegetation outside the actual construction area. Don't dispose of brush or trees in streams or wetlands. Don't alter the banks or channel of any stream. And don't burn debris.

The Department of Environmental Protection has teeth in its new guidelines. One requirement is that the contractor provide a performance bond in the amount of his total bid, which would guarantee that he perform the

work in accordance with, not only the general provisions, but with the environmental considerations approved by the department. Another bond, for at least 5 per cent of the contract amount, will make it necessary that any failure to adhere to environmental guidelines will be rectified within a year after the job is done.

Such guidelines are to be approved by the department when job plans are submitted to it, and must be met if federal or state aid money controlled by the department is to be received.

Commissioner of Environmental Protection Richard J. Sullivan said recently about the guidelines, "We have, for the first time in the nation, provided the means for linking environmental objectives to a public utility's construction processes."

And like I said, the same rules should apply to work you do on your own property, if you want to live in harmony with the environment. You can get a copy of the guidelines by writing to the Department of Environmental Protection, Box 1390, Trenton, N. J. 08625.

Business Spotlight

Modern Auto Parts Offers Spark Plugs To Motors

It was a silver anniversary event on two counts: the 25th wedding date for Bob and Ida Pascall coincided, almost to the day, their 25 years' as owners of Modern Auto Parts at 82 Rutgers Street.

Bob received his Bachelor's Degree at Syracuse University and, after a tour of duty as an army Captain in North Africa, returned to take his Master's degree in education at Rutgers. His plans, at that time, were to be a teacher.

However, after helping a friend in the auto business with some bookwork, he decided to open his own business, supplying auto parts for American and foreign made cars.

The firm started in one room on Washington Avenue until, in 1955, the larger quarters on Rutgers Street were purchased. Ida, a sparkling, effervescent blonde, smilingly recalls the "early days" when she would

have one of her children in the rear of the one-room store, happily amused in a playpen. The couple has always worked as a team, and now their youngsters have been lending their talents to the firm.

Son, Bob, graduated last June from BHS and studies

business at Bloomfield college; daughter Madeline helps Ida with the bookwork and attends Montclair State where she is a music and education major. The youngest son, Richard, 11, has visions of stock car races running through his head and is a big help on the weekends at the store.

Modern Auto Parts is open Monday-Friday, 8-6, Saturday 8-5 and Sunday 10-1. The busy schedule still does not preclude Bob being active in civic endeavors such as The Kiwanis Club of Belleville and Masonic Newark Lodge #7.

"Everything is available

from one sparkplug to a complete rebuilt motor", quips Ida. The business is geared to the car owner who is a little more fussy than average and wants to work on his own car. Of course, as the advertisement in this paper reads, Modern Auto Parts will also "do it" for you. A few years back Ida and Bob entered the

high performance field. This particularly appeals to young men who are interested in racing, not on the streets, but on a racetrack.

Employees include Tony Ventola, Al Dockery, Norman Izz, Patricia Covello, Gregory Izz and, of course, members of the Pascall family - Ida, Bob, Madeline,

young Bob and Richard. Perhaps the reason for the success of Modern Auto Parts is the motto of the firm: "the customer is always right!" "and," Ida smiled, "if you treat people right, they will always come back." They have, for twenty-five years, so Modern Auto Parts must be doing something right.

NEW BROWNIES—Brownies from Troop #486, Greylock School, include (first row) Marie Russo, Cathy Nasello, Nancy Demgard, Jeanne Rilli, JoAnn Iannuzzi, Jean Casale, Angela Lamola and Jane Weisbrod; second row: Nancy Coffey, Jeanne Tramontana, Lori Stanko, Dawn Zulla, Lori Ann Racopoli, Suzanne Stetz, Judith Apostolico, Gina Guiliano, Lena Corbo, Mary Callahan, Denise Tunis, Patricia Gibbons and Jessica Valente.

New Brownie Scouts Invested Into Troop

Twelve new Brownie Scouts were invested into Greylock School's Troop #486 in ceremonies October 16 led by troop leader Mrs. Jill Casale. The girls who were made Brownies are Judith Apostolico, Allison Burden, Jean Casale, Patricia Gibbons, Angela Lamola, Cathy Nasello, Jeanne Rilli, Marie Russo, Jeanne Tramontana, Jessica Valente, Jane Weisbrod and Dawn Zulla.

These new Brownies joined second year Brownies: Gloria Broski, Mary Callahan, Nancy Coffey, Lena Corbo, Nancy Demgard, Jacqueline Dowling, Gina Guiliano, JoAnn Iannuzzi, Lori Ann Racopoli, Karen Scheder, Lori Stanko, Suzanne Stetz and Denise Tunis.

Mrs. Casale is assisted in troop activities by the following mothers: Mrs. Alice Callahan, Mrs. Josephine Broski, Mrs. Cathy Coffey, Mrs. Jovanna Corbo and Mrs.

Barbara Tramontana.

The troop so far this year has engaged in several Brownie activities including the sale of Girl Scout calendars as a fund raising venture and the making of favors for the Essex County Geriatric Center as their service project.

The girls marched in the Belleville Veterans Day Parade October 23rd.

On November 18th 12 of the girls from Troop 486 joined other Girl Scouts and Brownies in Belleville in a roller skating outing at the Twin City Rink in Elizabeth. The rest of the troop attended a puppet show at Belleville High School.

On November 21 and 28 the whole troop went to the Wise Owl Nursery and were instructed in the making of ceramics by Nancy Spatola so they will be able to make a gift for their mothers for Christmas.

St. Peter's Holds Annual Open House

Sunday, November 12, 1972, was a red-letter day for the parents, teachers and, most especially, the students of Saint Peter School, Belleville. It marked the annual Open House held at the school for parents to come and meet with the faculty and review the work of the students.

But of prime importance this year was the general meeting held first at the foundations were laid for a home-school association. It will be the main objective of this organization to be ever alert to changing tides in education and to implement those innovations that will benefit the students.

Most Smokers Never Quit

A recent study of smokers revealed that 80% of all smokers will resolve again, this New Year's Eve, to quit smoking.

The study, conducted by the Center for Study of Smoking Behavior, indicates that the majority of smokers have an earnest desire to quit smoking, but cannot seem to sustain their resolution beyond the first week of the new year. 73% of those who "took the oath" last year could not abstain for more than 6 days. Most confessed they abandoned their pledge quickly and with a feeling of "What the Hell, it's the only thing I do that's unwholesome!"

A small percentage maintained abstinence for more than a month (6%) but returned to smoking with a general feeling of "Now I proved I could do it, I'll smoke until I'm ready to quit." Union questioning, most admitted this to be an annual ritual for at least the past five years.

The balance (21%) effectively controlled their desire to smoke.

The results of the study, released this week, will be published together with a group of seven other similar studies.

The results of the study, together with the results of six other studies on Attitude Toward Smoking, will be published by the Center for Study of Smoking Behavior, a National smoking cessation organization based in Phillipsburg, New Jersey, as a means of more fully understanding the smokers' "mystique."

SmokEnders, which has been gaining recognition for its effectiveness in Pennsylvania and New Jersey during the past 4 years, will be introducing their seminars in Connecticut and New York this fall.

Information on meeting dates and locations may be obtained by calling in New Jersey 201/454-HELP.

NIFTY INTERCEPTION is made here by the Bellboys' Bob DeLorenzo, playing the defensive halfback position. DeLorenzo cut in front of Bear's Joe Sparta for theft.

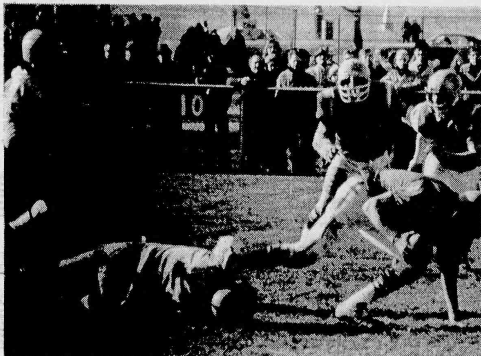

READY TO BLOCK after hearing signal count and the snap of the ball is the Belleville offensive line, seen in this rare photo. Bellboy linemen did a more than adequate job and majority of players will be back for another season.

OPEN FIELD RUN seen above was made by halfback Joe Troise, who also doubled this season as team's PAT man and kicker.

Bellboys take 'Thanks' in Lyndhurst's Giving'

NABBING THIS GOLDEN BEAR, quarterback Frank Vuono, at the last moment is Bellboy lineman George Mango, who will be back with the Blue

and Gold next season. Mango held on long enough to get help from a team mate.

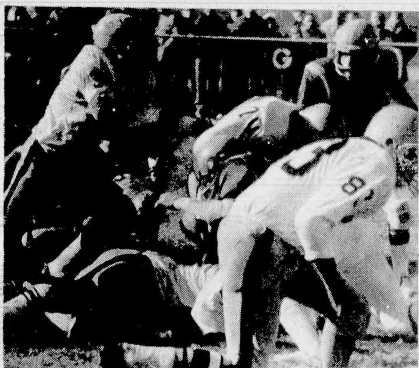

HAULING DOWN Lyndhurst's highly touted runner Robert Wallace is Bellboys' Mike Cutruzzola (64), Wallace was shut down most of the day.

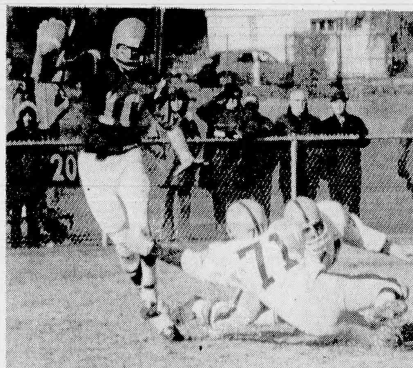

DESPERATION LUNGE for the ball is about all this Lyndhurst receiver can do as he is handled well by unidentified

halfback from the Bellboy secondary. Belleville handled Lyndhurst's passing game exceptionally well '22

HITTING THE HOLE on this quick opener is Belleville fullback Phil Cuzzi, who had a personal high of over 100 yards in running on Saturday. It was a career high for senior Cuzzi.

HARASSING quarterback Frank Vuono (10) all day Saturday; were the defensive linemen of Belleville, seen here rushing the signal caller into running for cover.

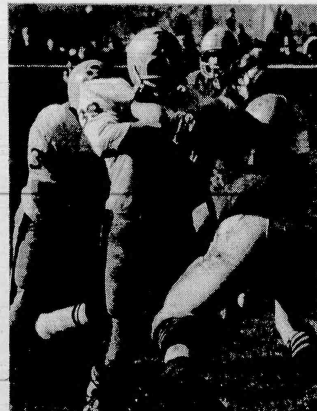

EXTRA POINT ATTEMPT by Joe Troise (18) is successful, as holder Joe Cancelliere (28) watches ball sail by. Troise added a second quarter field goal to his scoring totals Saturday.

QUARTERBACK KEEPER is attempted by Bellboy signal caller Bill Telesco (11) as Joe Napolitano (33) runs

interference. Both backfield aces will be back for another year with the Blue and Gold.

BLOCKING on this play for ballcarrier Phil Cuzzi (30) is halfback Joe Napolitano (33) who is usually running the ball. Cuzzi, who usually blocks, saw himself in running role Saturday.

LEG INJURY was sustained Saturday by (70) standout junior lineman Frank Papisidero. Host of Bellboy team mates, including coach Nick Grande, helped Papisidero off the field. Injury was not considered serious.

Beck's Column

The 4 channel sound system is hardly off the ground and here the old rivals RCA and CBS are fighting it out already. Each of the 2 companies has come out with their own phonograph record system. The worst thing is that one can not be used on the other's equipment.

This is the second time in recent history where these 2 large manufacturers of records, gummed up the works for the public. We refer to the 33 1/3 long playing record of CBS and the small 45 revolution record by RCA. At least these could be played with the same record player, by the use of an adapter and a switch to change the speed. Unquestionably CBS got the better of this deal, the RCA 45 revolution disk never became too popular.

As we pointed out repeatedly in this column, people certainly are not breaking down doors to buy this new type of equipment. Many customers probably will never buy it, because it requires 4 speakers, preferably one in each corner of a room. It is the writer's opinion that this new technique is going to appeal to a rather limited type of customer. Nevertheless, one should have expected that both companies, RCA and CBS, in the interest of the buying public would have displayed enough sense to cooperate and come out with one system only. Obviously this is expecting too much.

We service what we sell. Beck's Radio TV Hi Fi Nutley 667-4225

Nutley but don't pack those blankets away yet; the pigskin will be flying one last time this Sunday when a couple of touch league champion teams get together for fun and a little bit more. Sunday, The

Hair Company, Lyndhurst Flag Football League Champs, and Orechio Association who last week swept the Belleville Touch League title will play to raise funds for the benefit of Alex

D'Antonio, Nutley High football player who lost his leg following an injury suffered in the sophomore game against Columbia.

Proceeds from the game, set for 10:30 a.m. at DeMuro

Park, will be part of a fund soon to be started in Nutley to help defray medical expenses for the young man. Members from both squads have spent the week spreading the word around Nutley and Belleville:

During halftime the players will circulate through hopefully large crowds to collect donations. There will be no admission, but already signs indicate that the benefit will be a success.

For instance, Hair Company owner and team sponsor Gail Montesano told The Sun Monday she would contribute half of her hair-styling shop's proceeds from Saturday, December 9, to the fund. Miss Montesano also commented that she hoped this "might help others to do the same, both in town businesses and at the game."

And in addition to the primary reason for the game, Sunday's contest will provide local grid fans with the opportunity to see a couple teams packed with "old-timers" from past Maroon Raider and Bellboy squads. They'll

get together for the fun of it, for the nostalgic enjoyment of those not yet ready for the basketball season. And if further persuasion be necessary, consider the following. Taking the field for Orechio will be the likes of Don Sellari, Rich Luzzi, Frank Lilore, Lenny Luongo (all of whom were named to an all-state team in their not

so distant high school days), Tony Pietoso, Rocco Della Luna and Carmen Lore. This team finished out an 11-0 season by beating 1971 champ Alphonzo's 14-13 with a last minute drive that spanned 90-yards and ended in a fourth down Jim Corino to seal the Belleville League title.

Held at the Pistol Range

Dozens Take Home the Bird In Recreation Turkey-Shoot

Last Sunday the shooters came from far and wide to view for Thanksgiving Turkeys at the Annual Recreation Department Turkey Shoot which was held at the Pistol Range on Joramelon Street. There were shooters lined up at the very start of the event at 1 p.m. and they kept pouring in throughout the event. Two Hundred and Eighty-Two Shooters won forty-seven turkeys. Midway

through the shoot the weather, which had been pretty nice at the start, degenerated into a cold drizzle mixed with sleet. However, this did not daunt the men, women and children who came to shoot.

Commissioner Michael V. Marotti was on hand from start to finish as a working member of the committee. Matthew Callahan again served as Range Officer and

he was ably assisted by Jim (no relative) Callahan. Also serving on the Committee were Bim Serritella, Joe Restivo, Jim Catalano, Pete Iacullo, Sal Passafiumo, Don Conforti and Tony Caruso. All at work were Warren Ceres and Bob Cook.

Following are the lucky Pilgrims who provided their tables with the traditional fowl: F. Petite, Paul Dioguardi,

Greg Petite, Richard Sabonjoh, Caliste Troia, Fred Parrillo, Richard Tyapak, Steve Kozlowski, Anthony DeFresco, Jim Callahan, Joseph Dimick, Frank Carlucci, Francis Rempusheski, Jerry Sorce, R. McDonald, Wm. Riggensbach, Susan Schmitt, Deborah Ann Oliverie, Guy Filippone, Dennis Nadzan, Sam Kowitz, Michael Licameli, Jr., Rosario Adamo, Bill Albright, Daniel Valsee, Ray Swedeski, John Dean, Ralph Cerrato, Bim Serritella, Gene DeMish, Richard Haug, Sal Pass, Joe Guard, Carolyn Restivo, Gus Sougelas, Ralph Calabretta, Frank Atwood, Nick Conforti, John Farese, Brian Berrigan.

Kiwanis, Varsity Club Share Feather Crown

Kiwanis and Varsity ended their seasons with identical 5-1 records to become co-champions of the lightweight division in Recreation football.

Co-Champions isn't a unique situation but is almost becoming the rule, with the age/weight coefficient that the Belleville Recreation Department puts in use. Rounding out the lightweight division tie are the Elks and Lions tie at 1-5.

American Legion lost their first game of the season to Biancardi 8-0. The first-half was a knock down-drag out defensive battle. The only score came about when Biancardi recovered a fumble for a safety. Ken Nicossia turned

in one of the outstanding runs of the season when he turned his own right end, and dragged a Legion player the final ten yards for the score.

Jolly had reason to be happy when they registered their first win of the season, at the expense of Devons. These same two teams meet in the final game of the season and Devons will be trying to climb into the win column.

The middle division really had the race tighten up when Vee Bee and the Landolfs posted wins. Vee Bee handed the hard luck Fountain team their fifth consecutive loss. If there is such a thing as looking good in defeat it has to be the Fountain team. Landolfi's broke out of their

somber spell to hand Auxiliary Police their second defeat of the season 6-0.

DeWitt Lions Lose Opener

The DeWitt Lions neighborhood football team sponsored by DeWitt Savings & Loan Association of Belleville lost their first game of the season to another neighborhood team, the Valley Vultures, by a score of 21 to 0.

The Vultures scored early in the game by recovering a fumble and blocking a punt, which both led to touchdowns. However, the Lions show good promise for future games against this much bigger team.

Tim O'Brien and Richy Boxer were the starting running backs and showed that they can run the ball. Mike Fortino completed a long pass to Walt Cole which was the longest gain for the Lions. It covered 35 yards.

The Vultures' other score, which did not come as a result of a break, was on a long pass from Lenny Romano to Greg Otalgano to make the final score 21 to 0.

The Lions would like to thank Robert M. Williams, president of DeWitt Savings, for purchasing shirts for them.

DIALING DIRECT ALWAYS SAVES YOU MONEY.

HOW MUCH, DEPENDS ON WHEN YOU CALL.

SAMPLE 3-MINUTE RATES					
STATION-TO-STATION			PERSON-TO-PERSON		
Daytime	Evenings and Weekends		Any Day	Any Time	
Mon.-Fri. 8 a.m. till 5 p.m.	Sun.-Fri. 5 p.m.-11 p.m.	Dialing Direct	Any Day	Any Time	
With Operator	Dialing Direct				
MIAMI	\$1.55 \$1.15	\$1.20 \$0.70 \$0.65	\$2.65		
CHICAGO	1.45 1.05	1.10 .65 .50	2.40		
LOS ANGELES	1.85 1.35	1.40 .85 .70	3.55		

Save by dialing!

Save more by dialing during bargain hours!

Save most by not calling person-to-person!

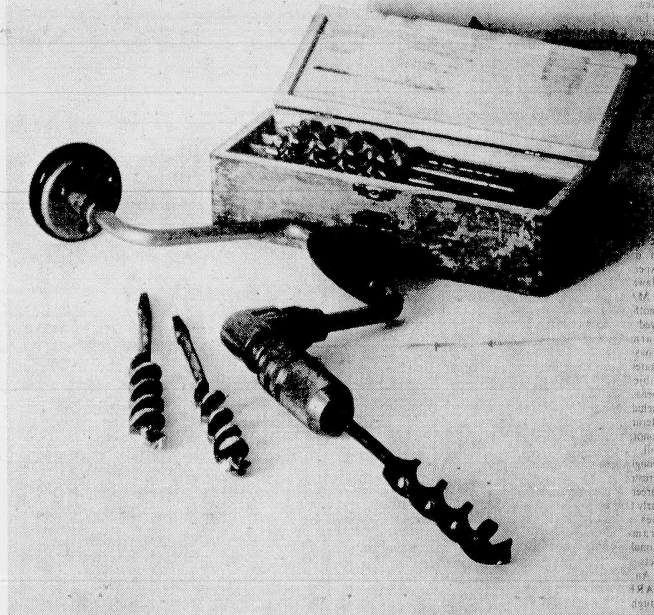

You always save on calls when you dial direct, without the services of an operator. But you save even more by dialing out-of-state calls in the evening or on weekends when rates are lower still. There's also a low 1-minute rate on direct-dial calls after 11 p.m. every night.

While we've only shown sample rates to other states, there are savings on direct-dialed calls within New Jersey, too. And additional savings during bargain calling times on New Jersey calls over 25 miles.

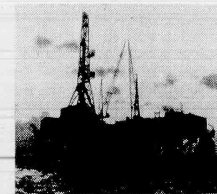

With dialing direct so easy and convenient, it makes sense to dial all calls yourself. Because the rates are always lower than for calls requiring the services of an operator, such as credit card, collect, third number billed, person-to-person, and coin-phone calls to other states.

*Direct dialing rates also apply to all calls made from areas where direct dialing facilities are not available.

We're drilling to help overcome the gas shortage.

PSE&G is drilling to help find new sources of natural gas in the United States. Normally, utilities don't drill for their own supplies of natural gas. They contract in advance from pipeline supply companies to buy the amounts of gas we think our customers will need in the future.

But now there's a serious national shortage of natural gas and New Jersey is being deeply affected by it. So, in order to help obtain additional domestic gas for our own customers, PSE&G created a new company, Energy Development Corporation, and we've gone drilling. We've already located substantial fields of new gas in the Gulf of Mexico and Louisiana and

we're hopeful of finding more to bolster our supply to you in 1973 and 1974. This is just one major project to help overcome the nationwide shortage of natural gas. We've also made plans to import liquefied natural gas from overseas and are building plants to produce synthetic natural gas.

Is the Country Running Out of Gas?

No, at least not in the very near future. However, since 1967, our domestic consumption of natural gas has exceeded the quantities of newly discovered supplies, resulting in a continuous decline of proved gas reserves. And drilling in search of new gas reserves has declined sharply. For example, in 1960, a monthly average of more than 1,700 drilling rigs were searching for gas and oil in the United States. A decade later, fewer than 900 rigs were at work, primarily because of governmental policies such as those relating to the price of gas in the field, reduction of tax incentives, and land leasing procedures.

Will PSE&G Have Enough Gas to Meet the Demand in the Foreseeable Future?

Yes, ... if, and this is a big IF, our planned supplies become available on

schedule. The realization of each of the major methods for supplementing our gas supply depends on numerous approvals at the federal, state and local levels. The time required to secure the necessary approvals is great. Any delay in obtaining the necessary approvals could force PSE&G to impose even more stringent sales restrictions.

We urge our customers to support our programs to help overcome this very real energy crisis. Sufficient supplies of gas energy will assure that no unemployment will result in New Jersey's industry as a result of the gas shortage. And they will help assure that your homes will continue to receive the uninterrupted convenience of gas all year 'round.

For a free detailed booklet, "The Gas Energy Crisis in New Jersey," write to PSE&G, Room 2152-A, 70 Park Place, Newark, N.J. 07101.

Total Of 17 To Compete At BHS

Highlight Jr. Miss Contestants From Town

By Pat Diana
The Nutley Jaycees will sponsor the 11th annual Miss Essex County Jr. Miss Pageant this Sunday, 2:30 p.m. at Belleville High School. Seventeen young ladies, four of them from town and one from Nutley, will be viewed by judges from business and the art world on talent, poise, and character.

MARIA ANCMON, daughter of Michael and Mary, 15 Wilber Street, is a 5'2", blue-eyed blond. She attends BHS where her favorite subject is Art. A part-time secretary at the Belleville Travel Agency Maria's extra-curricular activities include Belleville's Homecoming Queen, 1972; nominated "best looking" in the senior poll, flag twirler, art club and a summer time job as a gas station attendant. She also picked the lottery number for New Jersey. For her career, she has chosen to be an airline stewardess, but "anything pertaining to art" has high call on her list.

KATHLEEN JANIEC, 5'4", brown-eyed blonde, is the daughter of Joseph and Stacia, 368 Washington Avenue. Kathleen attends East Orange Catholic High where her favorite subject is humanities. Her activities include National Honor Society, Biology Club, Performing Arts, Club lead in the Senior Class Play, Glee Club, contributions to the literary magazine and working in McGovern headquarters this past campaign. She plans to attend Douglas or Paterson State College, and major in Special Education. Hobbies include outdoor sports, swimming, skiing, horse-back riding, and surfing.

ELIZABETH KADINSKI has brown hair and brown eyes. The 5'5" gal is the daughter of Matthew and Theresa, 275 William Street, and attends Our Lady of Good Counsel School, Newark. Her favorite subject is English and she plans to attend NYU. Elizabeth's activities include business manager of the 1973 yearbook, Senior class president, National Honor Society, co-chairman of the Junior Prom. She has also danced for Deborah Heart Fund at charity dinners. As a career, Elizabeth chose the dance profession. Hobbies include cooking, crocheting and sewing, ceramics, collecting poetry and listening to music. The talent she will most likely be representing is in the field of dance where she has experience in tap, ballet, jazz, Hawaiian and Tahitian.

MARILYN MOBILIO, another brown-haired, brown-eyed gal is the daughter of Carmen and Louise, 19 Rossmore Place. United States History is the favorite subject of Marilyn, who measures in at 5'3". Activities include booster club, ski club, literary staff of yearbook, honor roll and high honor roll. She plans to attend Douglass College and is interested in criminal law as a career. Music of the 50's and early 60's are among her hobbies and her talents are dramatic reading or a monologue on favorite subjects.

An entry from Nutley is BARBARA PIGNATORE, daughter of Mrs. Lucille Pignatore, 14 Paisano Avenue. Barbara attends Nutley High, is 5'1", has black hair and brown eyes. Her favorite subject is history, and her activities include president of modern dance club, ski club, business leaders club, girls' athletic association, honor roll, volleyball intramurals, year book committee and national honor society. Barbara plans to attend Virginia Intermont to prepare for her career in working with physically handicapped children. In addition to dance lessons, she enjoys reading, knitting and theatre groups. She is a choreographer for St. Mary's Teenage Guild and a graduate member of Dance Educators of America.

College, Union in January to compete in the selection of Miss N.J. Junior Miss. The national contest is held in March, in Mobile, Alabama.

Roy Ingalls is the Pageant Director, Michael Paolino, coordinator of contestants and judges; Joseph-Thur, publicity and program; John

Mack, ticket chairman, Joseph Nadler heads production. Betty Erlandsen and Julie Pondar (a former Jersey City Junior Miss) are in

charge of staging, Karin Strauch and Suzanne Smith-prizes, and Karin Strauch is responsible for the luncheon for the contestants.

The MC for the occasion is Charles Green, program director for WJNR. Entertainment will be provided by Accordion virtuoso Donald

Haime with his partner, Shirley Evans of England. They use a unique wireless four-directional sound system.

A spokesman for the Nutley Jaycees noted that all of the pageants, local, state and national - stress the value of education.

2 Rutgers Professors Study Coastal Lagoons

The environmental impact on New Jersey's coastal wetlands of lagoon developments — homes built along channels dredged into the shore — is under study by two Rutgers professors.

"We have completed a physical inventory of the 15,000 homes in these developments and distributed a questionnaire to a representative sample of owners," says George Nieswand, assistant professor of environmental resources at the College of Agriculture and Environmental Science.

"Population pressures mean continuing demand for this type of home with immediate access to the water," Dr. Nieswand says, "especially in Ocean County, where more than 90 per cent of these developments are located."

"Replacing natural waterways and marshlands with dredged lagoon systems affects circulation patterns. Water tends to stand in the lagoons and does not circulate readily. Thus pollution tends to be retained in the canals, rather than being dissipated to Barnegat Bay and to the Ocean."

About one-third of the homes are not yet connected to a sewer system, and this aggravates pollution problems, Dr. Nieswand notes.

"More than a third of the residents questioned mentioned pollution and sewage disposal as major difficulties," says Calvin

LOOKING AT LAGOONS — George Nieswand, assistant professor of environmental resources at the Rutgers College of Agriculture and Environmental Science, points out the location of New Jersey's lagoon developments to Calvin Stillman.

Stillman, professor of environmental resources at the College, "and 16 percent mentioned population growth or overdevelopment."

"We were somewhat surprised, therefore, to find that only 5 percent said they planned to sell their homes, either in the near future or when their children grow up. Despite some glooming, the great majority evidently consider their homes a good buy."

They also seemed to feel that summer congestion, although objectionable, was still much less than in neighboring seaside resorts."

The questionnaire found that 72 per cent of families lived all year long in the developments and that 40 per cent of the summer residents planned to live there permanently after retirement. "Because of the large percentage of retirees, the

typical resident tended to be older than average, with fewer children," Dr. Stillman says. "The median income, though, was placed at somewhere between \$15,000 and \$20,000. The majority had purchased their homes during the sixties."

As might be expected, the most popular recreational activities for both permanent and summer residents were swimming, motor boating, fishing, rest and relaxation, and crabbing and shellfishing.

"Our subjective impressions were of a very pleasant life down there," Dr. Stillman sums up. "Yet there definitely are clouds on the horizon. Ocean County's population nearly doubled from 1960 to 1970, and only tight money in the mortgage market has slowed home building in the last couple of years. There are still large tracts of shore frontage with the potential for future development."

"Our research is continuing," Dr. Nieswand says, "and eventually will include reports on water quality and marine life. But in the meantime we hope that action will continue through the political process to conserve much of New Jersey's wetlands for their environmental values."

Both researchers emphasized their desire to talk with interested persons in the shore communities where lagoon developments have been built.

"We are always ready to visit with an organized group or with individuals who desire more information on what we are learning," Dr. Nieswand said. "We can learn most from direct contact with persons concerned."

JP HAMMONTON PARK CLOTHES

**Men are
dressing up
again!**

Neatness counts! The small-patterned dressy suit is big fashion—especially as interpreted by Hammonton. Come see our check-lets... our miniature basket-weaves and geometrics. You'll see both knits and worsteds, including new stitched models. "That Hammonton feeling" never looked dressier!

Fashion Thrust for the '70's

The Arrow Collar Man Shirt

It took research to make these shirts so great. When styles turned to color, Arrow dug into its files to look over its shirting patterns of old. They picked out the best designs of the past, turned them into the best kind of shirt a man could want today. With rich colors. Contemporary styling. Exclusive fabrics. The most advanced tailoring techniques. The finest they could make.

And they gave this collection a famous historic name: The Arrow Collar Man Shirt. It stands today at the top of the Arrow Line.

If you like staying ahead, you should have at least one in your own collection. \$7.99 to \$13.99

LEGAL NOTICE

NOTICE IS HEREBY GIVEN that at a regular meeting of the Board of Commissioners of the Town of Nutley, held November 21, 1972, the following determinations were made, approving recommendation made by the Board of Adjustment of the Town of Nutley that the appeal for variance listed below be granted:

Appeal No. 1972-39 Reinheimer Boys Club, Applicant. Premises located at 104-106 Passaic Avenue (Block 34B, Lots 6, 7, & 13). Application for variance to permit a temporary, trailer-type building on a concrete foundation to be located on premises located at 104-106 Passaic Avenue, Nutley, N.J., for a period of five years, with the Building Inspector authorized to issue a building permit for this type structure. Granted.

Appeal No. 1972-36 Antonio and Gennaro Cifelli, Applicant. Premises located at 11 Hager Street (Block 39), Lot 13. Application for variance to permit the construction of a garage for storage of not more than a 1-1/2 ton truck and a half-ton trailer. Work hours between 8:00 a.m. and 12:00 noon only. All equipment to be indoors at all times when not in use. Subject, however, to the applicant making an application for a subdivision to the Planning Board of the Town of Nutley. If the Planning Board so requires. Granted.

The above determinations are available for inspection in the office of the Town Clerk.
