Resident Protest - Three dozen residents picketed outside Town Hall Tuesday night objecting to the \$10-million municipal complex already approved by the board of commissioners. - Photo by Michelle Jeanette

Residents protest municipal complex

By Christopher Bilani

Craving "1, 2, 3, 4" Mike Marotti put the "don't shove down our throats" sign in front of Town Hall Tuesday night before the scheduled meeting of the board of commissioners.

With signs that said everything from "Follow the Path to the New Taj Mahal" and "Don't Mortgage Our Future to Tax Our Schools First" and "Marotti Loves Maroon," the protesting residents made their point clear as a curious crowd of onlookers gathered.

By the time the board of commissioners was set to convene at 8 p.m., the Commission Chamber's maximum occupancy limit of 91 had already been reached and several dozen people packed the stairs and corridors of Town Hall while dozens more milled about outside.

Commissioner of Public Safety Ralph DiRuggiero said he didn't think it was fair that a majority of the people could not participate in

the hearing or even hear what was going on, so he motioned to conduct another public hearing "in a larger location."

The motion was seconded and the board of commissioners voted unanimously to conduct a public hearing in the auditorium of School 7 at 8 p.m. Tuesday, April 1.

Prominent among the sign-wavers outside was Belleville Board of Education candidate Richard P. Yanuzzi whose "Dump the Dictators" sign was backed with another sign that had Mayor Michael Marotti's last name in a red circle with a slash through it.

Yanuzzi said the town hall plans should be dropped in favor of a more "reasonable" proposal and that money would be more wisely spent renovating the middle school.

Upstairs in the Commission Chambers, residents look enough to get inside saw a veritable museum of architectural renderings of the proposed \$10 million municipal complex.

In front of the commissioner's bench was a scaled miniature of the model complete with trees and a revamped Washington Avenue, while on the walls was a gallery of drawings, layouts and plans for the complex, including three of the proposed plans that had been rejected.

When the announcement was made to postpone the meeting in order to hold it the following week at the larger School 7 location, detractors and supporters of the plan streamed into the Town Hall corridors and out into the street, urging people to "come next Tuesday" and "bring more people."

Budget presentation draws small crowd

By Michelle Jeannotte

Belleville Board of Education Secretary Edward J. Appleton presented the 1986-87 school budget to approximately 20 concerned citizens at the board's Monday night meeting.

Another dozen members of the audience, most of them members of school parent groups, left the room when the presentation began. According to members of the group, Monday's presentation was a repeat of a report delivered by the board to the Consolidated Parents Association a week earlier.

The \$19,423,822 school budget, which reflects a 23.4 tax-point increase, was unanimously approved by the school board after a lengthy discussion on how High School Proficiency Test scores relate to the budget.

According to Raymond McCann of Overlook Avenue, the biggest concern of the board should be whether or not the township is providing the best education for its children. McCann said low HSPT scores and

other testing statistics do not reflect the quality education \$19.4 million should provide.

Although the test scores are only preliminary, according to Assistant Superintendent of Schools Michael Lally, McCann continued to voice his objection to the budget on the basis of the low test scores.

"The product is not here," he said. "And that's what we're paying for. There is only one product we turn out and we have to recognize the fact that we are not turning out a quality product. There is a serious educational deficiency."

In defense of McCann's objection, Lally stated that since 1977, students in Belleville have shown the greatest degree of growth in the county as far as test scores are concerned and that scores of elementary school students indicate that well over 90 percent of them are meeting state proficiencies.

Lally also reminded members of the audience that the HSPT does not go into effect until the test is given this April.

Tenacity accounts for the success of two-term Belleville Board of Education member

John DiStasi

John DiStasi, who will leave behind a record of accomplishments when he officially resigns from his post next month.

DiStasi, who was first elected to the board in 1980 and served as president in 1983, has sacrificed more Monday nights than he'd care to remember for the sake of serving the community of Belleville.

"Over the last six years, I've tried to serve and understand the needs of the taxpayers and do what was best for the community of Belleville," he said at his last public meeting Monday night. "I was always trying to serve the community in a positive way."

During his tenure on the board, DiStasi has been involved in the development and presentation of the school budget, the expansion of the high school, increase in guidance counselors

County investigates back-to-back fires

Back to back fires on March 9 and 10, which resulted in the loss of two buildings at 543 and 545 Washington Ave., are the subject of an "active" investigation, according to Fred Franco, the leader of the Essex County Prosecutor's arson squad.

Neither arson nor negligence on the part of the Belleville Fire Department have been ruled out at this time, Franco said, adding that the cause of the second fire, the blaze that ultimately burned both buildings to the ground, was still "undetermined."

The first blaze on March 9 was reported at 8 p.m. and declared under control by 10:30 p.m. Allegedly caused by a 13-year old juvenile playing with matches, the fire caused minor damage and was contained to 543 Washington Ave.

An investigation of that blaze by the Belleville Fire Department has been concluded and the juvenile was charged by Belleville Police with criminal mischief.

It is the second fire, which also began at 543 Washington Ave. less than six hours after the first—that is the subject of the county investigation.

That blaze, which began at 4:17 a.m., could possibly have been caused by natural gas, as neighbors in the area reported "smelling gas" and hearing "muffled explosions" prior to the fire. As noted in a report by Belleville Deputy Fire Chief Joseph Samaglia, Belleville firefighters turned off the gas at the meter in the building at 543 Washington Ave. in response to the first blaze.

hours before the second occurred.

But, as noted in the same report, the Belleville Fire Department didn't notify PSE&G to turn off the gas at the street valve until almost two hours into the second blaze, and that Belleville fire-fighters were unable to extinguish flames caused by gas until PSE&G came to shut off the gas at the street.

Pending further investigation, it is unclear whether two hours of flaming gas substantially added to the ferocity of the fire.

The possibility that the second blaze was caused by a rekindling of the first has also not been ruled out, although Belleville Commissioner of Public Safety Ralph DiRuggiero and Deputy Fire Chief Walter Biersdorf both said it was "highly unlikely."

However, a fire watch involving two firemen and a hooked-up fire hose at the scene following the initial blaze was called off by Deputy Chief Samaglia at around midnight.

From midnight to 4:02 a.m., Monday morning the building was checked periodically by Belleville Police. Then, at 4:17 a.m. the building was reported to be "fully involved in fire" and spreading fast.

While the Essex County Prosecutor's investigation goes on, Commissioner DiRuggiero maintains his "complete faith in the Belleville Fire Department."

"I look forward to the results of the investigation," he said.

OBC-TV hosts call-in show with candidates

Residents will have an opportunity to ask questions of the nine candidates for the Belleville Board of Education Wednesday, April 2, when the Belleville Chamber of Commerce sponsors an hour call-in show on OBC-TV Channel 36 at 9 p.m.

The candidates for the April 15 election are as follows: Thomas Spillane of Lloyd Place; Mary Susan Rimgail-Bleschak of Greylock Parkway; Barbara Cialese of Fairway Avenue; Daniel Borgo of Van Rye Place; Board President Dr. Anthony D'Agostino of Dorothea Terrace; Catherine Giangeruso of Greylock Parkway, board member Gabe Nazzola of Van Rye Place; Richard P. Yanuzzi of Greylock Parkway; and Michael Giordano of Valley Street.

Residents are alerted about change in water

Commissioner of Public Works Joseph Grande would like to alert residents of Belleville that the City of Newark is undertaking major rehabilitation work on its Distribution Reservoir at Cedar Grove.

During this operation, there may occur some deterioration of the quality of township water in terms of color and turbidity during the last week of March throughout the month of April and part of May.

According to Commissioner Grande, the effects will not be harmful to residents.

Rose Cottage remains a part of historic Dutch architecture

Advertisement

The Rose Cottage on Main Street is the only remaining structure which typifies the influence of Dutch architecture in Belleville.

The Rose Cottage derived its name from a black beauty rose rambler which once covered its whole front. For a time, the Rose Cottage served as a parsonage of the still existing Dutch Reformed Church (founded in 1697).

Skirmishes during the Revolutionary War frequently occurred in the area with the local militia keeping the British at bay. In fact, it is documented that a British prisoner of war, Lt. George W. Brown, was detained here briefly after one of the many skirmishes fought by the local militia against the British.

On Nov. 22, 1776, Gen. George Washington and his troops marched past the front door of

the Rose Cottage as they were making their historic retreat from Fort Lee.

Allan Papp and his wife, Anne, have lived in the historic Rose Cottage for the past six years. Extensive research, including a trip to Colonial Williamsburg, helped produce a stunning restoration which, while retaining its colonial charm, made the Rose Cottage a comfortable home.

The Rose Cottage has the distinction of having large bright rooms and high ceilings. The cedar shake roof, four working fireplaces and a tremendous amount of original detail make the Rose Cottage a "rare find," according to Papp.

For more information about the Rose Cottage, contact Realty World, 378 Broad St., Bloomfield, at 743-8382.

Tax reform efforts to influence deductibility of state, local taxes

By Bert Tobia

H & R Block District Manager

With the various efforts of tax reform being proposed by President Ronald Reagan, Senator Bill Bradley and the House Ways and Means Committee, we have heard a lot of discussion of the deductibility of state and local income taxes.

No matter what may be decided in the future, these taxes may still be itemized on 1985 tax returns.

Property tax is the first item on the list. This would cover not only your principal residence but also any vacation homes or lot that you plan to build on some day. Next would come state and local income taxes. Not only would you use the amount withheld from your paycheck or paid in estimated tax but also any balance due on a 1984 state tax return which you paid during 1985.

Sales tax may be taken from the tables furnished by the government or you may add up the

amounts actually spent during the year. The latter method might be beneficial if you bought appliances or other "big ticket" items or even paid for a lavish wedding reception. In this you may add the sales tax on a car (new or used), boat, plane, motorcycle, truck or mobile

home. Although New Jersey does not have a personal property tax, it does have state unemployment insurance and state disability insurance. You may deduct amounts withheld for these purposes from your paycheck.

SLEEP ON IT

Have you ever taken sleeping pills that left you drowsy the next morning? If so, there is good news. Physicians are increasingly prescribing short-acting, non-habit-forming, sleep medications. Clonidine and Valproic acid are the drugs that work best for those times when you awaken in the middle of the night. They leave you wonderfully awake of your normal wake-up time five hours later. In addition, at bedtime also responds to these quickly metabolized drugs. Like all sleeping pills, even the short-acting variety should be taken only for a limited time period and not for a continuous or long sleep awake schedule. Go to bed and get up at approximately the same time every day. Limit the amount of time that you spend awake in bed, which tends to fragment sleep and leave you tired.

We carry a wide variety of prescription and over-the-counter medications in order to have them available for our customers when they need them. For your needs, come to ROSSMORE PHARMACY, 338 Washington Ave., 759-1968, 759-1956. Your Doctor Knows Us. Your Doctor Trusts Us. D'Agostino's service in education is backbone of board candidacy

By Christopher Bifani

A comprehensive background in Essex education is the linchpin in Dr. Anthony D'Agostino's campaign for reelection to the Belleville School Board.

Dr. Anthony D'Agostino

The current board of education president seeks his fourth consecutive term based on a platform of lifetime experience in the educational circles of Essex County.

Born in 1914 in Newark, D'Agostino attended Newark public schools and graduated from Central High School in 1952.

Following a year of active National Guard duty in 1953, D'Agostino attended Upsilon College in East Orange where he received his bachelor's degree in business administration in 1957.

In September of 1957 D'Agostino began teaching at Madison Avenue School in Newark, which way to be the starting point of a 29-year rise through the ranks highlighted by positions of vice principal at 14th Street School in 1970, principal at Model Vernon

School in 1971, and assistant executive superintendent of Newark Schools from 1981 to the present.

Along the way, D'Agostino coached football and track, taught English to Spanish-speaking adults in the evening, served on the Newark Board of Education, worked summers as a remedial reading specialist, administered the Newark Campership Program, joined and served over a dozen professional organizations, including county, state and national school boards associations, and earned his master's degree at Seton Hall University in South Orange.

D'Agostino's "only" schooling outside of Essex was for his doctorate in education, which he earned at the Rutgers campus in New Brunswick in 1980.

From 1971 to 1980 he published three articles on education and in 1982 won the Distinguished Alumnus of the Year Award at Seton Hall.

D'Agostino is a Little League baseball coach, an advisor to the Boy Scouts of America and a life member of both state and national parent teacher associations.

He is on the Essex County Board of Realtors and works part time at DePiro Realty in Nutley. Through all of these activities and community services, D'Agostino has found the time to faithfully serve on the Belleville Board of Education for the past seven years, culminating in the presidency of the board in 1985.

While on the Belleville Board of Education, D'Agostino has been absent less than 10% of three times in the seven year period, he said.

On the personal side, D'Agostino and his wife Rose Marie have resided at Dorothea Terrace at Belleville for 20 years and have four children, all products of the Belleville School System, ranging in age from 9 to 14.

His youngest, Michelle, is currently a student at School 10.

D'Agostino is proud of the accomplishments achieved during his tenure on the Belleville Board of Education.

"Some of the accomplishments most vital to the students and the town," he said, "were the three phases of additions to the high school—promotions—within the system. (Belleville being the first school district in the County of Essex to be fully certified by the county superintendent) and the anticipated celebration of the high school."

Continuing the renovation of the middle school will be one of his top priorities if reelected to the Belleville Board of Education.

Dr. Anthony D'Agostino appears on line 5A of the ballot in the April 15 election.

Candidates explain reasons for running for school board

By Christopher Bifani

More than 100 Belleville residents attended a second "Candidates' Night" forum of Board of Education hopefuls sponsored by the Consolidated Home and School Association at Belleville High School March 20.

With the April 15 election just around the corner, the lobby of Belleville High School before the forum was a flurry of campaign activity. Candidates and their helpers handed out an assortment of flyers, cards, brochures and bumper stickers while the voters streamed into the auditorium for the event.

Once again, the voters were given the opportunity to question the candidates on a variety of issues, particularly why they were running and what curriculum goals the most important.

Thomas Snyder, 15A of Lloyd Place is running because he wants to bring efficiency and order to the school system and encourage further education as a curriculum that should be improved.

Mary Susan Poffitt Broadak, 2A of Greylock Parkway, also cited curriculum as a key issue, while stressing basic skills as well. She said she is running because of concern over the high cost of school taxes.

Barbara Gaudin, 15A of Fairview Avenue made the decision to run so she could be a voice on the board and assist in curriculum and study skills center development.

Theresa Reuter, 15A of Van Reeper Place, quoted her reading and writing skills as a reason for running. She said she is running because she is a teacher and a parent and wants to be a bridge between students, faculty and the board.

Current Board President Dr.

Anthony D'Agostino, 15A of Dorothea Terrace said he is running because of his genuine concern for the kids and his own "newspaper" and specified special education is one of the programs which need improvement.

Current board member Gabriel Nazario, 15A of Van Reeper Place is running because he needs to be an independent voice on the board and to encourage the many multi-cultural immigrants made during his tenure, while getting extra-curricular activities in a specific area in need of funds.

Richard P. Yarnitz, 9A of Greylock Parkway decided to run so kids have an easier time than "had" and stressed science, math and English as areas he would bolster. He would gear biology for example, to better prepare students for college level biology.

Michael Girdano, 9A of Greylock Parkway said he was running as the only candidate demanding that Trenton provide Belleville with school funds, arguing that the state school law was originally passed for that purpose in 1921. He would also improve the mathematics department by eliminating the "black market."

Residents are warned to remove studded tires

Belleville Police Chief George Lister advises motorists that, unless otherwise directed by the New Jersey Division of Motor Vehicles, studded tires must be removed from cars as of April 1.

Drugs in the workplace

Recently four persons including a local resident, were arrested on drug charges at the Givaudan plant in Clifton.

News reports about those charges, ranging from marijuana and heroin possession to cocaine distribution, brings a local perspective to a national dilemma, so pervasive it warranted page one coverage in last week's *Time* magazine.

It is obvious that the incident involving a Nutleyite is just part of a widespread epidemic of drugs in the workplace. Federal estimates indicate that between 10 and 20 percent of all U.S. workers use dangerous drugs on the job.

The results of this drug abuse have been deadly. According to *Time*, 50 train accidents since 1975 have been attributed to drug or alcohol impaired workers, resulting in 37 deaths, 80 injuries and over \$34 million in damaged property.

The Department of Defense is alarmed. Employees in the armed forces and defense industries, when under the influence, may contribute to the production and deployment of defective weapons systems or may possibly be trading defense secrets for the money to support their habits.

Last month the President's Commission on Organized Crime asked in an initial report that "all

U.S. companies test their employees for drug use."

But besides the margin for error in the various tests used for determining drug use, there is the question of constitutionality, not to mention cost.

As New Jersey Congressman Peter Rodino (D-Essex) stated, "Wholesale testing is unwarranted and raises serious civil liberty concerns."

While proponents of testing herald the scheme as a major offensive against drug abuse on the job, we maintain that the best offense is, and always will be, a good defense — vigilance on the part of the employer and cooperation with authorities in the event of a suspected problem.

The tell-tale signs of drug abuse are just as evident in the quality of an employee's work as they are in the samples taken for laboratory testing. Once enough evidence of a drug problem mounts, local authorities and especially police departments are well-trained in the type of undercover operations that result not only in firings, but in arrests that stick.

Despite the epidemic proportions that on-the-job drug abuse has taken, drug users are still in the minority. To subject the innocent majority to the humiliation of drug testing is both unconstitutional and demeaning.

Mandatory drug testing is not the answer.

Ten million bucks

Ten million bucks is a lot of money. Belleville Township Commissioners are planning to spend that sum to build a new town hall. Many bewildered taxpayers have appeared at public meetings to oppose the expenditure because they believe it extravagant.

Township commissioners are elected by the citizens to serve four year terms. Election results reflect voters' best judgment as to who can better serve the community's needs. There is no doubt that Belleville enjoys five honest township commissioners. But honesty is not enough.

Reaction-to-taxpayer concerns by the commissioners should require them to pause in their forward-movement and review a decision that proves troublesome to many taxpayers.

The question to be addressed is: "Is it possible to expand and alter the present town hall in a manner that would adequately serve the town but cost substantially less than the \$10 million that is projected?" It is apparent that township commissioners have not persuaded interested taxpayers that the \$10 million building is necessary.

Because of the public outcry, it would be to the advantage of the township commission to go back to the drawing board to determine if it is possible to produce a lower cost building that would serve the town's needs.

Angelo Risoli

The Belleville Republican Chairman is Angelo Risoli who survived an effort to defeat him by the county organization at the last Primary Election.

Currently, there is discussion over Angelo Risoli's fidelity to the Republican Party. Apparently, a vast majority of elected Republican officials from Belleville believe Risoli's leadership best serves the party in Belleville. If Risoli was a Democrat in disguise, he would hardly merit the

support he has received in the polls.

Angelo Risoli is one of the most effective leaders that the Republican party has had over the past few decades. He may not always be right, but certainly, he would never betray his party for anyone or anything.

People may criticize the direction of his leadership, but there are no grounds to question his personal integrity.

Commissioners accepted 'green light'

To the editor:

Following up on the new town hall construction controversy, I would like to share the following developments with your readers.

As a result of my remarks at the March 11 town meeting, in protest of the building of a completely new town hall as decided on by the mayor of Belleville and the commissioners, and my subsequent report in this paper of the proceedings at that meeting as I perceived them, I received a call from the mayor, requesting I meet with him, so that he could explain exactly how the project developed and was adopted, as the only viable solution to the town's needs.

The mayor emphasized he only wanted me to have "the facts" and, convince me that the building of a new town hall had been extensively publicized many, many months ago, as a matter of fact going back as far as May of last year. I met with the mayor last Thursday, March 13. I told the mayor that I very much welcomed the opportunity to learn more about how the whole matter developed, as a matter of fact, all citizens would welcome his explanation, indeed are entitled to a full report, made in the press.

The mayor responded that the proceedings were always public and were in the papers and that he cannot understand how now, all of a sudden, "nobody seems to know that the commissioners had decided on building a new town hall," as I have stated. I told the mayor, that I have gained this impression from talking with any and everybody, assuring me, that they had no inkling Belleville was getting a new town hall of the scope as revealed only a few weeks ago, including the display of the model and the pictures in the paper.

The mayor then referred to the town meeting of May 24, 1985. This meeting was attended by an overflow of concerned citizens, as indeed it was, and for a very good reason. This was the meeting the decision was expected to be made regarding the violently opposed "bright declaration" of a substantial portion of Belleville, attaching this stigma to the entire town. The resolution relating to this subject was listed as Resolution 27.

When the decision was handed down that there was not going to be condemnation of properties by "bright declaration" every body in attendance heaved a sigh of relief (well, everybody except the promoters of this ill-conceived idea) loudly exclaimed their joy and left the meeting to celebrate their victory. But the meeting was not over yet. Remaining in attendance was Vincent Frantoni, the director of the Belleville Revitalization Committee, and some of the members. This committee was formed by concerned citizens, merchants and businessmen, "to endorse and follow through on the goals as set forth in the Township Report.

Centerpiece of this report is the plan to "Extend town hall to the rear and incorporate new police headquarters and all other township agencies, together with a new municipal parking lot." This project is described in detail in the Township plan, including an artist's rendering of Exhibit 21 "Town Center Concept."

A letter dated March 26, 1985, was hand delivered the mayor and each commissioner, emphasizing that the Revitalization Committee, representing Belleville's citizens, rejected the concept of bright declaration and urges the mayor and the commissioners to adopt the goals as set forth in the Township Report. The letter also explains that the Town Center Concept could be immediately implemented, because the township owns all the property; there would be no displacement of people or purchasing of land.

Next on the agenda of the May 24, 1985 town meeting was Resolution 28, a resolution for a \$10 million bond issue to build the "Town Complex." When Vincent Frantoni, the director of the Belleville Revitalization Committee, questioned the \$10 million amount, since never, to his knowledge a building project was considered, requiring a bond issue of this magnitude, it was explained that this was only an arbitrary figure, and that the building of the complex was not expected to cost that much, and therefore no harm would be done, since the money was not going to be spent so there is no harm to citizens, we have it. While the Belleville Revitalization Committee and the citizens-taxpayers were in favor and requesting the adoption of the Township building project, as described in Exhibit 21, the "Town Center Concept," the mayor and the commissioners were referring to and passively resolving the "Town Complex," a very simple misunderstanding.

Meeting was an 'eye opener'

To the editor:

My husband and I are retired and living on fixed incomes so you know we have to watch how we spend our money.

We attended the commissioners meeting on Tuesday, March 11. The first we had ever attended and I must say we were appalled at the arrogance of our elected commissioners. Spending money for a building that is not needed without notifying or consulting the taxpayers.

I should think before spending that amount of money it should have been put on a referendum. With all the senior citizens in the township, it will be a hardship for the increase of taxes it will take to pay for the building.

No matter who had the floor, they were treated very rudely because

they were against the building.

A gentleman who owns a multi-family building as an investment spoke against because of the increase in his taxes without enough raise in the rents due to rent control. When he said his taxes are lower on his home in Englewood Cliffs, the commissioners were so rude. They acted as if he was an intruder. After all, he was a taxpayer and maybe paid more taxes than the commissioners who more than likely only own single homes. If at all, there was no call for it.

I was always under the impression that had honorable men — men that worked for their constituents instead of themselves. The meeting sure was an eye opener.

Bond issue will raise taxes by \$200

To the editor:

People of Belleville, as you may or may not know, the commissioners have already approved a \$10 million bond issue for the construction of a new town hall.

If you think you can afford the additional tax increase that this will represent, don't read any further. To the people who do not want this extra burden, a few facts.

The \$10 million bond issue will cost us taxpayers about \$200 a year or more.

This added to the school board budget will cost another \$150 a year.

We have one more tax increase we will be saddled with, and that's the county tax. A total tax increase of \$300 a year is not out of the question.

This increase will not only effect the property owners, but it will also effect renters. When taxes go up, rents will go up. Everyone will share in this outrage of bankruptcy.

A point was made that by protesting a new town hall project, I would be saving,

I did not want a new police station. It is not true at all. The town needs a new police facility and this is the only way to support that fact.

We could put an addition on the existing town hall with plenty of room for a new police station, room enough for all public agencies, and a multi-level parking area.

If you feel the same way as I do, write your mayor and say so.

Golden Comments

By James R. Golden

Diversified views are being engendered for and against both positions, largely perhaps, because of the migratory indications of steep tax increases, which always mean increases of rental house loads.

The "blatant" school budget exacerbates an already menacing problem for the township treasurer who must put this jigsaw puzzle together by also waiting to find out what the county tax rate will reflect upon the local budget, the outlook appears ominous.

Even now more than a few are expressing great concern about the prospect of a substantial increase in taxes, especially is this so in fixed income families or those employed who, unlike school and town employees, don't get raises.

A great many ask, what can we do about it, now? The answer is nothing. You, the people, elect your leaders. Their election reflects the confidence of the majority of the voters in them; they have been delegated to make decisions in their best judgment to serve and promote the salutary regards of you, their constituents.

The Belleville Commissioners passed on ordinance, on first reading, indicating their intention to construct a new

town hall with all the specifics enumerated therein, a copy of the ordinance was published with the announcement that a public hearing on this ordinance would be held at the place and time — this in compliance with law.

It was at the scheduled second reading of the ordinance that all objections should have been presented. Of course, it still would have been within the province of the commissioners, by a 3/4 majority vote, to pass the ordinance (money ordinance).

But even then, after the publication of the passage of the ordinance on final reading, as stated by law, the publication states that the time was starting with that date of publication within which a taxpayer's legal suit might be started to thwart implementation of the terms of the ordinance. Nobody instituted such action.

Many among our citizens may question or find fault with the decision of the governing officials, but it's the giving someone the power of attorney which translates into allowing them the right to manage your affairs.

Heavy is the head that wears the crown.

John DiStasi leaves record of achievements behind

(Continued from page one) throughout the district and the constant upgrading of the township's educational facilities.

"I'm most proud of the fact that I was involved in the decision concerning the two expansions at the high school," he said Tuesday. "One expansion was that of the new wing which was provided for our ninth graders and the second was the develop-

ment of the vocational education wing.

Moving the ninth graders to the high school provided a middle school concept for our seventh and eighth graders," he continued. "The middle school concept far outweighs the junior high concept. Seventh and eighth graders are not ready for a mini-high school. The middle school concept provides more constricted rooms which is a better

concept of education for that age group.

DiStasi is also proud of the fact that during his tenure, the ratio between guidance counselors and students was decreased. The introduction of counselors to the elementary level also took place during his tenure, providing students with someone to talk to, thus making the transition to the middle school easier, he said.

"The board also increased the number of nurses within the district, though it's not perfect," he said. "I would still like to see one in every school all day."

DiStasi also noted that the board of education has been in-

volved with the constant upgrading of educational facilities within the township. New lighting, windows and electrical wiring have given the buildings a brighter atmosphere, making students more comfortable in the learning process.

"I am just thankful to my wife and two sons for their tolerance," DiStasi said. "At times, it must not have been easy for them. I also want to thank the voters because without them I wouldn't be able to sit there on the board."

Believe I've served in what I felt were my independent views," he added. "I'm proud of the fact that when I go home at

night, I am able to put my head on the pillow. I always voted my conscience. I don't think I ever refused to take a stand."

After some 15 years in some form of public service, I'm at a stage of my life where it's time to go back to devoting my time to my wife and sons," he said.

DiStasi, besides serving on the Belleville Board of Education, was also a member of VTA groups, Music Parents Association, Zoning Board of Adjustment for seven years, deputy commissioner of Public Safety for five years and various citizens committees.

"I believe I'm leaving at a time when the board is making

great strides," he said. "I know it will continue to develop a better educational system and improve the plants and facilities."

"I believe the board is moving in the right direction in regards to the middle school," he added. "It is a sound structure, one that we cannot do without. The board has to recognize this and find and supply the funds for the facility."

DiStasi didn't rule out his comeback to public life in the future, but for now he will be content with the fact that he has Monday nights free to spend with his family.

A song to sing

"He is not here, for He is risen."
Matthew 28:6

By Rev. Gerald Fortunato
Silver Lake Baptist Church

The most remarkable phenomenon in religious participation is the great turnout of people to services on Easter morning. It occurs all over the world—London, Paris, Rome, Jerusalem.

In Leningrad, the faithful greet one another on this day with the words, "Christ is Risen."

From the Atlantic to the Pacific, from bluffs along the Mississippi to little hilltops in Dakota, from the Red Rocks of Colorado to Half Dome in Yosemite, from the top of Old Smokey to Mount Davidson at the Golden Gate, people gather on Easter because Christ is risen indeed. Why?

Is it not that on the Day of Resurrection people all over the world are responding to a common concern of the heart? There is no one that is so sheltered as never to have known bereavement. There is no family circle that does not have a vacant chair.

Could it be that on this miracle day, man, whether denominationally attached or not, finds a glimmer of hope in a hereafter—a lifting of all the tombstones of the heart and this is the common song to sing at this uncommon event?

"I know that my Redeemer lives. What comfort this sweet message gives.
Lord, live in my heart!"

At Nutley Savings 'Home Improvement' Is A Household Word

John V. Kelly, President

"We've built our
reputation by
helping families"

"At Nutley Savings, Home Improvement is serious business. After all, we built our reputation helping families buy their homes and improve their property."

From our humble beginnings in a local schoolhouse, one hundred years ago Nutley Savings has grown into one of New Jersey's largest Savings and Loans, today serving 22,000 depositors throughout the area with assets approaching a quarter of a billion dollars.

"We're proud of our history and proud of our service to our community."

"Our institution was built by 18th time area residents who wanted to accomplish something special, thriving places to live and to do business in neighborhoods we can be proud of for generation after generation."

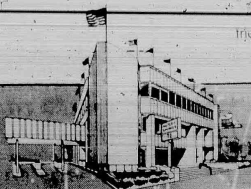

"Our goal is to continue to provide friendly service to our community."

"We're out to double
our home improvement
loans this year."

Last year, we doubled the amount of home improvement money loaned to qualified borrowers and this year we're out to double it again.

"So if you're looking to nail down a home improvement loan, our rates are competitive with any lender in New Jersey. Our experienced loan officers are ready to help you cut through the paperwork so that you can get on with the serious business of improving your home."

Whether your plans call for a new addition, a remodeled kitchen, an extra bath, a pool, deck or a landscaped lawn, plan on calling us at Nutley Savings. Home Improvement is a household word.

County offers expanded job training; veterans must meet requirements

An expanded jobs training program is available to veterans in Essex County, according to Essex County Executive Peter Shapiro.

Under the program, veterans will be eligible for more than 80 on-the-job training programs and 30 classroom programs, both of which are followed by employment placement opportunities.

The program is funded with a \$59,180 grant from the Department of Labor which was awarded to the county to fund

this special veteran training effort.

Eligibility requirements, according to Armin Williams, director of Employment Training, are as follows: veterans must be residents of Essex County, excluding Newark, which has its own employment training program; they must be veterans with service connected disabilities; be Vietnam era veterans or be recently separated from the service.

No income eligibility criteria

restricts participation, Williams said.

Shapiro said the full range of employment training programs offered by the county will be available to veterans under the new effort, including the cooperative programs operated by Essex County College and the County Vocational Schools, and apprenticeship in the

areas of roofing and operating engineers, welding, computer sciences, food services and on-the-job training with local employers.

Veterans and employers interested in hiring under the program are asked to contact Lee Fisher, special coordinator at the Employment Training Division at 674-4500.

Jennifer Wentworth wins annual DAR essay contest

Jennifer Anne Wentworth of Belleville, a fifth grade student attending St. Mary's School in Nutley, has won the first prize in the fifth grade division of the annual Daughters of the American Revolution Essay Contest.

She recently received her award at the Awards Day Luncheon at Rutgers University in New Brunswick. She was accompanied to the luncheon by her parents, Mr. and Mrs. Paul J. Wentworth of Belleville, her principal, Sister Marie Charitina, S.C., Y.M.C.A. Chapter DAR, Essay Contest Chairperson, Mrs. Leonora

Kenney, and her grandparents, Mr. and Mrs. Albert S. Fritsch of South Hackensack.

The theme of this year's contest was "A Signer of the Constitution." Wentworth chose to write about James Madison in the form of a letter written by his wife, Dolley Madison, to her sister explaining why she had risked her life to save the Constitution and other documents when the British burned the White House during the War of 1812. The title of the winning essay was "James Madison, Signer of the Constitution: A Letter from a Proud Wife."

Contest Winner - Jennifer Anne Wentworth, a fifth grade student at St. Mary's School in Nutley, recently won first place in the annual Daughters of the American Revolution Essay Contest. With her are her principal, Sister Marie Charitina, her mother, and DAR representative Mrs. Leonora Kenney.

Hate Going To The Dentist?

Relax...

It just the thought of the dentist's drill and needle makes you cringe, you should know about the new liquid decay removal system. Instead of the drill, it uses a warm, gentle liquid that removes the decay without removing the healthy tooth structure... and because this system is so painless, injection is not needed for most patients. The system:

- Reduces or eliminates the need for anesthesia
- Minimizes or eliminates drilling altogether
- Removes only the decay and none of the healthy tooth
- Dramatically reduces post-treatment discomfort

and for patients young and old, it's a pleasant way to begin the dental experience.

Planning the affair - The Guild of Clara Maass Medical Center, Belleville, will sponsor its annual luncheon and fashion show noon April 16 at The Manor, West Orange. Patty Parisi is luncheon chairperson. Fashion are courtesy of Alex of Upper Montclair. For information or tickets at \$20 per person, call the Clara Maass Public Relations Department at 450-2267. Proceeds will benefit the Dr. Ralph Remondelli Service Nursing Fund and the Maryann Forline Scholarship Fund. Above, members of the Guild discuss plans for the affair.

They can be even more dangerous, if ingested, than medicine. Should anything be ingested accidentally, your first move should be a call to a local Poison Control Center. Do not give the victim anything until you speak to the Center.

Poison Control at Mount Sinai is 429-6200. The New Jersey regional Poison Control Center is 1-800-962-1253. Call either number for immediate help.

When asked which medicines are all-right to have in the home for children, William replied,

"For my two children, we had only baby aspirin or Tylenol, bandaids and an over-the-counter antiseptic for cuts. That's all. If a problem is bad enough to really need any other medicine, it's bad enough to see a doctor."

Poison Prevention week emphasizes caution with drugs

Keep all medications out of the reach of children" was the official theme of this year's Poison Prevention Week campaign.

Director of Pharmacy Services at Mount Sinai Hospital, Montclair, Harold Williams, R.Ph., goes beyond that warning in his counsel to parents. "We tend to be a society that loves to take medicine. There is a great danger in accumulating a large number of bottles of medicine in our homes. Do not keep prescription antibiotics or pain medications around after they are no longer being used."

Have a safe area for detergents, cleaning preparations and household chemicals.

'Final Four' second to Super Bowl

It's come down to the infamous "Final Four" with all eyes focused on Redmon Arena in Dallas this weekend. The Final Four has become a happening, second only to the Super Bowl. Fortunately for the Final Four, the games are much better than the annual hiascos produced by the Super Bowl teams each January.

This year, the teams who will compete for the NCAA mens basketball championship in Dallas are Louisville, LSU, Duke and Kansas. As usual, there is the Cinderella team, in LSU, and a national power, in Duke. The Final Four is the talk of the sporting world, and right here in Belleville, there are a number of fans who will watch the games this weekend with interest. This past week, I had the chance to speak with some of our coaches, in what has become an annual story on local predictions.

Softball coach Carl Corino, who boldly predicted last year that Georgetown should win because they're so fierce and do so many things that can beat you in so many ways, is looking to avenge the '85 prediction by going with Kansas. "I've liked Kansas all season long," Corino said. "They've been my pick to win it all, and I'm not going to pick against them now."

Track coach John Zanfani was the only coach interviewed in '85 to pick Villanova over Georgetown. This season, the coach is following Corino and picking Kansas.

Football coach John Senesky had some good logic in his choice.

"I'd like Duke," Senesky said. "Why? Because they have nice uniforms, the coach continued. "I'm disappointed because there is no NFL in the spring. I miss the games."

Sniffing for logic.

Girls' basketball coach Karen Fucello, a big believer in both the mens and womens tournaments, favors Duke, but jibes a little more sound logic than Senesky.

Duke seems to have it all together," Fucello said. "Right now, it's hard to see them lose to anyone."

One of the biggest fans of college hoops at Belleville High is former baseball coach, George Zanfani.

Zanfani was in seclusion following Kentucky's loss to LSU last Saturday, but the coach graciously broke his silence to make his prediction.

Louisville and Duke with Duke winning," Zanfani said. "Dawkins, Johnny, Duke's All American guard, is the difference. He's phenomenal. Duke is too strong underneath, also."

In closing, Zanfani added, "it would have been really nice to see a Louisville-Kentucky semi final, but it's not going to happen. I think CBS would have liked it, too."

Junior varsity boys' basketball coach Don Roll, also favors the Duke Blue Devils. Roll, like all the other coaches interviewed, thinks that Louisville will dispose of LSU in the semi finals.

Last season, volleyball coach Grace Worley selected St. John's and Memphis State in the finals, with the Redmen winning. Needless to say, she was off in her selection. This year, the coach is going with the favorite.

"Duke and Louisville," Worley said. "It's safer than last year's pick."

Former boys' basketball coach Joe Papasidero likes Kansas and Louisville in the finals, with Kansas winning it all. It should be noted that Papasidero mortgaged the proverbial ranch of Georgetown last year and provided the infamous quote, "If I were a betting man, I'd go with Georgetown."

That's eight coaches interviewed, with five picking Duke and three, Kansas. Last season, I joined the bandwagon and selected Georgetown over Villanova. This season, I'll try something different.

I like Louisville to win and the reason is better depth. In last week's column, I picked Duke, Louisville, Georgia Tech and NC State for the Final Four. I then went with Louisville and Duke for the finals. Louisville seems to find a way to win and usually plays its best ball this time of year. The Cardinals also have the experience of Final Four play. They were in the Final Four in 1980, '82 and '83 winning it all in '80. Milt Wagner of Louisville, formerly Camden High School, has been to the Final Four in '82 and '83 and should provide the leadership necessary.

Zanfani provided an interesting sidelight to the Final Four. The Big Apple NFL played in late November, featured three of the teams that are playing in Dallas on Saturday. Duke, Louisville and Kansas all started the entire season in New York and will now and it in Dallas. By the way, the fourth team in the NFL was St. John's.

Girls' coach Fucello picked the University of Texas to beat USC in the women's finals at Lexington, Kentucky, this weekend. While the women do not have the fanfare allotted the men, it should be noted that the women play some excellent basketball. Also, the women play with a 30 clock, as opposed to the men's 45 clock that was instituted last season.

Local Hoops

Local coaches, Leon Puentes and Chris Chiaramonte, members of the Belleville boys' basketball program this past winter, will travel to Maryland later this season. The three took part in a Church League, playing for the Silver Lake Baptist Church. The competition featured players from NNJL opponents and head coach Rocco Colucci was very happy with the boys' progress. Maryland will be the site of the national finals for the tourney and should be good experience for the young players. Sockashi and Puentes were vital ingredients to the '85-86 team and, being only sophomores, could be key players for years to come. Chiaramonte showed marked improvement in the latter portions of the season and could be an important part of next seasons team.

Last Week's Fun

The teams in the '75 Final Four were UCLA, Louisville, Kentucky and Syracuse. Kentucky defeated Syracuse, and UCLA opened Louisville. The Bruins then won the finals, 92-85, over Kentucky.

'Strong field, weak bat'

Girls' softball team working hard for Queen of Peace opener

Strong field, weak bat. That's the early diagnosis for the Belleville softball team, class of '86. Head coach Carl Corino is working his team hard in anticipation of the opener on April 1, at Queen of Peace High School.

The Bucs will have a busy week of scrimmages. Last Monday, the girls were in Lodi. On Tuesday, they faced Westfield and, yesterday, moved in Cedar Grove.

This afternoon, the girls will host West Orange in the final tune up before the opener.

"We've had a few scrimmages and things are starting to come around," said Corino, beginning his seventh year as varsity coach. "We have a full week before the opener and we need a lot of work. The weather has been bad. It's cold, but there's nothing we can do about that."

As has been the case in previous years, the girls look good in the field, but are weak at the plate in the early going. Usually at this time of year, the pitchers are ahead of the hitters.

The infield looks set with Trish Tramulita at third base, Desiree Johansen at shortstop and Laura Caruso behind the plate. At second base, freshman Laurie Dondarski and junior Janet Reiman are vying for the starting spot. At first base, senior Dina De Medier and sophomore Sandy Brew are battling for time position.

Corino is happy with the pitchers thus far, namely Michele Calderone and Jeanine Luzzi. In a scrimmage against state power Mendham last Saturday, Luzzi pitched very well. Calderone, picking up after

a fine freshman campaign in '85, has been steady and effective.

She goes out there and throws strikes," Corino said of Calderone. "She's very steady for us. Luzzi is doing a very good job. We saw last year that she has talent and now, she's starting to come around."

The fact that both Calderone and Luzzi are sophomores certainly gives Corino optimism for both '86 and the future.

The outfield is where Corino is concerned. In right field, Sherri Sorrentino is set. She played very well in '85 and should add stability.

However, the center and left field positions are up for grabs and Corino has no idea of who to go with at this time.

Golf team champs ready for season

By Michael Lamberti

"It's been one of the most successful sports at Belleville High School over the past five years. Last year, it won the NNJL championship in a supposedly "rebuilding" season. Now what will Rocco Colucci and the Belleville High golf team do for an encore in 1986?"

The linksters open the '86 campaign on April 1, with a match in Glen Ridge. On the third, the Bucs travel to Paramus Catholic and on April 8, will be in Caldwell. The teams first home match comes on April 11, with Essex Catholic providing the competition.

The Bucs schedule this season will be quite a test. In addition to Glen Ridge, Caldwell, Paramus Catholic and Essex Catholic, difficult challenges will come from Bergen Catholic, Don Bosco Prep., Clifton West, Essex Kearny and Bloomfield.

"We have a decent team," Colucci said, "but with that schedule, we're going to have our hands full every match. This will be a very challenging season to say the least."

Belleville returns just one senior from the team that went 10-8 last year and captured its first conference title. Brian De Furia, a four year player, gets the nod at the number one position, and he joins an impressive list of former Belleville number one linksters.

Last season, Greg Simone held the position. In '84, it went to Jimmy Apple, in '83 Joe Pontella, in '82 Jack Mallick and, in '81, Colucci's first year at the helm, Ron Wittmann was number one.

De Furia has an impressive

list of credentials, most notably, being named first team, NNJL, in 1985. He should prove to be more than capable at the number one post.

After that, however, Colucci is making no predictions.

"It's a tossup after De Furia," Colucci said. "We have some good players, but right now, I haven't decided on who will play where."

Juniors Joseph Tower and Tim Nielsen look like strong candidates for the number two position. Ditto for sophomores Mike Dasaro and Jeff Apple, Jim's younger brother.

Other sophomores that could see varsity action are Joe Cerretto, Joe Dente and Joe Sequerra. Freshmen Chris De Haima, John Capriglione and Ed Reilly should gain experience for the future.

The top five linksters count in a teams score, so Colucci will have some decisions to make on where to place the top five in regard to position.

The golf teams at Belleville have been very successful. Since Colucci took the head coaching position in '81, the team record is 48-25. Ironically, the 10-8 mark compiled last year was the worst in the Colucci reign, however the team captured its biggest honor by taking the NNJL crown.

Who knows, Colucci said of the '86 team. "We have a decent team, but we could go winless with the schedule we have this season. It's all a matter of how the team performs and the improvement the kids show during the season. This year should be a good test for the team."

Bucs rebuild infield for upcoming season

Beginning his fourth year as head coach of the Belleville baseball team, Ralph La Conte is "cautiously optimistic" in terms of the 1986 team.

The Bucs open the season on April 4, at Bergen Catholic, starting at 4 p.m. The following day, the Bucs will host Vailsburg in an 11 a.m. start.

La Conte, who has compiled a 42-34 mark in his first three years at the helm, knows the expectations being placed on his team.

"We had a good year last season," he said, referring to the 18-8-2 mark the teams finest since 1981. "However, we have

some critical positions to fill this season. We lost our entire infield to graduation. The weather has not been good so far this spring and we have a way to go."

The coach pointed out that poor weather is a sign of the times for March and he's not worried about preparation.

"I don't want the team to be peaking now," he said. "It's too early. I would say, we're right on schedule and I'm hoping we will round into a pretty good team. My main concerns at this time are intensity and concentration."

Knicks & Nets win basketball divisions

The Knicks and Nets have won titles in their respective divisions of the Junior Basketball League sponsored by the Belleville Recreation Department.

The Knicks won the title in the 8-9 year old division with a 6-1 record. Team members were: Andrew Curran, Kevin Davis, Kevin Davies, Brian and Robert Dena, Chris Imperatore, Clifford Mann, Pat O'Brien and Jeff Tap. Coaches for this year's Knicks were Eugene O'Brien and Jeff Imperatore.

The Nets secured the 10-11 year old division with an impressive 6-0 record. Team members include Anthony Garofano, Kevin and Ken Johnson, Jeff Knibbitt, Tom Porowski, Richard Powell, Jeff Raback, Mike Papp and Keith Vito. Coaches for this year's Nets were Chuck Ryle, Doug Stone and Tom Garofano.

In action two weeks ago, the Knicks were defeated by the 76ers 11-9. The Nets were led by Mike Mundy with nine points and Mike D'Onofrio with two points. The Knicks' scoring came from Jerry Turi, Robert Dena, Cliff Mann and Kevin Dena with two points each and Brian Dena with one point.

That same week, the Nets defeated the Bulls 17-14 in the 8-9 year old division. The Nets were led by Eric Zappi with 14 points, Jim Berg and Elizabeth Ramirez with two points and Tom Esposito with one point. The Bulls' scoring came from Markese Beverly with seven points, Dennis Dewick with four points, Kei Durand with two points and John Vail with one point.

In the 10-11 year old division, the Celtics defeated the Lakers 21-12. The Celtics were paced by guards Chris Marcantoono with eight points, Jim Wandling with five points and Robert Cetrulo. Mike Jancelli, John Engdahl and Dana Damiano with two points each. The Lakers were led by Danny Della Sante and Danielle Dewick with three points each, Brian Harvey with four points and Dennis Dewick with two points.

The Lakers and Celtics finished the season in a tie for second place.

place.

In other action, the Nets defeated the Bulls 28-7. The Nets were led by Ken and Kevin Johnson. 5nd Tom Porowski with six points each, Tom Garofano with four points and Mike Papp, Jeff Raback and Richard Powell with two points each. The Bulls' scoring came from Anthony Parmese with two points.

In action three weeks ago, the 76ers defeated the Bulls 22-17 in the 8-9 year old division of the Junior Basketball League. Mike Mundy led the scoring for the 76ers with 14 points and Jim Landon with eight points. Markese Beverly led the Bulls with 11 points while Domenico Arduini and four points and Ken Duff had two points.

In the same division, the Knicks defeated the Suns 13-10. Pat O'Brien led the Knicks with 10 points, while Jerry Turi scored two points and Robert Dena scored one. The Suns' offense was led by Eric Zappi's eight points and Steve Collett with two points.

In the 10-11 year old division, the Lakers defeated the Bulls 24-13. Dennis Dewick led the Lakers offensively with 12 points while Danny Della Sante scored 11 points. The Bulls' scoring came from Mike Cish with eight points and Anthony Parmese with five points.

In the second game of the division, the Nets defeated the Celtics 36-16. The Nets were led by Jeff Raback with 13 points, Ken and Kevin Johnson and Keith Vito each with four points, and Anthony Garofano with two points. The Celtics' scoring came from Mike Morgan, Chris Marcantoono and Jim Wandling, with four points each and John Engdahl and Robert Cetrulo with two points each.

Individual statistics are as follows: 8-9 year old division: Mike Mundy of the 76ers, 63 points; Pat O'Brien of the Knicks with 53 points; Eric Zappi of the Suns with 54 points; Jim Landon of the 76ers with 31 points and Markese Beverly of the Bulls

Recreation Department offers track program

The Belleville Recreation Department will be offering a recreation-track program for boys and girls in grades six, seven, and eight. The program will be conducted two, three days per week at the Belleville Municipal stadium during the same time periods that the high school team practices.

The program, which begins April 7, will be designed to introduce aspiring runners to the fundamentals of track and field. Participation, rather than competition, will be stressed. Training will consist of instructions and fun activities, instead of intense physical workouts.

Children who reside in Belleville are eligible. Those children who will be playing baseball or softball cannot take part in this program, however, since practices and schedules will conflict.

To register, come to the Recreation office at 407 Joralemon St. between 8:30 a.m. - 4 p.m. Monday, Friday, with a birth certificate.

Bucs rebuild 'around the horn'

(Continued from page 13)

The Blue infield lost Dean Sternik (second base), Joe Mulaney (shortstop), Joe Feith (third base) and Steve Mulhearn (first base) from last season's successful team. Replacing those valuable players won't be easy, but La Conte is optimistic.

Working at first base are juniors Anthony Pucciarello, John Nardichone and Al Best. The second basemen are Phil Zamlot and Steve Coffey. At shortstop, Allan Ruopp has the advantage, but sophomores Jeff Spillbury and Dean Mauro should also see some action.

At third base, Joe Perna, Jaime Galioto and Jay Marchese

Knights win semifinals; Pete's Sake takes league

In the Belleville Recreation Department's Over 30 Men's League semifinals, the Belleville Knights defeated Modern Mill 44-42, and Barry's Go-Go 42-39 in an undefeated record by Spitz, Vito, Sylvester, Garden, Marter, 56-53.

In the Men's League For Pete's Sake, led by Theo May's 12 points, defeated Club 36 East 53-52 for the championship.

Recreation Department needs baseball/softball coaches

The Belleville Recreation Department needs coaches for boys' baseball and girls' softball leagues.

Men or women interested in coaching a team in Penna. Baseball League for ages 8-9, Pee Wee Softball League for ages 8-9, Junior Baseball League for ages 10-12, Peewee Softball League for ages 10-12, Intermediate Senior Baseball League for ages 13-18 and the Junior Girls Softball League for ages 13-15 are asked to contact the recreation department at 450-4422 for information, basic skills and for the objectives of the leagues. Every player on each team who attends required practices will play in every game.

Girls' softball team working hard for Queen of Peace opener

(Continued from page 13)

"No one has been hitting," Corino said of the six outfielders vying for the two spots. "The defense is a little shaky also. I might have to go with a rotation schedule for the outfield until somebody begins to pan out."

The girls lack varsity experience, but Corino is optimistic about their talent.

Three juniors, Samantha Russomanno, Danine Rock and Cindy Ruggiero, two sophomores, Danielle Walker and Raquel Melson and one senior, Tracy Delaney are battling for starting berths.

Melson is off to a slow start because she has been ill. Corino was hoping to get the sophomore in to some scrimmages this week.

The girls battled North Arlington, Verona and Mendham last week. North Arlington, according to Corino, has a good team and Mendham, led by its all state pitcher Tracy Kennedy, should also be strong.

"We couldn't hit the ball against Mendham," Corino said. "They have three very good pitchers on that team and we couldn't find a hit."

Hopefully, with the weather warming up, the bats of the Belleville offense will find the pace in the outfield can be settled soon. The 1986 softball team could be in pretty good shape.

Wrestlers' Spotlight

Silletti's athletic background proves an asset to varsity team

By Joe Piegario

This week's spotlighted wrestler is senior David Silletti. A three sport letter winner, Silletti is one of the more rounded athletes on the BHHS varsity squad.

A two-year letter winner in football, he played the game for the sheer enjoyment of physical contact. Also a two-year letter winner in wrestling, Silletti was attracted to the sport because of the challenge involved in head to head competition.

Silletti's third letter came in crew, where the demands for physical conditioning and endurance

were too much of a challenge to resist.

As a senior tri-captain on the wrestling team, he topped off his athletic career at BHHS by attaining every level of recognition. Six letters, captain of the team and a certain award of either the Joe DeBacco or Chieffo Award are not exactly chopped liver.

As a student, Silletti has also established a record of excellence. Ranked in the top 100 of his class, he has already been accepted to Florida State University. His mind has not been made up as to which college he will attend, as Central

Connecticut and close friend Mike Gibbons are tugging at his ear. Both schools, however, will be getting the better of the deal if Silletti so chooses.

Silletti ended his varsity wrestling career with a 14-8-1 record and a fourth place finish in the District 7 Championships. Lifetime, he had a 22-13-1 record for a winning percentage of .629. Should he decide to compete in as many sports in college, his record will reflect the same aggressive, free spirited style he exhibited at Belleville High.

A wrestling-oriented family stands behind Phil Zamloot

Phil Zamloot comes from a wrestling-oriented family. Older brothers Sam and Russell both earned letters before him and left a solid foundation on which to grow.

All three have the same quiet, laid back type of personality, along with the same type of hard working, no-nonsense work ethics. Last year, as a sophomore, Phil was undefeated and united as a javyee 108-pounder. He also won first place titles in the Elizabeth Muleman Tournament and the Kearny Javyee Tournament.

Most observers were shocked this year when Zamloot decided to compete at 135 pounds, fearing he would not be able to handle the tremendous jump in weight in just

one year's time.

Zamloot responded by placing third in the District 7 Championships and earning a trip to the Regionals in his first varsity season. With a 12-10 record, he was unchallenged at 135 pounds on the varsity squad. He had the misfortune to be paired against the first or second place finisher in every tournament he entered this year.

In the Elizabeth Tourney, he lost to the eventual champion, Ray Formicola of Long Branch. In the Bloomfield Christmas Tournament, he was dethroned by gold medalist Art Cuffari of Bloomfield. In the Districts, Zamloot upset Dave Lutz of Nutley before being paired again with Cuffari in

the seminals.

Still growing in height and weight, who knows what spot in the lineup Phil Zamloot will occupy next year on the varsity team. Just be sure that wherever it may be, expect Phil to respond with hard work, dedication and a gold medal.

Horowitz-Alekel helps people resolve problems

Advertisement

For Rhoda Horowitz-Alekel, helping people with their personal and emotional problems is much more than a profession. It is for her a commitment that involves her own feelings, a sharing of self that goes far beyond intellectual analysis.

"I am willing to examine my own emotions and my own past experiences in working with my patients," she said.

Horowitz-Alekel believes that this deep personal involvement has been the key to her remarkable success in helping her patients to resolve conflict, change behavior and achieve inner peace.

In private practice for more than 10 years, Horowitz-Alekel began her career at Kings County Hospital's In-Patient Ward where she encountered every kind of emotional problem.

"In both crisis work and ongoing therapy, I quickly discovered that the first and most important thing to be established between patient and therapist is trust," she said. "Trust is established when people realize I accept them for who they are and that I am not judging them. Once people have the feeling they are understood, they usually speak more freely."

Trained in modern psychoanalysis, Horowitz-Alekel says she believes that a good therapist must work in a non-intellectual way to "strike a balance between emotional involvement and professionalism."

This is an acquired skill and if the therapist is not willing to change and grow emotionally with the patient, the therapy stays at a "safe," non-

productive intellectual level, she said.

"I try to maintain an atmosphere that the patient actually looks forward to, rather than one that produces anxiety," she said. "To achieve this I keep enough of a distance to allow people to speak and emerge at their own pace. I don't tell them about themselves in a destructive way or say, 'This is what's wrong with you.' My aim is to create an environment in which the patient feels good about him or herself. It is only when people feel positive about themselves can they make their own discoveries, see new opportunities and breakthroughs come within."

Horowitz-Alekel's techniques have been successful with all kinds of problems and she has worked effectively with families and individuals of all ages and backgrounds. Marital therapy, adolescent problems, drug and alcohol dependency, depression, anxiety, schizophrenia, anorexia, weight problems, and personality disorders are some of the difficulties that she has been successful in alleviating.

"I find that I am effective in helping people to get a handle on things, to focus on the roots of problems, then helping them to move ahead with confidence, to get from life what they need and want," she said.

Horowitz-Alekel, also a weight watcher lecturer, conducts group sessions and will begin a weight loss group the second week of April. Another group focusing on how married and unmarried couples can have a good relationship will begin soon.

Horowitz-Alekel can be reached at her office in Montclair at 783-3907.

School budget presentation...

(Continued from page one)

Besides the effect the school budget will have on the quality of education in Belleville, some members of the audience were concerned with the state mandatory \$10 per teacher salary.

According to Ed Appleton, \$178,913 appropriated by the state to cover these salaries will be put directly in the budget. In earlier discussions, Appleton noted that the budget committee took \$38,000 from surplus monies

and added it to the \$178,913 in order to make up for the \$24,751 reduction in state aid given to Belleville.

Teachers' salaries and benefits, along with those of administration, and the cost of instruction, transportation, operation of plant, maintenance and athletics are incorporated in the fixed portion of the budget, which according to Appleton, is approximately 88 percent. That 88 percent (more than \$15.5 million), he said, demonstrates what the needs of the school district are and where the money is being spent.

"Don't talk to me about fixed costs," Vincent Frantantoni of Mt. Prospect Avenue said. "We're not getting the quality. Let's think about lowering the fixed costs."

Frantantoni cited the incompetency of secretaries at the middle school by telling the board how his wife was called at home, not one, two, or three times, but five times, concerning the absence of their son when in fact, he was in school.

"We're paying these people's salaries," he said. "Teachers work 180 days for \$18,500 while the average working man works approximately 263 days."

Although 88 percent of the budget is fixed, the remaining percentage of the budget can be increased or decreased, Ed Appleton said. The areas in which monies can be changed are that of books and supplies, tuition, student services and support services.

Despite objections to the budget, Appleton reminded members of the audience that surplus monies have already been taken from last year's budget and added to the 1986-87 school budget. The surplus for the 1986-87 budget, he said, is approximately \$165,000, less than 1 percent of the total budget.

Appleton, along with members of the board, stressed the importance of the passage of the budget, not only to protect the unfixed portion of the budget, but for the fact that \$459,952 of the budget has been appropriated for necessary repairs to the middle school.

Voters will have a chance to decide the fate of the \$19.4 school board budget at the polls on Tuesday, April 15.

DENTALLY SPEAKING

By Drs. James D. Muglia and Paul N. De Maio

Mrs. R. of Nutley writes: "I'm concerned about oral cancer. Is there any self-examination I can do?"

Excellent question Mrs. R. The self-examination you can and everyone should do is as follows: Tilt your head and feel around your neck for any unusual lumps. Grasp your upper lip between your thumb and index finger and make a wide smile. Look for any type of mass. Then do the same on the lower lip. Using the same technique, grasp your right cheeks between the two fingers and again feel for any lumps. Do the same on your left cheek. Finally grasp your tongue again feel for any lumps.

Look at your gums and mouth area for any discoloration or unusual marking. Observing these areas follow by feeling for any lumps that may be under the skin's gum surface. This technique requires some supervision initially so have your dentist go over this self-examination technique with you.
