Needs zoning board approval

Shopping center proposed for former Walter Kidde site

A shopping mall at the Walter Kidde site on Main Street will be proposed at the next Believille Zoning Board of Adjustment, June 7, after initial discussion on the project was done at the board's

The mall is the latest proposal to the property that is in a strategic location, in Belleville but close to Nutley and Lyndhurst and accessible from Route 21

According to Barry A. Osmun, attorney for Route 21 Associates, authors of the multi-million dollar proposal, the mall will be basically a one-story complex, with renovations being done to the present structure, if it is approved. "We plan on retaining the hist-

oric character and integrity of the building," said Osmun. "It's a very substantial building. It's built like a

That "fort" almost became a memory last September when a 425 unit condominium complex was proposed to the Zoning Board but then withdrawn. "All I can say on that is the owners were not going to develop condominiums, they were going to sell but the agreement of sale expired," explained Osmun,

"They thought this proposal was more appropriate than having another condominium complex, since there are so many in town," he

Warehouse to remain

The tire warehouse located at the site, a wholesaler for Goodyear, will remain at the structure, according to Osmun, but will be moved from the front of the building to the rear. The warehouse will be the same size, approximately 145,000 square feet.

Osmun said replacing the ware house up front will be the two major tenants of the mall, Pergament Department Store and Waldbaum's, a supermarket. Pergament will have 66,500 square feet, while Waldbaum's will be 61,000 square

feet for retail stores, restaurants, or any other business

There would be provisions for satellite stores, there could be any number," said Osmun, explaining no set square footage is alotted for stores. "We have had some expressions of interest. A bank has made tentative proposal for 3,600 square feet.'

Parking not a problem As with many new projects, the question of parking and traffic always arises. With the well documented parking problems in town it would seem adding such a large shopping center would just add to the problem. But Osum disagrees, noting there are 1,094 parking spots available for shoppers under the proposal. Truck traffic for the tire warehouse would not interfere

"There's a small street in the back called Kidde Place and that's where the trucks would come through," stated Osmun. "The number of trucks is not bad, only four or five per day. There's not much truck traffic so it won't be a

Osmun also said the traffic consultant hired by Route 21 Associates believes there will be no adverse effect in traffic because Main Street has the capacity to hold the amount of cars.

He feels the concerns of some that the mall will take away business from Washington Avenue and other areas of town is somewhat unfounded.

"I don't really know how to address that," replied Osmun. "I don't believe that will happen because the stores we will have will not be like the ones on the street (Washington Avenue). The mall will serve to benefit the entire community."

Real estate rise

Part of those benefits will be real estate values in the area. Osmun said the property has been virtually vacant since 1983 and that has had an adverse effect on the property values surrounding the structure Any structure would assist the real estate market in the area, particularly a modern, shopping center, Osmun said.

"It will also create a lot of jobs," suggested Osmun. "Waldbaum's and Pergament have said no one from the outside will be brought in. Somewhere between 250-300 new jobs for residents will be open and it will effect the tax basis.

"All of which are goals Belleville is looking for," said Osmun.

Budget increases by \$4.5 million

The Municipal Budget for 1988 shows an increase of close to \$4.5 million dollars over last year, mostly due to the increasing garbage

Last year's actual budget totaled \$17,180,003.87 while the estimated budget for this year is \$21,048,029.26 for an increase of \$3,868,025.39. The cost of garbage is estimated at \$3,111,880.00, while a decrease of \$278,940.08 is anticipated in General Revenues, creating a grand increase of \$4,146,965.47.

The local tax rate also increased from \$2,33 per \$100 of assessed valuations to \$3,26 per \$100. The amount to be raised by taxes for 1988 is \$15,445,237.79, compared to last year's \$10,950,546.67.

Of the five departments, three had increases in their budgets while two, Revenue and Finance and Parks and Public Property showed decreases. The Department of Public Safety shows an increase of \$450,479,96 from \$6,398,411.62 last year to \$6,848,891.58 this year Last year, the Department of Public Works had a budget of \$974,645.19, this year it is set at \$1,023,218.00, for an increase of \$48,572.81. Department of Public Affairs will raise its budget \$35,717, from \$716,579.88 to \$752,296.00.

Revenue and Finance will decfrom \$1,560,110.56 \$1,525,066.00 for a differential of \$35,044.56. Parks and Public Property, while showing an overall increase from \$991,757.46 to \$1,033,455.00, actually went down because the department picked up two offices, the Engineering Department and the Plumbing Engineer. The offices bring an increase of more than the

\$41,697.54 overall department

The Engineering Department was previously with Public Works while the Plumbing Engineer was with Public Affairs.

"It was a major concern of mine," said Commissioner of Parks and Public Property Vincent Frantantoni about the garbage increase. "That's why I didn't indrease my department's budget. The dollar value has increased but that's because I took in two more offices.

'I just decided to work with last year's budget," he continued. "We have to live within our means." He also said he felt more belt tightening should be done on the budget.

"We have to work with what we have," said Commissioner of Public Affairs Joseph Fornarotto. "I feel if three or four (commissioners) can than five should be able to.'

Fornarotto said there was a five percent increase in his budget because of compulsary charges. He said an added \$23,000 is in the Public Affairs budget because the department has taken the Rent Leveling Board from the Finance Department. He also has a resigna-tion of a position and the dentist will be part-time instead of full-

"I feel you have to make considerations," commented Fornarotto. "People live on fixed incomes and they can't afford it. We recommended cuts to the School Board so we have to do it here.

Fornarotto also said their is the ossibility of his department and Public Works combining to purchase a truck and pick up garbage

(continued on page 5)

Suburban Essex is Dems battleground

Just when you thought it was safe to venture out again without fear of political canvassers, you find against all odds you are so strategically located, the Democratic Party has targeted this area for special attention.

Call it kismet or fate, whatever the name, Nutley, Belleville and Bloomfield are three of the Essex County communities selected by the Michael Dukakis and Jesse Jackson camps for door-to-door and phone call "It's a swing area," said Joanne Noonan, a Dukakis delegate slated to go to the Democratic Convention in Atlanta, Georgia if Dukakis triumphs

here, "it can go either way" She was referring to the 27th and 30th state legislative districts. "The two have been put together to form one delegate district," she said.

"Dukakis and Jackson will each have five delegates from this one "The Reverend Jackson won the

18th delegate district's popular tally in 1984, but got only one delegate vote," said Lawrence Hamm, vice chairman of the Essex County Jackson 88 campaign. "That's probably why the Duk-

akis camp has targeted the area," he added. "But we are going to attempt to win the popular vote again, and now with the single lever vote we can take all the delegates. Hamm said

Won in court

The Jackson forces won a court ruling in the Hudson County Superior Court allowing voters to select his candidate's delegates by pulling one lever rather than one for each delegate. The challenge was made on the grounds the single delegate vote was confusing to voters.

"And remember," Noonan said, "in 1984 there were three Democratic candidates; Walter Mondale, Jesse Jackson and Gary Hart. This year, it's Jackson and

"It'll probably be a cliffhanger," said state Senator Carmen A. Orechio, one of five prominent Democrats running as Dukakis, delegates in the suburban Essex,

Except for election district 28, the Newark, Irvington area, the rest of the state's delegates are expected to go for Dukakis, Noonan said.

Besides Orechio and Noonan, Dukakis delegates include Peter Shapiro, the former Essex County executive and gubernatorial candidate; Academy Award winner Olympia Dukakis, Michael Dukakis' cousin, and Jean Holtz of Montclair.

Jackson's state is headed by Mildred Barry-Garvin, a former assemblywoman, Dolores B. Reilly. a councilwoman from Montclair, Nancy C. Winkler, also of Montclair; Curtis C. Boyd Sr. and Richard P. Shuster, both of East Orange.

Besides Nutley, Bloomfield and Belleville, the 30th state legislative district is made up of Cedar Grove, Glen Ridge, Montclair and Verona while the 27th encompasses the Oranges and the Vailsburg section

Police and a rescue unit came to the aid of a drug overdose victim in the Belleville Motor Lodge and arrested the victim's companion, charging her with possession of a controlled dangerous substance (CDS).

Kimberly Moscinski, 22, of Kearny, called police for assistance and when police arrived they found Anthony Gibbons, 25, of Harrison, lying on the bed. After a quick examination revealed a weak pulse and shallow breathing, Gibbons was transported to Clara Maass Medical Center and had his stomach pumped.

A search of the room found a bag containing 11 white pills, described as Emprin 4 and Dordan, referred to as "hits." Moscinski was arrested and bail was set at \$2,500. Gibbons was released from the hospital a few days later and both have a court date of May 25.

Three Newark residents were arrested for possession of cocaine in the Belleville Motor Lodge parking lot April 29. Officers Vincent Capetta and Joseph Rotunda pulled a car over in the lot after observing a traffic violation by the driver. After a search was conducted the officers found eight grams of cocaine, marijuana and paraphernalia.

Arrested and charged with possession of CDS and paraphernalia were Efrian Cruz, 22, Julio Madina, 20, and Ceasar Delgato, 21. Bail for all three was set at \$500.

A house on Harrison Street was broken into and ransacked April 30. The owner notified police after noticing the side basement window was missing. An investigation revealed a red, leather jacket and jewelry, including gold and diamond rings and gold chains, were stolen. Estimated worth of the missing items is \$6,598.

The owner of a house on Greylock Parkway found two bicycles in his backyard but had his bike stolen, even though it was chained to a pole May 3.

The chain was cut and a tenspeed bike was taken but a tenspeed All-Pro bike with 26-inch rims and a Challenger with 20-inch rims were found in the back yard.

Also on May 3 a ten speed bicycle was stolen from a garage on Cedar Hill Avenue. Entry was gained by removing wood around a window and prying the hasp. A Random Mountain Bike with 26 inch rims, valued at \$350, was taken.

Skin cancer screening

Before sunlovers hit the beaches this summer, they can learn about the dangers of too much exposure to the sun by attending a free skin cancer screening program at Clara Maass Medical Center in Belleville, Wednesday, May 25, from 3-

7 p.m.
The American Cancer Society estimates that 400,000 new cases of skin cancer will be diagnosed this year. The risk of developing skin cancer is directly related to unprotected exposure to the sun. The Skin Cancer Foundation reports the age for developing skin cancer has decreased in recent years. More people - and younger people - are developing skin cancer than ever before. Especially at risk are people with fair skin and lightcolored eyes, those who sunburn easily, and those whose jobs expose them to sun and wind.

To help people become better informed about this problem, Clara Maass Community Services will sponsor a free skin cancer screening program at Clar Maass Medical Center, 1 Franklin Ave., Belleville. Discussion of risk factors, signs and symptoms, and methods for prevention will be held throughout the screening period. Joseph Eastern and Dr. Dominick Ligresti of Clara Maass will examine participants and make recommendations for further evaluation when necessary.

Party district heads meet

A number of Republican Party of Belleville district leaders met last week at Frank Mantagna's house to discuss the voting procedure for a new Republican head for the town.

Approximately 15 party members gathered and discussed ideas on how to have a written ballot election. According to members, the system the past few years has been by hand count but these members would like a written ballot. The bylaws state an open ballot vote should take place for the election but more than a few members expressed feelings that a name written on a piece of paper and then not folding the paper can be constu-ed as an open ballot.

After discussing the options, the

written open ballot, and one for the election of the Belleville Republi-

Mantagna said it was not a personal vendetta on his part against the president, Angelo Risoli, but to create a more viable and formadble Republican Party in town. The group also planned to send flyers to other Party members and conduct a meeting later this month to discuss

A MATTER OF TASTE

The unpleasant tastes of bitter lets can be minimized by placing the tablet on a specific area of the tongue The tongue has taste buds for sweet and salty tastes on the front tip, for sour tastes along the edges, and for bit-ter tastes at the back. To help mask a bitter taste, place the tablet toward the front of the tongue since there are no bitter taste buds there. Tablets that taste too sweet could similarily be placed near the back of the tongue where there are no sweet taste buds. In this way, unpleasant tastes are not given as great an opportunity to stimulate the taste buds that detect that particular

Golden Comments

By Jim Golden

Tis' said that "coming events cast a shadow before them" and most often they do; one of which if brought to fruition by the New Jersey state legislature, urged at the suggestion of Governor Kean, offers grief for those bent upon selling their homes because of the proposed-change in the tax on the sale of real estate to fund a farmland preservation measure.

With so many homes in Belle-"up for sale" with owners frightened by expected huge tax increases, close attention should be given to this measure which the Assembly Conservation, Natural Resources and Energy Committee in January of this year released a bill (A-93) which would create a funding source through an increase in the Realty Transfer Tax, the amount of which would determine how much farmland can be rescued from suburban sprawl.

This tax, applied to the recording of deeds which transfer title to real property, is presently collected at a rate of \$1.75 for each \$500 of selling price under \$150,000 and 75 cents for each \$500 of selling price over \$150,000. The proposed bill (A-93), if passed into law, will increase this current tax by an additional \$1 for every \$500 of selling price (\$2.75) and will be paid by the seller rather than the buyer.

We can not vision any semblance of broad acceptance of the Governor's proposed ambitious plans nor any support for any legislator who might support or vote for such an ambitious fantasy

why should our local people be taxed to subsidize preservation of farmland...let the farm owner determine if he wants to sell or stay . . . if he sells there will always be replacements for his products. Many milk farms closed, but there is no shortage of milk.

Governor Kean's proposed Natural Resources Trust to be funded would require a tax equivalent of \$200 on a house selling for \$100,000...that realty tax would be for all natural resources: Green Acres, shore erosion, dredging of waterways and flood con-

The Governor's proposal would

generate around \$50 million a year, and increase as the value of real estate appreciates, but, if farmland is included the realty tax would have to be at least the same amount as for natural resources or \$200 per \$100,000 worth of real estate sold, based on pre liminary estimates of raising \$50 million a year for farmland ac auisition.

The total increase in the realty transfer tax would then be \$400 on a \$100,000 house, paid by the seller, for both farmland and natural resources.

Governor Kean thinks a realty tax is the fair way to maintain a decent quality of life in New Jersey because the tax is paid from the equity in the property. He says, "These natural amenities are enjoyed by everyone, if they were free, there would be no problem. But it costs money to maintain them for everyone's use and enjoyment.'

That won't sit well with the family up the Belleville street who can't afford expected tax increases or the elderly widow who wants to sell to look for "greener pastures" and they don't need any damn new and increased realty tax that they would have to pay for, so that some designing farm owner can be benefited at their expense.

The farmer already gets reduced tax rates on his farmland, now they want to subsidize him financially to include a restrictive covenant in the deed of his property that the land can only be continued as farmland. Hell, he can now get a fortune from developers and retire in comfort. if he wants to stay "down-on-the-fram" fine. Let him do it, but, don't try to make a "sucker" of the little guy up the street or the little old lady "who wants out" by "soaking" them with a couple hundred dollars seller's tax on their property. It stinks.

Had Governor Kean been as concerned about the garbage disposal problem, when he knew they were going to close the Meadowlands landfill and done something about it, these people wouldn't be selling their homes and be forced out by higher taxes.

Dukakis honored by Senate

The Senate on Monday proclaimed that New Jerseyans are "Moonstruck" over Oscar winner Olympia Dukakis and unanimously passed a resolution honoring the Essex County resident for both her role on the silver screen and as director of the Whole Theater in Montclair.

Dukakis, the cousin of presidential candidate Michael Dukakis, was honored during a Senate ceremony. The resolution was sponsored by Senate President John F. Russo and Senator Carmen A. Orechio.

"Those of us of Italian heritage think that your protrayal of the wise Italian mother, Rose, in 'Moonstruck,' was so convincing that Dukakis must really be a stage name," said Orechio to Dukakis.

"Your movie was a great source of entertainment for all film lovers and your triumph at the Academy Awards ceremony was a great source of pride for all your fellow New Jerseyans," said Russo.

"If Olympic Dukakis had not won this Academy Award, we would still be honoring her as the founder of the Whole Theater," said Orechio, D-Essex. "This community theater has provided New Jerseyans with outstanding performances for over 15 years.

Orechio noted that under Dukakis' leadership as the producing/artistic director, the Whole Theater has been nominated for a Tony Award and has received New Artistic Achievement Jersey's

514 Washington Avenue, Belleville (201)759-

There's a long waiting list for Suppa's old-fashioned pizza pie

busy look and feel to it, with boxes and trays on the table and a chair and there is an aroma of pizza throughout the house. It must be

Suppa has made pizza for as long as he can remember, first when his fámily owned a restaurant and bar on Seventh Avenue in Newark, across from the Christopher Columbus Projects, and still continuing today. All that experience has paid off as many people feel it is the best pizza you can eat.

"I make them for friends of mine, I'm not in business," said Suppa, who doesn't make a single penny on a pie. "They gotta get on my list. The lady across the street asked me if I could make her one and I told her she'd have to wait until August or September.'

-Suppa takes great pride in his pizzamaking, pizzamaking, preparing the ingredients on Wednesdays for Friday night's creations. Each pie is a five pound rectangular meal that is made the old-fashioned way.

"I make it the way it should be made, the old way," stated Suppa making a referance to all the different toppings offered by many pizza restaurants. "Today, they put everything on it. I don't go for that."

Suppa uses one and a half pounds of dough, a pound each of sausage and Mozzarella cheese, tomato sauce, peppers and onions. All of the ingredients are fresh, as he goes out every week and uses it leaving nothing sitting in his refrigerator

Preparation the key

He pre-cooks everything a day in advance, except for the peppers and onions. Suppa said the dough is made a day early so it has time to lay and the sauce is cooked slowly. The pizza cooks for approximately 45-50 minutes in his kitchen oven.

"If I had my old coal oven it would be even better," suggested

ALMOST READY - Luke Suppa checks one of his "famous" pizza pies in his oven. Suppa has been making ples for friends for years, after his family restaurant was destroyed.

Suppa. "Right now about 90 percent come out fine."

"They (pizza restaurants) don't put as much on as I do," said Suppa.

"My friends go crazy over it." "Once you eat this you won't have anything from a store again," said Tom Verna who has been coming to Suppa for four years and was patiently waiting for his pie. Verna goes with Suppa most Wednesdays to shop for the ingredients and even he can only get one pie every other week.

"You can't eat it with your hands, you need a knife and fork," continued Verna. "It's like a complete

Family business Suppa said he started making pizza as a teenager in the 1950s, helping his father in their restaurant, Michael Suppa & Sons Bar & Grill. Pizza was their strong suit even back then, but he said they "specialized in everything." The riots of the 1960s destroyed the business and while Suppa's brother Dominick opended a new restaurant, Luke went on to another

career, working as a security guard in Barringer Prep in Newark. "They destroyed my livelihood," he said about the riotors.

"I have a get together with the people from school in the summer," said the 54 year-old. "I make them pizza, clams, spaghetti, a little bit of everything.

It is the pizza most of the people

come for, however. With such a following, one may wonder why Suppa has not opened his own restaurant.

"It's too much work to do it," he said, noting he makes six pies a week and that's all. "I'm happy. I can get a lot of jobs making pizza but I don't want to.
"I tried to teach my son but

you know how the young are."

The pizza passes perhaps the toughest test of all, that is Supa's. He said after he has made pies for the people on his weekly list, he makes some for himself and a few friends and they relax and enjoy.

"I love it," he exclaimed. "That's

-P. Brightman

Zoning board vetos apartment projects

complex on Mill Street and Townhouses on Ralph Street were rejected but permission to lease the second floor of P.J.'s Valley Auto Body was approved by the Zoning Board of Adjustment at its monthly meeting last week

Preliminary hearings on a shopping center at the Walter Kidde site were held and will continue at next month's meeting, scheduled for

Cerami Construction Company, based in Belleville, requested permission to build a two-story, four family apartment complex at 703-709 Mill St. Representatives of Cerami said the number of units were permissable, ample parking would be provided and there would be 30 percent greenspace. They also noted more than half of the buildings in the area are two-family homes. The property is located in a R-B Zone, or two-family.

The lot size is 7,872 square feet, much larger than the 5,445 square feet required by the density ordinance. The major problem with the proposal was with front, rear and side area. Minimum depth is 100 feet, minimum front is 20 feet, as is minimum rear area. The proposed sizes of these sections of property were all under the requirements.

A proposal for five townhouses on Ralph Street was vetoed, the second time a proposal for the use of the land has been rejected since

Vincent Scirica, owner of the property, made a proposal last year for six townhouses but was told the density was too much. The board four units but Scirica proposed five, feeling it would not be in his or the areas best interests if only four were constructed.

The architect for Scirica, William Godsell, said the five units would create a superior parking configuration. He said in light of the report prepared by Grace Harris, of the North Jersey Planning Association, the lawn size was expanded. He also said the egress

and ingress into the parking area would be from Raymond Street so

as not to add traffic to Ralph Street. Godsell said the units would be constructed in a way that it would fit in with the surrounding homes. He said there would be 3,600 square feet of blacktop out of 10,000 total square feet. Scirica presented the board with a paper with 20 signatures of neighbors approving the proposal but Board Attorney Jon P. Campbell, Esq. said the paper could only be considered hearsay.

Board member John Kelly sited concern of the drainage pro-blem in the entire area and believed five units would be an overburden. The remaining board members agreed and the application was

not granted.
P.J.'s Valley Auto Body had originally planned to use the sec-ond floor of the buiness as a warehouse and personal office but felt the warehouse was not needed and decided the rent out the available space. The major concern of the board was parking availability, there are 13 spots, but approved the application after consideration.

Legislation for property tax relief passes Senate

TRENTON - The Senate on Monday passed legislation, sponsored by Senate President John F. russo, to provide \$100 million in property tax relief for residents struggling with escalating trash disposal costs.

The bill, S.2281, would distribute \$100 million in state grants to municipalities using a population-based formula. Communities would be required to use the state aid to lower property tax

"Garbage disposal rates have doubled and even tripled in some communities," Senator Russo said. "The crisis has had a dramatic impact on property taxes and the families who are struggling to pay

sent to the General Assembly. Under Senator Russo's proposal, a subsequent \$50 million would be appropriated by the Legislature in 1989 for garbage rate relief followed by a \$25 million appropriation in 1990.

The goal is to ease the property tax burden over the next few years while we make the transition from current garbage disposal methods to the technologies we'll be using in the future," Senator Russo said

The Senate President pointed out that all homeowners, whether they depend on municipal garbage collection or private haulers, would benefit from the direct tax relief provided under this legisla-

Senator Russo also noted that his bill would provide immediate state grants, not loans, as other legislators have advocated.

"Many of the mayors have told me that they are already in dire financial straits and loans will only delay their day of reckoning, Senator Russo said. "Grants are a much more sensible solution.

During the first year of the program, the \$100 million statewide appropriation would include: \$4.2

million for Newark; \$2.9 million for Jersey City; \$1.8 million for Paterson; \$1.4 million for Elizabeth; \$1.2 million for Trenton; and \$1 million for Camden.

In suburban areas, examples of state aid for the first year of the program include: \$467,000 for Hackensack, Bergen County; \$1.1 million for Hamilton, Mercer County; and \$942,000 for Cherry Hill, Camden County.

by Paul A. Caputo, D.P.M. ARCH FRIEND

ARCH FRIEND

It is not uncommon for weekend athletes to suffer a strain of the plantar fascia. This is the fibrous band of supportive tissue that extends along the underside of the foot from the heel to the ball of the foot. The result of a strain in this area is the infamous aching arch. Even people who are merely on their feet all day can suffer from aching arches. The source of the problem can often be traced to an imbalanced distribution of weight. Certain ligaments must overcompensate and stretch in response to improperly distributed weight during walking or running. While a warm-water soak will help aching arches in the short run, a more permanent solution may lie in the use of prescribed orthotics.

Orthotics fit inside your regular shoes and are custom molded to your foot. They ofter immediate relief from many foot problems. Wearing properly fitted running shoes with good longitudinal arch support will help prevent strains. When you need a podiatrist, call DR. PAUL A. CAPUTO at 759-6560. When professional foot care is needed, see your podiatrist aday too soon, not a day too late! Offices are at 345 Washington Ave., Belleville. Office hours by appt. iours by appt.

HINT: An orthotic is an individual-ized custom-molded shoe insert pre-scribed by a podiatrist. It is intended to help a biomechanical imbalance.

OUR OPINION

The real problem is parking

We hear constant complaints about Washington Avenue. It's dirty. There's empty stores. But perhaps the most glaring problem is parking, or the lack thereof.

The street and sidewalk were cleaned and garbage bins placed on the curb to assist in keeping it clean. Granted, there is a larger problem, that of enforcing the code and not allowing merchants to put their garbage on the curb too early. That seems to be a common practice of more than a few businesses. The solution to this problem is simple, enforce the code and fine the store owners. It may not show an immediate effect but in the long run the results will be positive. In fact one particular person on Washington Avenue cleaned out their home of such items as furniture and other garbage the afternoon after the clean-up. The person was served a summons, so apparently the law is on its way.

There is not much the Board of Commissioners can do regarding empty stores, but if the street is maintained and cleaned it would help. Another helping hand by the Commissioners would be to put in municipal parking. Shoppers complain there is not enough parking, Store owners complain there is not enough parking, so what should be done? It seems obvious, put in more parking. That has not happened, however. The Commissioners have said they are working on the problem but by the time they fing a solution, will it be too late? It just very well might.

The system on Washington Avenue presently is, many employees of stores on the avenue take the meter parking spots on the street itself. That leaves litte if any for shoppers. That's part of the problem. Without places to park, people can not come on the avenue and shop. Without shoppers, the stores will have to close. It's a very simple formula. More than one business person has said it would be impossible to stay in town if the parking problem is not eleviated. A citizen recently said he shops in Nutley because he has no problem finding a parking space there but can't find parking in Belleville. So, in order to assist the businesses on Washington Avenue the Commissioners have to create more parking spaces, be it by building a municipal parking lot or some other way. The ball is in their court. Or should we say, lot?

Congratulations to the super seven teachers

This past Tuesday eight Belleville teachers and Belleville Superintendent of Schools Michael Nardiello bused down to Princeton University for the Governor's Convocation on Excellance in Teaching and were honored by New Jersey Governor Thomas Kean and state education leaders. This capped off well deserved notice of the fine teaching skills of the teachers, one from each school in town.

The teachers are as follows: Mary Bradley, School 3; Joann Mairoca, School 4; Andrew Richter, School 5; Margarita Pica, School 7; Eleanor Arthur, School 8, Cinthia Brown, School 9; Dolaris Pacilli, School 10; Vincent D'Anton, Belleville Middle School, and Sandra Gottheimer, Belleville High School. While it is a time for happiness because of the success of these teachers there is a touch of sadness in everyone's heart associated with Belleville Schools because Gottheimer was not in attendance, having been killed last month.

For all the teachers, a hearty congratulations to you all and it is a fitting tribute to your teaching capabilities and special talents.

Mrs. Crecco has a good idea

For years we've wondered why it is necessary to have the voting for school board elections and approval of the school budget on a standalone ballot in April rather than combining with the primary, not only to save municipalities the cost of two election days, but also to raise the incentive for the electrorate to turn out.

Now comes Assemblywoman Marion Crecco, R-30th District, expressing herself appalled at the low turnout for school board elections -- not just in her district, but across the state -- and putting in a bill, A-2923, seeking to consolidate the school board voting with the

This might require some additional law changes because school budgets have to be prepared by a certain time for practical reasons, not the least of which is the giving of dismissal notice to personnel who may not be re-employed if the budget isn't approved. Perhaps the primary date would have to be moved up into May as the school elections are moved down from April.

Mrs. Crecco's measure makes such eminently good sense we'd like to hear the arguments of legislators in either house in Trenton who feel they cannot vote for such a bill.

YOUR OPINION

Questions financing

I was one of only five citizens who attended the April 21 1988 Budget Meeting between the Commissioners and the Board of Education. Once again, I left a Belleville meeting

feeling anger, disappointment and embarrassment.

Our Commissioner of Finance, Joe McGreevy only questioned the transportation cost of the Board of Education budget. In my opinion, the cutting of the budget should predominantly be handled by, and be the responsibility of Mr. McGreevy. I would have assumed that he would have had the most questions and comments. Obviously, he felt finance was his field of expertise when he chose the Finance Department. Mr. McGreevy had weeks to study the Board of Education budget and prepare for the rejection from the voters who have rejected 21 out of the last 23 budgets.

Mr. McGreevy made a commitment to the residents when

he took his oath of office. Part of his campaign platform was he "got Belleville out of debt when he was first elected into While Belleville, like most communities, did have some debt, it was not the amount Mr. McGreevy quoted during his campaign. Belleville got rid of that debt by paying it off with tax dollars. There was no major new debts incurred because under his Finance Department leadership the town stood still; there was no growth! Why didn't he ques tion administration salaries and expenses? Why didn't he question the board surplus account? Why didn't he question Mr. Miele's tardiness in filing the application for State and

I guess I'm expecting too much of Mr. McGreevy. At many town meetings I have attended, he has been asked questions regarding the Tax Department and the Water Department and has had members of his staff answer for him. We are faced with serious financial problems. The voters rejected the budget for a number of reasons. The primary reason obviously is that the residents are afraid of a tax increase that we cannot afford.

We, the residents, obviously cannot count on Mr. McGreevy being responsible enough to know how to keep the cost down on all portions of the budget.

I feel the only solution to our problems in Belleville is to ask Mr. McGreevy for his resignation.

Ann Brave

"Kiss and tell"

To the Editor:

Former White House Press Secretary, Larry Speakes, with his "kiss and tell" revelations about Ronald Reagan, has confirmed the suspicions of many; that Press Secretary Speakes served also as a White House "teflon tailor," and Ol' Ron's chief "ventriloquist.

Chet Dobkowski

Social Security view

A long time ago I learned that to disagree with an opinion or viewpoint of Jim Golden, as expressed in his "Golden" Comments, will draw an angry rebuttal some 2 or 3 weeks

And sure enough, because I disagreed with Jim Golden's position (expressed in his comments of 3/17/88), that taxing 50% of the Social Security benefits of those in "higher" income brackets" (by the "Reagan clan" as he puts it), was "a gross injustice and violation of FDR's pledge never to tax these benefits" (back in 1936 I assume?), he charges right back at me in his column of 4/21/88. From the tone and substance of his response he is obviously saying: "How dare you disagree with me"!!!

He even "proves" how wrong and ignorant I am for saying that a couple filing jointly, and paying taxes on \$32,000 (that's ALL I said) "using the current '87 tax table," would fork over \$5,207. And my copy of the '87 Form 1040 still says that!

Come on, Jim, you know I was not "computing" (as you imply) some one's taxable income, grasping that approach to "prove" how wrong I am (was). Everybody seemed to feel that figuring your '87 tax was a complicated procedure. As for myself, I used the services of a tax consultant. Looking at all that figuring of yours, he may be out of a job. check your "computation" Jim; but it sure looked authoritative, so as to defy scrutiny, or checking it out for correct-

In his closing comment, Mr. Golden recalls, when he predicted the assignment of the newly elected commissioners, based on his "political savvy," I attributed it to "crystal ball gazing," an opinion he most vehemently objected to. Well, we now learn that it wasn't crystal ball gazing, nor was it "political savvy." What it was, he now reveals: "People in high places having confidence in the probity and integrity of those of the fourth estate, they often repose confidence in imparting sub rosa information." My God, Jim, that is putting it beautifully!!! What is says, folks, in plain English: People in high places letting the press in on a secret. Now the secret is out.

(continued on page 9)

Pete Dawkins 'small town' remark shows he doesn't understand N.J.

Highland Beach, Fl. - REPUBLI CAN U.S. Senate candidate Peter Dawkins should get better acquainted with New Jersey. Last week, the Star Ledger published a feature on the Republican Senate candidate in which he was quoted as saying, "I'd blow my brains out if I had to live in a small town." The report continues, "When it was pointed out that Rumson is not ex actly a large community or an urban center, Dawkins noted that the affluent Monmouth County municipality is the home of many movers and shakers in the business world, the arts and other endeavors...many of his neighbors have connections to big cities like New York because of their work

It's very obvious that Mr. Dawkins doesn't understand "Small Town New Jersey." Nutley is considered to be a small town; so is Belleville - and no doubt the inhabitants of Bloomfield consider themselves to be living in a small town. New Jersey has 567 municipalities, and except for a half dozen large cities, the balance of the communities are represented in the small town category

If we interpret Mr. Dawkins, it appears that we should either blow out our brains or see to it that our neighbors move up to be movers and shakers in the business world - the arts and other endeavors

With his outrageous observation, Mr. Dawkins has a lot of explaining to do when it comes to small towns like Nutley, Belleville and Bloomfield, New

The electorate should remember that Mr. Dawkins admitted he moved to

New Jersey in order to claim the Garden State as his home base for himself and

At this point, the perception is that Mr. Dawkins is an interloper and should be running for U.S. Senator in New York and not New Jersey.

I RECEIVED an invitation from International Columbus Quincentennial Commission, an affiliate of The National Italian American Foundation, to a conference on "The Real Meaning of Columbus." The conference, immediately followed by cocktails and dinner, will be held Friday, the 20th of May, at 3:00 PM at the College Hall University Club in New York City. Chairman of the Metropolitan Committee is Dr. Peter Sammartino and Co-Chairman is Dr. Anne Paolucci, President Columbus Countdown 1992. If you are interested in "The Real Meaning of Columbus" and desire to attend the event, call my secretary at 667-2100. The cost is \$37.00 a head.

THIS week, for the first time in my life, I read a suicide note. I don't know the author, and even though the event was years past, it still sent a chill through my body. I hope you never have the experience.

NANCY REAGAN is on page one former white House of Staff Don Regan, author of the book, For the Record: From Wall St. to Washington." In his book, Regan writes that the President is a passive figure, a man who abhors confrontation of any kind, gives his staff no direction, and is heavily dependent on the judgment of his wife. Of course, this is not new knowledge. What's new and revealing in the book is that much of the judgment Reagan relies on is based on his wife's fascination with astrology. It reinforces the contention by Reagan critics that the administration is rudderless. During the four years as Secretary of the Treasury, Regan says, the President never said one word directly to him about what he wanted to accomplish in the field of economics. At one time, White House Assistant Michael Deaver and former Press Secretary Larry Speakes have written books that contain unflattering references to Reagan's awareness and work habits. David Stockman, former Budget Director, also wrote harshly in describing what he considered the President's profound ignorance of the most basic economics.

Because they write about their former boss, instances where confidentiality was necessary in the relationship, they are low-life people. Disclosures of the kind made by Regan, Speakes and Deaver are betrayal of a trust

Book donation

Dr. Samuel Sbarra of Belleville has donated a chiropractic book to the Belleville Public Library. He made this gift so that potential chiropractic patients have the opportunity to read about the science prior to office visits. The book, "The Chiropractic Theories," by Dr. Robert A. Leach, covers topics from the basics of definition to in-depth research.

Dr. Sbarra is a lifelong resident of Belleville, and a 1977 Belleville High School graduate. He continued his education at Glassboro State College and received his degree from Sherman College of Straight Chiropractic in 1986. He is licensed in New Jersey and Pennsylvania and his office is located on 915 Franklin Avenue, Newark

Three generations on exhibit

The works of three generations of the Minker Family are on display at the Belleville Public Library, 221 Washington

Gustave Minker, Sr. has been painting for decades before the peach orchards disappeared from the Garden Avenue area. After the town of Belleville purchased part of his property, the new street was called Minker Place after him. One of his oil paintings on exhibit is of a Mill Street scene.

Two of his sons, Emil and William, followed in his footsteps. Both worked at Tiffany's in New York City. William later went

COMING IN FIRST - Seung Myong earned first place for oils and acrylics at Belleville Public Library's 1988 Art Show.

into business for himself as an engraver on jewelry. Ten of his engravings can be viewed in the display. Emil, who was only twenty-four when he died, has a 1911 repousse of an Indian head in metal on exhibit

Interest in the field of art continued with his son Norman, who discovered his potential, while taking courses at Belleville Adult School. He is a member of the Bloomfield Chapter of the National Woodcarvers Association. His late wife, Betty, whose linotype is shown in the display, had attended many of the art classes for adults given at the Belleville Public Library.

Among the items by Norman Minker being exhibited are his collection of hillbillies, handcarved from white pine and painted with acrylics. Spoons are carved in the style of "Welsh Love Spoons," while his bolo ties are carved ornaments on a cord. Carved flowers are in the form of pins and a hand-painted acrylic Egyptian carving is also on exhibit.

Mr. Minker has given lectures on his Egyptian carvings at the Library, also on "Found Art" and a class in woodcarving. "You can find almost anything you need in a book at the

Library," Minker commented to a library patron, while putting up his collection.

The Library is full of information. I have developed many of my ideas from seeing things in the world of books.

The exhibit can be viewed during library hours.

MULTI-TALENTED - Gilbert Hermes is shown with his photography and artwork at Belleville Public Library's 1988 Art Show.

He is survived by James P. Monahan, Jr. and four grandchildren.

(RELIGIOUS VIEWPOINT

Gerald Fortunato, Pastor Silver Lake Baptist Church

A Parent's Love

1 Corinthians 13

Pastor Gerald Fortunato Silver Lake Baptist Church

If I tell my children how they should perform, but do not lovingly guide them by my words and my example, I have become only blaring brass or a nagging noise to their ears. If I could foresee what they can become and even know the very plan of God for them and have absolute faith that it could happen, but fail to give them loving encouragement to meet each day's challenges and frustrations then my knowledge is useless ... If I sacrifice every earthly possession for my children; yes, even lay down my life for them in some dramatic way, yet fail to show sacrificial love in ordinary circumstances, then love shall not be communicated... This parent's love of which I speak is slow to lose patience, even in the most trying circumstances.

It never grows tired of explaining, instructing and answering. It looks for opportunities to express praise and support. It does not make its children dependent in a possessive sort of way, but strives to help them achieve the right kind of independene and the freedom to think for themselves.

A parent's love does not brag over things "I can do," making children feel inferior by comparison. It does not misuse its authority, but realizes that the privilege to rear children comes from the Lord. Love has good manners. It does not "use" children to live out its own dreams or to carry out its orders, but treats children with respect, for they are people too.

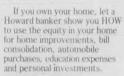

Love is not touchy; it is not easily provoked, and realizes that children are children. It does not keep a mental record of wrongs committed or say, "I told you so." Rather, love en-

courages children by praising their efforts...

Love does not blow up and say, "I've had enough." It believes the best, saying, "Try, I think you can." It loves no matter what happens — low grades, strike-outs, or forgotten lines in the school play. Love is sufficient for every situation. And, be sure of this — Love always brings positive results. Everyone responds to love.

of home equity loans

you'll get more with a Howard Powered HERO.

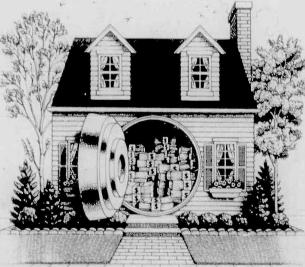

Your home is your financial castle.

We'll show you WHY a Howard Powered HERO* (Howard Equity Reserve Option) can free up your home equity to qualify you for a line of credit from \$5,000 to as much as \$500,000. With a AS INCO AS \$500,000. WIT a
HERO you can have up to 75%
of your home's appraised value
(less any outstanding mortgages
or liens), to spend on whatever you need most

The tax benefits of a HERO.

Under the new tax law, interest paid on HERO home equity loans and your existing mortgage balance remains deductible, provided that the loan is on your principal or second residence, in an amount up to the purchase price of your home plus improvements. Interest on additional home equity borrowing for education and medical expenses also is deductible.

Call for current low rate!

That makes a HERO even more valuable to you, since consumer interest deductions on personal loans, credit cards and other bor another way you're better off, Howard Powered!

It's easy to be a HERO.

It makes sense to apply for a HERO today, so you'll have your equity available whenever you need

equity available whenever you need it. When your application is approved, your HERO money is at your fingertips — all you do is write a check. Urlike some other home equity credit lines, the Howard charges no application fee, no points, and no closing costs, and, until you use your HERO, no minimum monthly payment is required. "Be Kind Week" kicks off

25 YEARS AGO

May 9, 1963...Belleville detectives cracked down on a budding narcotics ring and arrested eleven last weekend in the process. Five of the accused were adults, while the remaining six were teenagers.

Paul A. Brennan, the sixty-year-old principal of School Three, made the decision to retire after 33 years in the Belleville School Sys-

Belleville elementary school dance band, under the direction of Joseph Sellatti, will perform on the Sonny Fox "Wonderama" T.V. show. The episode would air on Channel 5, that coming Sunday morning.

Well, Spot the family dog would have found himself the center of attention this week, after all, it was "Be Kind To Animals Week." Residents were urged to not only honor this, but keep the principles alive all year long.

The Belleville Chamber of Commerce was in the process of embarking upon an aggressive membership drive, and had already adopted a slogan and an 18-point plan of action. The slogan "Push Belleville Ahead" was also the theme, and the points included advertising Bel-leville as the "Cherry Blossom" town, and work for modern street lighting for residential areas.

"Don't Wait 'Til The Last Minute For Rug Cleaning...NOW is the time to be thinking of cleaning, storing, and repairing your rugs and carpets. Don,t wait-Call us now!" urged the Meads-Miller Co. of

Meanwhile, the BHS track team outran West Side 66-42 in a recent meet...back in yesterday.

CATENA WORD PROCESSING* 675 Joralemon Street Belleville * 751-8634

Catena Word Processing Associates bring the very best of quality, high-tech office typing services to Belleville. Sandy Catena, who has located her service business at 675 Joralemon Street, describes her firm as "a typing/word processing service for everyone from the corporation with overload work to the

college student, needing a resume or term paper typed."

As a one-person service, Catena Word Processing offers careful attention to detail, personal involvement by Ms. Catena in every project, and obvious cost advantages to clients. By using state-of-the-art word processing equipment, new Belleville firm can produce letter quality copy, justified columns, and crisp clean text in the preparation of cover letters, resumes, invoices, manuscripts and any custom typing projects that require excellent results. Corporate and business narratives are a Catena specialty.

Sandy Catena has given her business a reputation for prompt and efficient results to a wide range of clients. Though less than one year old, Catena Word Processing Associates has established a lengthy list of happy clients.

To get a full list of services and fees, potential users of this important service can call Ms. Catena at 751-8634. For the next two weeks, following the appearance of this column, Catena Word Processing Associates is offering a ten percent discount to clients. With the early success of this much needed service in Belleville, Sandy Catena joins nearly 180 other members of the Belleville Chamber of Commerce in saying. "It's Better in Belleville."

Members of the Belleville Chamber of Commerce interested in promoting their business, may address their information to David Bryant, c/o Belleville Chamber of Commerce, 155A Washington Ave., Belleville 07109, 759-4848. Anyone wishing to join the Chamber, please call 759-4848 between the hours of 9:30 a.m. and 3:30 p.m., Monday through Friday.

No-fault insurance legislation introduced

Assemblyman John V. Kelly (R-30) has introduced legislation calling for a public referendum on the November 1988 ballot which will allow public comment on the retention of the present no-fault automobile insurance system.

'During the 1986-87 session of the Legislature, I voted for numerous measures to enact a verbal threshold. One bill provided for mandatory rate reductions," he said, adding, "But this referendum will make the issue of automobile insurance a priority for the Legis-

This is going to be an opportunity in a presidential election year, when there is a large turnout expected at the polls, for the people of New Jersey to have their say about the insurance mess," Kelly

In 1972, the Legislature enacted the no-fault automobile insurance system in order to provide better automobile insurance benefits to the residents of this state.

The no-fault system replaced the tort system. It was the intent of the no-fault system to provide medical benefits in a cost-efficient and timely manner, regardless of the degree of fault of the parties involved in the accident.

The no fault system does provide unlimited medical benefits, wage loss benefits and other support benefits for injured parties; however, you cannot ignore the fact that the cost of automobile insurance has risen significantly since the enactment of the no-fault law in 1972," Kelly said.

The people of this state should be given the opportunity to decide if they wish to retain the no-fault system or eliminate it in favor of a system which may result in reduc ed costs. A public question on the November '88 ballot, seems to me, a timely way of inviting public comment and participation in one the crucial issues of this decade," said Kelly.

"The present system of insurance penalizes drivers with good records. Something has to be done to protect the residents of this state who maintain good driving records," the Assemblyman

"The New Jersey Legislature has to make automobile insurance reform a priority in this session of the Legislature," Kelly concluded. Assembly bill 3032 was assigned

to the Assembly Insurance Com-

OVER THE LINE...

By Gregg Friedmann

Let's take another imaginary journey. Where to?

Buckle your seatbelts, and strap in the toddlers! We're about to enter a galaxy far, far away...one not of sight and sound...

O.K., O.K., I'm over-dramatizing a tad. Read on and you've got yourself a ticket to T.V. land...a magical place filled with mindless sitcoms, demented detective shows, "Dolly", and Channel 13 (PBS) for those of us who wish to be intellectually stimulated...or just enjoy counting along on Sesame

However, our tour doesn't stop off in Mr. Roger's neighborhood, no matter what kind of day it happens to be.

Did I lie?

Heck no-we ARE going to T.V. land, just a different sector. Today we'll discuss (or rather I'll discuss and you'll just keep reading along) reruns.

Can YOU say "reruns"? I think you can...in fact, I know you have. Reruns are as American as Apple pie, they just don't taste the same.

Before we start, I'd like to make a point, and explain the great thing about reruns. I've been around for 17 years, (not counting time as a fetus), and most of today's universally-considered reruns were made before I was born (or the time I spent as a fetus).

No big deal, right?

Now consider that I've seen practically every episode of quality tel-evision shows like "The Brady

All right, well, I was impressed. So what I'd like to talk about is those wonderful shows by providing a little paragraph about each, kind of a little "Seems Like Only Yesterday" (I felt the need to plug my own projects there) when everyone had the opportunity to watch those shows-not just "kidlings" (pre-schoolers) or kids home from

1. The Brady Bunch-"It's the story of a lovely lady, who was bringing up three very lovely girlsall of them had hair of gold, like their mother's, the youngest one in curls." Well, you know the rest-three guys, dad, Alice the housekeeper, the dog, as well as words like 'groovy" and morals like "mom always said-'Don't play ball in the house."

2. The Munsters--More than a

hunk of cheese-this family consisted of real-live freaks of nature. Who can forget mom who resembled the bride of Frankenstein, only with a calmed-down 'do? Or what about Grandpa and how he turned himself into a bat? The bolts in Herman's neck which supported a flat head as well as Eddie's pointed ears made this show a classic of sorts. Alas, poor Marilyn-the only normal one-I always wondered if one day she'd find herself acting as lunch for Spot, the creature which lurked under the stairs.

3. Leave It To Beaver-Wally and the Beav always managed to do "real neat junk", and very often,

mom and dad did find out, but NEVER yelled. I mean, c'mon Wardl Smarten upl Make him paint the picket fence or something...entertaining, but too artificial. Eddie Haskel, consistent nudge and true wisenheimer, was very often the origin of wild schemes, as well as a fountain for pseudo-intellectual conversations.

4. I Love Lucy-Who could ever forget this red-head who always had "some s'plainin' to do" whenever Ricky came home. Teamed up with her buddy Ethel, the duo found themselves in the middle of some outrageous situations-such as the time they get jobs in a candy factory and wind up eating and hiding more chocolate then they package when the belt goes berserk. And who could forget Ricky's stardom, not to mention Fred's lack of hair?

5. Gilligan's Island-Sit right back and read on. This was definitely one of my favorites, partially because it was rediculous. Seven people are stranded on a deserted island, and one is a highly intelligent professor who can make a radio out of bamboo. Fix the boat! Build a raft! DO something besides pick on poor Gilligan. I'd smack the Captain in the head with my capafter all, whose fault was it? Certainly not Gilligan's. This red-shirted dude had enough trouble with the basics, much less weather forecasting. Come to think of it, even weatherman have trouble with weather forecasting-but that's a different story altogether.

6. The Honeymooners-Another favorite. In fact, this show really was "a regular riot." The chemistry (and I don't mean the periodic chart-type) between Norton and Ralph was great. In fact, the entire cast was really what made the show what it was. Bang! Zoom! What a sitcom!

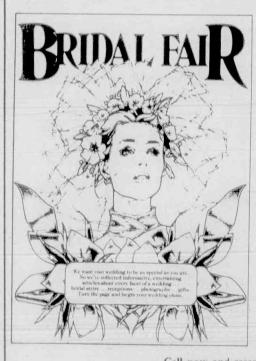

7. The Adams Family-"You rang?" said Lurch, Gomez flashed a deranged smile, Pugsly helped blow up model trains, a hand appeared from nowhere and assisted those in need. But that wasn't all. Cousin It resembled a hippie extremist, and my personal favorite "creepy kookie" was Uncle Fester. Fester was great. Not only could he make light bulbs illuminate by inserting them in his mouth, but he slept on a bed of nails and dressed like a monk. It was his antics as well as the rest of the odd-lot's which helped make the Munsters look average...well, almost.

Well, we've come to the end of our journey. I hope you enjoyed your trip down Sitcom Alley (or is it 1313 Mockingbird Lane?). I know I did (and do at various points of the school year when illness takes over)

One last point of wisdom for all you sitcom-addicts out there:

Always remember: Old sitcoms never die; they just hit syndication.

(Of course this means Channels 5 and 11 as well as cable, where they are usually sandwiched between ads for Ginsu Knives and Safari Cards).

Our May 19, 1988 BRIDAL TAB will have everything for the bride and groom to help them plan a perfect wedding and honeymoon.

The Nutley Sun, Belleville Times and Bloomfield Life offer you, the advertiser, a very high-powered, high income readership - \$394 MILLION MARKET!

Firefighters raising money

To the People of the Township of Belleville:

On behalf of the young burn patients in the Burn Center and Pediatrics Unit at St. Barnabas Medical Center, I would like to thank you for your generosity and support in the "Aluminum Cans for Burned Children" (ACBC) fundraiser. In 1987, together we raised \$600.40. This year we have collected \$200.

Here are just a few ways money from your aluminum cans is being used:

1. A musical keyboard for physical therapy for children with burn injuries to their hands to maintain range of motion and strength

. An air conditioner for a mother whose two small children were seriously burned when their home was destroyed by fire (their father perished). The children's recuperation during the summer months was made even more uncomfortable due to heat and humidity

Sneakers, socks, and shorts for a 4-year-old burn patient. 3. Financial aid for a 9-year-old, who, along with her mother, was a patient after their trailer-home burned. All their possessions were lost in the fire.

Your generosity and support are still needed. The ACBC is an ongoing fundraiser. With recycling becoming mandatory, I see no reason why this program cannot become an even bigger success

It takes a lot of love to help a child who has been seriously burned. It also takes money. If you have been supporting these children, please continue to do so, if not, please start. Your empty aluminum cans do make a difference, You can drop off your aluminum cans at these locations:

Belleville Fire Department Headquarters, 275 Franklin Ave., Parking lot behind building Belleville Fire Department, 434 Washington Avenue.

Belleville Chamber of Commerce, 155A Washington Ave. Please put all aluminum cans in plastic bags

I would also like to thank the Belleville Chamber of Commerce for joining us in our efforts to help these children, who have already suffered too much. To past president, Shirlee Sherman and her staff - thank you. To the new president — we look forward to working with you.

Thank you all for your support, Firefighter Philip Lazaro Jr

Firefighters of the Belleville Fire Dept. F.M.B.A. No. 29

Faults zoning board

To the Editor:

(A)

The stated concern of a group of citizens for the quality of their neighborhood is apparently unworthy of the consideration of the town zoning board. That message was clearly stated in the decision rendered on an appeal heard at the public meeting on May 3.

The appeal in question sought a variance to permit the construction of housing units which local residents felt would be much preferable to the construction which would be permitted without the variance. Details of site planning submitted by the builder would have provided an easement to local parking problems. Vehicular access would have been restricted to a location removed from heavy traffic flow and a school crossing. Existing drainage problems would have been eased. The elevation of the proposed buildings would

have complemented existing structures in the area. None of these advantages would be provided by construc-

tion permissable without appeal for variance

A letter expressing these matters was submitted to the adjustment board above the signatures of 19 neighboring property owners. Although the letter must have been in the hands of the board at least 5 weeks prior to the meeting, no acknowledgment of its receipt was forthcoming during the reporting of new communications. It was apparently not considered worthy of attention among the letters which were read, one of which was a letter from Rutgers University advertising courses which might be of interest to board members. In fact, no mention of this letter was made at any time during the meeting until the subject was brought up by the applicant's attorney. A copy had been sent to him as an interested party

The letter, while not a petition in any legal sense, express ed'the concern of area residents about this matter. Admittedly, it would have been advantageous to have all the people who signed this letter present at the meeting. But many of them had become discouraged by many previous postponements in this and an earlier related appeal. The most recent of these delays found would-be participants in an announced meeting standing around on the sidewalk, because arrangements for access to the building had been neglected.

The final result of this hearing was that the board opted to deny the variance, apparently on the grounds that no good and proper reason existed for granting it. But the petitioner was not the only person to be considered here. The people of this area believe that their expressed concern for the betterment of their neighborhood should constitute good and proper reason for board action. We suggest that in ignoring our proposals, the board has acted in a fashion that is neither civically responsible or politically expedient.

'Welcome Baby!' classes at Clara Maass

When a baby is born, the other children in the family may have many questions and feelings about the event and the changes in the family that result. To help parents provide the answers, Clara Maass Medical Center conducts "Wel-come, Baby!" sessions for 3-10 year

"Welcome Baby!" classes are taught by Joanne Simonetti, R.N., B.S.N., the family educator within the Clara Maass Medical Center Maternal / Child Care Unit, Simonetti, who worked on the team that developed the "Welcome Babyl" program, said, "We saw the need for a class that would help children become aware of their feelings concerning a new baby in the family. We can clear up some of the mystery for them. By doing it all in a single two-hour session, we can be sure it is fun for them as well."

Each session, held on a Saturday from 10:00 a.m. to noon, includes a film which shows the realities of pregnancy, labor, and childbirth

Business parade at BHS

The Belleville High School Vocational Advisory Council is sponsoring a program for the vocational students entitled "Business On Parade." The program is designed to establish a communication link between the high school and business community through a series of lectures.

Local businesses are being requested to provide a representative to participate in this program of lectures. The lecture should be planned for a maximum of 35 minutes. This allows 20 minutes for the presentation of either a specific or general job related topic followed by a 10 to 15 minute question and answer session.

The initial presentation in the program was given by William Cook and Anthony Lusnia, both from Hoffman LaRoche. The topic for their lecture was the personal resume and job intetview.

The Vocational Advisory Council's goal is to enhance the education of the students in the vocational areas so that, upon graduation, they will be better prepared to enter the job market and contr-ibute to the business community or to continue on to higher education. The council needs the support and assistance of the business community in order to accomplish this goal.

To reserve a presentation date and time, please contact one of the cooperative education coordina-tors or the Related Arts Supervisor, Victor DePauw at 450-3464

Available for

Charter Inc. N.J. (201) C+H+A+R+T+E+R from a child's point of view. The children practice the skills of holding, diapering, feeding, and dressing a newborn. They discuss the feelings that can arise when a sibling is born, including feelings of jealousy or of being left out, as well as the desire to be the big brother or sister and to help. They also tour the Clara Maass Maternal/Child

At the end of the class, after a birthday party in honor of their new brother or sister, the children are given a diploma, gift pack, and

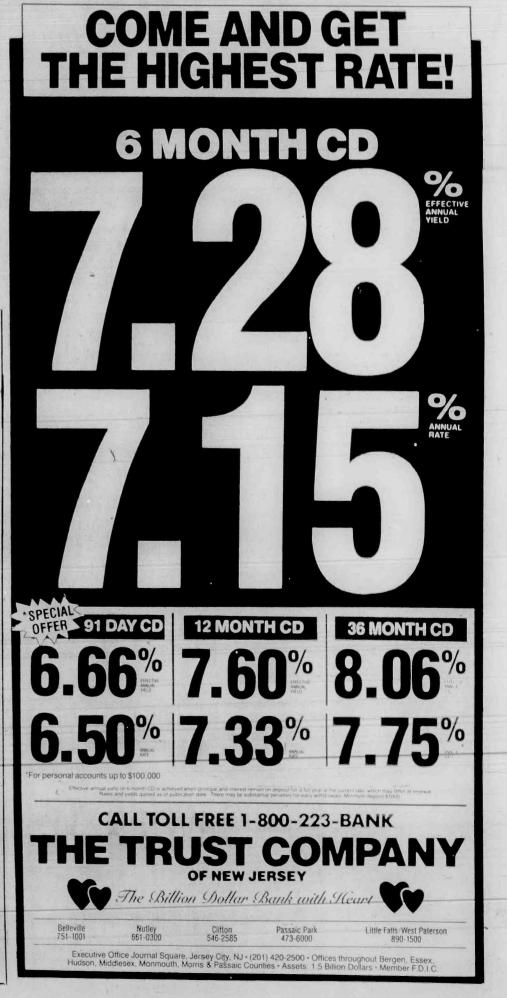

activity book. Parents, who are present without participating, often find they learn a good deal themselves about their children's

Another program that is open to the entire community is "Prepared Childbirth," which is sometimes known as "Lamaze." Advance registration is required for both programs, and \$60.00 for the series of five "Prepared Childbirth" classes. All classes are taught by Clara Maass obstetric nurses certified in Childbirth Education. For parents

whose babies are delivered at Clara Maass, classes are also available, at no cost, in post-partum care, infant care, and infant safety.

There are openings for "Welcome, Baby!" sessions on May 21, June 11, and July 16. "The best time to take part," according to Joanne Simonetti, "is as close as possible to the mother's due date." Special arrangements can be made for younger children. Those who wish information should call (201) 450-2194 from 1:00 to 3:00 p.m.

Broiled Marinated Fish Steaks

March is National Nutrition Month. And good nutrition can be a sign of good taste, too. Get a head start on tomorrow night's dinner by marinating your fish tonight.

11/2 pounds fish steaks, cut into 1 inch thick

Marinade for fish steaks:

In a shallow pan, combine oil, vinegar, Worcestershire sauce, pepper, bay leaf and parsley. Add fish steaks; cover and refrigerate

for at least 3 hours, turning occasionally so that steaks are well coated. Remove from marinade. Place on a foil-covered broiler pan. Baste with marinade. Place broiler pan about 3 inches from heat

Broil about 10 minutes, or until fish flakes easily when tested with

Help your Heart Recipes are from the Fourth Edition of the American Heart Association Cookbook. Copyright 1973, 1975, 1979, 1984 by the American Heart Association, Inc. Published by David McKay Company.

1 bay leaf

2 tbsp. chopped parsley

Belleville Times **SPORTS**

Try and picture the following scenerio. NFL Commissioner Pete Rozelle steps to the podium and announces to the audience the next draft pick in the 1988 NFL draft.

"The Cincinnati Bengals, with their fourth round draft pick, select (drum roll for effect) David Grant from the University of West Virginia." The hotel ball room explodes with joy and Grant steps to the podium to have his picture taken with Bengal officials.

It wasn't exactly like that for Grant on draft day, but the Cincinnati Bengals did select him in the fourth round of the '88 NFL draft and he was the 64th player chosen overall. Grant, who was home in Belleville when the phone call came through, was ecstatic about his selection to the NFL.

"It's a dream come true," Grant said via telephone last week.

"It didn't matter to me which team selected me. I'm just happy for the opportunity. The NFL is something I've been working for all

Grant, of course, starred for the Belleville High School football team from 1980-82, playing for coach John Senesky. Belleville was 24-6 during Grant's tenure as a defensive tackle and appeared in the playoffs in 1980 and '82.

After graduation from Belleville in the Spring of '83, he attended West Virginia University, and enjoyed a standout

Buc Shots

"I had a great time playing at West Virginia," Grant said "College sports was everything down there. We (the football team) were the Jets and Giants and the college basketball team

was the Knicks and Nets. The support was tremendous."

West Virginia had some good football teams during Grant's four year career. The 1987 club was 6-6 and appeared in the Sun Bowl on Christmas Day, losing a heartbreaker to Oklahoma

"That was the kind of season we had," Grant said of the close loss to Oklahoma State. "We must have lost five games by a total

Grant, at 6'5", 260 pounds, is ideal for the nose guard, of defensive end position in the NFL. He has good speed and is very tough in the trenches

They (the Bengals) are looking at me for nose guard," Grant said. "But I'm also going to learn the defensive end position. At West Virginia, the two positions were almost the same, so I know a little about both spots.

While the NFL is known for its hard hitting and big players, Grant notes that the professional ranks requires a stronger mental

"At this level," he said, "they're all good. The key is learning the plays and getting them down cold. It requires a lot of studying. Grant was at the Bengals rookie mini camp on April 30 and met a few of the Bengal veterans.

"Anthony Munoz (the Bengals All Pro offensive lineman) told me to learn as much as I can between now and training camp," Grant said. "I've got to stay in top shape and get ready for camp.

Training camp commences July 10 for the Bengal rookies. Cincinnati opens the exhibition season early, playing in the Hall of Fame game at the end of July against the Los Angeles Rams in Canton, Ohio.

As for Grant's first exposure in an NFL mini camp, the Belleville native was impressed.

"It was exciting being a part of the NFL," he said. "My family

is very happy, too, and I can't wait for camp to start."

While there is excitement in playing in the NFL, Grant notes what is known to most professional fans. The NFL is big business, and proper representation is a must.

"Getting a qualified agent was important," Grant said.
"Contract negotiations aren't easy, and I'm letting my agent

Ironically, Grant's agent is the same man who also represents Craig Heyward of the New Orleans Saints and Brandy Wells, who was also selected by the Bengals.

Grant, Heyward and Wells all played in the NNJIL in 1982, with Heyward starring at Passaic and Wells, Montclair.
While business dominates off the field, the fun of playing

football continues on the playing surface, and Grant loves to remember his playing days at Belleville High.

"I remember my senior year, and playing with a great bunch of guys," he said. "Of course, that win over Passaic in 1982 (3-2) was a big moment in all our lives and beating Clifton the following week (37-0) was also an important game.

Grant has a dissappointing moment in his high school career as

"Losing that Union game (12-7 in the '82 playoffs) was a tough one," he said. "We should have won it." Grant would have enjoyed the opportunity of playing for the

Jets or Giants, but the Bengals present an excellent opportunity.

Coached by Sam Wyche, the Bengals endured a less than successful year in 1987. The team was 4-11, and had a penchant for blowing big leads in the second half of football games, thus the

need for more defense. The Bengals of '86 were 10-6, and the team does have plenty of offensive weapons. The team is run by Paul Brown, one of the great names in the history of the National Football League. Brown's name rates at the top of the coaching list, along with Vince Lombardi and

George Halas. Brown was the Bengals first coach, when the team entered the American Football League in 1968. Two years later, the NFL and AFL merged and the Bengals became a part of the AFC Central Division. In 1970, the Bengals third year of existence, the team won the division championship, but lost in the playoffs to the

Baltimore Colts. So, David Grant begins a new and exciting career as a professional athlete this summer. While there are no guarantees, Grant has a good chance of advancing with the Bengals, and his heart and determination should take him a long way.

Once again, congratulations to David and his family on this tremendous accomplishment. We'll follow David's advancement in the Bengals camp this summer.

LAST WEEKS OUIZ

The New York Yankees were managed by Miller Huggins during the glory years of the 1920's and 1930's. FOR THIS WEEK

The New Jersey Devils advancment in the NHL playoffs this (continued on page 16)

know who has the ball during the 1982 Belleville - Passaic game at Belleville High School. The Bucs won 3-2 and Grant's fine defense led the way. Grant is now a member of the NFL Cincinatti Bengals.

Crew team readies for regatta season

It's regatta season at Belleville High School, and the local oarsmen and women are beginning to reach high gear.

Scott Fabian's crew competed in the City Championships at Philadelphia on May 1 and last week-end, battled in the Upper Merion Regatta. In both races, the Bucs received good performances from the boys' midweight four, boys' senior four and the girls' senior four.

At the city championships, the midweight four dominated from wire to wire, winning the championship by :12.

"They led from start to finish," Fabian said of his undefeated mid-

weight four, "By 1,000 meters, they were in control of the race and coasted in.'

The midweight four consists of Jerry Russo, Mike Mc Guire, Brian Villano, Tom Eccles and Sue O'Donnell.

The boys' senior four finished second in the qualifying round and was fifth in the championship race at Philadelphia. Although the team was fifth, it finished just two seconds out of second place.

"That was probably the most exciting race of the day," Fabian said of the senior four race. "I

(continued on page 17)

Corino wins 200th but loses Johnsen

A milestone was set, but all wasn't rosey in the world of Bellevilsoftball. Last week, the girls defeated Good Council, 14-0 in the first round of the Essex County championship. The victory was number 200 in the illustrious coach-ing career of Carl Corino.

With the team riding a six game winning streak and things apparent-ly falling into place, Belleville went to Clifton last Monday and lost a heartbreaking 2-1 contest. Losing the game, however, was secondary to Belleville losing hard luck pitcher Stacey Johansen for the remainder of the season.

Johansen, who was just starting to make some ground after missing the first month of the season to a knee injury, broke her right leg sliding into second base last Monday. It is the third major injury to a Belleville softball player this year, with Carol Morrison (knee) and Simone Edwards (broken nose) also on the DL,

Belleville also defeated Nutley last week and took a 13-5 mark into this weeks action. The Lady Bucs played Bloomfield yesterday and will face Kennedy in a rare double header this afternoon, at home. Game time is 4 p.m. Tomorrow, the team is at Eastside and on Saturday, it's a county game with Ver-ona, at Clearmon Field, starting at 11 a.m. Next Monday, the girls are host to Montclair and next Wednesday, it's a game at Passaic. Both of those games commence at 4 p.m.

Johansen's season ending injury came in the second inning last Monday. The sophomore had reached first base via a walk. She took off to second base on a passed ball, and slid into the bag. Unfortunately, she slid hard into the bag and her leg took the brunt of the force. She was taken away in an ambulance and last Monday night,

was home, her right leg in a cast.

Corino was not available for comment, but his wife, Eve, expressed the sentiment of the entire program.

"That poor kid," she said, "she comes back from knee surgery and ends up breaking her leg. Carl went to see her at her house. She's in pain, but she somehow keeps a smile through all this. It's just a

Diane Di Vincenzo came in to run for Johansen and scored what would be Belleville's only run of the afternoon. The run gave the Lady Bucs a 1-0 lead, but Clifton tallied once in the third and once in the fifth to win the contest.

Janine Luzzi pitched a masterful game for Belleville, allowing just two hits, striking out three and walking four. On most days, that effort would have been enough, but the Belleville bats were limited to just one hit on the afternoon, that a bunt single by Anne Carlucci.

Last Saturday, Belleville stop-ped Good Council, 14-0 in the first round of the Essex County tourney. It was win number 200 in Corino's coaching career and the game marked the debut of Johansen on the mound.

"Johansen was superb," Corino said last weekend, before the injury. "She looked real sharp and stayed ahead of the hitters throughout the game."

Johansen struck out ten, allowed just one hit and didn't walk a batter. Good Council was 7-1 entering the game, but never got its game in gear. Belleville was paced by Jennifer Bridge, a sophomore shortstop, who was 4 for 4 with two runs scored, five RBI's and four stolen

Also doing well was Racquel Melson (2 for 5, HR), Johansen (2 (continued on page 17)

Errors plague Bucs as they split

Once again, it comes down to solid execution being the key to success for the Belleville baseball team. The Bucs split two games last week, stopping Nutley, 14-2, and losing to Clifton, 7-2. Belleville took an 8-7-1 mark into this weeks

The Bucs played Irvington in the first round of the Greater Newark Tournament last Tuesday. Yesterday, the team was at Bloomfield and tomorrow, the Bucs are host Paterson Eastside, in a 4 p.m. start. If Belleville defeated Irvington last Tuesday, the Bucs were scheduled to play Barringer in the second round of the GNT on Saturday at Irvington. Next Monday, the team plays at Montclair, next Tuesday, the Bucs return to Eastside to replay an earlier game that ended up in a tie and next Wednesday, the

Bucs are home to Passaic. All of those games start at 4 p.m.

Belleville has been hampered by inconsistency this year and last week was a prime example. After rolling over Nutley, errors paved the way in a loss to Clifton, the same Clifton team Belleville had drilled earlier in the season.

Versus Nutley, the Belleville bats were alive and well, scoring 14 runs on 17 hits. Frank Orrei was the winning pitcher, allowing just three hits, striking out five and walking

five in a complete game effort.

Belleville trailed in this game, 2-0, in the bottom of the fourth inning before the bats came alive. The Bucs tallied seven runs in the frame with George Speer and Jeff Spilsbury lining doubles in the inning. Speer, Michael Thompson, Gary Vilano, Mike Di Biase, Spilsbury,

Jay Marchese and Steven Tice scored the runs in the fourth to give the Bucs a big lead. Tice had replaced Anthony Rodriguez, who was injured earlier in the game making a fine catch in the outfield.

The Bucs added two more runs in the fifth. P.J. Grande walked and stole second base. Spilsbury hit an infield single, putting runners at first and second base. A double steal moved the runners up 90 feet and Marchese lined a single, scoring Grande and Spilsbury.

The Bucs finished the scoring with five runs in the sixth. Ernie Brodie hit a solo home run and Marchese lined a three run homer, scoring Grande and Spilsbury who had both singled. "The bats finally came awake,"

said head coach Nick Grande after the victory. "Frank (Orrei) pitched very well and we did a good job

The offensive heroes were many.

Spilsbury was 4 for 4, Marchese finished 3 for 3 with 4 RBI's, Tice was 2 for 2 with 2 RBI's, Speer had three hits and drove home three runs and Thompson finished 2 for 2.

After playing a solid game against Nutley, the Bucs were less than impressive in losing to Clifton last Monday, 7-2. All seven of the Mustang runs were unearned and Grande wasn't very pleased with the final outcome." "It was terrible execution," Gran-

de said. "We make three errors in the first inning and give them four runs. We didn't play well, what more can I say.' Belleville's two runs came in the

third inning. Di Biase walked and Marchese hit a home run, cutting the Mustang lead to 4-2. Clifton scored three more runs in

the seventh to pull away. Once again, two errors accounted for the three runs. Orrei was the losing pitcher this

(continued on page 16)

Track team prepares for championship weekend

The Belleville track team ended up on the short end of a 105-26 lecision to Nutley last week. The Bucs competed in the Essex County relays last weekend and are gearing up for the league championships, set this weekend at Montclair, John Tosato's team battled Ken-

nedy last Tuesday and will take part in the league championships tomorrow and Saturday at Montclair. Next Monday, some of the team will run in the Essex County novice meet and next Wednesday, it's a 4 p.m. dual match with West Essex, at home. Versus Nutley, the Bucs had two

first place finishes. Mario Lemongello took first place in the 200 meters with a time of 25.4. Ray Zamloot won the high jump in 5'4". Ted Sochaski took second in the

high jump at 5'4". Greg Moriello was second in the 1600 meters at 5:06.8. Other second place finishers were Jerry Padula in the 200 meters (25.8) and Paul Parmenter in the 3200 meters (11:09)

Sochaski was third in the long

jump (18'1"), Lemongello took a third place in the 400 meters (59.2), John Tonelli garnered a third place in the 800 meters (2:15.2) and Moriello rounded out the scoring with a third in the 3200 meters At the county relays last week-

end, the distance medley team finished in an impressive time of 11:53.2. Tonelli started with a 2:15 half mile, Lemongello ran a :57 quarter, Garuv Nanjia had a time of 3:45 in the three quarter mile and Moriello finished the mile portion in an impressive 4:58.2

The high jump relay team of Sochaski and Zamloot combined for a jump of 10'6"

"I was happy with the distance medley performance," Tosato said last weekend. "As far as I can tell, that's the best time in that particular relay since I've been here."

The Bucs will look for more strong individual performances at the county championships this weekend and are still gunning for that first conference victory of the 1988 campaign.

THE LEADER - Buc Baseball Head Coach Nick Grande coaches third base against Nutley last week. (Photo by Chris Lawlor.)

Buc baseball

(continued from page 15) time around, pitching the entire

NOTES: Bucs lost two games to the rain last week. Team had defeated Clifton, 9-0 earlier this season. Cut off date for the state tourney is May 14, and the Bucs must be .500 or better on that date in order to qualify. Bucs must make up game with Eastside that ended up in a tie two weeks ago. League rules state that if a game ends up in a tie, it must be replayed from the beginning. Bucs advanced to the GNT semi finals last season and played in the championship game in 1986, losing to Columbia. Bucs were beaten by Glen Ridge in last years semis. Glen Ridge won the GNT last spring.

prepares to take a swing against Nutley last week. (Photo by Chris Lawlor.

RECREATION ROUNDUP

Recreation Men's Softball Results as of May 3

Three teams boast perfect 3-0 records as the Belleville Recreation Men's Softball League is midway through its second week of action. In the Monday A League, Suppa's Bar leads the way with after defeating Printing Techniques 5-3, Plaza Travel 5-4, and Howard Savings Bank, 10-6. Howard (2-1) beat Belleville Shoes 13-8 and Dirty Turps 13-5. Dirty Turps (2-1) won a 22-9 decision over Plaza Travel (0-2-1) and edged Belleville Shoes 4-3. Printing Techniques (1-1-1) topped a winless Belleville Shoes team 11-2 but had to settle for a 5-5 tie with Plaza Travel.

the Tuesday "B" League, Five Brothers Carting and For Pete's Sake are tied for the lead

with each 3-0 records. Five Brothers won 6-5 over Eastern Molding, 7-2 over Roselli's Amoco and 12-1 over Belleville Political Club. For Pete's Sake beat Roselli's 17-2, Andros Farms 10-9 and Eastern Molding 13-6. Eastern Modling (1-2) shutout Belleville Political Club 9-0 and Andros Farms (1-2) also bested the winless BPSC team 10-5. Roselli's (1-2) defeated Andros Farms 5-3.

Opening day results in the Wednesday A League were: Michael's Roscommon House 3 -Racioppis 2; Carolan Contractors Wallace & Tiernan 10; DeBacco's 16 - Rossmore Pharmacy 4.

Thursday B League results opening day were: Aces 19 -Eastern Sales 1; Megaro 13 -Rosebuds Pub 4; Motorcycle Mall 15 - Bear Construction 0.

Tennis team gets first league wins

The Belleville tennis team captured its first two NNJIL victories of the '88 season, defeating Passaic and Eastside by 3-2 margins.

Tony Salese's club was 3-14 heading into a busy week on the courts. The Bucs faced Kennedy and Bloomfield earlier in the week and will take part in the Essex County championships this afternoon. Tomorrow, the team is at Eastside. Next Monday, the Bucs play at Montclair, and next Wednesday, the road show continues at Nutley. The Bucs are playing all of its matches on the road this year because they don't have the facilities at Belleville High School for varsity tennis.

As has been the case for most of the year, the veteran members of the Buccaneers led the way. Against Passaic, senior Andy Cueva won at second singles and the doubles team of Gus Lijo and Dawson Bloom prevailed in three sets. Lijo and Bloom are both

Sophomore Khoi Pham won his first match of the '88 campaign against Passaic at third singles. Salese is optimistic about Pham's future with the team.

"I think he has a shot at playing first singles next year," the coach said. "He has natural ability and has learned a lot this year. If he keeps working hard during the off season, he could be a good player."

Versus Eastside, Jonas Imprago was victorious was first singles, Cueva prevailed at second singles and Bloom and Lijo came out victorious in the doubles match.

The second doubles team of Mark Mellinger and Hoa Ly continues to improve. Both men are young, Mellinger is a freshman, Ly, a sophomore, and Salese feels both players could have an impact on future Belleville teams.

The Bucs lost two conference matches last week, bowing to Clifton, 5-0 and Nutley, 4-1.

year is a bit like the New York Islanders first venture in the playoffs back in 1975. The Islanders pulled off two stunning upsets before losing in the Stanley Cup semi finals to the eventual champs, Philadelphia. In their second round playoff win, the Islanders fell behind 3 games to 0, then won the next four games. Then, in the Philly series, the Islanders fell behind, 3-0, then rallied to win the next three games, setting up a decisive game seven that the Flyers won. Who did the Islanders defeat in the first two rounds of the playoffs in 1975.

DENTALLY SPEAKING By Drs. James D. Muglia and Paul N. De Maio

Mr. O. of Nutley asks: "Porcelain broke off my crown. Can it be repaired without removing the crown?"

There are procelain repair materials, Mr. O. that can be treated. Our own experience indicates that they work fairly well if the repair is in a non contacting area. If the repair is on the biting surface of the crown then the repair material doesn't hold up. Most times, Mr. O. the repair is for cosmetics only. The exposed metal provides the needed protection for the tooth regardless of the presence of

porcelain. Another method used is as follows: All the porcelain is removed and the underlying metal is prepared or drilled to receive a new laboratory made porcelain covering. This covering then is cemented over the prepared metal

Discuss these options with your den-

Corino reaches milestone (continued from page 15)

for 3, 2 RBI's), Michele Milano (2 for 3) and Laurie Dondarski (one hit, two runs scored

The week started with a very important league victory over Nutley, 5-3. Luzzi hurled a complete game, striking out one, but walking eight. She was shaky in the first inning, when all three Nutley runs scored on three hits and three walks.

"She looked good after that," Corino said of Luzzi. "She held them down and gave us a chance to get back into the game."

Meanwhile, the Belleville bats got into action. Trailing 3-0 in the fifth, Bridge started a rally with a single. Laurie Moyer popped to the

pitcher, but a collision at the mound resulted in a free ball and runners on first and second. Johansen drilled a single, scoring Bridge.

Natalie La Bella sacrificed Johansen and Moyer to second and third base respectively and Dondarski hit an infield single, scoring Moyer. A throwing error on Dondarski's hit drove home Johansen as well, tying the game at three.

In the top of the seventh, Belleville scored the go ahead runs. Moyer singled and advanced to second on a passed ball. Johansen singled home Moyer with the fourth run of the game and Johansen circled the bases on the hit when the attempted throw to first base ended up in

right field.

"I'm very happy with the play of Moyer and Bridge," Corino said. "They both have done very well in their first varsity season. Both girls are playing key positions (Bridge is a shortstop, Moyer, the catcher) and have really adjusted to the

As for Corino, win number 200 comes in his ninth season as softball coach. He took over the program in 1980 and guided that first club to a 20-8 record and a berth in the Essex County tournament championship game. Next week, a look back on Corino's accomplishments and his future with the program.

Crew competes in championships

(continued from page 15)

thought our kids did a good job in the race.

The senior four girls took a third at the city championships. The team won its qualifying heat and came within:04 of the overall title.

At the Upper Merion Regatta, the girls won the championship by six seconds, breaking open a tight race in the final 500 meters. The boat is made up of Kim Trefsgar, Kristine Villano, Carolyn Giuffrida, Joyce Burke and Laura Nardone and appears to be nearing top form for the Stotesbury Regatta and National Championships.

There wasn't a midweight race at the Upper Merion, so the mid-weight four moved to the senior four race and did very well. The boat finished second, losing to North Catholic High School by just eight tenths of a second.

The boys senior four also did well, taking third place in the race. The senior four shell is made up of Dale Watkowski, Vin Colaninno, Len Linfante, Gus Leming and Heather Apruzesse.

"Our older kids are leading the way," said Fabian. "We have some tough races coming up, with the Mid Hudson and Stotesbury Regatcoaches for all their hard work and the Parents Association, who has been very supportive, as usual.'

The Bucs will leave the boat house at 4:30 a.m. on Saturday to compete in the Mid Hudson Regatta in Upstate New York. That regatta starts rather early because the water is known to get rough as

the day progresses.

After the Mid Hudson, the Bucs take part in the Stotesbury Regatta on May 21, and the National Championships on Memorial Day Week-

The following schedule compares the components of the 1988 levy with those of 1987 for Township purposes only:

		Local Tax Levies			Local Tax Rates	
	1988	1987		1988	1987	
	Estimated	Actual	Increase	Estimated	Actual	Increase
For All Municipal Purposes For Reserve for	\$13,471,675.90	\$9,324,710.43	84,146,965.47	\$2.84	\$1.98	\$.86
Uncollected Taxes Total Local Tax for	1,973,561.89	1,625,836.24	347,725.65	.42	.35	.07
Municipal Purposes Assessed Valuations	\$15,445,237.79 \$473,257,100.00	\$10,950,546.67 \$469,669,200.00	\$4,494,691.12 \$3,587,900.00	\$3.26	\$2.33	8.93

The above comparisons deal only with Municipal Purposes. While County and School tax levies and rates cannot be accurately forecast at this time, the amounts for these purposes used in establishing the "Reserve for Uncollected Taxes" or the so-called "Cash Basis Overlay" conform to mandatory provisions governing the preparation of the Local Municipal Budget. The County Budget and its distributive effect on our Township has not been determined as of this date and the amount to be raised by taxation for School-Purposes will not be determined until a later date. When School and County Taxes are finally determinable their effect on the 1988 tax rate will be made known to the public.

Chapter 68, Public Laws of 1976, as amended in Chapter 49, Public Laws of 1983, places limits on certain municipal expenditures. The limit for 1988 is 5%. The following schedule, subject to review and approval by the Division of Local Government Services in the State Department of Community Affairs, shows the computation of the maximum amount of increase allowable in the Budget for 1988 over that of the 1987 Adopted Budget for the Appropriations.

ACTION OF LOTH VALUE AND		
"CAP" CALCULATIONS Total 1987 Appropriations		\$18,805,840.11
Less Reductions:		\$10,000,040.11

TOWNSHIP OF BELLEVILLE

EXPLANATORY STATEMENT - (CONTINUED)

After deliberations on the details of departmental requests, operating appropriations have been set at minimum levels to continue to provide needed services. In this connection it is pointed out that a substantial portion of operating expenses is determined by contractual obligations for both salary and other expense elements, over which the Governing Body has little or no control. The Board of Commissioners urge all taxpayers to attend the hearing on the Budget for the year 1988 to be held at the Belleyille High School on May 24, 1988. The Board of Commissioners shall be pleased to respond to any questions at that time.

High School on May 24, 1988. The Board of Commissioners	shall be pleased to resp	oond to any questions The Boar	at that time. rd of Commissioners ownship of Belleville

CAPITAL BUDGET AND CAPITAL IMPROVEMENT PROGRAM

This section is included with the Annual Budget pursuant to NJAC 5:30-4. It does not in itself confer any authorization to raise or pend funds. Rather, it is a document used as part of the local unit's planning and management program. Specific authorization to pend funds for purposes described in this section must be granted elsewhere, by a separate bond ordinance, by inclusion of a line m in the Capital Improvement Section of this budget, by an ordinance taking the money from the Capital Improvement Fund, or er lawful means. PITAL BUDGET

APITAL BUDGET

-A plan for all capital expenditures for the current fiscal year. If no capital budget is included, check the reason why:

| Total capital expenditures this year do not exceed \$25,000, including appropriations for Capital Improvement Fund, Capital including letters and Down Payments on Improvements.

| No bond ordinances are planned this year.

APITAL IMPROVEMENT PROGRAM

-A multi-year list of planned capital projects, including the current year. Check appropriate box for number of years covered, including current years.

| 3 years. (Population under 10,000)

| 6 years. (Exceeding minimum time period)

| 1 year. (Exceeding minimum time period)

| 1 year. (Exceeding minimum time period)

| Check if municipality is under 10,000, has not expended more than \$25,000 annually for capital purposes in immediately revious three years, and is not adopting CIP.

NARRATIVE FOR CAPITAL IMPROVEMENT PROGRAM

The Capital Improvement Program for the Township of Belleville is presented herein. The capital projects planned for 1988 are etailed on Sheet 36c. The Township of Belleville, exclusive of the Board of Education, does not contemplate any capital projects eyond 1988. Should the need arise, the Capital budget can and will be revised accordingly.

The Board of Commissioners.

The Home Front

By Nina Kaeser

Celebrate springtime with a special wreath at your door - a circle of sprigs pruned from evergreen bushes, brightened with the first spring flowers.

Aluminum siding can be painted if you wish; many latex paints are suitable and some are made specially for the purpose. Wash off powdery residue first; if chalking is severe, a primer may be needed.

Old-fashioned french doors served a particular purpose: they let light glow from one room to another. Designers are using them again.

Mildew anywhere - on painted walls, tiles, even stone steps and patios - can be cleaned with a bleach solution (one part bleach, four parts water, and a handful of detergent). Scrub, let dry, then rinse.

Flip side of the stock market tumble: lower mortgage rates and moderated prices are expected to boost real estate sales.

If you've got a real estate sale of your own in mind, talk to the knowhow people at Century 21 Stanford Agency, 86 Union Ave., Nutley 235-9000. Let us market your property for you.
