Six stores going up amid controversy

Nearly three weeks ago, Town Commissioners said they were going to issue a stop-work order on six new stores, perposed for the Grand Union shopping complex. The area supposedly lacked sufficient parking spaces, officials were told. After three weeks and four special meetings, Town Hall is still unsure whose parking-space count to believe, no stop-work order has been issued, and the stores are well underway toward completion.

stores are well underway toward comple-tion.

Commissioners, however, have called for another special meeting for the se-cond time in less than a week to again review plans for the six new stores. Mayor Michael Marrotti set next Tuesday as the day for the "new" special session with the review scheduled for 7 p.m. af Town Hall.

"We just received the reports on the

"We just received the reports on the question tonight," stated the Mayor at the conclusion of this past Tuesday's

regular meeting of the Board of Commissioners, "We need time to go over them before we can discuss them."

The first special caucus last Thursday ended with officials requesting written regorts from Fire Chief George Sbarra, Town Engineer Fred Busch, Planning Board Chairman Joseph Grande and Building Inspector Si Lieberman.

Belleville's planners gave approval of the construction of the stores, located on the south end of the shopping complex, in

the south end of the snopping complex, inSeptember.

Grande pointed out that the case when
first presented to the board in April
resulted in so many questions being
raised and so many witnesses needing to
be heard that it took almost five months
before a decision could be reached.

"Only after the approval of Town
Engineer Busch did we okay the plan and,
then only after all procedures were followed," stated the planning board

chairman. "Mr. Busch signed his approval on the 15th of September and we didn't sign until the 21st of September. Now he seems to have found some discrepancies in the plan," added Grande. "He should have found those discrepancies before he signed his approval."

According to the Belleville ordinance 305 parking spaces, each nine feet by 19 feet, are required at the site currently under construction.

Now there are claims there is only room for 280 or 285 spaces, said Marotti. "Exact numbers vary," he added.

According to board of commissioners attorney, John Scott, construction of the stores could be halfed legally but he admitted it would be hard to determine exactly how many parking spaces the builders intended until the buildings are completed.

"This is one of the things we hope to decide during Tuesday's meeting," pointed out the Mayor.

Rebuilt School 3 will open within two weeks

have received no word in writing from them yet."

Officials from the State Department of Education's Bureau of Facilities Planning and of the Environmental Protection Agency checked the new building, along with Dr. John Greed, superintendent of schools, and Austin MacArthur, principal of the school.

"Certain things have to be done within 60 days of this inspection, but none of them are a reason to hold up the occupancy of the building." Pica noted.

Belleville also has its own punch list to go through the school with before the Board of Education officially takes over the building from the contractor.

"That's minor." Pica said. "We can have occupancy of the building before the general contractor is relieved of responsibility for the building."

The Board goes through the building to see if any require or minor alterations need to be done. The general contractor is responsible for this work as long as the Board of Education has not taken over the school officially.

Pica estimated that furniture will be moved into the school as soon as possible.

Currently, students who would normally attend School No. 3 go to classes in—one of three neighboring churches. These churches, which offer classroom space to the children at no cost to the Board, are Bethany Lutheran Church, Christ Episcopal Church and Fewsmith Memorial Presbyterian Church. Students also attended classes in these churches last year after a fire destroyed the older portion of the School leaving only the 1955 addition intact.

Four classrooms and the gymnasium in the 1955 section of the school have been utilized for classes, in addition to the churches, this year.

The town officials had better heed the Trenton hearing-examiners advice. "The only way the town can survive financially through 1978 would be to make extensive layoffs of personnel."

Either that, or forget about the raises!

Do not depend on the poor taxpayers to foot the funds as always! Usudent before, and FIL say it again, "We refuse to be the pushovers any longer! We protest vehemently! We demand you do away with unnecessary raises and expenditures we cannot afford!"

To the Editor:

I would like to bring attention to the harardous condition of the girls' gymnasium at Belleville Junior High School Following the commencement of school in September the Belleville Board of Education found it necessary to tear up the flooring of the gymnasium. At present, the girls are required to take physical education classes on a concrete floor. This condition is expected to last for at least another month.

espected to last for at least another month.

This situation presents a number of problems. The most obvious is the infeat to our children's physical health. Every parent is aware of the inherent danger present when a child is playing on concrete. This is the reason why all symmasiums are equipped with wooden. Bours. This problem of physical health has been compounded by two things. List, parents have not been made aware of the situation and are therefore powerless to do anything to remedy the situation. Secondly, those parents, such as msself, who are aware have discovered that if they excuse their child's chances of receiving an honor grade in the course are jeopardized, therefore preventing the child from

making the honor role.

As a result of the Board of Education's poor judgment, our children's
physical and scholastic well being is
seriously threatened. I can only hope
they will see their error and do
something to remedy it before any long
lasting harm is done to our children
either physically or academically.

Spending money we don't even have

The towns of Belleville and Nutley when confronted with strikingly similar problems, earlier this year, regarding salary increases for town employees chose to embark upon diametrically different courses of action.

In Nutley, despite persistent pressure from the town workers, the Commissioners chose to adhere to the recommendations of their town attorney who pointed out the restrictions imposed by the new state "caps" law which limited increased expenditures to 5 per cent and ruled that any attempt to classify salary increases as an emergency would be ruled improper. Eventually, after scrapping up, with state sanctioned concession, a few additional

monies to appropriate, a "token" increase of \$250 was granted. Few were satisfied, but the law had been complied with. In Belleville, despite the admonition of their town attorney, John Scott, that an effort to justify salary increases over the caps" by calling them an emergency would be ruled improper, our Commissioners blitchy improde their own rown atsioners blithely ignored their own town a torney's advise and by 4 to 5 voted for resolutions and ordinances that granted substantial salary raises.

Now, as Town Attorney Scott sug-

past summer and extending through 1978. REVENUE AND Finance Director Joseph McGreevy truthfully states workers will get their raises, but this time the town will be placed in a dangerous fiscal situation beginning next January. He states: "The \$312,000 package actually is only half the total of our 5 per-cent-cap limit for next year." Explaining, "If we have to put the entire amount in next year's salary, budget, that means we've already exceeded our 5 per cent cap limit for 1978."

THE PUZZLER to this new financial dilemma our commissioners seem to have gotton themselves, and us, into is why couldn't they have followed the advise of their town attorney and the policy of the

Nutley governing officials?

Why did they vote for raises when they didn't have the money to pay for them, especially when the new "caps" law forbid them? Why did they follow a fronancel plan of an employee directly under the Finance Director who now fells the press he "never believed" Trenton would okay?

If the best informed financial member of oue Board of Commissioners didn't think the scheme would be approved, why did he vote for it? Furthermore, why didn't he inform his colleagues on the Board of his "reservations and urge them? over down the proposal?

We can only speculate. Were they everybody happy while leaving the poor taxpayers to later pick un the tab?

SEN. WILLIAMS REPORTS

How can we halt rising costs of hospital bills?

By SEN. HARRISON A. WILLIAMS

By SEN, HARKISON A. WILLIAMS
If you've had to go to a hospital
anytime recently, you have probably
encountered what some bureaucrats
call "disproportionate in-patient
care revenue increases."
What that means in plain English
is high prices. Prices that are so high,
in fact, that many working men and
women find that the medical care
they really need is almost impossible
to pay for.

they really need is almost impossible to pay for.

Our nation is caught in an inflationary spiral for health care that has sent the price of a one-day stay in a hospital zooming over 1,000 per cent over-the last two decades. In 1965, the average stay in a hospital cost an individual around \$300. Today, the figure is more like \$1,300. Hospital bills eat up 40 cents of every dollar that citizens pay for health care.

Something obviously must be done, and the Senate Human

Resources Committee, which I chair, who need health care will still be able took an important step towards that to get it. goal early this month.

With the President's strong back.

The Committee approved legisla-tion sponsored by the Carter Ad-ministration which will put a lid on hospital charges. The bill will also-place a moratorium on unnecessary capital expenditures by hospitals and physician offices, which means that you won't have to pay higher bills for expensive equipment and facilities that are not really vital to necessary health care.

The Federal government estimates that this bill will reduce spending for hospital care by \$2.4 billion annually, savings could reach

The bill will also cut government spending for programs like Medicare and Medicaid by almost \$1 billion per year, while insuring that those

But I can find enough to get excited about from the environmental

got underway. Inasmuch as federal money goes into the sewage treat-ment facility, and removal of landfill is part of that project, it would seen that an impact statement was called for under federal law.

What we have here is a case where taxpayers (that's us) paid once to have solid waste landfilled at Sharkey's, and are now paying again to have it removed a great distance t Big Hill. We are also at the sam

But I can find enough to get exceeded about the Solid Waste Administration of the Department of Environmental Protection, which is supposed to oversee such things, has not been monitoring the transplanted waste for dangerous chemicals.

It ested areas adjacent to those being removed, and declared them suffer surregulations of the Way chemicals permeate their surregulatings. No wonder people in Burlington County are protesting the transfers.

If the authorities look for chemical contamination, and find it, the Solid Waste Administration has the impact statement before this thing

Jobs filled from within

Belleville School Board is continuing a policy of hiring from within, the system and community whenever possible.

A new bus driver appointed for the current year, for example, won the post and advanced from a job with the maintenance division.

Peter Gerst is the new driver, hired at an annual salary rate of \$9,700 Gerst previously was an assistant custodian.

Mary Shader, board seeretary-business administrator, said the position was first advertised, within the Belleville district.

"We had no intention of hiring outside of the district if someone within it applied with qualifications," she said.

In response to a query from Belleville resident Joseph Forparotto as to how the selection was made, Trustee Lawrence Schwartz noted. "We have a policy to his we within the system whenever we can."

The employee contract requires that notice of any openings he first posted within the system before it is distributed to other districts, Schwartz added.

Fornarotto agreed that attrition is beneficial as long as the person within the system.

Shader mentioned that one employee who now works for the Board of Education will take on a second hat and learn to drive the school bus.

List training is only for substitute purposes, she emphasized.

"The employeer, who works are assistant custodian, may drive the bus only one or two times throughout the school bus.

By MIKE COREY

The Blue-Gold gridron crew will be looking to score its first points of the season and notch its autial sistery when it opens up the home year against Passaic at 8 pm. under the lights of BHS Stadium tomorrow.

"It will be good to be home again," said Belleville coach John Senesky. "Passaic is not a predictable team They have good, speed, and, anytime, their quarterback (John Vernon) goes back to pass he has the abhlity to hit his receivers deep."

The Indian offense centers around the three year varsity veteran Vernon who although nursing a sore shoulder and ankle the two previous games is expected to be at full strength when the Bellboys begin the home year.

In losing to Our Lady of the Valley last weekend, the Indian signal caller heaved a pair of touchdown passes completing six of nine tosses.

"We think this season we finally have a backfield which is competitive," said the Passaic coach, "In fact this year we are fielding the best team we have had since I've been coaching here."

Passaic holds a 2-2 overall record for the season point wins over Don Bosco and Wechawken and losing its last two contests versus Clifford Scott and Our

The Indian coach admits that size wise his club is small but is hoping to match up well with the Belleville 11.

"The games with Belleville are usually tough," stated Elasser, "Our kids, however, are always up for them." Only four Indians play both offensively and defensively and the Passaic instructor hopes this may give his squad an edge missing in previous games with the BlueGold.

fourth and short yardage situation with 4:50 to play. The Blue-Gold offense stalled set-

ting up the crucial action of the ball

game.
"Defensively we made some nice plays," said the Blue-Gold mentor. "We bent but we didn't break. And we actually consider the game, at least from a defensive standpoint, a shutout."
"The thing we're (the coaches)

"The thing we're (the coaches) are really impressed with is the attitude of our players," added Senesky. "These kids find the harder they work the more they are improving and you can see it on the game films. Of course we are disappointed we didn't win but we have a lot of pride in ourselves and are confident we can still make this a good season."

Disappointment — The disappointment of Saturday's last minute defeat at the hands of the Maroon Raiders is written all over jurior halfbac Carl Garafolo's face as he leaves the field following the setback. halfback

Beginning to pay off," stated Blue-Gold track coach Rich Ruffalo.

"I feel confident if the team works hard for the rest of the season we can win as many as six meets."

Against Kearny, in the other half of last Tuesday's dual meet, the Kardinals jumped off to the early advantage by taking the top three spots.

The Belleville club rebounded, however, placing runners in the next three positions with Mike Graham leading, the way.

apiece at the end of the first
period but Montclair grabbed a point
advantage on a controversial goal, at
teast from Belleville's point of view,
in the second quarrer of action.

Bellboy goalie Vito Tamborrino,
after lunging for a shot on goal,
made what appeared to be the save
but the senior defenseman lost possession when he was kicked in the
head by a charging Mountie player.
The offensive unit of Montclair
quickly-made the most of the moment in the times of their lives and
knocked the loose ball into the nets
for the score.

"The player who scored the goal

knocked the loose ball into the nets for the score.

"The player who scored the goal was given a yellow card," stated Cahill. "When I asked the official why he said it was because of abusive language. Had it been for unsport-smanike conductathe goal would not have counted."

A player who is given two yellow card warnings for game infractions is automatically ejected from the contest.

test.
"I admit I'm biased but I'm sur-prised the goal counted. The Montclair player kicked the ball loose from Tamborrino and then put it in the goal," said the Blue-Gold coach.

It in the goal a said the gaue-could coach.

Junior Doug Shaw replaced the shaken Tambortrino in net and came up with about 16 saves the rest of the game.

Belleville applied offensive pressure to the Mounties in the third period but just couldn't find the range to make a score.

"We couldn't capitalize on our opportunities," said the coach. "In the scoreless third quarter we tried to move more people on the offense and were able to exert a lot of pressures but shot after shot just wouldn't go in."

were able to exert a lot of pressure-but shot after shot just wouldn't go in."

In the fourth quarter a shot didfinally sneak past the Mountie goal kegper and into the net. Bellboy frosh Mike Mittadous stole the ball from the Montelair goalie while he had placed it on the ground in order to get better field position before kicking it up field.

Mittadous swiped the ball in front of the net and clubbed it home with his left foot with six minutes remaining in the afternoon contest. The final period heroics ended the day's scoring for both sides.

Irvington put points on the board the first time it had its' feet on the ball to noteb a goal in the opening minute of play on a rain soaked BHS field I riday.

Blue-Gold goalie Vito Tambornion was forced out of action in the initial period while defending the nets in a particularly flooded area of the Belleville soccer field. He injested some of the swamp water and was replaced by Doug Shaw.

Neither team dented the scoring column with points in the hird period but the Camptowners hit two goals home in the last quarter to gain the victory.

"Trvington did not have a great deal of shors on goal hut were able to come any with the win." stated the Belleville coach. "We were very very disatisfied with the loss especially following the Essex Catholic game." "When you play on the marsh the wet BHS field) you can't anticipate the ball coming to you, you have to dive for it." added the coach. "We weren't agressive enough in al."

Gallo Calvache posted a goal and an assist to Ramiro Borja to lead the Bellboys past the Essex Eagles last

Senior notes

By GEORGE CHENOWETH

We have been in touch with our representatives and senators through letter outlining the ills of the Social Security System and possible solutions. The letter, co-authored by William VonRoth of Nutley and myself, was also sent to National agencies in Washington with the hopes that some inequities in the system could be improved upon or at least be recognized as needing change. change.

One issue that we are particularly concerned with is

One issue that we are particularly concerned with is the treatment, financially, of widows in our country. It has been brought to our attention that a widow below the retirement age becomes a non-person, as far as retire-ment pension is concerned, until she reaches the retire-ment age. One wonders what happens to all of the money paid into the system by her husband and his employer while he was working. Not one cent of this amount can be claimed after, his death until his widow teaches retire-ment age.

claimed after his death until his widow reaches retirement age.

Another issue that needs change is that which deals with Cost-of-Living Adjustment for the increase in Social Security Benefats. There is a bill pending in the United States Senate known as the Social Security to States. Senate known as the Social Security Benefats. There is a bill pending in the United States Senate known as the Social Security Senate known as the Social Security Senate known cost-of-living adjustments would be made providing the consumer price index increased by at least 3 per cent semiannually from one benefit period to another.

Social Security beneficiaries receive only one cost of living adjustment a year, in July, whether the inflationary rate is 3 or, 13 percent. The Social Security Cost-of-living Improvement Act would permit adjustments to be made in April and October, provide a annual inflationary rate exceeded 6 percent.

How can this program be financed? Urge seniors to retire on full benefits at age 65, open up the job market for those workers still laid off and for those just starting to work. More money will be paid into the tund as the unemployment rate goes down. Less people will be on welfare and the unemployment rolls and the economy will be further stabilized.

One last word. We received favorable replies to our letter of inquiry from Rep. J. Minish, Sen. Frank Church and Laurence Woodworth Assistant Secretary of the Treasury

Singing group sets auditions

The West Essex Chapter of Sweet Adelines Inc. will hold an open "new member" night for women intereshed in singing four-part barbershop-style harmony. The special get-acquainted program will be held "8:15 p.m. Thursday, Oct. 20, at the Union Congregational Church, Cooper Ave., Upper Montelair.

The West Essex Chapter chorus, a group of more than 50 women un-der the direction of barbershop ex-pert Carl Ballard, will introduce prospective members to chorus ac-tivities by combining a typical week-ly rehearsal with entertainment by a regional medalist quartet.

Following a voice placement audition to determine whether they will sing tenor, lead, baritone or bass, prospective members will join the chorus in learning a new group song They will then be entertained by "Confetti," a quartet made up of members of the Ramapo Valley, Chours, 1977. Region 15 champions, as well as by the West Essex chorus and novice quartets.

Sweet Adelines Inc. was started in Tulsa, Oklah. in 1947 and now has more than 600 chapters and approximately 26,000 members throughout the United States. Canada, England and the Ganal Zone. For more information regarding the West Essex Chapter, call membership chairman Mrs. Russell DeVries, Green Pond, 697-5191; or, locally, Mrs. Nicholas Duca of Nutley at 667-6308.
