Kresge Resigns Department Store Presidency; Hugh E. Barnes Heads Newark Institution

New President Is Former Controller and Director of Store and Executive of Affiliated Organizations; Was Formerly Commercial Law Teacher

Sebastian S. Kresge today announced his retirement as president of Kresge Department Store. He has been succeeded by Hugh E. Barnes of Maplewood. Kresge has been appointed chairman of the board of directors. The following statement was issued:

HUGH E. BARNES

In announcing this action, Mr. Kresge stated he felt the president of the Kresge Department Store, Newark, should be not only active in the organization, but a resident of the community and that because of his many interests throughout the country, it was not possible for him to spend as much time in Newark as the interests of the business demanded.

Formerly Taught Law. Barnes formerly was a teacher of commercial law. At one time he was cashier of the Ohio Trust Co. of Norwalk, Ohio. He is a student and instructor of music and has organized several choir groups. He is treasurer and director of the Green Pond Corp., which controls the Summer colony at Green Pond.

Kresge has been president of Kresge Department Store since he purchased the mercantile holdings of L. S. Plaut & Co. in July 1923. Ownership of the store passed completely to Kresge in October, 1931. Kresge is at his winter home in Miami.

By virtue of an order of the Court of Chancery of New Jersey made on the 20th day of December, 1936, in a cause wherein Town of Belleville, a body corporate, is complainant and James Caruso, et als., are defendants, you are required to appear and answer the bill of said complaint on or before the 2nd day of March, next, or the said bill of complaint will be taken as confessed against you.

By virtue of the above stated writ of fieri facias, to me directed, I shall expose for sale by public vendue, at the Court House, in Newark, on Tuesday, the 23rd day of February, next, at two o'clock P. M., all tract or parcel of land and premises situate, lying and being in the Town of Belleville, Essex County, New Jersey.

Our country needs something more than the lighting of red lanterns.—G. H. Riley.

VANISHING PLAGUE

Oldest disease that man has any record of is leprosy and it is extinction within a few years, according to Dr. Ernest Muir, a British physician. The reason for its passing is general sanitation. The fact that the world has become so aware of the disease that it is allowed to go unsegregated. No doubt other human plagues are passing the same way as this one, with the advance of knowledge and sanitation.

COUNTRY DOCTOR

A country doctor at Newport, Vt., points out jocosely that he is not as famous as Dr. Dafoe of quintuplet fame, but nevertheless he has preformed 100 births during his 46 years of practice. He has delivered 100 twins, he says, and has twice presided over the arrival of a horse, he also has been busy with other patients, treating about 100 ailments. His record is about similar to that of other country doctors in long years of practice. It is one of remarkable service performed with much fuss.

BRANDING MOTORISTS

A new law to check speeding and dangerous driving is always of the mayor of an Ohio city has hit upon the idea of "branding" motor cars. For instance, the illegal parker would have a sign placed on the windshield with letters reading: "This car is illegally parked." Because most motorists to blush. The reckless driver, he would be required to wear a notice in his windshield reading: "This car is dangerous to pedestrians and will remain for 30 days. It would be the same as a license. But whether the signs would have any genuine effect is a matter of conjecture. Other schemes to curtail motor violators seem to have failed.

MILITARY DISCIPLINE

Discipline, which he considered the main breeding cause for the inmates of penitentiaries, the warden of Kentucky's big, overcrowded penitentiary, apparently his ideas have worked out, for in a brief interval he has been in charge he has succeeded in imposing discipline where disorder and mutiny prevailed before. It is not a new idea in prison administration, but the way to solve the problem in Kentucky may find it coming into new favor in other states where unwieldy populations make for danger.

BAD WEATHER SPOTS

There may be an epidemic of airplane crashes at the present time. Safety devices have been adopted and more miles flown. But the coming of severe weather brings added danger in the air. Recent disasters have been caused by bad flying weather. Communication, expert weather forecasting, quick shifts in flight plans, and not being guarded against. As though pilots were inclined to take chances, having a tendency to keep to their schedules. But the companies are content with the taking of risks, well knowing the injury to their passengers.

To avoid taking some chances with the weather. Not all pilots are able to cope with every local weather condition. But in some cases it will be guarded against effectively.

SMOKELESS TOWN

The way for the first smokeless town. It will be on the coast of England, and will be completely free of smoke. There will be built at a cost of \$5,000,000, and other buildings such as schools, a motion picture theatre and stores. All the buildings will be electrically heated so that there will be no more smoke. It has already been started on the town, but there is no doubt that other cities and towns will be free of smoke, and will also be smokeless buildings. The town of the future will be a completely smokeless town.

WIN OUT WITH A SMILE

By W. H. Moulton

When things look dark and you feel blue, you think you've gone the last mile, but you only have heart to make a start, and try to win out with a smile. In your troubles, forge straight ahead, and try to win out with a smile. In the fight with all your might, and then win out with a smile. Always imagine you're in hard luck, no chance to win or beguile, but put your chest out your derved best, and then win out with a smile. Remember every cloud has a silver lining, a headache will pass in a while, and you'll not repine but get over the line, and then win out with a smile. You're on your way and everythings O. K. You've just won out by a mile, and you truly say that worry don't pay, and you'll always win out with a smile.

FAITHFUL

A story from Rock Island, Ill., of a dog that waited nearly thirteen years for its master to return, must impress everyone of a dog's faithfulness. The dog, "Shep," a Scotch collie, followed its master into a hospital after the man had suffered a fractured skull. As the master entered an elevator to be removed to the operating room, he said to his dog: "Good-by, Shep, wait here." The master died, but all efforts to make the dog leave the hospital were unavailing. The dog remained until its death, finally becoming the hospital pet, but the story is told that "Shep" never failed to keep watch at the elevator door. It seems like an exceptional story, but a dog's devotion has no extreme.

HOT DOG

"Gypsy" Cooper and Her Musical Hound.

Playing Sax for Fun Wins Big Job in Phil Spitalny's Band

It was one of those dreary afternoons when pretty "Gypsy" Cooper decided to cheer herself up by practicing on the saxophone, at her home in Erie, Pa.

Besides "Gypsy's" mother, who wanted her to be a dignified harpist, had gone shopping, and it was a grand chance to sneak a few notes on the brass which she played in the High School Orchestra.

"Gypsy" was blowing away with all her might when the door bell rang. Quickly she hid the sax, thinking it was her mother who would reprimand her.

When she opened the door, there stood a dapper looking man, with no hat, shiny black hair and all dressed up with chamois gloves and a walking stick. He was obviously excited and cried out in a loud voice:

"Where's the fella who was playing the saxophone?" "Gypsy" recognized the visitor from the many pictures she had seen of him. He was Phil Spitalny, the famous maestro.

"That was no fella, that was me," answered the frightened little girl with the big brown eyes. "Well, you're hired," said Phil, "I was just passing along the street and heard you playing."

That happened about three years ago when Spitalny was making his country-wide selection of musical talent, which today comprises his band of thirty girls presented on the "Hour of Charm," every Monday from 4 to 4:30 p.m. (E.S.T.) over NBC network. The program is sponsored by Dealers of the General Electric Company.

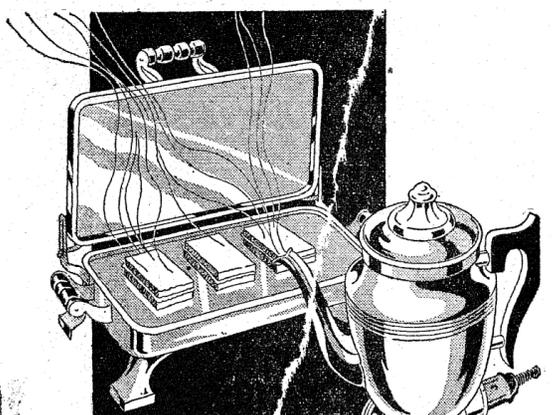

Since joining the band "Gypsy" has been Phil's first saxophonist and clarinet player and does a neat double jump on his radio programs. She wears rubber heels to keep from slipping as she rushes from her stage position in the brass sec-

tion to the mike with the clarinet. "Gypsy" claims that she has never had a "howling out" from her boss.

"He's pretty smart in figuring out the temperament of each girl in the band and knows I couldn't take a 'bawling out,' but I do respond to any suggestions he makes. For instance, he thought I was gaining weight so every day before the band had lunch he would get on the scales and call my attention to how much weight he was losing. In that way he finally got me interested in reducing myself," she said.

"Gypsy" says she hasn't any other name. At any rate she won't tell. It is just "Gypsy" and spelled with an ie on the end. The kids at school dubbed her that because she was always changing schools, starting a term in the north and finishing it in Florida when her family took her south in January.

"Gypsy's" prize possession besides her saxophone and clarinet is a shaggy little dog named "Wudgie" which she bought for a Japanese poodle but which she now believes is a Maltese Terrier, whatever that is. Regarding as necessary and breed, the dog is as musical as his mistress, likes to accompany her at a piano and is more than curious about the horns. "Wudgie" waves his paws frantically at the command "Direct the Band" and he is the only dog Phil has ever allowed to accompany the band on a tour.

Goldacker-Last

The marriage of Miss Mary Ellen Last of New York, formerly of Newport, R. I., and Roy K. Goldacker of 65 Linden avenue, this town, took place Saturday in New York. The ceremony was followed by a buffet luncheon for intimate friends and relatives at the bride's home.

Thomas McCoy of Belleville was best man. The bride wore a brown cloth suit with fox collar and brown accessories. She wore a corsage of gardenias.

Mr. Goldacker is an assistant superintendent at the home office of the Prudential Insurance Co. in Newark. He formerly resided with his brother-in-law and sister, Mr. and Mrs. John W. Platner, at the Linden avenue ad-

dress. On their return from a wedding trip through the New England states, Mr. and Mrs. Goldacker will be at home after February 1 at 120 Rutgers street, this town.

Injured in Crash

Miss Rita Walker of 34 Morning-side avenue, New York, suffered minor injuries in a three-car collision in Washington avenue, just north of William street, early Sunday. She was treated by Dr. Edward A. Flynn.

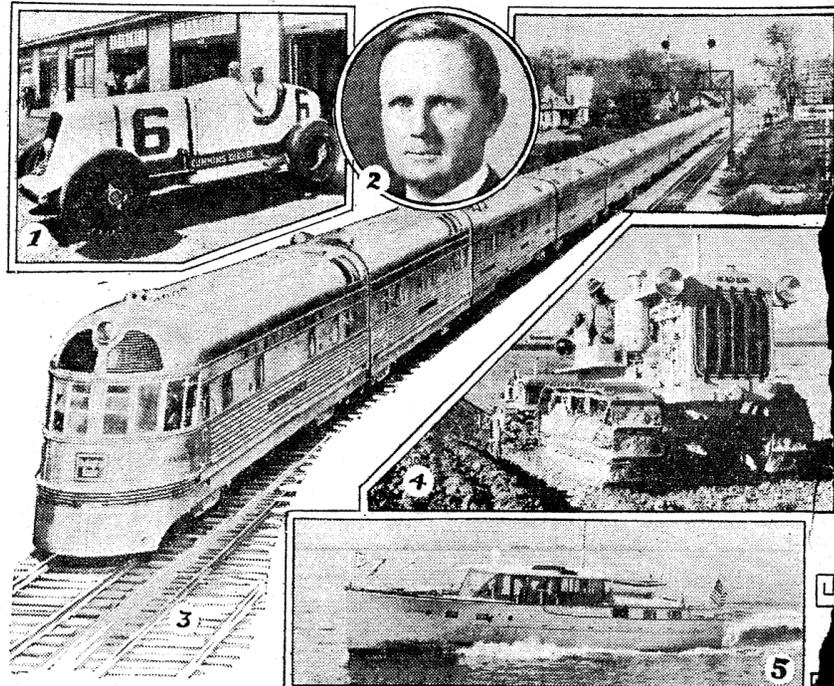

Patrolman Frank Lukowiak, who investigated, reported that a milk truck, facing south on the east side of the street and driven by Robert Miller of 174 Vermont avenue, Newark, left the curb suddenly, colliding with a car,

in which Miss Walker was a passenger, driven by James R. D. Romaine place, Newark. The machine was forced into the street, on the west side, operated by Dan Stratford place, Newark, and Lukowiak.

40th Anniversary of Diesel Power

(1) Diesel engine racer, first ever to finish 500 mile Indianapolis grind without stopping for fuel. (2) B. C. Heacock, President, Caterpillar Tractor Company, world's largest builder Diesel engine. (3) New 10-car Diesel driven Denver Zephyr. (4) Flowing with a Caterpillar tractor, one of hundreds of "Dieselized" farm jobs handled at low cost. (5) 48-foot cruiser powered by twin Diesel engines.

Diesel power is 40 years old in the United States. More than 300 of the country's leading engineers and industrialists met at the Waldorf-Astoria, New York, recently to celebrate the anniversary—and to honor the memory of Dr. Rudolf Diesel, inventor.

Diesels are internal combustion engines, but differ from gasoline engines, in that they operate on cheap low grade fuel oil which is fired by the heat of compression rather than by electric ignition.

Modern lightweight zephyr type trains, capable of sustaining speeds of 100 miles per hour or more, are diesel powered. A small diesel power pas-

senger car has been driven from Los Angeles to New York on \$7.63 total fuel cost. A 32-passenger bus has made the same trip East to West on less than \$25.00 fuel cost!

Trans-Atlantic liners, ferries, tug boats, large and small yachts, fishing vessels, freighters, naval craft, and others employ diesel power to extend operating ranges and to lower fuel cost.

Nearly 100 American manufacturers are building these economical "power giants" in units of from 10 to 20,000 horsepower. One of these, Caterpillar Tractor Company, Peoria, Illinois, has in five years become the world's largest producer of diesel power, employing a continuous assembly line for the pur-

pose, the only one in the country. Caterpillar alone has built nearly 1,500,000 horsepower represented by more than 21 diesel engines. On count farms, in trackless mountains, Alaska mining claims, in pumping stations and light plants, in hundreds of mobile and stationary power jobs, they are working dependably, characteristically free from breakdown, at one-fifth normal internal combustion engine fuel cost. With American production year 21 times greater than 1932 output, the future of Diesel power is brilliant indeed. It is to Charles F. Heacock, Captain Edward V. Heacock, and B. C. Heacock, informed experts in the anniversary in-

Notes on the Game

Say your team can prevent the offense from scoring? Offense must be balanced to set up a strong defense. One of the best ways to break it is to defend the key. In defending it, you will use one of the two systems which we will discuss next.

Zone defense is one of the two general classifications—the stationary, and the shifting. The former is illustrated by the accompanying diagrams.

In zone defense, each player is responsible for a definite area on the court, and should not leave that area. When the ball enters his area, he rushes the offensive player for whom the ball was intended, and the other defensive players move toward the edge of the danger zone. They are also ready to render assistance, and also able to guard their own areas.

The shifting zone type of play allows for more flexibility of movement. The players are not tied down to a particular spot; they move as a unit in the direction of the ball. The front line of players moves about freely, attempting to intercept passes and other prospective shots.

The defense must be set before the offense team is in scoring territory. This means fast break from offense to defensive play and back to offense the moment your team has the ball again. To see who gets the ball and tact accordingly is much better than showing up when the enemy is about to shoot.

Leading Boxers Sign For Gloves Tourney

Exciting Fistic Show For Fans at Paterson Bouts

Amateur champions and leading contenders will mingle with sub-novices—eager to make their marks in the simon pure world—in the Golden Gloves tournament which will be staged in the Paterson Armory for five weeks beginning Thursday night, January 14 under the auspices of The Paterson Morning Call and the Paterson Letter Carriers Association.

A record breaking number of entry blanks was received from amateurs of North and Central Jersey during the past five weeks to assure lovers of amateur boxing one of the finest tournaments ever to be held in the state. Among the entries in the open class competition were several of the outstanding simon pure mitt slingers of the Skeeter State, including Billy Tucker, the state 126-pound champion and several Bergen county champions.

Paterson and Passaic will have the largest number of fighters in the tournament but many leading cities and towns will be well represented with prize boxers of their respective sections. Sub-novices, particularly, have gone for the Golden Gloves competition in a big way and several outstanding prospects are expected to be developed during the five weeks of punching.

In keeping with the strict physical tests which Golden Gloves competition demands, examinations were held this week in Paterson and Passaic. Boxers who in any degree whatsoever were not up to standards, were not passed upon by physicians in charge.

With the opening of the tourney set for Thursday of next week, boxers dug down for the hardest training sessions of the Golden Gloves campaign. Boxers in the Paterson and Passaic districts centered their activities at five up-to-date training headquarters which had been selected for them.

Legion Auxiliary

Legion Auxiliary will attend a luncheon in honor of Mrs. Grace Colton, state president, and Mrs. Florence Braun, county president, to be given by East Orange Unit 73, at Christ Episcopal Church, East Orange, Tuesday.

The local unit is preparing a new constitution and by-laws to conform with those of the national and state organizations.

AN INTERIOR DECORATOR IN YOU

Every THURSDAY, at 11:30 A. M., I broadcast over station WEAJ.

She will make many suggestions that are helpful and will help YOU with your own individual problem.

All the products which Betty Moore recommends are sold here at our store.
