Police report two deaths in less than a week

By Christopher Bifani

By Christopher Bifani
Severe accidents resulted in two deaths and serious injuries this past week both in town and on the freeway, Refleville Police said.

The first accident occurred at around II/4SPM. Thursday, resulting in the death of Jason McMaster, 20, of Chestnut Street in neighboring Kearny. Driver of the car, Diane Fasula, 27, suffered a fractured femur, foot, and shoulder along with multiple lacerations and a possible concussion. Passenger Donna Powell, 23, of North Arlington, suffered facial and head injuries, Belleville Police reported.

Police said the trio was proceeding south on Main Street in a 1987 Honda CRX, a two seater model. The vehicle crossed over into the opposite lane striking a 1985 Astro Van driven by Kenneth Santucci, 43, of Newark, with Arthur Staikos, 66, of Glen Ridge in the passenger seat. Santucci suffered chest trauma, a fractured nose and head injuries. Staikos suffered a dislocated hip and a fractured pelvis.

fractured rose and head injuries. Starkos suffered a dislocated hip and a tractured petvis. Belleville Police Captain AI Koelsch, who heads BPD's traffic accident department, said that Belleville Police are investigating the incident along with the Essex County Prosecutor's Office to determine if alcohol was involved. Koelsch said an autopy of McMaster would be completed within three weeks, but that information on the driver of the Honda CRX would be subpoenced by the Essex Prosecutor from University Hospital of Newark, where Fasula was admitted.

Koelsch added that a preliminary investigation of

### Mayor Michael Pizzi

By Christopher Bifani

Belleville Mayor Michael Pizzi has gone from being the quietest commissioner on the board to the Mayor of Belleville, The elevation, which resulted from a 3-2 private this month's election, came as a "pleasant surprise" to Pizzi. And the promotion has quickly thrust the "quiet" commissioner into the town and county spotlight, where he says he is eager to perform. This week the Times spotlights Mayor Pizzi and Commissioner Vincent Frantantoni. See the Times next week for additional commissioner spotlights.

He added that there are likely 3,000 or more dogs intown, and that the canvassing of houses, to be carried out largely by off dutypolicement and crossing guards, should yield about 300 new licensees, in addition to those that have been "dogging it" instead of renewing their 1986 licenses. Russomanno says that any townspeople who have not renewed their dog licenses by the end of the month will be subject to \$20 fines. Based on past years, he figures about 200 scofflaws will evenutally be fined, yielding \$4000 in fine money which is used to pay for the township's humane society committment. # Think about it...

The news is not always good.
Sometimes it's soughy you don't want to read about it, or look at it, or even think about it. Like stories about accidents which occur right in your hometown, and which result in death to a man and a woman, both onder 30 with their whole lives ahead of them.

But they are stories that have to be told, especially at graduation time, when hundreds of township children will be on the roads for the very first time in their very first cars.

their very first cars.

Because parents and teens alike can learn from these tragic accidents.

The graphic picture on page one is proof that there's a fine, fine line between life and death when you're speeding down the road.

What can we do to make sure that our young people are well-guarded against traffic fataltices?

The first thing, of course, is the seat belt. But everyholdy knows that, I hope.

bumpers for protection in the event of a collision or loss of control? Later on, once a kid has the privilege of driving down pat, he or she can get a small car. But in the beginning, when a kid is first learning the road, is it really wise to bet a few extra miles per gallon against your child's fife? Think-about it.

As Essex County Prosecutor, Herb Tate, Jr. is obliged to manage the department of government that is not in the business of making money. Sending people to jail is an ex-pense with no profit to anyone the total of society suffers from the process.

However, burglars, rapists, drug dealers and other criminals must be apprehended, given a fair trial and receive the "just rewards" of their misdeeds.

All this activity costs money a commodity that is not in plentiful supply. The Essex County
Freeholders through their president, Thomas Giblin, and Essex
County Executive Nicholas
Amato, have asked all department heads to submit budgets that would not exceed last year's operating costs. All department heads honored the request ex-cept Tate The Prosecutor said he tried to cooperate by cutting \$1.1 Million from his original re-

We have great respect and ad- quest of \$15.2 Million which county administrators said represented a 25 percent in-

crease over last year.

Tate argued that police agencies which send cases to the county "do not stop arresting individuals because of budget constraints." We know from personal knowledge that often local municipal judges automatically refer criminal matters to the County Prosecutor's Office sometimes justifiably, and sometimes not justifiably. What the Prosecutor should be looking at is the file on cases referred to his office by the municipal judges. More than likely, Mr. Tate could cut his work load by sending back to the municipal court for trial a number of the cases received from the judges at that level.

At any rate, it behooves a competent, dedicated public official like Mr. Tate to make every effort to produce a budget in line with the county policy. Instead of putting the criminals first, our priorities should address the needs and problems of our taxpayers to a higher degree.

# Senator Frank Lautenberg

Our Montelair neighbor, U.S. Senator Frank Lautenberg, is chairing some very interesting hearings on the Super Fund ex-penditures by the U.S. En-vironmental Protection Agency.

A specific concern to Senator Lautenberg is the cost to hire contractors to implement the Hazardous Waste Clean-Up Program. The hearings have produced information that leads Lautenberg to charge that the Super Fund program has been hampered by waste, and con-tractors have been systematically raiding the public treasury by

overbilling. The basis for Senator Lautenberg's complaint is an audit report covering the years 1983-84 which was released last September. Most of the abuses, according to Lautenberg, involve the emergency response portion of the Super Fund program. Lautenberg charges that the EPA frequently paid excessive rates for the use of clean-up equipment. One example that Senator Lautenberg gave was the use of a two inch trash pump used by contractors and subcontractors. On an hourly basis, the contractors paid an average of 10 cents an hour for the use of

the pump, but charged the federal government \$16 an hour. Subcontractors' mark-up on an hourly basis for hand tools was 6,800 percent. The percentage dropped if the EPA was billed on a monthly basis.

EPA officials agreed that the agency "has had some real problems in administering the Super Fund program." One of the problem areas that

Lautenberg pinpointed was the EPA's reliance on just four prime contractors to do emergency response work. Limiting the number of contractors on an approved list practically eliminated competition, according to Lautenberg.

As a result of Lautenberg's expose, EPA has taken steps to increase the number of contractors, planning to add 16 this year and another eight next year. In order to accomodate the additional administrative work, the Agency will double the size of its contracting staff.

Taxpayers owe Senator Lautenberg a debt of gratitude for digging into the dark corners of government and bringing to daylight areas that waste mil-lions of taxpayers' dollars. Thank you, Senator

# Well-scrubbed with pride...

To the editor:

On Saturday, May 16, 1987, the Belleville High School Music Department held a car wash to raise money for the 1987-1988 school year. I would like to commend each and every one of the students who had partaken in this event.

It really makes me happy to see everyone working together for a good cause. The Belleville School System has a slogan which reads: "Good Things Are Happening in Belleville Schools." Seeing the concerted effort the students illustrated last Saturday not only gives validity to this statement, but also demonstrated the kind of devotion and interest in their school that more students should have.

I am sure that the success of these students will not stop there; they will most likely succeed in all of their future endeavors. They should consider themselves the innovators of the future. They have given reason for the Belleville School System to take pride in itself.

To all of those involved with this extravagant event, I commend you. You should be proud of your accomplishments

Very truly yours, Anthony Iannini, Belleville High School

# Big league comments for Little League fans...

Spring is here and along with Spring comes Little League baseball. We are entering our third week and already I sit in the stands doing a slow boil listening to some of the comments

from parents and fans.

Following are two elippings (from magazines) which is a good reminder for parents and fans. I hope you will print them both.

Mary K. O'Connell Branch Brook Drive

He stands at the plate with heart pounding fast.
The bases are loaded, the die has been cast.
Mom and Dad cannot help him, he stands all alone.
A hit at this moment would send the team home.
The ball meets the plate; he swings and he misses.
There's a groun from the crowd, with some boos and some hisses.
A thoughtless voice cries, "Strike out the bum."
Tears fill his eyes; the game's no longer fun.
So open your heart and give him a break.
For it's moments like this, a man you can make.
Keep this in mind when you hear someone forget.
He's just a little boy and not a man yet.

— Bob Fox

Dear Parents and Fans:

Dear Parents and Fans:
Well, here is another baseball season,
so, I am writing to you for just one reason.
Please don't scream, or curse, or yell,
remember I am not in the major leagues,
I am only ten years old,
and can't be bought or traded or sold.
I'm not looking for baseball fame,
I just want to have fun and play the game.
Please don't make me feel I've committed a sin,
because my team didn't win.
I don't want to be that great you see,
I'd rather play and just be me,
And so, in closing I'd like to give you one tip,
remember the name of the game is SPORTSMANSHIP!

# Gracious in defeat...

I would like to take this opportunity to thank the 1,152 Belleville voters who personally voted for me on May 12, 1987. I would also like to commend all the other voters who took time out to exercise their right to vote. The light voter turnout was disappointing and it indicates that we take our right to vote for granted.

I congratulate the five commissioners on their election victories and wish them the best of luck for the next four years, because with all the problems facing our township they are soing to need it.

This letter is being written for three reasons. The first and most important teason is to thank the people in Belleville that both voted for and supported Jim Messina in last week's election. A special thank you to all his workers for they worked very hard and did an

The second reason is to say that if anyone wants some factual information about Jim and his accomplishments, past and present, come to me this Morn) and I will be glad to supply it.

Most of our family were born, raised and educated in this town with our ancestry going back to 1883; as a matter of fact, during the Depression years, my grandfather was a commis-sioner in Belleville. Just remember Jim's name, because you will be seeing and hearing from

him around town and he will be back again in four years!

And last, our congratulations to the new commissioners

# Freeze access charge

We are impelled to again strongly urge all telephone subscribers to write their U.S. Senators and Congress representatives requesting them to freeze the unconscionable them to freeze the unconscionable "access charge" at \$2, this burdensome \$24 a year surcharge, scheduled to go up to \$42 a year, whether used or not, is designed to lower phone rates for long distance calls and can only be stopped by Congress where such an attempt is now being pursued.

# Golden Comments

By James R. Golden

Our U.S. Senator Frank R. Cur U.S. Senator Frank R. Lautenberg and Congressman Robert Roe have both responded to our correspondence on this matter by expressing their own concern on this issue. Senator Lautenberg writes, "I understand your concern about the plan to increase subscriber line phares to \$2.60 in concern about the plan to increase subscriber line charges to \$2,60 in June of this year, \$3,20 in June of this year, \$3,20 in April 1989. Legislation has been introduced in Congress, \$2,09 and \$3,1074 in the Senate and H.R. 782 in the House of Representatives, which would prevent any increase in subscriber line charges." He assures that he will closely review legislation on this issue with your concerns in mind. Congressman Robert A. From the foregoing commentary it is obvious that strong opposition to the reprehensible, extortive \$3,50 a month, \$42 a year, "access charge" added on our phone bills must not be permitted to inccrease beyond the present \$2 a month, \$24 a year addition to our phone bills.

That is why you must write your Congressional representative telling them that you want them to freeze the access charge at \$2, or better yet, urge them to eliminate the damn charge all together. We, the people, should not have to pay for a service we don't use, just to provide lower phone bills for corporations and business firms, a la the big business syndrome so the big business syndrome so popular in Washington's present administration sphere. ## Condo-craze counter-attack...

The outlook of Belleville's condominium situation just seems to worsen with each passing Zoning and Planning board meeting.

Over the past few years I have attended many Zoning and Planning board meetings. And at each meeting more and more citizens are attending to protest against the uncontrolled condominium development in our town.

At the last Zoning board meeting held on May 5, I along with many citizens protested the planning development of 21 three-story condominium units, which are to be built at 92 Greylock Avenue. The property is now occupied by the Belleville Can Company. The proposed development is in direct violation of several of our zoning ordinances and our town's master plan. One violation is that the property is located in an LB Zone, which is an Industrial District.

Second, the developer is also asking for a variance to exceed the density requirements.

Second, the developer is also asking for a variance to exceed the density requirements. Third, there is insufficient on site parking on this small lot, causing the developer to include 3 additional lots in his site plan. Also the 3 lots are not adjacent to the proposed lot, but they are across the street at three different locations. Fourth, the capacity of the existing sewer and water lines are not being properly addressed.

The very liberal granting of these variances are overloading our sewer systems and creating many other problems such as garbage disposal, parking, increased police and fire protection, loss of open space and reduced quality of life.

Aside from the problems there are a lot of questions that need to be addressed. One, why knock down homes that are in good livable condition, and presently occupied? Second, why knock down a building that is zoned for industry and change the zone to multi-family zone? Third, why doesn't the Planning and Zoning board require developers to complety with our town's Zoning laws and Master Plan? After all these are our laws.

In conclusion it appears that the developers' insatiable appetite for profit is blindly changing our suburban character into another Manhattan. This will-only lead to higher taxes and more problems for our citizens, so it is imperative that our citizens join us on June 2, for the next Zoning Board meeting at

So it is imperative that our citizens join us on June 2, for the next Zoning Board meeting at 383 Washington Avenue (Public Affairs building) at 7:30 p.m. Together, we must put the proper reigns on the development of our town.

# Tell it to Sweeney...

To the editor: "Tell it to Sweeney!" was an exclamation often used during the 1930's — whenever

one doubted the veracity of a statement, or the sincerity of a promise made.

Considering the many untruths that have emitted from the White House, in the past, I'm quite sure many old-timers find it extremely difficult (when Ronald Reagan speaks) to restrain themselves from rising up in indignation, exclaiming — "Tell it to

# Congratulations - maybe...

To the editor;

To the editor, Congratulations to the people of Belleville — maybe:

The chizens of Belleville must have been fed up with the way things were going, so they voted in a lot of new commissioners hoping for a change. It's our democratic right, but I would like to enlighten a few of you. It seems that the new commissioners that were elected ran with "Slash Taxes" or "Lower Taxes" slogans.

I hope you all don't think that your taxes will drop or even stay the same. In this day and age, services or education standards cannot improve without tax increases. Unfortunately, the tax payers do exactly that — pay taxes to improve their community, although higher taxes do not guarantee improvements. The only thing that guarantees improvement is knowledge and expertise and the incumbent with the most knowledge was just eliminated Mayor Michael Marotti.

It seems to me that the mayor was voted out because of the new town hall issue. If this is the case, my fellow citizens, then I<sub>0</sub> think you are both shortsighted and have very short memories. Mike Marotti has done more good for this town than anyone else since I have lived here.

I bought my home in 1941, raised my three children and supported the school, recreation programs and the past Board of Commissioners for 46 years. I just can't understand how so meone who has instituted so many valuable programs and helped the taxpayers by improving their community could be voted out. How could you let all the good that he has done be outweighted by one unpopular issue? The issue could have been dealt with.

I would like to wish all the new commissioners good luck. If you can do half the job that Michael Marciti did. You will be successful.

Michael Marotti did, you will be successful.

The James J. Cozzarelli Jr. Children's Room of the Bellevilthe James J. Cozzarell Jr. Children's Room orthe Belleville Public Library announces a major change in its summer reading program. For many years, the concluding parties for children participating in Belleville Public Library's summer programming for children, have been held at the end of August. However, this year, the final parties are scheduled for after children have returned to school, on Saturday, September 12, both in the morning and afternoon.

12, both in the morning and afternoon.

Alice Cronin, Children's Librarian, said that the reason for this change in date is that most families are either away at the end of the summer, or are busy getting their children ready for school. "Hopefully, more children will be able to attend the Summer Reading Club parties after having read so diligently all summer long." all summer long.

# Spotlight on Mayor Pizzi...

(continued from page 1)

Mayor Pizzi was scheduled for a full length interview at the Times editorial offices this past Tuesday, but last minute problems in his schedule forced a telephone inter-view instead. We asked him if his full-time job as an executive with Tropicana, his duties as a family man, his work as public safety head

AND his mayorship might be straining his time.
"I don't think so," he replies, "It

might cut into my family time a little bit, but they're very understanding.

Other questions don't have such easy answers. The big issues facing. Belleville right now, like rising taxes and crime, attracting ratables,

and improving the township's image through both physical improvements and public relations, require more than just one man's -

or mayor's - input. "I'm looking forward to getting started and working with the new board of commissioners. I've got alot of things on the fire and I'm eager to get started." He noted that

the first regual commission meeting is on June 9 at Town Hall at 8PM. Last week, Pizzi performed his

first official ribbon-cutting, at the grand opening of Popular Video on Union Avenuc. How does this first "It's interesting... Like to see new businesses choosing to make Bel-leville their home. It's good to still

see people coming to Belleville."
He noted that the Belleville Chamber of Commerce is doing "a good job" in promoting Belleville's business climate.

Overall, Mayor Pizzi feels he has

the machinery in place to continue "bringing Belleville back," It's just a matter of directing it, he says with an air of confidence tempered with

an an of contractive configuration.

He adds, "Some people have said that Belleville is a lost cause, but I never felt that way. If we do a

good public relations job about what Belleville can offer we'll see

what we can attract."

Mayor Pizzi shed some light on some of the township's most controversial public safety issues. On the proposed public safety building:
"It's going ahead, but there might be some revisions."
Like a fourth floor to make room

for extra parking? "It's possible but it hasn't been discussed. We'll just be looking at

the best way it can go in, cost-effectiviely, efficiently, and in terms of suitability to the police

On adding more foot-patrols:
"Presently we do have foot
patrols, and there's state money
available to help pay for them.
We'll try to increase it. There's no better deterrent than a policeman in uniform.

And on the brighter side of police work the work with children in the schools, particularly programs like "Defenders against Drugs," Pizzi has this to say:
"Police officers project an image, but that image wasn't always a good one. I think these programs give children a respect and liking for police officers." In addition to convincing more kids not to experiment with drugs, Pizzi says that the children will grow up, says that the children will grow up, perhaps, feeling more comfortable when dealing with police officers and knowing that "a policeman is a

Whether or not the many hats worn by Mayor Michael Pizzi becomes too heavy remains to be seen. But now, two weeks from the start of the new Belleville Commission, the Mayor of Belleville seems more than ready for the next four years.

THE tragedy of the U.S.S. Stark is not only that 37 American boys have died in vain, but that the incident gives rise to a frustration that is hard to handle. The moving memorial services of Friday prought tears to our eyes and a prayer to our heart. The accident in the Persian Gulf that led to the deaths of 37 Americans should never occur a second time. That it was an accident, there is no doubt. The question is, could the accident have been avoided? Based upon the facts that are presently known,

the answer is yes.

Down Memory Lane
TRAVELLING over time, I remember as a student, Washington School, Nutley, in common with all school system students, our homeroom class was subjected to surprise fire drills. On one such/occasion, the drill went along very nicely, and because I was the tallest pupil in the class, I was the last in line. And the next tallest was a female. Playfully, I tripped her as we were marching back to class — she fell, it caught the teacher's attention; and when we returned to our homeroom, my teacher sternly addressed me with teacher sternly addressed me with a request, "Young man, I demand you apologize to Alice." Well — my response was that I would never do as I was asked. The teacher said I would be obliged to sit in a chair in front of the classroom until such time as I was willing to make my apology. Three weeks passed and I continued to sit up front facing the students. One day, to my utter surprise and shock, my mother came to class to ask my teacher why I was being embarrassed by getting special, unusual treatment. My mother's visit led to a conference of my teacher, my mother and me. Addressing my mother's question, my teacher-said, "All I wanted Frank to do was to say he was sorry." I asked in astonishment — "Is that asked in asionismment — is that all you wanted me to do? Had I known what the word meant, I would have said I was sorry immediately." I am happy that at a very early age — ten years old, I learned that ignorance is not bliss — that ignorance should challenge - that ignorance should challenge the question. Had I confessed to my teacher, Miss Turner, that I my teacher, Miss Turner, that I didn't know the meaning of the word, "apology." the incident would have been over in two words. So, from that point forward, I began to ask questions even though I was the world's best stutterer — a condition that made me very reluctant to open my mouth to either answer a question or ask one. I reasoned it was better or ask one. I reasoned it was better to stutter through a question than to remain silent and be thought a

fool — or even something worse.

Way back when — I guess I was somewhere in the 18th or 19th year age group, on a sunny Sunday morning on a corner of Hunt Place and Washington Ave., my

brother, Carl, was doing one of the usual things he did on a sunny Sunday morning, hosing down his Sunday morning, hosing down his car. An interested onlooker was my uncle Joe Cocchiola — a gentlemen who always wore a smile. I remember on one occasion, while Carl was hosing down his car, my uncle looked at me and asked, "Why don't you wash your car?" I replied, "I'd rather work a little more, earn more money and pay somebody else the 50¢ that it pay somebody else the 50¢ that it takes to wash the car." Did the reply embody a philosophy? In retrospect, I think it did.

WHO is it that said, "No matter

what color you are, it requires the same amount of nourishment?"

Bill Casey - C.I.A.

I mourn the death of my dear friend, Bill Casey, the former C.I.A. Director who died at age 74. Casey and I had a friendship that lasted over three decades. He was a gifted human being. A brilliant businessman, Casey was a C.P.A. and a practicing tax attorney. I met Casey shortly after the Second World War during the early post-war organization days of the Young Republicans. I was an active chairman of the N.J. Young Republicans, and Bill Casey was very much in evidence Young Republicans, and Bill Casey was very much in evidence at Young Republican gatherings that included New Jersey, Pennsylvania and New York YR groups. Known to only a score of people during the early '50's, the late John A. Wells, a nationally prominent Republican who in 1964 was campaign manager for Presidential candidate, Nelson Rockefeller, organized some Young Republicans into an intimate group known and referred to as The Group. Two members came from outside of New York State, Henry Clay III from Connecticut and yours truly from State, Henry Clay III from Connecticut and yours truly from New Jersey. We held our meetings in various homes of New York City members. On the occasion of our meetings, even while serving as C.I.A. Director, Bill Casey flew up from Washington to join the rest of us. On occasion, he would tease us with some tidbits about C.I.A. problems — without giving away C.I.A. secrets. I loved that man. He had a deep sense of decency and compassion that few outside the inner circle ever saw. Perceived on the outside as a crus-Perceived on the outside as a crus-ty combatant, Bill Casey was anything but. He was a dedicated husband, a loving father and a true friend. Perceived at times as officious, Casey was a very hum-ble man. Casey represented the classic example of a self-made man. With the death of Bill Casey, I lost a dear friend and America lost a great patriot. Casey was no stranger to controversy and never seemed to be taken up by doing things according to the book. Casey was tough on the outside, but soft on the inside. He had strong convictions and didn't mind having convictions and didn't mind having confrontations. Always, he insisted on doing things his way, never doubting his way was the best for America. I remember in

November 1979, Bill Casey called me and asked if I would join with five other mutual friends to meet the former California Governor, the former California Governor, Ronald Reagan, who was looking for presidential support on the East Coast. Twice over a period of a month, Casey called to invite me to meetings for Ronald Reagan—and both times, I had to give a negative reply because on the occasions when Casey and the boys were meeting with Reagan in New York, I was in Ft. Lauderdale, Florida. I grieve over the loss of Bill Casey, more so, perhaps, Bill Casey, more so, perhaps, because there isn't anybody else like him; and hence, nobody can ever fill the void left by the death of Bill Casey. May God bless and

rest his soul.

When told of the conversation, Iacocca was delighted and said, "Give that man a raise." Quite a guy that Lee Iacocca.

# to be a healthy Christian

Pastor Gerald Fortunato Silver Lake Baptist Church

In a frantic quest for good health, many people spend hundreds of dollars on health foods and vitamins. They purchase memberships in spas. They submit to routine physical examinations. Yes, people generally want to be healthy — and they are working harder and spending more money to achieve it than ever before.

Yet in spite of the tremendous advances made in medical science, a large portion of our population is chronically ill. And many people die before they reach age 70. Some, of course, have physical problems over which they have no control. But a number are in bad health because of non-physical factors, such as an anxiety neurosis. Many doctors, therefore, are saying that Now this concept is nothing new or revolutionary, for the idea has been around for centuries. The Greek philosopher Plato, for example, criticized the physicians of his day for taking care of the body but forgetting about the soul. He said, "Many diseases escape them, as they never the the whole." Yes, good health involves the soul, the mind and the body — the whole reson.

whole person.

Let us look at that which we call "the spiritual part" of man. That should be the starting point to good health. A person who knows the Lord and who is living in fellowship with Him has a special advantage. As a spiritually healthy Christian, he enjoys certain benefits that have an impact for good on the mental, emotional, and even the physical elements of his being.

Spiritual health, like almost everything else that is worthwhile in life, is not obtained in a hit-or-miss fashion. To experience it, a person must follow definite guidelines. In order for a Christian to be spiritually healthy, he must:

- 5. Keep a record of all credit cards and where to report any stolen ones

The amount of purse snatching and pickpocketing going on, is far more than revealed by the crime statistics. Since 1960, however, the known number of street larcenies has increased 325 percent

If your purse is snatched, or pocket picked, there is the possibility of suffering a second loss, if the thief is a burglar, or is the kind who deals with burglars. Your home address, keys, and other information will provide the thief with opportunities to rob your home or car. The purse or wallet thief may be triggering a larger theft! Burglary! Take precautions!

If the state is serious about
cracking down on crime, then it
is time to get serious about our
overcrowded prisons.
A \$198 million prison bond issue, which has been proposed for
placement on the November ballot, will give the residents of this
state the chance to show just
how serious we are about keeping dangerous criminals off the how serious we are about keeping dangerous criminals off the streets. After all, the toughest laws, prosecutors and judges in the world do little good if there are no prison cells to hold convicted felons.

More than 5,000 cells have been added to the state and county prisons since 1981, but they have not been enough.

Today, our prisons are operating at about 115 percent capacity. The growing immate population has spilled out of overcrowded cells into the corridors, recreation areas and

# Piece of the rock.

By G. Ross Laidlaw, Pastor Brookdale Baptist Church

Perhaps you read about it in a Perhaps you read about it in a paper in February, a year ago. Roy Whetstine, a Texas gemologist, was visiting an amateur Rock Hound flea market in Tucson, Arizona. As he went through a box of stones, marked \$15, he saw a rock that looked valuable to him. He said to the owner, "Is \$15 what you are asking for this? And the fellow said, "Oh, give me \$10."

In that \$10 box of rocks was a 1905 carat star sapphire with an

In that \$10 box of rocks was a 1905 carat star sapphire with an estimated uncut value of \$2.28.

Roy's good fortune was more than good luck: He had an eye and a feel for value. The difference between an amateur's \$10 rock and a gemologist's \$2.28 find, was the recognition of the special value in that rock.

For those who take the time to

that rock.

For those who take the time to become aware of the value in rocks, there is a reward.

The same kind of awareness is essential to note the difference between religion, philosophy, a good way of life, and the way to God. The way to God is usually not found by accident. It is found by honestly seeking and enouring honestly seeking and enquiring after the Lord.

I sit alone
On a cold, stormy afternoon
as memories begin to surge through my mind. Like minute droplets of rain Stream slowly down my swollen face. Thoughts of a friend

Long gone, Pain my heart. Friends, I have had many But none so dear, So kind.

The bond we shared Grew so immense, That the very thought Of us parting Did not once touch reality. For we were so different Yet so alike,
That I knew her secrets
And she knew mine.
Nothing could be hidden
In a friendship as true as ours.
Our love for each other
Knew not of limits,
But only of eternity
Through we which we vowed to
Grow together. Yet so alike,

Grow together, Learn together, Laugh together And cry together. But now our vow Has suffered a drastic break. No longer can she share The tears I now shed. For they fall from

Missing her,
And yearning to see her
For just a brief moment more.
Why and how,
She left my side Bears not an ounce of importance On me now.

Just one bitter shred of reality Seeks to probe my mind. Never again will we Grow together, Learn together Laugh together And cry together

Only vivid memories
Of friends once together — but now apart, Will forever continue To pain my heart.

Susan Friend, Grade 12, First Place

While acquaintances are a dime a dozen A true friend is hard to find. She's someone who likes me for what I am And knows what's on my mind.

While it's important we do things together, She lets me be by myself.

I never have to put on airs or pretend to be someone else.

Sometimes she knows what I am thinking without it being said. She never pressures me to do the things that parents dread. We don't do drugs or alcohol

That's just not our style.

Our preferences are sports and books and talking for a while. She keeps my secrets, of that I'm sure She'll never tell a soul. I trust her and she trusts me We're two parts that equal a whole.

Sharing good times and accepting the bad. That's what friends are for. I can go by at any time There's always an open door.

I'll treasure my friendships always. I'll always try to be there Whenever my friends need me

And I'll always try to be fair To my friends, I'll always be loyal. And that I hope they can see
That they're an important part of my life
And will always be close to me.

# Welleville Times SPORTS

Last Saturday night, the Belleville softball team did something it isn't accustomed to. It lost a ball game. It was a game the club felt it should have won, a contest it led in entering the final inning.
But guess what? Despite the loss, the sun still came up the

Raiders also have an outside chance for the crown if they can win their remaining games.

"People say the conference wasn't as tough this year," Corino said, "but it was a solid four team race this year, Ourselves, Nutley, Clifton and Bloomfield were all strong. We want to win the conference, no question about it."

In between the conference race is the state sectional tournament. Belleville was scheduled to play Barringer last Tuesday, at Belleville, and although Barringer was the higher seed, the Lady Bucs might be a slight favorite, however. However is such a confusing word, isn't it? Yes, you would think Belleville would be favored to beat Barringer, but Corino was concerned about how his team would react after the tough loss at Pulaski Park last Saturday.

"We just have to come but and play hard," he said. "We can't let that loss bother us. There is still too mich to shoot for."

History says Belleville can do it. Back in 1982, the girls lost to Livingston, 8-6, in a state sectional game. It was a difficult loss, especially when you consider the team had a 4-0 lead at one point. However, the girls dug in, and five days later, played Livingston again, this time for the county crown. As you know, Belleville won, convincingly, 8-0, and finished 24-2-

This years club certainly has that potential. They also have some seniors who have worked hard for four years and aren't about to give up.

Thus, if Belleville beats Barringer, the girls will play the

Park for the sectional title.

It makes for an intriguing week of action for Corino and his troops. Looking back at last weeks game with Caldwell, it certainly was a heartbreaker.

Belleville took a 2-0 lead in the first inning and behind the pitching of Stacey Johansen and the fine Belleville defense, held that margin until the last of the seventh.

However, Caldwell showed why it is a good ball club. It didn't hit the ball hard in the last of seventh. The team didn't steal any bases. It just took advantage of what it was given. Caldwell rallied when its leadoff hitter was hit by an 0-2 pitch. Its next hitter dropped a seeing eye single between shortstop Trisha Tramultola and leftfielder Giovanna Malazzi. One step either way and the ball might have been caught. Baseball, or softball in this case, is indeed a game of inches.

The next Caldwell hitter drops a perfect sacrifice bunt, Johansen made an excellent play just to get the runner at first base. The Lady Chiefs now had second and third, with one out.

one out.

Johansen walked the next batter, setting up a key at bat.

With the bases loaded, Johansen faced Caldwell's top hitter and had her in 1-2 defecit. The pitch that followed appeared to have the batter struck out.

However, the umpire ruled it outside, making the count 2-2

The next pitch was hit back to the mound, but misplayed and

Belleville kept its infield in, because with the bases loaded and less than two outs, the defense has to be ready for a forceout at any base.

Caldwell's next batter found another gap, this time just over the head of second baseman Laurie Dondarski. Corino later noted that had Dondarski been playing at her normal position, the ball would have been an easy pop fly out. However, Dondarski, like the book says in that situation, was playing its possible of the pool of the

fielder and two runs crossed the plate, giving Caldwell a 3-2

It was a difficult loss to swallow, especially when you consider that Belleville lost a 2-1 heartbreaker to Caldwell in last

However, what Corino might forget in that situation is that Belleville got there. There are about 25 other teams in Essex County who wouldn't have minded playing in the county

And another word about Corino. He's in his eighth year of coaching. His 'worst' record during that span is 18-8. During his eight years, Belleville has been in the county finals seven times. Last weekend was the sixth straight season that Belleville has played for county supremecy. Corino's career record at Belleville is a modest 182-42.

That, ladies and gentlemen, is incredible. It's a winning percentage over 61 percent. It includes two (hopefully three) conference titles and two county championships. Last years

# Glen Ridge beats Bucs in semi-final game, 4-3

Glen Ridge High School used a four run fourth inning to the ful-lest, holding on to defeat the Bel-leville Buc baseball team, 4-3, in the semi finals of the Greater Newark Tourney

Belleville took a 19-8 mark into this weeks action. The Bucs battled West Orange in a first round, Group 1V, Section II tournament game last Tuesday. The winner of that contest was slated to play the winner of Union-Elizabeth tomorrow afternoon. This afternoon, Belleville plays its final regular season contest against arch rival Nutley at Belleville, starting at 4 p.m.

A victory over the Maroon Raiders and a Clifton loss to the Montelair would give the Bucs the NNJIL title outright. Entering the week, Belleville and Clifton were 10-3 in conference play with one game remaining for each club. Nutley will be more than formidable. # Caldwell tops Lady Bucs 3-2 in tough semifinal

A three run rally in the bottom of the seventh inning lifted Caldwell High School to the Es-sex County softball cham-pionship, 3-2, over the Lady Buc-caneers of Belleville High.

It was a bitter defeat for Belleville, who took a 2-0 lead into the last of the seventh, only to see Caldwell rally for three runs and a second straight county crown. Last year, Caldwell defeated Belleville in a 2-1 thril-ler that went into extra innings. This years contest was another classic, with both teams receiving excellent pitching. Belleville had little time to dwell on the loss. The Lady Bucs

took an impressive 23-3 record into another big week of com-petition. Although the county crown is out of reach, the girls are still vying for conference and state sectional surpemency Carl Corino's team battled Barringer last Tuesday in the semi finals of the Group IV, Section II the winner of Union-Morristown for the championship of the section tomorrow afternoon at Whippany Park, Game time is 4

"Our kids play their hearts out," Corino said. "We got into a few jams during the game, but we played good defense and were able to get out of them. That last inning, well what can I say. Nothing went right."

The Lady Bucs went into the last of the seventh apparently in good shape. Caldwell was scheduled to send its 8-9 and I batters to the plate and Johansen was pitching well.

After getting an 0-2 count on the leadoff hitter in the seventh, Johansen hit the batter. The next

Johansen hit the batter. The next Caldwell hitter looped a seeing eye single over the head of short-stop Trisha Tramultola and into shallow left field.

Caldwell now had runners on first and second. The next hitter laid down a perfect sacrifice bunt which Johansen made a good play on just to get the run-ner at first base.

"That could have easily been a hit." Corino said of the bunt. "Stacey got off the mound quick-ly and threw the runner out." With Caldwell runners on se-

"I was waiting for his (the umpires) arm to come up (signifying a called third strike),"
Corino said. "I couldn't believe it was a ball."

On a 2-2 count, the batter hit a slow roller to Johansen, who couldn't come up with it cleanly. A run scored and the bases remained loaded.

"That play changed our defense too," Corino said. "We had to keep our infield in, to get a force at the plate on a ground ball."

With the score 2-1, Caldwell's

next hitter delivered a pop fly which landed behind second baseman Laurie Dondarski and two runs crossed the plate.

"If Dondarski is playing at her usual position, it's a routine pop up," Corino said. "But, she had to play in because the bases were loaded and the ball got through."
Belleville's two runs came in

the first inning. Dondarski led off with a walk and Johansen drew a walk. The girls advanced a base on a wild pitch and Laura Caruso walked to load the bases. After a pop out for the second Belleville out, Carol Morrison

''It's a tough pill to swallow,''
Corino said of Belleville's fourth straight loss in the county cham-pionship finals. "I really feel for the seniors, girls like Tramultola and Caruso. They played so hard and we were so

Belleville did have opportunities to score throughout the game. In the second, Johansen drilled a ball to left centerfield, but the Caldwell outfielder made an over the head catch, robbing

Johansen of at least a triple.

In the third, Caruso tripled, but she was later picked off the base. In the fifth inning, the girls loaded the bases but couldn't push a run in. In the seventh, push a run in the seventh, Racquel Melson worked out a walk. A pinch runner came in, but she was thrown out attempting to steal second. Yes, last weekend was a tough game. However, there are more games to come and certainly, more good memories awaiting. The scoreboard might have come up a run short, but the team is certainly a winner.

# Cardinals fall to Tigers attack

A 10 run first inning flurry of bats, coupled with superb defen-sive play throughout, highlighted the Belleville Recreation Peanut

sive play throughout, highinghed the Belleville Recreation Peanut League Tigers' 17-5 victory of the Cardinals on May 13.

The Cardinals, undefeated this season, threatened early. Solid forst inning lead-off singles by Chris Rotundi, Tim Sobanko and Gerald Falduto loaded the bases with no outs, but alert defensive play got the Tigers out of trouble. Tigers lead-off man, veteran Wesley Tahshir doubled and was driven in by Mike Quine's RBI single. The Tiger "table setters" were doing their job. Shortstop John Bravette's rope to left center with Brian "Moose" Romano's RBI single set the stage for Tony DiCarlo, who, along with Bravette, went 3 for 3 for the day. DiCarlo's hot but produced a 3-run homer, giving the Tigers a 5-0 edge. Successive hits by Tom 5-0 edge. Successive hits by Tom Dyer and Matt Mulcahey put Dyer and Matt Mulcatey put more runners in scoring position. Both David Tirado and Bobby Panos grinded out singles for another two Figers runs. Back to back RBI doubles by Jon Paul Louis and Lucas Cucuccio allowed 3 more team mates to reach home. With on-base efforts by Tristyn Kvetkus and Joe Ceres, the excited Tigers enjoyed a 10-0 lead in the first inning.

ofted Tigers enjoyed a 10-0 lead in the first inning.

Cardinals lead off man in the top of the second, Mike Schmidt, emulating his major league namesake, pounded out a four-bagger to put his team on the scoreboard. Base hits by Sieve Bragger, Linash Chinchanki and Jeff Falduto followed. But the Cardinal threat was again mitted by a ready Tiger. was again muted by a ready Tiger

Chris Zarro, who played an out standing second base, singled in the bottom of the second. Mike Quine's double was followed by RBI base hits by Bravette, Peter Henderson and Tony DiCarlo, giving the Tigers a 14 | advan-

A RBI by Louis put the Tigers ahead 15-1 in the third.

A Cardinal triple in the fourth by Schmidt, aslo 3 for 3, scored Tim Sobanko and Tom Rossi. Despite a shoigun plast of base hits by Tigers Kevetkus, Ceres, Tahshir, Zarro, Bravette and Henderson, the Cardinal defense, ted by Doug DeLuca, held them to only 1 run in the bottom of the fourth.

Sal Rosani's grounder in the next inning brought the fourth Cardinal run of the game across home plate. But an RBI double by Tom Dyer widened the lead to

Neither team was able to score in the sixth. In their last at bat, Schmidt of the Cardinals doubled to bring in Walter Sawicki. The victory belonged to the Tigers.

Game balls were awarded to Chris Zarro and Tom Dyer for their fine defensive play.

# Row Bucs ...

The 1987 crew season ended for Belleville High School last weekend at the National Championships, but not before some more exceptional performances.

Next week, the Times will wrap up the season for coach Scott Fabian and Company.

The Nationals, held at St. Andrews, Delaware, saw Belleville High School take two boats to the finals. The boys Lightweight Four finished in fourth place overall. The big news for Belleville was the performance of the girls Junior Four.

The shell, made up of five underclassmen, took second place overall, just missing out on a national championship. A boat from Buffalo, New York took top honors.

A third shell, the boys Junior Four, also did well, advancing to the semi finals. Like the girls boat, all members of the boys team will return next year.

Needless to say, coach Fabian was very happy with the performances.

"It was a great way to end the season," the coach said. "We were very happy with the effort. We're a young team and I think everyone is looking forward to next season."

The girls shell certainly surprised everyone. One week ago, the team took fifth place in the Stotesbury Regatta, held in Philadelphia. This past weekend, the team was in top form.

The boat, made up of Beth Demgard, Carolyn Giuffrida, Laura Nardone, Joyce Burke and Kim Trefsger, battled hard into the finals, where it finished a very respectible second. It was the closest a Belleville team has come to a national title since the 1985 girls team won its second straight.

A young boat, the girls will return its entire lineup next season and you can bet the team will be gunning for another shot at the nationals next May."

CHAIR STREET STREET, S

The Lightweight Four shell did well, advancing to the finals and taking fourth overall. The boat is made up of Vinnie Colanino, Mike Kane, Mike Mc Guire, Jerry Russo and Sue O'Donnel. All but Kane will return next year for Belleville. Kane, a senior, will be graduated next month.

"He'll be a tough man to replace," coach Dennis Villano said of Kane. "He was a battler and a super kid."

Members of the boys junior four were, Brian Villano, Tom Eccles, Lenny Linfante, Gus Lemming and Phil Molinari. The shell made it to the semis before being eliminated. Last weekend, at the Stotesbury, the team took sixth place in the finals. All the members of the team will be back next spring.

Needless to say, it was a successful weekend on the high seas for the Buccaneers. Next week, we'll take a look at the entire season, one that saw the Bucs low on quantity, but certainly high on quality.

### Real Estate Briefcase

By Jack Reilly, G.R.J.

What is a protected tenancy and what does it mean? — L. Laoudis, Bloomfield.

Since the early 1970's, developers began to expand on a new approach to a relatively new phenomenon in housing, condominiums. What they did was to take existing apartment complexes and convert them into condominium units which could then be offered for sale individually. There were a number of positive and negative effects, arising from this controversial development, but the concept became quite popular,

and today condo conversion pro-jects are common and plentiful. On the positive side, there are a number of benefits derived as a whole from these conversion pro-

jects:

1. Affordable home ownership became a reality for many, since these conversion units are offered first to the tenants at below market rates, the to the public in a price range much below tradi-

tional housing stock. Tax revenues are enhances, because for every unit owned there is a new taxpayer. Each unit becomes assessed by the tax assessor, and new life is pumped into tax ratables.

The negative side of conversion occurs when elderly or disabled tenants, who would otherwise be quite contented to stay in their unit as tenants, are threatened with displacement or rising rents as a result of the new order of things. To recognize this problem, the state of New Jersey has passed legislation which afforts certain protection to certain tenants, and

In general, the law has created a protected tenancy status which, if granted, allows the tenant a forty-

3. Has a yearly household in-come less than three times the me-dian income figure for the county (refer to the Dept. of Community Affairs to determine the figure for your area.)

Provided that each of the above three tests are met, then the tenant will qualify for the protective tenancy status, assuming the tenant has compiled with all procedures necessary in a timely

fashion, as determined by law.

There is a strong likelihood that the town you live in has a pro-tected tenancy board, which will be able to provide complete and accurate information on this sub-

We answer cries for and cries from people

Your United Way gift helps many organizations in your community. But it also helps the children, the elderly, the horneless, the destrute—the individual people who need individual responses to their problems and the people who need United Way to step in belone a problem happens. In fact, your United Way gift does nor things for more people who really need help than any other single gift you can give.

Thanks to you, it works for all of its.

WHERE THERE'S A NEED, THERE'S A WAY. THE UNITED WAY

**GRADUATES!** 

As you follow the road to success, Class of '87, we hope some of you will remain...helping our town to grow and prosper! Our very best!

We, at The Nutley Sun, Belleville Times and Bloomfield Life, are very proud of our graduates.

That's why we're publishing our special pages...

"HATS OFF TO OUR GRADUATES"

For the low rate of \$15, you can put your name, address and phone number in one of these circles to let them know you're also proud of them and wish them well.
