

# Belleville Social Notes

Mrs. Abram Stanfield of avenue entertained New Eve. Guests included Mrs. ... father, John Boehmer; a Miss Cecilia Boehmer; Ruth Zoeller and Mrs. Arthur Hel... daughter Ruth of Belleville; and Mrs. John Boehmer Jr. and Francis, and Mrs. Delphia Moran Newark.

Misses Lydia and Rina Sackett Amboy have been guests of uncle and aunt, Mr. and Mrs. Boniface of Park View ave...

William Hinton, a student at Rutgers University, has been spending Christmas vacation with his uncle, Mr. and Mrs. John Brophy Span avenue, with whom he is his home.

Happy Hour Club held a Christmas party Saturday night for members and their families. The Harmonica Band played. Miss Cece danced to her brother's accompaniment on the phonograph. There was a tree and refreshments were served. Mrs. Will Leib and Mrs. Emil Rosnagel in charge.

Miss Ruth Mutch, daughter of Mr. and Mrs. E. J. Mutch of 350 Joramon street, a student at the New Jersey State College for Women, is spending the holidays with her parents. Saturday afternoon she entertained three tables of bridge. Those attending were Mrs. Nelson H. Zeigler and the Misses Jeannette Stoddard, Margaret Frost and Margaret Peterson of Belleville, Miss Erna Meyer, Westwood; Miss Helen VanDusen of Haworth, the Misses Louise Riger and Christine Reader of Paterson, Miss Eloise Larson of Perth Amboy, Miss Gertrude Noyes of Brooklyn, and the Misses Evelyn and Violet Mutch and Jean Eagleson of Nutley. Christmas greens were used in decoration.

Miss Doris Tillou of 169 Hornblower avenue gave a bridge party Friday night for a group of Belleville friends. They were the Misses Ruth Mutch, Lillian and Margaret Lennon, Margaret Brady, Marjorie Frost, Lillian Pesvey. Jeannette Stoddard, Theresa Nagel and Margaret Peterson. Miss Tillou is a student at Syracuse University.

## General Scout Mobilization Anniversary Week Feature

### Rapidity With Which Boy Scouts Can Be Summoned For Emergency Work To Be Demonstrated

As a spectacular demonstration of the rapidity with which Boy Scouts can be mobilized in case of emergency or disaster of national scope, the outstanding feature of the celebration of the nineteenth anniversary of scouting in America will be a country-wide mobilization of scouts on Saturday, February 9. In nearly every city, town and country hamlet, Boy Scouts will rally at a given signal and perform a "Good Turn" for their community. Boy Scout Anniversary Week will be celebrated this year during the week of February 8-14. On the evening of February 8, Anniversary Day, 800,000 scouts and their leaders will stand at attention and rededicate themselves to the principles of the scout oath and laws. On February 10, patriotic pilgrimages to the graves of Presidents of the United States and other historic shrines will be taken by many scouts.

**Efficiency**  
Working with the newspapers of Minneapolis, Minn., in an effort to obtain adequate election returns as soon after the close of the polling places as possible, Boy Scouts of that city tabulated and gathered the returns and did the work nearly twice as fast as boys who were not scouts had done it in previous years.

Three hundred and fifty-three scouts hired through the paid employment service maintained by Boy Scout Headquarters in Minneapolis were employed by the newspapers of the city. By 2 A. M. election night two hundred and thirty-four precincts of the city were reported in grand total and in addition detailed precinct by precinct returns were secured, giving the vote in each. At the last general election at 2 A. M., five hours after the polls closed, returns had been received from only one hundred and sixty-nine precincts by boys employed by the paper. The boys were not scouts. The closing hour was at 2 A. M. for morning papers and their coverage on local returns at the last general election carried returns from only one hundred and sixty-nine precincts for President, Governor and Senator. There was no attempt at detailed returns. Even for the evening paper deadline, returns were not available in sufficient volume to attempt tabulations on the day after election.

This year the morning extras carried tables on the precincts reported on President, Governor and Senator, seven hours ahead of the earliest similar tables at the last Presidential election.

Newspaper executives gave practically the entire credit for this improved service to the more efficient reportorial work of the scouts. Some refinements and office routine contributed to the speeding up process but those features were said to be minor.

**An Unknown Scout**  
A \$20 gold piece has been turned over to the Boy Scout Council of West Orange, N. J., by an unknown donor as the result of a good turn done by an unknown scout nearly seven years ago.

According to the message which was forwarded with the money, a resident of West Orange went into a theater nearly seven years ago and asked a boy who was playing outside to watch his car for him until he came out. He came out of the theater and found that the boy was still on the job watching his car. He offered him fifty cents as pay for his work and the boy refused, saying that he was a scout and would not take pay for doing a good turn.

The note reads: "that so impressed me that I have never forgotten it. So here is the fifty cents, with interest."

The \$20 was turned over to the Welfare Federation by the Boy Scouts.

## Jus Jox

The great director was at his wits' end. The scene that they were shooting called for tears on the heroine's part, yet nary a drop fell from her beautiful if slightly dumb eyes. Finally in desperation, he cried:

"For the Lord's sake, weep! Just picture a situation. Imagine they are bringing your dear husband home, his lifeless body all terribly mangled from an automobile accident. Cry, woman, cry!"

"I should cry," retorted the star coolly. "And him insured for a half million!"

**Book Salesman**—Have you a Charles Dickens in your home?  
**Lady of the House**—No.  
"Or a Robert Louis Stevenson?"  
"No!"  
"Or a Shakespeare?"  
"No we ain't, and what's more this ain't no boarding house! If you're looking for those fellows you might try the house across the street as they take in roomers."

Not long ago Deacon Miller bought a horse and buggy and took his wife out one Sunday for a drive. They came to our neighboring town of Osseo and saw a sign which read, "Speed limit, fifteen miles per hour."  
"Here, ma," said the deacon excitedly, "you take the lines and drive and I'll use the whip. Maybe we can make it."—Life.

**Prison School Teacher**—Now, Spoke, a woman has a whole pie to divide among her four sons, Alfred, Robert, James and Willie. She gave Alfred one-half, Robert one-third, and James one-fifth. What did Willie get?  
**Big Mutterin' Yegg Man**—I dunno, teacher, but it sounds tuth me like Willie got gypped.

**Newark Scout Honored**  
New honors have come to Eagle Scout Jack Feldmann, president of the College Scouts of the Newark, N. J., Council of the Boy Scouts of America. A senior at Rutgers University, Scout Feldmann has received the highest rank in scholarship for three years and has been elected to Phi Beta Kappa, national honorary scholastic society. Feldmann graduated from South Side High School in Newark as an honorary student, receiving a four-year scholarship to Rutgers. He is also president of the Spanish and German clubs of Rutgers and of the Sigma Delta Chapter of the Sigma Alpha Mu.

**Safety Campaign**  
Signs, bearing advice to motorists in connection with the safety campaign recently waged by the Chamber of Commerce of the Oranges and Maplewood in New Jersey were erected by members of Boy Scout troops. Fourteen signs were erected by the scouts.

**Lincoln Story**  
The February issue of Boys' Life contains the opening installments of a new and dramatic serial called "Lincoln's Boy Spy." The story is told by Captain Louis Newcombe and is the narrative of his adventures during the Civil War when, as a boy of fourteen, he was employed as the personal messenger of President Lincoln. Another story of historical interest in this issue is "Washington's Birthday at Valley Forge," by Thora Thorsmark.

**Firemanship**  
Because Scout Thomas R. Bacon Jr. of Troop No. 1, Abilene, Tex., was interested in firemanship, he was made a member of the University Fire Department at Rice Institute at Houston, Tex., soon after enrolling as a student there. As a member of the fire department he will have the opportunity to earn his board, lodging, street car and bus transportation for his entire course at the college.

## FIFTY YEARS AGO PHONE COMPANY HAD ONE ROOM — TODAY IT HAS —

The Newark business office of the New Jersey Bell Telephone Company was moved Saturday from 281 Washington street to 540 Broad street which is the new twenty-story headquarters building of the company now approaching completion.

The business office has changed location only five times since the industry made a struggling start in Newark almost fifty years ago, in one room at 793 Broad street. That simple provided space for the office, switchboard, storeroom and almost everything else that went to make up a telephone system for the eighty-one pioneer telephone users in the city of 1879.

Newark, as 1928 drew to a close, had about 64,000 telephone subscribers, using almost 100,000 telephones. According to Frank A. Hickey, Newark district manager for the company, the new office will reflect in size and facilities the stature and importance which telephone growth in Newark has attained during the half century of its existence.

The new business office will occupy the ground floor of the building at the corner of Broad and Lombardy streets. Features of the new office will include rooms set aside for use by people desiring privacy and telephone facilities to make a number of calls, which will serve as temporary offices for traveling business people and others; a large display room to exhibit telephone equipment and the uses to which it can best be put in offices and homes, and a directory library containing all New Jersey directories, most of those in use in New York State, and the directories of principal cities of the country.

The finest interpretation yet made of the new-type counterless office recently developed by the company has been carried out in the new office. In place of the usual counter dividing the space occupied by the clerical and reception portions of the usual business office, individual desks have been provided at which people may transact business with representatives of the company conveniently and comfortably. The usual cage for the cashier has been abandoned in favor of a small counter. Comfortable chairs will be available for public use.

The design, decorations and furnishings of the office, including lighting, are arranged to lend themselves to an atmosphere of friendly comfort, convenience and efficiency. The clerical work incident to the business office affairs, will be done in the rear of the office and on a mezzanine floor along the Lombardy street side. Public telephones, in booths equipped with seats and comfortably large will be in the lobby of the building and have an attendant operator.

## Industrial Review

**Fort Lee**—New radio station, WBMS, opened in Gilvan building at Lemoire avenue and Main street.

**Lyndhurst**—New heating plant installed in Lincoln School.

**Trenton**—City Commission plans to expend \$2,000,000 on municipal improvements.

**Garfield**—Erection of new police station requested here.

**Lambertville**—Hobson Flatware Company building new plant in this place.

**North Hanover**—\$5,487 contract let for erection of addition to Jacobstown school.

**Manville**—Work in progress on two Manville school projects.

**Pleasantville**—New organ installed in Mt. Pleasant Baptist Church.

**Trenton**—\$50,249 contract let for construction of new branch of Trenton Public Library at South Broad and Malone streets.

**New Brunswick**—County will probably aid in construction of new road in South Plainfield during next year in order to aid development of Hadley Airport.

**Beverly**—New Manor Service Station opened at Warren street and Melbourne avenue.

**Prospect Heights**—New fire truck received recently by Prospect Heights Volunteer Fire Co. No. 1.

**Atlantic Highlands**—Bids opened for construction of new sanitary sewer system here.

**Atlantic Highlands**—Monmouth Bay Shore Improvement Association Atlantic Highlands—Shrewsbury plans to increase its membership.

**Riber bridge**—roadway being repaired.

**Absecon**—Building permits issued here during November totaled \$24,450.

**Trenton**—Economy Laundry Service will erect \$4,000 new addition to plant at 40 Harris street.

**Sea Isle City**—Sewer mains will be reconstructed on Central avenue.

**Sayreville**—Improved mail service sought here.

**Merchatville**—New municipal building dedicated.

**Sea Isle City**—Plans making for construction of new community hall here.

**Tuckahoe**—Hard surfacing of Tuckahoe-Mamora road sought.

**Ocean City**—Two new fire trucks will be purchased here.

**Ocean City**—\$10,000 will be expended for oiling graveled streets in vicinity of new Ocean City-Longport bridge.

**Russell Lamb Jr.** of 544 Union avenue is on a week's business trip to Worcester, Mass. He is stopping at the Bancroft.

## WALDORF PASSING

THE Waldorf-Astoria hotel, regarded by many as the finest in a great many ways in the United States, is to be torn down to make room for another skyscraper office building. The passing of the historic hotel will be deeply regretted outside of as well as in New York. It has entertained thousands of distinguished foreign guests and was a favorite with European celebrities. But viewed from the Yankee standpoint, it contained too much waste space to make it pay well and so it must give way to a structure which will return larger dividends on the investment.

## POCKETS AND WEAR

SEVERAL correspondents of the News have recently been recalling the "good old days" before the world began to speed up. We should like to add one little plaint. Do the pockets in men's clothes wear as well as they did in the days of long ago?

Statistics are unfortunately lacking and reference books give us no aid. We do not believe that we carry more things in our pockets but they do seem to wear out faster than they did. Perhaps we are all wrong and perhaps holes in pockets are no more frequent now than they used to be. Yet we cherish a belief that pockets used to outwear trousers, coats and waistcoats and, somehow or other, they do not seem to have quite the long lives that they did.

## THE PROOF OF THE PUDDING

BETTER proof of the essential soundness of the American economic system could be found than the amicability today existing between labor and capital.

At the present time many of the great foreign powers are in the throes of economic depression. The Russian Soviet experiment has yet to be worked out satisfactorily and has been chiefly distinguished by conflicts between different Communist factions. England, Austria, Germany and France have labor problems. Government ownership of basic industries has not met the demands of workers, and has damaged national prosperity.

In comparison, the United States stands out, with unparalleled prosperity and industrial satisfaction. Except for coal, major American industries have been free from strikes for years and even minor disputes between workers and employers have been rare.

With growth in wages in our country, millions of workers are purchasing goods in industries which furnish them employment. They will be the backbone of tomorrow.

Capital has made our prosperity and labor has benefited. And the needed panaceas are found when brought to America, to be sadly lacking in the qualities that would endear them to our individualistic and independent thinking citizens.

## GOVERNMENT AS JOB PRINTER

UNCLE SAM does the biggest business in the world as a job printer, by printing stamped envelopes and printing the return addresses on them, in large quantities.

The country newspaper and job printing offices have always protested at this as unfair competition on the part of Uncle Sam, and as taking a large source of revenue from the smaller printing establishments in country towns and smaller cities. The National Editorial Association sent from the National Office at St. Paul, Minn., a bulletin which discusses this subject and concludes by saying:

"The N. E. A. will continue the fight against unfair government competition by applying to Congress for relief."

## ANOTHER LEAF

WEDNESDAY morning we awakened with 1928—one of the leaves of a book—turned over for time and eternity: 1928 was only one of the leaves. There have been many before it. There will be many after. Nineteen hundred and eight was a long procession of days, marching over deserts and ferns to the ocean of oblivion. We know what we have done with this white leaf that was given to us on the first day of January. Whether we have written it close with charity and kindness or whether we have blotted it with selfishness and malice. We know whether we have played fair, and so as to make work a pleasure, whether we have been dependable and at all places, whether we have been loyal to our friends in our country, whether in short we have made life worth while. And now, too, that we can never turn the page again.

remedy made seven million dollars for a California man. That there are so many suckers with money

## Editorial Comment

### Parents Leaving Too Much to Teachers and Employers in Education of Youth

By CAMERON BECK, New York Stock Exchange.

Too many parents are inclined to "pass the buck" to teachers and employers in bringing up their children. Employers are more concerned with the moral welfare of the young people on their pay rolls, than many of the parents of modern youngsters.

As the head of the personal department of the New York stock exchange I personally interviewed more than 9,000 young people yearly and out of the group employed, boys and girls of high-school age, no serious boy trouble has presented itself, although the last year has been the most trying period in youth this country has ever had.

We adopted the policy that we would not allow a boy to continue with us in voluntary ignorance. Today 71 per cent of the 275 boys attending evening schools are now enrolled in evening schools of college or university rank, and I believe that what has been done on the stock exchange can be done in every industry in this country. The result is that within six months we do not have to go out of the ranks to find anyone ready for the position open above.

### Scientific Control of Birth Rate the Solution of the Population Problem

By REV. DR. HARRY EMERSON FOSDICK, New York.

You cannot trust God to bring everything off all right if you let the earth's population double every sixty years. If we do so we will reap starvation, unemployment and physical and moral decay.

Dean Inge of St. Paul's cathedral, London, has taken his share of obloquy because he has said in his straightforward fashion that "there is no hope for the basic social problem of population except in the scientific control of birth." All honor to him. He is not a sentimentalist. He is facing the facts.

We should take the shackles off the physicians, and let them tell the nation that there is no hope for the solution of the population problem except in the scientific control of the birth rate.

Here in the United States we are sufficiently anxious over this situation that we have checked immigration. I am a restrictionist because I am not a sentimentalist. A sentimentalist might say, "Let everybody freely in," but one who faces the facts must see that from the standpoint of this country we cannot handle the problem either physically or morally if, with the pressure of population, we let the teeming overflow of the world's peoples flow freely in, and, if we should, we would not solve anybody else's problem.

### No Possibility That Movement for Christian Reunion Can Be Stopped

By BISHOP WILLIAM T. MANNING (Episcopal).

The movement for the reunion of Christendom cannot be stopped, despite the recent papal encyclical opposing the movement. No utterance can or will stop or retard that great movement. I don't think anyone seriously wants to stop it. It is going on and the Christians all over the world, Catholic and Protestant, are drawing nearer to each other.

Our own church and the Anglican communion throughout the world will continue to play a large part in that movement, because in the providence of God the Anglican church includes in itself those things which are true and essential for which Protestantism stands. It was for this reason our German brethren at Lausanne, at the world's conference on faith and order, last year, applied to the Anglican church the name "bridge-church," because they recognized the fact that we stand in a unique relation with the Catholic world on the one hand and the Protestant world on the other.

### American Colleges Can Survive Only on Their Educational Merits

By A. LAWRENCE LOWELL, President Harvard University.

On the whole, the American colleges, even those which manage to have a particularly fashionable reputation, will survive or perish now on their educational merits. Fashionable colleges may succeed for a long time in retaining popularity as socially desirable places to send young people, but unless they keep fairly near the scholastic standard set by their rivals they will fall into grave danger.

The aim of the American college now must be educational and not of a cultural rather than social type. It must be self-sufficient and not dependent on another institution for completion, and such a field is the cultural one, using the term in a broad sense of what man is, what he has thought and done, and the laws of nature that surround him.

The number of young men seeking an education of this kind will probably never be so large as those who want vocational training by a shorter path, but now that our people have attained material prosperity and comfort there is a growing desire for culture; for life on a more intellectual and spiritual plane.

The charges of materialism hurled at us from other lands are only true in part. There is also a craving for better things which will wax stronger as the nation becomes more mature.

### NUTLEY MAN WEDS NUTLEY GIRL IN BELLEVILLE CHURCH

St. Peter's Church was the scene of a pretty wedding New Year's Day when Lillian M. Howley, daughter of P. J. Howley of 198 William street, became the bride of Roy A. McEligot, son of Mr. and Mrs. T. F. McEligot of 33 Friedland road, Nutley, at 3. The ceremony was performed by Rev. J. S. Nelligan. The bride was becomingly gowned in a bouffant frock of ivory taffeta, colonial effect, with a yoke of net. A bow fell loosely from her shoulders. Her veil, Marion Davies style, offset with lace and tiny pearls, was of tulle and lace. She wore white kid opera pumps and carried a shower bouquet of bridal roses, sweet peas and lilies of the valley. Miss Howley was attended by a former classmate, Winifred C. Smith, of 194 Overlook avenue, who wore a bouffant dress of gold taffeta, irregular hemline, faced with Nile green. Her hat was of green canton crepe, poke effect. She carried a bouquet of tea roses. Nile green satin slippers and a scarf of tulle of the same shade completed the bridesmaid's costume. James McEligot of Nutley, brother of the groom, acted as best man. Vocal selections, "Ave Maria" and "I Love You Truly," were sung by Catherine B. Smith, accompanied by Mrs. George Lonergan. Following the wedding a reception was given at the home of the bride's father. The couple will reside at the Nutley address.

## Citizen Cites

Modern business methods seem to demonstrate that a profit is frequently without honor.

A selected neighborhood is where the rents are high as the noses.

Sometimes experience teaches people things they would rather not know.

People who live in glass houses shouldn't get into politics.

Think twice before you speak and conversation will lag.

Even an innocent man feels guilty when a policeman suddenly walks toward him.

Even the man who rises in the world may want to be let down easy.

Of times a town is known by the fire company it keeps.

To be well bred you must be superior to others without letting them know it.

Lots of people will accept a favor who won't take a joke.

Experience seems to make more people poor than it makes rich.

We can always forgive a great deal in the people who mind their own business.

He—My invention will completely revolutionize auto driving.

She—What is it?

He—A choker for the back seat.

Magistrate—How do you make out that you couldn't possibly have been speeding?

Motorist—We're in the middle of spring cleaning at our house, Your Worship; I was proceeding home at the time, so you see that naturally I had no inducement to hurry." (Case dismissed.)—Humorist.

## JOKES & JESTER

Speaking of soup, did you ever try Mrs. Hass' clam chowder? Well, you have a treat in store for yourself some Friday. And, oh Boy! Does she know how to make Fish-cakes? Don't take my word—try them yourself.

**Day Phone Rates Are Reduced**

A reduction in day rates for telephone calls to points between 130 and 1,500 miles distant will become effective February 1, it was announced today by C. R. O'Neill, manager for the New Jersey Bell Telephone Company.

The reduction is being made by the American Telephone & Telegraph Company, which operates long lines of the Bell system, and will be made available to New Jersey people through the New Jersey Bell Telephone Company.

Mr. O'Neill said that estimated saving to the public of more than \$5,000,000 yearly is expected to result from the reduced rates, which are in keeping with the policy of the Bell system to furnish the best possible service at the least cost consistent with financial safety.

The new rate schedule will cut from 5 to 25 cents from charges for station-to-station calls between points from 130 to 1,500 miles apart. Middle distance rates will have reductions as high as 13 per cent. Evening and night rates will remain at the present levels.

For example, a call from Newark to Cleveland will be reduced in cost from \$1.95 to \$1.70. A Newark-Chicago call will cost \$2.75 instead of \$3; one from Atlantic City to Cleveland, \$1.80 instead of the present charge of \$2.05, etc.

Separate rates for appointment and messenger service will be dropped under the new schedule, these services to be offered after February 1 at regular person-to-person rates.

With this increasing use of the telephone has taken place a substantial growth in the nation-wide network of cables carrying long distance messages, represented in 1928 by construction of 1,500 additional miles of such cable between principle cities, a record addition in telephone history.

**Our Front Page**

The News is indebted to W. E. Dunn of 250 Union avenue for its seasonal front page heading.

Mr. Dunn took one of our old papers and at Christmas added some snow to the layout of our front page. We are duly grateful to him.

**Thanks, Mr. Scott**

Belleville News: Gentlemen—I bought a copy of your paper two or three weeks ago and saw the page advertisement in regard to the Union Label, and also that your paper bore the label, so I made up my mind to send in my dollar.

Please send your paper for one year to

Belleville, N. J.

**William H. Manning**

William H. Manning of 2 Belleville avenue, a former employee of the Erie railroad, who retired after seven years as gateman at the Belleville avenue crossing at Valley street, died at St. Mary's Hospital, Passaic, Sunday afternoon after a year's illness.

He leaves his wife, three nephews, William Manning of Belleville, Harry Manning of Arlington and Joseph Manning of Newark, and two pieces, Mrs. Philip Hargrave of Belleville and Mrs. Frank Higgins of Arlington.

**Mrs. Elizabeth Whitman**

Mrs. Elizabeth Whitman of 264 Rutgers place died Monday morning after a long illness. Private funeral services were held at the home yesterday morning at 9 o'clock, Rev. Dr. Charles Perley Tinker of Grace Episcopal Church, officiating.

Before coming to Nutley Mrs. Whitman lived in Orange many years. She leaves a daughter, Mrs. D. J. Taylor, with whom she lived.

**Armstrong Retires From P. S. Service As Per Welfare Plan**

After more than forty years' service with Public Service Corporation of New Jersey and its predecessor companies, Associate General Counsel Edward Ambler Armstrong has retired in accordance with the company's welfare plan.

Former Judge Armstrong became president of the Camden Lighting & Heating Company in July, 1888, and afterwards was associated with the Camden Horse Railroad Company, the Camden and Suburban Railway Company and the Camden Gaslight Company. He was the local counsel of Public Service in Camden many years and became assistant general counsel in 1911.

He was born at Woodstown, Salem County, December 28, 1858, moved to Camden early and maintained his residence there until 1920, when he moved to "The Farm," Princeton. He served four terms in the General Assembly from Camden County, 1884 to 1887, and was speaker in 1885 and 1886. He has been judge of the Camden City District Court, president judge of the Camden County Court of Common Pleas and a member of the State Board of Equalization of Taxes. He is chairman of the General Council of the American Bar Association, and a past president of the National Electric Light Association.

**MOTORISTS ARGUE FOR ADDITIONAL SAFETY MEASURES ON HIGHWAYS**

Convince Officials of Perils on Many Crowded Roads—Prevention of Dust an Important Matter to Be Considered.

The White Painted Guard Rails Help to Make Curves Safe for the Motorist.

DESPITE the increase in the use of white painted guard rails, whitewashed traffic indicators of one sort or another and more elaborate danger signals, automobile accidents are steadily growing more numerous, automobile associations point out in reviewing the summer's casualties.

The next great important step to reduce the number of accidents will be the elimination of dust, in the opinion of those associations.

Dust, in spite of the greater mileage of concrete roads, is causing many accidents, a condition due in part to the constantly growing highway congestion.

High winds and passing cars raise dust clouds that have been compared with the smoke screens of naval destroyers. Through that screen the average motorist must guess his way and trust to luck that no one is directly in his path, the automobilists assert.

In some sections of the country, where motorists have been able to convince officials of the perils in dust-covered highways, the authorities are applying chemicals to the road surface, particularly calcium chloride, a moisture-absorbing material that lays the dust. The prevention of dust is unquestionably a large factor in any safety first campaign.

**Two Autos Wrecked in Collision, Driver Flees**

Two cars were wrecked in a collision on Povershon Hill, Center street, Sunday. The driver of one left his wife and car and disappeared, police say.

Wilson Brown of 263 North Center street, Orange, reported to police he was driving east in Center street when a car ascending the hill ran into the rear of his machine and into a ditch at the side. The driver got out, walked up and down a minute and left. According to Brown, the

was drunk and she wouldn't ride further with him. Police are investigating.

Automobiles of Pasquale Ciccone of 38 William street and Andrew Ketchow of 132 Wilson avenue, Newark, collided at Park and Washington avenues, Sunday. Both machines were damaged.

**First Endurance Run of Auto Was Held in 1901**

The first endurance run of an automobile was held in 1901, when A. L. Riker, an early maker of automobiles, started a trip from New York to Buffalo, a distance of less than 500 miles, in his own gasoline model, according to Betty Shannon and Elsie Johns in Liberty Magazine.

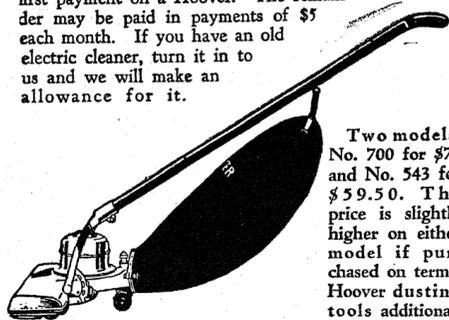

"The car was built for 50 miles an hour, but once out of sight of brick and cobblestone it made headway with the greatest difficulty," the authors continue. "This difficulty may be imagined when it is stated that it took from Wednesday morning to Saturday noon to cover the distance from Albany to Herkimer, less than 100 miles. At Rochester the plan was abandoned because of the death of President McKinley."

**Buy a HOOVER with Your Christmas Money**

BEGIN the New Year with the services of a Hoover. It starts a new regime of cleanliness in your home. The Hoover method exceeds all other cleaning methods. It takes up the deep-embedded grit—that most destructive dirt—which ordinary cleaning methods fail to remove.

We will demonstrate the Hoover in your home. We will show you the way to keep rug colors bright and explain the cleaning method by which the nap is lifted and straightened, and the deep-seated dirt removed.

With your Christmas money make the first payment on a Hoover. The remainder may be paid in payments of \$5 each month. If you have an old electric cleaner, turn it in to us and we will make an allowance for it.

Two models, No. 700 for \$75 and No. 543 for \$59.50. The price is slightly higher on either model if purchased on terms. Hoover dusting tools additional. \$5 down, \$5 a month

**Reductions in LONG DISTANCE TELEPHONE RATES**

Effective February 1, 1929

IN extending to the telephone users of New Jersey the best wishes of the season, the New Jersey Bell Telephone Company announces a further reduction in the day rates for calls to many communities from 130 to 1500 miles distant.

These changes are effective February 1st, 1929 and will make telephoning to people in the sands of other cities and towns more economical than ever.

This reduction in telephone rates—which means an annual saving to the American public of more than \$5,000,000—is the third to be made by the Bell System during a period of little more than two years. It is in keeping with the fundamental policy of the System to furnish the best possible telephone service at the least cost to the user.

### How to Play BRIDGE

Series 1928-29 by Wynne Ferguson  
Author of "PRACTICAL AUCTION BRIDGE"

ARTICLE No. 8

In the previous article, reference was made to the fact that one of the best ways to improve your game is by a study of the manner in which good players bid or play interesting hands. Here are a few examples noted in one evening's play that, carefully studied, will give good results:

**Problem No. 11**

Hearts—J  
Clubs—A, 8, 5, 4  
Diamonds—K, Q, 8, 7, 5  
Spades—A, J, 2

Y :  
A B :  
Z :

**Problem No. 8**

Hearts—J, 10, 7, 6, 2  
Clubs—J, 7, 5  
Diamonds—A, 8, 5  
Spades—7, 5

Y :  
A B :  
Z :

**Problem No. 7**

Hearts—A, K, 9, 8, 5  
Clubs—A  
Diamonds—9, 7, 4, 2  
Spades—10, 8, 4

No score, rubber game. Z dealt and bid one heart. A bid one spade, Y bid four hearts and all passed.

A played the ace king of spades and then led the ten of clubs. How should Z play the hand so that he will have the best chance to make four odd? An analysis of this interesting hand will be given in the next article.

**Answer to Problem No. 7**

Hearts—A, 9  
Clubs—J, 9, 7, 5, 3  
Diamonds—9, 8, 4  
Spades—J, 10, 7

Y :  
A B :  
Z :

**Problem No. 9**

Hearts—K, 8, 5, 2  
Clubs—K, 10, 8  
Diamonds—A, J, 7  
Spades—A, K, 5

No score, rubber game. Z dealt and bid one no trump. A and Y passed and B bid two diamonds. Z bid two no trump, all passed and A opened the queen of diamonds. Z allowed the queen to hold the trick and A then led the six of diamonds. Y played a low diamond, B the king, and Z won the trick with the ace. How should he plan the play of the hand?

Solution: Z has only one good chance for game and that is by setting up the club suit or at least obtaining two tricks in the suit and then taking the spade finesse and finding the queen in B's hand.

He should plan his play as follows: At the third trick, he should place Y's hand in the lead by playing the deuce of hearts from his hand and winning the trick in Y's hand with the ace. Y should then lead the jack of clubs and if B doesn't cover, Z should play the ten of clubs in the hope that B has the queen. If the jack of clubs holds the trick, Y should now lead the jack of spades. If B covers, Z should play the king. If B does not cover and the jack of spades holds the trick, Y should now lead the nine of clubs and play the eight from Z's hand if B doesn't cover with the queen. If B does cover, Z should play the king and A, if he has the ace, can either win or refuse to win the trick. Played in this way, Y Z are sure of a game if they can find the queen of clubs and the queen of spades in B's hand. In the actual play, B's hand was as follows:

Hearts—J, 10  
Clubs—Q, 4  
Diamonds—K, 10, 5, 3, 2  
Spades—Q, 9, 8, 4

**Problem No. 10**

Hearts—9, 7, 5, 2  
Clubs—8  
Diamonds—K, Q, 9, 8, 7, 6, 5, 2  
Spades—none

Y :  
A B :  
Z :

**Problem No. 9**

Hearts—A, 8  
Clubs—K, 10, 9, 6, 5, 2  
Diamonds—none  
Spades—K, Q, J, 8, 7

No score, rubber game. Z dealt and bid one club. A bid one heart, Y bid two diamonds and B passed.

Z bid two spades and A bid three hearts. What should Y do?

An analysis of this hand and of Z's first two bids will be given in the next article.

### Few Brave Enough to Defy Old Superstition

In the downtown section of Providence yesterday, a window-cleaner pursued his vocation at the top of a tall ladder. At the foot of the ladder was a colleague of the window-cleaner steadying it and casually observing the stream of passersby. Very few of these passers went under the ladder. Some of them approached it as if they intended to do so, but at the last second shifted to the other side. In order to avoid going under the ladder it was necessary for them to crowd through a narrow space between the man who steadied the ladder and an automobile drawn up at the curb. But they preferred this to flouting the old superstition.

This is the Twentieth century and we think ourselves sensible and all that. And to a philosophic observer on the other side of the street it seemed as if the only person in any possible danger was the man at the top of the ladder. But still the crowds refused to go under it. Will somebody tell us why? It is not sufficient answer to say they were afraid the ladder would fall on them.—Providence (R. I.) Journal.

### Matter of Wave Length

"New York is a blase city," says a magazine writer. "Proclaim something from the housetops and the man in the street won't even listen." How can he listen to what he cannot hear? It's a long shout from the average New York housetop to the sidewalk.—Farm and Fireside.

## Everyman's Leads The Church Pinners

League Standing	W.	L.
Everymans	20	10
Fewsmith	19	11
Montgomery	18	12
Grace	14	16
Reformed	14	16
Christ Episcopal	5	25

High individual score—McCullough, 224.  
High team score—Montgomery, 913.

After a few weeks of ups and downs in the Belleville Church League the Everyman Bible Class team is leading, with the Fewsmith five one game behind. All inconveniences have been cleared up and with the start of the new year the league should go along in a smooth manner.

The Bible Class crew swept into the league lead when they took three games of a postponed match from the Episcopal team Wednesday night. The lead was reduced on Thursday as they dropped two games to the Grace Baptist five, while the Fewsmith team was taking three from Christ Reformed.

One of the Grace and Bible Class games was decided by one pin, when Mayer came through with a strike to give Grace the contest. The Fewsmith team had an easy time with the Reformed quintet, having a comfortable margin of victory in each game.

Due to the failure of three members of the Episcopal team to make an appearance, the quintet forfeited two games to the Montgomery Chapel five. In the second game the Chapel outfit hit the pins for the high mark of the night, 913. In this same game McCullough socked the maples for 224, which was the highest tally turned in by any individual during the evening.

The results:

Fewsmith	W.	L.
Smith	166	151
Prophet	142	142
Whipple	165	155
Squire	162	155
Brugman	155	125
Oschner	154	135
Knowles	172	158

Christ Reformed	W.	L.
Olwine	136	175
Corwin	108	149
Stout	153	177
Shamaker	127	153
Williams	132	139
Shamaker	134	127

Grace Baptist	W.	L.
Goldsmith	168	141

## Giants Lead Speedsters In Final Week By Margin of One

### Belleville Lions' Loop to Have Spirited Wind-Up

League Standing	W.	L.	H.S.
Giants	15	7	612
Speedsters	14	8	618
Comets	11	11	591
Timbers	4	18	539

High individual score—Scholl, 193.  
High team score—Speedsters, 622.  
Schedule for Friday Night  
8 P. M.—Speedsters vs. Timbers.  
9 P. M.—Comets vs. Giants.

While the Giants were dropping a contest to the rejuvenated Timbers, the on-rushing Speedsters ran riot to vanquish the Comet quartet in two games last week in the Belleville Lions' loop. This places the Speedsters one full game behind the Giants with but one week of pinning remaining.

The Giants were almost assured of victory when they stacked up against the Timbers, but instead met with a tartar that extended them in the first contest and took the second. The Giants hit the maples for 610 in the first game, only eight pins below the old league mark. Some fine pinning on the part of Westerman and McCabe gave the Timbers victory in the next contest.

In taking two games from the Comets the Speedsters tied and broke the high team mark of the league. The old mark was tied when they hit the maples for 618, while the Comets achieved 54. Scholl socked the pins for 193 in this fray, which proved to be the high mark of the night.

In the next tilt the Speedsters speeded matters up a bit by pinning 622. The Comets attempted to keep step with the speedy quartet, but 571 was the best they could do.

The results:

Giants	W.	L.

## Bowling Club Holds Outing

The Thursday Afternoon Bowling Club motored to the Morrystown Country Club, Thursday, for luncheon. Mrs. E. Gerow of Belleville was hostess.

Those who attended were Mrs. John Mazza, Mrs. Walter Kentz and Mrs. Gerow of Belleville, Mrs. Royick and Mrs. P. Butz of Irvington, Mrs. L. Tuite, Mrs. C. Weiland, Mrs. F. Morgan, Mrs. M. Kocher of Newark, and Mrs. W. Knight of Caldwell. The last four gave a short sketch. Mrs. Mazza gave a recitation and Mrs. Kentz and Mrs. Royick rendered vocal solos. Mrs. Royick was accompanied by her sister, Mrs. Butz.

## Nutley Antlers Win Their Twelfth Game

The Nutley Antlers played their first traveling game at Dover Monday night and won the twentieth straight game, defeating the Dover All-Stars, 48-32, in a fast game.

The Nutley Antlers took the lead early in the first quarter and led, 10-4 then, but at the end of the half the home team led, 20-16.

In the second half the Antlers came out strong and forged ahead. The fast playing of the Antlers featured the game. Gardner, Rappaport and Thrum starred for the Antlers, while Wilson played best for the Dover team.

Next Monday the Antlers will play the Kearny Triangles.

The score:

Antlers	G.	F.	P.
Rappaport, F.	6	1	13
Garusky, F.	2	1	5
Thrum, C.	6	2	14
Gardner, G.	5	3	13
Garlish, G.	1	1	3
Totals	20	8	48

Dover	G.	F.	P.
Wilson	7	1	15
Kane	4	0	8
Smith	1	0	2
Horn	2	1	5
Hunner	1	0	2
Totals	15	2	32

## Nutley High Opens With Former Stars

### Alumni to Line Up With Five Ex-Captains in Make Up

After finishing a most successful football season, Coach George Stanford will send his basketball cagers after other laurels tomorrow evening against the Alumni at the High School Auditorium.

Last season the Nutley passers had a very successful year and things point to another, with prospects even brighter. For a nucleus five members of last season's team will be on hand. They are Capt. Baykowski, Gibney, Crawford, J. Sentner and Hank Stager.

The probable line-up is: Crawford, center; Baykowski and Gibney, forwards; J. Sentner and Hank Stager, guards.

The Alumni will have in its cast some former school luminaries such as Phil Redmond, Frank Kirkleski, Art Macaluso, Sarah Jones, Ted Sentner, Ray Kane, Fred Macaluso and Leo Jentis. No less than five former captains will be seen in the Alumni cast. The game will start at 8:30.

## There Is Always Room For One More Reader

Even as there is always room for one more reader in the News "For Rent" columns.

It doesn't make any difference how many readers have been there before you. There are always more rooms coming along for you to select from.

Nor does it make any difference how many rooms have been advertised—ahead of yours. There are always plenty of readers coming along looking for rooms.

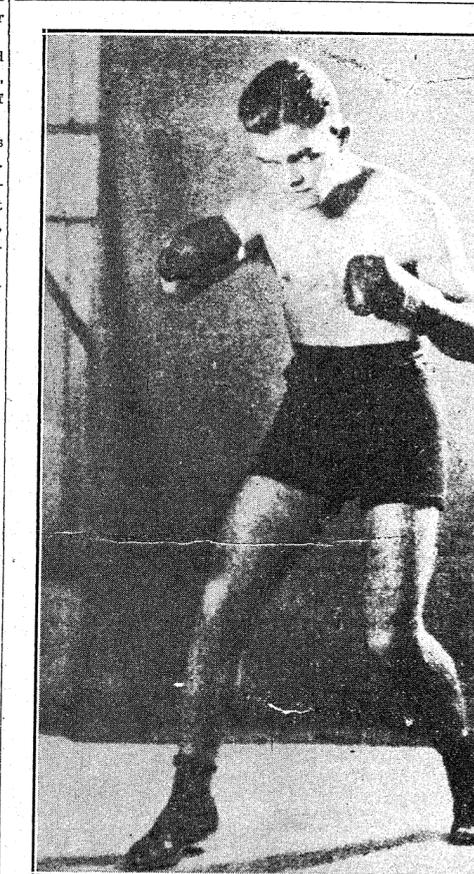

A woman had a well furnished room for rent recently, so she went to the column where there is always room for a reader. One of the readers is now her roomer.

It always happens just like that.

Try one of these result-bringing News ads and see.

Just call Belleville 2789.

## Louis Fully from Recent

Louis "Kid" Perez, of 63 Holmes street, Belleville, who is recognized as the leading Cuban contender for the world featherweight boxing championship, has fully recovered from a fall which he sustained recently in a bout in Harrison. The fall resulted in a brief stay in a hospital, where X-rays were taken to determine a possible skull fracture.

Louis, who is fast coming to the fore, will don the gloves this week at Stillman's gym in New York. He will train with Al Singer, who is also a contender for the featherweight championship. Promoter Ed McMahon has booked Louis for a fight this month at the St. Nicholas Club in Broadway.

Louis has been fearful of late that his featherweight chances will go up "the flue," so to speak. He finds it difficult to make the weight limit for that class and may become a junior lightweight. Hughie Gartland, Newark promoter, has an eye on Louis for a bout in Newark soon.

Louis's record is a good one. He has had sixty-seven fights, winning thirty-four via the knockout route and getting nine decisions. Al Delmont is the only boy to K. O. the Cuban, having accomplished this feat at the Newark Velodrome last summer.

The team by the Elk... This was made in the fourth week of the season. High individual score is held by William Searle, who hit for 243 on November 19. Next in line is Junker of St. Paul's A, who has the best average, 183.24. He also rolled the greatest number of double century scores, ten. The total number of 200 scores rolled in the first round was 157.

An honor roll of all those who have rolled the greatest number of double compiled. It shows those who have failed to hit the maples for a score higher than what is given one who is absent. It is interesting to note some of the best bowlers listed in this group.

The next matches will be held on January 7.

# ...re To Get It

## ...ay Welcome To Young 1929

(continued from first page.)

thousands swarmed through the streets, turning night into day with their shouts as they welcomed the New Year in numbers and with a vociferousness never before seen in the history of this section.

Celebrations were general. Not a section had the slightest bit of a doubt that Mr. 1929 had arrived at midnight. Such din and joyous merrymaking has not been duplicated in these parts in the memory of the oldest inhabitant.

**Services in Churches**  
Watch night services in the churches, midnight masses—all combined with the universal hilarity in cafes and hotels, clubs and at midnight shows in the theaters, and the tremendous outpouring of men and women through the streets—made an occasion bigger and better in its exuberance and racket than was ever known here before.

Federal prohibition forces were out early, and when the parties and carnivals were just beginning to get under way at 11 o'clock, they reported conditions as reasonably wholesome, although liquor was beginning to flow in generous proportions at virtually all places of the night's entertainment.

Whoopie got under way after 11 P. M., gathering speed slowly at first, but with lots and lots of promise. The excitement of celebrants was mounting fast just before midnight, and as the bells pealed at the magic hour when Old Man 1928 bowed himself out forever, and Mr. 1929 stepped briskly to the fore, things were going strong.

**Every Place Jammed**  
Every place for dining and dancing and entertainment was crammed to more than capacity. Not an additional couple could jimmy its way in after 10 o'clock, and all efforts to bribe maitres d'hotel and headwaiters failed miserably.

Extra tables were set in the lobbies and foyers of clubs and restaurants, and even the dancing floors were encroached upon to make room for the ultimate number that could be served. Elaborate decorations, fancy and expensive favors, and noisemakers of all descriptions and designs abounded.

**Bottles Plentiful**  
Hip flasks were present, and bottles under tables functioned, but with due regard for the presence of prohibition agents and police. Parties were counted by hundreds, all in high fettle and virtually all shouting to make themselves heard above the deafening racket of general celebrations.

In every section, too, were home celebrations of New Year's Eve, with radio receiving sets working overtime to catch the sounds of carnivals and music and noise sent out by various broadcasting stations. In apartment houses "floor parties" were in order in many places, with dancing to the strains of orchestra music brought in by radio.

It was a great night. Words can hardly describe it. You had to be out in it to experience it to its full. Young Mr. 1929 can hold his head high, for never before has any New Year been welcomed so royally and so generally.

## Greater Number of Patients Given by Superintendent as Reason for Cost Boost

Receivers Receive Report

An increased number of patients during 1928 made it necessary to exceed the budget allowance of \$300,000 for the Isolation Hospital in Belleville by \$60,000, Dr. Ellis L. Smith, superintendent of the institution, Wednesday informed the Isolation Hospital committee of the Board of Freeholders.

Summarizing the year's work, Dr. Smith told the committee 2,700 patients were admitted to the hospital in 1928, as compared with 1,991 admissions in 1927. He pointed out that the increase of 709 admissions last year over 1927 was a substantial one, necessitating increased expenditures generally.

The committee decided to follow the precedent of last year and hire a building in the neighborhood to house extra nurses. Dr. Smith pointed out that this item accounted for \$9,000 to \$10,000 of the \$30,000 excess over the budget.

**Building Plans Nearly Ready**  
Plans for new buildings for the institution are practically completed, it was announced. A special meeting will be held soon for consideration of the plans.  
Dr. Smith reported a total of \$11,236.43 collected by the institution last year. This was \$8,274 more than in 1927. In December Dr. Smith reported, 212 patients were admitted to the hospital, of which 120 were suffering from diphtheria and thirty-eight from scarlet fever. During the month, 159 patients were discharged, of which ninety-five were diphtheria and twenty-five scarlet fever cases. There were eighteen deaths at the hospital last month, of which thirteen resulted from diphtheria.

## Soho Hospital

The finest interpretation yet made of the new-type counterless office recently developed by the company has been carried out in the new office. In place of the usual counter dividing the space occupied by the clerical and reception portions of the usual business office, individual desks have been provided at which people may transact business with representatives of the company conveniently and comfortably. The usual cage for the cashier has been abandoned in favor of a small counter. Comfortable chairs will be available for public use.

The design, decorations and furnishings of the office, including lighting, are arranged to lend themselves to an atmosphere of friendly comfort, convenience and efficiency. The clerical work incident to the business office affairs, will be done in the rear of the office and on a mezzanine floor along the Lombardy street side. Public telephones, in booths equipped with seats and comfortably large will be in the lobby of the building and have an attendant operator.

The Board of Commissioners of the Town of Belleville, in the County of Essex, do ordain:

1. That the grade of Hunkele Street from the center line of Baldwin Place to the westerly property line of Garden Avenue, in the Town of Belleville, be and the same is hereby established, as follows:

2. BEGINNING at the intersection of the center line of Baldwin Place with the center line of Hunkele Street and at an elevation of 166.38 feet above high water mark of the Passaic River; thence ascending on a grade of 2.146 feet in 100 feet for a distance of 470.92 feet to the westerly property line of Garden Avenue and to an elevation of 146.49 feet above high water mark of the Passaic River and there ending.

3. This ordinance shall take effect immediately.

4. Passed first reading, December 18, 1928.

5. Passed second reading, December 31, 1928.

6. Passed third reading, December 31, 1928.

SAMUEL S. KENWORTHY, JAMES GIBSON, WILLIAM D. CLARK, FRANK J. CARRAGHER, PATRICK A. WATERS, Commissioners.

Attest: JOHN J. DALY, Town Clerk.

### LEGAL NOTICES

**NOTICE**  
PUBLIC NOTICE IS HEREBY GIVEN that the Board of Assessment Commissioners of the Town of Belleville, County of Essex, N. J., at a meeting to be held at the Town Hall, Washington Avenue and Belleville Avenue, on the 14th day of January, 1929, at 7:30 o'clock in the evening, will hear all persons interested, or whose land may be affected by the following improvements:

**PAVING:**  
Roosevelt Avenue from Main Street, approximately 1,400 feet west.  
King Street from Washington Avenue to Nutley Lane.

The purpose of said meeting is to hear any person interested in, or who may wish to be heard concerning the assessment of the cost of said improvement, and the assessing of the benefits and the awarding of the damages therefor.

JOHN J. DALY, Town Clerk.
