

SERVICE STATION OWNER BEATS TOWN'S LAW

Sidewalk Ordinance Ineffective In Gerino Case; Road Already On Property

Frank Gerino, Franklin avenue service station owner, will not have to lay sidewalks. This decision, reached at the meeting of the Board of Commissioners, wrote him to a two-month battle in which James V. Alcamo appeared before the board time and again in an effort to force the work on Gerino. Tuesday's hearing was spiced with verbal darts shot at each other from time to time by Alcamo, who had appeared as a next-door neighbor, and Joseph Delanegra, Gerino's attorney.

Before the hearing was over Gerino had been called a "public nuisance" and Alcamo was charged with bringing the entire action through spite. It was also learned that Alcamo is not a neighbor but that he lives in another town.

Alcamo demanded more than two months ago that Gerino, who lives at 101 Liberty avenue, be forced to lay a sidewalk around his gasoline service station on the southeast corner of Franklin avenue and Jerusalem street. When it was learned that the board did not have the power to force such action, an ordinance was passed giving the Commission general power to have walks laid where it was deemed to be of public good.

Cites 1935 Ordinance

Tuesday Alcamo sought enforcement of the ordinance as far as the Gerino property was concerned. He stated that a 1935 ordinance had specifically called for pavement at the site and that Gerino had refused to comply with it.

Alcamo claimed that he had lost a sale of his property because the prospective purchaser considered the gas station a nuisance. He also stated that one of Gerino's gasoline pumps is on the sidewalk line, which he considered illegal. He did not think the municipality should allow business to be transacted on the sidewalk.

Delanegra proved to the satisfaction of the board that, when the county paved the streets at the intersection part of the Gerino property was paved and that part of the street is on the private land. His client was never compensated for the land which the county took. He has continued to pay taxes on it, the attorney claimed.

He pointed out that Gerino has been in business there for many years and that there has never been any previous complaint. To continue the curblin to where it really should be, he said, would create a definite traffic hazard. He declared that the service station has a hard surface all around it.

Mayor Williams declared that the two streets, according to the town map, would form an acute angle and that the county and Commissioner Waters would not optenance it.

Waters stated that it is impossible to build curbs at the site, that the gas station must have an apron all the way around it. He pointed out that there has never been an accident there and that he was not going to do anything about it until there were complaints from actual neighbors.

Delanegra refuted Alcamo's charge that Gerino has tried to buy the neighboring property for half price and said that the station owner had offered more than any other bidder. He also denied the charge that the sidewalk had been cracked by cars running over it.

Blasts at Alcamo

He characterized as "ridiculous" the charge that the lack of a sidewalk was the reason for the failure of the sale of the Alcamo property. "The real objection is to the service station but you will need service stations as long as you have automobiles," Alcamo's demands were "just spite work," he said, and Alcamo's "real purpose is to put my client out of business."

Alcamo tried to get Commissioner Clark to "delineate my sidewalk so I can know where to walk," but Clark said that was not in his jurisdiction. Alcamo asked for a transcript of the meeting but was told that no transcripts were made of the informal conference.

Commissioner King said that it would be better to wait to see what the county may do along Franklin avenue.

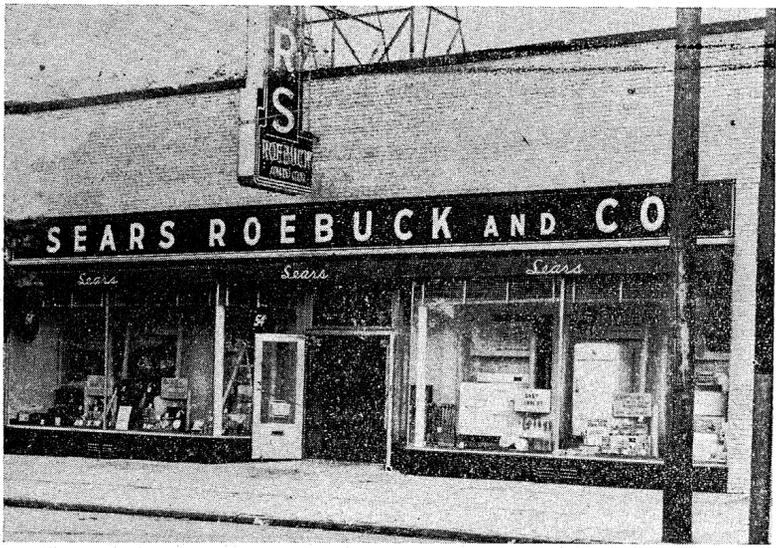

"I'm afraid I'm not going to wait that long, Commissioner," said Alcamo. "I'm going to do my best to have that nuisance removed. Good night."

Handlon Made P. S. Deputy

Court Clerk Fred B. Handlon has been named deputy director of public safety for the remainder of the month of September while Commissioner Clark is on vacation.

John Micono of 260 Mill street has been re-appointed constable of the Second Ward for one year ending September 7, 1941.

Twice As Big As The Old One

This is the new Sears, Roebuck Co. store at 165 Washington avenue which opened its doors this morning. Employing twice the number of employees that the old store at Washington avenue and Howard place did, the new Sears has added many new lines and departments for local shoppers. Vincent Mount, who has been here for two years, is continuing as manager of the new store.

Wedding Bells Rang Loudest Last Month, Records Show

Thirty five Lienses Issued By Local Bureau In August; Was Biggest Month For This Town Since The Last Worl War; What's the Cause?

Blame it on the weather, blame it on the war, blame it on Congress. Whatever the reason, Belleville fell in line with the rest of the country in August and more marriage licenses were taken out than in any month since World War I. According to Miss Jane Donnelly, secretary to Eugene M. Gavey, Registrar of Vital Statistics, permits for wedding bells were issued on an average of one and a half every working day and the month wound up with almost twice as many as were issued in August of last year.

Last month Miss Donnelly wrote out thirty-five licenses compared to nineteen a year ago. The only month in recent years which approaches that figure is the thirty-three of June 1938.

The number of Belleville persons figuring in weddings during August, however, is greater than thirty-five. Miss Donnelly points out that the license is always taken out in the hometown of the bride and therefore there is no figure of Belleville men who married or took out licenses to marry out-of-town girls.

Statisticians have noted tremendous increases in the marriage rate all over the nation since early spring when the battles aboard became tenuous. They have increased in leaps and bounds since it became almost a certainty some weeks ago that conscription was a sure thing.

Average Goes Up

Comparative figures for August for the past seven years show the vast difference. The average for 1934-39 was sixteen licenses per month. After this August's figure was in the average had leaped to twenty-one. The figures:

August 1940	35
August 1939	19
August 1938	14
August 1937	15
August 1936	23
August 1935	20
August 1934	19

Clifford B. Smith of 37 Fairview place was elected president of the Belleville Camera Club Monday in the Recreation House. Raymond Drew of North Arlington was named vice-president and Alfred Scattergood of Montclair, secretary and treasurer.

Thieves Ransack Parked Cars

Thieves broke into several cars which were parked in Parkside drive, Belleville Park, last week while their owners were engaged in a baseball game. Gordon Burgess of 15 Hollywood avenue, Hillside, reported that someone broke the small ventilation window in his car and stole a wristwatch valued at \$45. Walter Whitman of 21 Briarcliff road, Livingston, lost a \$5 gold tie pin and a silver dollar when his car was entered.

NEW SEARS' STORE OPENS ITS DOORS THIS MORNING

Floor Space Double That of Old Store; Many New Departments Added

The town's newest and most modern store, the new Sears, Roebuck Co. building at 165 Washington avenue, opposite Town Hall, throws its doors open to the public this morning. A two-hour preview was held last night in the large, bright store where everything from a tennis racket to a furnace may be purchased.

Vincent Mount, store manager for the past two years, said yesterday that two big sales which are in progress at the same time offer customers savings of great value. Besides the opening sale in honor of the new store, Sears' fifty-fourth anniversary sale is also in progress.

The new store has almost twice the floor space of that in the former store at Washington avenue and Howard place. The area of the sales floor has been increased from 3,500 to more than 6,000 square feet. The new building has been constructed so as to permit possible future erection of a second floor. The unit, which is the second in the new shopping center which is gradually taking shape on the west side of the Avenue between Rutgers street and Belleville avenue, also includes a three-car garage and a ramp leading to an unloading platform.

Store Personnel Doubled

According to Charles Roche, who is assistant to Mount, the personnel of the store has also been doubled. The help will include fifteen sales clerks, two office stenographers and clerks, two service and two receiving men. Two telephone lines, Belleville 2-1011 and 2-1012, have been installed to handle phone orders.

Another new service which has been put in is the catalogue department. A girl will have a desk under a cupola to give full-time attention to customers who wish to order from the Sears' catalogue materials which are not carried on the floor.

Several new sales departments have been added. They include lighting fixtures, furnaces, wallpaper, bathroom and plumbing fixtures. The other departments, all of which have been enlarged considerably, are refrigerators, washing machines, vacuum cleaners, carpenters, mechanics, power and gardening tools, electrical supplies, automobile accessories, radios, sporting goods, gas ranges, kitchen and cooking utensils and paint.

GOOD RESPONSE TO AID APPEAL

Bundles For Britain Group Encouraged By Generosity Of People

Miss Mary E. Biller of 12 Essex street and Mrs. James Miller of 15 Essex street said this week that the response to their appeal for Bundles for Britain has been encouraging. Many people have donated clothing and have inquired about knitting for Britons.

Officials of the Nutley unit, of which the local women are members, reported last week that from August 12 to 31 a total of \$41 in cash was received for the purchase of wool for Royal Air Force and Royal Navy garments of which there are thirty-eight pieces finished and more under way.

About 200 pounds of serviceable, warm clothing for civilian refugees have already been collected and delivered to New York to be sent abroad on the first available ship.

An indication of the generosity which has greeted the appeal is shown by the inclusion of many new knitted civilian garments and five knitted blankets. One donor has sent twelve knitted hats for children.

King Member of G.O.P. Group Appealing For Funds

Commissioner King, one of the town's leading Republicans, is a member of the county-wide finance committee which has been organized by the G.O.P. to raise funds to run the campaign. The committee is headed by Charles W. Littlefield of Montclair. An appeal was issued by the group this week which was addressed "to all those who want to see Wendell Willkie elected and the Republican party returned to power in the nation and the state not only to work and vote for the party's candidates but also contribute financially as their circumstances permit."

New Hartley Group Planning To Hold Card Party

The Hartley Boosters, a newly formed Republican group in the Fourth Ward, are planning a card party, their first social event to be held in mid-October. Henry Riepe, Jr. is in charge of arrangements.

Rotary Club's Mister 'X' Helping Youth Get Start

Local Organization's Project Has Aided More Than Forty Young People; Most of The Work Has Been Done by One Man

The world is not entirely heartless despite the beliefs and experiences of some youths who have tried unsuccessfully to land jobs. The Rotary Club set out a few months ago to aid young people just breaking in on their first job and has made remarkable strides helping them to get started in business life. The main work is being done by one man who has for more than a quarter of a century been intimately affiliated with the town's civic and educational life. At the present time and in his present capacity, he has chosen to remain anonymous. Through different channels he learns of boys and girls of good character who need jobs and sets out to land one for them. But the young employee does not learn his name until negotiations are already well under way.

FACTORY NOISES WEREN'T BAD

Complaints Investigated By Handlon For Clark; Board Takes No Action

Investigation of complaints of night noises at three manufacturing plants in different parts of the town showed there was no cause for action, Commissioner Clark told the Board of Commissioners Tuesday night. He said he had deputized Court Clerk Handlon to investigate complaints at Eastern Tool Company. Handlon said that noise could not be found there "unless you were looking for it." The company has promised to put shades on the windows to eliminate the bright lights.

Frank Chambers of National Grain Yeast Corporation said that if any boilers had been blown in the night, it was done without orders or permission and that he would see that there was no recurrence. Complaints of noise at Overman Tire Company were eliminated by the shutdown of the plant, Clark said.

BUILDING & LOAN CHANGES NAME

'Savings' Replaces 'Building' In Title; Assets Reach Half-Million Mark

Two important announcements were made this week by the North Belleville Building and Loan Association. W. D. Clark, president of the institution, told the directors at their regular meeting Monday night that Louis Reilly, Commissioner of Banking and Insurance for New Jersey, had granted them permission to change the name of the association to read "The North Belleville Savings and Loan Association."

Clark also announced that the assets of the association had now reached \$500,000, showing an increase of 9.6 per cent in the six months ending June 30.

The North Belleville Building and Loan was the first association in Belleville to be granted name changing permission by the department in line with the law recently passed by the State Legislature. The change in name will in no way affect the activities of the association, but the directors thought it more descriptive of their activities as savings and mortgage lending are the principal activities.

President Clark also stated that the real estate holdings of the association had been reduced to four parcels and that dividends had been continued at the rate of five per cent on installment shares and three per cent on income shares.

The directors voted to open the sixty-ninth series of stock as of October 1. The president appointed Clarence R. Lommerin, treasurer of the Viking Tool & Machine Corp., as captain of one of the teams, and John P. Dailey, association secretary, as captain of the other team, in a contest for shares. The winning team will be treated to a dinner by the losers.

Town and Park Commission Swap Riverfront Land

The town and the Essex County Park Commission will swap parcels of property along the riverfront and both will gain. The Commission introduced an ordinance Tuesday night which when passed on final reading will vacate all public rights to the section of Little street lying between Main street and the river. The property will be turned over to the Park Commission so that it may run its Passaic River Parkway uninterruptedly south when it is completed. A return the town will get a strip extending east from Terry street between Main and the river. Each strip is fifty feet wide but the Terry street plot is longer.

Three Cars Tangle

No one was injured when three cars tangled on the slippery streets at Washington and Belleville avenues during the rain shortly after noon Tuesday. John Norman Delano of Montville, N. J., stopped to make a left turn on Belleville avenue. Raymond Schweickert of Maplewood skidded into him and Warren K. Francis of Nutley plowed into the rear of Schweickert's car.

TO APPEAL BUS CASE TO PUBLIC UTILITIES

Residents and Commissioner Noll Work Out Plan; Ask P. S. To Withdraw

Some settlement of the vexatious cross-town bus problem which has kept the northwest section in a dither all summer seemed possible after Commissioner Noll, Town Attorney and seven leaders of citizen groups met at the Recreation House Thursday to work out a plan of action whereby Public Utilities Commission would be persuaded to lift the conditions on the "little bus" Garden State Lines. The of the conference was same group will attempt informally to Frank Noll, the Utilities board and to fully the situation on which reverse decisions have been handed down.

Public Service Co. Transport will also be asked to withdraw its opposition move and, if that fails, may be asked to reroute 92 bus so that it travel the present Garden State and will also take in route.

Commissioner Noll in the entire case up to the time as he opened the "The town gave municipal sent to the line more than years ago but, when it came before the Public Commission, that body put restriction under which it lost its value to the town.

The line was given per by the Commission to but it may not pick up charge passengers within town limits. Reason given that it was so close to service Washington and avenue lines as to offer special competition. The "little" runs from Mill street in the Avenue to Belleville to Hornblower to Division den to Greylock parkway east street to Emmet street.

Town Appeal Fruitless

Some months ago represented primarily by Williams and Commissioner appealed the verdict but restrictions were not lifted. Citizens interested themselves case about four months. Thursday's conference resulted in the summer's appeal.

Noll pointed out that told the Commission at a recent hearing that parts of Garden State line are 1/2 from Public Service's west outside the 800-foot line. He stressed in his to that many people depend the line for transportation school and to church, particularly in bad weather. He declared the line was absolutely not to carry people to and from new Municipal Athletic since the nearest Public line is five blocks away.

ACTION ON LIQUOR STORE DELAYED

Commissioners Want Time To Consider Capitol Liquor Application

Action on the application of the Capitol Liquor Store for a plenary retail license was delayed for two weeks by the Board of Commissioners. On the request of Commissioners Waters and Clark, the board decided to lay final hearing over until September 24.

Bernard E. McBride, attorney for the new corporation, explained that the business would occupy the two southern stores of the building at 353-300 Washington avenue, occupied by the Capitol Theatre. He said that renovations planned would improve the appearance of the stores, which have been idle for several years. It was used briefly by the Belleville Hoffman-for-Governor Club during the primary campaign last May. Alterations would include refurnishing the interior with light walnut wood on the walls and installing steel fixtures throughout. The corporation would re-decorate the exterior of all three stores to make it into one unit.

McBride, who lives at 106 Tappan avenue, pointed out that all three stockholders in the corporation are local residents. He is the secretary and treasurer. Matthew J. Ryan of 351 Jerusalem street is president and George Britzke of 276 Hornblower avenue is vice-president. Each has a one-third interest.

The fact that McBride represented Franklin Liquor Stores of Newark in its unsuccessful attempt to obtain a license in 1935 caused Commissioner Waters to ask if Franklin had any interest in the new store. McBride answered positively "No." He said that all three men are bona fide stockholders.

He also told Commissioner Noll in response to a question that there was no possibility of the license being peddled at some future date. When assured that there was no temporary matter, Noll said he would vote to grant the license.

Commissioner King stated that he would oppose the permit on "the same grounds that I have always opposed them. I believe there are enough in town now." Waters and Clark asked for more time. Mayor Williams did not commit himself.

Town Is Making Preparation For Conscriptation

Local authorities will not be caught napping when the time comes to start registering Belleville's youth for conscription. Mrs. Florence R. Morey, town clerk, received a letter addressed to the commissioners yesterday in which State Adjutant General William A. Higgins asked the board to start consideration of a suitable place for registration.

He outlined the size of the space which would be needed for the clerical force and for physical examinations. In order to keep the cost down, he said, the authorities would like to obtain public buildings for the purpose.

Tuesday night the George A. Younginger Post of the Veterans of Foreign Wars, offered the use of its building for the purpose of registration of conscripts should registration become law. The letter was signed by Acting Adjutant Victor H. Bostrom.

Organizations, Social Groups Resume Their Meetings

Activities Dropped In June Are Picked Up Once More Now That Vacation Time Is Past; Bridge Foursomes Are Meeting Again

This week finds organizations, bridge groups and social clubs getting back to their old schedule of weekly, bi-weekly or monthly gatherings. Summer vacations are just a memory or something to be talked or laughed about over the tea cups. Some of the bridge foursomes have already started their weekly get-togethers while others are planning to start up again within the next few weeks. Church and social organizations are also stirring and before the month ends the town will once again be humming with numerous social activities.

Miss Doris Wilson of Essex street was hostess Thursday evening to the O. A. O. Club. Those present included the Misses Ruth Dettelbach, Gloria Eleder, Margo Hyde, Jane Stanton, Jacqueline Sneider and Tina Berliss of this town. The club held a picnic Sunday at South Mountain Reservation as the final get-together until December since many of the members enter college shortly.

WITH this advertisement, Buick users in a brand-new automobile model year.

1940 production is history—recording the greatest manufacturing and selling season our company has ever known.

You may be sure we grimly realized we had to accomplish things in our new cars for 1941 that we could count on to continue our advance.

So, on top of the \$42,000,000 spent on our plants and machines these last four years we've added another \$10,000,000 in new facilities.

We've taken our greatest all-time car and steadily and carefully brought it forward to a perfection of action, ease, goodness beyond anything ever offered under our name.

Every car in all five series of the whole new line deserves unused fresh-minted language.

Stylewise, their suave and dynamic beauty refreshes the jaded eye as would sight of a hydrant in the desert.

They move and function like young wild things. They're all grace and poise and eagerness. They bring to driving and handling a keener pleasure and a new thrill.

Go see these superb new cars at your dealer's — without delay. They make plain why Buick is rightly called "exemplar of General Motors value."

"Best Buick Yet"

EXEMPLAR OF GENERAL MOTORS VALUE

Ask especially about the new micro-poise-balanced FIREBALL* engines—the 1941 furtherance of Buick's Dynaflex design and kingpin of all the features that make Buick the sensation of the new automobile year.

*According to the Encyclopaedia Britannica, a super motor which travels with a series of explosions like the shock waves of a great projectile is called a "FIREBALL."

WILL HELP LAWN GROWERS

County Agent Harman To Hold Demonstration At Park Saturday Afternoon

R. E. Harman, county agricultural agent, has announced that he will hold a lawn demonstration which will give helpful advice to property owners on Saturday afternoon at 3 in the Branch Brook Park extension. It has been set for this hour so that commuters will be able to attend. It will take place just past the railroad bridge about half a mile north of Heller Parkway near the tall flag pole where there is a large parking space off the main road.

Harman will personally describe the control of crab grass by several different methods and will go through the process of renovating an established lawn. Carl Witte, horticulturist for the County Park Commission, will see a lawn.

"We will have," Harman said, "on display various kinds of weeds with labels on them as there are several summer grasses which many gardeners believe to be crab grass. We will also show various kinds of turf injury including a magpie by fertilizer burning, by sulfur dusting which got on the lawn while dusting roses, fungus disease damage and chinch bug damage. There will be various types of equipment for watering and feeding lawns, for seed and fertilizer distribution on display.

"The demonstration part will include application of dust and spray material for killing crab grass and other weeds without harming the desirable turf grasses. Chemical treatment of individual perennial weeds such as plantain and dandelion will be demonstrated. Spading, raking, rolling, watering and applying fertilizer, lime and seed, will be demonstrated. We will show how to control ants, earthworms and Japanese beetle grubs in lawns."

Alderney Driver Welcomes Home-coming Vacationists

A familiar scene all over Essex County this week is the return from mountains, lakes and seashore of the typical American family, and, as shown here, the Alderney man is pretty sure to be pretty close at hand. In this instance fresh, cool Alderney milk was mighty welcome after the long motor jaunt from the shore, and the Alderney man had some butter, eggs and cottage cheese with him, too. This is a scene as truly American as going back to school, the first snowfall and the opening ball game.—Adv.

Hudson College Offers Students "South of Pago Pago" at Capitol Sun.

A course in fine arts will be inaugurated at Hudson College, the School of Business of St. Peter's College, Jersey City, it was announced this week by Rev. James R. Barnett, S.J., regent, to commence with the opening of the fall term on Monday, September 23. The first semester of the course will consist in the study of music and painting.

The course is unusual for business colleges and the Jersey City institution will be one of the few schools of this type to offer it. Father Barnett bases his belief that the study is an essential one on the grounds that it is part of the educational development of any man to cultivate an appreciation of the fine arts.

The Hudson course will be under the direction of the guidance board which is supervised by Father Barnett. The board will determine, particularly in the case of students studying for degrees in accounting and general business, the proper term during the curricula that the course should be taken. For the first semester it will be open to post graduate students and will then be extended to all students.

Evening Technical Classes Open At Vocational Schools
 Related general and technical classes for employed apprentices in various skilled trades will reopen on Monday and Tuesday in the Essex County Vocational Schools. In order to be eligible for entrance to these classes students must be over sixteen years and must have entered into an agreement, either written or verbal, with a responsible employer to learn a trade or occupation which requires a minimum learning period of 4,000 hours or approximately two years. The usual learning period for skilled trades is four or five years.

Classes for machinist, tool and die maker and sheet metal apprentices will open in the Irvington school, Myrtle avenue and University place, at 7 on Monday, and will meet on Monday and Wednesday of each week from 7 to 9:30. Classes for typographical apprentices will open in the Newark school, Sussex avenue and First street, Monday at 5:30 and will meet on Monday and Wednesday of each week from 5:30 to 8. Classes for machinist and tool and die maker apprentices will start in the Newark school at 7 Monday and will meet on Monday and Wednesday of each week from 7 to 9:30. Classes for machinist and tool and die maker apprentices will open in the Bloomfield school, 209 Franklin street, at 7 on Tuesday and will meet on Tuesday and Thursday of each week from 7 to 9:30.

Output of electricity by Public Service Electric and Gas Company for the week ended September 5 was 58,185,222 kilowatt hours, compared with 52,261,650 kilowatt hours in the corresponding week a year ago, an increase of 5,923,572 or 11.33 per cent.

Griffith Foundation Concert Series Will Open Nov. 6
 Argentinista, famed Spanish dancer, and her Spanish ensemble, and her Spanish ensemble, will appear in the major concert series of the Griffith Music Foundation, it has been announced by Mrs. Parker O. Griffith, president. The performance will replace the Jooss Ballet in the Foundation program. All American appearances of the gifted German dancers were cancelled because of passport difficulties. The series will open November 6 with a recital by Jascha Heifetz, celebrated violinist. Argentinista's performance will be given December 18, followed by Lily Pons on January 29. Emanuel Feuermann returns to Newark for a violoncello concert on February 19, and on March 5 Ezio Pinza, Metropolitan opera basso, will present an evening of song.

Town Would Appropriate \$1,750 For Flood Control Work
 The town took its first real step toward flood control along the Second River when it passed its first reading Tuesday night

an ordinance appropriating \$1,750 for its share in the construction of retaining walls from the old Hendrick Dam to the new bridge over the river on the North Sixth street-Franklin avenue extension.

The total cost of the work is estimated at \$16,750, of which the county will supply \$15,000. The work will be done by WPA; materials and labor will be supplied by the county division of the federal department. The town will supply \$1,667 worth of supplies and equipment.

SPORTS BEFORE YOUR EYES

By Joe Duval

Larry Gates didn't have much to say yesterday. Guess you can't have much to say when you don't up at Clearman Field is kidding himself these days. The outlook is dark, probably the darkest in many years, and there isn't anybody who goes around with any undue optimism. Oh, the spirit is there, but it usually takes a little more than spirit to win ball games. The squad is so light that on the average they should have two men playing each position all the time. It is doubtful that anybody in the backfield will tip 150. The only drawback is that Belleville isn't playing any lightweight schedule.

The boys are getting some side coaching from Tony Zuzzo, one of the Blue and Gold's former greats. Tony was graduated from Muhlenberg this year and is going into the pro ranks. He has been helping out from time to time.

Art Jocher made a nice debut for himself last week. He scored his first touchdown for the All-Stars as they downed the New York Giants. Jocher, who was a standout Bellboy several years ago and starred for Manhattan the last few years, recovered a fumble in the second period and ran thirty-five yards for a score.

Crying Billy Foley out in Bloomfield is up to his old tricks again. He is weeping over his prospects, which he claims are sad. They say there are only forty boys out in Bengalton this year.

Word from Akron tells us the Ohioans won their pennant by eight and one-half games. No word yet on how many Bernie Barnett won for them. They took it last fortnight when they played seven double-headers in eight days and came through.

Hope the high school will do something this year about the cheerleaders. The boys and girls work hard, they're obvious, but they lack training and coordination. Always put to shame by the acrobats from other schools. New uniforms would help.

St. Peter's win of the recreation softball playoffs was somewhat of a feather in the caps of seven teams. To the amazement of all and sundry the champ of the Church League turned out to be the best in all the leagues.

Now, to you that may not seem too remarkable, but you've got to remember that this is the first season that the church-loop has been in existence. Back last winter the church basketballers were considered the weak sister in the recreation horizon.

Lots of people figured the softball setup the same way. In fact everybody did except the churchers themselves; the boys in the league and the men who organized it.

St. Peter's had a tough job winning its own championship — it had strong competition from the Italian Baptist and Fewsmith. But there was no doubt about it all season — the Petreans were the class of the league.

When they set out to show the "older and more experienced" campaigners how to play softball, they made a thorough job of it. And they vindicated the beliefs of men like Dr. Close, Rev. Lake, Compton, Pascale, Commissioner Noll and the rest of the men who last winter had the foresight to see the possibilities in sports for the churches.

St. Peter's won behind a boy who has shown himself to be one of the best of the younger crop of pitchers. All season young Elby Leonard has been a thorn in the sides of the other churches and West End found him just as tough.

It's too bad St. Peter's couldn't find time to try for the town championship. They might have given the Bellboys an interesting time of it.

Reservations are being taken for your seat at the beginning of the International League Governor's Cup series Tuesday night. They're the Int. playoffs to you.

This is the seventh straight year that the Newark Bears have qualified for the playoffs and a chance to play in the Little World Series. They've been in it every year of its existence.

'Course the Bruins don't know whom they're playing yet. The little matter of third place won't be decided until Jersey City and the Baltimore Orioles battle it out Sunday on the last day of the season. Kinda think they'd like to get first whacks at Hague's boys.

If you're looking for a thrill that is certainly out of the ordinary we suggest that you trek down to Trenton for the State Fair a week from Sunday and get a look at this Lucky Teter and his Hell Drivers. Saw them not long ago and still trying to find out where the old heart went to.

Tops in sensations and spicetickers is the rocket car leap in which the damfool jumps a regulation stock model sedan clear over the top of a transcontinental bus. Some fun. Take your mother-in-law.

to say yesterday. Guess you can't have much to talk about. Nobody will probably lend his 150 pounds to one of the end positions and will also do the punting. Ren Smith will fit in at center or guard, Frank Cadiz looks like a good choice for one of the tackle slots while Bob Cataldi at the moment appears to be a good end prospect. All of these boys had some experience as substitutes last year.

CROWN ST. PETER'S 'REC' KINGS

West Enders Are Beaten 7-4 By Church League Titleholders

St. Peter's, champions of the Church League, won the Recreation Department's softball playoffs last week when they pasted a 7-4 trimming on West End of the West Belleville loop. The West Enders had previously beaten the Valley Crowns of the Senior circuit 3-2.

St. Peter's did not wait until the umpire's "play ball" had died away before they lit into West End for all they were worth. Four runs crossed the plate in the first inning and two more in the fourth sewed up the decision. West End countered weakly with a pair in each of the fifth and sixth but they could not match the power of the Petreans.

West End pushed over a brace of tallies in the final inning to trip the Crowns 3-2. Miller had held them hitless until that fatal inning. Venezia's grounder took a bad hop over third and he stretched it into a double to start the rally.

TRIANGLES BLANK PATERSON 3-0

Dunham Scatters Seven Hits For Eighth Straight Win; End Season Sunday

Les Dunham turned in another fine performance Sunday when the Triangles shut out the Paterson Silk Sox 3-0 at the Totowa Oval, Paterson. Dunham scattered seven hits and was never in danger. It was his eighth straight win. He has lost one.

The local nine took a 1-0 lead in the third when Tony Debrowski's double scored Phil Hickey from second. They put the finishing touches on in the ninth with a pair of scores jelled out of two squeeze plays. The three-cornered boys have not yet secured an opponent for their closing game of the season Sunday but manager George Zoppi expects to get one today.

Ukrainian Youth Official

Among the officers elected recently at the eighth annual convention of the Ukrainian Youth League of North America in New York City is financial secretary, Harry Kowadla of 149 Birchwood drive. Mr. Kowadla, who is employed by the Bendix Aviation Corporation, has lived in Belleville about five months.

Vernon Graham Injured

Vernon G. Graham, thirty-nine, of 211 Valley street suffered a compound fracture of the leg last week when he was struck by a car in front of his automobile repair shop at the Valley street address.

Graham was standing beside a car in front of the shop talking to a customer. Another car, which he had been working inside the shop rolled down an incline, pinning him between the two machines. He was rushed to St. Mary's hospital where his condition is reported good.

CARDINALS END POOREST YEAR

Team Lost Twenty-Three Games and Won Fifteen; Last Lost To Elmwood

The Belleville Cardinals rang down the season curtain Saturday afternoon by dropping an 8-4 decision to the Elmwood Tigers at East Orange. This game climaxed the poorest campaign the Cards have had since they have been organized, ending up with a record of fifteen wins and twenty-three losses.

The game was won as early as the first inning when the Tigers took advantage of four Cardinal errors and a trio of hits to tally five runs. In the fourth inning another error with two outs and men on second and third presented the Tigers with an additional pair of runs.

The fifth frame found the Tigers adding another run on a pair of base hits to gain their first earned run of the game and an 8-0 lead. In the meantime the Cardinals were helpless against the offerings of Aranco, the Tiger pitcher.

In the seventh frame he finally weakened and the Cards bunched hits for a pair of runs. The ninth frame found the Cardinals scoring twice more.

HORSESHOE CLUB IN TRAINING

Newly Formed Greylock Group Will Shortly Challenge Coogan Heavers

The Greylock Horseshoe Club members are getting their eyes on the peg and are ringing so many of the irons that they soon hope to challenge John Coogan's club to a match. The Greylockers were recently formed by John Coogan, Jr., who is the tax assessor. They have completed making one pit and expect to have two more finished before the weekend is up. The nine original members of the club are:

Robert C. Allaire, Casper E. Beard, Joseph C. Curran, Raymond M. Imman, Paul LaBaugh, Frederick H. Reuther, Jr., J. H. Geiger, coach; Milton E. Allaire, treasurer, and Edward V. D. Settle, secretary. John MacDowell and Frederick Reuther, Sr., are being commended by the members for the work they have done in clearing the land and making the pits.

Yesteryear.....

Five Years Ago

Final preparations for the primary battle for state elections were made as the Republican fight between the Regulars and Clean Government held the center of interest in the town. The victory of the Regular forces was freely predicted around town.

Charges of selling liquor to minors were dismissed when it was learned that three young men, the witnesses in the case, had been sent to the taproom of Mrs. John Winach by John Rajca, a rival tavernkeeper, for the sole purpose of causing the trouble.

The engagement of Ruth Kenney of Newark to Edward J. Abramson, local lawyer, was announced.

County Engineer Stickle announced that steps would be taken to remove the grease from the Belleville avenue hill in an effort to reduce the number of auto fatalities on that street.

The new police ordinance sponsored by Public Safety Director Gerard was approved. It provided for salaries for policemen and chancemen.

Mayor Williams was authorized to sign necessary contracts with Public Service for removal of overhead light and power wires on Washington avenue at a cost of \$320,000. The town's share, \$4,905, covered the cost of placing police communication, fire alarm and traffic signal wires underground.

George Gorham, fifty-eight, died after having been a member of the police department for more than twenty years.

After a petition from the ice dealers of town, the commissioners decided to pass an ordinance banning sale of ice on Sundays except when ordered by a physician or the Board of Health.

The Battle of Tax Bills continued to rock Town Hall. The latest outburst was between Commissioner Williams and former Commissioner James Gibson in which the latter violently attacked Williams.

Registration at the high school on the first day showed an increase of 147 over 1929.

Thirty-two election officers in eight districts started to make a canvass of every home registering voters for the fall election. Belleville, with an official population of less than 15,000, came under the house-to-house registration rule.

Eight candidates were initiated by the Elks Club: Ned M. Kohn, Hyman Solomon, Harry Griffin, Joseph A. Casky, Frank Webb, George R. Lander, Charles P. Zern and William F. Dale. The initiation was held in St. Peter's Hall because the Elks

Bellboys Gain Softball Crown on Default

Nutley Teams Disagree So Committee There Calls Off Entire Proceedings; Fight Resulted From Decision By The Umpire

The Bellboys, town softball champs, won the Nutley-Belleville inter-town softball tournament this week without scoring a hit or a run. In other words, they gained the trophy offered jointly by The News and The Nutley Sun by default. The Nutley teams, after twiddling around for two weeks deciding who would win that town's championship, got together Tuesday night and in the second inning the game blew up when a wordy battle ensued over an umpire's decision.

The Nutley game was supposed to have been waged between the Genacos, winners of the Senior League championship, and St. Mary's, kingpins of the Church League. By the time the teams got through arguing over the umpire's decision it was too dark to continue play.

The representative of the Nutley committee handling the tournament then told the teams that they would have to play the game on Thursday evening and offered to further prevent the possibility of a disagreement with the umpires by securing two men from out of the county. The teams were given the alternative of playing the game tonight or defaulting the tournament to the Belleville entry.

Chief opposition to playing the game tonight came from St. Mary's which was leading 1-0 when the game was halted. The Saints claimed that the Genacos had started the rumpus because they were losing and wanted to talk and argue so that it would get dark. The Genacos countered by claiming that one of the umpires was not calling the decisions correctly.

Joseph C. Duval of The News was informed yesterday morning of the sudden turnabout of events in Nutley. The decision made by the Nutley committee said:

"Failure of the two teams playing for the right to represent Nutley in the tournament to agree to playing the game on Thursday night, September 12, after having failed to finish the game on Tuesday night, September 10, has forced this committee to make an unpleasant decision. We have informed both of these clubs that their inability to come to an agreement forces us to default to the Belleville entry in the Inter-Town series. We regret this decision but feel that it is only fair to the Belleville team which has waited for several weeks to play the series."

NO SOAP?

When It Came To Money 'No'; But Bandits Found They Got Bagful in Holdup

There were two started and disappointed bandits somewhere in Jersey Saturday night. They found that crime did not pay—at least, it did not pay them and they were left holding the bag. It was shortly before midnight Saturday and Albert Wagner of Paterson, manager of the King Arthur Food Market at 524 Washington avenue, this town, locked the door and stepped into a car to take the day's receipts to the First National Bank. The car was driven by Sigmund Erickson of Bremont street. Wagner had a couple of bags and several packages with him.

When Wagner and Erickson were about to pull away from the curb, two masked men ran to either side of the car and, sticking nickel-plated revolvers through the windows of the car, demanded the money and the key to the store.

Wagner gave them the key and one of the bags. The thugs fled west on Overlook avenue. Sometime later they must have opened the bag with curiosity and found not money—but a bagful of soap! The money was saved.

Suffers Skull Fracture

James Dale, five of 56 Plane street, Newark, suffered a fractured skull Friday when he was struck by a car driven by James Stoddard of 16 Beech street, this town. The Dale boy, who was playing in the street in front of his home when he was injured, was taken to St. Michael's Hospital.

Club on Main street was too small.

The Belleville Improvement Association with Mrs. Fred Dodge presiding appointed a committee to organize a local branch of the National League of Women Voters and to plan a citizenship school for women.

Twenty-Five Years Ago

John F. Coogan and Edward J. Moniot were named by the North Belleville Taxpayers' Association to seek better mail service for the Greylock section. Postmaster Vernon W. Forgie told the association that a reduction in service was being considered.

Joseph A. Manning died at thirty-five. He was a member of the town council until it was succeeded by the commission form of government.

Alva A. Buckley of Bremont street filed for county commitment with the designation "Anti-Dalrymple." The regular Republican candidate was Daniel W. Buckley of Washington avenue, not related.

John T. Burke was elected grand knight of the Knights of Columbus.

Breeze's Band Breezing Along to Fame

Musical Group Composed Mostly of Local Youths Is Climbing The Stairway Toward Success; Now Playing in Totowa Night Spot

Hal Breeze always had music in his blood. It started back ten years ago when he was still in elementary school. Now he is making it pay dividends with a fourteen-piece band that is gaining recognition as one of North Jersey's better musical groups. That is the success story of a local youth who makes music wherever he goes. Three years ago he assembled his present group. Now sweet and swinging music fans are flocking to The Palms in Totowa to hear them. Five members of the band are from different sections of the town, the remainder from Montclair, Newark, Bloomfield, Nutley, North Arlington and Irvington.

Hal Breeze

Hal Breeze is a trade name. He was born Louis Luzzi and has lived all his life in town. Currently, he resides with his family at 184 Passaic avenue. He is not in a position yet to make his living entirely from music and so works at another job during the day.

Hal learned the rudiments of music at the high school but studied afterwards with several teachers, including Archie Bleyer, considered one of the nation's foremost arrangers and teachers of music theory. Hal plays the guitar in the band. He started the nucleus of his orchestra six years ago with a trio playing one-night stands. He has yet to show the band to his home town but the caliber of the music is attested by the fact that two former members, Leon Debrov graduated to Tommy Dorsey's orchestra and Joe Fleming cut into the big time with Frank Dailey.

Al (Luzzi) Breeze, his brother, is a junior in the high school and swings out with the trombone in the band and in the school band and orchestra. Al is a candidate for the football team and is considered by many to be one of Jersey's leading trombonists. Ugo DiGiovanni of 16 Cedar Hill avenue graduated from the high school in '38. He

takes care of the tenor sax and the clarinet for the Breezes. He works as a machinist and is also studying to be a pilot. Nick Burde of 570 Union avenue is a BHS '39 and attends John Marshall College on a scholarship. Nick is the pianist. Both he and DiGiovanni have lived here all their lives.

Tony Yacht, nee Yacovetti, lives at 14 Cedar Hill avenue. He is said to be a fine tenor sax player. He is a chemist at L. Sonneborn Sons Company. Marion Johnson's real name is Marion Jordan and as such she was known as one of the high school's top vocalists when she was graduated in 1939. Marion, who lives at 48 Walnut street, has sung for the band almost from the beginning. The business manager for the past two years has been Peter Torre, Jr., of 38 Mt. Prospect avenue. When he graduated from the high school last year he had varsity letters for football and baseball.

ALWAYS SLEEPING, Town Officials At Bright Spot Opening

WIFE TESTIFIES

McCloskey's Hay Fever Claim Doesn't Carry Weight With Judge

"He hangs around the house all the time but he never bothers me; he's always sleeping," a wife told Recorder Smith, Friday morning as her husband, Thomas McCloskey of 25 Roosevelt avenue, was given sixty days in the county jail for non-support. The sentence was suspended and he was put on probation for two years.

The complaint was brought by Overseer of the Poor Hewitt who charged that McCloskey had received relief but had refused to work for it. He had been warned previously by Judge Smith to start work or stand for a hearing. Hewitt testified that McCloskey had not worked most of the days since the warning.

McCloskey pleaded illness. Hay fever and a stomach condition prevented his working, he said. But a report read in court of a physical examination by Town Physician Martin Meehan stated that neither of these reasons was sufficient to keep the man from work.

Motorist Injured When Auto Strikes Parked Car

Frederick W. Jacobus of 315 Broad street, Bloomfield, was treated in Columbus Hospital early Sunday afternoon for injuries received in an accident in Franklin street near St. Anthony's Catholic Church. He suffered a bruised chest and three stitches were taken in a cut on his chin.

Jacobus told police he was driving west on Franklin. He swerved to avoid hitting a woman pedestrian who stepped out in front of his car. He in turn struck the parked automobile of James Altomare of 29 Jefferson avenue, Bloomfield.

Teacher's Apartment Is Entered And Jewelry Stolen

Plenty of folks didn't get a seat when The Bright Spot, new dairy and milk bar at 111 Washington avenue, near William street, opened Tuesday night. But three of the town's officials were among the more fortunate. Mayor Williams (on left), Commissioners King and Clark are shown just starting to dig into their dishes of ice cream after having been served by Joe E. Brown, Jr., son of the famous Hollywood comedian and a star in his own right, who was on hand to help out the proprietresses of the new business, Mrs. John Hudson and Mrs. Kenneth Smith. Some estimated that more than 1,500 jammed into the place. Commissioner Clark said it was the first time the cops had to be called out to handle a turnout at a store opening in Belleville.

teaches at the high school. Captain Leighton and Detective McGinnis who investigated reported that entrance was gained by using some kind of a key.

The loot included a \$100 fourteen-karat gold diamond ring and a \$40 white gold and platinum chase link bracelet ornamented with a diamond and blue sapphire.

Worker Bopped on Head By Hunk of Iron

Carl Miller, fifty-three, of 138 Lincoln avenue, Clifton, is re-

covering from injuries received Thursday noon when he was struck on the head by a two-foot piece of angle iron dropped from the second floor of the new Andrew Jergens Company plant here. Miller is employed by the Otis Elevator Company.

He was taken to the American Legion Memorial Hospital where he was found to have suffered a cut in the roof of the mouth and a possible fracture of the skull. X-rays showed the latter fear to be groundless but Miller is still being held at the hospital for observation.

Susan Powell Rudge

Mrs. Susan Powell Rudge, mother of John H. Rudge of 153 New street, died Monday in New York. Mrs. Rudge, who lived at 461 Broadway, Newark, had been ill for some time. She also leaves two other sons, Harry of Newark and Alfred G. of Irvington.

Funeral services will be held this afternoon at 2:30 in the Vreeland Funeral Home, Newark. Rev. Dr. J. Frank Young of the Old First Presbyterian Church will officiate. Interment will be in East Ridgeway Cemetery.

Eighty-Three Year Old Man Is Found Dead In Kitchen

Joseph Bielski, eighty-three, of 2 Cortlandt street was found dead in the kitchen of his home Tuesday. The body was discovered by Miss Anna Watkins, a tenant in the home which was owned by Bielski. He had lived here more than twenty-five years.

He was badly crippled by a varicose ailment and had seldom left the house in recent years. He was cared for by Miss Watkins. He leaves a son, Joseph Bell of New York. Town Physician Meehan and County Medical Examiner Martland said that death was due to natural causes.

John J. Foley

A requiem mass will be offered this morning at 9 in St. Vincent's Church, Madison, for John J. Foley, forty-two, of Newark. Mr. Foley was a brother of Mrs. George J. Christie of 12 Division

avenue, wife of the town Democratic chairman.

Mr. Foley, who died Monday in the Newark City Hospital after an illness of only a few days, was born in Madison and lived there until he moved to Newark twelve years ago. He also leaves another sister, Miss Esther Foley of Newark.

Retired Wire Weaver Passes At Home of Son

Robert Evans of North Arlington, brother of Mrs. Joseph Bray of 29 Garden avenue, died Monday at the home of a son, Police Lieutenant Fred A. Evans of North Arlington. Mr. Evans, who was seventy-eight, was employed for forty years as a wire weaver at the Eastwood-Nealley Company here. He retired five years ago.

He is also survived by two other sons, James of Kearny and William of Union. Funeral services will be held this afternoon at 2 in the Armitage Funeral Home, Arlington. Rev. Paul C. Martin will officiate.

Today, if you have already become interested, you will notice that patterns are provided and easy-to-handle fabrics which may be hooked with modern gadgets through smooth burlap. This makes for quick work and if done under instructors in groups it has the added attraction of helping you form new friends. There is a nostalgia which is growing stronger every day, however, for the typical American activities which have faded American women through periods of war and the attendant depression of spirits and curtailment of the pleasures of life. Do you not think therefore that you would find your deepest satisfaction in a rug which represents salvage of all the things which you cannot bear to throw away?

We cannot but help make a plea for the authentic, old-fashioned type of rug at the same time that we urge you under any circumstances to include this delightful craft in your fall and winter activities. Discarded clothing of all kinds are desirable. Best of all the bulky items such as old trousers, bathing suits, blankets and the interminable quantities of worn neckties are all excellent sources of warmth both in feeling and design. Above all do try to design your rugs yourself. There are any number of things about your home and your family that are so much a part of you and which could carry to future generations the comfort and sweetness of background which we all desire.

Slowly but surely, in the mysterious way that the simpler and better things of life have of surviving and reinstating their popularity, handiwork of all kinds is once more finding its way back into the hearts of women. Chief among the various forms it assumes is the hooking of rugs. This is easy to understand when you stop to consider that this art was bred of sheer necessity rather than a desire to occupy idle hands or minds. The fundamentals in any phase of life are bound to be based on necessity which comfortably enough accounts for the fact that enduring beauty is bound to result from times of greatest stress.

History of Hooked Rugs

It is known that hooked rugs had been designed and made at the time of the Revolution and in the years of war that followed until 1814. Again in the Civil War period this craft flourished when women had literally nothing but rags left from the exigencies of living. Since families were often living in makeshift circumstances and mothers worried about the comfort and safety of their loved ones who had to put up with bare, draughty floors they selected the sturdiest of their rags, pieced them together in the shape of a rug, drew thereon the picture they wished to represent and then, with a smooth wooden hook whittled and polished from a forked twig, drew narrow strips of material through this foundation until the picture was filled in.

Little did they visualize in the thick, protective result, which was their closest approach to luxury, the soft chemises and other makeshifts of deep pile fabrics of today into which our feet sink with softness and warmth. How simple to understand the tastes of the pioneer women who chose her designs from simple, homey articles such as pine cones, Muttie Goose figures, ABC's, the family cat, a ship they may have once seen, a woodland scene or, frequently, a bouquet of flowers.

On Nursery Schools

Following upon requests recently received at the office of this newspaper for knowledge of kindergarten instructors we were interested in an article in the current edition of the nation's leading parents' magazine on the formation of a nursery school. This does not refer to a professional nursery school, but to one designed and operated by mothers who were willing to get together and solve for themselves the problem of socialized training for the child from two to five years of age.

Many mothers do not feel the need of such assistance and for those who can lovingly and skillfully guide the very young child until he is ready for his first contact with daily companions there is, in our opinion, no occasion or desirability for the organized play and routine which these schools afford. There are many, however, who cannot through lack of health or time, or perhaps because they must work, produce the desired result. There are also the mothers of only children who have no substitute to offer the child for companionship within his own scope. To all of these the project outlined should be stimulating and inspiring.

Two mothers out of a group of a dozen or so can undertake the actual "teaching" which is more like gently restraining the natural movements and mental processes of the little ones. Two rooms are set aside—one for work, which in this case means trying to paint, paste or model with clay as well as sing and dance in unison. The other room is devoted to play and here may be found all the familiar trap-

Helps Them Along

Tiny children attending such a school for the morning hours, the latter part of which may be spent outdoors on clear days, get a great boost along the way to adjusting themselves to community life. They get an opportunity to expend some of the physical energy which otherwise makes them boisterous and unruly and they may inadvertently pick up knowledge of some skill which in adult life will be greatly to their advantage. Mothers in many communities might do well to consider such a proposition instead of idly deploring the lack of facilities.

Peel and chop the peaches after removing pits. Pieces should be fairly large. Weigh and combine with an equal amount of granulated sugar. Squeeze the oranges and lemon and add juice and pulp to the mixture after removing seeds. Stir to combine and place over a slow flame. The skins of the citrus fruits should then be dropped into the kettle. Scrub this fruit thoroughly before using, of course. You will find by this method that you will get all the benefit of the skins for jelling purposes and at the same time will not have annoying, sharp bits of peel through the finished jam. Helps Them Along

Tiny children attending such a school for the morning hours, the latter part of which may be spent outdoors on clear days, get a great boost along the way to adjusting themselves to community life. They get an opportunity to expend some of the physical energy which otherwise makes them boisterous and unruly and they may inadvertently pick up knowledge of some skill which in adult life will be greatly to their advantage. Mothers in many communities might do well to consider such a proposition instead of idly deploring the lack of facilities.

mixture jells when a small quantity placed on a saucer shows the desired thickness. Remove orange and lemon skins and seal mixture in sterilized glasses. Concord grapes will soon be ready for use. Remember that the best results in jelly and jam will be obtained if a mixture of ripe and half-ripe grapes is used. We like the following recipe:

Grape and Orange Jam

6 pounds grapes
4 oranges
2 pounds seedless raisins
4 pounds sugar

Wash grapes and squeeze off skins. Boil pulps sufficiently so that they can be put through colander and throw away seeds. Combine skins with pulp juice and boil for fifteen minutes. Add the juice of the oranges and the thin yellow rind chopped very fine; the chopped seedless raisins and the sugar. Simmer gently for ten minutes or until juice will jell when dropped on cold saucer. Turn into sterilized jars. Cover with paraffin when cold and cover.

Peel and chop the peaches after removing pits. Pieces should be fairly large. Weigh and combine with an equal amount of granulated sugar. Squeeze the oranges and lemon and add juice and pulp to the mixture after removing seeds. Stir to combine and place over a slow flame. Speaker Discusses Insurance and Conscription

District Deputy William Bell of Ridgefield Park addressed the Belleville Council, Knights of Columbus Monday night in St. Peter's Hall on the probable effect of conscription on the insurance of members of the council. He spoke on the possibilities of premium moratorium during the period of service. The members enjoyed six reels of technicolor movies taken by Dr. William T. Sullivan on his recent trip through Canada, New England and Pennsylvania.

Gives Welcome Address

John Ellsworth of 182 Adelaide street, president of the Essex Suburban Federation of Men's Bible Classes, delivered a short address of welcome Sunday morning when the federation gave a musicale at the Montclair YMCA which was attended by a delegation from Everyman's Class of Belleville. Several musical selections and a short Bible reading were included in the program.

WHY THE SMILE, LADY?

WE HAD TENDERAY BEEF FOR DINNER
You see, I wouldn't be a woman if I weren't a softie about compliments. And did I get compliments last night—did I! It all started with that steak. My husband put the first juicy chunk in his mouth, chewed, looked surprised, chewed some more, then let out a whoop of delight.

IT'S THAT GOOD EH?

GOOD? IT'S SENSATIONAL!
For the first time in months he thought to kiss me before he lit his pipe. Then instead of hiding behind his paper, he asked me all about Tenderay and was it expensive. When I told him how little it costs, and everything, he said, "What a wife! You deserve a reward. Let's go to a movie."

TELLING YOUR FRIENDS?

AM I? LISTEN—BZZ-BZZI
The back fences in our neighborhood have been busier than a telegraph office. I tell my neighbors. They try Tenderay, and tell their neighbors. Everybody says it's wonderful. You will, too. Why don't you try some tonight? Get any cut—from chuck to porterhouse—all cuts of Tenderay beef are tender every time.

TENDERAY
A PRODUCT OF WESTINGHOUSE RESEARCH

YOU OUGHT TO KNOW THIS, TOO
Tenderay is a scientifically controlled method which aids and speeds up nature's own slow way of aging fine, wholesome, fresh beef to make it always much more tender and delicious. Tenderay makes all cuts of beef tender—round, chuck, sirloin, etc.
In the Tenderay process no chemicals are added to the meat; there is no precooking, no freezing and no mechanical treatment.
Tenderay is a patented process* developed by the research laboratories of Westinghouse, in cooperation with food scientists of the world-famous Mellon Institute.

Preventing Crime Through Education

Police departments were urged this week to fight crime through greater education. The most important task of the police is to prevent crime and the most effective medium is through education.

For years, Wilson said, they had battled against counterfeiting through prosecution resulting in fines and imprisonment. About a year ago they inaugurated a program of educating the public to the methods employed by the counterfeit money passer and the precautions that should be taken to guard against being a victim.

Wilson urged that police throughout the country develop an educational program, contending that the success of his department in this one branch of crime could be expanded into other fields.

We have seen the success in this state of the educational program conducted by the State Motor Vehicle Department in promoting greater safety among motorists and pedestrians.

It certainly should seem just as reasonable to presume that the loss suffered by the public through certain forms of crime could be reduced through education.

Opening of The New Sears

Another new enterprise is added to the ever increasing businesses which are being attracted to Washington avenue. True, Sears, Roebuck Co. is no newcomer to Belleville, having established a store here some years ago, but their faith in local business as evidenced by their expansion is a good omen.

The success of this town as a buying center hinges on the development of a good business section. It must be on Washington avenue. It is only in the past two years that there has been an indication that this end would be achieved.

Ridding Jersey of An Autocracy

That a county can sit in utter defiance of the State, thumb its nose at the laws passed by the Legislature and in fancy language tell everybody to mind their own business sounds quite different from the democratic system about which there is so much flag waving.

The rest of the country looked askance when in 1937 during the Hudson County ballot investigation attempt the Mayor had the investigators kicked out (and that's not figurative) of the county without getting a glimpse at the poll books which they had been instructed to study by the State Legislature.

And now, as if to emphasize further that autocratic authority, Hudson County bluntly refuses to install voting machines for the election in November.

Mayor Hague's legal puppets have presented to their sire an opinion which they

Big business has started the nucleus around which we believe this center may grow. The Atlantic & Pacific Tea Company's super market was the starter.

While there they look around for other odds and ends so that all of their shopping can be done at one time. This is how other businesses can profit — in the opening of these large stores we see an indirect benefit to a number of smaller businesses.

Sears, Roebuck Co. is a national institution. Perhaps no concern of a similar kind is as well known to as many millions of people as is this great company.

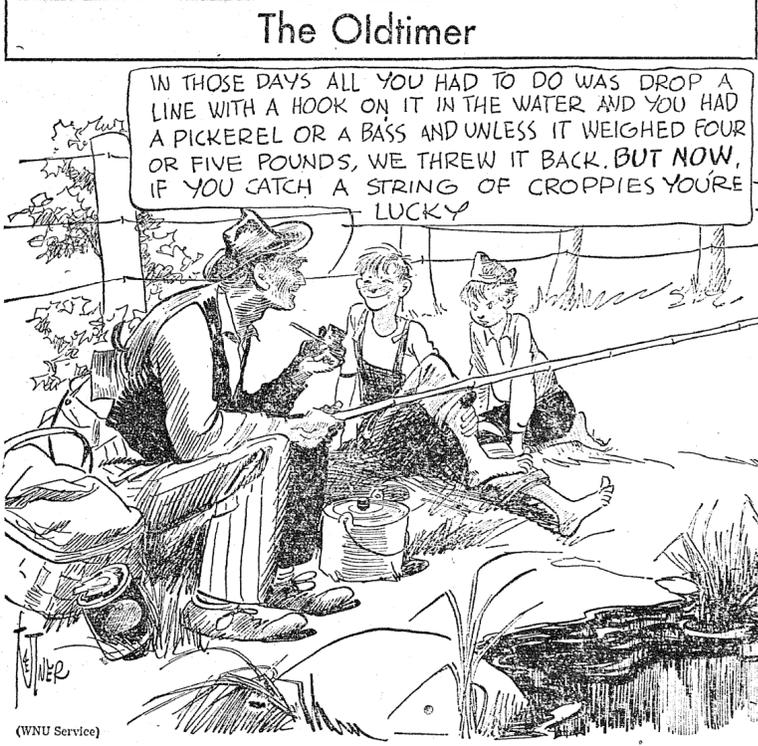

Now, you don't have to order by mail and hope that they will send the right color and size. You can go to the new Sears' store and see for yourself.

believe is foolproof. Hudson is under no obligation to put in voting machines, for the Legislature said that they were to be put into use "on and after September 1," which, so interpret the learned Hudson barristers, can mean anytime between now and the Millennium.

What does Hudson County have to fear from the voting machines? Certainly, it has been proved that they are the means of receiving a more honest count of the vote. They are more practical and economical.

That any part of this state can haughtily defy the rest of it is a breach of everything which we proudly call democratic. This condition should arouse the ire of every thinking voter and send all of them willingly to the polls in November to vote for those who stand opposed to a continuation of these tactics and pledge to do their utmost to wipe them out.

The Republican gubernatorial candidate, Senator Hendrickson, has spoken against this political despotism. We should like to know what Mr. Edison, who is receiving full support of Mr. Hague, thinks of Hudson's defiance, and whether, if elected, he would permit it to continue.

Our Defense

This is the Sixth of a Series Prepared by the National Defense Advisory Commission

Big Guns

In battle the Field Artillery fires its accurate and powerful weapons in support of the main fighting arms, the Infantry and Cavalry. The standbys of the new artillery regiments will be thirty-six new 75 mm. guns and sixteen 155 mm. guns.

If that doesn't seem to do the job, the artilleryman unlimbers the 155 mm. howitzer gun, just twice as big. Then he is prepared to land a 100-pound shell in the enemies' bread basket 10 miles away.

Problems in Gun Production

Production of these guns is no simple task. In order to stand up under the terrific pounding of rapid fire they must be made of the finest steels available. To be accurate the gun barrels must be shaved down on lathes to within fractions of a thousandth of an inch.

In the main, these guns, their recoil mechanisms, and their carriages are built in Government arsenals scattered around the country. These plants are equipped with the necessary special tools, and have the men experienced in manufacture.

Edward R. Stettinius, Jr., in charge of raw materials from the source to the factory, has already determined that there are adequate supplies of all necessary steel ready for use when needed as the program progresses.

To insure an expended supply of manpower the Commission has cooperated on setting up a youth-training program. Under this program, thousands of young men and women throughout the country are attending trade schools this summer, learning the techniques of operating modern machine tools so that they will be ready to step into place on the production lines set up throughout the nation.

Productive Coordination Necessary

Although the Government has arsenals that can turn out shells for the artillery, the vastly expanded army will use far more than they can supply. To take care of expansion, the Army has long had a policy of giving "educational orders." Under these orders, a manufacturing plant usually devoted, let us say to sewing machines, tools up a production line for making 75 mm. high-explosive shell cases.

is already a supply of surplus labor available. As these plants expand their activities a steady supply of materials must reach them, be processed, and flow smoothly along to the shell-loading plants, out the other end, and on to the man who feeds them into the gun.

This calls for tight coordination all along the line, not for today or tomorrow, but looking ahead into next year, so that every time that Joe Smith, of Battery X, Field Artillery, reaches for a shell he will find one of the right kind, ready to be stuffed into his gun.

Feeding the Artillery

Since the men at the guns almost never see their targets, the control of field artillery is conducted from observation posts connected with the batteries by radio or telephone. At the posts, rapid computations are made for aiming the gun, and fire is adjusted to hit enemy targets.

Joe Smith, Artilleryman, unlike his brother John in the infantry, ordinarily does not fight as an individual, nor is his gun fired as a single unit. To make fire effective against moving men or columns, the guns are employed in groups. Over 130 men serve a battery of four guns, firing as a unit and covering a considerable area with a single burst of shells.

Now, in order to keep up with the infantry who are going places in trucks and tanks, the artillery has to be mobile also. It keeps up with horses, trucks, crawlers, and creepers. But that's only the beginning of the problem. For at 75 mm. gun firing at a normal rate during a three-hour battle slaps out some 500 shells, weigh-

ESSEX COUNTY POLITICS

The views expressed in this column, are entirely those of the writer and not necessarily those of the Publishers or Editors of the Belleville News.

by Meedor Wright

The commotion about friction within the Republican ranks in New Jersey is very largely in the nature of a teapot in a teapot. But in these confused times even a teapot tempest can do a lot of injury.

The Ghost of Alf Landon

The real handicap that Willkie faces is the ghost of Alf Landon. Nothing in American political history can match the demoralizing effect of the Landon candidacy on the Republican party.

Always eager to take a slap at the Republican party in general and the Clean Government wing in particular, a Newark daily has been humming like a bum-bee recently about G.O.P. friction in New Jersey.

After a further wait we finally secured transportation in a private car and reached Newark at 9:45. After this experience I used the Garden State line (changing at North Newark) and can testify that the bus I used never varied from its scheduled time more than two or three minutes.

ing over five tons. So to keep the wherewithal handy requires a large truck train. That's easy. Trucks are an item this nation really knows how to produce.

LETTERS

Doesn't Like P. S. Much

From Mrs. Cephas Brainerd 48 Van Houten place To the Editor of The News:

I have been reading with great interest your reports on the efforts, to secure service from the Garden State Line to North Newark — and your editorial in last Thursday's issue.

I am certain the sentiments expressed in the copy of the letter enclosed will be echoed by many other residents of Belleville. (Mrs. Brainerd encloses a letter which she wrote to Town Attorney Keenan last Friday, the day after the conference at the Recreation House.)

"I notice in tonight's paper that if the Utilities Commission again refuses to lift restrictions on the Garden State Line that the Public Service Corporation will be asked to reroute its line through Belleville.

"This prompts me to wonder if the Public Service will maintain a better schedule through Hornblower avenue than it has maintained on Washington avenue. In clear weather the buses run with fair regularity, but the moment bad weather strikes — it seems the drivers go home for their overshoes and forget to come back.

"The day of the ice storm last winter another woman and I waited on the corner of Van Houten place for twenty or twenty-five minutes (starting at about 8:15 a.m.) before a bus appeared — so crowded that it could not take us as passengers and there was no other bus in

Makes Us Feel Good

From Mrs. Thomas Ferguson and Mrs. C. W. Roehm To the Editor of The News:

We wish to thank you for the civic interest you have shown in your efforts to cooperate with the citizens of our town who are anxious to regain the services of the Garden State Bus Line.

Your articles concerning this matter have been very much appreciated by the people who have missed this service since it was curtailed.

We now realize that we have a local newspaper that faces the facts as they are and uses judicial comments when necessary. Your judgment in publishing both sides in a recent political controversy is particularly commendable. It shows a desire to be fair to both political parties and should therefore gain the approval of all fair-minded citizens.

We also feel sure that your readers will enjoy Mr. Duval's sport column which is written in a style that shows his ability for this particular kind of journalism.

We wish the new Belleville News the success it deserves and hope that you will continue to imbue its pages with civic interest which our citizens greatly appreciate.

New Jersey Meets Willkie

My own belief is that New Jersey will go Republican. But Willkie managers cannot be sure of this unless their candidate campaigns here. Robert Hendrickson is not much better as a speaker than the former Governor of Kansas, and W. Warren Barbour is somewhat showpans as a candidate.

Willkie is making a mistake in not coming to New Jersey earlier. He spends much of his time in New York and could have come over to Newark for a meeting before this. Twenty-four hours of intense campaigning in New Jersey during August would have removed New Jersey from the doubtful list. It may take three times that much to do the trick in October.

There can be no doubt but that Charles Edison has done some very effective campaigning. The same appears to be true for James H. R. Cromwell, although one cannot be sure what part curiosity plays in the receptions to the latter. Willkie should carry New Jersey by a hundred thousand votes, but this will depend upon the general trend.

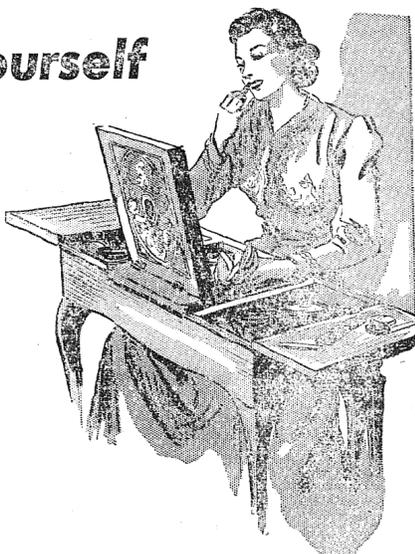

Two Children Hit By Stones

Two children were hit by stones thrown by unknown assailants last week. Robert Ferris, thirteen, of 184 Mill street was struck on Friday while walking near a lot on Mill street. Evelyn McAllister, twelve, of 132 Washington avenue was standing in front of the Capitol Theatre the following night when she was hit.

The Ferris boy was treated by Town Physician Meehan who put a clamp on the wound. The girl also received first aid from Dr. Meehan but no stitches were necessary.

TIME for Yourself

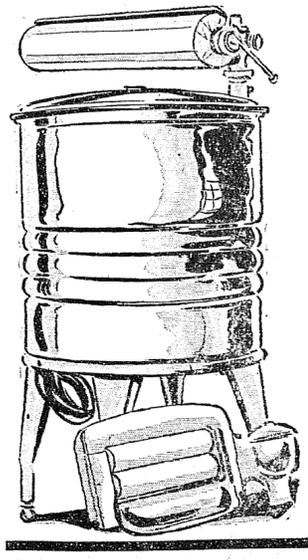

THERE are a thousand things you want to do but there are only twenty-four hours in a day. The solution, then, is to budget your time. That's how clever homemakers accomplish so much and electric laundry equipment can be a big help.

CHOOSE a washer that has a method as gentle as hand washing. You can select one with an ironing attachment which replaces the wringer when it is time to iron or you may prefer an electric ironer that has its own table or one that can be operated on the kitchen table or on a card table. Prices are moderate and payment terms are easy.

Rev. Thomas A. Gillick performed the ceremony. The bride was given in marriage by her father. A reception followed at the Fabio home.

The bride was attired in a white satin gown, sweetheart neck, long sleeves and a train of tulle, in a cap shape held by orange blossoms. She carried a bouquet of white roses and lilies of the valley. Miss Angelina Macaluso of this town who was maid of honor, was attired in a blue crepe gown with a square neckline and shirred waistline with a snood of tulle and carried pink tarosues with delphinium. Joseph A. Paserchia, also of this town, was best man.
